MESSAGE FROM THE CHAIR

As the voice of Oklahoma City's business community, the Greater Oklahoma City Chamber aims to engage with our state legislators and other local, state and nationally elected officials to promote pro-business policies and economic development within our city and region. We accomplish this through cooperation and collaboration among our various stakeholders, including you, our members.

This past year, the Greater Oklahoma City region witnessed a surge of economic development activity and announcements, many of which would not have come to fruition if not for the purposeful and intentional engagement by your Chamber's government relations team working alongside our elected officials in Oklahoma City and Washington. This kind of engagement needs participation from all our stakeholders so that we can continue the momentum our city and state have experienced in recent times. That is why it so critical that you join us this upcoming legislative session as we continue to strengthen existing relationships and forge new ones. The viability and continued growth of our respective business sectors depends on it.

To help you in your interactions with those elected officials, the Chamber is providing you with this 2024 Public Policy Guide. This publication contains pertinent and up-to-date information at your fingertips. Please use this valuable resource to help make your voice heard on issues that matter most to you and your business.

If the Chamber can be of any other assistance to you during this upcoming legislative session, please let us know.

A handwritten signature in blue ink that reads "Teresa Rose". The signature is fluid and cursive, with a long, sweeping underline.

TERESA ROSE, JD

Chair, Greater Oklahoma City Chamber
Executive Director, Communities Foundation of Oklahoma

BE A BUSINESS ADVOCATE

BUSINESS ADVOCACY CENTER

The Chamber's Business Advocacy Center located at OKCBusinessAdvocate.com makes staying informed simple. With just a few clicks, you can stay up-to-date during the legislative session by signing up for The Business Advocate, the Chamber's newsletter informing you on key developments at the Capitol during the legislative session. You can also find contact information for your elected officials so that you can make your voice heard on the issues that matter most to the business community. Together, we can build a stronger business climate for the Oklahoma City region.

GOVERNMENT RELATIONS TEAM

Throughout the year, the Chamber's government relations team works proactively to ensure the Oklahoma City region is moving forward and growing stronger. The Chamber is the voice of business in Greater Oklahoma City, and advocates at all levels of government to achieve our pro-business public policy agenda. The Chamber staff is always available to assist your business in any way possible.

STATE ISSUES

2024 PUBLIC POLICY PRIORITIES

COUNTY GOVERNMENT REFORM

The Chamber supports empowering Oklahoma counties to alter their form of government to meet their unique needs.

WORKERS' COMP REFORM

The Chamber supports defending and improving the comprehensive workers' compensation reform legislation enacted during the 2013 session.

ECONOMIC DEVELOPMENT PROGRAMS

The Chamber supports retaining and strengthening the state's premier economic/community development programs which are critical in attracting new businesses to the state, assisting existing companies to expand and encouraging investment in communities across the state. Following are the key programs the Chamber will seek to protect and improve:

- Quality Jobs Act, 21st Century QJA, Small Employer QJA and the Prime Contractor QJA
- Aerospace Engineer Tax Credit
- Investment/New Jobs Tax Credit
- Historical Building Rehabilitation Tax Credit
- Cybersecurity/Software Engineer Tax Credit
- Five-year Ad Valorem Abatement and Sales Tax Exemption for Manufacturing Facilities
- Regional Home Office Insurance Premium Tax Credit
- Tourism Development Act
- Filmed in Oklahoma Act

The Chamber will support efforts to reinstate the Tax Credit for Energy Efficient Homes and oppose efforts to amend the state's Low Income Housing Tax Credit in a way that would deter investment in affordable housing.

The Chamber will support incentives and other state support to maximize opportunities for public and private investment in research and development, including Oklahoma businesses

participating in joint research with Oklahoma's public research institutions.

TAX REFORM

The Chamber supports reforming the tax code to better incentivize companies to locate/invest in Oklahoma.

TIF DISTRICTS

The Chamber supports protecting current state law on Tax Increment Finance Districts to ensure the continued viability of this economic development tool.

BROADBAND/DATA PRIVACY

The Chamber supports:

- Protecting Oklahoma's pro-investment environment to facilitate the development of telecommunication infrastructure.
- Removing barriers to broadband access in Oklahoma such as ensuring providers are reasonably charged for the use of the public rights of way and facilities within the rights of way.
- Working with stakeholders to adopt common sense protections regarding data privacy.
- Enacting comprehensive federal data privacy legislation to avoid burdensome, complex and conflicting state requirements for providers.

ARTIFICIAL INTELLIGENCE

Artificial Intelligence technologies hold immense potential to revolutionize various industries by implementing advancements that can improve business efficiencies and our quality of life. Embracing this transformative technology requires a balanced approach. Oklahoma should foster a supportive environment that both safeguards our fundamental rights and catalyzes the innovation, development and adoption of AI while encouraging a federal solution.

LEGAL REFORM

The Chamber supports placing a reasonable cap on non-economic damages in personal injury lawsuits.

ADVANCED AIR MOBILITY

The Chamber supports the development of Advanced Air Mobility in OKC and the state, through public/private partnerships, including adequate funding of utility and power requirements necessary for the implementation of safe and reliable autonomous air vehicles (passenger/cargo).

INCENTIVE EVALUATION COMMISSION

The Chamber supports the Oklahoma Incentive Evaluation Commission, which was established to make recommendations to the Legislature and governor on which incentive programs are serving their intended purpose and creating economic/community development. If an incentive program cannot show a positive return to the state, it should be scaled back or repealed.

BUSINESS IMPROVEMENT DISTRICTS

The Chamber supports protecting the current form of business improvement districts as established in 11 OK Stat § 11-39-101 (2014). The continued viability and effectiveness of these districts is critical to current and future economic development efforts in Oklahoma municipalities.

