• ***Summary:*** Contents: Section I: Flavor. 1. Flavor, the soul of food. Section II: Recipes. 2. Salads (7 types). 3. Salad dressings. 4. Soups. 5. Vegetables. 6. Meats. 7. Fish. 8. Poultry and game. 9. Vegetarian entrees and cheese dishes. 10. Eggs and egg dishes. 11. Cereals. 12. Bread, rolls, and muffins. 13. Pancakes and waffles. 14. Pies and fillings. 15. Cakes and frostings, 16. Cookies. 17. Desserts (fruit desserts, other desserts). 18. Sauces. 19. One world cookery ("Health" foods in many lands, Mexican, Creole, From France, the Near East, the Far East, etc.). 20. Candies. 21. Drink health the new way ("cocktails" made without alcohol, from fresh fruit and vegetable juices). 22. Canapés. 23. Sandwiches and fillings. 24. Canning.

Section III: Special-purpose recipes. 25. Reducing. 26. Gaining. 27. Food allergies. 28. Invalid food or bland diets. Appendixes. Herb chart. How to grow a savory herb garden. The window-box herb garden. Organic gardening: Good nutrition starts in the ground. How to make a compost pile.

Soy-related recipes: Substitutes. Soybean milk for cow's milk. Beans and especially soybeans for meat. Whole-grain flours for white flour (p. 5). Sprouted soybean salad (p. 45). Soybean soup (with "1 cup {dry} soybeans," p. 72). Black soybean soup (p. 72-73). Sour-cream bean soup (p. 73).

In the chapter on "Vegetables" there is a section titled "Soybeans" (p. 92-95) with this contents: Introduction ("The soybean is one of the richest of all foods in protein and in minerals, and it also makes a very delightful addition to good meals... but only in recent years have Americans and Europeans become awakened to its possibilities as a meat substitute and also its great value as a food staple"). How to make soybean sprouts. Soybean sprouts en casserole. Sprouted soybean omelet. Soybean sprouts with onions and mushrooms. Soybean recipes ("for preparing the magic soybean"). Green soybeans (in pods). Dried soybeans. Canning recipes. Soybeans used as meat substitutes. Soy milk. Soybean cheese [tofu].

Chapter 9: Vegetarian entrees and dishes. Lentil loaf with milk or soy milk. Soybean loaf (with dry soybeans and soy milk). Soybean macaroni loaf. Vegetable and soybean stew. Soy vegetable roast (with 1½ cups cooked soybeans). Vegetable hash (with soy sauce). Boston baked soybeans. Stuffed peppers with soybeans. Vegetarian sausages (with cooked soybeans). Vegetarian chop suey (with soy sauce and gluten steaks). Soybean cheese (homemade tofu made from soy milk allowed to curdle in a warm place; cut and serve with soy sauce).

Whole-wheat soy bread (with soy flour, p. 195). Soybean waffles (with soy flour, p. 212). Whole-wheat soy pie crust (with soy flour, p. 213). Canned [green vegetable] soybeans (p. 324, 336). Soybean waffles (wheatless, with soy flour, p. 369). For those with food allergies: Soy milk and Soybean cheese (see p. 95).

In this book, Bragg uses the word "aminos." "The link between protein and body tissues is the amino acids. When the aminos enter the blood stream, they are carried to every part of the body, where they set to work repairing, rebuilding, and maintaining body tissue, building up rich red blood, and 'conditioning' the various organs" (p. 6).

Note 1. This is not a vegetarian cookbook; there are chapters on meats, fish, poultry and game. Throughout his life, Paul Bragg seems to have had an ambivalent feeling about eating and recommending the consumption of red meat and poultry. In his later years, fish became his favorite flesh food.

Note 2. This book contains no autobiographical information about Paul Bragg. Address: P.O. Box 428, Burbank, California.

1572. Davis, Adelle. 1947. Let's cook it right: Good health comes from good cooking. New York, NY: Harcourt, Brace

© Copyright Soyinfo Center 2021

and Co. x + 626 p. Index. 21 cm.
• ***Summary:*** Adelle Davis was a new force in American cookery. She was a trained, scientific nutritionist who put her knowledge in terms that any housewife could understand, a careful researcher and good writer, and one who advocated whole foods (such as whole wheat and brown rice) and discouraged the use of refined foods (such as white flour, white rice, and white sugar; in 1940 Americans ate 92 lb/year of sugar). She emphasized the importance of vitamins and minerals to good health, and advocated the use of nutrient-rich yogurt, soybeans, wheat germ, blackstrap molasses, brewers' yeast, and powdered milk (p. 7), but also advocated meat, poultry, and fish. She introduced many Americans to health food stores as a source of healthful foods and hard-to-find ingredients. "Most recipe books appear to have only one designed purpose: to bring about the physical degeneration of the race at all possible speed. It is little wonder that our national health record is something to be ashamed of" (p. 4).

In Chapter 5, titled "Equip your kitchen for health," she stresses the importance of using a thermometer in baking, then appends a list of useful equipment. For example: "Liquifier or blender: especially valuable if cooking for a baby, an elderly person, or one who must stay on a smooth diet. May be used instead of electric mixer in a small family."

Note: This is the earliest English-language document seen (July 2021) that uses the word "liquefier" (as a generic term) to refer to an electric blender. This is also the earliest English-language book seen (July 2021) that uses the word "blender" (as a generic term) in a book with recipes to refer to an electric blender.

Throughout this book the author includes soy flour and soy grits as optional ingredients in dozens of recipes, but also features soybeans as follows: El Molino Mills of Alhambra, California, is a good source of wheat germ, soy grits, and many varieties of flours (p. vii). Chapter 12, titled "Meat substitutes and extenders" begins: "Most of the so-called meat substitutes, such as dry beans, peas, rice, and macaroni, are not true substitutes for meat." They contain less protein of lower quality. "There is one exception among legumes which is a true meat substitute–soybeans." They can be as delicious as regular beans when well prepared. "Soybeans differ from other beans in that they contain about three times more protein, a small amount of sugar, and no starch." They supply essential amino acids, calcium, and B vitamins. They should be served frequently, especially when the budget is limited.

"By far the easiest way to prepare soybeans is to freeze them after they have soaked and before they are cooked. This procedure decreases the cooking time about 2 hours and causes them to taste more like navy beans. Since soybeans are relatively new to Americans, seasonings should be heavily relied upon to make them palatable. The most satisfactory means of working soybeans into your menus is by using soy grits, in which each raw bean is broken into 8 or 10 pieces... They are inexpensive and bland in flavor, cook in a few minutes, and can be added to any number of foods without altering the taste." There follows a recipe for "Cooked soybeans" with 16 named variations (such as Chinese soybeans, Spanish-style soybeans, soybean chili, soybeans with tomatoes, etc.). Then a recipe for softened soy grits (p. 193-96).

Soy chili with meat and beans; "Macaroni, spaghetti, and noodles are available prepared from whole-wheat flour and from whole-wheat flour combined with soy flour" (p. 200-01). The nutritive value of soups can be increased greatly at almost no cost by adding soy or peanut flour to them (p. 305). Fresh soybeans contain no starch but are so rich in sugar that many varieties taste like new peas. Wash before hulling. A recipe with 6 variations follows (p. 413-14). One key to good health is baking your own whole-wheat breads at home. Increase the protein content by adding powdered milk, soy, peanut or cottonseed flour, or wheat germ (p. 416-17). A table (p. 418-19) shows the "Food values of bread ingredients." "The merits of soy flour are becoming well known." Buy it fresh and keep it in a cool place. Chapters 24 and 25 give healthful alternatives (such as fruits) to typical desserts and candy. "The most objectionable feature of desserts is the amount of sugar they contain. The tremendous consumption of refined sugar in America has caused untold ill health" (p. 490). One healthy dessert is Soy chews (baked, p. 544). Serve popcorn, "salted soybeans, or soy nuts," as healthful alternatives to sweet desserts (p. 546). A recipe for homemade "Soy nuts" follows. They are soaked, parboiled, deep-fried in vegetable oil, and salted (p. 549). Chapter 27, on obtaining unusual foods, suggests: "If you have a health-food store in your community, communicate with it first. Such stores carry all the products of outstanding nutritive value." Address: B.A., M.S., Los Angeles, California.

1573. Gehman, Jesse Mercer. 1947. A commemorative and descriptive book on the Light of Naturopathy. Patterson, New Jersey: The Benedict Lust Permanent Memorial Association. 28 p. Illust. *
• ***Summary:*** This book is about Benedict Lust (1872-1945), and work (which was never completed) to build a permanent memorial to him on the property of Jungborn in Butler, New Jersey. The memorial was to be a large building; its large cornerstone was laid on 5 Sept. 1946 by the Benedict Lust Permanent Memorial Association, of which Jesse M. Gehman was president.

1575. Phelper, Ben H. 1947. Shot down: A wartime log, a remembrance from home through the American YMCA. Richardson, Texas: Louben Publishers. 56 p. Illust. 21 cm. *
• ***Summary:*** Talk with Akasha Richmond of California. 2002. Feb. 3. This book, about a World War II pilot writing of his experiences, became a famous play titled "Stalag 13," in New York City and was the inspiration for the also famous television series Hogan's Heroes. The author was played by Hogan. Clark Irvine was instrumental in its publication.

Talk with Alice Marks Irvine, Clarke Irvine's wife. 2004. Feb. 23. This book was written by a young American who was shot down over Germany in World War II, tried to hide, and was captured. After returning to America, he came to see Clarke in his office in Hollywood. Ben was a superb artist. Clarke said, "If you'll write the book, I'll publish it." So he did. Clarke sold the book and kept in touch with Ben for years afterwards.

1576. Shelton, Herbert M. 1947. The hygienic system (7 vols.). San Antonio, Texas: Published by the author. * Address: N.D., San Antonio, Texas.

1577. Walker, Norman Wardhaugh. 1947. Diet and salad suggestions, for use in connection with vegetable and fruit juices. Revised and enlarged ed. Anaheim, California: Norwalk Laboratory. 136 p. 22 cm. *
• ***Summary:*** Discusses vegetarianism and raw foods salads. Norwalk makes the Norwalk juicer. Address: Anaheim, California.

1578. Waring Products Corporation. 1947. The new Waring Blendor serves everyone. New York, NY: Waring Products Corp. 64 p. No index. 15 x 23 cm. Previously published in 1940, 1942, 1946, 1947.
• ***Summary:*** See next page. On the color cover: "340 recipes for the new Waring Blendor"–plus an illustration of a Waring Blendor and 7 dishes made with it. On the title page: "Copyright 1940, 1942, 1946, 1947." This book contains 6 early recipes (p. 53) for "Milk smoothees" [smoothies]–Apricot, chocolate mint, banana, marshmallow mint, peach, and plum. Directions for all: "Place milk (1 cup) in the Container. Add other ingredients. Add 1 cup of finely cracked ice to chill Smoothee. Put cover on Container. Turn on Waring and run until contents are thoroughly blended, 15 seconds to 2 minutes. One-half cup of ice cream added to any Smoothee makes a richer drink. Two marshmallows may be added instead of ice cream with favorable results. Yield: About 1 pint."

On each page is a different cartoon image of the blendor with a human face. On the inside front cover is a description and photo of the Waring Blendor. Address: 545 Fifth Ave., New York 17, New York.

1579. Waring Corporation. 1947-. Recipe leaflets collection. Winsted, Connecticut: Waring Products.
• ***Summary:*** This collection is owned by only one library in the USA: Texas Woman's University Library: Mary Evelyn Blagg-Huey Library, in Denton Texas.

There are 28 illustrated volumes in the collection in two folders. The documents were supplied by Waring Products.

The collection title was supplied by the cataloger.

Folder #1 is dated items:

340 recipes for the new Waring blender (1947)

Eat to enjoy living... live to enjoy eating (1953)

Modern magic with food preparation with the Waring blender (1953)

Waring mixer recipe book (1953)

Waring blendor cook book (1955)

Pickups and cheerups from the Waring blender (1956)

The wonder of the Waring blendor blend and serve (1957)

New ways to gracious living, Waring blendor cook book (1957)

New ways to gracious living, Waring blendor cook book (1958)

Whirl and serve (1958)

Waring blender cook book (1962) -

Waring complete blendor cook book (1965)

Waring cook book for the 8 push button blender (1968)

Your Waring cookbook, the pleasure of blending (1969)

Your Waring cookbook, the pleasure of blending for the 7-speed blender (1970)

Your Waring cookbook, the pleasure of blending for the 14-speed blender (1970)

Folder #2 is undated items: n.d. = no date.

Blend and serve (n.d.)

Blender cookbook (n.d.)

Blender cookbook (n.d.)

Easy entertaining with a Waring blender and ice jet (n.d.)

Child feeding guide by Waring (n.d.)

Ice cream parlors (n.d.)

Made in seconds (n.d.)

Your Waring cookbook, the pleasure of blending for the 7-speed blender (n.d.)

Wonders of the Waring blender cook book (n.d.)

Juice extractor (n.d.)

Waring Blender magic with Hiram Walker cordials (n.d.)

Your Waring cookbook, the pleasure of blending for the 14-speed blender (n.d.). Address: Winsted, Connecticut.

appliances: Mixers, pop-up toasters, automatic coffee makers, vacuum cleaners, portable stoves, electric razors, liquefiers, blenders, pressure cookers,... juicers...” Address: Robertson Blvd. near 3rd St. [Los Angeles, California]. Phone: BR. 2-3544 or CR. 6-5637.

1581. Nickerson, Jane. 1948. Mixers and liquidizers. *New York Times.* Feb. 22. p. SM32.
• ***Summary:*** “Liquidizer type of apparatus–The Waring Blender is no longer alone in its field. Similar products are the Knapp Monarch Liquidizer and the Osterizer.” The blender and Osterizer each sell for $39.50, while the Liquidizer ranges from $29.5 to $34.95. A photo shows the Knapp Monarch Liquidizer.

Note: This is the earliest English-language document seen (July 2021) that mentions an “Osterizer,” an early brand of electric blender.

1582. Schwabacher-Frey. 1948. And now for the First Lady–your mother: Gifts (Ad). *Los Angeles Times.* May 5. p. 11.
• ***Summary:*** “Give Mother this K-M Liquidizer. Excellent mechanism–glass top–for pulping foods and other uses. Only $34.95.” A small photo shows the Liquidizer. Note: “K-M” stands for Knapp-Monarch. Address: 736 South Broadway [Los Angeles].

1583. Fuller, Elizabeth. 1948. Summer with a blender. *American Home* 11(1):117-18. June.
• ***Summary:*** The article begins: “Relax with a blender at your elbow this summer... Start out with the recipes in your blender book.”

As for drinks, make “milk shakes in flavors ranging from vanilla and chocolate to apricot and plum. For a real flavor surprise, blend honeydew or cantaloupe with ice cream and milk.” Includes three recipes.

1584. *Los Angeles Times.* 1948. Multi-Purpose Food signed up in housewives’ battle of budget. Aug. 11. p. B1.
• ***Summary:*** As food prices continue to soar and threats of meat boycotts are heard, more and more people are paying attention “to the soybean by-product known as Multi-Purpose Food or MPF. Recent national notice given the highly nutritious food is bringing a tremendous response from all over the country to the offices of Meals for Millions Foundation here in Los Angeles.”

Americans like to use MPF as an extender for more costly foods, especially meat. Homemakers will find MPF available at some health food stores. It may also be purchased at the office of the Meals for Millions Foundation, 618 S. Broadway, Los Angeles. Directions for cooking it are on the container.

Recipes are given for: (1) Stuffed cabbage rolls. (2)

Meat loaf. A photo shows the cabbage rolls being made.

1585. Hochstrasser, Lewis B. 1948. Overseas relief food, MPF, gets new role: Relieving U.S. budgets. Desperate housewives flood agency with orders for soybean meal supplement. *Wall Street Journal*. Aug. 13. p. 1, 4.
• ***Summary:*** Los Angeles–Thousands of housewives, harassed by high meat prices, are clamoring for Multi-Purpose Food, an inexpensive, nutritious, and tasty diet supplement. Developed by a California scientist, it contains mostly soybean grits, with vitamins, iron and calcium added to increase the food value, and onion powder and other seasonings added to improve the flavor.

MPF is made by the Meals for Millions Foundation, Inc., whose main interest is in alleviating hunger worldwide after World War II. The charitable organization "has sent out about 1.5 million pounds or 13 million meals of MPF to foreign countries during the past two years.

Interest among American housewives started with an article in the *Ladies' Home Journal* [Aug. 1948, p. 36-37, 139], in which a New Jersey housewife reported saving $8 in food bills after using the soy food for a month."

During the past ten days more than 5,000 American housewives and their husbands have contacted the Foundation asking for the low-cost food.

The Foundation, while not mainly interested in domestic demand, has decided it will mail six 1¼-pound cans of the food, providing 60 meals, to U.S. consumers for $4 or 53 cents a pound, postage included. The product is manufactured by Gentry, Inc. of Los Angeles.

Many of the enquiries are about wholesale quantities and distributorships in the USA. The Foundation, which is not set up to start a big advertising campaign, has decided to start selling the "soybean food" at wholesale prices "through the nation's 1,200 health food stores and food specialty shops in department stores.

The story of Clifford Clinton and Dr. Henry Borsook is told. MPF was launched by a fund of $10,000 from Mr. Clinton and the California Dehydrators' Association.

In 1946, Mr. Clinton established the "Meals for Millions Foundation which has sent $390,000 of MPF relief shipments to every part of the world, financed by itself and other relief agencies."

1586. Hopper, Hedda. 1948. Hollywood. *Hartford Courant* (*Connecticut*). Aug. 19. p. 18.
• ***Summary:*** "Before my article on 'The Ten Richest Women in Hollywood' got into *Look* magazine, I learned that Greta Garbo, Gayelord Hauser, and Frey Brown sold a piece of property in Beverly Hills for a cool million."

A small portrait photo shows gossip columnist Hedda Hopper.

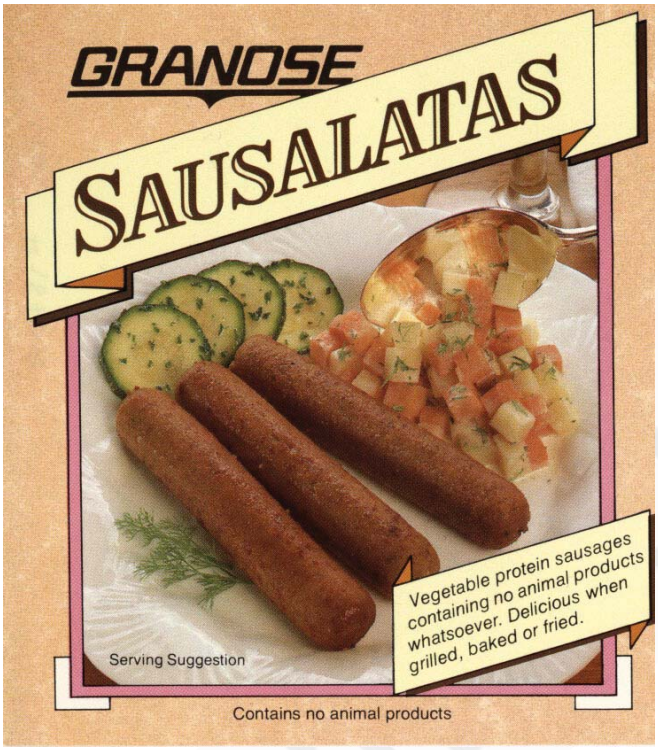
1587. May Company (The). 1948. Proven performance: That's what we say about the Hollywood Liquefier (Ad). *Los Angeles Times.* Oct. 21. p. 18.
• ***Summary:*** This large display shows an illustration of a Hollywood Liquefier with three of major parts labeled as follows. "Scientifically designed bowl assures quick, thorough mix. Patented 8-blade knife that 'liquefies'–doesn't chop or mash. Super-Power motor designed to give a lifetime of trouble-free service.

"With this Hollywood Liquefier–specifically designed for the purpose of reducing solids to a liquid–you can create an infinite variety of new, delightful taste treats. Doctors say it's indispensable, dieticians say it's vital, mothers say it's wonderful. Liquefies raw or cooked foods quickly and easily. This is a time-proven product–thousands are in use throughout the world."

Priced at $39.95. "See the Hollywood Liquefier demonstrated in our Electrical Appliance Department." Address: Downtown, Wilshire, Crenshaw [Los Angeles, California]. Phone: TU-8211.

1588. Sperry Wheat Hearts. 1948. 200 Osterizer liquefier and blender prizes! (Ad). *Los Angeles Times.* Oct. 31. p. F3.
• ***Summary:*** "For Westerners only! Big Sperry contest... Imagine owning a handsome electric "servant" that liquefies and blends ingredients for hundreds of delicious dishes–and does it in a matter of seconds. Well, that's the Osterizer. And right now is your opportunity to win one! Just finish this sentence in 25 words or less: "The thing I like best about Sperry Wheat Hearts is..." An illustration shows a smiling lady pouring milk from a bottle into the first in a long row on Osterizers.

Note: A similar ad appeared in this newspaper on Nov. 21, p. F5. "Sells in stores for $39.50."



1589. Knapp-Monarch Co. 1948. K-M–Gifts that keep on giving: Hunting (or hinting) for the perfect gift? Look to K-M for Magic–wonder-working appliances you'll be proud to give, even prouder to own (Ad). *Los Angeles Times.* Dec. 5. p. F13.
• ***Summary:*** "K-M Liquidizer–Oh happy day! This kitchen appliance pays for itself in food-money savings! It grinds, chops, or grates all kinds of food! Makes baby foods, soups. Blends drinks, shaves ice. And all in seconds. No attachments. Use it all day, every way. Does jobs no other appliance can do." A photo shows a mother holding up and admiring a Liquidizer, while her daughter looks on fondly. Ten other electric appliances also appear in this full-page ad. A list, one-column wide and the height of the page, gives the name and address of K-M dealers in California. Address: St. Louis 16, Missouri.

1590. Forman, Jonathan; Fink, Ollie E. eds. 1948. Soil, food and health: "You are what you eat." Columbus, Ohio: Friends of the Land. 342 p. Illust. 24 cm. *

© Copyright Soyinfo Center 2021

• ***Summary:*** "In addition to presenting the papers read at the Seventh Annual Conference on Conservation, Nutrition, and Health, there appear integrating essays by the editors setting forth the relation of each address to what has been learned at the previous conferences and to the whole subject."

1591. **Product Name:** Granose Sausalatas (Meatless Sausages Canned in Brine) [Plain, or Smoked].
Manufacturer's Name: Granose Foods Ltd.
Manufacturer's Address: Stanborough Park, Watford, Herts., WD2 6JR, England.
Date of Introduction: 1948.
Wt/Vol., Packaging, Price: Can.

New Product–Documentation: *The British Vegetarian.* 1960. Sept/Oct. p. 249. Granose makes Sausalatas, which contain wheat protein, mixed nuts, rusk, wholemeal flour, vegetable oils, yeast extract, onion, and seasoning.

Manufacturer's catalog. 1980. April.

By 1980 the product had been reformulated to include textured soy flour.

1592. Hauser, Gayelord. 1948. Vegetable juice therapy. *Diet Digest* (*Beverly Hills, California*) No. 30. p. 28+. *
• ***Summary:*** Hauser says that in 1923 while in Czechoslovakia he saw the nurses making fresh vegetable juices. "The following year [1924] I imported an interesting gadget that extracts vegetable juices from all sorts of vegetables and started to teach the "drink your way to health" idea here in America.

Note: Talk with Chef Akasha Richmond. 2004. June 7. She has seen ads for Hauser's juicer and it looks exactly like Bragg's juicer.

1593. **Product Name:** Vitasoy.
Manufacturer's Name: Soya Foods Ltd.
Manufacturer's Address: 40 St. Mary Axe, London, E.C.3., England. Phone: AVEnue 4971.
Date of Introduction: 1948.
How Stored: Shelf stable.
New Product–Documentation: Letter from Mrs. I.B. MacKay. 1983. May 24. "Vitasoy, mentioned in the advertising in 1948, was a dehydrated, pasteurized, and vitaminized infant and vegetarian food."

Vegetarian Messenger and Health Review. 1950. May. p. 148. Among the vegetarian health foods listed for sale is "Vitasoy 3/-."

1594. Giedion, Siegfried. 1948. Mechanization takes command: A contribution to anonymous history. New York, NY: Oxford University Press. xiv + 743 p. Illust. 26 cm. Reprinted in 1969 by W.W. Norton and Co. (New York and London).
• ***Summary:*** A brilliant, in-depth study of the effects of mechanization on human beings, and how mechanization has caused the split that now exists between thought and feeling. There is a deep conflict between the continuing progress of mechanization (as in the moving assembly line / production line) and human values.

"The process leading up to the present role of mechanization can nowhere be observed better than in the United States, where the new methods of production were first applied, and where mechanization is inextricably woven into the pattern of thought and customs."

Part IV, titled "Mechanization encounters the organic," has the following contents: 1. Mechanization and the soil–Agriculture: The farmer in structural change, the rediscovery of nature in the 18th century (natural science, the soil, agriculture–man's native calling, the new husbandry), the Middle West and mechanized agriculture (the prairie, time and the social moment), the carriers of mechanization (the reshaping of tools in America, reaping mechanized [the reaper]), agriculture in full mechanization (the tractor, combined processes [combines], the homestead and the factory farm, human implications).

2. Mechanization and organic substance–Bread: The mechanization of kneading, the mechanization of baking (the baker's oven in the handicraft age, the influence of technology–the indirectly heated oven, the oven and the endless belt), mechanization of bread making (bread and gas), the human aspect–bread under mechanization (flour in mass production, full mechanization–bread on the production line, the changed nature of mechanized bread, mechanization alters public taste, Sylvester Graham (1794-1851) and the

© Copyright Soyinfo Center 2021

devaluation of bread).

3. Mechanization and death–Meat: Centralization and handicraft (Paris–the slaughterhouse of La Villette (1863-67), La Villette and Union Stock Yards [Chicago, Illinois] (1864)), the mechanization of meat production in America (the beginnings of mechanization–Cincinnati, Ohio (1830-60), mechanization extended–Chicago (1860-85), [meat] packers and the packing industry, single operations in mechanized meat production, mechanization and organic substance, the mechanization of death).

4. Mechanization and growth: Seed, the egg, mechanical fertilization.

Contains an historical survey of milling and baking technology. A protest against all artificiality in food and the need for satisfying, meaningful work.

An illustration (p. 89) shows the origin of the modern assembly line ca. 1870 in Cincinnati at a hog slaughtering factory. Address: Doldertal, Zurich, Switzerland.

1595. Hauser, Gayelord. 1948. Eat and grow beautiful. London: Faber & Faber, Ltd. 233 p. 21 cm. *

1596. Los Angeles City. 1948. Index to register of voters: Los Angeles City Precinct No. 1486. Los Angeles, California. Los Angeles, California. 1 p.
• ***Summary:*** Names are listed alphabetically by surname. Under "Jones" we read:

"Jones, Edwin S., 123 N. Kenmore av. R [Republican].

"Jones, Mrs. Mildred Lager, 122 N. Kenmore av. R" [Republican].

1597. Rodale, Jerome Irving. 1948. The organic front. Emmaus, Pennsylvania: Rodale Press. 199 p. 21 cm.
• ***Summary:*** This early book about organic gardening and farming is divided into three parts: I. On the organic front (17 chapters, incl. compost, and the work of Weston A. Price). II. Debates (3 chapters, incl. "Do chemical fertilizers kill earthworms?"). III. Foods (21. Raw foods. 22. Sunflower seeds–The forgotten food. 23. Seeds as human food. 24. The wonderful grape. 25. The Rodale diet). The author was born in 1898. Address: Emmaus, Pennsylvania.

1598. California Death Index. 1949. Bachrach, Gertrude Elizabeth Brownlee.
• ***Summary:*** Last name: Bachrach. First name: Gertrude. Middle name: Elizabeth Brownlee. Date of birth: 1902 June 5. Mother's maiden name: Braum. Father's last name: Brownlee. Sex: Female. Birthplace: WI [Wisconsin]. County of death: Los Angeles. Date of death: 1949 June 5. Social Security Number: 549-181-382. Age: 46. id no. 836967.

Note: According to Larry Pumphrey, a researcher in Los Angeles (4 April 2011): Larry first discovered the Brownlee Bachrach marriage and the date of Betty Bachrach's death. At the time of her death, Elizabeth ("Betty") was married to Ernest A. Bachrach, a still photographer for RKO Pictures. We do not know where and exactly when Elizabeth married Ernest Bachrach. He first married Rae Seegmiller in Oct. 1928 in Los Angeles and she died on 31 May 1947. He then married Betty Brownlee who died on 5 June 1949. Ernest died on 24 March 1973 and he is buried between his two wives at Forest Lawn Cemetery in Glendale, California.

"Rae's obit stated that Ernest was her surviving husband so this means that Ernest and Betty had a short marriage. They were obviously married between June 1947 and June 1949. I haven't been able to find a marriage record for them. Betty was probably married to other(s) between 1932 and 1947 so no telling what her married name was when she married Ernest Bachrach. I still have hopes that the marriage between Elizabeth Brownlee and William M. Moore in 1933 is her but won't know until I can see the marriage license. Moore was connected to the movie business so it all fits. Betty lived in Hollywood with Paul Bragg and she seemed to prefer the people in that area along with the attendant lifestyle."

1599. May Company (The). 1949. Month end May Co. downtown clearance (Ad). *Los Angeles Times.* June 29. p. 19.
• ***Summary:*** In this full-page ad, the section titled "Electrical appliances–Fourth floor" lists 12 such appliances, all being sold at greatly reduced prices. These include the "Eskimo Whiz-Mix liquefier $19.95. Knapp-Monarch liquefier $29.95." Address: Downtown [Los Angeles, California]. Phone: TU 8211.

1600. Rodale, Jerome Irving. 1949. The organic method on the farm. Emmaus, Pennsylvania: Rodale Press. 128 p. July. Illust. No index. 21 cm. Series: The Organic Farmer No. 41.
• ***Summary:*** "A tremendous change occurred in the organic method in September, 1949, as is outlined in the last chapter of this book" (see p. 120). It is indeed a new organic method, which is both revolutionary and labor-saving.

The "tremendous change" may eliminate the need for farmers to make compost in heaps or pits. "Many agriculturists have contemptuously referred to the organic method as the pitch-fork method of farming. It *was* that at the beginning, but we have progressed considerably since then."

Contents: Introduction. How to Make a Compost Heap. The Compost Process. The Organiculturist's Creed. With Further Reference to Composting Pits. Filling the Compost Pit. A Suggestion for Compost Making. Labour Saving in Compost Manufacture. Large Scale Composting. Composting on a Farm Scale. A Trip to Alabama. Sheet Composting on the Farm. Manure Loader Equipment in the United States. Making Compost for the Farm is Practicable. Nitrogen. The Nitrogen Problem. Phosphate Rock. Potash Deficiency in Soils. Sources of Natural Potash in the United

States. Subsoiling. The Control of Eelworm (Nematodes). Artificials and Sprays Are Not Used Here. Orchard Practices. The Chicken-Dropping Pit. The *New* Organic Method.

"Sir Albert Howard, who died a few years ago, was the father and developer of the organic method of farming. He had a background of experience with it over thirty years. He proved conclusively that it could give higher yields and healthier foods. I had the pleasure of introducing his method officially into the United States as his direct representative. Now we have about seven years of experience with it. We and many others have found it good."

Rodale then describes the work of Mr. Charles Selvi more than ten years ago with manure on farms in Italy. He developed a new method for aging manure. "He suggested that instead of leaving the manure heaped in piles it be placed in covered pits" (p. 123). Mr. Selvi worked with Rodale's Soil and Health Foundation for about two months. His method may eliminate the need to make compost.

The author was born in 1898. A revised edition was published in Oct. 1949. A 5th edition of this book was published in 1952 and a 6th edition in 1953. Address: Emmaus, Pennsylvania.

1601. Nickerson, Jane. 1949. A better loaf of bread. *New York Times.* Aug. 21. p. SM32. Sunday magazine.
• ***Summary:*** Discusses the work of Dr. Clive M. McCay, Professor of Nutrition at Cornell University. Gives recipes for High-protein bread, Fruit-filled coffee cake, and High-protein rolls. All contain full-fat soy flour, which "may be had in health food stores." "Macy's has Loeb soy flour for 64 cents for a two-pound bag."

1602. *Los Angeles Times.* 1949. Divorce suits filed. Sept. 16. p. 31.
• ***Summary:*** "Bragg, Robert E. against Madeline D." Note: Paul Bragg, of health food fame, has a son named Robert E. Bragg.

1603. Ershoff, Benjamin H. 1949. Protective effects of soybean meal for the immature hyperthyroid rat. *J. of Nutrition* 39(2):259-81. Oct. 10. [36 ref]
• ***Summary:*** In experiments on female rats, the author found an antithyrotoxic factor in full-fat soybean meal. This "soya meal" (a lightly roasted material containing 18-22% fat) was obtained from El Molino Mills, Alhambra, California. "Full-fat soybean meal completely counteracted the growth retardation of immature rats fed massive doses of desiccated thyroid or iodinated casein. It did not counteract, however, the attendant reduction in basal metabolic rate.

"The antithyrotoxic effects of full-fat soybean meal were correlated in part with its fat content. Growth was retarded in hyperthyroid rats fed similar diets but containing low fat soybean flour in place of the high fat soybean meal."

This may be related to the goitrogenic factor, which increases the requirement for iodine. Address: Emory W. Thurston Labs, Los Angeles, and Dep. of Biochemistry and Nutrition, Univ. of Southern California, Los Angeles.

1604. Sears-Roebuck and Co. 1949. Leadership sale: Shop at Sears and save!–Our 63rd year of leadership (Ad). *Los Angeles Times.* Oct. 16. p. 38.
• ***Summary:*** This full-page display ad features 12 electric appliances. In the top row: "Sensational 2-speed Kenmore electric Food Liquidizers. Amazing liquefier chops, whips, chips, blends, liquidizes, 4½-cup jar of heavy tempered glass. Easy to clean, white enamel base. $19.95."

A large illustration shows the liquidizer. Six small illustrations show: "Liquefies fruits and vegetables. Mixes cakes or waffle batter. Chops meats quickly, thoroughly. Whips cream and dressing. Chips ice cubes in seconds. Blends drinks of all kinds."

Similar Sears ads appeared in this newspaper on 3 Aug. 1950 (p. 19; $19.95), and 17 Dec. 1952 (p. 14; $23.69).

1605. *Evening Telegram* (*Superior, Wisconsin*). 1949. Gustaf Lagers celebrate 50th anniversary. Nov. 21. p. 13, col. 5.
• ***Summary:*** Mr. and Mrs. Gusaf W. Lager (formerly of Superior, Wisconsin) recently celebrated their golden wedding anniversary in Burbank, California. They both came to Superior in the early days. "Mrs. Lager (Hilda Erickson) was one of the children who attended the little red school house in West Superior before the Matt Carpenter [school] was built. They were married here in 1899 and moved to California in 1940. Their daughter, Mildred Lager Jones, known in the nutritional field, is living in Los Angeles.

"After a family dinner, open house was held at the Lager residence, 1230 North Ontario street, Burbank, for their friends." Eastern visitors who attended the celebration were Mr. and Mrs. Adolph Erickson (Atkinson, Minnesota) and Mrs. Emma Oswell (Barnum, Minnesota); they are the brother and sister of Mrs. Lager. Also, Mrs. Alice Wondra (St. Paul, Minnesota), sister of Mr. Lager. And Mrs. Florence Anderson (Superior).

1606. Bragg, Paul C. 1949. Application for Social Security Account Number.
• ***Summary:*** Name: Paul C. Bragg. Mailing address: P.O. Box 310, Burbank, California. Age on last birthday: 54. Date of birth: Feb. 6, 1895. Father's name: Robert Elton Bragg. Paul is a white male. Address of employer: Health Science, Inc., 33 East Magnolia, Burbank, California. Today's date: Dec. 2, 1949.

Full name given you at birth: Paul Chappius Bragg. Place of birth: Batesville, Indiana. Mother's maiden name: Caroline Josephine Chappius. Write your name as you usually write it (his signature): Paul C. Bragg. Return completed application to nearest Social Security office.

Legacy. Go about 1/3 of the way down the page.

1607. *Healthful Living.* 1949-1951? Serial/periodical. Published in New York City by Faulkner & May, then by Faulkner Publications. Edited by Vic Boff. *
• ***Summary:*** Talk with Vic Boff. 1988. Sept. 26. This was a short-lived magazine, existing for only a few years. Charles Faulkner was the manager of one of Dr. Benedict Lust's stores. When Lust died in Sept. 1945, Faulkner started his own health business with Felix May, Faulkner & May Publications. When the partnership broke up, Boff became the editor.

Vol. 4 is 1950. Vol. 6 is 1951. Vol. 7 is 1951. Address: New York City.

1608. *Prevention.* 1949. Serial/periodical. Emmaus, Pennsylvania. Founded by J.I. Rodale. Monthly.
• ***Summary:*** Murray, Frank; Tarr, Jon. 1984. *More than one slingshot: How the health food industry is changing America.* See p. 55. This consumer magazine, published in Emmaus, Pennsylvania, has a monthly circulation of 3 million. It was started in 1949 by the late J.I. Rodale. His son, Robert Rodale, is the current editor and Marshall Ackerman is the publisher. Address: Emmaus, Pennsylvania.

1609. Judkins, Calvert Jay. 1949. National associations of the United States. Washington, DC: U.S. Department of Commerce, Bureau of Foreign and Domestic Commerce, Office of Industry and Commerce. 634 p. See p. xlix. * Address: U.S. Dep. of Commerce.

1610. Orton, Mildred Ellen. 1949. Cooking with wholegrains. 2nd ed. Weston, Vermont: The Vermont Country Store. 64 p. Introduction by Vrest Orton. Illust. Index. 20 cm.
• ***Summary:*** The first chapter, titled "The mystery of the mill," gives a good history of how and why wholewheat bread vanished from Western cultures and was replaced by white bread. In about the 1870s high-speed steel roller mills were developed that could grind wheat 100 times faster than traditional, slow stone mills. "The first complete automatic roller-mill was established in the United Kingdom in 1878 at Dublin, although the principle had been introduced into Scotland as early as 1872" (p. 6-7).

However, it was soon evident that the wheat germ gummed up the high speed rollers, and that its presence in the flour decreased the keeping qualities of the bread. So the millers found a way to screen out this germ by a series of graduated siftings. "This epoch-making discovery allowed the millers to expedite their operations, but more significant, they discovered that flour from which the live and perishable germ was screened out would keep indefinitely on store shelves. It is rather appalling to realize how easily the milling trade has succeeded these many years in keeping these facts from the public, both in America and Great Britain" (p. 7). Note: Ellen Orton was born in 1911. Address: Vermont.

1611. Walker, Norman Wardhaugh. 1949. Become younger. St. George, Utah: Norwalk Press. 204 p. Illust. 22 cm. Introduction by Howard John Zitko.
• ***Summary:*** Discusses vegetarianism, diet, naturopathy, and naturopathic healing. Chapter 1 is titled "You are Never Too Old to Become Younger." The book is written in an evangelistic style, with the words "Become Younger" appearing in bold type at least twice on each page. The author was born in 1876. Address: Doctor of Science, etc.

1612. *Consumers' Research Bulletin* (*Washington, New Jersey*). 1950. "Liquefiers," "liquidizers," or "blenders." Feb. p. 9-10.
• ***Summary:*** The following two brands are recommended: Osterizer (John Oster Mfg. Co., Racine, Wisconsin. $40. Weight, 9 lb. 9 oz.). Waring Blendor (Waring Products Corp., 545 Fifth Ave., New York 17, NY. $35. Weight, 9 lb. 4 oz.).

Intermediate recommendation: Universal Mixablend (Landers, Frary & Clark, 100 Center St., New Britain, Connecticut) $30. Weight, 8 lb. 11 oz. K-M Liquidizer (Knapp-Monarch Co., Bent Ave. and Potomac St., St. Louis 16, Missouri) $35. Weight, 8 lb. 1 oz. Not recommended: Kenmore Liquidizer (Sears-Roebuck's Cat. No. 34-08242) $18.50. Weight, 7 lb. 14 oz. An illustration shows each machine.

1613. Hauser, Gayelord. 1950. Look younger, live longer. New York, NY: Farrar, Straus and Co. x + 383 p. See p. 269-74, 287. 22 cm. [61 ref]
• ***Summary:*** This book praises soya flour, gives its nutritional composition, and calls for its extensive use in breads and other baked goods. "Notice the magnificent food content of a half-cup of soya flour, which is obtainable everywhere..." Recipes in which it is featured include Four-Star Soya Muffins, and Soya Wheat Muffins. There are also recipes for Toasted Soya Nuts, and Soya Grits.

Note: This is one of the most influential books in the American health food movement. Subsequent editions were published in 1951, 1952, and 1955. The author's full name is Bengamin Gayelord Hauser. His first book, *Health Cookery,* was published in 1930 in New York. His other books published before this one include *Eat and Grow Beautiful, Dictionary of Foods, Food Science and Health, Diet Does It,* and *Gayelord Hauser Cook Book.*

1614. *New York Times.* 1950. News of food: Few stores stock wheat germ, 2 other foods rich in nutrients. April 3. p. 23.
• ***Summary:*** Taking up a point emphasized by Dr. Clive M. McCay of the Cornell University School of Nutrition, this department of the *Times* checked on the availability of brewers' yeast, soy flour and wheat germ–each a storehouse

© Copyright Soyinfo Center 2021

of nutrients. "Dr McCay said recently that 'all three should be widely distributed and reasonable in cost.'"

"Most health food stores have soy flour and brewers' yeast in addition to the wheat germ; among them, Kubie Health Shop, 136 East 57th St., Damer's Natural Food Centre, 21 West 8th St, and All-Health Food Distributors, Inc., 123 East 34th St." The soy flour ranges in price from 19 to 29 cents a pound. When the nutritive value of wheat germ was first discovered, it was added to animal feeds.

1615. Manners, Marian. 1950. Old favorites get new menu twists. *Los Angeles Times.* Nov. 8. p. B2.
• ***Summary:*** The section titled "Baby foods handy" describes how you can make a refreshing drink by mixing a can of baby-food strained prunes with vanilla ice cream and other ingredients. "Shake well in a jar with a tight-fitting top or mix in an electric blender or liquifier."

1616. *New York Times.* 1950. Whole wheat gets champions in home: Some users of the flour tell how they can bake bread and cookies with it. Nov. 16. p. 37.
• ***Summary:*** "Several comments have been received from readers disagreeing with the advice recently given on this page to Mrs. M.G.S., who was having a 'frightful time' making breads and cakes with whole wheat flour." Last week it was suggested that white flour be added to whole wheat for bread, and that whole wheat flour not be used in cakes, which are supposed to have a light texture.

Mrs. D.F.Y. of Armonk, New York, disputes both points, and writes: "'I have found a specially ground whole wheat pastry flour that may be substituted for regular cake flour in recipes. It is prepared by El Molino Mills, 3072 West Valley Boulevard, Alhambra, California. While the cake is not quite as light as one made with white flour, it is very good and when you consider the tremendous improvement in nutrition, the slight loss in lightness is much less important.'"

1617. *Madison Health Messenger* (*Madison, Tennessee*). 1950. List of Madison Foods. Vol. 50-1. p. 1. Undated.
• ***Summary:*** Eight products are listed. The Messenger has now shrunk to one side of a half sheet of paper. We can date this issue in two ways. In the upper right hand corner the following is typed: "You are cordially invited to attend the special demonstration of Madison Foods in the Cafeteria, Tuesday November 21, 11:45 to 6:30. Premiums will be on display and free samples will be offered." "Special premium offer on reverse side." These premiums are gifts that can be obtained for money + labels. For example an Eskimo Whiz-Mix blender ($39 value) is available for $17.50 + 24 labels. It will be available after 1 Jan. 1951.

1618. *Vegetarian News Digest* (*Los Angeles*). 1950. How Annette Kellerman keeps fit. 2(2):5-6. Fall.
• ***Summary:*** Annette Kellerman, now in her 60s and living in Pacific Palisades, was a champion swimmer a generation ago and a physical culturist of today. "Never having tasted a cocktail nor having smoked a cigaret, this Australian-born example of clean living will tell you that she owes her splendid health to two things–good food and exercise." A famous doctor advised her to give up the rich French food her mother cooked, and meat. "She followed his wise counsel, and since then has touched neither alcohol nor meat. Thus she became a vegetarian at the tender age of seven, and remains one today.

In Australia, she holds swimming records for 2, 5, 20, and 13 miles. She became a champion when she was only 12. Today, she and her husband are proprietors of a health food store at 145 East 4th Street in Long Beach, California.

A photo, taken during World War II, shows Annette Kellerman in a swim suit.

1619. *Vegetarian News Digest* (*Los Angeles*). 1950. Partial list of health food stores and distributors selling the *Vegetarian News Digest.* 2(2):37. Fall.

1620. **Product Name:** Cubbison's Hollywood Cup.
Manufacturer's Name: Cubbison Cracker Co.
Manufacturer's Address: 3417-3419 Pasadena Ave., Los Angeles 31, California.
Date of Introduction: 1950.
Ingredients: California finest barley [roasted], tree-ripened sundried California [Black Mission] Figs, soya beans.
Wt/Vol., Packaging, Price: 1 lb paperboard carton.
New Product–Documentation: Ad in *Let's Live* magazine. 1945. Sept. p. 6. "Hollywood Cup: In place of coffee." The name and address of the manufacturer are not given.

Soybean Blue Book. 1950. p. 84. *Soybean Digest.* 1951 "Cubbison pushes soy on West Coast." July. p. 20, 22. "Even the Cubbison Hollywood Cup, a coffee substitute prepared with roasted barley, soy, and Black Mission figs has been touching new highs of popularity, judging from volume growth." A photo shows "Cubbison's Hollywood Cup" for use "in place of coffee." Ad (2¼ by 2½ inches) in *Let's Live* magazine. 1951. Jan. p. 24. "Hollywood Cup (contains no coffee or caffeine)."

Glossy undated black and white photo (8 by 10 inches) of package, with ingredients legible, sent by Leo Pearlstein. Probably taken in the early 1950s.

1621. *Dietetic Foods Industry* (*Renamed Health Foods Business in 1973*). 1950. Serial/periodical.
• ***Summary:*** Murray, Frank; Tarr, Jon. 1984. *More than one slingshot: How the health food industry is changing America.* See p. 54. "In the [health food] trade, the magazines include *Health Foods Business* (formerly *Dietetic Foods Industry*), which began publishing in 1950; the publisher is Howard I. Wasserman and the editor is Alan Richman. Headquarters is in Elizabeth, New Jersey.

© Copyright Soyinfo Center 2021

Talk with Howard Wasserman. 1988. Feb. 7. He bought the company and the magazine in 1972. In 1973 he changed the name of the magazine to *Health Foods Business* from *Dietetic Foods Industry.* He is quite sure it was never named *Health Food Business.*

1622. **Product Name:** Wheat & Soy Muffin Mix.
Manufacturer's Name: Madison Foods.
Manufacturer's Address: Madison College, Madison, Tennessee.
Date of Introduction: 1950.
New Product–Documentation: *Soybean Digest.* 1950. "Soy foods from a unique college." Nov. p. 14-15. A photo at the top of p. 14 shows a paper package of "Kreme O'Soy Muffins."

1623. Jensen, Bernard. 1950. Vital foods for total health with 150 health-building meals. Solana Beach, California: Bernard Jensen Products. 382 p. Illust. 22 cm. Reprinted in 1966 and 1980 (revised, but with the same number of pages and height). *
• ***Summary:*** On cover: "A cook book and kitchen guide."

1624. Los Angeles City. 1950. Index to register of voters: Los Angeles City Precinct No. 1486. Los Angeles, California. Los Angeles, California. 1 p.
• ***Summary:*** Names are listed alphabetically by surname. Under "Jones" we read:

"Jones, Edwin S., 123 N. Kenmore av. R [Republican].

"Jones, Mrs. Mildred Lager, 122 N. Kenmore av. R" [Republican].

1625. Eichberg, Joseph. 1950? The lecithin story–with a moral (Continued–Document part II). [Long Island, New York]. 10 p. Undated.
• ***Summary:*** (Continued): "These are some of the lines along which research can proceed. Another treatment involving hydroxylation has already resulted in a market for considerable quantities of lecithin at prices almost three times more than the same users, namely, bakers or bakery supply manufacturers, pay for the limited quantities of conventional lecithin purchased.

"Hydroxylation enhances the affinity for water, which is impeded in the ordinary commercial grade by the presence of the relatively large amount of carrier oil; however, there is still room for improvement in odor and taste. While special water-dispersible lecithins have been offered on the basis of adding to ordinary lecithin a minor amount of a powerful detergent, wetting agent, an emulsifier or combination of same, it is believed that permanent, substantial progress will more likely come through suitable treatment or modification of the lecithin per se. Not all such treatments involve chemical change for there are many possibilities in solvent fractionations.

"Using water and starting with the undried crude lecithin emulsion, procedures can be applied to cause separation of the bulk of the soybean oil leaving a sort of lecithin hydrate. This de-oiled hydrate appears to provide a valuable emollient action in soaps and shampoos where it does not affect clarity or aggravate rancidity problems (as happens if free soybean oil is present). It is also possible in such a water system to treat the crude lecithin emulsion without removing the oil in such a way as to wash out most of the naturally occurring carbohydrate and thereby materially increase the heat stability. This carbohydrate-reduced lecithin when heated directly or in oil solution does not show the darkening at temperatures around 200ºF. which at times proves a handicap with conventional lecithin.

"Classical solvent fractionation of crude or commercial lecithin preparations involves the use of acetone or alcohol or both.

"Extraction of ordinary soybean lecithin with acetone removes the oil and leaves the insoluble phosphatide complex behind. This process was used commercially as early as 1933 to make a cocoa butter lecithin for the chocolate industry–the natural carrier of liquid soybean oil was replaced by higher melting point cocoa butter. Since then, similar purified grades with other carriers adopted to various purposes have been developed and while the volume is not large as yet, profit margins on these special grades are inherently mere interesting than in the care of the run-of-the-mill lecithin which serves as the starting point.

"It is not necessary to add a carrier to the acetone purified phosphatides. This tan waxy substance may be dried directly [as] convenient in the form of a granule. The cost of producing granular phosphatides in purified form, usually about 95%, is such that use up to now has been limited, for the most part, to dietetic and pharmaceutical applications. Forty or fifty years ago in Europe, there was a vogue in lecithin for therapeutic purposes for a time but it seems to have been based more on wishful thinking than on sound clinical data. It is to be hoped that this mistake is not repeated here in attempting to exploit the interesting possibilities held out by the nutritive and physiological properties of soybean phosphatides–indeed, this is not likely in view of the rather strict regulation enforced today by the Food and Drug Administration and the Federal Trade Commission.

"Already a not inconsiderable volume of purified granular phosphatides is being sold in retail packages through drug channels, health food stores and most of these over-the-counter sales have resulted more from popularization than from any recognition of the virtues of lecithin by the medical profession; if lecithin is to have a real future in this field it is essential that the work already done on specific problems–such as skin disorders, fatty infiltration of the liver and vitamin A metabolism be greatly extended by fundamental clinical research under competent medical

© Copyright Soyinfo Center 2021

direction in conditions such as arthritis. The early hopes for lecithin in high blood cholesterol (hypercholesterolemia) atherosclerosis and cardio-vascular disease have not yet been realized and call for more study, much more, and perhaps a new approach in view of the fact that lipotropic agents, generally have not proved their value in practice and do not appear to be much used by cardiologists, while internists have reported that a diet adequate in protein does not benefit particularly by supplementation with lipotropic agent (such as choline, methionine, betaine or inositol) in liver insufficiency. It is important to remember that while the soy phosphatide complex possesses lipotropic activity of a high order, it is much more than a mere lipotropic agent.

"Future studies in the medical field should include an evaluation of the component fractions, essentially lecithin 'cephalin' and phosphoinositide, of the natural phosphatide complex. Such fractions. will undoubtedly also find commercial use and at prices reflecting a legitimate margin of profit. Extraction of ordinary commercial (oil-containing) lecithin with acetone can be followed by extraction with ethanol to produce alcohol soluble and alcohol insoluble fractions. Nearly all of the inositide goes into the alcohol insoluble while the soluble fraction is richer in phosphatidyl choline (lecithin). The two fractions, like the acetone insoluble complex, can be conveyed in different carriers depending on the end use. Furthermore, the chemically treated or water treated modifications above referred to can be subjected to these solvent purifications.

"Much applied research will be needed to develop data on new grades and find applications, but investment in this research is justified by the profits to be made. For example, enough glamour surrounds lecithin for the most poetic advertising man, but no soap manufacturer would feature lecithin unless supplied with some positive claim to make and evidence to back it up. A start has been made in recent laboratory tests, with animals where the skin was examined microscopically after treatment with standard soybean phosphatides and two specially prepared grades and decided differences were observed. There is a need in the cosmetic field for fewer generalizations on the subject of lecithin and more experimental data, but considering the relatively small volume no one is willing to make the outlays if all he can expect is to sell some thousands of pounds of conventional lecithin at virtually no profit.

"A processor cannot fix the price at which he buys his beans or sells his meal and oil and he is governed as much or more by forces without than within his industry. But in the case of lecithin, he could figure his cost on it in a normal way as one of the three primary products of processing, add a reasonable markup and then try to merchandise his product. However, as long as some processors are willing to sell on price and without regard to profit, the sale of conventional lecithin will continue to be pretty much of a 'rat-race' relieved occasionally by an unexpected external event such as the temporary shortage created by the Korean war [1950-1953]. There is the hope that demand for ordinary lecithin will increase, even though the present economics predict little promotion by the industry, as where a new or wider uses is found involving large quantities. Several occurrences of this sort simultaneously can soak up the existing surplus and firm up prices, although the industry has a lecithin production potential of about [?] lbs.

"There is reason to believe that applications for a large tonnage of regular commercial lecithin can still be found in the petroleum industry and that an increasing tonnage can be channeled into the feed industry and that these consumers are able and willing to pay a cent or two a pound more for lecithin to make the business profitable to the producers and distributors. The value of lecithin in milk replacers for young animals and in facilitating the absorption and utilization of vitamin A may be cited. The experimental demonstration that higher melting point fats are more digestible when lecithin is added should interest the Armed Forces in adding lecithin to emergency rations containing fats melting above body temperature (incidentally, commercial lecithin costs a good deal less than these hydrogenated fats).

"In fine, it can be said that we in 'lecithin' need morale as well as morals and that as for a moral we must realise that the future lies in imagination and scientific research and development rather than in chance and serendipity, always remembering that in spite of the accomplishments of the past 25 years, we have only scratched the surface."

Note 1. At the end of the document is written in by hand: "Obtained from his son, Joe Eichberg junior, Nov. 1999."

Note 2. The date of this undated document must be 1950 or later due to mention of the Korean War [1950-1953]. Address: President, American Lecithin Co, Inc., Elmhurst, Long Island, New York.

1626. Portrait of F.G. Roberts, soyfoods pioneer in Australia (Photograph). 1950? Undated.

• ***Summary:*** See next page. This 4-by-6 inch black-and-white portrait photo, taken in about 1950, shows F.G. Roberts (1892-1977) wearing a black bowler hat, a graying mustache, a dark pinstriped suit, and a dark patterned necktie. This photo was sent to Soyfoods Center by Paul Smith, President of Soy Products of Australia Pty. Ltd. (Bayswater, Victoria, Australia). Formerly F.G. Roberts Health Food Products (Melbourne).

1627. Milliron's. 1951. January white sale (Ad). *Los Angeles Times.* Jan. 1. p. 10.

• ***Summary:*** In this full-page ad, the section titled "Top quality electrical appliances for the home at low, low prices" shows 8 such appliances, including the "Electric 'Eskimo Whiz Mix' $21.95. Mixes, chops, liquefies all fruits, vegetables! Chrome finish. Easy-to-clean!" An illustration shows the machine.

© Copyright Soyinfo Center 2021

A similar ad appears in the Sept. 3 issue (p. B18) of this newspaper–but the price of the mixer is now only $19.95. Address: Broadway at Fifth [Los Angeles, California]. Phone: MA 7311.

1628. Beck, Mrs. Neill. 1951. Farmers Market today (Ad). *Los Angeles Times.* April 16. p. 4.

• ***Summary:*** There is a demand for specialty flours and grains. "Joe Alexander, manager of the market's fine big grocery store, has made an arrangement with the El Molino Mill–a doubly redundantly named firm with an English-Spanish name which, fully translated into English becomes The The Mill Mill."

The mill, located in Alhambra, makes a superior line of specialty flours, which are now available at Alexander's Grocery Store in the Farmers Market.

"Here's the morning line: Wheat Germ, Cracked Wheat, Cereal Wheat, Hulled Barley, Rye Flour, Rye Grain, Soy Bean Flour, Brown Rice Flour, Steel-Cut Oats, Old Fashioned Rolled Oats, Seven-Grain Cereal, Pure Eastern Buckwheat Flour, Buckwheat Groats, Stone-Ground Whole Wheat Flour, Old Fashioned 100% Stone-Ground Corn Meal, Yellow Corn Flour, Potato Flour, Graham Flour, Hominy Grits–and we hope you'll feel better real soon."

The Farmers Market is located on 3rd at Fairfax.

1629. Standard, Stella. 1951. Whole grain cookery: A gourmet guide to glowing health. New York, NY: The John Day Co. ix + 240 p. April 26. Foreword by Pearl S. Buck. No index. 21 cm.

• ***Summary:*** The basic message: Whole grains and their flours taste better and are better for you. The first third of this cookbook contains one chapter (with recipes) on each of the major cereal grains (rice, corn, oats, etc.) plus sunflower seeds. A middle chapter, titled "A miscellany of grains" (p. 111-38) gives recipes for gruenkern, oat grits, wheat grits, cracked wheat, bulghur, rye, rye grits, hominy grits, millet, pearl barley, barley flour, kasha (buckwheat groats), soybeans, etc. The last third is about baked goods, arranged by type (yeast breads, quick breads, hot breads, pancakes, cakes, pies, puddings, confections, etc.).

Chapter 12, titled "Whole grain," ends (p. 5) with a paragraph about the soy bean. It was introduced to the USA in 1804 "but was not cultivated extensively until after the First World War." There are 2,000 varieties. "It is becoming more and widely used as a food in various forms because it is so rich in proteins, fats, minerals, and vitamins. It is also used in the manufacture of many goods, besides its great importance as a food."

Soy related recipes: Soy grits in consommé (p. 129). Baked soybeans (p. 135-36). Fried soybean sprouts (p. 136). Soya and whole wheat bread (p. 151-52). Orange, oatmeal, and soy flour bread (p. 160-61). Soya, rye, and oatmeal flour bread (p. 161). Soya and cornmeal bread (p. 177-78). Soy sauce is used in several recipes (p. 17, 29, 114, etc). Many recipes contain meat, fish, or poultry. Address: [USA].

Connecticut. El Molino Mills, 3072 West Valley Boulevard, Alhambra, California.

1631. Jones Health Foods. 1951. Classified ad: Personals. *Los Angeles Times.* July 18. p. A8.
• ***Summary:*** "I was wrong! I overstocked Eskimo Whizmix Liquifier for only $18 + tax. Regularly sells for $29.50. Mail or bring this ad to Jones Health Foods, 322 So. Hill." Address: 322 So. Hill [Los Angeles].

1632. Photographs related to Sophie Cubbison and the Cubbison Cracker Co. of Los Angeles. 1951. Undated.
• ***Summary:*** See also next page. The following undated black-and-white photos were donated to Soyfoods Center by Leo Pearlstein of Lee and Associates in Los Angeles, a long-time friend of Sophie Cubbison:

(1) Packages of Cubbison's Melba Wheat Soya Toast, Hollywood Cup ("in place of coffee"), and Wheat Soya Pie Crust Mix (glossy; photo published in *Soybean Digest*, July 1951).

(2) Portrait photo of Mrs. Sophie C. Cubbison dressed in a dark business suit with white pin stripes (published in *Soybean Digest*, July 1951).

1633. *Soybean Digest.* 1951. Cubbison pushes soy on West Coast. July. p. 20, 22.
• ***Summary:*** A growing number of small specialty companies in the USA are helping to popularize "soya food products. Some of them have been highly successful, starting first in the health food field and then moving into general distribution.

"Typical of these companies is the Cubbison Melba Toast and Cracker Co. of Los Angeles, headed by the aggressive and sales-minded Miss Sophie C. Cubbison. Its products have been known in Southern California for 20 years. They have been sold in all the leading health food stores from coast to coast and more recently have flowed over the counters of regular food stores in that state."

Cubbison's popular Wheat Soya Toast is rich in soy flour, which makes it high in protein and "helps alkalize the wheat starch." The slow toasting process converts the starch to dextrines, which are more easily digested and assimilated. Also popular are Cubbison's Wheat Soya Cookies, Wheat Soya Pie Crust, and the Cubbison Hollywood Cup (made with roasted barley, soy, and Black Mission figs).

Photos show: (1) Sophie C. Cubbison. (2) Packages of Cubbison's Melba Wheat Soya Toast, Hollywood Cup ("in place of coffee"), and Wheat Soya Pie Crust Mix.

Note: This is the fourth in a series of articles by the Soya Food Research Council.

1634. *New York Times.* 1951. U.S. again seizes book by Gayelord Hauser. Aug. 16. p. 21.
• ***Summary:*** The U.S. Food and Drug Administration announced today that it had seized Gayelord Hauser's book, "Look Younger, Live Longer," and the Plantation blackstrap molasses exhibited with it at a store in Rochester, New York. The FDA claimed that the book constituted a mislabeling of the molasses.

The first such seizure was dismissed in April by the U.S. District Court in Buffalo by Judge Harold S. Burke on the motion of the publisher that the book did not constitute a labeling of the molasses.

Hauser's book lists molasses, a residual by-product of making sugar from sugar cane, as one of five "wonder foods" which Hauser recommends for daily use. The other four are brewers' yeast, powdered skim milk, yogurt, and wheat germ.

Note: It seems that the store owner, not Hauser, caused the problem. Address: Special to the New York Times.

1635. Wickes, Mary Ellen. 1951. Garden-fresh cooking. *Los Angeles Times.* Sept. 9. p. H20.
• ***Summary:*** This article begins: "'The principal weakness in American cooking,' says Adelle Davis in her book *Let's Cook It Right*, 'lies in the preparation of vegetables. As they are customarily cooked, much of their flavor and 50% to 90% of many nutrients are lost before they reach the table.'

"Since vegetables are eaten primarily for their vitamins

and minerals, the wise homemaker, with the health of her family foremost in her thoughts, does all she can to preserve them." Address: Marion Manner's staff.

1636. Whole Grain Flour Mills. 1951. Deaf Smith health foods (Ad). *Organic Farmer* (*The*) 3(2):1. Sept.

• ***Summary:*** "Now! Enjoy a higher level of vigorous, disease resistant health with delicious flours, cereals, and unique, skillfully blended meals made from Deaf Smith County Wheat organically grown in the rich, fertile soil and healthful waters of Hereford, Texas, the famed 'Town Without A Toothache.' This wheat has an amazingly high percentage of calcium, phosphorus, from six to nine times the amounts found in the average flour. Bread baked from stoneground Deaf Smith Wheat has a flavor and health value superior to any other known. Free recipes and an interesting story on 'The Most Expensive Bread in the World' included with order. Order Today!"

The following products are available: Deaf Smith cracked wheat. Deaf Smith bread flour. Deaf Smith laxa-meal. Potato meal. Deaf Smith Vita-Meal. Deaf Smith wheat berries.

"Special selected natural foods.

Organic cake flour. Hulled millet seeds. Natural brown rice.

50-50 Sesame-sunflower meal. Soybean flour. Hulled sesame seeds

Whole rye flour. Organic sunflower seeds. Flaxseed meal.

Millet-ses-sun cereal. Yellow corn meal (Stoneground). Scotch steel-cut oats.

Pure raw wheat germ. Crude black molasses ("Delightful tasting, superior to Blackstrap"). Crude dark raw sugar ("A real raw sugar that is rich in natural un-fired molasses").

How to eat safely in a poisoned world." Right living series ("32 booklets, 1,024 pages, written from a unique Christian viewpoint"). Washed raw sugar.

Concerning the "Soybean flour–Starch-free alkaline reaction.–Richest in protein of all known foods. High in calcium, phosphorus and potassium. Use in making soymilk, bread, muffins, and cookery for added protein. 3 lbs. 85¢. 6 lbs. $1.65."

This ad also appeared in the next 3 issues of this magazine, right after the title page, and in the Jan. 1952 issue (Vol. 3, No. 6).

Note: A surprise to find foods grown in Deaf Smith County being sold as natural, whole health foods almost 20 years before Frank Ford and others founded Arrowhead Mills–for the same purpose. He too was a devout Christian. Is there any connection between this 1951 venture and Frank Ford? Address: 2611 N. Jones St., Chicago 47, Illinois.

1637. Natural Foods. 1951. Which do you want–Modern or old fashioned methods? (Ad). *Organic Farmer* (*The*) 3(4):11. Nov.

• ***Summary:*** This ¼-page ad is for the Vita-Mix blender, a small photo of which is shown.

"Vita-Mix makes it easier to get essential vitamins and minerals from fruits and vegetables. Only machine with stainless steel bowl and Bakelite handle. Only $29.95.

"Self-cleaning–Add soap, water, turn on.

"In preparing food the ordinary way you peel off and throw away many of those vitamin and mineral filled parts which are so essential to good health. With the Vita-Mix you keep All the natural health-giving food value. Liquefies, whips, chops, emulsifies all fruits and vegetables into tangy, appetizing drinks. No cooking, juicing or peeling of rinds necessary. Now has new unbreakable stainless steel bowl. Easy to sterilize. Comes with a One Year Guarantee.

"Look what Vita-Mix does: Makes health drinks in 1 to

"Recipe Book $0.55

"Vita-Mix $34.95

"Value $40.79.

"You pay $29.95

"You save $10.84.

"Order now–Before rearmament stops all production."

Note: This ad also appeared in the Feb. 1952 issue (p. 7). Address: Olmsted Falls, Ohio.

1638. Dohrmann's. 1951. We took Santa's advice–to electrify your gift list with the best–at $1 down $1 a week (Ad). *Los Angeles Times.* Dec. 3. p. B6.

• ***Summary:*** The 12 electric kitchen appliances in this display ad include: Osterizer, chrome base–$44.95. Toastmaster toaster. Sunbeam Coffee Master. Dohrmeyer Mixer. Nesco 6-quart Cooker. General Electric Automatic Grill. Each is illustrated and its price is given. Address: 510 West Seventh St., Los Angeles, California. Phone: TRinity 1331 or ZEnith 2224.

1639. *Chicago Daily Tribune.* 1951. Orders $10,000 bonds of Estep, wife forfeited. Dec. 20. p. C10.

• ***Summary:*** "The $10,000 appeal bonds of William (Old Doc) Estep, 55, and his wife, Dora, 49, were ordered forfeited by Chief Justice... The action was taken because the Esteps, convicted of medical quackery in June 1950, violated the terms of their bonds by leaving Illinois without permission and getting into the same kind of trouble in Amarillo, Texas."

The manager of the Amarillo Better Business bureau "said Estep called himself a professor, former president of the American Health Food association [which he was not], dean of the Texas College of Drugless Physicians and Surgeons, and 'a renowned author and scientist.'" Photos show William Estep and his wife, Dora.

1640. **Product Name:** Cubbison's Wheat Soya Pie Crust Mix.
Manufacturer's Name: Cubbison Melba Toast and Cracker Co.
Manufacturer's Address: 3417-3419 Pasadena Ave., Los Angeles 31, California.
Date of Introduction: 1951.
Ingredients: Incl. wheat pastry flour and soy flour.
Wt/Vol., Packaging, Price: 10-oz cellophane bag.
How Stored: Shelf stable.
New Product–Documentation: *Soybean Digest.* 1951 "Cubbison pushes soy on West Coast." July. p. 20, 22. "Housewives have been especially enthusiastic about the Cubbison Wheat Soya Pie Crust. This product is a combination of wheat pastry flour and soy flour, thoroughly blended with 100 percent hydrogenized vegetable shortening. The result is a very tender pie crust, packaged in nine-ounce cellophane printed bags." A photo shows Cubbison's Wheat Soya Pie Crust Mix.

Glossy undated black-and-white photo (8 by 10 inches) of package, ingredients not legible, sent by Leo Pearlstein. Probably taken in the early 1950s.

1641. **Product Name:** Soyvita (Roasted Full-Fat Soya Flour).
Manufacturer's Name: F.G. Roberts' Health Foods.
Manufacturer's Address: 40 Chapel St., St. Kilda (a beach-side suburb of Melbourne), Victoria, Australia.
Date of Introduction: 1951.
Ingredients: Soybeans.
New Product–Documentation: *Soya Bluebook.* 1981. p. 62; 1987. p. 75. Enzyme active full fat flour for bakery industry; heat treated soy flour for use in cakes, biscuits, doughnuts, confectionery, pies, sausages, and hamburgers.

Letter from Paul Smith of Soy Products of Australia Pty. Ltd. 1981. "Vincent R. Smith was a soyfoods pioneer in Australia. In 1951-52 he began to manufacture Australia's first whole (full-fat) heat-treated (debittered) soy flour." In 1956 he founded Soy Products of Australia Pty. Ltd.

Letter from Paul Smith. 1995. March 14. "Soyvita has only ever been used as a tradename for debittered full fat soy flour since 1951. Initially it was made using imported soybeans, but from 1954 it was made from Australian-grown soybeans. The tradename 'Soybake' was used for the same product packaged under the H.J. Langdon's name and address from 1955 to mid-1991, when it was abandoned due to a rationalisation of packaging and product lines. H.J. Langdon now buys the product in the 'Soyvita' packaging."

Letter from Paul Smith. 1995. April 11. Soyvita has never been used as a brand name for the retail health food products. It has only ever been used for the commodity type product which has been sold under the name and address of Soy Products of Australia Pty. Ltd. since September 1957. Prior to that the "Soyvita" name was used with/under the F.G. Roberts company name and address. "Soyvita" was only available to commercial users, therefore there was no point or interest in advertising it in *Nature's Path to Health.*

1642. **Product Name:** Bob Hoffman's Hi-Proteen [Powder].
Manufacturer's Name: Hoffman Products. Subsidiary of York Barbell Co.
Manufacturer's Address: North Broad St., York,

© Copyright Soyinfo Center 2021

Pennsylvania.
Date of Introduction: 1951.
Ingredients: Soy protein [probably soy flour initially], and dried milk solids [non-fat dry milk].
How Stored: Shelf stable.
New Product–Documentation: Talk with Betty Seroy. 1988. Sept. 23. The first protein powder in the health food trade was made by Hoffman Products, run by Bob Hoffman, who was an Olympic champion weight lifter. He had a line of products for weight lifters from soy. They were kind of rough to taste. So many of the early products were that way. Ad in Natural Foods Merchandiser. 1988. Aug. Hoffman Products. A Div. of York Barbell Co., Inc., Box 1707, York, Pennsylvania 17405. Phone: 800-358-9675. Talk with John Terpak who has been with the company for about 50 years.

Talk with Ben Kahan. 1988. Sept. 24. The earliest protein powder was introduced by Bob Hoffman. The company was York Barbell Co. in York, Pennsylvania. He was big on powdered mixes. He was the father of American weight lifting, and softball games for teenagers. He has a museum. Johnny Terpak, who was Bob Hoffman's right hand man for many years, has a world of information. He thinks it was soy protein. Later he had high protein powder, tablets, and high-protein candy bar. They didn't taste as good as they do today but it was the most popular protein supplement in its day. Joe Weider came out with similar products 2-3 years later.

Talk with Johnny Terpak. 1988. Sept. 27. Mr. Terpak started working for Bob Hoffman in 1935. The product was called Bob Hoffman's Hi-Proteen. It was sold originally as a powder, and shortly afterwards in tablets. It was launched in 1951 at a health food show in Florida by Hoffman Products, a subsidiary of York Barbell Co., which had been in business since 1932. He does not know from whom they bought the soy protein but he knows they did buy it; the names Glidden and Central Soya are both very familiar. The ingredients were soy protein and dried milk solids (non-fat). There was no flavoring initially; vanilla and chocolate were added several years later, followed by carob. Bob was a great promoter. He used to say that you could flavor his protein powder to your own taste. Later there were gain weight products. Initially it had not contained vitamins, minerals, or nutritional yeast. He will check their magazine *Strength and Health* (started 1932) for ads. Born in Nov. 1898, Bob Hoffman was not an Olympic weight lifter, nor an official Olympic coach, but he did help coach and finance the Olympic weight lifting teams at the 1932 and 1936 Olympics. Many of the members of the U.S. Olympic weight lifting team were York Barbell lifters. He was their year-long coach at his club. Originally his main business was selling barbells and related equipment. That expanded into publishing and products.

Talk with Ed Meyer of Central Soya. 1993. April 7. The original source of protein in this product was probably a very finely milled defatted soy flour, which was widely available; it could not have been a soy protein isolate, since no food grade soy isolate was available until Promine was introduced in Oct. 1959.

1643. Abrahamson, E.M.; Pezet, A.W. 1951. Body, mind, and sugar. New York: Henry Holt & Co. ix + 206 p. Illust. No index. 22 cm. [146* endnotes]
• ***Summary:*** Contents: Introduction. 1. "... But I cannot name the disease." 2. The old: Diabetes. 3.–and the new: Hyperinsulinism. 4. Sneezes, wheezes, aches, and pains. 5. Body, mind and sugar. 6. Alcohol and alcoholics. 7. The glandular jazz band. 8. Hyperinsulinism–Key to many doors. Notes.

"Since physicians are required to report only communicable diseases, statistics on those suffering" from other afflictions are not available. There are about 4 million alcoholics (compulsive drinkers of alcohol) in the USA. Indeed, there are many mysterious diseases and conditions, happenings and questions that appear utterly unrelated. "It is the purpose of this book to show you their very close relationship..." (p. 2-3). This book should be of personal concern to more than ten million people, perhaps as many as 30 million. "Body and mind are inseparably interrelated. The mechanism of their relationship is to be found in the nervous system and the ductless glands. This book is about the extraordinary part that blood sugar plays in the mechanism that keeps body and mind in healthy balance" (p. 4-5).

About the authors (p. 5): Abrahamson received his doctorate in chemistry in 1922 and medicine in 1926. Author of *Office Clinical Chemistry* (Oxford University Press, 1945), more than 20 of his papers have been published in medical and chemical journals. "A specialist in diabetes for many years, he has devoted much of his efforts toward clinical research and treatment in hyperinsulinism." Pezet, who "was trained at Massachusetts Institute of Technology and at Harvard University is a professional writer of both fiction and non-fiction. In the latter field he has specialized in writing on medical and other scientific subjects for the layman."

"This book was conceived through a doctor-patient relationship–Abrahamson having diagnosed Pezet and his wife as being victims of hyperinsulinism." Pezet showed deep interest in this diagnosis. and ensuing treatment "Why had he wandered through countless consultations and diagnoses and treatments for more than a decade without relief from his curious symptoms? Why was so little known about a disease condition that affected millions? Why had so little information reached the practicing physician? Why?" (p. 5). Address: 1. M.D. 2. Professional writer. Both: New York City, NY.

Address: Los Angeles, California.

1645. India House, grand opening by Yogananda's Self Realization Fellowship (SRF) in Los Angeles (Photograph). 1951.
• ***Summary:*** India House is a vegetarian restaurant located at 4860 Sunset Blvd., Los Angeles, California. This photo shows the grand opening, with 3 palm trees along the street, three cars (including one Cadillac from the 1950s) parked along the sidewalk, an American flag at half mast by the side of the restaurant, and about 100 people, all dressed formally, standing on the sidewalk outside the restaurant.

Note: We know that India House was open by March 1952, for it is mentioned in Yogananda's obituary; he died on 7 March 1952.

1646. Kiger, Jean. 1951. La biscuiterie, patisserie et boulangerie industrielles et les produits de régime: Matières premières, fabrications, analyses [Industrial production of cookies, pastries, breads, and health food products: Raw materials, manufacture, and analyses]. Paris: Girardot et Cie. 557 p. Illust. 25 cm. [Fre]
• ***Summary:*** Soy-related products are discussed on the following pages: Three types of soy flour (p. 111-12). Soy oil (p. 204). Lecithin (p. 323-25). Dry soy albumin (p. 343). Soybeans as a source of calcium and phosphorus (p. 306). Vitamins in soy oil (p. 380-81).

"Published with the cooperation of the *Revue Spéciale de Biscuiterie et Produits Similaires*." The author was born in 1913. Address: Docteur en Pharmacie, Docteur de l'Univ. de Dijon.

1647. Orton, Mildred Ellen. 1951. Cooking with wholegrains. New York, NY: Farrar, Straus and Young, Inc. 64 p. Illust. Recipe index. Introduction by Vrest Orton.
• ***Summary:*** "In 1946, Vrest and Mildred Ellen Orton opened the Vermont Country Store in Weston, stocking it with foods and specialized goods that had largely disappeared from modern stores."

The introduction, titled "The mystery of the mill," by Vrest Orton discusses: (1) Meaning of the words "wholegrain" and wholewheat" and their shrewd manipulation by millers, bakers, and their advertising agents. (2) The decline of the French Buhr mill (with a pair of slowly turning granite stones) and the rise of the high-speed, automatic roller mill (consisting mainly of a pair or fluted or grooved metal rollers; introduced in Scotland in 1872, and in the United Kingdom at Dublin in 1878). (3) The new roller mills produced flour about 100 times as fast as the old stone mills. "Yet the very slowness of the stone mill constituted its chief value as a food producing tool. The rich germ of the grain kernel has an oil that is susceptible to rancidity when heated in grinding, and if so heated clogs up grinding surfaces." So the millers sifted it out, and soon discovered "that flour from which the live and perishable germ was screened out would keep indefinitely on store shelves." The milling trade has been very successful in keeping these facts from the public. Even the *Encyclopedia Britannica* blurs the facts. (4) The low nutritional value of germless refined white bread. The present "wholegrain revival." (5) The strange concept of "enriched bread." (6-8) Possible explanations for the popularity of white breads and other baked goods.

Soy-related recipes include (page nos. in 1995 North Point Press ed.): Oatmeal and soy flour quick bread (p. 36). Soy flour muffins (p. 41). Soy flour and wheat biscuits (p. 45-46). Address: Weston, Vermont.

1648. Rombauer, Irma S.; Becker, Marion Rombauer. 1951. The joy of cooking. Indianapolis and New York: Bobbs-Merrill Co. 1011 p. Illust. by Ginnie Hofmann. Index. 22 cm.
• ***Summary:*** This is the earliest known Rombauer-Becker edition of this famous cookbook. Marion Rombauer Becker is the daughter of Irma von Starkloff Rombauer. A large percentage of the recipes contain meat, fish, or poultry. Soy-related recipes and descriptions include: Soybean cheese [tofu] (p. 192, made from soybean milk curded without a coagulant like cottage cheese. Season with salt, cinnamon or chives, and caraway). Suggestions for the use of soybeans (similar to the 1943 edition) with the following recipes for cooked soybeans: Soybean loaf. Soybean dinner in one dish. Soybean soufflé. Soybean salad. Then some ideas for "Peanuts as a meat substitute." Soybeans (p. 269; "Young vegetable type, not field varieties of beans, must be used. The pods should still be green"). Roasted soybeans. Cooked dry soybeans (p. 269). Sweet and sour milk substitutions and equivalents (p. 502-03; "If you use Soya Milk, page 817, substitute 1 cupful for 1 cupful of milk"). Soya bean milk (p. 817).

There is a nice, early chapter titled "The Electric Blender" (p. 895-98), which begins: "Throw away your tamis cloth and hair sieve, if you still have these relics of a by-gone age, and replace them with a piece of equipment that makes them obsolete, the electric blender." Includes 4 paragraphs about blenders. This chapter includes recipes for cocktails, cream soups, eggnog, beverages (incl. cold fruit sherbets and a "Blender health drink"), puréed vegetables, custard, and ice creams. For the sherbets: "A fairly creamy result comes from a fresh peach, a banana or canned pineapple juice. A velvety concoction is: 1 small banana, 1 cup milk. Add vanilla or rum, no sugar needed. You may add to this 1 tablespoonful chocolate sirup [syrup] or 4 tablespoonfuls vanilla ice cream. Also try stewed or canned apricots with milk, apricot, pineapple and lemon juice with cracked ice cubes, frozen strawberries with sour or sweet cream."

The chapter titled "Nutrition and calorie chart" states (p. 931): "Proteins are known to contain amino acids. These complex acids are still being studied by chemists, but it is

© Copyright Soyinfo Center 2021

known that some of them are essential to growth and life. All of these acids are not found in complete form in all protein foods. They are most fully represented in meat, fish, eggs, milk and cheese. They are present but less well represented in nuts, legumes and cereals. Since the vegetable groups are incomplete in themselves, it is wise to draw half to two thirds of the daily protein intake from the animal sources given above."

Note 1. In the *Betty Crocker Picture Cook Book* (1950, General Mills), no mention is made of the electric blender. A hand-turned rotary beater is used to make a milk shake.

Note 2. In *Joy*, there is no index entry for milk shake, or organic (as "organic gardening"), or vegetarian. Address: 1. St. Louis, Missouri; 2. Cincinnati, Ohio.

1649. Shelton, Herbert M. 1951. Food combining made easy. San Antonio, Texas: Published by the author. 71 p. Illus. No index. 20 cm.
• ***Summary:*** Contents: Introduction. 1. Foodstuffs classified. 2. Digestion of foods. 3. Right and wrong combinations. 4. Normal digestion. 5. How to take your proteins. 6. How to take your starch. 7. Eating fruits. 8. Eating schedule for a week. 9. Remedying indigestion. 10. The hygienic institution.

Soy beans, which are classified as proteins (along with most nuts, all cereals, peanuts, etc.) are discussed on p. 10-11. Soy oil is classified as a fat (along with all other fats, p. 11). Address: N.D., San Antonio, Texas.

1650. Shelton, Herbert M. 1951. Superior nutrition. San Antonio, Texas: Published by the author. Illus. No index. 20 cm. *
Address: N.D., San Antonio, Texas.

1651. **Product Name:** Dr. Bronner's Balanced Mineral Salt (Powdered).
Manufacturer's Name: Dr. Bronner & Associates.
Manufacturer's Address: 447 South Hope St., Los Angeles, California. Phone: 619-745-7069.
Date of Introduction: 1952 January.
New Product–Documentation: Talk with Dr. E.H. Bronner himself. 1990. Feb. 8. He is a rabbi and soap maker, age 82. He introduced this powdered product in Jan. 1949. He was born and raised in Germany, in a family of soap-makers. The first soap plant was started by his grandfather. He is a nephew of Albert Einstein. Neither a PhD nor an M.D. (physician), he has a German doctor of chemistry degree (SSMC: Seifensieder Meister Chemiker, or SMMC: Soap Maker Master Chemist, recognized by the American Chemical Society). He came to America in 1929 and became superintendent of a large soap plant in Pennsylvania. From 1929 to 1944 he built 3 soap factories in America.

His discovery of this product went through at least 6 steps, but there were two main ones. First, in 1933-34, when Hitler came to power and German imports were unpopular in America, he began to look for potassium salts (potassium hydroxide) for soap making. The imported German potassium source made a better product. He found a natural mineralized dulse (that had been overlooked by others) which he used with good results in his soaps.

Second, in 1938, as a young man with 3 lovely children, he had dental plates–he had lost his teeth. His body had craved calcium since he was a young boy in Germany and he would eat eggs with the shells. In 1941 he read the front-page headlines about "The town without a toothache," Hereford, Deaf Smith County, Texas. The American Dental Association (83rd annual convention, Houston, TX) discovered that the high calcium, phosphorus, magnesium, vitamin D, and fluoride content of the food and water was instrumental in preventing tooth decay. That article plus his own personal experience led him to believe that there was a great need for a balanced mineral seasoning that contains calcium, phosphorus, magnesium, potassium, sodium, iodine, iron–all the minerals in the right proportion. He wanted to make both a seasoning and a mineral / vitamin supplement that was a balanced food. He started by using what the Romans called *sal digestivus* or "digestion salt," a red mineral salt containing potassium, sodium, iron, chloride, found in deposits on the surface of the earth, produced by Chief Chemist God from ocean dulse (a sea vegetable), i.e. mineralized dulse. He uses it to this day as the source of potassium in his mineral seasoning. The only ingredient listed on the original product was "mineralized dulse." This innovative ingredient became the key ingredient in his various products. In about 1952, to add more flavor, he first began to add a powdered HVP (made by hydrolysis of corn, whole wheat, and soybeans), which he bought as powdered HVP (from a company whose name he no longer remembers and which no longer exists) and blended it with the minerals and vitamins in the right proportions. HVP was developed in America in the 1930s and became commercially available in the 1940s. His present source of HVP is a "military secret." This powdered mineral seasoning was his first soy product. It got off to a very slow start. This product (which still exists) has remained basically unchanged since 1952. It and its liquid counterpart are doing well, especially considering the fact that he has no salesmen and no advertising. His original company was located on Hope Street (at 5th and Hope) in Los Angeles, in a 10-story building. In 1955 he got his current building at Box 28, Escondido, CA 92025. From 1955 to 1962 he commuted between the two locations and in 1962 moved everything to Escondido.

He became a rabbi in 1962-63 after a lecture in Watts, the black ghetto near Los Angeles. The 200 blacks applauded but a white man shouted: "You stole that brilliant speech. You stole it from Rabbi Hillel's 2,000 year old Torah. You stole it." Hillel was a top man in the Dead Screen Scrolls. Hillel said that "A great teacher must first a self-supporting,

© Copyright Soyinfo Center 2021

creative handworker be." Otherwise he can be bought and sold. In about 1963 he changed the name of his company from Dr. Bronner & Associates to All God One Faith, he changed the name of this product to Dr. Bronner's Balanced Mineral Seasoning, and he began to add spiritual messages to the labels of his products. But only the quart sizes are large enough to contain his full message. The pint is too small to make sense.

From 1949 to about 1970, 90% of his sales were food products. From 1970 on, about 90% of his sales have been his soaps and the food is only 10%.

Today Dr. Bronner is totally blind. In 1944 he buried his wife in central Illinois. Weighing 71 pounds, her jaw bones broken, she had been beaten and starved to death by Jewish people. She was German Catholic and he is German Jewish. In 1941 he lived in Chicago as director of research for a soap and perfume company. A relative wired him for funds (which he did not have) to save their mother from the Nazis. His wife tried to commit suicide, so she was sent to a state hospital where Jewish refugees were in charge. The day before she was to go home, she was forced to do demeaning work by a a Jewish doctor. She refused and said "No you damned Jew." The doctor sent her to a ward where she was further starved and beaten. *Readers Digest* (Feb. 1962) did an article on the subject, titled "The progeny of the same people who get put away." Now Dr. Bronner began to investigate what was going on and to speak on peace. At the University of Chicago he was captured as a Jew and for 3 months was unconscious and almost dead, having been given shock treatments that burned the back of his eyes. He escaped from that place in Central Illinois and fled to California to forget the whole thing. Between 1971 and 1973 he went blind from the electrical shock. He has two sons: A teacher in Milwaukee, and chemist in Glendale, California. They will continue his business. Though Hitler killed 6 million Jews, the Soviet Communists, especially Stalin, killed 66 million people, including 16 million Jews. Today there is a great danger of a nuclear warehouse exploding; it would destroy the world. Dr. Bronner says that no good, in-depth article has ever been published about his work with food.

Paul Bragg was a brilliant lecturer and personal friend of Dr. Bronner's. His product was introduced after Dr. Bronner's, in about 1955.

1652. *Alpine Sun* (*Alpine, California*). 1952. Irvine's health & success books (Ad). 1(1):4. Feb. 14.
• ***Summary:*** This tiny (1 by 2¼ inch) ad states: "Latest on health, nutrition, beauty, child care, success, metaphysics, organic gardening. Send for free 12-page list."

Talk with Alice Marks Irvine, Clarke Irvine's wife. 2004. Feb. 23. When she and Clarke moved to Alpine, Clark continued to run his mail-order book shop as he had for many years in Hollywood. It was another source of income and another "iron in the fire." He continued to own a large personal library, which was separate from his book business.

1653. *Alpine Sun* (*Alpine, California*). 1952. Classified: For rent–Trailer space (Ad). 1(1):7. Feb. 14.
• ***Summary:*** This tiny (5/8 by 2¼ inch) ad states: "Adults only, quiet, scenic, clean, modern. A health resort for retired, non-smoking and non-drinking folk. Reservations. No animals. Reasonable. 1½ miles to Alpine. Trailer Estates, Tavern Rd."

Talk with Alice Marks Irvine, Clarke Irvine's wife. 2004. Feb. 23. Clarke Irvine apparently moved his trailer from Los Angeles to Alpine, but he did not live in it or in the trailer park he owned and managed on Tavern Rd. near Alpine. He is advertising for other trailer-dwellers to come to his trailer park.

1654. Irvine, Clarke. 1952. A new community spirit is born here today. *Alpine Sun* (*Alpine, California*) 1(1):5. Feb. 14. Thursday.
• ***Summary:*** This article appears in the first issue of the *Alpine Sun*, a tiny (8½ by 5½ inches) newspaper, 8 pages long, started, edited, and published by Clarke Irvine and his family. Just below the title on page 1 we read: "Best climate in the U.S. by government report." Alpine is situated in a "lovely part of San Diego's mountains..." Irvine describes himself in this article as a "veteran newsman, traveler, lecturer, and businessman. He is not a newcomer to Alpine, having first lived here in 1937, returning three years ago [1949] with his wife and three daughters. Irvine is a navy veteran of World War I." The *Sun* is "indeed a free press, a most precious American liberty. It will impersonally report local news with fidelity, but without bias or partisan feeling. It is your paper, a sort of public utility."

The masthead on the back page states that this newspaper is published fortnightly (once every 2 weeks) by Irvine Press, Route 1, Box 191, Alpine, CA [California]. Blanche McCall and Alice Irvine are the two reporters. "Varityper composition. Multilith offset process. Where sunshine spends the year."

1655. Pacific Vital Foods. 1952. Display ad: A smart new health food shop comes to 358 So. Broadway–near Fourth St. *Los Angeles Times.* May 12. p. B7.
• ***Summary:*** A large ad. "Finest unsulphured sun-dried fruits organically-grown. Meat substitutes. Vegetable juices. Pure fruit juices... Whole grains. Natural vitamins. Gayelord Hauser "Wonder Foods." Health Books..." Address: 358 So. Broadway (near Fourth), Los Angeles.

1656. Organic Products. 1952. New Whiz-Mix: Mixes, juices, chops, liquefies, emulsifies (Ad). *Organic Farmer* (*The*) 3(11):10. June.
• ***Summary:*** "Truly wonderful electrical aid to better

nutrition. Only $25.50.

"Does everything any similar appliance at any price can possibly do... yet think of it!... sells for only $25.50.

"Space just won't permit listing the hundreds of valuable uses for this sensational new appliance. The possibilities are almost endless. If you've looked at other units... at up to 100% higher price... you'll know what Whiz-Mix can and will do.

"Whiz-Mix is superb in quality. Has chrome plated base; acid resisting, non-tarnishing stainless steel bowl (shaped Square for more thorough mixing and to prevent 'swirling' over top); stainless steel top. Stands only 14 inches high but has full one quart capacity. Operates on 115-volt AC or DC current.

"Free with your order:

"Recipe Book with many delicious and healthful food combinations! Also... Electric Odor Master–banishes odors electrically. Just plug in ordinary wall socket. Costs less than 1¢ a day to operate. Given if you order directly from this ad with coupon on right. Try the Whiz-Mix for 10 days... Money refunded if not satisfied. Order Today!"

Note: A small photo shows the appliance. Address: 235 Halsey St., Newark, New Jersey.

1657. Hauser, Gayelord. 1952. Be happier, be healthier. New York, NY: Farrar, Straus and Young. 278 p. No index. 22 cm. [63* ref]

• ***Summary:*** This book advocates natural health and prevention using the sun, earth, air, water, and food. His faithful companion is Deucey, his dog. The chapter titled "Discoverers and recoverers" (p. 71-90) discusses: Priessnitz, Father Kneipp (began treatment in 1855), Louis Kuhne (first of the urban pioneers in natural healing, he established a clinic in Leipzig, Germany. A vegetarian, he wrote *Die Neue Heilwissenschaft*, which enjoyed worldwide success), Schweninger, Edward Hooker Dewey, Adolf Just (his Jungborn clinic was in the Harz mountains), Dr. Bircher-Benner, Arnold Rikli, Samuel Hahnemann (founder of homeopathy), Dr. Lahmann (his Weisser Hirsch Sanatorium in Dresden was famous; Hauser was partly cured by his Lacto-Vegetarian Diet), Dr. Möller (taught fasting in Dresden), Ragnar Berg (Swedish chemist; from 1909 to 1921 he was in charge of Dr. Lahmann's sanitorium), Mikkel Hindhede (story of his nationwide experiment in Denmark during World War I; he practiced what he preached). A table (p. 129) gives the idea weight for men and women of different height and 3 different frames (small, medium, large).

The chapter titled "Food is our salvation" (p. 138-66) discusses: The appestat (discovered by Dr. Norman Jolliffe), the food cure idea (started by Dr. Heinrich Lahmann in Dresden; Möller, Berg, and Bircher-Benner), the value of vegetables and vitamins, start all meals with fresh (raw) food, Dr. Brauchle's sanatorium at Schoenau (Black Forest, Germany), breakfast, lunch and dinner (which should include "a good protein. Your choice of meat, fish, eggs, cheese, nuts, soya beans or mushrooms {p. 249}), beware of harmful snacks, hidden hunger test (eat liver, kidney, or heart twice a week; incl. broiled meats and fish), get your chlorophyll from mixed greens, eat natural, unprocessed foods.

The chapter on "Happilogue" tells how he and Marion Preminger, in Sept. 1952, had an unforgettable visit with Albert Schweitzer who was doing organ recordings of Bach in his native town of Guensbach near Strasbourg. "It was one of the great experiences of my life." They had dinner with Dr. Schweitzer at his home: Green salad with tomatoes, "delicious cold cuts of meats with two kinds of cheese–Swiss and cottage. There was one cooked vegetable, a basket of grapes, and yes there was a bottle of dry Rhine wine. This simple meal turned out to be a feast for me, the place, the food, the company." Schweitzer was very familiar with Bircher-Benner and Dr. Gerson of New York City. "There was a bowl of soya beans on the table and I took some because I love them and told him that even in America protein foods were getting more and more expensive, only the rich can afford steak and roast, and for years I have looked for cheaper proteins and that the best I found and popularized were powdered skim milk, dry food yeast, and soya bean flour." Dr. Schweitzer said that "he has now planted soya beans. He realizes they are a good protein, but the natives [in Gabon] so far won't eat them, and all the arguments about how good and how healthful they are will not make them change their minds–they won't touch them." Then Schweitzer said, with a twinkle in his eyes, that he would do with his soya beans what Parmentier did with potatoes when they were first introduced into France from America. At first the French people did not like their taste and refused to eat them. Then Parmentier had a brilliant idea–which Schweitzer describes. "And that is what I'll do to my soya beans." After dinner, Dr. Schweitzer showed his guests a large oil painting of his hospital in Gabon (p. 213-15).

Note 1. This is the earliest document seen (March 2021) concerning soybeans in Gabon, or the cultivation of soybeans in Gabon. This document contains the earliest date seen for soybeans in Gabon, or the cultivation of soybeans in Gabon (1952 or before). The source of these soybeans is unknown.

Note 2. Antoine-Augustin Parmentier was born on 12 Aug. 1737 at Montdidier, France, and died on 13 Dec. 1813 (aged 76). He is buried in Paris below a large tomb.

Soy-related recipes: When baking bread at home, "substitute unbleached flour for white flour and try adding a tablespoon each of wheat germ, brewers' yeast, skim milk powder and soya flour for each loaf you bake" (p. 220). Dinnertime: Vegetable chop suey with [mung] bean sprouts and soy sauce (p. 233). Many recipes call for the use of red meat (steak), chicken, fish, and shellfish. Food tables, showing "percentages of daily recommendations," include

© Copyright Soyinfo Center 2021

soy beans (p. 261) plus many meats (p. 266-69). A photo (back cover) shows Hauser standing by the sea at Taormina, Sicily, Italy in Sept. 1952. Address: Los Angeles, California.

1658. Safeway. 1952. You'll be glad your Thanksgiving foods came from Safeway! (Ad). *Los Angeles Times.* Nov. 20. p. 18.
• ***Summary:*** This is a full-page ad for many products on sale at Safeway. In the section on "Turkey trimmings" we read: "Dressing–Cubbisons Prepared. 1-lb. pkg. 49¢."

Note: At the bottom of the page is a list of the addresses of 11 Safeway stores in Los Angeles, and of 26 Safeway stores in other nearby locations. Address: [California].

1659. Beck, Mrs. Fred. 1952. Farmers Market today (Ad). *Los Angeles Times.* Nov. 24. p. 4.
• ***Summary:*** "And now make ready for the Thanksgiving feast. The Farmers Market is braced and ready" with "really, truly fresh-killed, fresh-dressed turkeys–big, tender, broad-breasted birds."

"Bill's Bread Bin (Stall 330) carries... Cubbisons Prepared Dressing–for turkey. The irksome park of dressing making is done for you and done well. With this product it's easy. To the contents of the package you merely add water or milk to produce a basic dressing [stuffing]. On the package are recipes for variations of the dressing. Sophie Cubbison has rendered her sister citizens a fine service."

Note: The Farmers Market is located on West 3rd at Fairfax.

1660. Weiler, A.H. 1952. A tonic that's free: *Be Happier, Be Healthier,* by Gayelord Hauser... *New York Times.* Dec. 7. p. BR30.
• ***Summary:*** This is a favorable review of Hauser's new book. He notes that Hauser, age 57, was born Helmut Eugene Bengamin Gellert Hauser. An enterprising nutritionist" with an 'evangelistic approach," he has been handsomely rewarded teaching the value of the ancient maxim Latin *Mens sana in corpore sano*–"A sound mind sound body."

1661. Miller, Harry W. 1952. Re: Infant feeding. Letter to Miss Dorothea VanGundy at 11784 Bonita Ave., Arlington, California, Dec. 14. 1 p. Typed, with signature. [1 ref]
• ***Summary:*** "Under separate cover I have mailed you a copy of the book 'Infant Feeding.' I am sure that you will be very interested in reading it through from cover to cover. It is written in very simple language and well within your vocabulary as a dietitian... It is a resume of the latest on infant feeding and familiarizes one with all of these various infants' foods. It also makes a very ready reference book in case any questions come up.

"I plan that you will have to do with a good deal of correspondence that comes in regarding infant feeding in the future... You will gradually get familiar with our Soyalac and its use... Of course, our scope of work goes way beyond infant feeding because we are working on the feeding of the masses of people, obtaining our nutrition from vegetable sources... Yours very sincerely, H.W. Miller, M.D., Research Director, International Nutrition Research Foundation."

Note 1. This letter is typed on the letterhead of the International Nutrition Laboratory, Inc. Above the Laboratory's name are printed: "Miller's Soya Foods. Soyalac–Sandwich Spread–Vegetable Cheese–Green Soya Beans–Cutletburger–Cutlets." Above that is hand-stamped: "International Nutrition Research Foundation, P.O. Box 388, Mt. Vernon, Ohio."

Note 2. In November 1952 Miss Dorothea Van Gundy began to work for Loma Linda Foods in Arlington, California, as a dietitian and food demonstrator. In August 1960 she was married (her first marriage) to Ed Jones, a health food salesman and distributor, who was 13 years older than she. Ed had previously been married to Mildred Lager. Address: M.D., International Nutrition Lab., Inc., P.O. Box 388, Mt. Vernon, Ohio. Phone: 1195.

1662. Battle Creek Food Co. 1952. Battle Creek Steaks: Get your proteins cheaper. Taste better than meat!! (Ad). *Diet Digest* (*Beverly Hills, California*) No. 42. Inside front cover.
• ***Summary:*** This full-page black-and-white ad shows illustrations of a can of "Battle Creek 'Steaks'–a vegetable product," and of a plate containing two of the steaks with a baked potato and vegetables. The text reads: "For nutrition and economy–steaks are unbeatable. New–tenderized. A tasty meat substitute. Used and recommended by the Battle Creek Sanitarium and the Miami Battle Creek Sanitarium" [Florida]. Address: Battle Creek 23, Michigan.

1663. Church, Ruth Ellen. 1952. Mary Meade's magic recipes: A cookbook for the electric blender. Indianapolis, Indiana and New York: The Bobbs-Merrill Co., Inc. 256 p. See p. 161. Index. 21 cm. Revised and enlarged ed. 1965.
• ***Summary:*** Chapter 8, titled "More drinks...," contains a recipe for a "Pineapple smoothie" (p. 161); the ingredients are diced pineapple, sugar, milk, and cracked ice.

Facing the title page is a fold-out 2-page ad for an Osterizer, with 7 illustrations showing its parts (glass container, cutting blades, motor base) and use.

On the Acknowledgments page, the author thanks the following manufacturers who kindly provided her with blenders for testing these recipes: The John Oster Manufacturing Co., Waring Products Corp., The Knapp-Monarch Co., Landers, Frary and Clark of Illinois, and the Dormeyer Corp. Janet Bonnell of Oster and Helen Kyle of Waring were especially helpful.

1664. Kordel, Lelord. 1952. Eat and grow younger. Cleveland and New York: World Publishing Co. 315 p. Index. 22 cm.

© Copyright Soyinfo Center 2021

• ***Summary:*** The author's basic message: Eat more protein (especially complete proteins) and get plenty of vitamins and minerals. "One advantage of a high-protein diet is that you can eat less bulk, yet be well nourished..." There are no references and no "about the author" section. He is opposed to vegetarianism (high-starch dishes take the place of high-protein foods) which is a "fad" and believes (incorrectly) that vegetarians do not consume milk, dairy products or eggs (see p. 43-49, 114, 117, 120, 228, 261).

He mentions soybeans only in passing; they do not even appear in the index. For example: (1) The protein from lentils, legumes, soybeans and nuts is not complete and cannot counterbalance all the pure starches eaten to satisfy hunger (p. 43-44). (2) While soybeans, nuts, peas, and beans do contain protein, their protein content is "very low and incomplete when compared with meat, eggs, milk products and seed cereals" (p. 47). In a 4-page chart titled "Vegetable proteins" (p. 235-38) neither soybeans nor soyfood products are mentioned.

Contents: Part I: How to stay young. 1. Of course you want to stay young! 2. How old is "old"? 3. The secret of staying young. 4. Who is this fellow "protein"? 5. How much protein is "enough"? 6. "But I'm a vegetarian!" 7. Too much starch is dangerous. 8. These eight determine your age. 9. Six commandments for a long "young" life. 10. Seeds hold the germ of life: Millet, sunflower seeds, sesame seeds. 11. Best milks for humans. 12. Honey belongs on your table. 13. The sure way to good looks and charm. 14. Do your eyes look young? 15. Don't invite "old" hair and skin. 16. Your bones and muscles can be tattletales. 17. Your nerves must stay young, too. 18. Your blood can make you look younger. 19. Youth begins at breakfast. 20. What about food combinations? 21. Eating habits for longer life.

Part II: Your diet program. 22. Start now to eat and grow younger. 23. High-protein meats, poultry and fish. 24. Meat substitutes that are protein. 25. Egg and cheese dishes for every meal. 26. Eat plenty of seed cereals. 27. Salads are important. 28. Delicious baking with protein foods. 29. Sweets and treats that are "dividends."

Millet is the best of the seed cereals. Pythagoras praised its high nutritional value and advised his followers (all vegetarians) to adopt millet as the mainstay of their diets. Dr. John Harvey Kellogg said that millet is the only cereal capable of supporting life when used as the sole item in the diet. Millet is "a *safe* vegetable protein. Moreover it is almost a necessity in a vegetarian diet, because it can provide a *complete* protein without the need of eating a lot of bulk..." (p. 114-17).

Note: The popular website DrCoop.com lists Mr. Kordel (born in 1904) in its section on "Roots of modern food faddism." Court records state that he began producing and marketing supplements in 1941, operating under various trade names. In 1946 he was convicted of misbranding and fined $4,000. He had a brush with the Federal Trade Commission (FTC) in 1957 and two more with the FDA in 1961. In 1971 he was fined $10,000 and served one year in prison. Address: SC.D., author of *Health Through Nutrition*.

1665. Photograph related to Sophie Cubbison and the Cubbison Cracker Co. of Los Angeles. 1952. Undated.
• ***Summary:*** See next page. The following undated black-and-white photo (8 by 10 inches) was donated to Soyfoods Center by Leo Pearlstein of Lee and Associates in Los Angeles, a long-time friend of Sophie Cubbison:

Mrs. Sophie C. Cubbison in the early 1950s standing behind a table, dressed in a checkered dress, with an ice-cream scoop in her right hand, and a large glass bowl in which she has mixed her Stuffin' and Dressing ingredients.

1666. Stegner, Mabel. 1952. Electric blender recipes. New York, NY: M. Barrows and Co., Inc. 226 p. Index. 20 cm.
• ***Summary:*** This book, which contains early recipes for "smoothees" [smoothies], is dedicated "To Fred Waring: An outstanding musician, a fine person, a good friend, creator of the Waring Blendor." The Foreword begins: "When Fred Waring, the developer of the Waring Blendor, brought his electric blender to me in 1938, he said, 'We know the Blendor can make daiquiris and it can make vegetable health drinks. What else can it do?' Since then, as home economics consultant to the Waring Products Corporation, my staff and I have constantly experimented to provide the answers to this question. Our results have proved conclusively that the electric blender is not a luxury gadget but a useful, practical piece of household equipment." An introductory chapter is titled "About electric blenders."

Chapter 3, "Beverages," has a section titled "Milk smoothees" (p. 54-57) which begins: "Milk smoothee is the name we have given to a milk beverage into which fruit or other ingredients have been blended for added flavor. These are chilled by finely cracked ice, or cubes of milk frozen in an ice-cube tray. Fresh, canned, or quick-frozen fruit may be used, as well as different kinds of [cow's] milk." All use dairy milk or yogurt as an ingredient. Recipes are given for the following: Apricot smoothee. Banana smoothee (2 cups cold milk, 2 ripe bananas, 1 cup finely cracked ice). Coffee smoothee. Peach smoothee. Pineapple smoothee. Strawberry jam smoothee. Yogurt peach smoothee. Yogurt pineapple smoothee. Yogurt strawberry smoothee. Note: This is the earliest document seen (Feb. 2007) that uses frozen ingredients (ice or frozen milk cubes) to add thickness to a smoothie.

Chapter 18, "Party menus and recipes," also contains a section on "Milk smoothees" (p. 197-200) which begins: "A dramatic way to serve refreshments at a school party, or to make money at a community bazaar, is to set up a 'soda fountain,' serving fruity milk smoothees blended to order... For extra richness, blend a scoop of vanilla ice cream into each." Recipes are given for the following: Banana smoothee

© Copyright Soyinfo Center 2021

(DeLuxe: 2 cups rich milk, 2 ripe bananas, 1 scoop (No. 20) vanilla ice cream). Pineapple smoothee. Strawberry smoothee. Chocolate mint smoothee. Peanut butter smoothee.

On the rear dusk jacket is a good photo of Mabel Stegner next to a blender. Address: Home economist, New York.

1953.

Bragg, Paul C. 1968. How to Keep the Heart Healthy and Fit [1st ed.]. Burbank, California: Health Science. 128 p. See p. 121. "Then add a tablespoon of liquid aminos, which gives the Chinese soy sauce flavor."

Lorna J. Sass. 1989. Mid-Island Times (Hicksville, New York). Feb. 10. "A seasoning for all seasons." This interesting alternative to soy sauce, created by the American Paul C. Bragg, contains 18 amino acids.

Talk with Bob Gerner. 1990. Feb. 7. He first saw this product in about 1981, after he was carrying a similar product from Dr. Bronner.

Label. 1989. 8 inches by 5 inches. Red, black, white, green, and purple on yellow. Illustration of hills, trees, sun, and clouds. "All natural. Try a dash for new taste delights. Delicious, healthy gourmet alternative to tamari-soy sauce. Vegetable protein for delicious broth, gravy, soups, and all purpose seasoning. Super concentrated. Lasts longer. Bragg, the pioneer health line–serving America for over 75 years. Delicious, healthy family favorite for over 75 years. This original formula by Paul C. Bragg, America's health pioneer. Originator of health stores. Contains no additives and no coloring agents. No preservatives. This product is not fermented. Bragg Liquid Aminos contain the following amino acids: (18 are listed and 9 are starred as essential). Essential amino acids in naturally associated amounts and derived from a specially formulated liquid-form from soybeans. No MSG. No preservatives. No chemicals. Taste you love. Nutrition you need. A dash of Bragg Aminos brings new taste delights to season salads & dressings, soups, vegies, rice & beans, tofu, tempeh, wok & stir-frys, casseroles, potatoes, meats, poultry, fish, popcorn, gravies & sauces, macrobiotics. Aminos broth: 1-2 teaspoons Bragg Aminos to 1 cup hot water, or add to hot or cold vegetable juices. Ideal 'pick-me up' at work, home, or gym–for more healthy living the Bragg Aminos way. Healthfully replaces salt and soy sauce. Take some home today. Send $1 for delicious Amino recipes to..."

Talk with Pat Calligan of Health Science (the publishing arm of Bragg's company), in Goleta. 1990. Feb. 7. He is quite sure, and he thinks the label says that this product has been around for 75 years (i.e. since 1915). He has seen receipts for the product from the early 1950s. Paul Bragg's adopted daughter, Patricia Bragg, who lives in Goleta, and who is an active health foods teacher, would know the whole story.

Talk with Dr. E.H. Bronner. 1990. Feb. 8. Paul Bragg was a brilliant lecturer and personal friend of Dr. Bronner's. His product was introduced after Dr. Bronner's, in about 1955.

Ad in *Natural Foods Merchandiser.* 1996. July. p. 90. "Bragg super health products." Photos show: (1) A bottle of Bragg Liquid Aminos. "A delicious alternative to tamari & soy sauce." (2) "Patricia Bragg, N.D., Ph.D. Nutritionist to Stars Eastwood, Seleck, Beach Boys, etc." Live Food Products / Health Science, Box 7, Santa Barbara, CA. (800) 446-1990.

1670. Sandborn, William Cruzan. 1953. History of the Madison Food Factory (Document part). In: W.C. Sandborn. 1953. PhD Thesis, Dep. of Education, George Peabody College for Teachers, Nashville, Tennessee. 201 p. See p. 123-27, 159. Aug. 28 cm. [1 ref]

• ***Summary:*** The Food Factory (formerly a "large flakefood factory" built at Edgefield, near what is now Edenwold) was purchased in 1917, dismantled, and in 1917-18 moved from Edgefield near Amqui, a nearby community, to its present location [Note: This food factory had formerly been operated by Jethro Kloss.] It began operation at Madison [Tennessee] in 1918 (p. 123; the 1918 date was verified by Elmer Bush who helped move the factory). Mr. and Mrs. Andrew Wheeler were in charge of the work, under the direction of Mrs. Druillard, who had had years of experience in other institutions. The principal foods manufactured are protein foods made from gluten, soy beans, and peanuts. "Some of the trade names today are Zoyburger, Yum, Mock Chicken, Nu-Steak, Not-Meat, Vigoroast, and Ches-O-Zoy. A cereal substitute for coffee is Zoy-Coff" [Zoy-Koff] (p. 124). The meatless protein foods serve as substitutes for meat in the diet of vegetarians. Both the College and the Sanitarium hold to a meatless diet. The College ran a successful vegetarian cafeteria in Nashville.

"Some of the men who played an important part in the later growth and development of the food factory were Joe Hansen, C.H. Dye, T.A. McFarland, Captain Calvin Bush, Edwin Bisalski, George Norris, Leslie Brooks, John Brownlee, H.M. Mathews and Frank Holland. Of this group, H.M. Mathews and John Brownlee played a very important part in experimentation and development of the foods. E.M. Bisalski was outstanding in the group as a promoter and sales-manager. It was during Mr. Bisalski's term as manager of the Food Factory that great expansion took place. A practically new plant, with one section four stories in height, was constructed in 1941. Shortly after, the sales began to drop off, and it has never been necessary to use the new building to its capacity. The Food Factory (now known as Madison Foods) is operating, on a much smaller scale than formerly, under the management of Mr. Frank Holland. The Madison Foods Company also operates a bakery, making whole wheat and soy bread. A daily bread route is served in Nashville.

"Another type of health work carried on by the Madison School was the operation of a treatment room and vegetarian cafeteria in Nashville, Tennessee. Workers drove back and forth each day from the School to Nashville to carry on the work. The work was started in 1917, in rented quarters. After five years, because of advancing rents, it was thought best to close down the work and build a new building on a

© Copyright Soyinfo Center 2021

permanent location at 151 Sixth Avenue, North. This was done at the end of the year 1922. The new location was occupied in the spring of 1923. [It opened on April 23.] A successful work was carried on in the new location for over a decade" (p. 125).

"The Food Factory was remodeled, in fact, practically a new structure was built, in 1942. The work actually started in November, 1941, and was completed in October, 1942. E.M. Bisalski was the prime mover in promoting the project, which cost between $30,000 and $40,000" (p. 159). Address: George Peabody College for Teachers, Nashville, Tennessee.

1671. American Organic Food Company (Distributors). 1953. Tropical Treat brand Organic Nut-Seed Butter (Ad). *Let's Live* 21(9):31. Sept.
• ***Summary:*** This ad (5 by 3.75 inches) begins: "Salt free. Sugar free. Superb blend of nature's finest proteins. Prepared from organically grown and sun-ripened: Fancy raw coconuts, almonds, sesame seeds and sunflower seeds with powdered bananas, honey, lecithin and vitamin A. Smooth! Creamy! Delicious!" Address: P.O. Box 315-M, Pasadena 17, California.

1672. Baker (Bill) Products. 1953. New and better! Gluten bread and 100% wheatfree cookies (Ad). *Let's Live* 21(9):37. Sept.
• ***Summary:*** This ad (2¼ by 4 inches) states: "Bill Baker's Gluten Bread. Try these other famous Bill Baker products: 100% soybean fruit bar cookies. 100% Soy cereals (puffed soya or grit type, in package or bulk), Soya Bean Toast (the new taste delight)."

This ad also appeared in the October 1953 issue (p. 29), the December 1953 issue (p. 24), and in the January 1954 issue (p. 47), the July 1954 issue (p. 44), the Dec. 1954 issue (p. 23), and the Aug. 1961 issue (p. 20) of this magazine. Address: Ojai, California.

1673. Cubbison's. 1953. Enjoy Cubbison's famous "Health foods for the nation" (Ad). *Let's Live* 21(9):9. Sept.
• ***Summary:*** This ad (4.75 by 5 inches) lists 13 Cubbison products including: 100% Whole Wheat Soya Cookies. Wheat Soya Toast. Hollywood Cup (contains no coffee or caffeine). Address: 3419 Pasadena Ave., Los Angeles 31, California.

1674. Grist Mill. 1953. Grist Mill Super-Cereal: Now! New & improved. Ready to serve (Ad). *Let's Live* 21(9):21. Sept.
• ***Summary:*** "The original organic trace mineral cereal. Made from: Whole wheat, soy, oats, and flax, brown sugar, honey, vegetable shortening, skim milk solids, whey, leavening, and salt. Each serving (½ cup or 2 oz.) contains... 1/8 teaspoon Irish moss powder, ¼ teaspoon soya lecithin..."

A similar ad appeared in the Dec. 1955 issue (p. 13) of this magazine. It states: "Ready to eat. No cooking. Just add milk. Grist Mill: Established 1917. Trade name registered 1925. New ingredients: Millet, natural spices. Original ingredients that have been removed: Brown sugar.

Note: Was this a type of Granola? It is ready to eat. No cooking. Just add milk! Address: 524 W. 8th St., Los Angeles 14, California.

1675. Kahan & Lessin Co. 1953. For natural regularity, use American Agar in your favorite juice (Ad). *Let's Live* 21(9):13. Sept.
• ***Summary:*** This ad (7.5 by 5 inches) shows a package of American Flake Agar. A photo shows a white-haired man drinking a glass of juice. Address: 2445 Hunter St., Los Angeles, California. Phone: TR 3921.

1676. Kahan & Lessin Co. 1953. Serving the great west: Wholesale distributors of fine foods (Ad). *Let's Live* 21(9):51. Sept.
• ***Summary:*** This tiny ad (2¼ by 2¼ inches) shows the company logo and states: "Featuring: Dietary food specialties. Food supplements. Electric juicers and liquefiers. Fancy gift packs. Dried fruits and dates. Stone ground flour & cereals. Pure maple products." Address: 2445 Hunter St., Los Angeles 21, California. Phone: TRinity 3921.

1677. Knuth Engineering Co. 1953. Help your family to health! If you make your own fresh fruit and vegetable juices (Ad). *Let's Live* 21(9):17. Sept.
• ***Summary:*** A photo shows a woman using the K&K Juicer-Shredder Combination in her kitchen. Address: 2617-E North St. Louis, Chicago 47, Illinois.

1678. Lager, Mildred. 1953. Nutritional news and recipes: Health food stores. *Let's Live* 21(9):16-17, 42, 46. Sept.
• ***Summary:*** "Health food stores do the pioneering in the food field and are five to 10 years ahead of the grocery stores in many products... Examples of such products are wheat germ, brewer's yeast, molasses, yogurt, whole grain cereals, unsweetened juices and fruits, etc." Recipes include "Peanut butter or other nut butter" sandwiches. A small portrait photo shows Ms. Lager. Address: Los Angeles, California.

1679. *Let's Live.* 1953. Pioneer organic roadside store (Photo caption). 21(9):17. Sept.
• ***Summary:*** This photo shows a roadside food store. "This one of Phil and Sylvia Arena's near Escondido, California, supplies patrons with natural, spray-free foods."

1680. Organic Food Research Associates. 1953. Organic foods–The new way to health (Ad). *Let's Live* 21(9):25. Sept.
• ***Summary:*** This ad (5 by 2½ inches) begins: "We are National Distributors of over 150 different Organic Foods, raised on organic farms and orchards in the U.S. and imported from Turkey, Egypt, Syria, etc.–all rich in health-

© Copyright Soyinfo Center 2021

giving vitamins and minerals." Also publications: *How to eat safely in a poisoned world* (book), *Organic Foods for Health* (booklet), and *Organic Nutrition* (periodical).

A smaller ad appears in the October issue (p. 25). "Write for a free copy of *Organic Nutrition."* It is a publication devoted to the Organic Way to Health, sent to members of Organic Food Research Associates. Membership: $3.00 per year, entitles you also to a 56-page booklet on organic foods, "Organic Foods for Health." Address: 215 Sixth St., Lorain, Ohio.

1681. Phil's Organic Products. 1953. Good food for good health (Ad). *Let's Live* 21(9):25. Sept.
• ***Summary:*** This ad (2¼ by 2½ inches) describes foods sold by Phil & Sylvia Arena at this roadside stand on Highway No. 395, 2½ miles south of Escondido. They are: (1) Escondido Valley's famous muscat grapes. (2) Organically grown fruits and vegetables. (3) Pure grape juice (no sugar, no preservatives, no water added). Address: Route 3, Box 786, Escondido, California. Phone: 652-J.

1682. *Modesto Bee* (*California*). 1953. Feats of strength are performed by child. Oct. 3.
• ***Summary:*** "Bradford Lomec Weber of Hollywood, aged 4 months and 3 weeks, performed in the Odd Fellows Temple last night in connection with health food lectures by his mother, Mrs. Ruth Cook Weber, and Paul C. Bragg.

"The child handled a silver dumbbell and was swung by his feet and arms. He also did sitting up exercises.

"Mrs. Weber said the child's strength is a result of scientific prenatal feeding. He has appeared previously in Hollywood, Los Angeles and Fresno and is now on tour."

Note 1. Bradford Weber was mentioned in Paul Bragg's will of Jan. 1958. "IX. I suggest to my said adopted Patricia Pendleton Bragg that she voluntarily pay toward the college education of Bradford Lomed Weber, son of Mrs. Ruth Cook Aears of Phoenix, Arizona, if he should decide to go to college and if she considers him worthy of it, $500 each year that he attends college but not to exceed four years. This is merely a precautionary suggestion..."

Note 2. During the 1940s, when he was not married, Paul Bragg had a long-term romantic relationship with Ruth Cook. He and Ruth sailed together for England in the early summer of 1949, then returned to New York City via Portugal about 3 months later. Ruth Cook had two sons by Mr. Weber. Bradford Lomed Weber was born in Los Angeles County on 9 May 1953, and Dick Ehret Weber was born in that same country on 14 July 1954. Ruth Cook died as Ruth Cook (after at least 3 marriages and 4 children) on 18 June 1999 in the state of Maine at age 77. Bradford turned out to be bipolar (manic-depressive disorder), and died in about 2005-2008 at age 57, perhaps as a result of an accident due to his condition; we do not know where Bradford died. Dick, the younger brother who now lives in Sylmar, California, never met Paul Bragg (although he did meet Robert / Robbie, Paul's son), so he had a few "stories," but little direct information on the saga of Paul Bragg and Ruth Weber.

1683. Baker's (Bill) Products. 1953. Your family stays happy (Ad). *Let's Live* 21(10):31. Oct.
• ***Summary:*** This display ad (5 by 2¼ inches) states: "When you know the secret of keeping them well nourished and in tip-top physical condition with Bill Baker's Famous Super Soya Bread. Pure, wholesome alkaline. Not artificially fortified. Triple rich in B-1. Promotes health and strength. At leading health food stores in California." An illustration shows a boy and girl running with a small dog.

This ad also appeared in the Dec. 1953 issue (p. 44) and the Aug. 1961 issue (p. 14) of this magazine. Address: Ojai, California.

1684. Cubbison's. 1953. Now! At your health food store (Ad). *Let's Live* 21(10):17. Oct.
• ***Summary:*** This small ad (2¼ by 2½ inches) lists 12 Cubbison products including: 100% Whole Wheat Soya Cookies. Wheat Soya Crackers. Hollywood Cup (contains no coffee or caffeine). "Quality foods since 1916."

This ad also appeared in the December 1953 issue (p. 23), and in the December 1954 issue of this magazine. Address: Los Angeles 31, California.

1685. Lager, Mildred. 1953. Nutritional news and recipes: Read labels. *Let's Live* 21(10):16-17, 23. Oct.
• ***Summary:*** "Choose soy powder." Soy flour and soy powder are often confused. "Soy flour is flour made from soy beans. It may contain the oil of the beans and may be a full fat flour or the oil may be removed and it is a low fat flour. Soy powder is a blend of powdered soy beans, milk solids, minerals, etc., that when added to water will result in a product with the food value of milk. Soy powder has more food value than soy flour. Many persons will think them the same but reading the label on the package will show the difference."

"Soy bean scores: One of the easiest and least expensive ways to add protein to the diet is the use of the little soy bean or soya bean. It is available in many forms and is very delicious in taste. Soy malt for instance, can be added to milk, hot or cold, for a delicious protein rich drink. Soy powder can also be used in this way. Soy cereal has more protein than cereal grains, and you can also get a soy wheatless cereal for those allergic to wheat. Pre-cooked grits are also sold which can be used in meat loaves, vegetable roasts, and it is an easy and very inexpensive way to add protein to a vegetable soup. If you have never used soy products find out about them the next time you are in a health food store. And if you wish an interesting folder, write to Mary McBride's Products, Box 19, South Pasadena, California."

© Copyright Soyinfo Center 2021

Recipes include: Soy stuffed tomatoes (with soy grits, seasoned with a dash of soy sauce). Soy cereal pudding.

Also discusses carob powder (made from the seeds only), which is superior to carob flour (made from the seeds and pods). Address: Los Angeles, California.

1686. Thomas, Godfrey. 1953. Let's live alive! *Let's Live* 21(10):14-15. Oct.
• ***Summary:*** Discusses the unconscious and how and how to live a more joyous life. If only we could realize how often the trials we have to meet "prove the greatest blessings of all. Through learning to meet and overcome them we enlarge the boundaries of our lives..."

"Let us throw aside all the old moss-grown prejudices that stunt and cripple our usefulness; and welcome the full, free joyous life which may be ours so easily if we follow the Christ way of brotherhood and service to all, regardless of nationality, creed or color." Address: Publisher, Hollywood, California.

1687. May Company (The). 1953. Make it an electrical Christmas with appliances from May Co. (Ad). *Los Angeles Times.* Nov. 29. p. F58.
• ***Summary:*** This full-page display ad features 14 electrical appliances. In the lower right corner (with a prominent photo) is: "74F10–"Osterizer" Electric Liquidizer, the original liquefier-blender; glass container opens on both ends. Chrome plated. Included at no extra cost Mary Mead Cook Book with 500 recipes for the electric blender. $44.95. 74F10A–With enamel base. $39.95." Address: Downtown, Wilshire; Crenshaw, Lakewood [Los Angeles, California].

1688. Walker, Ronald W. Assignor of one-half to Eugene E. Piper, Borger, Texas. 1953. Fruit juice extracting device. *U.S. Patent* 2,664,042. Dec. 29. 7 p. Application filed 11 April 1952. 7 drawings.
• ***Summary:*** "This invention relates to fruit juice extracting devices and more particularly to a portable device adapted to be mounted in a kitchen or restaurant or on a soda fountain for extracting juice from fruit, such as oranges, lemons, limes or grapefruit, the whole fruit at one time in one single operation." Address: Borger, Texas.

1689. McBride Products Co. 1953. For greater joy in living get more protein in your daily diet (Ad). *Let's Live* 21(13):13. Dec.
• ***Summary:*** This ad (2¼ by 5 inches) has a prominent logo of a triangle piercing a ring. On the former is written "Mary McBride's." On the latter "Modern nutrition." The text reads: "Mary McBride offers you delicious tasting, well balanced, highly nutritious variety in Soya Foods.

Several for each meal of the day. They are so good to eat and so good for you because Soya contains complete alkaline protein and low starch... They are on sale at all health food stores in the Western states. Write for valuable free booklet "Eating Your Way to Better Health." Address: Box 19, South Pasadena, California.

1690. Olendorf, H.A. 1953. Information on soy flour. *Soybean Digest.* Dec. p. 24.
• ***Summary:*** Two publications which are good sources of information are Illinois College of Agriculture Extension Circular No. 664 ("Recipes for using soy flour, grits and flakes, and soybean oil" by F.O. Van Duyne, 1950), and *The Useful Soybean* by Mildred Lager. Soy flour is not available in most grocery stores because of limited public acceptance and consequently small volume. The product may be obtained in some health food stores in a small retail package. Most of the edible soy flour produced is sold in carload lots to food blenders, bakery chains and packing houses. Food blenders include the product in cake, dough, sweet doughs, dark breads and recently, in the Cornell or McCay bread which is gaining headway in the East. Packing houses consume soy flour as a binder in bologna, wieners, chili, and in some cold cut loaves. Address: Soy Flour Dep., Spencer Kellogg & Sons, Inc., Decatur, Illinois.

1691. *Soybean Digest.* 1953. Market all new soy margarine [Willow Run]. Dec. p. 9.
• ***Summary:*** This product is made completely from the soybean (soybean oil and soy milk) except for added salt and vitamin A. Manufactured by Shedd-Bartush Foods, Inc. of Detroit, Michigan, it is "made for those who want a product free of cow's milk or other animal foods. The present Willow Run Margarine is the outgrowth of a product [Soya Butter, developed and sold by Butler Food Products of Cedar Lake, Michigan, and introduced in Aug. 1944] which at one time was made exclusively for sale in Michigan through health food stores. It was not shipped interstate because the then existing standard of identity for margarine made no provision for a margarine made with soybean milk in place of cow's milk.

"With the lifting of coloring restrictions from margarine, and the change in the standard of identity to allow the use of soy milk, Willow Run Soy Bean Spread Margarine came into being. It is shipped everywhere in the U.S. and the carton has been designed to comply with various state laws."

A photo shows a carton of "Willow Run Oleomargarine."

1692. **Product Name:** The Versatile Soyabean in Tomato Sauce.
Manufacturer's Name: F.G. Roberts' Health Foods.
Manufacturer's Address: 40 Chapel St., St. Kilda (a beach-side suburb of Melbourne), Victoria, Australia.
Date of Introduction: 1953.
Ingredients: Incl. soybeans, tomato sauce or puree.
Wt/Vol., Packaging, Price: Tin-plated steel can.

© Copyright Soyinfo Center 2021

New Product–Documentation: Letter from Paul Smith of Soy Products of Australia Pty. Ltd. 1981. Vincent R. Smith was a soyfoods pioneer in Australia. From 1953-54 to 1974-75 he canned soybeans in tomato sauce or puree. In 1956 he founded Soy Products of Australia Pty. Ltd.

Talk with Paul Smith. 1995. Feb. 20. The soybeans were soaked overnight, then pre-cooked in a steam-jacketed vessel. Then the cooked beans and tomato puree were put in can, the can was lidded, then the whole can was autoclaved, then labeled. Sanitarium Foods took a keen interest in this product, then copied the product from F.G. Roberts' Health Foods. Paul remembers how his company used to supply the product to the many Sanitarium retail health food stores. His father had a little creamy white Ford panel van with green stripes on the sides. They used it to deliver their products to places like The Original Nature, the first vegetarian restaurant in Melbourne, down in the basement in Little Collins Street. The restaurant served salads and grated carrots, and fresh squeezed carrot and celery juice, and fruit juices. They also made and served vegetarian burgers.

1693. Bush, Maxine Conwell; Fewer, Edward Patrick. 1953. Magic recipes for the Bush & Fewer Liqua-dizer: Consisting entirely of original recipes created by the authors. 3rd ed., revised and enlarged. Mehoopany, Pennsylvania: Published by the authors. 108 p. Portrait. Illust. 22 cm.
• ***Summary:*** A vegetarian cookbook that uses a sort of blender. The 1st ed. was copyrighted in 1950. Pages 53-56 give 24 recipes for Nut Milks, including almond milk, cashew milk, walnut milk, pecan milk, peanut-banana milk, almond-peach milk, etc. Pages 57-62 give 31 dairy-free recipes for Soy Milks, each containing 1-4 tablespoons of soybean powder [flour], including pineapple-strawberry-soy milk, banana-strawberry milk shake, blackberry-soy milk, casaba-soy milk, fresh peach-soy milk, peach-pecan-soy milk, raisin-soy drink, plain soy milk, cocoanut-soy milk, vanilla-banana-soy milk, etc.

The section titled "Eggless Dressings," makes abundant use of soybean powder in mayonnaise-like recipes such as lemon-aise, orange-aise, apricot-peanut butter-aise, olive oil mayonnaise, thousand island soy, and soy tartar sauce. Address: 1. D.C., PhD, N.D., nationwide lecturer for more than 25 years on practical psychology, physiology, pathology and nutrition, chiropractic and naturopathic philosophies; 2. D.C., PhC, N.D., national lecturer on bio-chemistry and nutrition, formerly Prof. of Anatomy and Physiology, Dean and Clinical Director of the Standard Chiropractic School. Both: Mehoopany, Pennsylvania.

1694. El Molino Mills. 1953. El Molino best recipes: Tested in El Molino kitchens. Alhambra, California: El Molino Mills. 132 p. Illust. No index. 17 cm. [4 ref]
• ***Summary:*** This book is contained in a 13-ring loose-leaf binder "so that you can add your favorite recipes and new ones, too." Thus the recipes (more than 900) and not the pages are numbered. This is largely, but not entirely, a vegetarian cookbook.

Contents: Equivalents. Products offered by El Molino Mills (specializing in whole grains, flours, and mixes; ask for them at all health food stores; incl. soya beans {whole}, soya grits, soya meal, soya flour, soya powder {for milk}, soy bean flour–raw, alfalfa seed–for sprouts or tea, carob powder, cottonseed flour, flaxseed {whole}, garbanza beans {chick peas, whole}, lentils, mung beans–for sprouting, rice–brown, short or long grain, sesame seed {hulled, whole}, sesame seed meal, seven grain cereal {incl. soybeans}, sunflower seed {hulled, whole}, gluten flour, wheat germ cookies).

Photo of outside of the mill. Brief history of El Molino (started in 1926 by Edward Allen Vandercook). El Molino distributors by state: California–Kahan & Lessin Co. (Los Angeles & San Francisco). Colorado–Health Food Sales Co. (Denver). Michigan–Health Food Distributors (Detroit). New York–Sherman Foods, Inc. and Balanced Foods Inc. (New York City). Oklahoma–Akin Distributors (Tulsa). Washington–Kahan & Lessin Co. and Vital Foods Distributors (Seattle). Illinois–Health Food Jobbers, Inc. (Chicago). Oregon–Nu Vita Foods (Portland). Massachusetts–Food, Inc. (Cambridge). Tennessee–Collegedale Distributors (Collegedale).

Guide to recipes: Breads and rolls (incl. soya flour 100A-C, Cornell triple rich bread with full fat soya flour 101, Whole wheat soya bread–sponge method 107, soya bread 107A), Biscuits. Coffee cake. Muffins. Wheat sticks. Cakes & pastries (incl. Spicy banana soy bars 202D). Cookies. Casseroles (incl. cost and nutritional value of soybeans vs. beef, Cooking soybeans 301, Soybean paste (cooked soybeans that have been drained then put through a food press or sieve, or mashed thoroughly) 302, Soy chile con carne 303, Meatless soy chile con carne 304, Baked soybeans 305). Cereals. Drinks (incl. Milk from soya powder 504, Soya-pineapple tonic 507). Gluten. Hot cakes & waffles. Soups and sprouts (incl. Soya soup 806, Sprouting, incl. alfalfa seed, hulled sunflower seed, radish seed, wheat, mung beans, soybeans, lentils 850-850A. A recipe for Alfalfa Sandwich mentions "alfalfa sprouts"). Allergy recipes and helpful hints (incl. Soya-rice flour banana bread 904, Soya muffins 905, Soya rice waffles 907, Soya-rice flour coffee cake 909, Soya, carob cup cakes 910, Soya cake 910A). Sifting. Skin cleanser. Sour milk. Glossary of products offered by El Molino Mills, with numbers of recipes in which each product is used. Recommended daily dietary allowances (Revised 1948, NRC). Approximate composition of foods–100 grams edible portion.

Note 1. This is the earliest document seen (July 2021) which states that alfalfa seeds can be sprouted for use as human food. This is also the earliest English-language document seen (July 2021) that contains the term "alfalfa sprouts."

© Copyright Soyinfo Center 2021

Note 2. This is the earliest document seen (March 2006) that mentions Balanced Foods Inc. (a health-food distributor in New York City).

Note 3. An ad for this book in *Natural Food and Farming* (April 1957, p. 13) states that El Molino Mills is now located at 3060 West Valley Blvd., Alhambra, California.

Note 4. This is the earliest English-language document seen (June 2013) that uses the term "soybean paste" to refer to cooked soybeans that have been drained then put through a food press or sieve, or mashed thoroughly. The term "soybean paste" is also widely used to refer to miso. Address: 3036 W. Valley Blvd., Alhambra, California. Phone: CUmberland 3-3764.

1695. Lust, John Benedict. 1953. Lust for living: How to live and grow younger, healthier, happier. New York, NY: Benedict Lust Publications. vii + 289 p. Index. 21 cm. Published in 1961 by Thorsons in London.

• ***Summary:*** John Lust was Benedict Lust's nephew, the son of Benedict's brother Louis (the baker). "Dedicated to the memory of Dr. Benedict Lust who made America aware of Nature's healing power."

In Chapter 1 he writes (p. 4-5): "In 1940, at Yungborn Sanitorium, in Florida, I began the compilation of the notes and data that were to form the basis of this book. I worked for three years under the guidance of my life-long friend and uncle, Dr. Benedict Lust, as together we gathered material for what we believed would be the most complete and comprehensive book in the field of natural therapy. After three years of intensive Work, I entered into the final rewriting of that book. And then tragedy struck! Yungborn Sanitorium was burned to the ground.

"The Sanitorium was packed to capacity with the many souls who had come to us for rest and physical repair. The hours that followed the horrible realization that the Sanitorium was ablaze were filled with the hectic work of saving the patients who had bedded down for the night. Time and again, we raced back and forth from that inferno to carry our human cargoes to safety. Twice Dr. Lust's clothes and hair caught fire, and it was necessary to beat out the flames. What I did not realize then was that the injuries he had suffered in that blaze were soon to bring death to my uncle, Dr. Benedict Lust, who, at the age of seventy-three, was the most vital and hard working person I had ever known, or have known to this day.

"In the end, the Sanitorium was burned to the ground, and there was more than one immediate casualty from that fire. In the confusion and horror of that night, I had forgotten the library, in the rear of the building, where, in a large oak desk, the original notes for this book were burned to a crisp. In the years since that awful night, I have spent much of my working time recreating the pages that were lost to flame. Without the immediate guidance and friendly reassurance of Dr. Lust, it has been no simple task. And I can only say in honesty that this book would never have been possible were it not for those many years of close association with the most creative thinker in the history of natural therapy.

"What I have brought to these pages is the wisdom of many years and many men, least among them myself. But what you find in this book is only that which you are willing to seek out. Your future life is what you are willing to create with your own brain and hands. The evil done to men is done by men. The good that can undo that evil must also be done by men. And it is important to remember that nothing is bought cheaply, neither happiness nor unhappiness.

"Health! Years of painless, joyful existence that have been but a dream until this moment. If you will but pay the small price, a price of conviction, self-honesty and loyalty to your new life, all these can be yours:

"Happiness! The wondrous feeling of being at peace with yourself, the earth and all mankind. The happiness that comes with understanding your place in life; your part in the scheme of earth, trees, rivers and man which we call our world!"

This book advocates a vegetarian diet (see p. 223), but not a vegan diet (see p. 232-34). Strongly discourages the use of white rice, white bread, white flour, and white sugar. He gives his theory of how the "wonder drugs" (penicillin, streptomycin, aureomycin, etc.) work (p. 29). Soy beans are mentioned in passing on p. 230.

Talk with Lauren Proctor Lust. 2014. Dec. 5. After Benedict Lust died in 1945, Lauren's father, Leo, gave John B. Lust lots of books and magazines to read. After that he attended a naturopathic college in Oregon or Washington [state] before he finished writing this book. Later, in 1974, he wrote another book on herbs titled *The Herb Book,* published by Benedict Lust Publications.

1696. *Official gazette of the United States Patent Office.* 1953. Live Food Products, Inc., assignee: See–Bragg, Paul C. p. ix.

• ***Summary:*** Paul Bragg appears to be incorporating his former business named Live Food Products Co.

