JC Atkinson

Founded in 1936, J.C Atkinson and Sons (JCA) has grown through three generations of family ownership to become the leading independent manufacturer and distributor of coffins, caskets and other related products to the UK funeral market.

The business now employs 150 staff across three UK locations, with the company's products having an outstanding reputation for quality and sustainability across the breadth of the funeral market.
JCA offers the UK's most extensive range of products whether they are traditional, personalised or environmentally sustainable coffins, they are all delivered on short lead times across the country and with a high-quality customer service.

"*We are committed to providing exceptional products, consistently and reliably, by recognising how precious loved ones are.*
Our commitment to you ensures we do everything we can to help at this difficult time. We aim to provide the highest standards of ethically hand-crafted products, while maintaining exceptional levels of quality and customer care.

Our mission is to be the number one provider of competitively priced, superior quality and ethically manufactured coffins and caskets to the UK funeral trade.

Our vision is of a funeral sector that meets the needs of all bereaved families by offering a wide range of choice, exceptional quality, and value for money, responsibly." - Greg Cranfield - Managing Director

CERTIFICATIONS & INITIATIVES

The Forest Stewardship Council®

The Forest Stewardship Council ® **[FSC ®]** is an international, non-governmental organisation dedicated to promoting responsible management of the world's forests. It was founded in 1993 in response to public concern about deforestation and demand for a trustworthy wood-labelling scheme. FSC ® UK is a registered charity. It is supported by NGOs including WWF, Greenpeace and the Woodland Trust.

HEARTWOOD®

A selection of traditional coffins, manufactured using wood-effects, veneers and solid timbers. They are certified by the Forest Stewardship Council for responsible wood sourcing and carry Funeral Furnishing Manufacturer's Association certification, suitable for cremation and burial, offering a wide choice of internal and external fittings. Represented in this catalogue are our more popular models.

Solids - Solid wood coffins, crafted directly from sustainable forest timber, exhibit unique grain patterns and colours. Meticulously made with furniture-grade woods like oak and redwood, they offer various styles, including plain, premium raised lids, deep panel sides, with butt or mitre joints. A luxurious Italian range with hand-carved details is also available, as well as a range of sustainable woodland options.

Veneers - Veneer involves real wood slices on MDF or chipboard, meticulously hand-finished, sealed, and pigmented for wood effects like oak or mahogany. The veneer range is finished and polished by hand. These coffins offer options like plain, raised lids, embossed or engraved panel sides, and other combinations.

Wood Effects - Also known as 'foil' or 'laminate wood,' these coffins imitate specific timber species using MDF or chipboard, many featuring a polished finish achieved by applying a range of printed wood effect paper. The coffins come in various styles, including plain, raised lids, embossed sides, and panels of different depths, with different wood effect options such as light oak, limed oak, elm effect and mahogany. They are considered cost-effective options.

ENGLISH MADE OVAL COFFINS

English Made Coffins are handcrafted with care and thought, providing a beautiful resting place for loved ones. Each coffin comes with a book and one keepsake butterfly (pictured opposite). The book inscription gives the family and friends an opportunity to personalise the coffin. These oval coffins have a more modern minimalist aesthetic, with its organic elliptical shape, plastic free features, and delicate detailing. The charming fiddleback maple is lacquered in a water- based soft sheen finish, bringing out the delicate pearlescent colour and depth of the maple. The Walnut has a soft sheen water-based lacquer emphasising the beautiful, rich, deep brown colour of the black American walnut. Fitted with solid load-bearing bar handles. Gold edge detailing is applied to the base and top of both. All of our coffins come with a pillow and a luxurious liquid poly-satin fabric lining in pearl ivory.

GUARDIAN®

Elegant American-style caskets made from a choice of solid wood or metal with luxurious interiors.

For those wanting exceptional craftsmanship and attention to detail, the Guardian range comes in a variety of colours and finishes including bronze, copper, classic gold and white.

American-style Metal Caskets - Metal caskets are available in various materials such as Precious Metal, Stainless Steel, 18 Gauge Steel, and 20 Gauge Steel. They come in a variety of colours, including bronze, copper, classic gold and white. Each casket is fully furnished with plush linings, fixtures and fittings. They feature long bar handles which are specifically designed for each casket and are only suitable for burial. The caskets have a lockable hinged lid for viewing purposes. Unless specified otherwise, they are suitable for repatriation. Each casket includes a casket key.

