AQUARIUM aquatlantis

B-BOX S

FILTER CARTRIDGES

Filter media available for **BIO FILTER**

Modular Cup S / Cod. 21518

5 607329 215181

COARSE FOAM x2

MECHANICAL FILTRATION

Acts as a mechanical pre-filter, capturing larger particles and debris. To maintain effective filtration, rinse it once a month using water removed from the aquarium.

Recommended replacement
12-20 WEEKS

21404 - Coarse Foam

5 607329 214047

BACT LIFE x2*

BIOLOGICAL FILTRATION

Provides a suitable surface for colonisation by nitrifying bacteria, supporting the biological conversion of ammonia/ammonium and nitrite into nitrate. Recommended replacement: every 16–20 weeks. NOTE: the BACT LIFE and the filter foams must not be replaced at the same time.

Recommended replacement
16-20 WEEKS

21403 - Bact Life

5 607329 214030

PURE WATER x2*

CHEMICAL FILTRATION

Helps keep aquarium water crystal-clear and reduces residual colour, odours, chlorine, chloramines and selected metals. NOTE: During fish medication, this filter media must be removed.

Recommended replacement
4-6 WEEKS

21402 - Pure Water

5 607329 214023

ANTI ALGAE x2*

CHEMICAL FILTRATION

Helps reduce nutrients associated with unwanted algae growth, including phosphates, nitrates and ammonia. NOTE: During fish medication, this filter media must be removed.

Recommended replacement
6-8 WEEKS

21401 - Anti Algae

5 607329 214016

CLEANWATER x2*

CHEMICAL FILTRATION

Multi-action filtration that helps keep aquarium glass and surfaces cleaner for longer. The combination of filter media helps reduce organic matter, phosphates and nitrogen compounds, including nitrates, nitrites and ammonia. NOTE: During fish medication, this filter media must be removed.

Recommended replacement
4-6 WEEKS

21829 - Cleanwater

5 607329 218298

*The thin coating of the filter media acts as a MECHANICAL FILTER for fine particles.

AQUARIUM aquatlantis

B-BOX
FILTER CARTRIDGES

Filter media available for **BIO FILTER ULTRA**

PURE WATER

CHEMICAL FILTRATION

Helps keep aquarium water crystal-clear and reduces residual colour, odours, chlorine, chloramines and selected metals. NOTE: During fish medication, this filter media must be removed.

Recommended replacement
4-6 WEEKS

21410 - Pure Water L

5 607329 214108

CLEANWATER

CHEMICAL FILTRATION

Ultrafiltration which keeps the aquarium glass and surface clean for longer, helping to create ideal conditions for fish. Reduces organic material, absorbs and retains phosphates, nitrates, nitrites and ammonia. Good results after two weeks. NOTE: in the case of fish treatment, this filter media must be removed.

Recommended replacement
4-6 WEEKS

21831 - Cleanwater L

5 607329 218311

ANTI ALGAE

CHEMICAL FILTRATION

Helps reduce nutrients associated with unwanted algae growth, including phosphates, nitrates and ammonia. NOTE: During fish medication, this filter media must be removed.

Recommended replacement
6-8 WEEKS

21409 - Anti Algae L

5 607329 214092

BACT LIFE

BIOLOGICAL FILTRATION

Provides a suitable surface for colonisation by nitrifying bacteria, supporting the biological conversion of ammonia/ammonium and nitrite into nitrate. NOTE: the BACT LIFE and the filter foams must not be replaced at the same time.

Recommended replacement
16-20 WEEKS

21411 - Bact Life L

5 607329 214115

FINE FOAM + COARSE FOAM

MECHANICAL FILTRATION

Set of two foams with different densities for two-stage mechanical filtration, designed for the BIO FILTER ULTRA. The coarse sponge retains larger debris, while the fine sponge captures smaller particles. Rinse both once a month using water taken from the aquarium.

Recommended replacement
12-20 WEEKS

21974 - Fine + Coarse XL

5 607329 219745

21975 - Fine + Coarse XXL

5 607329 219752

The thin coating of the filter media acts as a MECHANICAL FILTER for fine particles, which must be removed after use and composted*.