1697. *Vegetarian Handbook.* 1953--. Serial/periodical. London: London Vegetarian Society. *

• ***Summary:*** Continues: The Food Reformer's Year Book and Health Seeker's Guide. This serial subsequently went through 3 name changes. After this it was named International Vegetarian Health Food Handbook, then International Vegetarian Handbook. The 1965 ed. is 92 p., eventually becoming 330 pages in length. The books are mostly about vegetarian restaurants and retail outlets. Address: 53 Marloes Rd., London W.8.

1698. Portrait photograph of Mildred Lager. 1953? Undated.

• ***Summary:*** This 3¼ by 4¼ inch photo shows Mildred at

her best, pretty and happy.

Note: This photo first appeared in print (as far as we know) in the Oct. 1953 issue of *Let's Live*, in Mildred's column "Nutritional News and recipes."

Sent to Soyfoods Center in May 1981 by Dr. & Mrs. George L. Bower of Redding, California. Lois Bower was Mildred's stepdaughter.

1699. Lager, Mildred. 1954. Nutritional news and recipes: What is agar? *Let's Live* 22(1):14-15, 21. Jan.
• ***Summary:*** "Agar, known as agar-agar, is a natural sea vegetable product that forms soft bulk and is gelatinous in nature. It is often called vegetable gelatin and can be used as a gelling agent in cooking." It is "a natural laxative." Contains recipes. Address: Los Angeles, California.

1700. McBride's Products Co. 1954. Mary McBride's Soya Powder (Ad). *Let's Live* 22(1):14. Jan.
• ***Summary:*** This ad (2¼ by 5 inches) has a prominent logo of a triangle piercing a ring. On the former is written "Mary McBride's." On the latter "Modern nutrition." The text reads: "Feel younger and zestful. Drink and enjoy Mary McBride's Soya Powder. For excellent nutrition, use it generously for every purpose that cow's milk is used. As a delicious beverage. Sprinkle dry on fruits and cereal. As an added ingredient in cooking to add nutritive value. On sale at health food stores everywhere." Address: Box 19, South Pasadena, California.

1701. Lee, Archie. 1954. No rocking chair for this grandmotherly executive. *Daily News* (*Los Angeles, California*). Feb. 15.
• ***Summary:*** From 1916 to 1926, Sophie Cubbison and her late husband baked 100% whole wheat bread. Then they discovered the possibilities of melba toast. In 1926 their new company, Cubbison Melba Toast and Cracker Co., started making the thin toast and was enjoying modest success when Bang! In 1929 the famous Mayo Brothers Clinic came out with an 18-day diet for a famous actress [Ethel Barrymore]; that diet called for regular use of melba toast. The Cubbison's were making and marketing the right product at the right time. People in Los Angeles were apparently getting fat and many thought it would be stylish to join the actress in her healthy weight-loss diet. Orders poured in; the Cubbison's three plants had to work around the clock to keep up with the demand. This continued well into 1930 when the need for dieting slowly faded. Mrs. Cubbison recalls that the Depression took care of excess weight.

The family company "skidded around" from about 1931 or 1932 until 1938, when they regained their equilibrium. The product line was strengthened with the addition of cookies and "later an all-purpose dressing." Today Cubbison Co. makes ten varieties of melba toast. The plant at 3419 Pasadena Ave. is very busy.

Melba toast is made by slowly drying thin slices of bread carried on a moving belt through an oven. The toasting process dextrinizes the starch that occurs naturally in the bread making to "make it more digestible rather than non-fattening." It is named after an opera diva, Nellie Melba, who used to order "a dry, thin toast" in a Chicago hotel. She found it aided her digestion and she helped to popularize it in the hotel.

Mrs. Cubbison is currently enthusiastic about a new product with great potential which she is preparing to make and market.

A small portrait photo shows Mrs. Sophie C. Cubbison dressed in a dark business suit with white pin stripes.

1702. *Natural Food and Farming* (*Atlanta, Texas*). 1954-1995. Serial/periodical. Edited and published by Joe D. Nichols, M.D., of Natural Food Associates, Atlanta, Texas. Vol. 1, No. 1. April 1954. Monthly.
• ***Summary:*** The official publication of Natural Food Associates, Inc. (an advocacy and membership organization with chapters in many states), this was an early publication to advocate natural and organic foods (free of artificial ingredients / additives and unnecessary processing), organic farming, and biological pest control. They strongly opposed fluoridation, immunization, poisons in foods, and the use of agrichemicals such as pesticides (such as DDT and chlordane), herbicides, and chemical fertilizers, pasteurized

© Copyright Soyinfo Center 2021

milk, synthetic vitamins, etc. They do *not* advocate a vegetarian or meatless diet. Their logo shows a leaf going through the three stages of growth, decay, and rebirth. Across the bottom is printed: "Better foods from living soil." Any important early contributor and supporter (with advertising) was Royal Lee, D.D.S., and his Lee Foundation for Nutritional Research (Milwaukee, Wisconsin, and Los Angeles, California).

The last issue published was Vol. 41, No. 2 (Aug. 1995).

On 10 June 1988 Natural Food Associates Newsletter began publication. Bill Francis was executive director. Each issue was 4 pages long. In the first issue, a financial statement of assets showed that NFA had $1.429 million in assets.

On 31 Jan. 1990 Natural Food Associates Annual Newsletter began publication. Bill Francis was still executive director. NFA's magazine was still being published.

Mergentime. 1992. Natural Foods Merchandiser. Dec. p. 30. In 1954 Joe M. Nichols, M.D., "unveiled *Natural Food & Farming* magazine as a forum for nutritional education and the fledgling organic industry. 'We have truth on our side,' he wrote in his first editorial, 'and with God's help we will succeed in bringing the truth to the people."

Note 1. This is the earliest document seen (March 2020) that mentions "Natural Food Associates." This periodical was the official organ of that group.

Note 2. This is the earliest periodical seen (March 2010), published in the USA, with the term "Natural Food" (or "Natural Foods") in the title. The earliest worldwide was: *Natural Food* (London) (1890-1896).

Note 3. This is the earliest periodical seen (March 2020) that is part of the natural foods movement or industry in the United States (after about 1890). Address: Atlanta, Texas.

1703. Lager, Mildred. 1954. Nutritional news and recipes: If you are smart. *Let's Live* 22(5):14-15, 45. May.
• ***Summary:*** "There is no term as misunderstood as health foods. To most persons it is an oddity, a pill, something to stay away from until you are forced to use it. Health foods are our natural foods, those that have more nutritional value because they have not been refined, bleached, highly processed, etc... Health food stores are one step ahead in nutrition, and the person who knows the value of natural foods is also one step ahead." Also discusses complete and incomplete proteins. Soybeans are "partially complete proteins." They are "vegetable proteins and while they are complete some of the amino acids are inadequate in amounts." The complete proteins are expensive animal proteins, while the incomplete are generally the inexpensive vegetable proteins. "An incomplete protein may be made more complete by the addition of a food high in the essential aminos: for instance, adding milk to cereals... It is very easy to get adequate amounts of essential amino acids if you know your proteins.

"One of the cheapest protein fortifying foods is the soybean and it may be added in many ways. If soy grits are added to a vegetable soup instead of barley you have a better protein dish." Discusses the symptoms of protein deficiencies, and gives recipes. Praises "Nut butters" as concentrated foods. "Health food stores carry almond [almond butter], cashew, pecan as well as peanut butter. Try eating them on apples, celery and salad vegetables. They are delicious." A small portrait photo shows Mildred Lager. Address: Los Angeles, California.

1704. McBride Products Co. 1954. Mary McBride's Soya Malt (Ad). *Let's Live* 22(5):42. May.
• ***Summary:*** This ad (2¼ by 5 inches) has a prominent logo of a triangle piercing a ring. On the former is written "Mary McBride's." On the latter "Modern nutrition." The text reads: During the hot summer months, keep your vitality up. Drink Mary McBride's Soya Malt. It is a highly nutritious, easily digested food drink. Rich in the 'complete protein' of the soya bean and low in starch. A scientifically blended drink that tastes delicious, and a hot soya malt before retiring is soothing to the nerves and an aid to restful sleep." Packaged in 12½-ounce and 5-pound glass jars. Comes in four flavors: almond, banana, chocolate, and vanilla. Send for your free copy of 'Eating your way to better health.'" This ad also appears in the July 1954 issue (p. 19) of this magazine. Address: Box 19, South Pasadena, California.

1705. *Los Angeles Times.* 1954. Adelle Davis to autograph book on eating. June 20. p. A16.
• ***Summary:*** "Mrs. Adelle Davis, author of another book on how and what to eat, is scheduled to appear at the Broadway-Crenshaw store tomorrow to autograph copies" of *Let's Eat Right to Keep Fit.*

Mrs. Davis holds a masters of science from the USC [Univ. of Southern California] Medical School. She "has been a dietitian at Bellevue Hospital, New York City, and health education supervisor for the Yonkers public schools." The signings will take place from 1:30 to 2:30 p.m. and from 7:30 to 8:30 p.m.

A portrait photo shows pretty Adelle Davis, who is now married.

1706. Swanson, Gloria. 1954. Glorious living. *Natural Food and Farming* (*Atlanta, Texas*) 1(3):2. June.
• ***Summary:*** "I have just returned from Detroit [Michigan] where I was on a health lecture tour with Paul Bragg.

"Michigan is right on its toes in the fight and they now have five more farms going in for organic methods this year in and around Detroit–they are organizing organic garden clubs too."

"Foods for Life, in Glendale (California) are supplying quite a number of health foods as well as regular stores now, in and around Los Angeles, with year round fresh produce.

© Copyright Soyinfo Center 2021

"It is Mr. Bragg's intention and mine, to go to 20 cities, starting right after Labor Day and finishing around Thanksgiving. Our idea is to get as many big cities as possible to encourage organic farming and to establish a central market where the organic farmers can bring their produce." Address: New York City.

1707. Hain Pure Food Co., Inc. 1954. Natural & helpful. Vegetable–mineral. Easy-to-take tablets (Ad). *Let's Live* 22(7):7. July.
• ***Summary:*** The top half of this ad (4.75 by 5 inches) shows that Hain sells the following 8 kinds of tablets: Alfalfa, cabbage, celery, dulse, garlic-parsley, kelp, parsley, and okra. Also sells: "Soya Date Spread. No salt added! Made from Ground soya beans, soya bean oil and dates. 8 oz size 52¢. 14 oz size 79¢." "At your health food store." "This ad [coupon] is redeemable at your health food store for 13¢ credit on these Hain products. If these products cannot be supplied by your Health Food Store, order from Hain's." Address: 334 Azusa St., Los Angeles 12, California.

1708. **Product Name:** Soya Date Spread.
Manufacturer's Name: Hain Pure Food Co., Inc.
Manufacturer's Address: 334 Azusa St., Los Angeles 12, California.
Date of Introduction: 1954 July.
Ingredients: Ground soya beans, soya bean oil, dates.
Wt/Vol., Packaging, Price: 8 oz size 52¢. 14 oz size 79¢."
How Stored: Refrigerate after opening.
New Product–Documentation: Ad (4.75 by 5 inches) in *Let's Live*. 1954. July. p. 7. Hain sells "Soya Date Spread. No salt added! At your health food store."

1709. Lee, Royal. 1954. Natural fats–Their nutritional values. *Let's Live* 22(7):4. July.
• ***Summary:*** "Few people now realize how extensively synthetic fats have supplanted the natural in our food pattern... Dr. Thomas Parran, Surgeon General of the U.S. Public Health Service, stated in 1941 over the N.B.C. Radio System that we have learned of the virtues of milk, the green vegetables and the vitamins. 'In spite of this, every survey, by whatever method and wherever conducted, shows that malnutrition of many types is widespread and serious among the American people. We eat over-refined foods with most of the natural values processed out of them. Because of this, many well-to-do Americans who can eat what they like are so badly fed as to be physically inferior and mentally dull. The nutrition of the poor is appalling.'

"Synthetic fats: Synthetic fat is one which has been made from cheap vegetable oil like cottonseed or coconut, by the process of hydrogenation." The original oil is destroyed and a new compound takes its place. "The physical properties of the new product are quite desirable... It has everything but nutritional value."

Discusses The Phospholipid Complex. "Butter, strangely, has been put on the list of bad foods for the hypercholesterol patient by ill-informed doctors who failed to realize that the minute content of cholesterol in butter is far outweighed by its lecithin content."

"We make vast amounts of cholesterol in the body. It is the phospholipids in Natural Fats that enable us to eliminate it." A small portrait photo shows Royal Lee. Address: D.D.S., President, Lee Foundation of Nutritional Research, Milwaukee, Wisconsin.

1710. Crampton, C. Ward. 1954. Science of geriatrics–the study of the process of aging: Nutrition, geriatrics and the physician. *Let's Live* 22(8):19, 46. Aug.
• ***Summary:*** Diet (what you eat) is only one of the departments of nutrition, which also includes the following: Digestion. Absorption. Processing and further transformation in the blood. Utilization of nutrients by the tissues and organs. Meeting excessive demands (fever, burns, hemorrhage). Excretion. "These are the pillars of good nutrition. They support health, vigor, and a youthful longevity... 95% of the patents coming to physicians do so for repair, less than 5% for upkeep and pre-trouble maintenance."

Physicians should "teach the importance of a thorough all-around examination and full study of the whole man and his whole health"–not just a physical exam. Each man at age 60 should see his physician for such an exam. "The most common nutritional deficiencies at age 60 are calcium, iron, proteins, vitamins of the B-complex, and vitamin A." Discusses a personal nutrition survey and four other tests. Address: M.D., New York City.

1711. Hain Pure Food Co., Inc. 1954. It's Hain's California triple-whipped new nut and fruit butters (Ad). *Let's Live* 22(8):19. Aug.
• ***Summary:*** In the upper right part of this ad (4.75 by 5 inches) is a new "Hain 100% Pure" logo. The new products are: Raw Almond-Date. Raw Cashew-Date. Peanut-Date. Raw Almond-Fig. Raw Cashew-Fig. Peanut-Fig. Sold in 8 oz. of 14 oz. sizes. Contains no added salt. Roasted or raw. Also sells: Soya-Date [which, in this context, looks like an early soynut butter]. "Be sane–Buy Hain. Order from your Health Food Store." Address: 334 Azusa St., Los Angeles 12, California.

1712. **Product Name:** Soya-Date [Nut and Fruit Butter].
Manufacturer's Name: Hain Pure Food, Inc.
Manufacturer's Address: 334 Azusa St., Los Angeles 12, California.
Date of Introduction: 1954 August.
Ingredients: Incl. soybeans, dates.
How Stored: -
New Product–Documentation: Ad (1/4 page) in Let's Live

magazine. 1954. Aug. p. 19. "It's Hain's California triple-whipped new nut and fruit butters." "Soya-Date."

1713. **Product Name:** Soy bread.
Manufacturer's Name: Hunza House (The).
Manufacturer's Address: 127 South Maple St. Escondido, California.
Date of Introduction: 1954 August.
How Stored: Shelf stable.
New Product–Documentation: Ad is *Let's Live.* 1954. Aug. p. 38. This ad (2¼ by 4 inches) states: "No white flour, white sugar, or preservatives of any kind used in our products. Obtainable in all Southern California health food stores."

On the same page (middle column) is a notice that H.E. Hicks has just been appointed general manager of the Pretoria Valley guest ranch, Escondido, California. "Hicks is prominent in the health field, formerly serving as western manager of the Butler Food Products Co. of Cedar Lake, Michigan. Just recently he was elected president of the Hunza Baking Corp., bakers of organic whole wheat and nutritional bread products, also of Escondido, and Hicks is national distributor and general sales manager of the Town Crier Co., of Vista, California, makers of soy lecithin and other health products."

1714. *Oakland Tribune.* 1954. Braggs leave for L.A. home. Sept. 8. p. D35.
• ***Summary:*** "Dr. and Mrs. Robert E. Bragg who have been visiting in the Eastbay for four days, returned yesterday to their home in Los Angeles. Mrs. Bragg is the former Miss Patricia Pendleton, daughter of Mrs. Harry Pendleton of Piedmont. She is sister of Harry Pendleton Jr., who is now a student at Menlo Junior College, on the peninsula.

"The young matron attended Miss Wallace's School [Piedmont, California] and the University of California for two years before going to UCLA. She will accompany her husband on a lecture tour of the United States."

Note: Patricia Pendleton Bragg is the daughter of Mr. and Mrs. Harry Pendleton. During much of her later life she claimed to be the adopted daughter of Paul C. Bragg, of health food fame.

1715. **Product Name:** Cubbison's Bite Size Melba Toast [Wheat-Soya].
Manufacturer's Name: Cubbison Melba Toast and Cracker Co.
Manufacturer's Address: 3417-3419 Pasadena Ave., Los Angeles 31, California.
Date of Introduction: 1954 November.
Ingredients: Incl. wheat flour and soy flour.
How Stored: Shelf stable.
New Product–Documentation: Ad (half page, black-and-white) in *California Home Economist.* 1954. Nov. p. 9. "The secret of Cubbison's superiority... is Melba toasting." Other famous Cubbison products include Bite Size Melba Toast.

Ad (half page, black-and-white) in *California Home Economist.* 1958. May. p. 9. "The secret of Cubbison's superiority... is Melba toasting." Other famous Cubbison products include Bite Size Melba Toasts in White, Wheat, Rye and Wheat Soya as a base.

1716. Cubbison's. 1954. The secret of Cubbison's superiority... is Melba toasting (Ad). *California Home Economist.* Nov. p. 9.
• ***Summary:*** This half-page black-and-white ad contains a small illustration of a package of Cubbison's Prepared Dressing for Poultry, Meats, Fish. The text states: "Yes, Cubbison's Prepared Ready-to-Use Poultry Dressing is toasted by a special process in especially designed dextrinizing ovens–to bring you a versatile product with better texture, finer flavor, and easier digestibility. Versatile? Yes, so many helpful uses: 1. An excellent quality pre-seasoned poultry stuffing to which can be added any special ingredient to make your own favorite dressing–mushrooms, oysters, chestnuts, apples, olives. 2. A tasty, everyday crouton for soups and salads. 4. Tasty crumbs for breading meats, fish and vegetables for frying...

"Other famous Cubbison products: Hearts Salt Free Cookies. Melba Toasts. Salt Free Crackers. Old Fashioned Corn Bread Stuffin'. Bite Size Melba Toast. Send for free literature for demonstration and teaching aids." Address: 3419 Pasadena Ave., Los Angeles 31, California.

1717. Hain Pure Food Co., Inc. 1954. Rich in unsaturated fatty acids (Ad). *Let's Live* 23(11):26. Nov.
• ***Summary:*** This large ad (7¼ by 5 inches), which bears the "Hain 100% Pure" seal / logo, states: "For quality it's Hain's cold pressed soy-oil (contains natural lecithin), sesame-oil, rice bran oil (it's new), peanut-oil, olive oil. They contain from 75.5% to 89% unsaturated fatty acids. 'Established since 1926.'" Address: 334 Azusa St., Los Angeles 12, California.

1718. **Product Name:** Hain Soy Oil: Cold Pressed.
Manufacturer's Name: Hain Pure Food Company, Inc.
Manufacturer's Address: 334 Azusa St., Los Angeles 12, California.
Date of Introduction: 1954 December.
Wt/Vol., Packaging, Price: Bottle.
New Product–Documentation: Ad (4.75 by 5 inches) in *Let's Live* magazine. 1954. Dec. p. 32. "Finest cold-pressed soy oil. 79¢ pint. An excellent cooking and salad oil. Available at your health food store." The "Hain 100% Pure" seal is displayed. Note: This is the earliest ad seen (Sept. 2008) that uses the term "Cold pressed" to refer to a vegetable oil (or oils).

Francis Kalnay. 1959. House Beautiful. May. p. 174-75. "Soybean has all the answers." Photo of the jar and label.

© Copyright Soyinfo Center 2021

The jar is tall and slender.

American Soybean Assoc. 1974? "Soybeans: From America's fertile soils the world's versatile protein resource." A photo shows the jar. Note clear identification as soy oil. Probably sold as "cold pressed" to health food market.

Midwest Natural Foods Distributors, Inc. 1975. Catalog #7. Nov. Ann Arbor, Michigan. 108 p. See p. 49. "Soy oil" (6 oz, pint, quart, half-gallon, gallon).

Ad in Tom Riker and Richard Roberts. 1979. *The Directory of Natural & Health Foods.* p. 54-55. "Hain presents an honest approach to oils." "Hain Crude Oils" include "Soy Oil." "What are the characteristics of Hain crude oils? They are Cold Pressed, unrefined oils with a natural taste and aroma... They are high in polyunsaturates. They are higher than most processed oils in vitamin E. They are rich in plant sterols, and provide natural phosphatides including lecithin. These may settle in the bottle. Notice that each Hain crude oil has its own rich color, because care is taken to retain natural characteristics and nutritive values. At high temperatures the natural lecithin and sterols tend to darken, and may spatter in frying. Crude oils are not recommended for frying, sautéing or oiling baking pans. Marinades are one of the largest uses of Hain crude oils."

Elaine Frick. 1987. "Soybeans: SC's ugly duckling gets exciting when it changes." Jan. 14. Photo shows a jar of "Hain pure cold pressed Soy Oil."

1719. Rancho La Puerta. 1954. Renew your health in our year 'round health with organic grape cure under the personal supervision of Dr. Edmond Bordeaux Szekely (Ad). *Let's Live* 22(12):30. Dec.

• ***Summary:*** "Winter grape cure. Scientific diets and special reducing diets adapted to the individual. Medical care. All foods organically grown. Sun, air, water therapy. Classes, lectures, swimming, hiking. 2,000 ft. altitude. 340 sunny days per year in desert mountain area." The mailing address is: Essene School, Tecate (near San Diego), California. Note: Rancho La Puerta is actually in northern Mexico.

A similar ad appeared in the Nov. 1955 issue (p. 34) of this magazine. It adds: "950 acres for recreation, health building, and relaxation." "Weekly expense fee $35 and up. Phone: Tecate, Mexico 2953,"

1720. **Product Name:** Sanitarium Health Foods Soya Beans in Tomato Sauce.
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: Sydney, N.S.W., Australia.
Date of Introduction: 1954.
Ingredients: Soya beans, tomato, sucrose, salt, onion, paprika.
Wt/Vol., Packaging, Price: 430 gm can.
How Stored: Shelf stable.
New Product–Documentation: Letter from Sanitarium Health Food Co. 1981. Label. 1980, undated. "A delicious protein-rich vegetable." Two recipes on label. Recipe brochure. 1981, undated. "Imagination in cooking... with Sanitarium." Photos show: Canned Soya Beans in Tomato Sauce, Vegetarian Rediburger, Bologna, Tender Bits. Label. "Delicious protein-rich vegetable." Letter and Label sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1954. Ingredients now read: "Soya beans, sauce, water added."

Note: This is the earliest known commercial soy product made by Sanitarium Foods in Australia.

Note: This is the English-language document seen (Nov. 2014) that contains the term "Rediburger" (or "Rediburgers").

1721. Davis, Adelle. 1954. Let's eat right to keep fit. New York, NY: Harcourt, Brace & World. 322 p. Index. 21 cm.

[14 ref]
• ***Summary:*** Advises Americans to eat more vitamins, minerals, and protein–as well as wheat germ and tiger's milk [Tiger's Milk]–to reduce their risks of possible deficiencies. Meats, fish, and fowl are considered excellent sources of protein. "Other superior sources are eggs, fresh milk, buttermilk, yogurt, powdered milk, cheese, soybeans, and powdered yeast" (p. 26). "Proteins from brewers' yeast, certain nuts, soybeans, cottonseed, and the germ of cereals are complete proteins (p. 29). A table (p. 32-33) lists good sources of protein including: Low fat soybean flour (1 cup has 60 gm of complete protein). Cooked soybeans (½ cup has 20 gm of complete protein).

"If milk, cheese, or eggs are disliked or unobtainable, getting adequate protein becomes a serious matter indeed. When the complete proteins of wheat germ, soybeans, brewers' yeast, and nuts are eaten, it is possible to obtain sufficient amounts of essential amino acids, provided the diet is planned with utmost care. Some of the world's leading athletes and scholars have been vegetarians. Unless a vegetarian is trained in nutrition, however, he usually becomes an unhealthy vegetarian."

Lecithin and its benefits are described on pages 38, 41, 78, 80, 115, and 219. "When oils are refined or hydrogenated, lecithin is discarded." Soybeans are a good source of pantothenic acid (p. 86) and vitamin B-1 (p. 101).

"If there is no health-food store in your community, you can purchase stone-ground flour from El Molino Mills, Alhambra, California; Paul Keene, Walnut Acres, Penns Creek, Pennsylvania; Great Valley Mills, Kellers Church, Bucks County, Pennsylvania; Elam Mills, Chicago, Illinois; Wight's Grist Mill, Old Sturbridge Village, Sturbridge, Massachusetts; Stone Buhr Milling Company, 3509 Evanston St., Seattle, Washington; Whole Grain Flour Mills, 2611 North Jones St., Chicago 47, Illinois; Huni Health Products, 207 East 87th St., New York City; The Vermont Country Store, Weston, Vermont" (p. 107).

"At first it may seem complicated to get your B vitamins from natural foods. Perhaps I can help you most by telling you how I have solved the problem in my family. I have had no white flour in the house for perhaps 20 years. All my flour is stone-ground whole wheat; [Sources of such flour, nationwide, are listed.] it is usually 'organically grown,' that is, grown on soil rich in humus, without commercial fertilizers. Such flour has a flavor infinitely more delicious than that of ordinary varieties... So-called 'enriched' flour is my idea of outright dishonesty... I rarely serve cereals because they contain so much starch... Soy flour, which supplies protein, cholin, inositol, and some anti-stress vitamins, I use in tiger's milk (p. 114) and the best hotcakes" (p. 109).

"Many authorities believe that the deficiency of calcium is more widespread than that of any other nutrient; milk is the only dependable source in the America diet... A certain amount of calcium can be obtained from mustard and turnip greens, soybeans, and blackstrap molasses, but these foods are rarely eaten daily... Certainly there are healthy people who do not drink milk, but each has a source of calcium; the Hawaiians' source is poi; the Orientals', soybean curds [tofu]."

"During hot weather, salty foods, such as salted nuts or soybeans, cheeses or potato chips, should be kept near the drinking water, and at least one well-salted food should be served with each meal." Address: Los Angeles, California.

1722. Dean, R.F.A. 1954. Preparation of soya bean and banana diet. In: Malnutrition in African Mothers, Infants and Young Children: Report of the Second Inter-African Conference on Nutrition. London: Her Majesty's Stationery Office. 398 p. See p. 279-84 (see also p. 308, 310). Held 19-27 Nov. 1952 at Fajara, Gambia, under the auspices of the Commission for Technical Cooperation in Africa South of the Sahara (CCTA). Illust. 56 plates. 25 cm. [1 ref]
• ***Summary:*** "Diets of a soya bean and sweet banana (See footnote, p. 310) preparation have been used for nearly a year at Mulago Hospital, Kampala [Uganda], in the treatment of kwashiorkor. The chief difficulty is processing the soya bean. A simple method, designed to make the beans palatable and easily digestible and to render the trypsin inhibitor innocuous, is outlined." The beans are soaked for 24-48 hours, then squeezed (by hand) under water to remove the hulls, which are removed. The cotyledons are minced and packed into "Kilner jars to within 4 cm of the top. Water is poured into the jars, leaving only 2 cm free, and the caps are fitted loosely. The filled jars are placed in a large vessel with water up to their necks, and the water is brought to a boil and kept boiling for 8-10 hours. The beans should then form a soft mash which can easily be made into a smooth paste by pressing between the finger and thumb. It should have a slightly beany flavour–not at all unpleasant." 300 gm of this soya mash is then mixed in a blender with 750 gm sweet banana and 75 gm sugar. The mixture contains 59 gm protein (51 gm from soya), 25 gm fat (all from soya), 236 gm carbohydrates (17 gm from soya), and 1,320 calories (500 from soya). The protein provides 18% of the total calories. A vitamin mixture provides about 15 mg [mcg?] of cyanocobalamin (vitamin B-12).

A 5-page discussion follows. Prof. Gyorgy discusses APF (Animal Protein Factor) and its relationship to vitamin B-12. "APF was considered to be a combination of B-12 and antibiotics, possibly with other additional factors (B-13, B-14) not yet chemically identified." Prof. Brock attempted to define kwashiorkor, and "pleaded for greater emphasis on the urgent and practical need to teach African people to produce and use proteins locally available, whether of animal or of vegetable origin. The attention of administrators should be specifically drawn to that point."

Note: This is the earliest English-language document

© Copyright Soyinfo Center 2021

seen (Nov. 2020) that uses the word "cyanocobalamin" to refer to vitamin B-12.

1723. Cubbison's. 1955. Now! At your health food store (Ad). *Let's Live.* Jan. p. 24.
• ***Summary:*** "100% W.W. Blackstrap Molasses Cookies. 100% Whole Wheat Soya Cookies. 100% Whole Wheat Vegetized Cookies. 100% Whole Wheat Honey Cookies. 100% Whole Wheat Flax Seed Crackers. 100% Rye Crackers. Wheat Germ Crackers. Wheat Soda Crackers (no salt added). Nut-Tee (Cotton Seed Flour) Crackers. Wheat Soya Crackers. Hearts Cookies (low in sodium). Hollywood Cup (contains no coffee or caffeine). Quality health foods since 1916." Address: Los Angeles 31, California.

1727. *Los Angeles Times.* 1955. Retired flour miller passes. May 9. p. B9.
• ***Summary:*** "Alhambra, May 8–Funeral services for Edward Allen Vandercook, 70, retired flour miller, will be conducted Tuesday at 10 a.m. in the Little Stone Church of Turner, Stevens & Turner. He was the seventh generation of a family of millers who began their trade in Holland.

Edward Vandercook, who has been a resident of Alhambra for 29 years [1926-1955], founded the El Molino Mills in 1926 at 3073 West Valley Boulevard. He retired in 1947 after 50 years in the flour milling business.

Edward Vandercook is survived by his widow, Nellie Leona, three sons, Edward W. and Eugene L. (both of San Gabriel) and Clare R. (of Arcadia), and two daughters, Mrs. Doris Jacobs of San Gabriel, and Mrs. Carol Ann Chenall of Scottsdale, Arizona.

1728. Gumbiner, Marshall. 1955. Cross-complaint for divorce: Patricia Bragg, plaintiff and cross-defendant, vs. Robert Bragg, defendant and cross-complaintant. No. D 490122. Los Angeles County, California. 3 p.
• ***Summary:*** "III. That at the time of said marriage, the said cross-defendant [Patricia Bragg] had another husband living, to wit Jack M. Cairo." When Robert Bragg discovered this, on or about Aug. 11 1952, he separated from Patricia "and has never since cohabited with her."

In short: Robert Bragg left Patricia immediately after learning that she was still legally married to another man.

Letter (e-mail) from Kathy Friesen. 2010. July 13. She found Jack M. Cairo in the Social Security death index. "You know that if Robert charged Patricia with bigamy–which was exactly what he was doing–in a divorce court proceeding, she'd have to respond to that charge and not just blow it off. So further pages would likely give us her answer."

Note 1. According to the Social Security Death Index one Jack M. Cairo (Social Security #568-12-4407) was born on 17 Oct. 1914 and died on 14 Aug. 2003 (Report verified with a family member). His last residence was Area code 99163 in Pullman, Whitman County, Washington. The Social Security card was issued in California.

Note 2. As of 13 July 2010 one Jack M. Cairo, age 94, lives in Phoenix, Arizona. Address: Attorney for cross-complaintant, 416 West Sixth St. room 301, Los Angeles 14, Los Angeles County, California. Phone: VA 3111.

1729. Irwin, John J. 1955. Complaint for divorce: Extreme cruelty. Patricia Bragg, plaintiff, vs. Robert Bragg, defendant. No. 490122. Los Angeles County, California. 3 p.
• ***Summary:*** Patricia and Robert were married on 19 April 1952 in Phoenix, Maricopa County, Arizona. They separated on 8 Aug. 1955. They were married for 3 years and four months. There are no children of said marriage. The value of the community property is approximately $30,000; there is also unimproved property in Alameda, California.

"V. During the married life of the parties, the defendant has treated the plaintiff with extreme cruelty to an extent that he has caused plaintiff great mental and physical suffering and has caused her to become ill and nervous and that such treatment was without any cause or provocation on the part of plaintiff."

"Because of defendant's actions toward plaintiff, her physical condition is such that she is unable to accept employment and is now unemployed; defendant is an able-bodied man, gainfully employed and financially able to pay plaintiff reasonable alimony for her support.

"Wherefore, plaintiff prays: 1. The bonds of matrimony heretofore and now existing between the parties be dissolved; 2. The community property be equally divided between the parties hereto; 3 Defendant be ordered to pay plaintiff reasonable alimony for her support; 4. For such other and further relief as the court deems just." Signed:

1730. Lager, Mildred. 1955. Suggestions for the arthritic, with menus and recipes. Burbank, California: Published by the author. 46 p. Aug. No index. 20 cm. Saddle stitched.
• ***Summary:*** The dedication page states: "Dedicated to all arthritics–everywhere." Copyright 1938 by Mildred Lager. Seventh edition (Revised and enlarged) May 1948. Eighth edition [printing] January 1951. Ninth edition May 1952. Tenth edition August 1955.

Contents: Part I. Introduction. Types of arthritis (inflammation of the joints; rheumatoid and osteo-arthritis). Causes of arthritis. Suggestions. Foods for the arthritic (diet can make a big difference). My own case. Juice diet. Kind of juices. How to take juices. Limited diet: Breakfast, lunch, dinner. Salisbury diet. General diet: Breakfast, lunch, dinner, dessert. Other suggestions: Heat, baths, sweats, etc., massage, digestive aids (natural laxative foods and bulky foods), supplements, vegetarian diet. Mental attitude (positive mental attitude and healthy emotions are very important). Additions August 1955 (p. 28; "It is now more than 30 years since I began my battle with arthritis... Thanks to my diet I have led a very active life. I am still on the fundamental diet because I do not know of anything better... Cortisone and ACTH have been heralded as miracle drugs. I do not believe these drugs are the solution to the problem. In many cases they have brought temporary relief...").

Part II. Menus (p. 29-31). Vegetarian menus (p. 31-32). Approximate carbohydrate content of fresh fruits. Carbohydrate content of dried fruits. Carbohydrate content of fresh vegetables. Recipes (p. 33-46).

"My own case" (p. 10-14). Note: Mildred M. Lager was born on 19 Dec. 1900 at Superior, Wisconsin, of Swedish parents, who immigrated to America. In 1925 she started her lifelong battle with arthritis. "As diet was the greatest factor in my recovery, I am going into detail about my experience." After graduating from college, she began teaching. She continued trying every possible cure for more than two years. "As a last resort, I half-heartedly turned to diet. I found, to my surprise, that when I left out starches and sweets I felt better, but I still did not realize that I must make an about face and a complete change in my eating habits. I became very interested in food, however, and read every book and article I could read on the subject... I don't know how long I would have continued in this half way stage had not my doctor bluntly told me *the truth* as he put it He said that nothing could be done and I might as well know it. By this time my elbows were locked (ankylosed)" and my wrists, hands, knees, ankles, and feet were badly affected. "I felt as if my body were nothing but 'sore joints.'"

So she started a strict diet of natural unsweetened fresh fruit juices only. She found orange, grapefruit, tomato, pineapple, and apple to be the best for her. One month later she took a teaching job in northern Michigan, arriving there in twenty degrees below zero. Within 9 months she had won her battle. There follows a list (p. 13) of six foods to avoid plus two general tips. Also, when using dried fruits, use only the unsulphured kind. "Liquified [sic, Liquefies] drinks: A liquefier is a blessing to any one who for some reason cannot tolerate raw green leafy vegetables" (p. 35).

By 1955 Mildred had already authored two books on soybeans and soyfoods, the first one (*The Useful Soybean*, 1945) a classic. This book contains soy in many of the menus and recipes: Soy oil for salad dressing (p. 18-19). Soybean melba toast (p. 20, 29, 31). The best sources of vegetable protein in a vegetable diet include soybean protein (p. 27). Baked soybeans for dinner (p. 31). Cooked soy grit cereal for breakfast (p. 32). Soy melba toast with avocado for lunch (p. 32). Recipes for: Soy bread, soy melba toast, soy gluten bread (p. 37). Meat substitute dishes (p. 39-42): Cooked soybeans with soy sauce. Canned or baked soybeans (available in most markets and all health food stores). Soy loaf (with cooked soybeans and melba toast crumbles). Soy grits. Cooked soy grits. Soy vegetable hash. Soy cheese or tofu. Tofu steak. Mock fish tofu. Gluten steak. Nut butters. Almond butter. Pecan spread. Nut sauce or gravy. Cashew gravy. Almond hamburgers.

Note 1. This book advocates a vegan diet, free of all animal products.

Note 2. This is the earliest English-language document seen (April 2013) that contains the term "Tofu steak." Address: Burbank, California.

1731. Lager, Mildred. 1955. Nutritional news and recipes: The power of gratitude. *Let's Live* 23(11):22-23, 53. Nov.
• ***Summary:*** "We all have so much to be grateful for, as there is an abundance of wonder and loveliness in the world if we will but look at it. Gratitude brings both healing and comfort. Start your day with gratitude..."

Discusses nuts as food, with recipes, including: Almond breakfast with "raw almond butter." Almond milk. Peanut butter mayonnaise. Vegetables in nut gravy (with "raw or toasted cashew butter"). Almond hamburgers [meatless] (seasoned with soy sauce). Address: Los Angeles, California.

1732. *Los Angeles Times.* 1955. Son accuses his wife and father in court: She denies claim that they travel as married couple by saying she's guest in his home. Dec. 21. p. 4.
• ***Summary:*** Dr. Robert E. Bragg, age 33, is a chiropractor and owner of a health foods store, testified yesterday that his wife Patricia, age 26, and his father Paul C. Bragg [the well-known health foods promoter and lecturer], have been "traveling together–as man and wife."

Judge Doyle asked Robert why he didn't try to get his wife back. Robert answered decidedly that he didn't want her back. Paul Bragg sat together with Patricia in the court room

© Copyright Soyinfo Center 2021

and left arm in arm with her at the close of the hearing.

Photos show: (1) A portrait photo of accuser Dr. Robert E. Bragg. (2) His father Paul C. Bragg standing with his daughter-in-law, Patricia.

1733. Cubbison's. 1955. Mrs. Cubbison's All Purpose Ready to Use Dressing and Old Southern Cornbread "Stuffin." *Let's Live* 23(12):16. Dec.
• ***Summary:*** This small ad (2¼ by 2½ inches) states: "A treat with vegetables and ideal for casseroles. Adds flavor and texture to these dishes because it's Melba-toasted." "Now at your health food store." Address: Los Angeles 31, California.

1734. Hain Pure Food, Inc. 1955. Hain pure California carrot juice: It's pure–with a nice, fresh flavor (Ad). *Let's Live* 23(12):23. Dec.
• ***Summary:*** This large ad (7¼ by 5 inches) shows a can (5¼ oz.) of the product, which bears the motto: "Nothing added–Nothing taken away." "Est. in 1926." Address: 334 Azusa St., Los Angeles 12, California.

1735. INS [International News Service]. 1955. Son accuses dad in divorce suit. *Stars & Stripes* (*U.S. Military Newspaper*). Dec.
• ***Summary:*** "Los Angeles, Dec. 22. Paul C. Bragg, internationally known health food manufacturer, has been accused by his son, Robert, 33, of having a love affair with the son's wife, Patricia, 26.

"The son filed a cross-complaint in Los Angeles superior court to his wife's divorce suit and charged she and her father-in-law made love last Oct. 18 in the senior Bragg's palatial home in Burbank, California."

Mrs. Bragg is demanding alimony pending the divorce trial. "She and Robert were married in 1952 and parted last Aug. 11.

"She said she sought refuge in her father-in-law's home after the separation and denied that there was anything improper in their relationship. Her father-in-law also vigorously denied an impropriety."

1736. Landstrom Co. (The). 1955. The largest in the West to serve you the best (Ad). *Let's Live* 23(12):52. Dec.
• ***Summary:*** This ad (7¼ by 1 inch) states: "Wholesalers of special purpose foods, vitamins, juicing machines. Serving the Western states through the 22nd year" [i.e. since about 1933]. Address: 69 Green St., San Francisco 11, California.

1737. **Product Name:** Soy Flakes.
Manufacturer's Name: Battle Creek Food Co.
Manufacturer's Address: Battle Creek, Michigan.
Date of Introduction: 1955.
New Product–Documentation: Price List. 1955. 5 oz.

1738. **Product Name:** Soybake (Roasted Full-Fat Soya Flour).
Manufacturer's Name: H.J. Langdon. Made in Melbourne, Australia, by F.G. Roberts' Health Foods.
Manufacturer's Address: Australia.
Date of Introduction: 1955.
Ingredients: Soybeans.
New Product–Documentation: Letter from Paul Smith of Soy Products of Australia Pty. Ltd. 1995. March 14. "Soyvita has only ever been used as a tradename for debittered full fat soy flour since 1951. Initially it was made using imported soybeans, but from 1954 it was made from Australian-grown soybeans. The tradename 'Soybake' was used for the same product packaged under the H.J. Langdon's name and address from 1955 to mid-1991, when it was abandoned due to a rationalisation of packaging and product lines. H.J. Langdon now buys the product in the 'Soyvita' packaging."

1739. El Molino Mills. 1955. El Molino best: Tested recipes from El Molino Kitchen. 360 W. Valley Blvd., Alhambra, CA 91803. *
• ***Summary:*** Contains good tables on the nutritional composition of grains and beans, information on flours and stone grinding, plus many good recipes. A key book in the early days of the natural foods movement in America. Address: Alhambra, California.

1740. *El Rodeo* (*Cal Poly, San Luis Obispo*). 1955. Two of Cal Poly's earliest students: Mrs. Sophie Huchting and Owen Hollister (Photo caption). Unnumbered page.
• ***Summary:*** This full-page photo shows the two alumni standing together. "Mrs. Sophie Cubbison, graduate of 1925 when Cal Poly was strictly co-ed, and now head of a large baking corporation in Los Angeles. Back for Homecoming, they were astounded at the rapid growth of their one-time back-country alma mater."

1741. *Federal Trade Commission Decisions: Findings, Orders, and Stipulations.* 1955. 8448. Food and drug products–Therapeutic properties, relevant facts, comparative merits, etc. 49:1634-35.
• ***Summary:*** These Decisions, which cover the period July 1, 1952 to June 30, 1953, are published by the Commission. The date at the end of this section, March 24, 1953, is probably the date of the decision.

Section 8848 begins: "Live Food Products Co., a California corporation, with its principal office and place of business located in Burbank, California, and Paul C. Bragg sole owner of the issue capital stock of said corporation, engaged in the business of offering for sale and selling in commerce products designated 'Bragg Calcium,' 'Bragg Hy-Trytion,' 'Bragg Floramucin Regular,' 'Bragg Floramucin With Cascara' and 'Bragg Liquid Aminos,' which:

"... (d) Represents that 'Bragg Liquid Aminos' conditions the body organs or that it is a complete nutritional

© Copyright Soyinfo Center 2021

substitute for meat,..."

Note 1. This is the earliest document seen (Dec. 2011) that mentions "Bragg Liquid Aminos," a product which is still on the market and selling well.

Note 2. From this document we can conclude that Bragg Liquid Aminos was being sold commercially by March 1953.

1742. Lager, Mildred. 1955. How to use the soybean: A plus factor in modern nutrition. Burbank, California: Published by the author. Printed at La Sierra College Press, Arlington, California. 115 p. Index. 23 cm. Lay-flat comb bound.
• ***Summary:*** Contents: Preface. Nutritional nuggets–food value of soybeans. The versatile soybean. Soup to nuts–soybeans and soy products. Recipes: Green soybeans. Dry soybeans. Sprouted soybeans. Roasted or toasted soybeans. Meat-substitute dishes. Soy-enriched meat dishes. Soy noodles, macaroni, spaghetti. Sauces and gravies. Soups. Salads. Dressings. Soy spreads. Soy milk. Tofu or soy cheese. Soy butter (made from finely ground soybeans or soy flour, it may be raw or roasted, and resembles peanut butter; p. 73-74). Soy cereals. Soy desserts. Soy candies. Soy beverages. Soy-flour recipes. Breads and muffins. Pancakes and waffles. Soy gluten recipes. Baking-powder biscuits. Pastry. Cookies and doughnuts. Cakes. Contains 350 recipes.

A so-called "second edition" of this book was published in 1959, but it was identical to this first edition.

Ad in *Let's Live.* 1960. April. p. 39. Mildred Lager Publications [perhaps her home] is now located at 4118 Warner Blvd., Burbank, California. Mildred died in Aug. 1960. Address: Burbank, California.

1743. Springer, Gertrude Anders. 1955. Natural food cookery: Nature's sweets, herbs and wholegrain flours. Milwaukee, Wisconsin: Lee Foundation for Nutritional Research. 71 p. No index. 23 cm.
• ***Summary:*** An early natural-foods cookbook. Contents: 1. Foreword. 2. Fundamental food concepts ("The way to build this vibrantly alive soil is by practicing the Science of Organiculture, or the organic method"). 3. Wholegrain flours. 4. Wholegrain meals and grits. 5. Other valuable foods. 6. Herb cookery. 7. Pies. 8. Cookies. 9. Cakes. 10. Cake frostings. 11. Doughnuts. 12. Confections. 13. Fruits. 14. Health beverages. 15. Salads. 16. Salad dressings. 17. Breads, rolls and muffins. 18. Meat, fish and eggs. 19. Vegetable dishes. 20. Soups and stews. 21. Pancakes and waffles. 22. Jams and preserves. 23. Quick desserts. 24. Article "Sesame seed–An important food." 25. Practical methods in preparing health-building foods. Note 1. Chapters 24 and 25 (on unnumbered pages) are written by Royal Lee, D.D.S. [dentist].

Soy-related recipes: Chapter 3, "Wholegrain flours," contains a photo of bags of five such flours, including "Soya flour." A paragraph (p. 5) explains: "Soya flour can be a full fat flour (all of the fat left in) which many consider nutritionally superior, or it can be a low fat flour (part of the fat removed) for low calorie diets." Note 2. This is the earliest English-language document seen (Nov. 2003) that uses the term "low calorie" or "low calorie diets" positively in connection with soybeans for human diets. Throughout most of human history, people wanted calories, which provide energy.

Unleavened Indian chapatis (with ½ cup soy flour, p. 52). Basic muffin recipe–Soya muffins variation ("Substitute ½ cup soya flour for ½ cup of the pastry [flour]. Gradually increase the soya and decrease the pastry until you are using half and half after several batches have been made." p. 54). Chinese chow mein (with up to ½ cup "Show You sauce," p. 62). Japanese sukiyaki (with about ½ cup "Show You sauce," p. 63). Egg white leavened waffles (with a bit of soya flour, p. 67). In Chapter 25, the section on "Vegetables" contains brief instructions for making soy bean milk, and using soaked, "liquefied beans direct from the blender" in making bread. The Chinese never eat soy bean products without first soaking the beans. "It is the secret of successful soy cookery." The chapter on sesame seeds notes: "Sesame seed ground into a butter like peanut butter is used in some countries–Turkey in particular–like our dairy butter is here, and is used in almost every food in some degree. It makes first-class salad dressing when mixed with vinegar and prepared mustard. With honey and milk powder a very tasty cream candy can be made... In Roman times the emergency ration for soldiers was a candy made from sesame seed and honey. A very tasty and nutritious ice cream can be made from sesame butter, honey and milk powder. The sesame seed can be used for these purposes instead of the sesame butter if the seed is liquefied with the honey in a blender or Osterizer. Sesame butter is an ideal shortening for bread and cookies." Note 3. This is the earliest English-language document seen (Aug. 2017) that contains the term "sesame butter"–a smooth paste of ground sesame seeds.

This book also discusses: Carob brownies, peanut butter, sunflower seeds, how to sprout mung beans, herbs, etc.

Note 4. This is the earliest English-language book seen (June 2003), published after World War II, with the term "natural food" in the title.

Note 5. This is not a vegetarian cookbook. Recipes (p. 55-58) call for steak, pork, ground beef, spare ribs, lamb chops, ham, chicken, tuna, and salmon.

1744. Battle Creek Food Co. 1955? Pointers: On Battle Creek Sanitarium health foods. Battle Creek, Michigan. 16 p. Undated. Illust. No index. 16 cm.
• ***Summary:*** Contents: The story of Battle Creek Foods (The Battle Creek Food Company was established nearly 50 years ago). Agar–The laxative from the sea. Bran Biscuit–A crisp wafer. Dormi–Promotes sound, restful sleep (this is one of the newest Battle Creek Health Foods). Fig & Bran–The regulating breakfast food. Fig & Bran Cookies–Pure, tasty,

© Copyright Soyinfo Center 2021

wholesome. Food Ferrin–A pleasant way to get the iron you need. Battle Creek gluten products–for special diets (Toasted Bran Gluten Flakes, Gluten Bread, Gluten Meal, Sanitarium Gluten Flour, Pure Gluten Biscuit). Health Chocolates–Delicious health candy. Lacto-Dextrin–An internal cleansing food. Laxa–The laxative biscuit. Malted Nuts–A powdered nut milk (A "palatable vegetable substitute for cow's milk, it is a splendid food for babies and growing children"). Meltose–A syrup from grains ("It is a well-known fact that cane sugar does not agree with many persons." It may cause acid stomach. In appearance, Meltose "resembles strained honey"). Meltose sugar (a powdered form of Meltose; it is "much more easily assimilated than ordinary sugar, and is a better source of energy"). Minute Brew–A bracing cereal beverage ("resembles coffee but contains no caffeine"). Paralax with agar–An efficient regulator ("...a most effective remedy for constipation. No laxative drug of any kind has been added. A highly refined mineral oil using Agar as an emulsifying agent"). Paramels–The candy-like constipation remedy ("cubes of pure mineral oil... sweetened with Meltose sugar"). Protose–A vegetable meat that satisfies ("made entirely from nuts and grains"). Psylla (dark or white)–A seed that fights constipation [psyllium]. Sanitarium Cooked Bran–a bran cereal (serve with cream and sugar for constipation). Sanitarium Fig & Bran Flakes–A new flavor in breakfast flakes (Vitaminized, enriched with food iron and vitamin B; combines "Two of Nature's best laxative foods"). Savita–a rich, vitamin B flavoring extract ("concentrated yeast extract in paste form..." Rich in Vitamin B). Whole wheat flour–Stone ground. Cooked whole wheat–A ready-to-eat breakfast food. Zo–A Vitamin B breakfast food (crisp, crunchy). Sanitarium canned fruits and vegetables (in 20 oz cans). On the back cover, with order form: Send for these valuable booklets free!: "Healthful Living." "Modern Health Recipes and Menus."

Note: This booklet was sent to Soyfoods Center by Chef Akasha Richmond (chef to the stars), of Los Angeles as a gift (Feb. 2004). Address: Battle Creek, Michigan.

1745. Fearn Soya Foods. 1955? Money saving recipes for using Dr. Fearn's Pure Soya Bean Powder (Leaflet). Melrose Park, Illinois. 3 panels each side. Each panel: 22 x 9 cm. Undated.

• ***Summary:*** On the front panel of this leaflet (black ink on yellow) is an illustration of woman holding up a glass of (probably) soya milk. Below that is written: "Meatless. No starch. No salt. 42% complete protein. For vegetarians, athletes, restricted diets." When we open the leaflet, across the top is written: "How to use Dr. Fearn's Pure Soya Bean Powder." Below that are about 20 recipes and suggestions for use. On the back 3 panels are 15 more recipes.

One other front panel is titled "New recipes to try." It includes: Tiger's milk–homemade. Baby formula. Soy yogurt. Soy cheese–Tofu. The bottom half of this panel lists seven pamphlets from Fearn Soya Foods "available at your health food store (see Foods, Health in the Yellow Pages). Send us a self addressed stamped envelope if your store does not handle them." They are: "(1) The Fearn Chart–Lists all the vitamins and minerals of most common foods. (2) How to Get Slim and Stay Slim–Describes a satisfying 22 cent per day reducing diet. (3) About the Soya Bean–Describes its nutritive values and the hexane solvent menace. (4) You Cannot Live Without Protein–Tells function and importance of protein. Of special interest to vegetarians and body builders. (5) Recipe Folder: Soya Powders–Includes bread, soy milk, puddings, etc. for restricted diets. (6) Recipe Folder: Soya Granules–Lists many money saving recipes based on this high protein food. (7) Recipe Folder: Soybeans–Tells how to use our cooking and sprouting organic soybeans."

© Copyright Soyinfo Center 2021

The third front panel is titled "Try these Dr. Fearn's Foods.

"Dr. Fearn's High Protein Food–47% protein. Makes pleasant tasting drinks with cold water. Vanilla or root bear flavors. 1 lb.

"Dr. Fearn's Wholewheat & Soya Pancake Mix contains the finest stone ground wholewheat with soya powder. It is quite digestible, higher in protein and lower in starch than the usual run of similar products. 1 lb.

"Dr. Fearn's Regular Pancake Mix is the same as above except that unbleached white flour is used. 1 lb.

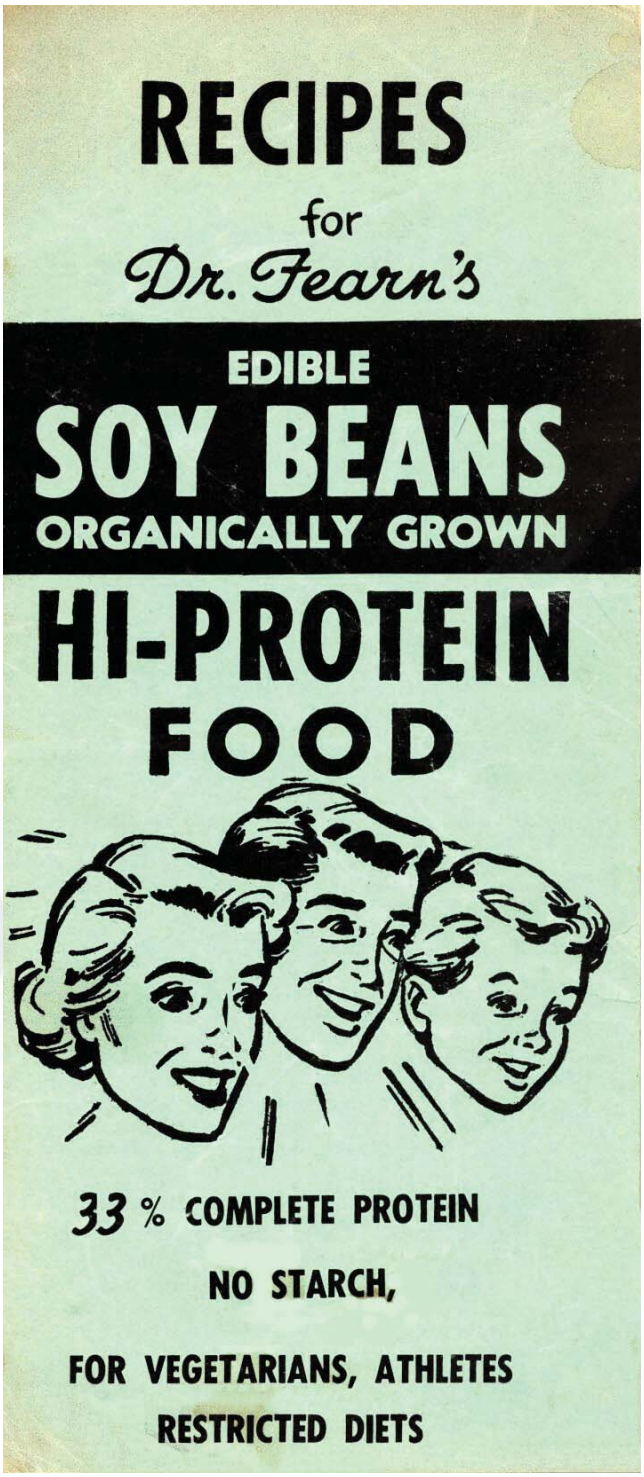
"Dr. Fearn's Wheat Cereal & Soya is a cooked type cereal, made with the finely chopped Northern wheat and soya granules. It contains over 30% complete protein and less than 55% starch. A satisfying breakfast for the entire family and usually keeps hunger away until the noon meal. 1 lb.

"Dr. Fearn's Pure Soya Bean Powder for making soya milk. Contains 42% complete protein and no starch. Can be used for enriching various drinks, baked foods and meat dishes. 10 oz. and 2 lbs.

"Dr. Fearn's Soya Granules, contain 52% complete protein, no starch, 5% fat. Can be eaten as is, cooked, or added to meats, soups and other foods. 1 lb.

"Dr. Fearn's High Lecithin Soya Powder same as regular Soya Powder except 15% Lecithin has been added. 10 oz.

"Dr. Fearn's Low Fat Soya Powder. Same as regular Soya Powder except fat has been reduced to 5%. 10 oz.

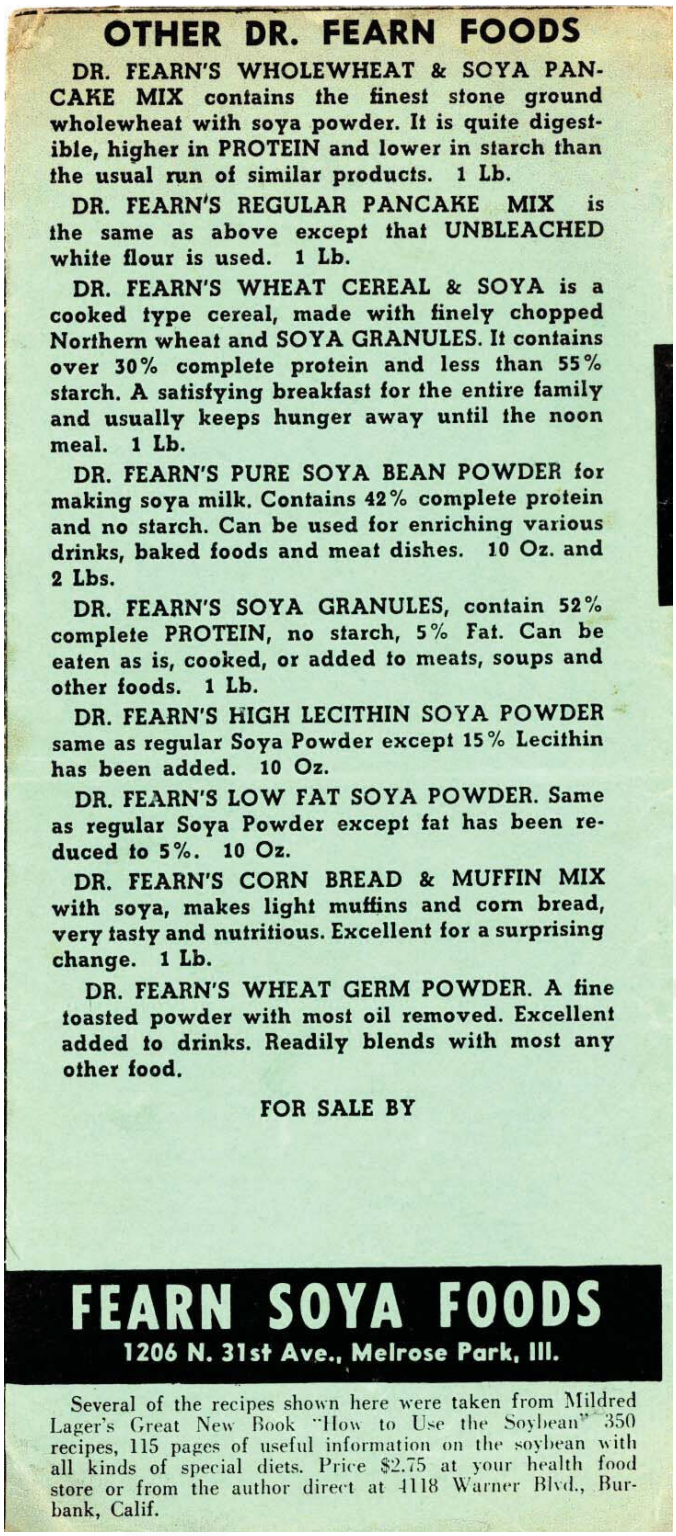


"Dr. Fearn's Corn Bread & Muffin Mix with soya, makes light muffins and corn bread, very tasty and nutritious. Excellent for a surprising change. 1 lb.

"Dr. Fearn's Organic Soybeans. Organically grown without chemical fertilizers and poisonous insecticides. 1 lb.

"Dr. Fearn's Wheat Germ Powder. A fine toasted powder with most oil removed. Excellent added to drinks. Readily blends with most any other food."

Note 1. This leaflet was found inserted in *Mrs. Hauser's Recipe Book* (1938), purchased by Soyfoods Center from a used book store in Spokane, Washington. This booklet seems to show that Mrs. Hauser's Food Products Company (4617 Melrose Ave., Los Angeles, California) purchased Soya Bean Flour (and probably some other soy products) from Fearn Soya Foods.



Note 2. This is the earliest English-language document seen (Sept. 2012) that contains the term "Soy yogurt." Address: 1206 North 31st Ave., Melrose Park, Illinois.

1746. Fearn Soya Foods. 1955? Recipes for Dr. Fearn's Edible Soy Beans organically grown (Leaflet). Melrose Park, Illinois: Fearn Soya Foods. 12 panels. Front and back. Each panel: 9.5 x 21 cm. Undated.

• ***Summary:*** Printed with black ink on light green paper, this leaflet opens like a road map. We find it unusual that the words "organically grown" appear only once–on the front–in this leaflet. A few of Dr. Fearn's many products have these word "pure" in the product name but none have "organic" or organically grown." The first 3 panels contain recipes: Sprouts for salad. Sprout casserole. Sprout tomato sauce. Bean sprout and chicken souffle. Meatless chop suey. Soy loaf. Chop suey with meat. Sprouted soybean casserole. Sprouted soybeans au gratin. Scrambled eggs with sprouted

OTHER DR. FEARN FOODS

DR. FEARN'S WHOLEWHEAT & SOYA PANCAKE MIX contains the finest stone ground wholewheat with soya powder. It is quite digestible, higher in PROTEIN and lower in starch than the usual run of similar products. 1 Lb.

DR. FEARN'S REGULAR PANCAKE MIX is the same as above except that UNBLEACHED white flour is used. 1 Lb.

DR. FEARN'S WHEAT CEREAL & SOYA is a cooked type cereal, made with finely chopped Northern wheat and SOYA GRANULES. It contains over 30% complete protein and less than 55% starch. A satisfying breakfast for the entire family and usually keeps hunger away until the noon meal. 1 Lb.

DR. FEARN'S PURE SOYA BEAN POWDER for making soya milk. Contains 42% complete protein and no starch. Can be used for enriching various drinks, baked foods and meat dishes. 10 Oz. and 2 Lbs.

DR. FEARN'S SOYA GRANULES, contain 52% complete PROTEIN, no starch, 5% Fat. Can be eaten as is, cooked, or added to meats, soups and other foods. 1 Lb.

DR. FEARN'S HIGH LECITHIN SOYA POWDER same as regular Soya Powder except 15% Lecithin has been added. 10 Oz.

DR. FEARN'S LOW FAT SOYA POWDER. Same as regular Soya Powder except fat has been reduced to 5%. 10 Oz.

DR. FEARN'S CORN BREAD & MUFFIN MIX with soya, makes light muffins and corn bread, very tasty and nutritious. Excellent for a surprising change. 1 Lb.

DR. FEARN'S WHEAT GERM POWDER. A fine toasted powder with most oil removed. Excellent added to drinks. Readily blends with most any other food.

FOR SALE BY

FEARN SOYA FOODS

1206 N. 31st Ave., Melrose Park, Ill.

Several of the recipes shown here were taken from Mildred Lager's Great New Book "How to Use the Soybean" 350 recipes, 115 pages of useful information on the soybean with all kinds of special diets. Price $2.75 at your health food store or from the author direct at 4118 Warner Blvd., Burbank, Calif.

soybeans. Salted soybeans. Oven-roasted soys. Ground toasted soybeans. Soy toppings. Cereals. Soy nuts. Soy omelet. Cooked ground soybeans. Vegetized ground soys. Soyburgers.

Then if you open the leaflet again, you find 6 panels of text ad recipes. Across the top: "Add High Grade Protein to Your Diet." The top half of the top left panel, is titled "Soy Beans: The 'Miracle in Food. begins: "Dr. Fearn was recognized as the first to produce an edible soybean Flour and his patented process is used in producing Dr. Fearn's Pure Soya Bean Powder used in other Dr. Fearn products. Dr. Fearn was recognized as the outstanding authority in the World and he was selected by President Wilson in 1917 to come to the United States and get the soybean started, as a war measure to combat the German U-boat warfare, which was sinking our ships faster than we could build them. The Soybean offered many times the food value of wheat, corn and other cereals we were sending to our allies, friends and displaced peoples of Europe, and would require much fewer ships than other foods. Dr. Fearn was a surgeon Major in the British army and he accepted President Wilson's invitation to come and promote the soybean in the U.S.A. The war ended in 1918, before the program was well under way so Dr. Fearn turned his attention to promoting the soybean as a commercial venture.

"He organized and started the first Soybean processing plant in the U.S.A. in 1920 in New York City and it was called The Soyex Company. It was far ahead of it's time and doomed to failure, because people would not believe miraculous truth about the soybean. Dr. Fearn then came to Chicago in 1923 and started the Fearn Laboratories which prospered and was sold to other interests and is making excellent progress under another name. He then started the Fearn Soya Foods in 1935 the present company. Dr. Fearn died in 1949 at the age of 70."

The rest of the six inside panels, and the leftmost of the back 3 panels, contain more recipes.

The back panel, titled "Other Dr. Fearn Foods" lists nine food products: Dr. Fearn's Wholewheat & Soya Pancake Mix. Dr. Fearn's Regular Pancake Mix. Dr. Fearn's Wheat Cereal & Soya. Dr. Fearn's Pure Soya Bean Powder. Dr. Fearn's Soya Granules. Dr. Fearn's High Lecithin Soya Powder. Dr. Fearn's Low Fat Soya Powder. Dr. Fearn's Corn Bread & Muffin Mix. Dr. Fearn's Wheat Germ Powder.

Note: Although this leaflet is undated we can guess the date from the text at the bottom of the back panel: "Several of the recipes shown here were taken from Mildred Lager's Great New Book 'How to Use the Soybean' 350 recipes, 115 pages of useful information on the soybean with all kinds of special diets. Price $2.75 at your health food store or from the author directly at 4118 Warner Blvd., Burbank, California." This book was published in 1955.

Note: This is the earliest document seen (Jan. 2015) that tells the basic story of Dr. Fearn's life with dates, or that mentions "President Wilson," etc. Address: 1206 N. 31st Ave., Melrose Park, Illinois.

1747. Ojai Bakery. 1955? [Order form for baked items]. Ojai, California. 1 p. Undated. 20 x 9 cm.

© Copyright Soyinfo Center 2021

• ***Summary:*** This order form, used when Harmon and Helen Vaughn owned the bakery, lists 22 baked goods, but no prices. It seems to be designed for both wholesale and retail sales. Below the name, address, and phone numbers of the Ojai Bakery at the top of the form are three blank lines for the date, "Sold to," and "Address" of the buyer. Below that are 4 columns, none of which have a heading / head at the top. They are: (1) Number of each item ordered. (2) Name of baked items. (3) Price of each baked item. (4) Total price (1 x 3). All the columns except (2) are blank on the form. A bakery worker was expected to fill in the applicable blanks.

The names of the baked items, reading from top to bottom, are: Soya bean bread. S.F. [San Francisco] wheat bread. S.F. white bread. 1# [pound] ranch bread. 1½# ranch bread sandwich. Gluten bread. 7 grain [bread]. Sour rye round. Sour rye sandwich. Dinner rolls. White san. Wheat san. Long French. Onion rye. 7 grain sand. Bran & grain, Cinnamon–Raisin. Stone 100% wheat. French rolls. Danish pastry. Cakes. Other pastry.

Talk with Helen Vaughn of Ojai. 2006. March 13. She clearly recalls making all the items on this list. This list was probably printed in about 1955 to 1960. Address: 457 East Ojai Ave., Ojai, California. Phone: 646-1558 or 646-1950.

1748. *Los Angeles Times.* 1956. Son drops his charge linking wife, father. Jan. 17. p. 5.
• ***Summary:*** Dr. Robert E. Bragg, age 33, is a chiropractor and owner of a health-foods store. He had accused his wife (Patricia, age 26) and his father (Paul C. Bragg, the well-known health foods enthusiast and lecturer) of "traveling together as man and wife," shortly after his separation from Patricia last August.

But yesterday he withdrew his charges. The father said that his son had come to realize that Patricia had turned to him for support after the son failed to support her. Patricia said that her father-in-law treated her just like his own daughter, and for this she was very thankful. A photo shows the father and son shaking hands, with Patricia smiling in the middle.

1749. *Los Angeles Times.* 1956. Wife, herself accused, divorces chiropractor. March 23. p. A10.
• ***Summary:*** Patricia Bragg, age 26, yesterday obtained a divorce from her husband Dr. Robert E. Bragg, age 34, chiropractor and health food store operator. Dr. Bragg, who once accused his wife, Patricia, of romancing with his father, did not contest the divorce decree. The Braggs were married in 1952 in Phoenix, Arizona, and separated last August.

Patricia told Superior Court Judge Caryl M. Sheldon that the problem had started shortly after she and Robert were married. She said she would have dinner ready, but he didn't come home or telephone. "He'd finally arrive at about 11 p.m. It got later and later." She said that many nights she would cry herself to sleep. Her testimony was confirmed by Miss Phyllis Sarkissian who said Dr. Bragg ignored his wife and paid more attention to other ladies.

1750. Natural Food Associates. 1956. Directory listing (Ad). *Natural Food and Farming* (*Atlanta, Texas*) 3(1):22-23. April.
• ***Summary:*** These advertisements are divided into the following categories: Organic foods (listed alphabetically by state), juicers, books, miscellaneous, ladybugs, business opportunities, soil building. Within each category, they are organized by state. About two-thirds of the ads are for organic foods (especially fruits), with California (9 ads), New York (6), Illinois (4), Pennsylvania (4), and Wisconsin (4) having the most ads.

For example: Lee Anderson of the Covalda Date Co. (Highway 99, Coachella, California), is selling "'Certified organically grown' produce, dates, pecans, grapefruit and grapes. Prices on request.

Pacific Sunblest of Orange, California, is selling "Oranges–Organically grown by us for 25 years."

Health Research, Mokelumne Hill, California, offers "25 lbs. assorted organically grown fruits and nuts–$12.50. F.O.B. Health Book Catalogue free!"

"Barton Whole Foods, organically grown for 38 years. Naval oranges, cold-pressed olive oil, dried fruits and mountain apples in season... Porterville, California.

Walter Buschman of Juniper Farm, Sugarloaf, Orange Co., New York, is selling Bio-dynamic (BD) whole wheat flour and cereal, BD rye flour and cereal, BD cornmeal, BD white pastry flour, organic oatmeal and soybeans, and Cheddar cheese made from unpasteurized milk.

Helen and Scott Nearing of Harborside, Maine, are selling their book *Living the Good Life*, a "how-to-do-it book for Vegetarians and Organic Gardeners. 210 pages. Photographs. $3.50."

In Pennsylvania, Paul and Betty Keene of Walnut Acres Natural Foods in Penns Creek are "One of the first in the supplying of organic and other natural foods direct from the farm where grown and milled. One of the most complete lines in the country, conscientiously chosen."

In Texas: "5 lbs. Deaf Smith County stone ground 100 per cent organic flour $1.50 postpaid. Write for list of organic foods. Natural Organic Foods, Atlanta, Texas."

Many of the ads are from individuals who grow and sell organic foods. One is from L.E. Schnoor (Comptonville, California), who sells ladybugs for natural insect control. There are ten ads for soil building materials. At he bottom right corner of p. 23 is a box that states: "Eat organic food."

Note 1. This is the earliest document seen (Oct. 2006) that mentions Walnut Acres Natural Foods of Penns Creek, Pennsylvania.

Note: This full-page ad also appeared in the next issue (May 1956, p. 18-19).

© Copyright Soyinfo Center 2021

1751. *Los Angeles Times.* 1956. Nutrition experts wind up parley with mild uproar over vitamins. May 21. p. A3.
• ***Summary:*** The 20th anniversary convention of the American Academy of Nutrition ended yesterday evening after a dispute over whether there is any significant difference between natural and synthetic vitamins. Some 350 people were present. Dr. Robert Pottenger of Pasadena, was the moderator.

Dr. Henry Borsook, a leading authority on vitamins from the California Institute of Technology [Caltech] said that synthetic and natural vitamins are the same chemically, "The bodies of animals cannot tell them apart."

Dr. Royal Lee (Milwaukee, Wisconsin), a dentist and manufacturer of natural vitamins, disagreed, mentioning the difference between left-handed and right-handed molecules. E.L. Van der Cook of El Molino Mills (Alhambra, California) questioned the use of additives to bread to preserve and bleach it. He said that prolonged exposure to them may affect our health.

Dr. Borsook countered by saying that there is no evidence that preservatives and softeners in bread cause any harm to the body. Before their use was allowed in human foods, they were tested on animals by the government.

Note: This is the earliest document seen (July 2021) that mentions "Van der Cook" in connection with El Molino Mills.

1752. Chen, Philip S. 1956. Heart disease and soybeans: Will recent medical discoveries mean increasing importance for soybeans? One view of a much-discussed subject. *Soybean Digest.* June. p. 22, 24.
• ***Summary:*** "The recent heart attack of President Eisenhower [on 24 Sept. 1955] has brought renewed alarm to most Americans regarding the seriousness of this No. 1 killer, which, with other circulatory ailments, accounted for 52% of the deaths in the United States last year–more than all other causes of death combined. It has been estimated that two out of every three Americans of 55 years of age will die of this disease.

"What is the chief cause of coronary heart disease? An explanation of this malady appeared in an article by Blake Clark in the November issue of *Reader's Digest* from which we quote:

"'The arteries which distribute food and energy throughout the heart muscles are called coronary arteries. Doctors have long known that the greatest danger to the heart is an accumulation in these arteries of a fat-like substance called cholesterol... It may be deposited within the walls of a coronary artery, narrowing down the channel for the blood to flow through and starving the cells of the artery itself. If this process continues, the artery may be closed by a blood clot. Since the heart muscle depends upon the blood and oxygen brought to it by the arteries, the result may be a weakening of the heart. In the end the heart may simply stop for want of this vital fuel.'

"Cholesterol is produced in the liver. It is also contained in the fat of animal source–including meat fat, egg yolk, butter, cream and milk. It has been shown that the higher the fat consumed by people, the higher is their cholesterol content of the blood, and the higher their incidence of coronary heart disease. The following are but a few illustrations:

"Forty years ago fat constituted only 30% of the calories in the American diet; now it provides 40%. There are proportionately more cases of heart disease today than 40 years ago. The Italians consume only about half as many fat calories as Americans do. Their death rate among men from heart disease is less than a third of ours. In England and Spain, the amount of blood cholesterol and the incidence of coronary heart disease were found to have a direct relation to the proportion of fat in the diet.

"Dr. A.R.P. Walker and J. Higginson of Johannesburg, South Africa, found that the Bantu natives, who get only 15% of their calories from fats, had little cholesterol in their blood. Only one death from coronary heart disease was found among 224 autopsies on men 50 to 70 years old.

"Quality Most Important: While the quantity of fat in the diet is a contributing factor to the coronary disease according to most of the reports published, the quality of fat is of even greater importance according to the author, for of food fats, only animal fats contain cholesterol. Fats of vegetable origin–fruits, vegetables, cereals, nuts–do not contain cholesterol. They contain phytosterol instead of cholesterol, and phytosterol, though closely related to cholesterol, does not cause coronary disease.

"That there is a correlation between the kind of diet and the cholesterol content of the blood is made clear by a recent survey made by Dr. Merwyn G. Hardinge of the College of Medical Evangelists and Dr. Frederick J. Stare of Harvard University (*The Journal of Clinical Nutrition*, 2.73; 2:83, 1954). A brief resume of their survey is as follows: Their study included 201 persons using the following three types of dietaries: (1) lacto-ovovegetarian, a plant diet plus milk and eggs, but no meat, fish or fowl; (2) pure vegetarian, a diet of plant foods, excluding milk and eggs; (3) non-vegetarian, the average American diet of milk, eggs, meat and foods of plant origin.

"An analysis of the diets of the three groups was made to determine the average daily consumption of calories, protein, fat, calcium, phosphorus, iron, vitamins A, B1, B2, C, and niacin. All of the three dietaries came within the limits of the daily allowances of the various nutrients as recommended by the National Research Council. Also there were no significant differences in the height, weight, blood pressure, red cell count and hemoglobin concentration among the three dietary groups. It was found, however, that the blood cholesterol levels of the three types of adults were significantly different. The non-vegetarians had the highest

© Copyright Soyinfo Center 2021

blood cholesterol, the pure vegetarians the lowest, the lacto-ovovegetarians fell in between.

"Probably there is no other group of people in the world that is more enthusiastic about soybeans in their diets than the Seventh-Day Adventists. They are the originators of health foods and meat substitutes, many of which contain soybeans.

"Among the Seventh-Day Adventists who have helped to popularize soybeans in this country and abroad are Dr. P.A. Webber, a former secretary of the American Soybean Association, now a missionary to Japan, and Dr. H.W. Miller, the originator of the soy milk powder, Soyalac. Dr. Miller has been a frequent contributor to the *Soybean Digest* and is now a missionary in Free China.

"It is true that a pure vegetarian may find it hard to get enough high quality protein to meet his body requirements. But thanks to the soybean, a plant food which contains all the essential nutrients for the human need, this is no longer a problem.

"No Problem with Soy: What is true of coronary disease is also true of arteriosclerosis, namely, cholesterol is the chief offender. Stephan Jamyn reported in *Revue Internationale du Soja* of March 1946, that hardening of the arteries in rabbits can be artificially produced by including cholesterol in the diet.

"The use of soybeans in the human diet not only does not contribute to coronary disease and arteriosclerosis, but the soybeans also contain a factor which aids in the cure of these diseases. This is clearly indicated in the work of Pottenger, Jr., and Krohn as published in the *American Journal of Digestive Diseases* of April 1952. Contrary to common medical practice of giving the patient a low-fat diet to relieve hypercholesterolemia (high content of cholesterol in the blood), these doctors gave their patients the opposite diet–one high in fat and cholesterol–plus soybean phosphatides, which are used in the food industry under the name of lecithin.

"One hundred and twenty-two patients were put on a high-fat regimen that included raw liver and raw brains–foods that are rich in cholesterol. Ninety-nine of the patients took a teaspoon of soybean phosphatides with each meal. The remaining 23 served as controls.

"The blood cholesterol showed a marked decrease in 79% of the patients who took the lecithin, but not in the patients who did not take lecithin. This indicates that it may be possible to correct hypercholesterolemia in those individuals who are on a high-fat, high-cholesterol diet with the use of soybean lecithin. The administration of soybean lecithin may also be applied to coronary disease and arteriosclerosis with beneficial results.

"At a recent meeting of the Federation of American Societies for Experimental Biology held at Atlantic City, it was reported by University of California researchers that by using a synthetic butter made from soybean sterols, 10 grams of soy sterols in this butter each day effected a 10% reduction in cholesterol levels in the blood of the experimental animals.

"Cause of Gallstones: Besides causing coronary disease and arteriosclerosis, cholesterol causes yet another human malady, namely gallstones. These stones are formed either in the bile duct or in the gall bladder. They consist of cholesterol or cholesterol mixed with calcium salts of bilirubin, carbonate, or phosphate.

"According to Dr. Louis F. Fieser of Harvard University who has been working in cancer research for many years, cancer-producing substances might be derived from cholesterol. The following excerpt is taken from Dr. Fieser's lecture delivered in Paris, Nov. 13, 1953, under the auspices of the *Societe Chimique de France* and the *Societe de Chimie Biologique:* "Consideration of the correlation of chemical reactivity and biological potency points to delta 5-cholestene-3-one as the one substance derived from or related to cholesterol most likely to possess carcinogenic activity... but the evidence that such a substance has indeed been responsible for tumors evoked in mice by preparations from cholesterol has seemed to me more convincing than the theoretical argument to the contrary." (*Science,* May 21, 1954, Vol. 119, No. 3099, pages 710-716.)

"Thus it is seen that the cholesterol in the animal fat is responsible for these common diseases which take a heavy toll of human lives each year and cause untold misery and suffering.

"As people become cholesterol-conscious as they are now calorie-conscious, the author believes the following dietary changes will take place in which soybeans are bound to play a prominent role:

"1–A decreased consumption of animal fat, especially lard, fatty meats, and organs, such as brain, heart, liver and kidneys. In their place will be substituted protein-rich soybeans and soybean meat substitutes.

"2–A greater consumption of margarine in place of butter.

"3–Mellorine, a frozen dessert made of soybean and other vegetable oils, taking the place of ice cream.

"4–Skim milk, buttermilk, non-fat milk powder and especially soy milk and soy milk powder consumed instead of whole milk containing the milk fat, cream.

"When that time comes, a breakfast consisting of eggs and bacon (especially when fried in lard), heavily-buttered toast, and coffee with rich cream–now a common American breakfast–will become very unpopular, especially among those who are particularly susceptible to coronary and other diseases in which cholesterol is the chief offender. It is therefore to be anticipated that the consumption of soybeans in the human diet will be greatly increased in the very near future."

Note: Philip Stanley Chen was born in 1903. Address: Prof. of Chemistry, Atlantic Union College, South Lancaster,

Massachusetts.

1753. Natural Foods Inc. 1956. Vita-Mix: America's first heavy-duty, stainless-steel liquifier (Ad). *Let's Live.* June. p. 25.
• ***Summary:*** This 2¼ by 5½ inch ad features an illustration of a Vita-Mix, with arrows pointing to and brief descriptions of its most important features–such as "New, more powerful motor with two speeds." "Special: Only $39.95, $49.95 value. More speed. Greater power. Greater durability. Makes smaller blenders and glass bowl models obsolete. So powerful and durable it even makes soy beans into a low-calorie flour or cereal... Grinds wheat, grain, peas, beans, soy beans, coffee. Why just blend what you can actually liquefy! Save now, at your nearest health food store."

Note: This is the second earliest English-language document seen (Nov. 2003) that uses the term "low-calorie" positively in connection with soybeans. Address: Olmsted Falls, Ohio.

1754. Waring Products Corporation. 1956. Done–in two shakes of a Waring Blendor (Ad). *National Geographic Magazine.* Nov. On unnumbered page near front of issue.
• ***Summary:*** This full page, black-and-white ad states: "A refreshing Banana Smoothie blended of milk, chocolate, bananas, and ice cream–just one of the hundreds of delightful treats made with the Waring Blendor." A full page photo shows the smoothie being poured from the Blendor into a tall glass. In the left background are various fruits (pineapple, banana, etc.), an ice cream scooper full of ice cream, and two squares of chocolate. Address: 245 W. 43rd St., New York City 36. Subsidiary of Dynamics Corp. of America.

1755. May Company (The). 1956. A whole wide wonderful world of gifts: Shop every night 'til Christmas (Ad). *Los Angeles Times.* Dec. 9. p. 10.
• ***Summary:*** This full-page display ad features 5 items is a large box with a bold border titled "Limited quantity–½ off." The uppermost and most prominent of these (with photo) is a "Knapp-Monarch 3-speed liquidizer plus swing-away can opener $21.25. $42.50 value." A detailed description is given. "At all five stores." Address: Downtown, Wilshire, Crenshaw, Lakewood, Valley [Los Angeles, California].

1756. American Soybean Association. 1956. Soybean Blue Book. Hudson, Iowa: American Soybean Assoc. 160 p. Index. Advertisers' index. 23 cm.
• ***Summary:*** Contents: Advertisements (throughout the book). Index. American Soybean Association. Ontario Soybean Growers' Marketing Board. National Soybean Processors Association. Soya Food Research Council. Official standards for soybeans, revised effective Sept. 1, 1955. Soy flour standards. Steps in soybean grading. What farmers can do to grow soybeans that will grade high. Storage and different moisture levels (Safe storage if moisture level is below 12%; unsafe if 13% moisture or above). U.S. Department of Agriculture: Agricultural Research Service, disease research, entomological research, utilization research (incl. Northern Utilization Research Branch, Peoria, Illinois), marketing research (Agricultural Marketing Service), Foreign Agricultural Service, Commodity Stabilization Service. Terminology (for the soybean industry). Weights and measures. Marketing channels for soybeans. Soybean production, acreage and yield in the United States, from 1924. Value of the soybean crop in major producing states and total, from 1924. Soybean production in Canada, since 1942. Soybean utilization and value in Canada. World soybean production. Manufacturers of industrial products employing soybeans. Services for the soybean industry. Equipment and supplies for the soybean industry. Soybean processing and oil refining equipment and supplies. Soybean seed suppliers. Vegetable soybean seed. Advertisers' index. Address: Executive office: Hudson, Iowa. Phone: 314-432-1600.

1757. Elwood, Catharyn. 1956. Feel like a million. New York, NY: The Devin-Adair Co. xiv + 332 p. Index. 21 cm. [79 ref]

© Copyright Soyinfo Center 2021

• ***Summary:*** A section on soybeans (p. 34-35) discusses their many nutritional benefits and the work of Dr. and Mrs. Clive McCay at Cornell University in Ithaca, New York. "Already over a million people are improving their health with the Cornell-formula bread." Soy sprouts are discussed as a rich source of vitamin C and other nutrients (p. 254-55, 260, 263).

"Dr. Joe Nichols [M.D.] of Atlanta, Texas, President of the nationwide Natural Food Associates, a nonprofit organization sponsoring only the best in natural whole foods, treats these deficiency cases every day" (p. 135).

Sprouted-wheat bread is delicious and has an antiscorbutic value not found in freshly milled whole wheat. "The Foods for Life group in Glendale, California, is making a wonderful loaf with this method" (p. 264). "The Chinese use sprouted soy and mung beans very generously in their cooking. They fry them quickly as a vegetable. They also add them with other vegetable and cook them gently in such specialty dishes as chop suey, chow mein, and subgum" (p. 265).

About the author: A photo of Kathryn Elwood and a brief biography appears on the inside rear dust jacket. Address: Washington, DC.

1758. Lust, John B. 1956. Raw juice therapy. 1st ed. New York, NY: Benedict Lust Publications. 173 p. 2nd ed. 1957. *

1759. Powell, Horace B. 1956. The original has his signature–W.K. Kellogg. Englewood Cliffs, New Jersey: Prentice-Hall, Inc. 358 p. Illust. No index. 24 cm.
• ***Summary:*** The lack of an Index and of any bibliographic references greatly reduce the value of this book.

W.K. Kellogg built a mighty breakfast cereal manufacturing company and established a major charitable foundation. In 1906 W.K. Kellogg started his own company making corn flakes.

"In February of this year [1956] the Kellogg Company observed the fiftieth anniversary of its founding, and June will complete the W.K. Kellogg Foundation's twenty-fifth year as the vehicle of its founder's investment in people."

Pages 94-95: Most of the roughly 100 health foods that eventually were served on tables at the Battle Creek Sanitarium were developed during the period from 1895 to 1905. Dr. John Harvey Kellogg, M.D., an eminent health reform advocate and director of the Sanitarium in Battle Creek, Michigan, had become interested in nut foods, so another company, the Sanitas Nut Food Company, was created to market them. "Actually, one of the food products developed was peanut butter."

W.K. Kellogg recalled that one day his brother, Dr. J.H. Kellogg asked him to secure a quantity of peanuts, remove the hulls, and put them through the Granose rolls. W.K. Kellogg bought 10 pounds of peanuts, roasted them in an oven for a little while, put them in a pillow case to remove the hulls, winnowed out the husks, put the peanuts "'through the rolls and made the first peanut butter.'" W.K. took it to Dr. Kellogg and he named it. "'A quantity of peanut butter was made up, and it was sold almost entirely to Seventh-day Adventists. After awhile the doctor had an idea that roasted peanuts were not wholesome. They were then cooked by steam instead of being roasted and the little trade that was developed was lost.'

"No effort was made to promote the sale of peanut butter and others reaped the benefits of the sanitarium research."

Soy is mentioned in passing on page 80 ("soy acidophilus milk" for Dr. Allan Dafoe and the Dionne quintuplets) and page 180 (the story behind "Kellogg's Corn Soya," launched in 1945).

Note: A short article titled "Corn Flakes maker Kellogg deceased," in an unknown Oct. 1951 magazine states that "W.K. Kellogg died on 6 Oct. 1951, at age 91. He credited his longevity to his diet based on Kellogg's Corn Flakes and other vegetarian foods. He developed the first wheat flake in 1894 at his brother's sanitarium in Battle Creek, Michigan, and promoted the product tirelessly. He spent millions on charity.

"In 1907 a conflagration engulfed one of his factories. Will Keith was calm. 'The fire is of no consequence,' he said. 'You can't burn down what we have registered in the mind of the American woman.'"

A photo shows W.K. Kellogg and his seeing eye dog standing in front of the W.K. Kellogg Foundation.

1760. Shefferman, Maurice. 1956. Foods for longer living. New York, NY: Whittier Books, Inc. 181 p. No index. 22 cm.
• ***Summary:*** This is a book about diet and nutrition by one of the founders (in New York City) of Balanced Foods, the major health food distributor. Although it contains few original ideas, it helped to introduce soybeans as a healthy food, and meatless meals, during the late 1950s.

Contents: Preface. 1. Living a balanced life. 2. How well nourished are we? 3. Who gets our best food? 4. Your bloodstream is your lifeline. 5. Vim, vigor and vitamins. 6. A vitamin primer. 7. Minerals in your diet. 8. Cook, spare those nutrients. 9. Natural seasonings. 10. Fresh juices are staple foods. 11. The five basic foods. 12. Everybody needs more vitamin C. 13. Overweight–Our national health problem. 14. Don't live on your nerves! 15. Are you tired? 16. Relax and invite your health. 17. "Having a wonderful time!" 18. Your summer diet. 19. Design for winter living. 20. Recipes.

Shefferman wrote this book so it "would make sense to a lot of people who have a very hazy idea that right food has any direct relationship to their health." The "eating habits of the average American family, or individual, are not good." Many foods "have been depleted of much of their valuable nutrients; we eat too much," too many hot and highly spiced foods, and too much meat. The "vegetarians eat entirely too much starchy foods and are usually, as a result, on an

© Copyright Soyinfo Center 2021

unbalanced diet. As a nation we have retrogressed from the days when our forbears lived on natural, live, whole foods." "I believe that my viewpoint on 'natural' foods will find ready acceptance by intelligent people who are genuinely interested in helping themselves to maintain sound health all the days of their life" (Preface, p. 5).

Also discusses: The growing interest in the practice of organic gardening in the USA (p. 25). "Acid conditions of the soil are as unhealthy as acidity in the human system" (p. 26). "Under ideal conditions we can obtain all the vitamins and minerals we need through natural foods and correct eating." Yet today our soils are depleted of minerals and excessive processing further reduces the nutritional value of our foods (p. 35).

The human body is composed of about 66% oxygen, 18% carbon, 10% hydrogen, 2% nitrogen, and the remaining 4-5% is made up of minerals and trace elements. "Under ideal conditions, a perfect diet which includes the four main minerals–calcium, phosphorus, iron, and iodine–in abundance, will furnish all the other trace elements in sufficient amounts. The lesser minerals are sodium, potassium, magnesium, manganese, chlorine, and sulphur (p. 38, 52). Soy beans are a good source of thiamin (vitamin B-1, p. 42), riboflavin (B-2, p. 43), folic acid (p. 46), and choline (p. 46).

There "is always the possibility of getting too much of the proteins in the diet, especially proteins of meat, and that is one of the best reasons in the world why all persons should change over to meatless meals as often as possible. Now this is not an appeal for the reader to become a vegetarian, for it is the writer's form belief that meat and fish foods are vitally necessary to complete the diet. On the other hand, it is an appeal to meat eaters not to eat an excess of animal foods, for this may throw too much of a burden upon the system,... Among the better known protein foods are soy beans, dried beans, lentils, nuts, cheese, eggs, milk, mushrooms... All of these are less costly than animal foods and certain varieties of fish and other sea foods" (p. 61).

Brown rice is an excellent food. It was used in an 1897 experiment "which was to mark a high point in modern nutritional history." It proved that beri-beri could be cured by substituting whole rice for polished rice (p. 62-63). One of the best sources of lecithin in the soy bean. Its benefits are discussed. Realize that "proteins of all kinds are being made from this alkaline-producing soy bean..." It cultivation has been promoted by the USDA, thereby making it a major crop. Soy beans are discussed at length. "The protein of soy beans is used in meat replacement dishes," Soy cheese [tofu] and "soy bean drinks" [soy milk] are good protein sources. For lunch, use "soy sandwich spreads" and "soy bean and wheat germ bread..." The main body of your meatless dinners can be made up of various combinations, including "soy bean loaf, "gluten steak," "green soy beans," "whole wheat or soy bean macaroni or spaghetti, or eggs "on soya toast." Use soya flour as a binder or serve baked soy beans with tomato sauce (p. 64-67).

Natural seasonings include "soy seasonings and natural herbs and spices." Use herb teas and herbs in cookery (p. 68-69). The five basic foods are blackstrap molasses, brewer's yeast, skim milk powder, wheat germ, and yogourt. They are "wonder foods" (p. 81). The Metropolitan Life Insurance Company's ideal weight chart shows, for example, that a man 6 feet tall should weigh 152-164 lb (small frame), 161-173 lb (medium frame), or 169-185 lb (large frame) (p. 97).

Shorter working days and modern labor-savings devices have transformed most Americans into a new "leisure" class (p. 108). Scientific experiments by Dr. Fisher at Yale University [New Haven, Connecticut] have shown that a meatless diet can provide sufficient protein for the body's needs. "Vegetable proteins such as almonds and soybeans are excellent protein foods. Soybean products supply essential amino acids without creating the toxic end-products of the meat diet. The residue from the digestion of meats is acid and toxic forming. Vegetable proteins leave a neutral or alkaline ash. Vegetable entrees are wonderful meat replacements for the summer menu. A savory vegetable steak or roast is just as hearty, just as satisfying as meat and a good deal easier on the digestive system. The deliciously rich flavor of meat substitutes is particularly appealing when appetites need tempting during the summer months" (p. 125-26).

People with a definite allergy to cow's milk–as is quite common among children and adults–"can use soy bean milk or goat's milk." Soy bean milk is "an excellent substitute for milk products of animal origin. Crushed soy beans have been used as a source of milk by the Chinese for centuries. Soy milk is approximately the same chemical composition as dairy milk. It resembles cow's milk in consistency and appearance, and its calcium content is about equal to human milk. For infant feeding, in cases of special diets, digestive ailments and malnutrition, soy milk has proven highly beneficial. Soy bean milk is definitely alkaline and easily digested. The soy curd prepared from the milk is eaten as a soft, cottage-cheese-like food" (p. 128).

"Far too many individuals eat too much starch and not enough of the fresh fruit and vegetables." The "one man who should know better–the strict vegetarian–is often the worst offender" (p. 129). Recipes (p. 135-81) include: Soy casserole (meatless main dish, with cooked soy beans, p. 134). Cheese-bean casserole roast (p. 139). Baked soy beans (p. 151). Soy bean salad (with 2 cups "drained green canned soy beans," p. 158).

1761. Doyle, Elmer D.; Bragg, Patricia. 1957. Final judgment of divorce: Patricia Bragg, plaintiff, vs. Robert Bragg, defendant. No. 490122. Los Angeles County, California. 3 p. *

• ***Summary:*** Patricia and Robert were married on 19 April 1952 in Phoenix, Maricopa County, Arizona. They separated

© Copyright Soyinfo Center 2021

on 8 Aug. 1955.

One slightly interesting document was Patricia's Questionnaire / Affidavit dated Oct. 18, 1955, at Question #3A, where it is asked "Have you any organic disease or major physical defect, and if so, what?"

Patricia's answer was: "Pits on lung, gallbladder trouble, extreme bronchitis, nervousness and sinus, possibility of cancer." Note 1. Strange and somewhat serious ailments for somebody who claims to have been raised "the Bragg Way" since infancy.

She also claimed in the Affidavit to have no net worth, never to have been employed (she was 26 at the time), and that she was "Temporarily as a guest in the home of defendant's father, Paul Bragg" at Question # 14 as to her current residence.

Note 2. Patricia would (basically) remain a guest in the home of the defendant's father, Paul Bragg, for the rest of her life. She would later claim that she was his daughter.

Patricia also apparently asked for a Restraining Order against Robert, as she makes the following statements at Question #16:

"1. Defendant has frequently administered and inflicted severe beatings upon me during our marriage." and

"2. Defendant has since our separation disposed of sum [some?] of the community property, in particular a Ford station wagon; defendant has also removed the furniture and furnishings from the family home." Address: Los Angeles County, California.

1762. El Molino Mills. 1957. Carob Candy: You asked for it–a confection without objections (Ad). *Natural Food and Farming* (*Atlanta, Texas*) 3(11):10. March.
• ***Summary:*** "Like chocolate–only better. Without highly refined sugars: Carob (St. John's Bread) consists of over 50% natural sugars. Without chocolate or cocoa products. A natural, wholesome confection: Contains only carob powder, Kleen Raw Sugar, coconut butter, soya, soya lecithin, vanilla. Ask for it at all Dietary Food Stores or direct from El Molino Mills. Now in 10¢ bars." An illustration shows a boy holding up a bar of Carob Candy. Address: Alhambra, California.

1763. *Natural Food and Farming* (*Atlanta, Texas*). 1957. The 1957 Natural Food Associates convention. Little Rock, Arkansas, Feb. 14-17, 1957. 3(11):11-14. March.
• ***Summary:*** The story is told by 22 black-and-white photos which include: (1) President Nichols standing behind the podium as he calls the convention to order. (2) National Director Joe Francis passing the money basket (to request contributions) at the All-State breakfast. (3) Janet Wright and the Town Food Company booth.

Other companies with booths mentioned in the photo story are: Fanning Soil Service and Hoosier Soil Service. Mountain Valley Mineral Water. Natural Organic Foods, Inc. (Atlanta, Texas). Deer Valley Farm. Friend of the Land. Eagle's Nest Grove (L.P. DeWolf). Natural Food Supplement Co. D. Earl Striplin (organic grapes). Robertson Organic Empire. Vita-Green Farms. Lee Foundation for Nutritional Research (books and reprints). Krezin (Vincent and Violet Krezin grow organic natural foods on 16 acres). Activo. Adult Bee Farm. NFA Bookstore. Golden Key Productions. Aunt Anna's Stonemill Bakery and Natural Foods. Lee Engineering. Stone Mill Health Foods. Specialty Foods & Feeds Exchange (Monroe, Wisconsin). Catharyn Elwood (author). Organic Gardening and Farming (Rodale). Champion Brothers (Redlands, California; navel oranges).

1764. Natural Food Associates. 1957. These retail outlets sell the NFA magazine Natural Food and Farming (Ad). *Natural Food and Farming* (*Atlanta, Texas*) 4(1):14. April.
• ***Summary:*** The name and address of about 69 retail outlets are given. Of these, about 13 have the term "Natural Foods / Food" in the company name and 13 have the term "Health Foods / Food in the company name.

Note: An even larger list appears in the June 1957 issue (p. 14). Address: M.D.

1765. Gwillim, Edna. 1957. The value and use of soy flour. Calling all mothers! *Let's Live.* July. p. 19.
• ***Summary:*** "First of all, let us consider its advantages; they begin with its outstanding food value. Naturally it is a whole grain flour if purchased at health food stores, and it is a near perfect protein as it contains most of the essential amino acids. No other food of vegetable origin can boast this.

"The calcium-phosphorous ratio is excellent; it is high in iron and the water-soluble vitamins thiamin, riboflavin and niacin; it is especially high in niacin. If one is allergic to wheat, soy flour can become an important item in the diet.

"As it contains fat it should be kept in a cool place; it is also wise to purchase it in sufficiently small quantities that it may be used within a few weeks. As an economical source of body building proteins it should be frequently used where there are growing children as an addition to the required animal proteins."

Includes one recipe for "Soy date muffins" with 2 cups soy flour. Address: B.S., nutrition consultant.

1766. Patricia Bragg is legally adopted as the daughter of Paul C. Bragg (Important event). 1957. October 10.
• ***Summary:*** She was legally adopted by the Riverside County Superior Court, Indio Branch, by order of such court on October 10, 1957. Patricia was born in April 29, 1929.

1767. *New York Times.* 1957. Deaths: Bragg–James Elton. Oct. 19. p. 21.
• ***Summary:*** Chappaqua, New York. 17 Oct. 1957. Husband of Francise Sylvester Bragg. Father of Peter Elton Bragg. Brother of John H. and Paul C. Bragg. Grandfather of Susan Lynn and Kerry Ann Bragg. Service Monday 11 A.M., at St.

Mary the Virgin Episcopal Church, Chappaqua. Resting at Beecher Funeral Home, Pleasantville, New York. "In lieu of flowers, please make contributions to the Heart Fund."

Note: Also appeared in this newspaper the next day (p. 87).

1768. Carson, Gerald. 1957. Cornflake crusade: From the pulpit to the breakfast table. New York, NY: Rinehart & Company, Inc. xii + 305 p. Illust. Index. 22 cm. Also published in London by Victor Gollancz (1959). [150* footnotes]

• ***Summary:*** Though written in a light-hearted, often humorous and playful manner, this book is nevertheless extremely well researched and well written. The author has spent 12 years pursuing the social history of American eating and food reform movements. It contains an excellent history and chronology of the 19th century vegetarian food reform movement (inspired in large part by Seventh-day Adventist teachings), which led to the development of ready-to-eat breakfast cereals and other foods by W.K. Kellogg, John Harvey Kellogg, C.W. Post, Sylvester Graham, and others.

Contents: 1. Foodtown, U.S.A. (Battle Creek, Michigan). 2. The landing of the vegetarian pilgrims (Rev. William Cowherd, William Metcalfe, American Vegetarian Society, Bible Christian Church of Philadelphia (Pennsylvania), Rev. Henry Stephen Clubb). 3. The great American stomach ache (Dr. James Caleb Jackson of Dansville, New York, early American eating habits). 4. Sylvester Graham watched America starve. 5. Bloomers and bread crumbs (Dr. J.C. Jackson–more detail). 6. The grains, the nuts and the second coming (Seventh-day Adventists, Ellen G. White, the Millerite movement). 7. The Cornflake Kelloggs found a home in the West (The Kellogg family and Battle Creek, Michigan). 8. The cable address was "Health" (Dr. John Harvey Kellogg and the Battle Creek Sanitarium). 9. Ella Kellogg's dough board (flaked breakfast cereals, Granose flakes, Granola). 10. A sword of fire hung over Battle Creek (the Sanitarium burned in 1902, Sanitarium menu 1912). 11. C.W. Post; or, what is this strange power? 12. Our stock salesmen meet all the trains. 13. Few were chosen. 14. None genuine without this signature. 15. The Golden Rule and other good ideas. 16. The simple life in a nutshell. 17. Doctor Kellogg's last fight. Chronology (1794-1951). Sources and authorities; chapter notes.

Chapter 13 is a discussion of the genius of C.W. Post, and his new type of advertising, which was serious, focused, and potent. He was among the first to see the great potential power of advertising in selling a product and building a company–and he spent millions of dollars on advertising. He once said, "All I have I owe to advertising." He reminded people that they could "recover from any ordinary disease by discontinuing coffee and poor food, and using Postum Food Coffee and Grape Nuts." Other manufacturers soon adopted the new Post way to advertise food. The Ralston Health Food Co., for example, explained that when you open the package, you could see thousands of tiny grains "full of the Vegetable phosphorus that makes children grow like magic and develop strong mentally," giving the brain "all the phosphorus it can use in heavy thinking."

Note 1. C.W. Post, developer of Postum Food Coffee, Grape Nuts, etc. is discussed throughout this book–often in depth. His Postum Cereal Company was eventually renamed General Foods Corporation.

Note 2. This book went on sale in Battle Creek, Michigan, in Oct. 1957. Address: Millerton, New York.

1769. *Soybean Digest.* 1957. Consumer sales for soya lecithin grow [National Lecithin, Inc]. Nov. p. 19.

• ***Summary:*** For the last 10 years Ralph A. Goldenberg, a food chemist, has been involved with soya lecithin. In 1947 he established Standard Research Products, Inc., a laboratory where he developed applications for soya lecithin as an emulsifier for use in bread baking. These emulsifiers are now used by commercial bakeries to help retain freshness and softness without the use of chemicals. In 1954 Mr. Goldenberg established another company, National Lecithin Inc., which started promoting refined soya lecithin in granular and tablet forms for consumers, to be sold through leading drug stores, health food stores, and department stores in the Midwest.

"As far as he knows, this was the first time anyone had attempted to promote refined soya lecithin through the media of radio, newspaper ads and television. Through his advertising campaign he says consumer sales have greatly expanded and the industry is fairly big and growing daily. Refined soya lecithin has proven beneficial as an addition to the regular food intake, according to Mr. Goldenberg. He says it may prove helpful as an aid to people with symptoms of arthritis, rheumatism, coronary heart disease, arteriosclerosis and gallstones. Also, he says people have been helped with skin disease and diabetes.

"As president of National Lecithin, Inc., and Standard Research Products, Inc., Mr. Goldenberg has his general offices at 2938 N. Halsted St., Chicago, Illinois."

A portrait photo shows Mr. Goldenberg.

1770. **Product Name:** Compro (Canned Meatless Meat with Tofu).
Manufacturer's Name: Madison Foods.
Manufacturer's Address: Madison College, Madison, Tennessee.
Date of Introduction: 1957.
Ingredients: Wheat gluten tofu, seasonings.
Wt/Vol., Packaging, Price: Can.
How Stored: Shelf stable.
New Product–Documentation: Letter from Sam Yoshimura. 1981. March 19.

1771. Schur, Sylvia. ed. 1957. New ways to gracious living: Waring blendor cookbook. Winsted, Connecticut: Waring Products Corp. 128 p. Illust. (color). Index. 21 cm. *
• ***Summary:*** Spine title: "Waring blendor cook book."

1772. Zerfing, Sally D. 1957. Sally's recipes. Glendale, California: Published by the author. vi + 221 p. Illust. No index. 25 cm.
• ***Summary:*** A remarkable vegetarian cookbook with a Christian message and references to many Biblical passages. It would be vegan, except for the use of honey. The author is a devout Christian and is probably a Seventh-day Adventist since (1) Ellen G. White is quoted on several pages (p. 2, 214-17, etc.), (2) it contains so many soy recipes at a relatively early date, and (3) it mentions some brands of soy products (e.g. Madison Health Food Company's Cheze-O-Soy = tofu) made by Adventist companies. Page 14 has a short section on soy oil and page 14 a long section on soy beans, including soy milk. Soy-related recipes include: Soy beans (p. 44). Soy paste (with soy milk powder, p. 50). Soy-whole wheat noodles (with soy flour, p. 62). All purpose soy milk no. 1, no. 2, and no. 4 (made with El Molino Soya Milk Powder, p. 66-67). All purpose soy bean milk no. 3 (made from whole soy beans). Hot carob drink (with soy milk, p. 66). Almond milk. Cashew nut milk. Sesame milk (p. 67. "Liquefy together: 1 cup sesame seeds and 2 cups water. Then strain the milk through a fine cloth; squeeze to get out all the milk. Then liquefy with a little honey, salt, oil, or liquid lecithin").

Note 1. This is the earliest English-language document seen (Jan. 2020) that contains the term "sesame milk"–or a recipe for making it at home.

Scrambled tofu (with Chef Bonneaus Aminotone, p. 73). French toast (with soy milk, p. 73). No. 2 health burgers (with tofu, p. 79). Scrambled tofu sandwich (p. 80). Creamed tofu and nut spread. Soy cream and olive sandwich on Boston bread (with soy creamed cheese, p. 80). Cheze-O-Soy sandwich (p. 81). Sesame tahini cheese spread (with Sally's Soy Mayonnaise, p. 81). For other tahini recipes, see p. 82 and 111. For other sesame seed recipes: Sesame cream cheese (p. 82). Sesame salad dressing (p. 85). Sesame wheat germ candy (p. 148).

Soy creamed cheese (p. 82). Soy mayonnaise. Thousand island dressing (with soy mayonnaise, p. 83). Cucumbers with tofu cream dressing (p. 90). Homemade tofu cottage cheese (p. 91). Tofu cottage cheese (p. 91). Tofu vegetable jello-salad (p. 92). Tofu and rice croquettes (p. 100). Soy and rice patties (with ground soybeans, p. 101). Soy and eggplant patties (with ground soybeans, p. 101). Tartar sauce (with Sally's Soy Mayonnaise, p. 104). Baked macaroni and soy cheese (with tofu). Cheze-O-Soy and millet hash. Baked soy beans (p. 104). Soy and millet loaf (p. 105). Thanksgiving loaf–Wheat, tofu and nut combination (p. 107). Cheze-O-Soy patties (p. 108). Spanish-style scrambled tofu (p. 115).

Note 2. This is the earliest document seen (Feb. 2012) that contains the term "Scrambled tofu" or that contains a recipe for "Scrambled tofu." The book actually gives 3 recipes for scrambled tofu (pages 73, 80, and 115).

Ravioli (noodles made with soy flour and filling made with Cheze-O-Soy, p. 116). Bean sprout entree (with Cheze-O-Soy, p. 117). Scalloped corn (with tofu). Tofu Chick Pea Foo Young (p. 117). Wonder of the sea loaf (baked, with tofu, p. 118). Chew mein vegetarian style (with soy sprouts, p. 119). Tofu and Sally's homemade tofu (p. 118-19; curded with lemon juice and sea salt). Homemade soy cheese (made with El Molino Soya Powder, p. 119). Tofu gravy (p. 120). Non-dairy ice creams (p. 149-53; most recipes call for 2 tablespoons El Molino soya milk powder). Banana split, Maple nut sundae, Fruit Sundae (each topped with "soy whipped cream," p. 151).

Note 3. We are unable to find a recipe or definition for "soy whipped cream" anywhere in this book.

Note 4. This is the earliest English-language document seen (Oct. 2013) that contains the term "soy whipped cream" (regardless of capitalization).

Date shake (with "2 cups soy milk No. 3 or No. 1," p. 152). Carob soy malt (with "2 cups all purpose soy milk No. 3," p. 152). Ice cream pie (topped with soy whipped cream, p. 153). Carob-wheat germ banana shake (with soy milk, p. 153). Soy pie crust (with "¼ cup stirred soy flour," p. 154). Pineapple soy cheese pie (with "1¼ cups tofu and "¼ cup soy milk powder," p. 156). Baby's soybean formula (p. 196). Composition of ¼ cup soy powder (p. 196). Tofu for babies (p. 200).

Chapter 18, "Grandma's remedies" is about fasting, including "A week or fourteen day fast" (p. 204). A large portrait photo on the front cover shows Sally Zerfing. Address: 24629 N. Arch St., Newhall, California.

1773. **Product Name:** California Fruit Cookies.
Manufacturer's Name: Baker's (Bill) Ojai Bakery.
Manufacturer's Address: Ojai, California. Phone: 646-1558 or 646-1950.
Date of Introduction: 1957?
Ingredients: Unbleached wheat flour, malted Barley flour, niacin, iron, Potassium Bromate, Thiamine, mono nitrate Riboflavin, water, sugar, salt, baking soda, whole egg, vegetable shortening with palm oil, baking powder, raisins and glazed fruit.
Wt/Vol., Packaging, Price: 14 oz.
How Stored: Shelf stable.
New Product–Documentation: Labels sent Colleen Kohnen of Tehachapi, California. Dated by Helen Vaughn. March 2006. At bottom of label: "No preservatives added. 'Established 1897.'"

No preservatives added." An illustration (line drawing) on the left side of the label shows 3 heads of rye, with leaves and stalks.

1775. Bragg, Paul C. 1958. Last Will and Testament of Paul C. Bragg. Desert Hot Springs, Riverside County, California. 5 p. 36 cm.
• ***Summary:*** "I, Paul C. Bragg, residing at 66299 Eighth Street, Desert Hot Springs, California, being a widower... do hereby make, publish and declare this my Last Will and Testament."

"II. I hereby direct my executrix or executor, hereinafter named, to pay all my just debts, expenses of my last illness, funeral expenses and expenses of the administration of my estate as soon after my death as can lawfully and conveniently be done.

"III. I hereby direct my executrix or executor that I be given a simple, private Christian funeral and burial service, for such members of my family as may want to attend, the details of which I leave to be determined by my said adopted daughter, Patricia Pendleton Bragg, whether she acts as my executrix or not, as she is familiar with my feelings and philosophy in that regard.

"IV. I declare that I am a widower; that my first wife Neva Busch and I have been divorced for years [since Sept. 1928; see *Los Angeles Times*]; that my second wife, Elizabeth [probably Elizabeth "Betty" Brownlee], died; that I have three children, my daughter Neva Pauline Bragg Schulz, a married woman, who now has two children; my daughter Lorraine Agnes Bragg Chalham, a married woman, who now has one child; my son Robert Elton Bragg, a married man, who now has two children; that neither [of] my parents are living and I have one living brother, John Harrison Bragg, who now has two children and a nephew, Peter Bragg, son of my deceased brother, James Elton Bragg; that I have an adopted daughter, Patricia Pendleton Bragg."

Note 1. The Florida Marriage Records index (Vol. 101, Certificate 5336) states that Paul C. Bragg married a Betty Brownlee in 1930 in Pinellas County, Florida. Betty filed for a divorce in Dec. 1931 and Paul and Betty were legally divorced in Jan. 1932. Betty died on 5 June 1949 in Los Angeles; at the time she was married to Ernest Bachrach, a still photographer for RKO Pictures. A descendant of Bragg's heard that Betty died of syphilis. We have never been able to find out when or where or of what cause Betty died. By 1933, Paul was already fooling around with Betty Thompson (age 18), so we can only guess the marriage was probably short-lived, though we wouldn't be surprised if they were never formally divorced at the time of Betty Brownlee Bragg's death. In two of Paul Bragg's cookbooks from the period 1930-1935 are two recipes, one attributed to "Mrs. Brownlee" and the other to "Betty."

"VI. In disposing of my estate by this Will, I have in mind and feel about the matter as follows: each of my said children has her and his own life, family, circle of friends and interests and none of them has maintained close relations with me or encouraged me, or sympathized with me, in my work and career; further I have from time to time provided for them; further my son has caused me grievous mental suffering and humiliation; my said adopted daughter has complete sympathy with and understanding of my work and career and has been and is of inestimable help and comfort to me.

VII. Except for $2,500 to each of his two daughters, Paul leaves his entire estate to his adopted daughter, Patricia Bragg. "I intentionally make no provision for my said son Robert Elton Bragg, or his issue, who may be living at the time of my death." Also mentioned in the will is Patricia's "brother [sic, half-brother], Herbert Coward Deacon, presently living at 872 Santa Rita, Los Altos, California."

"X. I hereby appoint my said adopted daughter Patricia Pendleton Bragg as executrix of this my Last Will and Testament and if she be unable or unwilling for any reason to act as such then such person or such institution as she may appoint and if she is unable or unwilling to appoint any, then I appoint the Security First National Bank of Los Angeles."

The signature of Paul C. Bragg appears at the bottom of every page. Two unknown witnesses from 900 Law Bldg., 139 No. Broadway, Los Angeles, California, have signed at the end of the Will.

Note 2. How do we know that Paul C. Bragg adopted Patricia? Talk with an expert (who worked for an attorney) on the legal side of adoptions: "First of all, both Patricia Bragg's parents were very much alive and well when the 1958 Will was prepared. "Second, when there is an adoption in California–in fact in any state I've run across–the last step in the adoption proceeding is that the judge orders his clerk to contact the Vital Records Dept. in Sacramento to have a replacement birth certificate issued with the new parent (or parents) name(s) thereon, and the original certificate sealed away–which is why people adopted as babies or children can't get a copy of their original birth certificate through the State of California.

"Adult adoptions work the same way–our law firm actually handled an adult adoption back when I worked for an attorney a couple of decades go. Baby, child, adult–this

© Copyright Soyinfo Center 2021

birth certificate step works the same. And Patricia's 1929 birth certificate still exists currently in California Vital Records with her parents as Harry and Nettie Pendleton, not Paul Bragg."

"This is how I thought about the matter until the spring of 2011 when I visited the Riverside County Courthouse and I looked at the entire Paul Bragg probate file. It still exists; it has not been put on microfilm, which is good because only certain sections are microfilmed. I found out that Patricia Bragg *was* adopted by Paul Bragg at the age of 28. She submitted a signed a statement that she was the daughter of Paul Bragg by adoption. That decreased her tax rate in the state of California, which at that time (before 1982) had inheritance tax; it would have been higher if she had not been related to him–biologically or by adoption. She filed the statement with the state of California and the state accepted it and assessed the tax at the lower rate.

"The pertinent introductory portion of the document 'Declaration of Patricia Bragg Re Ownership of Joint Tenancy Property And Other Real Property Owned In Part By The Decedent:' on file at Riverside:

"'I am the Executrix of the Estate of Paul C. Bragg deceased being duly appointed by the Riverside County Superior Court as such Executrix. I am the adopted daughter of the decedent Paul C. Bragg being legally adopted by the Riverside County Superior Court, Indio Branch, by order of such Court dated October 10, 1957. My birthday is April 29, 1929.'"

"The state of California would have asked Patricia for documentation. We won't see it because adoptions are sealed. Was she adopted mainly to save money on inheritance taxes? In those days, attorneys often suggested an adoption as a way of saving on inheritance taxes. Since she was traveling around as his daughter anyway, why not? Although her parents were still alive, they wouldn't have to know, because in an adult adoption, you don't have to notify the parents. But in her parents estate, she should have been paying a higher tax because she was no longer their child.

"I saw the will, and I saw the amount of money that she got versus what her brother got. They each got the exact same amount. I'm quite sure she did not mention this to her father, who died in about 1961-62 or to her mother, who died in about 1963. Her father's will said that Patricia was his child. This bears some investigation. The state would have no way of knowing about the adoption since her birth certificate was never changed. About 3 months after this happened, Paul Bragg signed his will.

Note 3. This 1958 Will was probated on 17 March 1977 in Riverside County. (not Los Angeles County. His primary California residence was considered Desert Hot Springs, Riverside County, at his death).

Note 4. As of Nov. 2009, probate is handled by the probate division of Riverside County Superior Court. Continued. Address: 66299 Eighth Street, Desert Hot Springs, Riverside County, California.

1776. Bragg, Paul C. 1958. Last Will and Testament of Paul C. Bragg (Continued–Part II). Desert Hot Springs, Riverside County, California. 5 p. 36 cm.

• ***Summary:*** The same expert on probate and wills continues: "Recall that I told you I found it very strange that there were no Bragg assets in Paul Bragg's estate. There were no shares in his company, Live Food Products, Inc. It turned out, just as I thought, that Patricia made the statement (in the same statement where she said she had been adopted by Paul, found in the Riverside County Courthouse) that the corporation had been dissolved.

"The exact wording is: 'Subsequent to the transfer by way of gift from the decedent to your declarant of such 49% of the issued and outstanding shares of stock of Live Food Products, Inc., the corporation known as Live Food Products, Inc. was dissolved.'

"Paul got essentially 51% of what was in the company, and that was mostly a piece of property in Burbank, California. In 1960, Paul gifted Patricia 49% of Live Food Products, Inc., when it probably wasn't worth that much. It was appraised, and California gift taxes of $3,107.91 were paid in 1964. So I don't think the company existed when Paul died. I think that everything that happened with the company after his death is something that Patricia started up again."

"I learned from one of Paul's living descendants that Patricia and Paul had split up and gone their separate ways at the time they were both living in Hawaii. I think there must have been a total break up between the two of them–maybe because Patricia got married to the young guy after she returned to the continental USA. I think she was living alone in Desert Hot Springs and Paul was living at the condo on Oahu in the Hawaiian Islands. I don't know what kind of relationship they had after they went their separate ways but his descendant visited Paul a year before Paul died.

"In the middle of the probate hearings, Patricia changed attorneys. She was apparently late in paying. The attorneys who handled her father's estate in Oakland had to go to court to get paid. Either she was dissatisfied with their services or she has difficulty parting with her money."

A single page, which was part of the very long document, was "by Patricia's first attorney, Morton Devor, setting forth in detail the legal work he had already done in the Paul Bragg Estate and the (alleged) non-cooperation of Patricia as Executor as the estate progressed.

"The reason I made this copy, however, was that Devor confirmed that Mr. Gilroy was once Patricia's husband and gave more details of his (alleged) theft.

"Page 11 states: '20. Additionally, extraordinary services consisted of litigation with one James Gilroy. James Gilroy was a former husband of Patricia Pendleton Bragg. This marriage terminated by divorce. The Executrix accused

© Copyright Soyinfo Center 2021

James Gilroy of taking and converting substantial assets belonging to the estate, including valuable antiques and other valuable personal property.' The Executrix was also concerned that James Gilroy might be attempting to dispose of real property owned by the Decedent.'

"Irwin Goldring, Esq. was eventually substituted in as the Estate's attorney to its end. No dates appear on either of these documents, but both were executed during Paul Bragg's estate administration, which started in 1977 and finally ended in 1984."

One interesting Exhibit was "Exhibit B", which was entitled "Declaration of Patricia Bragg Re Ownership of Joint Tenancy Property And Other Real Property Owned In Part By The Decedent."

In this document, Patricia was to declare that she was the Executrix of Paul's Estate, and "I am the adopted daughter of the decedent PAUL C. BRAGG being legally adopted by the Riverside County Superior Court, Indio Branch, by order of such Court dated October 10, 1957. My birthday is April 29, 1929." And other such things.

"I say 'was' as Patricia never executed it. Seems the falling-out between the attorney & Patricia was that he claimed, basically, that she was an uncooperative Executrix, not signing & returning estate documents, nor taking or returning phone calls left with her secretary, etc; she claimed she 'was afraid of him' for some reason not stated in her response through her new/second attorney.

"However, since the State of California gave her the much lower inheritance tax rate as a legal daughter of Paul Bragg, which they certainly would not have done without seeing adoption papers rather than just taking her word for it, there's no question in my mind that Paul did adopt Patricia, even though both bio parents were very much alive at the time of this adult adoption. The funny part is that this information would never have seen the light of day & been publicly viewable in a Court file had she not 'fired' her first attorney!" Address: 66299 Eighth Street, Desert Hot Springs, Riverside County, California.

1777. *Let's Live.* 1958. We'd like you to know–Bill Baker Products. May. p. 56.
• ***Summary:*** Bill Baker's Soya products is at its original location at 481 E. Ojai Ave., Ojai, California. The bakery is now owned and operated by Harmon and Helen Vaughn, who adhere strictly to the standards established by the founder. "Coming from their shining, modern factory are the famous Super Soya Bread, Gluten bread, 100 percent Wheatfree Cookies, Soybean Fruit Bar cookies, Soy Cereals, puffed soya or grit type, and Soya Bean Toast.

"Wilhelm Koch [who was born on 4 May 1873 in Marburg, Germany] was sent by his father from his native Germany to America to avoid service in the Kaiser's army..." "Young Wilhelm landed in New York, a 12-year-old immigrant [i.e., ca. 1885]. He worked at this and that but always simmering in the back of his busy mind was the idea of becoming a baker." He did so and his increasing skill "put him in the kitchens of hotels at the Grand Canyon, in Yellowstone National Park, and the famous Huntington Hotel in Pasadena, California. By now, of course, he bore the dignified title of chef." During World War I he won a $500 prize from the U.S. government for the best wheatless bread. A recipe is given for a World's Fair Cake.

A photo shows the famous bakery. A sign at the top front reads: "Bill Baker's Ojai Bakery–Soya Products." A sign on the right side reads: "Bill Baker's Homestyle Lima & Soya Bean Products."

1778. Rold Gold of California, Inc. 1958. The secret of Cubbison's superiority... is Melba toasting (Ad). *California Home Economist.* May. p. 9.
• ***Summary:*** This half-page black-and-white ad contains small illustrations of two packages: Cubbison's Prepared Dressing for Poultry, Meats, Fish. And Cubbison's Stuffin' for Poultry, Meats, Fish. The text states: "Versatile? Yes, so many helpful uses. "Yes, Cubbison's Prepared Ready-to-Use Poultry Dressings are toasted by a special process in especially designed, dextrinizing ovens–to bring you versatile products with better texture, finer flavor, and easier digestibility.

"1. Two excellent quality pre-seasoned poultry stuffings–corn bread and regular–to which can be added any special ingredient to make your own favorite dressing–mushrooms, oysters, chestnuts, apples, olives. 2. A tasty, everyday crouton for soups and salads. 4. Tasty crumbs for breading meats, fish and vegetables for frying."

"Also try Cubbison's Bite Size Melba Toasts in White, Wheat, Rye and Wheat Soya as a base."

"Famous Rold Gold products: Cubbison's Prepared Dressing. Melba Toasts. Wheat Sodas Unsalted. Corn Bread Stuffin! Bite Size Melba Toast. Rold Gold Pretzels. Send for free literature."

Note 1. This ad is very similar to one that appeared in this magazine in Nov. 1954 (p. 9).

Note 2. It is not clear in what form Cubbison's used Soya in this product; probably soy flour, but it could have been whole soybeans, soaked and ground to a past. Address: 1924 East Maple, El Segundo, California.

1779. **Product Name:** Sona Soy Lecithin Spread.
Manufacturer's Name: Sona Food Products Co.
Manufacturer's Address: Los Alamitos, California.
Date of Introduction: 1958 August.
Ingredients: Incl. Soya oil, lecithin, sesame oil, safflower oil, sunflower oil.
Wt/Vol., Packaging, Price: 12 oz carton retails for $0.69 (1958, Los Angeles).
New Product–Documentation: Ad (full page) in *Let's Live.* 1958. Aug. "Tops in flavor! Tops in nutrition! Over

71% unsaturated fatty acids. Tops in unsaturated oils! Double whipped. Healthful. Spreadable. Delicious. By actual laboratory test: Highest content of unsaturated oils are found in Sona Lecithin Spread... completely spreadable–even when refrigerated... Available salted or unsalted for those on low sodium diets. Does not contain skim milk powder, therefore stays golden, will not brown when frying... Available at your neighborhood Health Food Store–or ask your store to get it! Dealers contact Kahan & Lessin Co., wholesale distributors, 2425 Hunter St., Los Angeles 21."

1780. Health Research. 1958. Health books (Ad). *Let's Live*. Sept. p. 11.
• ***Summary:*** Lists the titles and authors of about 50 books, each with a price, some with a brief abstract. Address: Mokelumne, California.

1781. **Product Name:** Sanitarium Health Foods Vegecuts (Vegetarian Steaklets).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, Sydney 2076, NSW, Australia.
Date of Introduction: 1958.
Ingredients: Wheat protein, casein, soya beans, peanuts, cornflour, Marmite, onion powder, salt, monosodium glutamate, sucrose, curry.
Wt/Vol., Packaging, Price: 1 lb can.
How Stored: Shelf stable.
New Product–Documentation: Letter from Sanitarium Health Food Co. 1981. Label. 10 by 4 inches. Full color. "Vegetable Protein–Ideal for grills, casseroles, stews, salads." Recipes for Vegecuts Ambrosia and Sukiyaki.

Letter and Label sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1958.

Note: This is the earliest soy product seen that uses casein as an ingredient.

1782. **Product Name:** Sanitarium Health Foods Vegetarian Sausages.
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, Sydney 2076, NSW, Australia.
Date of Introduction: 1958.
Ingredients: Wheat protein, peanuts, tomato, soya beans, Weet-Bix, dried yeast, Marmite, herbs, cloves.
Wt/Vol., Packaging, Price: 430 gm can.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Letter from Sanitarium Health Food Co. 1981. Label. 10 by 4 inches. Full color. Photo shows frankfurter-like sausages on a bed of rice. "Vegetable Protein" Recipes for Sweet & Sour Sausages and Sesame Veg-Sticks.

Letter and Label sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1958.

1783. Vegetarian handbook. 1959. London: Vegetarian Society (U.K.). 19 cm. *
• ***Summary:*** Ad (full page) in *The British Vegetarian.* 1959. Jan/Feb. p. xiii. "A new edition of the Vegetarian Handbook. Published on 1st January, 1959."

"Listing: Hotels and guest houses, restaurants, nature cure homes & clinics, nursing homes, local British vegetarian societies, boarding houses, health food stores and periodicals. General information is given on facilities of many kinds available to vegetarians in this country.

"In addition a whole section is devoted to overseas, listing hotels, guest houses, and restaurants. The Food Lists pages in this section have been extended to include comparative lists of food in French, German, Dutch, Italian, Spanish and Swedish. Price 1/6*d.*, plus 4*d.* postage.

"Published by London Vegetarian Society, 53 Marloes Road, London, W.8, England." Address: London, England.

1784. Granose Foods Ltd. 1959. Fine foods for physical fitness (Ad). *British Vegetarian.* Jan/Feb. p. xi.
• ***Summary:*** This half-page black and white ad shows packages of the following: In cans: Meatless Steaks, Saviand, Nuttolene, Sausaltas. In glass bottles: Yex (Yeast Extract), Kwic-Bru, Peanut Butter. In paperboard cartons: Rolls (starch reduced), Sunnybisk (breakfast cereal), Granobisk. Address: Stanborough Park, Watford, Hertfordshire.

1785. *Vegan* (*The*). 1959. Soya-based plantmilk. 11(4):19-20. Spring.
• ***Summary:*** "The successful results obtained on a number of babies who have been receiving this plantmilk during the last year have encouraged the manufacturers to make arrangements for large-scale production.

"It is hoped that the product will be put on the market in a few weeks' time under the name 'Wanderlac,' although this is not yet finally decided. The cost will be 6*s.* 8*d.* [6 shillings, 8 pence] for a tin containing one pound of the powder.

"When re-constituted with water, this will make about six pints of a liquid food closely resembling cows' milk in appearance, flavour, and nutritive value.

"The content of nutrients will in general closely resemble that of cows' milk, but in certain respects will be superior to cows' milk and more closely resemble that of human milk.

"Wanderlac can be used as a drink or as an ingredient in puddings and other dishes, replacing cows' milk for infants, children and adults. It should be available from health food stores in a few weeks' time.

"Further details can be obtained from A. Wander Limited, 42 Upper Grosvenor St., Grosvenor Square, London, W.1., who are already supplying Wanderlac to babies urgently needing it: or from Dr. Frank Wokes, King's Langley, Herts.

© Copyright Soyinfo Center 2021

"The Plantmilk Society has taken a keen interest in the development of Wanderlac from its first conception. In the early days, the Society was able to give some practical assistance to meet an emergency, in a case of a baby who was unable to tolerate cow's milk. Supplies of American plantmilk were made available by the Society to supplement Wanderlac, then without any name and in its first experimental form

"Considerable credit is due to Dr. Frank Wokes for his skilful, persistent, and painstaking work on this piece of original research and development. In his turn, Dr. Wokes has acknowledged the value of the moral support and interest which the Society has been more than glad to afford him in his work.

"To date Wanderlac has been available only in cases of special need, for the feeding of infants unable to tolerate animal milk. There is evidence that in one case at least its use resulted in the saving of a baby's life. Once the product becomes available more generally, the reactions of consumers will be awaited with interest. Wanderlac is primarily intended to meet the nutritional needs of those who for various reasons would prefer not to include animal milk in their diet.

"The Plantmilk Society will retain considerable interest in the future development of Wanderlac. It is pointed out, however, that in future all enquiries concerning this product should be directed as overleaf, and not to the Plantmilk Society.

"It merely remains to wish Wanderlac every success, and to express the pleasure which every member of the society must feel in the fact that this product, so much in line with the Society's object, is about to become generally available."

The next article, titled "Leaf protein research," explains that the Plantmilk Society has been involved in this work since October of this year, when it granted Dr. Franklin a commission to proceed with research.

1786. *British Vegetarian.* 1959. Soya-based plantmilk. March/April. p. 65.
• ***Summary:*** This half-page article, reprinted from *Plantmilk News* (Feb. 1959), states: "The successful results obtained on a number of babies who have been receiving this plantmilk during the last year have encouraged the manufacturers to make arrangements for large-scale production.

"It is hoped that the product will be put on the market in a few weeks time under the name 'Wanderlac,' although this name is not yet finally decided. The cost will be 6*s.* 8*d.* for a tin containing one pound of the powder.

"When reconstituted with water, this will make about six pints of a liquid food closely resembling cows' milk in appearance, flavour, and nutritive value.

"The content of nutrients will in general closely resemble that of cows' milk, but in certain respects will be superior to cows' milk and more closely resemble that of human milk.

"'Wanderlac' can be used as a drink or as an ingredient in puddings and other dishes, replacing cows' milk for infants, children and adults. It should be available from health food stores in a few weeks' time.

"Further details can be obtained from A. Wander Ltd., 42 Upper Grosvenor Street, Grosvenor Square, London, W.1, who are already supplying 'Wanderlac' to babies urgently needing it; or from Dr. Frank Wokes, King's Langley, Herts."

1787. Kalnay, Francis. 1959. Soybean has all the answers (or nearly all). *House Beautiful* 101:174-75, 207-12. May.
• ***Summary:*** The opening 2-page spread contains photos of many commercial soyfood products available in America at the time: Dr. Fearn's Soy-O pancake flour (one with whole wheat and soya, and the other with just wheat and soya), Pure soya bean powder, and Soya bean granules, Wuest's soya-protein bread, Wuest's cookies, Wel-Pac kinako [roasted soy flour], Yamasa shoyu, Kikkoman shoyu, Oliver Tonkatsu Sauce (Tonkatsu are breaded pork cutlets), Hain soy oil (cold pressed), Amoy soy sauce, Prosperity soy sauce, Golden Sang Chan soy sauce, Madison Zoy-Koff, Hime aka-miso (Pacific Trading Co.), Hime yakidofu, Hime frozen bean curds, Delicious Edamame (Packed by Tokai Kanzume Co. Ltd., Nagoya, Japan), Quong Hop & Co. bean cake [tofu], Schiff soy lecithin, Oriental food shop black soybeans, Climax wheat and soy pure egg noodles (The Pfaffman Co., Cleveland, Ohio), and Prince Veta-Roni (Mezzani or Spaghetti; Prince Macaroni Co.).

The subtitle reads: It's a choice gourmet food. It's as nutritious as vitamin pills. It comes in a dozen forms and makes a hundred dishes.

The author uses soy-related words in a very modern way: "Have you ever noticed the way people who know food pronounce the simple word 'soy'? Their facial expression changes instantly, and their tone of voice turns positively lyric. There are two serious reasons for their extraordinary respect for a bean so little and so innocent. The soybean is enormously rich in protein. This wealth of protein is apparent in both quality and quantity... And because soy oil is high in unsaturated fatty acids, it fits well into today's popular low-cholesterol diets.

"In our country soy is relatively new... Soy is the most versatile legume imaginable... The glittering star in soy's troupe of players is soy sauce (also called soya and shoyu)... The soy food industry is still in its infancy in the U.S. Yet the variety of soy products available is impressive."

Note: This is the earliest publication seen (April 2001) that mentions Quong Hop & Co. in connection with tofu.

1788. Kring, W. 1959. Sojamilch und Sojaquark: Der Mixer erschliesst ostasiatische Sojagerichte [Soymilk and tofu: The electric blender opens new opportunities for East Asian soybean dishes]. *Ernaehrungs-Umschau* 6(3):86-87. May/

June. [Ger]
• ***Summary:*** Contents: Introduction. Fresh soymilk for every household. Acidophilus-soymilk (Sojaquark). Tofu.

Tables show: (1) Nutritional composition of soymilk (*Sojamilch*). (2) Nutritional composition of tofu (*Sojaquark; Tofu*).

Note: This is the 2nd earliest German-language document seen (Dec. 2020) that uses the word *Sojaquark* to refer to tofu (one of two documents).

Photos show: (1) Edelsoja-GmbH soybeans (*Sojabohnen*) No. 97/57. (2) From the soybean to soymilk. (3) An electric blender; an appliance which can be used to transform soaked soybeans into soymilk at home. The soymilk can then be made into chocolate pudding or vanilla sauce. (4) Soymilk with a little vinegar added as a curding agent. After pressing the resulting Quark does not taste sour at all. (5) After it is pressed in a linen sack, Sojaquark / Tofu is known as the meat without bones (*Fleisch ohne Knochen*). Address: PhD, Duesseldorf, West Germany.

1789. Akin Distributors, Inc. 1959. Akin's: Offering dealers in your community the most and best in health foods (Ad). *Natural Food and Farming* (*Atlanta, Texas*) 6(2):27. July.
• ***Summary:*** A full-page ad. The company's logo is a smiling sun. "If your community does not have a health food store, why not open one?" Let Akin Distributors tell you how. "Outstanding advantages for dealers: Distributors for over 150 leading manufacturers and brands. Fresh lines–Always. Central location. Fast shipments. Write for our complete catalog."

Note: This is earliest ad by Akin seen in this magazine. Address: 6947 East 13th St., Tulsa, Oklahoma. Phone: TEmple 6-2534.

1790. N-F Distributors. 1959. Protesoy–Whole protein food supplement (Ad). *Let's Live.* July. p. 15.
• ***Summary:*** A photo shows a can of Protesoy powder and a bottle of the Protesoy Tablets. NF stands for Natural Food / Nutritional Factors. "More protein at less cost. Low calorie. Low carbohydrate. Low salt. Low fat. High in B complex from Brewer's Yeast. Protesoy is the amazing *whole protein* food supplement everyone is raving about. In powder form it dissolves quickly. Can be used in low calorie milk-shake-type drinks or with fruit juices for a pleasant filing treat. Or sprinkle it on cereals or salads. Mix it into any food before cooking. In convenient tablet form, Protesoy tastes good too. Enjoy high energy-good health by reaching for a Protesoy instead of a snack. Ask for it at your local Health Food [sic] store." "Try a low calorie Protesoy milk-shake type drink. Add 4 heaping tablespoons Protesoy to a pint of nonfat milk and one mashed banana. Beat or blend until frothy. An illustration shows a woman holding a glass with two straws in it.

Note: This is the earliest English-language document seen (Dec. 2003) that uses the term "milk-shake-type drinks" to refer to non-dairy shakes made with soy protein. Address: Lafayette, California.

1791. *Los Angeles Times.* 1959. Monday television programs. Sept. 28. p. A10.
• ***Summary:*** 10:30 to 11:00 a.m. Channel 9. "Premiere! Paul Bragg's 'Health and Happiness.'"