WIND SUBSIDIES

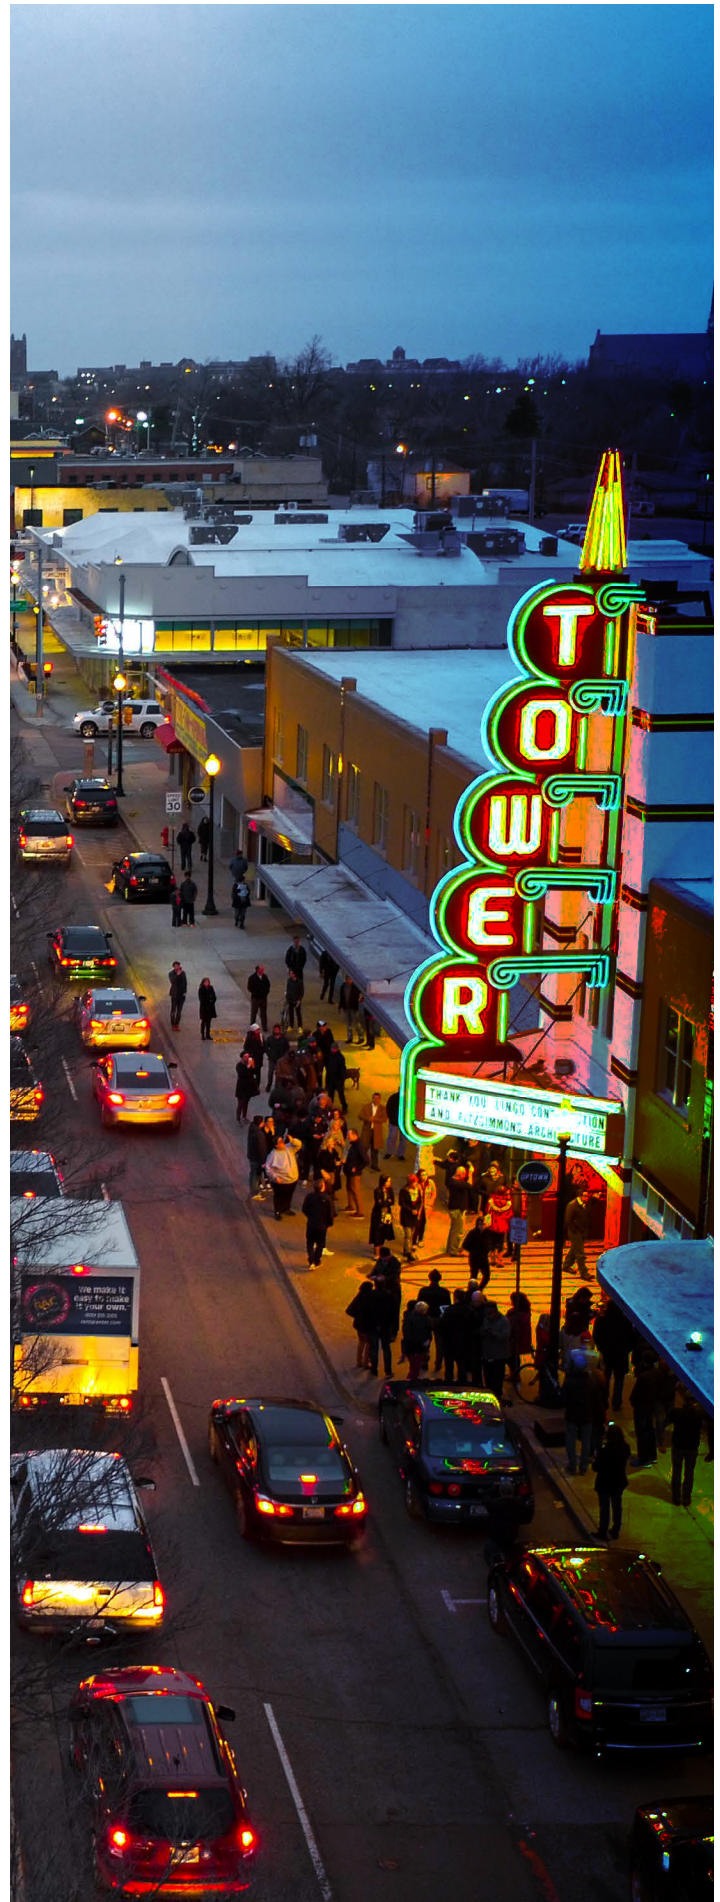

The Chamber supports ending the Manufacturer's Sales Tax Exemption for new wind facilities and requiring the Zero-Emissions Tax Credit to be claimed only as a credit (and not as a refund).

GUN LEGISLATION

The Chamber supports the 2nd Amendment to the U.S. Constitution and the responsible expansion of gun-owner's rights in Oklahoma. However, the Chamber will oppose legislation that would allow open/concealed carry of guns into local athletic and high-economic impact events (many of which are required by contract to prohibit weapons), including horse shows, the Oklahoma State Fair, Olympic Qualifiers on the Oklahoma River, high school and collegiate sporting events.

The Chamber will oppose legislation to allow guns to be carried on college campuses, as well as legislation to prohibit state and local governments from contracting with companies based upon the company's position on firearms.

The Chamber will lead the efforts of the "Oklahomans for Business and Property Owners' Rights" coalition to defend against harmful gun legislation and work with the National Rifle

Association, the Oklahoma Second Amendment Association and other stakeholders to improve and clarify existing gun laws while, at the same time, ensuring the protection of property rights and public safety.

CRIMINAL JUSTICE/SENTENCING REFORM

The Chamber supports legislation and funding for sentencing reforms and rehabilitation programs to ease the financial drain on Oklahoma's criminal justice system, lessen the burden on jails and prisons throughout the state and allow nonviolent offenders to enter the workforce more quickly.

The Chamber supports full funding for the County Community Safety Investment Fund, managed by the Department of Mental Health and Substance Abuse Services pursuant to the terms of SB 844 (2023) and State Questions 780 and 781 (2016).

The Chamber also supports: 1) continuing smart sentencing reform; 2) improving bail and jail practices; 3) making reentry and supervision improvements to reduce fines and fees, enhance workforce opportunities and increase public safety; and 4) securing additional treatment funding.

MARIJUANA

The Chamber supports additional legislation to address issues related to the state's marijuana industry, including: 1) unlicensed growers/black market sales; 2) illegal land purchases; 3) damaging use of pesticides; and 4) uncontrolled water use.

PENSION REFORM

The Chamber supports protecting the pension reforms which have improved the long-term fiscal condition of the state.

WATER

The Chamber will work with the governor, state Legislature, City of OKC and other stakeholders to ensure the availability of a long-term water supply for central Oklahoma.

OIL & GAS TAX

The Chamber supports a stable oil and gas tax structure which promotes the investment of drilling capital in Oklahoma.

TOBACCO SETTLEMENT ENDOWMENT TRUST (TSET)

The Chamber supports the constitutional provisions of the

Tobacco Settlement Endowment Trust (TSET) to support the public health of Oklahomans.

TREATMENT OF LIMITED CONDITIONS BY PHARMACISTS

The Chamber supports building upon successful efforts by pharmacists during the pandemic to evaluate and initiate treatment for COVID-19 by permitting them to also evaluate and initiate treatment for conditions such as flu, strep, UTI, athlete's foot, pink eye and head lice.

FEDERAL ISSUES

CONGRESSIONALLY DIRECTED SPENDING REQUESTS/ APPROPRIATIONS/FEDERAL GRANTS

The Chamber will collaborate with our Congressional delegation to aggressively pursue Congressionally Directed Spending requests, federal appropriations and federal grants related to the Chamber's (and its member/partner organizations) economic development, transportation/infrastructure, aerospace/defense, education, healthcare, criminal justice and other priorities.

ARTIFICIAL INTELLIGENCE

Artificial Intelligence technologies hold immense potential to revolutionize various industries by implementing advancements that can improve business efficiencies and our quality of life. Embracing this transformative technology requires a balanced approach that fosters a supportive environment that safeguards our fundamental rights and catalyzes the innovation, development and adoption of AI. A federal solution is critical for the United States to remain at the forefront of technological innovation to ensure a secure and prosperous future for all.

IMMIGRATION REFORM

The Chamber supports federal immigration reform to secure the borders and establish reasonable and effective visa policies/procedures to attract essential workers to the United States.

SECURE AND FAIR ENFORCEMENT BANKING (SAFE) ACT

The Chamber supports federal legislation allowing banks to provide financial services to marijuana businesses.

STATE ISSUES

2024 EDUCATION AND WORKFORCE DEVELOPMENT PRIORITIES

EARLY CHILDHOOD CARE AND EDUCATION

Having access to high-quality early childhood care and education programs encourages parental/guardian employment, which creates more economic security and better opportunities for families. The Chamber recognizes that finding solutions to ongoing childcare needs will require collaboration with federal, state and local governments, business and industry, philanthropic and nonprofit community and education providers. The Chamber steadfastly supports early childhood education, birth to eight years old, and full funding of pre-K and kindergarten programs. Targeted spending on our youngest children is simply a smart investment.

LONG-TERM, STRATEGIC EDUCATION FUNDING

The Chamber supports development of a long-term, strategic plan that will enable improvement in classroom teaching and academic performance. This should include increasing the minimum number of instructional hours, currently 1,080 hours, required for a complete school year. We also support ongoing funding to enable schools to achieve targeted classroom sizes.

TEACHER PREPARATION, RECRUITMENT AND RETENTION

Oklahoma has a teacher shortage. Oklahoma needs to improve our teacher preparation pipeline systems to train, attract and retain more high-quality teachers. We support legislation to:

- Reward teacher performance and experience.
- Incentivize teachers to work in high priority areas and receive training to help them prepare for challenges facing

students such as being English language learners, living in high poverty and from urban areas.

- Support specialized “grow-your-own” training initiatives such as the OKCPS Foundation Bilingual & Diversity Teacher Pipeline program (supported by UCO, OCCC, Rose State and OSU-OKC) and UCO’s Urban Teacher Preparation Academy.
- Implement teacher retention and mentor teacher programs.
- Support continued investment in the “Inspired to Teach” scholarship and incentive program.
- Increase access to STEM education and training opportunities.
- Support adjustments to the teacher retirement system and other strategies that help encourage retention and re-entry of experienced teachers and educators.
- Encourage development of programs that encourage students to pursue teaching as a profession. This should include increased public relations and advertising campaigns to recruit teachers. It may also include various programs that offer students tutoring experience, such as Oklahoma’s Math Tutoring Corps, Educators Rising and Teach For America’s Ignite Fellowship.

ADJUNCT, ALTERNATIVE AND EMERGENCY CERTIFIED TEACHERS

The Chamber recognizes the need for Adjunct, Alternative and Emergency certified teachers will continue to increase. We support efforts to increase retention and make sure these teachers are as prepared as possible and as quickly as possible. We support:

- Alternative pathways such as Teach for America that enhance the diversity of the teaching profession.
- Educator Prep Programs (EPP) that offer micro-credentials for individuals seeking alternative teacher certifications.
- Providing additional pre- and post-school year pathway preparation programs that comprehensively prepare teachers who meet state requirements.
- Implementing incentives, such as stipends, scholarships or salary grade adjustments, to increase completion of comprehensive professional development and reduce the timeframe it takes to complete comprehensive professional development.

ATTRACT AND DEVELOP HIGH-PERFORMING SCHOOL LEADERS

Top-notch school leadership by school superintendents and principals is critical to school performance, teacher retention and school culture. The Chamber supports the creation and implementation of initiatives that attract, retain and develop innovative and high-performing school leaders.