B-BOX S

FILTER CARTRIDGES

Filter media available for **BIO FILTER**

Modular Cup S / Cod. 21518

5 607329 215181

COARSE FOAM x2

MECHANICAL FILTRATION

Acts as a mechanical pre-filter, capturing larger particles and debris. To maintain effective filtration, rinse it once a month using water removed from the aquarium.

Recommended replacement
12-20 WEEKS

21404 - Coarse Foam

5 607329 214047

BACT LIFE x2*

BIOLOGICAL FILTRATION

Provides a suitable surface for colonisation by nitrifying bacteria, supporting the biological conversion of ammonia/ammonium and nitrite into nitrate. Recommended replacement: every 16–20 weeks. NOTE: the BACT LIFE and the filter foams must not be replaced at the same time.

Recommended replacement
16-20 WEEKS

21403 - Bact Life

5 607329 214030

PURE WATER x2*

CHEMICAL FILTRATION

Helps keep aquarium water crystal-clear and reduces residual colour, odours, chlorine, chloramines and selected metals. NOTE: During fish medication, this filter media must be removed.

Recommended replacement
4-6 WEEKS

21402 - Pure Water

5 607329 214023

ANTI ALGAE x2*

CHEMICAL FILTRATION

Helps reduce nutrients associated with unwanted algae growth, including phosphates, nitrates and ammonia. NOTE: During fish medication, this filter media must be removed.

Recommended replacement
6-8 WEEKS

21401 - Anti Algae

5 607329 214016

CLEANWATER x2*

CHEMICAL FILTRATION

Multi-action filtration that helps keep aquarium glass and surfaces cleaner for longer. The combination of filter media helps reduce organic matter, phosphates and nitrogen compounds, including nitrates, nitrites and ammonia. NOTE: During fish medication, this filter media must be removed.

Recommended replacement
4-6 WEEKS

21829 - Cleanwater

ORI is a Smart Controller, with WiFi technology, developed to manage in a simple and efficient way the equipment of your aquarium/terrarium, with our APP "ORI":

- LED lighting systems, including RGBW - Aquariums
- UV lighting systems - Terrariums
- Management of the useful life of the filter media of Aquatlantis filtration systems.
- Instant display of aquarium temperature.
- Instant display of terrarium temperature and humidity.
- Day / month history

Dimmer- 21712

5 607329 217123

sensitive touch

It adopts capacitive touch technique; the switching and dimming function can be performed by touch; it works with 12-24V LED lighting products with direct drive, such as LED cabinet light, LED rigid bar, LED strip and LED panel light. It can be used as a touch ON/OFF switch. During the dimming process, it does not flicker.

Specification

-Working temperature: -20°C - 60°C
-Working power: DC12-24V
-Max output current: 6A

OUT CONNECTION **1**

001 **11613**

EASY LED CONTROL 1plus is a device which allows the EASY LED and EASY LED UNIVERSAL lighting to have more autonomy, allowing the operation to be programmed. The controller is connected to the power supply and programmed with the times for the lighting to switch on and off. At the scheduled time, the light unit will turn on and off gradually, simulating the effect of the sunrise and the sunset. It also includes a light intensity regulator (0% to 100%).

Input / Output : 12 VDC to 24 VDC, Ø2.1 DC Socket
Max Current: 5A

AQUARIUM aquatlantis

EASY LED CONTROL 2 PLUS

9x3,3x7cm | 0,1Kg

SUNRISE EFFECT **YES**

SUNSET EFFECT **YES**

LIGHT INTENSITY **YES**

STORM FUNCTION **NO**

IN CONNECTION **1**

OUT CONNECTION **2**

001 **11147**

The EASY LED CONTROL 2plus is a device that allows controlling the functioning of diverse light units (up to four). The controller is connected with the lighting power and scheduled with the time to turn on and off. At the scheduled time, the light units will turn on and off very gradually, simulating the sunrise and sunset. The controller allows the lights turned twice daily. It also includes a light intensity regulator (0% to 100%). If there is power failure, the device safeguards the existing settings.

Input/Output: 12VDC to 24VDC, Ø2.1 DC Socket
Input: Max 5A - Output CH1:Max 2.5A / Output CH2:Max 2.5A