1792. **Product Name:** Gluten Flour.
Manufacturer's Name: Battle Creek Food Co.
Manufacturer's Address: Battle Creek, Michigan.
Date of Introduction: 1959 September.
New Product–Documentation: Battle Creek Food Company. Price List. 1959. Sept. 1. Available in 5 lb. or 100 lb. sizes.

1793. *Consumer Bulletin.* 1959. Real old-fashioned peanut butter–it's better for you. 42(9):2, 30-31. Sept.
• ***Summary:*** Above the title of this article (top one-third of the page) are shown the labels of 13 brands of peanut butter, including Derby Peter Pan smooth, Swift's Oz smooth, Jif creamy smooth peanut spread, Skippy creamy, Freshpak homogenized, Planters creamy, Holsum country style "Old Fashioned," etc. The 7 brands on the right half of the page are old fashioned.

The article begins: "Sales of peanut butter, which has always been a flavorsome staple food, skyrocketed during World War II when butter and cheese required precious ration coupons. The result was that more peanut butter went into the lunchbox sandwiches and more consumers acquired the habit of eating it."

Old-fashioned peanut butter should be refrigerated to prevent oil separation and to retard rancidity. Those who own electric food "blenders" can make their own peanut butter at home from freshly roasted peanuts, with or without the addition of salt.

Contains a long and critical section about Jif "the New Peanut Butter."

1794. Wokes, Frank. 1959. Vegetable diets and nutrition (Letter to the editor). *New Scientist* 6(150):595-96. Oct. 1. [1 ref]
• ***Summary:*** "Plantmilks based on soya are being used in America to treat milk allergies in infants. The first British plantmilk, Wanderlac, has just been put on the market, after two years' trial on infants suffering from such allergies, especially galactosaemia..." (p. 596, col. 1). Address: Vegetarian Nutritional Research Centre, Stanborough Park, Watford, Herts. [England].

1795. *Washington Post.* 1959. Volunteers find ready takers: Anne's reader exchange. Oct. 9. p. C4.
• ***Summary:*** The section titled "Organic foods" notes that

anyone interested in such foods deserves to know local sources. "First, contact all the health food stores listed in the telephone book." There is also an *Organic Food Directory*, available for only 10 cents from *Organic Gardening and Farming* magazine in Emmaus, Pennsylvania.

Other clubs in the "area concerned with organic or natural foods: Soilbuilders Club of Takoma Park; Natural Food Associates, with headquarters in Atlanta, Texas. I would be glad to hear from you through the Exchange– M.H.T."

1796. *Los Angeles Times.* 1959. Cranberry furor seen causing attack on law: Amendment on cancer to Drug Act should be preserved, Health Food group told. Nov. 16. p. 4.
• ***Summary:*** Yesterday in Pasadena Dr. Jonathan Forman addressed 200 "health food disciples" at the Western Conference of Natural Food Associates. Forman is a physician in Ohio, is on the faculty of the Ohio State University medical school, and for 20 years was the editor of the *Ohio State Medical Journal.* He said that the current controversy that has arisen over contamination of a portion of the U.S. cranberry crop might lead to an attempt to dilute or eliminate the Delaney amendment to the Pure Food and Drug Act.

Dr. Forman explained that this amendment, which was made part of the act in 1958, "makes it unlawful to sell food that is contaminated with substances known to cause cancer in animals, regardless of their cancer-producing properties in humans." Dr. Forman said it is important to preserve this law at all costs.

"Some 400 health food followers are expected to attend the convention before it ends" this evening.

A large photo, titled "Health food meeting, shows (left to right): Drs. Jonathan Forman, Joe D. Nichols, and W. Coda Martin standing together.

Note: Although repeatedly called a "health food" group in this article, NFA is actually a "natural food" group–as its name clearly states.

1797. Baur, John E. 1959. The health seekers of southern California, 1870-1900. San Marino, California: Huntington Library. ix + 202 p. Foreword by John W. Caughey. Index. 24 cm. Series: Huntington Library Publications. [310 ref]
• ***Summary:*** Discusses: The gold rush and the health rush. California's population growth: The health seekers represented "the first big influx to southern California, and the chief dynamic in the region's development" in the 1870s, 1880s (the boom years), and 1890s. It was aided by the introduction of the navel orange, abetted by the arrival and promotions of the Southern Pacific and Santa Fe railroads, and swelled by the promotional antics of real estate developers and agents and chambers of commerce. Each of these elements contributed to the population growth to about 76,000 in 1880, to 221,000 in 1890, and 325,000 in 1900. At least a quarter of the new arrivals are estimated to have come as health seekers. In "almost every important respect– agricultural, commercial, residential, cultural–this health rush permanently changed southern California (p. viii-ix, by John W. Caughey). Medical advice, diet and outdoor living (p. 21-26).

The sanatorium / sanitarium belt, Los Angeles as a resort, diet. The main types of resorts were desert, mountain, mineral springs, and seaside. (p. 32-38). Sanitariums and hospitals (p. 39-42). Health foods, diet, Seventh-day Adventists, and the Battle Creek Sanitarium, Michigan (p. 47-50). The health rush and its effects, Pasadena founded in 1874 as an early health resort and community for invalids from Indiana (p. 51-54). Sanatoriums (p. 57-58). Diet and Dr. Francis M. Pottenger, who came to Monrovia in 1895 for his wife's health. Despite her early death, he loved California and "in 1903 opened the Pottenger Sanatorium, a private residential hospital for tuberculars of all stages." It was successful from the beginning and "the first modern sanitarium in southern California." There were only 60 such hospitals in the USA at that time. Pottenger's sanitarium attracted considerable attention because of its advanced methods and high percentage of recoveries (p. 59-60).

Small southern California towns were often overwhelmed with the arrival of hundreds of health seekers, many of whom were unable to secure lodging. In 1872 Santa Barbara, which had long promoted itself as a resort for health and pleasure, suddenly became a sanitarium, and the Arlington Hotel was built (p. 67-68).

Not far from Santa Barbara lies the Ojai Valley, publicized as a resort town nationwide by Charles Nordhoff. Laid out in 1874, it had two well-patronized invalids' hotels for those "seeking relief from the ravages of tuberculosis and the discomforts of asthma" (p. 71-72).

In "1886 Dr. Wellwood Murray and his wife established a small resort at Palm Springs where they regained their health and soon began to welcome dozens of boarders, who were mostly tuberculars." "It was not the climate that cured, but the new way of life–rest, relaxation, a psychology of serenity..." (p. 77-78).

The Idyllwild Sanatorium opened on 10 April 1901. It was an early example of medical philanthropy, funded by 40 local physicians and 20 other important citizens, who spurned profits and worked to get persons in the early stages of tuberculosis out of the hotels and boarding houses of large towns and into the sunshine and mountain air. Yet by 1907 this model resort failed. Its counterpart was Loma Linda, which took over a hotel already built (in 1886 in the midst of the great boom). "Unfortunately, Loma Linda shared the fate of Idyllwild, and its quarters once more reverted to hotel status" (p. 85-86).

By the 1890s, California doctors were at least as advanced in the study of lung diseases as their eastern colleagues. "Few individuals have written more words

© Copyright Soyinfo Center 2021

on tuberculosis than Francis M. Pottenger" (p. 86). Yet quackery was also common. "In 1905 a member of the local board of medical examiners called Los Angeles County the 'Mecca of the quack.' and few doctors would dispute the unpleasant nickname (p. 87). This area became known as the "Sanitarium Belt" (p. 88-89). The Pasadena Young Men's Christian Association (YMCA), established in 1886, was active in trying to help the sick. In December 1891 the Cottage Hospital at Santa Barbara was opened (p. 97). In 1886 the Temecula Land and Water Co. laid out Murietta, a spa with mineral springs (p. 108).

Southern California grew up as a health resort and attracted famous people. While many historians have overlooked this unusual story, but James M. Guinn helped to organize the Historical Society of Southern California in 1883, and wrote two solid histories of the region in 1902 and 1907. Other good histories soon followed (p. 126-30).

One health seeker who would eventually become the "most powerful of all local journalists was Harry Chandler." While a promising student at Dartmouth College, his health suddenly broke and he staked all his hopes on a trip to Los Angeles. He went to work on a ranch, then for the *Los Angeles Times*. Chandler rose rapidly, married the daughter of owner Harrison Gray Otis, and when Otis died in 1917, Chandler became proprietor of what would become southern California's greatest newspaper (p. 130).

There is a long discussion of Abbot Kenney, who came to live in a community at Sierra Madre by 1882. He wrote on outdoor life and health, and later developed Venice Beach and its canals to help promote it as "the American Italy" (p. 132). Other prominent health seekers to Southern California are also discussed: Thaddeus S.C. Lowe, Helena Modjeska, Walter Q. Gresham, John C. Frémont (Fremont), Joseph Pulitzer, Joseph Medill, Andrew McNally, Philip Danforth Armour (the "world's greatest butcher"), Eugene Field. These men brought as much talent and human eminence to California as had the earlier gold rush (p. 141-49).

The failed movement to build state-sponsored sanitariums for tuberculosis / consumption / phthisis (first petition was 1869). Address: Los Angeles, California.

1798. Bloese, August S. 1959? Manuscript of an unfinished biography of John Harvey Kellogg. Charles MacIvor Collection, No. 251, Center for Adventist Research, Andrews University, Berrien Springs, Michigan. 80 p. Box 1, folders 12-14. Box 2, folder 1. *

• ***Summary:*** To find out more, we searched the digitized *Battle Creek Enquirer* and found the following: (1) 1942. Dec. 6, p. 26. Sunday. "Mainly about folks." The hobby of August F. Bloese (128 Roseneath, Battle Creek, Michigan) is raising irises and selling their bulbs. But his regular occupation is secretary to Dr. John Harvey Kellogg, one of the hardest working famous men in the world, who is a physician, surgeon, business executive, health reformer, writer, inventor and manufacturer of health foods and mechanical apparatus, editor, and lecturer. Dr. Kellogg has a tremendous amount of correspondence. At every opportunity he puts in hours and hours at dictation. And Mr. Bloese travels with him wherever he goes, be it a "short" trip to Miami or Miami Springs [Florida] or a long trip to Europe. And Mr. Bloese arises early and works well past midnight on many nights. August Bloese was born in Chicago [Illinois] (the son of August F. Bloese, Sr., an artist who was born in Germany on Aug. 20, 1863) and finished grade school and high school there. He was a good athlete, playing baseball, football and golf, and doing some wrestling and boxing. In the hope of becoming a court stenographer, he entered a business school. To earn his way through school, Bloese took charge of a billiard room at the Chicago Beach Hotel. When the Chicago school sent Mr. Bloese to Dr. Kellogg in Battle Creek, he accepted the job on a temporary basis. He has remained with "the little doctor" ever since. Mr. Bloese was in France for two years during World War I, There he met Mlle. Marguerite Girard, a stenographer and avid bicycle rider. They were married and she came to Battle Creek after the war. The Bloeses have one son, Jack. Back in Battle Creek, August Bloese resumed his work as Dr. Kellogg's secretary and in 1926 accompanied the doctor on a trip to Europe, visiting several of the capitals. The trip included six weeks at Biskra in the Algerian desert. There Dr. Kellogg wrote a book–and, of course dictated every day. Together with Roy V. Ashley, Dr. Kellogg's former secretary, Mr. Bloese reported two Race Betterment conferences that were held in Battle Creek. Mr. Bloese has passed tests in shorthand at 200 words a minute. Mr. Bloese is believed to have developed the world's largest white iris, the flower being 9½ inches from tip to tip. In France the iris is called the fleur de lis; it is the national flower and has adorned the coat of arms of every royal family. In the summer Mr. Bloese is busy sending out both wholesale and retail roses. He has the largest and finest iris collection in Michigan. At the time of Dr. Kellogg's death on Dec. 14, 1943, A.F. Bloese had served as personal secretary to Dr. Kellogg for 28 years. Bloese took over from Ashley when the latter resigned. In Sept. 1950 Mr. A.F. Bloese, vice president of the Race Betterment Foundation, was named head of the Battle Creek Food Co.

Battle Creek Enquirer. 1959. May 25, p. 6. "A biography of Dr. J.H. Kellogg, written by August F. Bloese, has former secretary, has never been published." The most complete collection of Dr. Kellogg's writings is preserved at the offices of the Race Betterment Foundation. Address: Personal Secretary to Dr. John Harvey Kellogg, Battle Creek, Michigan.

1799. *Los Angeles Times.* 1960. Obituaries: Mrs. Mildred L. [Lager] Jones. Jan. 26. Section 4. p. 5 (p. C5).

• ***Summary:*** "Funeral services for Mrs. Mildred Lager Jones,

© Copyright Soyinfo Center 2021

59, lecturer and writer on nutrition who died yesterday, will be conducted Thursday at 11 a.m. in the Church of the Hills, Forest Lawn Memorial Park, Hollywood Hills. Mrs. Jones was a radio broadcaster from 1937 to 1945 and owned and operated a health food store in Los Angeles during those years. She leaves her husband, Edwin S. Jones, 4118 Warner Blvd., and two daughters, Mrs. Evelyn Mundall of Oakdale and Mrs. Lois Bower of Redding."

On the same page is an entry under "Vital statistics" that contains no new information but begins: "Jones, Mildred Lager, beloved wife of Edwin S. Jones, mother of Mrs. Lois Bower and Mrs. Evelyn Mundall."

1800. *Evening Telegram* (*Superior, Wisconsin*). 1960. City, area deaths: Mrs. Edwin Jones, ex-Superiorite, dies in California. Jan. 27. p. 4, col. 5. Wednesday.

• ***Summary:*** "Mrs. Edwin S. Jones [Mildred Lager], 4118 Warner Boulevard, Burbank, California, of Superior, died Monday [Jan. 25] at her home.

"Funeral services will be conduced Thursday [Jan. 28], 11 a.m. at the Church of the Hills in Forest Lawn Memorial Park, Hollywood Hills, Calif. Burial will be there.

"Mrs. Jones was born in Superior, Dec. 19, 1900. She was the daughter of the late Mr. and Mrs. G.H. Lager.

"Mrs. Jones was a teacher in Chippewa Falls, Wisconsin, and Escanaba, Michigan, and later went into the shoe store business as part owner of the Family Shoe Store in Superior.

"She left Superior in 1930 and from 1937 to 1945 was a radio broadcaster and writer in Los Angeles where she conducted a series on nutrition.

"She owned and operated a health food store in Los Angeles during those years.

"Mrs. Jones, while conducting her series on nutrition, appeared in Superior to lecture.

"Survivors include her husband, Edwin S., two stepdaughters, Mrs. Evelyn Mundahal, Oak Park, Calif., and Mrs. Lois Bower, Redding, Calif."

Foods, manufacturers of health foods, Melrose Park. Also surviving are three sons, Elwood, Louis P., and William D.; two sisters, and a brother."

1803. *Oak Park Oak Leaves.* 1960. Mrs. Paul Richard, former resident, dies in Elmhurst. July 28. p. 46, cols. 2-3.
• ***Summary:*** "Mrs. Verna L. Richard, 53, a former resident of Carpenter avenue, died at her home in Elmhurst July 20 following a long illness. Mrs. Richard was the wife of the owner and president of Fearn Soya Foods, manufacturers of health foods in Melrose Park.

"Born in Chicago, she and her husband resided in Oak Park 17 years before moving to Elmhurst five years ago. Mrs. Richard was a member of Parkview Presbyterian church here and belonged to the Timer Trails Garden club of Elmhurst. She and her husband had been married 30 years.

"Surviving, besides her husband, are three sons, Elwood and William at home, and Louis in Denver, Colorado; five sisters, Miss Rose Elwood of Oak Park, Miss Opal Elwood, Chicago, Miss Minette Elwood of Louisville, Mrs. Sylvia Palmer of Cambridge and Miss Dora Elwood, Mendota, Illinois; and a brother, Archie Elwood of Chicago.

"Services were conducted Saturday, July 23 by Dr. Virgil M. Cosby at the Kampp and Sons chapel. Burial was in Mount Emblem cemetery."

1804. *British Vegetarian.* 1960. Vegetarian foods. Sept/Oct. p. 248-49.
• ***Summary:*** The main protein foods used by vegetarians are nuts, cheese and pulses. In addition, all Health Food Stores sell a wide variety of tinned nutmeats, including the following:

Granose Foods Ltd. makes: Nuttolene (peanuts and cashew nuts). Sausalene (wheat protein, mixed nuts, etc.). Saviand (Wheat gluten, ground nuts, etc.). Meatless steaks (wheat gluten, etc.). Savoury Pudding (wheat protein, wheatmeal flour, groundnuts, etc.). Nutmeat (wheat gluten, cashew nuts, wheat flour, etc.). Sausalatas (wheat protein, mixed nuts, etc.). Soya Beans (soya beans, tomato puree, brown sugar, vegetable shortening, onion, yeast extract, wholemeal flour, seasoning). Peanut Butter. Cashew Nut Cream. Granose was founded in 1898 under the name International Health Association Ltd. and is now at Stanborough Park, Watford. Note: This is the earliest document seen (July 2000) concerning the work of Granose Foods Ltd. with soya beans.

Mapleton's Nut Food Co. Ltd. makes: Maplemeat (cashew nuts, wheat risk, etc.). Savormix and Frittermix (incl. groundnuts); these are in packets for making savouries. They also make numerous tinned nutmeats, plus a wide range of nut and soya butters [probably margarines], savoury spreads and pastes, nut creams, fruit and Dundee cakes. Mapleton's was started in 1897 by the two Mapleton brothers who were processing cracked nuts in a large house on Dolphin Street, Manchester. By 1907 Mapleton's had become a public limited company and occupied a mill at Wardle, Lancashire, later moving to Garston, near Liverpool. The company opened a second factory in Hamburg, Germany, which flourished until 1914, when it was confiscated. A fire gutted the their Garston mills in 1932 but in 1933 the factory and offices were rebuilt.

Many tons of organically grown produce are grown in the UK and overseas using compost.

1805. **Product Name:** Soya Butters.
Manufacturer's Name: Mapleton's Nut Food Company.
Manufacturer's Address: Liverpool, England.
Date of Introduction: 1960 October.
New Product–Documentation: *The British Vegetarian.* 1960. Sept/Oct. p. 249. Mapleton's makes "a wide range of nut and soya butters, savoury spreads and pastes, nut creams, fruit and Dundee cakes."

1806. *Chicago Daily Tribune.* 1960. Obituaries. Nov. 24. p. 13.
• ***Summary:*** "Paul A. Richard, of 16W145 Greenleaf dr., Elmhurst [Illinois], died yesterday in Elmhurst hospital. He was the owner of Fearn Soya Foods in Melrose Park, manufacturers of health foods. Mr. Richard leaves three sons, Elwood, Louis, and William, and a sister. Services will be held at 11 a.m. Saturday in the chapel at 318 N. Central av."

1807. Cummings, Bob. 1960. Stay young and vital. Englewood Cliffs, New Jersey: Prentice-Hall, Inc. xi + 208 p. Dec. Illust. No index. 22 cm. [18* ref]
• ***Summary:*** This well-known and good-looking movie star, who had his own TV show, was interested in healthy eating. The book includes many rules for good health and many black-and-white photos of the author. In the chapter titled "Sex and salad," under sources of vitamin E (p. 169), cold-pressed vegetable oils (incl. soy oil) are mentioned.

Cummings liked: (1) Bernarr McFadden [Macfadden], who "crusaded for 'making a fad of nature.'"

(2) Louis Bromfield (Pulitzer Prize winner) who "pioneered for a return to 'natural farming'" (p. 202). Bromfield was interested in organic and sustainable farming. In 1939 he bought a 340-acre farm, which he named Malabar Farm; it still exists in Mansfield, Ohio. Address: Los Angeles, California.

1808. **Product Name:** Cho-Pats.
Manufacturer's Name: Madison Foods.
Manufacturer's Address: Madison, Tennessee.
Date of Introduction: 1960.
New Product–Documentation: Seventh-day Adventist Dietetic Assoc. 1960. *Diet Manual.* 1st ed. p. 95. Cho-Pats contain 16.50% protein, 0.10% fat, and 6.22% carbohydrate.

Foods since early 1946. 1992. Nov. 5. He thinks that this product was made by Madison Foods.

1809. Banik, Allen E.; Taylor, Renée. 1960. Hunza land: The fabulous health and youth wonderland of the world. Long Beach, California: Whitehorn Publishing Co. 239 p. Introduction by Art Linkletter. Undated. Illust. No index. 24 cm. [1 ref]

• ***Summary:*** Contents: Introduction, by Art Linkletter (host of the "People Are Funny" TV show). Preface. 1. Journey to a hidden land. 2. The road to Hunza. 3. Introduction to Hunza. 4. Hunza farming and food. 5. Hunza families and Hunza health. 6. Farewell to Hunza. 7. The Hunza lesson. 8. The inspiration of Hunza. Appendix: Questions and answers.

"This book is dedicated to my friend, Art Linkletter, in grateful appreciation for his generous support and sponsorship of my trip to Hunza." The Hunzukuts, the citizens of Hunza, number about 25,000 and live in tiny autonomous region in high, remote mountain valleys near where the borders of China and Pakistan meet. They live in health and happiness, many past the age of 100. Fair skinned, they trace their lineage to soldiers of Alexander the Great, who took Persian wives. They are Muslims. Dr. Banik, an eye doctor, visited Hunza alone in the summer of 1958. There he confirmed a theory that he has long advocated, that people with good eyesight generally enjoy good health. He also found a better way of living through a balance of one's physical, mental, and spiritual aspects. Dr. Banik came away convinced that the lifestyle (including diet, hard work, happy disposition) and environment (good soil, clean air and water) of these people was responsible for their good health. Renée Taylor of California helped Dr. Banik write the story of his visit to Hunza.

A table (p. 193) listing of good calcium sources, soy flour is shown to contain 330 mg/cup. A list of protein-rich foods that contain phosphorus in quantity (p. 194) includes "bean, peas, legumes, soybeans, nuts."

Notice in *Let's Live.* 1962. April. p. 13. "Renee Taylor, journalist, lecturer, and author of the book 'Hunza Land' will speak for the Pasadena Chapter of the American Nutrition Society, Monday, April 16." Miss Taylor, who recently returned from a trip to Hunza in the Himalayas, will show photos she took while there. Contains 19 black-and-white photos. Address: 1. M.D. (optometrist), Kearney, Nebraska; 2. Author, lecturer, and managing editor Whitehorn Publishing Co., Long Beach, California.

1810. Jarvis, D.C. 1960. Arthritis and folk medicine. New York, NY: Holt, Rinehart and Winston. 179 p. See p. 151.

• ***Summary:*** "If a natural foods store or a health store is available I feel sure you will find in stock a full strength vinegar suitable for medicinal use" (p. 151).

The term "natural foods" is mentioned on 6 pages in this book: "We can help this process [of healing] by a wise selection of the foods we eat. We need to shun civilized foods, represented by white flour, white sugar, packaged cereals, and processed foods. We need to turn to natural foods that do not come out of a factory, and eat more of fruits, berries, edible leaves and roots, and honey..." (p. 9).

"We would avoid refined foods, like white flour and white sugar, and seek natural foods" (p. 49).

"Besides the vinegar-and-honey treatment, we must return to natural foods. White flour foods and white sugar must be removed from the daily food intake because they are highly refined, which removes the minerals the body depends on to rebuild and maintain body tissues" (p. 115).

"They told me, these old Vermonters, that natural foods gave them the strength to do farm work–strength they could not get from packaged cereals and other processed foods" (p. 128).

"Such a [bodily] condition simply means that you have lost your knowledge of nature's plan, or have never heard of it. That is the time to examine your daily food intake and begin the biologic selection process, avoiding the civilized [refined] and substituting for them the natural foods that will give your body the acids and minerals nature intended it to have" (p. 145).

Note: This book is poorly written and highly repetitive. On page 151 the author appears to endorse certain makers of medicinal apple cider vinegar. The index is poor and inaccurate.

Note: DeForest Clinton Jarvis (March 15, 1881–Aug. 18, 1966) was an American physician from Vermont. He is best known for his writings on the subject of folk medicine. He recommended a mixture of whole apple cider vinegar and honey that have variously been called switchel or honegar, as a health tonic. He graduated from the University of Vermont Medical College in 1904, and began practicing medicine in Barre, Vermont in 1909.

His obituary was published in the *New York Times* on 18 Aug. 1966; it states that his 1958 book, *Folk Medicine: A Vermont Doctor's Guide to Good Health*, sold over a million copies. An article about him, titled "Folk medicine." was published in *Time* magazine on 28 Dec. 1959. He died in South Barre, Vermont, at age 85. Address: M.D.

1811. LaLanne, Jack. 1960. The Jack LaLanne way to vibrant good health. Englewood Cliffs, New Jersey: Prentice Hall, Inc. ix + 224 p. Illust. Index. 23 cm.

• ***Summary:*** In the section titled "The man who saved my life," LaLanne says that he was a "sickly child" who ate all manner of "treats" such as candy, milkshakes, pies, etc. "In short, I treated my pimples lavishly." One evening he went to hear Paul Bragg speak at a woman's club in Oakland, California. The hall was full when he arrived. "Paul Bragg was the most dynamic man and speaker I had ever heard. He soon convinced me that my condition was not incurable–he'd once been the same way. He spoke of natural laws

© Copyright Soyinfo Center 2021

and natural foods, and how we disobey God's laws by our eating habits. My eyes almost popped when he, a man in his fifties, did handstands across the stage. In that moment I made my decision... 'Dear God, give me fortitude to follow this course.' That night I foreswore the very things I craved most... I began a systematic program of body-building in our back yard.

"This was my conversion... Paul Bragg was a vegetarian and for seven years I followed that regime... I wanted to keep people well. After a time, too, I saw that vegetarianism wasn't the answer. I learned to balance my meals healthfully with meats and fish." He advocates natural foods and an abundance of raw foods (p. 80-83).

Chapter 14, titled "There are no 'miracle' foods," has a full-page, very positive section on "Soy beans" (p. 98-99). "Here is a source of protein higher even than eggs and meat. Soy beans are also a good source of lecithin which, with its ability to fight cholesterol, should be in every diet. You may have to go to Chinese stores to buy your soy beans, but that can be an adventure in shopping. Buy some soy bean sprouts while you're there... I recommend soya bean powder (available at all health food stores) to everyone with an electric blender..."

The section titled "Make the electric blender–Nutrition's miracle tool work for you" (p. 114-15) says that every home should be equipped with "an electric blender or liquifier." In moments you can produce a "health cocktail." "Children should be encouraged to drink the blender beverages." If a sweetener is needed, use honey. For vitamins, add skim milk, wheat germ, brewers yeast, and black strap molasses.

The section on "The fun of Oriental cookery" (p. 121-22) describes shopping for soy beans, bean sprouts, etc. in San Francisco's Chinatown, and visiting Yamato Sukiyaki House, Trader Vic's, and Don the Beachcomber's. He gets brown rice from George Mardikian, the famous restaurateur. "I never eat the polished white rice." On p. 142 is a recipe for Soy bean bread (with soy bean flour).

Concerning supplements: He takes supplements with every meal, every day. "I take bone meal tablets, multi-mineral-vitamin tablets, Vitamin C and Vitamin E, one teaspoon of wheat germ, one tablespoon of brewer's yeast and two tablespoons of soy powder" (p. 145).

The section titled "Organic foods: Nutrition's next breakthrough" (p. 146-48) includes a long discussion of "One of the great success stories I know... a young man named Jim Baker and his discovery of organic products. I first met Jim during the latter days of World War II when I was stationed at the Navy's rehabilitation center at Sun Valley, Idaho. Jim, a big, handsome, lanky Marine sergeant, was in from the island war zones. He had been injured in an engagement for which he was to be recommended for the Marine Corps' top medal for heroism. But he didn't care to talk of that.

"As I worked with him, helping rebuild his body, we talked of exercise, nutrition and health. We became fast friends there and subsequently, when Jim went home to Ohio, he wrote for photos of my conditioning studio in California. He built a duplicate gym in Cincinnati and used the proceeds to go back to college, where he took advanced degrees in public health.

"The next thing I knew, he was in Hollywood. He had discovered the theory of organic gardening and was sold on it. In Hollywood he opened a restaurant, The Aware Inn, for people who wanted only *health* food, only vegetables grown by organic methods and meat from animals that had been fed the same way. Today Jim's restaurant on the glittering Sunset Strip is never empty. His clientele? People who are aware–who want to eat right. They range from Marlon Brando to Red Buttons to Jack LaLanne and all my friends.

"I foresee a future when millions of Americans will be aware of the need for the best foods that can be grown on God's green earth. On that day, Aware Inns will have sprung up from coast to coast. A healthier nation will be building from the ground up."

In 1956 Paul Bragg introduced LaLanne to the "rubber cord" which he used to develop more than 100 good exercises; he demonstrated some of these on his television show. He called it his "Glamour Stretcher" and sold 200,000 the first year. Today this is widely used in medical physical therapy.

Note: This is the earliest document seen (March 2020) that mentions the "Aware Inn." Address: [California].

1812. Longgood, William. 1960. The poisons in your food. New York, NY: Simon & Schuster. vi + 277 p. No index. 22 cm. [19 ref]

Address: Newspaperman, Upper Saddle River, New Jersey.

1813. Philpott, Gordon M. 1960. Daring venture: The life story of William H. Danforth. New York, NY: Random House. xvi + 175 p. Illust. No index. 21 cm.

• ***Summary:*** William Henry Danforth (1870-1955) was the founder of the Ralston Purina Co. "This book is dedicated to the thousands of boys and girls who were dared by William H. Danforth to stand tall, think tall, smile tall and live tall."

Chapters 1 and 2 tell the early history of Ralston Purina. "On January 1, 1894, the Robinson-Danforth Commission Co. was formed with Robinson as president; Andrews, vice-

© Copyright Soyinfo Center 2021

president; and Danforth, secretary-treasurer. The boy was now ready for a man-sized job. Things soon began to hum around the little feed store in St. Louis. Ground corn and crushed oats were dumped in the back room and mixed with hand shovels. The mixture was put into 175-pound burlap bags, which were then sewn by hand. Robinson, who had a flair for promotion, named it Purina Horse Feed. *Purina* was a coined word meaning pure grain... Danforth's first job was to keep the books and he shared the same desk with Robinson... He proved to be a shrewd buyer, too..."

Note: In 1898 Danforth entered the human food market with *Purina Wheat* and a line of whole-wheat breakfast cereals.

Page 10 shows a full-page photo of Albert and Rebecca Danforth, Will's parents. This photo was taken in the fall of 1868.

Pages 36-38: The idea for the famous red and white "checkerboard trademark was born in the mind of a boy in Charleston, Missouri, when he watched farmer brown and his family come to town in gay red and white checker clothing." Mrs. Brown always bought her cloth from the bolt of that distinctive kind of cloth.

A photo (p. 37) shows a book and a page titled The Ralston Health Club. The large text of a membership certificate reads: "Complete membership. With perfect health. Purpose: 'To establish a new race.' Your complete membership number is: 219,405." The caption explains that this club, which now had "several hundred thousand members, recommended Ralston Whole Wheat as the official cereal for all members."

For years, Will Danforth had been working to improve his health. A high school teacher had dared him to build a strong, healthy body. Throughout his life he worked hard to maintain his health through daily exercises, proper diet, and sensible habits. He approached things of the spirit in the same systematic way.

The text (p. 38-39) explains that [in 1902] the company changed its name to Ralston Purina Company at the same time the checkerboard became its trademark. Purina remained the name of the company' horse feed. "The name *Ralston* became part of the company name because of an association with a Dr. Ralston who had organized a national health club that claimed approximately 800,000 members. There was a growing health consciousness in America at the turn of the century. Revolutionary discoveries were being made in the field of human nutrition. People everywhere were beginning to realize that good health and length of life depended very largely on diet and they were eager for information.

"When Danforth read Dr. Ralston's book, entitled *Life Building*, he found that the doctor recommended a whole grain cereal similar to the one he was selling." Hundreds of thousands of copies of the book were sold to members of the Health Club, and these members followed the Doctor's recommendations. "Danforth called on the Ralston Health Club officials in Washington [DC] to see if they would recommend his cereal to their members. This they were willing to do, provided the cereal was called Ralston Wheat Cereal. It turned out to be a good deal for both parties. Mr. Danforth got national distribution through grocery stores for his Ralston Wheat Cereal because the health club members demanded it, and the health club received additional publicity and revenue. The Ralston Health Club has long since faded into obscurity but the name Ralston is as widely known as Purina." By 1902 a company ad boasted, "In a million homes."

Note: This is the earliest document seen (Sept. 2020) that uses the term "Dr. Ralston" (or "Mr. Ralston") to refer to the leader of the Ralston Health Club. There was no person with the surname Ralston who founded or led this club. The person was invented by the author of this book.

By 1904 the Ralston Purina Company's sales reached almost $1.25 million. To make its checkerboard products better know, the company advertised them vigorously and consistently. In 1904, when the Louisiana Purchase Exposition was held at St. Louis, Missouri, to commemorate the centennial of the purchase of the Louisiana Territory, handy and colorful checkerboard shopping bags were supplied to all the visitors–free of charge.

Photos show: (1) Albert Danforth, Will's father, before joining the Confederate Army (p. 7). (2) Young Will Danforth, taken shortly after he arrived in St. Louis to attend school. (3) Albert and Rebecca Danforth, Will's parents (p. 10). (4) Will Danforth after graduation from Washington University in St. Louis (p. 15). (5) The large Danforth home in Charleston, Missouri–later given to the YMCA.

markets. Home of the famous gluten bread for diabetic patients. Bill Baker's Bakery–Try some. 457 E. Ojai Avenue–Ojai." Address: Ojai, California.

1816. Cubbison, Sophie C. 1960? Autobiography. Los Angeles. 4 p. Unpublished typescript. Undated.
• ***Summary:*** Cubbie wrote this for her alma mater, Cal Poly in San Luis Obispo, about 4 years after her retirement in 1956. It begins: "My career had its inception on my Father's Ranch in San Diego County where I was born. At the age of 16, I started to cook for my father, brothers, and their ranch laborers during the summer and early fall, in order to put myself through 'The learn by doing' California Polytechnic–just a school in those days.

"My father was instrumental in introducing the cultivation of Lima Beans in San Diego County, which to begin with was a huge project, since the equipment was not automatic, therefore a great deal of the work had to be done manually. That meant hiring lots of laborers and they had to be furnished with board" [food].

"With the assistance of a Helper we referred to as a 'flunky,' I cooked and baked for forty men in two Mobile Kitchens, which were coupled together. In those days they were referred to as 'Cook Wagons." She then describes what meals she prepared and when they were served each day–from breakfast at 5 a.m. to supper at 8:30 p.m.

"Since the Wholesale Bakeries were not equipped to make country deliveries in those days, it was compulsory for me to bake all necessary Bakery Products, consisting of 40 loaves of bread daily, plus Coffee Cakes, Doughnuts, Cookies, Cup Cakes, etc... I did not have mechanical Kitchen equipment in those days. All mixing was done manually–and I did the mixing. I even prepared my own yeast" by fermenting potato water in a Mason Jar. The bread I baked was referred to as 'Black Bread,' made from 100% W.W. [whole wheat] Flour. You see my father was born in the Old Country, Bockhorn, Germany.

"My father being very industrious and progressive, planted and harvested his own special High Protein Wheat, which he would take to Pala, near the Indian Reservation, where two of his (Landsmann), countrymen operated a small Flour Mill. There the wheat was milled into 100% Whole Wheat Flour for our consumption on the Ranch.

"My Grand Mother, Sophie Huchting had taught my father as a young man while still at home in Bockhorn, Germany, how to make this delicious, nutritious, Black Bread, and in turn my Father taught my Mother and I how to make it.

"In 1913, I met Harry G. Cubbison. He used to drive down from L.A. [Los Angeles] to our Ranch in San Diego County, once a month to visit me. In 1916, Mr. Cubbison and I were married. Mr. Cubbison was supporting his invalid Father and Mother on $12 per week and I was supporting my Mother on $30 per month, my Father having passed on. 'Necessity became the mother of invention.' Mr. Cubbison was a fine Salesman and I was capable of baking. It was absolutely necessary for us to earn more money. We looked around for a small bakery and found one fully equipped. We obligated ourselves to pay $300 for the bakery equipment, besides that we went in debt to install a small mill to grind our own 100% wheat flour.

"To begin with I would bake Cubbison's W. W. bread three times a week and the other three days I would demonstrate the bread in stores and delicatessens. Mr. Cubbison did the soliciting and delivering. Our venture met with success. However, in the interim, my kitchen at home became more of a test kitchen or sort of laboratory. Weekends and evenings, I would experiment with Melba toast. In 1925, we sold the Bread Business and launched out on a new venture, Mrs. Cubbison's Melba Toast and Zwieback. In 1929 we struck a 'bonanza'. The famous 'eighteen-day reducing diet' that had been prescribed for the late Ethel Barrymore by Mayo Bros. got into print in most of the leading newspapers in the U.S. The demand for Melba toast all over the U.S. became so great that Cubbison's were forced to operate three plants for about a year and half to meet the popular demand. However, in the meantime, unconsciously, another Mrs. Cubbison product which was to become popular and a 'best seller' on the market was being developed in my kitchen.

"And this is how it happened... naturally after we sold the Bread Business, the 100% W. W. bread that used to reign in the Cubbison household was replaced by Mrs. Cubbinson's Melba Toast. Therefore, whenever a recipe called for bread crumbs, I would substitute Melba Toast crumbs by crumbling or crushing the Melba Toast on the bread board with a rolling pin. The Melba Toast crumbs were not only used for breading purposes, but for stuffing vegetables, such as Egg Plant, Bell Peppers, Squash, etc., but also for stuffing Turkeys and other fowl and as an accompaniment for other meats. Friends and relatives dining with us from time to time would rave about my Dressing that was being served to them... wouldn't I please give them my recipe for making Dressing? Well, a Bell began to ring... Mrs. Cubbison's Poultry Dressing and Corn Bread Stuffing were potential products for the food markets.

"I then began to feel out my sales executives to see how they would react towards the idea of merchandising Mrs. Cubbison's Poultry Dressing and Corn Bread Stuffing, which seemed to be in the making. The response was 'No!' They were not interested in 'slow dimes'; they wanted 'fast nickels'. I would let the matter rest for a while and then bring it up again. Finally the barrier was broken..." Mrs. Cubbison's All-Purpose Pre-Packaged Dressings met with great success on the market.

"In 1955 I retired from active duty and immediately started to make plans for a very interesting career or vocation, if I may call it that... 'Traveling'.

© Copyright Soyinfo Center 2021

"In the past four years I have traveled extensively through many of our United States, twice to Hawaii, our 50th state, and twice to Alaska, our 49th state. I have sought every place of historic interest in our beloved state California... I presume that I have given California a great deal of time, because it is my Native State, having been born and lived in California all my life.

"I have traveled extensively in Mexico and by the end of the year, I will have traveled in approximately twenty-three European countries. I shall be leaving on my second European tour the first of May, which will add another three months to my travels in Europe."

"Au revoir, SCC." Address: Los Angeles.

1817. Foods for Life, Inc. 1961. Classified ad: Foods for Life, Inc. *Los Angeles Times.* Jan. 4. p. C6, col. 4.7.
• ***Summary:*** In the section on "Health food"–a tiny 2-line ad with only the company name, address, and phone number. Address: 821 E. Broadway, Glendale [California]. Phone: CItrus 4-8601.

1818. N-F Distributors. 1961. Quick energy with instantized Protesoy (Ad). *Let's Live.* Jan. p. 25.
• ***Summary:*** This full page ad states: "More whole protein at less cost! No blendors needed–No more lumps. 82% protein. Low calories. Low carbohydrate. Low sodium. High in B complex from brewers yeast. Fills you up–but not out!" Sprinkle Protesoy powder into drinks. Nibble Protesoy tablets while watching TV. 1819. **Product Name:** N-F Instantized Protesoy (Protein Powder).
Manufacturer's Name: Seroyal Brands Inc.
Manufacturer's Address: P.O. Box 125, Lafayette, California.
Date of Introduction: 1961 January.
How Stored: Shelf stable.
New Product–Documentation: Ad (full page) in *Let's Live.* 1961. Jan. p. 25. "Quick energy with instantized Protesoy." No blendors needed–No more lumps. 82% protein. Low calories. Low carbohydrate. Note: This is the earliest "instantized" soy protein product seen. Products are typically instantized by adding lecithin to make them dissolve more quickly and completely in liquids.

Ad (½ page) in *Let's Live.* 1962. April. p. 13. "A better balanced protein: With instantized or tablet. Protesoy." "A blended combination of soya protein, casein, lactalbumin, and primary grown brewer's type yeast." "Low in cost: Powder–18 oz., $4.00; 2 lb., $7.00; 5 lb. 10 oz., $17.00, postpaid. Write for free literature."

1820. *Oakland Tribune.* 1961. Pendleton, real estate man, dies. March 5.
• ***Summary:*** "Harry Clay Pendleton, 87, Oakland builder and real estate developer, died Friday [March 3]." A resident of the Bay Area since the turn of the century, Mr. Pendleton was the first to send a telegram to the rest of the United States after the San Francisco earthquake and fire of 1906.

"A native of Georgia, he worked as a reporter in Little Rock, Arkansas, and later was regional advertising manager for the *Wall Street Journal.*

"After coming to California he wrote [in 1900] a history of the California Legislature and 'The Exempt Fire Department of San Francisco,' which described the colorful firemen of 1906.

"He was a prominent builder in San Francisco, Piedmont, and Oakland, president of the Oakland Builders Company and a real estate manager until his death.

"The Olympic Club of San Francisco and the Athenia Nile Club of Oakland were among those to which he belonged.

"He is survived by his daughter, Patricia Pendleton of Palm Springs, his son Harry Jr., a local businessman, and seven brothers.

"Services will be held at 2 p.m. tomorrow in the Piedmont Memorial Chapel, 4016 Howe St." [Oakland, California]

Note 1. 1900. Book by Harry C. Pendleton published. Title: "The Exempt firemen of San Francisco: their unique and gallant record." Published in San Francisco by Commercial Publishing Co. 269 pages. Illustrated. On cover: "History of San Francisco Fire Department, published by Harry C. Pendleton." As of April 2010, this book is owned by 15 California libraries. Note 2. This book was published six years before the San Francisco earthquake and fire of 1906. The fire firefighters were volunteers.

Note 3. 1961 March 3. California Death Record. Harry C Pendleton. Birth date: 6 Dec. 1873. Mother Maiden Name: Robinson. Birth Place: Georgia. Death Place: Alameda (60). Residence: Hayward. Death Date: 3 March 1961. SSN [Social Security Number]: 549-26-7849. Age: 87 years.

Note 4. The number "(60)" after the word "Alameda" has a meaning. All California counties are assigned a number to facilitate indexing. Alameda County is still No. 60.

Note 5. Patricia Pendleton Bragg was the adopted daughter of Paul Bragg.

1821. *San Francisco Examiner.* 1961. Pendleton rites in Oakland. March 5.
• ***Summary:*** "Funeral services for Harry Clay Pendleton, East Bay real estate developer and builder for 50 years, will be held at 2 p.m. tomorrow at Piedmont Memorial Chapel in Oakland.

"Mr. Pendleton, who was 87, died Friday [March 3] at Herrick Memorial Hospital [Berkeley, California] from

© Copyright Soyinfo Center 2021

injuries he received three months ago when a wooden beam fell on him.

A native of Atlanta, Georgia, he worked as a reporter before coming here in 1901. A correspondent for eastern newspapers, he was the first to file telegraph stories about the earthquake and fire of 1906.

"He was also the author of two books: one a history of the State Legislature in Colorado [California?] and the other about the volunteer firemen who battled the San Francisco fire.

"Mr. Pendleton was a member of the Olympic, Bohemian and Athenian Nile Clubs. He is survived by a son, Harry Jr., of Menlo Park, and a daughter, Patricia, a television actress in Hollywood."

Note 1. A similar obituary appeared in the *San Francisco Chronicle* (6 March 1961, p. 14). It adds: Mr. Pendleton lived at 3761 Harrison St., Oakland. He has a daughter, Patricia, of Palm Springs. "he funeral will be held at 2 p.m. tomorrow (Tuesday) at the John J. Cox Piedmont Memorial Chapel, 4016 Howe street, Oakland. Burial will be at the family plot in Decatur, Georgia.

Note 2. In Paul Bragg's Last Will and Testament (Jan. 1958) he stated that Patricia Pendleton was his adopted daughter.

1822. Woolman, Arthur E. 1961. The story of Bill Baker. Ojai, California. 2 p. Unpublished typescript. July 31.
• ***Summary:*** "Wilhelm Koch was sent to this country by his father when he was 12 years old to avoid military duty in Germany. As he grew older, he found that he had a flair for cooking and baking. He took up the profession and became one of the best, serving as chef in many famous hotels.

"During World War I, the United States government offered a prize of $500 to the cook or baker producing the best wheatless bread. Koch won the prize and used this money to legally change his name to William Cook Baker (Bill Baker). Note: This name may have been selected due to the anti-German sentiment present during the era.

"Resigning as chef of the Huntington Hotel in Pasadena, he came to Ventura in about 1917 and opened a bakery which he conducted until 1923. Lured by the beauty and charm of the Ojai Valley, he came to Ojai and established a bakery in the same location as one sees to-day.

"D. Sansum, a famous dietician of Santa Barbara, was searching for a baker who could produce a bread meeting very rigid qualifications. Bill Baker's soya bean and lima bean bread proved to be the answer. The popularity of this new bread grew and it was shipped to many parts of the United States, even as far as Honolulu.

"Bill Baker's creative mind was not satisfied to rest on his laurels. He began the creation of immense cakes for the birthdays of our presidents. Cakes were made and sent to President Calvin Coolidge, Herbert Hoover and Franklin D. Roosevelt. County fairs were likewise honored. But his greatest achievement was a giant exposition cake which weighed 1,000 pounds and was a year in the making.

"This cake was exhibited at the San Francisco World Exposition. It was made to the exact scale. The base of this three layer cake was octagonal. Five feet in diameter. Its prevailing colors were the national red, white and blue on a background of golden color symbolic of the California oranges and golden poppies.

"The decorative motif throughout was California: the crowning feature the replica of Treasure Island and the exposition buildings: the great bridge and San Francisco Bay: all developed to exact scale. In their order, with every detail accurately reproduced were 19 historic California missions. The cake was encased in a huge plate glass container and was on display at the Ojai bakery.

"The ingredients required to produce this cake were 100 pounds of sugar for icing, 60 pounds of butter, 50 dozen eggs, 15 gallons of honey, 2 gallons of molasses, 100 pounds of flour, 50 pounds each of citron, lemon peel, orange peel, chopped walnuts, pecans, 75 pounds of cherries, 30 pounds of figs, 200 pounds of raisins, 10 gallons of California wine, 5 pounds of mixed spices.

"William Cook Baker did much toward advertising the Ojai valley and after 20 years of unselfish service passed on to his reward in May 1942." Address: Ojai, California.

1823. Woolman, Arthur E. 1961. Notes on the life of Bill Baker. Ojai, California. 1 p. Unpublished typescript. July 31.
• ***Summary:*** Taken out of a 1934 Ojai directory: 1896-1923–Emil Gerstenmeyer, 457 East Ojai Ave. 1917–Bill Baker opened a bakery shop in the city of Ventura. 1934–Emil Gerstenmeyer, baker, proprietor, 382 N. Lion Street, Ojai.

"According to Harmon Vaughn, who worked for Bill Baker and later bought the business: 1923–Bill Baker bought the Ojai Bakery from Emil Gerstenmeyer. It was a small building setting back aways from the side walk. Mr. Baker built the present front of the building and another building alongside it, but leaving an alley between them. He had an iron archway between the two buildings.

1942–Bill Baker passed on.

1947–Helen and Harmon Vaughn bought the bakery and built onto the two buildings, doing way with the alley. The baking oven is the same one still in use, over 85 years.

19.. New owners are Ed Ramano. Address: Ojai, California.

1824. **Product Name:** Hoffman's Standard Hi-Proteen with Amisoy (Powder; More than 50% Protein).
Manufacturer's Name: Bob Hoffman–York Barbell Co.
Manufacturer's Address: York, Pennsylvania.
Date of Introduction: 1961 August.
Ingredients: Probably: Soy protein isolate, and dried milk solids [non-fat dry milk].
Wt/Vol., Packaging, Price: 1 lb. can.

How Stored: Shelf stable.
New Product–Documentation: Ad (full page, black and white) in *Let's Live* magazine. 1961. Aug. p. 31. "A Hoffman Hi-Proteen for every taste and purpose." A photo shows the front of the can. The text below the photo: "Few foods offer as much to your family's health. Of all Hoffman Hi-Proteens, the Standard is lowest in cost–yet it is an excellent product, one of the best... a rare nutritional bargain." "Bob Hoffman: World famous Olympic coach. A pioneer with special high protein foods... Sold in health food stores from coast to coast."

Note: In 1950 Dr. Sidney J. Circle was head of protein research for the Soya Products Division of The Glidden Co., Chicago, Illinois. He developed the world's first edible soy protein isolate product, which he called Amisoy until 1955.

1825. **Product Name:** Hoffman's Hi-Proteen: Formula 63 with Amisoy (Powder; More than 60% Protein).
Manufacturer's Name: Bob Hoffman–York Barbell Co.
Manufacturer's Address: York, Pennsylvania.
Date of Introduction: 1961 August.
Ingredients: Probably: Soy protein isolate, and dried milk solids [non-fat dry milk].
Wt/Vol., Packaging, Price: 1 lb. can.
How Stored: Shelf stable.
New Product–Documentation: Ad (full page, black and white) in *Let's Live* magazine. 1961. Aug. p. 31. "A Hoffman Hi-Proteen for every taste and purpose." A photo shows the front of the can. The text below the photo: "A good multi-purpose high-protein product designed to supply high-quality protein at moderate price. A scientific blend of five good proteins, it contains more Amisoy, 96.6% protein [i.e., soy protein isolate] than any other single element. Like other non-flavored Hi-Proteens, it can be used in hundreds of healthful recipes."

Note: In 1950 Dr. Sidney J. Circle was head of protein research for the Soya Products Division of The Glidden Co., Chicago, Illinois. He developed the world's first edible soy protein isolate product, which he called Amisoy until 1955.

1826. **Product Name:** Hoffman's Special Hi-Proteen (Powder; "Gain Weight." More than 70% Protein).
Manufacturer's Name: Bob Hoffman–York Barbell Co.
Manufacturer's Address: York, Pennsylvania.
Date of Introduction: 1961 August.
Ingredients: Probably: Soy protein isolate, and dried milk solids [non-fat dry milk].
Wt/Vol., Packaging, Price: 1 lb. can.
How Stored: Shelf stable.
New Product–Documentation: Ad (full page, black and white) in *Let's Live* magazine. 1961. Aug. p. 31. "A Hoffman Hi-Proteen for every taste and purpose." A photo shows the front of the can. The text below the photo: "Designed for those who want to gain weight. For those who want to be bigger, stronger, healthier, and heavier. Added muscular pounds of bodyweight will improve appearance and provide a reserve against sickness and physical emergency."

1827. **Product Name:** Hoffman's Super Hi-Proteen (Powder; More than 90% Protein).
Manufacturer's Name: Bob Hoffman–York Barbell Co.
Manufacturer's Address: York, Pennsylvania.
Date of Introduction: 1961 August.
Ingredients: Probably: Soy protein isolate, and dried milk solids [non-fat dry milk].
Wt/Vol., Packaging, Price: 1 lb. can.
How Stored: Shelf stable.
New Product–Documentation: Ad (full page, black and white) in *Let's Live* magazine. 1961. Aug. p. 31. "A Hoffman Hi-Proteen for every taste and purpose." A photo shows the front of the can. The text below the photo: "Want the best high-protein product on the market today? Well, this is just what you're looking for! It is a blend of superior proteins of higher biological value. It's a concentrated product, 96.6% protein. Two teaspoonfuls a day are plenty for the average user. We spared no expense to produce for you the best, really high-protein product which can be formulated."

1828. Lee, Royal. 1961. Calories–Nutritional and harmful types. *Let's Live* 29(8):10. Aug.
• ***Summary:*** Bleached flour is a "foodless calorie" product. "Synthetic imitations of natural foods are another great class of 'foodless calories.' The hydrogenated fats are in this category, as is synthetic dextrose... Hydrogenated fats promote an increase in cholesterol; natural unrefined vegetable oils promote a progressive reduction in blood cholesterol" (*Annual Review of Biochemistry,* 1956, p. 623). "In view of the total inadequacy of the pure food laws to protect us against these health-destroying, non-nutritious counterfeit foods, it is essential for everyone knowing the situation to act promptly to inform his fellows." Address: D.D.S., President, Lee Foundation of Nutritional Research, Milwaukee, Wisconsin.

1829. Lee, Royal. 1961. The acid-alkaline balance. *Let's Live* 29(8):50. Aug.
• ***Summary:*** This article is an answer to the question: "Is Alkalosis or acidosis a common disorder?" "Yes, according to tests reported in the Transactions of the American Therapeutic Society..." About one-third of all patients treated were normal, one third acid, and one third alkaline. A person's "acid-alkaline balance" may be as critical as their bank balance. Proprietary alkalizers [for those with acidosis] include Alka-Seltzer (Miles Labs.), Citrocarbonate (Upjohn), and Alkazane (Warner). Address: D.D.S., President, Lee Foundation of Nutritional Research, Milwaukee, Wisconsin.

1832. **Product Name:** Hoffman's Hi-Proteen (Powder) [Chocolate Malted, Carob Malted, Vanilla, Plain, Coconut, or Walnut].
Manufacturer's Name: York Barbell Co.
Manufacturer's Address: York, Pennsylvania.
Date of Introduction: 1961 August.
Ingredients: Soy protein [probably soy flour], and dried milk solids [non-fat dry milk].
Wt/Vol., Packaging, Price: 1 lb. can.
How Stored: Shelf stable.
Nutrition: ProtIngr
New Product–Documentation: Ad (full page, black and white) in *Let's Live* magazine. 1961. Aug. p. 31. "A Hoffman Hi-Proteen for every taste and purpose." A photo shows the front of the can. On the front panel: "The food of champions. A delicious, nutritious, health, energy and body building food." The text below the photo: "A good food in greatly concentrated form–for all the family. Tastes good, and is good for you. It's America's largest selling high protein food. Supplies high quality protein, natural minerals and vitamins which the body needs for building, maintenance, and repair. Comes in six flavors." "Bob Hoffman: World famous Olympic coach. A pioneer with special high protein foods... Sold in health food stores from coast to coast."

1833. Child, Julia; Bertholle, Louisette; Beck, Simone. 1961. Mastering the art of French cooking. New York, NY: Alfred A. Knopf. xv + 684 + xxiii p. Oct. 16. Illust. Index. 26 cm.
• ***Summary:*** The use of an electric blender shows the authors' innovativeness, flexibility and adaptability.

The following page numbers (in the Index under "Electric blender") are from the 1961 edition: In Volume I: For Shellfish butter, p. 104. For Soups, p. 37.

In Volume II. For Soups, p. 4. For Shellfish butter, p. 34.

However, the indexes do not reflect what is in the actual book! In volume 1 of the 1961 edition (reprinted 32 times), the "electric blender" is mentioned on the following pages: 4, 34, 81, 103-04, 191, 266, 559, 582, and 649. Address: 1. Cambridge, Massachusetts; 2-3. France.

1834. Clark, Linda A. 1961. Stay young longer: How to add years of enjoyment to your life. New York, NY: Devin-Adair Co. [xvi] + 364 p. Oct. Foreword by Adelle Davis. Preface by Beatrice Trum Hunter. 21 cm. [588* ref]
• ***Summary:*** This book is well researched and carefully documented. The author includes Clive M. McCay in her acknowledgments. Contents: Part I: How can you stay young? 2. How can correct nutrition help? 3. What makes you age? 4. How long will it take to slow down rapid aging? 5. What's wrong with us? 6. What's happened to our bread and cereal. 7. Is sugar harmful? 8. Are poisons making you old? 9. Is it safe to eat? 10. What else ages us? 11. How can you eat safely in a poisoned world? 12. What about vitamins? 13. What about minerals and enzymes? 14. What about fats and oils. 15. "Wonder" foods. 16. Are you a mirror of what you eat? 17. The great debate? 18. How can you eat for health and youth? a summary.

Part II: 19. How can exercise help? 20. Is there hope for sagging faces and figures? 21. How can you stay slim? 22. Are you proud of your skin, nails, and hair? 23. What about menopause, prostates, and male impotency? 24. How can you relieve stress?

Part III: 25. The art of loving. 26. The power of prayer. 27. The will to live.

Page 10: Most dog food is more nutritious than human food. A typical dog food contains soybean grits.

Page 12: The human body is replaced every year. Dr. Paul G. Aebersold of the Atomic Energy Commission, who has used radioactive tracers to study the body, states: "In a single year 98% of the old atoms will be replaced by new atoms which we take into our bodies from the air we breathe, the food we eat, and the water we drink."

Page 67: Home-sprouted soy beans are free from pesticide contaminants.

Page 139: Unsaturated fats are found in vegetable oils, including soybean oil.

Page 145-46. What raises our cholesterol level? One food that does is butter. When one-seventh of the ½ ounce of butter served at each meal was replaced by soy sterol (probably lecithin), the average cholesterol level of subjects dropped 11%.

Page 148: Tests by Dr. Lester Morrison (1958) found that "soy lecithin granules succeeded in lowering cholesterol and reversing atherosclerosis in thousands of his patients."

In the chapter on "Wonder foods" we read (p. 170): "Soy beans and products made from soy beans such as soy flakes, soy grits and soy flour, are rich in the only complete vegetable protein." In the same chapter, Dr. Clive M. McCay notes (p. 177) that many people "use soy milks. These soy milks are now very attractive to taste, They are also being sold in various modifications such as malted milk. With the growing interest in the consumption of unsaturated fatty acids which are rich in these soy milks, the future may see a real challenge to the dairy industry."

A long section titled "Meat-eating vs. vegetarianism"

© Copyright Soyinfo Center 2021

(p. 182-88) attempts to look at both sides of the issue from a nutritional viewpoint only. In "The case for the vegetarian" we read (p. 184): "A few nuts are complete protein. The soybean, a legume, is the only complete protein vegetable. In all other cases, some of the amino acids are missing. Because of the nature of the soybean, it is being recognized more and more, by vegetarians and others, for its high nutritional value. Other complete proteins include brewer's yeast, cottonseed, and cereal germs such as wheat germ."

Page 218-20: Beverages–Milk is also a problem since it may contain radioactive strontium 90, iodine 131, penicillin, wax, pesticides, etc. "Many nutritionists prefer raw certified milk." To offset the cost of raw milk, "powdered skim milk" can be used for cooking. Yogurt or kefir can be made from either kind of milk. "As a milk substitute, soy-bean milk (Lager 1955; Chen 1956), an oriental staple, has been suggested."

The section on healthy skin (p. 262) states: "Cold pressed soy oil, because it contains so many elements found to occur naturally in skin tissue, is excellent."

Note: While this is not a vegetarian book, it favors the use of a relatively small amount of flesh foods and other animal products. Address: M.A.

1835. Akin Distributors, Inc. 1961. America's health food distributors (Ad). *Natural Food and Farming* (*Atlanta, Texas*) 8(6):33. Nov.

• ***Summary:*** A half-page vertical ad with a small portrait photo of Gene at the top left. "El Molino is the most modern mill employing Buhr stones in the milling of 100% whole grain flour and cereals. Let me tell you about three of our more than 80 whole grain products."

(1) Stone ground whole wheat flour. (2) Carob powder–used in place of chocolate. (3) Ready bread mixes. Sold at health food stores everywhere. Write for catalog of 80 natural whole grain products. Address: El Molino Mills, 3060 West Valley Blvd., Alhambra, California.

1837. *New York Times.* 1961. Text of Kennedy speech at football dinner here. Dec. 6. p. 61. *

• ***Summary:*** President John F. Kennedy spoke about the poor physical condition of America's youth, reinforcing the argument made by the U.S. health foods movement. He announced that three out of every seven men drafted were being rejected as physically unfit. And an additional two out of seven were rejected for mental disabilities.

1838. **Product Name:** Velactin (Soy-Based Non-Dairy Infant Formula).
Manufacturer's Name: A. Wander Ltd. By 1967 made for Wander Pharmaceuticals by Promo Ltd. of Abergavenny, England.
Manufacturer's Address: England.
Date of Introduction: 1961.
Nutrition: Protein 21%, fat 18%, available carbohydrate 52%, ash 3%, moisture 5%.
New Product–Documentation: *The Vegan* magazine. 1961. Spring. "Wanderlac is soon to be changed to Velactin."

The British Vegetarian. 1963. March/April. p. 73. "New sources of protein in a hungry world." Velactin (A. Wander Ltd.) has already proved its worth in various clinical trials in America, Germany, and the UK.

The British Vegetarian. 1963. March/April. p. 89. "Stop press news." "The directors of A. Wander Ltd. have just generously offered to supply free of charge to the Vegetarian Nutritional Research Centre sufficient Velactin for a comprehensive study of the effect of using this vegetable milk as a sole dietary source of vitamin B-12 for vegans with B-12 deficiency."

Isabel James. 1964. *The British Vegetarian.* Jan/Feb. p. 39. "Domestic Science Bureau." "Velactin is now available from Health Food Stores, made by Messrs. A. Wander Ltd."

Orr and Adair. 1967. Tropical Products Institute Report G-31. "The production of protein foods and concentrates from oilseeds." p. 57, 71-72. Gives a description of the Promo Process, operated by Promo Ltd., Abergavenny, England, for producing a full-fat soya flour. "The Promo soya flour is made into a soya milk, marketed under the brand name of Velactin by the Wander company. The process used by Promo to make Velactin is a modification of that used to make full-fat soya flour in that dehulled soya beans are used and carbohydrates, groundnut oil, vitamins, minerals, and amino acids are added. Velactin is sold as a powder, to which water is added to make the beverage. A nutritional analysis is given (see above).

Leslie Cross. 1978. Alive. May. p. 6. "Free Plant Milk." Cross states (incorrectly) that Wander Pharmaceuticals made the first British plantmilk, Velactin.

1839. **Product Name:** Cheze-O-Soy with Tomato Sauce (Tofu Entree).
Manufacturer's Name: Madison Foods.
Manufacturer's Address: Madison College, Madison, Tennessee.
Date of Introduction: 1961.
Wt/Vol., Packaging, Price: Canned.

How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: An improved version of the tofu introduced in 1931.

1840. Deutsch, Ronald M. 1961. The nuts among the berries. New York, NY: Ballantine Books. 224 p. No index. 18 cm. 2nd ed., 1967 (320 p.). Revised 1977 as The new nuts among the berries. Palo Alto, CA: Bull Publ. Co. 359 p.
• ***Summary:*** The back cover states: "From Dr. Graham (inventor of the Graham cracker) to Dr. Jarvis, the best-selling author of 'Folk Medicine', this book tells the astonishing story of a hundred years of health foods and faddists. It names the promoters and the products. It cites the findings of the Food and Drug Administration. It quotes the warnings of the American Medical Association. It completely exposes the hokum and ballyhoo of the health food business–now bilking the public of $2,000 million ever year–and shows why crackpot food fads are a waste of money at best and a serious danger to the health of those suffering from real illnesses.

"'We are facing an organized dissemination of medical and nutritional quackery which takes the concentrated efforts of all of us to combat'–George Larrick, Commissioner Food and Drug Administration."

In fact, this book ridicules the very people whose ideas and lives it purports to discuss; it sarcastically paints them all as "nuts." Its goal is not understanding but a tacit–and not so thinly veiled–endorsement of the contemporary Big Food, meat and medical industries. We wonder if this book was initiated and funded by big businesses who will always oppose the growing interest in vegetarianism, etc. How could anyone describe Dr. John Harvey Kellogg as a "nut." Yet some real "health food nuts" are also discussed in this book too.

Contents: 1. Of cabbages and things (a brief history of "health-foodism"; "For example the Greeks Porphyry and Pythagoras maintained that meats are unnatural foods for men, and repugnant, while fruits and vegetables were the natural nutriment). 2. Mr. Graham bakes a cracker (Sylvester Graham, William Cowherd, the Bible Christians, William Metcalfe). 3. Little men, little women, little food (Louisa May Alcott, Amos Bronson Alcott, William A. Alcott, vegetarianism, and the American Vegetarian Society; Fruitlands, Sylvester Graham). 4. Father Kneipp and his watering can (very effective water cure in Germany). 5. Mother White casts her brood upon the waters (Ellen G. White and James Caleb Jackson). 6. Snap! Crackle! Enter Dr. Kellogg! (Dr. John Harvey Kellogg, founder of the Battle Creek Sanitarium). 7. The battle of Battle Creek (Michigan and Seventh-day Adventists). 8. From pillar to Postum (Charles W. Post, Dr. J.H. Kellogg, Ellen G. White, the evils of coffee, Postum Cereal Food Coffee). 9. Kickapoo and Kellogg, too. 10. The Jungle, the sausage, and the law (Upton Sinclair, Harvey W. Wiley, and the formation of the FDA). 11. Chew, chew, baby (Fletcher, Chittenden). 12. Life along the alimentary canal (Metchnikoff, Kellogg, Henry Ford). 13. The bare torso king (Bernarr Macfadden). 14. The bare torso king rampant (Macfadden). 15. I see America starving (Alfred W. McCann) 16. How to stop your cow from drooling (selling nutrition, Colonel Dinshah Pestanji Framji Ghadiali of Bombay, India, and Malaga, New Jersey). 17. A plague on both your Hausers (Gayelord Hauser, Benedict Lust). 18. How to write about health foods (Lelord Kordel, Cathryn Elwood). 19. Mrs. Spratt's millions (fat and dieting). 20. My mother squeaked (Dan Dale Alexander PhD and arthritis; Dr. D.C. Jarvis, *Folk Medicine*, honey and vinegar). 21. The poisons in your health food (how the public is being duped by health food hucksters; the American Medical Assoc. estimates this racket is now costing 10 million Americans over $500 million a year). 22. Postscript to a sad tale.

In the Introduction, page 9 notes that many health nuts and food faddists "are of the most respectable sort." "Among their number are best-selling authors such as Louisa May Alcott, Gayelord Benjamin Hauser, Upton Sinclair, D.C. Jarvis, and Elbert Hubbard. There are such distinguished scientists and innovators as Elie Metchnikoff, Dinshah Ghadiali (developer of Spectro-Chrome Therapy), Amos Bronson Alcott (the Seer of New England), and Dr. John Harvey Kellogg (inventor of cereal flakes, peanut butter, and the mechanical horse). There are famed industrialists, Henry Ford, Bernard Baruch, and John D. Rockefeller. There are entertainers, as Great Garbo and Robert Cummings, and religious leaders, as Sister [Ellen G.] White, founder of Seventh Day Adventism."

Colonel Dinshah Pestanji Framji Ghadiali was born in Bombay, India, in 1873, and came to the USA at the age of 38 (i.e. in about 1911). "His title derives from his position during the first world war as commander of the New York Police Reserve Air Service, a little-known organization which served little purpose. It was, however, an honorable civilian patriotic group... In 1920 Ghadiali brought forth one of the scientific wonders of our age–Spectro-Chrome Therapy." Based on a vegetarian diet (also free of alcohol, tobacco, coffee and tea), the system also made liberal use of colored lights. "By 1924 Ghadiali was so successful that he opened a Spectro-Chrome Institute on 50 acres at Malaga, New Jersey." In the early days Ghadiali earned more than $3.5 million from sales of memberships, equipment, and his course. He served a 5-year sentence in a federal penitentiary for a violation of the Mann Act by a book he wrote, "Railroading a Citizen," in which he accuses jealous doctors of trumping up charges against him. In the 1940s Colonel Ghadiali was prosecuted on the basis of his medical work. He was found guilty and sentenced to 3 years in jail–though his sentence was suspended–and he was fined $20,000. His work, however, still has devoted followers (p. 151-52).

The author acknowledges the help of the U.S. Food and

Drug Administration (FDA), Frederick Stare M.D., and the American Medical Association (AMA). Address: Popular scientific and medical reporter.

1841. Deutsch, Ronald M. 1961. Snap! Crackle! Enter Dr. Kellogg. The battle of Battle Creek. From pillar to postum (Document part). In: R.M. Deutsch. 1961. The Nuts Among the Berries: An Exposé of America's Food Fads. New York, NY: Ballantine Books. 224 p. See p. 43-45.
• ***Summary:*** This is a largely unsympathetic and satirical treatment of the health reform work of Dr. John Harvey Kellogg. Page 50 notes that "In 1879 he married Ella Eaton, of Alfred Center, New York. Within ten years, from the burgeoning sales of his books and the food products he was developing, he had earned enough money to build Ella a twenty-room Queen Anne mansion close to the [Battle Creek] Sanitarium grounds. It was a lavish residence..." Dr. Kellogg drew no salary from the Sanitarium.

"Ella Kellogg kept busy around the Sanitarium. There was not much for her to do around the house, for two reasons. First there were any number of servants. And second, there were no children; Dr. Kellogg had stated publicly that sex bred evil diseases in young men, and therefore he was determined to live without sex as a demonstration that it could be done. Whatever the real reason, John Harvey Kellogg and Ella occupied separate apartments in their home. They were always good friends, and later they adopted a total of forty-two children...

"We have seen Dr. Jackson's water-cure establishment offer the first cereal product in *Granula,* crumbled bits of baked wheat. Kellogg had come up with much the same thing. He called it *Granola.* He was sued and changed the name to *Granose."*

Charles W. Post, a Texan, went to Battle Creek to be cured. After 9 months at the San, Post gave up. He turned to studying the power of the mind, of mind over matter, Christian Science, and the like. Before long he got out of his wheelchair, declared that he was well, and went to work. Before he left the San, he offered to join forces with Dr. Kellogg in making breakfast cereals, but was rejected. In 1892 Post established La Vita Inn on 10 acres in Battle Creek; here the curative forces of both diet and mental healing were combined. Although meat was allowed, the other poisons were not.

Post cured people by telling them they were well–and wrote a book about it. He also wrote "The Road to Wellville," a pamphlet that he gave away. In 1895 Post started to make Postum Cereal Food Coffee–just add water and serve as a hot drink in place of coffee. He first sold it in paper bags from a handcart in Battle Creek. Then he began to advertise the product widely and his sales soared. Eventually his ads focused on the ability of Postum to prevent "coffee nerves." In 1898 he launched Grape Nuts, which he also sold as a health food. By 1901 Post had net income of a million dollars from his food business. "Imitators flocked to Battle Creek to stake their claims." Before long, it was a boom town. Address: Popular scientific and medical reporter.

1842. Dunlap, Jane. 1961. Exploring inner space: Personal experiences under LSD-25. New York, NY: Harcourt, Brace & World. 216 p.
• ***Summary:*** The real author of this book was Adelle Davis, the famous nutritionist, who wrote it under the pseudonym Jane Dunlap. Address: Los Angeles, California.

1843. Hunter, Beatrice Trum. 1961. The natural foods cookbook. New York, NY: Simon and Schuster, and Pyramid Books. xvi + 296 p. Index. 22 cm. Pyramid Books pocketbook ed. published in 1967.
• ***Summary:*** This very early and important natural foods cookbook contains more than 2,000 recipes. The Introduction is written by Dr. Clive M. McCay, Professor of Nutrition, Cornell University, New York, and Dr. Jeanette B. McCay, nutritionist. The pages numbers are those in the original 1961 hardcover edition. The author calls tofu "soy cheese" and uses it in many recipes, including mashed in a recipe for "soy cheese sherbet" (p. 204). This book is not vegetarian (some recipes call for beef, chicken, fish, etc.), but was quite influential in the early days of the U.S. natural foods movement.

Soy-related recipes include: Soy spreads (p. 14-15): Soy flour spread. Soybean spread (in blender). Soy cheese [tofu] spread. Soy butter (made from soy flour, regular or roasted, and oil). Smoothies (p. 26-29). Soybean-cheese salad (p. 35). Soybean-vegetable salad. Soybean molded salad. Soy butter dressing (with soy butter, p. 41). Soy cheese dressing. Eggless mayonnaise (with soy flour). Soybean soup (p. 49). Cream of soy soup (with soybeans in blender). Soy-vegetable soup (with soy milk in blender, p. 54). Soy noodles (with soy flour, p. 59). Green soybeans in pods (p. 70). Steamed green soybeans. Soy grits stuffing (for fowl, p. 127). Homemade soy cheese (also known as soybean curd or *tofu;* from soy milk or soy flour, p. 137).

Soybeans (p. 142-44): Basic soybean filler. Broiled soyburgers. Soybean ring (in blender). Baked soybean croquettes. Soybean casserole. Baked soybeans. Soybean-lentil loaf. Stewed soybeans. Soybean soufflé. Soybean squares. Roasted soybeans (dry-roasted). Leftover soybeans. Soy-oatmeal porridge (with soy grits, p. 162). Soy-cornmeal porridge. Soy sprouts (p. 163). Soy breads (p. 179-80): Kneaded soy-wholewheat bread. No-knead soy-wholewheat bread. Soy spoon bread. Unraised soy biscuits (p. 184). Soy-gluten popovers (p. 189). All-soy pancakes (p. 192). Soy waffles (p. 195). Soy cheese sherbet (with tofu, honey, vanilla, and nutmeg, p. 204). Soy cookies (p. 238). Flourless soy cookies. Soy-wholewheat cookies. Soy-cheese piecrust (with soy flour). Spiced soybean pie (with boiled, pureed soybeans, p. 250).

© Copyright Soyinfo Center 2021

The section titled "Smoothies" (p. 26-29) contains the following recipes (those followed by an asterisk {*} contain dairy products and no soy unless stated in recipe name; the directions for all recipes in this section is "Blend all ingredients"): Homemade soybean milk (from whole soybeans, or from soy flour). Spiced soy milk. Soy-fig shake (with soy milk). Milk-soy smoothie (with soy flour)*. Almond milk. Peanut milk. Cashew milk. Milk-wholewheat shake*. Orange-coconut milk*. Coconut milk. Milk fruit shrub*. Strawberry smoothie.* Apricot shake*. Anise milk*. Milk smoothie*. Fruit milk shake*. Banana smoothie*. Lemon egg nog*. Honey egg nog*. Carob milk*. Carob smoothie. The recipes followed by an asterisk contain 2-4 cups cow's milk and no soy. Note 1. This is the earliest document seen (July 2013) that mentions "smoothie" or "smoothies" in connection with soy. All of the 22 recipes in the category titled "Smoothies" contain some kind of milk (either cow's milk or milk made from a seed–soy milk, almond milk, peanut milk, cashew milk, coconut milk, anise milk). About half of the smoothies contain fruits or fruit juices (orange juice, fresh berries, strawberries). None of the smoothies contain ice cream, frozen yogurt, or any other frozen dessert or frozen food. Therefore a smoothie seems to be like a milk shake but without the ice cream.

The recipe for "Milk-Soy Smoothie" (p. 27) reads: 4 cups milk. ½ cup soy flour. 4 tablespoons molasses. 2 eggs, raw. ½ teaspoon pure vanilla extract. 3 tablespoons nutritional yeast. Blend all ingredients. Serves 4-6.

The section titled "Nut butters (p. 29-30) gives a recipe for homemade peanut butter with "Variations: Homemade nut butter may be made from raw almonds, filberts, pignolias, walnuts (English and black), cashews, Brazil nuts, etc. Most of these nuts have enough oil so that no extra oil need be added." On p. 30 is a recipe for "Homemade peanut-sunflower seed butter."

By the time of the 19th printing, in Jan. 1974, this book had sold over one million copies.

Note 2. This is the earliest document or book seen (Dec. 2001) after 1960 with the term "natural foods" in the title.

Note 3. An advertisement for this book appeared in the July 1965 issue of *Natural Food and Farming* (p. 40). Address: White Mountains, New Hampshire [by July 1965: Hillsboro, NH 03244].

1844. LaLanne, Jack. 1961. Foods for glamour. New York, NY: Prentice Hall, Inc. xii + 243 p. Index. 22 cm.
• ***Summary:*** Soy related items: Broiled potatoes brushed with soya oil (p. 106-07). Jack's brother Norman is treating his ulcer "with consideration and soy milk. Soy beans, of course, are one of the most versatile vegetables we have. From them we make auto steering wheels, paint and pharmaceuticals. As a food they're easy to take and easy to digest. They're doing wonders for my brother" (p. 122). Jacks bastes his Thanksgiving turkey with soya oil or safflower oil–instead of grease, and brushes his brussels sprouts with a "trickle of soy oil" (p. 132-33).

Jack is now living in Hollywood, has his own daily half-hour TV show (broadcast into most major cities of North America), and lectures across America. More than 25 years ago he opened his first conditioning studios in Oakland, California. He and Elaine Doyle were recently married. Jack believes that diet and exercise are the keys to glamour and vibrant good health. But Hollywood has taught him that real glamour comes from within, and radiates outward. When he asked his good friend Paul Bragg "Who is the most glorious woman you've ever known?' Bragg answered without hesitation, "Gloria Swanson"–"a beautiful mind in a beautiful body." LaLanne agreed. Gloria "eats only those foods that nourish health and beauty and shuns those that don't... She reads and meditates..." Other glamorous people? President Franklin Delano Roosevelt, actress Debbie Reynolds, actress Barbara Stanwyck, and statesman Winston Churchill–despite his large girth and evil-looking cigar (p. 20-24).

LaLanne retells the story of how he went from a sickly child to a healthy young man, inspired by Paul Bragg (p. 82-91). He considers fruit to be Nature's "beauty food" a natural alkalizer which can balance the acid influence of meat and eggs (p. 113). Address: Hollywood, California.

1845. Rodale, J.I. ed. 1961. The complete book of food and nutrition. Emmaus, Pennsylvania: Rodale Books. 1054 p. Index. 23 cm.
• ***Summary:*** J.I. Rodale recommends the consumption of natural meat and eggs. He discourages humans from consuming or using milk, chemicalized meats, added salt, sugar, chocolate, aluminium utensils, and heated or hydrogenated fats. Throughout this book, he uses scientific sources and cites them carefully.

Chapters 30-40 (p. 116-56) are a critique of cow's milk. Man has made the cow into a milk machine, with ever larger udders, which can produce 75 times as much milk per year as in Biblical times. For adults, milk may cause lactose intolerance, allergies and excessive tallness, and may contain undesirable antibiotics.

Chapter 40, titled "Nutritive substitutes for milk" (p. 154-55), mentions "soybean milk and Tahini milk which is a milk made from ground sesame seeds. Tahini milk appears to us to be an excellent substitute for milk in the diet because of its extremely high content of calcium" (p. 155).

Dr. Stefansson (p. 69-72) lived for one year in good health on meat alone. The discovery of cereal culture 2,000 years ago was the beginning of civilization and human degeneration. The human digestive tract has not had time to adjust to this change. It took humans 2 million years to adapt to the diet of the primitive human hunter (consisting mainly of proteins and animal fats) from the largely vegetarian diet of the anthropoids. "It is extremely difficult to plan a

© Copyright Soyinfo Center 2021

vegetarian diet in which the essential amino acids will all be represented in their proper proportion."

Chapter 127, "How to sprout beans" (p. 472-74), discusses mainly how to sprout soybeans, and their nutritional value. A table compares the vitamin and mineral content of soybean sprouts and mung bean sprouts; the former are much more nutritious.

Chapter 153, "Soybeans–The wonder food" (p. 536-41) has the following contents: Introduction. How nutritious are soybeans? ("Soybeans are one of the few non-animal proteins which are complete–that is, contain all of the essential amino acids in good proportion.") Sprouting beans for vitamin C. Soybeans are economical (says the best book on soybeans is *Soybeans for Health, Longevity and Economy*, by Philip S. Chen, Ph.D.). Soybean milk for infants. "Soybeans are richer in potassium than any other food except brewer's yeast which, of course, is eaten in much smaller quantities. They contain more pantothenic acid than any other food except egg yolk, brewer's yeast, liver, rice bran, and wheat bran. The iron in soybeans is 96 per cent 'available'–that is, digestible and used by the body." Chapter 154, "Soya milk and soya curds" (p. 541-42), by Dr. W. Kring, of Dusseldorf discusses: Use of soybeans in East Asia. Fresh soya milk for every household. Acidophilus soya milk–Soya curds. Making soya cheese or tofu [at home].

Note 1. This is the earliest English-language document seen (April 2013) that uses the term "soya curds" in connection with tofu.

Note 2. This is the earliest English-language document seen (Sept. 2012) that contains the term "Acidophilus soya milk" (or "Acidophilus soymilk") regardless of capitalization, hyphenation, or spaces.

Note 3. This is the earliest document seen (Dec. 2020) that uses the term "lactose intolerance" in connection with soy.

Chapter 178, "Eggs, meat and soybeans" (p. 675-77) gives a nutritional comparison of these three high-protein foods. One section titled "Meat substitutes" begins: "Soybeans should be a part of your diet as a substitute for meat." It continues: "Even though you include plenty of meat in your diet, make use of soybean protein, too. If your family does not know soybeans, get some and begin to introduce them to a wonder food."

Chapter 169, "Are chemical fertilizers harming our food" (p. 618-24) is part of a statement made by J.I. Rodale on December 15, 1950, to a Congressional Committee formed to investigate chemical fertilizers. He argues that the organic method is "far superior to the present general practice with respect to fertilizer usage, not only from the human health standpoint but from the point of view of preventing soil erosion and giving higher yields at a lower cost." Also discusses: History of the organic method. What is the organic method? What is a chemical fertilizer? The health aspect (experiments showing a much higher survival rate in mice fed organically grown food). More vitamins in "organic" food. Physicians praise the organic method. Rejection by our government (and request that agricultural experiment stations test and compare the two methods).

Chapter 173 titled "Investigating Primitive Diet" (p. 642-54) contains a detailed summary of the work of Weston A. Price. D.D.S., as described in his book *Nutrition and Physical Degeneration.* This book is available from the Lee Foundation for Nutritional Research, 2023 W. Wisconsin Ave., Milwaukee, Wisconsin.

Chapter 182, titled "When you use fats and oils" (p. 682-83) discusses margarine, which is made from vegetable fats which have been hydrogenated. Soybean oil is one of the oils use to make margarine. "As you know, we do not recommend using margarine, mostly because of the many chemical substances used in it, of which the synthetic vitamin A is only one. Artificial coloring, preservatives and so forth are also used. But, in addition, hydrogenating the oils to make them solid destroys most of the essential fatty acids which are the chief reason for eating vegetable oil. So margarine is no better than butter as a spread, in spite of the fact that it is made from substances that do not contain cholesterol." "Soybean oil is another popular vegetable oil." Rodale especially recommends "our old friend, sunflower seed oil"–which is rich in vitamin E and linoleic acid.

Chapter 183 titled "Heated fats can cause cancer" (p. 686-90) summarizes several scientific studies and notes that "Hydrogenated fats are everywhere" in our food supply. "Finally, don't buy hydrogenated shortenings (the solid kind)..."

Chapter 198 titled "Who pays for nutrition research?" (p. 741+) begins: "'Dr. Stare's Nutrition Department (at Harvard University, Massachusetts) received from Food Industries and Foundations representative of their interests between and including the fiscal year 1950 to 1956 gifts totaling approximately $378,000, half of which was from the Sugar Research Foundation, supported by the sugar interests, and the Nutrition Foundation, supported largely by commercial food processors. A large portion of the other half was from the chemical and drug interests.

"This challenging statement sets the tone for a series of open letters from the Boston Nutrition Society, Incorporated, to Dr. Nathan M. Pusey, President of Harvard University. We think readers will find in these letters the answer to their puzzled query Ä 'Why?' Why must we eat doctored up, chemicalized, refined, cheapened food and above all, why must some of our top food scientists, men like Dr. Stare of Harvard, call everyone a faddist and a crackpot who points out that the modern American food is not everything it should be?

"The open letters hit at the very heart of the problem. Much university research on nutrition is being financed by the very folks who profit from selling this worthless food."

Chapter 199, "A British nutritionist takes stock,"

© Copyright Soyinfo Center 2021

summarizes an article titled "Food and Health," by Dr. H.M. Sinclair (*British Medical Journal*, 14 Dec. 1957) about the dangers of feeding too much cow's milk to infants and children. Another article on the same subject by Dr. Milton J.E. Senn, was published in *McCall's* (Jan. 1958). Chapter 272 is "Kelp for trace minerals" (p. 1005-09) and Chapter 273 is "The value of seaweed nutrition" (p. 1010-12).

Chapter 274 is "Do you need lecithin?" (p. 1013-17; Contents: Introduction. How can you avoid cholesterol deposits? Lecithin and cholesterol in natural foods. Experiments with lecithin prove its healthfulness. Why do we not get enough lecithin? Take lecithin as a food supplement {it is made chiefly from soybeans}).

Chapter 275 is "Why do you need lecithin?" (p. 1018-1021); Contents: Introduction. The what and how of lecithin. Processing at fault. Where can you get lecithin in your diet? (seeds and cold-pressed oils). Hydrogenation (which destroys all the lecithin, B vitamins, vitamin E, and essential fatty acids).

Chapter 39, "Miscellany on milk" (p. 146-54), documents many problems with cow's milk. Its contents: Introduction, detergents in milk, antibiotics in milk, some infants can't take milk at all, is milk the universal antidote?, an all-milk diet is hazardous, ulcer patients beware!, cavities caused by milk, DDT contamination, misuse of calcium, radioactive substances in milk, milk as a cause of goiter, a famous nutritionist speaks (Dr. Norman Jolliffe), milk's value questioned (by McCance and Widdowson), allergies to milk sugar, dermatologist criticizes both bread and milk, and an old (1926) court decision on raw milk. Chapter 41: "Yogurt" (p. 156+). "Yogurt is probably the most popular of all so-called health foods". In the 19th century, Metchnikoff was the first to investigate it scientifically.

Chapter 96: "Sesame seed–An ancient and nutritious food" (p. 342-44; Tahini milk makes a good milk substitute). Address: Emmaus, Pennsylvania.

1846. Rodale, J.I. ed. 1961. History of coffee and problems with its consumption. In: J.I. Rodale, ed. 1961. The Complete Book of Food and Nutrition. Emmaus, Pennsylvania: Rodale Books. 1054 p. See p. 5-17.
• ***Summary:*** Chapter 1 is "History of Coffee" (p. 5-8). Contents: Introduction. Coffee discovered. Processing the coffee bean. What coffee contains. How to make coffee (never boil it; use drip or vacuum pots). Statistics on coffee consumption. The earliest mention of coffee that can be found in the literature was about 99 A.D., when an Arab physician discoursed on it. The berries were first used as food, ground finely and mixed with fat. Coffee was introduced to Europe in about 1650 and to America in 1668. As early as 1746 a learned Italian writer noted that coffee was detrimental to good health. Similar criticisms started in the USA in the 1800s. "Coffee is the American beverage, just as tea is the national beverage of England." In the USA eight out of ten adults drink coffee daily and one out of four children drink it daily. An estimated 25% of all American coffee drinkers consume 5 or more cups per day.

Note: According to James Trager's *Food Chronology* (1995, p. 109, 142): In 1600, smugglers broke the Arabian monopoly on coffee growing. They took seven seeds of unroasted coffee beans from the Arabian port of Mocha [also spelled Mokha or Al Mukha, as of 1998 a seaport in southwest Yemen] to the western ghats of southern India. In 1690 Dutch mariners smuggled coffee plants out of the Arab port of Mocha. They planted some in Java, their colony, and sent others to the botanical gardens at Amsterdam.

Chapter 2 is "Abundant evidence against coffee" (p. 9-16). Contents: Introduction. Dr. William Alexander [sic. Andrus] Alcott's contributions (1844). An established fact–coffee is a poison. Habitual coffee drinking and stomach ulcers. Digestive juices stimulated. Coffee, heart disorders and blood pressure. Does a tired body need stimulation or rest? How effective is the coffee break? Coffee tars and cancer. Should pregnant women and nursing mothers drink coffee? Does coffee affect brain and nerve tissue?

Chapter 3 is "Coffee and blood sugar." Address: Emmaus, Pennsylvania.

1847. Seranne, Ann; Gaden, Eileen. 1961. The blender cookbook. Garden City, NY: Doubleday & Co., Inc. 288 p. Illust. (photos by the authors). Index. 22 cm.
• ***Summary:*** The Introduction begins: "In the past few years, new techniques have been developed which make an electric blender a necessary part of every modern kitchen."

The 12 chapters include: Soups. Cheese and egg dishes. Vegetables. Savory Sauces. Preserves. Hot breads. Desserts and dessert sauces. Beverages (including Mocha smoothie, with 1½ cups milk and instant coffee, p. 266; Orange-pineapple smoothie, with 1 cup orange juice and 1 scoop vanilla ice cream, p. 267; Pineapple-banana smoothie, with 1½ cups pineapple juice, ½ cup dry milk solids, and 1 ripe banana, p. 267).

The author, Anne Seranne (= Margaret Ruth Smith) was born in 1914.

1848. Grand Rapids Press. 1962. 'Meat' for vegetarians. He lost his job, but made a success manufacturing. *Wonderland: The West Michigan Magazine.* Jan. 21.
• ***Summary:*** "Cedar Lake's Vep Sias faced a dilemma in 1949. The work he had been doing suddenly was discontinued when the Cedar Lake Academy-operated food processing plant closed its doors. He had purchased a new home shortly before; he had a family to support; and he did not want to leave that Montcalm County village. He faced the possibility of losing his new home unless he found other work in the area–a slim prospect.

"Sias made a decision then that he has never regretted. He purchased the food manufacturing rights from the

© Copyright Soyinfo Center 2021

academy, a Seventh Day Adventist high school, and started a business in the basement of his home that had proved unprofitable to its former owners. His wife, Ruth, whom he had met at the academy when both were students there, worked at his side, and thus was born Cedar Lake Foods, manufacturers of high protein meat substitutes.

"As a small operation, Cedar Lake Foods caught on. There was a sizable demand for meatless chops, meatless burgers and other meat substitute products from persons under doctors' orders not to use any form of animal proteins, from vegetarians, from some religious groups and from persons who simply wanted to replace meat in their diet without sacrificing the meat flavor they liked.

"By 1959, Sias found he had to expand and so brought his business out of his basement and into a newly-constructed plant. He plans another expansion program this year for more equipment and more storage space.

"Four persons are kept busy putting up frankfurters, chops and burgers without a trace of meat. They are made by combining the proteins of wheat and soya and certain spices into a palatable food simulating meat in flavor and texture. The products are called vegetarian chops, vegeburgers and the like.

"In connection with the manufacturing end, Sias also opened a retail unit in his plant where he stocks on his shelves his products as well as similar competitive products. 'I try to keep a complete vegetarian line, even including foods of my competitors, because this type of food isn't available in every store, and there are people who aren't always satisfied with one product or one man's work,' he said. His retail operation is but a small portion of his business. The bulk of his stock goes to distributing houses in the states of Washington and Florida, and Washington, D.C.

You would think that Vep and Ruth Sias, who make nothing but vegetarian foods, and their five children would be strict vegetarians.

"'No,' says Sias. 'We eat a good deal of our vegetable foods, but we like meat, also. However, if the children have a choice they pick vegetarian chops every time over meat. The chops are as tasty as meat but they are not as tough and are easier to chew.'"

Photos show: (1) Vep Sias, his wife Ruth, and their son Bobbie. (2) Vep Sias checks his stock on shelves of the retail unit at his food factory. He handles only vegetarian and health foods, all meatless, and stocks his competitors' products as well as his own. Address: Michigan.

1849. Balanced Foods, Inc. 1962. On the business of selling quality (Ad). *Natural Food and Farming* (*Atlanta, Texas*) 8(9):31. Feb.
• ***Summary:*** A full-page ad. "As major wholesale distributors of natural organic and health foods, we are proud that our 'shingle' is synonymous with quality." Address: 700 Broadway, New York 3, NY. Phone: ORegon 4-2740.

1850. **Product Name:** Infa-Soy (Soymilk Infant Formula).
Manufacturer's Name: Madison Foods.
Manufacturer's Address: Madison College, Madison, Tennessee.
Date of Introduction: 1962 March.
New Product–Documentation: Letter from Sam Yoshimura. 1981. Feb. 20. "At the beginning of 1962, production of Infa-Soy, using Dr. Harry Miller's formula, was started under the direction of his son, Willis Miller." The key to the formula was the addition of a little cooked rice (or the water therefrom; a small amount of rice was cooked in excess water for 10-15 minutes), which was effective in preventing loose stools in infants.

Soybean Blue Book. 1965. p. 115. The company is now called Nutrition International Corp. and Infa-Soy is described as a "hypoallergenic baby formula."

1851. Rancho La Puerta. 1962. Relax! Have fun! Slim down! In old Mexico (Ad). *Natural Food and Farming* (*Atlanta, Texas*) 8(10):40. March.
• ***Summary:*** "America's most popular health resort. Modeled after great European spas. 1000 glorious acres. Riding, biking, swimming. All outdoor sports–Plus supervised reducing, exercise curriculum, organic diet, famous Grape Cure! From $8 per day per person. Including all meals. For photographs and illustrated literature write..." Address: Tecate, Mexico 2953.

1852. *Natural Food and Farming* (*Atlanta, Texas*). 1962. Scanning the news: FDA ban on diethyl stilbestrol challenged. 8(11):20. April.
• ***Summary:*** "FDA has formally banned the use of diethyl stilbestrol implants in poultry. Under the voluntary agreement consummated in 1959, poultry growers have refrained from using stilbestrol implants. During the intervening two years, stilbestrol producers, through regular administration procedures, have challenged the Food and Drug Administration's authority to ban the compound. During the week of December 18, Deputy FDA Commissioner John L Harvey issued a final order revoking all licenses to use stilbestrol in poultry. Appeals from this action can be filed in the circuit court. This is a ban of *implants* and does not affect the use of stilbestrol in feed. FDA's freeze on *new* application to use this compound in feed does not affect established producers."

1853. W.R. Laboratories. 1962. The Champion Juicer (Ad). *Natural Food and Farming* (*Atlanta, Texas*) 8(11):3. April.
• ***Summary:*** This full-page ad shows a photo of the patented Champion Juicer surrounded by vegetables. The F.O.B. factory price is only 149.95 including a five-year guarantee.

Note: This is the earliest document seen (July 2021) that mentions the Champion Juicer–although it may have existed

© Copyright Soyinfo Center 2021

as early as the 1940s. Address: Factory Distributor, 639 E. Lockford St., Lodi, California.

1854. *Los Angeles Times.* 1962. Sunday [TV program schedule]. May 20. p. B6.
• ***Summary:*** Evening: 9:30 p.m. Channel 13. "'Shangri-La Today.' Hosts Larry Moore, Ava Maloney & Top Stars! Sponsored by Foods for Life."

Note: Shangri-La may refer to the former princely state of Hunza in the far north of today's Pakistan. In 1962 a book titled *Hunza, the Himalayan Shangri-la,* by Renée Taylor and Mulford J. Nobbs was published. The people living in the Hunza Valley were known for their good health, natural farming methods, natural foods, and long life.

1855. *Guardian* (*Manchester*). 1962. Milk made from vegetables may be on sale soon. Aug. 27. p. 2, col. 3.
• ***Summary:*** "Milk made from outer cabbage leaves, pea pods, and other greenstuffs may soon be on sale as a result of experiments by scientists working in the Vegetarian Nutritional Research Centre, Garston, Watford." Dr. Frank Wokes, director of the research center, believes that there will never be enough cow's milk to supply all the world's children or to meet all the protein deficiencies. Before the end of this year, the Centre hopes to open a pilot plant for the process; large scale production would start later.

Related experiments have been made since before World War I, and "a plantmilk, made from cereals and pulses, has been on sale for some years."

1856. What ever happened to the first "Lenna F. Cooper Memorial Lecture"? An unusual story. 1962. Compiled by William Shurtleff of Soyinfo Center.
• ***Summary:*** The first "Lenna F. Cooper Memorial Lecture" was presented by Mary I. Barber on Oct. 8, 1962 at the 45 Annual Meeting of the American Dietetic Association in Miami Beach, Florida. The title was: "Lenna Frances Cooper–Her Vision and Accomplishments in Dietetics." The original text is as follows:

"Madame President, Colleagues and Former Students of Lenna Frances Cooper; fellow Members of ADA.

"It is an honor to have been chosen to give a tribute to Miss Cooper. Because I am not a scientist this talk will endeavor to picture the woman who has influenced all of us in the Dietetic Field. She was steadfast, gentle and honorable–all characteristics that make up a balanced person. The memory of her will be kept alive through a yearly lecture made possible by her friends and it is hoped that at each convention our members will be inspired to do their work with the thoroughness shown by the founder of the Association.

"This is the first Lenna Frances Cooper Memorial Lecture so it is fitting to remind the friends who knew and respected her, and to tell those of you who did not know her personally, about her background, training and her conspicuous influence on our profession.

"Miss Cooper had a long and dedicated life from February 25, 1875 to February 23, 1961. She was a pioneer in the dietetic field. This pioneering spirit was natural because she came from pioneer stock. Her ancestors had braved the ocean with Lord Baltimore (George Calvert, Baron Baltimore) whose death date is listed as 1632. He founded the state of Maryland but the Coopers went to Virginia where they were among the early settlers. From Virginia the Coopers went to the Carolinas from which locale later generations moved to the young state of Illinois to become pioneers at Springfield, the home of Abraham Lincoln. The trek further west was a natural step.

"The trip from Illinois to Kansas was made in a covered wagon. In their homestead the family experienced all the vicissitudes of the time–Indian raids, when the farmers scurried to the nearest town for protection, hail storms that beat down the crops, 'grasshopper' years that brought complete devastation and cyclones, as a matter of course.

"Miss Cooper recalled riding, as a child, to town in a wagon equipped with a 'spring' seat, a mark of some distinction in those times. She said, when talking about her early years, 'The vision of the return at sundown with the tall prairie grass waving like a sea of green is one that I shall never forget'. Until little Lenna was nine years old, she attended country school. Then the family moved to town and she had grade schooling in Nickerson and high school training Hutchinson, Kansas. The family was not in affluence so after graduation from high school, Lenna took a job as a teacher for two years until she had earned money to continue her education. She personally paid for all future education by working then studying and carrying all her own expenses.

"Lenna's brother, a doctor, had affiliated with the Battle Creek Sanitarium so after her country school teaching, she joined him in Battle Creek; Michigan. Here she enrolled in the nurses course where she could earn as she learned. The director of the Sanitarium (at this time under the auspices of the Seventh Day Adventists) was Dr. John Harvey Kellogg. It is necessary to be detailed about the Sanitarium so that you will understand Miss Cooper's early professional years. Most of you have heard about Dr. Kellogg's biological eating program but, if not, you should read the book 'Nuts Among the Berries' by Ronald M. Deutsch [who portrays Dr. Kellogg as a "nut"]. This will give you an idea of the narrow scope of the doctor's food and health theories. He attacked meat eaters, coffee drinkers, pepper and tobacco users. Cheese, other than pasteurized cottage cheese, was taboo. He believed that high protein diet was causing rheumatism and ulcers. In 1893, concerned about the fact that some of his patients with bad teeth were being deprived of the 'noble nut', he crushed peanuts and the result was peanut butter. It was some time before this ceased to be a health food and was accepted by homemakers as a handy, non-medical cupboard

© Copyright Soyinfo Center 2021

item. Many mothers should bless Dr. Kellogg today for the filling that goes into thousands of sandwiches eaten daily for lunches and snacks.

"The good doctor felt that a luxurious bill of fare might be composed of bananas, figs, dates and nuts. Ice cream was unwholesome because it was too cold. Hot food was bad because it caused cancer. So the Sanitarium started serving food lukewarm. Little white flour was used and if used at all, bran was included to take the curse off.

"The doctor's wife, Ella Eaton Kellogg, aided him in many Ways. She even wrote two or three books on housekeeping and training help in an Institution. To this day the silver shines and the table linen is white as snow at the Battle Creek Health Center as it is now called. Mrs. Kellogg encouraged the young nurse, Lenna, to go to Philadelphia [Pennsylvania] to take the two-year course in cookery offered by Drexel Institute. Upon her return she was given the title of chief dietitian at the Sanitarium. How many of you would have enjoyed planning meals with the many restrictions on the foods allowed to be served to the patients and staff? Miss Cooper resolved that the ones permitted should be cooked, seasoned (without pepper, of course), and garnished to perfection. A dinner menu given in Miss Cooper's book 'How To Cut Food Costs', written in 1917, was Baked Lima Beans, Buttered Beets, Banana and Apricot Salad, and Plain Rice Pudding.

"Meat substitutes, made from nuts, wheat germ, etc., were shaped to look like steaks, cutlets, even frankfurters and hamburgers. Individual turkeys were modelled for Thanksgiving and Christmas. At these festivities a live bird as displayed in a cage with the caption 'A Thankful Turkey'. Cream soups were smooth as silk and always garnished attractively. The vegetables were not over-cooked and all raw greens were given a chlorine bath. The salads were works of art with never a wilted piece of lettuce or watercress. Vinegar was frowned upon, but lemon juice was used liberally. The food was not stimulating (except for the intestines) with herb tea and coffee substitutes as beverages. Instead of cocktails an acidophilus bar was set up in the really beautiful palm garden. So everything possible was done to make the patients feel satisfied–and the rebellious ones could sneak down town for a steak and a cup of coffee. At one time there as an intestinal epidemic and all the guilty ones felt that it was due to their having gone out on the town. The fire station across the street from the Sanitarium became a smoking club and the complaints of the patients were deadened by its walls. It was exciting to watch the firemen slide down the pole and dash off in old No. 5 when an alarm sounded!

"In the evening there was pleasant music by a small orchestra (the ladies in evening dress) and after the frugal dinner there was the Grand March in which all ambulatory patients were required to take part. This was performed to spirited piano playing with an enthusiastic, rather than talented, woman at the keyboard. This was the high spot of the day!

"So much for the narrow range of the chief dietitian and her loyal staff. Every patient had personal conferences with one of the dietitians who listened carefully to symptoms and real or imagined discomforts. But there were compensations in the contacts with the many famous persons who sought health at the Sanitarium. Some of them were Eddie Cantor, Johnny Weissmuller, Amelia Earhart, Henry Ford, Roald Amundsen, Admiral Byrd and Richard Halliburton. Even Joel Cheek, who built Maxwell House Coffee, came to drink coffee substitutes. Sir Wilfred and Lady Grenfell [medical missionaries to Newfoundland] became so interested in the calibre of the dietitians that they induced three of them, Helen Mitchell, Margery and Catherine Vaughn to spend time in New Foundland [Newfoundland] carrying on a nutrition project with the inhabitants. These young women had first-hand experience with malnutrition. including scurvy and beri-beri.

"Quoting from 'Nuts Among the Berries'–'The Sanitarium welcomed tycoons from John D. Rockefeller to Mrs. Knox, whose gelatin had built a small empire (it was not used at the Sanitarium because of its animal origin); Mr. Fress, Mr. Kresge, Mr. Gerber, of the baby food business; Senator Robert LaFollette, Senator Capper; Percy Grainger and Glenn Curtiss. The San even was popular with honeymooners–a jug of acidophilus milk, a loaf of Graham bread and thou, beside me in the electric bath" (Continued).

1857. *Battle Creek Enquirer* (*Michigan*). 1962. Pioneer eulogized in memorial lecture. Oct. 26. p. 8. Friday.
• ***Summary:*** "Battle Creek's historic position in the field of good nutrition and health foods came to the fore Thursday when 150 dietitians and health authorities met for the one day meeting of the Michigan Dietetic Association held at the American Legion Hospital."

"Noted figures in the fields of nutrition featured the morning and afternoon panel discussions, and one of the principal highlights of the day's activities was the Lenna Frances Cooper Memorial Lecture delivered by Miss Mary I. Barber at the luncheon. Miss Barber, author of an extensive list of nutrition articles and World War II food consultant for the U.S. Army, had originally read the memorial lecture at the American Dietetic Association convention several weeks ago at Miami Beach, Florida.

"Pioneer in Field: The late Miss Cooper, a pioneer in the field of dietetics, became a nationally known authority in the field and held many high posts, including supervising dietitian for the U.S. Army during World War I. Her career began at the Battle Creek Sanitarium, which she served as its first trained dietitian following training as a nurse. She later studied home economics at Drexel Institute and was head of the Sanitarium's Home Economics School on her return. She became dean in 1916 and remained in this post after the school was merged into the old Battle Creek College.

© Copyright Soyinfo Center 2021

"In 1927, Miss Cooper became food director at the University of Michigan and in 1930 moved to Montefiore Hospital in New York City where she was chief in the nutrition department for 18 years. She left New York in 1948 to become visiting professor at the University of Mississippi and returned to Battle Creek in 1952 to join her brother, the late Dr. John E. Cooper. In 1954 she returned to the site of her early teachings, the Battle Creek Sanitarium, and was again head dietitian. She was the author of several books and some of her work was in collaboration with Miss Edith M. Barber, a Battle Creek native whose syndicated column appears in the *Enquirer and News* [1959-1983, Battle Creek]. Miss Henderika Rybergen of New York City, and Dr. Helen S. Mitchell, formerly on the staff of BCC [Battle Creek College].

"Miss Cooper presided at the organization meeting of the American Dietetic Association at Cleveland, Ohio, on Oct. 18, 1917. She served as its first vice president and its 14th president. In 1951 she was presented the association's highest honor, the Marjorie Hulsizer Copher Award, in recognition of being the first to propose its formation. The Michigan association was organized in 1929 and Miss Cooper became its first president, and attended meetings until the year before her death in 1961.

"Tribute by Dr. Bluestone: A tribute paid to Miss Cooper by Dr. E.M. Bluestone, formerly of Montefiore Hospital, bears out the feelings of all those who knew her: 'It remains for us only to recall gratefully the attributes of nobility that Miss Cooper bequeathed to us all. When the younger generation of dietitians rises up and calls her blessed it is because they benefitted from the fruits of her mind and hands. She was loved because her associates not only learned from her but because she had humility, gentleness, and poise, and a very personal understanding of their needs at all times. She was the eternal friend to whom they could turn when they were troubled in heart or soul. She was lavish in her gifts and she responded to every call. Her memory is a benediction to us all.'"

The rest of the meeting is discussed in detail, much as it was in an article titled "Miss Barber to Give Memorial Lecture" in the Sept. 23, 1962 edition of this newspaper.

A small portrait photo shows Lenna F. Cooper in her later years.

A large photo shows four "prominent women nutritionists" who attended "the all-day meeting of the Michigan Dietetic Association Thursday at the American Legion Hospital." They are, left to right, "Dr. Lillian H, Meyer, head of the Department of Chemistry at Western Michigan University, Miss. M. Elizabeth Vaughn, president of the MDA, Miss Mary I. Barber, local resident, who is a former president of the American Dietetic Association, and Miss Virginia Kopec, acting director of the Dietary Dept. at Henry Ford Hospital, Detroit, who is the new president of the state group."

1861. *British Vegetarian.* 1963. Society reports: Fruitarian discussion group. Jan/Feb. p. 22-23.
• ***Summary:*** On 5 Nov. 1962 Dr. Franklin spoke on "Plant Milk and Protein." He first discussed the changes taking place in scientific views on the amount of protein required by a healthy body. Then he said that "the transition from the animal protein of dairy products to the less concentrated plant protein of leaves (plus about 10% soya milk) comprising plant milk, must be made slowly. Samples of the milk were tested and found very pleasantly sweet and smooth to the palate."

Dr. Franklin said that preparations for large-scale factory production were well in hand. Supplies for Health Food Stores and for export to undernourished peoples were expected in 3 to 4 months.

grinding mill and saw a color movie being shown to students on a tour of the plant. Fredericks will prepare a documentary half-hour program for radio about his trip through El Molino Mills."

1863. Kyd, George H. 1963. Edible soy-protein fibers promise new family of foods. *Food Processing* (*Chicago*) 24(5):122-26, 138. May.
• ***Summary:*** "Products amazingly like meat such as the ham-like product shown below and the chicken-style products shown on page 124 can be fabricated from protein fibers shown opposite" (in a full-page photo), magnified slightly more than two times. Ralston Purina now makes "Textured Edi Pro," an edible spun soy protein fiber made from "an isolated edible soy protein that is almost pure protein. It contains no fat."

Page 124 has the heading: "Is the web of spun soy-protein fibers first of the modern superfoods? Meat-like production. These Textured Edi Pro foods–already on the market–look, taste, and chew amazingly like the meat item they so closely resemble, yet they may have a fat content as low as a fraction of one per cent, and a protein content of almost any level desired." Photos show packages and labels of Chicken Style Roll (Minute Entrees, refrigerated roll), Worthington Soyameat Fried-Chicken Style (canned), Worthington Sliced Whitemeat Style (Frozen Minute Entrees). Shown without a package or label are is a ham-shaped, ham-like product [Wham].

Page 126 states: "Tons of the textured product [Textured Edi Pro] each week go into the following products made by Worthington Foods: canned 'Soyameat': refrigerated Chicken-Style Roll; frozen fried-chicken style Minute Entree; and frozen chicken whitemeat style Minute Entree. These products resemble chicken meat in taste and texture. They are new but already fast-selling products, distributed largely through health food stores."

"The edible soy protein work is being carried on under the direction of Dr. H.L. Wilcke, Purina Research Vice President, and D.B. Walker, Vice President in charge of the Soybean Division. Two nationally known scientists who have pioneered soy development have performed much of the development work. They are Robert A. Boyer and Francis E. Calvert. Both at one time were associated with Henry Ford, and, through him, with Thomas A. Edison.

"The work has been coordinated under supervision of W.E. Tjossem, Manager of Purina's Special Soy Products Department, and W.B. Brew, Manager of Special Products Research. Ralston Purina is the largest manufacturer of animal rations, and one of the principal processors of soybeans in this country [USA]. Textured Edi Pro and Edi Pro are developments of Ralston Purina Company, Checkerboard Square, St. Louis 2, Missouri."

"Fifty million people in the U.S... are not able to eat the meat of animal or fowl some or all of the time by reason of their religions, restrictions of their doctors, or by personal preferences. For these many millions who for one reason or another cannot eat meats, the Textured Edi Pro meat-like products will supplement the supply of food items which they approximate... The versatility and adaptability of these new edible soy products make them 'the most exciting and most promising group of new foods of this decade,' says Purina vice president D. B. Walker. 'They are so characteristic of present health theories that they are likely to establish themselves in diets of the future. And the meat- like products will find an eager market among those 50 million who can't eat real meat."

Note 1. This is the earliest English-language document seen (Oct. 2015) that mentions Textured Edi Pro, made from spun soy protein fiber.

Note 2. This is the earliest English-language document seen (Oct. 2015) that uses the term "spun soy-protein fibers" (with or without a hyphen) to refer to spun soy protein fiber. Address: Ralston Purina Co., St. Louis, Missouri.

1864. Mazur, Joseph. 1963. Usage of green soybeans is increasing (in Israel). *Soybean Digest.* May. p. 64.
• ***Summary:*** The market for soybeans in Israel has been growing steadily and reached 235,000 tons in 1962. On a per-capita basis, among the 2.2 million inhabitants of Israel, this is probably the largest in the world.

"There is now a widespread interest in Israel in fresh soybeans, green soybeans of the edible type among vegetarians, whose number is steadily increasing. Health food stores are opening up and one of their main items, for which they come to the Soybean Council, is edible soybeans.

"Soy flour and grits of various types, and especially lecithinated soy flour, are becoming widely used ingredients by housewives and industry... If this continues, Israel will probably be the first country in the world outside of the Far East where soy proteins will become a substantial part of the diet of population."

Photos show: A portrait of Mr. Mazur. A soybean exhibition at Tel Aviv in March 1963 with J. Mazur and Eliahu Navot (an Israeli soybean pioneer) sampling soy cookies with members of the Russian embassy. Address: Soybean Council Director for Israel.

1867. *Los Angeles Times.* 1963. Milling firm in new plant. July 28. p. M22.
• ***Summary:*** El Molino Mills, manufacturers of stone ground whole wheat and specialty ground grains, has moved into a new, one-story warehouse of 40,000 square feet at 5335 Valley Blvd. A firm of consulting industrial engineers (Semco, Sweet & Mayers) designed the layout, material handling and flow systems for the new facility.

1868. Meyer, Edwin W.; Lighter, Willard C. 1963. Soy protein usage in foods. *Soybean Digest.* Sept. p. 63-69.
• ***Summary:*** Contents: Introduction. Slow progress. Soy flour usage. Protein malnutrition. Potential in foods. Isolated soy protein.

"As soybean growers you probably want to know how many bushels of soybeans are being used to make protein products for foods and then you want to know what's ahead. How many bushels will foods use in future years?

"I will try to answer your question about the current use of soy protein in foods and give you some picture of what the future use may be. While I am doing this, I would also like to make you aware of the fact that 'One crop helps another.' We are all aware of the fact that the protein from the U.S. soybean crop made possible the great growth in animal agriculture and greatly expanded the market for feed grains. We are not quite so aware of the fact that soy proteins, used in everyday food products, have a real potential to help the per capita consumption of such crops as wheat and meat.

"First let us answer the question as to the bushels of soybeans currently used to make soy protein for use in foods. The only form of soy protein currently being used in human foods in sufficient volume to be significant is soy flour. The figures available to us on volume of soy flour used in human foods show that in the last 6 years this volume has fluctuated up and down between 42 million and 64½ million pounds of flour with an arithmetical average of 55,285,000 pounds per year. Using a yield of 42 pounds of soy flour from a bushel of soybeans, this volume would require 1,316,000 bushels of soybeans. This is just under 2/10ths of 1% of a 700-million-bushel crop of soybeans.

"Slow Progress: Even though soybeans have been used for human foods for many centuries in the Orient, we find that after nearly 40 years of research and development in the United States, very little progress has been made in establishing truly large markets in the food industry for soy protein products. Certainly the millions of dollars invested by government and by private industry have not yet begun to pay off. The P and L statement still shows a red figure at the bottom.

"There are a number of reasons for this slow progress. First, we should recognize that the processing of beans for food as developed over the years in the Orient was adapted for family or village-type processing where consumption was immediate and shelf life unimportant. Thus this technology or art has not been overly helpful in promoting utilization in this country. Further, these products and the fermentation-type soy products of the Orient are foreign to our food patterns and do not find wide acceptance.

"We should also note that unless soybeans and soybean meal products are properly and carefully processed, they have a bitter, beany, objectionable flavor. In this regard it is well to recall that about 18 years ago, in an altruistic attempt to provide much-needed protein for the peoples of war-torn Europe, our government and our industry combined to do an almost disgracefully bad job of processing soy flour for this purpose. The memory lingers on in both Europe and America.

"Another important reason for the slow acceptance of soy protein products in foods is the fact that their most readily apparent value is a nutritional one. This sounds paradoxical, but, with few exceptions, protein nutritional value in prepared foods has not been a highly merchandisable commodity in the United States where we have an abundance of protein in our well-balanced diets. Also, the health food image that has developed around soy protein products has not been helpful in gaining their acceptance as recognized food ingredients by both food processors and consumers.

"And, finally, we would point out that most technologists in the soybean and food industries have been slow to recognize less apparent values of the soy protein

© Copyright Soyinfo Center 2021

products, namely, their unique functional characteristics.

"The fact that soy protein products must overcome some real handicaps does not mean that they have no future in the food industry. To us these handicaps point up two important facts. First, the continuing commercial development of soy protein products will be neither an easy nor an inexpensive project.

"Secondly, we will develop a volume market for soy protein products only as we are able to make use of their intrinsic values to solve industry problems and provide better and more convenient products for the consumer.

"To give you some orderly insight as to what's going on and what's ahead for soy protein products, we will discuss the three types of soy protein products separately: soy flour, soy protein concentrate and isolated soy protein.

"For the purpose of our discussion, soy flour can be defined as the mechanically refined and classified products obtained from high quality, sound, clean, dehulled soybeans. This definition includes natural full-fat flour from dehulled beans, defatted flour from solvent-extracted flakes, and designed flours containing varying quantities of soybean oil and lecithin, all 'tailored' for different food usage.

"Early in the development of soybean meal for the feeding of farm animals, it was learned that moist heat treatment, or 'toasting' as it is called in the industry, is necessary for inactivation of growth inhibitory substances and for achieving optimum nutritional value. However, it was some time, and after much trial and error, before it was realized that heat treatment was a critical factor in the control of functional qualities necessary for usage in a variety of prepared food items, most of which are heat processed.

"This need for functional activity in soy flours stimulated a search for improved technology in controlling the heat treatment which is most often related to the water-dispersible protein content or nitrogen solubility index of the flour. Today, soy flours are available in a wide range of water-dispersible protein contents, each suited for particular food product applications.

"Time does not permit us to dwell on these functional values other than to enumerate a few significant ones such as moisture absorption and retention, fat absorption and emulsification, viscosity characteristics, cohesive and adhesive nature and enzymatic activity. Although these functional properties are now recognized, it is apparent that further progress in the control of these useful properties would be greatly stimulated by a more complete understanding of the physico-chemical mechanisms involved.

"Earlier, we mentioned flavor in relation to sad experiences with wartime produced soy flour. We think no one will contest the statement that unless a potential food ingredient possesses a flavor which is compatible with the flavor pattern of the intended use, it will not be accepted. Significant strides have been made in improving the flavor profile of soy flour; however, considerable progress must be made in this area before it can reach its full potential in food usage. Today, the usage of soy flour in bland food items is restricted because of its flavor. There is need for improving the flavor of soy flour without adding materially to its cost.

"Soy Flour Usage: It is well to briefly review the current food usage of soy flour since this can be beneficial in pinpointing areas that offer growth potential. Soy flour has found a place in many prepared mixes such as those for cake doughnuts, waffles and pancakes. It is used in breakfast cereals and, notably, in cereals for infants wherein good protein value is desired. Because of its hypoallergenic qualities soy flour has been employed in the preparation of baby formulas for complete milk replacement. Also, it is used for the nutritional supplementation of prepared infant and junior foods.

"Soy flour is employed in making candies, confection items, breading mixes, cookies, macaroni products, and in table-ready meat products such as frankfurters, bologna, nonspecific loaves and certain canned meat products. Another use is in baked goods, particularly white bread and specialty breads.

"With current technological changes in commercial white bread production, there is an increasing opportunity for the use of an improved soy flour. The introduction of the high-speed continuous process for bread has made the requirements for ingredients and additives more critical. This criticality includes the tolerance for good protein supplements. It has been learned that the protein level of white bread can be maintained through the use of blends of soy flour, nonfat dry milk and whey solids.

"It was estimated that the 1962 production of white pan bread in this country amounted to about 12.5 billion pounds. Of this about 15% was made by the continuous process. If one considers this as a potential market for soy flour at a use level of about 2.0%, this single use-area alone would mean a market for 37.5 million pounds of flour or about 900,000 bushels of beans per year, a figure not too much lower than that given earlier for current soy flour consumption in terms of bushels of beans.

"In citing a potential such as this, we do want to emphasize that such will become reality only if soy flour is improved in flavor and other functional characteristics by low-cost processing" (Continued). Address: Central Soya Co., Chemurgy Div., Chicago, Illinois.

1869. Riera Paula, A. 1963. Vegetarianism in Barcelona, 1907 to 1963. *British Vegetarian.* Sept/Oct. p. 178-81.
• ***Summary:*** A good chronology of vegetarianism in Spain. "There was, in 1860, a group of vegetarians, who also made use of water to treat their ailments, under the guide of a physician, known as 'the physician of the water.'

"In 1907 Mr. Santiveri, with doctors José Falp, Joaquín Collet, Raimundo Comet, Fargas, and Salvador Badía,

© Copyright Soyinfo Center 2021

agreed in organising a Vegetarian Society and publishing a magazine to spread the Nature Cure Movement, as well as having a vegetarian banquet as a start of its propaganda."

"1908.–The first Vegetarian Society was founded in Barcelona under the name of 'Liga Vegetariana de Cataluña,' and a magazine was published under the title, *Revista Vegetariana Naturalista."* "1909.–In agreement with Mr. Santiveri, the first Vegetarian Guest House has founded in Barcelona, at Rambla de las Flores number 15."

In 1911, "Dr. Falp [José Falp, first president of the *Liga* in Barcelona] established in Barcelona the second Health Food Store. The first one was founded in 1893 under the name 'Farmacia Kneipp,' established by Don Jaime Santiveri de Pinies."

"In 1919, there was constituted a 'Sociedad Vegetariano-Naturista de Cataluña' at the building of the Instituto Hispanoamericano." It is not clear whether this was the *Liga*, reformed and renamed after World War I, or a separate society. This society began publishing a health-related magazine called *Naturismo* in 1920 and a physiatric magazine called *Regeneracio* in 1921. Note: "Physiatrics is "a system of medicine based on utilization of the healing powers of nature."

Also in 1921, the "Instituto Naturista Ferrándiz was founded to give instruction in Naturism, Anatomy, Physiology, Biology, Naturotherapy, Massage, Vegetarian Cookery, Natural History, etc." This institution survived World War II, unlike several other vegetarian and natural living societies of the time.

"1931.–The Sociedad Vegetariano-Naturista de Cataluña is dissolved and the Sociedad Naturista de Barcelona was created." There is no information available for 1932 to 1942, but in 1961 "Professor J. Cervera succeeded in constituting the Asociacion Vegeteriana de Barcelona at the Instituto Naturista Ferrándiz's headquarters." Again, it is difficult to tell whether this association was a re-formation of pre-war societies or an entirely new establishment.

In 1963 the *Asociacion* organized the 17th World Congress of the International Vegetarian Union in Barcelona.

A note at the end reads: "These notes about the History of Vegetarianism in Barcelona have been written by our friend A. Riera, who, in 1922, was the publisher of *Eugenia* magazine, and who has always been a faithful vegetarian both personally and in the spreading of its propaganda." Address: Spain.

1870. Chao, Buwei Yang. 1963. How to cook and eat in Chinese. 3rd ed. New York, NY: Random House. xxvi + 249 p. Foreword by Hu Shih. Preface by Pearl S. Buck. Illust. Index. 21 cm.

• ***Summary:*** This edition is quite similar to the original 1945 edition, except that it has some new front matter (such as introductions to the second [1949] and third revised editions), new pages added here and there plus 16 pages of recipes added between pages 228 and 229, and new cooking techniques. The page layout is basically unchanged, but when new pages were added, they were numbered 160a, etc; thus the contents of page 203 is identical in all editions.

A new table (p. 29) lists widely used Chinese foods and seasonings in four columns: Chinese characters, Mandarin romanization, Cantonese romanization, and English. Soy related ingredients (in English, Mandarin, and Cantonese) are: (4) Oyster sauce: hao-yu, hou-yau. (6) Soy sauce (1): chiang-yu (M). Soy sauce (2): shi-yau (C). Soy sauce (3): ch'au-yau (C). (7) First quality soy sauce: sheng-ch'ou (M), shang-ch'au (C). Note 1. The first character means "fresh" or "live."

Note 2. This is the earliest English-language document seen (April 2012) that uses the term "sheng-ch'ou" (Mandarin) or the term "shang-ch'au" (Cantonese) or the term "chü-yau" to refer to a type or grade of Chinese soy sauce."

(8) Flour jam: t'ienmien-chiang (M), t'inmin-cheung (C). (9) Bean sauce: Yuanshih chiang (M), yünshi-cheung (C). Note 3. The middle character (shih / shi) refers to fermented black soybeans. (10) Hoisin sauce: haihsien chiang (M), hoisin-cheung (C). Note 4. This is the earliest document seen (April 2012) that mentions Hoisin sauce.

However, among the new pages added, there is a nice new chapter 22 titled "Soybean Foods" (p. 228c-228h). Its contents: Introduction and Buddhist mock meats. Homemade tofu: Equipment needed (electric blender, form for setting), ingredients (curded with gypsum), grinding and straining, heating and setting, forming, bean curd recipes. Homemade soybean milk. Using soybean lees (okara; dregs are the leftovers you throw away and lees are those you keep). Frozen bean curd. Soy sauce beans [Soybeans baked in soy sauce]. Preserved soybeans: Homemade fermented black soybeans with salt, ginger, and optional hot chili powder or hot red pepper.

Note: This is the earliest English-language document seen (Nov. 2011) that uses the term "Preserved soybeans" to refer to fermented black soybeans.

The introduction (p. 228c) states: "Under various guises the soybean is used in vegetarian restaurants, often under Buddhist auspices, to produce sumptuous dinners, featuring "sliced chicken breast," "roast duck," "baked ham," that not only fool the eye, but also the tongue, almost, but as always, I want to concentrate on the important, everyday things and de-emphasize the fancy and elaborate. Dishes with bean curd are cheap and easy to prepare. Those who can afford fancy dishes can combine it with meat, etc., but just plain cabbage and bean curd connotes home sweet home."

Pages 158-59 contain 3 new soy-related recipes: Fried bean curd. Oyster sauce friend bean curd. Sweet-sour fried bean curd.

Recipe 14.27 (p. 155-56), titled "Red-in-snow stirs fava beans" begins: "Horse beans look like lima beans but are

© Copyright Soyinfo Center 2021

not. They are also called Fava beans and frequently sold by Italians. In China they are known as 'silkworm beans.'" Address: Berkeley, California.

1871. Lager, Mildred; Jones, Dorothea Van Gundy. 1963. The soybean cookbook: Adventures in zestful eating. New York, NY: Devin-Adair Co. xiv + 240 p. Foreword by Ruth Stout. Index. 22 cm.
• ***Summary:*** The copyright page states: "Note: This is a revised and updated version of a privately printed book, *How to Use the Soybean*, by Mildred Lager which was first printed in 1955 and reprinted in 1959." This lacto-ovo-vegetarian cookbook contains over 350 recipes, including 72 tofu recipes.

Contents: Preface to 1955 edition. Preface to 1963 edition. Part I: The versatile soybean. History of the soybean. Nutritional value. Abbreviations and special terms. Soup to nuts: Introduction, green soybeans [green vegetable soybeans], dry soybeans, roasted soybeans, sprouted soybeans, the cow of China–soy milk (kinds of soy milk), "the meat without a bone"–tofu or soy cheese, the little giant among protein foods–soy flour, soy grits and bits (puffed grits), soy oil and soy butter, meat replacement foods, sandwich spreads, malts, coffee substitutes, soy sauce, other soy products (soy albumen, Glidden's product that contains on a dry basis 96.6% protein [soy protein isolate]).

Part II: Soybean recipes. Green soybeans. Dry soybeans. Roasted or toasted soybeans. Sprouted soybeans. Meat replacement dishes. Soy noodles, macaroni, and spaghetti. Sauces and gravies. Soy soups. Salads. Soy spreads and soy butter ["a butter resembling peanut butter may be made from finely ground soybeans or soy flour... Roasted soy butter is made from the roasted beans that have been ground into a fine flour."]. Soy milk. Tofu or soy cheese. Soy cereals and breakfast dishes. Soy desserts. Soy candies. Soy flour breads: Full-fat soy flour, low-fat or fat-free soy flour. Pastry. Cookies. Cakes. Extra tips. Appendix. Menus.

The chapter titled "History of the Soybean" (p. 3-7) discusses: W.J. Morse and the U.S. Department of Agriculture, Dr. J.A. LeClerc, the American Soybean Association (which has held a national convention every year since it was founded in 1920), its publication *Soybean Digest*, Henry Ford and his work with both industrial and edible soy products, T.A. Van Gundy, Harry W. Miller, M.D., Dr. Clive McCay of Cornell University (Ithaca, New York), and the Sept. 1961 Conference on Soybean Products for Protein in Human Foods (held at Peoria, Illinois).

Concerning T.A. Van Gundy we read (p. 5): "The father of one of the authors, T.A. Van Gundy, became interested in the nutritional value of soybeans while attending the World's Fair in San Francisco in 1915, where they were featured in the Oriental exhibits. Upon going home he purchased some soybeans and began experimenting in them. As far as we know he was the first person on the Pacific Coast to develop a line of commercial foods from this wonder bean. By 1927 he had developed a number of palatable products which he manufactured and sold through health food stores. Soybean foods were virtually unknown at this time, and it took courage and perseverance to put them across."

Recipes for "Soy Ice Cream" (p. 175-76) now include vanilla, maple nut, orange, and strawberry flavors. A recipe for "Granola" (p. 161) calls for 1 cup soy flour. The rest of the ingredients (such as wheat and barley flour) appear to be similar to those found in the earliest granola recipes of the mid-1800s. Address: Southern California.

1872. Major, Nettie Leitch. 1963. C.W. Post–The man and the hour. Washington, DC: Published by the author. xx + 318 p. Illust. Index. 27 cm. [50+* footnotes]
• ***Summary:*** This excellent biography of C.W. Post was published six years after another excellent biography of both W.K. Kellogg and Post titled *Cornflake Crusade*, by Gerald Carson. Both books are rich troves of original research, and both are well written and well documented. This book is more sober; Carson's is full of good humor. Address: Washington, DC.

1873. Richard, Paul; Richard, Elwood E. 1963. History of Fearn Soya Foods. Melrose Park, Illinois: Fearn Soya Foods. 1 p. Undated. Unpublished typescript.
• ***Summary:*** This was an attempt to compile, with relatively little information, dates, or original documents, a brief biography of Dr. Charles Fearn and a brief history of Fearn Soya Foods–to help promote the company and its products.

"In 1917 President Wilson summoned Charles E. Fearn, M.D. to the United States to help develop a soybean industry here as part of our war effort. Dr. Fearn was a surgeon major in the Royal Army Medical Corps and had been in charge of a hospital in England prior to his coming to the U.S. He was recognized as a world authority on the soybean and in addition was the first to discover that vitamin B was not a single vitamin but a group of complex vitamins.

"Dr. Fearn was granted U.S. Citizenship by Act of Congress and after the war he turned his attention to promoting the soybean as a commercial venture. In 1920 he started the Soyex Company in New York–the first soy processing plant [sic] in the U.S. However, the public did not seem ready for the new soya foods and did not understand the nutritional benefits. Soyex Company failed and Dr. Fearn moved to Chicago in 1923 where he began the Fearn Laboratories. Here he developed the formulas for many of the well known soya products in use today.

"Viana–the first liquid diet formula. Solac–an all soybean infant formula. Pure Soya Powder–The Fearn process for pure soya powder (now called Soya Powder–Full Fat) was perfected about 1930. The major improvements were: (1) The heating process (needed to inactivate the anti-trypsin factor present in all uncooked soybeans) was carried

© Copyright Soyinfo Center 2021

out in an inert atmosphere to prevent destruction of vitamin values; (2) Selected varieties of soybeans were blended to achieve the best amino acid balance and nutritional value.

"In 1925 Dr. Fearn established the Fearn Soya Foods Company and developed the processing and formulas for a series of products sold within the health food industry. Soy-O Wheat Cereal & Soya, Soy-O Pancake Mix, and Pure Soya Powder were some of the first products introduced by Dr. Fearn. Thirty years later these foods are still produced according to the original formulas.

"Dr. Fearn was well known to every major firm and researcher in the soybean industry. Through Dr. Fearn and his friend Dr. J.A. LeClerc of the U.S. Department of Agriculture, the soybean industry began to grow and prosper. Dr. Fearn died in Chicago in 1949.

"Paul Richard who had been a close friend of Dr. Fearn for many years took over the business and gradually expanded the operation through new products and effective sales programs.

"In 1961 the Fearn Chart listing composition of over 300 foods was published and made available to the Health Food Industry.

"In 1963 The American Mount Everest Expedition selected three Fearn Products; High Protein Food, Soy-O-Snaks, and Soy-O Wholewheat Pancake Mix. These products helped the team to conquer the world's highest peak and set several records.

"Today Fearn Soya Foods practices the highest standards of food manufacture. Bleaches, preservatives, and harmful chemicals are never used. Fearn Soya Foods is growing rapidly because more and more people are discovering that 'the soybean leads in nutrition, and Fearn is the leader in soya foods.'" Address: Fearn Soya Foods, Melrose Park, Illinois.

1874. Rose, Ian F. 1963. Faith, love and seaweed. Englewood Cliffs, New Jersey: Prentice-Hall, Inc. 221 p. Illust. Index. 24 cm. [30+ ref]

• ***Summary:*** This book is written by the father of Murray Rose, now age 23, one of the world's greatest swimmers, and the winner of many Olympic gold medals. It is the true story of how Murray was raised on a vegetarian diet, with emphasis on raw foods, natural foods, natural living, and whole-food principles. By the age of 13, Murray's prowess was already making news. In 1956, at age 17, he became the youngest triple Olympic gold medalist in the entire history of sport. In Rome, 4 years later, he made Olympic history again by winning the 400 meter freestyle and thus becoming the first person to win a distance swimming event in two successive Olympics. In college he swam for the University of Southern California (USC).

Mr. Rose advises 10 important dietary habits: 1. Wait until you are hungry before eating. 2. Eat simply, paying attention to food combinations. 3. Eat moderately. 4. Chew food thoroughly. 5. Eat raw foods whenever possible. 6. Never eat when overtired, worried, or emotionally upset. 7. Avoid sauces and condiments. 8. Don't drink with meals. 9. Avoid drinking alcohol and smoking tobacco. 10. Avoid eating meat.

Rose uses 3 main sources of protein: (1) Seeds (especially sesame and sunflower seeds); (2) nuts, and legumes (especially soybeans); cheese and fertile eggs (but not cow's milk). Rose has "four magic foods that guard you against vitamin and mineral deficiencies": seaweed, rose hips (for vitamin C), brewer's yeast (for B vitamins), and any good source of vitamin E (such as wheat germ and wheat germ oil).

In chapter 8, "Our protein pyramid: Seeds, nuts, and dairy products," the section titled "Soybeans give us better protein than steak" (p. 115-17) begins: "The other legume that deserves a permanent place in our store cupboard is the soybean. This is a better source of protein than meat or eggs as is demonstrated by the following table. In every case, soybeans come out ahead." Three tables compare meat, eggs, and soybeans for their content of essential amino acids, minerals, and vitamins. "It is not hard to conclude that soybeans could well be part of everyone's diet, whether or not we include meat. The use of soybean flour is a good idea, too. Merely by substituting as little as five percent in any recipe containing wheat flour, you will be greatly increasing the protein value of the food."

In the section on dairy products, there are subsections titled "The fallacy of cow's milk as a human food" (p. 117) and "The alternatives to cow's milk" (p. 121). "As an alternative to cow's milk we introduced soy milk into Murray's diet with success. Ready prepared soy milk is obtainable today in many health stores but it can be made at home with a blender. One way is as follows:..." Also discusses tahini milk and almond milk.

Page 186 states that cow's milk, if consumed at all, should be consumed raw. It is wise to specify "certified raw milk." "If only pasteurized milk is available it may be best to substitute soy milk or to use a home-made nut milk... Soybeans are one of the few legumes which contain complete protein. They may be purchased ready-cooked or dry."

The section titled "The best kind of fat–and how to select it" (p. 189-91) suggests that unsaturated fatty acids are good for health and animal fats are best omitted from the diet. "Their place should be taken by soy oil, sunflower oil, sesame oil, safflower oil, and other vegetable oils." The ratio of polyunsaturates to saturates is given for each. "Soy oil, extracted from the soybean,... contains a high percentage of polyunsaturated fatty acids."

The last chapter, "How to plan menus for health," contains recipes. Address: Sydney, Australia.

1875. Taylor, Jean. 1964. Whole family gets in act: Alpine

© Copyright Soyinfo Center 2021

editor relives early Hollywood days [About Clarke Irvine]. *El Cajon Valley News* (*California*). Jan. 2.
• ***Summary:*** "Clarke Irvine, Alpine newspaper publisher, is a man who remembers the early days in Hollywood twice a week. His public reminiscence is aired on radio station XEMO and 5:30 p.m. Saturday and 11:30 p.m. Sunday. Irvine tapes his programs in a trailer left over from his movie days." The trailer is on his ranch in Alpine, near a corral for the family's horses. "The program, a year old in March, has gradually said less about health and Alpine and more about Hollywood." Irvine, age 71, took his first solo flight a few days after his 65th birthday.

Irvine was Charlie Chaplin's first press agent. A one-time movie extra agent, Irvine published the first film weekly in Hollywood, called 'The Screamer.'" Irvine "knew the great and near-great in Hollywood from 1912 until World War I in the way neighbors know each other in a country town. He got Fatty Arbuckel his first $3-a-day job as a Keystone Cop." A photo shows Irvine standing by his airplane.

1876. *Los Angeles Times.* 1964. Warehouse remodeled. Jan. 26. p. M14.
• ***Summary:*** A major renovation has been completed on the "warehouse and offices of Kahan & Lessin, largest wholesale distributor of health and dietetic food products in the United States, located at 2425 Hunter St." [in Los Angeles].

1877. James, Isabel. 1964. Domestic science bureau. *British Vegetarian.* Jan/Feb. p. 37-39.
• ***Summary:*** The article begins with a question from a reader: "Can you please tell me something about the value and use of soya bean and soya flour?" The author gives a Bircher Benner recipe for Soya Pancakes (with soya flour), and notes that Soyolk and Hi-Soy soya flours are sold in Health Food Stores. The latter product is made by The British Arkady Co. Ltd. and is good for use in confectionery.

She then discusses soya milk and tofu. In the UK, Dr. Frank Wokes, of the Nutritional Research Centre, has done a great deal of work on the "preparation of a soya based vegetable "milk" that would be a suitable substitute for cow's milk and acceptable to children who could not take cow's milk. Largely as a result of this work *Velactin* is now available from Health Food Stores, made by Messrs. A. Wander Ltd." She then gives a recipe for home-made Soya Cheese (also known as Soybean Curd or Tofu), made from full-fat soya flour and coagulated with lemon juice.

She also mentions soya sauce and gives details on growing soya beans in England. "If the crop matures some of the green beans may be used in salads or as green vegetables." Address: B.A.

1878. Hewitt, Jean. 1964. Food news: Soup to nuts. Health shops have most ingredients for exotic and traditional recipes. *New York Times.* March 23. p. 34.
• ***Summary:*** Traditional cereals such as brown rice, rice flour, "oat flour, whole barley, millet and whole wheat flour, are standard items in most health-food stores. Some ethnic dishes call for soy products ranging from the whole bean to a soy powder, which is also available."

1879. *Los Angeles Times.* 1964. Dietitian to speak at PCC. April 12. p. N14.
• ***Summary:*** "Pasadena–Adelle Davis, author of *Let's Cook It Right*, will speak on 'Your Health Is in Your Hands' at Pasadena City College" on Monday, April 13, at 8 p.m.

The lecture is the 2nd in a series of 4 titled "An Ounce of Prevention," cosponsored by the Educational Services Division of PCC and the American Nutrition Society.