LONGITUDINAL DATA SYSTEM

The business community encourages the development and implementation of a new Pre-K to 20 longitudinal data system that will measure performance and progress. A working system would measure the progress, challenges and success of our education systems from early childhood through higher education and into employment. Accurate data would enhance critical programmatic and funding decisions.

POST PANDEMIC LEARNING LOSS

The Chamber acknowledges challenges of the pandemic, including remote learning and technology access, led to learning loss for many students. We know that prior to the pandemic not enough students were achieving advanced or proficient test scores, and recent test scores indicate an even lower performance. The Chamber supports providing additional and enhanced learning opportunities that utilize recognized best practices. We believe it is important to help students catch up by having more time on tasks, including longer school days and additional instruction days.

MENTAL HEALTH NEEDS

Oklahoma students at all levels face a high level of Adverse Childhood Experiences (ACEs). We support initiatives to address the mental and behavioral health of students and all school personnel.

PUBLIC CHARTER SCHOOLS

The Chamber supports charter schools and education choices. Charter schools are public schools and are required to adhere to Oklahoma statutes and performance standards. We support

creating high-quality charter schools and enabling successful charter schools to grow. This includes online charter schools, schools designed to meet the needs of targeted underserved populations or schools that provide specific curriculum.

We support ensuring that all public schools are funded equitably and that charter schools have access to funding for infrastructure and facilities.

OKLAHOMA SCHOOL OF SCIENCE AND MATHEMATICS

The Oklahoma School of Science and Mathematics (OSSM) has consistently ranked among the nation's top public high schools. More than half of OSSM graduates stay in Oklahoma, and 85% are choosing STEM careers. Provided the OSSM Board and administration continue to focus on implementing effective policies, procedures and safeguards to improve the school culture, and ensure OSSM is a safe place for all students, faculty and staff, the Chamber will continue to support full funding for the OSSM budget.

SPECIALTY SCHOOLS

We support state funding for schools that target the specific needs of students experiencing homelessness. This includes schools like Positive Tomorrows, a private nonprofit school in Oklahoma City exclusively serving students in need of housing support with services that help stabilize their families, bring the students up to grade level and prepare them for success in public school.

SCHOOL AND CAMPUS SAFETY

The Chamber will oppose legislation to permit carrying of firearms at early childhood, pre-K-12, colleges and CareerTech facilities. We will oppose efforts to remove or replace the ability of CareerTech and higher education institutions to regulate firearms on campus. The business community recognizes that national events have created increasing concerns about school safety and that additional protection may require additional funding.

TEACHER WELLNESS AND HEALTH

We believe our schools should provide a safe and healthy work and learning environment. This includes enabling schools to prevent spread of illness and minimize teacher absences by encouraging all school personnel to take precautionary steps, including getting vaccinated.

CONCURRENT ENROLLMENT & WORK-BASED LEARNING

The Chamber recognizes the excellent learning opportunities offered at our four-year universities, community colleges and CareerTechs. Students should be allowed and encouraged to begin pursuit of a degree or certification while still in high school. They reduce the amount of time it takes to complete a degree

or certificate at a post-secondary institution, which reduces costs and speeds entry into the workforce. We support fully funding tuition, books and fees for seniors and juniors as funding is available. We also support efforts to increase work-based learning opportunities that prepare individuals for careers.

HIGHER EDUCATION – REFORM AND INVESTMENT

The Chamber recognizes a high-quality higher education system is critical to economic growth. Oklahoma City continues to struggle with meeting the workforce needs of its employers, particularly in Critical Occupations (as defined by www.oklahomaworks.gov/criticaloccupations). The business community, governments and higher education continue to face financial challenges. We all must be innovative and flexible to meet the needs of customers and achieve our mission. This includes development of partnerships that produce tech transfer and research partnerships to generate private, federal and foundation revenue.

We urge the higher education system to pursue significant reform to better meet employer needs. The business community supports the following reforms:

- Higher education funding directed to producing graduates with degrees in Critical Occupations such as engineering, nursing and IT/software/cybersecurity.
- Increased accountability and annual metrics that motivate institutions to increase the number of graduates by requiring timely reporting of degrees produced in Critical Occupations.
- Innovative approaches to curriculum and degree offerings, including ongoing analysis of in-demand degree programs and creation of non-degree programs/certificates that create a workforce with needed skills.
- Efforts to maximize funding through consolidation and sharing of services, programs and instructors.
- New partnerships between four-year institutions, CareerTechs and community colleges that enable schools to share resources, staff and facilities.

WORKFORCE/ADULT LEARNING

Oklahoma's workforce has many people who have started college but have not earned degrees. The state also has many individuals who need additional skills or training to meet employers' needs. The Chamber supports new programs and fiscal solutions to support adult learners' ability to upskill and complete degrees.

HIGHER EDUCATION – EQUAL OPPORTUNITY EDUCATION SCHOLARSHIP TAX CREDIT

To increase the college-educated workforce in the state, the Chamber supports the expansion of the Oklahoma Equal Opportunity Education Scholarship tax credit for needs-based scholarships to eligible public college students. This expansion would generate funding for scholarships by providing tax credits to individuals and businesses who make donations to higher education foundations that provide scholarships.

OSRHE FUNDING FORMULA

The Chamber supports re-examining current funding formulas and metrics to provide equitable base funding for public higher education institutions from the Oklahoma State Regents of Higher Education.

OKLAHOMA'S PROMISE

Oklahoma's Promise is one of the nation's most successful college access programs. We oppose legislation that would diminish the program's focus on college access. We support efforts to increase the number of college graduates and continued direct allocation of state funds, which ensures full funding of scholarships earned by Oklahoma students.

CAREER TECH – BUSINESS AND INDUSTRY TRAINING

The Oklahoma CareerTech system is acknowledged as one of the top systems in the nation. CareerTech is a key ingredient in attracting industry to Oklahoma through its Training for Industry Program (TIP). The Chamber supports funding to assure training needs for new and existing industry. The business community urges the system to focus on producing a workforce that can meet the needs of in demand and Critical Occupations.

CAREER READINESS AND CERTIFICATION

The Chamber believes the Oklahoma workforce needs more opportunities to earn post-secondary education, including certifications, degrees, licenses and other training targeting skills that are in demand and meet industry needs.

- We support key scholarship programs: Oklahoma Tuition Equalization Grants (OTEG) and Oklahoma Tuition Aid Grants (OTAG).
- We support concurrent enrollment that enables more students enter college and complete a college degree.
- We support development of work-based learning opportunities such as internships and apprenticeship programs.

FEDERAL ISSUES

HELPING STUDENTS PAY FOR HIGHER EDUCATION

The Chamber recognizes that students need financial resources to complete post-secondary education. We support:

- **FAFSA Completion:** The Chamber supports efforts to increase the number of students who complete the Free Application for Federal Student Aid (FAFSA) because it helps students learn about how to pay for higher education.
- **Pell Grants and TRIO:** The Chamber supports continued availability of Pell Grants to help students pay for higher education. We also support federally funded TRIO grants that help disadvantaged individuals prepare for and succeed

in higher education.

- **Farm and Small Business Exemptions:** The Chamber supports efforts to help students who are from families who are farmers or small business owners maximize the eligibility for federal financial support to pay for higher education.

REMOVING RED TAPE FOR CHILD NUTRITION

The Greater Oklahoma City Chamber recognizes that federal nutrition programs play a key role in keeping children in the Oklahoma City metro fed. The Child Nutrition Reauthorization Act has not been updated in more than a decade. The Chamber supports the reauthorization of this act to better serve the children of the Oklahoma City community.

STATE ISSUES

2024 HEALTH CARE PRIORITIES

MEDICAID REFORM

As the state continues to improve health outcomes and modernize payment models to incentivize value within the state's Medicaid system, the Chamber supports implementation of the state's Medicaid Managed Care Model. We further believe this model is the most effective means to address the state's total health care needs on a systemwide basis.

The Chamber supports protecting the current Medicaid supplemental payments or equivalent programs to our state's medical schools and their hospital partners to ensure uninterrupted funding for medical education and the other unique services each provide.

INSURE OKLAHOMA

The Chamber supports continued efforts to protect, preserve and further improve Employer Sponsored Insurance (ESI) offered under the state's Insure Oklahoma program.

RESEARCH AND DEVELOPMENT

The Chamber supports efforts to foster an environment that is conducive to further research and will oppose efforts to unreasonably restrict the continued development of the state's bioscience and research programs.

OKLAHOMA CITY COUNTY HEALTH DEPARTMENT

The Chamber supports local public health efforts/responses and, therefore, supports protecting the independence of the Oklahoma City County Health Department.

