GLOBAL FASHION SUMMIT 2026 · COPENHAGEN

TexPro SOURCING INTELLIGENCE | FF

From Crisis Response to *Systemic* Resilience.

The brands defining 2030 are operationalizing sourcing intelligence today - turning sustainability mandates, fibre volatility, and geopolitical exposure into a single, governable data discipline.

THE 2026 RESILIENCE EQUATION

01 DPP

2027

MANDATE

ESPR-driven Digital Product Passports become enforceable across textiles. Every fibre, facility, and emissions point becomes auditable - or unsellable in the EU.

02 PREMIUM

10-30%

VOLATILITY

Spread on certified organic cotton and recycled polyester versus conventional benchmarks. Margin protection now lives or dies on daily price intelligence.

03 EXPOSURE

5

COUNTRY CONCENTRATION

Five Asian sourcing nations carry the majority of global garment exports. Bangladesh and Vietnam volatility is no longer a tail risk - it is the operating reality.

THE DATA UNDERNEATH

110+	170+	350+	1,000+	100+	40+

INTRODUCING · TEXPRO

TexPro SOURCING INTELLIGENCE | FF

The Operating System for *Resilient* Sourcing.

TexPro is the daily - refreshed intelligence layer behind sustainable sourcing - unifying fibre economics, country risk, carbon attribution, and brand benchmarks into one decision surface.

01 UPDATED DAILY

Sustainable Fibre & Yarn Intelligence

Daily benchmarks on organic, recycled, and certified cotton, polyester, viscose, and wool. Price the green premium before it prices you - and defend margin against volatility.

01 150+ COUNTRIES

Esg Country Index · 150+

Sovereign-level environmental, social, and governance scoring across 150+ sourcing nations. De-risk concentration in Bangladesh, Vietnam, and emerging alternatives with evidence, not instinct.

03 DPP-READY

Energy & Carbon Attribution

Country - level energy mix and emissions intensity for 100+ economies. The audit - grade data substrate your DPP, CSRD, and Scope 3 disclosures will require by 2027.

04 50+ BRAND ROADMAPS

Brand Esg Target Tracker

Decarbonization roadmaps, base years, and 2030/2050 commitments from 50+ leading brands. Benchmark your trajectory, anticipate buyer demands, outpace the median.

WHO USES TEXPRO

NIKE · ZARA · DECKERS BRANDS · H&M · GAP · LACOSTE · asos · lululemon

& Many more...

Resilience is a data discipline.