1880. **Product Name:** Granogen (Powdered Soymilk for Adults).
Manufacturer's Name: Granose Foods Ltd. (Importer-Marketer). Made in the USA by Loma Linda Foods.
Manufacturer's Address: Stanborough Park, Watford, Herts., WD2 6JR, England. Phone: 0923-672281/2.
Date of Introduction: 1964 April.
Ingredients: Soya bean solids, corn syrup, soya oil, sugar, salt, lecithin, vitamins.
Wt/Vol., Packaging, Price: 1 lb can. Retails for 9 shillings 6 pence (4/64, England).
How Stored: Shelf stable.
Nutrition: Protein 22.5%, carbohydrate 46.8%, fat 22.6%, ash 4.2%, moisture 3.9%.
New Product–Documentation: *The British Vegetarian.* 1961. March/April. p. 93. "Soya milk for household use." Granose Foods will soon be in a position to supply two varieties of spray-dried soya milk, Soyalac and Soyagen, made by one of their associated companies, Loma Linda Food Company in Arlington, California. Soyalac is specially prepared for infants, whereas Soyagen is for general use. A table compares the nutritional composition of the two products.

The British Vegetarian. 1964. March/April. "Granogen: Soya Bean Milk Now Available." "Readers will be glad to know that a really delicious general purpose soya bean milk is now available in Britain and will shortly be on sale in Health Food Stores." Made in America, Granose is imported and distributed to the trade by Granose Foods Ltd., Stanborough Park, Watford, Herts. Fortified with vitamin B-12, this fine white powder is sold in a 1-lb can for 9 shillings 6 pence.

Orr and Adair. 1967. Tropical Products Institute Report G-31. "The production of protein foods and concentrates from oilseeds." p. 72. Soyalac is made in both liquid and

© Copyright Soyinfo Center 2021

powder form by Loma Linda Foods. The powder is imported into the U.K. by Granose Foods Ltd. and sold under their brand name of Granogen. A nutritional analysis is given.

Leah Leneman. 1971. *The British Vegetarian.* Jan/Feb. p. 6. "Plantmilk and sex!" The author (and many other people she knows) prefers the taste of Granogen to that of Plamil as an alternative to cow's milk. Granogen, however is not made in Britain.

Listing in The Vegetarian Health Food Handbook (UK). 1974. p. 155. "Granogen Soya Milk by Granose Health Foods Ltd." Note the new company name.

Manufacturer's catalog. 1980. April. "Soya milk for adults with added vitamins and minerals. Of great value to those with milk allergies." Purves. 1981. Nutrition and Food Science. Jan/Feb. p. 5-6.

Letter from Adrian Peck, production manager at Granose Foods. 1990. July 11. This product has always been imported as a powder. Granose has never sold a liquid Granogen. Before 1988 it was named Granogen and made in the USA by Loma Linda Foods. From 1988 on it was renamed Soyagen and made in West Germany by DE-VAU-GE.

1881. Irvine, Clarke. 1964. Re: Irvine family genealogy. Letter to Myra (Clarke's only sister), May 5. 1 p. Typed, without signature.

• ***Summary:*** "Dear Myra: Trying to sit down and dash off a genealogy on our family is like trying to take off for the moon on a surfboard! Briefly: Our father [Clare Bartlett Irvine, 1865-1928] was one of three brothers, born in Oregon, Mo. [Missouri]. He was a printer, then newsman, editor on the Sentinel there. Then to Salem [Oregon] as city editor of the Statesman where he met mother [Edesse Plamondon], a typesetter. [They were married on 8 Sept. 1891]. Then he started his own weekly, the Sentinel, moved to Ocean Park [California], in Dec. 1903. Worked 20 years on the [Los Angeles] Times, [Evening] Outlook; started the Venice Vanguard with Rennie, started the Ocean Park Review with Bynon, then the Sawtelle Sentinel, on his own. Later the Palms Press.

"Leigh, the eldest [Leigh Hadley Irvine, lived 1863-1942], was a member of the Calif. [California] bar, city editor of the Examiner, during the SF quake [San Francisco earthquake and fire], 1906. He was widely travelled, later was exec. secy. [executive secretary] of chambers of commerce up and down the [Pacific] coast. He wrote *The Follies of the Courts* [1925. Los Angeles: Times-Mirror Press. 273 p. His last major book, and the one owned by the most libraries (69)], *An Affair in the South Seas: A Story of Romantic Adventure* [1901, London: T. Fisher Unwin; San Francisco: Payot, Upham & Co. 278 p.], *Cyclopedia of Diction* [see *Irvine's Dictionary of Titles*, 1912], and several smaller [sic, many other important] works. Began as a newsman in KC, Mo. [Kansas City, Missouri], covered the famous Jesse James outlaws.

Louis [Clarke Irvine, 1862-1947], the other [2nd] son, was a hotel man in St. Louis [Missouri] for many years, then to real estate in Mobile [Alabama], where his son, Clarke, now is. The family is descended from the three Irvine brothers who came from England to Virginia, being of Irish-Scotch descent, the family having lived in Irvine, Scotland, and Irvinetown, Ireland. The family had many lawyers, doctors, scientists, fighting army men, etc.

"Dad's father [James Clarke Irvine, Clarke's grandfather] was a lawyer, versed in several tongues, wrote quite a bit. His wife, Anne K. Johnson [sic, Ann Keturah Johnson], was daughter of a Utah senator, at whose funeral we were present as mere children. I think Bartlett was a signer of the Declaration [of Independence, USA] and we were related to the famed McDowell, Dad's side. His name was Clare Bartlett Irvine. We have no written records on either side. Mother's people were French emigrants to Quebec [Canada], whose son later went to Ore. [Oregon] where she was bron [sic, born] near Salem. She had the 3 sisters and all spoke French. The parents did speak some English. Dad had an uncle who was a hero captain in the Civil War. Another book by LHI [Leigh H. Irvine]– *Dictionary of Titles* [1912. San Francisco: Crown Publishing Co.], he also wrote lots of verse, unpublished. (Titles was 1912 at SF). I have one.

"As for me–I've done nothing–just earned a living, wrote a million words, one little book which I've sold 10,000 on my own by mail, and of course traveled and some other things, as you will see from the enclosures. I founded, published Let's Live, 1933-1949, now Alpine Sun, 1952, to date. First studio magazine in LA [Los Angeles] 1916-1917, which [when?] I enlisted in wwi [World War I], 8-13-17 to 2-19-19. Had gone in thru Goat Island [later renamed Yerba Buena Island, in San Francisco Bay], 9-1-11 to 6-1-13. My radio tapes give you my entire history of the film world in those early days. It will be out in book form–I hope–this year or next. I'm about done with it, have been on since 3-10-63, have all the tapes saved, chapters from the book "Early Days in H" [Hollywood]. I have a rare volume, The Irvines & Their Kin, by L. Boyd, Chicago [Illinois], R.R. Donnelley & Sons, 1908 (10.), revised in Scotland, Ireland & Eng. [England]. In it Dad, pp 132, under photo of Castle Irvine, Irvinestown, Ire: 'My grandfather, James Callender Irvine [12 July 1807–28 Jan. 1881; married Martha Nevin Bartlett], was the son of Thomas Irvine [and Tabitha Meridith Clark], of Irvinestown [Ireland]. James C. was born at Tomica, Pa. [Pennsylvania], 1807; died 1881, was Capt., Co. A, O.U.I. (?). Some excerpts: The 7 Irvine brothers who came to America before and after 1729, were brothers to Margaret Irvine, who married Ephriam McDowell. They were Alexander, George, David, William, Robert, James & Samuel. The Irvines here came from the same forbears as Andrew Jackson, Washington Irvine, Benjamin Harrison and Theo. [Theodore] Roosevelt. The family tree is laced with

© Copyright Soyinfo Center 2021

poets, writers, doctors, and lawyers, etc. When I find it I will send a copy of the coat of arms we used, its motto: 'Sub sole sub umbra virens' or "Growing in the sun and in the shade,' with the holly leaf symbolizing that. This tiny page took me over an hour to compile–so you see a minute or two will never do!"

Note 1. Talk with Alice Irvine, Clarke Irvine's 2nd wife. 2006. April 24. Alice has never heard of Rennie or Bynon. Clarke was born on 4 Dec. 1893 in Salem, Oregon. His mother's full name was Celeste Edesse Plamondon. Alice and Clarke were married on 14 Dec. 1946. Alice met Uncle Leigh (pronounced Lee) several times near Hollywood before he died in 1942. She remembers him as a "sweet guy who liked to recite poetry." By the "First studio magazine in LA 1916-1917," Clarke is referring to *The Skelton.* Alice used to have some copies of it, but she sold them. Clarke enlisted in the U.S. Navy during World War I and was a yeoman. The dates 9-1-11 to 6-1-13 may refer to the dates that he went to school at St. Vincent's College in or near Los Angeles or Santa Monica. She recalls clearly that in his later years he used to attend class reunions regularly. (Note: St. Vincent's College, now named Loyola Marymount University, is located in Los Angeles).

Clarke's book, *Early Days in Hollywood,* was never published. He showed it to several publishers but none wanted it. She thinks her daughter, Cecile, still has a copy of the manuscript, which was about ½ inch thick.

Note 2. Other important books by Leigh H. Irvine (Clarke Irvine's uncle; listed chronologically): *Problems of Distressed Labor: Discussion of Rights and Wrongs* (1886. Chicago: Burch. 92 p.). *60,000,000 Slaves, Being a Lawyer's Plea in Behalf of the People; or, Speeches on the Railway Problem,* (from short hand notes) (1888. Kansas City: Published by the author. 95 p.). *Historic Strikes and Their Settlement: also, Fundamentals of Street-car Control* (1888, 1907. San Francisco: Calkins Newspaper Syndicate. 23 + 7 p.). *The Struggle for Bread: A Discussion of Some of the Wrongs and Rights of Capital and Labor* 3rd ed. (1890. New York: John Alden. 182 p.). *The Palace of the Sun, and Other Sketches* (1894. New York: Crown Publ. Co. 32 p.). *Hawaii's Burning Mountain: Graphic Description of a Monster Eruption...* (1894. Hawaiian Star Electric Print. 16 p.). *The Writer's Blue Book: A Useful Manual for All Who Write, Particularly for Editors, Reporters, Proof-Readers, Typewriters, Clerks* (1902. San Francisco: Crown Publ. Co. 82 p.). *A History of the New California: Its Resources and People* 2 vols. (1905. New York, Chicago: The Lewis Pub. Co.). *History of Humboldt County, California: With Biographical Sketches of the Leading Men and Women...* (1915. Los Angeles: Historic Record Co., 1290 p.). *Santa Clara County, California: California Lands for Wealth, California Fruit for Health* (1913. San Jose, California: San Jose Chamber of Commerce. 64 p.). *By Right of the Sword: A Defense of Capital Punishment, Based on a Searching Examination of History, Theology, and Philosophy* (1915. New York: Baker & Taylor Co. 164 p.). *The Masses in the Mirror: Being an Analysis of the Fundamentals of Government and the Limitations of Democracy* (1919. New York: Baker & Taylor Co. 80 p.). Address: [Alpine Sun, Rt. 1, Box 189, Alpine, California 92001].

1882. Fenderson, Bill. 1964. Son of *Vanguard* founder brought movie mogul Ince to Culver City: Now publishes tiniest paper. *Culver City Star-News & Venice Vanguard* (*California*). June 18. p. 2.

• ***Summary:*** Clarke Irvine's father, Clare B. Irvine, was co-founder and once publisher of this newspaper. Harry Culver founded Culver City. "Irvine was wrapped up in a world of adventure since he landed here at the age of 10 (18?) fresh from the state of Oregon."

In 1914 when Irvine was writing a movie column for a Los Angeles newspaper, he got Harry Culver and Tom Ince together and they made a deal for Ince to move to Culver City. Ince founded Triangle Studios, later to become the industry giant Metro-Goldwyn-Mayer industry."

"Irvine is now telling it all in his forthcoming book tentatively titled 'Early Days in Hollywood'; Random House is interested. The book describes a glamorous cast of characters, the greatest stars in the movie business, many of whom Irvine knew before stardom–and he helped them on their way up. In those exciting pioneering days of motion pictures, "Irvine was privileged to know the great ones–not as distant stars but as close friends." "'I talked Fatty Arbuckle into the movie business. Fatty was singing illustrated songs at an Ocean Park theater and wanted no part of acting before a camera. I told Mack Sennet about him and he hired him as a $3.00 a day Keystone Kop.'"

Included among "Irvine's friends–many of whom he wrote publicity for–were:–Will Rogers, Myrna Loy, John Barrymore, Lon Chaney, Irene Rich, Alan Hale, Douglas Fairbanks, Mary Pickford, Charlie Chaplin, John Gilbert, John Bowers, Cedric Gibbons, David Wark Griffith, Donald Crisp, Harry Langdon, William S. Hart, Bebe Daniels, Snub Pollard.

"In addition to editing and publishing the 'Alpine Sun' twice a month from his ranch home near the village of Alpine in San Diego County," Irvine tapes radiocast titled 'Early days in Hollywood' for station XEMO, Sundays at 5:30, 860 on your dial. "He plans to give the tapes to the Hollywood museum."

"Irvine worked as office boy for Abbot Kinney, founder of Venice, played bit parts in films and on stage, ran a merry-go-round in Ocean Park; wrote a syndicated column called 'Studioland' which got worldwide circulation; was Sam Goldwyn's publicity director; fought in World War I; covered the Honolulu [Hawaii] waterfront, went on a lecture tour for United Press. While working as a UP roving reporter, he scooped the world with the story of Sir Charles Kingsford-

© Copyright Soyinfo Center 2021

Smith's first trans-Pacific flight from Oakland, California, to Brisbane, Australia." Note: The 1928 flight, with co-pilot Charles T.P. Ulm, took 3 days, 11 hours, and 19 minutes.

At 71 he looks no older than 50. Erect, with no paunch, he owns and flies his own plane–first soloing at 65.

"The Alpine Sun–is 'The Tiniest Newspaper in America'–but with the able assistance of reporters Cynthia, Celeste, and Cecile–and Alice handling the Art and Composition–is a going concern, filled with up-to-the minute local news, social items, commentary, good art and lots of advertising, is published weekly on Friday–2255 Tavern Road, Rt. 1, Box 189, Alpine, San Diego County, California, Zone 92001, phones 445-2415 or 2394."

A large photo shows Dave Duncan, editor and publisher of the *Star-News-Vanguard*, presenting a copy a book on the history of Copley Press to Clarke Irvine, age 71. Irvine was "press agent for some of the greatest stars in films during pioneering years."

1883. Ryon, Art. 1964. Roundabout. *Los Angeles Times.* July 19. p. B26-28.
• ***Summary:*** The section titled "A frustrated publisher!" notes that Deborah Szekely and her husband, Prof. Edmund Bordeaux Szekely, operate the famous health resort, the Golden Door, in Escondido, California, and Rancho La Puerta in Tecate, Mexico. The are "beseeched by publishers to compile a book of the slimming dishes served in both health spas. But she doesn't have time."

1884. *Oakland Tribune.* 1964. Deaths: Nettie Coward Deacon Pendleton. July 30. p. D37.
• ***Summary:*** She died on 29 July 1964 in Oakland, California, "beloved mother of Patricia Pendleton Bragg, Herbert Coward Deacon and Harry C. Pendleton, Jr.; grandmother of Deborah and Scott Deacon; sister of Phyllis Coward Canville. A native of Oakland. A member of the Society of California Pioneers; Native Daughters of the Golden West; California Historical Society; Alameda Historical Society.

Private services, Friday, July 31 at 3 p.m. at Mountain View Cemetery, Reverend Carl Webb of St. Paul's Episcopal Church officiating. (Albert Brown Mortuary, Oakland).

Note 1. Nettie was the widow of Harry Clay Pendleton, builder and real estate investor who died three years ago.

Note 2. Herbert (born 17 March 1919) was from Nettie's first marriage circa 1917 to Andrew Deacon. Patricia (born 29 April 1929) and Harry Jr. (born 30 June 1930, died 22 June 1993) were children of her second marriage to Harry Clay Pendleton.

1885. *Oakland Tribune.* 1964. Mrs. Pendleton's rites tomorrow. July 30. p. E9.
• ***Summary:*** Tomorrow private funeral services will be held for Mrs. Nettie Coward Pendleton, age 66, of Piedmont, a fourth generation Californian and a renowned expert on California's history.

"Mrs. Pendleton was the daughter of Herbert C. Howard, who founded the California Salt. Co., now the Leslie Salt Co." [Hayward, California].

"She was the widow of Harry Clay Pendleton, builder and real estate investor who died three years ago."

Mrs. Pendleton "was active in the Society of California Pioneers, Native Daughters of the Golden West and the California and Alameda Historical Societies.

"Born in Oakland, she spent most of her adult life in Piedmont, where she raised three children. Most recently she has been residing in Alameda.

"Ms. Pendleton's great grandfather, Hamilton Graham Coward, come to California from Maryland in the early 1800s. He was one of the first settlers of the Yosemite Valley area."

Mrs. Pendleton "is survived by a daughter, Patricia Pendleton Bragg, of Hollywood, and two sons, Harry C. Pendleton, Jr., of Oakland, and Herbert Coward Deacon, of Los Altos."

1886. Fredericks, Carlton. 1964. Nutrition, your key to good health. North Hollywood, California: London Press. 271 p. Index. 17 cm.
• ***Summary:*** This book (in its 12th printing by April 1971) is a revised, enlarged version of the publication *Eat, Live and be Merry.* The author, billed on the cover as "America's Foremost Nutritionist," is a member of Phi Beta Kappa and holds a PhD in Public Health Education from New York University. He has a radio show named "Living Can Be Fun." A quotation by Alexis Carrell facing the title page reads: "The doctor of today will be the dietician of tomorrow."

On pages 141, 145, and 146 the author states that soybeans which have been heated are complete proteins "but the quality of the protein is not quite equivalent to that of dairy products, meat, fish or fowl... soy protein is far superior to that of other vegetables and they are a good food in many ways. Excesses of soy in the diet may interfere with thyroid function.

The author is quite critical of vegetarian diets (see p. 141-42, 174, 220) and favors consumption of meat and dairy products. A major problem in vegetarian diets, he thinks, is the lack of vitamin B-12 in plant foods. B-12 was originally called the "animal protein factor."

A photo on the back cover shows Dr. Carlton Fredericks. Address: California.

Note: This is the earliest English-language document seen (July 2006) that uses the verb "to puree" (It "purees") in connection with an electric blender.

1889. Nelson, Harry. 1964. Quackery in nutrition field assailed by medical groups: Health food fad called 'expensive nonsense' by doctors, drug agency. *Los Angeles Times.* Nov. 8. p. B1, B4, B5.
• ***Summary:*** In the USA. the most widespread kind of quackery is in the field of nutrition, according to Kenneth L. Milstead of the bureau of enforcement of the U.S. Food and Drug Administration (FDA). The American Medical Association reports that every year about "10 million Americans spend $500 million for nutritional nonsense in the form of 'health' foods, food supplements [vitamins, minerals], weight-reducing gimmicks and literature, fads and cults."

"'More people seem to believe more bunk about food and nutrition than any other single topic in the health field, and perhaps any other field,'" according to Millstead in one of his many speeches around the country.

Martha F. Trulson, a nutritionist at the Harvard School of Public Health, agrees.

Southern California is seen as being "heavily infested with nutrition faddists." An FDA publication states that three of the five organizations in America taking the lead in spreading nutritional fads are centered in the Los Angeles area. "These are the National Health Federation in Monrovia [membership 30,000], the American Nutrition Society and the Academy of Applied Nutrition, both of Pasadena."

According to the FDA, the main objective of these three organizations is "the promotion of so-called natural or unprocessed foods." They constantly tell Americans about the disadvantages of refined and processed foods.

The two other groups disliked by the FDA are the Boston Nutrition Society and Natural Food Associates of Atlanta, Texas. These groups counter that top officials in the FDA and AMA are "completely supported by the food industry."

The five groups exist to perpetrate what the FDA calls the four myths of nutrition. These four myths, which are listed, are clearly a distortion of the groups' real message.

Dr. Frederick J. Stare, a nutritionist at Harvard, is one of quackdom's most vocal foes. He argues that iodine deficiency is the only known example of a relationship between soil composition and human nutritional status. Stare adds that an increase in soil fertility leads to increased crop yields but not to increased crop quality. Increasing soil fertility, says Stare, does not increase the vitamin or mineral content of the crops.

The FDA states the following authors and lecturers are the best-known propagandizers of the "four nutritional myths": Lelord Kordel, Carlton Fredericks, Adolphus Hohensee, William L. Abt, Royal Lee, Gaylord Hauser, Dr. Herman Taller, Dr. D.C. Jarvis, Bob Cummins, Dr. Allen E. Banik, and Dr. H. Curtis Wood. There are many more.

Next Monday: "How the FDA plans to crack down on food faddists." Address: Times Medical Writer.

1890. Jones, Mary Lou. 1964. Better soybean recipes. Anacortes, Washington: Outdoor Pictures. 58 p. Index. 22 cm.
• ***Summary:*** This small book is primarily about soy milk–how to make and use it. Contents: Introduction. 1. Working tools. 2. How to make a portable stove with a portable oven and kerosene oil lamp. 3. Ingredients for recipes: Soybeans, lecithin, oil, calcium phytate, slippery elm, flax seed, herbs. 4. Preparation of soybeans.

5. Recipes (p. 21): Thickening (with slippery elm or lecithin), oil-lecithin mix, soy milk recipes (soybean liquid {"Refrigerate pulp to make Soy Cheese [p. 26], Cultured Cheese, or Soy Crackers [p. 31]," p. 23}, soy milk–basic, soy milk concentrate [the favorite, with salt, honey, and oil-lecithin mix], low fat soy milk concentrate, chocolate-like milk [carob], chocolate-like syrup [carob], soy cream {made with "1 cup Soybean Liquid" [soy milk] put in a liquefier with water, salt, slippery elm powder, then Whiz while adding lecithin and vanilla}, whipped cream [to ½ cup soy cream slowly add 2 tablespoons oil-lecithin mix in a blender], ice cream, custard pudding, basic soy cheese [not tofu, based on okara]), dressings and spreads (royal mayonnaise, salad dressing supreme [based on tofu], cheesy spread or dressing [based on tofu], soy butter or health margarine, royal soy margarine, butter spread [made with "soybean pulp" = okara], oil free butter spread [made with ½ cup soy milk, ¼ cup lecithin, a little salt, and one recipe of Soybean Pulp {okara; see p. 24}]).

Cereals (p. 30) (flax cereals [2 types], soy crackers [with soybean pulp], soybean and corn meal muffins [with whole soybeans], sprouted grain granola [breakfast cereal]). Soy bread recipes (eight-grain sprouted soy bread, whole wheat soy bread, bread recipes without soybeans, basic variable whole wheat bread, enriched whole wheat bread, bran whole wheat bread, carob bread, peanut bread, eight-grain sprouted bread), waffles (soy waffles, eight-grain soy waffles, pigeon feed waffles).

© Copyright Soyinfo Center 2021

Entrees (p. 41) (gluten supreme [meat substitute], malt flavored ice cream, mayonnaise, salad dressing, concentrated dressing base, gravy, soybean souffle), dextrinizing (heating starchy foods to turn the starch into more easily digested sugar), suggestions for using prepared soybeans without using a liquifier [pickle cooked soybeans in concentrated dressing base], yogurt (soy-based medium for culture, yogurt made from soy milk), watermelon and cantaloupe seed, fresh kelp relish.

6. Sprouting seeds (including soybeans): Four methods, how to serve sprouts (incl. Sukiyaki). Some variations in making soy milk.

Page 22 is a directory of the names and addresses of major health food distributors in the USA: California: Kahan and Lessin Co. (Los Angeles, or San Francisco). Colorado: Health Food Sales Co. (Denver). Illinois: Health Food Jobbers, Inc. (Chicago). Massachusetts: Foods Inc. (Cambridge). Michigan: Health Food Distributors (Detroit). New York: Sherman Foods, Inc. or Balanced Foods, Inc. (New York City). Oklahoma: Akin Distributors (Tulsa). Oregon: Nu Vita Foods (Portland). Tennessee: Collegedale Distributors (Collegedale). Washington state: Kahan & Lessin Co. or Vital Foods Distributors (Seattle).

This book contains considerable information about gluten and the use of the gluten rinse water (as in breads or soups). Pages 41-42 contain a unique recipe for making 2 pounds of gluten at home from whole wheat flour. The gluten is then baked with a seasoning mix and the rinse water for 10 hours at 108ºF to make Gluten Supreme.

Concerning dextrinizing: "This process is acclaimed by many health authorities to be a more healthful way of eating some starchy foods. Many people who have digestive problems with starchy foods can eat them prepared by the dextrinizing process. This process is said to turn the starch into a more easily digested sugar." Breads, cereals, or flour can be dextrinized by baking at 225ºF until lightly browned.

Note: This is the earliest English-language document seen (June 2013) that uses the word "soybean pulp" to refer to okara. Address: Box 1326, Escondido, California.

1891. Lager, Mildred; Jones, Dorothea Van Gundy. 1964. Suggestions for the arthritic. Recipes and menus. Riverside, California: Mrs. E.S. Jones. 68 p. 22 cm.

• ***Summary:*** Contents: Part I. Arthritis–The result of many conditions: Types of arthritis, causes of arthritis, suggestions, foods for the arthritic, my own case. General outline of the diet: Juice diet, limited diet, general diet. Other suggestions: Mental attitude, comments 1957, comments 1961. Part II. Menus. Carbohydrate content of fresh fruits. Carbohydrate content of dried fruits. Carbohydrate content of fresh vegetables. Recipes.

Mildred wrote that proper diet was the greatest factor in her recovery from arthritis. Based on her own experience and that of many others who she helped, she strongly opposed the use of dairy products, and thus used dairylike soy products in their place, especially soymilk, tofu, and soy flour or grits.

Mildred wrote in Aug. 1957 that it has been 32 years since she began her battle with arthritis. In a Feb. 1961 update to this book Dorothea wrote that Mildred died on 25 Jan. 1960. "Hers was a very remarkable life in that while still in her teens she was told, after examination at a noted medical clinic, that she had incurable arthritis and would never walk again, her feet and legs being completely ankelosed at that time. In spite of this verdict Mildred went home with a determination to show those doctors they were wrong, and show them she did, for before long she was back on her feet again. You already know her story. For the next forty years she battled arthritis, never quite winning but keeping it under control to the extent that she lived a normal life and made a remarkable contribution to the field of nutrition as, health food store owner and operator, author, lecturer, radio commentator and dietary consultant. She taught many arthritics how to overcome their handicaps, and if that was not possible, how to live with them. Her life made a real contribution and she left many friends as a result." Address: Riverside, California.

1892. *Natural Food and Farming* (*Atlanta, Texas*). 1965. Health food store directory. 11(8):42-42. Jan.

• ***Summary:*** The directory is arranged alphabetically by state. The states with the most stores listed are: Texas 11, California 7, Ohio 6, Illinois 5, and Florida 3.

Note: This is the first issue of this magazine which contains a "Health Food Store Directory"; it is 1.5 pages long.

1893. James, W.S. 1965. The Vegetarian Nutritional Research Centre, 1959-1964. *British Vegetarian.* Jan/Feb. p. 29-32.

• ***Summary:*** Discusses the history and activities of the Centre, Wanderlac and Velactin, Frank Wokes, N.W. Pirie, Cyril Vesey, vitamin B-12, leaf proteins, etc.

The article begins: "Since the Research Centre was inaugurated in Stanborough Park near Watford in 1959, I have, as a member of its scientific sub-committee, been in close contact with its activities of which the following is a brief summary.

"Scientific investigations must be based on much previous experience. The Research Centre was fortunate in starting in 1959 under the guidance of Dr. Frank Wokes with over thirty years' experience of nutritional research especially on vegetarian foods. In 1958 [sic, 1959] this culminated in the marketing of the first British vegetable milk Wanderlac, now called Velactin (A. Wander Limited). At the inaugural meeting of the Research Centre there were several vegetarian experts whose investigations during the previous ten to fifteen years had done much to help directly or indirectly in the development of Wanderlac. These

© Copyright Soyinfo Center 2021

included Dr. W.W. Payne and Dr. Cyril Pink, who carried out clinic trials on babies at Great Ormond Street Children's Hospital and at the Vegetarian Nursing Home, Blackheath, respectively. Dr. Lester Smith, F.R.S., whose discovery of vitamin B-12 in 1948 gave a clue to the successful use of vegetable protein, was also present. As the Royal Society's adviser to the research project on vitamin B-12 in Stanborough School, in which the Research Centre has played a leading part, Dr. Lester Smith has taken increasing interest in its work.

"In October, 1959, the Research Centre helped to arrange a meeting in Manchester on leaf proteins, addresses being given by the leading expert Mr. N.W. Pirie, F.R.S., and by Dr. Wokes, who had for some years previously been studying these problems with Mr. Pirie."

"When the Research Centre started in 1959 its administrative headquarters were at Stanborough School where the headmaster, Mr. Richard Syme, its chairman until February, 1961, and his colleagues gave great help. Mr. Cyril Vesey, B.Sc., head of the school's science department, first functioned as Secretary and as Treasurer, but towards the end of 1960 handed the latter duties over to Mr. Ted Cox. Mr. Vesey, as well as taking an active part with Dr. Wokes and his son Richard in establishing the research laboratory, remained Secretary until 1964, when his secretarial duties were taken over by Mr. Ronald Luxton, another member of the school science department. Mr. Harry Leonard, B.A., a third member of the school staff, served as Committee Chairman in 1961 and again in 1963-1964.

"Steady increase in the Research Centre's activities showed the need for its own headquarters. In 1961 these were established at Dr. Wokes' residence, on the outskirts of Stanborough Park, close to the research laboratory. They contain the registered office of the Centre, also a library housing its books and records, providing a unique collection of information on vegetarian nutrition." Address: M.Sc., Chairman.

1894. *Natural Food and Farming* (*Atlanta, Texas*). 1965. Health food store directory. 12(2):41-42. July.
• ***Summary:*** "This directory is printed six times each year as a service to those who wish to buy good food. A free copy is available to anyone on request. Write NFA Health Food Directory, Box 210, Atlanta, Texas."

The directory is arranged alphabetically by state. The states with the most stores listed are: Texas 9, California 7, Illinois 6, Ohio 6, and Florida 5. Stores with "Natural Foods" in their name are: (1) Chamberlain Natural Foods, Orlando, Florida. (2) Natural Food Center, Lakeland, Florida. (3) Hale's Natural Foods, Alston, Illinois. (4) Walker and Westbrook Natural Foods, Belleville, Illinois. (5) A & B Natural Foods, Ft. Wayne, Indiana. (6) Beeler's Natural Foods, 127 East Ohio St., Indianapolis, Indiana. Indiana's largest and oldest natural food store–Serving our community since 1929. (7) Good Earth Natural Foods Supermarket, New York City, New York. (8) Massie's Natural Foods, Grant's Pass, Oregon. (9) Gigler's Natural Foods, Klamath Falls, Oregon. (10) Natural Foods, Lancaster, Pennsylvania. (11) Mease's Natural Foods, Schoeneck, Pennsylvania. (12) Natural Foods Center, Marshal, Texas. (13) Natural Food Center & Juice Bar, Houston, Texas. (14) Moore Natural Foods, San Antonio, Texas.

1895. Natural Food Associates. 1965. The Farmer's Market (Ad). *Natural Food and Farming* (*Atlanta, Texas*) 12(2):43-46. July.
• ***Summary:*** This section of classified ads is divided into natural organic foods and other classified ads. The natural organic foods section, 2.2 pages, has entries listed alphabetically by state. The rates are $24 per year for four lines–additional lines $4 each per year. Payable to Natural Food Associates, Atlanta, Texas.

Under "Texas" is this entry: "Deaf Smith County organically grown, high gluten, hard winter wheat from our mineral-rich soils, cleaned. $7.50 / 100 lbs., $60.00 / 1,000 lbs. F.O.B. Arrowhead Mills, Box 866, Hereford, Texas.

Note: This is the earliest document seen (March 2020) that mentions "Arrowhead Mills" of Hereford, Deaf Smith County, Texas.

1896. **Product Name:** Plantmilk (Soymilk. Renamed Plamil by Oct. 1966. Called Soya Plantmilk in Feb. 1979. Later renamed Soya Milk).
Manufacturer's Name: Plantmilk Ltd. (Renamed Plamil Foods Ltd. in 1972).
Manufacturer's Address: Tithe Farm, High St., Langley, Slough, Buckinghamshire, England.
Date of Introduction: 1965 August.
Ingredients: Incl. soya protein isolate.
Wt/Vol., Packaging, Price: Can.
New Product–Documentation: *The British Vegetarian.* 1965. July/Aug. p. 316. "Availability of Plantmilk." "Our private carrier service makes deliveries to the London and Birmingham areas, and to most towns in the following counties:-" Seventeen counties are listed. "Plantmilk may, therefore be obtained from your nearest Health Food Store in the above defined areas... Those living outside these counties may obtain supplies by mail order service from: 'Healthiways', 5 Tranquil Passage, Blackheath, London, S.E. 3."

The British Vegetarian. 1966. Jan/Feb. p. 34-38. "The development of Plantmilk." Plantmilk is sold in cans as a liquid, concentrated to twice the recommended concentration. "The protein content of plantmilk is higher than human milk and about the same as cow's. It is derived from two sources–leaves and soya."

The British Vegetarian. 1966. Sept/Oct. p. 444. "Plantmilk News." "The availability of 'Plamil' and

© Copyright Soyinfo Center 2021

other products made by Plantmilk Ltd. is now improved by the recent extension of our distribution service to Staffordshire, Worcestershire, Warwickshire, Derbyshire, Northamptonshire, Leicestershire, Bedfordshire, Hunts. [sic, Hampshire], Rutland, and North Norfolk. From 1st October supplies of our lines will be available to Health Food Stores anywhere in England, Scotland, Wales and Northern Ireland.

The British Vegetarian. 1967. March/April. p. 147. "Attractive new label for 'Plamil'" Cans of liquid Plamil plantmilk will soon be appearing in Health Food Stores with a more attractive label, bearing a pleasant scenic design in white and green, giving a fresh, country appearance." On p. 180, in a letter from C.A. Ling, we learn that Plantmilk Ltd. is located at Langley, Buckinghamshire, England. In the May/June 1967 issue, p. 246, we learn that the protein in Plamil "now comes mainly from soya (one of the best plant proteins nutritionally)."

Ad (full-page) in *The British Vegetarian.* 1968. Jan/Feb. p. 5. "The milk of tomorrow, today!" The label reads: "Plamil- Use like milk. Delicious used neat as a cream."

The British Vegetarian. 1969. Sept/Oct. p. 461-63. "Plantmilk."

Letter to *The British Vegetarian.* 1970. May/June. p. 206. "Cost of Plantmilk." The writer complains that at 3/4d. per tin it is too expensive.

Ad (¼-page) in *The British Vegetarian.* 1970. May/June. p. 207. "Meat and Milk." "You can't have one without the other!" Letter to *The British Vegetarian.* 1970. July/Aug. p. 290, 290. "Plantmilk" It is too expensive. "After all, 2s. 6d. per pint for Plamil against 11d. per pint for cow's milk is a big difference. [Note: Since 12d. = 12 pence = 1 shilling, Plamil costs 2.7 times as much as cow's milk.] Letter from Frank Wokes to *The British Vegetarian.* 1970. Sept/Oct. p. 462. It would be easier and cheaper to prepare plantmilk in India from soya beans grown domestically using Dr. Harry Miller's original method. The product would be cheaper than cow's milk.

Alive magazine. 1978. June. p. 14-15; Ad in *Alive* magazine. 1979. Jan/Feb. p. 19. Letter from Plamil Foods Ltd. They were the pioneers in liquid soya milk in England in 1965.

Shurtleff & Aoyagi. 1984. Soymilk Industry & Market. p. 118. "One of the first successful soymilks in Europe after World War II." The first soymilk made or sold in England after the war.

1897. Buller, Allan R.; Klis, John B. 1965. Spun soy protein foods get supermarket sales test: Duplicating meat fibers, protein value. Improved meat substitutes, recently established in health food stores, win chain-store distribution. *Food Processing* (*Chicago*) 26(9):115-17, 120. Sept.
• ***Summary:*** "Health food stores have been the traditional outlets for meat-alternate products, but Worthington Foods, Inc. Worthington, Ohio, has taken the initial steps toward moving these products into general distribution.

"Using spun soy protein fiber as the basic ingredient, Worthington Foods has developed a full line of products that look, taste, and chew like chicken, pork and beef products. Test marketing of two items is being done in three chains in Columbus, Ohio–Alber's, Big Bear, and Kroger. The two spun soy protein foods, Wham, a ham-like product, and White-Chik, simulated white meat chicken, are both being well received by consumers in these marketing tests... Use of the fibers in foods is subject to a patent owned by Ralston Purina Company. In Columbus, both Wham and White-Chik are priced at $0.69 for an 8-oz package. New foreign distribution, principally in Norway and Sweden, has already added some volume."

A large photo bears the caption "Worthington's line of spun soy protein meat-like products are packed in canned, frozen, and dehydrated forms." Frozen products in thin paperboard boxes include White-Chik, Fri-Chik, Prime, and Wham. Canned moist products include Veja-Links, Soyameat (many flavors), Saucettes. Meat Loaf Mix is a dry canned product. Prime is in a plastic pouch.

A newspaper ad for frozen Wham stresses the product's low fat content ("65% less fat than cured ham"), convenience, and the fact that it contains no meat." A photo shows a rack of meatless Prosage, which resembles a pork sausage made by Worthington, ready for quick freezing. Prosage does not shrink when fried.

"Edible spun soy protein fibers, sold under the trademark Fibrotein, are supplied in fresh frozen and dehydrated forms to the food processing industry by Worthington Foods, Inc., 900 Proprietors Rd., Worthington, Ohio 43085. The company also supplies imitation meats made from Fibrotein in fresh, frozen and dehydrated forms. The imitation meats are available in slices, cubes, chips, granules, round rolls, square logs and in other shapes and sizes."

Note: This is the earliest English-language document seen (Nov. 2014) that contains the term "imitation meats" (with any combination of quotation marks). Address: 1. General Manager, Worthington Foods, Inc; 2. Assoc. Editor.

1900. Virendrasingh, Maharajkumar. 1965. Soybean–The crop without a peer: Answer to India's protein malnutrition.

© Copyright Soyinfo Center 2021

Commerce (*Bombay*) 111(2852):A120-A122. Dec. Annual number at back of volume. [13 ref]

• ***Summary:*** One of the oldest known crops, the soybean dates back about 5,000 years. It was first described in a materia medica as long ago as 3838 B.C. prepared by the Chinese Emperor Sheng-Nung [sic, Shen-Nung], who was known as the "Heavenly Farmer."

"Soybean eaters are more physically fit and have more stamina than people who subsist on rice, millet and other grains."

In 1804 the soybean was introduced to the USA [sic]. In 1898 many soybean varieties were imported and tested, but not until 1924 did it enter into the official record [sic], "according to pioneer, Bill Baker from California of soybean fame." The USA discovered the value of soybean during World War I, but gave it its rightful place during World War II.

"In India, as nutritionists and agronomists came to know of the immense possibilities and nutritional value of the soybean, attempts were made to grow it, but it has not caught on, perhaps because the varieties tried were unsuitable for propagation in the soil and climate of our country. Further, there was no ready market to take the small produce and it did not prove of economic advantage.

"High nutritive value at low cost: The soybean can be virtually regarded as 'the miracle golden bean of the twentieth century,' because it is an oilseed with a high protein content. The country that has this crop on a major scale or can develop it need not worry about protein malnutrition among its people.

"The soybean has the supreme quality of being the only vegetable protein to possess all the essential amino-acids required for maintenance and growth. It is a complete vegetable protein like meat, milk, eggs and cheese,..."

"Research workers at the Central Food and Technological Research Institute at Mysore maintain that the soybean contains twice the quantity of protein as the common pulses of India." For Indians today, the best source of oilseed protein from crops grown in India is the groundnut. "However, on equal production per acre, the soybean yields twice the quantity of protein. Therefore, if soybean growing can be developed, we stand a better chance of meeting the protein needs of our people.

"Uses in Indian diet: The Indian diet has a preponderance of cereals, especially rice and wheat, which of themselves do not have enough proteins and protective elements to build and maintain health.

"The soybean is described as the poor man's meat."

"Other protein products developed recently are soy beverages and soy soups. Soy beverage can replace milk. Two tablespoons stirred in a glass of water can provide the protein deficiency in our diet. Soy protein fibres have been developed and when flavoured can be so prepared that vegetarians can have the pleasure of having chicken and meat made from vegetable protein.

"Miss T. Phillip, Principal of the Institute of Catering Technology and bean Council of America, Inc., provided. The work was sponsored by us. These products can be incorporated in popular Indian dishes as *Nimki, Sev, Samosas, Pakoder, Sambar, Alu Chole, Batata bhajee, Dalwada, Rava dosa, Oppuma* and sweets like *Ladoo, Shakarpara, pooran poli, Sooji Halva.* Soy flour did well in bakery product. Miss Phillip has reported excellent acceptability."

Soybean is an excellent source of low-priced, edible vegetable oil. "The first ever major agreement by the U.S. for the supply of soybean oil to India was signed on 30th September 1964 for a quantity of about 75,000 metric tons valued at about Rs. 9 crores. The oil began coming in March 1965. The price has averaged Rs. 1,525 a metric ton inclusive of freight and duties. On the whole, it has been half the price of domestic peanut oil. It has helped the *vanaspati* industry to meet its requirement of raw materials... Soybean oil helped to keep the price of *vanaspati* at a reasonable level as compared with liquid edible vegetable oils. The industry has approached the Government of India to request for another 150,000 metric tons of U.S. vegetable oil, and it is hoped at the time of writing this that it will come through. U.S. vegetable oil can be supplied under title I of P.L. 480."

Contains a long quotation by Glenn H. Pogeler, President of the Soybean Council of American, in a Dec. 1964 address to the Delhi Fats and Oils Symposium. It begins: "The United States consumer pays a smaller proportion of his income for food than any other consumer in this world."

Tables show: (1) India: Production of the five major oilseeds and their products (1958-59 to 1963-64)–Groundnut (by far the largest), rape and mustard, sesamum, linseed, and castor seed. (2) Oilseed yields (pounds per acre) of the above five (1958-59 to 1963-64): Peanuts (in the shell) have by far the largest yield–622 to 727 pounds/acre. (2A) Cost of protein content of major foods (wholesale on world market): The 3 least expensive sources (in U.S. cents per kg) are defatted soybean flour (40), fish flour (50), dried skim milk (51). (3) USA soybean oil and meal, supply and disposition. (3a) Consumption per caput per annum of (visible) food fats and oils (in lbs.): Netherlands 70, West Germany 56, Australia 49, USA 46, India 11. Address: Director for India, Soybean Council of America, Inc.

1902. **Product Name:** Kreme-O-Soy, and Infa-Soy (Hypoallergenic Baby Formula).
Manufacturer's Name: Nutrition International Corp. (Formerly Madison Foods).
Manufacturer's Address: Box 415, Madison, TN 37115.
Date of Introduction: 1965.
New Product–Documentation: Soybean Blue Book. 1965. p. 115. Also listed in 1970. Note: Kreme-O-Soy was soymilk.

1903. **Product Name:** Soya Bean Luncheon Loaf, and Savoury Roast (Meat Substitutes).
Manufacturer's Name: Soy Products of Australia Pty. Ltd.
Manufacturer's Address: 69 Power Road, Bayswater, VIC 3153, Australia. Phone: 729-1738.
Date of Introduction: 1965.
Ingredients: Incl. soybeans, tomato sauce or puree.
Wt/Vol., Packaging, Price: Tin-plated steel can.
New Product–Documentation: Letter from Paul Smith of Soy Products of Australia Pty. Ltd. 1981. Vincent R. Smith was a soyfoods pioneer in Australia. Between 1965 and 1974-75 Mr. Smith developed and manufactured two soyabean meat substitutes–Soya Bean Luncheon Loaf, and Savoury Roast–for Bellevue Health Supplies, as part of his product range within F.A. Robert's Health Foods Proprietary Ltd. This latter company has since been absorbed within Soy Products of Australia Pty. Ltd.

1904. Bieler, Henry G. 1965. Food is your best medicine. New York, NY: Random House. xv + 236 p. Index. 22 cm. First Ballantine Books ed., 1982.
• ***Summary:*** Dr. Bieler, who has been a practicing physician for over 50 years believes (p. vii): (1) The primary cause of disease is not germs but "toxemia, which results in cellular impairment and breakdown." (2) In "almost all cases, the use of drugs in treating patients is harmful." (3) "Disease can be cured through the proper use of correct foods."

He also has found that "nature does the real healing, utilizing the natural defenses of the body. Under the proper conditions nature, if given the opportunity, is always the greatest healer. It is the physician's role to assist in this healing–to co-operate with nature's forces; to play a supporting role instead of star of the show." He has "been in disagreement, at time sharp, with organized orthodox medicine" (p. xiv).

Twenty-five hundred years ago on the island of Cos in classical Greece, Hippocrates admonished his "circle of medical students in one of his most pithy and precise aphorisms: 'Thy food shall be thy remedy'" [medicine]. No one to date has more eloquently given us a way of life." Yet most physicians who take the Hippocratic Oath do not believe or practice this teaching of Hippocrates (p. 3).

Proteins are body builders and important for good nutrition, but consumed in excess they "can be body killers." Too much of a good thing is not necessarily good (p. 177-200).

He is frequently asked about the value of a vegetarian diet. He does not advocate it as a way of life–but neither does he understand it, for he says that "many who call themselves 'vegetarians' eat cheese, butter, eggs, and also drink milk; they are not true vegetarians but, rather, non-meat eaters. In that way they remain on an excellent diet from the standpoint of nutrition." Note: Vegetarians do not eat flesh foods–meat, poultry, or fish; they may eat dairy products and eggs.

Also discusses: Explorer Vilhjamur and the importance of raw meat and fish in the diets of healthy Eskimos (p. 190). Francis F. Pottenger, Jr. and his research (over 5 years using 109 cats) showing the very harmful effects of cooked meat or milk in the diet of cats (p. 191-93, 198).

Talk with Chef Akasha Richmond. 2004. Feb. 9. She has read in two places that he was Gloria Swanson's personal physician. He prescribed "Bieler Broth" [a potassium-rich vegetable broth] for whatever ails 'ya (see p. 205). In the introduction to her English-language of *The Physiology of Taste,* by Anthelme Brillat-Savarin (lived 1755-1826) M.F.K. Fisher says some remarkably wonderful things about Dr. Bieler. Address: M.D., Capistrano Beach, California.

1905. Boots, Gypsy; Hopkins, Jerry. 1965. Bare feet and good things to eat. Los Angeles, California: Virg Nover, Printer. iii + 162 p. Illust. No index. 18 cm. Introduction by Steve Allen.
• ***Summary:*** This is the autobiography of Gypsy Books (born Robert Bootzin in 1911 in California) as told to Jerry Hopkins. Retail price: $1.00. His father, Max, came to the USA from Europe without a penny and raised a happy family in San Francisco. They were raised on an organic, natural foods, vegetarian diet. His parents taught him to be happy, to love every person, to live a healthy but simple life, and to laugh a lot. Today he lives with his wife, Lois, and three kinds in a small cottage in Los Angeles.

In the 1940s he was one of the roughly 15 "Nature Boys" who lived in Southern California and shared a common desire to "abandon civilization and live a natural, healthy life." He and Eden Ahbez were friends for two years. Eden wrote the words to "Nature Boy" which begins: "There

© Copyright Soyinfo Center 2021

was a boy / A very strange, enchanted boy; / They say he wandered very far, / Very far over land and sea." Some 2-3 years later Nat King Cole recorded this song of Eden's and shortly thereafter Eden became a celebrity, with his photo in *Life* magazine. The song he had written was at the top of the national Hit Parade, and the record sold a million copies. Today Eden lives in one of the canyons north of Los Angeles.

In 1958 Gypsy and his wife opened a "Back to Nature Health Hut" in Hollywood, not far from Beverly Hills (p. 50). A huge sign on top read "Organic Fruit, Produce & Juice." There he served many fruits, nuts, vegetables and healthy foods. Many celebrities came. Among his biggest boosters were Gloria Swanson, Steve Allen, and Pat Boone. At his first luau he served a Baked soy bean casserole (using whole dried soy beans; recipe on p. 55). Other soy-related recipes: Soya-rice flour coffee cake (with soya flour and brown rice flour, p. 64). Rye bread (with soy oil, p. 65).

There are chapters on fasting (5), health for growing children (13), salads (14), healthy drinks (15; he avoids alcohol and loves carrot juice and herb teas), vital foods (16-20, incl. soy beans, p. 111; and lecithin, p. 140), the Gypsy Boots Corporation (24; one of its products is the Gypsy Boots Energy Bar, p. 153-54; it contains malted milk crunch, vegetable oil, carob powder, brown sugar, skim milk, sunflower seeds, sesame seeds, and lecithin). Joe Weider is one of the people who have influenced him most in life (p. 157); others are Paul Bragg, Indra Devi (yoga teacher), Prof. [Edmond] Szekely (who lives at Rancho La Puerta in Mexico). The book contains 20 pages of photos, most showing Gypsy Boots with various celebrities, including: (1) Some of California's "nature boys." (2) Charlton Heston. (3) His health hut in Los Angeles. On the cover is a photo of Gypsy and Steve Allen.

Talk with Gypsy Boots. 2000. July 9. Gypsy does not remember exactly when his Energy Bar was first sold commercially, but it was probably in the late 1950s or early 1960s. As far as he knows, it was America's first "Energy Bar," made at first in small quantities by a Hungarian candy maker. For more information, visit his Web site at www.gypsyboots.com. He will be celebrating his 90th birthday on 19 Aug. 2000 at Paramount Studios in Hollywood. He now lives in Camarillo, California, and still has lots of energy.

Note: Talk with Chef Akasha Richmond. 2004. June 14. She was scheduled to meet Gypsy yesterday, on Sunday, June 13, to drive him to a book signing. He never showed up. She was worried, and quickly found out from his caretaker and close personal friend that he had to go to the hospital for surgery. The caretaker then told Akasha that he was not born in 1911, but on 14 Aug. 1916; his caretaker learned this from Gipsy's first wife. Years ago, he started to use the 1911 date to make him look older than he really was when he first appeared on the Steve Allen show. Address: Los Angeles, California.

1906. Clark, Linda A. 1965. Get well naturally: Nature's way to health. New York, NY: Devin-Adair Co. 408 p. Index. 22 cm. Foreword by Royal Lee (D.D.S., Lee Foundation for Nutritional Research, Milwaukee 3, Wisconsin). [173+* ref]
• ***Summary:*** Partial contents: Author's note. Part I: Some unusual treatments. 1. Believe it or not. 2. How to be healthy. 3. Why drugs? 4. Who is to blame? 5. Is it safe to do it yourself? 6. Who can help you? 7. Homeopathy. 8. The biochemical sell-salts–flower remedies [Dr. W.H. Schuessler, Mira Louise of Australia, Dr. Edward Bach of England]. 9. Do herbs help? 10. Pressure therapy–acupuncture... 14. Stranger than fiction–The Edgar Cayce readings.

Part II: Health through nutrition. 15. Our "good" American diet. 16. Nutritional help for stress. 17. The magical mineral magnesium. 18. Macrobiotics. 19. When to begin nutritional therapy. 20. The star exercise.

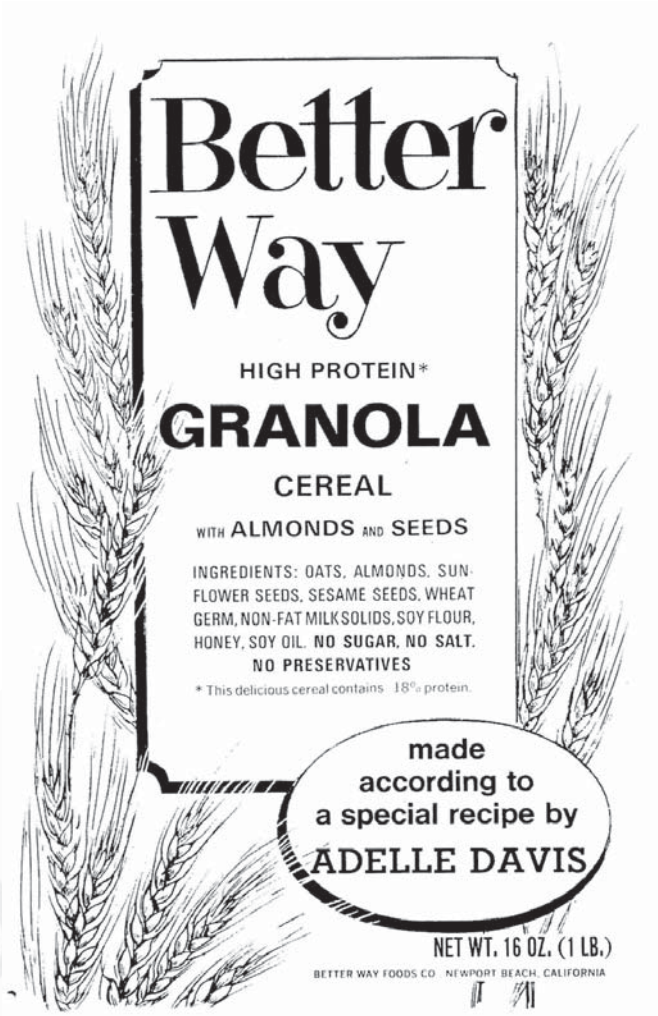
Part III: Treating diseases naturally. 21. Alcohol and alcoholism. 22. Allergies. 23. Anemia... 28. Cancer. 29. Some little-known cancer treatments. 30. Constipation. 31. Eyes–How to see better. 32. Fallout–How to bypass it... 37. Heart ("Soybean oil is the only oil commonly used which is rich in linolenic acid {*Lancet* Nov. 7, 1964"}). 42. Overweight and fasting. 44. Miscellaneous natural remedies.

About the author (inside rear dust jacket): Under a large portrait photo we learn that her university training was in education, psychology, and nutrition (we are not told from which university). She is a busy housewife, mother, and grandmother. She writes a column for two health publications and edits a well-known health magazine. "For the past three years she has conducted a daily radio program on the West Coast and has spoken at nutritional meetings and conventions." Address: M.A., Carmel Valley, California.

1907. Davis, Adelle. 1965. Let's get well. New York, NY: Harcourt, Brace & World. 476 p. Index. 18 cm. [2402* ref]
• ***Summary:*** This book is about various common health problems and diseases and how they can be treated or cured by changes in diet. These include cholesterol problems, heart attacks, overweight, ulcers, diabetes, arthritis, infections, skin problems, digestive tract problems, allergies, liver damage, gall bladder problems, gout, kidney diseases, blood pressure, disorders of the nervous system, anemia, women's problems, bone problems, surgery, accidents, burns, what about sex?, eye problems, cancer, Last chapters: The two unvarying rules, planning your nutrition program, a fortress against disease, medical references.

Soy lecithin, soy flour, soy milk, and soy oil (source of linolenic acid and vitamin E) are widely discussed.

"Adelle Davis [Miss], one of the country's best-known nutritionists, studied at Purdue Univ., graduated from the Univ. of California at Berkeley, and took postgraduate work at Columbia Univ. and the Univ. of California at Los Angeles before receiving her Master of Science degree in



© Copyright Soyinfo Center 2021

biochemistry from the Univ. of Southern California Medical School." Note the large number of references in this book. Her other books were "Let's Cook It Right" and "Let's Have Healthy Children." Over 8,000,000 Adelle Davis books in print. Note: Adelle Davis died in 1975. Address: Los Angeles, California.

1908. Richmond, Sonya. 1965. International vegetarian cookery. London and Glasgow: Collins. 192 p. Index. 22 cm. Published in the USA by Arco in 1967.
• ***Summary:*** This book, dedicated to the author's yoga pupils, arranges recipes (mostly entrees and soups) by country. The only Asian countries included are China and India; Japan is not. The author, who appears to be British, has collected these recipes from other vegetarians during her travels. The only soy-related recipe in the book is "Soya Bean Noodles," listed under China (p. 49). The introduction to the recipe reads: "This is a most useful recipe for the vegetarian because it requires soya bean flour. As I have said before [where?] soya bean is one of the most valuable sources of protein known to man. It is easy to buy soya beans, both whole and cracked, in health-food shops and delicatessens. It is equally easy to obtain soya bean flour which is yellow in colour. Do not attempt to use it like ordinary flour for it contains no starch and therefore is not a thickening agent. It has to be cooked according to its own nature. This Chinese recipe makes excellent use of it, and this recipe is also extensively used in Japan." The only ingredients are: 1 lb. soya bean flour, 2 egg yolks, 1 tsp. salt, and cold water as required. No wheat flour is used.

1909. Baker (Bill) International. 1965? Stylized illustration of a baker carrying the globe of the world. Ojai, California. 1 p. Undated. 28 cm.
• ***Summary:*** This illustration shows a baker with a tall chef's hat (and the year 1897 on the front headband), a handlebar moustache, walking with his left arm and right foot extended forward. On his right arm, extended backward, he is carrying a globe of the world. Above the top of the globe is written Bill Baker International. Address: Ojai, California.

1910. **Product Name:** Better Way High Protein Granola Cereal.
Manufacturer's Name: Better Way Foods Co.
Manufacturer's Address: Newport Beach, California.
Date of Introduction: 1965?
Ingredients: Oats, almonds, sunflower seeds, sesame seeds, wheat germ, non-fat milk solids, soy flour, honey, soy oil.
Wt/Vol., Packaging, Price: 1 lb bag.
How Stored: Shelf stable.
New Product–Documentation: Label (black-and-white photocopy) sent by Chef Akasha Richmond of Los Angeles. 2005. March 2. Above the list of ingredients in bold capital letters: "With Almonds and Seeds." Below the list: "No

sugar, No salt, No preservatives. * This delicious cereal contains 18% protein." In a prominent oval at the lower right of the main panel: "Made according to a special recipe by Adelle Davis." On both sides of the main panel are illustrations of ears of wheat. Note: It is not clear whether this is a label or a leaflet.

1911. *Natural Food and Farming* (*Atlanta, Texas*). 1966. Health food store directory. 12(12):42-43. May.
• ***Summary:*** The directory, arranged alphabetically by state, is 1.7 pages long.

1912. *British Vegetarian.* 1966. Plantmilk news. Sept/Oct. p. 444.
• ***Summary:*** "The availability of 'Plamil' and other products made by Plantmilk Ltd. is now improved by the recent extension of our distribution service... From 1st October supplies of our lines will be available to Health Food Stores anywhere in England, Scotland, Wales and Northern Ireland."

Note. This is the earliest English-language document

1914. **Product Name:** Pure Soya Powder (for Making Soy Milk).
Manufacturer's Name: El Molino Mills.
Manufacturer's Address: 3060 W. Valley Blvd., Alhambra, CA 91803.
Date of Introduction: 1966.
New Product–Documentation: Soybean Blue Book. 1966. p. 110. *Soybean Digest.* 1969. Nov. "El Molino offers a number of soy foods including breakfast foods, soy milk, vegetable soybeans, soy sprouts, and soy flour and soy flour mixes." It is not clear whether this product is soy flour or powdered soy milk. June Ranill. 1976. The El Molino Cookbook. p. 88. This product was sold in 1976 but was apparently discontinued by 1980.

Soybean Digest Blue Book. 1977. p. 33. Address is now 345 N. Baldwin Park Blvd., City of Industry, California 91746. Soya Bluebook. 1980. p. 50. Company is now a Division of ACG Co.

1915. **Product Name:** Seven Grain Cereal (Containing Soy Grits).
Manufacturer's Name: El Molino Mills.
Manufacturer's Address: 3060 W. Valley Blvd., Alhambra, CA 91803.
Date of Introduction: 1966.
New Product–Documentation: Soybean Blue Book. 1966. p. 106. Also listed in 1970.

Midwest Natural Foods Distributors, Inc. 1972. Catalog and price list. Nov. 1. Ann Arbor, Michigan. 58 p. See p. 14. "7 Grain Cereal." 1 or 2 lb.

1916. Bragg, Paul C. 1966. The miracle of fasting: For agelessness–Physical, mental & spiritual rejuvenation [First edition]. Burbank, California: Health Science. [vi] + 194 p. Illust. Ports. No index. 21 cm.
• ***Summary:*** At the top of the title page: "New discoveries about an old miracle–The 'fast' fasting way to health." Contents: 1. Getting the most out of life. 2. The miracle of fasting. 3. The enemy within our bodies [autointoxication]. 4. Toxic acid crystals can cement your movable joints, make you stiff and fill you full of misery! Fight deadly acid crystals by fasting. 5. Scientific fasting explained with full directions. 6. Why I drink distilled water exclusively. 7. How long should one fast? 8. How long should one fast for best benefits. 9. How to break a 24-hour fast.

10. I fast 7 to 10 days four times a year. 11. How to break a seven-day fast. 12. I do not believe in the enema during the fast. 13. Your tongue never lies [it is a mirror of your mucus membrane and of your health]. 14. Just grin and bear it. 15. Defeating mucus by rational fasting. 16. Fasting helps pounds melt away. 17. How to gain weight by a scientific fasting program. 18. Fight the sniffles and winter miseries with fasting. 19. Outwitting premature aging with fasting. 20. Fasting to keep arteries young.

You have nine doctors at your command: 21. Doctor sunshine. 22. Doctor fresh air. 23. Doctor pure water. 24. Doctor good natural food. 25. Doctor fasting. 26. Doctor exercise. 27. Doctor rest. 28. Doctor good posture. 29. Doctor human mind. 30. The science of eating for superior

© Copyright Soyinfo Center 2021

health. 31. Nature knows no mercy. 32. Food for thought.

Note 2. This is the earliest document seen (April 2010) in which Paul Bragg claims to have an "N.D." [doctor of naturopathy] degree or a "Ph.T." degree, or to be a "Life extension specialist." When did he get these degrees and from what school or schools? When and how did Bragg become a "Life extension specialist"? Paul says that he was raised in Virginia, mostly on fried food (p. 28). Note: Actually, he was born in Indiana.

Paul has a sister named Louise, who lived at their home in Virginia. She was teaching high school, but was thin and often looked run-down and emaciated; after work she often felt exhausted. During the summers he helped her to gain weight by fasting and exercise. She became beautiful and charming, married and had a happy family with children (p. 102-03).

In Chapter 30 are lists of recommended foods. These include Legumes–Soya beans (p. 179), and vegetable oils–Soya oil (p. 180). Lean meats and unsalted fish are okay to eat 2-3 times a week as a protein source.

In Chapter 32, "Food for Thought," are many superlatives. "The Best Play–Work. The Greatest Stumbling Block–Egotism." "The Most Dangerous Man–The Liar."

On the inside back cover is a list of 18 health books by Bragg, with the price of each. Most sell for $1-2 and can be ordered from Health Science.

The back cover is about the author. "Paul C. Bragg, N.D., Ph.T. Life extension specialist. Physical therapist, Natural nutrition and health culture pioneer. Author. Lecturer. Dietary advisor to the stars of screen, stage, TV. Originator of health food stores." "Here is a man–over three score and ten years of age [i.e., over age 70. True; he was born in Feb. 1895]–who still climbs mountains, plays vigorous tennis, swims for miles, and can out-walk, out-run and out-Live men who are half his age!

"Crippled by TB when in his teens, Bragg developed his own eating, breathing and exercise program to rebuild his diseased body into a citadel of glowing, radiant health and strength.

"Bragg teamed with Bernarr Macfadden to introduce America to the benefits of Physical Culture at the turn of the century. He was one of the first editors of the Physical Culture Magazine. He worked with Luther Burbank in California to produce healthful, organically grown fruits and vegetables. He opened the first Health Food Store in Los Angeles, California. Now over 2,500 such stores are open for business in almost every urban community in America.

"Bragg was the personal consultant on diet and exercise to Douglas Fairbanks, Sr., Tom Mix, Rudolph Valentino, Ethyl Barrymore, Ruth Roland and many other public performers. He has counseled kings, queens, politicians, sportsmen and statesmen."

Photos show: (1) Paul Bragg, smiling and looking healthy (cover and p. 62). (2) Bernarr Macfadden and Paul Bragg, both looking strong, happy and healthy, standing side by side with their arms around each others shoulders, bare from the waist up. Of the two, Bragg looks younger and stronger (p. 4). (3) Paul Bragg standing behind a table of fruits. He is a "Specialist in nutrition and life extension" (p. 41). (4) Paul Bragg doing a head-stand, fully clothed and wearing shoes. "Bragg's daughter, Patricia, hold's father's shirt so he can smile at the camera. Bragg stands on his head for five minutes every morning and five minutes every night" (p. 74). (5) Patricia Bragg (p. 83, 173). (6) Paul riding a horse, playing polo. "Bragg–Active sportsman today at 85 years young" (p. 108). Note 1. This is the earliest document seen (April 2010) in which Paul Bragg exaggerates his age. He says he is age 85. He was born on 6 Feb. 1895. Therefore in 1966 he would be about 71 years old.

(7) Paul Bragg and Bernarr Macfadden leading a thousand happy hikers, summer 1932, on the trail to Mt. Hollywood, California (p. 121). (8) Paul, bare from the waist up, with large chest and his "powerful body" (p. 126). (9) Paul, dressed in a white clinicians outfit, pointing to the colon in a transparent cross section of the human body. "Bragg shows danger area where poisons collect" (p. 146). (9) Bragg in a swim suit, laughing happily, riding an aquaplane behind a speedboat. "Bragg–An active athlete–Loves all sports" (p. 153). (10) Bragg dressed up in a sheriff's outfit, wearing a star, standing beside an old tree with a hanging noose rope, holding a pistol, which he is pointing at a sign that reads: "Wanted for Murder, Sheriff Bragg." For example: "Killer–Saturated fat. Choker–Hydrogenated fat. Clogger–Salt. Deadeye–Devitalized food." etc. (p. 172). Address: N.D., Ph.T., Life Extension Specialist, Box 310, Burbank, California 91503.

1918. Neufeld, Don F.; et al. ed. 1966. Seventh-day Adventist encyclopedia: Granose Foods Limited. Washington, DC: Review and Herald Publishing Assoc. 1640 p. See p. 527-28.

• ***Summary:*** "A health-food factory situated in Stanborough Park, Watford, Hertfordshire, England, manufacturing several kinds of nut foods and breakfast cereal biscuits, one of the latter being called Granose. In 1962 business volume [sales] totaled £250,000.

"The SDA [Seventh-day Adventist] health food work in Great Britain was begun by a group of laymen who, under the name The London Health Food Company, purchased health foods from Dr. J.H. Kellogg, of Battle Creek, Michigan, and distributed them to the public. After a few years SDA leaders in Great Britain sent J. Heide, a master baker, to Battle Creek to learn how to make the foods. In 1899 a manufacturing company was formed under the name The International Health Association Limited, changed in 1926 to Granose Foods Limited. The company purchased a flour mill in Salford, near Redhill, Surrey, to serve as the factory. Disused plant equipment obtained from Battle Creek, together with machinery purchased in Great Britain, formed the nucleus from which the present business has grown. W.T. Bartlett was the first manager and secretary and A. Rodd was the first factory superintendent.

"Before electricity was available, candles were often used, a practice that led to a fire that burned the factory to the ground in [Aug.] 1900. Health foods were again temporarily imported from America, but gifts and loans from SDA's re-established the company, in Birmingham.

"In 1907 all SDA institutions in England, including the food factory, were centralized at Stanborough Park, Watford. The factory has grown until in 1963 it had a floor space of approximately 25,000 square feet, and still further extensions were planned.

"Former managers included H. Osborne, J. Rigby, and George Adair. Joint managers in 1963 were George Norris and B. Goulstone."

Note 1. This is the earliest document seen (June 2009) that mentions the "London Health Food Company" or that explains its work importing health foods from Dr. Kellogg in Battle Creek, Michigan, and "distributing them to the public." Presumably the foods were sold.

Note 2. Concerning the term "Granose": Richard W. Schwarz in his book John Harvey Kellogg, M.D. (1970) discusses Granose Flakes on pages 119-20, and 209-10. The

© Copyright Soyinfo Center 2021

first flaked breakfast cereals were developed from wheat jointly by Dr. J.H. Kellogg and his brother Will, in about 1894. Dr. Kellogg named their first successful wheat flakes product Granose Flakes, and on 31 May 1894 he applied for a U.S. patent on "Flaked cereal and process for preparing same." But in 1903 courts declared the doctor's patent invalid. Will Kellogg developed the product into a great commercial success, in part by adding sugar to the malt and corn combination from which he made the flakes. "The sugar greatly enhanced the cereal's taste appeal, and, as a result, the Corn Flakes business was booming by late 1905." The term "Granose" appears in 1904 in a "Chart of Food Elements" in the magazine *Good Health* (Jan. Insert after p. 48) published by John Harvey Kellogg in Battle Creek Michigan. It appears to be a grain-based breakfast cereal. Address: Washington, DC.

1919. Worthington Foods, Inc. 1966? Soyamel–Fresh tasting: Five different ways (Leaflet). Worthington, Ohio. 4 panels each side. Each panel: 22 x 9 cm. Undated.
• ***Summary:*** In the middle of the front panel is a photo of a boy and girl drinking soymilk from glasses. At the bottom of this panel is a photo of 5 cans of Worthington Soyamel: All Purpose, Instant Malt Flavor, Instantized All Purpose. Banana Beverage. And Fortified Soyamel: A Powdered Soy Milk.

Two pages of the leaflet describe these products and their nutritional composition. "Regular Soyamel, Fortified Soyamel, and Soyamel Banana Beverage are packed in a 1 lb. can, 4 lb. can and a 20 lb. carton. Instant Soyameal and Instant Malt Soyamel are packed in a 12 oz. can, 3 lb. can and 15 lb. carton." The ingredients of Soyamel are: "Soy bean protein [probably soy protein isolate], soy bean oil, dextrose, soy bean lecithin, dextrins and maltose, sucrose, barley malt, salt, dicalcium phosphate, and added vitamin B-12. To make 1 glass of regular Soyamel place 1 cup of water in high-speed mixer or blender and add 6 level tablespoons of Soyamel. Mix until powder is dissolved. Refrigerate until used. To make instant Soyamel, add 1/3 cup of powder to 1 cup water. Stir until dissolved, or use blender. One pound of Soyamel will make a gallon of delicious, wholesome soy drink. When mixed, a quart of Soyamel will cost a little as $0.25 depending upon the richness desired."

Four pages of recipes are given. Address: 900 Proprietors Rd., Worthington, Ohio 43085.

1920. Deutsch, Ronald M. 1967. The nuts among the berries: An exposé of America's food fads. New York, NY: Ballantine Books (mass market paperback). 320 p. Foreword by Frederick Stare, M.D. Index. Feb. 18 cm. Revised in 1977 as The new nuts among the berries. Palo Alto, CA: Bull Publ. Co. 359 p.
• ***Summary:*** The back cover states that "this book tells the astonishing story of a hundred years of health foods and faddists. It names the promoters and the products. It cites the findings of the Food and Drug Administration. It quotes the warnings of the American Medical Association. It completely exposes the hokum and ballyhoo of the health food business–now bilking the public of $2,000 million ever year–and shows why crackpot food fads are a waste of money at best and a serious danger to the health of those suffering from real illnesses."

Contents: Foreword. Introduction. 1. Of cabbages and things (a brief history of "health-foodism"). 2. Mr. Graham bakes a cracker (Sylvester Graham). 3. Little men, little women, little food (Amos Bronson Alcott, Louisa May Alcott, and vegetarianism). 4. Father Kneipp and his watering can. 5. Mother White casts her brood upon the waters (Ellen G. White and James Caleb Jackson). 6. Snap! Crackle! Enter Dr. Kellogg! (Dr. John Harvey Kellogg). 7. The battle of Battle Creek (Michigan and Seventh-day Adventists). 8. From pillar to Postum. 9. Kickapoo and Kellogg, too. 10. The Jungle, the sausage, and the law (Upton Sinclair, Harvey W. Wiley, and the formation of the FDA). 11. Chew, chew, baby (Fletcher, Chittenden). 12. Life along the alimentary canal (Metchnikoff and yogurt). 13. The bare torso king (Bernarr Macfadden). 14. The bare torso king rampant (Macfadden). 15. I see America starving. 16. How to keep your cow from drooling (selling nutrition). 17. A plague on both your Hausers (Gayelord Hauser). 18. How to write about health foods (Lelord Kordel, Cathryn Elwood). 19. Mrs. Spratt's millions (fat and dieting). 20. My mother squeaked (Don Dale Alexander and arthritis). 21. The poisons in your health food (how the public is being duped by health food hucksters). 22. How to be an expert. 23. What the law can do. 24. Taller in the saddle. 25. The unteachables. 26. To market, to market. 27. On learning to be a faddist. Address: Popular scientific and medical reporter.

1921. Maidenberg, H.J. 1967. Ralston has outgrown Tom Mix. *New York Times.* March 12. p. 1, 9.
• ***Summary:*** A good overview of Ralston Purina today, and a look back at its remarkable founder, William H. Danforth.

"The name Ralston was purchased from the Dr. Ralston Health Club of Baltimore [Maryland], one of many such clubs that were popular at the time, while Purina was selected because it stressed the purity of the products."

1922. *British Vegetarian.* 1967. Home-made soya butter. March/April. p. 144.
• ***Summary:*** Mrs. Elizabeth Martyn of Vernon, BC, Canada, has contributed a recipe for making soya butter at home, using 4 tablespoons soya flour, 1 cup soya oil or sunflower oil, and water. Mix and heat. Puree in a blender, then refrigerate. Use like butter.

1923. Belmont, Trixie. 1967. Ladies first: 'Half-and-half' beachware. *Sun* (*Baltimore, Maryland*). June 22. p. B7.

© Copyright Soyinfo Center 2021

• ***Summary:*** In the section titled "What's new" we read: "'Crossing the legs is a habit by which a woman develops varicose veins, ugly feet and loses the shape in her legs.'–86-year-old American 'youth expert' Paul Bragg."

1924. Chico-San Inc. 1967. Chico-San Inc.–Unique foods: Retail price list. P.O. Box 1004, Chico, California. 2 p. July 15. 35 cm.

• ***Summary:*** See next 2 pages. This single-sheet catalog and price list, printed front and back with dark brown ink on pink paper (8½ by 14 inches), begins:

"Dear retail customer: We encourage you to buy Chico-San products through your local health food store. When you buy directly from Chico-San you must add shipping costs to the cost of food." Includes the following interesting items. Those followed by an asterisk (*) are marked "OEI" meaning "Our Exclusive Import.

Specialties: Rice cakes, buckwheat cakes, millet cakes, wheat cakes, roasted rice, rice crackers*. Condiments: Tekka [miso], Tamari soy sauce*, soybean puree (miso)*, sesame salt, sesame spread, sesame butter, kuzu arrowroot*, salt plums, salt, sesame oil. Crude salt (1 lb to 10 lb). Cereals: Rice cream. Rice: Brown short grain (2 lb to 100 lb). Sesame seeds: White-brown. Black. Beverages: Ohsawa twig tea*, 16 herb tea*, Grain beverage–Koko, Grain beverage–Yano, Lotus root tea*, green tea. Noodles. Beans: Azuki red* ($1.72/lb), Imported red, black beans [soy] ($1.37/lb).

Note 1. This is the earliest English-language document seen (April 2021) that uses the term "Soybean Puree" to refer to miso. During the next decade, many macrobiotic publications referred to miso as a "Soybean puree."

Sea vegetables: Shredded hijiki, kombu*, wakame–curly*, nori–thin sheet, kanten–sea veg gelatin. Dried foods: Lotus root, shrimp, dried fish, small fish–chirimen, tazukuri, shaved bonita [sic, bonito], dried radish [daikon], gourd strips [kampyo, kanpyo], mushrooms. Grain: Barley, buckwheat groats, corn meal, cracked wheat, millet, oat groats & oat meal, rolled oats, rye, wheat–hard red. Flour: One from each grain. Tooth powder jar. Cosmetics. Utensils.

Note 2. This is the earliest document seen (July 2017) that mentions Chico-San. It is also the earliest known Chico-San catalog and price list, and the earliest known Chico-San catalog and price that mentions "Rice cakes."

Note 3. This is the earliest document seen (April 2021) concerning the use of miso in a second generation product (tekka).

Note 4. This is the earliest English-language document seen (Dec. 2006) that uses the term "salt plums" to refer umeboshi salt plums.

Note 5. This is the earliest English-language document seen (July 2021) that mentions seitan, which it calls "seitan." The entry for "Seitan" (actually misspelled as "Sietan") is different from all other entries in this catalog, since no weight, no price, and no explanation is given–as if Chico-San has ordered the product, but it has not yet arrived. Moreover, no "OEI" ("Our exclusive import") appears after the word "Sietan." Address: P.O. Box 1004, Chico, California.

1925. New, Peter Kong-Ming; Priest, Rhea Pendergrass. 1967. Food and thought: A sociologic study of food cultists. *J. of the American Dietetic Association* 51(1):13-18. July. [12 ref]

• ***Summary:*** This study, conducted in Boston in 1966, examines two groups of health food users. The first group is called "general users" and the second is called "unitary users." The first group buys a variety of products, such as wheat germ, sunflower seeds, dry soya bean, Tiger's Milk, and other products commonly sold in health food stores. The "unitary" group [followers of macrobiotics] "subscribes to a single philosophy, quasi-religious in nature, which is linked with the use of a particular type of health food diet. This diet consists mainly of Oriental foods, such as brown rice and soybean products, with chief emphasis on the intake of a proper ratio of these foods to achieve some control over one's physiologic and mental state." "For unitary users there is great reliance on the Yin and Yang principle." Users in both groups generally have a low opinion of physicians. Address: Social Science Div., Dep. of Preventive Medicine, Tufts Univ. School of Medicine, Boston, Massachusetts.

1926. *Wall Street Journal.* 1967. Sandoz says it plans to acquire Swiss firm that makes Ovaltine: Transaction involves stock swap valued at about $61.4 million. Holders must approve merger. Sept. 15. p. 6.

• ***Summary:*** Wander makes the popular health drink Ovaltine.

Note: Ovaltine, a brand of milk flavoring product, was developed in Switzerland, where it is known by its original name, Ovomaltine (from *ovum*, Latin for "egg", and malt, originally its main ingredients).

1927. *Health Food Business Review.* 1967. Here's a health food so old–it's new. Sept. p. 27, 28, 43.

• ***Summary:*** "Tamari soy sauce has a history that is centuries old. Descriptions of the process are found in books written more than 1,500 years ago! And, references have been made to its use in writings that are many years older. Only Nature can supply the ingredients to make Tamari Soy Sauce: Soyabeans, wheat (organically grown), sea salt, water, a special enzyme from aspergillus anyzae [sic, *Aspergillus oryzae*], a bacterium and an unusual yeast. Man supplies the know-how and patience (18 months) to produce this remarkable Health Food."

"Only Chico-San produces this product by the old and patient (18 months) method which is 100% natural."

1928. Lust, John B. 1967. Drink your troubles away. New York, NY: Benedict Lust Publications. v + 182 p. 18 cm.

First published in 1965 under the title: The New Raw Juice Therapy. *

1929. Marsh, Edward E. 1967. How to be healthy with natural foods. New York, NY: Gramercy Publishing Co. 157 p. No index. 21 cm. [23 ref]

• ***Summary:*** The message of this unusual, copycat book on "natural foods" is largely borrowed from Linda Clark, Adelle Davis, Carlton Fredericks, Gayelord Hauser, D.C. Jarvis, and other health-food authors of the 1950s and early 1960s. The book has no clear publication date, no index, and we are told nothing about the author. It advocates a diet based on fatty meats plus various "extraordinary foods" such as apple cider vinegar, honey, bone meal, brewer's yeast, lecithin, sea kelp, sunflower seeds, and yogurt.

Soybeans are mentioned as follows: Most vegetable proteins (except soybeans, sunflower seeds, peanuts and a few other foods) do not contain all the essential amino acids in the correct amounts to be first-class or complete proteins. Be sure that at least two-thirds of your protein intake comes from animal protein; the other third can come from other complete proteins such as soya products (p. 22-23). Soybeans are listed as a good source of vitamin D (p. 43), B-complex vitamins (p. 44), vitamin B-1 (p. 47), choline (p. 51), folic acid (p. 51-52), niacin (p. 53-54), pantothenic acid (p. 54-55), vitamin C (p. 60), vitamin E (p. 66), vitamin F (soybean oil, p. 67-68, 71), calcium (p. 76), copper (soy flour, p. 78), magnesium (soy flour, p. 83), and phosphorus (p. 84).

Lecithin, one of the "extraordinary foods," is "not a drug, but a granular form of soybean lecithin, free from objectionable elements." It can help relieve stress, quiet nerves, promote good health, improve mental poise, and induce a renewed feeling of well-being. Lecithin is found only in natural foods, such as soybean oil (p. 95-97).

Note: Edward Marsh was born in 1900. This edition was published by Gramercy, a division of Crown Publishers, Inc., by arrangement with Arco Publishing Co., Inc. Copyright Arc Books Inc., 1963. Library of Congress Catalog Card No. 67-14909. On the back cover is a full-page ad for *The Soybean Cookbook*, by Dorothea Van Gundy Jones.

1930. Teichner, Mike; Teichner, Olga. 1967. Mike and Olga's favorite recipes: Fresh ideas in health food flavor. San Antonio, Texas: The Naylor Co. xiii + 150 p. Foreword by Erle Stanley Gardner. Illust. by James Wogstad. 22 cm.

• ***Summary:*** A vegetarian cookbook. Page 3 lists favorite seasonings and herbs including Savita, Vegex, Savorex, and Vegetized Salt. These and MSG ("Accent", typically ½ teaspoon per recipe) are widely used in recipes. Soy-related recipes include: Soya bean dishes (p. 46). Baked soya beans with tomato sauce (p. 47). Soya beans–vegetable (p. 68). Soya bean and millet roast (p. 113). Soy casserole (p. 118). Address: Palm Springs, California.

1931. Hurd, Frank J.; Hurd, Rosalie. 1968. A good cook–Ten talents. Chisholm, Minnesota: Published by the authors. Printed by The College Press, Collegedale, Tennessee 37315. 354 p. Illust. Color plates. No index. 22 x 15 cm. Spiral bound. [1 ref]

© Copyright Soyinfo Center 2021

• ***Summary:*** A very important, pioneering, indeed classic American vegan cookbook, which uses no animal products (except in one chapter at the end titled "Recipes Using Milk and Eggs," "for those who are in the transitional period. However, we encourage all those who still cling to milk and eggs to become acquainted with the facts concerning their use, and become weaned through this process"). Some recipes also use honey.

Contains more than 750 unique recipes (plus color photos), including many innovative soy recipes, including the first recipe for shakes made with soy milk ice cream.

In the Glossary (p. 11-17) are entries for lecithin (p. 13; "A food extracted from the soybean"), soybeans (p. 15-16), and tofu (p. 16), as well as agar-agar, almonds, carob, cashew nut, coconut, dulse, flaxseed, malted nuts (made from peanuts and cashew nuts with dry malt added), nuts, oils, peanut, sea kelp or dulse, sesame seed, and sesame tahini. A color photo (p. 55) shows soy sprouts. Soy-related recipes include: Homemade soy coffee (p. 66). Soybeans milks (p. 69; No. 1 costs $0.06/ quart homemade. "Soybean pulp [okara] which remains can be made into various dishes. Try Soy Not-Meat," p. 202; No. 2 uses 1 cup plain soya starter). Banana milk shake (with chilled soy milk, p. 70). Banana carob milk shake #1 or #2 (with soy milk, p. 72). Molasses milk shake (with soy milk, p. 72). Soy-fig milk (p. 72). Milkless milk shakes (with non-dairy ice cream incl. soy milk powder, p. 72-73). Soy yogurt, cultured (p. 73-74; 3 recipes–made from whole soybeans, liquid Soyagen, or soy starter). Soya bread or rolls (p. 80). Vanilla ice cream (with soy milk powder optional, p. 125). Pineapple ice cream (with soy milk powder, p. 127). Banana soya ice cream (with rich soy milk, p. 128; "Whiz in a blender"). Sesame soy cookies (p. 131, with 1½ cups raw sesame seeds). 7 grain granola (with 1 cup soy flour, p. 156). Easy granola (with soy flour, p. 157). Soy-millet patties or loaf (p. 182). Vegetable-nut loaf (with soy milk, p. 186). Green soy beans (p. 187; dry, green-seeded soybeans). Buckwheat, soy or whole wheat spaghetti (p. 192). Soybean curd #1 (homemade tofu using whole soybeans, curded with Epsom salt, p. 195). Soybean curd #2 (from soy flour, curded with lemon juice, p. 196). The tofu-making process is shown in six black-and-white photos. Ways to serve tofu (p. 196). "Scrambled eggs" (made with tofu, egg-free, p. 196). Tofu loaf (p. 198). Chinese nut loaf (with soymilk, p. 198). Vegetarian chow mein (with soy sprouts, p. 199). Peanut-soymeat (with soy flour, p. 200; steamed for 2-3 hours in greased cans). Soy not-meat (p. 202, with soaked ground soybeans or "the soybean pulp from the soy bean milk. This way the pulp is not wasted" [i.e. okara]). Peanut-soy round (p. 202). Soy meat (p. 203; made with 2 cups homemade gluten, 1 cup toasted ground peanuts, and

© Copyright Soyinfo Center 2021

1 cup soaked blended soybeans, plus water, seasonings, oil and salt, steamed for 3 hours in greased cans). Soya peanut soufflé (p. 204). Soybean soufflé (p. 204). Tofu & rice croquettes (p. 206).

The chapter titled "Nuts, seeds, olives" (p. 209-20) includes: Glossary of nuts, raw nuts for your enzymes, nut notes, almond butter (king of the nuts), raw nut butters, cashew nut butter, cashew Brazil-nut butter, peanut butter, nut butter clusters, peanuts–oven blanched, dry roasting–soya nuts, malted nuts, browned sesame seeds, seed cereal topping (sunflower seeds, sesame seeds, flax seed), peanut butter-seed spread (tahini, sunflower seeds), peanut butter balls, simple sesame squares, sprouted sunflower clusters, olives, tree chestnuts, roasted chestnuts, roasted chick peas.

Note 1. This is the earliest document seen (Dec. 2013) that uses the term "dry roasting" to describe how soybeans are roasted, or that contains the term "Dry Roasting–Soya Nuts" (p. 217).

Green soy bean salad (p. 234; probably dry, green-seeded soybeans). Soybean sprouts salad (p. 234). Tofu cheese salads (p. 235). Tofu sun faces (p. 236). Pineapple tofu salad (p. 245). Pineapple tofu cottage cheese (p. 246). Lo-fat salad dressing (with soy yogurt, p. 251). Soy mayonnaise–eggless (4 types, p. 252-53). Soy butter (made with soybean flour, lightly dextrinized, p. 262). Soya starter (made with soy flour, p. 262). Soya yeast sandwich spread (p. 263). Super sandwich spread (with soybean pulp [probably okara, see p. 69], p. 264). Pimento-soy chee spread (p. 265). Sour cream–soy (p. 270). Soy whipped cream (p. 271; whirl in a blender ½ cup each soybean milk and soy oil, plus 1 tablespoon honey, ¼ teaspoon vanilla, and a pinch of salt). Tartar sauce, cheese (with soy mayonnaise and tofu, p. 273). Sprouts (p. 291-95). Fresh cucumbers with soy sour cream (p. 304). Celery and green soyas (p. 312; "2 cups green soy beans, frozen, canned, or fresh." Probably means green vegetable soybeans). Soya starter (base, made with soy flour, p. 326; keep a jar ready for quick use in making tasty spreads, milk and cream, mayonnaise, a binder when nut butter is not available. Dextrinizing the soy flour gives this Soya Starter a nutlike flavor).

Talk with Rosalie Hurd. 1991. June 3. *Ten Talents* is now going into its 44th printing. More than 250,000 copies have been sold. The latest was published by College Press in 1985. The first edition was published in May 1968. Frank, originally a chiropractor, is now a medical doctor. The Hurds now live most of the year in Fountain City, Wisconsin, where they run Alpine Springs, a live-in lifestyle program and center on 585 acres of land offering treatment and education in natural health.

Note 2. This is the earliest cookbook seen (Oct. 2013) that contains a recipe for soy sour cream. For the basic recipe: Pour 3/4 cup soy bean milk into a blender. Gradually add 3/4 cup soy oil until desired thickness is reached. Stir in 1-2 tablespoons lemon juice and ¼ teaspoon salt. Chill. "Delicious on fresh cubed cucumbers with a dash of dill." An alternative recipe calls for the use of: ½ cup soy starter (not dextrinized, see p. 69, 262), ¼ cup water, and ½ teaspoon honey.

Note 3. This is the earliest English-language document seen (Nov. 2014) that contains the word "Soymeat" (p. 200), or the term "Soy Not-Meat," or the term "Soy Meat" (p. 203) as a recipe name.

Note 4. This is the earliest dated English-language document or book seen (Sept. 2012) that contains the modern term "Soy yogurt."

Note 5. This is the earliest document seen (Jan. 2017) containing a recipe for homemade soy ice cream (p. 128).

Talk with Rosalie and Dr. Frank Hurd. 2005. Feb. 9. Both have moved to Oregon to warmer weather. They have a daughter there. *Ten Talents* is now in its 48th printing. They are working on a revision. He was born in March 1936 and she in April 1937.

Talk with Rosalie Hurd. 2009. Jan. 19. Frank is still working as a doctor and she as his helper. They are both in good health. The greatly enlarged 40th anniversary edition of *Ten Talents* has been published and is now available.

The term "Ten Talents" comes from the teachings of Ellen G. White: "The one who understands the art of properly preparing food, and who uses this knowledge, is worthy of higher commendation than those engaged in any other line of work. This talent should be regarded as equal in value to ten talents; for its right use has much to do with keeping the human organism in health. Because so inseparably connected with life and health, it is the most valuable of all gifts" (Ellen G. White, *Counsels on Diet and Foods*, p. 251). Address: 1. D.C. [Doctor of Chiropractic]; 2. B.S. Both: Box 86A–Route 1, Chisholm, Minnesota 55719.

1932. *Health Food Business Review.* 1968. Soy bean puree: Miso. Ancient Oriental health food. Boost your profits with macrobiotics! July. p. 44-45.

• ***Summary:*** Chico-San Soybean Puree can be used to make delicious miso soup for breakfast. "Miso, or Soybean Puree, in particular Chico-San Soybean Puree, is a naturally fermented preparation of soybeans, barley, salt and water. It is devoid of chemicals, additives and processing that have made more modern foods such commercial triumphs. Using traditional methods employed centuries ago, Soybean Puree is fermented by the use of a delicately cultivated enzyme, *Aspergillus oryzae*, and aged for a period of at least eighteen months. During this time a very complex enzymatic action of molds, yeasts and bacteria are left to chemically interact." The nutritional composition of "Barley miso" is given (based on S. Yamada, editor. 1957. *Manual of the Fermented Food Industries of Japan.* Tokyo, p. 44).

"'Thy food shall be thy remedy'–Hippocrates."

1933. *Harmony: Macrobiotics.* 1968. Contents. Vol. 1, No. 1. 24 p. [3 ref]

• ***Summary:*** See also next page. The originator, editor and publisher of this early macrobiotic magazine is Gregory Sams. Each magazine costs 2/6 (two shillings and 6 pence).

Contents: Twelve theorems of the Unique Principle. Editorial. George Ohsawa 1893-1966 (As a teenager he contracted tuberculosis, but he cured himself by "embracing and living according to the Unique Principle of Yin and Yang..."). Preview of the Death Certificate for a World Civilization. The Art of life. Poetry. Health. Yoke yoga. Grains. The harmony of man and woman. Vegetable preparation. Basic recipes (including one for boiled short-grain brown rice and one for "Sesame-Soy Bread Spread" with "miso (soya bean paste) and tahini (creamed sesame seeds) or soya sauce and tahini"). Macrobiotic meanderings. Books for sale (by georges ohsawa, lima ohsawa, or L. Kervran).

"Twelve theorems of the Unique Principle:

"1. Yan and Yang are the two poles of the infinite pure expansion.

"2. Yin and Yang are produced infinitely, continuously, and forever from the infinite pure expansion itself.

"3. Yin is centrifugal; Yang is centripetal. Yin, centrifugal. produces expansion, lightness, cold, etc. Yang, centripetal, produces constriction, weight, heat, light. etc.

"4. Yin attracts Yang; Yang attracts Yin.

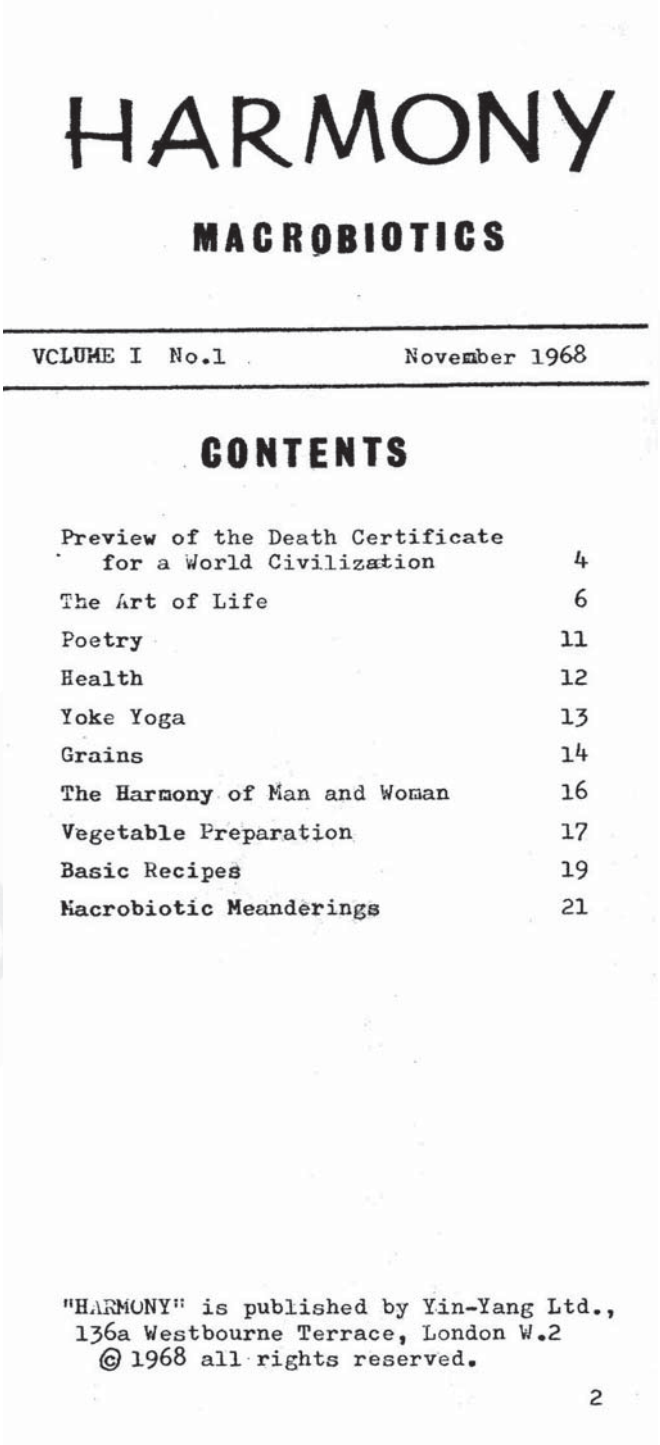
"5. All things and phenomena are composed of Yin and Yang in different proportions.

"6. All things and phenomena are constantly changing their Yin and Yang components. Everything is restless.

"7. There is nothing completely Yin or completely Yang. All is relative.

"8. There is nothing neuter. There is always Yin or Yang in excess.

"9. Affinity or force of attraction between things is proportional to the difference of Yin and Yang in them.



"10. Yin expels Yang; Yang expels Yin. Expulsion or attraction between two things Yin or Yang is in inverse proportion to the difference of their Yin or Yang Force.

"11. Yin produces Yang; Yang produces Yin in the extremity.

"12. Everything is Yang at its center and Yin at its periphery (surface).

"reprinted from *Zen Macrobiotics* by georges ohsawa."

"Editorial: Health foods no longer bring to mind the image of the eccentric lady living on honey and celery juice, nor are health foods thought of as vitamin tablets and elixirs of life. Food for health is food which can transform the abnormal human being into a normal functioning, free creature–a healthy person. Within the natural order of the universe we have been provided on earth with foods that allow human being to live in this way.

"Why is it that we turn our back on these nourishments and live in unhappiness with mental illness and incurable disease running rampant through our population? As with any problem or question, once the nature of this phenomena is fully understood the question is answered and the problem solved. With *Harmony* we humbly attempt to increase our own understanding and that of others as to why man chooses to live in unhappiness and how this unhappiness can be

transmuted into the infinite joy and freedom that is natural to mankind."

As of June 2015, this entire magazine was online at gregorysams/harmony1.pdf, as were the next two issues (/harmony2.pdf and /harmony3.pdf). Address: 136a Westbourne Terrace, London W.2, England.

1934. *Sunday Times* (*London*). 1968. Atticus takes food for thought. Dec. 22. p. 9.
• ***Summary:*** "He hasn't much time for health food addicts, and he sees no magic in honey and cider, macrobiotic fodder, or nuts in May."

1935. Bragg, Paul C. 1968. How to keep the heart healthy and fit [1st ed.]. Burbank, California: Health Science. 128 p. Illust. No index. 21 cm.
• ***Summary:*** The book begins with Bragg telling his [at least partly fictitious] life story: He was "born with a weak heart–a 'blue baby'–on a plantation deep in the heart of Virginia. During the first 14 months of life, he had to fight for his life. From infancy he suffered severe attacks of heart palpitation. At age 8 he was stricken with rheumatic fever and for 11 days hovered between life and death.

His weak heart prevented him from enjoying the activities of a normal, healthy country boy. Along with this weak heart he developed other physical weaknesses–sinusitus, asthma and bronchitis. Finally in his teens, he came down with tuberculosis. He spent several years in large sanatoriums in Denver, Colorado, and at Lake Saranac (within Adirondack Park, northern New York state). Death sentences were pronounced upon him; there seemed to be no hope for his survival. Then he was "miraculously inspired to go to a famous sanatorium in [Leysin] Switzerland." There [in 1903] the famous Dr. [Auguste] Rollier, using only the natural methods of air, water, sunshine, exercise, and good nutrition, restored his "broken body to buoyant, radiant health."

In a short period of time he rebuilt his body and "started his climb toward super-strength and energy!"

At about this same time, he made the greatest decision of his life, to devote his life "to helping others to finding the treasure he had found–Priceless Radiant Health!" He had "found the magic formula of Natural Living" and now he wanted to pass it on to others.

In Bragg's well-balanced diet, one-fifth should be protein (animal or vegetable). Among the foods he recommends are "soya beans" (p. 76-78) and lecithin (p. 83). The soybean is the richest source of lecithin–and the most widely used (p. 83).

"Soybean powder for healthy heart and nerves: I have been recommending the use of soybean and soybean powder to health-conscious people of this country for more than 50 years" (p. 84). Bragg's "Pep" Drink (easily made at home) includes raw wheat germ, 1 tablespoon pure Soy Powder, 1 banana, and 1 tablespoon lecithin (powder or liquid) (p. 85).

In the section "Delicious Chinese recipes promote heart health," a recipe for "Mushroom chop suey" (p. 121) states: "Put these mixed vegetables into a skillet and add unsaturated oil such as corn oil, soy oil, safflower oil or olive oil. Garlic may be added if you enjoy it. (We do. We feel that garlic is a most important food to help keep the pipes of the body free from rust.) Then add a tablespoon of liquid aminos, which gives the Chinese soy sauce flavor."

Note 1. This is the earliest document see (Aug. 2011) that contains the term "liquid aminos" or "Bragg aminos" or "Bragg liquid aminos." There are no ads in this book for this product or any other food product.

Note 2. This is the earliest document seen (Sept. 2011) in which Paul C. Bragg claims to have been born on a plantation (in Virginia).

Note 3. This is the earliest document seen (Sept. 2011) in which Paul C. Bragg claims that he suffered from rheumatic fever and almost died from it.

Many useful illustrations in the front of the book show the heart, circulatory system, blood vessels, arteries, lungs, etc. The cross section of a healthy artery and a blocked artery. The urinary system. The heart is a muscle, not an organ.

Photos show: (1) Paul Bragg in a "weight lifters" outfit, showing his muscular body. (2) Paul Bragg reading a book, with his [adopted] daughter Patricia Bragg reaching both arms over his shoulders and also holding the book. (3) "Famous pioneer health team: Paul C. Bragg and Bernarr Macfadden." (4) Paul Bragg, smiling, standing next to Duncan McLean, who is holding a small barbell in each hand over his head. A photo (on the last page of this book) shows Paul Bragg and Duncan McLean (a champion sprinter, age 83) holding up Patricia Bragg in Regents Park, London. All are smiling. Address: N.D., Ph.T., Life Extension Specialist, Box 310, Burbank, California 91503.

1936. Fredericks, Carlton; Bailey, Herbert. 1968. Food facts and fallacies. New York, NY: ARC Books, Inc. *

1937. Hon, Hazel. comp. 1968. Three week vegetarian menu. Sydney, Australia: Published by the author. 88 p. 24 cm.
• ***Summary:*** This Seventh-day Adventist vegetarian cookbook uses lots of canned Adventist food products, gluten, and whole soybeans. The Four Basic Food Groups (p. 7) are fruits and vegetables, cereal and bread, protein (including legumes, cottage cheese, eggs, soy cheese, nuts, peanut butter, and various manufactured nuts, soybean and gluten products), and milk groups ("use milk or a suitable alternative such as soybean milk").

A table titled "Seasonings" (p. 8) divides them into (1) Not irritating. (2) Slightly irritating. (3) Strongly irritating: Cloves, ginger, paprika (Hungarian). (4) Irritating, stimulating, harmful: Cayenne pepper, chili pepper, horse-

© Copyright Soyinfo Center 2021

radish, mustard, pepper (black or white). (5) Seasoning herbs: Oregano, tarragon, chervil, sage, basil or sweet basil, bouquet garni, marjoram, rosemary.

A table (p. 9) lists "Goods obtainable at all Sanitarium health food shops" including gluten flour, soya flour, Soyagen (liquid or powder). Sanitarium canned foods: Nutmeat, Nutolene, Soya Beans, Vegetarian Sausages, Lima Beans. Worthington Foods: Soya Meat in tins. Chicken Style sliced. Chicken Style diced. Beef Style sliced. Beef Style diced. Loma Linda: Vegelona, and Linkettes.

Three weeks of menus and recipes are given. Soy-related recipes include: Soya nut loaf (p. 30). Soybean omelette (p. 65). Soya vegetable loaf (p. 70). Soya mayonnaise (p. 71). Soya oven croquettes (p. 82).

Note: This is the earliest document seen (Oct. 2004) concerning the work of Sanitarium Foods in Australia with soy. Address: 54 Castle Howard Road, Cheltenham, N.S.W., Australia.

1938. **Product Name:** Vegetable Soybeans.
Manufacturer's Name: El Molino Mills.
Manufacturer's Address: 3060 W. Valley Blvd., Alhambra, CA 91803.
Date of Introduction: 1969 March.
Ingredients: Soybeans.
How Stored: Shelf stable.
New Product–Documentation: These are apparently vegetable-type dry soybeans with a green seed coat. Soybean Digest Blue Book. 1969. March. p. 113. *Soybean Digest.* 1969. Nov. "El Molino offers a number of soy foods including breakfast foods, soy milk, vegetable soybeans, soy sprouts, and soy flour and soy flour mixes."

Letter from Alice Walter, Director of Consumer Affairs, El Molino Mills (345 N. Baldwin Park Blvd., City of Industry, California 91746. Phone: 213-962-7167). "Soy beans, under the El Molino label, are an improved variety of green vegetable soy beans, as opposed to the yellow field soy bean in common usage for grinding and sprouting. The green vegetable soy bean is naturally quicker cooking; no processing is done. We recommend soaking the beans several hours prior to cooking to eliminate the prohibitive enzyme, then simmering for 2-2½ hours or until tender."

1939. **Product Name:** Eight-Grain Muffin Mix with Soy Flour (Custom Mixing).
Manufacturer's Name: El Molino Mills.
Manufacturer's Address: 3060 W. Valley Blvd., Alhambra, CA 91803.
Date of Introduction: 1969 March.
Ingredients: Incl. soy flour.
New Product–Documentation: Soybean Digest Blue Book. 1969. March. p. 113. *Soybean Digest.* 1969. Nov. "El Molino offers a number of soy foods including breakfast foods, soy milk, vegetable soybeans, soy sprouts, and soy flour and soy flour mixes."

1940. Bragg (Paul C.). 1969. Health & fitness: 3 free lecture [sic], by Paul C. Bragg (Ad). *New York Times.* April 21. p. 10.
• ***Summary:*** "Diet & fitness. Advisor to Hollywood stars. April 23-24. 7:30 P.M. April 25. 1:30 P.M. Hotel Diplomat, 108 W. 43 St. (off Times Square)."

1941. Wiedrich, Robert. 1969. Tower ticker. *Chicago Tribune.* May 19. p. 26.
• ***Summary:*** Trauma: Have you ever met an 88-year-old man who was is such great shape that you were amazed? The writer did–and it was "Paul C. Bragg, nutritionist to the Hollywood stars," who gets paid a hundred dollars an hour getting Rex Harrison to lose 17 pounds that have caused his cheeks to puff, or helping Elizabeth Taylor lose 272 ounces [17 pounds] that she would prefer to be without. Bragg says that he does not smoke or drink, and that he eats about two pounds of garlic a week. He says he once found a man in Constantinople who was 154 years old and who also ate a lot of garlic. "Folks–the rest is up to you!"

1942. *Washington Post.* 1969. Radio highlights. June 4. p. 32.
• ***Summary:*** "7:05 p.m.–WMAL. Discussion. Host Barry Farber listens as health expert Paul C. Bragg reveals some of the secrets responsible for his long life."

1943. Helton, William. 1969. Bragg's motto: To rest is to rust. How to live forever–almost. *Star Bulletin and Advertiser* (*Sunday*) (*Honolulu, Hawaii*). Aug. 24. p. A-2.
• ***Summary:*** Bragg calls himself "the granddaddy of the Health Movement." A "chum of Teddy Roosevelt," he "claims to be 88, but he looks like he has yet to see 65. He says he plans to be around 'til he's 120–just to continue his research on longevity." After coming down with tuberculosis at age 16, he became enthusiastic about good health. He now has a bronze tan, a full mouth of his own teeth, and he wears no glasses–yet he can read fine print without difficulty.

He says he jogs 1-2 miles a day, swims about the same distance, and works out with barbells 3 times a week at the local YMCA. He also practices yoga for about 20 minutes a day and stands on his head for 5 minutes each morning. These same techniques work for his clients, such as Zsa Zsa Gabor and Elizabeth Taylor–to whom he charges $100 an hour. But much of his teaching is free. On Sept. 4-5 he'll be lecturing, free of charge, at McKinley High School on the secrets of his 'Long Life Plan."

Bragg's sprightly daughter, Patricia, won't reveal her age so she can have a broad range of dates.

Bragg says he was born in 1881 in Virginia [sic] and that his great grandfather was Confederate General Braxton Bragg. Paul Bragg, who refers to himself as a "biochemist,"

© Copyright Soyinfo Center 2021

claims to have received his N.D. (Doctor of Naturopathy) and D.PhT. (Doctor of Physiotherapy) "from New York University in the 1900s."

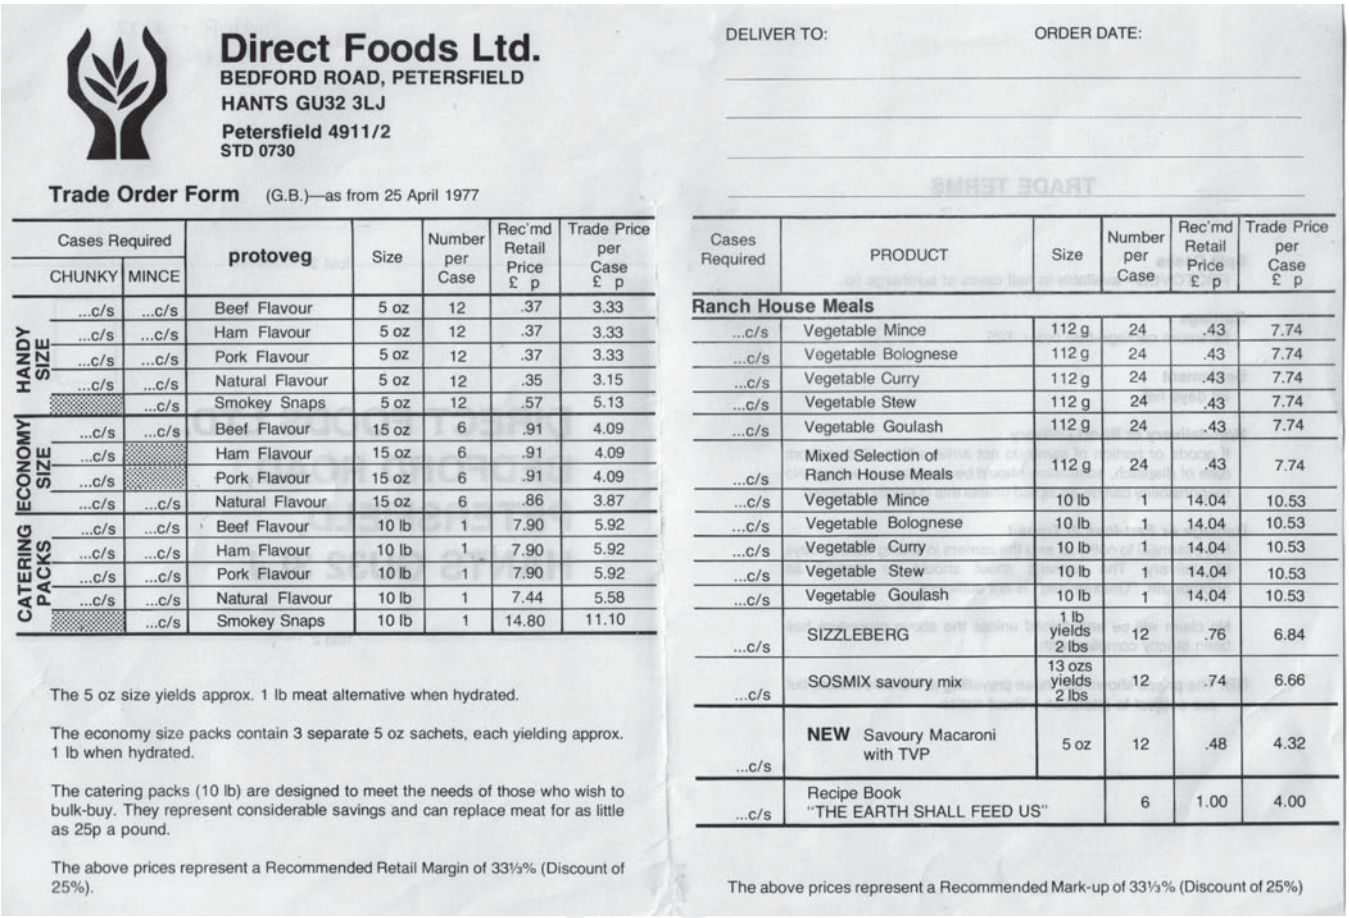
Bragg believes that Hawaii's business community should start promoting the islands to attract people who want to live longer. Of course, they must never, never smoke, drink alcohol, coffee or tea, and they must purge their diets of such contaminants as sugar, artificial sweeteners, salt, and starch. Salt is the worst of all; we all get enough sodium form natural foods, and salt causes people to be waterlogged and overweight. He doesn't eat some kinds of meat and poultry "because some animals are sometimes injected with a female hormone called stilbestrol to make them even larger." Among Bragg's favorite foods are garlic, fresh carrot juice, fresh papaya. Address: Advertiser Science Writer.

1944. **Product Name:** Protoveg (Meatlike Products Based on TVP) [Flavors are Ham, Beef, Bacon, and Unflavored. Textures are mince, and chunky. Also Smokey Snaps (which resembled bacon bits)].
Manufacturer's Name: Direct Foods Ltd.
Manufacturer's Address: Greatham, Liss, Hampshire, England.
Date of Introduction: 1969 August.
Ingredients: TVP (made by ADM) plus flavoring.
Wt/Vol., Packaging, Price: 5 oz or 10 oz double cellophane bag.
How Stored: Shelf stable.
New Product–Documentation: See also next 2 pages. Mail-order catalog and price list from Direct Foods Ltd. 1969. "The Protoveg Food Range." The company address is Copse House, Greatham, Liss, Hants. 6 panels. Dark green and yellow on light green. Flavors are ham, beef, bacon, or unflavoured. Pack sizes are standard or large. Textures are mince or chunky. There are 14 products total.

Export price list from Direct Foods Ltd. 1974. Oct. 1. Protoveg comes in beef, ham, pork, or natural flavors. Sizes are 5 oz, 10 oz, 10 lb, or 50 lb. 10 products total.

Ad in The Vegetarian Health Food Handbook (UK). 1974. p. 88. "Born free? Probably not." An illustration of a bull is shown. "Now you can eat beef without butchery. Protoveg brings you a complete range of meat flavour foods. Protoveg is a natural food made from soya beans." Direct Foods Ltd. is located at Bedford Rd., Petersfield, Hampshire. Phone: (0730) 4911 / 2.

Eva Batt. 1976. *What's Cooking*, rev. ed. p. xvi, xviii. This is a soya-based meat-like product. The unflavoured variety contains added vitamin B-12.



Trade catalog and price list from Direct Foods Ltd. 1977. April 25. Protoveg comes in beef, ham, pork, or natural flavors, plus Smokey Snaps. Sizes are 5 oz, 15 oz, and 10 lb (catering size). 14 products total.

Interview with Peter Roberts, founder of Direct Foods Ltd. 1990. Dec. 12. This was Direct Foods' first product,

based on ADM's TVP purchased from British Soya Mills (British Arkady). BSM offered to supply Peter but would not offer any exclusive arrangement. BSM agreed not to compete with Peter, saying they were interested only in selling to food manufacturers, not to the retail market. Peter accepted and in 1969 placed a trial order of about 10 lb of beef chunks or mince. The Roberts called their product Protoveg (pronounced PRO-toe-vej, a registered trademark), and sold it in 9 different flavors and textures (see above): They packed it in 4.5 oz. double cellophane bags with a label between the two bags, developed a recipe leaflet and order form, and

distributed it via their Compassion in World Farming and via Beauty Without Cruelty (Lady Dowding's anti-fur-trapping group). The 4.5 ounces yielded 1 pound of hydrated product; the mince hydrated in 2 minutes and the chunks in 15-20 minutes. By the mid-1970s a typical label read: Protoveg: Textured Soya Protein. Beef-Style Chunks.* *Contains no meat. Vegetarian.

1945. *Pacific Coast Review* (*San Francisco*). 1969. Promotion is the "key to success" for Mrs. Cubbison's. Aug. • ***Summary:*** Two of the most successful products originating on the Pacific Coast are Mrs. Cubbison's dressings [stuffings]. The two varieties are: Mrs. Cubbison's "Ready-to-Use" Melba Toasted Dressing, and Mrs. Cubbison's Melba Toasted Corn Bread Stuffin'. Photos show the two packages. These products are made at a plant in El Segundo, California, owned by the Rold Gold Foods Division of Frito-Lay, Inc. The first of these two dressings was introduced in 1949; Sophie was a pioneer in the field of prepared stuffings.

Sophie had a favorite stuffing that she made from melba toasts and served to guests at her home. They showered her with compliments and asked for the recipe. She began to think that it might make a good commercial product, which had a superior flavor and texture and could save homemakers the long arduous preparation. But the idea met with resistance from her sales department. "Homemakers would hesitate to use a prepared dressing because it would appear to their families and guests that they lacked culinary skill. It had never been done before so it wouldn't work, they said." Everybody had their own favorite recipes.

In the late 1940s, however, Sophie talked the salesmen into trying the idea. The product was an immediate success–and the key ingredient was the company's own Melba toast.

1946. Bolduc, William T., Jr. 1969. Articles of incorporation (Non-profit): Eden Organic Foods, Inc. Lansing, Michigan: Michigan Department of Treasury. 3 p. Nov. 4. 26 cm. • ***Summary:*** See page after next. This is the document that created Eden Organic Foods, Inc. (later known as Eden Foods Inc.) on 4 Nov. 1969. The document was signed and received on 31 Oct. 1969. The purposes for which the corporation is formed: (1) to provide organic foods, cook books and printed matter relating thereto to the community at reasonable prices. (2) to promote the increased consumption of health foods. (3) to conduct these activities and achieve these objectives without pecuniary profit [i.e. not for profit].

(Non-Profit)
ARTICLES OF INCORPORATION

These Articles of Incorporation are signed and acknowledged by the Incorporators for the purpose of forming a non-profit corporation under the provisions of Act No. 327 of the Public Acts of 1931, as amended, as follows:

ARTICLE I.

The name of the corporation is Eden Organic Foods, Inc. (Mich)

(Please type or print corporate name)

ARTICLE II.

The purpose or purposes for which the corporation is formed are as follows:

(1) to provide organic foods, cook books and printed matter relating thereto to the community at reasonable prices;

(2) to promote the increased consumption of health foods;

(3) to conduct these activities and achieve these objectives without pecuniary profit;

(4) to borrow money and to make and issue notes and evidences of indebtedness whether secured by mortgage, pledge or otherwise;

(5) to do any and all things necessary, useful, convenient or incidental to the foregoing.

ARTICLE III.

Location of the first registered office is:

~~225 Nickels Arcade~~ 211 South State Street (No.) (Street) Ann Arbor (City) Washtenaw (County) Michigan 48104 (Zip Code)

Postoffice address of the first registered office is:

Same (No. and Street or P. O. Box) (City) Michigan (Zip Code)

ARTICLE IV.

The name of the first resident agent is William T. Bolduc Jr.

C-2002 (Non-Profit Articles of Incorporation)
(Formerly Form 2)

© Copyright Soyinfo Center 2021

Article V: "Said corporation is organized upon a non-stock basis. Real property: None. Personal property: Cash–$170 approximately. Grains, condiments, and dry goods with a wholesale value of $100 approximately. The corporation is to be financed by donations from the community and by the retail sale of organic foods, cook books, and materials relating thereto.

Article VI; Names and addresses of the residents: William T. Bolduc, Jr., 6210 Bethel Church Road, Saline, Michigan. Judith Bolduc (same address). Ronald Teeguarden, 915 Oakland, Ann Arbor, Michigan. Gloria Dunn, General Store, 211 South State St., Ann Arbor, Michigan. One additional name under article VII is Linda Succop (at the same address as the Bolducs).

Note 1. The address given, 211 South State St., is the address of Gloria Dunn's General Store. This was because on Oct. 31 Bill Bolduc had not completely finalized the rent agreement for 514 East William St. in Ann Arbor–which would be Eden's address from the day the company opened in early Nov. 1969 until Nov. 1970 when they moved to 211 South State St. (a newly-decorated mini-mall on the main street of campus; the space previously occupied by Gloria Dunn). But by Nov. 1970 Gloria Dunn no longer had any connection with the building and Eden had just re-incorporated as a for-profit corporation. Thus (according to both Tim Redmond and Bill Bolduc, 30 Sept. 1998), it was a coincidence that Eden started business as a for-profit corporation at the main addresses listed on its non-profit articles of incorporation.

Note 2. A second document from the Michigan Department of Commerce (Lansing, Michigan, dated 19 July 1984) certifies that Eden Foods, Inc. was validly incorporated on 4 Nov. 1969.

Note 3. Both of these documents were kindly sent to Soyfoods Center on 24 Sept. 1998 by Michael Potter, President and CEO of Eden Foods.

Note 4. This is the earliest record seen (March 2020) concerning Eden Foods. Address: Saline, Michigan.

1947. Gottshall, W.Z. 1969. Ralston Purina yesterday and today. Paper presented at United Nations Industrial Development Organization Expert Group Meeting on Soya Bean Processing and Use. 17 p. Held 17-21 Nov. 1969 at Peoria, Illinois.

• ***Summary:*** Contents: Introduction. Agricultural products and services. Consumer products. Restaurants and food service. International operations. Protein production and marketing. New ventures. Corporate departments. Purina people and the future. Five protein products.

A good history of the company on the year of its 75th corporate birthday, or Diamond Jubilee [this would give its founding date as 1894]. It employs more than 23,000 people, has operations throughout the USA and in some 30 foreign countries, and transacts more than $1,000 million of business annually. The manufacture and sale of Purina Chows for livestock and poultry still represents the largest source of business volume for the company.

"From a little scoop shovel, horse feed firm in St. Louis in 1894, Ralston Purina's Chow Division in the Agricultural Products Group has grown to the world's largest manufacturer of rations for animals. It is the only feed manufacturing business which markets its products in all 50 states of the United States."

Although Ralston Purina has sold human foods since 1898, the company's fastest growth in this area has come since the late 1950s. "The first food product was Ralston Whole Wheat Cereal, named after Dr. Ralston, the leader of a health club of the 1890s." Chex cereals are also well known. In 1926 the purchase of the Ry-Krisp Company of Minneapolis, Minnesota, added a Scandinavian-style rye cracker to the company's product line. In 1957 the company entered the pet food market with Purina Dog Chow, followed by Purina Cat Chow in 1962. In 1963 a major acquisition added the famous Chicken-of-the-Sea brand of tuna.

Protein isolated from soybeans was found to have many uses in food and industrial products. "Today these protein products are used in a wide variety of foods and products such as plastics, paints, paper coatings and adhesives."

Note: In early 1959 a special soy products was formed as part of the soybean division with Wayne E. Tjossem as manager. Donald B. Walker was director of the soybean division. In mid-1967 the soybean division was renamed the protein division. Activities were directed toward the development of new protein sources and the marketing of many refined and isolated protein products. In late 1971 the protein division assumed complete operating stature. P.H. Hatfield was been named division vice president.

The five protein products (each made from isolated soy protein) are: Supro 610, Edi-Pro A & N, Textured Edi-Pro (spun soy protein fibers), and Purina Assay Protein RP-100 (used for laboratory research on many experimental animals). Address: Ralston Purina.

1948. *Soybean Digest.* 1969. The soy foods companies. Nov. p. 40, 42-44.

• ***Summary:*** A summary of the U.S. companies making soy protein foods and their products. Included are Central Soya, Archer Daniels Midland Co., Swift Chemical Co., General Mills, Ralston Purina, A.E. Staley, Loma Linda Foods, Worthington Foods, Fearn Soya Foods, and El Molino Mills.

1949. *Soybean Digest.* 1969. The soy foods companies: El Molino Mills (Document part). Nov. p. 42.

• ***Summary:*** "El Molino Mills is a stone-ground, specialty milling business carried on by the three Vandercook brothers at Alhambra, California. It was begun by a Vandercook ancestor in Holland eight generations ago.

"El Molino offers a number of soy foods including

© Copyright Soyinfo Center 2021

breakfast foods, soy milk, vegetable soybeans, soy sprouts, and soy flour and soy flour mixes. Outlets include health food stores."

1950. Myers, Loring M. (Mrs.). 1969. How to bake a 1,000 lb. cake: Bill Baker's famous fruit cake recipe. *Ojai Valley News.* Dec. 3. p. C-2.
• ***Summary:*** In Aug. 1968, when Mrs. Myers came to make her home in Ojai, she brought a letter written to her in 1939 by Bill Baker. She had asked Mr. Baker if he would give her the recipe for his famous fruitcake (the one he sent in 1939 to the Golden Gate International Expo, which was the same as the one he sent each Christmas to President Franklin D. Roosevelt) so that she could share it with those who listened to her audience participation cooking school over radio station WSAI in Cincinnati, Ohio.

He promptly sent her the large-scale recipe, which she had to convert to home-sized quantities. She baked the cake at home and found it to be the most delicious she had ever eaten. Now she shares the recipe with the community where it originated.

A photo shows a postcard on which Bill Baker's 1,000-lb. 1939 fruitcake was featured. Address: Ojai, California.

1951. Banks, Edward T. 1969. A vegetarian mecca. *British Vegetarian.* Nov/Dec. p. 578-79.
• ***Summary:*** The author describes his visit to the Lima Organic Farm at Latem, St. Martin, near Ghent. Almost everyone there is a "vegetarian wholefooder." Lima is a company with great integrity and experience in the field of whole foods and health foods. Lima is run by Mr. Pierre Gevaert, whose wife is Annette. The Lima business developed from the organic farm of M. Edgar Gevaert, a distinguished and prolific Belgian painter who died a few years ago. Edgar's gentle widow, Mlle. Gevaert-Minne, and one of their daughters, Celine, still live in the ancient Gevaert home.

1952. **Product Name:** [Soyalac {Soymilk}].
Foreign Name: Soiyarakku Neo.
Manufacturer's Name: College Health Foods. Later renamed San-iku Foods.
Manufacturer's Address: 1-1 Nagaurataku, Sodegaura-machi, Kimizu-gun, Chiba-ken 299-02, Japan.
Date of Introduction: 1969.
Wt/Vol., Packaging, Price: 180 ml glass bottle. Caned by 1980.
New Product–Documentation: Letter from Charles D. Howes. 1978. Oct. List of Seventh-day Adventist soymilk plants. In Japan: San-iku Foods, Kanno 4162, Sodegaura-machi, Kimitsu-gun, Chiba-ken 299-02. M. Urumba, Manager. Hidekazu Watanabe, production manager for Soyalac.

Shurtleff & Aoyagi. 1979. Tofu & Soymilk Production. p. 227-28. Gives a detailed description of the method used to make Soyalac.

William Shurtleff. 1981. Soyfoods. p. 35. "Dr. Harry Miller: Taking soymilk around the world." "Starting in about 1955 Dr. Miller started to recommend that the Adventist-run Japan San-iku School serve soymilk instead of cow's milk to the students; however the staff hesitated because of its nutritional value and flavor. In 1957 two Japanese Adventists, Mr. Hidekazu Watanabe and Mr. Hanzo Ueda (who ran a tofu shop at the time), started making Japan's first soymilk on a small scale in Hachioji, Tokyo, bottling it in 180-ml bottles, and selling it locally. Mr. Watanabe later described the great value to them of Dr. Miller's ongoing technical, nutritional, and spiritual guidance. After some time, directors of the San-iku School visited the small soymilk plant, liked the soymilk flavor, and understood its nutritional value. In 1959 they bought similar equipment, set up a small plant in the school, and started to produce soymilk, which was bottled in 180-ml bottles and served to the students at every meal. In 1969 the San-iku School set up an independent food production company called College Health Foods (which later became today's San-iku Foods) and through it, with the help of Loma Linda Foods in America, began to produce Soyalac soymilk infant formula." By 1980 this product was canned in plain and carob flavors.

Letter (in Japanese) from Hidekazu Watanabe. 1981. July 19. Discusses the early history of this product. "The Ueda Tofu Shop in Hachioji helped with the product development; I was there at the time. In those days our name was San-iku Gakuin Shokuhin-bu (the food department of the San-iku School). The purpose was to provide a place of labor for the students and opportunities to learn food processing. It was not a business. Dr. Perry Webber was the principal of our school at the time."

K. Tsuchiya. 1982. Dec. *Tonyu* [*Soymilk.* 2nd ed.]. p. 74. States that Soiyarakku Neo was introduced in 1969. It is now sold by Saniku Fuuzu in a 425 gm can and distributed nationwide.

Shurtleff & Aoyagi. 1984. Soymilk Industry & Market. p. 63-64. "In 1958 Dr. Miller set up a small soymilk plant in the kitchen of the Adventist-run Tokyo Sanitarium. It was used to make soymilk, soy whipping cream, soymilk ice cream, and soy spread, which were served to the staff and patients. In 1959 a small soymilk plant was established in the Seventh-day Adventist San-iku School. From this year, Japan's oldest existing soymilk company, San-iku Foods, traces its origin. By 1982 San-iku Foods was Japan's fourth largest soymilk manufacturer.

Letter from San-iku Foods. 1990. June. This product was introduced in 1969.

Letter from Ichiro Tabuchi. 1990. July 4. In 1970 San-iku Foods became independent from the San-iku Gakuin Food Department and started to make and sell infant formula.

1953. **Product Name:** Sanitarium Health Foods Vegetarian Rediburger (Canned Vegetarian Loaf).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, Sydney 2076, NSW, Australia.
Date of Introduction: 1969.
Ingredients: Wheat protein, vegetable oil, wheat germ, soy protein, hydrolysed vegetable protein, dried yeast, salt, yeast extract, brown rice, onion, caramel, colouring, Savex.
Wt/Vol., Packaging, Price: 430 gm can.
How Stored: Shelf stable.
New Product–Documentation: Letter from Sanitarium Health Food Co. 1981. Label. 10 by 4 inches. Full color. Photo shows a burger on lettuce and a bun topped with catsup and onion rings. "Vegetable Protein" Recipes for Company Roast and Golden Hot-Pot.

Letter and Label sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1969.

1954. Steinberg, Raphael. 1969. The cooking of Japan. New York, NY: Time-Life Books. 208 p. Illust. General index. Recipe index (English). Recipe index (Japanese). 28 cm.
• ***Summary:*** A superb, elegant book, that (with its spiral-bound companion volume of recipes) captures in both words and photos (by Eliot Elisfon) the true spirit of Japanese food and cookery. Contents: Introduction: Solving the mysteries of Japan's marvelous cuisine, by Faubion Bowers. 1. The heritage of a remarkable past. 2. Foods to suit the seasons. 3. The logic of Japanese cookery. 4. The world's greatest seafood. 5. Simple, satisfying foods of home. 6. A ceremony that sired a cuisine (*kaiseki* or tea ceremony cooking, with roots in 13th century Zen Buddhism). 7. Eating out as a way of life. 8. Magnificent meals in elegant settings.

Soy-related: The writer of the introduction snacked on odorous, fermented soy beans (*natto*) at night before retiring (p. 6). His son said to him recently, "Please, Dad. Not *tofu* again!" (p. 7). Importance of the soybean (p. 16-17; China has had a huge impact on Japanese culture. "Perhaps the most important food innovation contributed by China was the soybean, which in various disguises is still the foundation stone of Japanese cooking"). Shoyu is the Japanese word for soy sauce (p. 26). Tofu (soybean curd), which is cooked with other foods throughout most of the year, becomes a dish in its own right during the summer, served on ice and flavored with soy sauce (as *hiyayakko,* p. 32). Photos of tofu, shoyu, green soybeans [*edamamé*] and akadashi miso in prepared festival dishes (p. 34-35). *Matsutake* mushrooms with tofu or shoyu. "The most important lesson to be learned deals with the ubiquitous role of the soybean. Generally considered by Westerners to be the most humble of vegetables, the soybean is in fact the king of the Japanese kitchen. One might almost say that Japanese cuisine is built upon a tripod of soybean products: *miso,* a fermented soybean paste; *tofu,* a custardlike soybean cake; and soy sauce, used both to season foods as they are being cooked and to make dipping mixtures that enhance the flavors of the foods as they are being eaten." Details about these three products and their uses is then given (p. 41-42). Teriyaki or "shining broil" (p. 43). Two-page color photo shows (p. 44-45): Azuki beans and *kuromame* (black soybeans), sesame seeds, sesame oil, *fu* (wheat gluten croutons), *aonoriko* (powdered green seaweed), Kikkoman shoyu, *aka miso, shiro miso, tofu,* nori and wakame.

Ponzu, a dipping sauce which is half soy sauce and half lemon or lime juice (p. 46). Sukiyaki (p. 46). Tempura (p. 49). *Aemono* and *sunomono* with tofu, miso, or soy sauce (p. 48). Photo of a tofu-slicing knife with a serrated blade (p. 50). Recipes: Clear soup with tofu and shrimp (*Sumashi wan,* p. 55). Miso soup with red and white miso (p. 56-57, 59). Miso-flavored pork and vegetable stew (*Satsuma-jiru,* p. 61). Soy and sesame-seed dressing with string beans (*Goma joyu-ae,* with "½ cup white sesame seeds, toasted and ground to a paste," p. 62). Tofu and sesame-seed dressing with vegetables (*Shira-ae,* p. 63; "Add the sesame seeds..., warm them until lightly toasted. Grind them to a paste in a *suribachi* {serrated mixing bowl} or, more easily, pulverize them at high speed in an electric blender with 1/8 teaspoon of soy sauce. Transfer the sesame-seed paste to a mixing bowl...)."

Two color photos show: (1) Toasted sesame seeds in a *suribachi* with a wooden pestle. (2) When ground, they "quickly release their oil and turn into a paste." White miso dressing (*Neri shiro miso,* p. 67). Photo of *zensai,* incl. miso-marinated asparagus, and abalone cooked in soy sauce (p. 72). Sashimi dipped in soy sauce (p. 81-83, 90-91).

Undersea vegetables: nori, kombu, wakame, hijiki (p. 88-89). Recipes: Sushi (p. 95-101). Tempura (p. 103). Mirin and soy dipping sauce for tempura and noodles (*Soba tsuyu,* p. 104). Deep-fried tofu in soy-seasoned sauce (*Agedashi,* p. 105).

Tofu is the Japanese word for soybean curd (p. 108). Umeboshi (p. 109). Miso soup (p. 109-10). Natto and miso (p. 115). Tofu and shoyu in *yudofu* (p. 116). Sekihan and azuki (red beans, p. 120). *Mame* ("beans") are served at traditional wedding feasts; the word also means good health. Mochi (p. 121). Recipes: Sekihan (p. 126). Fox noodles with deep-fried tofu (*Kitsune udon,* p. 127). Bubbling tofu (*Yudofu,* p. 132-33). *Sukiyaki* (p. 134, with tofu and soy sauce). *Shabu shabu* (with tofu, p. 135).

Tofu and miso in *kaiseki* cuisine based on Zen Buddhism and the tea ceremony (p. 146-49). Teriyaki, mirin, ponzu, tofu (p. 152). Tofu and shoyu (p. 159). Sasanoyuki restaurant in Tokyo (uses tofu as a main ingredient in every dish, p. 160-61). Sukiyaki, with tofu and soy sauce (photo, p. 166-67). Broiled mackerel in miso marinade (*Miso zuke,* p. 169). Dengaku tofu (p. 172-73, with color photo). Beef teriyaki (with shoyu, p. 174-75). Yakitori (with teriyaki sauce, p.

© Copyright Soyinfo Center 2021

174-75). Grilled chicken with sweet soy-seasoned glaze (*Tori teriyaki,* p. 176). Black soybeans and tofu (p. 188). At a geisha house, shoyu is called *murasaki* ("the purple").

A guide to Japanese ingredients (glossary): Incl. aji-no-moto, aonoriko, azuki, fu, goma, goma-abura, hichimi (shichimi) togarashi, kombu, konnyaku, mirin, miso, MSG, nori, shoyu, soba, tofu, umeboshi, wakame, wasabi.

Note: The spiral-bound recipe book accompanying this volume contains the recipes in the parent volume and no new information; the binding makes it easier to use in the kitchen. Address: USA.

1955. Erewhon Trading Co., Inc. 1970. Traditional foods: Importers, processors, distributors. Wholesale-retail catalogue. Boston, Massachusetts. 12 p. Jan. 1. 22 cm. [2 ref]
• ***Summary:*** On the cover is the silhouette of three heads of grain on the plant, by a Japanese crest. Prices are given for each item. The company sells the following types of foods: 1. Grains: Brown rice (short grain Kokuho Rose grown by Koda Brothers, in 2 lb, 5 lb., 10 lb., 25 lb., 50 lb., or 100 lb. quantities). Sweet brown rice (Koda Bros.; it is more glutinous than brown rice, in the same 6 quantities). Note: No claim is made, anywhere in the catalog, that this rice is organic, or unsprayed, or "natural" or anything other than regular brown rice.

2. Beans: Azuki beans (imported from Hokkaido), Black beans ("Kuromame, a black soy bean import"), Chickpeas (Garbanzo, imported from southern Europe).

3. Sea vegetables: Dulse (From Grand Manan Island, Canada), hiziki, kombu, nori (dried laver), wakame (the latter 4 imported from Japan).

4. Soy Bean Products: Soy sauce (Aged naturally in wooden kegs at least 18 months; 16 oz for $1.20, 32 oz for $2.25, ½ gallon for $4.25, 1 gallon for $8.00, 4.75 gallon keg {21.13 liters} for $30.00). Hacho miso ("Soybean puree made from soybeans, salt & water. No chemicals used in fermentation. Aged at least 18 months"; 1 lb for $1.20, 2 lb, 4 lb, 44 lb keg for $36.00). Mugi miso ("Soybean puree. A lighter miso made with barley"; 1 lb, 2 lb, 44 lb keg). Moromi ("A thick sauce removed from the bottom of the soy sauce kegs after fermentation. Its uses are unlimited in soups & sauces"; 7 oz for $1.20.). Seitan ("Wheat and soy sauce cooked together for a long time. When used in soups or sauteed in vegetables it has a taste much like beef"; 3½ oz for $1.20). Note 1. This is the earliest document seen (July 2021) that mentions seitan and clearly understands what it is.

5. Condiments: *Furikake* ("A tangy sesame condiment made from Miso, sesame seeds, soy flour, nori and bonita [sic, bonito] flakes"; 3½ oz.), Daikon pickle, Sesame miso ("A hearty condiment for use on rice and other grains. Made from miso and unhulled sesame seeds"; 3½ oz). Tekka ("A strong dark condiment; famous for its medicinal qualities. Made from carrots, burdock, lotus, ginger, sesame oil, and miso"; 3½ oz), Sesame seeds, Sesame tahini.

6. Sea salt: Grey unrefined (from the Mediterranean Sea, unwashed and unground), White unrefined. 7. Oils: Corn germ oil (unrefined, pressed. No solvents, chemicals, or preservatives), Sesame oil. 8. Noodles: Ito soba, Kame soba, Udon. 9. Beverages: Kukicha, Kohren (Lotus root powder), Mu beverage (made from 16 different herbs), Yannoh (coffee-like drink made from grains and beans).

10. Miscellaneous: Dentie toothpowder (made from eggplant and salt), Kuzu arrowroot, Umeboshi & chiso [shiso, shisonoha, or beefsteak leaves], Umeboshi ("Salt plums aged in wooden kegs for at least 3 years").

11. Cookbooks (written in America): *Cooking Good Food,* and *Cooking with Grains and Vegetables.*

The majority of the above products are imported, mostly from Japan.

The inside front cover states: "Due to the growth of our business and our belief that good quality food should be available at low cost, we have eliminated many items from our wholesale list. We have eliminated most grains because excellent quality grains are available from many sources at more reasonable prices than we are able to charge. Two excellent sources for grains are Arrowhead Mills, Box 866, Hereford, Texas, and Pioneer Specialty Foods, Box 427, Fargo, North Dakota. Also eliminated from our wholesale list is Chico-San products. For these please write directly to Chico-San, 1262 Humboldt Ave., Chico, California, or contact any health food distributor."