WORKPLACE VIOLENCE

The Chamber supports maintaining continued focus on protecting Oklahoma's medical workforce that is facing increased incidences of violence in the workplace.

VACCINE MANDATES

The Chamber supports allowing each company/business to determine whether to mandate vaccinations for its employees.

HEALTH CARE MANDATES

The Chamber opposes new health insurance mandates and liabilities that will undermine an employer's ability to provide quality health insurance at a reasonable cost to employees.

The Chamber further opposes new mandates being placed on physicians, hospitals and providers that will increase the cost of providing quality health care in Oklahoma.

SINGLE-PAYER HEALTH CARE

The Chamber supports improving health care quality, access and affordability without imposing new mandates and/or taxes on business. Therefore, the Chamber opposes a single-payer government-run/public option or health care system with excessive government mandates.

PAID FAMILY AND MEDICAL LEAVE

The Chamber opposes a state-mandated and/or state-run paid family and medical leave program of any kind imposed on Oklahoma employers.

NETWORK PROTECTION

The Chamber opposes legislation, restrictions, regulations and taxes which would eliminate the incentive for medical providers to contract with managed care networks and, as a result, potentially frustrate efforts at cost and quality control and ultimately deny consumers the benefits of cost-reducing arrangements with providers.

The Chamber further opposes legislation that would interfere with an employer's ability to offer affordable health benefits due to a reduced ability to control benefit plans relating to prescription drugs.

EMPLOYEE RETIREMENT INSURANCE SECURITY ACT (ERISA) PROTECTIONS

The Chamber opposes legislative efforts to undermine federal ERISA protections.

MEDICAL EDUCATION FUNDING

The Chamber supports maintaining physician training funding for the state's two largest medical schools in the base budgets of the University Hospitals Authority and Oklahoma State University Medical Authority.

PHYSICIAN AND NURSING SHORTAGE/RURAL AND UNDERSERVED ACCESS

The Chamber supports the following initiatives to address health care disparities: 1) incentivizing the recruitment and retention of primary care physicians, specialty physicians, mental health professionals and allied health professionals in rural, underserved and other areas; 2) expanding residency programs for the state's medical schools; and 3) strengthening the health care workforce by expanding programs that train medical professionals. The Chamber supports efforts to identify new public funding streams dedicated to these initiatives.

The Chamber also supports the appropriate expansion of existing technology platforms, such as telemedicine and telehealth, and data platforms to enhance access to health care for Oklahomans.

The Chamber supports Oklahoma's participation in medical compacts to improve access to high-quality health care.

TOBACCO SETTLEMENT ENDOWMENT TRUST (TSET)

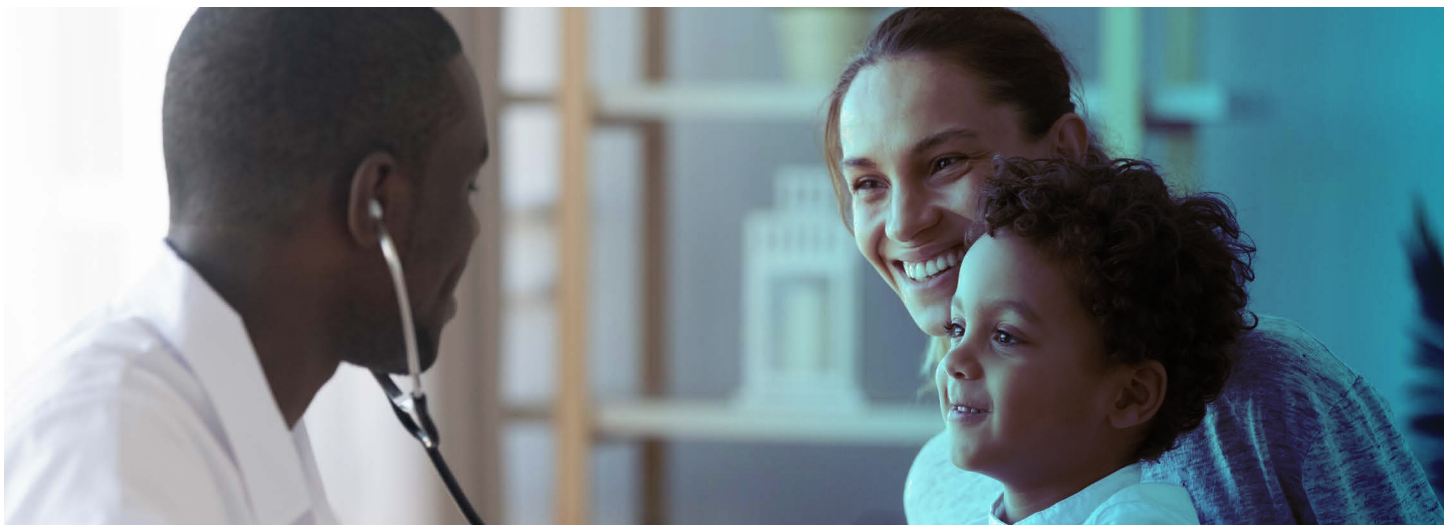

The Chamber supports the constitutional provisions of the Tobacco Settlement Endowment Trust (TSET) to support the public health of Oklahomans.

APPROPRIATIONS SUPPORT OF COMMUNITY HEALTH CENTERS

The Chamber supports adequate state funding for community health centers to provide quality health care to underserved Oklahomans, prevent cost shifting to other entities and maintain a healthy workforce for Oklahoma's employers.

HEALTH CARE FUNDING

The Chamber supports protecting existing public health care revenue streams and opposes cuts to the state Medicaid budget that would increase the burden of uncompensated care and shift costs to employers and health care providers.

The Chamber further supports a stable funding and tax structure for the health care industry to promote optimal care delivery and innovation.

CHILD CARE

The Chamber supports targeted policies designed to increase availability of non-mandated, high-quality childcare options to help generate increased workforce development.

WELLNESS INITIATIVES

The Chamber supports the following state and local initiatives, including wellness, disease prevention and care programs, that serve to improve the physical, behavioral and mental health of Oklahoma citizens: tobacco prevention programs; efforts to mitigate the harmful health effects of e-cigarettes/vaping; public outreach initiatives; efforts to address health disparities; and workplace and school-based wellness initiatives, including health education and healthy eating programs.

PREVENTION OF DISEASE

The Chamber recognizes the detrimental impact of chronic and communicable diseases (including substance use disorder) on the quality of life for Oklahoma's residents and the severe economic costs they impose on health care providers and employers. Therefore, the Chamber will support efforts by the state's elected officials, medical research and public health communities to develop avenues to successfully prevent and combat congenital, chronic, pandemic and communicable diseases.

CLEAN INDOOR AIR

The Chamber supports legislation to make all indoor areas smoke free as well as legislation to remove smokers, on a non-medical basis, as a protected class in state employment law.

FEDERAL ISSUES

SINGLE-PAYER HEALTH CARE

The Chamber supports improving health care quality, access and affordability without imposing new mandates and/or taxes on business. Therefore, the Chamber opposes a single-payer government-run/public option or health care system with excessive government mandates.

EMPLOYER-DRIVEN MARKET REFORMS

The Chamber believes that employers drive innovation in health benefits and supports market-driven health reforms as the best approach to reducing costs while promoting market stability, efficiency, wellness and quality of care.

MEDICAID CUTS

The Chamber opposes Medicaid cuts that would place increased pressure on reimbursement rates, negatively impact the adequate delivery of critical services to the most vulnerable, exacerbate an already high administrative burden for health care businesses and shift the increased burden of uncompensated care to employers and health care providers.

RESEARCH AND DEVELOPMENT

The Chamber supports efforts to foster a federal policy environment that is conducive to further research and will oppose efforts to unreasonably restrict the continued development of national bioscience and research programs.

STATE ISSUES

2024 TRANSPORTATION PRIORITIES

MAJOR PROJECTS

The Chamber supports a continued focus on improvements, mobility and traffic management on the urban Oklahoma City interstate system (I-35, I-44, I-40, I-235) to promote economic development and, therefore, will advocate for full funding and timely completion of work on the following major interchanges/projects:

- I-240/I-35 (Crossroads Interchange).
- Major I-35 corridor improvements from 63rd Street NE/I-44 Interchange north to Waterloo Road, to include the Turner Turnpike Interchange.
- I-44/I-40 (K Interchange/Near State Fairgrounds) West to MacArthur on I-40
- In support of U.S. Air Force mission critical growth and expansion objectives at Tinker Air Force Base, necessary improvements including increased access at Douglas Boulevard, and expansion of I-40 facility to six lanes from Douglas Boulevard to Shawnee.
- I-35/I-40 Dallas Junction and I-35 (including Oklahoma River bridges)
- Future development of I-44 corridor from I-40 to SH-62, including SH 152/Airport Road, (southwest OKC to Newcastle) to better provide for future mobility needs due to ongoing commercial expansion.
- I-35 corridor assessment to address growth on I-35 from the Red River north to the Oklahoma River

REGIONAL FOCUS

The Chamber supports the ODOT/OTA regional transportation focus with the strategic objective of identifying, maximizing, preserving and protecting existing transportation assets. The

Chamber further supports this study's ultimate strategic goal to create additional transportation capacity to protect and maximize the integrity of the entire regional transportation system to meet the continued dynamic population growth trends and resulting increased traffic loads in our region.