American-style Wood Caskets - Wood caskets are made from finely-crafted solid hardwood and veneer. By taking advantage of global sourcing to find premium lumber, they are remarkably beautiful products which appeal to the eye as well as the touch. They come fully furnished with plush linings, fixtures and fittings. Each casket is designed with long bar handles which are specifically crafted for it. The caskets feature a lockable hinged lid for viewing purposes. Each casket includes a casket key.

English Caskets - Traditional English caskets are individually made by a team of dedicated cabinet makers based in the North East of England. All are made using the finest-grade timber such as oak and mahogany veneers, or solid oak and mahogany sourced from well-managed and sustainable forests. They come in a selection of styles, with raised or split statesmen lids, square panels, or single panelled decorative sides, as well as feature corner pillars. They are fitted outside in a variety of nickel or brass fittings and internally to your specification in a selection of colours. They can also be painted a specific colour using a Dulux range.

OASIS WILLOW

Willow canes for these sustainable coffins are sourced from farmed and fast-growing willow fields in rural China. These are available in a light natural colour or chestnut brown. The chestnut colour is produced using a traditional natural dyeing process from a local tree sap. Coffins come in oval or traditional shapes, with rope handles, wooden toggle fastenings, cotton liner, and jute load-bearing handles. They are plastic-free and FFMA certified, with optional engraved wooden plates.

WOOL

Handmade in Pudsey, West Yorkshire, these coffins are crafted using three British wool fleeces, offering a gentle alternative to traditional wooden coffins. They provide a tactile experience and are light enough to be carried by one person. The woollen outer layer is carefully fitted around a cardboard frame, reinforced with an MDF base for stability. These coffins are available in Natural (White) or Limestone (Grey) and feature a soft woollen wadding for the mattress base. They are lined with cotton, edged with jute, and completed with a covered pillow. The exterior is finished with blanket stitch detail, complemented by jute handles and simple wooden toggle fastenings. Each coffin is personalised with an embroidered nameplate (pictured).

BAMBOO

Bamboo used for these sustainable coffins comes from traceable sources in rural North-West Bangladesh. The Bambusa Nutuns variety grows quickly and is known for its strength and usefulness in woven products. It reaches full height in three months but takes three years to mature for harvesting. These coffins are designed to minimise raw material waste, using different parts of the bamboo for handles, weaving, and structure. The handles provide full load-bearing support by running through the base. They come in a traditional shape and can be interwoven with flowers.

CHEQUERED BAMBOO

The bamboo used for these sustainable chequered coffins, crafted with a striking black and white bamboo weave, also comes from traceable sources in rural North-West Bangladesh. The bamboo, known for its strength, grows rapidly, reaching full height in just three months and maturing for harvesting within three years. The distinctive chequered pattern adds a unique aesthetic, while the full load-bearing handles are seamlessly woven through the base for durability. Available in a oval shape, these coffins combine sustainability with style.

SEAGRASS

Local ‘Hogla’ freshwater plants, also popularly known as seagrass, are abundant along riverbanks in the Noakhali district of Bangladesh. Harvested twice a year, they’re sun-dried and woven onto bamboo frames. These coffins come in an oval shape, featuring six jute rope handles, wooden toggle fastenings, and a cotton liner. Handles are woven through the base for full load-bearing support. They are plastic-free and FFMA certified for quality.

WATER HYACINTH & BANANA LEAF

Water Hyacinth is an invasive weed which grows on water surfaces. It needs to be removed to enable fish and other life to thrive in the rivers and ponds. The stems are harvested, dried, and woven around a frame to create beautiful Water Hyacinth coffins. These coffins are fully biodegradable and feature bespoke wood toggle handles and hand-carved wooden screw pegs. They come in traditional or half-round shapes and include an unbleached calico lining. Personalised nameplates and footplates available.

Banana Leaf, sourced from banana plantations is normally just left to rot each year after the banana fruit are harvested. Strips of bark from the banana tree trunk are dried and twisted into fine rope. Woven onto a sturdy timber frame, Banana Leaf Coffins are fully biodegradable. They also feature bespoke wood toggle handles, hand-carved wooden screw pegs, and come in traditional or square shapes. Unbleached calico lining is included, and personalised nameplates and footplates available.