Note 2. The products in this catalog do not require refrigeration; they contain no refined sugar / white sugar, no meat, and no dairy products–just like the catalogs of almost all subsequent natural food distributors during the 1970s and 1980s.

Note 3. This is the earliest existing Erewhon catalog seen (March 2011), and the earliest document seen (March 2011) concerning Erewhon and soy.

Note 4. This is the earliest document seen (March 2006) that mentions Arrowhead Mills, of Hereford, Texas. Address: 342 Newbury Street, Boston, Massachusetts 02115. Phone: 617-262-3420.

1956. *Natural Food and Farming* (*Atlanta, Texas*). 1970. Health food store directory. 16(8):20-23. Jan.
• ***Summary:*** "This directory is printed six times each year as a service to those who wish to buy good food. A free copy is available to anyone on request. Write NFA Health Food Directory, Box 210, Atlanta, Texas."

The directory, arranged alphabetically by state, now part of the magazine's "yellow pages."

1957. **Product Name:** Bragg Soyamins.
Manufacturer's Name: Bragg Health Foods.
Manufacturer's Address: Burbank, California.
Date of Introduction: 1970 February.
New Product–Documentation: Ad in *Let's Live.* 1970.

© Copyright Soyinfo Center 2021

Feb. "A wonderful life of glowing health can be yours with Bragg products." "Bragg Health Foods. Quality products for over 50 years." A small portrait photo shows "Paul C. Bragg, the pioneer health man says–'I will never grow prematurely old!' I, personally, fight clogging fat with my nutritional fat-fighter, Bragg Soyamins. They help keep my arteries free of waxy fat that blocks the passage of blood with its life-giving oxygen.

"Bragg Soyamins: The famous 'Blood Fat-Fighter' formula rich in lecithin, linoleic acids. Designed to help use up and control excess fatty blood cholesterol. 50 tablets (50-day supply) $6.95" The bottom half of this ad is titled: "For the pure joy of feeling cleaner inside, know the miracle of fasting."

Note: It is not clear what "Soyamins" are. They could be amino acids from HVP made from soybeans, but those contain no lecithin and do not fight fat. It is much more likely that these tablets are made of whole (full-fat) soy flour, which is rich in lecithin–which had been shown by 1970 to lower blood cholesterol. Moreover, starting in about 1975 Lucas Meyer GmbH in Hamburg, Germany, began selling "Soyamin proteins" consisting of five different types of soy protein products. Two of these were types of full-fat soy flour. However selling 50 tablets of soy flour for $6.95 would give huge profit margins.

1958. Hart, Eleanor. 1970. Headstand a day keeps you fit: Paul Bragg knows. *Miami Herald.* April 19. p. 18-G. Sunday.
• ***Summary:*** One photo shows Bragg, who came to Miami to address the recent National Health Federation convention, standing on his head on a cushion at the Miami Herald Studio. Another is a portrait photo. Age 89, he has plenty of silver, a pearly white smile with all of his teeth, such good vision (20-20) he can read a classified ad without glasses, and a trim (30-inch) waistline. It weight (150 lb over his 5 foot 8 inch frame) has not changed over the past 50 years. "You are what you eat," he says.

He also says he was born on a Virginia farm, the oldest of 16 children. All but two of them "killed themselves off" by eating a bad southern diet.

His family sent him to the Virginia Military Institute, but within 4 years he developed tuberculosis. So they sent him to Switzerland–to live or to die. There he met Dr. August Rollier. Through a diet he prescribed, plus sunlight, exercise, and breathing young Bragg was "reborn."

Staying in Europe, "he became a student of biochemistry and studied at Heidelberg, the Sorbonne, and Oxford."

From 1904-1917 he was editor of *Physical Culture* magazine with the late Bernarr Macfadden, "the physical culturist whose Deauville Hotel at 69th and Collins became the nation's first health spa" in the 1930s.

His love of California began in 1917, when "he trained there as a lieutenant in World War I." He moved to Hollywood in 1919 "and got mixed up with the movie industry."

The late Mack Sennett, pioneer producer of films for the silent screen, asked Bragg to tell his stars, such as Gloria Swanson and Ben Turpin, how to live right and stay healthy. Bragg says that today he is the "highest paid man in Hollywood," earning $100/hour to teach stars about healthful living. His disciples include such trim, fit and beautiful people as Eddie Albert, Pat Boone, Joan Crawford, Bob Cummings, Clint Eastwood, Alice Faye, and Cary Grant.

His dietary advice: Give up table salt. Replace sweet desserts with fresh fruit, baked apples, or applesauce. For breakfast: Fruit sprinkled with wheat germ, and a hard boiled egg. For lunch: A fresh vegetable salad with a dressing of lemon juice and unsaturated fat [vegetable oil]. "Eat with an entree of broiled fish, chicken or turkey." For dinner: Start again with a salad. "Dinner entree can be fish, chicken, turkey, lamb, bloody steak or rib roast. Add two cooked vegetables, one green one yellow.

Bragg lives in Palm Springs, California, and summers in Honolulu, Hawaii. He jogs a mile a day, rides a bike, plays polo, and does the hula.

"A widower for 20 years, he's still looking for the perfect woman. 'Love those ladies, can't live without 'em.'"

He believes there are three ages in every man's life: "the chronological which he cannot change, the psychological and biological which he can control." So: "Dress young, think young, keep away from old people..."

He says he is the father of five, grandfather of 12, and great-grandfather of 14.

Note 1. Soyfoods Center believes that much of the autobiographical information in this story is incorrect. For example, according to the Social Security Death Index, Paul Chappius Bragg was born in Feb. 1895. His actual date of birth was 6 Feb. 1895. Therefore, on the date this article was published, Paul Bragg was age 75 years, 2 months and 13 days–not 89 years as he claimed. According to the 1900 and 1910 U.S. Census in Washington, DC, Paul Bragg was born in Indiana, not Virginia, and was the 2nd of 3 children of Robert E. Bragg and Caroline ("Carrie") Bragg. In 1910 his mother was age 45. It seems very unlikely that she would have had 13 more children. The 1920 U.S. Census shows Paul C. Bragg, head of household, age 28. Born in Indiana. Mother born in Indiana. Father born in Indiana. Occupation: Director, YMCA. His wife is Neva, age 26. They have 2 daughters, age 2 years, 3 months, and age 4 months, both born in Washington, DC.

Note 2. This is the earliest document seen (Sept. 2011) in which Paul C. Bragg mentions or says that he attended the Virginia Military Institute.

Note 3. This is the earliest document seen (April 2006) related to Paul C. Bragg that mentions Dr. August Rollier or that mentions he studied biochemistry at an academic institution. Address: Herald Glamor Clinic Editor.

1959. Kahan & Lessin Co. 1970. Special advertising section: Kahan & Lessin (Ad). *Health Foods Retailing.* June. Incl. p. 86, 94.
• ***Summary:*** "This is a special advertising section prepared for and under the direction of Kahan & Lessin." The pages in this section are not numbered. The section begins with a brief history of The Ben Kahan Company and the Joseph E. Lessin Company before the two merged in 1945. Then of the growth and success of the combined company and their many moves to larger warehouses.

Pioneers in the industry were Otto Carque, William T. Thompson, and Eugene Vandercook, Sr. The names of early retail stores and early manufacturers are listed.

1945–The company's first location was at 1815 W. 11th St., Los Angeles.

1948–Art Miller joins the company.

1950–The company moved to 2445 Hunter St., Los Angeles. 5,000 square feet.

1955–Moved to 2425 Hunter St., Los Angeles. 18,000 square feet. This year Art Miller becomes a partner in the company.

1970–Moved to their new location.

Photos show: (1) The three partners standing outside their warehouse. (2) Breaking ground for the new home of K&L in May 1969. (3) The Ben Kahan truck fleet in 1940. (4) The first location in 1945. (5) The first expansion in 1950. (6) The new home at 3131 E. Maria St., Compton, California. (7-9) Individual portrait photos of Ben Kahan (president), Joseph E. Lessin (secretary-treasurer) and Art Miller (vice-president). (10) Full page ad of congratulations from El Molino Mills with portrait photos of Gene Vandercook, C.R. Vandercook, and Ed Vandercook (brothers) and the K&L 3 partners. (11) Art Miller and Jan Stoll.

"The *Wall Street Journal* reported back in 1961 that the health food industry was the fastest growing industry in America, next to the electronics industry." Address: 3131 East Marina St., Compton, California 90221. Phone: (213) 631-5121.

1960. Plantmilk Society. 1970. The cruel cost of milk (Ad). *British Vegetarian.* May/June. Back cover.
• ***Summary:*** A large photo shows calves in a British factory farm, where they are "imprisoned for life in pens 2-feet by 5-feet" and are not allowed to turn around. They are put in the pens when they are about 5 days old. Most cows are made pregnant by artificial insemination.

After the age of about 3 weeks, most young milk cows are unable to turn around in their pens. In centered, bold letters: "Calves for rearing into meat come from dairy farms, whose products are: (1) calves, taken from their mothers so that we can have the milk, (2) milk, (3) worn out cows, slaughtered for beef."

"The nutritious plantmilk alternative to milk, made entirely from non-animal ingredients, has given *you* the opportunity to release yourself from supporting the vicious circle of the meat-milk complex. Plantmilk is obtainable from most Health Food Stores. Please support this humane effort."

Note: Plantmilk is now made largely from soybeans. This is the earliest English-language document seen (Aug. 2013) that uses the term "alternative to milk" to refer to soymilk. Address: 39 Willow Crescent, Exbridge, Middlesex, England.

1961. *Ann Arbor News* (*Michigan*). 1970. Organic gardening craze makes headway in Washtenaw County. July 16.
• ***Summary:*** A large photo shows William Bolduc, owner of the Eden Organic Food Shop, which he recently opened at 514 E. William St. in Ann Arbor, standing in front of shelves of a variety of bagged organically grown foods. He sells everything from brown rice to cous-cous, and reports that the interest in organic foods and organic gardening is on the increase in the Ann Arbor area. Bolduc caters mostly to students at the University of Michigan campus who, he says, are becoming increasingly diet and health food conscious. A list is given of the name and addresses of organic farmers and gardeners in the area that Bolduc knows (including Tom Vreeland, 5861 Geddes Rd., Ypsilanti; vegetables).

Gardening organically means growing fruits and vegetables in the way it was done 40 to 50 years ago, without the use of chemical fertilizers, sprays, and powders. Rotting organic matter, manure, and mulch are used to fertilize the soil and build good humus. The resulting fruits and vegetables are said to taste much better, be larger and more nutritious, and uncontaminated by chemicals. Ruth Stout's method of organic gardening is discussed.

Note: This is the earliest publication seen (Feb. 2003) concerning the activities of Eden Foods. However all the founders of the company agree that it was actually founded in November 1969. Several legal documents from late 1969 and 1970 also provide strong evidence in support of this Nov. 1969 date.

1962. Kennedy, J. Robert. 1970. Exposed! Facts, fallacies and frauds about 'organically grown.' *Health Foods Business* [*sic, Dietetic Foods Industry?*] 4(3): Aug.
• ***Summary:*** A detailed description, with many photos and two illustrations, of exactly how Wehah Farm in northern California grows short-grain brown rice for Chico-San. "We searched eight years offering premium prices for a grower who would meet our standards for *organically grown* rice... Our agreement with Wehah Farm was signed in the fall of 1968 and an advertising campaign was started. By the time of the 1969 harvest a third of our crop was sold in advance and a rapid build-up of repeat sales followed." Note: The name "Wehah" is formed from the first names of the four Lundberg brothers: Wendell, Eldon, Harlan, and Homer.

"Chico-San rice fields were selected and located less

© Copyright Soyinfo Center 2021

than ten miles from the head of the famous Feather River which cascades out of the Sierra Nevada." Purple vetch and chicken manure are plowed into the soil to enrich it and *Gambusia affinis*, a small fish, is used to control insects in the flooded rice fields. "Chico-San rice is stored in the husk and milled only upon order to maintain its freshness..."

One photo shows J. Robert Kennedy with a sack of Chico-San organically grown brown rice. Kennedy believes that there are now some "sly and phony growers" who say they are growing brown rice organically, when actually they are not. And some millers, jobbers, distributors, and retailers are selling this non-organic rice as if it were organically grown. "Manufacturers and distributors in the health food industry have been aware of misleading or deceptive labeling on supposedly organic or natural products."

Note: The title of this periodical, taken from an offprint sent by Chico-San, is probably incorrect. It should probably be *Dietetic Foods Industry* which started in about 1955, and whose title was changed to *Health Foods Business* in 1973. Address: President, Chico-San, Inc.

1963. *Better Nutrition.* 1970. Serial/periodical. Syndicate Magazines, Inc.
• ***Summary:*** Murray, Frank; Tarr, Jon. 1984. *More than one slingshot: How the health food industry is changing America.* See p. 53-54. This magazine is now owned by Communication Channels, Inc. (CCI, Atlanta, Georgia), which, in turn, is owned by Argus Press, a division of British Electric Traction Co. of London, England. *"Today's Living,* with the same staff as *Better Nutrition,* began in Oct. 1970."

1964. Health Enterprises Corporation. 1970. Back to nature: The new boom in organic foods offers a unique opportunity (Ad). *New York Times.* Dec. 20. p. 131.
• ***Summary:*** A large, bold ad. "If you haven't read *Time* or *Life* or *Look* in the past few weeks, then you've missed the excitement about the newest thing in food retailing–the mushrooming growth in organic foods.

"The National Nutritional Foods Association puts it this way: the organic foods business has *doubled* each year during the last three years. And Healthway Natural Food Shops offers you a unique opportunity:

"Today's fastest ways to profit in your own natural food business:

"Our unique approach? We've added fast, over-the-counter service to tastily-prepared, healthful organic foods and beverages to the traditional package food store. Instead of waiting months to build volume, the Healthway food bar creates immediate traffic and profit. As customers learn how good organic foods can taste, package sales grow.

"Our pilot turned a profit the day it opened. Four new Healthway organic food-service / package sales units are now being located in southern New York and Connecticut. We are now looking for Area Directors to develop virtually untouched markets in New Jersey, New York, New England and other eastern areas. We can back each area director with:

"Fifteen years experience in the purchase and distribution of organic foods and vitamins.

"Complete sales and management training program.

"Assistance and back-up in site selection, lease negotiation and unit financing.

"Pre-tested menus and recipes and complete selection of organic bulk and packaged foods."

"We offer this exceptional income opportunity only to the highly-motivated, sales-oriented person who has the vision to see the potential in this area and the drive to develop it... we require a commitment of $30,000 (which will include the installation of your own Healthway Natural Food Shop and Food Bar).

"If you are interested in the new boom in natural foods, write or call or Marketing Director:..."

Note: This is the earliest document seen (March 2020) concerning retailing of natural or organic foods. Address: 84 Thomas St., New York, NY 10013. Phone: (212) 349-1425.

1965. Poppy, John. 1970. Adelle Davis and the new nutrition religion: The health food and vitamin crusade goes big time. *Look* 34(25):62, 65. Dec. 15. [4 ref]
• ***Summary:*** Photos show Adelle Davis: (1) shopping in a food store. (2) At a typewriter behind her four best-selling books. (3) Holding a handful of supplements; she takes 9-10 after every meal.

1966. *British Vegetarian.* 1970. Health food stores and restaurants where the *British Vegetarian* may be obtained. Nov/Dec. p. 566-67.
• ***Summary:*** Gives the name and address in the British Isles of 80 health food stores, then 8 restaurants, sorted alphabetically by city. London has 13 stores and 5 restaurants, but most other cities have only one. Dublin (Ireland), and Dundee and Glasgow (Scotland) each have a health food store, and Edinburgh (Scotland) has a restaurant.

1967. Barnard, W.G. 1970. Health via the carrot and other vegetables. St. Catharines, Ontario, Canada: The Provoker Press and Paul S. Eriksson, Inc. xiv + 144 p. No index. 19 cm.
• ***Summary:*** This is apparently a reprint (with several words missing from the title) of the original edition (which Soyfoods Center has never seen), published in about 1939 by the Natural Foods Institute of Cleveland, Ohio. This edition contains 37 short chapters on a variety of subjects such as: What causes good health and poor health? Personal experiences of the author. The natural laws that govern health–God's simple rules of natural living. About vitamins and minerals. Various health problems or diseases and testimonials of cures and prevention. Good and bad foods, etc. Enemies of health: Coffee, alcoholic liquors, tobacco,

© Copyright Soyinfo Center 2021

denatured foods, tea, cocoa, cola drinks.

The introduction begins: "One of the most wonderful gifts God gave to man is a healthy body. It costs not one penny to preserve your health, but it may cost you a fortune, untold suffering, yes, even life itself, once health is lost... Primitive man sustained himself on natural foods..." (p. ix). "In our opinion some of the worst enemies man has today are High Pressure Advertising of Denatured foods, drugs, etc... Through the powerful medium of radio, billboard, magazine, and newspaper advertising, the public has fastened themselves upon the use of aspirins, alkalizers, narcotics, pills, laxatives, seltzers, cold cures,... Some of the largest buildings in our cities are the hospitals... Oh, what tragedy!" Sadly man fails to recognize that he has brought all these diseases upon himself (p. xiii).

Chapter 3, titled "My personal experiences with carrots and other fruits and vegetables" (p. 11) begins: "For the past 14 years the writer has been lecturing in food shows, trade shows, and expositions on the proper preparation of foods. I lectured at the Century of Progress in Chicago [Illinois] in 1933 and again in 1934, and at the Great Lakes Exposition in Cleveland in 1936 and again in 1937. I am the founder of the Natural Foods Institute in Cleveland, Ohio. He has proclaimed the health-giving carrot to thousands.

"Up to ten years ago, I had been living the average life, eating anything and everything, drinking coffee, tea, cocoa, and colas. The base of my meal was potatoes and white bread. I acquired an excessive weight of 212 pounds. Heartburn followed every meal." He then describes a typical day's diet, loaded with meats, sugar, fat and refined foods– and the agony that followed. He lost his pep and ambition, and was refused life insurance because of sugar in his urine. His family became very concerned. A doctor warned him of the possibility of immanent death, and "prescribed a diet of milk, bananas, lots of raw vegetables and vegetable and fruit juices, which I heeded" (p. 14). He began to feel better from the first day. "Today I feel like a new man... at the age of sixty-six my recovery is so complete that I am now enjoying exceptionally good health" (p. 15).

"With the return of spirituous liquors [in Jan. 1934], cocktail recipes and cocktail bars are prevalent all over the land. We all know that alcoholic cocktails are injurious regardless of the content as long as alcohol prevails... There are cocktails however, that can be made from Nature's vegetables and fruits that are healthful, exhilarating and bracing." "A new machine called a liquefier propelled by electricity liquefies vegetables in from one to three minutes and marvelous Health-Cocktails can thus be prepared at least once each day for the entire family" (p. 16-17). He also mentions the "liquefier" on p. 34, and p. 53 ("liquefying machine"). So this book was apparently not written mainly to promote the liquefier. Note: This liquefier would later become known as a "blender" and Barnard's company would later make and market the Vita-Mix or Vitamix, a powerful type of blender.

"Constipation is a disease known mainly to the civilized races" (p. 29). Barnard regularly cites and summarizes the writings or Dr. John Harvey Kellogg.

Essential for good health is a "pure, red blood stream created by natural foods, fresh air, sunshine, and exercise. Soy bean products, spinach, parsley, celery, cabbage and beets, as well as carrots help make good red blood. Eat a plate of salad made of three grated carrots together with orange juice dressing. Drink freely of carrot juice daily" (p. 49). "Carrot juice and other vegetable and fruit juices can be included in the diet of every child every day." In growing boys or girls, beware of "False Sugar Appetites."

"A strict vegetarian diet is used in the treatment of cancer with notable success..." (p. 88).

Like many in the 1930s, the author believes that an alkaline diet fights acidosis and promotes good health (p. 91). "Salt is a very harmful substance if not used in moderation" (p. 119).

Chapter 35, titled "Soy bean (the perfect protein food)" (p. 127-28) begins: "For centuries the Chinese have used the Soy Bean as a source of protein and fat and the necessary Amino acids that are found in flesh foods. In America the production of the soy bean is now running into millions of bushels and vegetable meat factories and milk factories are springing up all over the country.

"Henry Ford, who has done so much to educate the American people to the value of the Soy Bean, recently made the prophecy that the cow and hog were destined to oblivion and we will soon be eating our meat from the Soy Bean and drinking our milk from the Soy Bean. In other words obtaining our food direct from the soil first hand instead of second hand..." "It is the experience of the Natural Foods Institute that babies taken from the natural mothers milk thrive on soy bean milk and we have found no one allergic to it.

"Soy Meat substitutes, Soy Milk, Soy Flour, Soy Cheese [tofu], Soy Coffee substitutes, canned green soy beans, canned soy beans in tomato sauce, soya macaroni are fast becoming popular among health minded people."

In conclusion (p. 133-34): "In writing this book I have consistently followed one line of reasoning. It is agreed to by many physicians, dieticians [sic, dietitians], and food scientists, that vegetables and fruits are absolutely essential for maintaining good health, natural balance, and physical well being. I have tried to help those who are afflicted by giving this information." I also want to help those who are healthy to stay healthy. At the end of the book is a food dictionary and lists of acid-forming foods (bad) and foods with an alkaline reaction (good). Address: Cleveland, Ohio.

1968. Bragg, Paul C. 1970. The shocking truth about water: A universal fluid of death. Burbank, California: Health Science. xviii + 100 p. Illust. Forms. 21 cm. *

© Copyright Soyinfo Center 2021

• ***Summary:*** Explains that fluoride is a poison. Also reprinted, with some new editions, in 1974 (Santa Ana, California: Health Science), 1977, etc. Address: Burbank, California.

1969. Carqué, Otto. 1970. The folly of meat-eating: How to conserve our food supply. A plea for saner living. St. Catharines, Ontario, Canada: Provoker Press. 34 p. Illust. 18 cm.
• ***Summary:*** This booklet, originally written during the "Great European War" (World War I; 1914-1918), presents economic, ecological, and nutritional arguments for vegetarianism. "The bloodless diet is the first step toward a grander and nobler civilization..." (p. 2).

"At the Kansas Agricultural Experiment Station it has been demonstrated that an acre of alfalfa produced 776 lb of pork during one year. The average amount of alfalfa hay produced to an acre per year is about 8000 lb, or about 7200 lb of water-free substance from which only about 200 lb of water-free food in the form of meat is derived. We must remember that in order to establish a fair basis of comparison for the respective yields of food material to the acre it is necessary to deduct the respective amounts of water contained in the food. Meat consists of at least two-thirds water. In other words, in buying a lb of meat we receive only about five oz of water-free food. Aside from the fact that meat is unwholesome, it is one of the most expensive foods." (p. 3).

On page 4 is a short letter dated 1 Aug. 1904 to Otto Carque in Los Angeles, California, from Harvey W. Wiley, Chief, USDA Bureau of Chemistry, Washington, DC. Dr. Wiley discusses the need for someone in the USA to undertake "a complete analysis of all the mineral constituents of foods." German scientists have given this subject more careful attention.

Bound at the back is *Food Preservation and Fruitarianism: The Social and Economic Aspects of the Meatless Diet* by Henry E. Lahn, M.D. (p. 33-34). Address: Los Angeles, California.

1970. Garrison, Omar V. 1970. The dictocrats' attack on health foods and vitamins. New York, NY: ARC Books. 340 p. 18 cm. *
• ***Summary:*** The story of how the FDA has harassed the health food industry. Later published under the title *The dictocrats: Our unelected rulers* in Detroit, Michigan, by Books for Today Ltd., Specialty Features Syndicate.

"There will never again be another George P. Larrick at the helm of the FDA–but the harm he did to the natural food movement will be remembered for a long time" (p. 30).

1971. Schwarz, Richard W. 1970. John Harvey Kellogg, M.D. Nashville, Tennessee: Southern Publishing Assoc. 256 p. Illust. Index. 22 cm. See p. 44, 120-23, 243. Also published in 1970 by Andrews Univ. Press (Berrien Springs, Michigan).
• ***Summary:*** This excellent biography of Dr. J.H. Kellogg was originally written as a 1964 PhD thesis at the University of Michigan. Although it contains no references or footnotes, and thus lacks the documentation and completeness of the dissertation, it is still (March 2009) the best biography of Dr. Kellogg. The author is a Seventh-day Adventist.

Contents: Preface. 1. The boy foreshadows the man. 2. A convert (the early health reform and vegetarian movements in America). 3. From teacher to doctor. 4. A man is what he eats. 5. Changing American habits. 6. Developing the Battle Creek Sanitarium. 7. Sanitarium ups and downs. 8. A torrent of words. 9. Variations on a boyhood dream. 10. The unwilling surgeon. 11. Products of an active mind. 12. All work, but little play. 13. What manner of man. 14. Father of forty-two children (and Ella Eaton Kellogg, his wife). 15. His brother's keeper. 16. The ties of fifty years are broken. 17. Food manufacturing and family quarrels. 18. New outlets for promoting an old program. 19. The last battles. 20. An epilogue.

Concerning meat substitutes [meat alternatives] (p. 121-23): "During the years in which he directed the experiments which led to the production of flaked cereals, Bromose, and Malted Nuts, Dr. Kellogg also attempted to develop a substitute for meat from plant sources. He traced his interest in such a product to conversations with Dr. Charles W. Dabney, noted agricultural chemist and former president of the University of Tennessee. When Dabney was serving as President Cleveland's Assistant Secretary of Agriculture [probably about 1893-1897], he had discussed with Kellogg the problem of supplying adequate protein for the world's rapidly expanding population. The men agreed that it was better economics to use grain for human food than to feed it to animals and then use them for food. The problem, as Dabney saw it, was to produce a grain product which would have all the nutritional value and taste appeal of meat.

"In 1896 Kellogg announced that he had perfected the ideal substitute for meat in Nuttose, a nut product which he could prepare to taste much like beef or chicken... The doctor's interest in new vegetarian meatlike protein foods continued active until shortly before his death. Among some of the more popular creations later developed in his laboratories were Protose, Battle Creek Steaks, and Battle Creek Skallops. Various combinations of nuts and wheat gluten composed the principal ingredients in the imitation meats...

"Kellogg's last major food discovery was an artificial milk made principally from soybeans. He was particularly enthusiastic over soy milk because it proved an excellent host for the *acidophilus* bacteria which the doctor believed needed to be implanted in the intestinal tract in order for it to function perfectly. Shortly after Kellogg had developed soy acidophilus milk, he chanced to read that Marie, smallest of

© Copyright Soyinfo Center 2021

the Dionne quintuplets, was suffering from bowel trouble. Immediately wiring the quints' physician, Dr. A.R. Dafoe, he announced he was sending him a supply of soy acidophilus milk, which he was certain would cure Marie's problem. About ten days later he received a letter from Dafoe which indicated that the soy acidophilus milk had indeed corrected the situation and asked that a continuous supply be sent to Callander, Ontario [Canada], for the five little girls."

In summarizing Dr. Kellogg's major accomplishments, the author notes (p. 243): "His introduction of peanut butter added another widely accepted item to the American diet, and it probably did more to provide a market for peanuts than did the efforts of any other person, with the possible exception of George Washington Carver. John Harvey's development of meatlike products from nuts and legumes combined with wheat gluten has not only helped to enrich the dietary of thousands of persons who for ethical, health, or religious reasons choose to be vegetarians, but such high-protein foods also hold possibilities for supplementing the diet in countries where the supply of meat is insufficient to provide enough protein for a rapidly expanding population."

Concerning Granola: In the early 1860s, Dr. James Caleb Jackson of Dansville, New York, developed Granula, America's first successful cold breakfast cereal, made solely from wheat. For 40 years, Dr. Jackson operated "Our Home on the Hillside," probably the most successful of the "water-cure" institutions that blossomed in the 1850s. "In an atmosphere approaching that of a European spa, Jackson provided hydropathic treatments and a special diet for as many as a thousand patients a year." In about the 1870s, at the Battle Creek Sanitarium, John Harvey Kellogg developed a similar product, which he named Granola. It differed from Jackson's Granula in that it consisted of several grains, and longer baking dextrinized the starch more thoroughly. "At first he apparently had no thought of selling it. He intended it solely for sanitarium patients. Gradually, however, as former patients and others interested in dietetic improvement sent to the sanitarium for Granola, a small commercial business developed, and Battle Creek thus took its first step toward becoming the 'Breakfast Food Capital of the World.'... Shortly after the production of Granola for patients at the sanitarium began in 1877, Dr. Kellogg organized the Sanitarium Food Company as a subsidiary of the Battle Creek Sanitarium. Operated as an adjunct to the sanitarium bakery, for more than a decade it marketed a variety of oatmeal, graham, and fruit crackers and whole-grain cooked cereals–all originally devised to provide variety in the menu of sanitarium patients." All products were made from whole grains without artificial additives, and all underwent prolonged high-temperature baking designed to dextrinize their starch. "By 1889 the Sanitarium Foods had become popular enough to warrant the establishment of a separate factory; Granola alone sold at the rate of two tons a week." But when Dr. Kellogg wanted to expand the business, other sanitarium doctors refused to vote the funds. So Dr. Kellogg launched the private Sanitas Food Company, relying heavily on his younger brother, Will Keith, who had served as his personal accountant and business manager since 1880. John Harvey's new flaked cereals and vegetable meats became the property of the Sanitas Company. In mid-1906 Dr. Kellogg decided to change Sanitas' corporate name to the Kellogg Food Company. Then: "In the spring of 1921, to avoid further difficulties with Will Kellogg's manufacturing business [Battle Creek Toasted Corn Flake Company], Dr. Kellogg changed his concern's name to the Battle Creek Food Company."

Concerning flaked breakfast cereals: The first ones were developed from wheat jointly by Dr. J.H. Kellogg and his brother Will, in about 1894. Dr. Kellogg named their first successful wheat flakes product Granose Flakes, and on 31 May 1894 he applied for a U.S. patent on "Flaked cereal and process for preparing same." But in 1903 courts declared the doctor's patent invalid. Will Kellogg developed the product into a great commercial success, in part by adding sugar to the malt and corn combination from which he made the flakes. "The sugar greatly enhanced the cereal's taste appeal, and, as a result, the Corn Flakes business was booming by late 1905." Will convinced his brother, John Harvey, to relinquish Sanitas' rights to Corn Flakes, and in early 1906 Will established a separate Battle Creek Toasted Corn Flake Company with outside financing. John Harvey agreed not to take an active part in the new company's management. Six months later John Harvey decided to change Sanitas' corporate name to the Kellogg Food Company. The new company "began operating in July 1908, with Dr. Kellogg owning all but two of its fifteen thousand shares of stock. Not only did the new company absorb the old Sanitas Company, but it also leased the entire plant, machinery, goodwill, and business of the Battle Creek Sanitarium Food Company, thus bringing the manufacture and distribution of all the food products with which Dr. Kellogg was associated into one organization. By then John Harvey had decided that it would be a good thing to put out all company products under the trade name 'Kellogg's.'"

Will became very upset when Dr. Kellogg attached the family name to his new food company and products. Eventually a series of legal battles developed between the two brothers over this and other products. Will Keith Kellogg is discussed on pages 64, 118-20, 122, 144, 148, 192, 210-18, 224, 237-38.

On pages 193-208 are 16 pages of excellent black-and-white photos from the life of Dr. Kellogg, starting with a portrait of him and his wife in 1884.

Reprinted in 2006 by Review and Herald Publishing Association (Hagerstown, Maryland)–but with the new subtitle: "Pioneering health reformer." Adventist pioneer series. On the new cover, on a snipe in the upper right corner: "Father of the health food industry." Address: Andrews

1972. Trager, James. 1970. The enriched, fortified, concentrated, country-fresh, lip-smacking, finger-licking, international, unexpurgated foodbook. New York, NY: Grossman Publishers. xv + 579 p. Illust. Index. 24 cm. [350+* ref]

• ***Summary:*** This hefty volume is packed with information about a multitude of interesting, little known, or bizarre subjects related to food. It is divided into 11 major chapters, each of which contains many mini-chapters, often with witty or enticing (but often undescriptive) titles such as "mushrooms take savvy" or "Farmer Jefferson." The extensive index is very useful, containing entries for such things as Accent/MSG (p. 445-48), prehistoric agriculture and food (p. 3-11), meat analogs and Bac*Os (p. 450-51, 457, 501), Archer Daniels Midland (p. 450), bean curd (p. 333, 362), Battle Creek Sanitarium (p. 460), Kellogg (p. 384, 460-61), miso soup (p. 362), soybeans (p. 21, 262, 382, 450-51, 518), soy protein (p. 450), vegetarianism and vegetarians (p. 3, 324, 343, 457-59).

In Chapter 10, titled "Nuts in the Fruitcake" (p. 455-86), the author takes the opportunity to make fun of anything he discusses related to health/natural foods or vegetarianism. To him, it all smacks of food faddism and extremists. There are sections about vegetarians past and present ("there are no convincing nutritional justifications for vegetarianism"), Sylvester Graham ("One of America's first home-grown food faddists"), Horace Fletcher, Dr. William Howard Hay and acidosis, Gayelord Hauser ("Perhaps the most prominent diet and health mythologist in recent years"), organic foods baloney ("DDT has not yet been shown to have harmful effects for humans"), Carlton Fredericks and Adolphus Hohensee, Tiger's Milk, aphrodisiac foods, and food and astrology. Address: New York.

1973. Walker, Norman Wardhaugh; Pope, R.D. 1970. Fresh vegetable and fruit juices: what's missing in your body. Phoenix, Arizona: Norwalk Press. 165 p. Illust. 22 cm. Index. Compiled under the direction of and endorsed by R.D. Pope. *

• ***Summary:*** This is a revised edition of *Raw Vegetable Juices*. Address: Doctor of Science, etc.

1974. Harris, Jean. 1971. Engineered food is on the way! *News and Observer* (*Raleigh, North Carolina*). Jan. 17.

• ***Summary:*** Henry Ford's desire to make cloth from soy protein started the original research on "meat analogues." The technology for producing spun soy protein products developed from a process to produce casein fibers in Italy in the mid-1920s. A second group of "soy meats," called textured meat analogues, is made by an extrusion process applied to textured vegetable proteins made from soy protein isolates; one example is Bac-Os.

"Most of these soy meats are available only to the institutional trade. They are now in use in prisons, hospitals, and orphanages." Two manufacturers of such products are Loma Linda Foods and El Molino Mills.

In North Carolina a full soybean product, made from toasted soybeans, is sold under the name of Golden Nuggets; all Raleigh seems to be eating them.

Recipes are given for: Soya cake (with sifted soya flour). Soyanaise (with Soyamel soymilk). Golden nut pie crust (with soya flour). Soya cookies (with soya flour). Roasted soybeans (made from canned soybeans, either dry roasted at 350 degrees or deep fat fried). Puree of soybean soup (with sieved soybean pulp). Address: Food editor.

1975. Carberry, James F. 1971. Our daily bread: Food faddism spurts as young, old people shift to organic diets. Concern on pesticides cited, but some see deception by quacks claiming cures. Yin and yang ice cream. *Wall Street Journal.* Jan. 21. p. 1, 12.

• ***Summary:*** Written from Hollywood, California, this article reports that "food faddism has been particularly prevalent lately." Kahan & Lessin Co., one of the nation's biggest distributors of organic foods, reports that its sales have doubled to $12 million a year from $6 million in 1968. New Age Foods of San Francisco [owned by Fred Rohé] recently opened a branch store in suburban Palo Alto, where it expects to gross $1 million during its first year.

"Health and organic food advocates say the popularity of such items–as well as the more conventional products grown under 'natural' conditions–reflects the growing public concern over pesticide poisoning and the publicity over the dangers of food additives, preservatives, and substitutes like cyclamates."

Richard Hansen is a sociologist at the University of California at Davis; he is researching the organic food movement.

"New insights into universe: Bruce MacDonald [sic, Macdonald], president of Erewhon Trading Co., a Boston and Los Angeles concern that specializes in such exotic foods as hacho miso (a soybean paste), says that organic foods appeal to many dropouts from the drug culture. 'It's not just that the body's malnourished from being on drugs a long time,' he says. 'It's also that organic foods can give a person new insights into the order of the universe."

Warren Stagg, the bearded proprietor of H.E.L.P., a popular vegetarian restaurant, believes in the mystical, spiritual value of certain foods. A vegetarian diet can help elevate a person to a higher level of consciousness and bring him into harmony with the order of the universe, he says. Since 75% of H.E.L.P.'s clientele are nonvegetarians, the "restaurant offers some meat substitutes such as 'beef' stroganoff made from vegetable protein, mushrooms, scallions, bell peppers and sour cream sauce, and a 'vegeburger' sandwich that's also made from vegetable

© Copyright Soyinfo Center 2021

protein. Other dishes on its menu include braised tofu (soybean cake) with brown rice and a salad of cottage cheese, alfalfa sprouts, sunflower seeds, grated carrots, scallions, figs and apricots."

Note 1. This is the earliest English-language document seen (April 2013) that uses the term "braised tofu" to refer to grilled tofu.

"A group of young people following a macrobiotic diet live in an old Victorian mansion above Hollywood's Sunset Strip. They are students of the late Georges Ohsawa, a Japanese philosopher who taught about the delicate balance between yin and yang; they eat ascetic meals that include pressure-cooked brown rice and seaweed soup. There have recently been well-publicized cases of the deaths or severe illnesses of a few young people subsisting on only brown rice, the extreme form of the macrobiotic diet.

"Another famous food-faddist helped found a huge business in breakfast cereals. He was John Harvey Kellogg..." according to Ronald Deutsch, author of a history of food fads called "The Nuts Among the Berries." Deutsch then tells his inaccurate version of how Mr. [sic, Dr.] Kellogg got into the cereal business.

"One man who spends a great deal of time pooh-pooing various nutritional eccentricities is Dr. Fred Stare, chairman of the department of nutrition at Harvard University's School of Public Health." Dr. Stare discusses his pet peeves.

Note 2. Bruce Macdonald recalls (April 1992): "In early 1971 *The Wall Street Journal* ran a front-page feature story on the emerging new natural foods industry. A person from Merrill-Lynch came in and said, 'We could package this business and raise millions for you.'"

Advest Co. 1972. Dec. "A recent *Wall Street Journal* article named this industry as one of the ten highest growth industries for the 1970s." Address: Staff Reporter.

1976. Brozan, Nadine. 1971. If you've never seen a soybean before... *New York Times.* Jan. 23. p. 18.
• ***Summary:*** Denis Barber owns about 75,000 bushels of soybeans at any given time–yet he's never seen a soybean. As president of General Arbitrage, a New York commodity trading company, he buys and sells commodity futures. The soybeans he purchases are usually resold before the date he is required to take delivery; if they are not, they end up in a warehouse in Chicago.

In the financial world, the soybean is known as "the Cinderella crop." It contains more protein than any other vegetable–and costs less. Yet in America, soybeans are not widely available in food stores–except in health food stores and Chinese markets. Although supermarkets do not stock the bean, they do sell many products, ranging from salad dressings to pet foods, that contain soybean oil, meal, or flour. They also carry soy sauce and Worcestershire sauce. Babies allergic to cow's milk will probably be given soy milk. Observers of orthodox [kosher] Jewish dietary laws, which do not permit the consumption of meat and dairy products at the same meal, are now able to enjoy imitation sour cream, ice cream, or steaks–each made from the soybean. According to Mr. Barber, less than one half of one percent of the crop is used for human nutrition; its main use is as a meal for livestock.

Note: This is the earliest English-language document seen (Oct. 2013) that contains the term "imitation sour cream."

Dr. Joseph J. Rackis, principal chemist for the Northern Marketing and Nutritional Research Division of USDA's Agricultural Research Service in Peoria, Illinois, agrees that most soybeans are processed into oil and meal. And even if more were available for sale as food, most people don't like their taste–according to a spokesman for General Foods.

The "future of the soybean probably rests more in what it can become than what it is." The food industry, scientists and nutritionists believe that the wave of the future lies in the simulation of foods from soybeans. Already they are transforming soybeans into "hamburgers, canned stews, bacon strips, hors d'oeuvre dips, chow mein, pasta, sea food, and a wide range of frozen dinners approximating ham, chicken and beef." A photo shows soybeans in a plastic bag.

1977. Smyth, Jeannette. 1971. Stores do a healthy business in natural food. *Washington Post, Times Herald.* Feb. 28. p. 1291.
• ***Summary:*** The health food industry is divided into two categories: (1) Those the young people call "the pill stores," which sells mostly pills and supplements, not much food. They have been around for decades. (2) The newer natural food stores, run mostly by young people of today's counter-culture, who sell mostly foods and beverages. These stores are based on the philosophy of living in harmony with nature, rather than trying to conquer Nature. Oliver, Cheri, and Krispin are members of the collective which runs Beautiful Day, a natural foods store in College Park, Maryland.

"Bill Beal tries to eat raw fruit and vegetables because cooking, he says, reduces their nutritional value. A typical day's breakfast is cottage cheese of tofu (soy bean curd), mixed with home-made yogurt, brewer's yeast, wheat germ, dark molasses, and fruit–dried or fresh." Note: This article, with two photos, is written in an unsympathetic tone.

1978. *Sunset* (*Menlo Park, California*). 1971. An introduction to soybeans. 146:226, 228. April.
• ***Summary:*** "'They taste so good!' was the exclamation we heard over and over again from our taste-testers who were sampling soybeans for the first time. The intriguing nutlike flavor and tender texture of these highly nutritious legumes comes as a pleasant surprise.

"Soybeans are indigenous to China and Japan, where they have been used since before recorded history. Here in

© Copyright Soyinfo Center 2021

the West the dried beans are readily available in health food stores and Oriental markets."

Describes how to soak soybeans (6-8 hours or overnight; reserve liquid for cooking), and how to cook them (simmer for 3 hours). Gives recipes for: Dry-roasted soybeans [soynuts]. Baked soybeans (with onion, salt pork, molasses, catsup, salt, mustard, Worcestershire sauce, and pepper). Marinated soybean salad. Refried soybean tacos.

1979. Greene, Wade. 1971. Guru of the organic food cult [J.I. Rodale]. *New York Times Magazine.* June 6. p. 30-31, 54, 56, 58, 60, 65, 68, 70.
• ***Summary:*** The New York Times Magazine is part of the Sunday New York Times and may be simply listed as such.

A long, well researched, and rather negative discussion of Jerome Irving Rodale. Photos show: (1) J.I. Rodale exercising by hanging from an overhead bar in his book-lined study at Emmaus, Pennsylvania. (2) A Rodale farmhand watering vegetables in a shaded manure bed. (3) Rodale hooked up to a machine that increases his body's supply of energy. (4) His son, Robert Rodale, in the Rodale pressroom. Last year Rodale publications grossed $9 million. (4) The cover of the May 1971 issue of *Prevention* magazine. It sells one million copies a month. Address: Freelance writer.

1980. El Molino Mills. 1971. Display ad: Naturally better–For the whole family. Cara-Ca Crunch. Non-chocolate candy. *Los Angeles Times.* June 20. p. K6.
• ***Summary:*** "Cara-Coa is made from the fruit of the Carob tree (St. John's Bread, Boeksur, Honey Locust)–a source of nutrition since Biblical times. It tastes like the finest chocolate, yet there's no cocoa or chocolate to cause allergy or skin problems.

"Cara-Coa instant drink: Dissolves in hot or cold milk, Carob natural fruit sugar adds only 25 calories per glass.

"Cara-Coa carob powder: Better'n chocolate for baking, cooking, blending. Ideal for cakes, frosting, cookies and ice cream.

"Cara-Coa Nuggets: For Toll House cookies."

"El Molino Mills. Specialty millers since 1926. Over 90 whole grains, stone ground flours, bread mixes, seeds, etc." An illustration shows the oval El Molino logo. A photo shows a box of Cara-Coa Crunch. A boy is holding a carob candy bar. Address: Alhambra, California 91803.

1981. Grist Mill. 1971. Display ad: Fresh wholesome products from the Grist Mill. *Los Angeles Times.* June 20. p. K6.
• ***Summary:*** "New Super Granola in three varieties: Regular, Carob & Fruit, & Nut–Cereals for breakfast or snacks.

"Super cereal–The original organic trace mineral cereal.

"The original Honey Graham Crackers.

"Soy Cookies 'The nutrition cookie.'

"Wunderbar–Natural candies in 5 delicious flavors–A wonderful source of natural energy.

"Look for the Grist Mill products in health food stores across the country.

The circular logo shows: "Grist Mill. Since 1917." Address: 748 Ceres St., Los Angeles, California 90021.

1982. Lambson, Marilyn. 1971. Get the health food habit: Health foods mean plain good nutrition. Here are some tips on how to best feed your family–and what to feed them. *Los Angeles Times.* June 20. p. K1.
• ***Summary:*** A photo shows the inside of a large warehouse. The caption: Health food distribution is no longer a small operation. Top, plant of Kahan & Lessin in Compton, largest distributors of health food products in Southern California, and bottom, Hain plant. Address: Teacher of nutrition.

1983. *Los Angeles Times.* 1971. A sweet substitute for 'choco-holics.' June 20. p. K2.
• ***Summary:*** Carob, also known as St. John's Bread, Johannes Brod, Boecksur and Locust Honey, has been well known since Biblical times. John the Baptist was supposed to have survived on it during his 40 days in the wilderness.

While carob has a taste similar to chocolate many can tell the difference between the two. It took El Molino Mills 20 years of experimenting with various formulas, processes and ingredients to come up with "Cara-Coa," which is "carob with a flavor most people describe as that of rich Dutch chocolate at its best.

A choco-holic is someone who gets an unfavorable reaction from eating chocolate–such as headaches, wheezes, or skin problems–but is so hooked on the taste and sweetness that he won't stop indulging.

1984. Tabuchi, Ichiro. 1971. Saishoku-shugi no riron-teki haikei: Shokubutsu-sei tanpaku shokuhin kaihatsu ni okeru shûkyô-teki tachiba ni tsuite [Theoretical background on vegetarianism: The religious viewpoint in the development of vegetable protein foods]. *Shokuhin Kaihatsu* (*Up-to-Date Food Processing*) 6(6):31-35. June. [5 ref. Jap]
• ***Summary:*** Contents: Seventh-day Adventists. Ellen G. White's viewpoint. Seventh-day Adventist food enterprises and their purposes. Popularization of Soyalac made by San-iku Foods (Shokuhin) in Japan. The campaign for quitting tobacco in 5 days at the Adventist Tokyo Hospital (*Tokyo Eisei Byoin*).

The section on the popularization of Soyalac states: "Although in a recent issue of *Shokuhin Kaihatsu* magazine, soymilk was described as an illusory food (*maboroshi*), at least for us, it is a very real food, because San-iku Shokuhin has been making soymilk for the last 12 years and providing it for our school dormitory cafeteria meals. We have gotten good results in both taste and nutrition. With this experience and Loma Linda's formula and technique (they make

© Copyright Soyinfo Center 2021

formulated dairylike [chôsei] soymilk), Neo-Soyalac was born. It is a superior, nutritious infant formula.

"Soyalac was developed by Dr. Harry W. Miller, who was the world's leading authority in the field of soymilk. He spent half a century researching and developing Soyalac. It started to be produced and sold in the 1940s. Since that time it has contributed as an infant formula, and a milk substitute for children who are allergic to or dislike dairy milk. Its effectiveness and safeness have been proved by clinical experimentation. Also, Soyalac was used after World War II as an especially nutritious food for the protein-rich food program of the World Health Organization (WHO), FAO, and UNICEF and it saved many children from starvation and kwashiorkor.

"San-iku Shokuhin is now starting this work in Japan. We are trying to popularize our soymilk through very special methods such as via our religious network, health food stores, and doctors detailings. Babies who can't drink cow's milk or had allergies have been saved. Those with rashes and sweat rashes have been cured. We have received many expressions of thanks. One mother raised her 3 children on soymilk only, and one of the three was selected at a healthy baby contest in her county (*gun*). Formulated soymilk is not a medicine, therefore we are not allowed to promote its medicinal effects. Nevertheless, these various good effects have been proved clinically and in actual experience.

"A century ago, Ellen G. White predicted that 'the time will come when we will not even drink dairy milk.' Now we feel that this prediction is coming true as we see our dairy milk contaminated with penicillin, BHC, DDT, etc. I feel that in this day and age our work to popularize soymilk, which contains no antibiotics, no chemicals, and no cholesterol, and which is so nutritious and healthy, is very meaningful." Address: Product Development Dep. (Kaihatsu-bu), San-iku Foods, Japan.

1985. *Glamour.* 1971. Are health foods healthier? 65(5):104-05, 161-62, 164-66. July.
• ***Summary:*** This is a discussion, sponsored by *Glamour* magazine, between: (1) Adelle Davis, whose "best-selling nutrition books are considered extreme by many doctors but are bibles for a lot of people." (2) "Dr. Leo Lutwak, a professor of clinical nutrition at Cornell Univ. [Ithaca, New York], is also a physician, biochemist, and nutrition consultant for the National Aeronautics and Space Administration" (NASA). (3) "Lillian Roxon, who writes a column about health in *Fusion*, a rock magazine, says the purpose of her column is to 'get kids away from hard drugs and into health instead.'" (4) "Dr. Thomas Waddell, whose specialty is infectious diseases, was a participant in the decathlon event in the 1968 Olympics, served part-time as physician for the team. He has written several articles on food and drug abuse among athletes."

1986. Rodale, Robert. 1971. The right way to vegetate: Organic food. *Washington Post, Times Herald.* Aug. 19. p. H4.
• ***Summary:*** Many young people are turning to vegetarianism. Here are some of the main reasons: 1. Reverence for life. 2. Mystical [and ethical] reasons. 3. Economy. 4. Animal feeds are drugged. 5. A vegetarian diet can be healthful–as shown by studies of Seventh-day Adventists. Rodale then offers a few words in favor of eating meat. His personal preference in diet is a compromise between a vegetarian diet and the standard American meat-heavy diet.

Some vegetarians eat novel foods. "Health food stores catering to vegetarians do a big business in millet, buckwheat groats, unpearled barley, nutritional yeast, and even Japanese Azuki beans."

Both vegetarians and meat-eaters show a growing interest in such healthy foods as wheat germ, sunflower and pumpkin seeds, brown rice, raw or lightly roasted peanuts, and peanut butter.

1987. Meyer, Gerald. 1971. The company at Checkerboard Square: Ralston reaches far from its St. Louis center. *New York Times.* Aug. 29. p. F3.
• ***Summary:*** A good overview of Ralston Purina today, and a look back at its wise and charismatic founder, William H. Danforth.

The company began in 1894 as the Robinson-Danforth Commission Company, a St. Louis partnership that produced mixed feed for horses and mules. In 1896, after a tornado wrecked the mill, Danforth was able to get a loan on the strength of his character. But this time he started alone. "Two years later he began producing a wheat breakfast food that won the endorsement of a health club president named Dr. Ralston.

"The cereal, and in 1902 the company, were given the willing doctors name."

Photos show: (1) R. Hal Dean. (2) The checkerboard square logo. (3) William H. Danforth.

1988. Bee, Polly. ed. 1971. Ojai Golden Anniversary 1921-1971. Ojai, California: Ojai Valley News (Fred Volz). 67 p. Aug.
• ***Summary:*** A full-page ad (p. 38), titled "Bill Baker's" states: "The original Bill Baker was known as the greatest cake decorator in the world as well as the originator of unsurpassed bread. Today Bill Baker's still makes the best bread from the finest unbleached flours, and still makes it in the sturdy 75 year old oven that served the founder."

Photos show: (1) Young Bill Baker in 1906, dressed in a white baker's uniform with a white cap, standing beside a beautiful, elegant white cake that is several feet taller than he is. Caption: "A Bill Baker masterpiece in 1906." (2) A loaf of bread. (3) An elaborately decorated cake (½ page) on a round

© Copyright Soyinfo Center 2021

lace mat with the words "Greetings from Ojai, California" written across the top of the cake, above a cross.

1989. Landefeld, Jill. 1971. Health foods: A better way? Faddists convinced they are. Traditionalists disagree. *Los Angeles Times.* Sept. 12. p. SG-C3.
• ***Summary:*** No doubt about it; eating habits in America are changing. The person who used to be considered a "health nut" is today the typical American. Many people switch to eating health foods and organic produce, and taking supplements, and consuming less meat and sugar, when they lose their good health and their doctor's don't even bother to check what they are eating. Health foods include whole grains and flours (brown rice instead of white, whole wheat bread instead of white bread), avoiding refined foods and white sugar, new natural foods (wheat germ, sunflower seeds, produced grown without toxic pesticides or chemical fertilizers).

A large photo shows Gene Vandercook, President of El Molino Mills (Alhambra, California) as he checks bags of grain and flour. "Health food faddists say the bread made from flour without additives has much more nutritional value than enriched breads." Also appeared on Sept. 19, p. SG_C7. Address: Times staff writer.

1990. *Los Angeles Times.* 1971. Nutrition assn. adopts dealer code of ethics. Sept. 26. p. H6.
• ***Summary:*** The active members of the Southern California Nutritional Foods Association (SOCAL), which is made up of retailers in the health food industry in the Southland, have adopted a code of ethics. SOCAL is a chartered regional affiliate of the National Nutritional Foods Association (NNFA).

The code of ethics is described. It is mostly about fair prices, good service, honesty, cleanliness, and respect for the customer–rather than the kinds of foods sold. No mention is made of organic, whole foods, unrefined foods, meats, sugar, etc.

"A sign indicating membership in SOCAL and NNFA is a guarantee of quality merchandise and ethical business practices, the association says."

1991. *Los Angeles Times.* 1971. Kahan and Lessin Co. big in health foods. Sept. 26. p. H1, H7.
• ***Summary:*** Kahan and Lessin Co. (Compton) is one of California's largest distributors of health and diet foods. It was formed in 1945 by the union of two small Los Angeles food distributors: The Ben Kahan Co. and the Joseph E. Lessin Co. During the depression years of the 1930s, they both distributed health foods such as breads, dried fruits, honey, juices, herb teas, candles, etc. When World War II started, Joe Lessin entered the service–and thus ended his business. When the war ended, in 1945, Joe and Ben got together and formed Kahan & Lessin Co. (K&L). In 1948 Art Miller (who had started in the health food industry in the 1930s in New York with All Health Food Distributors and Brownie's Natural Foods) joined the company and in 1955 became a partner. Today, Kahan is president, Miller is vice president, and Lessin is secretary-treasurer of the company.

Ben Kahan recalls that in 1932, when he graduated from the Los Angeles City school system, the health food industry was virtually non-existent. He started the Ben Kahan Company because of economic necessity, but he soon came to realize the value of natural and organic foods. Early meetings and associations with the patriarchs of the industry such as Otto Carque, William T. Thompson Sr., and Eugene Vandercook Sr. deepened his interest.

In those early days, Ben's company served the few existing health food stores in Southern California. Those still in business include The Grist Mill in Los Angeles, House of Nutrition in San Diego, Schulman's in Long Beach, and Seilers in Huntington Park.

Major early manufacturers of health foods included El Molino Mills, Hain, Ayers & Held, Battle Creek [J.H. Kellogg, in Michigan], Alberty, Dia-Mel, Cellu, Modern Products, American Dietaids, and Schiff.

By the mid-1940s, K&L was distributing a previously unimagined 1,500 items, compared with 8,000 items today.

In 1950 K&L moved into a facility of 5,000 square feet on Hunter St. in Los Angeles. In 1955 it moved again to a building of 18,000 square feet on the same street.

Last year Kahan & Lessin opened a 65,000 square foot warehouse and office on a 2-acres site at 3131 E. Maria St. in Compton, to serve 2,000 health food stores in 11 western states, Texas, Alaska and Hawaii. It boasts 11 shipping docks, 126 parking spaces, a railroad spur, freeway access, air conditioning, insulation, and resistance to earthquakes and fires. A refrigerator of 43,200 cubic feet is so large that a fork-lift truck can be driven in.

K&L, a full-service distributor, notes that efficiency plus accuracy equals service. Computers help to make operations more efficient.

All three principals share a deep personal belief in and commitment to health foods; they believe that the future of this industry looks very bright.

A large photo shows Kahan & Lessin's current warehouse at 3131 E. Maria St. in Compton.

1992. *Los Angeles Times.* 1971. 'Whole grains' term explained by millers. Sept. 26. p. H6.
• ***Summary:*** "Whole grains are those that are almost intact." The outermost hull is carefully removed, but the underlying polish and bran layers, and the germ (such as wheat germ) remain. These remaining layers contain the vitamins and minerals that make grain such a wholesome, nutritious food.

El Molino Mills says it hulls their brand of natural brown rice using special rubber rolling techniques. Natural brown rice is reported to contain at least nine times as many

© Copyright Soyinfo Center 2021

elements as the usual polished white rice. Moreover, the germ is a rich source of B-vitamins and of vitamin E. In stone grinding, as practiced by El Molino Mills, the cool, slow rubbing spreads oil of the germ of evenly throughout the flour so that it does not turn rancid. El Molino also sells raw wheat germ–untreated and uncooked.

A photo shows various tempting foods, including a "soya-rice banana bread."

1993. *Christian Science Monitor.* 1971. Soy sauce perks up many American dishes, especially turkey and corn. Oct. 21. p. 11.
• ***Summary:*** Kikkoman began when two families in Japan started a soy sauce company at about the same time the first English families at Plymouth Rock enjoyed their first Thanksgiving. Kikkoman now has a test kitchen in San Francisco, where a home economist uses the company's soy sauce directly on meats as a table sauce.

Soy sauce originated in East Asia. "The Chinese and Japanese names for soy sauce are very similar–"see yow' and 'shoyu' respectively." The original soy sauce in China was made from soy beans, water and salt only. But in Japan, long ago, it was found that adding crushed, toasted wheat produced more natural sweetness, better color, and additional flavor notes. In China, soy sauce is still generally made without wheat–although some manufacturers now add it.

"The 'tamari' sauce sold by American health food stores is really a Chinese-type sauce made in Japan with a Japanese name." But it is no longer authentic tamari, made without wheat; it generally now contains some wheat.

Since 1898 Kikkoman has been the purveyor of soy sauce to the Emperor of Japan. They constructed a special factory for his sauce [the Goyô Gura at Noda].

1994. Howard, Jane. 1971. Earth Mother to the foodists: Adelle Davis is an expert on eating. *Life* 71(17):67-70. Oct. 22. [4 ref]
• ***Summary:*** A good, sympathetic article. Photos show Adelle Davis: (1) Tasting a salad. (2) Surrounded by admirers as she gives impromptu advice in a California Apricot orchard. (3) Canning in her own kitchen. (3) Playing tennis.

1995. National Health Foods Association. 1971. Display ad: Buyers "go organic." *New York Times.* Nov. 1. p. 66.
• ***Summary:*** A small, square ad. "Plan to attend the National Health Food Fair. Vitamins. Honey. Herbs. Books. Nuts. Tobacco. Grain. Foods, etc.

"Mon., Nov. 1st, 10 am to 6 pm. McAlpin Hotel, 34th St. & Broadway, N.Y.C."

1996. Sokolov, Raymond A. 1971. The food at the heart of commune life. *New York Times.* Dec. 2. p. 60.
• ***Summary:*** Lucy Horton has spent most of the past year on the road, visiting more than 40 communes and collecting country commune recipes. Now she is compiling them into a cookbook. Food is the key to understanding the communal experience. "Food has religious significance." A photo shows Lucy Horton. Contains three recipes, including "Tamari dressing" (with "¼ cup tamari soy sauce"). A note explains: "Tamari soy sauce is available at health food stores and Japanese groceries..."

1997. Bee, Polly. 1971. Baking health food breads thriving business in Ojai: Made cakes for presidents. Bill Baker's Bakery. *Ojai Valley News* (*California*). Dec. 22. p. 1. Front page.
• ***Summary:*** "Editor's note: This is the first of a two part article about the Bill Baker Ojai Bakery.

"Health foods are nothing new for Ojai. About 45 years ago Bill Baker, local forerunner of such products, experimented with vitamin rich, high protein breads at his Soya and Lima Bean Bakery and became noted far and wide for successful production of these. He was also nationally known for his cakes and pastries, although the latter products have been discontinued at the bakery today.

"One of Ojai's oldest continuing industries, probably second in age only to the 1891 beginning of the Ojai newspaper, the original bakery was founded in 1896, according to Harmon Vaughn, present baker-owner. It came under Bill Baker's Management about 1920.

"Baker came to the United States as an immigrant when he was 12 years old. sent by his father who wanted to keep him out of the German Army. At that time mere boys were conscripted to be soldiers. He was sent in the custody of a relative who worked as a sister at a Lutheran hospital in Philadelphia. Her job was such that the young boy generally had to shift for himself.

"According to Vaughn, Baker's life work started one day when the hungry boy was lured into a bakery by the wonderful smells, asking to work for something to eat. He was offered food and a place to sleep in exchange for work, and remained on to learn his trade as baker, decorator and chef.

"White House: During his successful career he worked for some of the finest hotels in the country, eventually becoming chef at the White House. After leaving there he continued to send special cakes to Presidents Calvin Coolidge, Herbert Hoover. and Franklin D. Roosevelt.

"He has been called the world's greatest cake decorator, and his name became synonymous with quality in foods. 'Baker's style of decorating is almost a lost art today,' Vaughn said. 'He used icing rather than frosting, making hard sugar decorations. People simply don't have time for this anymore.' Icing, in contrast to frosting, sets up hard, won't fall apart, melt or run down and is edible almost indefinitely.

"It was not uncommon for Baker to work as long as a year on decorations for a special cake, and Vaughn still has

© Copyright Soyinfo Center 2021

the old tool box used, containing brushes and knives, much like a woodworker's equipment. 'He'd roll out the icing on a marble slab so it wouldn't stick, and actually carve his creations.' Vaughn said.

"How it was done: Many of Baker's decorations were made from a sulfur and plaster of Paris mold. The design was first created in icing and melted sulfur was poured over it. Plaster of Paris then was added around the sulfur. The original sugar decoration was melted out with water, leaving a mold that was filled with hard icing (almost like putty), which was pressed down to pick up the tiniest details.

"The decoration was removed from the mold by a dampened powdered sugar bag to which it adhered. Color was applied afterwards, using paste coloring. "'Rose decorations were Steamed and then colored powder blown on to give a natural look,' Vaughn said. 'Sometimes they were even perfumed and smelled just like a real rose.'

"Some of the original molds and sugar decorations are stored at the bakery.

"One of Baker's most famous cakes was a giant World Exposition cake baked for the San Francisco World Fair in 1939. A fruit cake baked in the Ojai bakery, it weighed a thousand pounds, was five feet at the base, three feet high, and three feet across the top. Vaughn recalls that part of the side of the bakery had to be removed when it was shipped by rail to San Francisco.

"Elaborately decorated with icing replicas of the California missions, Ojai valley mountains. Golden Gate bridge and San Francisco bay, the cake took well over a year to create and was on display for two years at the Exposition before being eaten.

"When asked about its keeping qualities, Baker is said to have replied, 'Ten years from now (1939) it will still be tasty.'

In 1925 Baker authored a book entitled *Master Craft in Cakes and Decorating*, now a collector's item worth over $500. Vaughn has the first copy from the binders inscribed to the author with the compliments of the publisher. It is written for the baker as a businessman, offering advice on decorating and designs, recipes and display.

"Bread experiments: In addition to his cakes, Baker began experimenting with [soya] bean flour breads in response to a plea from W.D. Sansum, famous dietetic expert of Santa Barbara, who urged the bakers of the vicinity to produce bread from bean meals particularly for his patients suffering from diabetes, heart and stomach trouble. The objective was to get away from starch, fats and gas forming ingredients, yet provide a universal diet, which could be eaten and enjoyed by everyone sick or well.

"Baker experimented for a time with kelp bread, but this was never well received. After a number of failures, he finally succeeded in producing breads with enough soya or lima bean flour to be non-acid producing yet still palatable and appetizing in appearance.

"In an early brochure advertising his lima, soya and gluten products, he wrote, 'We have for several years been improving our first efforts in both flavor and appearance, until now we have attained loaves which are being acclaimed by thousands of users as the equal of any breads obtainable.'

"He also perfected a lima bean wafer and two 'quick biscuit' mixtures made from both soya and lima bean flours. The mixtures were ready for use as biscuits, muffins, hotcakes or waffles simply by adding water and baking."

Photos show: (1) A huge cake with two bridges on top. Caption: "Wonder of Treasure Island–was this 1939 World's Fair cake created by Bill Baker and shipped by rail to San Francisco. It was decorated with scale models of the 19 California Missions against a background of Ojai valley mountains, replica of Treasure Island, exposition buildings, and the great bridges of San Francisco Bay. Ingredients for the fruit cake, which measured five feet at the base, three feet in height and three feet across the top, included 100 pounds of sugar for the icing, 60 pounds of sugar for the cake, 60 pounds of butter, 50 dozen eggs, 15 gallons honey, two gallons molasses, 100 pounds flour, 50 pounds each citron, lemon peel, orange peel, chopped walnuts, pecans, 75 pounds of cherries, 30 pounds figs, 200 pounds raisins, ten gallons of California wine, and five pounds of mixed spices. It took a year to make."

(2) A cake for the President and his wife. Caption: "'Merry Christmas President and Mrs. Roosevelt–from California' adorned one of the many masterpiece fruit cakes created by Bill Baker in his Ojai Bakery. The authentic scale model of the Santa Barbara Mission was made of hard icing, as were the roses and other decor. The cake was three feet wide at the base, standing about two feet high. Since this particular one was sent to the White House for presidential consumption, it was crated under supervision of two security agents, who sealed over with wax each screwhead, imprinting on each the presidential seal. The agents stayed with the crated cake until delivery."

(3) A photo of Harmon Vaughn wearing a white baker's hat, eye glasses, white clothing, and holding up two objects. Caption: "Original Mold–used by Bill Baker in creating a decorated cake that was sent from the Ojai Lions Club to the President of Mexico is displayed by Harmon Vaughn, present owner, baker of the Bill Baker Ojai Bakery. The photo he holds shows the cake on which the hard sugar eagle was used.

(4) "Poyo Cookies for Eleanor Roosevelt–were baked in the Ojai Bakery in 1939 and mailed to her in cans that can be seen on the wooden table. She in turn sent most of them to the polio crippled children at Warm Springs, Georgia. Shown getting the cookies ready for shipment are Helen Vaughn, Winnie Carsner, Victor Miller, Bill Baker, Harmon Vaughn and Pat Carsner." Address: Ojai, California.

(Vegetarian Frankfurter).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, Sydney 2076, NSW, Australia.
Date of Introduction: 1971.
Ingredients: Wheat protein, vegetable oil, yeast, soy protein, salt, Savex, hydrolysed vegetable protein, onion.
Wt/Vol., Packaging, Price: 430 gm can.
How Stored: Shelf stable.
New Product–Documentation: Letter from Sanitarium Health Food Co. 1981. Label. 10 by 4 inches. Full color. Photo shows a frankfurters on a bed of sauerkraut "Vegetable Protein–Serve fried, boiled, barbecued, roasted or grilled." Recipes for Party Pleasers and Danish Open Omelette.

Letter and Label sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1971. But note that Worthington Foods introduced a product by this name in 1960, and in 1971 its main ingredient was Fibrotein, spun soy protein fiber.

1999. **Product Name:** Sanitarium Health Foods Soya Loaf (Canned Meatless Meatloaf).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: Sydney, N.S.W., Australia.
Date of Introduction: 1971.
Ingredients: Soya beans, wheat protein, soy sauce, vegetable oil, peanuts, tomato, monosodium glutamate, onion, salt, herbs.
Wt/Vol., Packaging, Price: 425 gm can.
How Stored: Shelf stable.
New Product–Documentation: Label. 1980, undated. "Vegetable Protein–Ideal for casseroles, stews, patties." Letter from Sanitarium Health Food Co. 1981.

Letter and Label sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1971.

2000. La Force, Beatrice. 1971. Alpine–southern California: History of a mountain settlement. Alpine, California: Published by the author. Printed by Sunlight Press in Lakeside, Calif. [6] + 529 + [16] p. Illust. No index. 25 cm.
• ***Summary:*** The section titled "The Irvines" is a biography of Clarke and Alice Irvine. "Clarke Irvine adopted Alpine as his weekend retreat in the 1930's, coming to his Tavern Road address to escape the tensions of Hollywood Life... Among his good friends in the movie colony were Myrna Loy, Will Rogers, Lon Chaney, Irene Rich, Douglas Fairbanks and many others of that era."

"Clarke and Alice's three daughters, Cynthia, and twins Celeste and Cecile, were all born and raised in Alpine. Cynthia married and moved away. The twins are both living at home with their parents while attending Grossmont College. Talented folk singers, billed as the Irvine Ranch Twins, the girls have appeared on many shows on stage, television, and radio. Cecile was the first Miss Alpine and first runner-up for Fairest of the Fair. Celeste is the present Miss Alpine, having won the title in the latest competition.

"Alice Irvine has been the 'power behind the throne' of the Alpine Sun for years... The past few months since Clarke has been seriously ill, Alice and the twins have edited the paper and done a good job of it."

"Last year the Alpine PTA planted a tree in the school yard in honor of the Irvines, a token of the community's appreciation for their not always rewarding work as reporters of the village news."

Photos show: (1) Cecile and Celeste with guitars, 1971. (2) The Sun office, 1953-1971. (3) Celeste Irvine, 1971, in bathing suit, crown, and banner "Miss Alpine." A student at Grossmont College, she received the crown from her sister Cecile who was Queen in 1969. (4) Portrait of Clarke and Alice Irvine. (5) The Irvine twins, Mis Alpines, standing together in long white dresses, crowns, and banners (1969, 1971). (6) Living memorial tree for Irvines, in a planter box.

Note: This work of love contains many black and white photos. Clarke Irvine's name is misspelled "Clark" throughout.

2001. Levitt, Eleanor. 1971. The wonderful world of natural-food cookery. Great Neck, New York: Hearthside Press Inc. 320 p. Illust. by Carol Nelson. Index. 24 cm.
• ***Summary:*** With 650 recipes. In Chapter 8, the section on Soybeans (p. 132-38) has the following contents:

Soybeans (about). Chicken Hawaiian (with ¼ cup Tamari sauce). Soy milk home style. Roasted soybeans. Pan-cooked soybeans (well soaked, then simmered). Baked soybeans en casserole (with 2 cups dry soybeans). Creole soy sprouts. Sprouting beans or peas. Soybean pulp (cooked soybeans pressed through a coarse sieve or ground in a food-grinder). Cooked, chopped soybeans. Soybean cereal (chopped in a blender, browned in a preheated lightly oiled skillet, covered with boiling water, and simmered for two hours or more–or until tender).

Individual entries: Page 19: "Soy (soya) flour. Used with wheat flour in baking. It contains a good fat with high lecithin content. See Cornell flour formula."

Page 20: "Lecithin. A palatable by-product of soybean oil, it tends to prevent deposits of fat. As a dietary supplement, use 1-2 heaping teaspoons in fruit juice, on cereal or mixed in cooked foods."

Page 23: Oils–"Soy. High in unsaturated fatty acids, it can be used for baking but not for frying (as it foams). Because it is crude and unrefined, it is dark, heavy and tastes like roasted soy beans."

Page 34: "Bean curd appetizer: A delicate, fragile, easily digested high-protein food, it can be bought fresh in Chinatown but must be used within a day or so. Or you can make your own as directed below (with 3 cups cooked soybeans; this is Not tofu).

Page 51: Salmon and soy pudding (with white sauce

"Rocky Hollow Herb Farm, Lake Wallkill Road, Sussex, N.J. 07461: Herbs; rose hips; roots; barks, etc. Catalog.

"Shiloh Farms, Sulphur Springs, Arkansas 72768: Dairy products; fresh produce; flours, cereals; grains; nuts; baked goods; dried fruits; organic meat, etc. Wholesale only.

"Walnut Acres, Penns Creek, Pennsylvania 17862: Flours; grain; seeds; drinking water, water filter; raw sugar; appliances; baked products; teas; cheese and milk products; herbs; nuts; vitamins and supplements, etc. Catalog.

"Whole Earth Catalog, Portola Institute, 558 Santa Cruz, Menlo Park, Calif. 94025: Stores throughout country. Catalog."

On the inside rear dust jacket is a section about the author, with a portrait photo of Mrs. Eleanor Levitt. This book is not vegetarian.

2002. Bee, Polly. 1972. 20,000 loaves of bread baked every week at Bill Baker's. *Ojai Valley News* (*California*). Jan. 5. p. 1. Front page.

• ***Summary:*** "Bill Baker's Ojai Bakery has got to be the busiest place in town Sundays through Thursdays. The greatest smell in the world." "Operation of the bakery is a family affair involving owner–master baker Harmon Vaughn, his wife, brother O.B. Vaughn and wife, sister Dorothy Downard and niece Louise Downard, in addition to five other employees. The bakery has come a long way since Bill Baker's days when four employees performed all the work, turning out soya, lima bean and gluten breads, decorated cakes and other pastries."

The specialty is still health food breads that contain high protein flours. "Soya bread still heads the list for the highest protein, vitamin, and mineral content. The original lima bean bread has been discontinued. It never was as popular as soya bean bread, and lima bean flour is no longer milled.

Vaughn learned his trade from Bill Baker, starting in 1936. He and his wife were newlyweds out of an Arkansas high school. The pastry business was moved into the arcade several years before Bill Baker died and was later sold. The present owner is Floyd Dunn of the Village Pastry Shop now located on Matilija street.

Vaughn become owner and manager of the bakery in 1944. It is jammed with people every Sunday. The baked goods are sweetened with honey and no preservatives are used. The original brick oven, built in 1896, has never been cold since it started work. All the sourdough and french breads are baked in it. It is topped and sided with 3 feet of sand. It is "heated by a flame torch for one and a half hours before use. "The flame is then removed and the baking is done without live heat. In the early days, the bread that required the most heat was baked first, while pastries requiring lower heat were baked" later as the oven bricks cooled. Vaughn is proud of still using the original starter "sponge" made from wild yeasts.

Photos show: (1) Louise at the bread wrapping machine. (2) Mrs. Harmon Vaughn standing in front of the original brick oven. (3) A local delivery man picking up freshly-baked bread in racks. (4) Bread dough being proofed as it is moved by a link conveyor through a glass fronted cupboard. Address: Ojai, California.

• ***Summary:*** This excellent, long, positive character sketch and biography of Adelle Davis begins: "Adelle Davis may be the most wonderful woman in the world. If there were a Wonderful Woman Olympics, she would at least make the finals." The writer interviewed Adelle at her home in Palos Verdes Estates, California–expecting a short talk. Adelle (actually Mrs. Frank Sieglinger), age 67, plays tennis every morning from 7 to 9, then answers her mail until noon with

© Copyright Soyinfo Center 2021

the aid of a secretary, naps in the afternoon, and plays bridge at night. Somewhere in between she "revises her books and speaks to every living, breathing group of people remotely interested in nutrition." Only recently has Adelle become a real celebrity, even though she has been working in the field for almost 30 years. The public has finally caught up with her views on nutrition and health.

Her message is opposed by two different sets of powerful interests: (1) Food processors who make millions of dollars each year by selling "comparatively worthless products." (2) Vendors of patent medicines, who treat those who have eaten the "refined, chemical-laden products" once they start to feel lousy.

"Miss Davis" advises people to eat plenty of fresh, green vegetables, organic meats, and "whole grains–brown rice," soy beans, barley, and lentils. Avoid anything instant–rice, mashed potatoes, etc. Take large daily vitamin supplements.

Adelle Davis grew up on a farm in the Midwest, the "fifth girl in a family that wanted just one boy." She joined a 4-H club, and became involved in many projects with livestock and nutrition. This led to a BA in nutrition from Purdue University [Indiana], followed by her MS in biochemistry. She married Frank Sieglinger [and is still married, her 2nd marriage], they adopted two children [a boy and a girl], and she wrote four books. She is restless and has a small vegetable garden. They all swim nude in her home pool. 20% of Americans know who Adelle Davis is.

They end up having lunch together at a little outdoor cafe nearby. "Adelle knows everyone in the restaurant. Housewives come up and hug her."

Those old enough to remember World War II remember the Basic Seven food groups. These have now been simplified down to four–which nutritionists consider the basis of a good diet: (1) milk and its products, (2) meat, poultry or fish, (3) vegetables and fruits, and (4) breads and cereals.

Photos show Adelle Davis: (1) As a child, about 2-3 years old. (2) As young dietitian in New York. (3) As a married woman in about the 1950s. (4) Today, with her partly grey hair drawn back in a tight bun.

2004. Catt, Sam. 1972. Viewpoint on Nutritrion tells story on TV. *Los Angeles Times.* Jan. 23. p. 13.
• ***Summary:*** Linus Pauling, nobel prize winner, is one of the many prominent personalities who discuss food on the television show Viewpoint on Nutrition, currently broadcast on Sundays at 7:30 a.m. on KABC-TV (it moved to 8:30 a.m. after basketball season) and 20 other radio and TV stations across the USA.

The show is produced and conducted by Arnold Pike, who has been in the public affairs broadcasting business for 20 years.

Paike says the goal of the program is to help make Americans more aware of the importance of better nutrition in maintaining good health in a stressful world.

The program is presented by the National Nutritional Foods Association (NNFA) in cooperation with various community and educational agencies.

A list of those who have already appeared on the program, with their professional title and program title / subject is given. They include many physicians and dentists, as well as: Carlton Fredericks, PhD; and author Gayelord Hauser. On one program, acresss Julie Harris and Gayelord Hauser discussed the pros and cons of a vegetarian diet.

Photos show: (1) Actor Eddie Albert (left), Harry Matchett (president, National Nutritional Foods Association), and Arnold Pike (right, producer of Viewpoint on Nutrition TV show). Albert and Pike are seated at a table in a TV studio. All three look over the script of a program on sugar products and the American diet.

(2) Dr. W.D. Currier (left), Arnold Pike, and actress Dana Wynter (right). All three are seated at a table in a TV studio, where they are discussing hypoglycemia on the Viewpoint on Nutrition show.

2005. **Product Name:** Soy Beans–Whole, Soya Grits, or Soya Meal [Flour].
Manufacturer's Name: El Molino Mills.
Manufacturer's Address: 3060 W. Valley Blvd., Alhambra, CA 91803.
Date of Introduction: 1972 January.
New Product–Documentation: Midwest Natural Foods Distributors, Inc. 1972. Catalog and price list. Nov. 1. Ann Arbor, Michigan. 58 p. See p. 14. "Soy Beans, Whole." 1 lb. "Soya Grits." 1 lb. "Soya Meal." 2 lb.

2006. *SoyaScan Notes.* 1972. Chronology of Janus Natural Foods, macrobiotic and natural foods distributor in Seattle, Washington. And of Granum. 17 March. 1992. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** 1972 Jan.–Janus Foods Inc. is established at 712 Seventh Ave. South in Seattle, Washington, by George Gearhart and Blake Rankin, formerly of Spiral Foods. Some background: In 1969, while a student at UCLA, Rankin came in contact with Erewhon, Los Angeles. After graduation from UCLA he and several friends set up a small health food store in Victoria, BC, Canada. Then he spent 3 months in Boston, Massachusetts, living in a Kushi study house and working in an Erewhon warehouse. Back in Seattle, he worked at Spiral Foods, a wholesale operation that was an offshoot of Chico-San. Spiral Foods owned the O-Soba Noodle Nook in Seattle. Shortly after that he and George Gearhart, the proprietor, closed Spiral Foods and in Jan. 1972 opened Janus Foods as a macrobiotic and natural foods wholesale and distribution company. Tim Hartman was third of the original incorporators; all three men managed the company. It was successful. From opening day, Janus sold miso and shoyu, imported from Japan; they were among

© Copyright Soyinfo Center 2021

the company's best-selling products. Janus never owned a natural foods retail store or restaurant, and never sold foods retail from their warehouse.

1972 Sept.–Rankin leaves Seattle on a trip to Japan via Hawaii. He leaves Hawaii for Japan in March 1973. Erewhon had given Janus permission to buy natural foods (bearing the Erewhon label) directly from Japan, so in the spring of 1973 Rankin traveled and worked with Muso and Mitoku to set up the first shipments to Janus in Seattle. Janus probably never paid any royalties or fees directly to Erewhon. He leaves Japan in Sept. 1973. Then he goes to Nepal and India on a spiritual search. In late 1973 he returns to Seattle and works for Janus.

1973–Two directories show that "Janus Foods Inc." is still located at 712 7th Ave. South, Seattle, Washington 98104. They now sell tamari and miso and distribute products from Erewhon, Spiral Foods, Deaf Smith, Pure & Simple, Chico-San, and Arrowhead Mills.

1974 March 8–Janus (Gearhart, Rankin, and Hartman) hosts the meeting of the Natural Food Distributors in Seattle; 16 people representing 12 companies attended.

1974 July 19. By this date, Janus Natural Foods, Inc. is located at 1523 Airport Way South, Seattle, WA 98134. Tim Hartman is still a manager of the company and Rankin is present. The company now sells barley koji. The company now has a lovely sprout-like logo (designed by Frederick Walsh) and a new brand called "Verity," whose labels were also designed by Walsh. Soy sauce and misos were sold under the Verity label for a while starting before Sept. 1976.

1975–The three managers decide to rotate the presidency of Janus annually. Rankin became president and Hartman left the company before his turn came around. During 1974 and 1975 Rankin and Gearhart were working on miso production.

1976 Sept.–Rankin leaves Janus and returns to Japan where he works for Mitoku and studies calligraphy. A few days after his arrival in Japan he meets his future wife, Yoko. They later had two children, but separated in 1988 and eventually were divorced.

1977–Janus leaves its large warehouse on Airport Way.

1979 Month? (before summer) Janus goes out of business, under the management of George Gearhart.

1981–Rankin returns to Seattle and in January or February starts Granum (pronounced GRAH-num, not GRAY-num) as a distributor and importer for Mitoku macrobiotic food products from Japan. The Granum logo is designed by Frederick Walsh. As of 1985 Granum has a small retail store and a 10,000 square foot warehouse, both at 2901 N.E. Blakeley St., Seattle, Washington 98105. Expected 1985 gross is more than $500,000.

As of March 1992 Granum has more than doubled its business compared with 1985. Blake has remarried to Nancy and they have a 2-year-old son, Addison. George Gearhart now lives in the suburbs to the south of Seattle. He is a sales manager, but no longer works in the natural foods industry. Address: 712 7th Ave. South, Seattle, Washington 98104.

2007. Jacobs, Sanford J. 1972. What tastes terrible and doubles in sales every 60 days or so? Crunchy Granola, that's what, and Layton Gentry is ready to sell the formula to you. *Wall Street Journal.* Feb. 16. p. 1.

• ***Summary:*** A great, original, funny front-page story on the modern origin and early modern history of granola. Collegedale, Tennessee: John D. Goodbrad, age 28, runs a small cereal factory in Collegedale; he makes Crunchy Granola, but neither he nor his employees are particularly fond of the stuff. He prefers Cheerios. An employee says that her kids don't like it much either, but she recalls that she once had a horse who really liked it.

Crunchy Granola is made of rolled oats, wheat germ, sea salt, sesame seeds, coconut, brown sugar, and soy oil. These are mixed and baked. "Crunchy Granola is the biggest thing to hit the cereal market since the cardboard box was invented." Goodbrad says his sales have been doubling every 60-90 days for the last 2½ years. He now makes 12,000 lb per day of Granola, which sells for 73 cents a pound, and runs his factory 24 hours a day. Another company, Lassen Foods, Inc., in Chico, California, is said to make even more; last year they sold $3 million worth of Granola. Total nationwide sales are estimated to be about $5 million. He says his family started the business, Sovex, Inc., in this idyllic valley in 1964.

Why are people eating so much Granola? No one sure. One theory: It is part of the anticommercialism movement of the younger generation. Another: It's a health food, making it part of the "back-to-nature" movement. But the main reason may be that many younger folks really like it–especially with milk poured over as a breakfast cereal.

Although it is clearly a fabled food in the underground, and sold mostly at health-food stores, some supermarkets are beginning to stock it. Rock singer Neil Diamond even has a popular song titled "Crunchy Granola Suite." The words are given.

While Crunchy Granola appears to have a bright future, it also has an interesting past. It seems to have been invented by a man named Layton Gentry who, in 1964, sold his recipe and oven to John Goodbrad's father for $3,000. He and his wife started making it at home, then built a little factory, and now it is made in a big factory–in the idyllic little valley.

After Layton Gentry left Tennessee he headed out West. In about 1968 (four years ago) he sold the recipe again–to Lassen Foods, but this time for at least $15,000. Not until the two Granola makers bumped into each other at a health food convention 2 years ago did they realize that they were both making the same product. No problem–both were doing just fine.

Mrs. Gentry says that Layton is a hard man to find. She says they separated after the move West, and her ex-husband

© Copyright Soyinfo Center 2021

had made some more money selling the recipe to folks in Hawaii, Canada, Australia, and Missouri.

But didn't he miss a golden opportunity to make more money? Not really. Mrs. Gentry explains that Layton never liked things to get too big. "'He was in the Army 12 years. You know what that does to a man.'"

Note 1. This is the earliest document seen (Aug. 2010) that tells the tale of Layton Gentry and the birth of Granola–in its modern incarnation.

Note 2. According to the Website www.ancestry.com, a person named "Layton S. Gentry" was born on 18 April 1918 in New Pine Creek, Lake County, Oregon. His parents were John Urban Gentry and Mildred G. Gentry. He was married in 1942. He died on 11 Feb. 2007 in New Pine Creek, Oregon. A 1989 obituary for his wife states: "Gentry: Myrtle Frona Gentry, 70, died July 1, 1989, at Lakeview Hospital in Oregon. She was born in Rosedale, daughter of the late William Preston & Lula (Davis) Franz. Surviving are her husband, Layton Gentry; 1 daughter, Karen Angelo of New Pine Creek; 1 grandchild; and 2 sisters, Vivian St. Clair of Molalla, Oregon, and Beulah Mawhinney of Bend, Oregon. 1 sister, Prudence Beilsmith, preceded her in death. Services were conducted at Pine Creek Baptist church, Oregon. Burial was in New Pine Creek cemetery." Address: Staff reporter, Wall Street Journal.

2008. United Press International. 1972. Organic foods demand may aid small farmers. *Hartford Courant* (*Connecticut*). Feb. 20. p. 44.
• ***Summary:*** "New York–Skyrocketing demands for organic foods may help accomplish what farm organizations have been trying to do for years–they may keep more small farmers in business." *Farm Journal* recently expressed this view of the hottest subject in food marketing. Organic farmers may get as much as 20% above market price for their crops.

The National Nutritional Foods Association reports about 250 food manufacturers and distributors "are handling organics, and about 2,000 retail stores sell such foods exclusively."

The big success of organic foods has led to one big problem, according to Robert Rodale, editor of *Organic Gardening and Farming* magazine: Organic phonies.

2009. Gray, Michelle. 1972. Adelle Davis documents 'Let's Get Well.' *Los Angeles Times.* March 19. p. O1, O8.
• ***Summary:*** One of the best assurances in this "nutritional guide designed to help in recovery from illness is 60 pages of medical references the author has researchers to back up her advice..." She dedicates the book to doctors and the foreword is written by Joseph C. Risser, M.D. of Pasadena. Her four books have sold well over a million copies.

Davis is very critical of the "foodless food industry" that refines the nutrients out of foods and distorts the truth about their nutritional value in advertising and articles. She also deplores the lag in (and lack of) teaching about nutrition in medical schools. To this reviewer, her book has "a ring of truth."

2010. Kingsberry, Emily. 1972. Bragg, now 90, jogs, swims, uses barbells, plays tennis. *Los Angeles Times.* March 19. p. O1. Sunday magazine. Health Foods Advertising Supplement.
• ***Summary:*** The writer was told that Paul C. Bragg is age 90, lives in Honolulu most of the time, jogs 1-2 miles and swims ½ mile each day, does calisthenics, works out with barbells 3 times a week, and sometimes plays tennis. Last time she was in Hawaii, she showed up at 6 o'clock one morning on Waikiki Beach to see him.

There he was "with 20 followers, jogging and doing exercises." She was urged to join in. She spent the next 3 hours witnessing what she had heard about this "amazing man." She was in pretty good physical condition but she had a hard time keeping up with Bragg. He invited some of the people to come back to his apartment for a breakfast of Hawaiian fruit and acidophilus milk. They talked for several hours.

She told him that when he was age 16 he had developed tuberculosis and was in a sanitarium. A Swiss nurse had told him about Dr. August Rollier of Switzerland who had healed TB patients through natural foods and exercise. Bragg visited Dr. Rollier and in two years he was free of his TB. "As a result young Bragg decided to make nutrition and natural healing his life's work and began the study of those subjects and biochemistry at European centers. His own health improved and his body became strong."

He said that he returned to the USA and in New York met Bernarr Macfadden, publisher of *Physical Culture* magazine; young Bragg became editor of the magazine. Bragg then helped Macfadden establish his health spa in Danville, New York, the Deauville Club in Miami Beach, Florida, and the Penny Kitchens in New York, Philadelphia (Pennsylvania), Chicago (Illinois), and Los Angeles (California). These kitchens dispensed wholesome meals for 1 cent each to the unemployed during the Depression. "Macfadden and Bragg were interested in organically grown foods and the magazine published many articles on the subject. Later [by Sept. 1921] Bragg came to California to study organic gardening with Luther Burbank and to become one of the early settlers in what is now the city of Burbank."

Nearly 50 years ago, Bragg also "opened a naturopathic clinic near 6th and Hill" streets [actually, at 1000 West Seventh Street] in Los Angeles. "In those days there was no place to buy natural foods so Bragg installed a machine to grind whole wheat and other grains," and he stocked many natural foods such as sun-dried fruits. "Out of this grew 'Bragg's Health Food Store' next door to the clinic.

"After this Bragg began to lecture on health foods and

© Copyright Soyinfo Center 2021

physical fitness all across the nation and as a few others did the same, the health food movement began to catch on. Now it has major proportions."

"Bragg claims he was born in Virginia in 1881 and that his grandfather was Confederate Gen. Braxton Bragg. He believes he will live to be 120."

Note: Paul Bragg was born on 6 Feb. 1895. Therefore on the day this article was published he was age 77 years, 1 month, and 13 days–*not* age 90. He died on 7 Dec. 1976 in Florida shortly before reaching age 82. In 1929 in one of his first two books, he revealed details about his early life. However he never mentioned Dr. August Rollier, or Bernarr Macfadden, or Luther Burbank. Paul Bragg moved to California in about 1921 and lived in Burbank starting in about 1935.

2011. Vizzini, Alston. 1972. Bragg and his diet are tied to be fit. *Honolulu Advertiser* (*The*) (*Hawaii*). April 6. p. E1. Food section.

• ***Summary:*** The article starts: "Paul C. Bragg is considered the 'granddaddy' of the health food movement.* He opened the first health food store in the U.S." *

Age 91, he is a fine specimen of health and vitality, which come, he believes from good nutrition and exercise. He is the father of five, grandfather of 12, great-grandfather of 14, ad author of more than 30 books.

"Bragg was stricken with tuberculosis at the age of 16 and was sent to Switzerland to recover.* There he said he was cured by Dr. August Rollier's natural Healing and Sun Sanatorium with natural food, clear air and sun.* At the time of his recovery he vowed to study all aspects of natural healing and to learn the secret of agelessness."

Bragg exercises for almost two hours every morning. He jogs about a mile along Waikiki Beach, then leads a group of up to 40 people in breathing and other exercises for about 1½ hours. He does not add salt to his food or buy foods with added salt. He is not a vegetarian, but he eats little meat, lots of vegetables, and fresh fish when he can. His refrigerator is full of fresh fruits, vegetables, and acidophilus, which he makes himself from raw milk. He enjoys and values papayas, which are a rich source of enzymes, and an aid to digestion; enzymes are lacking in the diets of most people, he believes.

Bragg has a world-wide following which includes several health and food book stores in California and one in London. He is a registered physical therapist in California, and has a "degree in naturopathy from the American University of Naturopathy in New York." Naturopathy is a drugless method of healing. Good health, he believes, is the result of conscientious effort and dedication.

Contains two recipes: A lactobacillus health salad and a potato salad dressing. A large photo shows Bragg, looking very fit and tan, bare from the waist up, standing, exercising, and smiling.

Note: Sentences followed by an asterisk are incorrect. Explanations are given elsewhere. On the day this article was published, April 6, 1972, Paul Bragg was age 77 years and 2 months; he was not age 91 as he claimed. Born on 6 Feb. 1895, he was actually about 14 years younger than he said he was. Address: Advertiser food writer.

2012. Oettinger, Louise. 1972. Adelle Davis vs. the scientists. *Washington Post.* May 4. p. D3.

• ***Summary:*** In Washington, DC, last week nutrition crusader Adelle Davis faced some tough questions from scientists and "promised to 'watch very carefully from now on' what she said about vitamins A, D, and E." She was challenged by: (1) Dr. Ogden Johnson, head, Division of Nutrition, Food and Drug Administration. (2) Dr. Allan Forbes, deputy director of the same organization; he asked her why she recommended doses of vitamin A and D that are known to be toxic in some people.

At the luncheon, organizer by Robert B. Choate (who had challenged the nutritional claims made by breakfast cereal manufacturers) introduced Mrs. Davis by saying she had done a "fantastic job of alerting the public to nutrition," but at the same time she was "stirring up questions in the academic community." Includes other questions to and numerous statements by Adelle Davis. For example: (1) "I get myself identified with the health food industry far more than I like... its tragic the junk a lot of them sell, the misstatements they make. On the other hand, I don't know any other place you can get many things you need. If physicians knew more about nutrition, there wouldn't be any health outfits."

(2) "The problem with organic food is, there's so much more sold than grown."

(3) "I feel very strongly that most of our social problems, including crime and drugs, are caused by poor nutrition." A large photo shows Adelle Davis.

2013. Oettinger, Louise. 1972. Nutrition crusader Adelle Davis challenged on theories: FCC commissioner sparks food-related debate. *Los Angeles Times.* May 18. p. K1, K10.

• ***Summary:*** This article is very similar to one by the same writer published previously in the *Washington Post* (May 4. p. D3) and titled "Adelle Davis vs. the scientists." Address: Exclusive to the Times from the Washington Post.

2014. *Los Angeles Times.* 1972. Nutritional foods assn. to meet in Washington. June 18. p. K6.

• ***Summary:*** "The National Nutritional Foods Association will hold its 34th annual convention at the Hilton Hotel in Washington, DC, the week of July 30." More than 1,000 delegates from across the USA are expected to attend the 5-day meeting. Among the prominent speakers will be Sen. William Proxmire (D-Wis. [Democrat, Wisconsin]). "Irving Lessin of Los Angeles will serve as convention chairman..."

2015. The wedding of Kazuko Aoyagi and Travis Venters at International Christian University (ICU) in Tokyo and the wedding cake with tofu icing / frosting (Photograph). 1972.
• ***Summary:*** Two photographs of this wedding, which took place on 11 June 1972, are owned by Soyfoods Center. The first, 4½ by 3¼ inches, color, shows Travis and Kazuko standing in a room at ICU, dressed in wedding clothes. Standing behind them are 10-15 people. Standing to their left, dressed all in white, is Jeffrey Broadbent, who is reading from a book of scriptures. Standing to his left is Yoshiko Aoyagi. Bananas and pineapples are piled on two tables.

The second, 6 by 4 inches, black and white, taken 10-15 minutes after the first, shows Travis and Kazuko standing outside on the ICU lawn, with about 15 people standing close behind them, as rice is being thrown over them. Akiko Aoyagi is standing just to the left of Kazuko and William Shurtleff is standing just behind her. Everyone is smiling and having a good time.

A remarkable cake was served at this wedding–though no photograph of it can be found. It was made by Gretchen Broadbent. Gretchen, a very creative cook interested in natural foods and tofu, volunteered to make all the food for the wedding party. The centerpiece of her creations, which 5-6 people remembered clearly more than 25 years later (Jan. 1999), was the wedding cake. It was a sensation. The icing / frosting was made of tofu! No one had ever seen anything like it. It was a round layered cake, with each layer being a fruitcake that was slightly smaller than the one below it. Made entirely of natural foods, it contained whole-wheat flour instead of white flour and honey or fruits instead of sugar. Thus, it was rather heavy. Gretchen made the frosting–her own invention–by whipping firmly pressed tofu in a blender with honey. The cake even had a theme–evolution. Gretchen formed many small creatures out of dough, then deep-fried them. There were little crabs and starfish on the bottom layer, then little animals on the second layer, and finally on the top–guess what–human beings–our precious species. Because Gretchen did not have an oven in her apartment, she baked the cake on the ICU campus in an oven at the home of Steve and Marty Caldwell. She recalls: "I was really into that cake!"

2016. Ross, Nancy L. 1972. Great Granola! *Washington Post, Times Herald.* Aug. 4. p. B1.
• ***Summary:*** Rock singer Neal Diamond sings a little ditty that health food manufacturers like to hear:

"Let me hear that, get me near that Crunchy Granola Suite.

"Drop your shrink and stop your drinkin' Crunchy Granola's neat."

For the health food folks, Granola has emerged as an anti-Establishment, pro-ecology breakfast cereal–even though [the writer thinks] "it tastes like it came from the bottom of a feed bag." Present sales of Granola are said to be $5 million a year.

The modern incarnation of Granola is said to have been developed in 1964 by Layton Gentry in his cellar in Tennessee. His recipe is said to have combined rolled oats, wheat germ, sea salt, coconut, sesame seeds, brown sugar, and soy oil. As he mixed up batches with a canoe paddle [then baked them], granola became the best-selling health food.

Last week the National Nutritional Foods Association (NNFA) held its annual convention in Washington, DC, at the Hilton Hotel. Countless granola imitators were promoting their own versions, to which they had added raisins and dried apples, dates, apricots, prunes, peanuts, maple syrup, etc. There is even a granola pancake mix and ground granola for infants.

Founded in 1936, NNFA is a trade group made up of about 800 health food manufacturers and distributors, more than half of them headquartered in Southern California. This is their first convention in Washington, DC, where the "great organic craze" is said to have started only 2-3 years ago.

"To a Washingtonian, the convention has an intriguing aura of an old-fashioned carnival side show: lots of huckstering, with sprinklings of quackery and evangelism."

Fans of the macrobiotic diet are selling sea vegetables (such as nori, hiziki, wakame, kombu) and a Japanese buckwheat noodle named soba.

The FDA is quite critical of some NNFA members and tries to regulate them.

2017. Fuller, Jack. 1972. Proposed FDA rules on vitamins stir controversy. *Washington Post, Times Herald.* Aug. 11. p. A15.
• ***Summary:*** "Americans who look to vitamin pills and dietary supplements in hopes of improving their health will be affected by new regulations the Food and Drug Administration [FDA] plans, to strictly control how much goes into those vitamins and minerals." The plans include regulation of labeling and advertising, and means of helping consumers from wasting money on doses beyond what they need. The FDA's nutrition specialist, Dr. Ogden Johnson, says that nearly 80% of the U.S. population has used vitamins at one time or other, and about 50% uses them regularly.

An odd array of groups have joined forces to opposed the plan. One group believes the FDA should only regulate harmful substances or doses. Another group believes they should regulate substances that have not been proven beneficial to man or definitely safe. Milton Bass, general counsel for the National Nutritional Foods Association (NNFA), says his group will join in a suit to stop even the more limited FDA rules.

The new measurement will be the Recommended Daily Allowance (RDA).

2018. Maddocks, Melvin. 1972. The seeds of idealism. *Christian Science Monitor.* Aug. 31. p. 7.
• ***Summary:*** Discusses natural and organic health foods. There are now "over 2,000 'health food' stores across the United States, doing an estimated $500 million business in azuki soybeans [sic], green lentils, buckwheat, and the like."

"Erewhon Trading Company of Boston [Massachusetts]–one of the best in the new industry has listed fair 'organic' food prices so that the buyer may beware." Short grain brown rice, says Erewhon, should retail for about 35 cents a pound; yet it has been known to sell for as much as 50 cents.

2019. Baker, Ruth. 1972. Commentary: Encounter with Adelle Davis. *J. of Nutrition Education* 4(3):92-94. Summer.
• ***Summary:*** The writer spoke on the same platform as Adelle Davis at Florida Atlantic University in Boca Raton (Florida) in early Oct. 1971. She stated that she and Ms. Davis had 3 areas of agreement and 3 of disagreement. The latter were: (1) Ms. Baker has faith in the Recommended Dietary Allowances (RDA) as a practical guide for planning the dietaries of most persons, and Ms. Davis does not; (2) "the ingestion of enormous doses of vitamins and minerals in excess of the RDA has not been proved to be of benefit and has been proved, in some instances, to be harmful;" and (3) "we can achieve good nutrition through the wise selection of a variety of wholesome foods."

Ruth is convinced that, as professionals, she and her colleagues "have a responsibility to try to combat food faddism which seems to be hitting new highs each day. How do we do it? Do we need to find ways to make the truth as alluring as the fiction?" Address: Nutrition Consultant, Palm Beach County Health Dep., West Palm Beach, Florida 33402.

2020. Knight, Gilda. 1972. Confrontation in Washington. *Nutrition Notes* (*AIN, Bethesda, Maryland*) 8(3):4. Sept. [2 ref]
• ***Summary:*** Describes a debate between nutritionists and Adelle Davis, "the biochemist who is considered to be among the leading nutrition communicators" in the USA. All agreed with Miss Davis' premise that one of the basics of a quality life is good nutrition. Miss Davis was unable to give satisfactory answers questions concerning her sources for statements she has made: (1) Calcium is a good pain killer. (2) Vitamin E can dissolve blood clots. (3) Nutrition can alter a case of malignancy. (4) Recommends taking up to 50,000 units/day of vitamin A for visual problems. (5) Pregnant women should not drink skim milk because it might cause cataracts in their babies.

"To question after question Miss Davis replied "I will accept your criticism,' 'I could be wrong,' 'I'm not saying it always does,' when asked about the theories she expounds authoritatively in her widely-read books, *Let's Eat Right to Keep Fit,* and *Let's Get Well.*

Concerning the first book, the Chicago Nutrition Association [Illinois] says: "Garnished with extravagant claims and questionable undocumented facts... Not a satisfactory compromise. This book must be condemned as one replete with misinformation." Concerning the second book: "A confusing combination of fact and fiction..." Address: AIN (American Inst. of Nutrition) Executive Office.

2021. *Chicago Tribune.* 1972. Action express. Oct. 10. p. A1.
• ***Summary:*** Question and answer format: "Q.–I have given up trying to prod some vitality into the National Health Food Society in Los Angeles [California]. Back in March I sent the outfit $5 for a membership and health kit. Months passed and I wrote the director four times. No answer. Has he died? Meanwhile, how about my money back?

"Mrs. L. Madison, Chicago.

"A.–The former director has departed and new owners took over several weeks ago, we were told. Meantime, the society's supply of rejuvenating foods became anemic. 'The inventory was depleted to the point that few orders could be filled,' said Edward Shellington, the new director. He sent you a full refund."

2022. *Los Angeles Times.* 1972. Frey Brown; Health food executive. Oct. 13. p. C4.
• ***Summary:*** "Frey Brown, [age] 71, long-time business associate and friend of health food advocate Gayelord Hauser, died in his sleep of an apparent heart attack at his home in Sicily, friends advised in Los Angeles Thursday.

"Mr. Brown was chairman of the board of Gayelord Hauser International, worldwide health food distribution organization.

He stayed alternately at residences in Sicily and a home in Coldwater Canyon in Beverly Hills, California.

Later this fall, private memorial services will be conducted in Beverly Hills. Mr. Brown is survived by two brothers.

2023. King, Jacqueline. 1972. Her thoughts on food may give many much food for thought. *Hartford Courant* (*Connecticut*). Oct. 22. p. 45.
• ***Summary:*** A well-written, somewhat unsympathetic and critical, biography of Adelle Davis, with an attractive portrait photo of her at her home in a suburb of Los Angeles–where the writer interviewed her. She grew up as one of five girls on a farm near Lizton, Indiana, milking cows and plowing fields. But today, as the premier lady of health foods, she is waging her own war for better foods and better nutrition in America–even though she occasionally has a glass of wine.

The writer describes her as the "guru of health food faddists and the mender of the malnourished." "She is to nutrition what Ralph Nader is to consumerism." Many "still

© Copyright Soyinfo Center 2021

consider Miss Davis the matriarch of the movement."

She has written four books on nutrition' since the first was published in 1935, they have sold a total of more than four million copies. The best-seller of the four is "Let's Eat Right to Keep Fit."

The health food movement has been quite successful; most grocery stores now include a health-food section and the number of independent, self-contained health foods stores in the United States has grown from about 1,600 four years ago to about 2,800 today, according to the National Nutritional Foods Association.

How did she get interested in healthful foods and good nutrition? Growing up in Indiana, Miss Davis joined 4-H clubs when she was old enough and won ribbons at state and country fairs for baking bread and canning. She was a student at Purdue University (in Indiana) for two years before transferring to the University of California at Berkeley, where she earned her bachelor's degree in nutrition. In 1938 she earned a master of science (MSc) degree from the U.S.C. School of Medicine. She then worked as a hospital dietitian, and as a nutrition consultant with physicians in New York and California clinics. She says she planned personal diets for more than 20,000 individuals prior to 1958, when she decided to give up consulting in order to concentrate on writing and lecturing.

Twelve years ago [i.e., ca. 1960] she and Mr. Frank Sieglinger, a retired accountant, were married. She says her television appearances have made her a "celebrity" so that she now finds it very difficult to get any peace and quiet. Address: Associated Press writer.

2024. **Product Name:** Tan Pups (Skewered Seitan Deep-Fried in a Breaded Batter).
Manufacturer's Name: Amartseff (Nik and Joanne).
Manufacturer's Address: 216 Gardner Rd., Brookline, MA 02146.
Date of Introduction: 1972 October.
Ingredients: High-protein wheat flour. Broth: Water, kombu, sauteed onions, soy sauce, fresh gingerroot. Batter: Pre-ground corn meal, fresh onions, garlic, salt, soy sauce, some of the concentrated liquid in which the seitan had been cooked, and maybe some water.
How Stored: Unrefrigerated and perishable.
New Product–Documentation: This was probably one of America's first two commercial seitan products. With this extremely innovative, all-American product, seitan was transformed from a salty black seasoning into a juicy meat substitute, and the pattern was set for most subsequent seitan products in the western world.

Talk with Nik Amartseff (P.O. Box 100, Cambridgeport, Vermont 05141. Phone: 802-869-2942; by June 20: P.O. Box 135, Chesterfield, New Hampshire 03443. Phone: 603-256-6750). 1992. May 24. Nik created this product. He and his first wife, Joanne Street Amartseff, made this product together out of their home, though they never operated under a company name. Joanne now lives in Mission Hill, near Brookline, Massachusetts. They first made the product at Gardner Road in Brookline. It was sort of the Erewhon executive house. The name was a play on two words: "Tan" came from Seitan, and "Pups" came from Hot Dogs.

Nik thinks he first made seitan at home in Los Altos, California. He learned the process by reading about it, either from an early issue of *East West Journal* (which began publication in Jan. 1971), or from a book. *Order of the Universe* (which he also read later) had started publication by 1967. He and Joanne first moved to 216 Gardner Rd. in Boston in May, 1971, when Paul Hawken invited them to Boston from Los Altos, California, where he and Joanne worked at Fred Rohé's New Age Natural Foods. Nik immediately began to work at the Erewhon warehouse and to live at the Erewhon executive house together with Paul and Dora Hawken, Bill and Renee Tara, Hy and Laura Lerner, and some single people including Wally Gorell and Bill Garrison. The women did the cooking in the house, but some of them (including his wife) also cooked the lunches for the workers at the Erewhon warehouse.

Before Nik and Joanne arrived, Renee Tara was baking ready-to-eat unyeasted macrobiotic goodies at home on Gardner Road and selling them at the Erewhon retail store. When Bill and Renee left for England, Renee asked Joanne if she would like to continue this little cottage industry. So in the early spring of 1972 Joanne stopped cooking for Erewhon and took over Renee's business, with the help of Nik's sister, Vera, baking at the Gardner Road house to supplement the family income. Joanne's project was quite successful right away, in part because she did not toe the macrobiotic line very strictly. She sweetened up Renee's strict macrobiotic line and added a number of innovative sweet baked snack foods, which apparently no one else thought of or dared to attempt, such as cookies, yeasted cinnamon-maple nut rolls, fruit tarts, and fig newtons. Nik continued to work full time at Erewhon, but during his time off he experimented with making seitan. He had two ideas: One was to use small pieces of seitan mixed with sauteed vegetables as a filling for piroshki (small cases of dough around the filling; Nik is part Russian), and the other he called Tan Pups–skewered deep-fried seitan on a stick. Joanne recalls that they may have sold these two seitan foods a few times (she is not sure) but they were not regular items. However Nik is quite certain that for at least the last few weeks before he and Joanne moved to New York state, in order to have some extra money, they "baked like crazy" and sold Tan Pups and Piroshki.

In May 1972 Nik quit Erewhon for a while, and he and his wife moved to New York state. They returned to the Gardner Road house in Boston in Sept. 1972 and Joanne resumed baking. At this point Nik began baking with Joanne, mainly out of necessity to make some money. Their two lines

© Copyright Soyinfo Center 2021

of baked products were (1) Joanne's former line of sweet snack foods, and (2) savory products (such as the Piroshki and Tan Pups). Their two seitan products were on the market by about Oct. 1972 and they soon became popular.

They made Tan Pups entirely by hand as follows: The night before make raw wheat gluten from whole wheat flour (which they bought in bulk from Erewhon). The next morning, cook the loaves of gluten in large enamel kettles with water, kombu, sauteed onions, garlic, and freshly grated gingerroot. About half way through the cooking, add soy sauce. Remove the seitan and simmer the liquid until it is reduced to about ¼ its original volume. Slice the seitan into pieces about 3/4 inch square and 3 inches long (like a hot dog with a square cross-section; the traditional New England Corn Dog influenced the product concept). Set aside any scraps or trimmings to use later in making Piroshki. In a blender, prepare a thick batter (having a consistency between crepe and pancake batter) using pre-ground corn meal, fresh onions, garlic, salt, soy sauce, some of the concentrated liquid in which the seitan had been cooked, and perhaps some water. Skewer the seitan pieces from one end, then dip them in the batter (without dusting in a dry breading), and deep-fry, placing them like spokes of a wheel in cast iron pots. When they are crisp and piping hot, deliver to stores.

These savory vegetarian foods (typically 100 Tan Pups and 50 Piroshki) were sold at only two outlets: Most at the Erewhon retail store at 342 Newbury St. in Boston, and the rest at The Organic Food Cellar, also on Newbury St. At Erewhon, they were sold on (or later in) a glass case about 10 feet from the entrance of the store. The products were sold in bulk, without packaging or labels. Nik usually delivered them by 3:00 in the afternoon, which was found to be a prime selling time. Most were sold by 6:00 and almost none were left the next day. He delivered 2-3 times a week. The work was exhausting.

But there was a lot of turmoil at the Gardner Road house, so Nik and Joanne moved in with John Deming in Allston (Massachusetts), then with friends in Saugus, then to Gloucester (27 miles northeast of Boston) by Nov. 1972. At each of the 3 houses they made the Tan Pups, Piroshki, and sweet snack foods.

In early 1973, Kathy and Mike Atherton, friends of Nik and Joanne's (Mike was employed at the Erewhon warehouse) moved to Boston from New York. Joanne was due to have a child in June 1973. The business was too labor intensive and soon the family would need more money. So the Amartseffs gave their friends the home business (free of charge) and it was moved to the friends' home in the north end of Boston. Nik gave them the recipes and his two outlets, and showed them how to make all the products. Nik was re-hired to work full time at Erewhon by Bill Garrison. Nik and Joanne's son was born in June 1973.

The Amartseffs' friends continued to sell Tan Pups and Piroshki through at least the autumn of 1973, then they moved on–and the products went off the market. The business never did have a real name.

Nik never heard of nor tasted Tan Pops, the successor of Tan Pups, made by John Weissman.

Talk with Joanne Amartseff. 1992. July 8. She just talked with Nik's sister, Vera, who both Nik and she think has an excellent memory. Vera (who now lives in San Francisco) does not recall them making any seitan products before Nik and Joanne left for New York.

2025. Midwest Natural Foods Distributors, Inc. 1972. Catalog and price list 11/1/72. Offering the best in natural foods. Ann Arbor, Michigan. 58 p. Nov. 1. Index. Illust. 22 cm.

• ***Summary:*** This is a very early natural foods catalog, typewritten and mimeographed on pink paper; it contains a few logos of manufacturers but no ads. On the front cover is a stylized illustration of a rayed sun, with each ray represented as a fruit or vegetable. Contents: Hi! Who, where, phone, why. General information: Service, terms, freight, notes, contact (Henry Bednarz and Larry Kociela, p. 1-2). Special case lot discount–5%. Lines on which case lot discounts are not allowed (7). "Computerized billing by January 1, 1973 including Quantity, Unit, Description, Size, Sugg. [Suggested] Retail, Unit cost, extension, 10 day 2% discount, 10 day case lot discount" (p. 4).

The body of the catalog is an alphabetical listing of suppliers / manufacturers, with major brands or product categories a cross references (e.g. Bakon Yeast, see Sovex). Within each, products are listed alphabetically (shown below in parentheses). These include: Acme juicer Co. Appliances & utensils. Barth's Nutra Foods (Barth Soya Date Cereal). Books (Nutri-Books Corp., Denver, Colorado). Chico San (Rice Cakes, Lima Tamari Soy Sauce, Miso Soybean Puree, Sesame Salt, Sesame Butter, Salt Plums, Kuzu {wild arrowroot}, azuki beans, Mu Tea, kombu, soysauce tableserver–glass, chopsticks), Celestial Seasonings teas, Continental Culture Specialists (acidophilus culture, kefir grains, royal yogurt), Dr. Bronner & Assoc. (dulse sea lettuce, lecithin protein cereal, Do It Twice Soy Vege Base, pure peppermint oil soap), El Molino (7 Grain Cereal, soy beans–whole, soya flour, soya grits, soya meal, Graham flour), Fearn Soya Foods (Pancake S.F. [Soya Flour] Mix, liquid lecithin, High Protein (carob, chocolate, vanilla), soya protein 96%, Protein 600 Tablets (vanilla, chocolate), Muscle Protein, Soya Powder–Natural, Soya Powder–Low Fat, Soya Granules, cooking soybeans, Wheat Cereal Soya Mix, Corn Bread Soya Mix, Salted Plain SoyoSnax, Soybean–sprouting, lecithin granules, Soy O Snaks–Natural, barley–hulled organic, triticale flour–organic), Flavor Tree (Pernola, Pernuts {unsalted, sea salted, mild garlic, onion, carosel [carousel] carob covered}), Gides, Inc. (Nu-Life {vitamins & minerals–has the most products of any supplier}; A Soyadophilus, vitamin E natural mixed tocopherols), Lassen

Foods (granola), Malt-O-Meal (Soytown) (salted soy beans [roasted], unsalted, barbecue flavor, garlic, soy spread, soy honey bar, soy nut bar), Miracle Juicer Co., Modern Products (Gayelord Hauser), Norganic (vegetable oils, incl. peanut oil, soy oil, safflower oil, sesame oil, sunflower oil, Gold Soya Mayonnaise), Richter Bros. (Familia cereals {Swissy Cereal, Fritini Mix}, Morga vegetable bouillon, Pero coffee substitute, Herbmare seasoning salt), A. Sahadi Co. (sesame tahini), Sourdough Jack's Country Kitchen (sourdough starter), Sovex (granola, Bakon Yeast), Seelect Dietary Products: Herb teas (incl. Bladderwrack, dulse leaves, saw palmetto, Irish moss), St. Laurant Peanut Butter, Sunshine Valley, Viobin (lists 16 products, incl. wheat germ oil), Mineral Waters (incl. Apollinaris, Vichy, Perrier, Mountain Valley), Grist Mill (granola, Wunder Bars, Honey Graham Cracker, Super Protein Concentrate), Norwalk Juicer Co., Parkelp (Ocean Labs, Inc.; lists 4 kelp products), Nuvita Foods (Langes; Soya Carob Macaroni). Organic Sun Valley Dried Fruits (incl. Calimyrna figs, Monukka raisins, Black Mission figs, Zahadi dates). Honey Preserves–No sugar added. Index by products and suppliers.

Note 1. This is the earliest document seen (March 2020) concerning Midwest Natural Foods.

Note 2. This is the earliest English-language document seen (July 2021) that mentions the "Acme Juicer" or the "Acme Juicer Co." Address: 310 W. Ann St. (P.O. Box 100), Ann Arbor, Michigan 48107. Phone: 313-761-2997.

2026. Staton, Ron. 1972. Bragg could brag about his fitness: Plans to live to 120. *Honolulu Star-Bulletin* (*Hawaii*). Nov. 29. p. A-17.

• ***Summary:*** Paul C. Bragg says that at age 16 he started on a health food and exercise program. Now age 91 (but he could easily pass for 65), the bronzed physical fitness specialist and nutritionist believes that "to rest is to rust." He says he lives in a state of agelessness, in biological rather than chronological years. He is a great-great-grandfather.

At age 16, Bragg was stricken with tuberculosis. Sent to Switzerland, he was placed in the care of Dr. August Rollier, who prescribed sunshine, natural foods, exercise, and clear air. After recovering, Bragg followed this prescription and simple way of living for the rest of his life. In college he majored in biochemistry. For years, he has studied nutrition and practiced as a licensed physical therapist in California.

Bragg believes that if people would eat a better diet, two-thirds of the hospitals in the USA could be closed and the number of medical practitioners could be reduced by one-third. Even Hippocrates, the father of Western medicine, said that food will be your medicine and medicine your food.

The health food movement, which is now sweeping the country, was once branded as fanaticism or quackery. Today young people are demanding whole, natural foods. "Bragg says he opened the first health food store in the nation in Los Angeles 60 years ago." Note: Sixty years ago would be 1912, when Bragg was age 17.

Bragg moved to Hawaii several years ago. Today, on the beachfront lawn at Fort DeRussy (on Waikiki Beach, Honolulu), six days a week he leads a group he calls "The Long Life, Health, and Happiness Club." Some 70 people of all ages come together for about two hours a day to do breathing and physical exercises. He devotes much of his afternoons to writing. He says that his books have sold 5 million copies and been translated into 27 languages.

He continues travel the world several months a year on speaking tours, which are now arranged by a lecture bureau headed by comedian Dick Gregory. He is given back what he feels he owes the world. A photo shows Bragg in a swim suit, seated on a towel on the beach, with his feet outstretched and apart, as he touches his toes. Address: Associated Press writer.

2027. Associated Press (AP). 1972. Stretching a point (Photo caption). *Hartford Courant* (*Connecticut*). Nov. 30. p. 27C.

• ***Summary:*** This large photo shows Paul C. Bragg sitting on a beach towel at Waikiki Beach, Hawaii. His feet are spread far apart in front of his torso and he is touching his toes on both feet–with a laughing smile on his face. Palm trees are in the background. The lower caption states that Bragg leads a group in two-hour exercise sessions six days a week at the beach. Bragg says that he is age 91 and that he lives in a state of agelessness. "He emphasizes total physical fitness with plenty of exercise and a natural food diet."

Note: Bragg, born on 6 Feb. 1895, would have been about age 77 in 1972.

2028. Parrott, Jennings. 1972. Newsmakers–At 91, going on 120, he credits activity [Paul Bragg]. *Los Angeles Times.* Nov. 30. p. A2.

• ***Summary:*** "'To rest is to rust,' says the man who knows–a bronzed nutritionist, physical fitness expert and author." "He recommends a diet of fresh fruits and vegetables, nuts and seeds, fish, little meat and no salt." A large photo shows Bragg leading an exercise session on the beach in Hawaii.

2029. Advest Co. 1972. Private placement $500,400. 1112 shares. Erewhon Inc. (Continued–Document part II). Hartford, Connecticut. 34 p. 28 cm.

• ***Summary:*** Continued from p. 12. Management of Erewhon: Paul Hawken–President & chairman. Born on 8 Feb. 1946 in San Mateo, California. Attended Berkeley High School in Berkeley, California. Graduated from Nevada Union High School 1963 [located between Nevada City and Grass Valley, California, in the Sierra Nevada foothills]. Worked one year as a carpenter. Traveled in Europe 1964-65, studied at Alliance Française. Returned to the USA and enrolled at San Francisco State. School was closed by demonstrations, so he went into business for himself–Commercial photography, portraits, and advertising. Left

business in 1966 to come to Boston to begin working at Erewhon in Aug. 1966. Married [to Dora Coates, June 1971], one child.

Tomoko Kushi–Stockholder. Michio Kushi–Director East West Foundation. Morris Kirsner–Attorney at law.

John Deming, Jr.–Retail manager. Born 27 June 1947 in Tacoma, Washington. Graduated from Bolton High School at Alexandria, Louisiana, in 1965. Attended Tulane University (New Orleans) until 1967, majoring in English. Began his own business, opening a natural food store in Jackson, Mississippi. Sold the business in Aug. 1971 and went to work with Erewhon in Los Angeles. Married [to Judy Coates in Aug. 1972].

Gordon William Garrison, Jr.–Vice-president. Born 19 Dec. 1946 in New York, NY. Graduated Bennington High School 1964. Attended Norwich University [Northfield, Vermont] 1964-65. Attended University of Vermont 1965-69, and graduated in 1969 with a B.A. in philosophy and art. Job Experience: Camp counselor, construction worker, ski instructor and patrolman, carpenter, farmer, tree surgeon, and lecturer. In 1970 started with Erewhon. Single.

Paul West–General Manager. In Feb. 1971 began employment with Erewhon. Married with two children.

Christopher J. Connolly–Production manager. Began work at Erewhon in 1970 in Los Angeles. Transferred to Boston in Oct. 1971. Single.

"Employees and facilities: The company maintains a retail store with 2,100 square feet at 342 Newbury Street, Boston, and a second retail store with 2,500 square feet at 8001 Beverly Blvd., Los Angeles. Supporting this store and the Western regional wholesale market is a 14,000 square foot warehouse at 8454 Steller Drive, Culver City, California.

"The company's headquarters and principal warehousing, packing, and processing facilities are located on 5 floors of two adjoining buildings at 33 Farnsworth Street, South Boston. This location comprises approximately 40,000 square feet. The company presently operates two packaging lines in Boston, 2 shifts daily, and one Packaging line in Los Angeles." The company employs approximately 40 people.

"The Market" Because it has grown with the organic movement and has followed rigorous standards of food purchase and preparation, the company enjoys an impeccable reputation for integrity in the rapidly growing organic foods market. The company believes it is presently the largest supplier of organic foods in the East.

"The market for natural, organic and health foods is a dynamic and rapidly growing one. A recent *Wall Street Journal* article named this industry as one of the ten highest growth industries for the 1970s. The National Nutritional Foods Association [NNFA] estimates there are about 250 manufacturers and distributors in the industry whose total sales were estimated by Dr. Dennis Wood, of Arthur D. Little, to have grown from $140 million in 1970 to $200 million in 1971 and possibly $400 million in 1972. These products are sold in over 3000 independent stores and by many food chains. Their level of importance is indicated by the recent printing of a separate Sears & Roebuck catalogue for health and organic foods."

There is a diversity of motivations underlying consumer demand for organic foods. Three categories of demand appear to exist: Cultural, economic, and taste. Organic foods usually taste better than non-organic foods. "The growing public concern for ecology also lies behind the purchase of these foods. Presently many members of such organizations as the Audubon Society, Friends of the Earth, and the Sierra Club purchase organic foods to boycott the farmers and chemical industries whose use of pesticides and artificial fertilizers the groups consider harmful to the environment. The many life styles and philosophies that are loosely grouped as 'counter culture' also underlie the motivation to purchase organic foods. Youth predominates in this category, but some spokesmen are such notables as René Dubois and Buckminster Fuller. In its broadest terms, the 'counter culture' is a search for a better answer to man's modern pattern of life. Man's present life style has led to a dangerous disruption of his environment."

"In fiscal year 1972 the company attempted a vigorous program of distributor sales aimed principally at broadening its market geographically and increasing sales. This program was successful in increasing sales, but its implementation required a rapid and inefficient expansion of the work force and substantial price discounts on distributor products. By consequence, the company's overall gross margin contracted, while its operating expenses increased, resulting in a 10-month net loss of $50,000 on sales of $2.8 million." Since that time distributor sales were effectively discontinued and substantial numbers of personnel were laid off. Gross margins have returned to their previous levels.

"Since its founding, the company has never employed a salesman full-time or run a continuous advertising campaign. Sales growth has been largely in response to externally developed demand and limited by capital."

Photocopies show the following Erewhon-brand labels: Maple granola, Peanut butter, Apple juice, Olive oil, oil of sunflower, corn germ oil, oil of soybean, short grain brown rice (organically grown), whole wheat flour, hacho miso (soybean paste). Photos also show the front and interior of an Erewhon retail store. Address: 6 Central Row, Hartford, Connecticut 06103.

2030. Glyer, John. 1972. Diet healing: A case study in the sociology of health. *J. of Nutrition Education* 4(4):163-66. Fall. [7 ref]

• ***Summary:*** "There is an increasing interest in 'natural' and 'health' foods. This study compares and contrasts the attitudes, beliefs, and habits of the new 'hip' groups with

© Copyright Soyinfo Center 2021

those of the older movement." This article is based on research conducted during the summer of 1971 under a National Institutes of Health grant. Twenty-three questions were asked of the new groups, and the results tabulated. The older 'health food faddists' wrote books that about half the members the hip group read. Adelle Davis's books were the most popular. Others were *Zen Macrobiotics*, by George Ohsawa (1965); *Mucousless Diet Healing System*, by Ehret [1924?]; and *Back to Eden*, by Jethro Kloss (1939).

On Ninth Avenue in San Francisco are three 'natural' foods stores near each other. Two are actually part of New Age Natural Foods, which grew so large it had to move the granary section to another storefront. Fred Rohe is the owner; he sells no meat and the dairy products come from certified raw milk. Address: Univ. of California Medical Center, San Francisco.

2031. *Time*. 1972. The perils of eating, American style [Paul Bragg]. Dec. 18.
• ***Summary:*** The title of this week's special issue of *Time* magazine is "Eating may not be good for you." This article begins: Paul Bragg, age 91, maintains that his "lifeguard physique" is the result of two hours of daily exercise on Waikiki Beach, Hawaii, and his special diet. "He eats natural foods–fresh fruits, vegetables, seeds, but little meat and no salt; he plans to live to 120."

2032. **Product Name:** Sanitarium Health Foods Soya Beans Natural (In Brine).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: Sydney, N.S.W., Australia.
Date of Introduction: 1972.
Ingredients: Soya beans, salt.
Wt/Vol., Packaging, Price: 430 gm can.
How Stored: Shelf stable.
New Product–Documentation: Label. 1980, undated. "A delicious protein-rich vegetable." Two recipes on label. Letter from Sanitarium Health Food Co. 1981.

Letter and Label sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1972.

2033. Bragg, Paul. 1972. The miracle of fasting for agelessness-physical, mental & spiritual rejuvenation. Burbank, California: Health Science. 119 p. Illust. 21 cm. * Address: Burbank, California.

2034. Brown, Edith; Brown, Sam. 1972. Cooking creatively with natural foods. New York, NY: Hawthorn Books. xvii + 302 p. Illust. Index. 24 cm.
• ***Summary:*** This vegetarian cookbook has been 35 years in the making. Edith was born in 1920, and Sam in 1917. "It really goes back to the birth of Brownies [Health Food Restaurant in New York City]. That was in 1936. In the beginning we were just a sliver in the wall, hardly a soybean's throw from Union Square in New York City. The address hasn't changed but *we* have." Brownies began as a tiny shop selling natural foods to people who lived or worked in the neighborhood. Today we are a restaurant-bakery -country store complex sprawled across Siamese-twin brownstone houses."

"The expansion of Brownies began modestly in 1938. Sam acquired a vegetable juice extractor and installed four stools in the shop. Vegetable-juice bars have long since become old hat, but the one on East 16th Street happened to be the first one in the country.

"The juice bar won a warm welcome. Customers 'dug' the oral vitamin shots being dispensed from the extractor. Soon people were coming from precincts far beyond the neighborhood to 'get juiced.' The word spread. There appeared a distinguished visitor in the person of the late

© Copyright Soyinfo Center 2021

Clementine Paddleford, the influential food editor of (alas, also the late) New York *Herald-Tribune*. Miss Paddleford came, sipped, and wrote rapturously about her discovery. That rave review really put Brownies on the map." (p. xi)

In the chapter titled "The natural foods cupboard: A glossary" we find good descriptions of various soyfoods: Soyameat (canned, Chicken or Beef Style), soybean granules, soybean powder [flour], soybeans (canned, like Boston baked beans), soybeans (dried), soy nuts [oil-roasted soybeans], Stripple Zips ("Bacony, crunchy, smoky bits of vegetable protein made from soy and yeast. A wonderful meatless flavoring."), tamari (soy) sauce, VegeBurger (canned, made from soy, wheat, and vegetables), VegeChee [tofu], Vegelona.

Soy-related recipes include: Pizza supreme (with Fearn Whole Wheat Soy-O Mix, p. 17). Soy-stuffed mushrooms (with canned green soybeans, p. 17-18). Dill soybeans (p. 74). Triple-treat bean salad (p. 80). Crunchy soybean salad (with canned green soybeans and Chicken-Style Soyameat, p. 81). Soy-nut meatballs (with canned soybeans in tomato sauce, canned VegeBurger, soybean granules, and Toasted Soy Nuts, p. 109-10). Soy, garbanzo & millet pie (p. 126).

One chapter is titled "The miraculous soya–and other members of the clan (bean)" (p. 129-45). The introduction notes: At Brownies we feature soybeans on the relish tray, on the salad menu, and as a meat substitute. We use soybean flour in almost everything that comes out of our ovens." Soy-related recipes include: Basic soybeans. Zippy soybean salad. Minty soybean salad. Soybean ratatouille. Scrumptious soy pudding. Soy walnut loaf. Protein casserole (with Beef-Style Soyameat). Lentil soy casserole. Tricolor bean salad (with toasted salted Soy Nuts). Exotic bean salad. Neapolitan bean salad. Peppy bean puree. Any-night beans.

Soy recipes with pasta (p. 175-78): Savory soy spaghetti. Soy spaghetti with saucy franks. Corny spy spaghetti. Spaghetti protein casserole (with soybean spaghetti, green soybeans, and Proteena). Soy elbows in parsley mushroom sauce. Oriental elbows. Soya blueberry muffins (p. 248). Crunchy soy-nut spinach cake (with soybean powder and unsalted soy nuts, p. 264).

Brownola plus (like Granola, p. 168). Address: New York, New York.

2035. Goldbeck, Nikki. 1972. Cooking what comes naturally: A natural foods cookbook featuring a month's worth of natural-vegetarian menus. Garden City, NY: Doubleday & Company, Inc. x + 230 p. Illust. by Bill Goldsmith. Index. 22 cm.
• ***Summary:*** In the section on Flour (p. 14-15), soy flour is mentioned. Under seasonings, the author advises (p. 22) to "Use Tamari or pure soy sauce, which has only water, whole wheat flour, and salt added." Recipes for Fried Brown Rice and Vegetables (p. 52) and Cabbage Salad with Carrot Dressing both use "Tamari Soy Sauce" and notes: "It is sold in all health food stores. If you cannot find it, substitute pure soy sauce to which no flavorings, colorings, or artificial ingredients have been added." Page 131 gives a recipe for Tamari Broth. In the section on "Ingredient Substitutions" under "Dairy Products," 1 cup milk is said to equal 1 cup soy milk. Address: R.D. 1, Box 452, Woodstock, New York 12498.

2036. Haddon, Joan. 1972. The Australian book of health food cookery. Sydney, Australia, London, England: Collins. 140 p. Color plates. 21 cm. (Fontana Books).
• ***Summary:*** A vegetarian cookbook. Soy-related recipes include: Soy vegetable soup (with whole soybeans, p. 29). One chapter titled "Soy Bean Dishes" (p. 60-63) contains the following recipes: Soy bean loaf. Japanese soy bean croquettes (with canned soy beans and soy bean flour). Soy bean stuffed tomatoes (with canned soy beans). Baked soy beans. Soy bean rissoles. Soy bean baked omelette. Address: Australia.

2037. Horton, Lucy. 1972. Country commune cooking. New York, NY: Coward, McCann & Geoghegan. 232 + [8] p. Illust. by Judith St. Soleil. Index. 24 cm.
• ***Summary:*** A nostalgic memoir (for those who came of age at this time) of the world of young Americans in communes in the early 1970s, with many fine illustrations (see p. 27). It gives a colorful, accurate portrayal of how the counterculture ate in the early 1970s.

The author, raised in New York City and educated at Bryn Mawr (Pennsylvania, with a major in classical archaeology), earned her traveling money by working as a live-in maid and cook for a rich "Park Avenue Lady" before embarking on the project that became this book. She hitchhiked to San Francisco, arriving in June 1971, then spent most of the next year visiting 43 communes in 12 states and Canada, and collecting recipes from each. There she found "a New Age of Food Consciousness." The main topic of conversation and common interest at these intentional communities was not God or sex, but food. This book, with her 150+ favorite recipes, features natural and organic foods (with lapses). Most of the recipes from California and the West Coast are vegetarian, but in New Mexico and eastward (especially New England) she was "surprised to find that vegetarianism was more the exception than the rule" (p. 81). Thus, Chapter 3 is titled "Meat (and one fish)." There are recipes for chicken, fish, deer, goat, beef, etc.

The Introduction notes (p. 15): "The *sine qua non* of commune cooking is tamari soy sauce, an unspeakably delicious fermented Japanese product available in natural foods stores which bears no resemblance to commercial soy sauce" * (Footnote: *"Kikkoman soy sauce, available in supermarkets, tastes like tamari but contains a preservative").

"1. Soups: The commune soups I sampled were typically of mixed vegetables with a tomato or miso (p. 159) base" (p.

© Copyright Soyinfo Center 2021

27).

Tamari chickbits (p. 94, with chicken). Note about soy grits (p. 114). Sprouts (p. 135-36, many kinds including alfalfa, mung beans, soybeans, from Terra Firma, Oregon). Miso Almond Sauce (p. 158-59). Tamari gravy (p. 159). Soy-related recipes include: From Chapter 2, "Vegetarian main dishes"–Donna's soyburgers (p. 60-61, with whole soybeans, from California). Soy cheeseburgers (p. 61-62, with whole soybeans, from Moon Garden, Oregon). Suzy's soybean casserole (p. 63-64, from Breadloaf, New Mexico). Baked soybeans (p. 64-65, from Woolman Hill School, Massachusetts). Larry's tofu (soy cheese) (p. 65-68, homemade tofu from whole soybeans, from Om Shanti, Mendocino County, California). Breakfast cereal with roasted, salted soybeans (p. 163). Soy spread (p. 227, with soy flour, from The Motherlode, Oregon). Soy nuts (p. 229-30, baked, soaked soybeans with oil and salt).

A photo on the back cover shows the author, age 27, with long blonde hair, granny glasses, and blue denim overalls. Says Raymond A. Sokolov: "Lucy Horton has done more than collect exotic recipes... she has assembled the crucial artifacts of a movement within The Movement."

Also discusses (see index): Adelle Davis, gluten (wheat), granola, ground nuts, macrobiotic diet, peanuts. Address: Derby, Vermont.

2038. Patten, Marguerite. 1972. Health food cookery. London, New York, Sydney, Toronto: Paul Hamlyn. 80 p. Illust. (some color). Index. 26 cm.

• ***Summary:*** A vegetarian cookbook. Pages 65 and 66 note that soya flour, an excellent source of protein, is good for enriching breads. Use ¼-½ cup of soy flour for every 4 cups (1 lb) of whole wheat flour.

2039. Stare, Fredrick J.; Hegsted, D.M.; Mayer, J.; et al. 1972. "Health" foods: Definitions and nutrient values. *J. of Nutrition Education* 4(3):94-97. Testimony presented at hearing on "Health, Organic, and Natural Foods" by the Department of Consumer Affairs, City of New York, Dec. 1971. [3 ref]

• ***Summary:*** Gives testimony presented at a hearing on "health, organic, and natural foods," held in Dec. 1971, by the Dept. of Consumer Affairs, City of New York. Address: Dep. of Nutrition, Harvard School of Public Health, 665 Huntington Ave., Boston, Massachusetts.

2040. Chico-San Inc. 1972? Chico-San history and outline for future development. Chico, California: Chico-San Inc. 5 p. Undated. Unpublished typescript.

• ***Summary:*** A good early history of Chico-San, typewritten on the company's letterhead probably by Bob Kennedy. Atop the letterhead is printed: "Macrobiotic foods, rice cakes, cereals, sea vegetables." "By 1961 eleven macrobiotic families had packed their belongings, left their jobs behind in New York City, and headed for Chico, California, in the heart of the California rice growing country. In a short time Chico-San, Inc. was formed by some of these people for the purpose of importing foods of superior quality which were not available domestically, and locally producing foods of the highest quality for distribution throughout the United States."

One of the company's first popular products was the "Rice Cake, a light cracker made from puffed up whole grain brown rice. The first "machine," imported from Japan in 1963, made one cake at a time and was a crude, hand-operated device. Soon, three more machines were tied to the original one, still hand operated. Bob Kennedy, Dick Smith, and a few others found it necessary to work twelve hour shifts, and for six and seven days at a time to meet the steadily increasing demand for the unique new cracker. In 1965 pulled shoulder muscles ceased to be a problem when the first semi-automatic Rice Cake machine was put into operation...

"Central to the guiding philosophy behind Chico-San was the search for an organically grown brown rice–the prince of grains. This search ended in 1969 when the first organically grown short grain brown rice was harvested just south of Chico, in Richvale, California. This product, grown under exclusive contract for Chico-San, further enhanced their growing reputation...

"Back in the late fifties and sixties people who were interested in food and health were called 'food faddists', or 'health food nuts.' The food products found in most health food stores at this time consisted of a vast array of vitamin and mineral supplements, super protein concentrates, natural cosmetics, and a scattering of whole grains, few of which were organically grown.

"But little by little products with the Chico-San label found their way onto store shelves. First the Rice Cakes, then natural soy sauce, Miso Soybean paste, Sesame Butter and Sesame Salt, and organically grown Brown Rice became popular...

"In the back room too is Junsei Yamazaki, who emigrated to Chico from Japan in 1963 for the purpose of producing natural soy sauce and miso for Chico-San. These two products make up the greater percentage of the imports from Japan, and are subject to high duties and shipping costs. For 17 years Junsei was a rice farmer in Japan after graduating from Tokyo University with a degree in agriculture.

"Combined with the income from Stage I, Chico-San will be ready to begin Stage III. This stage includes the construction of a plant for the production of, at first, miso, and then soy sauce." Address: Chico-San Inc., 1262 Humboldt Ave. Chico, California 95926.