STATE TURNPIKE PLAN

The Chamber supports the 15-year, \$5 billion Advancing and Connecting Communities and Economies Safely Statewide (ACCESS) Oklahoma Plan to develop a highly effective and viable state turnpike system, including construction of new access points at appropriate locations across Oklahoma to enhance safety and access, and promote economic development.

As part of this long-range plan, the Chamber specifically supports improvements to the following existing high-speed facilities:

- Widening the Turner Turnpike, as an innovation corridor, to six lanes connecting Oklahoma City to Tulsa, the state's two largest population centers.
- John Kilpatrick Turnpike widening from I-40 to I-35.

As well as construction of the following new alignment high-speed expressway facilities in the Oklahoma City region and associated improvements:

- Outer Loop: East West Connector, expanding mobility of south Oklahoma City.
- Outer Loop: Tri-City Connector, to increase access and offer alternative routes from I-40 to I-44 and, ultimately, I-35.
- South Extension: End connector south to I-35 south of Norman.

The Chamber supports the Oklahoma Turnpike Authority's (OTA) conversion to a cashless toll system that will serve to enhance safety, increase travel time reliability, allow passage of high/wide loads and create additional interchanges such as I-44/Wellston, OK; I-44/Amber, OK; and John Kilpatrick Turnpike/County Line Road to access communities and generate economic development.

ODOT EIGHT-YEAR PLAN

The Chamber supports providing adequate annual dedicated funding necessary to preserve and implement the Oklahoma Department of Transportation's eight-year construction work plan. Furthermore, the Chamber will strongly oppose any effort to divert dedicated transportation funding to other areas of government.

ROADS FUND

The Chamber supports raising the cap on the Rebuilding Oklahoma Access and Driver Safety (ROADS) Fund, the key funding mechanism for ODOT's Eight-Year Plan, to combat ongoing inflation and reduced purchasing power for materials, manpower and maintenance.

NATIONALLY RANKED BRIDGE PROGRAM

The Chamber supports providing adequate annual dedicated funding for ODOT to maintain continued investment toward addressing Oklahoma's structurally deficient bridges on the state's highway system and further enable ODOT to maintain a nationally leading bridge improvement program.

SUSTAINABLE FUNDING

To address the declining transportation revenues associated with fuel tax, the Chamber supports the research and development of sustainable and equitable funding alternatives, including concepts of a Fair Miles Pilot, as envisioned by House Bill 1712, tailored to Oklahoma's future needs, in support of transportation infrastructure.

INFRASTRUCTURE TAX

The Chamber opposes legislation to place disproportionate taxes or unnecessary regulations on infrastructure/materials/construction that would have a negative impact on Chamber-supported transportation projects and economic development.

U.S. 412 INTERSTATE DESIGNATION

The Chamber supports the recent federal designation of U.S. Route 412 as a federal interstate highway to foster increased safety, economic development and connectivity across Oklahoma. Developing U.S. 412 to interstate standards will enhance travel and commerce to the Oklahoma City region through improved links with Interstate 35.

PORTS OF ENTRY

The Chamber supports providing adequate annual dedicated funding and staffing levels for the timely completion and effective use of weigh stations at Oklahoma's ports of entry to ensure the protection of Oklahoma's roads and bridges from unnecessary damage caused by overweight freight loads.

STATE TRANSIT FUNDING

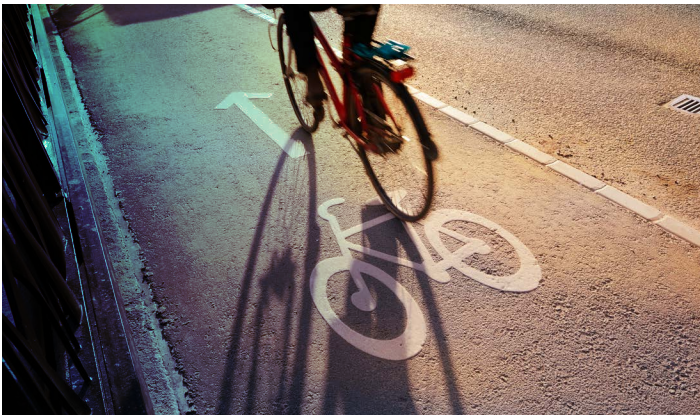

The Chamber supports protecting state revenues allocated into the State of Oklahoma's Public Transit Revolving Fund to meet citizen demand for public transit.

The Chamber supports the continued implementation of ODOT's Long Range Transit Plan through the Office of Mobility and Public Transit.

HEARTLAND FLYER

The Chamber supports protecting and expanding passenger rail service as an important transportation option for both rural and urban Oklahomans. The Chamber will work with the Oklahoma congressional delegation, the Oklahoma state Legislature, ODOT, Amtrak, the City of Oklahoma City, Class 1 Railroads and the Association of Central Oklahoma Governments (ACOG) to oppose efforts to reduce or eliminate state or federal funding received by Oklahoma to operate the Heartland Flyer Amtrak service to Fort Worth, Texas. Moreover, the Chamber supports ongoing efforts by ODOT to negotiate with the State of Texas and Amtrak to ensure Amtrak can be maintained as the passenger rail carrier.

The Chamber is taking active steps with our partners to pursue the objective of extending the Heartland Flyer Amtrak service to Newton, Kansas, which would connect Oklahoma City to Kansas City, St. Louis, Chicago and other locations on the national Amtrak system. Furthermore, the Chamber supports the designation of the entire Heartland Flyer line (Fort Worth – Oklahoma City – Newton – National Network) as a national Amtrak route within the U.S. Department of Transportation's Federal Rail Administration's specific "Corridor Identification

and tourism in the Horizons District, Boathouse District, the Chickasaw Nation's First Americans Museum/OKANA resort, as well as enhance connectivity across the river.

MASS TRANSIT/COMMUTER RAIL

The Chamber supports implementation of transit programs that will best serve central Oklahoma including the Central Oklahoma Transit and Parking Authority (COTPA) 2005 Fixed Guideway Transit Study and its following component:

- The updated plan of alternatives for high-capacity transit conducted by the Regional Transportation Authority (RTA).

Program.” This designation would serve to assist with the federal/state burden/cost-sharing and would strategically address a significant gap in the national Amtrak system.

INTERSTATE COMMERCE

The Chamber opposes legislation to limit the ability of Class 1 and short line railroads to conduct interstate commerce.

The Chamber supports the development of technology and effective transportation strategies to increase the safety and efficiency of interstate commerce. For example, the Chamber supports existing state law allowing for the platooning of semi-trucks.

AUTONOMOUS VEHICLES

The Chamber supports the creation of a regulatory environment that makes Oklahoma a leader in safely using autonomous vehicles and does so without restricting their deployment and further innovation.

ODOT RAIL PLANS

The Chamber supports implementation of the Oklahoma State Rail Plan and Oklahoma Freight Transportation Plan developed by ODOT.

SEAT BELT LAW TO PROTECT CHILDHOOD SAFETY

As the only U.S. state lacking such a sensible law, the Chamber supports passage of legislation to require those 8-17 years of age to wear seat belts while being transported in the back seat.

MUNICIPAL ISSUES

OKLAHOMA RIVER BRIDGES

The Chamber supports construction of iconic bridges on Interstate 35 across the Oklahoma River. Replacing existing river bridges with landmark bridges would showcase Oklahoma City at the confluence of two major U.S. interstate highways (Interstates 35/40) and facilitate increased sporting events

The Chamber further supports efforts by the RTA, consisting of core central Oklahoma cities/population centers, to launch future regional transit services. The Chamber will work with the RTA, Oklahoma state Legislature, COTPA, municipal governments, ODOT and Class 1 railroads to conduct early-stage planning for introducing commuter rail service into downtown Oklahoma City from Norman and Edmond with potential alternative transportation options to Tinker AFB. Further planning consideration should be given to the potential future expansion of rail service to Will Rogers World Airport, with benefits for downtown access/convention center opportunities, and Yukon.

