Microphone FAQ

If you meet any questions, please feel free to contact us Below are FAQs.

Q: I want to know how to use the wireless mic?

A: So incredibly easy. You just need to plug the receiver into your devices and power on the microphone. Then you can use this wireless microphone directly without App or Bluetooth.

Q: Do I need to download an app or connect bluetooth?

A: No, the wireless lavalier mic and receiver are plug and play,no app or bluetooth is needed.

Q: Is there a way to know when the transmitter is fully charged?

A: Red light always on when Charging by Type-C cable,and the light will turn off when fully charged.

Q: Does the receiver need to be charged?

A: The microphone needs to be charged. The receiver plugs into the phone and doesn't require charging.

Q: How close in proximity do you have to be to the phone?

A:Within 20 meters, it is 65 feet, which can be connected within this distance.

Q: Can 2 lav mics share the same receiver that is plugged into an iPhone or Would it be possible to buy two mic sets and pair both microphones to just one transmitter?

A: No,it is a 1:1 mapping with the supplied transmitter/receiver combo. (one to one connection).Thanks!

Q: Why is the indicator light off when I click the microphone power button?

A: The microphone needs to be fully charged firstly.

Q: The mic doesn't seem to be paired with the receiver, how do I re-pair it?

A: Unplug the receiver and turn off the microphone. Power off and restart the phone, plug in the receiver again, and turn on the microphone.

Q: When I plug this in my iphone I get the "device is not compatible" message? how do I resolve this?

A: Suggest you to upgrade your phone to the latest IOS Version.

Q: Can I use it to make phone calls?

A: It'll not carry audio out for you, the receiver takes over the entire audio pipeline. you can't hear when the other personis talking.

Q: The green light keeps flashing and it doesn't work, what should I do?

A: The microphone has entered the pause state, you need to press the power button again, the green light is always on, you can record.**Q: Why can't the phone hear audio when the receiver is plugged in?**

A: Once it is unplugged you can hear the audio.
