Set up and use your Beats Studio Buds

You can listen to music, make phone calls, use Siri, and more with your Beats Studio Buds.

Pair your Beats Studio Buds

Learn how to pair your Beats Studio Buds with your device.

Pair with your iPhone, iPad, or iPod touch

1. Turn on Bluetooth on your iPhone, iPad, or iPod touch.
2. With the case lid open, hold your Beats Studio Buds next to your unlocked iPhone, iPad, or iPod touch.
3. Follow the onscreen instructions. If you don't see any instructions, follow the steps to pair your Beats Studio Buds with another device.

Pair with an Android device

Pair your Beats Studio Buds using the Beats app for Android.

You can also use Fast Pair to pair your Beats Studio Buds with an Android device:

1. Make sure that your phone is using Android 6.0 or higher, and that it has Bluetooth and Location turned on.
2. With the case lid open, hold your Beats Studio Buds near your phone or tablet.
3. When you get a notification, tap "Tap to pair." You'll get a "Device connected" or "Pairing complete" notification.
4. If you need to set up your Beats Studio Buds, tap "Set up now." If you don't get a notification, open the Bluetooth settings on your phone or tablet, and tap the device that you want to pair.

Fast Pair requires your location to be enabled. Full access to features requires an Android 6.0 or newer device with Google Play Services enabled and Google Account.

Pair with your Mac or with another device that uses Bluetooth

1. Turn on Bluetooth on your Mac or other device.
2. With the case lid open, hold your Beats Studio Buds next to your Mac or other device.
3. Press and hold the system button on the charging case until the LED blinks.
4. Open the Bluetooth menu on your Mac or other device. For example, on your Mac, choose Apple menu > System Preferences, then click Bluetooth.
5. In the list of discovered Bluetooth devices, tap or click your Beats Studio Buds.