2041. Photograph of Roger W. Hillyard after 1971 at a Florida Health Food Convention. 1972? Undated.

• ***Summary:*** Note: This photo was sent to Soyinfo Center by Susan Hillyard, a professional photographer in Santa Cruz, California. (Dec. 2010).

2042. Jacobs, Jody. 1973. Adelle Davis lays down the nutrition law. *Los Angeles Times.* Feb. 5. p. G1, G6.
• ***Summary:*** Adelle Davis spoke to a sell-out audience of 400 women (and a few men) as guest speaker for USC's Trojan Guild at their 12th annual Guild Day at Hancock Foundation Auditorium on campus. Her clear blue eyes sparkling as she set forth her nutritional philosophy, Davis had the audience alternately applauding and laughing. After the 90 minute talk, they were still asking for more, as she switched to a question and answer period.

Davis has earned her MS degree in biochemistry from the USC medical school. Her basic message: Most diseases can be prevented by proper nutrition. 80 million Americans are obese because "our food is so refined. White bread and sugar can't build health." Milk is the best source of protein. Learn to count protein grams. Crime and alcoholism are nutritional problems.

Adelle Davis herself is the best proof of her belief that "nutrition really works." A large photo shows a happy, spirited Davis explaining that "You are what you eat." Address: Times society editor.

2043. *Los Angeles Times.* 1973. Nutritionist to address symposium. Feb. 26. p. G6.
• ***Summary:*** A lecture by Adelle Davis will be a major attraction at Golden West College's second annual, 5-day health symposium–which begins Tuesday. Topics from health foods to acupuncture will be discussed.

2044. *Chicago Defender.* 1973. 'Lenten fast: Spiritual diet.' March 3. p. 24.
• ***Summary:*** "Christianity should restore the practice of fasting during the 40 days of Lent." One day a week without solid foods, drinking liquids only, "would be the best thing that could happen for the total health of the total person"–according to Dr. Marcus Bach, founder of The Fellowship for Spiritual Understanding, an interfaith organization in California.

Lent was oriignally a time of fasting. Many early Christians actually fasted (water only) for the entire 40 days, just as Jesus did before starting his ministry.

Recently Dr. Bach has been studying Paul C. Bragg's "life extension" program in Hawaii, where "he went on extended fasts with the internationally-known physical culturist." At age 92, says Bach, Bragg is as physically fit as a man of age 50. Bragg "is amazingly mentally alert and spends three hours every morning leading a group of a hundred people in exercises and in spiritual discussion."

2045. Weaver, Peter. 1973. An overdose of vitamins? *Washington Post, Times Herald.* March 11. p. H4.
• ***Summary:*** This article consists of many questions and short answers–many unrelated to the title. "Q–I buy Tofu (soybean curd) at a health food store. The label states 'no preservatives,' but lists magnesium chloride [as an ingredient]. What's this?–M.K., Los Angeles, California."

"A–Magnesium chloride is not a preservative... theoretically its being used in your health food as a mineral additive. It doesn't have much nutritional value but its harmless."

This same question and answer also appeared in the *Los Angeles Times* on March 22, p. G15.

Note 1. Mr. Weaver apparently does not realize that magnesium chloride's main use is as a coagulant, to transform hot soymilk into curds and whey.

Note 2. Tofu is now being sold at health food stores in Los Angeles.

2046. United Press International (UPI). 1973. Health food industry sues the F.D.A. for $500 million. *New York Times.* March 15. p. 85.
• ***Summary:*** The industry has filed a damage suit against the federal government "charging that attempts to regulate the business have resulted in abuse, harassment, and economic hardship.

The National Nutritional Foods Association (NNFA) announced filing of the suit today. It seeks to stop the FDA "from issuing press releases and other publications that, it contends, are making unfair characterizations of the health food business."

The president of the NNFA (which represents about 2,000 stores and suppliers) said that a companion suit would soon be filed to try to stop the FDA from imposing new, stringent regulations on what can be sold as health foods.

2047. *Los Angeles Times.* 1973. Health food group sues U.S. March 26. p. F10.
• ***Summary:*** This is the lead article in a section of the newspaper titled "Health Foods Advertising Supplement." It describes the $500 million class action suit that the National Nutritional Foods Association (NNFA) has filed against the U.S. Food and Drug Association (FDA), Caspar W. Weinberger (Secretary of Health, Education and Welfare), and Charles C. Edwards (commissioner of the FDA).

"The civil action was filed in the United States District Court of New Jersey on March 9, 1973, by attorneys Bass & Ullman of New York."

The plaintiffs include various health food stores and manufacturers of health foods.

2048. Simkowitz, Howard J. 1973. Vegetarian and macrobiotic guide: Europe, 1973; or, The great European health food trip. Craftsbury Publishers, Craftsbury, VT 05826. 111 p. March. 21 cm.
• ***Summary:*** The majority of this book is a directory and often detailed individual description (including address, nearest public transport station, hours) of European restaurants that serve vegetarian and/or macrobiotic food. Also includes food shops, spiritual centers, maps, vocabulary (in English, French, German, Spanish, and Italian), useful phrases (such as "I would like brown rice with carrots and soy sauce"), and exchange rates It is arranged by country, and within each country by major cities, and within larger cities by districts. For example, in the British Isles, under London, the author states: "I counted 44 vegetarian restaurants in London. Two of these [Wheat, and Chelsea House] are excellent, and seven others [incl. Cranks, and Cyranos] are quite good."

See ad in Useful Names and Addresses. 1973. p. 49 (Published by GOMF, Chico, California). Address: Craftsbury, Vermont.

2049. Rice, William. 1973. The fair-skinned soybean. *Washington Post.* May 10. p. E1, E16.
• ***Summary:*** The title of the continuation of the article on p. E16 is "The treasures beneath the surface of the fair skinned soybean." Mirror, mirror on the wall... The soybean is the fairest vegetable of all, for its dull yellow surface covers a treasure of protein and other nutrients. It is presented in many guises: "tofu (used in Oriental cooking as bean curd), green (fresh) soybeans (prepared as fresh limas, or eaten blanched or raw when very young), dried soybeans (eaten as peanuts or used as other dried beans in cooked dishes), soybean flour (can be mixed with other flours but lacks gluten and can therefore replace only 15 per cent or so of wheat flour in recipes), soy sauce (essential in Oriental cooking and mistakenly used in the manner of ketchup by many Americans 'eating Chinese'), tamari (pure soy–preferred by vegetarians), miso (fermented soybean paste), soybean milk (liquid or powdered), soybean grits and flakes, lecithin (supplement to control cholesterol build-up) and some others. Soybeans have long been available in health food stores."

Rising beef costs have led to the use of "textured vegetable protein" as an "extender" in ground beef products. Contains 4 recipes using cooked, canned or dry soybeans, or soy flour.

2050. Yergin, Daniel. 1973. Supernutritionist: 'Let's get Adelle Davis right.' *New York Times.* May 20. p. 32-33, 58, 71. Sunday magazine.
• ***Summary:*** One of the best-written and most balanced biographies seen of Adelle Davis. "Today she is the spokesperson and chief showwoman for health foods, a $1-billion-a-year business catering through health food stores and supermarkets to a rapidly growing 'organic nation' of health-food devotees–which is one of the results of the awakening ecological consciousness. Her four 'classic' books with their positive-thinking titles... have sold more than 2.5 million copies in hard-cover and almost seven million in paperback."

"As a celebrity she is almost as much a regular on television talk shows as Johnny Carson. A crunchy granola breakfast cereal bearing her signature on the package is the fastest-moving item in many health food stores–outselling even the fabled vitamin E."

Also discusses why Adelle Davis is the "queen of health foods" shopping with her, what she eats, who shops for health foods, etc. Includes an interview with Dr. Frederick Stare, chairman of the department of nutrition at Harvard's School of Public Health [Massachusetts]; he disagrees with Davis in many areas. He and several other prominent nutritionists point out that her books contain much good advice but also many inaccuracies, misquotations, misinterpretations, and unsubstantiated statements.

Photos show Adelle Davis: (1) Smelling a pineapple in a food store. (2) Cultivating her garden. (3) Discussing her favorite subject with Dick Cavett on his TV show. Address: Freelance writer.

2051. Ewald, Ellen Buchman. 1973. Recipes for a small planet: The art and science of high protein vegetarian cookery. New York, NY: Ballantine Books. xi + 366 p. May. Foreword by Frances Moore Lappé (Hastings-on-Hudson, New York). Illust. by Diane Coleman. 18 cm.
• ***Summary:*** Lacto-ovo-vegetarian recipes based on *Diet for a Small Planet* by Frances Moore Lappe. The protein content is given for each recipe. Also contains information on complementary proteins. The author was born in 1946.

The chapter on protein complementarity discusses combinations of rice, wheat, peanuts or cornmeal with soy (in the form of whole beans, grits, flour, or tofu). A chart on protein / calorie comparisons gives the number of calories per gram of usable protein including the following: Defatted soybean flour 11, soybean sprouts 12, low fat soybean flour 12, tofu 15, full fat soybean flour 18, soybeans 20, gluten flour 23; Note that all these are relatively low in calories per gram of usable protein. By comparison: Hamburger 15, brown rice 69, cornmeal (whole, ground) 80.

Many recipes in this book contain small amounts of soy flour or grits, or soy sauce. Recipes containing significant amounts of soy include: All-protein crunchy granola (with soy grits, p. 48-49). New granola (with soy flour, p. 52-53). Orange pancakes with orange sauce (with soy flour, p. 58-59). Soy-sesame peanut spread (with roasted soy flour, p. 67). Peanut paté (with whole soybean and soy sauce, p. 70-71). Hot and sour soup (with tofu, p. 83-84). Soybean

© Copyright Soyinfo Center 2021

stew (p. 85). Peanut, tofu and sesame soup (p. 86-87). Exotic barley stew (with miso, p. 87-88). Cabbage soup for a meal (with soybeans, p. 91-92). Curried rice salad (with soybeans, p. 98-99). Gado gado (with tofu, p. 102-03). Soy-peanut marinade (p. 106). Dairy rich sauce (with tofu, p. 115). Chiles rellenos en casserole (with soybeans, p. 126-27). Herbed soybean bulgur casserole (p. 128-29). Garbanzo and cheese loaf (with miso, p. 133-34). Fesenjon–spiced ground beans (with soybeans, p. 135-36). Bean stroganov (p. 140-41). Crusted cauliflower (with soy flour, p. 143-44).

Breads and other baked goods (each with soy flour or grits, p. 195-274): Whole wheat soy bread. Wheat grits bread. Triple rich bread. Unusual pickle or olive juice bread. Cornmeal wheat bread. High rising bread. Spicy rye bread. Limpa bread. Oat rye soy bread. Caraway rye bread. Sourdough whole wheat bread. Egg and yogurt bread (SD = sourdough). Sun seedy oatmeal bread (SD). Four grain bread (SD). Nut and seed bread (SD). Mixed grain bread (SD). Crunchy nut muffins. Spiced pear muffins. Basic complementary muffins. Oatmeal muffins. Sour orange muffins. Pancake, waffle, or camping bread mix. Sourdough corn bread. Quick wheat soy bread. Quick molasses bread. Quick coconut bread. Cheese-filled coffee cakes. Walnut-and-raisin filled coffee cake. Orange coffee cake. Chocolate coconut cookies. Pumpkin cookies or bars. Fruit bar crunch. Honey almond bars. Banana spice bars. Gingerbread.

Cooking beans (p. 309-10, including soy and azuki/aduki). Putting more protein in your family's diet (Appendix F, p. 326-31).

Glossary (p. 339-44) discusses miso, soy flour, soy grits, tofu ("Tofu is soybean cheese, also known as bean curd... Some supermarkets carry tofu, and you can also get it in health food stores and oriental groceries and restaurants..."). Address: Berkeley, California.

2052. Vitamin Village. 1973. Display ad: Sunburn?! *Los Angeles Times.* June 25. p. G9.
• ***Summary:*** "Champion juicer & grinder. Regular $159.95. Red-hot special $129.95." Address: Anaheim / Orange.

2053. *Wall Street Journal.* 1973. What's news–The FDA regulated food supplements... Aug. 2. p. 1.
• ***Summary:*** "... by ordering strict limits on composition and promotion of the vitamin and mineral products. The Food and Drug Administration's new rules divide the supplements according to percentage content of daily allowances of vitamins and minerals recommended by the National Academy of Sciences."

A health-food association (the National Nutritional Food Association (NNFA)) said it would try to get both Congress and the courts to overturn the new regulations.

2054. Rynearson, Edward H. 1973. Adelle Davis' books on nutrition: Commentary. *Medical Insight* 5(7):32-34. July/Aug. [9 ref]
• ***Summary:*** "Unquestionably Adelle Davis is the best-known 'nutritionist' in the United States; the reason for putting quotations around nutritionist is–that she is not so regarded by the members of any of the scientific organizations in the specialties of dietetics and nutrition. This in no way implies that she has not had adequate training. By training she is eminently qualified. She is excluded from professional societies because of what she has done with this excellent training.

"The 1927 University of California Yearbook records her transfer from Purdue University and her graduation from the Department of Letters and Science, where she was elected to the honor society and received the Bachelor of Arts degree with a major in household science. Her classmates and members of the faculty remember her as a pleasant, active and intelligent student whom they enjoyed and respected. For further training in dietetics she went to Bellevue Hospital and Columbia University, and received her M.S. degree in biochemistry from the University of Southern California Medical School in 1938. She has worked as a consulting nutritionist with physicians in various New York and California clinics.

"Each classmate or teacher with whom I have corresponded expressed regret that a woman of her attributes and with her training should use them to disseminate half-truths and untruths. As one of her teachers said, 'What bothers me about Miss Davis is that she has found it financially profitable to make a good story for food faddist preparations to the extent that she pays little attention to the accuracy of her subject matter... She does have the capacity to interest people in nutrition–coupled with very few inhibitions about the accuracy of her statements–provided she can make a good story...'"

A small portrait photo shows Dr. Rynearson. Address: M.D., Emeritus Prof. of Medicine, Mayo Clinic.

2055. Schneider, Howard A.; Hesla, J. Timothy. 1973. The way it is. *Nutrition Reviews* 31(8):233-37. Aug. [1 ref]
• ***Summary:*** This article begins with a profound insight: "Nutrition is a curious science. Among the biomedical sciences it is probably unique in that although it has 'hard science' at its core, it has numerous linkages with some of the 'soft sciences,' and through them a very real contact with many aspects of the human condition.

"Viewed from this tidy inner core of 'hard science,' nutrition seems to have some untidier aspects as it reaches out through the 'soft sciences' to the shifting and never-settling tides of human life; when viewed from the concerns of daily living some of the tidy scheme at the core seems rather distant and ill-adapted to human necessities springing from a real world that is at some removes from the scientist's esoterica."

Discusses the findings of a report titled *A Study of*

© Copyright Soyinfo Center 2021

Health Practices and Opinions, by National Analysts, Inc. (NTIS, 1972).

The U.S. Food and Drug Association (FDA) contracted with National Analysts (Philadelphia, Pennsylvania) to conduct a large national survey on the nature and prevalence of "fallacious or questionable health beliefs and practices" and susceptibility to them. The study was jointly funded by 7 government agencies–which are listed.

Surprising findings: (1) Nearly 75% believed that feeling tired and rundown indicates a need for more vitamins and minerals. (2) 86% agree that anyone who eats balanced meals can get enough vitamins in his or her regular foods. (3) 50% of Americans take vitamins or other dietary supplements. (4) Many strange beliefs regarding weight control and weight loss.

Note: The editor of this periodical is D.M. Hegsted, PhD, Professor of Nutrition, Schools of Medicine and Public Health, Harvard University, Boston [Massachusetts]. Address: 1. Director; 2. Asst. for Communications. Both: Inst. of Nutrition, Univ. of North Carolina, Chapel Hill, NC 27514.

2056. Mayer, Jean. 1973. Vitamin furor: On nutrition. *Chicago Tribune.* Sept. 27. p. W_A11.
• ***Summary:*** "The Food and Drug Administration has just issued a group of important regulations, some of which are so obviously sensible that it's hard to see how anybody could object to them." But several of the rules have prompted protests from health food promoters, their customers, health food associations, and certain faddists.

"The fact is that most people don't need dietary supplements in the first place... healthy people who eat a variety of foods, including plenty of fruits and vegetables plus vitamin D-fortified milk, don't need pills." Address: PhD, Prof. of Nutrition, Harvard Univ.

2057. Vitamin Village. 1973. Display ad: Help us celebrate the Grand Opening of our beautiful new store in Fallbrook,... *Los Angeles Times.* Oct. 1. p. OC_B9.
• ***Summary:*** "Fabulous specials on juicers. Here are our Grand Opening juicer specials.

"Champion juicer (and grinder). Regular $159.95. Grand Opening special $139.95.

"Acme Supreme–The world's most popular juicer. 10 year guarantee. Regular $119.75. Grand Opening special $109.99.

"Acme Challenger–Quality & economy. Regular $89.95. Grand Opening special $79.99.

"Note: We will always give you a 25-lb. bag of organically-grown carrots Absolutely Free with the purchase if one of these fine juicers–Only at Vitamin Village." Address: Anaheim / Orange / Fallbrook.

2058. Wixen, Jean. 1973. Ill with cancer, Adelle Davis sticks to her preaching: 'If you eat well, you have a much better chance of getting well.' *Chicago Sun-Times.* Dec. 23. p. 1, 10. Section two. Sunday.
• ***Summary:*** The article begins: "Adelle Davis, outspoken nutritionist and 'health food nut,' has cancer. But that doesn't shake her faith in her theories on nutrition."

Adelle is now recuperating from a cancer operation she had last June. When asked why she became a dietitian: When she was 10 days old she was taken away from her mother, who was ill. Her mother died when Adelle was only 17 months old. "Maybe I wanted to make up for the good mother I never had. To become the good mother myself... I was such an unhappy child. I was round and roly-poly and I felt so alone. I felt so hated inside. My father had wanted me to be a boy. He was terribly strict with me, but I suppose I meant well." A photo shows Adelle Davis.

2059. Wixen, Jean. 1973. Adelle Davis still keeping the faith. *Chicago Sun-Times.* Dec. 24. p. 13, 18.
• ***Summary:*** Adelle Davis, who has strong ideas of her own about diet and nutrition, has cancer. Here, she answers her critics, many of whom are physicians. For example: Dr. Edward Rynearson, professor of medicine at the Mayo Clinic, told the writer that Davis's books are "loaded with inaccuracies, misquotations, and unsubstantiated statements" and that Americans must "love hogwash." Davis laughed and replied: "I have yet to meet one physician who has a thorough knowledge of nutrition."

2061. Andersen, Lynn. 1973. Rainbow Farm cookbook. New York, NY: Harper & Row. 222 p. Illust. Index. 24 cm. Preface by Allen Gordon.
• ***Summary:*** This vegetarian cookbook, which has a macrobiotic flavor, is from Rainbow Farm, located on over 300 acres of mountain land in Phonecia, New York. Soy-related recipes include: Basic miso broth (p. 34). Miso vegetable soup #1. Miso soup #2 (p. 35). Soy butter dressing (made with 2 cups each oil and water, 3 tablespoons soy flour, and the juice of 2 lemons, p. 57). Miso vegetables (p. 67). Carrots and onions with tekka (miso, p. 67). Miso-onion spread (p. 76). Miso rice (p. 85). Tahini-miso spread (p. 108). Tahini-miso spread with vegetables (p. 108). Tahini-miso spread with seeds (p. 108). Tahini-tamari spread (p. 108). Miso balls (p. 111). Soy butter ("This is exactly the same as the whipped soy cream recipe" [which does not

© Copyright Soyinfo Center 2021

appear in this book], made with "soy powder," p. 111). Soy milk (with a blender, from soy beans, p. 118). Soy milk (without a blender, from soy flour, p. 118). Soy burgers (from okara, p. 119). Soy loaf (with cooked soy beans, p. 120). Tofu "(Chinese Soy Bean Cakes)" (curded with Epsom salt, p. 120). Miso sauce #1 and #2 (p. 126). Hiziki and tofu ([hijiki], p. 132). Egg noodles (with wheat and soy flours, p. 144). Soy milk with whole beans (p. 205). Soy milk with soy flour (p. 205).

A glossary of "New or Unfamiliar Foods" (p. 212-14) includes good descriptions of tamari, miso soy bean paste, kuzu, and tekka. Address: Phonecia, New York.

2062. Carroll, Anstice; Vona, Embree De Persiis. 1973. The health food dictionary with recipes. Englewood Cliffs, New Jersey: Prentice-Hall, Inc. vii + 200 p. Illust. by Vincenzo de Persiis Vona. Index. 24 cm.
• ***Summary:*** The foods, listed alphabetically, include: Adzuki (p. 1-2). Beans, dried (incl. soy beans, p. 17). Gluten flour (p. 74-75, incl. Gluten soy bread). Miso and Miso butter (p. 101). Morromi [sic, Moromi] (p. 102). Mu Tea (p. 102). Nori (p. 106). Oil, vegetable (p. 113-14, incl. lecithin, peanut oil, olive oil, always refrigerate vegetable oil after opening; "Vegetable oils can (and should) be substituted for hydrogenated fats such as margarine, shortening, and lard in many recipes"). Peanut (p. 119-21). Peanut butter (p. 121-22). Soy grits (p. 156). Soy milk powder. Soy oil. Soy sauce (p. 156-57). Soybean (p. 159, incl. Soybean salad). Soybean, roasted (p. 160, incl. recipe for making at home). Tofu (p. 174-75, incl. recipe for Tofu-vegetable soup). Umeboshi (p. 175).

2063. Clark, Linda. 1973. Know your nutrition. New Canaan, Connecticut: Keats Publishing, Inc. 267 p. Index. 22 cm. [68 + 333 endnotes]
• ***Summary:*** This book is mainly about vitamins, minerals, and nutritional supplements, but the influence of the young natural and organic foods movements can be seen. Chapter 1 is titled "Should you take vitamins and minerals?" Chapters 2-14 are each about one of the known vitamins. 15. The magic minerals. 15. Where to find safe sources of all minerals. 17. Cholesterol, fats and oils (Clark advocates eating plenty of eggs). 18. High power foods (Lecithin, brewer's yeast, wheat germ, sunflower seeds, alfalfa, rice polishings / rice bran, cultured milks {kefir, cultured buttermilk, yogurt}, blackstrap molasses, liver, sprouts {incl. mung, soy, alfalfa, wheat}). 19. Protein, the real staff of life. Epilogue. Suggested additional reading.

2064. Hain Pure Foods. 1973. Hain presents an honest approach to oils: Their nutritive values, how they are processed, how they compare with other oils, fats and shortenings (Leaflet). Los Angeles, California. 1 p. 6 panels. 28 x 43 cm.
• ***Summary:*** This large leaflet, printed with black ink on white paper, contains 3 illustrations and answers in detail all the questions raised in the subtitle. Founded in 1926, "Hain, the health food people, have 47 years' experience in preparing the delicate oils from seeds, nuts and soybeans by the careful Cold Pressed method." Hain pure oils include soy oil and Hain Super E soy oil.

Note: In describing the "Cold Pressed" method, the leaflet carefully fails to mention that the seeds are almost always heated before having the oil pressed out by mechanical pressure. Address: P.O. Box 54841 Terminal Annex, Los Angeles, California 90054.

2065. *Health Foods Business.* 1973. Serial/periodical. New York: Commercial Circular Co. Howard Wasserman, publisher. Michael Spielman, editor. Frequency: Bi-monthly.
• ***Summary:*** Continues *Dietetic Foods Industry,* which started in about 1955 (but which is not listed in OCLC / WorldCat as of April 2011). Continued by *Health Products Business* (from Jan. 1999).

Murray, Frank; Tarr, Jon. 1984. *More than one slingshot: How the health food industry is changing America.* See p. 54. "In the [health food] trade, the magazines include *Health Foods Business* (formerly *Dietetic Foods Industry*), which began publishing in 1950; the publisher is Howard I. Wasserman and the editor is Alan Richman. Headquarters is in Elizabeth, New Jersey.

Talk with Howard Wasserman. 1992. Sept. He owns and runs the company, which he bought it in Nov. 1972. He changed the title from *Dietetic Foods Industry* to *Health Foods Business* in 1973. He thinks it was NEVER titled *Health Food Business.* The oldest back issue owned by the company is late 1973 (vol. 19). They claim to be the second oldest health food periodical and the oldest existing one. *Health Foods Retailing,* edited by Frank Murray, went out of business several years ago; it was published for at least 15 years. The magazine is now owned by Howmark Publishing Inc., located at 567 Morris Ave., Elizabeth, New Jersey 07208. Howard I. Wasserman, president. Phone: 908-353-7373.

HFB. 1992. Nov. p. 44. Net press run: Average number of copies printed of each issue during preceding 12 months: 12,593. Total paid or requested circulation: 9,815.

In about March 1994 Health Foods Business was acquired by PTN, a magazine publishing conglomerate located at 445 Broad Hollow Road, Melville, New York 11747.

Each year the November issue was the "Purchasing Guide" for the next year, e.g. "1984 Purchasing Guide published in Nov. 1983." Each guide was an industry directory. Soyfoods Center owns the 1984 and 1993 purchasing guides. The Library of Congress has most issues from 1977 to Dec. 1998. Address: 475 Park Avenue South, New York, New York.

2066. Lifshey, Earl. 1973. The housewares story: A history of the American housewares industry. Chicago, Illinois: National Housewares Manufacturers Association. 384 p. Illust. Index. 27 cm. [67 ref]

• ***Summary:*** A very interesting work, filled with hundreds or old and new, color and black and white photos–plus a few illustrations. The author has spent his life, since 1934, reporting on the subject of this book. He was commissioned to write it by the National Housewares Manufacturers Association (NHMA). Therefore most of what he says must be taken on the authority of his first-hand experience. A short, favorable history of each of the many companies in the Association can be found in the book.

In the chapter on "The electric age" is a section titled "The development of blenders"–which contains a great deal of important new historical information interspersed with questionable information (especially concerning the origin of the blender). It begins:

"Ask 'who is responsible for the blender' and the answer is likely to be 'Waring' or 'Fred Waring, the band leader. Although not correct, it's an undeniable fact that that the leader of 'The Pennsylvanians' financed the development and marketing of such a device, the 'Waring Blendor,' always spelled with an 'o.' And it is certain that the promotional efforts of his Waring Mixer Corporation (now the Waring Products Division of the Dynamics Corporation of America) did more than anything else in the early years did more than anything else in the early years to acquaint the public with the concept of such a unique device. Its inventor was Stephen J. Poplawski of Racine, Wisconsin. Since about 1915, Stephen J. Poplawski was engaged for over half a century in the design and manufacture of beverage mixers of various types." The next 4 paragraphs give a history of Mr. Poplawski's inventions, his statements about them, and his affiliations.

"In 1932 Poplawski joined the Greene Manufacturing Company of Racine [Wisconsin], which took over the production of his latest mixers (patents Nos. 1,937,184 [sic, 1,927,184, patented Sept. 1933] and 1,937,445 [sic, 1,934,445, patented Nov. 1933]). Sometime that year, he says, 'the mixer was used as a blender in the macerating of fruits and vegetables so as to reduce them to a fluid state.'"

Note 1. Did Mr. Lifshey deliberately give the wrong patent numbers for these two key patents? Did he wish to make it very difficult for anyone to examine these patents? Anyone who did examine the patents would see that they concern mixers (as for milkshakes and malted milk), not blenders. Moreover, they were not patented until late 1933, whereas "sometime that year" refers to 1932.

Mr. Lifshey continues: "Obviously the mixer was well on the way toward emerging as a blender–at least in the commercial soda fountain world–and Steven Poplawski made this unequivocal statement in his affidavit [in 1953, in connection with patent litigation]: 'I am convinced that the John Oster Manufacturing Company, as the successor business of the Greene Manufacturing Company, is justified in asserting that its blender is the "original blender..."'"

Note 2. In his "unequivocal statement," is Mr. Poplawski trying to give the manufacturer of his patented products a commercial boost, or is he trying to rewrite history, or both? It is clear from p. 274 that John Oster Mfg. Co. is a member of NHMA (which commissioned this book); yet a statement about Waring on the same page makes us wonder whether the more diversified Dynamic Corporation of America (now the owner of Waring products) is a member. However, a brief chronology of "the corporate activities of Waring" (p. 272-73) makes it look as if Mr. Lifshey is trying to treat Waring fairly. Unfortunately, nowhere in this book is there a disclosure of the names of companies that commissioned this book.

Note 3. After obtaining and studying all of Stephen Poplawski's early patents for mixers, Soyfoods Center believes that the first one which could reasonably be called a blender was issued on 8 Dec. 1942 (application filed 24 June 1940). We believe that Frederick Osius invented the blender, which Fred Waring commercialized with great success.

In an earlier section of this chapter, titled "From beaters to mixers" we are introduced (p. 265-66) to Fred Osius. The electric mixer and Horlick's Malted Milk both originated in Racine, Wisconsin. In "about 1887 William Horlick developed his new milk shake drink, while in 1910 a promotion-minded entrepreneur in Racine named Fred Osius founded the Hamilton Beach Manufacturing Company there." Actually the company was founded by Osius and two of his talented employees from an earlier vibrator company, Chester A. Beach and L.H. Hamilton. Their first product was an extremely successful high-speed, lightweight electric motor which could operate on either a.c. or d.c. electric current. In 1912 it was first used in home sewing machines and quickly revolutionized the industry. It was soon also used in commercial electric mixers for making "malteds" and milk shakes in soda fountains. Between 1920 and 1924 Hamilton Beach was sold by its 3 owners to Scovill Manufacturing Co. of Waterbury, Connecticut.

Let us return to the development of the electric blender. Lifshey continues (p. 271): "Meanwhile, Fred Osius, who in 1926 had moved to Florida and then back North during the depression, launched his own version of the blender. An acquaintance who saw a lot of him describes him as 'an aggressive optimist who seemed to smell risk money in an endless variety of unorthodox ways.'

"One of those whom he had already sold on investing money in his new venture was Ronnie Ames, a brother-in-law of Fred Waring's publicity man at the time. Why not approach Waring himself?" Continued. Address: Reporter and historian, home furnishings industry, Fort Lauderdale, Florida.

2067. Lifshey, Earl. 1973. The housewares story: A history of the American housewares industry (Continued–Document part II). Chicago, Illinois: National Housewares Manufacturers Association. 384 p. [67 ref]

• ***Summary:*** Continued from p. 271. "The band leader [Fred Waring] and his Pennsylvanians had just concluded one of their Ford radio broadcasts in Manhattan's Vanderbilt Theater [in New York City] one afternoon in the summer of 1936, when a Waring assistant informed him that 'A Mr. Fred Osius is waiting for you backstage; he says he has an appointment.'

"'Appointment' was stretching the word considerably... In fact, just to look at him, recalls one who happened to be there that day, revealed that he was 'different.' On this particular occasion, Osius was wearing striped trousers, a cutaway coat and a dark blue woolen shirt touched off by bright lemon-yellow tie. On someone else it might have looked ridiculous, but on him it just seemed to belong.

"He had brought with him a prototype of his brainchild and although it failed to function, his persuasive power did. By the time he had explained how it would revolutionize people's eating habits, he had sparked Waring's interest in backing it.

Note 1. Why does Mr. Lifshey consistently portray Fred Osius as a shady, bizarre character–while downplaying the fact that he invented and patented several of America's most important and successful electrical machines. It seems surprising that such an unusual and aggressive person, with a prototype blender that did not function, could convince such a smart and experienced businessman as Fred Waring to invest in such a device. Yet Waring was not duped; in 1948 this blender sold 215,000 units worth $8.1 million at retail.

"Six months and $25,000 later it was evident that, despite continued assurances to the contrary, Osius couldn't produce the working model he had promised. So in September 1936 Waring asked his associate, Ed Lee, to take it over. (Incidentally he is the same Ed Lee who later became General Manager of Chicago's McCormick Place [in Illinois].)"

"Lee found that three basic engineering problems had to be solved:" (1) Make a uniquely shaped glass container. (2) Develop a leak-proof bearing in the base of the container. (3) Perfect the flexible coupling between the motor drive shaft and the blade.

"All of them were solved in time to permit a presentation of this new 'Miracle Mixer' the following September 1937, at the National Restaurant Show in Chicago's Furniture Mart." Positioned as a new device "for making frozen daiquiris and similar drinks, it attracted tremendous interest and sold for $29.75."

Note 2. Mr. Lifshey fails to note that on 13 March 1937, 6 months before the machine's national debut, Fred Osius applied for his first and only U.S. patent on this "Disintegrating mixer." Neither Ed Lee nor Fred Waring are mentioned in the patent. Therefore, Osius must have played the major role in solving the engineering problems and making the blender work well enough to attract "tremendous interest." The U.S. patent (No. 2,109,501) was issued to Osius on 1 March 1938; it was not assigned to any company.

"Enthusiastic receptions for the newcomer followed at other trade shows and a national promotion program with Ron Rico Rum involving a coast-to-coast tour to popularize the drinks it could make proved to be 'spectacular.' By now it was being called the 'Waring Blendor'–spelled with a 'o' to distinguish it."

On 27 May 1938 the Waring Corporation was incorporated in Delaware to help promote the new appliance. "It contracted with Airway Electronic Appliance Corporation, a Toledo [Ohio] vacuum cleaner manufacturer, to produce the Blendor." Note: The first Waring machines were almost surely sold in late 1937.

Having made its reputation in bars and restaurants, the Waring organization began to eye the household consumer market. Before long the Blendor was being sold in leading department and specialty stores in major cities." Eventually a battery of 13 found their way into the Waldorf Astoria. There were demonstrations in famous stores such as Bloomingdale's and Wannamakers.

So well had the new 'Blendor'–sometimes also called "Waring-Go-Round" been accepted as a daiquiri device that it would take a while to educate consumers that it was as good in the kitchen as in the bar.

"It received unexpected and welcome support from a West Coast [Los Angeles, California] health food authority and lecturer, Martin Pretorius, who seized upon the new liquifier as a nutritional boon. He sold hundreds of them in the course of his lectures." His first major ad was published in Dec. 1937.

There follows a chronology of Waring's corporate activities from 1938 to 1956.

During World War II, blender production stopped. When it "resumed after the war the manufacturers discovered a curious thing: its image as a drink mixer had become so firmly established in the public's mind that it was difficult to get people to consider the blender for other uses." As a result, sales coasted along unimpressively.

A table (p. 270) shows sales of blenders for selected years from 1948 (the first year for which figures are available) to 1971. For each year is given the number of units sold, the retail dollar volume, and the retail price per unit. The number of blenders sold rose from 215,000 in 1948, to 225,000 in 1950, to 455,000 in 1960, to 1,800,000 in 1965, to 5,100,000 in 1970.

The remaining 2 pages of history concern subsequent innovations and developments. Waring led the way with "colored blenders in 1955; an ice crusher attachment in 1956; a coffee grinder attachment in 1957; a timing control

2070. **Product Name:** Fulkernal (all natural).
Manufacturer's Name: Baker's (Bill) Ojai Bakery.
Manufacturer's Address: Ojai, California. Phone: 646-1558 or 646-1950.
Date of Introduction: 1973?
Ingredients: Pumpernickel, white flour, rye flour, triticale, red wheat, white wheat, black rye, oats, corn, bran millet, sesame, sour culture yeast.
Wt/Vol., Packaging, Price: 1½ lbs.
How Stored: Refrigerated.
New Product–Documentation: Labels sent Colleen Kohnen of Tehachapi, California. Dated by Helen Vaughn. March 2006. At top of label: 'Established 1897.' At bottom of label: "Please keep refrigerated."

2071. Erhard, Darla. 1974. The new vegetarians. II. The Zen macrobiotic movement and other cults based on vegetarianism. *Nutrition Today* 9(1):20-27. Jan/Feb.
• ***Summary:*** This article is mainly a very critical assessment of the macrobiotic diet and movement introduced as a cure by George Ohsawa. It also discusses Sufi groups, the new Vrindaban International Society for Krishna Consciousness (founded in 1966 by his Divine Grace A.C. Bhaktivedanta Swami Prabhupada), and various vegan groups.

A pie chart on page 21 shows the various major food movements in the U.S. counterculture "and how they all lead to unscientific vegetarian forms of food faddism." Within the natural food movement are organic communes, Krishnas, vegans, Sufis, followers of the Ehret's mucusless diet healing system, and practitioners of Yoga. Within the health food movement are four major teachers: Paul C. Bragg, Herbert Shelton, Carleton Fredericks, and Adelle Davis. Within the "Cosmic Nutrition Movement" are Zen macrobiotics (yin/yang polarity), and the Messiah's Crusade (positive/negative polarity).

"Veganism is the philosophy and practice of compassionate living. Founded in England in 1944, the Vegan Society originally stressed the ethics of eating. The American Vegan Society, based in New Jersey, was founded in 1960 and is composed of individuals who are more health oriented. This Vegan philosophy was essentially based on Dr. Albert Schweitzer's concept of reverence for life, and Mahatma Gandhi's concept of Ahimsa, a Sanskrit term meaning non-killing and non-injury" [dynamic harmlessness] (p. 27). "Vegans who practice more restrictive diet interpretations may use Dr. Shelton's Food Combining System." Vegans and their children often use soya milk.

The reason is that the general natural foods movement is an example of unscientific food faddism is that the "Diet emphasizes natural and/or organic vegetables, fruits, legumes, grains, and usually dairy products, and restricts meat."

A sidebar briefly defines "Vegetarian terms" including amasake, miso, mochi, nirvana, tamari, tofu, and umeboshi.

Note: This is the earliest document seen (May 2002) concerning Sufism (or Islam) and Vegetarianism. Address: RD, MPH, Research Nutritionist, Clinical Study Center, San Francisco General Hospital, California.

2072. Snyder, Camilla. 1974. Gayelord Hauser: On the move at 80. *New York Times.* March 24. p. 64.
• ***Summary:*** Legendary Hauser is a friend of Greta Garbo–the "legendary woman of mystery." Hauser started his career in Chicago, Illinois, but eventually moved to Los Angeles and "soon became the film colony's darling." Since the early 1920s, he has been a health food evangelist. In the 1930s and 1940s he talked many in Hollywood "into living almost exclusively on health salads and vegetable cocktails." His books have sold about 40 million copies in many languages.

Nearly 80 years old, Hauser still reads without glasses, still swims several miles each morning at his hilltop estate overlooking Coldwater Canyon, and takes long walks each day.

Hauser met Garbo through diet. Over the years the two invested in property on Rodeo Drive in Los Angeles and constructed buildings well before costs skyrocketed. Hauser is now landlord of about 6 prestigious shops (such as Gucci and Hermes), and Garbo is landlord of several others. "But one thing is missing. Nowhere in their half-block of stores is there a health food shop."

An accomplished mimic, he described talks with Dr. Albert Schweitzer and Mahatma Gandhi. A large photo shows Hauser at his dining table.

2073. *Van Nuys News* (*California*). 1974. Calling all grads of class of 1924. March 31. p. 30-A, Central Valley edition.
• ***Summary:*** Members of the class of 1924 at Redondo Union High School will hold their 50th anniversary reunion on June 23 in Los Angeles. All graduates and their descendants will be welcomed at the event. "Planning to attend the event are... Paul C. Bragg, now in his 90s, who was the physical education teacher for the class."

Note: This is the 2nd article showing that in the early 1920s, Paul C. Bragg was in California, in the Los Angeles area.

2074. *Los Angeles Times.* 1974. Adelle Davis, health food expert, dies. June 1. p. C7.
• ***Summary:*** She died on Friday [May 31], at age 70, at her home in Palos Verdes Estates of bone cancer–which had been discovered about a year ago. She "emphasized that her disease did not change her theories about nutrition.

"Her books sold nearly 11 million copies and generated concern for balanced diets based on the organic and natural foods she ate while growing up on an Indiana farm.

A funeral service is scheduled for June 3 at the Church of Religious Science in Redondo Beach. She is survived by her husband, Frank Sieglinger, a son and a daughter.

2075. *New York Times.* 1974. Adelle Davis, nutritionist, best-selling author, dies. June 1. p. 32. Late City Ed.
• ***Summary:*** This fair and balanced obituary begins with a short summary: One of America's best-known authorities on nutrition, she died of bone cancer on 31 May 1974 at her home in Palos Verdes Estates, California–a Los Angeles suburb. In her four widely-read books, and her countless lectures and television appearances, she conveyed the message: "You are what you eat." A funeral service will be held Monday. She is survived by her husband, Frank Sieglinger (an attorney); a son, George Leisey, and a daughter, Mrs. Barbara Frodahl.

The majority of the obituary is titled "An outspoken believer," by Wolfgang Saxon, who calls her the "guru of lay nutritionists." Born and raised on a farm in Union Township, Indiana, she went away to college and ate what she called "junk" food until the 1950s. She attended Purdue University (Lafayette, Indiana), the University of Wisconsin, and the University of California at Berkeley, where she majored in dietetics, focusing on the study of vitamins. She then went to work as a dietitian at Bellevue Hospital in New York City, supervised nutrition in the Yonkers public schools, and in 1931 became a consulting nutritionist for 3 New York obstetricians. During that time she also wrote 2 small books and a textbook.

Later in the 1930s, she moved to California, married–and was subsequently divorced–and earned a master of science degree in biochemistry at the University of Southern California (USC). Here too she worked as a consultant nutritionist for California clinics and planned thousands of individual diets for people suffering from a wide variety of illnesses.

She was not surprised when consumerism and organically grown foods became popular in recent years, yet she viewed the proliferation of "health food" stores with a wary eye. She one said that many of them sell junk and make misstatements. She and her husband grew vegetables and fruit in their garden. She took many vitamin pills and brewer's yeast each day. Until recently, she was the picture of health, with glowing skin; she played tennis 5 times a week.

A photo shows Adelle Davis pouring something into an electric blender.

2076. Weil, Martin. 1974. Adelle Davis, diet advocate, dies. *Washington Post.* June 2. p. B6.
• ***Summary:*** The obituary begins "Adelle Davis, a controversial and widely followed prophet of the nation's new concern with diet and nutrition, died of bone cancer Friday at her home in Palos Verdes. She was 70." A guest on countless TV talk shows, she was outspoken in her belief that physical illness and many other problems could be traced to a poor diet. But her skeptics view her as "the priestess of a national health-food cult." She drew support from and also helped to generate the rising concern over environmental pollution and the harmful effects of certain chemicals, pesticides, and food additives. She seems to have "played a significant role in the development of the nation's billion dollar-a-year health food business."

She is survived by her husband, Frank Sieglinger (a retired accountant) whom she married in 1960; a son, George Leisey, and a daughter, Barbara Frodahl. Adelle's first marriage, to George Leisey, ended in 1953 in divorce. A large portrait photo shows Adelle Davis in her home near Los Angeles in 1972. Address: Staff writer.

© Copyright Soyinfo Center 2021

cold: Statement of American Academy of Pediatrics, Committee on Drugs. 32(Suppl.):39-40. July. [14 ref]
• ***Summary:*** Footnote: Reprinted from *Newsletter of the American Academy of Pediatrics,* 22: November 1, 1971. This article begins: "Enormous quantities of vitamin C are now being used by the public for the prophylaxis and cure of the common cold. This is largely the result of a recent book, *Vitamin C and the Common Cold,* written by Nobel-Prize winner, Linus Pauling (1). The book's chief virtue is that it questions some fundamental principles of nutrition which have gone unchallenged for years and have been based on the minimal daily requirements of a vitamin to prevent deficiency diseases. The scientific questions Dr. Pauling raises are provocative and should stimulate research in this area.

"The book also contains his personal recommendations on the quantities of ascorbic acid to be ingested daily to prevent or treat a common cold. These quantities range between 1 and 5 gm daily for prophylaxis and as much as 15 gm per day to treat a cold."

This article is written by pediatricians who are concerned that large doses of vitamin C are also being given to children, to whom it may be toxic.

At the end of the article, before the bibliographic references, is a list of the names of the many authors of this article, all medical doctors from the Committee on Drugs.

2086. Rynearson, Edward H. 1974. Americans love hogwash. *Nutrition Reviews* 32(Suppl.):1-14. July. [31 ref]
• ***Summary:*** This special supplement is titled "Nutrition misinformation and food faddism." The main editor is D.M. Hegsted, PhD, Professor of Nutrition, Schools of Medicine and Public Health, Harvard University, Boston, Massachusetts. Special guest editor of this supplement: Philip L. White, D.Sc., Secretary, Council on Foods and Nutrition, Director, Dep. of Foods and Nutrition, American Medical Association, Chicago, Illinois.

This article by Rynearson, the first in the supplement, contains an introduction followed by sections on: Adelle Davis ("almost the only 'health authority' among food faddists who possesses any formal professional background"). Vitamin E (the "list of conditions for which vitamin E has been recommended is limited only by one's imaginative powers"). Carlton Fredericks ("Probably second only to Adelle Davis in popularity as a dispenser of hogwash..."). The Adrenal Metabolic Research Society of the Hypoglycemia Foundation, Inc. (founded by John W. Tintera, M.D. The foundation believes that hypoglycemia is widespread), Jerome Rodale ("It is not surprising that the man who gave the term 'organic food' to the English language should be revered as the 'guru of the organic food cult.'"). Zen Macrobiotic Diets ("Without doubt... the most dangerous form of hogwash."). Discussion.

Note: This periodical is sponsored by the food processing industry. Address: M.D., Emeritus Prof. of Medicine, Mayo Clinic.

2087. Yaffe, Sumner J.; Filer, L.J. 1974. The use and abuse of vitamin A: Joint committee Statement of American Academy of Pediatrics, Committees on Drugs and Nutrition. Pediatrics, Committee on Drugs. *Nutrition Reviews* 32(Suppl.):41-43. July. [14 ref]
• ***Summary:*** Footnotes: Reprinted from *Pediatrics* 48:655. 1971. This article begins: "Vitamin A is an essential nutrient necessary for maintenance of normal epithelial tissue and for optimal growth (1, 2). Impaired dark adaptation and night blindness are well known manifestations of vitamin A deficiency. Although vitamin A is present in many foods, it cannot be assumed that all individuals receive adequate amounts. Preliminary reports from the recent 10-state nutrition survey* show that a significant proportion of the population has a low intake of vitamin A and low plasma vitamin A levels. Thus it would appear important to improve the diet of a considerable segment of the population or provide a vitamin A supplement for them."

The recommended daily allowances for infants and children are given.

There are many serious dangers of vitamin A toxicity due to excessive intake. Address: 1. Chairman, Committee on Drugs; 2. Chairman, Committee on Nutrition.

2088. Fisher, Emily. 1974. The vitamin bill. *Washington Post.* Aug. 23. p. B8.
• ***Summary:*** A senate health subcommittee, chaired by Sen. Edward M. Kennedy, is holding hearings on a senate bill of proposed FDA regulation of the sale of high potency vitamins, minerals, and food supplements.

Dr. Stephen Barrett, head of the Lehigh Valley (Pennsylvania) Committee against Health Fraud testified that "'Americans waste more than $1 billion a year on food supplements which they do not need.'"

The bill is opposed by the vitamin industry (with sales of $700 million a year) and health organizations such as the National Nutritional Foods Association (NNFA) and the Health Industries Institute.

"The dispute is over a bill by Sen. William Proxmire (D-Wis. [Democrat, Wisconsin]) and co-sponsored by 45 other senators, that would restrict the FDA in its attempt to classify as a drug any vitamin, mineral, or food supplement that contains more than 150 per cent of the federally recommended daily allowance for an individual."

Milton Bass, attorney for the NNFA, as accused the FDA of "bureaucratic paternalism" and an attempt to usurp the proper function of congress.

2089. Ralston Purina Co. 1974. Ralston Purina vignettes (News release). Checkerboard Square, St. Louis, MO 63188. 9 p. Dec.

© Copyright Soyinfo Center 2021

• ***Summary:*** Highlights from the history of Ralston Purina Co. In 1893 a financial panic gripped America. Having just graduated from Washington University in St. Louis, William H. Danforth was seeking to launch his career in some St. Louis business. Two church associates, George Robinson and William Andrews, suggested a business making horse and mule feed. In those days horses and mules ate only hay, corn, and oats. The two men convinced young Danforth to join them in the new feed manufacturing business. Thus in 1894 the Robinson-Danforth Company was formed with a capital of $12,000. "Cheaper than oats and safer than corn" was the slogan of their new product, which they mixed with shovels on the floor of a back room.

After 2 years the little feed business was thriving. They moved to new headquarters to Eighth and Gratiot in St. Louis, the present site of company headquarters. There milling machinery was installed. By March 1896 Will Danforth had become president of the company. On May 26 of that year, Andrews sold his share in the company to Will, making Will the majority stockholder. The next day, the mill was completely destroyed by the worst tornado in St. Louis history. Though Danforth had no collateral, Mr. Walker Will, president of a local bank, loaned him $25,000 to rebuild the mill at its former location.

In 1898, on a buying trip to Kansas, Danforth met a miller who had discovered a way to prevent cracked wheat from becoming rancid without removing the germ. Danforth, who was convinced that food had a big effect on health, packaged the miller's cracked wheat and sold it to St. Louis grocers under the name Purina Whole Wheat Cereal. The word Purina had been coined from the company slogan–"where purity is paramount." After only 4 years, the company had diversified into the food business.

"At the same time the fame of Dr. Everett Ralston's health ideas was spreading. Clubs of his followers boasted 800,000 members. In his book, "Life Building," he recommended a whole wheat cereal similar to Purina's product. Danforth approached Dr. Ralston, who agreed to endorse the Purina cereal provided it was renamed Ralston Wheat Cereal. The arrangement benefited both, and the name stuck. By 1902, the names Ralston and Purina had become so widely known that the name of the firm was changed to Ralston Purina Company." Also in 1902 the red and white checkerboard, once worn by every person in the Brown family that Will had known as a kid, became the company's trademark and logo. Since that time the Checkerboard trademark has been used with a consistency unique in American business. Even the company's headquarters in St. Louis is named Checkerboard Square.

By 1904, in time for the Louisiana Purchase Exposition in St. Louis, the company had added two new food products packaged in checkerboard bags: Purina Whole Wheat Flour and Purina Pancake Flour. Distributed to fair visitors, each of these products won first prize in its category–helping the young company to share the spotlight at the Exposition.

Wanting to do his part in World War I, Danforth left his burgeoning business in 1914 and went to France as YMCA secretary for the troops of the Third Army Division. "After noting the enthusiastic way soldiers responded to the word 'chow,' he replaced the word feed with 'Chow' on all Purina animal rations."

"While visiting England after the war, Danforth was introduced to a form of feed which contained several ingredients pressed into small cubes. In 1921, he tried the cube form in Purina Chows and the innovation caught on. Soon the entire American feed industry was manufacturing pellet-form feed. Danforth insisted on a distinctive name for his and 'Checkers' entered the Purina vocabulary."

In 1920 Will's son, Donald, joined the company. In 1926 he convinced his father to start an experimental farm for testing products. The company bought 300 acres of land at Gray Summit, Missouri, and research began. Not only feed, but management and sanitation experiments were conducted. Today the farm uses 820 acres and approximately 50,000 people tour it each year.

In 1950 set out to develop a dog food to be sold through grocery outlets. After successful test marketing, Purina Dog Chow entered national distribution in April 1957. "Advertising stressed the food's palatability with an Eager Eater theme. Gaines was then the total sales leader in dry dog foods. By December of that year, Purina had captured 14.8 per cent of the market. August, 1958, saw Dog Chow pass Gaines and become the nation's leading dry dog food, a position it has held ever since."

On 10 January 1962 company officials in New York were celebrating the listing of Ralston Purina stock on the New York Stock Exchange. But that afternoon "the worst disaster in Purina's history took place" when a "violent dust explosion followed by a fire demolished the St. Louis Chow manufacturing elevator. Two workers were killed and 25 were hospitalized with severe injuries. One fireman suffered a heart attack while battling the flames." It took 3 days to put out the fire. Fortunately the company's main office building nearby, which housed 1,000 employees, was not seriously damaged. Address: St. Louis, Missouri.

Letter from Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1974.

2093. **Product Name:** Sanitarium Health Foods Tender Bits (Vegetable Protein Bits).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, Sydney 2076, NSW, Australia.

Date of Introduction: 1974.
Ingredients: Wheat gluten, sauce [incl. soy sauce], onion, flour, vegetable oil, water added.
Wt/Vol., Packaging, Price: 430 gm can.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Letter and Label sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1974. "Soy sauce is the first ingredient in the sauce."

2094. **Product Name:** Sanitarium Health Foods Casserole Mince (Minced Vegetable Protein).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, Sydney 2076, NSW, Australia.
Date of Introduction: 1974.
Ingredients: Wheat gluten, flour, soya sauce, hydrolysed vegetable protein, sauce, water added.
How Stored: Shelf stable.
Nutrition: Per 110 gm (¼ can): Protein 16 gm.
New Product–Documentation: Letter and Label sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1974.

2095. Bragg, Paul C. 1974. The shocking truth about water:

© Copyright Soyinfo Center 2021

The universal fluid of death. Santa Ana, California: Health Science. xviii + 108 p. Illust. Forms. 21 cm. *
• ***Summary:*** Explains that fluoride is a poison. Also reprinted, with some new editions, in 1977, etc. Address: Burbank, California.

2096. Larson, Jeanne R.; McLin, Ruth. 1974. The vegetable protein and vegetarian cookbook. New York, NY: Arco Publishing Co. 216 p. Illust. Index. 24 cm. Reprinted in 1980.
• ***Summary:*** The authors may be Seventh-day Adventists since they make widespread use of "meatless meats" made by Loma Linda Food Co. and Worthington Foods, both Adventist-run companies. Pages 11-14 list these meatlike products in the following categories: 7 dry vegetable proteins to which liquid must be added, or which are used for seasonings: Granburger. Vitaburger. Meat loaf mix. Burger aid. Stripple zips. Baco-Bits. Gravy quik.

35 canned foods: Rediburger. Vegeburger. Chopletburger. Vegetarian burger. Madison burger. Non-meat balls. Prime burger. Vitaburger. Chili. Choplets. Cutlets. Skallops. "209." Vegesteaks. Dinner bits. Tender bits. Dinner cuts. Tastee cuts. Dinner rounds. Salisbury steak. Frysticks. Numete. Protose. Proteena. Nuteena. Vegechee. Vegelona. Wham. Beef slices. Chicken slices. Linketts. Little links. Big franks. Saucettes. Veja-links.

30 frozen foods (said to be by far the tastiest of the vegetarian meats): Beef slices, loaf, and cubes. Corned beef slices, loaf, and cubes. Smoked beef slices, loaf, and cubes. Beef pie. Chicken slices, roll, cubes. Chicken pie. Chickettes. Wham slices, roll, cubes. Prosage. Vegetarian fillets [fish alternatives]. Holiday roast. Salisbury steak. Stripples. Smoked turkey slices or loaf. Fri-pats. Soy-chee. Vegechee. Soycheeze. Lentils. Garbanzos. Boston style soybeans. Green soybeans [probably harvested dry rather than fresh]. Savorex. Tastex. Savita. Vegex. Chicken seasoning. Beef seasoning. Smokene. Baco-bits.

Soy-related recipes include: Soybean loaf (with cooked mashed soybeans, p. 39). Tofu loaf (p. 149; "Tofu can be obtained at Chinese food stores. If not, use canned soy cheese found in most health food stores"). Tender crisp vegetables (soybean sprouts, p. 197).

2097. Ojai Bakery. 1974? German pastry and bread (Order form for baked items with prices). Ojai, California. 1 p. Undated. 28 x 10 cm.
• ***Summary:*** Lists 28 baked goods and the price of each. Prices range from $0.22 for Tea cookie to $8.80 for German Koffee-cake. The average price is about $0.48. Interesting items include: Apple-cheese square ($0.48). Apple strudel ($0.40). Sugar cake ($0.71). Fulkernal [whole-grain] bread ($0.95). German rye bread ($0.75). Olympic bread ($0.75). Rum balls ($0.25).

Note: Neither soy nor lima beans nor wheat gluten are mentioned. Talk with Helen Vaughn. 2006. March 13. This price list originated after she and Harmon sold the bakery in 1973. Address: 457 East Ojai Ave., Ojai, California. Phone: 646-1558.

2098. Ojai Bakery. 1974? [Order forms for breads and cakes without prices]. Ojai, California. 2 p. Undated. 27 x 10 cm.
• ***Summary:*** These two order forms were used after Harmon and Helen Vaughn owned the bakery. One is for breads and the other for cakes. They seem to be designed for both wholesale and retail sales. Below the name, address, and phone numbers of the Ojai Bakery at the top of the form are three blank lines for the date, "Sold to," and "Address" of the buyer. Below that are 5 columns with the following headings: (1) Qty. [Quantity] ordered. (2) Breads [or Cakes]. (3) Price. (4) Qty. Rec. [Received]. (5) Total price (1 x 3). All the columns except (2) and (3) are blank. A bakery worker was expected to fill in the applicable blanks. The price of a loaf of bread averages $0.65 (range $0.19 for Poor Boys to $2.05 for Pic-A-Buns).

The names of the 35 breads, reading from top to bottom, are: Bran & grain. Gluten. L.S. [large sourdough] wheat. L.S. white. Ozark graham. Raisin-Cinnamon. Ranch 100% wheat. 7-grain. Sourdough rye round. Sour rye onion 1½#. Sourdough french 1½#. Soy bean. Stone ground. Wheat sandwich. White sandwich. Buns hamburger 1 doz. [dozen]. Buns hamburger 8 pk. [pack]. Buns hot dog 1 doz. Buns hot dog 8 pk. Rolls dinner 1 doz. Rolls sourdough. Stubbies. Black bread. Pic-a-buns. Wheels. Poor boys. Pull-a-parts. Eggbreads 1½#. Jewish rye. Pumpernickel. Eggbraid. Multi-bread. Bagels at 1 doz. Cheese bagels at 1 doz. Cinnamon bagels at 1 doz.

The price of a cake averages about $3.00 (range $0.30 for Spice–6 inch to $5.50 for Carrot–16 inch double [layer]). Names of the 32 cakes include: Chocolate (full sheet, 6 inch, 8 inch, 10 inch, 12 inch double, 14 inch, 16 inch double, 18 inch double). White (8 sizes). Spice (8 sizes). Carrot (8 sizes).

Talk with Helen Vaughn of Ojai. 2006. March 13. These order forms were used after she and Harmon sold the bakery in 1973. Address: 457 East Ojai Ave., Ojai, California. Phone: 646-1558 or 646-1950.

2099. *New York Times.* 1975. Supreme Court actions. Feb. 25. p. 16.
• ***Summary:*** "Declined to review a decision upholding the validity of regulations involving vitamin and mineral products promulgated by the Food and Drug Administration in 2973 (No. 74-574. National Nutritional Foods Association v. Food and Drug Administration)."

2100. *Wall Street Journal.* 1975. High Court leaves standing FDA rules for vitamin and mineral supplements. Feb. 25. p. 6.

© Copyright Soyinfo Center 2021

• ***Summary:*** A long, detailed analysis. "The FDA rules on vitamin and mineral supplements were adopted by the agency in July 1973."

"The regulations were challenged in court by such groups as the National Nutritional Foods Association and the National Association of Pharmaceutical Manufacturers."

For a variety of reasons, the FDA rules still haven't taken effect.

2101. *Wall Street Journal.* 1975. FDA to issue relaxed regulations soon for marketing of vitamins and minerals. March 13. p. 13.
• ***Summary:*** "The Food and Drug Association (FDA), acting under a court order, will soon unveil less stringent regulations on the marketing of vitamin and mineral food supplements."

"But the FDA still intends to clamp down on the vitamin trade in an order to avoid consumer confusion and deception."

The problem arose from the great consumer interest in using high doses of vitamin C. and vitamin E. FDA critics include the National Nutritional Foods Association (NNFA) and the National Health Federation.

2102. *Alpine Sun* (*Alpine, California*). 1975. Clarke Irvine dies: Former *Sun* publisher dead at 82. 24(12):1. March 20. Thursday.
• ***Summary:*** "Clarke Irvine, who founded and published *The Alpine Sun* from 1952 until 1973, died last Saturday [March 15] at 10:30 P.M. at the Spring Valley Convalescent Center." Irvine had been in ill health for the past 4 years after a stroke impaired his mobility and speech. His body was cremated and his ashes scattered at sea. No funeral services are planned. A good biography follows. "Born in Salem, Oregon on December 4, 1892, Irvine followed his father's journalistic instincts and worked as an office boy for the *Culver City Star-News* and *Venice Vanguard* at the age of 10.

"His father, Clare B. Irvine, moved from Salem to start the *Santa Monica Outlook* when Clarke was eight.

"In 1933 Irvine started *Let's Live* [titled *California Health News* in 1933], a diet and health magazine in Hollywood. He was a Warner Brothers publicity agent for 13 years and was Charlie Chaplin and Harold Lloyd's first publicity agent.

"Among his many accomplishments are publishing Hollywood's first film weekly, *The Screamer,* which later became *The Hollywood Daily Reporter,* and flying solo on New Year's Eve in 1957, 27 days after his 65th birthday.

"To escape the tensions of Hollywood life, Clarke and Alice Irvine began coming to Alpine in 1930, where they made their Tavern Road home a weekend retreat.

"In 1949 Mr. Irvine sold *Let's Live* and moved to Alpine, where in 1952 along with his wife Alice and twin daughters Cecile and Celeste began publishing *The Alpine Sun.*

"Mr. Irvine's survivors include a daughter Mrs. Cynthia McTaggert, of Medford, Oregon, two grand-children Scott and Julie McTaggert, Mrs. Ray Coulter of El Cajon [California], Cecile Irvine of Alpine, and his wife, Alice."

A photo shows Clark Irvine being congratulated by his flying instructor, Al Smith. Both are standing next to an airplane.

Talk with Dan Strehl, Head Librarian, Goldwin Hollywood Public Library. 2004. March 31. Dan can find no reference to a periodical titled *The Screamer.* A good book titled *The Hollywood Reporter: The Golden Years,* by T. Wilkerson and Marcia Borie (1984, New York: Cowaerd-McCann) states that it began publication on 3 Sept. 1930, published by William R. "Billy" Wilkerson of the Wilkerson Daily Corporation (Hollywood). It is still published daily. In the index, there is no reference to "Screamer" or "Irvine, Clarke" or "Hollywood Daily Reporter." The OCLC database has a record for *Hollywood Reporter* but none for *Hollywood Daily Reporter.* Therefore we are unable to verify the above story about Clarke Irvine publishing *The Screamer,* which later became *The Hollywood Daily Reporter.*

Letter from Janet Lorenz of the National Film Information Service, Herrick Library, Beverly Hills, California. 2004. May 7. She and their periodicals librarian ("who has an encyclopedic knowledge of the subject") and a former colleague who compiled and edited a book on the history of film journals can find no information on any sort of film journal or paper titled *The Screamer* or *Hollywood Daily Reporter* and no evidence that the *Hollywood Reporter* was ever published under that title. "If Irvine did publish something called The Screamer, it appears it was so obscure (perhaps self-published with tiny circulation) that it has been lost entirely."

2103. *Alpine Sun* (*Alpine, California*). 1975. The sunset of a publisher–Clarke Irvine. 24(13):1, 8-9. March 27.
• ***Summary:*** A nice obituary, supplementing the one in last week's issue of this newspaper. "Clarke Irvine left a deep imprint on the history of Alpine." He knew the "great and near great of Hollywood." "By 1913 he was an L.A. correspondent for the moving picture world. He published Hollywood's first film weekly, *The Screamer,* which later became the *Hollywood Daily Reporter.*

"Following World War I when he served in the Navy, Irvine returned to Hollywood where he headed publicity offices for Willis & Inglis, Goldwyn, Maurice Tourneur and a free lance publicity office."

He and Alice Irvine were married in 1946 in Las Vegas. At age 65 he learned to fly an airplane. From Alpine, he also made two radio broadcasts a week called "Early Days in Hollywood" on radio XEMO. The program was taped in a trailer left over from his old days in Hollywood which he had brought to his home on Tavern Road.

Photos show: (1) Clarke Irvine in his earlier years

© Copyright Soyinfo Center 2021

talking with two actors in front of a fireplace. (2) Clarke and his wife, Alice, standing by a printing press. (3) Clarke sitting in his jeep with a sign reading "Press Car" on the windshield; he has a white beard and is wearing a black beret.

2104. *Alpine Sun* (*Alpine, California*). 1975. Opinions: Clarke Irvine. 24(13):10. March 27.
• ***Summary:*** "The death of Clarke Irvine, a week ago Saturday, brings to an end the life of one of Alpine's most colorful and historic citizens." He was a printer's devil, publicity agent, publisher, and pilot. His passing was a blessing, for his life was never the same after the crippling stroke which struck him down 4 years ago [sic, more than 5 years ago, in Dec. 1969].

At the age of 38 [ca. 1930] he began visiting Alpine on weekends to get away from the stress of Hollywood. Twenty years later [in 1949] Clarke and Alice Irvine moved to Alpine permanently to retire and raise a family. Three years later, in 1952, in addition to raising a 5-year old daughter and twins they also became the parents of *The Alpine Sun.* From the earliest issues of the Sun one can see that Clarke was not timid about expressing his opinions on matters of importance to the community–schools, the fire department, the need for a bakery, a veterinarian, better sources of water and sewage treatment–some still vital issues today.

Note: The present (1975) publisher-editor is Fred Teckemeyer.

2105. Hewitt, Jean. 1975. A health food store with a flair. *New York Times.* April 5. p. 22.
• ***Summary:*** This store is the Olde Grain Mill at 1494 Third Avenue, between 84th and 85th Streets, in New York City. It opened about 5 months ago. The prices are lower than those of most health food stores because of the store's buying methods, says Anthony Rotondo, one of the partners. "Mr. Rotondo said the younger customers buy mung beans, alfalfa and flax seeds to sprout, azuki beans for Zen macrobiotic diets, and lots of steel cut oats, wheat and rye flakes and Monnuka raisins for making granola. The store also carried Good Shepherd and a non-name brand of ready-to-eat granola..." It also offers various breads, including gluten and Cornell breads.

2106. Hunt, Ridgely. 1975. Health food industry is commercially hale and hearty. *Chicago Tribune.* April 7. p. E7, E8.
• ***Summary:*** "The health food industry is under siege–by state and federal regulatory agencies, by the American Medical Association, and often by the media." It is ridiculed by TV programs and condemned by some scientific publications. Now the FDA is trying to cripple it.

"Its only defenders are its customers–13 million Americans, according to J.D. Power & Associates of Los Angeles [California], which recently completed one of the few marketing studies ever conducted in the health food industry."

The National Nutritional Foods Association, the industry's trade organization, says that it is unaware of the exact size of the industry because it does not have the resources to gather statistics.

Aaron Solomon, president of Health Foods Inc., a distributor based in Des Plaines, Illinois, estimated that industry-wide sales are about $100-150 million–much less than the $1 billion figure that some people estimate.

Describes a typical health food store and the food products and books it carries.

The FDA has proposed a drastic curb on the sales of vitamin products. The health food industry, fighting back, asks why the FDA "doesn't restrict the sale of aspirin, alcohol, tobacco, and sleeping pills instead."

2107. Koga, Dave. 1975. Nonagenarian has lots to 'Bragg' about. *Honolulu Star-Bulletin* (*Hawaii*). May 6. p. B-3.
• ***Summary:*** Most top-class swimmers are ready to retire by age 24; but Duke Kahanamoku last swam in the Olympic Games [on the U.S. Water Polo team] when he was over the age of 40.

Last Sunday morning the Waikiki Swim Club–competing under the auspices of the AAU–held its "25 and over" meet at the University of Hawaii pool. Paul Bragg entered the breaststroke, won, and set a national age group record. At age 94 (the age he gives) he became the oldest person to ever swim competitively in an AAU-sanctioned meet. He was also the only person who entered the race.

Bragg says he was a frail and sickly child given up for dead at age 14 after he contracted tuberculosis. But he bounced back. Bragg attributes his present good health to constant activity (swimming, tennis) plus lots of sunshine.

Bragg claims to have been "a wrestler on two U.S. Olympic teams, and a veteran of 'all the major battles of World War I.'"

Note: On his 1917 draft registration card, Bragg specifically asked for an exemption from service in that war on the grounds that he had a "dependent wife," which was one of the 4-5 exemptions allowed.

Today he claims to be a expert on nutrition and physical fitness, a practicing osteopath, a lecturer world-wide, and the author of more than 100 books on health, nutrition, and fitness.

Bragg says he played tennis with Teddy Roosevelt. He once counseled young movie stars. He claims his prize pupil to be Gloria Swanson, whom he first met when she was age 15 and "straight out of Mack Sinnett and silent films." He's done everything and met everyone, even had philosophical talks with Mahatma Gandhi. His motto: "Rest is rust." He eats good food and gets lots of exercise in the form of 1-5 miles of jogging a day and many hundreds of yards churning

© Copyright Soyinfo Center 2021

through the tropical sea waters off Waikiki Beach.

Next, he would love to travel to the moon. Watch out NASA.

Photos show Bragg: (1) Swimming freestyle. (2) Climbing out of a swimming pool, smiling, using the metal handrails and steps. Address: Star-Bulletin writer.

2108. Roberts, Anthony K. 1975. Dr. Paul Bragg, 94, turns the actuarial tables: 'I have an ageless, tireless, painless body.' *People Weekly.* Aug. 11. p. 45-47.

• ***Summary:*** Bragg says he was born in 1881 in Fairfax Co., Virginia. He eats only organic foods, drinks distilled water and goats' milk, fasts regularly, avoids salt, and gets plenty of exercise daily. He was hospitalized at age 16 with tuberculosis and was left to die. Says he went to Switzerland, where Dr. August Rollier cured him with nothing but sunshine, exercise, and natural foods. He vowed at the time that if he was saved, he would devote his life to helping others to be healthy. In 1914, Dr. Rollier died at age 89; that same year "Bragg opened a health food store in New York City, the first in the U.S. [sic].

Note: Dr. Auguste Rollier died on 30 Oct. 1954 at age 80, not in 1914 at age 89 as Bragg claims (Our source: *British Medical Journal*, 1954. Nov. 13. p. 1169. Obituary: Auguste Rollier, M.D.).

By then Bragg says he had acquired a Ph.D. in science and a doctorate in nutrition, and had wrestled for the U.S. in the 1908 and 1912 Olympics."

He has been a widower for 35 years, the father of five, grandfather of 12 and great-grandfather of 14. He says Patricia is his daughter. He divides his time between Hawaii and his home in Desert Hot Springs, California. While in Hawaii, he conducts two-hour calisthenics lessons, six days a week on Waikiki Beach, free of charge.

"Over the years, Bragg has accumulated an impressive band of kindred souls including Clint Eastwood [the famous movie actor, director, and producer], Muhammad Ali, Bernarr Macfadden, Mahatma Gandhi and the late J.C. Penny... The well-preserved Gloria Swanson, 76, sometimes accompanies the health guru on the lecture circuit as a living example of his dietary admonitions and exercise. Health spa tycoon Jack LaLanne, age 60 and still rippling with muscles, says he owes everything to the nonagenarian naturopath." Hotelman Conrad Hilton, age 87, says he wouldn't be alive without Bragg. Bragg fondly remembers President Teddy Roosevelt as one of his best students; they used to break the ice on the Potomac River and go swimming together.

Photos show: (1) A happy, healthy, tanned Bragg emerging from his swimming pool. "To rest is to rust," he says. (2) Paul Bragg chomping a raw onion in his California garden. (3) Horsing around with Jack LaLanne. (4) Milking a goat. (4) Patricia Bragg standing on Paul Bragg's stomach.

Note 1. According to the *Encyclopedia of American Wrestling*, by Mike Chapman: The 1908 Olympic Wrestling Team, which competed in London that year, all 'free-style,' consisted of six men: George N. Mehnert (Gold medal); George S. Dole (Gold); and John H. Krug, John Craige, Frank Narganes, and Lee J. Talbot, the latter four eliminated in the second round.

And the 1912 U.S. Wrestling Team, which competed in Stockholm, Sweden, consisted of only two members that year, both wrestling 'Greco-Roman style,' namely William J. Lyshon & George W. Retzer, Jr., both eliminated in their second rounds.

Note 2. This is the earliest document seen (July 2021) stating that Paul Bragg has a home in Desert Hot Springs, which is located about 100 miles west of Los Angeles and about 10 miles north of Palm Springs.

2109. *NHK Kyo no Ryori* (*Tokyo, Japan*). 1975. Jiman ryôri: Biru Shurutorefu. Tôfu [Recipes I am proud of: Bill Shurtleff and tofu]. Oct. 1. p. 84-85. [Jap]

• ***Summary:*** This magazine is published by Japan's largest and most popular television station, NHK public TV. The contents are taken from NHK-TV programs. This one shows Bill Shurtleff and Akiko Aoyagi teaching Japanese how to make tofu at home. Black-and-white photos show: (1) Shurtleff, wearing an apron, ladling soymilk curds from a metal pot into a cloth-lined forming box (tofu kit). (2) Pouring soaked soybeans into a blender. (3) Straining the soymilk from the fiber. (4) Ganmodoki salad with tofu mayonnaise. (5) Ganmo burger sandwich. (6) Shurtleff and Aoyagi, seated cross-legged on tatami mats, with a large meal prepared in front of them.

2110. *Oakland Tribune.* 1975. Television today: Highlights. Nov. 18. p. 16, col. 8.

• ***Summary:*** "Merv Griffin [show]–Dr. Carlton Fredericks, Ivan Popov, S. Marshall Pram, Harold W. Harper, and Paul Bragg are the guests. Channel 36. 10 p.m."

2111. Lambert, Pat. 1975. Classes to demonstrate cooking with tofu. *Contra Costa Times* (*Walnut Creek, California*). Nov. 28. p. 13.

• ***Summary:*** "William Shurtleff and Akiko Aoyagi, co-authors of 'The Book of Tofu,' will present two demonstrations next week on creative ways to serve tofu (soybean curd) and miso (fermented soybean paste).

"The first will be Dec. 2 from 7:30 to 9:30 p.m. at 790 Los Palos Manor, Lafayette [the Shurtleff's home], and the second, held under the auspices of the American Nutrition Society is dated for Dec. 4. Registration for the Dec. 2 presentation is $1. For reservations call 283-2991.

"The Dec. 4. presentation will be at 8 p.m. in the multi-purpose room of Acalanes High School, Lafayette. There is a $1.50 fee for adults and 50 cents for students...

"'Tofu contains no cholesterol and little saturated fats,' says Sandy Hills, president of the society's Northern

© Copyright Soyinfo Center 2021

California chapter... Tofu can be purchased at most health food stores for approximately 39 cents per pound but, according to Shurtleff, tofu has a more delightful flavor when prepared at home." Three black-and-white photos (by Eric Rahkonen of the Times) show Shurtleff and Aoyagi making tofu in the Shurtleff family kitchen at 790 Los Palos Dr., Lafayette, California: (1) Pressing the curds in a cloth-lined forming box. (2) Pureeing soaked soybeans with water in a blender. (3) Holding a large cake of tofu on a plate.

2112. **Product Name:** El Molino Carob Coated Soynuts.
Manufacturer's Name: El Molino Mills.

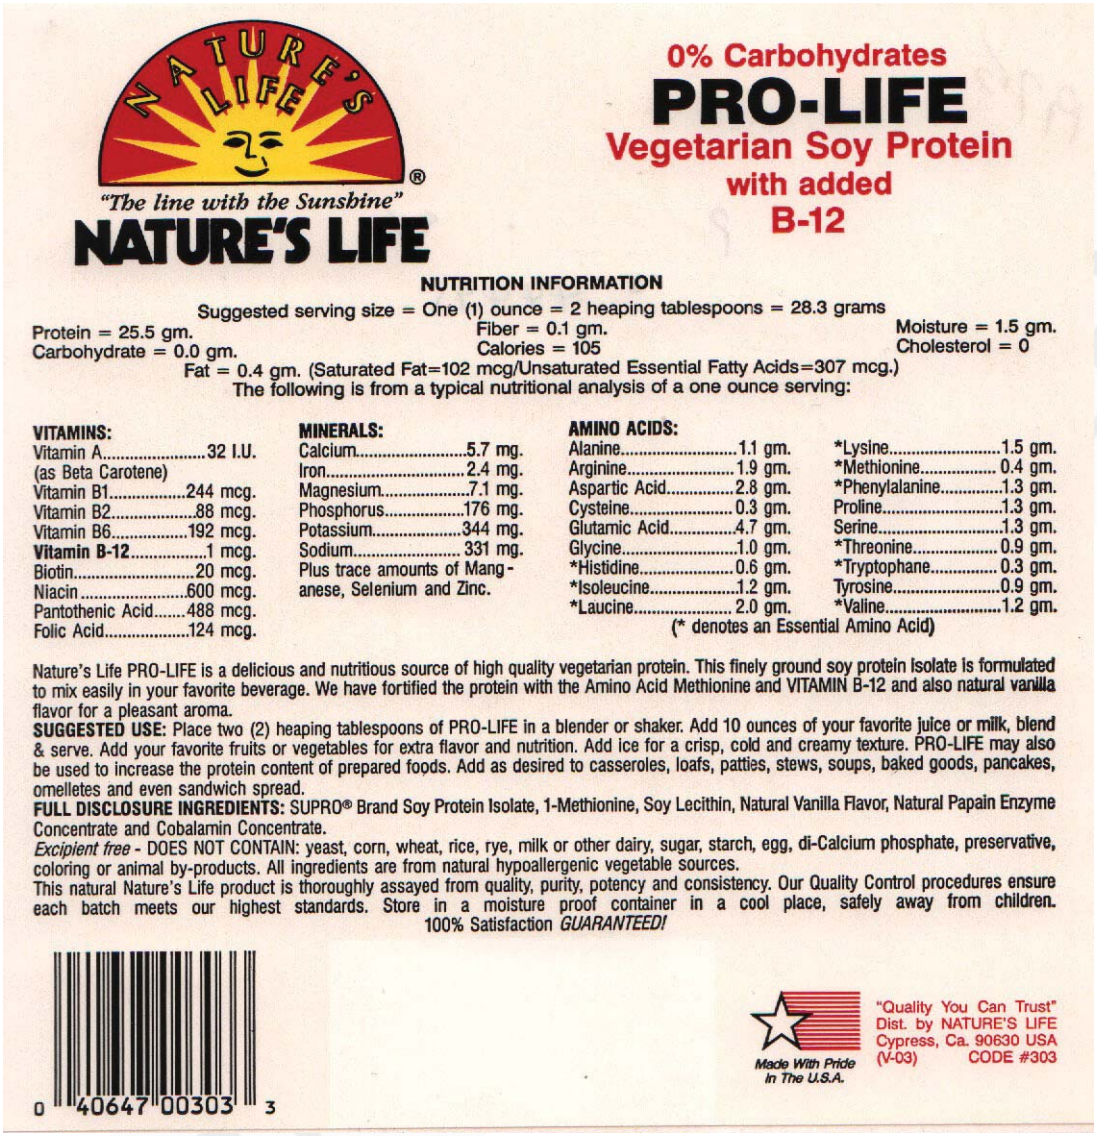
• ***Summary:*** This catalog, largely printed by a computer, contains many ads on unnumbered pages. Contents: Hi! Ordering and service information. Bulk: Whole grains, beans, seeds and nuts, dried fruit, nut butters, etc. Refrigerated and frozen ("Frozen meats {beef}–No DES, steroids, female hormones, antibiotics, or stimulants used in feeding; Chickens–No hormones & antibiotics. Ask for turkeys and hens during Thanksgiving." "Frozen soy products: soy milk and tofu soybean curd"). Books. Packaged (by company and product category). Index by product. Index by manufacturer.

"We are happy to announce that Midwest and Mountain High are now one entity... We go into the fall and winter seasons with a fall and winter catalog, delivery schedule, and computer system." For new developments, watch the monthly newsletter and sale sheets. "Your Friends at Midwest."



Includes the following ads (the number is that of the facing page). Wheat Stalk Soya Burger (Cotati, California, p. 17). Arrowhead Mills (p. 27). Dr. Bronner's Magic Soap (p. 32). Chico-San (p. 35). Erewhon (p. 41, incl. "Trail Mix, Niks"). Fearn Soya Foods (p. 42; shows a package of Fearn Soy/o Buckwheat Pancake Mix). Flavor Tree–Pernut soy beans (p. 42). Hain (p. 49, "Cold pressed safflower oil," mayonnaise, and margarine). Health Main (p. 54; soy is not mentioned–only natural potato chips and yogurt dressing & dip). Infinity Herbal Products Ltd. (p. 56). Malt-O-Meal–Soy Town (dry roasted soy beans, p. 60). NF Factors (Lafayette, Calif., p. 67. A photo shows a can of Protesoy). Pure & Simple (p. 72, 795 West Hedding St., San Jose, California 95126; mainly fruits, fruit juices, fruit butters, vinegars). Sovex (p. 83-84. "The fastest selling natural cereal line on the market... Here's the one that started it all, the original Crunchy Granola"). Viobin (wheat germ oil, p. 85F, 89). Tiger's Milk Products (p. 86).

Companies whose products are listed with ads include: Back to Nature (granola, p. 28). Country Natural (granola, p. 36). El Molino (p. 38-39; incl. Cara Coa Crunch Bar, Carob Fruit & Nut Bar, Carob Mint Candy, Chia Seeds, Flaxseed–Whole, Pumpkin seeds, Soybeans–whole, Soya flour, Soya grits, Carob Coated Soybeans). Ener-G-Foods–Jolly Joan (incl. Instant Soy Milk Powder, Wheat & Soy P&W [Pancake & Waffle] Mix {regular and low salt}, p. 39). Flavor Tree (Pernola cereal, Pernut soy beans–salted, cinnamon, salt free, garlic, Pernut toasted soybeans–salted, salt free, garlic, onion). Wok sets in gift box, Quaker City grain grinder, Corona hand mill (p. 58). Lassen Foods (granola, p. 60, 60F). Mac Knives (p. 60). Orjene (p. 70-71). Parkelp–Ocean Labs (p. 71, incl. Sea Zun).

The Chico-San Inc. ½-page ad (facing p. 35) features four products; a photo of each is given and each is K-Parve: Rice Cake San-Wich (filled with sesame seeds and Yinnies Rice Syrup). Yinnies Rice Syrup (natural sweetener, made from rice and barley). Yinnies (traditional oriental confection, wrapped like individual candies). Rice Cakes in 4 varieties: Salted or Unsalted, Rice Cakes with Millet–Salted. Rice Cakes with Buckwheat–Salted. "Other Chico-San Products: Organically grown brown rice. Lima soy sauce, miso (soybean puree), rice malt vinegar, sesame butter, sesame oil, nigari, barley koji, tekka, sesame salt, sea salt, salt plums, kuzu, organic rice cream, organic rice flour, black soybeans, azuki beans, sea vegetables, mu tea, lotus root tea, twig tea, toothpowder, seaweed shampoo." Address: Ann Arbor, Michigan 48107. Phone: 313-769-8444 or in Area 313 1-800-552-6297.

2114. **Product Name:** Nature's Life Protein 95: Vegetarian Soy Protein.
Manufacturer's Name: M.K. Health Food Distributors Inc. (Product Developer-Distributor).
Manufacturer's Address: 6703 International Ave., Cypress, CA 90630.
Date of Introduction: 1975.
Ingredients: 1993: Supro brand soy protein isolate, L-methionine, soy lecithin, natural vanilla flavor, natural papain enzyme concentrate.
How Stored: Shelf stable.
New Product–Documentation: Label with date of introduction written on back, sent by Nature's Life. 1994. Jan. 13. 6 inches square. Self adhesive. Black, red, and yellow on white. The Nature's Life logo is a smiling, rayed yellow sun in a semi-circle with a red background. Underneath it is written "The Line with the Sunshine." Label

my favorite food for breakfast–and I've tried them all. I mix several tablespoons of this powder with organic apple juice. It is easy to digest and I feel full all morning. I think it is the food of the future."

2116. Barkas, Janet. 1975. Meatless cooking: Celebrity style. New York, NY: Grove Press. Distributed by Random House. vii + 280 p. Illust. by Simms Taback. Index. 24 cm.
• ***Summary:*** A vegetarian cookbook containing the favorite recipes of celebrities. Page 97 gives a recipe for Vegetable Soup with Protein (organically grown; soybeans are an optional ingredient), a favorite of Gerry and Dennis Weaver. Dennis is a TV star and his wife, Gerry, runs a health food store (The Good Life) in Encino, California.

Page 127 gives a recipe for Soybean Casserole, a favorite of Rodney Dangerfield, a comedian. In the "Food Dictionary" page 274 states: "Soy sauce. Known also as tamari, this condiment is made from soybeans."

2117. Benjamin, Alice; Corrigan, Harriett. 1975. Cooking with conscience: a book for people concerned about world hunger. 52 simple, healthful meals based on vegetable protein, milk and eggs. Norton, Connecticut: Vineyard Books. 94 p. Illust. by Ann Gibb. Index. 23 cm. [14 ref]
• ***Summary:*** Contents: Table of menus. Acknowledgments ("In particular we would like to thank the 52 volunteer cooks and their families and friends who tested our recipes. Most, but not all, were members of the St. Luke's Church, Darien, Connecticut." Their names are listed). Introduction ("We can eat less grain-fed meat"). What this book is–and is not (it owes much to *Diet for a Small Planet*, by Frances Moore Lappe). Understanding vegetable protein. Please read before cooking. Breakfast, lunch & leftovers. Useful cookbooks. Growing your own. Sources of unusual ingredients (Walnut Acres, El Molino Mills, Erewhon Trading Company, Inc. They carry soy grits).

Soy beans are discussed briefly on page 21: "Very broad claims have been made lately about the protein value of soy beans. We agree that they are very high in protein and contain all of the essential amino acids. But soy beans alone are not sufficiently high in all of the essential eight [amino acids] to provide a nutritionally sound and economical source of protein [sic]. This could be remedied in cooking by using smaller amounts of soy beans (than other legumes) in proportion to grains, etc., if the culinary problem did not arise. We are just unused to large plates of rice with a few beans.

"There is an easy solution to this problem, but we believe that it lies largely in the domain of the food industry. The meat extenders & textured vegetable proteins now on the market are usually produced from soy. Or if they contain other protein ingredients to make them a better substitute for meat than soy alone, they do not adequately explain this to the consumer. Soy flour is more easily used by cooks & in commercial products, but again, consumer education is lacking."

Recipes that mention soy: Chinese sweet & sour (p. 34, with soy sauce). Sausage patties without meat (p. 64, with soy grits). Address: Darien, Connecticut.

2118. Bragg, Paul; Bragg, Patricia. 1975. Hi-protein meatless health recipes: With history and reasons. Desert Hot Springs, California: Health Science. 184 p. Illust. No index. 21 cm.
• ***Summary:*** A vegetarian cookbook. Whereas Paul Bragg used to advocate moderate amounts of meat and fish in the diet, he now advocates a meatless / vegetarian diet. These recipes are free of salt and sugar. On the cover the word "Meatless" appears in large bold letters.

Contents: Total health for the total person. Food for thought (sayings). Introduction, by Patricia Bragg (p. 1-9. Strongly advocates a vegetarian diet. Your health food store can substitute for your meat market. Cured meats may cause cancer. Animal fats can be harmful. Vegetarian gourmet cookery). Abundant protein without meat: An arduous journey without meat (Guatemala), health and vitality in Africa's Atlas Mountains [Berbers in Morocco, Algeria, and Tunisia], Arab vegetarians in the Sahara desert, India produces many strong people on a vegetarian diet (incl. Gandhi, yogis. Paul was Gandhi's friend, and they hiked together over miles of hot, dusty roads in India), 175 years of vegetarianism in England (George Bernard Shaw, Bragg's personal friend, lived into his 90s), great vegetarians of the past, fruitarians–a type of vegetarianism, vegans–another type of vegetarian, lacto-vegetarians–the most popular type, vegetarians excel as athletes, degenerative diseases in an affluent society, animal proteins and fats connected with cancer, our malnourished youth, young people are awakening to the importance of good nutrition, a meatless diet must avoid protein deficiency, human individuality, 300,000 retardants born each year in the U.S., how to solve your nutritional problems, how much protein does the body need, protein-hungry hair, sprouts a tremendous source of vegetable protein (incl. soybean sprouts), you must have all the amino acids, vegetarian foods that are rich in amino acids (incl. peanuts, soy beans), B-12 supplement essential in vegetarian diet (soy beans have traces), raw fresh wheat germ also essential in a vegetarian diet, how I discovered the nutritional value of raw wheat germ, combine good nutrition with exercise, brewer's yeast as a vegetable protein–plus, buckwheat leads all grains in protein, buckwheat also rich in minerals and vitamins, here's how to serve buckwheat, use no salt!–its harmful, herbs and garlic add nutrition plus beautiful flavors, the Chinese Restaurant Syndrome, no nutritional value in MSG, Bragg Liquid Aminos (ad, p. 44; many of the recipes in this book call for Bragg Aminos).

Mushrooms an ancient nutritional delicacy. Mushrooms and mushroom recipes. Sesame seeds and recipes. Tahini and recipes. Hulled millet and recipes. Barley and recipe.

© Copyright Soyinfo Center 2021

Chinese yogurt or tofu (and 4 recipes). Suggestions for using Bragg Liquid Aminos (ad, p. 66).

Note: This is the earliest document seen (Aug. 2011) that contains the term "Bragg Liquid Aminos." Mexico gives us delicious meatless protein dishes. History of corn. Soybeans. Appetizers. Salads and dressings. Soups important in vegetarian diet. Vegetables. Casseroles. Entrees (incl. Soybean loaf). Egg and cheese dishes. Health beverages. Pineapple holds the secret of protein-digesting enzymes (smoothie recipes). Breads and grains. Sandwiches and fillings. Spreads. Health desserts (incl. Zesty protein confection {with 2/3 cup soy powder [protein isolate]}). Hi-protein carob brownies (with ½ cup soybean powder).

The Bragg travel diet (he takes along his own meatless food). Sickness is expensive (between 1950 and 1979, medical costs in the USA increased 1,568%). Very little money spent on preventive medicine. "Getting old"–True or false? (False, no part of the human body is more than 7 years old, and our blood is replaced every 90 days). When you are healthy–you are happy! Individuals can extend their lives by natural living (examples of Vilcabamba in Ecuador, the Hunza in West Pakistan, and people in the highlands of the Soviet Caucasus; all eat very little meat). Natural diet and exercise the secret of agelessness. Exercise improves circulation to all parts of the body. Why should man die? Man is not originally carnivorous (physiology and anatomy of the human body). The meatless way of eating is simple. What is a balanced diet? Easy method to balance your nutrition. Modern nutrition confuses even so-called experts (but is basically simple. Paul was "born and reared on a large farm in Virginia." They grew practically all their own foods and had their own gristmill). Health is easiest and safest way. Your body is your closest companion (Be careful about what you eat. The greatest thing in life is energy). Our personal message to you. Protein research data. Protein and calorie counter (a table showing calories, protein, and usable protein for many basic foods). Life's greatest treasure is radiant health. Your health food store: The specialist that is different (list incl. 3 Bragg products). Let your health food store be your meatless butcher shop. Food for thought (p. 182-84; quotations, most have the author given). From the authors ("This book was written for You... We Professional Nutritionists join hands in one common objective... Scientific Nutrition points the way–Nature's Way–the only lasting way to build a body free of degenerative diseases and premature aging..."). My favorite recipes (mostly blank page).

Advertisements: (1) Send for important free health bulletins. (2) Bragg live longer, live stronger self-improvement library (list of 25 books by Bragg, with prices).

From the authors. Brief biography of Patricia Bragg (on unnumbered page at end of book), Ph.D., Nutritionist, beauty and health consultant. Advisor to world leaders, glamorous Hollywood stars, singers, dancers, athletes. Lecturer and author (She says she is the daughter of Paul C. Bragg. An accomplished musician, dancer, tennis player, swimmer, and mountain climber. The youngest woman to ever have been granted a U.S. patent. Graduate of the University of California. Lists her famous clients).

The section on "Chinese yogurt or tofu" (p. 61-65) notes that many years ago, while Bragg was an associate editor of Bernarr MacFadden's famous *Physical Culture* Magazine, he "made one of the greatest nutritional discoveries" of his life. Macfadden asked Bragg to travel to Manchuria, a long and arduous trip, to study these people well known for their tremendous vitality, energy and health. He was well rewarded, for there he "discovered the magic of the soybean, the most potent of vegetable high-protein foods." He found that Manchurians eat low on the food chain, make soy milk and tofu. Tofu is sold in food stores throughout Hawaii, where he lives. Tofu is related [sic, unrelated] to spun soy protein. He gives recipes for: Chop suey with tofu. Vegetable casseroles using tofu. Tofu casserole supreme. Tofu & scrambled eggs.

The section titled "Soybeans" (p. 73-81) has the following contents: Herbs to savor soybeans (21 herbs). Soybeans (introduction). How to make soybean sprouts. Soybean recipes. Green soybeans. How to cook dried soybeans. Method for cooking beans. Soy milk. Soybean cheese (made by allowing soy milk to curdle in a warm place, without using a coagulant). Soybean casserole. Soybean and vegetable stew. Sauteed soybean sprouts and onions. Boston baked soybeans. Stuffed peppers with soybeans. Soybean sprouts en casserole. Soybean-rice loaf. Baked soybean croquettes. Soybean patties with tomato sauce. Soybean loaf (with soybean pulp [ground, cooked soybeans]). Stuffed soybean peppers.

• ***Summary:*** Keiichi Shimizu was born in 1907.

2120. *Desert Sentinel* (*Desert Hot Springs, California*). 1976. Stabbing, bike crash keep officers busy [Police blotter]. March 25. p. 1, col. 6.
• ***Summary:*** "The gun case Saturday, March 20, is a rather strange and complex one, according to a sheriff's sergeant in Indio. A 22-year old suspect, James Gilroy, was arrested at Hayden's Restaurant after he apparently sought through notes to speak with Dr. Patricia Bragg of the Live Health Food Products Co.

"On his person were two handguns valued at $100 and reportedly stolen from Dr. Bragg's home at 66298 Eighth St., Desert Hot Springs. Dr. Bragg told deputies Gilroy was an ex-employee of her company and must have entered her residence illegally.

"She was at the restaurant celebrating the 75th birthday of a friend and customer of hers when the strange incident began unfolding. She reportedly flagged down a squad car to report Gilroy's actions."

2121. Bragg, Patricia. 1976. Says sheriff's report wrong (Letter to the editor). *Desert Sentinel* (*Desert Hot Springs, California*). April 1. p. 2, cols. 4-5.
• ***Summary:*** "I wish to clarify a misunderstanding about an incident you reported in last week's paper that occurred in Hayden's Restaurant, March 20., between James Gilroy and myself.

"The situation was a misunderstanding and was misrepresented by your report. James Gilroy arrived in Desert Hot Springs Saturday, March 20, from Hawaii where he had had an accident, which caused loss of speech.

"Mr. Gilroy, an executive of Live Food Products, met me at Hayden's that evening. And because of confusion from a large crowd and Mr. Gilroy's absence of voice a misunderstanding resulted causing him to leave the restaurant.

"Mr. Gilroy was not arrested at Hayden's Restaurants, and never had two handguns on his person. Shortly after leaving the restaurant Mr. Gilroy became aware that the sheriff's deputies were called to help locate him, and he approached a sheriff's squad care to clear the matter.

"Mr. Gilroy and myself apologize for this unfortunate incident and any misunderstandings it has caused. Sincerely, Patricia Bragg

"Editor's Note: The information was reported to us by the sheriff's office in India. If it was in error, we are sorry. We have to take their word."

Note 1. Patricia Bragg married James Cameron Gilroy on 31 March 1976. But this newspaper was published only once a week. So this letter was probably written less than a week before the marriage.

2. Why did Patricia write this letter to a small, local newspaper? A seasoned Bragg observer notes: "My take was that having handguns in her possession wasn't quite the 'image' she wanted her public to see. I doubt Patricia was firstly concerned about her husband-to-be's reputation. Interestingly, on Mr. Gilroy's death certificate the following year, his own mother, the informant, stated that he had never been married. Maybe their wedding was very secretive to almost everybody."

2122. *Oakland Tribune.* 1976. He credits diet with long life. April 8. p. 53.
• ***Summary:*** An interview with Paul C. Bragg. At age 16, while a cadet at the Virginia Military Institute, he was told he had tuberculosis and had only 4 months to live. But he was cured by doctor August Rollier, who used sunshine, fresh air, diet, fasting and exercise. He put Bragg on a diet of fresh fruit and vegetables, and made him sleep out in the fresh air. "So successful was his cure that Bragg competed in the 1908 and 1912 Olympics in wrestling."

Bragg claims that he opened America's first health food store in New York City in 1914, and that he has Ph.D.s in both biochemistry and nutrition. He still travels a lot, giving lectures on healthy living. He spends about half of each year in Hawaii; there he gives seminars on slowing the aging process. He has five children, [Three by Neva, Patricia (?), and one more?], 12 grandchildren, and 14 great grandchildren. He has just celebrated his 95th birthday at his desert home in southern California. When does a man lose interest in the opposite sex, he is asked. "'Ask somebody else,' he replies. 'I'm only 95.'"

2123. *New York Times.* 1976. Congress blocks efforts by F.D.A. to curb vitamins. April 14. p. 16.
• ***Summary:*** After 14 years of debate over nutritional supplements, Congress has passed the Proxmire Bill prohibiting the FDA from regulating vitamins and minerals as prescription drugs. "The health food industry, through its trade association, the National Nutritional Foods Association, stepped up its battle and in recent days deluged Congress with letters urging passage of the bill." The bill now goes to President Ford to be signed into law. The bill represents a major defeat for the FDA.

2124. Klaw, Spencer. 1976. Pursuing health in the promised land: Clues to why your grandfather probably was, and your daughter probably is, an ovo-lacto vegetarian. *Horizon*

© Copyright Soyinfo Center 2021

18(2):24-29. Spring.
• ***Summary:*** Americans are currently are pursuing the holy grail of perfect health with unprecedented intensity and passion. Gives a history of vegetarian and health food movements in the U.S., and tries to interpret the motivations of advocates of natural foods. Dr. William A. Alcott, the prominent Boston physician and prolific writer on hygiene, announced in 1850 at a vegetarian convention in New York that "a vegetable diet lies at the basis of all reform." Not long afterward Horace Greeley presided over a vegetarian feast whose honored guests included Amelia Jenks Bloomer and Susan B. Anthony.

William Alcott's cousin, Bronson Alcott, founded a short-lived utopian community named Fruitlands, which was run on strict vegetarian lines. Note: KQED-TV aired a program in early May 1992 on 19th century American utopian communities, titled "America Past" and produced by Jim Fleet. It had a 10-minute segment on Fruitlands, which was portrayed as a vegan community. The members ate only fruit and vegetables that looked to the sky/heavens (thus root vegetables were avoided), and they refused to use animals to plow their fields or as a source of wool. The women did most of the work. The community lasted for only about 6 months.

The English mystic Annie Besant wrote *Vegetarianism in the Light of Theosophy.* Sylvester Graham, a noted diet reformer and advocate of the use of whole grains, argued that the main thing wrong with meat was that it was bad for the eater. In the 1830's Graham hotels and boarding houses sprang up all over the East Coast from Boston to Philadelphia. The radicals of the day assembled over a cup of cold water and a slice of Graham bread to plan the future. In one such club Horace Greeley met and fell in love with his future wife. "Graham's views were enthusiastically ingested by Dr. John Harvey Kellogg, one of the founders of the breakfast food business. Dr. Kellogg also founded the Battle Creek Sanitarium [in Michigan], an enormously successful spa that earlier in this century attracted such oddly assorted notables as Johnny Weissmuller [Olympic gold medalist in swimming in 1924 and 1928] and Carrie Chapman Catt. Kellogg did not insist that his guests give up meat, but he did warn them that it was bad for their dispositions as well as their health. To make things easier for vegetarians, Kellogg invented some eighty grain and nut products, including a meat substitute called Protose, which was supposed to taste just like beefsteak, and one called Nuttose, which was supposed to taste like veal."

Other "health gurus" profiled include Emile Coué (1920s, mind over matter), Gayelord Hauser (1930s and 1940s, wonder foods), Carlton Fredericks (1950s, vitamins), Adelle Davis (1960s), Helen & Scott Nearing (1970s).

2125. McKernan, Mary. 1976. Bragging his way to fitness at 94: "Old age is just an excuse laggards use to cover up bad habits," says fitness expert Paul Bragg. *Retirement Living* 16(5):48, 50. May.
• ***Summary:*** Every morning at 9:30 Paul Chappius Bragg, a licensed physical therapist, conducts free public exercise classes for about 100 disciples on the grounds of Fort De Russy in Hawaii, De Russy is a U.S. Armed Forces Recreational Center at Waikiki Beach. Bragg was born in 1881 on a farm in Wakefield, Virginia. At age 16 he was cured of tuberculosis by sunshine, exercise, and natural foods. The experience aroused in him a great lifelong interest in good health. A photo shows Paul C. Bragg–exercising and looking very fit. Address: Bellevue, Washington.

2126. Fulton, Alventia. 1976. Meatless love diet. *Ebony* 31:88, 90. June.
• ***Summary:*** Gives two diets (one American and one from London), 3 meals a day for 7 days, which are supposed to help one's "love life." The American diet calls for tuna and baked fish at several meals, but the introduction notes that "Strict vegetarians will omit fish, eggs, and dairy products, substituting protein-rich soy bean and wheat mixtures found in health food stores." Address: Dr.

2127. Portnoy, Benjamin L.; Goepfert, John M.; Harmon, Stanley M. 1976. An outbreak of *Bacillus cereus* food poisoning resulting from contaminated vegetable sprouts. *American J. of Epidemiology* 103(6):589-94. June. [12 ref]
• ***Summary:*** On March 15, 1973, four people ate raw vegetable sprouts that had been grown in a home seed sprouting kit purchased at a local health food store. The four-tiered plastic cylindrical seed sprouting kits were imported from Switzerland and sold with packets of seeds from Uganda (soybeans), Holland [Netherlands] (cress), and Denmark (mustard seed). During sprouting, the seeds became contaminated with *Bacillus cereus* (at levels of 10 million per gram) and caused gastrointestinal illness. The four people initially experienced nausea and vomiting, followed in 3 cases by abdominal cramps and diarrhea. Address: Univ. of Texas Medical School, P.O. Box 20708, Houston, Texas 77025.

2128. *Vegetarian World* (*Los Angeles*). 1976. Tofu: Prime hope for a starving world. No. 6. p. 7. June.
• ***Summary:*** Discusses the work of Bill Shurtleff and Akiko Aoyagi with tofu. Photos show: (1) The two holding a block of homemade tofu on a plate. (2) A hungry child. Gives four "quick and easy recipes for delicious tofu dishes:" Crumbly scrambled tofu, Tofu mayonnaise dressing, Grilled tofu steak, and Tofu ice cream. "In *The Book of Tofu* by Bill Shurtleff and Akiko Aoyagi, the authors assert that the exotic cakes of soybean curd, found primarily in health food stores in the U.S., are about to revolutionize world-wide eating habits." Address: Lafayette, California.

2129. *Christian Science Monitor.* 1976. FTC may ban

© Copyright Soyinfo Center 2021

'organic' claims by advertisers. Sept. 17. p. 1, 30.
• ***Summary:*** "Chicago–Use of the words 'natural' and 'organic' would be banned in most food advertising under a controversial proposal under consideration by the Federal Trade Commission (FTC)." The FTC believe that these and other claims related to health and nutrition confuse consumers. Hearings on the proposal are underway in Chicago this week and are scheduled later for Washington, DC, and Dallas, Texas.

Some consumer groups are calling for standard, federally approved definitions of such terms to which ads and labels would have to adhere.

The FTC contends that in place of "natural," companies "could advertise that the food does not contain artificial or synthetic preservatives, ingredients, flavor or color." Likewise, in place of 'organic,' companies "could say that the food was grown without the use of pesticides, artificial fertilizers, or artificial conditioners."

A wide variety of foods are now advertised as "natural" even though some contain food additives and are highly processed. But the National Nutritional Food Association believes such terms should be retained because "they have gained consumer acceptance." Address: Monitor staff correspondent.

2130. *Family Health.* 1976. Is there a TVP in your future? 8(9):52. Sept.
• ***Summary:*** Contains 9 recipes using textured vegetable proteins, which you can find in local supermarkets and health food stores. The ingredients include: Sausage-like breakfast links. Bacon-like breakfast strips. Ham-like breakfast slices. Refrigerated cholesterol-free egg substitute. Sausage-like breakfast patties. Vegetable protein patties. Vegetable protein links.

2131. Ford, Frank. 1976. The simpler life cookbook from Arrowhead Mills. Fort Worth, Texas: Harvest Press. 157 p. Introduction by Fred Rohé. Index. 18 cm. [13* ref]
• ***Summary:*** The copyright page states: "First printing–Oct. 1974–23,000. Second printing–Feb. 1976–17,000. Third printing [this book], 110,000. This book is the second third edition of a book which was originally released under the title of *Pack to Nature."*

The body of the book is the same as that of earlier printings. However the 2-page directory titled "Some Natural Foods Sources" has been updated and expanded. It now lists 41 companies with full addresses and Zip codes. New additions include: Arrowhead Mills Distributing Co. (Denver, Colorado). Ceres Natural Foods (2582 Durango Dr., Colorado Springs, Colorado). Cinagro Distributors (now in Chamblee, Georgia). Earth Bound, Inc. (Woodbury, Connecticut). Earthwonder (Blue Eye, Missouri). Health Foods, Inc. (Des Plaines, Illinois). Houston Health Food Distributors (Houston, Texas). Kahan & Lessin Co. (Compton, California). Kozek Products (Los Angeles, California). Landstrom Co. (San Francisco, California). Laurelbrook Foods No. 2 (Raleigh, North Carolina). Lifestream Natural Foods (now at 1241 Vulcan Way, Richmond, BC, Canada). Manna Foods (Scarborough, Ontario, Canada). Midwest Natural Foods (Ann Arbor, Michigan). Nature's Best (El Segundo, California). Pure & Simple (795 West Hedding, San Jose, California). Shiloh Farms, Inc. Eastern Warehouse (Martindale {near New Holland}, Pennsylvania). The Wide Earth Store (Anchorage, Alaska). Tochi Products (Fargo, North Dakota).

Note: This is the earliest document seen (March 2006) that mentions Health Foods, Inc., a wholesale distributor of health foods and natural foods in Des Plaines (near Chicago). Address: Deaf Smith County, Hereford, Texas.

2132. Gillingham, Karen. 1976. Blender power: Get a boost from these high-energy blender drinks. *Los Angeles Times.* Nov. 9. p. I-10, I-14.
• ***Summary:*** "Energy drinks as we know them today–most agree–were were unveiled by Adelle Davis in the 1950s" [Tiger's Milk?]. Originally they were enjoyed by "health food scholars and Muscle Beach hopefuls."

Contains 15 recipes, each from a place that makes and retails them fresh. Only one is called a smoothie. Most contain a dairy product (such as milk, ice milk, ice cream, or yogurt), some fruit (bananas are most popular), and some ice. Eight contain 1-3 tablespoons of "protein powder." Two are non-dairy with cashew nut milk or coconut milk replacing the dairy products.

2133. Ferrier, L.K. 1976. Simple processing of whole soybeans for food. *INTSOY Series* No. 10. p. 130-36. R.M. Goodman, ed. Expanding the Use of Soybeans (College of Agric., Univ. of Illinois at Urbana-Champaign). [19 ref]
• ***Summary:*** Contents: Introduction. Food uses for whole soybeans. Category I: Drum-dried flakes. Category II: Canned soybeans. Category III: Dairy product analogues (incl. mocha flavored ice cream, yogurt, peanut butter analogue). Category IV: Spreads. Category V: Snack foods. Appendix I: Prototype foods made from whole soybeans. Appendix II: Sauce formulations for canned soybean products. Discussion. For the drum-dried flakes: Blend in a "Waring Blendor." Address: Dep. of Food Science, Univ. of Illinois, Urbana, IL.

2134. Maxwell, Jessica. 1976. Our native cuisine: Health food restaurants serve what California grows in abundance. *Los Angeles Times.* Dec. 7. p. I10-11, I18.
• ***Summary:*** It was because of the year-round growing season that the health food movement began in Los Angeles 50 years ago, in 1926, when Hain Pure Foods and El Molino Mills opened for business. They were soon followed by Jack LaLanne. "And quicker than you can say granola, alfalfa

© Copyright Soyinfo Center 2021

sprouts started creeping into our sandwiches and the bread they came on started looking like an ad for Coppertone."

Then came the big food-consciousness boom of 1971, and a new generation of health food restaurants started popping up in the L.A. Basin. Now, with carrot juice uprooting the evening martini, "we think its time someone made it official that from date shakes to artichokes, health food is Southern California's native cuisine–and always has been."

2135. *Miami Herald.* 1976. Deaths: Nutritionist Paul C. Bragg, 95. Dec. 10. p. 10-B.

• ***Summary:*** "Paul C. Bragg, called the 'granddaddy' of the health food movement, died of a heart attack Tuesday [Dec. 7] in the emergency room of the South Shore Hospital. He was 95."

"Dr. Bragg, a registered physical therapist, whose home offices are in Hawaii, Palm Springs, and Boston, was in Miami Beach to speak before the Second Annual Health, Diet, and Fitness Show at Dinner Key Auditorium."

Stricken at the Crest View Apartments, he was rushed to the hospital by a rescue squad; he died a short time later.

"Dr. Bragg," the author of more than 40 books on diet and health, was a "globehopping nutritionist with a Ph.D. in biochemistry." He believed the keys to health were "nutrition, exercise, and correct breathing."

"Dr. Bragg" served as a consultant to such Hollywood celebrities as Gloria Swanson, Jack LaLanne, Donna Douglas, and others.

"Dr. Bragg was stricken with tuberculosis when he was 16 and sent to Switzerland to recover. After being cured by Dr. August Rollier's Natural Healing and Sun Sanatorium with natural foods, clean air and sun, he vowed to study all aspects of natural healing and to learn the secret of agelessness.

"He is said to have pioneered the canning of pineapple juice and later tomato juice..."

"Dr. Bragg is credited with spreading health food stores throughout the world, from Australia to Europe. He made more than 20 tours around the world to teach his health methods. His daughter, Patricia, said she followed her father on his 'crusades.'"

She said "her father was injured by a wave in the surf six months ago and his health began to decline after the accident.

Besides his daughter, Dr. Bragg is survived by a son, Robert; two daughters; several grandchildren, and great-grandchildren.

"Lithgow Funeral Centers is making arrangements for cremation."

A portrait photo shows "Paul Bragg, crusader," smiling.

Note 1. Much of the information in this article provided by Patricia Bragg is incorrect. For example, he was almost age 82 when he died, not 95. This is the earliest document seen (July 2021) stating that Paul Bragg had a Ph.D. degree in biochemistry. When did he get this degree and from which school?

Note 2. This is the earliest document seen since Oct. 1934 in which Paul Bragg is referred to in print (or has referred to himself in print) as a doctor; he is called "Dr. Bragg" above. Why did he stop referring to himself as a doctor? Was he ordered to stop?

See also the obituary for Bragg in the *Honolulu Advertiser* (11 Dec. 1976, p. B-12).

2136. *Honolulu Advertiser* (*The*) (*Hawaii*). 1976. Obituaries: Paul Bragg dies at 95. Dec. 11. p. B-12.

• ***Summary:*** Bragg, a physical fitness buff who conducted free exercise classes on Waikiki Beach, has died in Miami, Florida–according to the *Miami Herald,* which reported that he was age 95. It is said that "he set a national age-group swimming record at age 94" [i.e. in about 1975].

Mr. Bragg, a resident of Honolulu, was in Miami to deliver a speech. He became ill at his beach apartment and was taken to South Florida Hospital, where he died.

"In July [1976], Mr. Bragg was pulled unconscious from the water off Fort DeRussy [on Waikiki Beach, Honolulu] and survived after being given cardio-pulmonary massage by a nurse on the scene."

Bragg once said he was born in Virginia in 1881, "of an old military family." He "practiced strict dietary and exercise practices after contracting tuberculosis at the age of 16." A portrait photo shows Paul Bragg.

Note 1. It is not known what caused Bragg to lose consciousness in Honolulu. He could have been surfing, swimming, wading, or just bein knocked over by a big wave. Or he could have suffered his first heart attack while in the water. It is also possible that this event never happened at all–since we do not know the source of the information (Source of Note: Wikipedia Web page on Paul C. Bragg).

Note 2. Paul Bragg was born on 6 Feb. 1895 in Indiana and died on 7 Dec. 1976 in Miami. Thus, he was age 81 years, 10 months, and 1 day when he died. He habitually exaggerated his age during the last half of his life.

Note 3. Concerning the national-age group swimming record, we asked the United States Masters Swimming (www.usms.org) if they had any information about Paul Bragg's swimming. Barbara Dunbar, Chair of the USMS History and Archives Committee, replied: "First of all, there was NO 90-94 age group in 1973-1976. In 1973, the highest masters age group was 70+, and Bragg does NOT appear in any masters national top tens or national records lists for short course yards (25 yard course) or for long course meters (50 m course).

"For 1974-1976, the highest masters age group was 80+ (80 and over). Again, Bragg does not appear in any masters national top ten times or on any masters records lists.

"So far, this is all that I have found. It is remotely

© Copyright Soyinfo Center 2021

possible that he swam in a masters meet which was not reported to the national level, but in that case, he could not have set a national record. There are no national masters records attributed to him." In short: Yet another lie.

2137. Certificate of death for Paul Chappius Bragg. 1976. Miami Beach, Florida. 1 p.
• ***Summary:*** Date of death: 7 Dec. 1976. Place: Miami Beach, Dade County, Florida. South Shore Hospital. Age: 95. Date of birth: 6 Feb. 1881. Virginia. Citizen of USA. Widowed. Surviving spouse: None. Social Security No. 554-42-5580 A. Usual occupation: Publisher of books. Name of father: Robert E. Bragg. Name of Mother: Carrie Chappius. Informant: "Miss Patricia Bragg." Mailing address: Box 575, Palm Springs, California. Cause of death: Not available except to relatives. Cremated at Lithgow Crematory in Miami on 10 Dec. 1976. Funeral Home: Lithgow Funeral Center, 485 N.E. 54th St., Miami, Florida 33137.

Note 1. According to the Social Security Death Index: Paul Chappius Bragg was born in Feb. 1895–Place unknown. His Social Security number is 554-42-5580. He died in Dec. 1976. Place unknown. The Bragg offices say (incorrectly) in Hawaii. His last recorded residence was Desert Hot Springs, California 92240.

Note 2. Three key pieces of information on this death certificate are incorrect. (1) His age was not 95, but only about 82–actually 81 years, 10 months, and 1 day–therefore about 14 years younger than he claimed. (2) His date of birth was not 6 Feb. 1881 but 6 Feb. 1895. (3) He was not born in Virginia, but in Indiana. The correct information is based on the 1900 and 1910 U.S. Census in Washington, DC.

Note 3. As of May 2010, the Florida Death Index (1877-1998) is available on ancestry.com. The record for Paul C. Bragg states: Death date: 7 Dec. 1976. County of death: Dade. State of death: Florida. Age at death: 95. Race: White. Birth date: 6 Feb. 1881. This information was apparently taken directly from his death certificate without any attempt to verify it. Address: Miami Beach, Florida.

2138. Nogaki, Sylvia. 1976. New organic tofu. *Newsletter of Puget Consumers' Co-op.* Dec. [1 ref]
• ***Summary:*** Island Spring organic nigari tofu now sold by the Co-op. Includes 4 recipes: Tofu Milkshake or Fruit Smoothie; Tofu Lasagne [Lasagna]; Tofu Dip or Dressing; Braised Tofu.

The recipe for Tofu Milkshake or Fruit Smoothie reads: 6 oz tofu. 1 cup apple cider (½ for thicker shake). 1 or 2 bananas. 3 fresh strawberries or 2 tablespoons blueberries or raspberries. 1 tablespoon honey. 1 teaspoon vanilla. ¼ teaspoon brewer's yeast*. Nutmeg. Blend all ingredients in blender until smooth.

A photo shows Sylvia Nogaki of Island Spring Tofu preparing tofu dips for vegetables and chips at the Natural Food Fair, Nov. 14. Address: Washington state.

2139. Phillipps, Stanley N. 1976. The HF [health food] industry has come of age. *Health Foods Retailing.* Dec. p. 70-78, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256-56.
• ***Summary:*** In this, the 40th anniversary issue of this publication, the author, a two-time president of the National Nutritional Foods Association (NNFA), reminisces about the history of the industry and the NNFA. He has been in the health food business for almost 56 years. In 1920 in Cincinnati, Ohio, he began selling the full line of 25 products from Battle Creek Sanitarium Foods. Hain Health Foods of California was one of his first suppliers. Figco was a big selling coffee substitute. Early lecturers who drew large audiences were Paul C. Bragg (1932), Gayelord Hauser (very high class), Edward McCollum, and Walter Hadson. A major industry change came at the end of the 1930s when new FDA laws prevented manufacturers or retailers from saying much about their products. The 1930s was the golden era, when people became aware of "the harmful effects of devitalized foods." The main product lines during the 1930s and 1940s were Paul Bragg's Live Vital Foods [sic, Live Food Products], Gayelord Hauser's Modern Products, American Dietaids (formerly Tam Products, Inc.), and Alberty Foods. *Better Nutrition* was a major health food magazine. Eugene Schiff was a pioneer who brought stores some of the first natural vitamins.

"The real booms in the industry came at many different times and I will mention a few of them. Gayelord Hauser's book, *Look Younger, Live Longer,* was one of the books that in 1950 did a terrific job on the five wonder foods, brewers yeast, blackstrap molasses, wheat germ, low-fat skim milk powder and yogurt. This book was the top seller on the non-fiction list for weeks and weeks, and it brought people into the health food stores for these and many other foods so that a real demand for products began to cause scarcities in these items. The business boom from this book was tremendous and it lasted for a long time...

Calories Don't Count, by Herman Taller, M.D., was another book that created an unbelievable demand for protein foods and low carbohydrate foods... Then came the Dextrose boom... The biggest boom and perhaps the most long lasting was the Adelle Davis books that brought people to the stores in droves seeking the natural vitamins and supplements.

"From her first book, written in story-book fashion, and called *You Can Get Well* in 1939, Adelle Davis became the queen of the health food movement.

"Hauser's books, Kordel's books, Bragg's books, Ancel Keys book, N.S. West, Mildred Lager, Dr. Wm. Howard Hay, and H. Curtis Wood, M.D., all wrote interesting and well studied books that brought lots of business to our stores across the nation. Linda Clark, Rachel Carson. Dr. Jarvis and many others have written books that bring customers to your door."

Concerning the history of the NNFA, in 1937 Anthony

© Copyright Soyinfo Center 2021

Berhalter had a consumer organization started called the American Health Food Association. Berhalter, a man of great foresight, operated a bakery and health food shop on North Clark Street in Chicago. He made fresh-fruit coffee cakes from whole wheat flour, which he procured from Elam Mills on Damen St. in Chicago. The Association's first convention was in the spring of 1937 in Chicago. About 150 people attended. Walter Hodson was one of the speakers. Companies that exhibited included Live Food Products [Paul Bragg], Alberty Products, American Dietaids (at that time known as Tam Products, Inc.), Battle Creek Scientific Foods, Chippewa Spring Water Co, Dietetic Food Co. of New York (Diamel), Elam Mills, Health Food Jobbers, H.W. Walker Company, Loeb Dietetic Foods, Modern Diet Products, Inc., Natural Health Products of New York, Nutty Brown Mills of Texas, Parkelp of California and Vegetable Juices Inc. of Chicago.

After the 1937 meeting a new organization was formed named the National Health Foods Association. Its first convention was in the summer of 1938 in Chicago, which then became its headquarters. The convention lasted 3 days and the 800 to 900 attendees listened to speakers like Paul Bragg and Edward McCollum. Thereafter conventions were held each year; retailers, manufacturers, and distributors all met. 1947 was a low point in the association's history, then Stanley Phillips stepped in and helped create a comeback. The 1948 meeting was in Coronado, California. In 1948 the Association was named the National Dietary Foods Assn. In 1964, with $30,000 in the treasury, the Association acquired its first full-time secretary. *Health Foods Retailing* magazine, published originally by Lelord Kordel and then by Jack Schwartz, became designated as the association's official publication. In 1966 Phillips resigned from the NDFA and helped start a new retailers organization, ADRA, which merged back into NDFA in 1970. The new organization was called the National Nutritional Foods Assoc. (NNFA). The 1975 convention at the MGM Grand Hotel in Las Vegas was a highlight of the NNFA in its heyday. Throughout its history, and especially in more recent decades, the industry's greatest adversary has been the U.S. Food and Drug Administration (FDA).

2140. **Product Name:** El Molino Soybeans.

2142. Bragg, Paul C.; Bragg, Patricia. 1976. The miracle of fasting: For agelessness–Physical, mental & spiritual rejuvenation. Desert Hot Springs, California: Health Science. 198 p. Illust. Ports. No index. 21 cm
• ***Summary:*** At the top of the title page: "New discoveries about an old miracle–The "fast" fasting way to health. The table of contents of this book is the same as that of the 1st edition (1966), except that a new chapter, chapter 32, "The spiritual aspects of fasting," has been inserted and "Food for thought" is now chapter 33–the last chapter. Both Soya beans (p. 179) and Soya oil (p. 180) are mentioned.

Note that Paul and Patricia Bragg now have "Ph.D." after their names. When and where did they get these degrees? Paul Bragg is a "Life extension specialist."

In Chapter 32, Bragg talks about meeting Mahatma Gandhi on 27 July 1946 in India. At Gandhi's headquarters here [New Delhi] I received permission to accompany this amazing man on a 21-day fasting trip eastward through the villages..." "He ate nothing and drank only water flavored with lemon and honey" (p. 193).

On the last two unnumbered pages are brief bios of Patricia Bragg and Paul Bragg. She graduated from the University of California, was the youngest woman ever to be granted a U.S. Patent, has been a health consultant to President Harry S. Truman (who walked a lot) and to the British Royal Family. Paul still plays tournament tennis, competes in track meets all over the world. Crippled with TB [tuberculosis] when in his teens, Paul "teamed with the great fitness expert Bernarr Macfadden to introduce America and the world to the benefits of Physical Culture at the turn of the century. He was one of the first editors of the Physical Culture Magazine. He worked with Luther Burbank in California to produce healthful, organically grown fruits and vegetables. He opened the first modern Health Food Store in Los Angeles."

Photos show: (1) Paul Bragg, smiling and looking healthy in Hawaii (cover and p. 61). (2) Jack LaLanne, his wife Elaine, Paul Bragg, and Patricia Bragg. Jack says that Paul saved his life at age 14 when he attended a Bragg lecture in Oakland (p. 4). (3) Paul Bragg behind a table of fruits. He has been supervising fasts for over 70 years [i.e., since 1906 or before] (p. 41). (4) Patricia Bragg (p. 83, 173). (5) Paul with about 50-75 members of his "Longer Life, Health and Happiness Club" under palm trees at their "exercise compound at Fort DeRussey, Waikiki Beach, Honolulu, Hawaii." Membership is free and open to all. Monday through Saturday mornings from 8:30 to 10:30 for

"deep breathing, exercising, meditation, group singing, and mini health lectures..." (p. 100). (6) Paul Bragg and Bernarr Macfadden leading a thousand happy hikers, summer 1932, on the trail to Mt. Hollywood, California (p. 121). (7) Paul, bare from the waist up, with his large chest and "powerful body" (p. 126). (8) "Paul Bragg and daughter Patricia" dressed in workout suits "at the start of their vigorous daily morning exercise program" (p. 153). Address: 1. N.D., Ph.D., Life extension specialist; 2. Ph.D. Health and beauty consultant. Box 477, Desert Hot Springs, California 92240.

2143. Clark, Linda. 1976. A handbook of natural remedies for common ailments. Old Greenwich, Connecticut: Devin-Adair Co. 291 p. Index. 22 cm. [100+* ref]
• ***Summary:*** In Chapter 19, "Help for heart trouble," soy lecithin is mentioned on page 223. Clark often cites Adelle Davis and Carlton Fredericks ("who may be the most learned living nutritionist of our time" {p. 223}) as authorities on nutrition and health.

She also deals with the subject of saturated fat (p. 222): "Then there is the fat furor. Saturated fat is considered a dirty word, whereas unsaturated fat is extolled from the housetops. But this concept has been distorted and converted into a scare story which many experts refuse to believe.

"You will notice that Dr. Yudkin has pointed out that many tribes with a low incidence of heart disease, have a high consumption of animal fat (saturated) and butter, though low in sugar."

Clark remembers Carlton Fredericks saying more than 20 years ago that the theory of natural saturated (animal) fat as being dangerous would be disproved. Address: M.A.

2144. Farr, Barbara. 1976. Super soy!: Delicious protein without meat. New Canaan, Connecticut: Keats Publishing Co. 151 p. Index of recipes. 21 cm. [9 ref]
• ***Summary:*** Contents: 1. Magic bean. 2. Soybeans and nutrition. 3. A glossary of soy (and other things)–With a table giving nutritional information for each; wheat bran, dried soybeans, green soybeans, lecithin, miso, nutritional yeast, sesame tahini, soy granules or grits (toasted), soybean oil, soybean powder (also called soybean flour; full-fat soy powder, low-fat soy powder, defatted-fat soy powder), soy protein isolate, soy sauce, soybean sprouts, tofu, yogurt (soy or dairy).

4. Basic techniques with soybeans. 5. Appetizers and snacks. 6. Soups and breakfast dishes. 7. Main dishes. 8. Breads, etc. 9. Sweet things. Bibliography. Note: Contains many recipes.

Dedication: "This book is dedicated to the most inspiring health-seeker: Gayelord Hauser."

2145. Mallard, Gwen. 1976. Soy bean magic: Delicious recipes with soy beans, flour & grits. Saanichton, British Columbia, and Seattle, Washington: Hancock House Publishers. 80 p. Index. 18 cm.
• ***Summary:*** Contents: 1. Commercially bought soy products: Soy flour, soy grits, soybean milk, soy flakes (fine, or coarse), soybean oil, soybean lecithin, soy lecithin spread (butter substitute), soy noodles, macaroni and spaghetti, soy sauce, soy coffee, roasted soy nuts, baked and green soybeans (canned). 2. Homemade soy products: Soy milk from dry beans, quick soy milk (from soy flour), soy cream (from soy flour), "soy base" (from soy flour), soy cheese from soy flour [tofu] (curded with lemon juice), oven-roasted soybeans, toasted soy flakes (coarse), toasted soy flour, sprouted soybeans. 3. Soybean recipes: Breads 'n breakfasts, soups 'n salads 'n salad dressings, soy suppers, desserts and delights.

To make soy base (p. 14): Slowly add 2 cups cold water to sifted soy flour to make a smooth paste. Stir in 1 teaspoon salt. Place in a double boiler and "cook for 30 minutes over rapidly boiling water. This mixture will be thick when it is cooked. Soy base is ideal for enriching gravies, stews, puddings, and soups. It will also make an excellent sandwich spread."

Note: This is the earliest English-language document seen (Aug. 2013) that uses the term "soy base" as a noun in this way; within 10 years the term had acquired a different meaning.

On the back cover is a biography of Gwen Mallard by Derrick Mallard, her husband. She was born in 1917 in Fernie, British Columbia; she lived with her parents and three brothers in a log cabin in the beautiful Elk Valley among Canada's majestic Rocky Mountains. In 1971 she helped launch a campaign against plans for shipping oil in Alaskan tankers along the coast of British Columbia with the inherent dangers of disastrous oil spills (Note: On 24 March 1989 the tanker Exxon Valdez ran aground and spilled 11 million gallons of heavy crude oil in Alaska's pristine Prince William Sound–the world's worst oil spill in history). Gwen runs a small health food store and restaurant 14 miles north of Victoria, British Columbia. Address: British Columbia, Canada.

2146. Neufeld, Don F. ed. 1976. Seventh-day Adventist encyclopedia, revised [2nd] ed. Washington, DC: Review and Herald Publishing Assoc. 1640 p. 25 cm. Commentary Reference Series, Vol. X. First ed. published 1966.
• ***Summary:*** This indispensable reference work, which is about 10% longer that the original 1966 edition, contains excellent short histories with some updated or additional financial and/or production statistics for the food companies.

A complete list (with city and country) of all SDA food companies is given at "Food companies."

New entries: World Foods Service (1968): "A department of the General Conference whose director coordinates the various phases of the denominational food production and marketing activities throughout the world

field. Each division (except North America) has a world food service secretary to further the development of the food ministry within his area of operation.

At the Autumn Council of 1967 a health food department at the General Conference level was created. At the Autumn Council of 1968 this department was named World Foods Service.

"Secretary (until 1974) and Director: E.W. Howse, 1969- ." Address: Washington, DC.

2147. Neufeld, Don F. 1976. Seventh-day Adventist encyclopedia, 2nd ed.: DE-VAU-GE Gesundkostwerk GmbH (German Health Food Factory, Ltd.). Washington, DC: Review and Herald Publishing Assoc. 1640 p. See p. 389-90.
• ***Summary:*** "A firm in Hamburg, Germany, owned by the Euro-Africa Division, which makes a wide variety of products ranging from bread and cereal flakes to nut creams, vegetable spreads, meat analogs from soybeans, and diabetic food. The products are distributed through several channels, but mainly through health-food stores. The factory was founded in 1899 at Friedensau, near Magdeburg, and began operation in an old mill under the management of Augusto Pages. But since the factory was too small and too far from markets and sources of imported raw materials, such as fruits and nuts, to operate economically, a new plant was built at Hamburg shortly before World War I.

"In 1940 the political conditions in Germany forced the denomination to transfer the factory to four SDA trustees–Willie Luhr, the former manager, A. Vollmer, O. Schildhauer, and H. Niemann–who continued to operate it as a private company until the building was almost completely destroyed in an air raid on July 28, 1943. Some 12 months later the factory resumed production, but on a diminished scale.

"After World War II, in 1947, a new organization, formed by the former Central European Division, took over operation of the food factory from the remaining trustees. In 1966 a new building was constructed in north Hamburg, at Brodermannsweg 17. New soy products were developed, and a new sales force was organized. The rapid growth of sales, both in and outside Germany, made it necessary to lay plans for more space and greatly expanded facilities. Early in 1974 a new property was purchased in Lueneburg, an attractive industrial area of Germany. The yearly turnover exceeds $5 million."

Note: DE-VAU-GE is an abbreviation for "Deutscher Verein für Gesundheitspflege" (German Society for Health Care). They owned and used the brand GranoVita from at least 1958 until 1991. After that, the story becomes very complicated (See Drosihn 2010). Address: Washington, DC.

2148. Neufeld, Don F.; et al. ed. 1976. Seventh-day Adventist encyclopedia, 2nd ed.: Granose Foods Limited (British Health Food Factory). Washington, DC: Review and Herald Publishing Assoc. 1640 p. See p. 527-28. Or. p. 624.
• ***Summary:*** "A health-food factory situated in Stanborough Park, Watford, Hertfordshire, England, manufacturing several varieties of vegetarian protein foods and breakfast cereal biscuits, one of the latter being called Sunny Bisk. In 1973 business volume totaled £400,000, made possible by updating the processes with modern machinery.

"The SDA [Seventh-day Adventist] health food work in Great Britain was begun by a group of laymen who, under the name The London Health Food Company, purchased health foods from Dr. J.H. Kellogg, of Battle Creek, Michigan, and distributed them to the public. After a few years SDA leaders in Great Britain sent J. Heide, a master baker, to Battle Creek to learn how to make the foods. In 1899 a manufacturing company was formed under the name The International Health Association Limited, changed in 1926 to Granose Foods Limited. The company purchased a flour mill in Salford, near Redhill, Surrey, to serve as the factory... A fire burned the factory to the ground in 1900. Health foods were again temporarily imported from America, but gifts and loans from SDA's re-established the company in Birmingham.

"In 1907 all SDA institutions in England, including the food factory, were centralized at Stanborough Park, Watford. The factory has grown until in 1973 it had a floor space of approximately 44,000 square feet, and still further extensions were planned." Address: Washington, DC.

2149. Neufeld, Don F. 1976. Seventh-day Adventist encyclopedia, 2nd ed.: Sanitarium Health Food Company. Washington, DC: Review and Herald Publishing Assoc. 1640 p. See p. 1285-86.
• ***Summary:*** "A chain of health food factories, wholesale branches, and retail shops in Australia and New Zealand, operated by the Health Food Department of the Australasian Division... Headquarters for the firm are at 148 Fox Valley Road, Wahroonga, New South Wales, Australia.

"Products include Weet-Bix, a flaked-wheat breakfast-food biscuit; cornflakes, and other cereal foods; Marmite, a yeast-extract flavoring; peanut butter; vegetarian meats and textured vegetable protein; and soybean milk

"In 1973 the company was operating 12 factories in Australia and New Zealand and 8 large wholesale branches. There were 68 shops and 4 cafes scattered in the main cities of the two countries; 11 of these retail branches were in company-owned buildings. Total net worth was approximately $24.2 million. Approximately 1,700 workers were employed, and the company's products were stocked throughout the grocery trade in Australia and New Zealand. A growing export trade was also being developed, principal markets being the Southern Pacific and nearby Asian countries.

"The gross annual revenue sales were $46 million. In 1973 the company realized a profit of $2.7 million, of which $1.362 million went directly to the treasury of the

© Copyright Soyinfo Center 2021

Australasian Division for mission use. In addition, nearly half of the general administrative expenses of the division are met by the company as operational costs.

"History. The motivating influence leading to the establishment of health food work in Australasia is found in addresses given by Mrs. E.G. White at the Brighton, Victoria, camp meeting in 1893 and in Melbourne, Victoria, in 1895. She spoke of different aspects of the work, and urged the leaders to move forward along medical lines, including manufacturing of health foods and establishing of vegetarian restaurants. In response the Australasian Union Conference on Oct. 31, 1895–Resolved that the Executive Committee be urged to take steps to commence such work in the various large cities of these Colonies by the establishment of both houses and depots for the supply of Health Foods, Sanitary Clothing, etc. as the way may open (Minutes, p. 30).

"In 1897 a consignment of wheat biscuits, granola, gluten, and caramel cereal [grain coffee] arrived from Battle Creek, Michigan. A small factory was rented in North Fitzroy, Melbourne, where the production of granola and caramel cereal was begun. The firm, registered April 27, 1898, was first known as the Sanitas Supply Company and then as the Sanitarium Health Food Agency. Processing was done under the direction of E.C. Halsey, from Battle Creek.

"The results of the Melbourne enterprise were not satisfactory, and Mrs. White counseled that the factory be moved to Cooranbong to be operated in conjunction with the Avondale School for Christian Workers (now Avondale College), to which the managing committee agreed... At this time the firm's present name was adopted. Operations at Cooranbong began in 1899.

"In all these early moves Mrs. White, who was residing in Australia at the time, gave important counsel for the health food work and shared in many of the major decisions relative to the development of the business. At first all sales of health foods were made through conference tract societies, but a retail shop was opened in Sydney in 1902 in association with the first vegetarian restaurant. However, the business was not financially successful, and by 1904, when the whole health food enterprise was heavily in debt, many of the denominational leaders favored closing it... Success was achieved, and in 1906 the first donation by the food company for island mission work was made.

"Between 1907 and 1913 shops and cafes were opened in Melbourne, Brisbane, and Adelaide, followed later by branches in Hobart and Perth. The manufacturing and wholesale sections of the business expanded rapidly in the period 1920-1935... In 1927 the company began to sell directly to retail grocery stores, bypassing the wholesale merchants.

"Two competing businesses were acquired in 1928 and 1929, respectively–Grain Products, manufacturers of Weet-Bix, and the Cerix Company, manufacturers of puffed cereals. These acquisitions widened and strengthened the company's activities.

"The development of the health food work in New Zealand paralleled that in Australia. Manufacturing began at Christchurch in 1900 in a small plant operated by E.C. Halsey, who had been transferred from Australia. Shops and cafes were opened in the main cities, and in 1921 a new factory was built in Christchurch under the management of A.J. Dyason. This was the beginning of an era of rapid growth, which has since continued. The Auckland and Christchurch factories of Grain Products, Ltd., were acquired in 1930. A third factory, in Palmerston North, began operation in 1952." Address: Washington, DC.

2150. Ranill, June. 1976. The El Molino cookbook: Natural wholegrain foods from El Molino & CaraCoa. El Molino Mills, A division of ACG Co., Box 2250, City of Industry, CA 91476. 144 p. Illust. Index. 22 cm. Spiral bound.
• ***Summary:*** Contents: Part I: Description of grains, seeds, legumes & carob (1-2 pages about each with an illustration; barley, buckwheat, corn, millet, oats, brown rice, rye, triticale, wheat, alfalfa seed, chia seed, flaxseed, pumpkin seed, sesame seed, sunflower seed, lentils, mung beans, split peas, soybeans {p. 22-23}, carob, El Molino and CaraCoa products).

Part II: How to use and enjoy whole grains, seeds, legumes. Part III: Recipes (by Alice Walter).

This year El Molino Mills celebrates its 50th anniversary; thus it was founded in 1926. Soya powder is like soya flour, but it is more finely ground for use in beverages. "Soy flour is made from the raw bean, while soya flour is made from soybeans that have been lightly toasted. This 'toasting,' actually a moist heat treatment, enhances the flavor." El Molino soya flour is full-fat flour.

El Molino products (p. 26) include Soybeans (whole cooks best), and Carob coated soynuts. No soy flour or powder is mentioned.

Soybeans, soya flour, grits, and powder are used extensively throughout his book. White bread (with soy flour, p. 46). Honey oatmeal bread (p. 48). Cornell bread (p. 50). Soya bread (p. 51; 4.5 cups wheat flour and 1.5 cups soya flour, so 25% soya flour). Improved quickbreads (p. 68). Crunchy muffins (with soya grits, p. 70). Homemade muffin mix. Soya muffins (p. 72). Gluten sesame thins (p. 74). Homemade Granola (with 1 cup El Molino soya flour, p. 75). Soy nuts. Garlic soy nuts. Roasted soybeans (p. 85). Carob breakfast drink (with 1 tablespoon El Molino soya powder, p. 88). Bean salad (featuring soybeans, p. 92). Meatloaf (with soya grits, p. 97). Soybean loaf. Baked soybeans. Soybean chili (p. 101).

The section titled "Meatless dishes" (p. 102-112) features many soy and many gluten recipes: Soybean medley. Cooked soybeans (Basic). Soy cakes. Soybean paste (ground cooked soybeans). Stuffed peppers. Stuffed tomatoes (both with soybean paste). Baked soybean croquettes. Softened

© Copyright Soyinfo Center 2021

soya grits. Stuffed zucchini (with softened soya grits). Tofu (from soybeans curded with lemon juice). Soy cheese (made from soya powder). Cooked gluten (homemade, p. 110). Gluten cutlets. Gluten patties. Gluten roast. Eggs and soya grits.