INTERMODAL HUB

The Chamber will work with the City of Oklahoma City (COTPA), the Class 1 railroads, ODOT, the Oklahoma state Legislature and ACOG to ensure the continued viability of the intermodal hub at the Santa Fe station that will effectively integrate various modes of transportation (including OKC Streetcar, Amtrak, bus, inter-city bus, future bus rapid transit and future commuter rail) and enhance economic development opportunities.

The Chamber supports efforts to work with stakeholders to maximize alignment and development of future locally preferred alternatives for mass transportation.

STREET IMPROVEMENTS

The Chamber supports consideration and pursuit of all available funds for ongoing and future street improvements.

OKC STREETCAR

The Chamber supports efforts to ensure the continued viability of the Oklahoma City Streetcar system.

BUS SERVICE

The Chamber supports greater frequency, expanded routes and expanded service hours for bus routes. The Chamber further encourages regional dialogue on providing enhanced bus service.

BUS RAPID TRANSIT (BRT)

The Chamber supports implementing bus rapid transit on key routes in Oklahoma City tied to the 2005 Fixed Guideway Transit Study and updates to that study, and the implementation of future MAPS 4 route updates.

PARKING

The Chamber supports continued construction of additional parking and viable park and ride locations, as appropriate on a case-by-case basis, to allow continued economic development downtown.

ALTERNATIVE TRANSPORTATION

The Chamber supports increased construction of sidewalks, trails and bike lanes. In addition, the Chamber supports proper implementation and consideration of bike shares, car shares, scooter shares and future technologies on a case-by-case basis.

FEDERAL ISSUES

SURFACE TRANSPORTATION FUNDING

The Chamber ultimately supports adequate funding for annual reauthorization of the federal surface transportation program, with continuation of a responsible formula allocation to the states.

The Chamber will work with the Oklahoma congressional delegation and ODOT to secure a permanent funding solution for the Federal Highway Trust Fund (including mass transit programs).

The Chamber supports adequate funding levels to properly maintain the national transportation system.

FEDERAL CAPITAL IMPROVEMENT GRANTS

The Chamber supports continued funding for the following federal grant programs, including, but not limited to, BIP, MEGA, SMALL STARTS, NEW STARTS, INFRA, RAISE, bus, and bus facilities grants.

MIKE MONRONEY CENTER (FAA)/ASSOCIATED FEDERAL AGENCIES

The Chamber supports the continued viability of the Mike Monroney Aeronautical Center as a strategically important national asset for the Federal Aviation Administration (FAA) and further supports the continuation of its other essential federal government activities in the state.

CLEAN AIR NONATTAINMENT

The Chamber will work with the Oklahoma congressional

delegation, ODOT, ACOG, the City of Oklahoma City, the private sector and additional partners to take necessary proactive steps to ensure the Greater Oklahoma City region is not designated as being in nonattainment of federal air quality standards.

NATIONAL AIR QUALITY STANDARDS

Ground-level ozone concentrations in the OKC area have been high, and the region runs a significant risk of violating federal air quality standards (National Ambient Air Quality Standards – NAAQS). Therefore, the Chamber supports maintaining NAAQS at their current level and will oppose any efforts to make them more stringent, which could result in severe negative economic impacts in our region.

GREENHOUSE GAS EMISSIONS

The Chamber is opposed to federal regulatory efforts seeking to create a new state-level Greenhouse Gas (GHG) performance management measurement on the National Highway System (NHS). Additionally, the Chamber is opposed to requiring ODOT to set their own declining targets from on-road GHG emissions occurring on the NHS. The Chamber will work with ODOT and the Oklahoma congressional delegation to advocate against these burdensome requirements that would present severe compliance challenges, resulting in a potential loss of federal transportation funding.

NATIONAL ELECTRIC VEHICLE INFRASTRUCTURE FORMULA PROGRAM (NEVI)

The Chamber supports ODOT's efforts to enhance Oklahoma's existing EV charging network through partnerships with local stakeholders and the private sector.

WATERS OF THE UNITED STATES

The Chamber supports the May 2023 U.S. Supreme Court ruling in Sackett vs. EPA which limited the scope of the proposed expansive federal "Waters of the United States" (WOTUS) rule to streams, oceans, rivers, lakes, and the wetlands that are virtually indistinguishable from them. Therefore, the Chamber opposes renewed efforts by the EPA to vaguely define the WOTUS rule in ways that are not traditionally regulated under the Clean Water Act. Such an overly broad definition of navigable waters poses serious economic and regulatory complications for: providing the materials needed to build and modernize our country's infrastructure in an environmentally friendly manner; uses of water in energy exploration; a wide range of agricultural activities; and many other negative impacts.