JUTE COFFIN

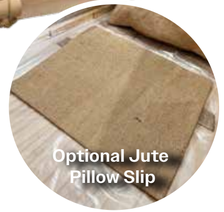

An eco-conscious alternative for those who desire a sustainable farewell. The flat-packed Jute Coffin is a unique and environmentally conscious option for a final resting place. Crafted with a sturdy timber frame, it is elegantly wrapped with premium biodegradable jute fabric, offering an organic and serene aesthetic. Equipped with durable jute straps and bamboo load bearing handles, it offers secure fastening and practicality. Every component, from the biodegradable materials to the flat-packed design for easy storage and transportation, minimises environmental impact. The flat-pack aspect also ensures that the coffin can be quickly and effortlessly assembled in minutes by one person, with no tools needed. A matching Ashes Casket is available (pictured). Reflections®

In addition to our traditional range of coffins and caskets, we are pleased to showcase our Reflections® range of Picture Coffins.

Everyone in life is unique and we believe that a picture coffin should reflect the individual qualities of the departed. Every image tells a story, so it is not surprising that more and more people are opting for a picture coffin when making funeral arrangements. Whether families choose a sporting theme, a landscape or something more abstract, our Reflections design service will guarantee a picture coffin that is truly personal.

Over the next few pages, you will find a small sample of each of the Reflections® themes and suggestions on how you can offer a more personalised coffin. All are FSC accredited and FFMA certified. To see further examples of previous designs, please visit www.picturecoffins.co.uk.

expressions®

With the advent of “Expressions Coffins”, the final resting place has taken a turn towards personalisation and artistry, offering a unique blend of tradition and innovation.

As the name suggests, Expressions Coffins are designed to express the personality, passions and unique traits of a loved one.

Whether it’s a poignant memory, a hobby or a signature style, these coffins can be tailored to represent it all and the possibilities don’t just end there. From the material of the coffin to the textures, the add-ons and the finishes, everything can be chosen and crafted as per individual desires. As we embrace these modern takes on tradition, we find beautiful ways to celebrate life even in the face of loss.

The range includes;

Wood Prints | Glitter | Glitter Panels | Painted | Printed Glitter | Blackboard

EXPRESSIONS PRINT ON WOOD

Thanks to advancements in printing technology, we can now create coffins featuring precious memories printed directly onto wood-effect sides and ends, finished with a flat or raised veneer lid in either natural or limed oak. Whether it's landscapes that were once treasured, beloved personal artwork or evocative photographs, these coffins provide a tactile and lasting memory of the departed. As with a full Picture Coffin, the process is simple: our design team receives a brief; a design proof is shared with the family for approval and within 72 hours of confirmation, the coffin is ready for delivery. *FFMA - 267-000020. EXPRESSIONS PANELS

Personalise any funeral by mixing and matching a range of colour choices, by painting the coffin a particular colour, or leaving it in its natural wood. A glitter or blackboard panel can then be added onto the side panel creating a visually stunning piece of art. The coffin is based on our current Whitby; an oak veneer style coffin with veneered matching moulds and a half round mould on the lid and sides. illumna®

The illumna infant and junior range has been created with great care and consideration and brings together in one place our selection of cribs, cradles, and caskets.

The name illumna comes from a combination of the words ‘alumna’, which is Latin for child or nursling, and ‘illuminate’, to brighten with light or enlighten spiritually. The range encompasses a diverse collection of child coffins, cribs, and cradles meticulously crafted from premium wood, adorned with picturesque designs, and constructed using natural materials.

At this immensely difficult time, we hope the illumna range gives grieving families the information they need in a sensitive fashion to help decide what’s right for them.

The “ASAP” sheet is comprised of a three-ply laminate. The top layer has a white, non-woven fabric made from viscose which ensures rapid absorption, high elasticity and durability - all the while maintaining the feeling of a soft and comfortable surface.

The thin middle layer consists, of SAP (Super Absorbent Polymer) which gives it the ability to absorb greater amounts of liquid.

The bottom layer is 100% bio-degradable bio-film which acts as a barrier against moisture, liquid and penetration. In order to avoid sweat, condensation and moisture, the film is breathable.

Clinical waste collection from J C Atkinson

Every funeral home creates clinical waste; it is an unfortunate by-product of the funeral process. Legislation demands that this waste is collected and disposed of in an approved manner

eCollect is a clinical waste collection and disposal service which is very simple to use...

J C Atkinson will supply our customers with clinical waste sacks, bins and/or skips. The customer will collate their clinical waste in their usual manner and J C Atkinson will collect the waste when we deliver stock coffin orders to them.