Soya milk (from soya powder, p. 115). Pineapple soya cocktail (with soya powder, p. 116). Soya applesauce cake (with soya flour or powder, p. 119). Improved cakes (p. 122). Peanut butter cookies (with soya flour, p. 125). Improved cookies (p. 128). Cookies for your puppy dog (p. 130). Sesame carob balls. Carob nut log (p. 137).

Sesame seed: On page 17 is a full page about sesame seeds and their uses, with an illustration of the sesame plant and its seeds. The Index contains more than 45 entries for "Sesame" including: Sesame butter (p. 17, 87). Sesame granola bars (p. 84). Sesame halvah (p. 17). Sesame milk (p. 17, 115). Sesame in muesli (p. 76). Sesame tahini dressing (p. 93). Address: City of Industry, California.

2151. Stare, Frederick J. 1976. Food faddisms. In: Dwain N. Walcher, N. Kretchmer, and H.L. Barnett, eds. 1976. Food, Man, and Society. New York and London: Plenum Press. xv + 288 p. See p. 174-85.

• ***Summary:*** Contents: Introduction. The health food bonanza. Definitions (fad, quack, charlatan, health foods, organic foods, natural foods). Why so much food faddism and quackery. Eating–safely–through the eighties. Food in a growing world (i.e., in a world with a rapidly growing population, which is now over 4 billion). Conclusion.

Dr. Stare considers the following to be food faddists: Sylvester Graham (of Graham cracker fame), Horace Fletcher (who advocated thorough chewing of each bite of food), Bernard [sic, Bernarr] Macfadden ("the self-acclaimed king of the physical culturists"), Henry Ford, John D. Rockefeller, and George Bernard Shaw.

Dr. Stare states that no vitamin or mineral supplement is needed by normal, healthy people who are eating a balanced diet. He also believes that many health food promoters are food faddists and quacks.

In the section on "Definitions" he refuses to define "organic foods" (short for organically grown foods) and "natural foods" in the commonsense way that they are defined by the industries that grow and make them. He deliberately defines "organic" in the chemical sense as "containing carbon," instead of as "grown without the use of chemical fertilizers, pesticides, or herbicides" or as "Organic farming is the form of agriculture that relies on techniques such as crop rotation, green manure, compost, and biological pest control, to maintain soil productivity and control pests on a farm."

Likewise he knows full well that natural foods are those which have had little or nothing added (additives) or removed (refining). So brown rice and whole wheat flour are natural foods whereas white rice and white flour are not. Address: Prof. of Nutrition, Harvard School of Public Health, Boston, Massachusetts.

2152. Superior Court of California, County of Riverside. 1977. Petition for special letters of administration. Indio, California. 4 p. 28 cm.

• ***Summary:*** Page 1: This petition concerns the estate of Paul Bragg, Case No. 39047. Name of petitioner: Patricia Pendleton Bragg, his adopted daughter, who intends to act as special administrator. Name of Patricia's attorney: Morton C. Devor, Esq., Los Angeles, California. Paul Bragg died on 7 Dec. 1976. Note: This petition is filed about 4 months after Paul Brags death. It was officially filed by the Riverside County Clerk on 23 March 1977.

Page 2: Contains a list of the current names and addresses of the "heirs, devisees, and legatees" in Paul Bragg's will. (1) Patricia Bragg, 66-299 West Eighth St., Desert Hot Springs, California; she is Paul Bragg's legally adopted daughter and an adult.

(2) Robert Elton Bragg, 301 South Catalina St., Los Angeles, California; he is Paul Bragg's son and an adult.

(3) Lorraine Agnes Chilson, 4222 Hilaria Way, Newport Beach, California; she is Paul Bragg's daughter and an adult.

(4) Neva Pauline Bragg Schulz, 6710 Hawaii-Kai Drive, Hawaii-Kai, Hawaii; she is Paul Bragg's daughter and an adult

Patricia Bragg's signature appears twice at the bottom of page 2.

Pages 3 and 4 are titled: "Attachment 3 (e): Grounds for special request for appointment of special administrator and requested powers." Patricia Bragg, the petitioner and executrix of Paul Bragg's Will will serve without bond.

"Some time prior to decedent's death, to wit, in or about June, 1976, an individual who at one time was in the employ of decedent, and whose name is James Cameron Gilroy aka Curtis J. Cameron, aka Jim Bragg and James Cameron Gilroy dba Bragg Properties, stole, appropriated, and converted to his own use certain personal property belonging to the decedent having a value of approximately $78,200.00. Said James Cameron Gilroy has been arrested for these wrongful acts and is now in custody of the Sheriff of Los Angeles County, California. Some of the personal property taken and converted by said James Cameron Gilroy have been traced to third parties and your petitioner is now in possession of taking whatever steps are necessary to regain as much of the personal property so taken as possible.

"It is necessary for your petitioner to file an action immediately in the Los Angeles County Superior Court, for claim and delivery or in the alternative for money damages for conversion, in order to either obtain return of the personal property taken by said James Cameron Gilroy or to obtain money damage for the value thereof."

Note: Paul Bragg died on 7 Dec. 1976. Patricia Bragg married James Cameron Gilroy on 31 March 1976 in Los

© Copyright Soyinfo Center 2021

Angeles, California. So this marriage took place while Paul Bragg was still alive and about 8 months before his death. If a "gold digger" is a woman who marries a man for his money, then James Cameron Gilroy appears to have been a male gold-digger–and an alleged thief–although he may have been exonerated. According to the California Dissolution / Divorce Index, an action to dissolve the marriage was filed in May 1976.

We have no idea why Patricia married Mr. Gilroy before Paul died, whether Paul was aware of it, or whether Paul attended the marriage ceremony.

James Cameron Gilroy died in July 1977 at the USC Medical Center in Los Angeles County; the verdict of "N. Palmer, Deputy Los Angeles County Coroner" was "Suicide" by "Acute Amitriptyline Intoxication" / "Ingestion of Overdose." LA County Death Cert. #035189.

In California Death Records on rootsweb / ancestry.com is the following for James C. Gilroy. Birth date: 12 Sept. 1954 in California. Death place: Los Angeles. Death date: 1 July 1977. Social Security Number (SSN): 561-96-4420. Age: 22 years. His mother's maiden name, father's name, and residence are blank–as if no informant who knew him was present when the death record was filled out. Note that he committed suicide at age 22! Address: 4050 Main St., Riverside, California 92501.

2153. Domowitz, Pat. 1977. Health food firm sues 5 retailers. *Hartford Courant* (*Connecticut*). March 23. p. 10B.
• ***Summary:*** "A Boston health foods distributor has sued at least five state health food retailers, charging them with violating federal antitrust laws by boycotting the distributor for selling to food cooperatives."

This week, Erewhon filed the suit at the U.S. District Court in Hartford. In a previous action, filed in Boston, Erewhon sued 15 other natural food stores in Connecticut and Massachusetts.

In its lawsuits, Erewhon charges that in about 1975 the retail stores began complaining about Erewhon's sales to food cooperatives, arguing that a distributor breaches "common basic loyalty" owed to the retailer by "selling directly to customers at wholesale prices."

Erewhon–a privately owned firm with sales of about $7 million a year–says the boycott started last year and has cost the company about 5% of its market.

Note: Erewhon eventually won this lawsuit, but its legal bills were so high that it could never pay them. This event marked the beginning of Erewhon's downfall.

2154. American Academy of Pediatrics, Committee on Nutrition. 1977. Nutritional aspects of vegetarianism, health foods, and fad diets. *Pediatrics* 59(3):460-64. March. [41 ref]
• ***Summary:*** Vegetarian and vegan diets can be adequate if selection of foods is varied. Discusses the excellent health, rarity of obesity, and lower serum cholesterol levels of vegetarians, and the serious hazards of Zen macrobiotic diets, and excess intakes of vitamins A, C, D, and E, and protein. Address: USA.

2155. Raymer, Patricia. 1977. Home juicers: Surveying the crop. *New York Times.* May 11. p. 52.
• ***Summary:*** Juice extractors are touted as veritable fountains of youth and renewed health. Although they are hardly household words today, they are finding their way into more and more kitchens. They are relatively expensive–$54.99 to $235–but are the only way to get fresh, custom-blended fruit and vegetable juices at home.

All but the Champion Juicer ($198.95) work on a centrifugal force principle. One long section is titled "Juicing tips" and another cites three books about fruit and vegetable juices.

Photos show the Acme Juicerator and the Oster Automatic Pulp Ejector Juicer, two of the more popular models.

2156. Allen, Robert F. 1977. Re: The motion picture "A Moment in Time." Letter to Mr. Howard C. Long, President, The Adelle Davis Foundation, 824 Moraga Drive, Bel Air, California 90049, May 25. 2 p. Typed, with signature on letterhead.
• ***Summary:*** "You have requested that I outline a series of steps and procedures to ensure the widest distribution possible for the motion picture, "A Moment in Time," which we recently produced for the foundation. I am pleased to make comments here in that regard." He proposes ten projects plus ideas for new motion pictures. Address: Primada Productions: Motion Pictures for Business and Industry (A Div. of Primada Communications Network), 2667 Orange Ave., La Crescenta, California 91214. Phone: (213) 248-2987.

2157. Modern Products, Inc. 1977. Gayelord Hauser: In France, England, Japan, Australia and the U.S.A. our Gayelord Hauser products are Number One (Ad). *Natural Food and Farming* (*Atlanta, Texas*) 23(12):10. May.
• ***Summary:*** For each of the following products there is a photo of the front of the package and a description: Spike (instant seasoning), Vege-Sal, New Vegit, Swiss Kriss (natural laxative), and Swiss Kriss tabs. Address: Milwaukee, Wisconsin 53209.

2158. Whelan, Kathy; Leviton, Richard; Timmins, Tom. 1977. Laughing Grasshopper Tofu Shop. LGTS, 3 Main St., Millers Falls, Massachusetts 01349. 6 p. Unpublished typescript. Undated.
• ***Summary:*** Starts with a brief biography of the three authors / partners.

"Richard and Kathy, natives of Massachusetts and wanting local but meaningful employment, founded

Corncreek Whole Grain Bakery in the spring of 1974. Since then, while other bakeries have come and gone, Corncreek has thrived and continues to grow, The bakery was established on a strong advocacy of using pure, organically grown ingredients, a reliance on hand-craftsmanship and minimal use of machines, and an abstention from any dairy or animal products in the baked goods. They have successfully restored bread-baking to the domain of handcraft in a smell commercial shop.

"Tom, a native of Iowa, now living in Brattleboro, Vermont, with his wife, Judy, and their three children, worked as manager of the Yellow Sun Natural Foods Coop in Amherst, Massachusetts, for 2½ years. His residiency there came during a formative period of struggle and growth in the now prosperous store. Following this, he spent over a year on the sales staff of Llama Trading Company, a natural foods wholesaler in Brattleboro. From his experiences both on the retail and wholesale level, he has catalyzed the distribution and use of wholesome foods all over New England.

"Together, we bring a strong commitment to health-giving foods, an ability to work hard to achieve a goal, and a practical background in transmuting ideals to reality in the business world."

Explains what tofu is and why they started a tofu shop (Right livelihood, world food crisis, educating the public), describes each ingredient used, and how tofu is made in the shop. The soybeans are ground in a Hobart VCM blender, then the puree is cooked in two 15-gallon stainless steel cooking pots, and the soymilk is curded with nigari in a 20-gallon oak barrel and the tofu is pressed in two hardwood settling boxes.

Attached to this document is a leaflet (single sided, 28 cm, brown on beige) titled "Laughing Grasshopper Tofu Shop." Address: Millers Falls, Massachusetts.

2159. Superior Court of California, County of Riverside. 1977. Inventory and appraisement: Partial No. 1. Indio, California. 4 p. 28 cm.
• ***Summary:*** On page 1: Case No. P 39047. The total appraisal is $204,000. Under "Signature of the representative" is the signature of Patricia Pendleton Bragg, dated Aug. 12, 1977. The appraiser is Dwight W. Mize, who signs to swear that the appraisal is true and correct.

Page 2: The second and final appraisement is $35,910.02 for a total of $235,222. Again the signatures of Patricia and Mize appear.

The last two pages are handwritten appraisals. The estate of Paul C. Bragg. California inheritance tax appraisal.

Partial Inventory #1. 51% interest in unimproved real property in Burbank, California. $204,000. Sold to Patricia Bragg 9-6-1977 for $231,000 9-6-1977.

Partial Inventory #2 & Final. (1) 3 bank accounts in California and Hawaii in Paul's name–$1,921.05. (2) Common stock in Paul's name, CAT&T, Castle & Cook, Texaco–$11,188.97. (3) Real property, San Diego County, California, in Paul's name–$2,800. (4) Two bank accounts, jten. [joint tenancy] with Patricia in Bank of America, Desert Hot Springs, CA–$1,922.87. (5) Unimproved real property, Los Angeles County, in joint tenancy with Patricia–$90,000.

(6) to (13) Unimproved real property in Riverside County, CA, in joint tenancy with Patricia–$3,400 + $12,000 + $2,500 + $2,500 + $25,000 + $2,000 + $67,900.

(14) House and lot, Riverside County, CA in joint tenancy with Patricia–$26,000.

Additionally Paul and Patricia owned Condominium Apt #1836 at the Ilikai Apartment Bldg., Honolulu, Hawaii, not taxed in California, but probably worth $40,000 at Paul Bragg's death. Address: Indio Branch, 46-209 Oasis St., Indio, California 92501.

2160. United Press International (UPI). 1977. FDA gives up its battle on 'megavitamin' doses. *Chicago Tribune.* Sept. 26. p. 7.
• ***Summary:*** "Washington [DC]–After four years of public dispute and court battles, the government has quietly dropped its attempt to require a doctor's prescription for high potency doses of vitamins A and D."

The FDA first proposed the restrictions in Oct. 1973.

The National Nutritional Foods Association (NNFA, which represents health food stores) and the Solgar Co. (a vitamin maker) filed a lawsuit against the FDA.

"The final decision came from the Justice Department, which told the FDA earlier this month that it will not appeal a court decision handed down June 7, that overturned the FDA regulations."

2161. United Press International (UPI). 1977. FDA loses battle to control vitamins. *Hartford Courant* (*Connecticut*). Sept. 26. p. 27.
• ***Summary:*** Quite similar to an article (with a slightly different title) published on this same date in the *Chicago Tribune.*

The National Nutritional Foods Association (NNFA, which represents health food stores) and the Solgar Co. (a vitamin maker) filed a lawsuit against the FDA.

2162. Shurtleff, William. comp. 1977. Large natural food distributors, health food distributors, and book distributors in North America. Lafayette, California. 1 p. Undated. Unpublished typescript.
• ***Summary:*** Most of the following companies are presently distributing *The Book of Tofu, The Book of Miso* and *The Book of Kudzu* published by Autumn Press. For each, the company name (listed alphabetically) and address are given:

Large natural food distributors (28): Arrowhead Distributing (Denver, Colorado), Beautiful Foods (Philadelphia, Pennsylvania), Cc Grains (Seattle, Washington), Chico-San Inc. (Chico, California), Clear Eye

(Rochester, New York; $3 million/year in sales), Dari Farms Natural Foods (Tolland, Connecticut), Eden Foods (Ann Arbor, Michigan; Phone: 313-973-9400. Tim Redmond, Michael Potter), Erewhon (Cambridge, Massachusetts; Phone: 617-354-2001. John Fogg, President), Erewhon West (Vernon, California; Phone: 213-582-6144. James Silver), Japan Food Corp. (JFC–South San Francisco, California; also in New York), Laurelbrook Foods (Raleigh, North Carolina), Llama Trading Co. (Greenfield, Massachusetts), Midwest Natural Foods (Ann Arbor, Michigan), Pure and Simple/The Well (San Jose, California; Pure & Simple changed to 1045 Pepitone, San Jose, CA 95110; Jon Hoefler), Rainbow Distributing (Denver, Colorado), Reality Natural Foods (Haleiwa, Oahu, Hawaii), Redwood Natural Foods (3245 Santa Rosa Ave., Santa Rosa, California; Greg Hartman. Phone: 707-546-5878). Rock Island Foods (Ignacio, California), Shadowfax (Binghamton, New York), Starflower (Eugene, Oregon), Tree of Life (Augustine, Florida), United Naturals (Eureka, California), Westbrae (Emeryville, California), Lifestream Natural Foods (Vancouver, British Columbia, Canada), Manna Foods (Scarborough, Ontario, Canada).

Large health food distributors (8–also carry books): Akin (Tulsa, Oklahoma), Akin Southeast (Jacksonville, Florida), Balanced Foods (Bergen, New Jersey), Collegedale Distributors (Collegedale, Tennessee), Foods for Health (Phoenix, Arizona), Health Foods Inc. (Des Plaines, Illinois), Kahan and Lessin (Los Angeles, California), Natures Best (El Segundo, California).

Large booksellers [distributors] (3): Nutribooks Corp. (Denver, Colorado), Bookpeople (Berkeley, California), Landstrom (South San Francisco, California).

Note: This is the earliest document seen (March 2020) that mentions "United Naturals."

2163. David, Elizabeth. 1977. English bread and yeast cookery. London: Allen Lane. xxii + 591 p. Illust. by Wendy Jones. Index. 22 cm. [161* ref]

• ***Summary:*** The section on "Miscellaneous bread flours" (p. 72-73) mentions soya flour, which can be used in much the same way as malted meal "and is regarded as a valuable enriching agent in bread dough." It can be purchased from health-food stores. "An emulsified form of soy bean extract is used in the bakery trade as a dough improver." Also mentions chickpea flour and buckwheat flour.

Olive oil is considered best for making bread or pizza. Alternatives are "sesame-seed, sunflower-seed, and tasteless arachide or peanut oil. Corn oil has its adherents" (p. 131).

Some wholewheat loaves sold in English health-food stores are decorated with sesame seeds (p. 146), but no sesame seeds or poppy seeds are called for in recipes in this book.

In the section on "Toast" (p. 540-45) is a long quotation from *César Ritz, Host to the World*, by Marie Ritz (1938, London: Harrap), which describes the origin of Melba Toast–about which Elizabeth David is skeptical for two reasons: (1) Escoffier did not invent, and never claimed to have invented, the method of slicing a piece of toast in half then toasting the untoasted sides. Miss Marian McNeill described the process in 1929. (2) Melba toast is now usually understood to consist of very thin slices of bread toasted or dried in an oven until they begin to curl. That is surely a much easier and better method "than all that slicing business."

Contains an excellent bibliography. Address: 24 Halsey St., London SW3, England.

2164. Deutsch, Ronald M. 1977. The new nuts among the berries. Palo Alto, California: Bull Publishing Co. viii + 359 p. Index. 22 cm. [260* ref]

• ***Summary:*** This is a follow-up to the author's 1961 work (revised in Feb. 1967) titled "The nuts among the berries: An exposé of America's food fads." The basic premise of both books is the same–That all popular books and people advocating health foods, natural foods, organically-grown foods, vegetarian or macrobiotic diets are nuts (crazy). The book is well researched but the tone is again that of an exposé of popular nutrition, one-sided and derogatory. There are two excellent bibliographies. The first, titled "Some controversial books in nutrition, contains 223 citations, listing almost every book ever published on the subjects noted above, including books such as *Diet for a Small Planet.* The second, titled "The factual resources for this book," includes 37 basic nutrition books, textbooks, and articles.

Contents: 1. The magical feast (Adelle Davis; Daisey Adelle Sieglinger). 2. Of cabbages and things (a brief history of "foodism"). 3. Mr. Graham bakes a cracker (Sylvester Graham). 4. Little men, little women, little food (Amos Bronson Alcott, Louisa May Alcott, and vegetarianism). 5. Water, water everywhere (The naturopaths, James Caleb Jackson, Ellen G. White, Father Kneipp). 6. Snap! Crackle! Enter Dr. Kellogg! (Dr. John Harvey Kellogg). 7. The battles of Battle Creek (Michigan and Seventh-day Adventists). 8. Life along the alimentary canal (Metchnikoff). 9. The jungle, the sausage, and the law (Upton Sinclair, Harvey W. Wiley, and the formation of the FDA). 10. Chew, chew Horace (Fletcher, Chittenden). 11. The bare torso king goes public (Bernarr Macfadden, Jack La Lanne, macrobiotics). 12. How to stop your cow from drooling (selling nutrition). 13. Eating for the hull of it (raw sugar, bran, fiber, and foodist or food extremist Alfred Watterson McCann). 14. The drinks are on the Hauser (Gayelord Hauser, macrobiotics). 15. Old proteinaceous Joe or Is there sex after dinner (Lelord Kordel, protein myths, and sex). 16. Mrs. Spratt's millions or Diet is a four-letter word (fat and dieting). 17. Protomania or Richard Nixon's diet revolution (high-protein diets). 18. Swing low, sweet glucose tolerance (hypoglycemia or low blood sugar). 19. How to sell a vitamin (Linus Pauling).

© Copyright Soyinfo Center 2021

20. My mother squeaked or How to write about health foods (popular health books and articles). 21. The red faced confession and other tales of food cures and law (fraudulent advertising, the FTC). 22. Quick, nurse! The bean sprouts! (unproven therapies and cures, megavitamin therapy). 23. Meanwhile, back at the organic ranch (Jerome I. Rodale). 24. Organic politics or Gloria Swanson goes to Washington (toxic chemicals in foods). 25. How the poison gets into your health food (Center for Science in the Public Interest, Gary Null, and other health promoters).

Let us examine one chapter, 13, titled "Eating for the hull of it." It was well known by the 1990s that dietary fiber was the one nutrient in shortest supply in the American diet, and that this shortage is the cause of many diseases, from simple constipation to various disorders of the digestive tract. Those advocating a natural foods diet argued that we should return to eating whole-grain bread, primarily for the dietary fiber it contains, but also for its extra vitamins and minerals lost in the process of making white flour. Instead of dealing with these important issues, the author spends most of the chapter ridiculing a "foodist" and "food extremist" named Alfred Watterson McCann (born in 1879) and a physician named Dr. William Howard Hay (who graduated in 1891 from the medical school of the University of the City of New York), and comparing the nutritional value of raw vs. white sugar. He also notes that before the Civil War, the wheat used to make most American bread was soft winter wheat. It was easily ground between stones, then "bolted" through a soft cloth to sieve out some of the larger bran particles–a process which Sylvester Graham "felt was against God's purpose." After the Civil War, Scandinavian and German emigrées moved into the virgin lands of Wisconsin, Minnesota, the Dakotas, and Iowa, bringing with them a new tough wheat–the hard spring wheat. When the millers began to grind and bolt it, they found that much of the valuable gluten stuck to the bran. "To leave the bran in the flour meant creating a product that only a Graham or an Alcott would buy; dark coarse in texture, and hard to chew. Not surprisingly, the public rejected it." The first solution was the "middlings purifier" first installed in Minneapolis in about 1871; the purifier used a blast of air to blow away the bran. The primary solution was the Hungarian Mill, or highmilling machine–which had 6-7 sets of porcelain or chilled steel rollers. Sylvester Graham, James Caleb Jackson, and others said it was "unnatural" to take the bran out of bread. "Dr. [John Harvey] Kellogg's protests, which began about the time that the new wheat and new milling methods arrived, were based on his belief in 'auto-intoxication,' which called for bran to 'sweep out' the intestines and clear away their 'toxins.'" Address: Popular scientific and medical reporter.

2165. Johns, Warren L.; Utt, R.H. eds. 1977. The vision bold: An illustrated history of the Seventh-day Adventist philosophy on health. Washington, DC: Review and Herald Publishing Assoc. vii + 208 p. Illust. Index. 29 cm.
• ***Summary:*** An excellent book, loaded with old photos, cartoons, illustrations, and other graphics. Contains a colorful and accurate history of the subject. Contents: Elmshaven: The little elderly lady of Elmshaven (Ellen G. White). Pills, potions, purges, and prussic acid [hydrocyanic acid]. Battle Creek: Will success spoil John Kellogg? (Dr. John Harvey Kellogg). Granola, Postum, Corn Flakes, and peanut butter (W.K. Kellogg, C.W. Post). That's a wonderful bargain, but we haven't a cent (David and Mary Paulson). Westward: Another Kellogg, another San (Saint Helena Sanitarium). Where koala bears munched gum tree leaves: Health reform leaps the Pacific (Work in Australia and New Zealand, Sanitarium Health Food Co. makes Granose Biscuits and Weet Bix). Ernest Lloyd remembers: Present at the purchase of Glendale Sanitarium (J.H. Kellogg, Harry Miller, David Paulson). Loma Linda: The resurrection of Lonesome Linda: New medical center gets off to a very shaky start (Loma Linda Sanitarium and College of Medical Evangelists). "They have gone and done what I told them not to" (American Medical Assoc., Percy Magan and Sutherland).

Photos show: Ellen G. White (p. 8, 11, 14). Ann Stanley Kellogg and John Preston Kellogg, the parents of John Harvey and Will K. Kellogg (p. 23). John H. Kellogg (p. 36, 38, 48, 52, 60, 68-71). Dr. James Caleb Jackson and Dr. Russell T. Trall (p. 40). The Western Health Reform Institute (p. 46, 49). Battle Creek Sanitarium (p. 56). Graph showing yearly patronage of the Battle Creek Sanitarium, 1866-1939. It grew from 53 patients in 1866 to a peak of 7,462 in 1926, then fell to 3,283 in 1935, and rose back to 3,691 in 1939. W.K. Kellogg (p. 74-80). Sydney, Australia, Sanitarium (p. 126). Sanitarium Foods Labels (Australia) including Gluten Meal (p. 142-43). Paradise Valley Sanitarium (California, p. 158-59). Percy Magan (p. 188, 201).

A bar chart (p. 73) shows yearly patronage of the Battle Creek Sanitarium from 53 people in 1866, to 1,174 in 1886, to a local peak of 7,034 in 1916, to an all-time peak of 7,462 in 1962; by 1939 yearly patronage had declined to 3,691. In "1933 the institution went into receivership. The Federal Government eventually turned it into an army hospital." Address: 2. Freelance writer and editor, Wrightwood, California.

2166. Edwards, R.A. 1978. Social and legislative constraints [on soy protein foods]: The Australian situation. In: American Soybean Assoc., ed. 1978. International Soya Protein Food Conference, Proceedings. Hudson, Iowa: ASA. 136 p. See p. 12-13.
• ***Summary:*** There are somewhat less than 200,000 vegetarians in Australia, mostly Seventh-day Adventists, Hindus, and Jains. Their dietary needs have been met for the

© Copyright Soyinfo Center 2021

last 40 years by the Sanitarium Health Food Company, which is owned by the Adventist Church. Their meatlike products include Nutmeat, Rediburgers, Vegecuts, and Vegelinks. Initially the protein in these foods came exclusively from nuts, then wheat gluten was added, and more recently they have also included low-fat soy flour imported from the USA. The company imports texturized soy protein products and also makes their own, but they have found that their traditional untexturized vegetable protein foods outsell TVP by a factor of 50 to 1. Sanitarium appears to be the only supplier of non-meat protein foods to Australian and New Zealand consumers, presumably because the market is not big enough to attract a second company of the type.

As far as the author knows, the only Australian manufacturer of TVP other than Sanitarium is Griffith Laboratories, which makes an unflavored TVP for the very large and lucrative pet food market; they also make a low-fat soy flour.

In Australia, heart disease is the most serious disease, accounting for more than 30% of all deaths. With health professionals advocating a reduction in animal products, total fats, saturated fats, and cholesterol, and with the increasing awareness during the last few years of the relation between nutrition and health, "it would seem to me to be an opportune time to give the marketing of soy bean products a deeper and more searching examination than the superficial approaches that have been taken in the past." Address: Prof., School of Food Technology, Univ. of New South Wales, P.O. Box 1, Kensington 2033, Australia.

2167. *Sunset* (*Menlo Park, California*). 1978. This delicious fruit cheesecake isn't cheesecake... it's *tofu* cake. 160:134. Feb.
• ***Summary:*** "Make your friends guess why this banana-pineapple cheesecake is so smooth and creamy. Instead of cream cheese, it's made with tofu, or soybean curd: high in protein, low in cholesterol, and only about 200 calories a serving. It's actually good for you, and the subtle flavor blends well with the sweet bananas and pineapple." Gives a recipe for Tofu banana-pineapple cheesecake. It has a graham cracker crust and contains 2 eggs and ½ cup packed brown sugar. The ingredients are pureed in a blender, and the cake is baked.

2168. Declaration of Patricia Bragg re ownership of joint tenancy property and other real property owned in part by the decedent. 1978. Los Angeles, California. 1 p. March 16.
• ***Summary:*** This unsigned document is a declaration that Patricia Bragg (an adult) has been adopted by Paul Bragg. It begins: "State of California, County of Los Angeles.

"I. Patricia Bragg, declare as follows: I am the executrix of Paul C. Bragg deceased being duly appointed by the Riverside County Superior Court as Executrix. I am the adopted daughter of the decedent Paul C. Bragg being legally adopted by the Riverside County Superior Court, Indio Branch, by order of such court dated Oct. 10, 1957. My birthday is April 29, 1929.

"Contribution by declarant for acquisition of 49% undivided interest in real property located in Burbank, California on the corner of Olive Street and Alameda."

"Subsequent to the transfer by way of a gift from the decent to the declarant of such 49% of the issued and outstanding shares of stock of Live Food Products, Inc., the corporation known as the Live Food Products, Inc. was dissolved and all of the assets of this corporation, subject to all of the liabilities of the corporation were transferred by Paul C. Bragg deceased and to your declarant, 51% undivided interest being transferred to the decedent and an undivided 49% thereof being transferred to your declarant." Address: Alameda County, California.

2169. Clayton, Hugh. 1978. Soya takes over from the cow. *Times* (*London*). May 23. p. 3, cols. 6-8.
• ***Summary:*** The article, written in a negative tone, begins: "Soya technology, which has already brought us beefless steak pudding and meatless mince, has taken another step forward." The International Health Foods Exhibition in London opens today. Itona Products, of Wigan, Lankashire, has a stand where they are sampling: Milkless rice pudding, "made from brown rice, unrefined sugar, and a milklike liquid made from soya-beans." It retails for about 28*p.* for a 10 oz. tin, or about twice as much as its dairy milk counterpart. Sold in health food shops instead of supermarkets, it "conjures up instant memories of bleak school meals." Mr. Jeff Hampson, managing director of Itona, was present at the company's stand "amid soya biscuits, soya milk 'that has never even seen a cow' and packets of soya that can be used to make something that looks and tastes like a fishcake." It is called "C Food." Itona "also introduced a small packet of roasted and salted soyabeans for sale as a casual snack," as well as a coffee substitute.

Itona now produces about "2,000 gallons a week of 'milk' made from soya flour," a tiny amount compared with the millions of gallons of real milk from Britain's cows. "Yet the health business remains one of the most buoyant in the food industry because of the new interest in unprocessed food..."

2170. Helfex. 1978. Helfex '78. Royal Lancaster Hotel, London (Ad). *Alive* (*England*). May. p. 27-28.
• ***Summary:*** "International Health Food Exhibition. 23 May–24 May." "Helfex is an exhibition sponsored by the British Health Food Trade Association."

"This year's exhibition will be opened by Lord Mountbatten at midday on Tuesday, 23 May. It is believed to be the first time a member of the Royal Family has so honored the health food industry."

2171. Shurtleff, William. comp. 1978. Mailing labels of companies buying large quantities of *The Book of Tofu*, and *The Book of Miso* from Autumn Press. Lafayette, California. 1 p. Undated. Unpublished typescript.
• ***Summary:*** Mailing labels (including the company name, purchaser or key contact person, and address) are given for the following companies: Erewhon, Inc. (Cambridge, Massachusetts), Nutri-Books Corp. (Denver, Colorado), Lifestream Natural Foods (Richmond, BC, Canada), Manna Foods (Scarborough, Ontario, Canada), Midwest Natural Foods (Ann Arbor, Michigan), Nature's Best (Torrance, California), Laurelbrook Foods (Bel Air, Maryland), Feather River (Bellevue, Washington), Arrowhead Mills (Denver, Colorado), Llama Trading Co. (Greenfield, Massachusetts), Reality Natural Foods (Honolulu, Hawaii), Tree of Life (St. Augustine, Florida), Eden Foods (Ann Arbor, Michigan), New Leaf Distributing Co. (Atlanta, Georgia), East West Journal (Brookline, Massachusetts), Mother Earth News (Hendersonville, North Carolina), Bookpeople (Berkeley, California), Landstrom (South San Francisco, California), Health Foods Inc. (Des Plaines, Illinois).

A single-letter code, A through D, appears in the upper right corner of each label. A = Biggest buyer. B = Second biggest buyer, etc. Erewhon and Nutri-Books are the two biggest buyers. Address: Lafayette, California.

2172. Vita Mix Corp. 1978. Stop wasting food, time, energy, money. Save! Make bread. Total juices, hot soups... (Ad). *Workbasket* (*The*). Oct.
• ***Summary:*** This large ad features a photo of a "Super 3600 Stainless Steel Vita-Mix Breadmaker," with a whole orange, apple, carrots, etc. being fed into "patent 'splash guard action dome"® at the top to make "Total Juice"®. Address: "3600" Div., 8615 Usher Rd., Cleveland, Ohio 44138.

2173. **Product Name:** Health Food Store Soybean Oil.
Manufacturer's Name: Kahan & Lessin.
Manufacturer's Address: Compton, California.
Date of Introduction: 1978.
Ingredients: Soybeans.
Wt/Vol., Packaging, Price: Bottle.
New Product–Documentation: Schreiber & Fillip. 1978. Whole Foods. Aug. p. 20-21. "Edible oils: The cold facts on 'cold pressed.'" This oil is bottled and labeled "cold pressed" by Sona Food Products.

2174. **Product Name:** Sanitarium Health Foods Bologna (Canned Frankfurter Flavored Loaf).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, Sydney 2076, NSW, Australia.
Date of Introduction: 1978.
Ingredients: Wheat protein, vegetable oil, yeast, soy protein, salt, Savex, hydrolysed vegetable protein, rice, garlic, onion.
Wt/Vol., Packaging, Price: 430 gm can.
How Stored: Shelf stable.
New Product–Documentation: Letter from Sanitarium Health Food Co. 1981. Label. 10 by 4 inches. Full color. Photo shows a cylindrical Bologna loaf on a bed of rice and mushrooms. "Vegetable Protein–Ideal for salads, casseroles, sandwiches, etc." Recipes for Spanish Salad and Bologna Contadini.

Letter and Label sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1978.

2175. **Product Name:** Sanitarium Health Foods Vita-Burger (Flavoured T.V.P.).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, Sydney 2076, NSW, Australia.
Date of Introduction: 1978.
Ingredients: Soy flour, salt, hydrolysed vegetable protein, flavouring, syrup, caramel.
Wt/Vol., Packaging, Price: 200 gm box.
How Stored: Shelf stable.
Nutrition: Protein 50%, moisture 8%, ash 8%, fibre 3%, carbohydrate 30%, fat 1%.
New Product–Documentation: Letter from Sanitarium Health Food Co. 1981. Label. Box. 13 by 9.5 inches. Full color. Photo shows 7 burgers in tomato sauce in a skillet. "Textured Vegetable Protein. Main course vegetable protein. Ideal for patties, burgers, casseroles." Recipes for Spaghetti Sauce and Vita-Burgers (hamburgers).

Letter from Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1978.

2176. **Product Name:** Sanitarium Health Foods Pelletized Flake Biscuits.
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, N.S.W. 2076, Australia.
Date of Introduction: 1978.
New Product–Documentation: *Soybean Digest Blue Book.* 1978. p. 26.

2177. Hewitt, Edward R. 1978. Lecithin and health. Denver, Colorado: Royal Publications, Inc. 20 p. 17 cm. Series: A Nutri Book. 1st ed. 1957.
• ***Summary:*** The author's attention was first directed to lecithin in 1891 when he was a student in Berlin, by Geheimrath Rouleoux, the most distinguished physiologist of Germany at that time. Rouleoux was investigating the effects of lecithin on human physiology.

The copyright page states: "Copyright 1957, Copyright Revised Edition 1978, 20th printing 1982. Distributed to retail stores by The Nutri-Books Corp., Box 5793, Denver,

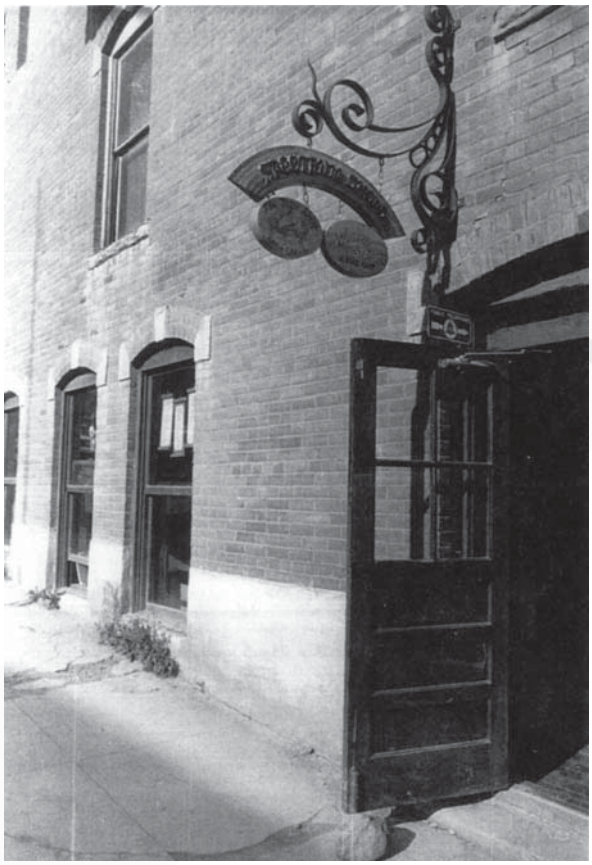
Colorado 80217.

In 1978 the height of the book was increased to 17.2 cm from the original 15.2 cm and the font size was made larger. A new Appendix was added starting on page 16. This Appendix begins:

"Adelle Davis, the well-known Consulting Nutritionist and author of several important books on nutrition gave a lecture which dealt with the subject of keeping the human heart 'young.'

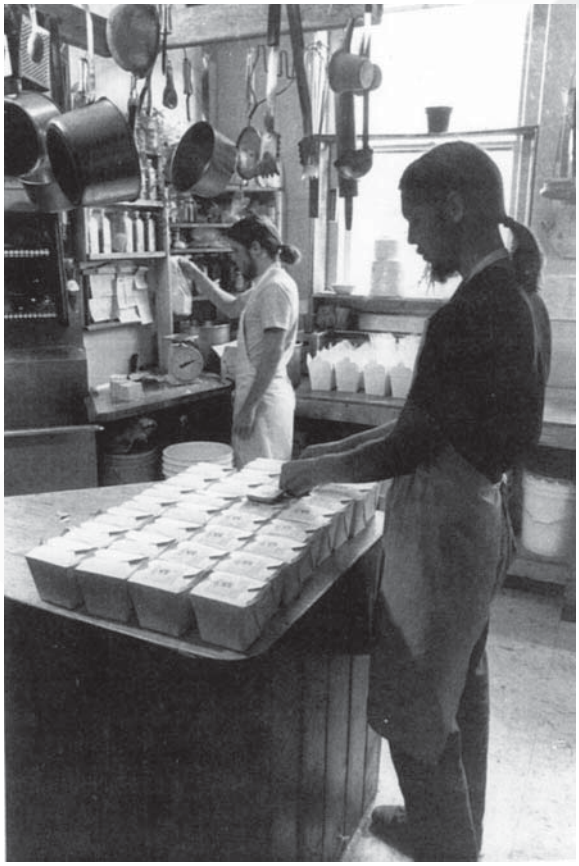


"In this lecture, we find several interesting observations on the significance of lecithin in conjunction with atherosclerosis. This illness is caused by the blocking of the arteries with cholesterol deposits." Address: USA.

2178. Mortimer, Robert; Mortimer, Charles; Eberhardt, Suzanne; Mortimer, Mary Ellen. comp. and ed. 1978. The menu guide of Los Angeles. Pacific Palisades, California: Corm Enterprises. 191 p. Illust. No index. 28 cm.
• ***Summary:*** Contains copies of menus from Alice's Restaurant (not vegetarian), The Golden Temple (Yogi Bhajan, vegetarian, 7910 W. 3rd St., Los Angeles), The Source (vegetarian, 8301 Sunset Blvd., Los Angeles), etc.

The Source (p. 155-59): This attractive undated menu, handwritten in calligraphy with a decorative illustrated border, is from the famous vegetarian restaurant started in 1969 by Jim Baker (Yahowa). Only two pages from the larger menu are shown: Breakfast (incl. Soy or whole wheat pancakes). Beverages (Large selection of juices squeezed to order, large or small, coffee, tea, milk). Juices (Fresh squeezed to your order, incl. Fruit smoothie, carrot, celery, lemon slush). Desserts (incl. Cheesecake, Ice cream, Coffee cooler, Date shake, Carrot cake, Rice pudding).

Note: This menu may have been printed in 1969, when The Source Restaurant opened. The restaurant's mystical name and symbol, with many esoteric signs, appears on p. 158. Address: Pacific Palisades.



2179. Photographs of the Telluride Tofu Shop in Telluride, Colorado. 1978. Telluride, Colorado.
• ***Summary:*** Fourteen black-and-white photos (each 3½ by 5 inches), numbered with captions, were sent to Soyfoods Center on 24 Sept. 2002 by Matthew Schmit, founder and owner of the Telluride Tofu Shop. The photos themselves were all taken in 1978. They show: (1) Sign above entrance on Oak Street to Spectrum Shops: The Tofu Shop and Winter Stash food co-op. (2) Restaurant with "Tofools" eating and hanging out. (3) View of the "kitchen" with cutting board, pots, and shelves. (4) "The Tofools" (16 people) standing under sign in front of Oak Street entrance. Incl. Catherine Peterson, Christie Mather (front row, third from left), and Matthew Schmit (in far back). (5) Packing the day's tofu in kitchen. Matthew Schmit (front, with beard and ponytail). Joel Rosenblum (back). Forming boxes of tofu were pressed on cutting board by Joel–who later worked for White Wave

2183. *Hartford Courant* (*Connecticut*). 1979. Natural health food group to meet. March 14. p. 44.
• ***Summary:*** "Wethersfield [Connecticut]–The National Natural Health Food Association will meet Thursday at 7:30 at Town Hall. Dr. John Youmanitis will speak on food additives and preservatives and fluoridation in the water supply."

Note: The name of this group is probably written incorrectly. It might be the "National Nutritional Food Association."

2184. **Product Name:** Tofu.
Manufacturer's Name: Soy Bean Factory (The).
Manufacturer's Address: 56 Sophia St., 1st Floor, Surrey Hills, NSW, Australia.
Date of Introduction: 1979 April.
New Product–Documentation: Shurtleff & Aoyagi. 1978, Dec. *The Book of Tofu* (Ballantine pocketbook edition). "Appendix B: Tofu Shops and Soy Dairies in the West." p. 400. Owners: Marcea Newman and Yoshiko Wright.

Fenwick & Oakenfull. 1981. (Manuscript received 19 May 1980). Tofu was received from The Soy Bean Factory, Surrey Hills, New South Wales. Soyfoods Center Computerized Mailing List. 1981. Jan. 22. Owner: Marcea Weber & Yoshiko Wright.

Martha Wagner. 1981. Soyfoods. Summer, p. 11. "Soy down under." "Marcea Weber owns The Soybean Factory located just outside of Sydney, Australia... Marcea, originally from New York, began her tofu business three years ago, about a year after arriving in Australia from England..."

Letter from Ken Alexander of Daylesford, Australia. 1982. Oct. 21. Marcea Weber is working on a small scale in Sydney for a relatively "innocent" market.

Letter from Marcea Newman Weber. 1995. Feb. 12. "The Soy Bean Factory was established in Dec. 1978, when Michael De Campo, Yoshiko Wright and Marcea Weber started a company devoted to producing traditional Japanese tofu using nigari (a sea water extract) as a coagulating agent. The fresh Japanese-style tofu began to arrive in the health food stores and Japanese supermarkets around April 1979." See this letter for a history of the company. Marcea thinks (but is not sure) that the name was originally spelled "Soy Bean Factory." She would guess that they first started to make and sell tofu in about March or April of 1979. Tofu was the only product they ever made commercially. The owners were Marcea Weber, Michael De Campo, and Yoshiko Wright.

Note: This is the earliest-known tofu shop in Australia.

2185. Hoang, Van Chi. 1979. Report to the Bureau of Industrial Guidance, FDA: Vietnamese soysauce. Its particularities and our manufacturing process. Bowie, Maryland: Vietnam Food & Drink Co. 4 p. May 25. Unpublished typescript on letterhead. 28 cm.
• ***Summary:*** Contents: Names of company director, plant manager, and technical board (in left margin). Bibliography: Translation into English of article on Vietnamese soysauce production found in *Khoa Hoc Thuong Thuc*, a scientific magazine published in Hanoi. The translation follows: General process (for making soysauce). Some differences between Chinese and Vietnamese soysauces.

Our manufacturing process: Ingredients to obtain 8 gallons of soysauce (Soybeans 10 lb. Rice 5 lb. Salt 5 lb. Sugar 5 lb. Water 5 gallons). Rice fermentation or "koji" preparation. Soybean fermentation or preparation of the brine. Preparation of soysauce. Packaging. The pH problem. The problem of oxydation [sic, oxidation]. Our request with FDA.

Vietnamese always prefer their own soysauce to the Chinese brand. After fermentation is over, the Chinese filter the product, taking only the filtrate to make their sauce, while discarding all the solid particles that remain. The Vietnamese, on the other hand, grind the whole product to obtain a sauce which is much thicker. The Chinese add *Lactobacillus* to the cooked soybeans to stimulate their fermentation. The Vietnamese roast their soybeans before cooking. Chinese like black soy sauce. To get that black color, they keep their soysauce in an open jar, exposed to the air for as long as three months; auto-oxydation turns the sauce black. Vietnamese prefer brown-colored soysauce. Vietnamese soybeans do not have a great tendency toward oxydation. Roasted soybeans and rice inoculated with *Aspergillus oryzae* are fermented separately. The finished koji has a pH of 4.0 (sample A1). During the soybean fermentation, if the temperature is maintained at 35-38ºC, the fermentation is complete in 9 days, with a pH of 5.0 to 5.2 (sample A2). "Fermented rice [koji] and fermented soybeans are mixed together, and salt and sugar are added. The whole mixture is then ground in an industrial blender and reduced to a thick paste" (sample A3). The pH of the final mixture is important since "Vietnamese customers have a traditional for a sweet and only slightly sour sauce." The addition of a few grams of vitamin C to each 8-gallon batch of soysauce helps to fight oxidation and prevent unwanted darkening of the sauce. The finished soysauce is poured into glass bottles (8 oz or 16 oz) and sealed with a cap. The company requests that the FDA consider this soysauce as a fermented food rather than an acidified food, and authorizes the company to keep its pH around 4.8–the same as some Chinese-style sauce made in the USA (sample A4).

Note 1. This is the earliest document seen (May 2014) concerning the work of Vietnamese with soyfoods or soybeans overseas (one of two documents). By June 1979 Hoang Van Chi was making Vietnamese soy sauce in Bowie, Maryland.

Note 2. The address of the company's factory is handwritten in red at the top left of page 1: 3824 Ironwood Place, Landover, Maryland 20785. Phone: (301) 322-7948.

2187. Blair, Betty. 1979. Kids get a taste of 'health food.' *Detroit News.* June 20. G-10.

• ***Summary:*** The Great American Nutrition Campaign visited Detroit last weekend, sponsored by the Center for Science in the Public Interest (CSPI). The breakfast menu featured some unusual but highly nutritious dishes; the unrivaled star was scrambled tofu. CSPI nutritionist Bonnie Liebman and staff member Letitia Brewster were at the breakfast with toys and posters, including the Junk Food Hall of Shame. They are teaching people that many inexpensive foods are tasty and nutritious. The whole campaign will cost only $30,000.

Carol Ann Huang, owner of the Yellow Bean Trading Co. (a natural food store and deli in Detroit) was in charge of food preparations. Recipes are given for two dishes served at the breakfast: Scrambled spiced tofu, and Smoothies. Address: News staff writer.

2188. Leviton, Richard. 1979. The soy delicatessen. *Soycraft* (*Greenfield, Massachusetts*) 1(1):12-18. Summer.

• ***Summary:*** See next page. Describes The Tofu Shop (Rochester, New York), The Soy Plant (Ann Arbor, Michigan), The Cow of China (Boulder, Colorado), and The Tofu Shop (Telluride, Colorado).

Photos taken at The Tofu Shop in Rochester show: Greg Weaver at the counter serving a woman (cover photo). The inside of the restaurant, including two women seated at a wooden table and the large menu on the wall in the back. A woman employee cutting vegetables in the kitchen. Another woman working in the kitchen. A close-up of the wooden menu on the back wall (with prices; * = organically grown), which offers: Deli: Tofu*, tempeh*, soy mayo, soysage, soy milk*. Salads: Deviled tofu, tempeh, tossed. Dips (with tofu): Onion, dill. Hot sandwiches: Tofu burger, tofelafel, sloppy joe tempeh, tempeh Reuben, temptation! Cold sandwiches: Deviled tofu, tempeh salad. Casseroles: Tofu-spinach pie, tofu Italiano. Soups: Miso, soup of the day. Sampler plate. Special of the week: Ginger garlic sauce over tofu, rice and sauteed vegetables. Desserts: Lemon cream pie, tofu carob-mint pie, chocolate-mint pie, gingerbread, peanut butter cookies. Drinks: Soymilk, herb tea*, vegetable juice*, apple cider, Bambu (a roasted grain coffee), Banilla shake (with frozen bananas and soymilk), carobanana. The deli case at White Wave. The outside of The Cow of China.

Note 1. This is the earliest document seen (June 2019) that mentions the use of frozen bananas to add thickness to a smoothie–a breakthrough idea.

"Matthew Schmit–proprietor of The Tofu Shop, in Telluride, Colorado, Juice Bar, Dining, Catering, Wholesale Kitchens, 'producers and suppliers of specialty foods for the western slope–operates a soy-based restaurant that seats about thirty people and has waiters and waitresses. The Restaurant, which opened in October 1977, and had gross sales last year of twenty thousand dollars, is open six days a week from 11:00 A.M. to 9:30 P.M. Matthew astonished me with the figure of one thousand dollars as the initial

© Copyright Soyinfo Center 2021

© Copyright Soyinfo Center 2021

capital investment for this business, which now produces 250 pounds of tofu for weekly wholesale distribution in addition to the flourishing restaurant.

"The menu, which features a stunning photograph of Rocky Mountains rising out of a misty valley, and which they use as a promotional brochure, delineates the fare: Entrees (Stir-fried tofu, Rice & vegetables; Soy burgers, Tofu burgers, Okara burgers, Grilled tofu & vegetables in pita bread, Guacamole & tofu, Spicy tofu & rice filling with guacamole for burritos); Smoothies (Carob-honey soymilk with banana, Carrot sunny shake); Beverages (Miso broth, soymilk, [soy] whey); and Salads (Tofu & guacamole salad, okara salad, tofu & vegetable salad)." Matthew explains the okara salad and whey.

"Matthew and his associates regard the tofu and soyfoods as an entrance into an expanded food processing line for their local market, a move that will lessen their dependence on only one or two products. Believing that every community should have its own fresh tofu, Matthew adds that 'everyone develops their own business according to the nature of their community.'" During the holiday season, Matthew's community created an exotic recipe for "tofu turkey." "Chunks of tofu are seasoned and basted, often carved in the shape of turkeys, and baked for an entire day"–after which "they taste exactly like turkey."

Page 15: "'Greetings from the Rocky Mountains! We maintain a soy delicatessen in Boulder called 'The Cow of China.' The 'Cow' serves as our retail outlet for White Wave Soy Foods. Some products sold at the 'Cow' are: Tofu, Soysage, Honey-Vanilla Soymilk, Carob-Maple Soymilk, Tempeh, 'Missing Egg Salad,' Tofu Mayonnaise, Sweet Bean Pie, Banana-Coconut Tofu Treat, Peanut-Carob Tofu Treat, Carob-Mint Tofu Treat, Mellow Miso, and Hearty Miso Salad Dressing.' According to Steve Demos–the 'beneficent dictator' (his own sobriquet) of a 'group working together,' and founder of White Wave–while these foods are made for wholesale distribution, the 'Cow' deli also processes soy into many other ready-to-eat items, such as Soysage Plate [Paté?], Miso-Tahini Sandwiches, Tofu Pizza, Tofu Spinach Dill Turnovers, Tofu Cinnamon Rolls, Hot Tofu Meatball, Sloppy Joe Sandwich (made with textured vegetable protein), Tofu, Cream Cheese, and Black Olive Sandwich, Tofuna (mock tunafish) Sandwich. And if this tour de force were not enough, the deli offers an assortment of cold drinks (juice and nut milks), baked goods (Strawberry Tofu Pie, Soy-Sesame Bars, Tofu Butternut Squash Pie), and cold salads (Bulgar salad, Hummus-Tahini, Carrot, Raisin, and Brown Rice Pudding).

"'Summertime seems to be the 'shot in the arm' that our retail business needed,' Steve remarks. 'We have now added Baked Tempeh Sandwiches, Herb Tofu Cutlet Sandwiches, Soy Coconut Cream Pie, Carob-Mint Creamies, Tofu Strawberry Pie and Tofu Peach Pie, to our menu. For salads, we have added Tofu Mayo Potato Salad and Marinated Tofu and Greens Salad and to conclude our list of new items, let me mention our ethnic variations on the tofu-spinach turnover. We now offer Indian Curried Tofu turnovers, Italian Tomato-Tofu turnovers, and Spicy Mexican turnovers.'

"Steve (with a gleam of triumph, knowing he has impressed me irreversibly with this cornucopia of soyfoods) adds, 'To help attract customers, the `Cow' is stocked with a variety of Japanese and American misos, sea vegetables, shoyu, kudzu, woks, cookbooks, crackers, jams, umeboshi plums, soba, udon, and ramen noodles.'

"The Cow of China, on Pearl Street, in Boulder, Colorado, is surely one of the nation's most ambitious and energetic soyfoods companies. In the shop itself, the three hundred square feet are divided off into two sections by a counter and display case, leaving a standing space of one hundred square feet for customers. Work tables and storage shelves are on the other side. In the front, the walls are lined with shelving containing crocks of miso, nut butters, and cookbooks. All packaging is hand-performed. Steve and his co-workers (fourteen) use pressure sensitive hot sealing for their tofu tubs and egg salad; the mayonnaise and salad dressings are packed in glass jars; the candies and soy dishes are cellophane wrapped, then heat-sealed on a hot-plate. 'It's totally unmechanized, to be honest with you,' Steve says, grinning.

"Steve Demos' original intention had been the establishment of a small traditional shop for which they rented space (three hundred square feet) in a retail section of Boulder; but within six months they had outgrown the shop's capacity for expanded production. Rather than lose the valuable retail location, they relocated the manufacturing facility in a three-thousand square foot warehouse and turned their retail space into a market channel for promoting their soyfoods. They spent their first year perfecting their product line, in developing high quality products that were palatable and tasty, and in announcing themselves to the public, through advertisements, graphics, and other promotional work. 'At the same time, it was a hell of a struggle,' Steve concedes, 'especially for an undercapitalized small business. But I certainly wouldn't discourage anybody because we started with nothing and we've been going since then and we have been able to make it all meet. We've jury-rigged, we've improvised, we've done everything imaginable, as I'm sure many other people in this industry have. We cut our salaries way back, we did without a lot, but its own momentum kicked in. So, let me express my gratitude to everybody and everything, seen and unseen, who have helped us pull this together.'

"Steve believes the best service his company can perform is to deliver wholesome soy products to his customers, taking maximum care in controlling the quality, so that their tofu, for example, will never sit on the shelf for more than two days before purchase. The regard for integrity permeates the company. 'We would like to promote

© Copyright Soyinfo Center 2021

ourselves as a strictly vegetarian food company. All our owners have been strict vegetarians for the past eight to ten years.'

"In the soy deli line there is a dizzying multitude of products waiting to be fashioned and Steve recognizes this as an unrelieved lure and temptation on the culinary imagination. There is an effort underway to concentrate and consolidate their efforts, to exercise judicious restraint, to avoid spreading out their base too far. 'I think that's the one risk that this approach really has, that you spread yourself so far out that you've overshot your means of supplying all your ingredients and in maintaining your product line. Our concentration now will be in constantly upgrading each product, not in terms of ingredients, but in their packaging, in their public appearance.'" Address: Sunrise Farm, 100 Heath Rd., Colrain, Massachusetts 01340.

2189. Minsky, Terri. 1979. Natural growth–Health-food chains, in a rapid expansion, cause some heartburn: Purity of goods questioned and some rivals claim unfair marketing tactics. Are any foods healthful? *Wall Street Journal.* Sept. 28. p. 1.
• ***Summary:*** In 1938, in the midst of the Great Depression, David Shakarian started a health food store he named "Lackzoom" in downtown Pittsburgh, Pennsylvania, in the warehouse district.

Today, Mr. Shakarian calls his 700 stores General Nutritional Centers; he owns them all. Two additional GNC stores open every week, and he plans to eventually own 6,000. In addition to wheat germ, honey, vitamins and other traditional health foods, he also sells "sea-salted toasted soybeans," natural fruit juices, and other items that bring in revenues of $200 million/year. GNC's biggest competitor is the 70-store chain of Nature Food Centres. Address: Staff reporter.

2190. *Boston Herald American* (*Massachusetts*). 1979. Are health foods really a panacea? Oct. 3. *

2191. Haddix, Carol. 1979. Health foods that are more than good for you: Turn health foods into class act. *Chicago Tribune.* Oct. 4. p. D1.
• ***Summary:*** These include bean sprouts, lentils, tofu, cracked wheat, bran, carob, and Graham flour (for whole wheat bread, biscuits, etc.).

Tofu is a Japanese word. The mild flavor of this bean cake makes it easy to add to just about any dish when you want to increase the protein content. Tofu adds an interesting texture and a little of its own flavor to dishes from stir-fried vegetables to noodle casserole. "We stir-fried tofu with bits of tomato, onion, and fresh basil and came up with a refreshing main dish that tasters raved about." It was also delicious with East Indian spices, such as turmeric, or scrambled as an alternative to scrambled eggs.

2192. Riker, Tom; Roberts, Richard. 1979. Directory of natural and health foods: A sourcebook for dietary revolution. New York, NY: Putnam (A Paragon Book). 320 p. Index. 37 cm.
• ***Summary:*** The first part of this book (p. 7-49) consists of essays on natural foods and nutrition (some reprinted). Part two is a commercial catalog/directory of natural foods available in 1979; it lists and describes (with may photos and labels) products from most of the major U.S. natural foods manufacturers. An Index (p. 293-308) lists participating companies alphabetically.

Soy-related products include: Hain Super-E Soy Oil and Crude [unrefined] Soy Oil (Los Angeles, California, p. 55). Health Valley Soy Moo (Montebello, California, p. 56). Edward & Sons Miso-Cup (Union, New Jersey, p. 57). Family Orchards Fruit & Nut mixes, incl. Back Packer+*, Hi-Fiber Mix+, Hi-Iron Mix+, Hi-Protein Mix+*, Hiker's Helper, Mixed Nuts*, Mountain Munchies*, Tamari Mixed Nuts* (+ = contains Soy Nuts; * = contains Tamari Peanuts) (Berkeley, California, p. 60-61). Niblack Tamari Pumpkin Seeds (Pepitas), Tamari Roasted Sunflower Seeds, Liquid Lecithin, Granular Lecithin (Rochester, New York, p. 72-73). Arrowhead Mills Unrefined Soybean Oil (Hereford, Texas, p. 75). Good Morning New England Granola incl. Cashew-Raisin Bran-ola (with okara soy fiber), Happy Trails Mix (with roasted soynuts) (Amherst, Massachusetts, p. 79). Elam's Soy Flour (Broadview, Illinois, p. 81).

A long section on Erewhon and its products (p. 84-108) is probably the reproduction of an Erewhon catalog. Erewhon is now located at 3 East Street, Cambridge, MA 02141. Following several pages about the company and its philosophy and standards, each of its major products is discussed in detail, often with nutritional analyses. A label for Soy Flour (organically-grown stone-ground, 24 oz.) is shown; the main recommended use is for making soy milk! A major part of the presentation is titled "Japanese food guide." Products described include: Umeboshi (2 pages): Plums pickled in brine (umeboshi). Umeboshi paste. Plum concentrate (*bainiku ekisu*). Miso (2 pages): Hatcho, waka-Hatcho, soybean, barley, brown rice, rice, and natto miso varieties. Tekka (made with Hatcho miso). Sweets made from mizu ame [rice syrup]. Nigari. Gomashio. Koji starters for various types of miso or shoyu. Goma-muso (60% barley miso and 40% whole sesame seed butter). *Gomamiso furikake* (with barley miso, whole roasted sesame seeds, and shredded nori seaweed). Kombu candy. Kokkoh. Dried tofu (*Kohya-dofu*). Brown rice sake. Mirin. Gluten cakes (*Kuruma-fu*). Seitan (Gluten cooked in shoyu). Rice crackers seasoned with tamari soy sauce. Kuzu (3 pages). Tamari and shoyu (4 pages; Johsen Shoyu is made in Sendai and tamari is made by San-jirushi Co.). Seaweeds (4 pages): Kanten, arame, hijiki, kombu, ne-kombu, nori, seasoned nori, kanten, kanten flakes, wakame, and mekabu.

2197. Nolan, Tom. 1980. The health-food restaurateur who decided to be God: Retrospect. *Los Angeles* (*City Magazine, Beverly Hills*). June. p. 128-40.
• ***Summary:*** A good biography of Jim Baker. The first health food restaurant started by Jim Baker (an ex-marine) and his second wife, Elaine, was the Aware Inn, which opened in 1958 in the heart of the Sunset Strip in Hollywood. The first customer to "wander in" was Greta Garbo, and she proved to be an omen." She was followed by Anthony Perkins, Steve McQueen, Warren Beatty, Paul Newman, even Marlon Brando. Cardini invented the Caesar Salad; Baker hired his daughter, Rosa Cardini, to develop his salad dressings. He bottled them and sold them in health food stores. Baker became a local celebrity.

His second restaurant, also named the Aware Inn, opened in Sherman Oaks. He sold it to his friend Al Kaiser.

Then Baker, who knew judo, killed a man with his bare hands. He had gotten involved with some woman. Her ex-husband got upset, and came over to Baker's place with a gun. A shot was fired and the ex-husband was killed. Baker was convicted of manslaughter, but the charges were later dismissed.

After his release [from jail], he opened another restaurant, the Old World, just a block east of the Aware Inn on Sunset Boulevard in Hollywood. It was conceived as a relaxing lunchtime oasis, where inexpensive, short-order organic food would be served in a French country-inn atmosphere.

© Copyright Soyinfo Center 2021

He took some time off, then in the late 1960s he opened The Source, his first solo venture, a vegetarian, organic restaurant which drew in the new rock n' roll people as well as the movie crowd; it was "one big party." John Sebastian, Donovan, Bob Dylan, Julie Christie, Crosby, Stills Nash & Young, and Joanie Mitchell.

Then everything changed when he met and became a disciple of Yogi Bhajan, the Sikh guru, who arrived in Los Angeles in 1969. Religious pamphlets began to appear on the tables, and meditative music appeared on the stereo. Then he moved en masse to Hawaii with his spiritual family. In 1974 Baker sold The Source, On 25 Aug. 1975 Baker died in a hang gliding accident off a cliff at Koolau Ridge, Makapuu Point, Oahu, Hawaii.

Photos show: (1) Baker in his 30s. (2) Baker in 1972 as Father Yod, looking like God is supposed to. (3) The symbol outside The Source Restaurant. (4) Baker in long hair seated next to a smiling woman

Talk with Akasha Richmond of Los Angeles. 2004. March 25. Her friend Richard Glasser (Baba Singh Khalsa), a disciple of Yogi Bhajan, ate at The Source. A scene from the Woody Allen movie *Annie Hall* was shot there. After about a year, Baker left Yogi Bhajan, grew his hair long, grew a beard, and became a swami/guru himself, with his own cult following–which included at least 12 lovely young ladies who lived with him in a house in Hollywood. They called him "Father." Address: Los Angeles, California.

2198. Recchia, Camille. 1980. Takoma Park changing: Influence of Seventh-day Adventists wanes before influx of newcomers. *Washington Post.* Aug. 10. p. B1.
• ***Summary:*** Takoma Park, Maryland, has long been the world headquarters of the Seventh-day Adventist Church. Thousands of Adventists, a group that is largely vegetarian and known to eat a healthy diet, live in the area. But today at a local health food store, "Adventist grandmothers buying soy bean curd and organically grown cantaloupes are outnumbered by young people who are only dimly aware of the church's connection with Takoma Park."

In addition, "the influence of the Adventists, who were once a dominant force in the town's politics, real estate, and commerce, is beginning to wane." Church leaders are becoming more sensitive to community issues and more willing to solicit and listen to the views of others. Address: Staff writer.

2199. Stuttman, Leonard M. 1980. Re: Answers to nine questions about soynuts. Letter to William Shurtleff at New-Age Foods Study Center, P.O. Box 234, Lafayette, California, Aug. 23–in reply to inquiry of Aug. 18. 2 p. Typed, with secretary's signature on letterhead.
• ***Summary:*** Shurtleff is writing an article about soynuts which he hopes to have published in *Soyfoods* magazine (it was published in issue No. 5, summer 1981). He asks Len Stuttman specific questions about his products and this article. The Stuttmans make Super Soys Roasted Soynuts and Soynut Granola.

With his answers Len encloses: Nutritional analyses of Super Soys by Wisconsin Alumni Research Foundation (WARF), yellow soybean standards, three photos of Super Soys in various packages, and the label of a Super Soys sample.

Before closing he notes: "I've experimented a bit with soynut butter per your suggestion. I have to add considerable oil in order to make it spreadable... Also the product is extremely bland."

Len also returns the edited manuscript with many interesting comments: (1) Soy Town, El Molino, and INARI make carob coated soynuts. (2) Len lived in India for 4 years; there other nuts, legumes, and grains are widely roasted in hot sand. Address: President, INARI, Ltd., 2331 Forest Rd., Lansing, Michigan 48910. Phone: (517) 882-3323.

2202. Conte, Mary. ed. 1980. Balanced Foods' 40th anniversary: Chronology. *Health Foods Retailing* 44(8):99-226. Aug. Special supplement / section.

• ***Summary:*** 1939–Balanced Foods (BF) is founded in New York City by "Doc" Shefferman, Samuel Reiser, and his brother Will Reiser. Its first location was in Manhattan (New York City) at 100 Fifth Avenue [between 15th and 16th streets] on the 17th floor of an office building. "Doc" Shefferman "had a degree in naturopathy and always advocated the benefits of good diet and nutrition. He was an associate editor for *Nature's Path* [published by Benedict Lust] and also wrote for *Better Nutrition* and *Health Foods Retailing.* 'Doc' authored *Foods for Longer Living* [1956], a well-received book on health and nutrition, and even found time to teach classes at the Lust College of Chiropractics... An early advocate of nutritious eating and a balanced diet, he was truly one of the industry's pioneers. He helped found the NNFA and was an active member of PELLL." He was "a gallant and gentle man who embodied the highest ideals of integrity, honesty and fairness." Sam and Bill Reiser were fresh out of college. American was in the midst of the Great Depression.

Sam Reiser recalls (p. 118, 122, 128, 182): "Balanced Foods was so small in the beginning that it was almost impossible to describe it as a business. Health foods was an infant industry. Everybody knew everybody in the industry. All the store owners went into it not to make money, not as a business, but to make health foods available to as many people as possible. But they frequently didn't know too much about business, or how to run a store, or manage finances." When Balanced Foods first started there were three health food stores "in New York City, one in Brooklyn, one in the Bronx–two in New Jersey, three in Philadelphia–perhaps 100 from Maine to Florida." "Doc" Shefferman "knew the industry intimately. He understood nutrition, was familiar with the products, and had been involved with health food lecturers and publications for 20 years. It's amazing how well the three of us worked together. We complemented each other. We each respected the other's talents and abilities." "We worked seven days a week for 15 to 18 hours a day." "Our first year in business we lost money. But from then on we grew little by little. It was a very rough struggle. Then came the war [World War II]. We were locked in with a lack of money. There was a shortage of merchandise and everybody wanted cash payments and cash was scarce." "Government quotas, which were based on the previous year's sales, were placed on many items... It was a very, very difficult period."

"Maurice 'Doc' Shefferman was a very quiet and dynamic man, noted for his quick wit, gentle humor and a great waxed mustache. It was his business acumen and knowledge of the health food industry that helped shape the basic philosophy of BF, Inc.; to provide special dealer services; offer quality products; and set a distributor standard–and select products to live up to it." "'Doc was also an accomplished musician and singer; he often performed on radio in a trio."

1940–Helen Hollinger joins BF as a bookkeeper.

1941 or 1942–BF moves across the street to 79 Fifth Avenue to get more space. "At that time orders were shipped via public carrier. Costs were 15 cents for 100 pounds, local, and 50 to 75 cents for 'over the road' destinations like Washington, D.C. and Pennsylvania. During this time dietetic foods boomed. People went to health food stores primarily for sugar-free and salt-free products."

1942–Balanced Foods starts the carry the original vitamin pills. "When vitamins first came out, they were strictly a health food item. When health food stores started doing well with them, the drug and department stores got into the field and took away the business completely... Only with the advent of Schiff and their natural vitamin line did we get back into the category" (Sam Reiser, p. 174).

1943–BF makes a big move into a 10,000 square foot loft at 304 East 64th Street in Manhattan.

1940s and 1950s–These are the days of the lecturer. They traveled around the USA, educated people, and promoted their own line of health food products. "They were great showmen." "After the lectures people would buy from the health food stores."

1947–Calvin Tynes becomes BF's first full-time truck

© Copyright Soyinfo Center 2021

driver, driving the company's the 1936 Ford delivery truck.

1951–BF moves into a new warehouse at 700 Broadway, a spacious two-level structure with offices on a mezzanine overlooking the warehouse floor; there was also a basement. The company remained here for 16 years.

1955 June 23–Balance Foods, defended by Milton Bass, wins an important lawsuit brought against it by the federal government.

1960-1965–90% of BF's business is now diet foods. Eventually most of that business went to the supermarkets.

1964 Nov. 14–Balanced Foods wins a second lawsuit (brought against it by the FDA) concerning the sale of books that promote certain products.

1967–BF moves to North Bergen, New Jersey, into a 50,000 square foot space in a giant 400,000 square foot warehouse. "Doc," Sam and Will and a handful of employees pack up the entire operation and made the move together. "As BF grew bigger and bigger it expanded simply by extending its space in the building. It also hooked into the warehouse's computer system.

1972–BF begins to expand into a national distributor by acquiring Northwest Dietetic in Kent, Washington–a suburb of Seattle–its first such acquisition.

1974–"Doc" Shefferman dies.

1975–BF expands further by acquiring Akin in Jacksonville, Florida and Tulsa, Oklahoma.

1977–William "Will" Reiser dies.

1977–BF moves into its own completely air conditioned public warehouse located in North Bergen, New Jersey, several blocks from the previous one. With this move, warehouse and office operations were geographically split; the warehouse (new) was located in North Bergen just three miles from the offices at 700 Grand Ave. in Ridgefield, New Jersey. Note: The offices were later moved to the same building as the warehouse. As of 1980: "Over 30 employees bustle about in the 10,000 square foot office, which is 10 times larger than the company's first office and warehouse combined.

1978–BF expands further by acquiring Midwest Natural Foods in Ann Arbor, Michigan.

1980 (today)–There are 7,500 retail stores nationwide and Balanced Foods with its affiliates sells to most of them. Of the 3 founders, only Sam Reiser is still living "to talk about the dream. But then its no longer just a dream. Now health foods is a thriving industry and Balanced Foods is the biggest health food jobber in America" (p. 114).

2203. Conte, Mary. ed. 1980. Balanced Foods' 40th anniversary. Ads. *Health Foods Retailing* 44(8):99-226. Aug. Special supplement / section.

• ***Summary:*** Continued: There are ads (mostly full page) from the following companies: Balanced Foods: A family of [five] companies (p. 100). KAL (Canoga Park, California, p. 102). 2212. **Product Name:** Tiger's Milk Nutrition Boosters [Plain, Natural Cocoa Flavored, Natural Carob Flavored, Natural Vanilla Flavored].
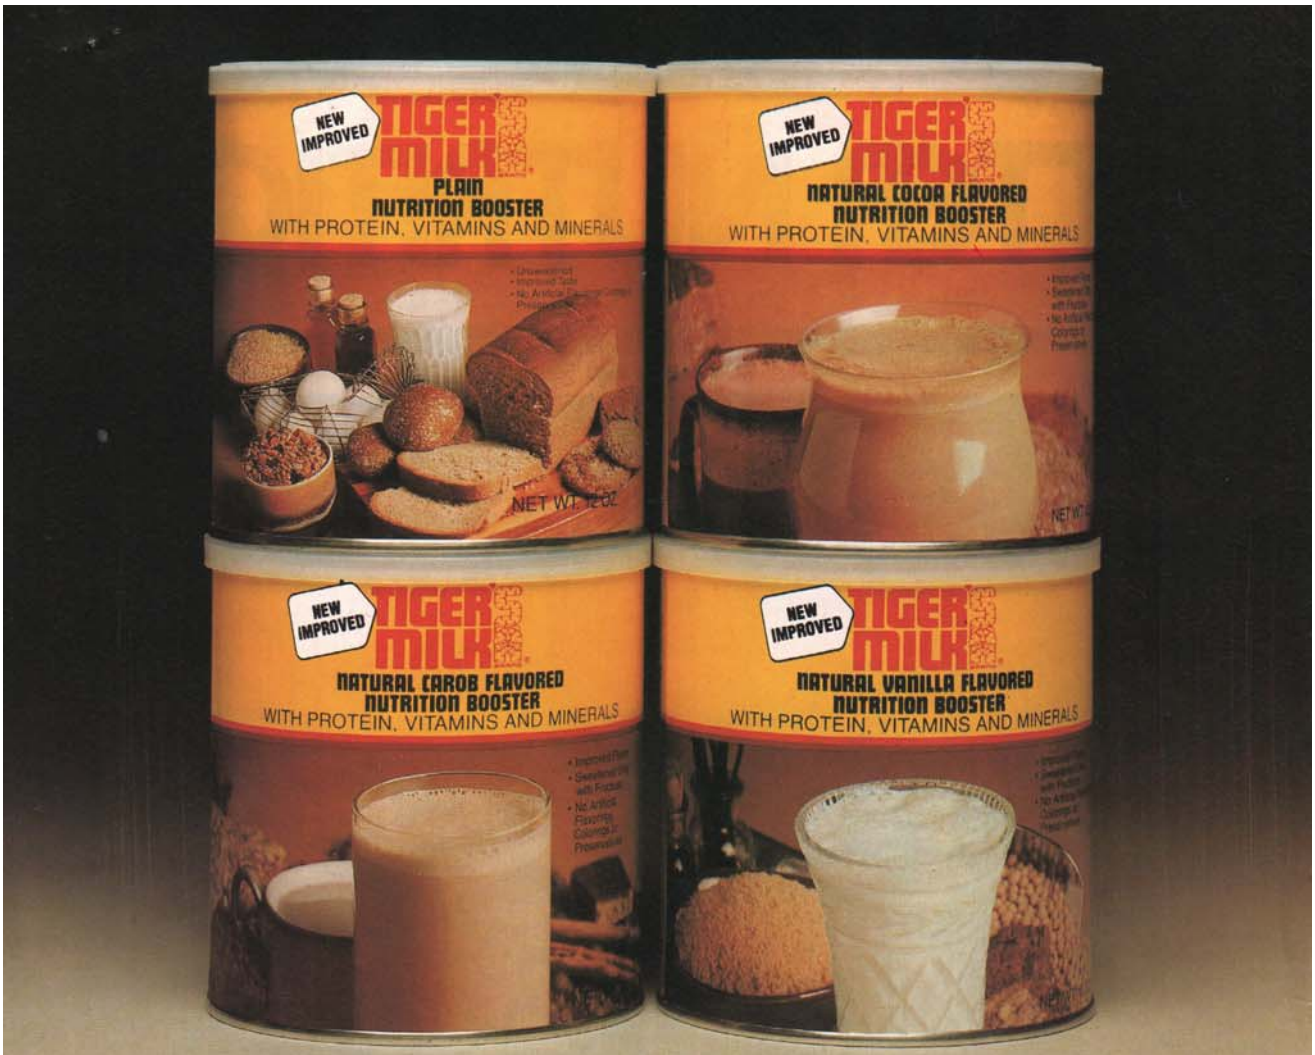
Manufacturer's Name: Plus Products.
Manufacturer's Address: Irvine, California.
Date of Introduction: 1980 November.
New Product–Documentation: See next page. Ad (full page, color) in *Better Nutrition.* 1980. Nov. Inside front cover. "We've just improved Tiger's Milk Nutrition Boosters from the inside out." Each product is new and improved with protein, vitamins, and minerals.

2213. *Soya Bluebook.* 1980-1994. Serial/periodical. St. Louis, Missouri: American Soybean Assoc.
• ***Summary:*** A directory and information book (general and statistical) for the soybean production and processing.



Titled *Soybean Blue Book* from 1947-1964; *Soybean Digest Blue Book Issue* from March 1965 to March 1972; *Soybean Digest Blue Book* from March 1973 to 1979; *Soya Bluebook* from 1980 to 1994.

In 1987 the *Soya Bluebook* contained seven major sections: Organizations (incl. Associations), Soy Directory (Crushers, Soyfoods, Industrial Products), Soybean Manufacturing Support Industries, Marketing and Auxiliary Services, Soy Statistics, Glossary, Standards and Specifications. Well indexed, with color maps. In the early 1980s the Bluebook started to include many more foreign soyfood manufacturers.

The book contains many tables, including: "World Soybean Production," which gives area and production in specified countries (1974-1980). In 1980 this included: North America: Canada, Mexico, United States. South America: Argentina, Brazil, Bolivia, Chile, Colombia, Ecuador, Paraguay, Peru, Uruguay. Europe: Bulgaria, France, Hungary, Romania, Spain, Yugoslavia. Soviet Union. Africa: Egypt, Ethiopia, Nigeria, South Africa, Tanzania, Uganda, Zaire. Asia: Burma, China (Mainland), Taiwan, India, Indonesia, Iran, Japan, Kampuchea [Cambodia], Korea (north), Korea (South), Philippines, Thailand, Turkey, Vietnam. Oceania: Australia. World total.

In early 1988 the American Soybean Association sold the *Soya Bluebook* to Soyatech, owned by Peter Golbitz. His first print run was 8,800 copies. Yellow pages were added. In Dec. 1989 Soyatech announced that in 1988 estimated readership was 10,265 in 55 countries. 33.6% of the buyers were soybean processors / manufacturers, 28.7% were importers, exporters, transporters or marketers, 15.0% were suppliers of soybean processing or handling equipment and manufacturing support services, 9.9% were consultants, booksellers, or periodicals, 8.7% were organization or government agencies, and 4.1% were colleges, universities, libraries, and information centers. By region, 64.3% were

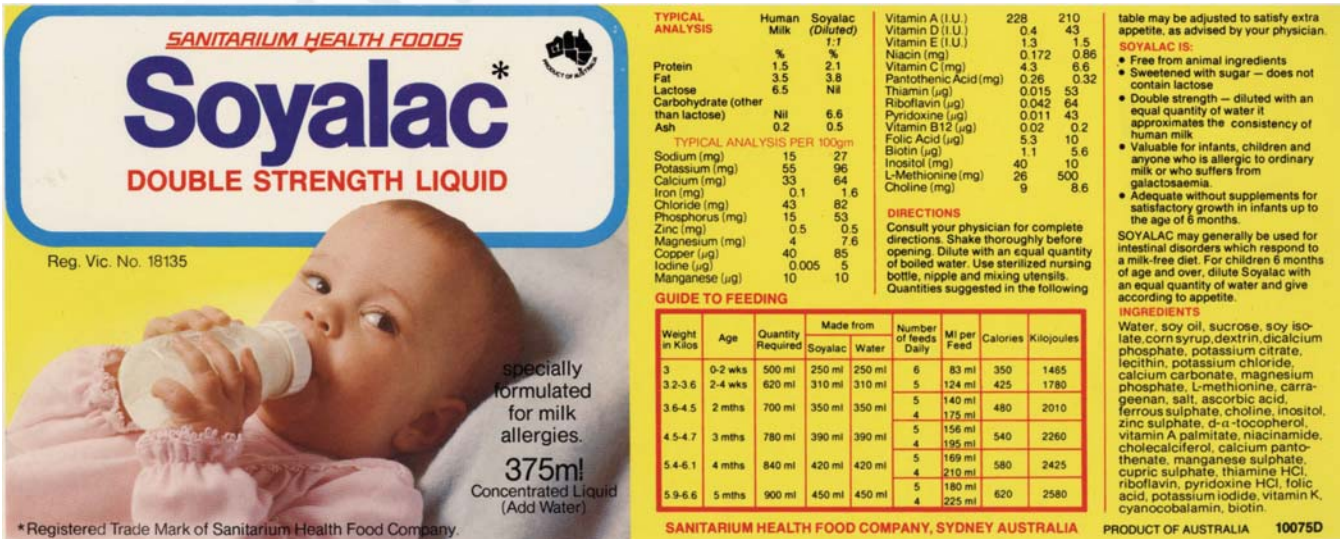
sold in North America, 15.2% in Europe, 9.1% in Asia / Pacific / Oceania, and 9.1% in Latin America.

The 1991 Soya Bluebook appeared in Aug. with a new larger (8½ by 11-inch) format and 264 pages. The indexing system is more complete and the pages are tabbed for easy access to each section. The "reference" section was expanded by adding nutritional information on soyfoods, a new chart of soyfoods products, and soybean oil trading standards.

Health Foods Business. 1992. Nov. p. 218. *Soya Bluebook* now reports its circulation to be 3,000.

Talk with Joy Froding of Soyatech. 1995. Jan. 12. The 1994 print run of Soya Bluebook was 2,300 copies. An estimated 4 people read each copy.



Price of the Soya Bluebook (1 book sent to USA, Canada, or Mexico): 1992 = $28 (if paid before June 1; $38 afterward). 1993 = Same price. 1994 = $38 (no prepayment discount; Available July 1994; this book has fold-out indexing tabs and 272 pages. The order form announcing the '94 Soya Bluebook states: "For 47 years Soya Bluebook has served as *the* noted information source for the world's soybean industry"). Starting in Jan. 1994 four issues of *Bluebook Update* are available free of charge to all who subscribe to or are listed in *Soya Bluebook.* 1995-96 = $38 ($48 after 1 June 1995; then in Nov. 1995 the price is raised to $58; incl. indexing tabs, 292 pages). This 1995-96 issue is titled "Soya Bluebook Plus: the annual directory of the world oilseed industry." Crops featured on the front cover are "soya, corn, cottonseed, palm, canola, rapeseed, and sunflower." Address: St. Louis, Missouri; Bar Harbor, Maine (After Jan. 1988).

2214. Itona Products Ltd. 1980. Itona health foods take the biscuit! (Catalog). Leyland Mill Lane, Wigan, Lancashire, England. 6 p.

• ***Summary:*** The following soyfoods are listed with photos of most labels: Golden Archer brand Soya Plantmilk, Brown Rice Pudding, Beanmilk Custard. Granny Ann brand High Fibre Biscuits, Noots (roasted salted soya beans), Noot Bar, Beanmilk Chunky Bar. Itona TVP, Beef flavoured mince, or chunks, Natural chunks, Tonabanga, Tonaburga, Tona 'C' Food (like seafood). Address: Wigan, England.

2215. **Product Name:** Sanitarium Health Foods Soyalac Double Strength Liquid (Soymilk).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, N.S.W. 2076, Australia.
Date of Introduction: 1980.
Ingredients: Water, soy oil, sucrose, soy isolate, corn syrup, dextrin, dicalcium phosphate, potassium citrate, lecithin, potassium chloride, calcium carbonate, magnesium phosphate, L-methionine, carrageenan, salt, ascorbic acid, ferrous sulphate, choline, inositol, zinc sulphate, d-alpha-tocopherol, vitamin A palmitate, niacinamide, cholecalciferol, calcium pantothenate, manganese sulphate, cupric sulphate, thiamine HCL, riboflavin, pyridoxine HCl, folic acid, potassium iodide, vitamin K, cyanocobalamin, biotin.
Wt/Vol., Packaging, Price: 375 ml can.
How Stored: Shelf stable.
Nutrition: Diluted 1:1: Protein 2.1%, fat 3.8%, carbohydrate other than lactose 6.6%, ash 0.5%.
New Product–Documentation: Soya Bluebook. 1980. p. 51. Letter from Sanitarium Health Food Co. 1981. Label. 10 by 3.5 inches. Full color with yellow background. Photo shows baby drinking from a bottle. "Specially formulated for milk allergies."

Approaches to Diet and Culture. Pleasantville, New York: Redgrave Publishing. viii + 433 p. See p. 327-63. *

2217. Lin, Ching-Fwu. 1980. Preparation of shrimp-flavored tempeh using a thermo-tolerable *Rhizopus* sp. T-3 isolated from Indonesia. In: Proceedings of the Oriental Fermented Foods. Food Industry Research and Development Institute, P.O. Box 246, Hsinchu, (300) Taiwan. iv + 229 p. See p. 167-79. Held 10-14 Dec. 1979 in Taipei, Taiwan. 8 tables. 3 figs. [20 ref]

• ***Summary:*** This T-3 strain of *Rhizopus* mold, which was isolated from indigenous tempeh collected on Bali island, grew vigorously even at 45ºC or more, and the stolon and sporangiophore were found to be larger than for any *Rhizopus* species listed in the "Taxonomical Studies on the Genus Rhizopus" by Inui et al. This mold produced abundant hydrolytic enzymes, such as acid protease, glucoamylase, lipase, cell separating enzymes and milk clotting enzyme in soybean substrate. The tempeh prepared by this mold after 18 hours fermentation at 30ºC–40ºC had the flavor of shrimp. The tempeh thus made was easily macerated into a single cell from slight blending in a blender.

"An improved procedure for preparation of tempeh using raw soybean as substrate is presented in this paper." Address: Inst. for Microbial Resources, Taiwan Branch, 100 Chien-Hsing St. East, Taichung, Taiwan.

• ***Summary:*** The long entry for Adelle Davis was written by James Harvey Young. A popular writer and lecturer on food and health, Davis was born 25 Feb. 1904 in Lizton, Indiana, and died 31 May 1974 at her home in Palos Verdes Estates, near Los Angeles, California.

"Adelle Davis, popular writer and lecturer on food and health, was born Daisie Adelle Davis in Lizton, Indiana, the youngest of the five daughters of Charles Eugene Davis, a farmer, and Harriet (McBroom) Davis. She later dropped the name Daisie because she associated it with cows and pigs. Ten days after the baby's birth, Harriet Davis became paralyzed; she died seventeen months later. This blow and the strict upbringing by her father, Davis later asserted, created a sense of loneliness and lack of self-esteem which only seven years of psychoanalysis, beginning in 1953, eventually dispelled. As a girl, Davis worked on the farm, learned to cook before learning to read, and won 4-H Club ribbons for baking and canning."

"Davis returned to California in 1931, launching a private consulting practice in nutrition which continued until 1958, for two years in Oakland, thereafter in the Los Angeles area. In 1939 she received an M.S. degree in biochemistry from the University of Southern California. From 1948 on she made her home in Palos Verdes Estates, near Los Angeles.

"Davis married George Edward Leisey, a surveyor ten years her junior, in 1946. An adopted son and daughter, George Davis (b. 1946) and Barbara Adelle (b. 1950), were given the Leisey name. This marriage ended in divorce in 1953, and in 1960 Davis married Frank V. Sieglinger, a retired accountant and lawyer.

"Davis's first publication was a 1932 promotional pamphlet for a milk company. There followed two privately printed tracts, *Optimum Health* (1935) and *You Can Stay Well* (1939), and a nutrition handbook, *Vitality through Planned Nutrition* (1942). Davis's public acclaim, however, rested on four books: *Let's Cook It Right* (*1947*), *Let's Have Healthy Children* (*1951*), *Let's Eat Right to Keep Fit* (*1954*), *and Let's Get Well* (*1965*). The four *Let's* books and their revisions sold ten million copies..."

2219. Wade, Carlson. 1980. Carlson Wade's lecithin book. Lincolnwood, Illinois: Keats Publishing Co. 112 p. No index. 18 cm. Series: A Pivot original health book.

• ***Summary:*** Contents: Lecithin–The life you save may be your own (lecithin alleviates atherosclerosis and acne). Introduction. 1. Lecithin–How it can revitalize your total health. 2. How lecithin can add years to your heart. 3. Cleanse and melt cholesterol with lecithin. 4. The "Dr. Rinse Lecithin Breakfast" for a longer life. 5. How you can enjoy your vim-vigor-vitality with lecithin. 6. How to "think young" and protect against senility with lecithin. 7. Questions and answers about lecithin. 8. Using lecithin for beauty. 9. Your lecithin cookbook (most recipes call for 2-6 tablespoons lecithin granules).

The following recipes also call for soybeans or soyfoods: Scrambled eggs: with ½ cup soybean mash [okara], packed. Soy bread: with 1½ cups soy flour. Soy chowder: with 2 cups cooked green soybeans. Soybean vegetable soup: with 1 cup dry soybeans. Soybean-corn-tomato casserole: with 2½ cups dry soybeans, cooked and drained. Cold bean salad: with 2 cups cold cooked soybeans. Green soybean salad: with 15-ounce can green soybeans, drained. Lemon soybean sprouts: with 5 cups soybean sprouts. Lecithin burgers: with 1 teaspoon soy flour and Enough soy milk to moisten. Meat loaf, with ½ cup soybean mash, packed (and 1¼ pounds ground beef).

The last paragraph states: "Use the preceding recipes as a tasty way to lecithin-nourish your body and mind every single day as well as using soy lecithin granules as a supplement. Lecithin can regenerate your total being."

Note: Although this book contains no references, it does cite sources in the text. For books, Wade cites the author and title, but never the year of publication or the pages on which the information is found. The books tend to be popular rather than scientific. For example: For scientific journals,

© Copyright Soyinfo Center 2021

Wade often cites the bare minimum: Journal name, year and month, but not the title or author of the article nor the pages on which it appears in the journal; for example (Geriatrics, January 1958).

The book also suffers from having no index.

2220. Howse, Eric. 1981. Seventh-day Adventist work with soyfoods worldwide (Interview). Conducted by William Shurtleff of Soyfoods Center, Feb. 12. 2 p. transcript.
• ***Summary:*** Howes was the International Director at the General Conference in Washington, DC, until he retired. Soyfoods are a rapidly growing component of Adventist food work worldwide. Discusses: Sanitarium Health Food Co. in Australia, DE-VAU-GE in West Germany, Granose Foods in England. A major new component is low-cost extruders making TVP. Address: 6471 Penn National Drive, Fayetteville, Pennsylvania 17222. Phone: 717-352-7239.

2221. John, Harrison W. 1981. Adventist food industries: Recent developments. *Spectrum: Journal of the Association of Adventist Forums* 11(3):28-36. Feb.
• ***Summary:*** One of the most informative articles ever written about Seventh-day Adventist food companies worldwide. "Ever since Ellen G. White's health reform message of 1863, Seventh-day Adventists have had a 'theology' of nutrition." In 1979 food sales for Adventist manufacturing and marketing companies totaled $188 million, up 95% over 1974 sales of $96 million, and up 3.68 times over 1970 sales of $51 million. The most successful company is Sanitarium Health Food Company in Australia. Sales for the 5-year period 1975-79 totaled $400 million. Their most popular product is read-to-eat "Weet Bix," a breakfast cereal that outsells Kellogg's Corn Flakes in Australia.

In Europe: Earned income figures for 1978 were impressive. DE-VAU-GE's income was $12.2 million (second only to Sanitarium Health Foods in Australia). Nutana's was $7.6 million ($10 million in 1979), and Granose's was $1.8 million. Nutana showed an impressive tenfold sales increase from 1973 to 1979.

Profit figures, however, were not impressive. In 1978 Granose lost about $295,000 and Nutana $5,903. DE-VAU-GE's profits were unknown. Granose had been a consistent money looser; between 1975 and 1978 it lost an average of $101,000 a year and its net worth decreased from $331,902 in 1975 to $113,515 in 1978. Thus in October 1979 Sanitarium Health Foods of Australia was asked to take over the management of ailing Granose. Loma Linda Foods in the USA has also had problems. Though 1978 sales were $11.7 million, they lost $390,000. In April 1980 management and control of LLF was transferred to Sanitarium of Australia. In about 1978 Granix in Argentina and Superbom in Brazil entered the vegetable protein market with TVP and are currently producing 700 tons/year. In 1976 a "World Foods Service Expansion Program" was started to finance expansion of food production into countries having serious nutritional problems. Low-cost extrusion cookers making TVP were a key part of this program. Address: Rockville, Maryland.

2222. Order fixing inheritance tax. 1981. Riverside County, California. 1 p. March 16.
• ***Summary:*** See next page. Attorney: "Irwin D. Goldring, Esq., 433 North Camden Dr. #770, Beverly Hills, Ca. 90210. Phone: (213) 273-7444.

"Attorney for: Patricia Bragg, 66 299 West Eighth St., Desert Hot Springs, Ca.

"Superior Court of the State of California, For the County of Riverside.

In the matter of the Estate of Paul C. Bragg, deceased. Date of death: December 7, 1976. Case No. 39047 (Handwritten: Transferred to Indio).

The bottom line: The inheritance tax to be paid by Patricia Bragg (since she is Paul Bragg's adopted daughter) has been reduced to $26,956. Neither Neva Pauline Bragg Schulz nor Lorraine Agnes Chilson (422 Hilaria Way, Newport Beach, Ca.) are required to pay any tax.

Note 1. Neva and Lorraine are Paul's daughters.

Note 2. An expert on Paul Bragg observes: Some adoptions are "adult adoptions," as opposed to the typical "child adoptions." It seems logical that Patricia Bragg's adoption had to do with California Inheritance Tax savings as Patricia was essentially the sole heir under his Will. Even with the adoption, Patricia had to pay $26,956 in inheritance taxes to the State of California; without it, it probably would have been thrice that much. Not a bad dollar savings for maybe a couple hundred dollars paid to an attorney back in 1957. And not a bad "business decision" as it turned out. Address: Alameda County, California.

2223. Barry, Ann. 1981. Flour: Which type to use for what. *Chicago Tribune.* March 26. p. W_A2 (or S_A2 or N_B2).
• ***Summary:*** The small section titled "Other flour" states: "Gluten flour has practically all starch removed... Other diet flours include potato starch, soybean, oat flour, rice flour, and corn flour. Some brands of diet flours are Cellu Goods, Golden Harvest, and Fearn Soya Foods, available in Chicago health food stores."

The last section, "Where to get natural flours," begins: "Stone-ground flour is milled the old-fashioned way, by stone rollers, which are often propelled by water power." Best to keep refrigerated: The name and address of the following sources is given: Arrowhead Mills (Hereford, Texas), El Molino Mills (City of Industry, California). Erewhon Trading Co. (Cambridge, Massachusetts), Grain Process Enterprises Ltd. (Scarborough, Ontario, Canada), Great Valley Mills (Bucks County, Pennsylvania), Shiloh Farms (Sulphur Springs, Arkansas), Vermont County

ORDER FIXING INHERITANCE TAX

Date of Death: December 7, 1976

DWIGHT W. MIZE, Inheritance Tax Referee

in the above-entitled proceeding, having filed a report dated September 27, 1979, notice of the filing thereof having been given by posting and mailing as required by law, more than ten days having elapsed thereafter, and no objection thereto having been filed,

IT IS ORDERED: Said report is confirmed, and in accordance therewith, the total inheritance tax due the State of California, the persons liable therefor, and the amounts for which they are respectively liable, are fixed as follows:

NAME AND RELATIONSHIP		AMOUNT OF TAX
LORRAINE AGNES CHILSON 422 Hilaria Way Newport Beach, Ca.	2,500.	Nil
NEVA PAULINE BRAGG SCHULZ	2,500.	Nil
PATRICIA BRAGG 66-299 West 8th St. Desert Hot Springs, Ca.	336,300.	26,956.
TOTALS	$341,300.	TOTAL TAX $ 26,956.

Store (Weston, Vermont), and Walnut Acres (Penns Creek, Pennsylvania). Address: Chicago.

2224. *Prevention* (*Emmaus, Pennsylvania*). 1981. A health food dictionary: Soybeans. March. p. 144-46.
• ***Summary:*** Soybean foods include soybean oil, tofu, tamari, soy milk, tempeh, miso, soybean sprouts, soy flour, soy ice cream, and soy nuts.

The article on "soybeans" ends: "Do yourself a favor. Get to know the soybean." Address: Emmaus, Pennsylvania.

2225. Bower, Lois. 1981. Mildred Lager: Recollections of her life and work (Interview). Conducted by William Shurtleff of Soyfoods Center, April 28. 2 p. typed transcript. [1 ref]
• ***Summary:*** Lois is Mildred Lager's stepdaughter, the daughter of Ed Jones' former wife before he married Mildred. Lois' mother died in about 1943-44, about 2 years before Ed remarried to Mildred. Mildred and Ed were married in 1946; Lois was about age 30 at the time. Mildred died in 1960; they were married for 14 years. She died of osteoporosis caused by cortisone or a cortisone derivative. She had been on steroid hormones because of her arthritis. She apparently used too much cortisone, and suffered from spinal collapse.

The House of Better Living was a health food store in Los Angels that published its own newsletter and catalogs, which were sent to a mailing list. Mildred also gave nutrition classes there. Lois has a guestbook from The House of Better Living, and she has newspaper articles about Mildred in Los Angeles plus several of Mildred's books, which she will send to Soyfoods Center.

Mildred's interest in nutrition started when she got rheumatoid arthritis. Her interest in soy developed after that. Mildred probably learned a lot about soy from Ed Jones, who was a health food jobber. He called on Mildred, and sold her various products, including soy products. Ed Jones also worked for T.A. Van Gundy. Ed could have known Mildred for as much as 10 years before their marriage.

Dorothea was Lois' 2nd stepmother. Mildred and Dorothea did NOT co-author the book. After Mildred died, Dorothea rewrote the book. After Lois' mother died, both Mildred and Dorothea were going out with Ed Jones; that was how they met. There was not a close relationship between Dorothea and Mildred; as competitors for the same man, they were cordial but not friendly. Ed chose to marry Mildred.

By 1946, when she married Ed, Mildred was no longer involved with her health food store or her radio program. She has a regular news column in the Los Angeles Times; she was very well known in her field.

Mildred was in a wheelchair when she was young. Lois does not know how long she had been in a wheelchair. Mildred's engagement to a young man was broken because of her illness. She had very painful, difficult years, but she had a tremendous spirit. "She was a tiny little thing, very slight, just skin and bones, but with a twinkle in her eyes. Always a laugh. A very pretty woman. She just forged ahead, with a brisk walk and a little swing of one leg–but no one would call it a limp. She was no longer crippled in her later years, so she conquered her disease. All the time she operated The House of Better Living she was on her feet. She was eager to help others."

How did others see her? "She was extremely likeable and friendly, but very thrifty, almost stingy. Her parents were immigrants from Sweden. She was rather sharp; nobody would take advantage of Mildred.

Mildred wrote *The Useful Soybean.* When Ed married Dorothea he probably said, "You know about soy too. Why don't you rework it and we'll re-issue it and keep it alive as a source of family income." Ed was at work selling those books long after Mildred died. Address: 825 Redbud Drive, Redding, California 96001.

2226. Cling Peach Advisory Board. 1981. Color recipe cards for tofu & peaches. P.O. Box 7111, San Francisco, California 94120. 6 color recipes. And 4 black and white.
• ***Summary:*** Each color recipe card, yielding typically 24 portions, is 5 by 8 inches, with a color photo, the recipe name, and a brief description on the front. On the back are ingredients, directions, and nutritional analysis of one serving. Color recipes are for: Cheeseless cheesecake with peach glaze, Double peach tofu pudding cups, Fruited tofu rice pudding, Peach banana tofu smoothie, Peach tofu whip (with soft tofu), and Tofu fruit 'n rice custard.

Recipes with black-and-white photos are for Tofu french toast with peaches, Peach tofu salad dressing, Peach tofu cobbler, and Tofu fruit gelatin salad combo. Finally there is a card titled "Tofu: What every foodservice operator should know."

The front of the card for "Peach Banana Tofu Smoothie" begins: "For inbetween mealtime snacks or instant meals, serve this Peach Banana Tofu Smoothie. It's a tasty, nutritious drink that's quickly prepared in a blender..." The recipe on the back reads: "Tofu, soft custard type–8 oz. Cling peach slices, drained–2 cups. Peach syrup–¼ cup. Orange juice–¼ cup. Banana, small–1. Honey–3 to 4 Tbsp. Almond flavoring–¼ tsp. Drain tofu; rinse in cold water and drain again. In a blender or food processor, whirl all ingredients until smooth. Keep refrigerated. Serve chilled."

2227. Holmes, Charlotte Van Gundy. 1981. Re: Mildred Lager, Ed Jones, and Dorothea Van Gundy. Letter to William Shurtleff at Soyfoods Center, May 9. 2 p. Handwritten, with signature.
• ***Summary:*** Mildred Lager "was certainly a go-getter. And she got Ed [Jones] the same way." "I will say Ed was good to his wives–tho' the first two were very sick." "Mildred was a

© Copyright Soyinfo Center 2021

Unitarian, yet Ed took her to the White Memorial Church on Sabbath, but she never accepted the [Seventh-day Adventist] faith. I believe she was quite crippled before she died & suffered greatly... Ed was 13 years older than Dot [Dorothea Van Gundy] when they married, so Mildred died at age 51 (?) and Ed was 19 years older than Mildred. Ed was 77 when he died in 1968–March. He was a twin."

Note: Mildred Lager died on 25 Jan. 1960 for various factors, but mainly from the increasingly large doses of steroid hormones, cortisone derivatives, she was taking to treat her severe arthritis. She also had severe osteoporosis at the time of her death. Address: California.

2228. *Toronto Star* (*Ontario, Canada*). 1981. Health food pioneer (Advertorial). June 30. p. B13. Advertising supplement.
• ***Summary:*** "If George MacMillan was not Canada's first health food entrepreneur, then today this 73-year old entrepreneur certainly makes it into the category of longest lasting.

"The MacMillan Health Centres located all over Toronto began back in 1939 when MacMillan rented a store behind the King Edward Hotel for $30 a month to sell celery and carrot juice.

"His business breakthrough came when a Syrian customer suggested he make and market yogurt and MacMillan's became the first store to put the yogurt into pint and quart containers for customers to take home."

2229. *Toronto Star* (*Ontario, Canada*). 1981. Many foods promote health (Advertorial). June 30. p. B11. Advertising supplement.
• ***Summary:*** "The subject of health foods opens a wide and complex canvas." What are they? Are they the same as "natural foods" and "pure foods"? Are they all organic?

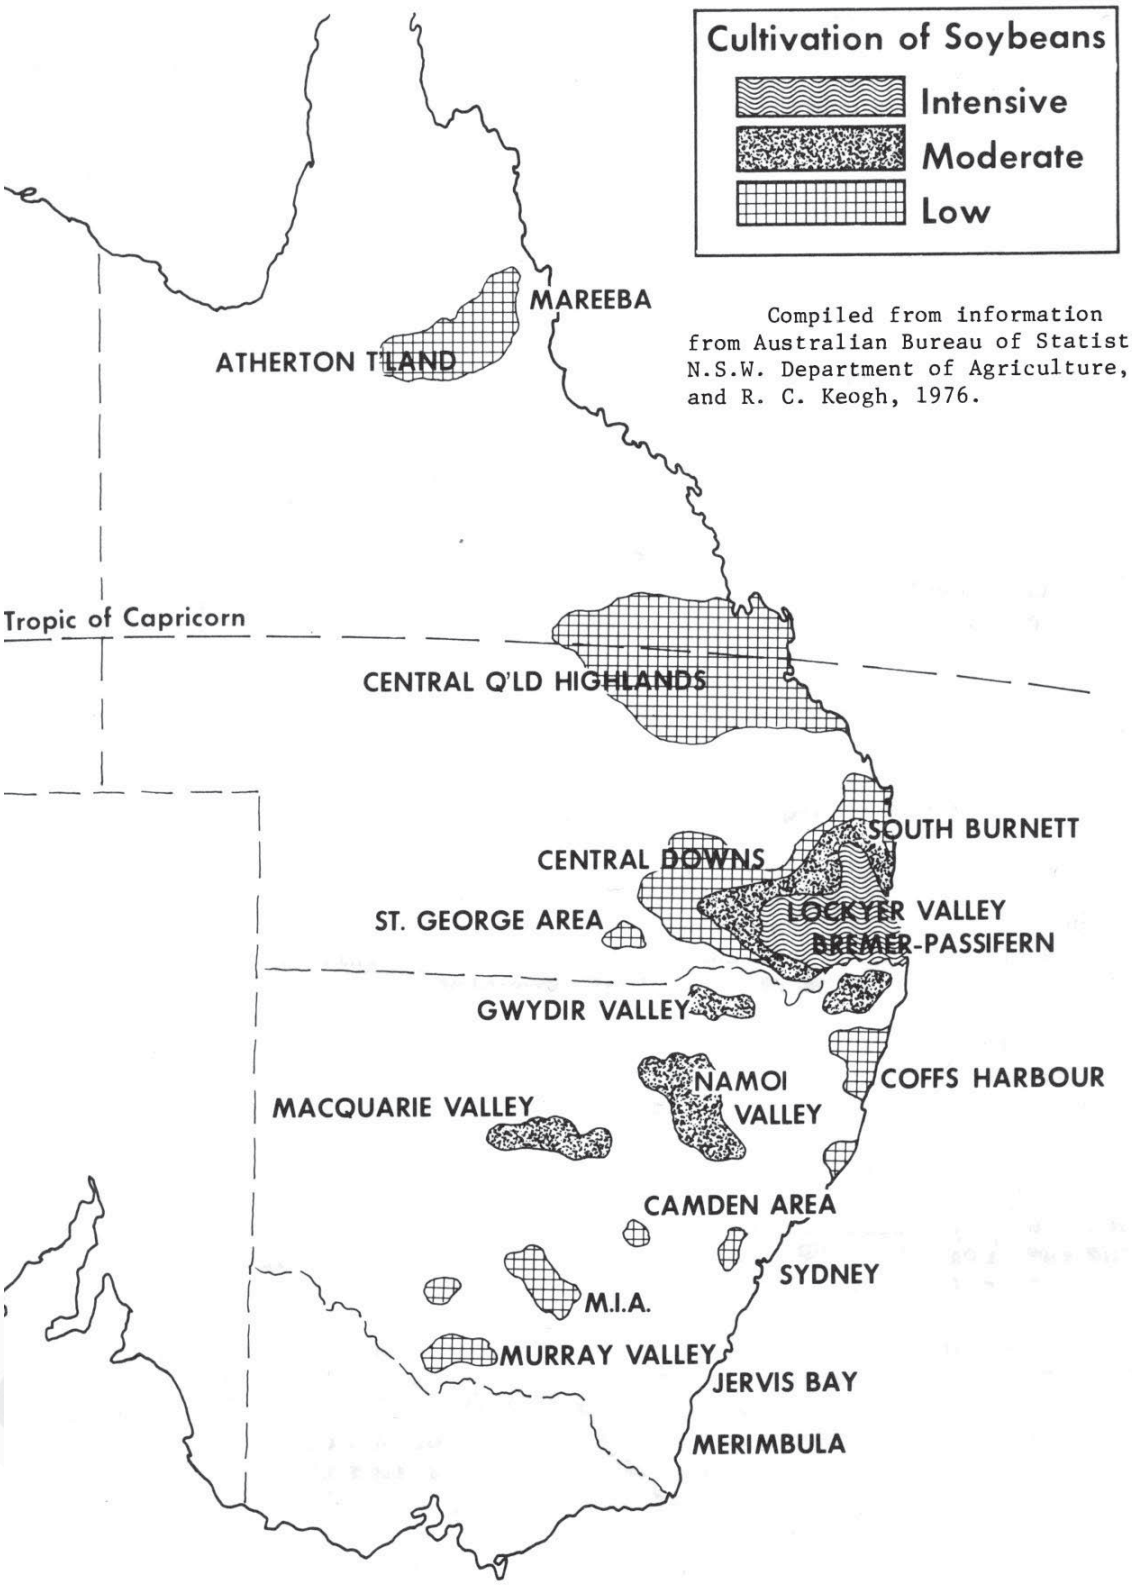
"'Health foods are,' as Barbara Towns, manager of Soyateria Delicatessen in Toronto explains, 'anything that enhances the body. Anything that prmotes health instead of disease.'"

"Tofu is a health food staple. It is a soybean curd which looks like a block of cheese. It is high in protein..."

2230. Keough, Carol. 1981. Tofu goes All-American. *Organic Gardening* 28(6):97-99. June. [1 ref]
• ***Summary:*** "New recipes and techniques from our kitchen translate tofu into down-home cooking. Tofu seems weird to people who have never tried it. The word itself is funny. The English translation, bean curd, is even less appealing. If you buy some at a health food store or supermarket, and bite off a big hunk–you probably won't think it's delicious. Bland is the word for raw tofu.

"That's because tofu is an *ingredient*, to be combined with other foods. Like flour, cooking oil and yeast, it does not stand well alone. But, as those ingredients can be turned into a delicious loaf of bread, so can tofu be combined into a variety of wonderful dishes."

Contains tofu recipes which will appear in a upcoming book, *Home Soyfood Equipment:* Scalloped tofu au gratin. Quick blender tofu soufflé. Tofu and pineapple pastry filling. Carob tofu pudding.



2231. Smith, Paul. 1981. Re: Pioneering work with debittered full fat soy flour and with soybeans in Australia. Soybean production in Australia. Letter to William Shurtleff at Soyfoods Center, undated. 2 p. Handwritten. Plus comments on draft of History chapter.
• ***Summary:*** See next page. Comments on "History of Soya in Australia" manuscript: Vincent R. Smith was a soyfoods pioneer in Australia. In 1951-52 he began to manufacture Australia's first whole (full-fat) heat-treated (debittered) soy flour. From 1953-54 to 1974-75 V.R. Smith also canned soybeans in tomato sauce or puree. In 1956 he founded Soy Products of Australia Pty. Ltd. Between 1965 and 1974-75 Mr. Smith developed and manufactured two soyabean meat substitutes–Soya Bean Luncheon Loaf, and Savoury Roast–for Bellevue Health Supplies, as part of his product range within F.G. Roberts' Health Foods Proprietary Ltd. This latter company has since been absorbed within Soy Products of Australia Pty. Ltd. Technically and nutritionally these products were excellent, but they were discontinued due to rising labour costs, the small Australian market, and competition from larger, more highly automated companies like Sanitarium and Heinz. At the time, possibly due to the very cheap cost of meat in Australia, there was very little market interest in soyabeans either as a food, meat substitute, and/or extender.

By 1981 Soya Products of Australia Pty. Ltd. was making debittered full-fat soy flour and grits, Soy Crunch (a breakfast cereal containing soy grits), Soy Compound (containing dry soymilk, whole soy flour, malt, and lactose), and several types of Muesli containing soy grits. The company's main role is in supplying high grade, human consumption quality raw (enzyme active) and debittered (heat-treated) soy grits and soy flour to industry [food processors] for a wide variety of uses: cakes, biscuits, bread, bread premixes, pizzas, breakfast cereals and mueslis, hamburgers, smallgoods, baby foods, soy milk, soy ice cream, tofu, and calf- and piglet rations.

Interest in soyfoods is growing in Australia, and will continue to grow fostered by increasing health consciousness and the rising prices of meats of all kinds. After the end of the Vietnam war in 1975, there was a big influx of Vietnamese into Australia, swelling the number to 50,000, of which 30,000 are ethnic Chinese. There are also some 10,000 Indonesians currently residing in Sydney alone.

Letter: "Thank you for your hospitality during my visit to the USA... We are now more than fully occupied running, maintaining, and expanding our soy flour mill and our health

. Approximate Distribution and Intensity of Soybean Cultivation in Australia

© Copyright Soyinfo Center 2021

food business. In the last two years we have made substantial improvements in our quality control, throughput, and heat-treatment process. We have also been working on improving our bulk unloading and grain cleaning system, and plans for extending and further automating our plant are well in hand... We are actively participating in research and development work on soy flour and its end uses: particularly in the areas of liquid and powdered soymilks and soy ice cream.

"We were amongst the first people in Australia to use soya beans to make products for human consumption, in particular heat-treated or debittered full fat soy flour. We were actively involved with the first commercial crops of soybeans grown in Australia in the early 1950s at Kingaroy; we even had a plot of several varieties of soyabeans growing in our own backyard for several years from about 1953-55. Though the bushes grow, the soybeans never mature properly. We also did some interesting work in canning beans in tomato sauce or purée and in manufacturing soy meat substitutes. In addition to our conventional bakery and small goods outlets, our own specialty products and breakfast cereals, we are now supplying several small manufacturers of tofu, soymilk with soybeans, soy flour (raw), and soy grits (raw) and have recently become involved in tempeh manufacture. The trend here in Australia is definitely following that in the USA and interest seems to have grown dramatically in the last year or so. Soyfoods seem to have taken off... Unless you can afford shiploads, freight to Australia is a killer, so we do our best to avoid importing soybeans.

"I am enclosing a recent newspaper article about a tofu producer. We supply him with soy flour for making his tofu and soymilk."

Concerning soyabean production in Australia: "Soyabeans are widely grown in Australia from just north of Shepparton in Victoria (120 miles north of Melbourne), through the Riverina district of southern New South Wales (NSW), through central, north, and northeastern NSW; the Darling Downs area (around Toowoomba) and Kingaroy districts of Queensland. More recently soyabeans have been grown in Western Australia, near Perth.

"A great deal of work has gone into developing suitable varieties of soyabeans for Australian conditions; much of this has been built on American research and experience. U.S., Chinese and Australian beans, while generally similar, are very different to handle and process, in our experience.

"Initially, soyabeans were grown under natural rainfall but this is now rare as bean size tends to be small and yield poor. Soyabeans are definitely not suited to dryland farming techniques. Nearly all soya beans now grown in Australia are grown under irrigation."

Update (March 1995): Paul Smith joined this family-run company in April 1980. In 1981 he was just starting to learn about its history. By 1986 he had done extensive research and writing (which see) on the company history, which showed that it had much earlier and very interesting origins. Address: Soy Products of Australia Pty. Ltd., 69 Power Road, Bayswater, VIC 3153, Australia. Phone: (03) 729-1738 or 729-3611.

2232. Shurtleff, William. 1981. Soynuts; The soybean's answer to the peanut. *Soyfoods* No. 5. p. 20-25. Summer.

• ***Summary:*** "The soynut industry in America is a surprisingly large and vigorous one, composed of at least 11 producers that use an estimated 3,600 tons of raw (dry) soybeans to produce 2,750 tons (5.5 million pounds) of either of two types of soynuts. Oil-roasted soynuts, which are deep-fried, are made by all but one of the producers, and make up an estimated 60 to 70 percent of the industry's total finished product by weight. Dry-roasted soynuts, which are roasted and toasted in a conveyorized oven, are made by only one firm, and make up the remaining 30 to 40 percent of the total production.

"One hundred pounds of raw soybeans containing an average of 13 percent moisture typically yields 98 to 101 pounds of whole oil-roasted soynuts (not dehulled), or 60 pounds of oil-roasted soynut cotyledons (dehulled), or 65 pounds of dry roasted soynut cotyledons (dehulled and preblanched). It is legal to label any of these products as Soynuts or Soy Nuts.

"The largest producers of oil-roasted soynuts, in descending order of size, are General Nutrition Mills, Subama Food Co., Malt-O-Meal, Agra By-Products, and INARI. The only producer of dry-roasted soynuts is Edible Soy Products in Iowa. A typical plant employs two to three production workers.

"Soynuts are whole soybeans that are processed to taste like nuts and to be used like nuts. They are presently sold in a variety of flavors including plain (unsalted), salted, seasoned (garlic, onion-garlic, sour cream-onion, barbecue, pizza, cheese, jalapeno, shoyu / tamari, etc.), and sweetened (such as carob- or chocolate-coated). They are sold in small packages like peanuts, in eight-ounce jars, or in bulk.

"Popular uses for soynuts, in addition to retail snack

© Copyright Soyinfo Center 2021

uses, are: (1) in baked goods as a substitute for nutmeats in nut bread, banana bread, muffin batters, or cookie doughs, or to add crunchy texture to toppings (ice cream, pudding, yogurt, etc.) or glazes; (2) as candy in candy bars or confections; (3) in salad bars as a crunchy salad topping in place of croutons, peanuts, or sunflower seeds; and (4) in trail mixes, mixed nuts, or granola. For retail snack uses, they are sold in small transparent packages as munchies in supermarkets, natural and health food stores, theaters, concession outlets, and vending machines. Oil-roasted soynuts can also be blended in a colloid mill with some additional oil (peanut oil works well) plus a little salt to make a delicious soynut butter, which resembles peanut butter.

A number of large food processing companies have started to use soynuts. Sunmaid uses over one million pounds a year in trail mixes and as a carob-coated sweet. Nabisco is considering putting soynuts in their cookies McCormick and Celestial Seasonings both use soynuts in mixed salad toppings. Ghirardelli has used them in abundance in a delectable, crunchy, sweet, chocolate bar called Soy-Nut. Washington Chocolate Company in Oregon is making carob-coated and chocolate-coated soynuts. and Planters Peanut Company sells soynuts in vacuum sealed jars. El Molino, Malt-O-Meal, and INARI have marketed carob-coated soynuts.

Soynuts have a number of virtues that make them attractive to food service institutions, food processors, and individual consumers:

"1. Economy: Raw soybeans sell for about one-third to one-half the price of raw peanuts; studies show that pound for pound, soynuts retail for roughly 40 percent less than roasted peanuts ($1.29 vs. $2.19 per pound). In bulk, soynuts wholesale for as little as $0.51 per pound. Moreover, soynuts occupy 12 to 40 percent more volume than the same weight of peanuts or tree nuts. This makes their price per unit volume proportionally even lower, which is important in items such as candy bars and mixes.

"2. Nutrition: A table (p. 24) compares the nutritional value of five brands of soynuts with peanuts and almonds, in terms of calories, protein, fat, and carbohydrates. It shows that dry-roasted soynuts, compared to peanuts, have only about 80 percent as many calories and 46 percent as much fat, plus 61 percent more protein. They are also a good source of dietary fiber. The PER of soynuts averages 2.1 (Malt-O-Meal is 2.32) compared with 2.5 for casein (milk protein). The digestibility of dry-roasted Pro-Nuts, for example, is 93 percent; oil-roasted Malt-O-Meal is 90 percent,

"3. Acceptability: Although the typical consumer generally still prefers tree nuts and peanuts to soynuts, a growing number of people report that they like the rich flavor and more crunchy texture of soynuts as much as or more than they liked peanuts or tree nuts. Soynuts have a longer shelf life than peanuts (eight months versus two months) and they fracture or crack easily, even with light tooth, gum, or denture pressure. On the negative side, soynuts cannot be sliced and some people experience more problems with intestinal gas after eating soynuts than after eating peanuts or tree nuts.

A sidebar (p. 21, with four photos) titled "Making soynuts at home" describes how to make oil-roasted soynuts starting with 1 cup whole dry soybeans.

"A brief history of soynuts: Dry roasted soynuts have been produced for centuries in East Asia. In Japan they are called *iri-mame* ("roasted soybeans") and they play a key role in one of the country's most ancient and widely celebrated rituals. They are scattered by the handful in each room of the house while the family chants, 'Out with all evils, in with good fortune.' Soynuts coated with sugar, sugar starch and nori (a seaweed) or shoyu and nori are also popular. In China whole soybeans are soaked in water (which is sometimes salted) then roasted and eaten like roasted peanuts. Oil-roasted soynuts are not widely produced in East Asia.

"Soynuts have a long history in America. In 1915 John L. Kellogg took out a patent for roasted soybeans and for a soynut butter with added oil (No. 1,189,128). Soynuts are thought to have first been made commercially in the U.S. during World War I but the name of the producer is unknown. Before World War II soynuts became famous in Chicago, where they were very effectively marketed as Salted Soys by a big downtown specialty store called 'Stop and Shop.' Again it is not known who the producer was. During World War II soynuts were made by the Borden Soy Processing Co. and by Griffith Laboratories in Chicago, Illinois. Starting in 1945 the Whitson Division of Borden, with plants in Chicago and Ottawa, Kansas, produced Soyettes on a large scale. The beans were simply soaked and dry roasted then used by the candy and baking industries. Some were salted and sold in bulk to variety stores for use like salted peanuts. In 1948 the main Borden plant was modernized and moved to Waterloo, Iowa; production of Soyettes stopped several years later. In 1944 Central Soya in Indiana was making chopped soynuts called Nut-T-Soys and Loeb Products in New York was making Soya Puffs (a ready-to-serve breakfast cereal made from puffed soybeans) and Exploded, Precooked Soybeans.

"In 1944 the following companies were also producing or distributing soynuts: Dewey Food Products and Soybean Products Co. in Chicago; La Choy Food Products in Archbold, Ohio; Tom Soya Foods in Williamsport, Pennsylvania; and Vegetable Products Co. in Rochester, New York.

"The current wave of interest in soynuts and the increased production began in about 1970, when Malt-O-Meal started to market soynuts in a big way. Additional interest was generated by an excellent pair of articles by

© Copyright Soyinfo Center 2021

Badenhop et al. at Cornell University entitled 'Toasting Soybeans as a Processing Technique' (Proceedings of Frontiers in Food Research Symposium. Cornell University, June 1968). Both oil-roast and dry-roasted soynuts were discussed.

"Oil-roasted and dry-roasted soynuts each have their advantages and limitations. The advantages of oil-roasted soynuts are (1) most people prefer the richer flavor and nicer texture to that of dry-roasted soynuts; and (2) the technology to produce oil-roasted soynuts is much simpler and less expensive, and uses less energy.

"The advantages of dry-roasted soynuts are (1) increased nutrition. Compared with oil-roasted soynuts, they are 8 percent lower in calories, 32 percent or more lower in fats, and 23 percent higher in protein, while being 21 percent lower in fiber; and (2) increased volume. During processing, they can be made to expand in volume about 20 percent more than oil-roasted soynuts, which lowers their price per unit volume and gives them a light texture and crunchiness.

Most dry-roasted soynuts are dehulled, since the hull can become very dark or burn during dry roasting. Oil-roasted soynuts are made both with and without the hulls (seed coats). INARI Ltd., for example, prefers not to dehull, since dehulling reduces significant amounts of essential minerals, especially potassium, and phosphorus, while also reducing the fiber content. The finished product remains a whole food. Dehulled soynuts, however, look more like typical roasted peanuts and some researchers feel that dehulling helps avoid any deposition of oil between the hull and the cotyledons, although we have not found this to be a problem. Note that all soynuts are either cooked or soaked before roasted, to avoid creation of an undesirable hard texture and to remove some of the flatulence causing oligosaccharides found in raw soybeans.

"Let us now take a detailed look at methods presently used by two large commercial producers of oil-roasted and dry-roasted Soynuts. We recently visited and studied both of these plants." Continued. Address: Director, Soyfoods Center, Lafayette, California.

2233. Wagner, Martha. 1981. Soy down under. *Soyfoods* No. 5. p. 11-12. Summer.

• ***Summary:*** First discusses the work of Marcea Weber and Debbie Schmetzer in Australia. Marcea Weber owns The Soybean Factory located just outside of Sydney, Australia. Debbie, formerly a tofu maker at Surata Soyfoods in Eugene, Oregon, is now living in New Zealand, where she plans to start a soyfoods business. "Marcea, originally from New York, began her tofu business three years ago, about a year after arriving in Australia from England where she operated a small natural foods bakery. Koreans and Chinese were already producing large volumes of tofu in Australia but her business was the first to produce a nigari tofu. After three years, tofu is still quite foreign to Australians, Marcea says...

"The Soybean Factory sells to natural food stores, restaurants, and juice bars. It produces only 600 half-pound blocks a week. Using simple Takai machinery with a 45-gallon Australian pressure cooker, only 30 pounds are produced in each batch so the selling cost is high, about double U.S. prices, and much higher than Korean and Chinese tofu sold in Australia." "The factory employs three production workers and a manager. Marcea does the promotion. She also spends much of her time teaching cooking and nutrition classes at the East-West (Macrobiotic) Center, which she and her husband, Daniel, an acupuncturist, established when they arrived in Australia."

In New Zealand, "no one outside the Chinese community had even heard of tofu until an Auckland health food store, Harvest Whole Foods, began producing it in a backroom kitchen last October [1980]. The enthusiasm for tofu was shown by several restaurants doing an alternative lifestyle festival, which featured tofu burgers, has produced healthy sales for the shop. The three owners, Greg and Ricky Chalmers and Ricky's wife, Elizabeth, are producing about 170 to 299 kilos (374 to 440 pounds) of tofu a week. They expect sales to grow and are planning to expand production facilities."

Debbie Schmetzer arrived in New Zealand in Jan. 1981 with her husband, Peter (who was born in New Zealand) and their young son. She describes the process and ingredients used to make tofu at Harvest Health Foods, then notes that "Even in the Chinese community, only two Chinese restaurants are making tofu. Harvest's main customers are Indonesians, vegetarians, people switching from dairy to soy on the advice of naturopathic doctors, and spiritual seekers such as Hare Krishna and Divine Light people." On the Run is a fast food deli that makes excellent tofu dishes in Auckland, including tofu burgers, curried tofu salad in pita bread, and tofu tacos with locally made tortillas.

Letter from Martha Wagner. 1981. July 24. "Before this article went to press I learned that Debbie and her husband had become disillusioned with attitudes in New Zealand toward food and organic agriculture, red tape, and toward setting up business–especially concerning a mold to make tempeh. So they took off for greener pastures in Australia. They are now mulling over the scene in the Melbourne are and may well do a bagel business combined with a soy deli. She would be a good person for a soyfoods information center there. Address: 35 Flower Street, Essendon 3040 Victoria, Australia.

"For the addresses of the Koreans and Chinese making lots of tofu in Australia, contact Marcea Weber, 29 Belmore St., Rozelle 2039, NSW.

"Did you meet the Australian couple Fred and Radhika Koch at the SANA conference? They are planning to set up a good size tofu operation as a support for a 26-person community in the country." Address: USA.

2234. Sass, Lorna J. 1981. Soy foods: Versatile, cheap and on the rise. *New York Times.* Aug. 12. p. C1, C6. Widely syndicated.

• ***Summary:*** The article begins: "Soy foods have come west and, apparently, are here to stay. No longer restricted exclusively to the world of woks and cleavers, soybeans in America are now patted into soyburgers, and tofu (soybean curd) is puréed into soy mayonnaise, baked into 'cheesecake' and fried as 'cutlets,' while soy milk emerges from the blender as a frothy carob shake or from the freezer as cantaloupe 'ice cream.'

"Because soy foods are an inexpensive source of protein, low in fat and completely cholesterol-free, they have been attracting more and more attention among the growing number of weight-conscious, health-conscious and dollar-conscious Americans. Until recently, soy sauce was the only soy product familiar to most Americans.

Contains a long discussion of David Mintz (owner of Mintz's Buffet, a kosher delicatessen at 1040 Third Avenue at 62nd Street). He makes a tofu ice cream, and a tofu-spinach quiche. "A large Japanese company wants to buy exclusive rights to distribute Mintz's tofutti 'ice cream' in Japan. 'The more dishes I make with tofu, the better my business is,' said Mr. Mintz." He is frequently called upon to cater "tofu weddings."

Also discusses Light Foods in St. Louis (Missouri), and the Rochester Soy Deli (in New York). "Two of the people most responsible for introducing soy foods to Americans are William Shurtleff and his wife, Akiko Aoyagi, who in 1975 wrote 'The Book of Tofu,' a comprehensive cookbook and introduction to the untapped potential of soy foods as an alternate source of protein."

There follow seven recipes featuring tofu and tempeh: Mintz's tofu herb dip. Breaded tofu cutlets (with frozen tofu. Might also be called "Fillet of tofu," plus a note on how to freeze tofu at home). Tofu tartare sauce. Tempeh salad. Carob-tofu-mint pie. Whole wheat pastry crust (with soy milk and soy oil). Lotus Cafe not-dogs (meatless hot dogs).

Next comes a section titled "Learning more about soy: A listing of useful books." For example: "There is no more thorough book on the history and myriad Oriental forms of tofu than the profusely illustrated *"Book of Tofu,"* by William Shurtleff and Akiko Aoyagi (Autumn Press / Random House; 334 pages; $8.95). First published in 1975, it is credited by most tofu cookbooks as the one that 'spread the light.' The hundreds of recipes, mostly Oriental in style, will fascinate adventurous cooks. Beginners may prefer the condensed, somewhat more Americanized version (Ballantine, 433 pages, $2.95)."

The long article ends with a helpful sidebar titled "How to buy and store tofu." "A four-ounce piece of tofu (bean curd) sells for about 30 cents..." One main difference "between the tofu sold in health food stores and the Oriental-style tofu sold by many greengrocers is the type of coagulant used. Tofu from health food stores is almost always made with nigari (primarily magnesium chloride and trace mineral elements derived from evaporated seawater), while Oriental tofu makers generally use calcium sulphate."

A photo shows Katherine Iselin with some of the special sandwiches at the Tofu Shop, a fast-food soy deli in Rochester, New York. She is wearing a Soyboy Tofu T-shirt. On the wall behind her is the restaurant menu.

Note: A similar article titled "Out of the wok and into the frying pan" appeared in *The Durham Sun* (9 Sept. 1981, Section B).

Another similar article titled "More budget-conscious Americans are hitting the soy–its not just sauce" appeared in the *Chicago Tribune* (29 Oct. 1981, p. W_A21).

2235. McNees, Pat. 1981. Natural & organic: Taking the health food approach. *Washington Post.* Aug. 27. p. E1, E15, E20.

• ***Summary:*** The author's position on health food is slightly to the left of Julia Child and "considerably right of tofu lemon pie." She still eats more for pleasure than virtue [health]. She quickly adds: "You don't have to be a health nut or food faddist to take advantage of what health food stores have to offer." Their prices aren't always more expensive than those of supermarkets–and they tend to be much less expensive on some items, such as bran or stick cinnamon, and grains, nuts, herbs, and dried foods sold in bulk–which two photos show.

Includes the name and address of 15 such stores in Washington, DC, and 20 in Maryland (incl. Beautiful Day Trading Co. and Smile Herb Shop). Contains 8 recipes incl. one for Seasoned Crisp Fried Tempeh, from *The Book of Tempeh,* and one for Creamy Tofu Dip, from *The Book of Tofu* (both by Shurtleff and Aoyagi).

2236. Brown, Judy. 1981. Health foods–Finding their way onto supermarket shelves. *National Food Review.* Summer. p. 18-19. NFR-15. [9 ref]

• ***Summary:*** "Safeway, the nation's largest supermarket chain, plans to add health food departments to 200 stores this year... The health food industry has grown from 1,000 stores with $140 million in sales in 1970 to 6,600 stores with over $1.6 billion in sales in 1979, according to a Frost and Sullivan report and a survey conducted by the industry publication *Whole Foods*...

"In a USDA 1980 survey, 'Consumer's Food Related Behavior, Attitudes and Motives,' researchers found that 26 percent of the 1,353 consumers surveyed in a national random sample shop in health food stores. In another 1980 national family food study conducted by Yankelovich, Skelly and White–an independent national research firm–1 out of 3 of the 1,221 respondents had purchased natural food. The same research firm found that 68 percent of the respondents say that natural foods are healthier than processed foods, and

© Copyright Soyinfo Center 2021

26 percent strongly agreed that supermarkets should offer a larger, more varied selection of natural foods. USDA's 1980 survey found that 30 percent of the respondents who shop in health food stores did so because they could not find the products elsewhere." Address: USDA.

History of Small Seventh-day Adventist Food Companies and Sanitariums. 8 p. See p. 4-6. Unpublished manuscript. Available online at www.soyinfocenter.com. [1 ref]

• ***Summary:*** In operation from 1939 to 1946, this was a private company in Cedar Lake, Michigan. "This creative company was founded in 1939 by Howard O. Butler and run primarily as a family enterprise. Butler got interested in soyfoods from people he knew at Madison Foods in Tennessee. He hired people with prior experience in soyfoods production; Howard Hoover (who made soymilk with Dr. Miller in East Asia) and a Mr. Roose. An initial aim of the business was to offer jobs for Adventist youth to pay their tuition at nearby Cedar Lake Academy, although the business was not formally connected with the Academy. The company's primary product, first produced in 1942, was 'Soya Butter,' actually what we would now call soy margarine; it contained 79% lightly hydrogenated soy oil, soymilk (18% by weight), salt, vitamin A carotene (as a natural coloring), and butter flavor. The melting point was 110ºF (43ºC). Butler advertised the product as being nonfattening.

"He soon ran into problems with the government concerning his soya butter. In August 1944 the *Soybean Digest* reported that 'H.L. Hoover, manager of the firm, claims that he is the victim of conflicting federal and state regulations, and that he cannot comply with one set of regulations without violating others. Hoover points out that while the Food & Drug Administration prohibits his company from labeling the product oleomargarine without the addition of dairy products to it, the Bureau of Internal Revenue classifies it as oleomargarine for taxing purposes.' Margarine was then defined as vegetable oils churned with dairy milk; Butler used soymilk in place of dairy milk to give a completely vegetarian product. Furthermore, it was claimed by the Bureau of Dairying in Lansing, Michigan, that the product had been illegally colored in imitation of butter, and in several instances had been sold as butter. In August 1944 cases were pending in circuit and U.S. courts, awaiting trial. In May 1945 a federal judge in Cleveland, Ohio ruled that Butler's Soya Butter was not taxable as margarine and should not be labeled as margarine, but shortly thereafter the Ohio Department of Agriculture, in variance with the federal ruling, classified soya butter as colored margarine, which could not be sold legally in Ohio. In June 1945 the American Soybean Association came out in favor of a congressional bill to define soya butter as being distinct from margarine. Finally in December 1945, at which time the company was manufacturing 100,000 units of soya butter a month, a federal judge in Detroit ruled that the product was oleomargarine as defined by the internal revenue code, and therefore subject to back taxes of 10 cents a pound on every pound made to date. The three-year battle and the ruling assessing an estimated $150,000 in back taxes drove the company out of business in 1946. In about 1950, while typing out an appeal to the government to reconsider his case, Butler suffered a fatal heart attack. Shortly after his death, the margarine law was changed and the tax (on other companies) removed.

"During the early 1940s, Butler Foods was a thriving operation. In early 1942 they were making a nice line of nine soyfoods including ready to eat Soy-Fruit & Nut Cereal (with figs, dates, and bran), ViM-eat Soy-Nut-Loaf, ViM Soy-Nut Cheese, Soy-Kawfee, Entire Soybean Flour (i.e. full-fat), Entire Soybean Wheat Flour Mix (70:30), Soybeans with Tomato Sauce, ViM-ilk (soymilk) and Soy-Nuts. An attractive brochure, which described the company's products and gave recipes, noted that some of the soybeans were 'grown on Butler's own mineralized farm.' In mid-1942 Soya Butter was added to the line. The company also made bulk soymilk for use in its Soya Butter. In September 1943 Butler Foods ran a full-page ad in the *Soybean Digest* headlined 'New Foods from the Wonder Bean' showing pictures of cans of Butler's Soynut Cheese, Vegeburger, Soya Nut-Loaf, Soya Butter, and Vegetarian Chops. The chops, his most popular meat analog, were a blend of wheat gluten and soy flour, sliced, pre-cooked, then canned in a broth made of soy sauce and other savory seasonings. A September 1945 ad showed that Butler's Meatlike had been added to the line.

"After the government tax ruling of 1946, Cedar Lake Academy leased Butler's property and tried to operate the food business for 2 years, but the plant was too big and the company had now lost its vital income from sales of soya butter. The Academy food business ceased operation in 1949. The supervisor at that time, Vesper Sias, who had worked at Butler Foods since 1942, then left and started his own company, Cedar Lake, in November 1949." Address: Soyfoods Center, P.O. Box 234, Lafayette, California 94549.

• ***Summary:*** This article first appeared as: Sass, Lorna J. 1981. "Soy foods: Versatile, cheap and on the rise." *New York Times.* Aug. 12. p. C1, C6.

2242. **Product Name:** Tofu Dip [Dill, Basiga (Basil), or Hot Curry], and Tofu Pudding [Carob-Almond].
Manufacturer's Name: Central Soyfoods.
Manufacturer's Address: 11 W. 14th St., Lawrence, KS 66044. Phone: 913-843-0653.
Date of Introduction: 1981.
New Product–Documentation: Talk with Jim Cooley of Central Soyfoods. 1989. Feb. 16. He started making these when he bought a Hobart blender. Both have been discontinued. Volume was too small to be profitable.

2243. **Product Name:** Sanitarium Health Foods Textured Vegetable Protein TV [Flavour-Like Beef, Flavour-Like Fish, or Minced].
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, Sydney 2076, NSW, Australia.
Date of Introduction: 1981.

© Copyright Soyinfo Center 2021

Ingredients: 1990: Soya flour, vegetable oil, salt, Savex, artificial flavour.
Wt/Vol., Packaging, Price: 430 gm can.
How Stored: Shelf stable.
New Product–Documentation: Letter from Sanitarium Health Food Co. 1981. Label. 10 by 4 inches. Full color. Photo shows round slices or minced chunks on a bed of rice. "Just heat and eat."

Letter and Labels sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1981, and address as Sydney, N.S.W.