FREIGHT RAIL REGULATION

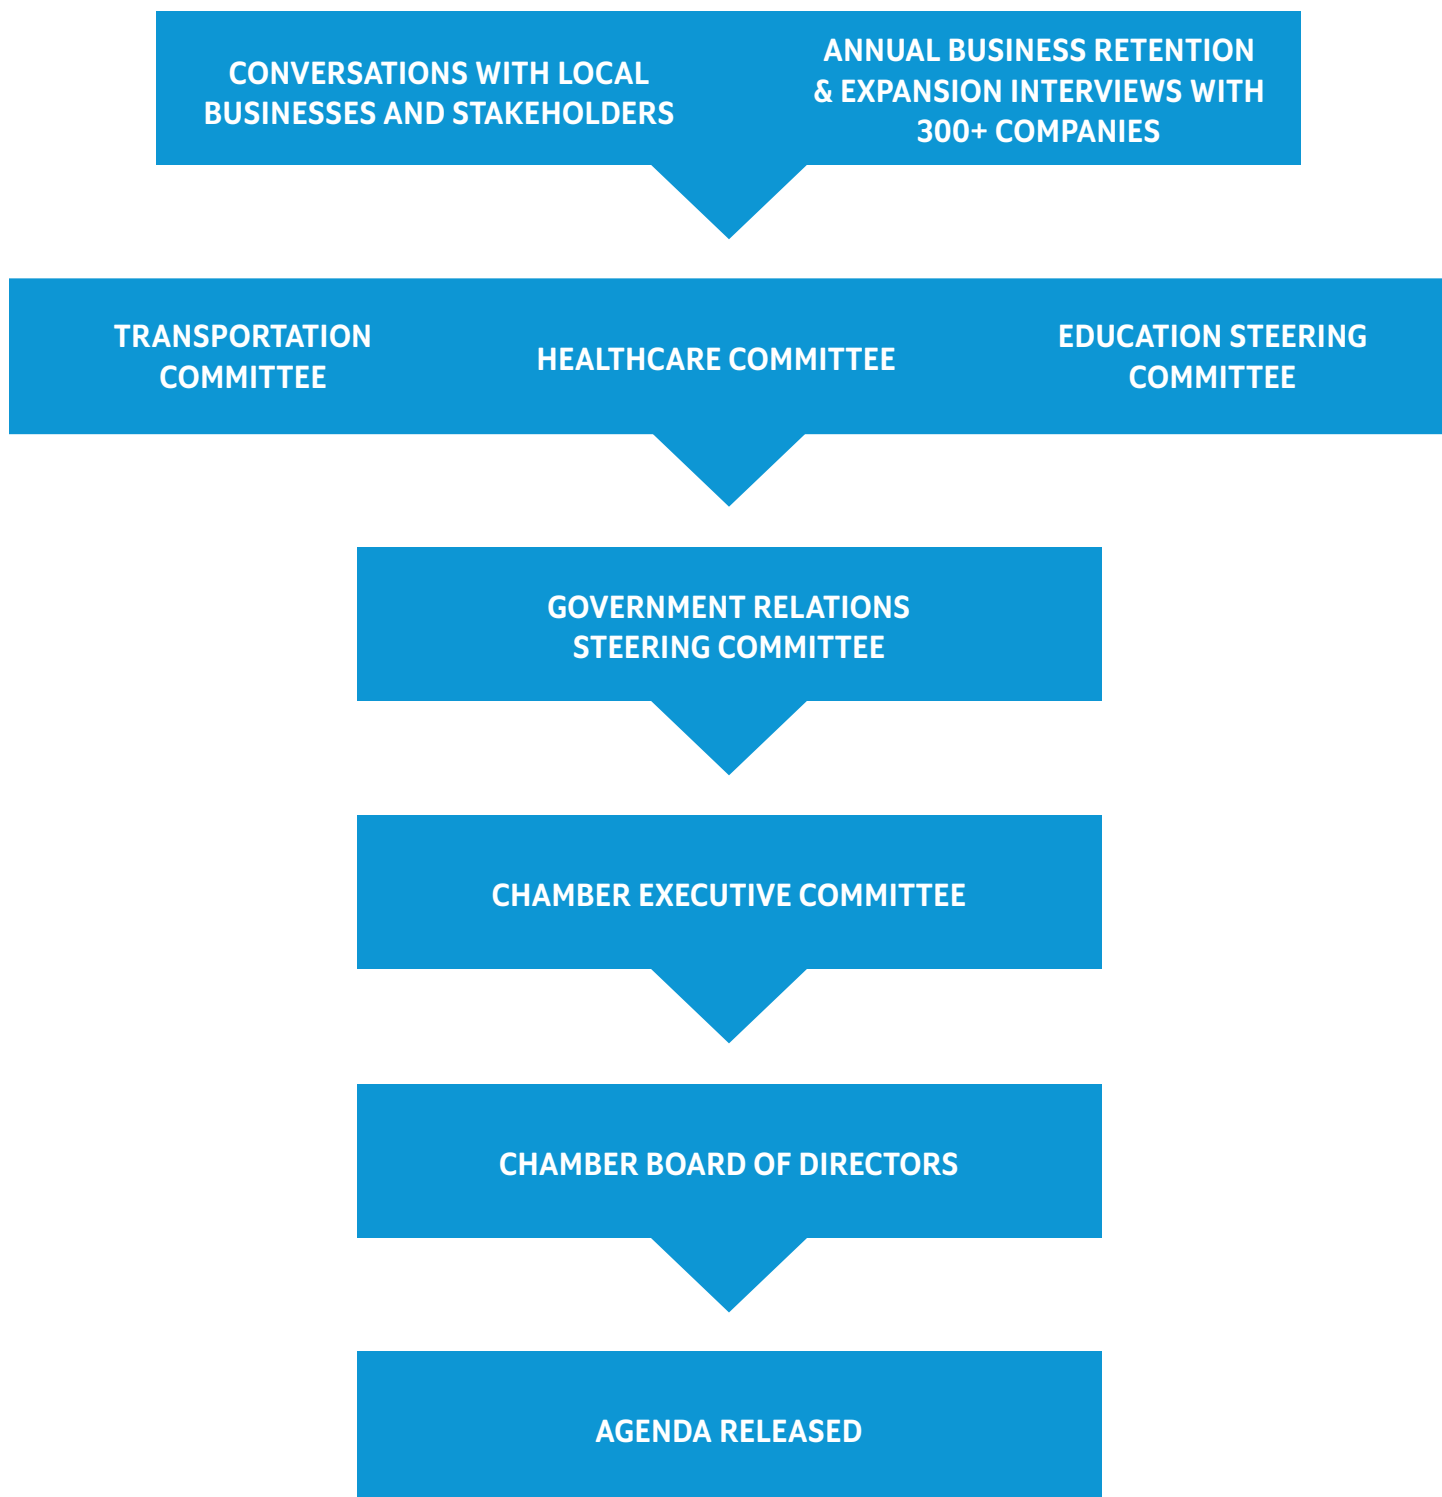

The Chamber opposes any effort by the Surface Transportation Board (STB) to impose additional economic or operational regulation on freight rail operators.

HOW WE DETERMINE OUR PRIORITIES

As the voice of the Oklahoma City business community, the Chamber advocates for pro-business legislation at the Capitol during each legislative session. Prior to the session each year, the Chamber creates its legislative agenda. The Chamber works collaboratively with its partners to promote a strong future for Oklahoma businesses. The intensive process of determining

which priorities will be on the agenda in any given year begins nearly six months in advance and involves input from hundreds of local businesses and government stakeholders.

The following is a visual representation of the Chamber's process of identifying its annual legislative priorities.

OKLAHOMA STATE LEGISLATURE PRO-BUSINESS SCORECARDS

It is critical for the business community to support candidates and elected officials who will advance pro-business legislation at the Capitol. The Greater Oklahoma City Chamber's Government Relations division uses information prepared by the statewide Research Institute for Economic Development (RIED) to identify elected officials' votes on issues important

to the business community. Alongside the RIED scores, the Chamber also assigns a score based on economic development issues included in the Chamber's public policy agenda that are important to the prosperity of our region and state.

In 2023, the Chamber tracked votes on key pro-business legislation and assigned a score to legislators based on their support for these measures. A selection of the key bills the Chamber scored last session were: Tourism Development Act (SB 14X); SQ 7781 Formula (SB 844); Film Workforce (HB 2459); Targeted Workforce Funding (SB 28X); and Healthcare Safety (HB 2154). See all scoring criteria at okcchamber.com/scorecard.

The following charts represent the voting records for the State House and Senate members based on the issues identified by the Chamber and RIED for 2023. RIED scores for previous years can be found at www.riedreport.com.

OKLAHOMA COUNTY CONGRESSIONAL MAP

GREATER OKLAHOMA CITY

CHAMBERPAC

AN EFFECTIVE, UNIFIED VOICE IN ELECTING PRO-BUSINESS CANDIDATES

The Greater Oklahoma City Chamber focuses every day on its mission to improve Oklahoma's business climate to make it more attractive for economic development and improved quality of life. The Greater OKC Chamber Political Action Committee was established to help achieve these outcomes by aggressively pursuing the election and re-election of pro-business candidates at the state and local levels. The Chamber PAC supports candidates in every part of Oklahoma and our local communities to ensure that when we advocate on behalf of the business community, we have a receptive audience among our elected officials. Since its founding in 2010, the Greater OKC Chamber PAC has amassed a strong track record of giving to pro-business candidates that has exceeded \$600,000 in total contributions.

During the 2022 election year, the Greater OKC Chamber PAC contributed \$64,000 to 45 state and local candidates in the Primary, Primary Run-Off, and General Elections. Of those 45 candidates, 42 contributions were made to successful candidates running in a competitive political environment. Therefore, the Chamber PAC achieved an overall winning percentage of 93%. This level of success in electing pro-business candidates demonstrates the ability of the Chamber PAC to influence election outcomes not only in Oklahoma City, but every region of our state.

As we embark on 2024 and significant state legislative elections, the Chamber PAC stands ready, with your robust support, to continue ensuring we have individuals in office who support our city's continued momentum. Therefore, you can be a critical part of this ongoing, relentless effort to impact elections in 2024 and beyond by choosing to contribute to the PAC and giving us the resources necessary to make an impact on election outcomes. Our commitment is that these dollars will be well and strategically spent to ensure our voice remains influential in Oklahoma policy making.

For more information about the Greater OKC Chamber PAC or to make a contribution, visit www.okcchamber.com/PAC or contact Mike Jackson at mikejackson@okcchamber.com or 405-297-8925.

OKLAHOMA STATE GOVERNMENT

Elections carried out by State Election Board

oklahoma.gov/elections

(405) 521-2391

Oklahoma's state government consists of the executive, legislative and judicial branches. The executive offices are elected to four-year terms, except for members of the Corporation Commission, who are elected to staggered six-year terms.

Oklahoma's bicameral Legislature is composed of 48 State Senators and 101 State Representatives. The state is divided into nine Supreme Court judicial districts, with three judges elected every two years during the general elections

Let's Partner
For Better Health

At **INTEGRIS Health**, our mission is partnering with people to live healthier lives—and these days, Oklahomans are living faster, more demanding lives than ever.

That's why we're introducing new health care innovations that deliver more flexibility, convenience and high-quality experiences

From **new urgent care centers** across the metro, to a cutting-edge **home hospitalization program** for acute care patients, the only hospital-based **Medicare Advantage program** in the area and a **brand-new heart hospital**, we are committed to meeting your every health care need—at your speed.

Your Health Partner For Life.

OKLAHOMA COUNTY GOVERNMENT - www.oklahomacounty.org

The administrative body of Oklahoma County is the Board of County Commissioners, which was created by the Oklahoma Legislature. Oklahoma County, like all counties in Oklahoma, is divided into three districts. The districts are as equal in population as possible, numbered 1, 2 and 3, and subject to alteration by the Oklahoma Legislature not more than once every 10 years. One commissioner is elected from each district for a term of four years.

The next Oklahoma County elections will be in 2024:

YEAR 2024
RACES District 2, County Commissioner; County Clerk; County Court Clerk; County Sheriff

OKLAHOMA CITY GOVERNMENT - www.okc.gov

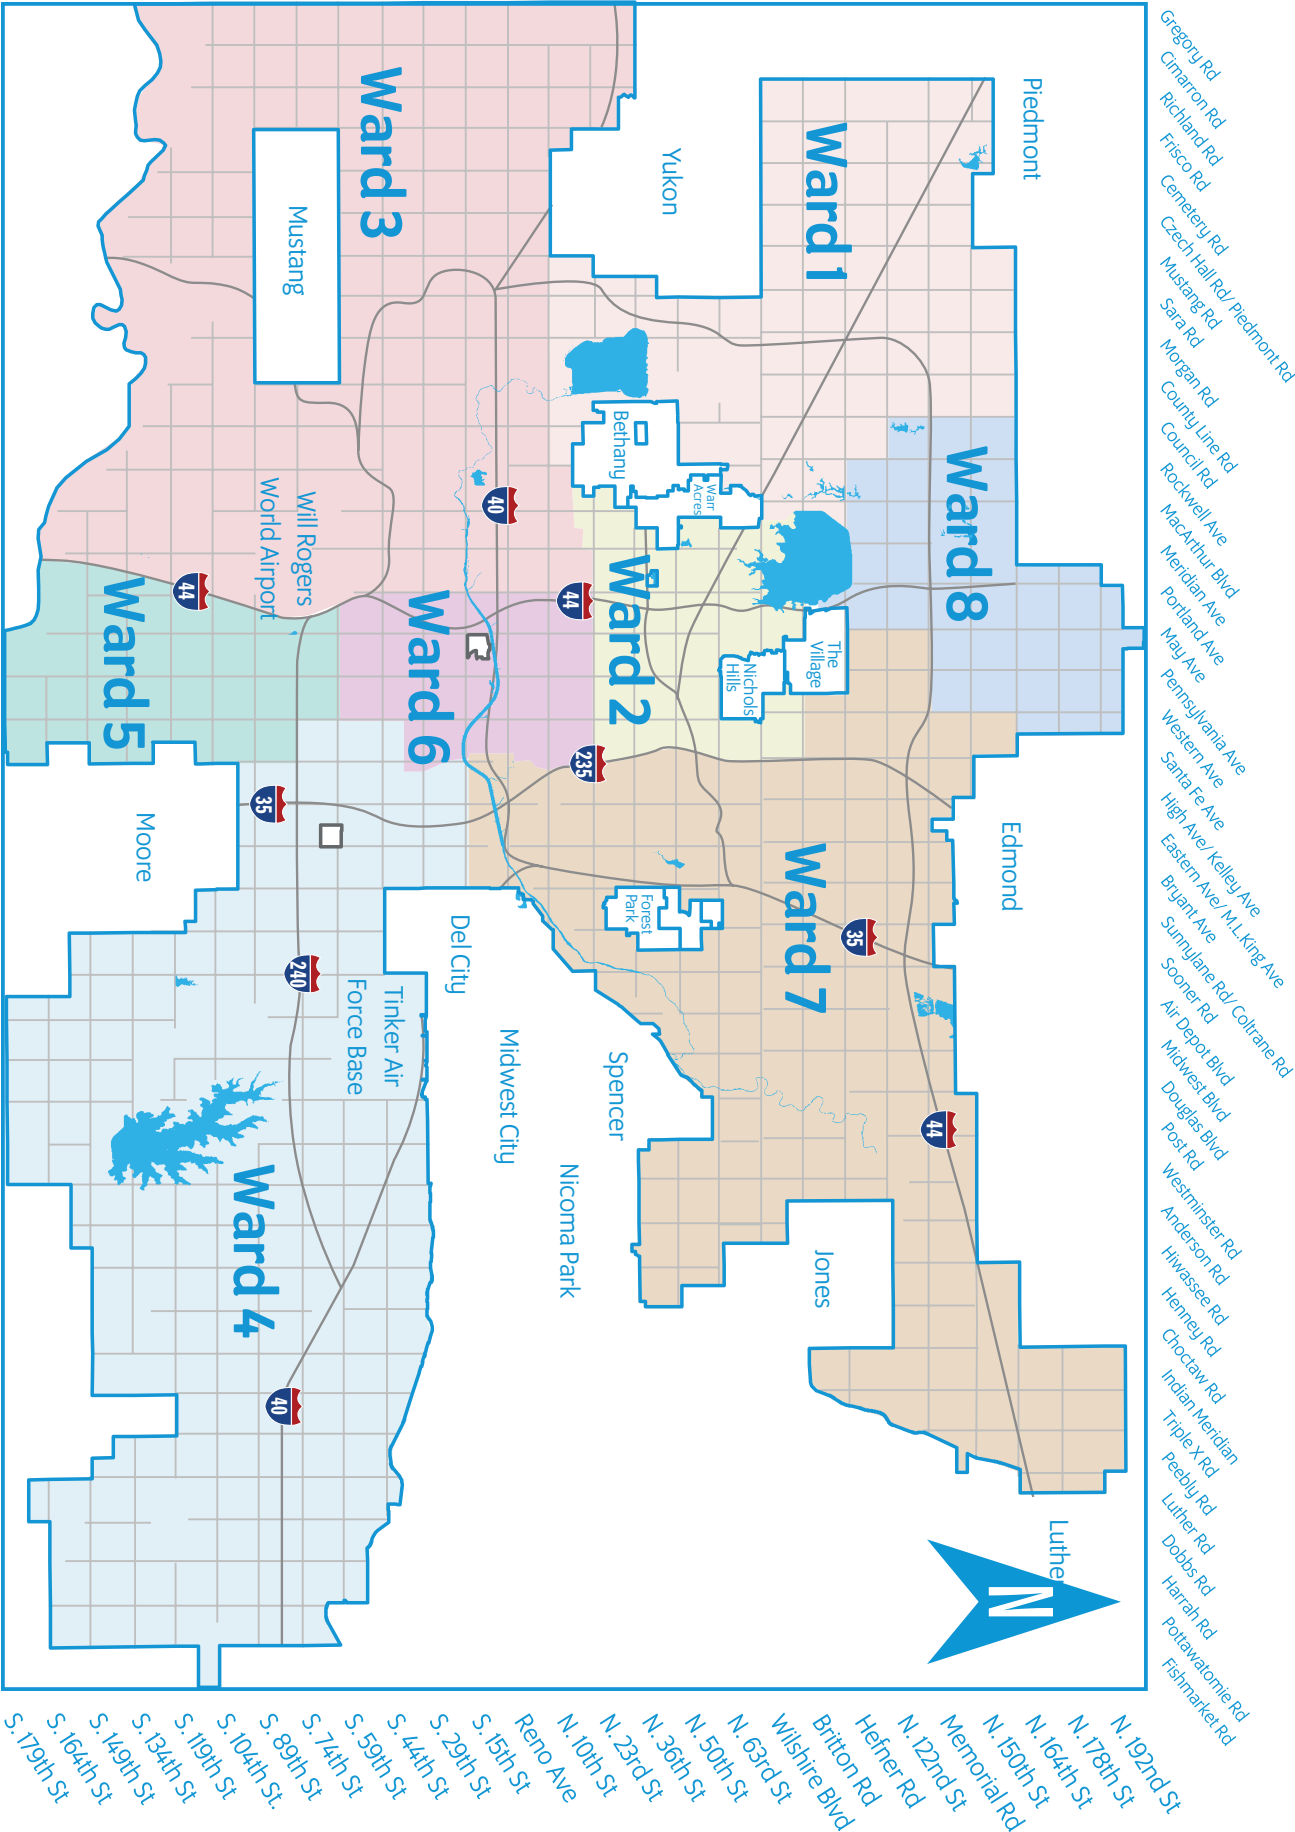

Oklahoma City is governed by a council/manager system established by an amendment to the city charter in 1927. The charter, adopted in 1916, originally called for a commission form of government. The mayor and eight city council members are elected to four-year terms. In order to keep continuity within city government, half of the council is elected every two years. The city is divided into eight wards. The voters of each ward elect a council member to represent them, and the mayor is elected at large. The mayor and the council appoint a city manager to serve as the city's chief administrative official.

Elections for the city wards are always held in odd-numbered years, while the mayoral election is held in an even-numbered year. Elections for 2025 are as follows:

YEAR	2025
RACE	Wards 1, 3, 4, 7
PRIMARY	February 11
GENERAL	April 1 (if necessary)

Elections carried out by Oklahoma County Election Board

OKLAHOMA CITY PUBLIC SCHOOLS - www.okcps.org
Comprised of seven members and a chair elected by district patrons, the Oklahoma City Public Schools Board of Education enacts policy, performs appraisals of policies and procedures, makes provisions of financial resources, maintains public relations, and continues educational planning and development.

Phone: 405-587-0000

Upcoming elections for the Oklahoma City School Board are as follows:

BOARD OF ADVISORS / LEAD INVESTORS

Board of Advisor member companies play a key leadership role in the Greater Oklahoma City Chamber. An annual investment of \$3,000 or more qualifies a member company to be part of the Board of Advisors. They are invited to board meetings, board retreats and intercity visits.

Lead Investor member companies demonstrate their commitment to Greater Oklahoma City by financing the Chamber’s operations at significantly higher levels. An annual investment of \$1,500 or more qualifies a member company to be a Lead Investor.