2244. **Product Name:** [Manna Tofu-Based Spreads (Natural, Dill, Sandwich), and Soyanaise (Imitation Mayonnaise)].
Foreign Name: Manna Tofu Spreads (Naturel), Soyanaise.
Manufacturer's Name: Stichting Natuurvoeding Amsterdam. Renamed Manna Natuurvoeding B.V. in 1982.
Manufacturer's Address: Meeuwenlaan 70, 1021JK, Amsterdam, The Netherlands.
Date of Introduction: 1981.
Ingredients: Naturel: Manna's tofu-soycheese (*sojakaas*)*, unrefined cold-pressed vegetable oil, grain [corn] syrup (*graanstroop*), demeter-apple cider vinegar*, ume (Japanese plum) paste, mustard, white seasalt, guar vegetable binder. * = *van biologische grondstoffen of teelt* = from organically grown raw materials or agriculture.
Wt/Vol., Packaging, Price: 215 gm glass jar.
How Stored: Shelf stable.
New Product–Documentation: Letter from Sjon Welters. 1982. April 16. "Manna started this month to market tofu spreads, which are a great success right now. It lasts for at least 3 months refrigerated, with no chemicals or artificial additives." Richard Leviton. 1983. Trip to Europe with American Soybean Assoc. Oct/Nov. Unpublished manuscript. p. 25. "Manna started to make tofu spreads in 1981. They are now made in a Hobart blender. 200 kg/week of tofu is used to make 1,000 x 250 gm bottles of spreads. Some are pasteurized at 85ºC and some sterilized at 100ºC. The flavor of the spreads is lost at temperatures higher than 85ºC. The Manna spreads are 3.45 guilders per 45 gm jar for 3 flavors. The natural spread contains tofu, unrefined oil, miso, apple vinegar, corn syrup, sea salt, guar." Soya Bluebook. 1987. p. 100. Label. 16.5 cm by 3.5 cm.

2245. **Product Name:** Hing's Tofu.
Manufacturer's Name: Sun Hing Foods Co.
Manufacturer's Address: 147 Onepu Rd., (P.O. Box 14-213, Kilbirnie), Lyall Bay, Wellington 3, New Zealand. Phone: (04) 877 313.
Date of Introduction: 1981.
New Product–Documentation: Letter from Alan Tam of Hing's Tofu, 275 Cuba St., Wellington, New Zealand. 1985. May 1. "We have been makers of tofu for many years now, initially on a small scale, only making it for friends and family. But in recent years, with growing awareness of health and nutrition among the general public, there has been growing demand for tofu in Wellington. This has led us to making tofu on a commercial scale, supplying the local health food stores, restaurants, and the local community in general. After reading your book, *The Book of Tofu*, I am very impressed at the extent of your research into tofu and soybean foods, its historical, cultural, and nutritional aspects. I also find your recipes very interesting, covering a wide range of tastes and exploring many new ways of eating tofu. In fact it is the most comprehensive book on soyfoods that I've ever seen!" He asks about ordering the book *Tofu & Soymilk Production.*

Letter from Alan Tam, Owner. 1986. Nov. 18. He has just moved into new premises, so this address is probably incorrect. Current production is about 1,000–1,200 lb/week of tofu. Leaflet. 1986. Hing's Tofu. Brown and blue on white. Contains 18 recipes, nutritional analysis and illustrations from *The Book of Tofu* by Shurtleff and Aoyagi.

Letter from Alex Leung, Director. 1992. Dec. 9. The company is now named Hing's Limited, located at 147 Onepu Road, Kilbirnie, Wellington, New Zealand.

Note: This is the earliest known commercial soy product made in New Zealand.

2246. Bragg, Paul C.; Bragg, Patricia. 1981. Hi protein vegetarian health recipes: With history and reasons. Santa Barbara, California: Health Science. 184 p. Illust. No index. 21 cm.
• ***Summary:*** This book is quite similar to the 1975 edition, however one word in the title has been changed (to vegetarian meatless from meatless), and small changes have been made on several pages following Paul Bragg's death in Dec. 1976. Nevertheless, the book gives the strong impression that Paul Bragg is still alive. Whereas he used to advocate moderate amounts of meat and fish in the diet, he now advocates a vegetarian diet [which is becoming increasingly popular, especially among young people, in the USA]. On the book's cover these words appear in large bold letters: "Vegetarian. Salt free. Sugar free."

We will discuss here only the changes that have been made in the 1980 edition. The copyright page states that this is the fifth printing. The address of Health Science, the publisher, has changed to Box 7, Santa Barbara, California 93102–from Hot Springs, California.

At the bottom of the next page a message has been added, which starts: "Our sincere blessings to you dear friends, who make out lives so worthwhile and fulfilled by reading our teachings on natural living as our Creator laid down for all of us to follow... Our prayers reach out to you for the best in health and happiness..." Signed Paul C. Bragg and Patricia Bragg.

On the page facing page 1, under the large photo of

© Copyright Soyinfo Center 2021

Bragg, is a different caption: "Paul C. Bragg in Hawaii, where he spends much of his time during the latter years of his vigorous, long life (almost a century!)." Describes how he writes, teaches, and exercise each day. Below that is "An old English Prayer," which begins: "Give us, Lord, a bit of sun, / A bit of work and a bit of fun. / "... Our daily whole grain bread and a bit of nut butter."

On page 66, at the bottom of the full-page ad for Bragg Liquid Aminos, readers are directed to order from a new address: Live Food Products, Box 7, Santa Barbara, CA 93102. "For 8 ounces of Bragg New Super Concentrated Liquid Aminos send $3.50 which covers postage and handling." Note: In 1975 the price was $2.99 for 16 ounces of "Bragg Liquid Aminos."

On page 81, an illustration of a pot and vegetables has been replaced by an illustration of Ponce de Leon, with a message about how he searched for the fountain of youth. "If he had only known–it's within us." There is also a new quotation from Patricia Bragg which states: "The more natural food you eat, the more radiant health you will enjoy and you will be better able to promote the higher life of love and brotherhood."

On page 157, the section titled "Sickness is expensive," has been updated (new statistics) and slightly expanded.

On page 160, a new photo, titled "When you are healthy–You are happy! shows the members of the "Longer Life, Health and Happiness Club" at Fort DeRussy on Waikiki Beach, Honolulu, Hawaii.

The end of the book (after a blank page titled "My favorite recipes") contains: Advertisements: (1) Send for important free health bulletins. (2) Bragg live longer, live stronger self-improvement library (list of 25 books by Bragg, with prices). From the authors. Brief biography of Patricia Bragg, Ph.D., Nutritionist, beauty and health consultant. Advisor to world leaders, glamorous Hollywood stars, singers, dancers, athletes. Lecturer and author (She says she is the daughter of Paul C. Bragg. An accomplished musician, dancer, tennis player, swimmer, and mountain climber. The youngest woman to ever have been granted a U.S. patent. Graduate of the University of California. Lists her famous clients). Biography of Paul C. Bragg. Address: 1. N.D., Ph.D., Life Extension Specialist; 2. Beauty and diet expert. Both: Santa Barbara, California, and Honolulu, Hawaii.

2247. Cleary, David Powers. 1981. Great American brands: The success formulas that made them famous. New York, NY: Fairchild Publications. xii + 307 p. See p. 239-44. Illust. 24 cm.

• ***Summary:*** The unnumbered chapters in this book are listed alphabetically by brand. The chapter titled "Ralston Purina Foods and Feeds: 'Find the right foundations and build them,'" tells the story of how William H. Danforth brought the Ralston brand name into his Robinson-Danforth Company, formed in 1894.

Will Danforth always recalled that as a boy, he was sickly. He wanted to be part of the group, but never quite made it. Then one day a school teacher "stood him up in front of everybody and 'dared' him to become the healthiest boy in the class." He decided to take the dare, and it transformed his life–and later his business. He grew up in Charleston, Missouri. Another vivid childhood memory was of the Brown family as they came into town, everyone dressed in red and white checkerboard pants, shirts, and dress–all made from the same inexpensive bolt of cloth.

In 1894, two years after graduating from Washington University in St. Louis, Missouri, at age 24, he formed the Robinson-Danforth Commission Company in St. Louis with two church friends; it was a "hand shovel horse and mule feed operation."

Advancing from bookkeeper to top salesman, he married Adda Bush. By the spring of 1896 Danforth had become president of the small company, and on May 26 of that year he became the majority stockholder, by buying out the interest of William Andrews. The very next day a tornado completely destroyed the business.

His good character and work ethic earned him a bank loan and by 1898 the business was flourishing again.

Once-sickly Danforth, now a strong and healthy man, wanted to add a new kind of "health cereal" to his product line. He met a Kansas miller who had devised a way of making a whole wheat cereal yet preventing the wheat germ from turning rancid. Danforth reasoned that the germ, part of the whole, natural kernel, must be important to good health. So he arranged to package the miller's cracked wheat for (initially) grocers and others in St. Louis. From his company's slogan, "where purity is paramount," he coined a new name for the health cereal: Purina.

"At the same time, Danforth was being deeply impressed by the spectacular success of Dr. Albert Webster Edgerly who, as 'Dr Ralston,' had written an electrifying book entitled *Life Building* and whose followers, now banding together in health clubs, numbered some eight hundred thousand. Dr. Ralston was urging the use of only the pure, whole wheat, complete with germ. Will Danforth was soon discussing his new Purina product with Dr. Ralston, and the two were agreeing on terms under which the product would be renamed Ralston Wheat Cereal and would carry the famous doctor's endorsement. By 1902 the names Ralston and Purina had become so widely known that the name of the firm was changed to Ralston Purina Company."

Note: The above paragraph can be misleading. Webster Edgerly was not a well-known person, largely because he wrote all his many books under pseudonyms. In 1891 he started using the pseudonym Everett Ralston for his first two books: *The Ralston Health Club,* and *The Ralston Brain Regime.* In 1892 he changed his pseudonym to Edmund Shaftesbury. He also wrote books about subjects such as elocution, personal magnetism, etc. In 1920 (p. 3) he wrote:

© Copyright Soyinfo Center 2021

"The Ralston Health Club will soon be forty-four years old" suggesting that it was founded in the 1870s. Yet we know of no evidence that it existed before 1891. Nor are we aware of any evidence that Edgerly was ever a "Dr." or that he ever used that title. Moreover, there was no such person as "Dr. Ralston," although one can easily get the impression that there *was* from the above and from Edgerly's books.

Photos (p. 241) show: (1) The front of an early box of Ralston Wheat Food, showing the simple, graphic checkerboard design that won it swift national recognition. (2) An ad titled "Ralston Purina Miller" from the Ralston Purina Co. (St. Louis). (3) A stylish Ralston Purina wagon pulled by two white horses. The checkerboard design appears on both the sides of the wagon and on the horses' harnesses.

Address: Los Angeles, California.

2249. Kloss, Jethro. 1981. Back to Eden: A human interest story of health and restoration to be found in herb, root, and bark. Loma Linda, California: Back to Eden Books. xxxii + 684 p. Illust. Index. 18 cm. Kloss Family Heirloom Edition.
• ***Summary:*** One of the most creative and original sources of early soyfoods recipes, which include "Soybean Cream" and "Soybean Ice Cream." This revised edition contains the complete original text of this classic work on healing herbs, home remedies, diet, and health–plus 16 pages of new family recollections by Jethro Kloss' daughter, son, and granddaughter at the beginning of the book, and 16 pages of previously unpublished photographs in the middle of the book. This edition was first copyrighted in 1972. The book has been published continuously by the Kloss family since 1946. A blurb on the cover of the 1981 printing (which retails for $2.95) states: "Two million copy bestseller. The complete original text [with the same page numbers]. New family additions!" A color illustration by Harry Anderson shows a man and woman seated by an idyllic river, surrounded by birds and animals, in the Garden of Eden. The back cover states that this is "The heirloom authorized Kloss family edition."

The contents of the book, except for the new sections mentioned above, are identical to the original 1939 edition. But the recollections of Jethro Kloss by his children and granddaughter contain a wealth of new and interesting information. The recollections by his daughter Promise Kloss Moffett note: "My father was born on a large farm near Manitowac, Wisconsin, on April 27, 1863. The ninth of eleven children born to his pioneering parents lived a healthy and happy life in that primitive Indian country...

"When he was about twenty, he went to Florida and worked in the orange groves, finally owning a large grove at Deland. Later he attended school in Nebraska and then in Battle Creek, Michigan. While in Battle Creek he worked closely with the then revolutionary medical leadership of the world-renowned Battle Creek Sanitarium. He saw clearly the disastrous results of the use of dangerous drugs then prevalent in caring for the sick. He developed further his own philosophy and understanding of the laws of nature...

"He was married March 5, 1900 to Miss Carrie Stilson, who had trained as a Bible worker and teacher and had labored in a mission in Madison, Wisconsin and taught several terms of grade school. At that time he was a licensed minister in Wisconsin and they established their home at Rose Lawn. Two children were born to this union, Promise Joy and Paul, who died when only four weeks old of whooping cough. During these years, besides my father's ministerial work, my parent's operated a branch of the Battle Creek Sanitarium and also sold Battle Creek Sanitarium health foods. My mother died in July of 1905.

"In March, 1907, my father married Mrs. Amy Ponwith, a widow with a small daughter, Mabel. My father and step-mother owned and operated an attractive sanitarium in pleasant surroundings in St. Peter, Minnesota, which they named *The Home Sanitarium*... Their daughter Lucile was born here in St. Peter in 1908 and their son, Eden, in 1910.

"Next the Kloss's became interested in the self-supporting work being conducted in the south and visited some of the schools in North Carolina and Tennessee. About 1911 they sold the sanitarium in Minnesota and moved to Fountain Head, Tennessee, where their youngest daughter, Naomi, was born in 1913. Here they bought a 250 acre farm, built a large house and barn, and raised many kinds of fruits and vegetables...

"A later development in good health was his creation of a significant health food manufacturing operation in Amqui, Tennessee after receiving a call from them to take charge of their food factory...

"Before this factory was sold to the Nashville Agricultural Normal Institute he was shipping health foods all over the United States and Canada. It was during this time at this place that he originated many new health food recipes. This establishment later became a part of what has since become the well-known Madison College near Nashville, Tennessee.

"Our next move was to Brooke, Virginia where [in 1921] papa established a health food factory and retail market. Each of us children was pressed into service in one way or another with this family enterprise. At times we would be helping with some food experiment, or perhaps in typing and retyping the material that later became *Back to Eden*, which was many years in preparation. Jethro Kloss's son Eden was for many years his right hand helper. Whatever my father did in spreading the gospel of health and natural living, he did with all his might and trained his children in that same pattern of living...

© Copyright Soyinfo Center 2021

"One of my favorite memories as a family is the daily worship hour when Father would gather his family of seven about him and we would sing hymns, read Bible verses around the circle, and pray together. He was a gentle but firm family leader.

"Although a strict disciplinarian, my father was warm-hearted and affectionate–devoted to his family. When he was away from home, we invariably received a letter from 'papa' every day...

"Eventually this health food factory at Brooke, Virginia was taken over by my step-sister, Mabel and her husband.

"The Kloss's then moved to Washington, D.C. and carried on his work of treating the sick, lecturing on health and a more intensive study of herbs and preparation of his book, *Back to Eden.* I still have in my possession an attractive menu... for a Demonstration Dinner he gave March 27, 1933, at the Dodge Hotel in Washington, D.C. The menu was completely vegetarian and included 'Sweetbreads a la Kloss.' The pumpkin pie and strawberry sundae were made with soy milk...

"*Back to Eden* was at last published in 1939, the fruition of much toil and sacrifice for many years by the entire Kloss family... [Jethro's] wife Amy [Pettis] Kloss died in 1944 at Fredericksburg, Virginia...

"In 1945 papa became acquainted with Mr. and Mrs. Deloe Robert Hiatt on a trip to Madison, Tennessee. Together they found a property at Coalmont, Tennessee, where the Hiatts took over the promotion and publication of *Back to Eden*... [Jethro] peacefully went to sleep in June of 1946, his eighty-fourth year [but he was age 83], and today rests in a little cemetery in Tennessee."

The recollections by his son, Eden, note: "I was born in St. Peter, Minnesota, on February 10, 1910, to Jethro and Amy Kloss... After the move to Tennessee, my parents developed a plant for the manufacture of a line of vegetarian meat substitutes, cereals, crackers, and other items, at Amqui, near Nashville. (Our business was called the Nashville Sanitarium Food Factory.) Many of my early memories center on that large two-story factory, where raw materials were transformed into good-tasting, healthful food products...

"My father was an untiring worker. He would be up hours before the rest of the family–building fires, starting cracker dough, and making everything ready so that the work could go full speed ahead when the workers arrived in the morning... One day when Eden was burned while canning tomatoes, Jethro rushed him to the Madison Sanitarium for treatment. Kloss also made gluten there.

"When I was nine or ten years old, the factory was sold to the private school at Madison and transferred to that campus, and our family traveled in our pickup truck, camping en route, from Tennessee to Virginia. Here, at a town named Brooke, we found an ideal location–a plot of ground with a building in which we could make and sell health foods and teach people about healthful living...

"It was here at Brooke, Virginia, that Papa started to put in uncounted hours working on the beginnings of his book, *Back to Eden.*

"After some years, my oldest sister and her husband took over the food factory, and my parents moved to Takoma Park (on the outskirts of Washington, D.C.)...

"Papa's travels to give lectures and food demonstrations took him to places like Miami, Florida, and Houston, Texas."

There are also recollections by his granddaughter, Doris Joyce Kloss Gardiner. In about 1939-40 she used to be with her grandparents when they visited relatives in Falmouth, Virginia, just north of Fredericksburg. There she helped make soymilk: "Nor was I happy to stand at the stove stirring and stirring large kettles of soybean milk (so the milk wouldn't stick and be scorched)–a laborious and time-consuming process. But Grandpa's soybean milk was delicious, and so were the twenty or so other soy products that he originated and produced–including meat substitutes and soybean bread, butter, cheese, and ice cream...

"Often Grandpa would prepare soybean ice cream to serve at the close of his lectures or cooking demonstrations. One of my favorite treats was to lick the paddle from the ice-cream freezer before we left home to go to the lecture...

"Grandpa and Grandma Kloss died when I was in my mid-teens." The frontispiece (facing the title page) is a portrait photo of Jethro Kloss. An original of this photo was sent to Soyfoods Center in 1985 by Doris Kloss Gardiner of Loma Linda, California. On the 4th page of photos in the center section is an ad by "Jethro Kloss Health Food Company, Brooke, Virginia." Photos show two hand grinders, a large-scale gas-fired pressure cooker, a large stove-top pressure cooker, and a hand scaler. The text begins: "We manufacture a large line of health foods." In 1921 Kloss opened this health food factory in Brooke, VA, and it as on this site that he began writing *Back to Eden.* Address: P.O. Box 1439, Loma Linda, California 92354.

2252. **Product Name:** [Auenland Tofu].
Foreign Name: Auenland Tofu.
Manufacturer's Name: Auenland Tofu und Soja Produkte.
Manufacturer's Address: Hub 4, 8210 Prien-Chiemsee, West Germany. Phone: 08054 579.
Date of Introduction: 1982 March.
Wt/Vol., Packaging, Price: Bulk.
How Stored: Refrigerated.
New Product–Documentation: Soyfoods Center Computerized Mailing List. 1981. Dec. 8. Owner: Peter Wiegand. Letter from Peter Wiegand. 1982. June 22. Followed by phone talk. Note: Apparently the company had not yet started. Peter got interested in tofu, in part, through Wildwood Natural Foods in Fairfax, California.

Form filled out by Peter Wiegand. 1982 (probably). Says that his company, Auenland Tofu, started making tofu on a commercial scale in April 1982. It is sold both vacuum packed and bulk in water.

Soyfoods Center Computerized Mailing List. 1982. Sept. 17. Owner: Peter Wiegand. Label. 1983, undated. 6.25 by 4.5 inches. Self adhesive. Many colored. Shows rayed sunrise over a rural village.

Letter from Wolfgang Furth-Kuby of Sojaquelle. 1984. April 26. "Lukas Kelterborn is not with us any more. The *Rundbrief* was mainly his thing. I knew it was not going to work this way, but I let him do it his way so he could learn. Lukas wanted to go into production of tofu so badly. He joined with Peter Wiegand and some other people and after having stuffed some 70,000 German marks into Peter's exhausted business, all went bankrupt."

Talk with Paul Duchesne. 1989. Aug. 26. Much of the following is the result of a conversation Duchesne had yesterday with Michael Pierce in Georgia (Phone: 912-752-8070 Office; 912-742-4234 Home). Wiegand sometimes used to refer informally to his company as "Wildwood II" because he felt such a strong connection with Wildwood in Fairfax, but neither the company nor the product was ever officially named Wildwood Tofu. It was always called Auenland Tofu, from the first day. Michael Pierce was present in Germany when the company started production (from Feb. to July 1982) in a small dairy barn, not in a garage. Michael did the artwork for the original labels. As soon as the products hit the market, the first plant was too small. Peter will now be very hard to get hold of. Try contacting his friend and benefactor, George Eich, Aumuehle 8210, Prien Chiemsee. George is a filmmaker who has money and may have invested in Auenland. Wiegand is presently on the outs with almost everyone–maybe including George. Wiegand also knew Wolfgang Furth-Kuby, whom he called "the Shurtleff of Germany."

Wiegand ran the small company for a while, then built a larger plant. In July 1983 Wiegand visited Fairfax for the 2nd or 3rd time. That fall, in October, Duchesne's son Paul went back to Germany with him at his new and larger facility. So the new operation, which Michael described as a huge dairy almost the size of a basketball court, contained 4 large pots for cooking, troughs, etc. and it never got completely used. Wiegand was very much in debt and working very hard. Everyone wanted the tofu but not the second generation products. So he sold his tofu mostly to food processors who made their own second generation products. He was not good at organizing, negotiating, scheduling, or managing his workers, who were not very productive. He was enthusiastic and a good salesman. After a while, he went crazy. His wife, who had a better head for business than Peter, did the bookkeeping.

For more history, see interview with Paul Duchesne, 25 Aug. 1989.

Talk with Michael Pierce (Graphic designer, 408 2nd St., Macon, Georgia 31201. Phone: 912-752-8083 Office). 1989. Oct. 30. Svadesha, who started making tofu before Wiegand, had a small operation in southeast Germany near the border, making only about 25-30 lb/week of tofu, sold at 10-11 health food stores in small lidded plastic tubs immersed in water. His tofu was in the stores when Auenland introduced theirs. Pierce went to Germany in Feb. 1982. The kitchen was getting put together when he arrived. He helped Wiegand develop a press and they started making tofu in late Feb. They also made soymilk (*sojamilch*), a baked tofu sandwich, tofu pizza, and tofu apple cake. He has an early German-language publication with recipes plus some labels. Auenland's early tofu was sold in bulk. Everyone was ready for it and people wanted more. In the early days, Auenland's people would go to the Rajneesh center and give classes on how to cook with tofu to 60-70 people. The day the company opened, it was too small. So Wiegand tried to expand, but that was a disaster, which also destroyed his family. He couldn't make enough money. Michael went to India in Feb. 1983 and when he came back in June 1983 Wiegand had a gymnasium sized building with 4 big kettles. He got the money from his ex-wife's father. Auenland got hooked up with a company near Salzburg that made mochi and seitan. (Note: It sounds like Sojvita Produktions & Norbert Brunthaler in Lichtenwörth, which was making seitan and mochi by mid-1984, but Sojvita was located southwest of Vienna, far away from Salzburg). That company had a store in Salzburg but produced foods in a home about 15 miles outside of the city. Auenland smuggled tofu to them in Austria and brought back excellent Austrian-grown soybeans. Later that Salzburg company started to make tofu. Auenland also bought organic soybeans from France, and used them to make tofu. Pierce got to know Wolfgang Furth-Kuby, whom he feels played a key role in getting tofu started in Germany, in part by translating *The Book of Tofu* into German. Pierce never heard Wiegand call the company Wildwood, only Auenland. Auenland is a folk

© Copyright Soyinfo Center 2021

name for that part of Germany (a mystical golden triangle in the mountains); its not a map term. The area was also called the Chiem-gau meaning "Bay Area." And it was also in a place called Wildenwald, which means "Wildwood." So there seemed to be many cosmic connections with Wildwood in California. It was located about 60 miles southeast of Munich on the Way to Salzburg.

Pierce also recalls hearing about a big research organization connected with a university in Stuttgart, both growing and utilization. They wanted to develop a soybean that grew in the area.

2253. **Product Name:** Earth Angel Tempeh.
Manufacturer's Name: Earth Angel Soyfoods.
Manufacturer's Address: 53 Stanley Ave., Mt. Waverley (E. Oakleigh), VIC 3149, Australia. Phone: 03-544-8020.
Date of Introduction: 1982 March.
Ingredients: Organic soybeans, cider vinegar, tempeh starter (Rice, Rhizopus oligosporus culture).
Wt/Vol., Packaging, Price: 250 gm.
New Product–Documentation: Letter from Debbie Schmetzer. 1982. March 3. Earth Angel is just getting underway and their first product is tempeh. They soon hope to produce tofu and tofu puddings for the health food stores. Label. 1983, undated. 4 by 8 inches. Black on tan. 250 gm. Illustration of a a winged elf, with soybean leaves on both sides.

the most maturely conceived, expertly produced, and appropriately packaged prepared convenience soyfood on the market."

Label (orange, brown, and yellow on white) reads: "Meatless. A vegetable based product. A food for thought. 99% cholesterol free. Low calories." Spot in Whole Foods. 1983. Jan. p. 39. "New Tofu Line. Light Foods, Inc. presents a new dimension to soyfoods: Light Links, Light Tofulogna and Light Soysage.

Leaflet. 1983. "Light Foods Inc. presents Light Links: A tofu-based hot dog developed for the healthy child in us all." 1 p. Single sided. 28 cm. Brown ink on beige paper. "This product has absolutely: No meat. No nitrites. No additives. No preservatives. No artificial coloring. No sugar... and are 99% cholesterol free."

Spot in Soyfoods. 1984. Summer. p. 42. Label. 1988, received. Tofu Light Links. 5.5 inches square. Light and dark purple, beige, and white. Logo of smiling sun in upper left. "A meatless vegetable based product. No cholesterol. Low calories." Ingredients are now: Tofu, soy oil, water, dried egg white, textured soy protein (made from soy flour), salt, barley flour, honey, tamari (a natural soy sauce), beet juice, spices, natural extractives of paprika, natural spice oils. Now contains only 76 calories and 6.0 gm of fat per 1.2 oz serving.

2257. Quong Hop & Co. 1982. New Leaf. The Soy Deli in natural food store freezers everywhere (Ad). *Natural Foods Merchandiser.* July. p. 136.
• ***Summary:*** A 1/3 page vertical black and white ad. "Now, open a full-line gourmet soyfoods deli right in your own store's freezer and give your customers all they've been looking for in natural food goodness, gourmet quality and selection, and super-convenience.

"Natural food goodness: Every product from your New Leaf Soy Deli contains only the finest quality natural ingredients including organic tofu, garden fresh vegetables, organic whole wheat pastas, and pressed oils. NO sugars, NO preservatives, and NO artificial ingredients whatsoever are used, We give you tofu, the food of the future, in its most delicious forms ever.

"Gourmet quality and selection: Plump and juicy tofu ravioli, ready to boil and serve in just minutes, an eggless tofu quiche with Gruyere cheese and fresh mushrooms on a whole wheat crust, and rich and savory tofu cacciatore with garden vegetables are just a few of the many items you can offer to satisfy even the most discriminating tastes. For desserts or snacks, they'll always come back for more of our baked tofu no-cheese cakes or our incredible dairy-free tofu 'Wholly Canolli.'

"Convenience for your customer and for you: For your customer, convenience means desserts that are ready to thaw and serve from the package and entrees that are piping hot and ready to eat from the oven or microwave in just minutes. For you, the retailer, convenience means that just one phone call and as little as $50.00 can put you into the soy deli business with our soy deli 'Grand Opening' kit. Included in one package are window posters, shelf talkers, and a selection of the best moving products in the line.

"The Grand Opening: For piping hot samples and specials, drop by our grand opening at the coming NNFA Show in New Orleans [Louisiana], Booth 755." Address: 161 Beacon St., South San Francisco, California 94080.

2258. Winter, Christine. 1982. News for you: Good 'n' healthy. *Chicago Tribune.* Sept. 15. p. E2.
• ***Summary:*** "Health foods are becoming increasingly popular, and even mainstream foods are taking on a healthy glow..." New Product News is filled with page after page of new health food products including tofu hot dogs (Light Links, from Light Foods) and soy ravioli (New Leaf Soyfoods).

2259. **Product Name:** Earth Angel Tofu.
Manufacturer's Name: Earth Angel Soyfoods.
Manufacturer's Address: 53 Stanley Ave., Mt. Waverley (E. Oakleigh), VIC 3149, Australia. Phone: 03-544-8020.
Date of Introduction: 1982 September.
New Product–Documentation: Letter from Debbie Schmetzer. 1982. March 3. Earth Angel is just getting underway and their first product is tempeh. They soon hope to produce tofu and tofu puddings for the health food stores. "Right now there are two Chinese factories that produce inorganic gypsum tofu and people would rather see organic tofu on the market... At the moment we are selling tempeh as well as tofu cheesecakes to a natural foods restaurant, and the response was great."

Letter from Darren Fletcher of Darkville, Melbourne. 1984. Sept. 4. "Earth Angel Soyfoods makes tofu and tempeh. They may close down in the near future. They told me that they would like to finish and take off for a laid-back country life style. Too much hard work they said. They will look for someone to buy the business."

2260. **Product Name:** Tofu, Tofu Cakes, Tofu Sandwiches, and Soymilk.
Manufacturer's Name: Tofu Shop.
Manufacturer's Address: 78 Bridge Rd., Richmond, Melbourne, VIC, Australia. Phone: 03-429-6024 or 6204.
Date of Introduction: 1982 September.
New Product–Documentation: Form filled out by Malcolm Green. 1983. They also operate a deli serving soyburgers, sushi rolls, kanten (agar) sweets, tofu rice sandwiches, various soy drinks, and health foods. They use 10-15 lb/day of dry soybeans.

Soyfoods Center Computerized Mailing List. 1983. June 20. Owner: Malcolm Green.

Newspaper article by Jeni Port. 1983. "The tofu is here!"

© Copyright Soyinfo Center 2021

(Title of newspaper and exact date unknown). A photo shows Malcolm and Guna Green and their baby, Georgia, in their Richmond home, the first tofu shop in Melbourne. At "The Tofu Shop" (78 Bridge Road, Richmond) Malcolm and Guna make and sell a variety of soy foods, "specialising in tofu and tempting tofu cakes and sandwiches for the take away trade. It seems incongruous that the former butcher shop now contains Melbourne's first retail outlet for tofu, a food so strongly associated with vegetarianism." Making tofu is an art "that has taken Malcolm many years to master." They also sell soy milk for 90 cents a litre.

Letter from Darren Fletcher of Darkville, Melbourne. 1984. Sept. 4. "I've decided I don't want to commit myself to the tofu business. Too much long and hard work and I really think Melbourne has enough tofu shops. I also work with Malcolm Green's Tofu Shop."

2261. Boucher, Laura. 1982. Obituaries: Mrs. Cubbison, pioneer in prepackaged stuffing. *Los Angeles Times.* Dec. 5. p. F19.

• ***Summary:*** Sophia Cubbison died on 23 Nov. 1982 at age 92. Mrs. Cubbison's Stuffing, sold in Southern California markets, is a product and an industry she developed and pioneered as an alternative to home-prepared turkey dressing. She made the product in her bakery on Pasadena Ave. near Avenue 34 in Los Angeles. She was also known for her packaged Melba toast.

In 1916, Mrs. Cubbison and her husband, Harry, opened a bakery in downtown Los Angeles. However their small business prospered, and soon they moved to the Pasadena Ave. location.

Sophie learned to bake as a child on her family's ranch in El Segundo; she put herself through college [at Cal Poly] in San Luis Obispo with the money she earned by baking for others.

Her husband died in 1953. Nearly a decade later she sold her bakery to a pretzel company headquartered in St. Louis, Missouri. The business later changed hands several times. Address: Times staff writer.

2262. *SoyaScan Notes.* 1982. Chronology of soybeans, soyfoods and natural foods in the United States 1982 (Overview). Dec. 31. Compiled by William Shurtleff of Soyfoods Center.

• ***Summary:*** Jan. White Wave in Colorado is the first company to get its tofu placed in the yogurt / dairy case in supermarkets.

Jan. Legume, Inc. launches Tofu Lasagna, frozen in a box. It is soon followed by Tofu Ravioli.

Jan. *The Incredible Tofu Cookbook, California Style,* by Immegart and Dansby self published.

Jan. New England Soy Dairy launches "Year of the Dog" Chinese New Year tofu promotion and nets 47% immediate sales increase.

Jan. Food Protein Council, a trade association, changes its name to Soy Protein Council, since all of its members make only soy protein products.

Jan. Island Spring survives industry's first publicized tofu recall and the discovery of new tofu spoilage microorganism, *Yersinia enterolitica.*

Jan. ADM becomes a sponsor of "This Week with David Brinkley" on Sunday ABC TV, with 4.4 million viewers.

Jan. Soyfoods Unlimited in California introduces tempeh burgers and ships them air freight to East Coast markets; Pacific Tempeh in California follows suit.

Feb. Yuba is first made and sold commercially in the Western world by Ken Lee of Soyfoods of America, in Duarte, Southern California. Trial production had begun in Nov. 1981.

Feb. *Soyfoods* magazine No. 6 (yellow cover) published.

Feb. Many large ads run by San-J (tamari), New England Soy Dairy, and Legume in major national trade journals.

Feb. Unicorn Restaurant in Miami, Florida, has $15,000 gourmet, soy / natural foods banquet to welcome chef Ron Pikarski, who makes elegant tofu dishes and carves a swan from soy butter.

Feb. Nasoya buys $50,000 Kutter vacuum-packaging machine, which helps to popularize this packaging style for tofu.

March. *Tofu Fantasies,* by Juel Andersen published by Creative Arts.

March. USDA issues new school lunch regulations, fails to approve tofu for use.

March. Inaccurate, damaging article on iron binding by soy proteins appears in San Francisco Chronicle and Los Angeles Times.

March. Fifteen soyfoods companies exhibit at Natural Foods Expo, Anaheim, CA. Richard Leviton gives key speech. 5,000 visitors see expo. Pacific Tempeh unveils new full-color tempeh burger poster.

March. Auenland Tofu und Soja Produkte (Prien-Chiemsee, Germany), founded by Peter Wiegand, starts to make 7 tofu products from day one: (1) Tofu Pizza, Tofu; (2) Apple Tart, or Tofu Slices; (3) Tofunafish Salad or Tofu Salad; (4) Tofu Mayonnaise; (5) Tofu Burger (Ready-to Eat, Vacuum Packed); (6) Auenland Tofu; (7) Baked Tofu Sandwich. Peter had learned how to make tofu at Wildwood Natural Foods, Fairfax, California.

March. Cauldron Foods Ltd. of Bristol, England, founded by Philip Marshall and Peter Fagan, starts making: (1) Tofu: Soy Bean Curd; (2) The Bristol Vegetable Burger (Meatless Tofu Burger); (3) The Bristol Chilli Burger (Meatless Tofu Burger); (4) The Bristol Nut Burger (Meatless Tofu Burger).

March. Big increase in European soyfoods companies; there are now eleven.

March. Name of *The Beanfield* newsletter changed to

Soyfoods Monthly.

March. Great Eastern Sun trading company founded in North Carolina by Barry Evans.

April. At New York's International Food Show, Quong Hop, Yeo's, and President brand soymilks, and Veda's Bayou Delights (tofu / tempeh pot pies) exhibit. ADM serves soy isolate ice cream and soymilk.

April. Quong Hop unveils its new Soy Deli marketing concept for retail using posters and tofu entrees sold frozen.

April. Jack's Beanstalk in Utah does creative work at introducing tofu to institutions. Develops 30 bulk recipe cards scaled to 100 servings.

April. ADM unveils work with glucono delta-lactone (GDL) and soy isolates in making tofu.

April. *Toyo Shimpo*, Japan's tofu newspaper, gives extensive coverage to upcoming Soyfoods Come West conference in Seattle, Washington.

May. Island Spring releases two 5-minute color video tapes demonstrating tofu cooking for showing in supermarkets.

May. Public schools in Hawaii are granted permission to use tofu in meals.

May. *Soyfoods Directory and Databook*, (1st ed.) by Shurtleff and Aoyagi published by Soyfoods Center, the first book of its type listing all soyfoods companies and industry and market statistics, 21 pages. Based on many phone interviews with company owners. Second edition published in June as *Soyfoods Industry: Directory and Databook*, 52 p.

May. William Shurtleff and Mark Fruin receive a grant from Kikkoman to write a book on soy sauce.

May. *Cook with Tofu*, by Christina Clarke is 2nd runner-up in R.T. French's Tastemaker awards for cookbooks.

May. Clearway Tofu sponsors the first Mother's Day Tofu Fair in Santa Cruz, California, with tofu recipe competition, music, and prizes.

June. Vitasoy USA runs color display ads for soymilk on San Francisco buses.

June. Kibun of Japan exhibits four flavors of soymilk in Tetra Pak cartons at National Restaurant Show in Chicago, Illinois.

June 16. *The New York Times* runs an article on Dieter Hannig, Director of Food Research for Hilton Hotels. His many tofu recipes on microfiche are sent to 86 Hiltons worldwide.

June. *Bestways* magazine begins a 3-part series on soyfoods by Bonnie Mandoe.

June. *The Soy Dairy: A Way to Save the Small Farm*, by MacCormack published by Sunbow Farm.

June. *The Book of Nigari Technique* (in English) published by Yoshikawa Kagaku in Japan.

June. Metta Tofu Products in Denman Island, BC, Canada, introduces Frozen Buddha soymilk ice cream.

June. Haarmann & Reimer debuts flavors for tofu and okara at IFT convention in Las Vegas.

June. Royal American Foods is launched in Kansas City, Missouri, with $1 million startup capital to sell TVP entrees, tofu-like products via multi-level marketing system.

June. Granny Goose Potato Chips does extensive radio advertising in California for a new potato chip. Ad makes frequent, positive reference to tofu. First national radio ads mentioning tofu.

June. Farm Foods presents Ice Bean at American Booksellers Convention at Anaheim, California, along with previews of their new tofu cookbook.

July. "Discover Tofu" published by *Cosmopolitan* magazine.

July. Farm Foods receives a U.S. trademark for "Ice Bean" as a soy ice cream.

July. Bob Davis of Light Foods excites NNFA convention in New Orleans, Louisiana, with debut of Light Links, the world's first tofu hot dogs.

July. Eden's Orchard tofu / soymilk ice cream introduced in New York by Heller Enterprises.

July. Richard Jennings announces a new formula for okara / barley tempeh; later purchases Southwest Soyfoods, relocates company in Santa Fe, New Mexico. Continued.

2263. Nakano, Eisha; Stephan, Barbara B. 1982. Japanese stencil dyeing: Paste-resist techniques. New York and Tokyo: Weatherhill. ix + 143 p. Index. 27 cm. [46* ref]

• ***Summary:*** Both authors are women living in America. Eisha Nakano, a graduate of the junior division of the Women's University of Fine Arts, Tokyo, is a stencil artist with long experience teaching katazome (stencil dyeing) to Westerners. The katazome process consists of cutting a paper stencil, preparing the resist paste (made of glutinous rice flour [*mochiko*] and rice bran [nuka]), choosing and preparing the fabric or paper which will be dyed, applying the paste to the fabric or paper using the stencil, letting the paste dry, preparing and applying sizing to the fabric or paper, dyeing the fabric by applying the dye or pigment with a brush, sometimes steaming the fabric, then washing off the paste to reveal the design, and finishing the fabric. The cloth is not dyed in the areas where paste was applied; thus katazome is the direct opposite of the silk-screen technique. Soybeans have traditionally been used in the katazome process in two ways: As sizing and as pigment-binding agents.

Chapter 6, "Sizing the fabric," states (p. 69-73). "The sizing most widely used for katazome, however, is *gojiru* [actually uncooked diluted soybean liquid, or soymilk], a liquid extracted from soaked and ground soybeans. The reason that soybeans are such a good sizing agent is not just that they are cheap and plentiful but also that they are rich in protein, which has adhesive-like qualities. Once the liquid is brushed onto the cloth, the protein begins to undergo a structural change, known as denaturation, whereby it is rendered insoluble. This not only makes the

© Copyright Soyinfo Center 2021

sizing permanent; it also helps reinforce the bond between the fiber and the subsequently applied dye, ensuring good colorfastness... As sizing, the soybean liquid is highly diluted, so the effect is little more than a light starching."

To prepare the soybean sizing for 5-6 meters (16-20 feet) of narrow-width cotton fabric, choose a dry warm day. Soak about ¼ cup (50 gm) whole soybeans in ample water for 5-6 hours in summer or overnight in winter. Drain off the water and have ready an equivalent volume of fresh water. Crush the softened soybeans in a blender or suribachi, adding the fresh water as necessary. Pour the liquified [liquefied] soybeans into a cloth filter bag made of organdy or coarse muslin then squeeze over a bowl to extract the concentrated uncooked soymilk, whose volume should be about equal to that of the swollen beans. Now dilute the concentrated soymilk with 8 to 10 parts water, or until it has the translucence of nonfat milk. Now apply the soybean liquid sizing to the fabric using a wide brush following the details given. Stretch the fabric tight and allow it to dry. The soybean liquid must be used fairly quickly, lest it spoil.

Concentrated soybean liquid is also used in traditional Japanese pigment dyeing as a thinner and binder for many pigments. "Pigments differ from dyes in that they are opaque, are insoluble in water, and have little or no affinity for textile fibers. Instead of penetrating the fabric, the finely ground particles lie on the surface, held by any number of film-forming binders. In traditional Japanese dyeing, this binder has generally been derived from soybeans... In traditional pigment dyeing, the color is bound to the fabric through a change in molecular structure that occurs when the protein found in the soybeans dries and turns into an insoluble compound. For the color to be fast, the soybean liquid with which the pigment is mixed must be fairly concentrated, much more so than when used as sizing." Whereas the volume of water added to concentrated soybean liquid for sizing is 8-10 parts, for mixing pigments it should be 1 part for detail or accent color, or 3 parts for background color. After dyeing, the color is fixed with alum solution.

Talk with John Marshall (24 July 1991), a Berkeley artist who was apprenticed to a natural dyer in Japan from 1971-1976 and who uses natural plant dyes: Protein is used in a number of ways in ethnic textile dying. The Japanese and Chinese use soymilk as their source of protein. The people in Pompei used egg white / albumin, while those in Okinawa use dairy milk. The purpose is to coat the fabric and to serve as a primer or *gesso* on which the natural dyes are applied. Real gesso is powdered marble and a binder. In Japan, a dyer would stretch a piece of fabric made from any natural fiber, then apply the soymilk to it using a brush; 1 coat is usually enough but some artists use 2-3 coats. John makes his own soymilk from whole soybeans; he learned how in Japan as part of the dye process. In traditional Japanese dyeing the cloth was not immersed or dipped in the soymilk. Let the cloth dry until it is no longer wet, then it is ready to be dyed, for example using tie-dye (dunked), paste-resist (made from powdered glutinous rice and bran; leave it stretched, as with katazome), batik (with wax resist), or a solid color. Address: 1. Cincinnati, Ohio; 2. USA.

2264. Whorton, James C. 1982. Crusaders for fitness: The history of American health reformers. Princeton, New Jersey: Princeton University Press. xi + 359 p. Illust. Index. 22 cm. [477* ref]

• ***Summary:*** Critical of health reform movements and presented in an unsympathetic, sometimes mocking or sarcastic tone, this provocative book on the American "health fanatic" and "health faddism" is nevertheless extremely well researched and well written. It shows the importance of basing health reform movements on solid nutritional science. In attempting to prove his point, the author is often unbalanced in his presentation.

Contents: List of 11 illustrations (both photos and illustrations). Acknowledgments. Introduction: The kingdom of health. 1. A fig for the doctors. 2. Christian physiology (Reverend Sylvester Graham [1794-1851], Francois Broussais, William Andrus Alcott, Bronson Alcott). 3. Tempest in a flesh-pot (Vegetarianism, Graham, Alcott, George Cheyne, William Lambe, John Frank Newton, Russell Trall, William Cowherd, William Metcalfe). 4. Physical education. 5. Hygiene in evolution (Martin Luther Holbrook, Herbert Spencer). 6. Physiologic optimism (Horace Fletcher). 7. Muscular vegetarianism (John Harvey Kellogg, Ellen G. White). 8. Uric acid and other fetishes (Alexander Haig). 9. Philosophy in the gymnasium (Bernarr Macfadden). 10. The hygiene of the wheel (Rise of the bicycle and cycling). 11. A modern conspectus (J.I. Rodale, Adelle Davis, holism macrobiotics (p. 342), Frances Moore Lappé, Jay Dinshah, the religion of running and marathons, etc.).

The health reformer "is one of the classic characters bred by American culture." The first health reform movement started in the 1830s, with Sylvester Graham. Devotion, asceticism, and zeal have led to hygienic ideologies and religions of physical purification. A deep trust in the wisdom and beneficence of nature have characterized all American health reform ideologies. Perfection of the body is seen as a first step towards perfection of the whole organism, mind, moral character, and soul–and eventually of society and the world. Any indulgence which is immoral must also be bad for the body. Note: Seventh-day Adventists started the first health reform movement that used soyfoods.

Good health is seen as more than the absence of physical symptoms. Today we have "high level wellness" or well being.

These reform movements have flourished in periods of general reformist ferment and social optimism. Thus, the Jacksonian Era (Andrew Jackson was president of the U.S. from 1829-1837; Jacksonian democracy celebrated the

© Copyright Soyinfo Center 2021

virtues of the common people and of grass-roots democracy) and the Progressive Era of the 1900s and 1910s were years of great reform activity. The 1960s gave birth to the "wholistic health movement" of which the natural foods movement was but a part.

There have been few serious studies of the history of America's unique health reform movements. Recent exceptions include: *Prophetess of Health: A Study of Ellen G. White*, by Ronald L. Numbers (1976) and *Sex, Diet, and Debility in Jacksonian America: Sylvester Graham and Health Reform*, by Stephen Nissenbaum (1980).

America's first major health reform movement was founded by Sylvester Graham during the Jacksonian Era. Against the heroic medical therapeutics of the day (mercury compounds, opium, strong emetics and cathartics, and bloodletting) arose a deep trust in nature and a confidence that hygiene (the key word, which had a different meaning then) could replace medicine.

Sanitary reform began in the mid-1850s following the first invasion of Asiatic Cholera into America in 1832. Health reform grew largely out of Christianity. Hygienic living was considered by many to be a Christian duty, which was necessary for salvation and part of redemption. Its opposite was indulgence. So the emphasis was on what to avoid rather than on what to do. Graham was a Victorian New Englander, based in Boston, Massachusetts. He advocated avoiding consumption of alcohol, meat, spices, and white bread. He was a very strong advocate of whole wheat bread. Flesh food was doubly bad: the cruelty of the slaughterhouse and the fact that it was a "stimulating" food.

William A. Alcott, cousin of the famous Transcendentalist and "vegetarian by instinct" Bronson Alcott, was as busy a lecturer as Graham, but he had a more complete and balanced philosophy.

In the late 1830s, Graham and the American Physiological Society helped to organize the nation's first health food store in Boston, to supply Graham Bread and fresh fruit and vegetables grown in virgin, unfertilized soil.

The Journal of Health (Philadelphia, Pennsylvania), America's first health reform periodical, was inaugurated in 1829, the same year that Andrew Jackson was; it lasted until about 1832.

Donna Maurer of Southern Illinois University, who is writing a PhD thesis in the field of vegetarianism, notes (Jan. 1995): "Regarding Whorton's interpretation of early vegetarians–although I agree with you that his scholarship is unbalanced in terms of giving 'proper' credit to Graham, Alcott, and Kellogg, etc., he has presented the movement in *much* more favorable terms than any other interpretation I've read (that deals with vegetable diet as a component of 'irregular' medicine). Also, Whorton has engaged in more archival, primary research on the early vegetarians than any other historian to date." Address: Assoc. Prof. of Biomedical History, Univ. of Washington, Seattle, WA.

2267. Ornish, Dean. 1983. Stress, diet, and your heart. New York, NY: Holt, Rinehart and Winston. xxi + 392 p. Foreword by Alexander Leaf, M.D., Illust. Printed in 1983 by New American Library (Signet Books). 24 cm. [224+ ref]

• ***Summary:*** The title page states: "With a Foreword by Alexander Leaf, MD. Original recipes by Martha Rose Shulman." This is Dean Ornish's first book on the benefits of diet, stress reduction, and exercise in reducing heart disease. Grains, legumes and vegetables are the staples in this low-fat, vegetarian diet. Dairy products (such as milk and yogurt) are used sparingly.

In the section on the "Five Food Groups," the subsection titled "Legumes" includes azuki beans, miso, soybeans, soy flour, soy milk, tempeh, and tofu.

The recipes–which are innovative, tasty and nutritious–were developed by Martha Rose Shulman and she wrote most of Chapters 14-20.

The word "tofu" appears on 46 pages in this book, "soy flakes" on 10 pages, "soy milk" on 5 pages, "soy flour" on 2 pages. and "tempeh" on 1 page. Soy-related recipes and information include: Soy flakes, tofu (p. 161-63). Modified sautéed eggplant (p. 164-65). Brief descriptions of azuki beans, soybeans, soy flakes, and soy grits (p. 175-76). Instant soy milk (such as Fearn or Jolly Joan), Tofu–description and uses (p. 181). Recipe for Brown rice, barley, soy grits (p. 182). General cooking directions for legumes (p. 184-87). Very simple cooked soybeans ("The size of the pot is especially important with soybeans, which bubble up dramatically," p. 185). Cooked soy flakes (p. 188). Herbed tofu spread (p. 207-08). Apple spice tofu morning spread (nice on toasted morning bread or muffins, p. 208, 279, 290). Peanut butter banana tofu spread (209). Nutty tofu cheese substitute (p. 236-37). Roasted soybeans (dry roasted = baked, p. 239-40). Homemade granola (with "½ cup soy flour," p. 241-42). Deep-dish vegetable pie (with cooked soy flakes, p. 252-54). Eggplant and rice casserole (with soy grits, p. 257-58). Sprouts, tomato, and white bean spread sandwich (with dry roasted soybeans cracked in a blender, p. 260). Tofu banana cream pie (p. 266-67). Gazpacho (p. 269-70). Pizza (homemade, with Tofu cream sauce, p. 271-73). Brown rice salad (with dry roasted soybeans, p. 279). Buckwheat noodle salad with hot and sour dressing (and dry roasted soybeans, p. 282-83). Bulgur-spinach salad with poppy seed dressing (p. 285). Curried tofu and vegetables (p. 287). Mushroom and barley soup (with soy flakes, p. 291). Pasta with vegetables (and dry roasted soybeans, p. 296). Pasta with vegetables (and dry roasted soybeans, p. 296). Millet raisin pudding (with "¼ cup instant soy milk {such as Fearn}," p. 298). Spaghetti sauce with tofu tomato sauce (p. 298-99). Grated zucchini casserole with eggplant sauce (and dry roasted soybeans, p. 301-02). Couscous casserole (with "½ pound {2 cakes"} tofu, p. 321). Soybean-grains casserole (with "2 cups cooked soybeans or soy flakes, p. 325-26).

For information on a vegetarian diet, see p. 3, 144-50.

The excellent Foreword by Dr. Alexander Leaf, M.D. (Chairman, Dep. of Preventive Medicine and Clinical Epidemiology, Harvard Medical School) notes that coronary heart disease is now the leading cause of death in our western industrialized world. Medicine has been grappling with this modern killer largely by trying to cure coronary artery disease–angina and nonfatal heart attacks–rather than to prevent it. "With heart attacks accounting for as many deaths annually in the United States as all other causes of death combined, we are dealing with a modern epidemic still taking a toll of 600,000 lives per year... Many of these deaths are sudden..." The major risk factors for future heart attacks are cigarette smoking, arterial hypertension, elevated serum cholesterol, Type A personality, etc. "What is still lacking in the logical chain is evidence that reducing the risk factors in a given individual will prevent the occurrence of coronary artery disease in that person." Dr. Ornish, through

© Copyright Soyinfo Center 2021

his research and preventive approach, is seeking the evidence for that missing link. Nevertheless "the prudent person will benefit his or her well-being, and very possibly his or her heart as well, by adopting and adhering to the dietary and stress modification programs Dr. Ornish has presented" in this important book. Address: M.D., Sausalito, California.

2268. McCaleb, Don R. 1983. Alumni on the go: Mrs. Cubbison leaves 'stuffing' legacy. *Cal Poly Today* 24(3):18. Spring.
• ***Summary:*** Sophie Huchting Cubbison graduated from Cal Poly in 1912. "She put herself through college with money she earned baking for others. She learned to cook on her family's ranch near El Segundo, where she prepared meals for her parents, nine brothers and sisters, and up to 50 ranchhands.

Later, she invented the prepackaged stuffing that bore her name and was a pioneer in the poultry stuffing industry. She is widely remembered as a "smiling, grandmotherly woman in a red and white apron laboring cheerfully over a holiday feast. She is the personification of Thanksgiving past–a perfect symbol to sell prepackaged stuffing." She died on 23 Nov. 1982 at age 92. "After her husband's death in 1953, Sophie remained active as a consultant in the business. She developed a corn-bread stuffing and appeared frequently on television talk shows to offer cooking tips until failing health forced her to retire in the late 1970s.

"Mrs. Cubbison remained loyal to Cal Poly throughout her life and donated a generous portion of her estate to the university." A photo shows Sophie in a dress with a checkerboard pattern standing behind a table on which is a turkey, a box of her stuffing, and a mixing bowl.

Talk with Mike McCall of Cal Poly's endowment office. 2004. Feb. 5. Sophie left two generous endowments to Cal Poly in her will. They were the "Sophie C. Cubbison Home Economics Endowment" and the "Sophie C. Cubbison Endowment." The checks arrived at Cal Poly in Nov. 1988 from Wells Fargo Bank, which was the trustee for her estate. Address: [Director, Public Relations, Cal Poly].

2269. **Product Name:** Ice Bean Sandwich (Ice Bean Between Carob Coated Honey Wafers) [Honey Vanilla, Carob, or Peanut Butter].
Manufacturer's Name: Farm Foods.
Manufacturer's Address: Summertown, Tennessee.
Date of Introduction: 1983 June.
Ingredients: Vanilla: Ice Bean Ingredients: Water, soybeans, honey, corn oil, pure vanilla extract, soy lecithin, guar and carob bean gum. Carob wafer ingredients: Whole wheat flour, wheat flour, honey, corn oil, carob, molasses, salt, baking soda, soy lecithin, pure vanilla extract.
Wt/Vol., Packaging, Price: 6 sandwiches, 3 fluid oz each, in paperboard box.
How Stored: Frozen.
New Product–Documentation: See also next page. Soyfoods. 1983. Summer. p. 48-50, 52. "Ice Bean Sandwich: In May Farm Foods released a newly redesigned Ice Bean container, a new vanilla flavor (sweetened with fructose), and an exciting Ice Bean Sandwich (vanilla Ice Bean layered between carob-coated wafers). The new products were unveiled at the May ECHO show in Atlantic City and the NNFA show in Denver [Colorado] in July." They also introduced a honey vanilla soy ice cream and a new package; Spot in Natural Foods Merchandiser. 1987. July. p. 84. Two new flavors: Peanut Butter Ice Bean with Carob Wafer and Carob Ice Bean with Vanilla Wafer. Label reads: "No cholesterol. Lactose free. Low sodium. Honey sweetened. 6 sandwiches." Six black and white photos of different Ice Bean products sent by Robert Tepper. 1983, April.

2270. *Soyfoods.* 1983. Soy marketing: Promotions [Hinode tofu, New England Soy Dairy, Ice Bean sandwich, Bread & Circus, Tree of Life]. Summer. p. 48-51.
• ***Summary:*** Soy Dairy discontinued selling its Herb Garden and Spice Garden Tofu in boxes, switched to redesigned, less expensive, standard tofu tubs.

"Ice Bean Sandwich: In May Farm Foods released a newly redesigned Ice Bean container, a new vanilla flavor (sweetened with fructose), and an exciting Ice Bean Sandwich (vanilla Ice Bean layered between carob-coated wafers). The new products were unveiled at the May ECHO

show in Atlantic City and the NNFA show in Denver [Colorado] in July.

"Farm Foods also operates a monthly press release service, adds marketing co-director Beth Lloyd, in which product information releases are mailed to 125 trade journals and distributors, and, every couple of months, publishable short articles, with recipes (Southern Soy Breakfasts, Low Calorie Coolers for Hot Summer Days) are sent to 100 newspaper food editors. In terms of the article publications and favorable notices, this twofold program has been 'very effective,' states Beth Lloyd.

Farm Foods predicts that sales of Ice Bean will jump 50% in 1982, and will top $1 million by the year's end. Farm Foods recently established a Los Angeles warehouse to handle its 14 West Coast distributors. Farm Foods also recently landed the Alpha Beta supermarket account; Ice Bean is now sold in 15 of the chain's leading Northern California outlets in their natural foods centers. In February 1983, Ice Bean moved into 40 Raley's Supermarkets in the Sacramento area. And Ice Bean is sold at 500 General Nutrition Centers (about half of all outlets) nationwide.

2271. Shulman, Martha Rose. 1983. The health food industry. *Cosmopolitan.* July. p. 240-45.
• ***Summary:*** "These days, as interest in nutrition burgeons, health food is no longer the fringe fad it once was. Jane Fonda, Barbra Streisand, Sidney Poitier, Jerry Brown, Carol Channing, and Erica Jong are all avid fans of nutritious cuisine... and did you know Doris Day, Cheryl Tiegs, and Bill Walton have a distinct weakness for tofu? Sales of health food, now $2.4 billion a year, have *tripled* in the last decade. There are more than eight thousand natural-foods stores in the United States–over thirteen hundred in Los Angeles County alone–and over eighteen million people shop in them. Increasingly, too, the funky natural-foods shops of the late sixties and early seventies are becoming sophisticated supermarkets. Health-food chains are–excuse the expression–sprouting up nationwide. The largest, General Nutrition Centers, has about eleven hundred stores."

2272. Leviton, Richard. 1983. Report on soyfoods research trip across America, September 1983. Colrain, Massachusetts. 8 p. Unpublished typescript.
• ***Summary:*** Visited or discusses: Grainaissance (makes amazake and mochi), Brightsong (Dik / Richard Rose), Sonoma Specialty Foods (California), Northern Soy (Rochester, New York), Southwest Soyfoods (Richard Jennings), White Wave (Steve Demos, Boulder, Colorado), Quong Hop & Co. (South San Francisco, California), Modern Fare (Loveland, Ohio), Soyfoods Unlimited (Valerie, Gary and John Robertson, San Leandro, California). Soyfoods Center (Lafayette, California), Soyfoods of America (Doug Fiske and Ken Lee, Los Angeles), Real Foods (Polk St., San Francisco), Tumaros (Los Angeles), Unicorn (Terry Dalton, Florida), Japantown and Rainbow Grocery (San Francisco), Berkeley Natural Grocer and Berkeley Co-op (Bob Gerner, California), Hinode Tofu Co., Edensoy, Farm Foods, New England Soy Dairy, and Nasoya (Leominster, Massachusetts). Legume (Gary & Chandri Barat, New York City), Lotos / Lotus Cafe (Greg Weaver, Rochester, New York).

NRRL (Hesseltine and Wang, Peoria, Illinois): Their work is in mixed starter culture fermentation, vitamin B-12 work. Japanese man from Tokyo to work one year on natto at NRRL, paid by Japanese government. B-12 can withstand some heat during cooking and the percentage of B-12 lost depends on the initial percentage present. Natto research: examine all Japanese publications for review article. Experiment using U.S. soybeans to make natto since the Japanese buy Chinese beans for their thinner seed coat. See what happens to the oil to protein ratio during fermentation. Natto as such has no possibilities in the U.S. as it is a slimy food with a rotten smell; hard to tolerate. There might be vitamin B-12 in natto produced by *Bacillus subtilis.* Koreans have done lots of B-12 research with kimchee and other pickled vegetables. Earl Swain died this summer of a heart attack at age 36. Natto research will help U.S. soybean exports. USDA bureaucrats are making it difficult for Dr. Hesseltine to do natto research. They have 65 objectives, but Dr. Wang's projects don't fit any of them clearly, so they won't mention "food" in their research outlines, just fermentation methods. Secretary of Agriculture John Block

© Copyright Soyinfo Center 2021

[served 1981-86 under President Ronald Regan] says the U.S. needs more ag exports and more basic information about crops uses, so he is in support of this natto research.

Out of business: Michiana Soyfoods, St. Ignatius shop, Sunshine Soy, Heartsong, probably Joy of Soy and a Korean shop in Salt Lake City, Utah.

Concerning soymilk: 10. In Oak Park, Illinois, a natural foods retailer says Edensoy outsells San-J by two to one. (Note: San-J imports "To-Neu Natural Soy Beverage" made in Japan by Kibun). Teenagers buy the carob Edensoy along with popcorn in the store, and use it as a soft drink. But most retailers say the Eden package [stand-up foil retort pouch] is a disaster; it is impossible to open without scissors, then if you squeeze, it sometimes spills out. San-J [in a Tetra Brik carton] is convenient but the taste is poor and the front graphics are confusing–too many words and images. According to Shurtleff, both are inferior products compared to Japan's best.

22. Concerning Edensoy at the NNFA show in Denver, Colorado: Mike Potter says "it went over great." He sold two container loads right away. People liked the package and the taste. About 4,000 people sampled it and were "generally amazed." The results were as good as they could want; it generated interest and excitement. Now they are setting up the distribution system. Address: 100 Heath Rd., Colrain, Massachusetts 01340. Phone: 413-624-5591.

2273. Friedman, Nancy. 1983. Make way for tofu: It's cheap, versatile, nutritious–and about to break out of the health-food ghetto. *West* (*San Jose Mercury News, California*). Nov. 6. p. 34-39.

• ***Summary:*** About San Jose Tofu Co. (with a large color photo of Kenny Nozaki and his tofu shop), Fuji Tofu Co. (Reiso Kake started Fuji Tofu Co. 20 years ago), Azumaya, Quong Hop, and William Shurtleff. Contains 3 tofu recipes provided by Soyfoods Center: Creamy tofu dip or dressing. Tofu cheesecake with strawberry topping. Chilled tofu (*Hiya-yakko*).

2274. Kahan, Alan. 1983. Recollections of the early health foods industry in Los Angeles: Bill Baker, Mildred Lager, El Molino Mills, Ben Kahan, and Joseph Lessin (Interview). *SoyaScan Notes.* Nov. 30. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** In the late 1920s and early 1930s physicians in and around Santa Barbara, California were treating gout and other ailments by changes in diet. Bill Baker was Alan's godfather; he baked Alan's parents a 250-pound wedding cake.

In late 1931 Ben Kahan started selling soy bread, made by Bill Baker, to 16 stores in Los Angeles. He would drive his model A truck from Los Angeles To Ojai, load it up with Baker's bread, then distribute it. Bill Baker's bakery, built around the turn of the century, still exists in Ojai. Bill Baker was a pastry chef for some U.S. president in about 1910-1919. A very innovative man who was deeply involved with soya, and good personal friend of Ben Kahan's, he died in about 1945. Ben also knew Mildred Lager. She was one of his first customers.

Ben, who is now age 69 and in good health, lives in North Hollywood and is still vitally interested in Kahan & Lessin, and the health food industry. He entered the industry when he was 17 years old, selling Bill Baker's bread. On the side of his truck was a large illustration of a package of Bill Baker's bread. Then he grew into a distributor named the Ben Kahan Co., which also sold dried fruit packs. In 1934 Joseph Lessin was selling healthy foods out of his car. Joseph and Ben met, but they didn't merge to become Kahan & Lessin until 1945, when an accountant put the two men together.

Alan knew Harold Hain. Mr. Vandercook of El Molino Mills started with soy in about 1927 [sic, 1926]. At his mill in Alhambra near Los Angeles, he ground grains on a stone burr mill. Address: Kahan & Lessin Co., Compton, California.

2275. *Health Foods Business.* 1983. Industry news: Pharmaceutical firm acquires K&L. Nov. p. 31.

• ***Summary:*** "Kahan & Lessin Co. of Compton, California, has been acquired by Jameson Pharmaceutical Corp. of San Mateo, California. K&L, a leading distributor of natural products, was founded in 1932; it has been owned by Fleming Companies of Oklahoma City since 1972.

"Jameson's main business is the manufacturing and distribution of vitamins and food supplements, mainly through drugstores and supermarkets. James H. Jones, 53-year-old chairman of the board at Jameson, is a founding director of" Wal-Mart.

A photo shows Arthur Miller, age 62, who will continue in his role as president and chief operating officer of K&L.

"K&L currently serves over 1,600 health food store accounts in the states of California, Hawaii, Arizona, Utah, Nevada, Colorado, Montana, Washington, New Mexico, Texas, Oregon, etc. It carried more than 8,500 items at a 100,000-square-foot distribution center."

2276. *Toyo Shinpo* (*Soyfoods News*). 1983. [Study of health food buyers in Saitama prefecture, Japan]. Dec. 1. [Jap]

• ***Summary:*** The biggest buyers of health foods in Japan are women in their 50s and 60s; they are more interested in men. Sea vegetables and vinegar are the two health foods used most frequently (both are alkaline foods and are rich in minerals).

When asked which foods they believed are good for their health, these women replied: Sea vegetables 89.3%. Vinegar 87.9%. Yogurt 71.6%. Health tea 34.4%. Prunes 22.6%. Sports drinks 16.0%.

2277. Kahan, Ben. 1983. Recollections of the early health foods industry in Los Angeles: Bill Baker, Mildred Lager, El Molino Mills, Harold Hain, Henry Borsook, Gayelord Hauser, Clark Irvine (Interview). Conducted by William Shurtleff of Soyfoods Center, Dec. 4. 3 p. transcript.
• ***Summary:*** Ben, age 69, was one of the founders of Kahan & Lessin. He has been in the health foods industry since 1932. He became involved with soyfoods through Bill Baker (of Ojai), who pioneered the use of soy flour in Los Angeles bakery products. Bill had the flour ground by El Molino Mills, by elder Vandercook. Starting in about 1936 he developed and started to sell soybean bread. At about the same time he started to make soybean cookies, cereal, pancake flour, and related products. Ben Kahan was the first distributor of Bill Baker's soybean products. Before this, he developed lima bean flour, bread, and pancake and waffle flour, then he switched to soybean flour. Bill Baker got El Molino interested in soybeans. El Molino started in about 1927 with whole-wheat flours. Mr. Vandercook came from Holland, worked for Sperry Mills, was disenchanted, left Sperry and came to Alhambra, where he set up a stone burr just as he had known as a child in Holland. Kahan was also the first distributor for El Molino.

Mildred Lager had one of the first free-standing health food stores (i.e., not in a department store) but she also did promotional work for the health food industry direct to consumers via radio. She was retained by a number of pioneer health food organizations which sponsored here, including Bill Baker. Ben knew here and distributed products to her. Mildred was a slight woman, medium height, former school teacher from Wisconsin, arthritic since youth [about age 16]. Doctors told her to go to California since the weather might help her. She decided to help herself through nutritional means. She was enthused in discovering the relationship between nutrition and health, and she wanted to spread this knowledge to the public. So she started a store, radio broadcast, and classes. She would hire a hall in the Royal Palms Hotel (at 6th and El Dorado), invite people to lectures and cooking classes, and publicize it through her radio program. Bill Baker would bake fresh soybean breads and cookies for the demos.

Bill Baker entered America as a poor immigrant from Prussia. He worked as a baker at some of the most prestigious hotels and restaurants in America. His last jobs were as chefs in the White House [sic] for many years. The last administration was the Harding administration. After that each Christmas he would send the official holiday fruit cake, continuing until Franklin Roosevelt's 3rd administration. After retirement in the early 1930s he was in Ventura, then he moved to Ojai; he baked conventional breads and pies for the Thatcher School and other schools in the Ojai Valley.

Then a group of doctors at the Cottage Hospital in Santa Barbara asked him to try to develop an alkaline bread for nutritional treatment of patients with hyperacidity. Baker researched the problem and came up with lima bean bread, using flour from dried immature baby limas. Also lima bean pancake and waffle flour. He then tried to get this out to the doctors' patients. It was the middle of the Great Depression so it was hard to introduce new products. Kahan, a new distributor in need of products, tried to get the new bread into stores, but only health food stores were interested. Others laughed him out of the store. Mildred Lager was one of his first customers. Bill Baker did his promotions through her.

Bill Baker died in about 1945. The heyday of his baked goods was during World War II. Kahan distributed 1,200 loaves a day. Baker probably also sold through many other distributors in other regions. He shipped his bread to San Francisco, Seattle, and as far east as Colorado. The formula was a secret but probably 16-20% soy flour and the rest a high-gluten unbleached white flour.

The Los Angeles health food movement originated in the late 1920s and early 1930s. Clark Irvine was one of the founders. He published *Health Food Digest* [sic, *California Health News*], which later became Let's Live. Kahan, Irvine, and a few others founded the Health Food Dealers Association, which later became the National Dietetic Foods Association.

The key health food people in Los Angeles were Clark Irvine, Bill Baker, Mildred Lager, Van Gundy, Vandercook, La Sierra Industries (founded by T.A. Van Gundy in Arlington, California), and Loma Linda Foods. Kahan knew of T.A. Van Gundy, and he knew Dorothea Van Gundy well. Harold Hain canned the first commercial soybeans in about 1924. His Hain Health Foods company later became today's Hain Food Group. Dr. Fearn was a pioneer but not a mixer in the industry; not at the National Health Food Dealers Association.

Vitamins: Dr. Henry Borsook, a biochemist at the California Institute of Technology (commonly referred to as Caltech) pioneered vitamins in the early 1940s. He attended health food meetings. This is one reason for the rise of the health food industry in Los Angeles. Borsook was the first on the West Coast to do this. The first U.S. vitamins in a health food store were sold by Joe Bishop, manager of the Vegetarian Cafeteria in San Diego, in about 1941. He sold those made by W.T. Thompson Co.–powdered vitamin B-1 sold in little envelopes. The Seventh-day Adventists also played a big role in Los Angeles. In the early days, many stores were marginal operations in private homes, run by women. The manufacturers were primitive. They catered to poor, marginal people, during the Depression, who couldn't afford to go to doctors, so they tried health foods. They also catered to diabetics, people with allergies, and the teachers who preached against salt. Some of the earliest out-of-the-home health food stores were concessions in markets. So, in this sense, now its not new for health food stores to be in supermarkets. Some of the leaders were those disenchanted with the medical profession. Gayelord Hauser played a

© Copyright Soyinfo Center 2021

leading role in making health foods acceptable; before him they were associated with the nuts, kooks, and freaks. Hauser, who associated with Hollywood and Greta Garbo, gave health foods a big image boost. He created the first big chain, the forerunner of the modern health food industry, in the late 1940s. He and his books and charisma gave the industry a new image. Suddenly health foods were seen as being used by people in the know–not just by nuts.

He recalls four stages of health food stores: (1) In private homes run by women. (2) Concessions in larger food markets or stores. (3) Small stores in secondary retail stores, out of the way, because they couldn't afford stores in main shopping districts. (4) A handful of free-standing health food stores. Mildred Lager's store was not a prime place by any means, but it was pretty good. She had a friend named Gilbert Thayer who backed her. He was an early chiropractor interested in nutrition. She worked for him originally, then branched out on her own. Before that she was a primary school teacher in Wisconsin. Address: 5530 Goodland Ave., N. Hollywood, California 91607. Phone: 818-701-6632.

2278. *SoyaScan Notes.* 1983. Chronology of soybeans, soyfoods and natural foods in the United States 1983 (Overview). Dec. 31. Compiled by William Shurtleff of Soyfoods Center.

• ***Summary:*** Jan. 16. Larry Needleman decides to sell Bean Machines; he is looking for a buyer. Jan. 24. "Legume, Company Finds Niche Selling Frozen Foods Made with Tofu, published by *The Wall Street Journal.*

Feb. *Soyfoods* magazine No. 8 published by Richard Leviton. Blue cover, 5,000 copies

Feb. 6-8. Sixteen soyfoods companies exhibit at the Natural Foods Expo. in Anaheim, California. A new trade association named Soyfoods Association of America (SAA) is formed; it is basically a restructured version of the original Soyfoods Association of North America, which was founded in July 1978 and which now ceases to be active. SAA elects a new board of directors; Michael Austin is chosen new Executive Director and Gary Barat of Legume becomes new President. Fourteen companies pledge $12,000. Headquarters established in New York City.

Feb. 7. The First Great Tofu Burger, a dry mix, made in Oakland, introduced at Anaheim Natural Foods Expo.

Feb. 18. Wm. Shurtleff has idea for forming a Soy Sauce Council to help encourage soy sauce companies to join Soyfoods Association, develop soy sauce terminology and standards, and eliminate mislabeling.

Feb. Jack's Beanstalk, innovative tofu company in Salt Lake City, Utah, goes out of business.

March 10. *Soyfoods Industry and Market: Directory and Databook 1983* published by Soyfoods Center, accompanied by glossy flyer and catalog of professional publications and services.

March 10. *Tempeh Primer,* by Juel Andersen and Robin Clute, published.

March 14. Connecticut Agricultural Experiment Station, in Bulletin 810 "Quality of Tofu and Other Soy Products," reports high bacterial and coliform counts. A virtual expose, revealing the tofu industry's erratic quality control, it gets wide media coverage and hurts sales of New England and New York tofu companies.

March. Hinode Tofu Co. starts major tofu ad and coupon campaign, with full-page ads in four national magazines. Most extensive national publicity ever done for tofu. Triggers lawsuit from a rice company over the Hinode brand, with which Hinode Tofu Co. is subsequently forced to part.

April 27-30. Six soyfoods companies exhibit at Whole Life Expo in San Francisco, as part of Soyfoods Association's booth. Shurtleff presents a speech and color slide show.

April. Jacob Hartz Seed Co. is purchased by Monsanto.

May. *The Au Naturel Tofu Manual,* by Chloe & Abraham Fox self-published in Canada. Vol. 1 is *Tofu Recipes for Families.* Vol. 2 is *Modern Jewish Tofu Cooking.*

May 3. Michael Austin mails out Soyfoods Association Charter Member letter. By year's end $18,000 in membership fees had been raised.

May 4. Richard Leviton decides to move to California.

May 8-11. Hinode Tofu Co. exhibits five flavors of Tofu Parfait at the prestigious and influential Food Marketing Institute convention in Chicago, a major national supermarket convention, attended by 20,000.

May 9. Dr. Hwa L. Wang of USDA NRRC speaks on "Tofu and Tempeh as Potential Protein Sources in the Western Diet" at the American Oil Chemists' Society symposium on "Potential New Protein Sources" in Chicago.

May 16. Quong Hop & Co. introduces the first Soy Deli cooler display case to Raley's supermarkets in Reno (Nevada) and Sacramento (California). In July they introduce the idea to Safeway supermarkets in California. By August there are Soy Delis in ten Safeway supermarkets in the San Francisco Bay Area.

May 18. The New York Times article on "Bacteria in Soy Products" is a follow-up on the Connecticut tofu contamination report.

May 24. Wm. Shurtleff leaves for China for three weeks to study soyfoods, sponsored by Danish Turnkey Dairies; the first trip for this purpose since Dr. A.K. Smith of the USDA went there in 1949. Shurtleff writes 75-page report on *Soybeans and Soyfoods in China: 1949-83.* After China, Wm. and Akiko Shurtleff spend 3 weeks studying the burgeoning soymilk industry and market in Japan.

May 31. Leviton and Wang speak on the soyfoods industry at Iowa State University conference on grains and legumes.

June. Worthington Foods introduces Tofu Garden Patties, developed for the health food market as part of a larger new line of natural food products, all sold under the

© Copyright Soyinfo Center 2021

Natural Touch brand. This is a new trend for the company and they commit money to promoting it. In 1984 they launch Okara Patties (which contain okara as the 4th ingredient).

June. *Quantity Tofu Recipes for Institutions & Restaurants*, by Gary Landgrebe published by Soyfoods magazine and Fresh Press.

June. *The Magic of Tofu*, by Jane O'Brien of Ireland published by Thorsons in the UK.

June. *Tofu: Not Just for the Health of It*, by Jana H. Crutchfield self-published.

June. *Handbook of Indigenous Fermented Foods*, edited by Keith H. Steinkraus, published by Marcel Dekker. Extensive original material on traditional soyfoods. It soon becomes a classic.

June. *Soyfoods* magazine No. 9 published, 7,000 copies. *Soyfoods Newsletter* published in new typeset, 4-page format with new design.

June. Torigoe Seifun, Japan's fifth-largest flour miller, starts production of tempeh. This is the earliest known commercial tempeh ever made in Japan.

July 1. Quong Hop & Co. purchases Pacific Tempeh Co.

July. INTSOY publishes *Proceedings of the First China/USA Soybean Symposium*, held July 1982 at the University of Illinois.

July 3-Aug. 22. Richard Leviton in England, lectures on soyfoods in London and Leicester, and does some soyfoods research.

July 25. Soyfoods Association meeting in Denver, Colorado. Tom Timmins, president of Tomsun Foods Inc. (one of the companies seriously affected by negative publicity on tofu quality) is asked to be head of the Soyfoods Association's Standards Committee, and to appoint people to work with him on the development of standards, especially tofu standards. In October he sends a 4-page survey letter concerning soyfoods standards to the 18-person Soyfoods Association Standards Committee that he has appointed.

July 28-Aug. 2. Second US/China Soybean Research Symposium, held in Jilin, China

July. NNFA show in Denver. Eden Foods surprises the natural foods industry by launching designed-for-America Edensoy in plain and carob flavors. Made in Japan by Marusan-Ai and exported by Muso, it is packed in a 6-ounce retort pouch. San-J's To-Neu brand soymilk is also debuted in Tetra Brik cartons.

Eden Foods is the first Caucasian-American company to import soymilk, and their gamble soon pays off; sales skyrocket, sparked by an extensive magazine advertising campaign. Between Sept. and Dec. 1983 over 1 million packs are sold. A host of competitors rush to follow Eden's lead... and many of them go to Muso. Eden objects.

July 31. Fifth Anniversary of the founding of the Soyfoods Association of North America.

Late July. Hot, dry summer weather heats up the price of soybeans from $6/bu to over $9.50/bu in August and September, falling back to $8 in December.

Aug. 15. *Time* magazine article on stylish ice creams has a paragraph on Tofutti soy ice cream.

Aug. 15. Delegation of four soyfoods experts from People's Republic of China spends 5 hours at The Soyfoods Center. First stop of the first Chinese soyfoods team to visit the USA.

Aug. 15. Soyfoods Center makes the first photocopy of the entire Log of the Dorsett-Morse Expedition to East Asia, 1929-31. 6,170 pages. The only original is owned by the American Soybean Assoc. in St. Louis, Missouri.

Aug. Farm Foods serves Ice Bean soymilk ice cream at the American Soybean Association convention in Nashville, Tennessee.

Sept. Legume in New Jersey, in their second public stock offering in 15 months, raises an additional $400,000 ($300,000 net).

Sept. Continental Soyfoods, run by Pat Aylward in Minneapolis, Minnesota, goes out of business.

Sept. 9. Richard Leviton leaves Massachusetts, moves Soyfoods magazine to Encinitas, California. But he decides to leave there a week later.

Sept. 21. New Ten Speed Press edition of *The Book of Miso*, by Shurtleff and Aoyagi published. Extensively revised, it shows miso consumption in the U.S. has increased 300% since 1975.

Sept. 25. Open House at new headquarters of Soyfoods Center for 30 people, including Nancy Dailey, who is writing a major story on soybeans for *National Geographic* magazine, and for Richard Leviton, newly arrived in California. Shurtleff shows color slides of soyfoods in China.

Sept. 26–Oct. 1. Symposium on "Soybean in Tropical and Subtropical Cropping Systems" held at Tsukuba, Japan. About 200 people attended. Proceedings were published in 1985.

Sept. 28. Soyfoods Center buys its first computer and begins computerization, which soon leads to development of the world's three largest computerized databases focusing on soyfoods and the soybean industry–from which this chronology is compiled.

2279. *SoyaScan Notes.* 1983. Chronology of soybeans, soyfoods and natural foods in the United States 1983 (Continued) (Overview). Dec. 31. Compiled by William Shurtleff of Soyfoods Center.

• ***Summary:*** Continued. Oct. 9 to Nov. 14. Richard Leviton travels to Europe as a consultant for the American Soybean Association. Gives six speeches on soyfoods in Italy, Belgium, Denmark, France, Netherlands, and Hungary. The 50-minute speech in Italy is about the soyfoods industry in the USA, presented to 150 members of EUVEPRO, the European Vegetable Protein Association. Leviton studies soyfoods throughout Europe, the first representative of the American soyfoods movement to do so. He reports that

© Copyright Soyinfo Center 2021

virtually all tofu in Europe is vacuum packaged. On Oct. 28, ASA Belgium Office expresses interest in sponsoring a European Soyfoods Conference and a European Soyfoods Newsletter. Leviton writes a 56-page report on the trip.

Oct. New England Soy Dairy starts to sell its tofu under the Tomsun brand.

Oct. The world's first spray-dried tofu is introduced by Clofine Dairy & Food Products of Linwood, New Jersey. St. Peter Creamery first began spray-drying soymilk powder in late 1984, and tofu in the summer of 1985, under the Oberg patent.

Oct. *Kikkoman: Company, Clan, and Community,* by W. Mark Fruin (358 p.) published by Harvard University Press as part of their series Studies in Business History.

Oct. Major reorganization of The Farm in Tennessee. It is no longer a cooperative. Every participant must pay his/her own way. All workers earn wages. The soy dairy sells its tofu and soymilk to Farm residents. Farm Foods becomes an independent, for-profit corporation.

Oct. Pauline Six-Chan, founder of Premier Foods in Leuven, Belgium, starts making Tofu Tart/Cheesecake and promoting tofu and other soyfoods in Belgium.

Nov. Hymowitz and Harlan's "The Introduction of the Soybean to North America by Samuel Bowen in 1765" is published in *Economic Botany.* This brilliant piece of historical research pushes the introduction date back 39 years, and shows that by the late 1760s Bowen, in Georgia, was making soy sauce and exporting it to England. It also credits Benjamin Franklin with the earliest known reference by an American to tofu, in 1770.

Nov. 11. Wm. Shurtleff and Gordon Bennett (Westbrae Natural Foods) mail out a packet including proposed U.S. soy sauce standards, English translation of Japanese Shoyu Standards, and proposal for formation of a Soy Sauce Council to 60 companies connected with soy sauce in the USA.

Nov. Soyfoods Assoc. officers meet with David Mintz of Tofu Time (maker of Tofutti) asking him to either use tofu as an ingredient in Tofutti or drop the term "tofu" from his product name and stop stating or insinuating that his product contains tofu.

Nov. 11. William Shurtleff writes a strongly worded letter to Mintz threatening to report the matter to the Securities and Exchange Commission and the FDA if Mintz fails to stop deceptive practices. Mintz quickly re-adds tofu to Tofutti.

Nov. 19. House Shokuhin Kogyo, a major Japanese food company, invests $2.5 million in Hinode Tofu Co. in Los Angeles as part of a joint venture to expand tofu production.

Nov. 25. Dr. Clifford W. Hesseltine of the USDA NRRC receives the award of the Third Class of the Order of the Rising Sun from the Emperor of Japan in recognition of the meritorious services he has rendered: proving the safety of Japan's traditional fermented foods, training Japanese scientists, and promoting technical cooperation in the field of food fermentation between the United States and Japan.

Dec. New England Soy Dairy, in a half-page article in *Inc.* magazine, is named as one of America's 500 fastest growing small private companies.

Dec. Inari Trading Co. in Michigan develops a delicious Christmas Soynut Sampler with seven flavors of Super Soys, including yogurt-coated, carob-coated, and butter-toffee. Runs a full page color ad in Soybean Digest.

Dec. *International Bibliography of Soybeans* (3 volumes, 2,500 pages) published in Brazil. 19,571 references total, under 75 subject headings, all published during 1970-1982. Volume III contains author and subject indexes. Mostly soybean agronomy, but 1,584 references on soyfoods.

Dec. 1. The title of *Soyfoods Monthly* is changed to *Soyfoods Newsletter.*

Dec. 5-7. Symposium on Soybean Utilization held at Ibadan, Nigeria, Sponsored by IITA. First event of this type in Africa.

Dec. 8. Tofu Time Inc. in New York raises $3.2 million ($2.4 million net) in their first public stock offering (IPO), to finance national marketing of Tofutti soy-based ice cream.

Dec. 10. Doug Fiske becomes majority owner (55%) of *Soyfoods* magazine, Leviton owns 45%. Fiske will take over most publishing responsibilities. Leviton moves to San Francisco Bay Area.

* *Eurosoya,* the annual publication of the European Cooperative Network on Soybean, begins.

* Soymilk production peaks in Japan at 116,724 kl. By 1986 it has fallen to 43,392 kl, which is only 37% of the peak.

1983 New Trends:

New Capital and Expertise are Flowing into the Soyfoods Industry, leading to many exciting new ideas and products and marketing programs. A dozen or so large companies with nationwide marketing are emerging.

New Emphasis on Soyfoods Marketing, now that production techniques have been fairly well mastered, is seen throughout the industry, and is reflected in new editorial and advertising policies of *Soyfoods* magazine.

Brand-Name Promotion by larger companies is surpassing generic or commodity promotion.

Stylish Second-Generation Products, prepared convenience soyfoods, are appearing with better product quality, better marketing and promotional programs, and better packaging and graphics. These are the fastest growing component of the soyfoods industry.

Extensive Professional Advertising of Soyfoods in natural and health food consumer magazines, as by Legume, Eden Foods, San-J, Hinode, Edward & Sons, and Pure & Simple. Each of these companies run very attractive, professional ads. Brightsong Light Foods has top graphics for a small company.

Exhibits at National Trade Shows are now a matter of

course: The Natural Food Merchandiser show, followed by the National Nutritional Foods Association (NNFA) show are most popular.

Tofu Market Control is Increasingly Concentrated in the hands of large manufacturers, who distribute nationally and have professional marketing. Most companies are getting much more professional, but many small tofu companies are going out of business. The total number of companies is stabilizing.

Soymilk Makes its First Big Splash in the American Caucasian Market, led by Eden Foods' Edensoy. Vitasoy has big plans for early 1984. Vitasoy had the largest total imports in 1983, but mostly sold to the Asian-American market. Large new soymilk plants are planned to open in 1985.

East Asian Soymilk Sales are Skyrocketing, leading to a general soyfoods Renaissance, and reevaluation of traditional soyfoods staples. Production of soymilk in Japan tops 100,000 metric tons (tones) for the first time, reaching 116,724 tonnes, up 71% over last year. The per capita consumption of soybeans in Japan is 5.8 kg/year, up 3.6% from last year.

Soy Ice Cream is becoming fashionable. Made with tofu, soymilk, and/or isolated soy protein, it is emerging as a major way that Americans are discovering soyfoods.

Tofu industry is vulnerable to sanitation and credibility problems as vividly demonstrated by the Connecticut quality / contamination report in March and subsequent adverse publicity, and by a Tofutti mislabeling incident in November. The industry urgently needs standards and better sanitation. Tofu souring and spoilage is the tofu industry's number one problem.

The Soy Deli Concept: Defunct or Ready for Takeoff? No new openings and some closings. But more and more natural food and vegetarian restaurants are starting to use soyfoods, and Chinese and Japanese restaurants are increasing their traditional use. In Soyfoods No. 9, Leviton calculated that as much as 16% of all tofu made in the U.S. is being served in restaurants, but this figure is probably far too high. Most promising, plans by Tofu Time/Tofutti to open a chain of natural, fast food restaurants featuring tofu, soymilk and other soyfoods could bring the Soy Deli concept new life and widespread publicity as a healthful alternative to McDonald's, Burger King, and the like.

European Soyfoods Industry is Flourishing, with lots of innovation. Large producers of tofu and tempeh are emerging in the Netherlands.

Tempeh is Starting to Take Off in Japan and interest is rising rapidly: 13 articles were published on tempeh in Japan this year, followed by 20 in both 1984 and 1986.

2280. **Product Name:** Golden Life.
Manufacturer's Name: Martin Pharmaceuticals. Div. of the Nicholas Kiwi Co.
Manufacturer's Address: Australia.
Date of Introduction: 1983 December.
Wt/Vol., Packaging, Price: Tetra Brik Aseptic cartons.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Geoff Wilson. 1987. Jan. Soyfoods (ESFA). Jan. The dates in this article are not clear. The product is said to be "the first Australian soy drink, launched late last year. A sport drink, it contains dextrose and is being packed in tetrabrik cartons in the Leongatha factory of Murray Goulburn Cooperative, Australia's largest farm-owned dairy company. However other soy-based foods are not yet expected to be produced by other dairy companies, because of the anger the new soymilk technology's threat has caused among hard-pressed dairy farmers... The product is currently being sold through health food stores But other manufacturers are tipping that a range of soy based dairy food substitutes will become available to supermarkets in 1985. One health food shop in Melbourne has reported a tenfold sale of soy drinks over the last 6 months. They are made from isolated soy protein."

2281. **Product Name:** Sanitarium Health Foods Swiss Rounds (Vegetarian).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, Sydney 2076, NSW, Australia.
Date of Introduction: 1983.
Ingredients: Textured vegetable protein, vegetable oil, rolled oats, onion, whey protein concentrate, thickeners, flavours, yeast extract, salt, sugars, herbs and spices, water added.
Wt/Vol., Packaging, Price: 430 gm can.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Letter and Label sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1983.

2282. Child, Julia; Bertholle, Louisette; Beck, Simone. 1983. Mastering the art of French cooking. Updated. New York, NY: Alfred A. Knopf. xv + 684 + xxiii p. Illust. 26 cm.
• ***Summary:*** The use of an electric blender shows the authors' innovativeness, flexibility and adaptability. Explains how to make emulsions like mayonnaise and hollandaise sauce with an electric blender.

The following page numbers (in the Index under "Electric blender") are from this 1983 updated and revised edition: In Volume I: For Bread Crumbs, see Broiled chicken, p. 266. For Hollandaise sauce, p. 81. For Mayonnaise, p. 88. For Mousses (Chicken, Liver, etc.), p. 559. For Pancakes, p. 191, 649. For Pulverized almonds, p. 582. For Shellfish butter, p. 104. For Soups, p. 37.

In Volume II. For Pulverized almonds, p. 475. For Shellfish butter, p. 34. For Souos and bisques, p. 4, 32. Address: 1. Cambridge, Massachusetts; 2-3. France.

2283. DE-VAU-GE Gesundkostwerk GmbH. 1983. GranoVita. Health-food & natural food from Germany. Natural nutrition for young and old for every day. P.O. Box 1660, D-2120 Lueneburg, West Germany. 6 p. Manufacturer's catalog. [Eng]

• ***Summary:*** See next 3 pages. This full-color manufacturer's catalog contains a color photo of each of the company's products and a listing of ingredients. All are natural, vegetarian foods. The lines are Soya-Products, Sandwich-spreads, Baby food, Fruit- and Grain bars, Nut-Creams, Wholemeal Breakfast, Herbal drugs, Drinks (soymilks and coffee substitutes), and Boesen grain-mill. Contains a concise history of the company, which was founded in 1899 by a group of health reformers at Friedensau near Magdeburg. Today the Lueneburg plant employs about 120 workers. The company supplies 2,500 health food stores in West Germany and has business dealings worldwide. "By our motto 'Once a week a meatless day with granoVita soya-food' more and more customers are induced to try the wholesome and tasty soya-products."

In 1977 DE-VAU-GE acquired the Boesen Bakery Ltd. which employs 130 workers. In 1982 total sales for granoVita and Boesen were 50 million DM (German marks).

Among the many color photos is an aerial view of the present factory at Lüneburg. Address: Lueneburg, West Germany.

2284. Fry, Patricia L. 1983. The Ojai Valley: An illustrated history. Ojai, California: Matilija Press. xxi + 297 p. See p. 238. Illust. Index. 22 cm.

• ***Summary:*** Chapter 15, titled "Ojai today," contains sections titled "Bill Baker's Bakery," "Ranch House Restaurant" (started by Alan and Helen Hooker), "Meditation Mount," "Krotona" Institute of Theosophy (photos show Annie Besant at age 23 and Albert Powell Warrington), "Jiddu Krishnamurti" (who first came to Ojai in 1922, hoping that the climate would save his ailing brother) (p. 238-48). A chronology (p. 280-83) shows: The population of the Ojai increased from 50 in 1873, to 1,100 in 1920, to 12,000 in 1952, to 18,000 in 1963, to 25,000 in 1980. In 1874 the town of Nordhoff was founded; by 1891 it had a population of 300. Address: Ojai, California.

2285. Herbert, V.; Drivas, G.; Chu, M.; Levitt, D.; Cooper, B. 1983. Differential radioassays better measure cobalamin content of vitamins and 'health foods' than do microbiologic assays. *Blood* 62(5):37a. Suppl. 1. *

2286. Rohé, Fred. 1983. The complete book of natural foods. Boulder, Colorado: Shambhala. xvi + 491 p. Illust. Index. 26 cm. [120 ref]

• ***Summary:*** This book is about "The New American Diet," which is an "omnivarian" [omnivorous] diet including some fish and meat.

Chapter 14, titled "New and future natural foods," contains a section titled "Soy foods" (p. 162-65) including tofu, tempeh, miso, soy sauce, soy milk, and other soy products (yuba and sufu). The work of William Shurtleff and Akiko Aoyagi, and their Soyfoods Center, is mentioned 2-3 times. Toward the back of the book are many soyfoods recipes.

Page 165: "Vegetable Gels and Thickeners: Two 'vegetarian gelatins' are fairly widely used in food manufacturing. Most Americans have had them without realizing they are sea vegetables.

"Irish moss, also known as carrageen, can be bought in bulk in natural foods stores and boiled down to form a clear gel for puddings, jelly, or 'jello' desserts."

The next section (p. 165), titled "Future Foods from the Sea," briefly discusses arame, hijiki, and wakame.

The Prologue tells Rohe's life story and pioneering work with natural foods. In 1964, at the ripe old age of 27, he didn't feel good, didn't look good, and didn't like it–the result of years of smoking, drinking, eating bad food and "burning the candle at both ends." "It was time to do something about it. Adelle Davis became my guru and Thom Hamilton–the health foods store owner who sold me [her book] *Let's Eat Right to Keep Fit* became my mentor." Within a few months he was feeling much better. "So in 1965 I bought a small health food store in the Sunset district of San Francisco." It was named Sunset Health Foods." He discarded most of the dietetic foods on the shelves and replaced them with "old-fashioned groceries–basic stuff, traditional, simple, whole food... What was evolving was a modern version of an old-fashioned grocery store." He would provide information instead of hype, bulk retail foods sold out of barrels, crocks, jars, and drawers instead of packaged products, food instead of food supplements. He renamed the store "New Age Natural Foods."

"My career ended in 1973, after eight years. New Age Natural Foods had served as a model for what were called in those days 'hippie food stores.' It is credited as being the prototype natural foods store, as distinct from a health food store." Since 1973 Fred continued to work in the natural foods industry. In 1979, in his capacity as a consultant, he met the people of Sunburst Farms, who are his collaborators on this book. "Sunburst is the realization of a vision experienced in 1951 by its founder Norm Paulsen, while he was living as a student monk studying yoga at the Self-Realization Fellowship in Los Angeles. He moved to the Santa Barbara area, and while operating a construction business in 1968 established Sunburst Farms as a group of people living communally under spiritual principles on 160 acres of land in the mountains above Santa Barbara. The community-owned business, Sunburst Natural Foods, grew foods organically and flourished. In 1970 they opened a natural foods retail store in Santa Barbara. The community grew to include a second ranch and a total

Soya-Products

Eating meatless soya-products is up to date. It gives you a change and all the fun of discovering new tastes. Moreover meatless food is wholesome and healthful.

Soya-Sausages in 3 varieties

Article-No. 1402 Soya-sausages, standard
Article-No. 1465 Soya-sausages, highly seasoned
Article-No. 1475 Soya-Wieners
Ingredients: Vegetable oils and fats, water, soya-protein, egg-protein onions, natural spices, wheat gluten, salt, glucose, yeast, rolled-oats, bread-crumbs. 275 g per tin.

Soya-zart (tender cutlets)

Seasoned soya-cutlets. Ingredients: Soya-protein, water, corn-germ-oil, egg-protein, salt, dextrose, spices.
Article-No. 1406 / 350 g per tin.

Soya-balls

Ingredients: Soya-protein, water, corn-germ-oil, egg-protein, bread-crumbs, spices, sea-salt, wheat-protein, wheat-flakes, yeast, onions, potato-starch. Article-No. 1415 / 170 g per tin.

Pasta chuta Bolognese

Use as spaghetti-sauce. Ingredients: Tomato-pulp, water, textured soya-protein, onions, grated cheese, soya-oil, salt, natural spices, corn-starch. Article-No. 1411 / 400 g per tin.

Soya-goulash

To be served with potatoes, rice or noodles. Ingredients: Non hydrogenated vegetable-fats, soya-protein, carrots, celery, tomatoes, wheat-flour, natural spices. Article-No. 1417 / 425 g per tin.

Soya-Mignon

Can be used like meat-balls. Ingredients: Soya-protein, water, onions, rolled-oats, non hydrogenated vegetable-fats, egg-protein, spices. Article-No. 1473 / 375 g per tin.

Soya Ragout fin

To be served as tasty filling for pies. Ingredients: Water, Soya-zart, mushrooms, wheat-flour, cream, vegetable-margarine, onions, spices. Article-No. 1472 / 400 g per tin.

Soya-Vita

Perfectly seasoned patty-mixture with sea-salt. Ingredients: Soya-protein, bread-crumbs, wheat-gluten, wheat-flakes, glucose, egg-protein, yeast, potato-starch, onions, spices, sea-salt, celery, parsley. Article-No. 1409 / 200 g.

Sandwich-spreads in various tastes, in tins or to be stored in the refrigerator.

granoVita Sandwich-spreads can be used in several ways: As spreads on bread, crisp-bread or toast, in vegetarian patties, on pizza, in salads or puff-pastries, together with rice as filling for peppers. Due to the added yeast granoVita Sandwich-spreads contain a considerable quantity of the essential B-vitamins. No cholesterol.

Sandwich-spread

Produced according to a Swiss recipe. Ingredients: Water, vegetable-oils and fats, yeast, onions, potato-starch, sea-salt, natural spices. Article-No. 1312 / 80 g or as small unit for cold storage 4x62,5 g / 250 g. (Article-No. 4730).

Sandwich-spread with mushrooms

Ingredients: Like Sandwich-spread, with mushrooms added.
Article-No. 1316 / 80 g
or as small unit for cold storage Article-No. 4727 / 200 g.

Sandwich-spread with olives

Ingredients: Like Sandwich-spread with pepper-filled olives added. Article-No. 1315 / 80 g or for cold storage Article-No. 4728 / 200 g.

Sandwich-spread – like homemade

Ingredients: Water, vegetable-oils and fats, yeast, onions, wheat-wholemeal, buckwheat-groats potato-starch, spices, sea-salt, soya-flour. Reduced in calories – only 225 calories per 100 g. Article-No. 1320 / 80 g or for cold storage Article-No. 4729 / 200 g.

Soya-pikant

Ingredients: Water, vegetable-oils and fats, egg-protein, soya-protein, spices, wheat-gluten, glucose, salt, yeast, rolled-oats, soya-sauce, bread-crumbs, onions. Article-No. 1448 / 80 g.

Soya-Delikat

Tasty vegetarian slices to be used in various dishes, on bread or dressed and fried, in salads or stews. Ingredients: Soya-protein, corn-germ-oil, mushrooms, water, egg-protein, onions, salt, dextrose, spices, yeast. Article-No. 4726 / 250 g.

membership of over 200 people. "The business came to include manufacturing and wholesaling as well as retailing. There are now five Sunburst Farmer's Markets, two of them–in Goleta and Ventura–large, complete, natural foods supermarkets. Sunburst also owns and operates a natural foods restaurant, 'The Farmer and the Fisherman,' 35 miles north of Santa Barbara along the coastal highway." Then Norm envisioned a new direction and everything changed. They traded their 6,000 acre coastal ranch for land in northeastern Nevada totaling over 500,000 acres. "It could hardly have been a more radical change. But the soil is rich in minerals and there is abundant water from artesian wells. They are responding strongly to the challenge of, as they say, 'making the desert bloom as a rose.'"

"Appendix eight: Recommended reading list" (p. 470-78) includes a section titled "Soyfoods."

This book was Re-published in 1986 as *Nature's Kitchen* by Garden Way in Brattleboro, Vermont.

Interview with Fred Rohe. 1988. Nov. 3. Fred bought Sunset Health Foods in 1965 and transformed it into New Age Natural Foods at 1326 Ninth Ave. in San Francisco.

Note: This is the earliest document seen (March 2020) that contains the term "natural foods supermarkets"–plural, but regardless of hyphenation. Address: 4014 Lincoln Way, San Francisco, California 94122. Phone: 415-564-7024.

2287. **Product Name:** Tofu Missing Egg Salad.
Manufacturer's Name: Soycraft.
Manufacturer's Address: P.O. Box 420, Woollahra (near Sydney), NSW 2025, Australia. Phone: (02) 32 0716.
Date of Introduction: 1984 January.
Ingredients: Tofu, fresh vegetables, herbs and spices, shoyu, vegetable oil, mustard, apple cider vinegar, honey, sea salt.
Wt/Vol., Packaging, Price: 200 gm.
New Product–Documentation: Letter and Label sent by Ralph and Volli Henderson, founders of Soycraft. 1984. Jan. 17. The letter is on Klinica letterhead. "We have been so busy that nobody has yet staggered to the printer to collect Soycraft letterheads. I think Volli and her small crew sometimes wish it had never happened...

"We make tofu, and then use all of our tofu to make secondary products. At the present time we don't think there is market support for tofu, which would justify another firm in that line of business; it will be a year or two before Australians may wean away from their meat based diets. The local Chinese community makes and uses a lot of tofu, but it is really only the health food shops (about 230 in Sydney) that sell tofu. About 30% of these health food shops are still vitamin supply people and unaware of what it is all about anyway. Our tofu is made via the cauldron method–laborious, tedious, etc. We will consider buying the Takai W30A system towards the end of this year."

Label. 2.5 by 3 inches. Green on white. "All natural ingredients–No preservatives."

2288. Smith, Paul. 1984. Re: Pioneering work with soyfoods in Australia. Letter to William Shurtleff at Soyfoods Center, Feb. 7–in reply to inquiry. 2 p. Typed, with signature on letterhead.
• ***Summary:*** Answers to questions: "1. Soy products of Australia Pty. Ltd (Proprietary Limited) evolved from F.G. Robert's Health Food Company Pty. Ltd. F.G. Robert's Health Food Company was established in 1923 and Soy Products of Australia Pty. Ltd. was officially incorporated on the 19th June 1957. The company first started making soy foods in the mid nineteen thirties and the first Soyfood product was 'Soy Compound'.

"2. The company first started making debittered full fat soy flour in 1951-52. The company manufactures full fat soy flour only: raw or debittered depending on the end usage. Current output is several thousand tonnes per annum. We are not prepared to divulge process details, markets or the exact tonnages involved.

"3. We are the only manufacturer of full fat soy flour in Melbourne and in the State of Victoria, and we believe that we are the only manufacturer of debittered full fat soy flour in Australia. However, enzyme active or raw soy flour is widely used in bread improvers and bread manufacture in this country and several people in the other states produce raw full fat soy flour. We are not familiar with them all or their throughputs, and have no exact idea how we rank in size wise. We probably rank somewhere in the top three and we probably have the most specialized knowledge about handling and processing soy bean for human consumption." Address: Soy Products of Australia Pty. Ltd., 69 Power Road, Bayswater, VIC 3153, Australia. Phone: (03) 729-1738 or 729-3611.

2290. Vaughn, Harmon. 1984. Bill Baker of Ojai, California, and his early work with soy (Interview). Conducted by William Shurtleff of Soyfoods Center, March 25. 1 p. typed transcript.

• ***Summary:*** Harmon met Bill Baker in 1936. Bill Baker started to make soy bread in the early 1920s–about 1921-1923. Baker had been working for about 10 years with Dr. Samson's clinic in Santa Barbara. The clinic specialized in heart and stomach problems, so it needed foods that patients could tolerate. He found that the alkali in soybeans neutralized the acid starches in wheat. During the 1930s, Baker developed oil-free breads and sprouted grain breads, each containing soy.

Ben Kahan was not Bill's first distributor, but he was Bill's first exclusive distributor. Before Kahan, Bill used a potato chip distributor. Harman has a good history of Bill Baker's work. Bill wrote one book. He was considered the

© Copyright Soyinfo Center 2021

world's best sugar artist and decorator. Harmon has a photo album that is now in the Ojai Museum on loan; it shows mostly sugar creations but also some early soy. He also has pamphlets, newspaper clippings (dated), and magazine clippings that tell his story. He is willing to make copies. One photo shows Baker in 1921-22 loading a train at the depot with a delivery wagon of lima bean wafers.

Harmon is now age 69. That bakery is the only place he ever worked in Ojai.

Note 1. Talk with Gordon Kennedy of Ojai, California. 2002. Oct. 18. Bill Baker's bakery is still active making German-type breads on Ojai Ave., in Ojai. Gordon has an old post-card advertising Bill Baker's soy bread.

Note 2. Update. Talk with Helen Vaughn, Harmon's wife. 2004. June 6. Harmon is no longer living. She and Harmon worked for Bill Baker from 1936 to 1942, then after he died, they bought the bakery in 1947 and ran it until 1973. Bill was a big heavy-set guy, who spoke with a German accent and had blonde hair. She and Harmon gave their photo album to a man named Thomas, who purchased the business from them in 1973. He moved away from Ojai and took the album with him–but nobody knows where he went. Address: 404 E. Topa Topa St., Ojai, California 93023. Phone: 805-646-2716.

2291. **Product Name:** Tempeh Chips.
Manufacturer's Name: Soycraft.
Manufacturer's Address: P.O. Box 420, Woollahra (near Sydney), NSW 2025, Australia. Phone: (02) 32 0716.
Date of Introduction: 1984 March.
Ingredients: Incl. tempeh.
New Product–Documentation: Letter from Ralph and Volli Henderson, founders of Soycraft. 1984. Jan. 17. "Our tempeh cabinets will be ready the first week of next month, however due to limited freeze facilities [freezer space] of the health food retailers, and our need to transport the product inter-state, we will produce the tempeh chips. Local tempeh is made, some in Queensland, some by an Indonesian restaurant, very, very small, servings, and expensive, so much so that local shops are giving up because of consumer reaction to price."

2292. Jenkins, Nancy. 1984. Health food and the change in eating habits. *New York Times.* April 4. p. C1, C6.
• ***Summary:*** "Americans eat less red meat than they did 10 years ago, and the red meat they do consume is significantly leaner, according to John Francis of the National Livestock and Meat Board, with 25 to 35 percent less fat than meat produced 20 years ago."

2293. *Wall Street Journal.* 1984. "Health-food" stores aren't just for wheat germ and tofu anymore. May 24. p. 1, col. 5.
• ***Summary:*** "Nowadays they're also for pizza, potato chips, candy and many other items that suspiciously resemble those in ordinary supermarkets."

2294. Price, Charlene C.; Brown, Judy. 1984. Growth in the health and natural foods industry. *USDA Economic Research Service, Staff Report* No. AGES840501. 32 p. May. [24 ref]
• ***Summary:*** The number of natural food retail stores has increased from about 1,000 stores in 1970 to some 8,000 in 1982. Total sales have jumped from $140 million in 1970 to a little over $2 billion in 1983. The three basic foods in the industry are natural foods, health foods, and organic foods. About 37 full-line wholesalers serve the industry.

Table 4 titled "Percentage of health and natural food industry sales held by foods and nonfoods categories" (1975-1983, p. 15) shows that soy products rose from zero percent in 1975 and 1976, to a peak of 1.5% in 1977, the fell slowly to 0.6% in 1983. The source of these statistics is *Health Foods Business*, annual surveys, 1976-1984. Address: National Economics Div., ERS.

2295. Murray, Frank; Tarr, Jon. 1984. More than one slingshot: How the health food industry is changing America. Richmond, Virginia: Marlborough House Publishing Co. 240 p. + 16 p. of photos. June. Illust. No index. 18 cm. [20 ref]
• ***Summary:*** A history of the National Nutritional Foods Association (NNFA) and their decades of legal battles with the U.S. Food and Drug Administration (FDA). This is one of the only supportive (non-critical) histories of the health foods movement in America.

Contents: Introduction. 1. How the health food industry began. 2. The vitamin and mineral hearings (prompted by onerous FDA regulations of 18 June 1966). 3. The battle rages on. 4. The struggle over vitamins A and D. 5. NNFA marches on Washington (May 1975). 6. The vitamin bill is finally passed (22 April 1976; Proxmire Bill, signed into law by President Gerald Ford. NNFA victory over FDA). 7. Hanky-Panky in Washington. 8. How the FDA attempted to curtail the sale of health books. 9. NNFA vs. Frederick Stare and Elizabeth Whelan (and the American Council on Science and Health, ACSH, whose current funders and institutional members are listed on pages 187-92). 10. The golden years of PELLL Committee (Public Relations, Education, Legal, Legislative and Lobbying; formed by NNFA in 1955). 11. NNFA supports the Delaney Clause. 12. NNFA's radio and TV programs. 13. NNFA has many friends. 14. NNFA's first woman president. 15. What lies ahead. Epilogue.

Frank Murray got involved with the health foods movement in 1963, working for Jack Schwartz at Syndicate Publications. The book was written for the NNFA and not released commercially. Several thousand copies were printed in paperback, selling for $4.95. A copy was sent to each member of Congress.

The health food industry was born out of the discovery of vitamins and the devitalization of the American food supply (especially white flour since the late 1890s, and white

© Copyright Soyinfo Center 2021

sugar) by large corporations. A few early companies started in the 1920s but most began in the 1930s. It grew on the issues of chemicals and pesticides in foods.

"The National Nutritional Foods Association (NNFA), which has had several names since its inception, has been the spokesman for the health food industry since 1938" (p. 6).

Companies: Akin's Special Foods (Tulsa, Oklahoma, p. 30-31), Eichenauer's (Phoenix, Arizona, p. 34-36. Opened in 1938. Early lines included Paul Bragg products, Dr. Walker's Vegetable Juice Hydraulic Press and books, Gayelord Hauser products and books, Martin Pretorius products and Waring Blender), Vita Food Co. (Washington, DC, p. 34-36. Opened in 1928. A list of products sold in an early catalog includes Lust's Peanut Butter, Carque's Almond Butter, Black Mission Figs, Kadota Figs, Manukka raisins, Carque California Health Bars {5¢ each}, Live Food Juicer {$5.95}), Vic Boff's (Brooklyn, New York, p. 36. For 48 years he has been associated with the pioneers of Physical Culture), House of Better Living (now owned by John Quinn and called Quinn's, p. 38), General Nutrition (Pittsburg, Pennsylvania; David Shakarian), Kahan & Lessin Co. (Compton, California), The Landstrom Co. (South San Francisco, CA), Balanced Foods, Inc. (North Bergen, New Jersey), Wm. T. Thompson Co. (Carson, CA), El Molino Mills (City of Industry, CA), Ener-G-Foods, Inc. (Seattle, Washington), Naturade Products (Paramount, CA), Seelect, Inc. (Chatsworth, CA; Max Lessin), Fearn Soya Foods (Melrose Park, Illinois), Hoffman Products / York Barbell Co. (York, Pennsylvania), Worthington Foods (Worthington, Ohio), RichLife, Inc. (Anaheim, CA), Hain Pure Foods (Los Angeles, CA).

Periodicals: *Health Foods Retailing* (New York City; started in April 1936 by Lelord Kordel), *Better Nutrition* (1940 by Jack T. Schwartz). *Health Foods Business* (formerly *Dietetic Foods Industry*, 1950), *Whole Foods* (Jan. 1978), *Natural Foods Merchandiser* (1979 in Hope, Pennsylvania), *Prevention* (1949 by J.I. Rodale), *Let's Live* (1933), *Bestways* (1973).

NNFA Presidents (1938-1981, p. 56-58).

People: Dr. Linus Pauling, Dr. Roger Williams, Dr. Albert Szent-Gyorgyi, Paul C. Bragg, Gayelord Hauser, Adelle Davis, Anthony Berhalter (founded the American Health Food Assoc. and the National Health Foods Assoc., predecessors of the NNFA in 1937), Ben Kanan, Otto Carque, Lelord Kordel, George Spitzer, Milton A. Bass (lead attorney), Max Huberman, Dave Ajay, Stanley N. Phillipps, Martin Pretorius, William T. Thompson, Jack Schwartz; Wayne Walker, Eugene Schiff, and Herb Bristol started the NNFA and kept it going during hard times; Milt Okin. Address: New York.

2296. Murray, Frank; Tarr, Jon. 1984. Balanced Foods, Inc., North Bergen, New Jersey (Document part). In: F. Murray and J. Tarr. 1984. More Than One Slingshot: How the Health Food Industry Is Changing America. Richmond, Virginia: Marlborough House Publishing Co. 240 p. + 16 p. of photos. See p. 43.

• ***Summary:*** "This wholesaler opened for business in 1939 in New York City, at 15th Street and Fifth Ave. In its New Jersey location [2501 71st Street, North Bergen, NJ 07047], it has a 100,000 square foot operation" [mostly warehouse]. Note: North Bergen is very close to New York City. Directly west of Central Park, it is just across the Hudson River from Manhattan, and about 3 miles north of the Lincoln Tunnel under the Hudson River.

"During its formative years, the company was run by Samuel H. Reiser, the current president, and Will Reiser, his brother, and Dr. Maurice Shefferman, both deceased. John H. Reiser and Rhona C. Reiser are vice presidents of the firm. Its subsidiaries include Akin's in Oklahoma and Jacksonville, Florida; Midwest Natural Foods Distributors, Ann Arbor, Michigan; and Northwest Dietetic Supply, Kent, Washington.

"'In the early days the health food industry was primitive,' Sam Reiser said. 'The operators of health food stores were visionaries–idealistic and few of them were merchants. Leading products at that time were the Battle Creek meat substitutes, yeast tables, vegetable salt, vegetable tablets, carrot tablets and health cereals.

"'The health food industry at that time comprised less than 50 stores from Boston [Massachusetts] to Washington [DC], with only about 150 stores in the entire country, he continued. 'There were probably no more than six jobbers [wholesalers] to serve the entire industry. Growth of the health food field was very slow, for it was primarily a business catering to diabetics.'"

Note: An Internet search (March 2006) shows that Sam Reiser died in 1989. His wife was named Helen. One of his sons, Paul Reiser (born 30 March 1957 in New York City) became quite famous as an actor. In 1973 he graduated from Stuyvesant High School in New York City, and in 1977 he earned his BFA (Bachelor of Fine Arts) at SUNY (State University of New York) Binghamton, with a major in piano and composition. In 1996 Paul Reiser established the Samuel Reiser Scholarship Endowment, in honor of his father, for students majoring in piano or composition. When he finished college, his family expected him to take over his father's health food business. But he turned to stand-up comedy and acting instead. He married Paula Ravets on 21 Aug. 1988 and they had a son, Ezra Samuel Reiser, born Sept. 1995. Address: New York.

• ***Summary:*** "In 1936, Samuel Middell began this company, then known as Health Food Jobbers. For many years the company was managed by Aaron Solomon and Al Levenberg, both in semi-retirement. They sold the company in Feb. 1984 to Tree of Life (St. Augustine, Florida), whose president is W. Ryland Dooley, III. Tom Keim is the VP of sales and marketing of HFI.

"'The health food industry has made many Americans label conscious and has changed the eating habits of millions,' Al Levenberg said. 'The industry has convinced many that, by eating better, they can perhaps remain a little healthier than they would if they ate all of the junk foods on the market today." Address: New York.

2299. Murray, Frank; Tarr, Jon. 1984. Kahan & Lessin Co., Compton, California (Document part). In: F. Murray and J. Tarr. 1984. More Than One Slingshot: How the Health Food Industry Is Changing America. Richmond, Virginia: Marlborough House Publishing Co. 240 p. + 16 p. of photos. See p. 40-41.

• ***Summary:*** The Ben Kahan Co. began in 1932, and the Joseph E. Lessin Co. in 1935. In 1945 the two companies merged to become Kahan & Lessin Co. [widely known as K&L]. "In 1972, this wholesale company was acquired by Fleming Companies, Inc. and in the fall of 1983 the company was sold to Jameson Pharmaceutical Corp., San Mateo, California. Art Miller, long-time president of K&L, has retired and Jan Stoll is now president of the wholesale concern.

"'The industry has come out of the homes and back-street locations to take its place with the finest specialty food stores in the country,' said Ben Kahan, who is now retired. 'Our customers were mainly elderly people who were medically disenchanted, diabetic, vegetarian or whole-food dedicated people. Today, we can add to these early customers a great host of people of all ages and stations in life; we now have a broad base of customers.

"'Our industry had and is exerting a major impact on America's eating habits,' he continued. 'Here are a few examples: reintroduction of natural fiber to the daily diet; supplementation of our foods with natural type vitamins and minerals; encouragement of ingredient content of foods on labels; encouragement of nutrition content of foods on labels; more Americans are now eating health foods such as yogurt, whole-grain cereals, unfiltered juices, wheat germ, lecithin, etc., and we have championed Freedom of Choice and Freedom of Information,' he said." Address: New York.

2300. Murray, Frank; Tarr, Jon. 1984. Sherman Foods, Bronx, New York (Document part). In: F. Murray and J. Tarr. 1984. More Than One Slingshot: How the Health Food Industry Is Changing America. Richmond, Virginia: Marlborough House Publishing Co. 240 p. + 16 p. of photos. See p. 41-42.

• ***Summary:*** "Founded by Solomon Sherman in 1924, this wholesaler was purchased in 1946 by Ernest Fried, deceased, and Jerome (Jerry) Sperling, who is still active with the company. Sherman's arcadia brand of products is one of the oldest lines in the industry; they also distribute thousands of other items from the industry's manufacturers.

"'Consumers have become more nutrition conscious through favorable articles in newspapers, magazines, etc.,' Jerry Sperling said. 'Also, radio and TV appearances by the authors of books on health and diet foods have increased interest. These sources have kept the public informed on the importance of nutrition. And, of course, the thousands of new health [natural] food stores in towns and cites across America have made it convenient for the consumer to satisfy his nutritional needs while doing his daily shopping.

"'The health food industry has been the No. 1 factor in changing America's eating habits,' he continued. 'During World War II, we were physically the poorest nation of all countries involved. That can never happen again.'" Address: New York.

In: F. Murray and J. Tarr. 1984. More Than One Slingshot: How the Health Food Industry Is Changing America. Richmond, Virginia: Marlborough House Publishing Co. 240 p. + 16 p. of photos. See p. 20-25.

• ***Summary:*** "In 1937, Anthony Berhalter organized a consumer group known as the American Health Food Association." A man of foresight, he operated a bakery in Chicago, and bought high-protein whole-wheat flour from Elam Mills, also of Chicago. Berhalter also had a health food

© Copyright Soyinfo Center 2021

store (one of the first in Chicago), and a mail order business, with 24- to 36-page catalogs. He bought "quantities of fine, sundried, unsulphured fruits from California" [probably from Otto Carque].

"In the spring of 1937, Berhalter set up a convention of some 10 to 15 booths" in the old Auditorium Hotel in Chicago. "Exhibitors included Live Food Products, Alberty Products, American Dietaids (then known as Tam Products, Inc.), Battle Creek Scientific Foods, Chippewa Spring Water Co., Dietetic Food of New York (Diamel), Elam Mills, Health Food Jobbers (now Health Foods, Inc.), H.W. Walker Co., Loeb Dietetic Foods, Modern Diet Products, Inc., Natural Health Products of New York, Nutty Brown Mills of Texas, Parkelp of California, and Vegetable Juices Inc. of Chicago." About "150 health food people" attended the convention, coming from across the United States.

Berhalter hoped to bring together all factions of the health food industry in this one organization. "Dr. Walter Hodson was one of the able speakers at those first meetings of the American Health Food Association... And those attending the first convention, among them Ed Neumann, George Spitzer, Henry Rosenberger, Sr. (of Cambridge, Massachusetts), Herb Bristol, H. Wayne Walker and others, felt that Tony Berhalter should be offered a fee to form an organization made up of retailers, manufacturers and jobbers, but excluding consumers."

"Mr. Englehardt of Physical Culture Publishing Company, who was sent to the meeting by Bernarr Macfadden to help in starting a solid organization, secured a large room at the Big Hotel down the street on Michigan Avenue, where dissenters could thrash out a plan for the new organization."

Eight men were elected to the organization committee. "After working all night with attorney Henry Junge, the committee presented a Constitution and By-Laws the next day to those who wanted the new association. It was approved [in 1937] and the new organization, National Health Foods Association [NHFA], which is now NNFA, was born. Herb Bristol and Wayne Walker immediately made plans for a second convention to be held in the summer of 1938 at the Sherman House in Chicago."

The first president was Dr. John Maxwell. George Fleming was the paid secretary, who served until 1945. The next [2nd] convention at Sherman House [sic, La Salle Hotel, in late August 1939] was a resounding success with speakers such as Paul Bragg, Edward McCollum [not to be confused with Elmer V. McCollum, the famous biochemist from Johns Hopkins University], and others. Approximately 150 people attended the banquet, "however Bragg and McCollum had 800 to 900 people at their lectures.

"Chicago became the headquarters for the new association, with Herb Bristol, Wayne Walker and George Fleming doing most of the work. Fleming received about $50.00 a week as secretary. The next two conventions were held in Chicago. "In 1941, the fledgling association held its fourth convention at the McAlpin Hotel in New York." Since this convention was not a financial success, the next 5 conventions were held in Chicago. In 1947 the convention at French Lick Springs, Indiana, marked a low point in the association's history. So the next convention was held in California (Ben Kahan helped to organize it), followed by another in Chicago.

After the 1966 convention at the International Hotel in Los Angeles, Stanley N. Phillips (of Cincinnati, Ohio) who, for years, had done much of the work organizing conventions, "resigned and helped to start a new retailer organization, American Dietary Retailers Association" (ADRA). But after two years, in 1968, Phillipps of the ADRA and Walter Camp of the NHFA began to communicate about merging the two organizations is order to better "fight a common enemy–the bureaucrats in Washington [DC, at the FDA] rather than squabbling among ourselves.

"In 1969 the two associations held a joint convention and it was agreed that, if the remaining differences were resolved at the 1970 convention in New Orleans [Louisiana], the merged group would be united under the name of National Nutritional Foods Association" [NNFA].

The transition was made and Phillipps continued as convention manager through 1974, when he resigned and turned over the convention work to Arnold Pike, who managed the Las Vegas convention that Phillipps had set up for the MGM Grand Hotel. Address: New York.

2302. Murray, Frank; Tarr, Jon. 1984. NNFA Presidents (Document part). In: F. Murray and J. Tarr. 1984. More Than One Slingshot: How the Health Food Industry Is Changing America. Richmond, Virginia: Marlborough House Publishing Co. 240 p. + 16 p. of photos. See p. 56-58.
• ***Summary:*** "The following have served as president of the National Nutritional Foods Association, although the Association has been known by other names during the years.

"1938-1939–John C. Maxwell, Chicago, Illinois.

"1939-1940–Stanley Phillipps, Cincinnati, Ohio.

"1940-1941–Floyd Campbell, Des Moines, Iowa.

"1941-1942–James J. Martindale, Philadelphia, Pennsylvania.

"1942-1943–James J. Martindale, Philadelphia, Pennsylvania.

"1943-1944–Edward A. Schauer, Canton, Ohio.

"1944-1945–Judson D. Ryan, Wilmington, Delaware.

"1945–No convention held.

"1946-1947–Charles W. Reeman, Chicago, Illinois.

"1947-1948–Benjamin L. Getman, Hollywood, California.

"Mr. Getman resigned and the Executive Committee appointed Ken Miles, Los Angeles, to serve as president. He

© Copyright Soyinfo Center 2021

subsequently resigned and Stanley Phillips was appointed to fill the vacancy.

"1948-1949–Floyd R. Beeler, Indianapolis, Indiana.
"1949-1950–Lloyd H. Elrod, Detroit, Michigan.
"1950-1951–Howard Neumann, Detroit, Michigan.
"1951-1952–Walter Camp, Washington, D.C.
"1952-1953–Walter Camp, Washington, D.C.
"1953-1954–Archie Chatman, Kansas City, Missouri.
"1954-1955–Michael Schlanger, New York, N.Y.
"1955-1956–Michael Schlanger, New York, N.Y.
"1956-1957–Milton Low, Philadelphia, Pennsylvania.
"1957-1958–Milton Low, Philadelphia, Pennsylvania.
"1958-1959–James Sofer, Cleveland, Ohio.
"1959-1960–James Sofer, Cleveland, Ohio.
"1960-1961–Mac Senter, San Bernardino, California.
"1961-1962–Mac Senter, San Bernardino, California.
"1962-1963–Milton Low, Haddon Heights, New Jersey.
"1963-1964–Milton Low, Haddon Heights, New Jersey.
"1964-1965–Jim Droke, Arlington, Texas.
"1965-1966–Jim Droke, Arlington, Texas.
"1966-1967–Barney Matheson, Burbank, California.
"1967-1968–Barney Matheson, Burbank, California.
"1968-1969–Ernest Brunswick, New York, N.Y.
"1969-1970–Ernest Brunswick, New York, N.Y.
"1970-1971–Harry Matchett, Seattle, Washington.
"1971-1972–Harry Matchett, Seattle, Washington.
"1972-1977–Max Huberman, Youngstown, Ohio.
"1977-1981–Dave Ajay, Sacramento, California.
"1981+–Rosemarie West, Richmond, Virginia."

Address: New York.

2303. Huchting, August George. 1984. Historical information regarding the family of August Heinrich Huchting. California. 1 p. July 5.
• ***Summary:*** "August Heinrich Huchting (1845-1909) came to California from Germany as a young man in the early 1870s. He got a job with the Spreckles Sugar Company of San Diego, California. He intended to sail to the Hawaiian Islands on one of the company's ships. "However, he met and fell in love with Maria Conception Gonzales (1856-1942), a 16 year old Californian of Mexican descent. The two were married in Ventura, California, Maria's birthplace.

"A few years later the pair moved to La Costa, California, approximately 25 miles north of San Diego. Here August Heinrich engaged in farming, an enterprise which was carried on by some of his sons after his death. There marriage was blessed with eleven children as follows:"

The names and dates of the ten surviving children, and the one who died as an infant are given. They were born between 1876 and 1899, six boys and four girls. Sophie Amalie Huchting, the 7th child and 3rd girl lived 1890-1982. "Sophie married Harry Cubbison and together they founded the Cubbison Cracker Company in Los Angeles, California. They struggled to make a success of their venture. Sophie would bake bread in the home and Harry would travel about selling it. In the end they developed a very successful bakery business."

Note: August Heinrich, the father, died at age 61 of stomach cancer. Address: Grandson of August Heinrich Huchting.

2304. Word of Nutrition. 1984. The most complete, unique and attractive: More than a health food store in the country (Ad). *Hartford Courant* (*Connecticut*). Aug. 16. p. H13.
• ***Summary:*** This half-page ad appears on the page titled "Spotlighting: Newton." "Come in and let us 'show off' our wares from A-Z. Atmosphere (par excellence)... Herbs (bulk–enormous selection)... Kombu,... Macrobiotic selection (very extensive)... Peanut butter (made fresh by us)...Soy milk... Tofu (fresh)... Tofu entrees... Vegetarian foods..." Address: 194-200 Market Square, Newington, Hartford County, Connecticut.

2305. House, S.L. 1984. Spotlight: Institutional foodservice. Alive Polarity, Murrieta, California. *Soyfoods.* Summer. p. 6.
• ***Summary:*** "Northeast of San Diego and southeast of Los Angeles lies a peaceful place where people can go for a day, a week, a month to experience spiritual renewal and better health practices. Among other diverse activities, Alive Polarity's Murrieta Hot Springs offers mudbaths, marriage counseling and superb vegetarian cooking."

"The lacto-vegetarian diet offered at Alive Polarity emphasizes purifying, health-building and gourmet dishes. Soyfoods make up a large part of the menu.

"'More than 50 percent of our meals contain soy products,' says Breese English, kitchen manager. Tofu is by far the soyfood used most often because it's so receptive; it adds little flavor of its own yet takes on the flavor of ingredients used with it. 'I'd say we consume at least 70 pounds a day."

"Alive Polarity's restaurant serves breakfast, lunch and dinner buffet style, totaling about 1000 meals daily."

"While tofu is a primary ingredient in many of the recipes, other soy products are used extensively as well. Bragg's Liquid Aminos and tempeh are two products that have found a place in Alive Polarity's kitchen.

"Bragg's is a liquid mineral soy bouillon often used instead of soy sauce or tamari. Its slightly less salty flavor had made it a popular item for the cooks as Mary Ann Beauchamp attests. 'I use it in almost everything, sauces, salad dressings, soups.' About 25 gallons of Bragg's Liquid Aminos are consumed weekly.

"Tempeh is the third most popular soy product used. Tempeh is a complete protein food with a texture that lends itself to hearty foods and entrees. Used in place of hamburger for summer barbecues, tempeh burgers are very popular. The kitchen staff estimates they use about 400 tempeh patties a week.

© Copyright Soyinfo Center 2021

"Two soyfoods recently introduced at Alive Polarity include soymilk and Tofutti. Given that almost 20 gallons of soymilk are consumed weekly, it appears it's already gained acceptance among the clientele."

"Mary Ann Beauchamp, whose mother is Japanese explains, 'My mother is amazed with the things we do with tofu. The Japanese use tofu in traditional ways for specific purposes. I don't feel that they experiment or work with it as we do.' For example, Beauchamp explains a favorite recipe, Tofu Tidbits. 'You take cubes of tofu and bread them in a mixture of flour, nutritional yeast, herbs and spices. Then layer the cubes in a pan with a small amount of oil. Bake for an hour at 500º. Serve with tartar sauce and lemon wedges, it's fantastic. People just love it.'"

A photo shows the staff: Jane Buck, Breese English, Mary Ann Beauchanp, and Diane Luzzi. Contains a "favorite recipe" for Tofu french toast.

2306. Beazley, J. Ernest. 1984. Largest retailer of health foods indicted by U.S.: General Nutrition [GNC], 3 officials cited in FDA bid to halt therapy-based claims. *Wall Street Journal.* Nov. 15. p. 4.

• ***Summary:*** Concerns the marketing and sale of oil of evening primrose tablets. The FDA wants to send a clear message to the entire health-food industry that the promotion of health foods for therapeutic purposes must stop.

2307. Johnson, Gil. 1984. Natural foods and American history: A ten year perspective. *Vegetarian Times.* Nov. p. 33-34, 66-67. [2 ref]

• ***Summary:*** This very insightful 10-year history of the natural foods movement in America begins: "A generation ago, they were called 'dietetic' foods–the domain of the sick and the desperate, the vain and the visionary. Natural foods were limited to wheat germ, bran, brewer's yeast, blackstrap molasses and vitamin supplements. And in an era of stereotypes, 'health nuts' were no exception: ninety-seven-pound weaklings desiring muscle-bound physiques; scientific men with horn-rimmed glasses; aging actresses trying to preserve their youthful beauty; and wild-eyed men in leather loincloths. The whole thing was reminiscent of the ads in the back of an *Amazing Tales* comic book.

"Then came the Baby Boomers–the Pepsi Generation, and while this generation grew up, the natural foods industry matured along with them. Together they eventually made tofu and alfalfa sprouts acceptable. In the late 1960's natural foods became politically correct. In the mid-1970's they became chic, and today they are commonplace.

"Ten years ago, total retail sales of natural foods were $350 million. Last year, according to *Natural Foods Merchandiser,* a trade magazine, natural foods sales were $3.3 billion–a thousandfold increase. For an industry once dominated by anti-growth sentiments, that's a phenomenal performance, rivaling even the high-tech industries.

"Throughout this growth period, however, the natural foods industry has been perceived by its proponents as a movement as well as a business. The products sold in natural foods stores are not merely fuel for the human body, but the very keys to health and happiness. Success has not overridden this conviction. Yet, like all movements, the natural foods industry is vulnerable to charlatans posing as heroes of the revolution. Every year, it seems, a new miracle product which promises to cure cancer, boost energy or safely take off pounds is introduced. These products generate a short-lived burst of sales in some health foods stores, then fade away (or are forcibly withdrawn by the FDA), only to be followed by the next miracle product.

"Sub-Culture: Perhaps the first major expansion of the natural foods market emerged from that great political cauldron where the causes of peace, civil rights, sexual liberation and ecology bubbled together in the same broth. (Weren't war protestors labeled 'hippie-commie-vegetarian types'?) During this period, all corporations were mistrusted and food companies were no exception. Simultaneously, an awareness of environmental problems prompted a renewed interest in organic farming and unprocessed foods. The counter-culture theory that big, corporate and technological things are bad, and small, collective and natural things are good fostered the spirit which nurtured fledgling natural foods stores and co-ops.

"Prior to the emergence of co-ops, natural foods were available only in small health food shops, which specialized in vitamins and a limited amount of packaged foods for special diets. Later, when stores began stocking staples such as whole wheat flours and breads, certified raw milk, free-range eggs and organic produce, shoppers could purchase enough natural foods with which to prepare an entire meal.

"Most of these stores were characterized by rough wooden fixtures, rudimentary bins for holding bulk items and unusual signs. Walls in some stores were covered with revolutionary posters, in others by photos of favorite gurus. They were staffed by volunteers or barter-rate employees, and many stores served as focal points for extended families, to the point that it was impossible to tell the employees from the customers.

"These early stores developed to serve the needs of specific communities, or sub-communities, but the reason they succeeded can be traced to the one or two ambitious and intelligent individuals who realized they had to start making a living. To them, selling natural foods was a lot more agreeable than working for law firms or defense contractors, and it seemed to have more of a future than pottery or candlemaking.

"An array of natural foods philosophers influenced the nascent movement and got it rolling. Names such as Adelle Davis, Paavo Airola, Linus Pauling and Michio Kushi are familiar to anyone who has endeavored to learn more about their own health. Their books prompted people to question

© Copyright Soyinfo Center 2021

their lifestyles, their diets and their relationships with the medical establishment. Although only a few preached absolute vegetarianism, most of these authors advised their readers to eat less meat and more whole grains.

"The dissemination of Kushi's macrobiotic teachings, based on balancing opposing characteristics in foods, paralleled the rise of the industry. Kushi began lecturing on macrobiotics shortly after arriving in the United States in 1949, but he didn't establish a strong following until 1965, when he founded a summer camp on Martha's Vineyard, and it wasn't until 1972 that the EastWest Foundation was opened in Boston [Massachusetts], representing a broadening of his attempt to awaken the public. It was in that year and the following few that the natural foods movement really began to spread.

"Macrobiotics had a direct impact on the industry, with Kushi controlling Erewhon until its bankruptcy in 1981. Other manufacturers and importers, such as Eden Foods in Michigan and Chico-San in California, evolved to supply the consumer demand for macrobiotic foods, and hundreds of natural foods stores opened around the country.

"Mainstreaming: In the mid-1970's, the voices advocating natural foods diets changed somewhat. Instead of iconoclasts on the fringes of their disciplines, the messengers were now from the mainstream. In 1977, Sen. George McGovern's Special Committee on Nutrition released its landmark *Dietary Goals*, a document which gained favor across a broad spectrum of health officials and nutritionists. Within two years, even officials from the notoriously stodgy National Institutes of Health adopted most of the recommendations from the McGovern report. But the public received this information piecemeal, in headlines such as "Cholesterol Linked to Heart Disease" and "Fat and the Risk of Cancer." The McGovern report sent millions of people into natural foods stores for the first time in varying attempts to escape preservatives; artificial colorings, food additives, refined sugars and flours, and meat. Yet even greater millions, equally concerned about their diets, stayed away from natural foods stores. In 1980, a Food Marketing Institute survey found that 68% of grocery shoppers felt natural foods were superior and that 34% actively purchased natural foods. But only 8% regularly shopped in natural foods stores. Still, for a fledgling industry, the shoppers who did enter natural foods stores created tremendous growth curves, with some operations experiencing sales jumps of 50% or better in one year. People were being scared into eating better, and they were becoming vegetarians in droves. Fortunately for these born-again vegetarians, there were more foods to eat.

"With the publication of William Shurtleff and Akiko Aoyagi's *The Book of Tofu* in 1975, the natural foods industry discovered soyfoods. Although several Asian tofu companies had operated in the U.S. since the 1930's, their products were sold mainly to Asian-Americans. But after the book appeared, small tofu plants started springing up throughout the country. The phenomenon was so startling that food industry writers proclaimed that tofu would become 'the yogurt of the 80's.' Last year, Juan Metzger, the founder of Dannon Yogurt, was named chairman of the board of New England Soy Dairy, the largest Caucasian-run tofu company.

"To meet the consumer's demand for convenience, American ingenuity has come up with quick brown rice and frozen tofu lasagne, and just in time. By the end of the 1970's, even committed natural foods shoppers had grown tired of baking their own bread and soaking beans overnight. They had started careers and were beginning families. Time was of the essence.

"As a result, the natural foods stores themselves began to change. Where it was once properly ecological for stores to require customers to bring their own bags (and bag their own groceries), that now took too much time. And working a few hours a week at the co-op was too much for a lot of two-income couples. Predictably, the number of co-ops with working memberships began to decline.

"At the end of 1977, a new kind of natural foods store was launched in Los Angeles by a former school teacher who had nearly died from an allergic reaction to an antibiotic commonly found in chicken. After doing some research, Sandy Gooch discovered her problem was by no means unique and that she could avoid near-fatal reactions with a natural foods diet. But she was not willing to shop in small, limited natural foods stores which required her to make additional trips to the supermarket in order to purchase other household items. She wanted something better." (Continued). Address: Executive editor of *Natural Foods Merchandiser* magazine, Oregon.

2308. Kerr, Peter. 1984. Gayelord Hauser, 89 author; Proponent of natural foods [obituary]. *New York Times.* Dec. 29. p. 26.

• ***Summary:*** Helmut Eugene Bengamin Gellert Hauser was born in about 1895 [Wikipedia gives his birth date as 17 May 1895]. in Tübingen, Germany, the son of a Lutheran schoolmaster and the 11th of 13 children. He went to the USA to be with his elder brother, Otto Robert, who was a Lutheran minister in Milwaukee, Wisconsin.

He was stricken with tuberculosis of the hip and underwent several operations. But his cure did not begin until a doctor recommended warm baths, clay packs, herb teas, and a diet of salads, fruit juices, and vegetable broth. He had discovered the healing power of food.

In 1923, after studying food from medical specialists in Vienna and Dresden, Mr. Hauser opened an office in Chicago, Illinois, where he gave advice on diet and nutrition. He soon became a partner in Modern Food Products (Milwaukee, Wisconsin), which specialized in an herbal laxative, Swiss Kriss, and Hauser broth.

In 1927 he moved to California and quickly won a

© Copyright Soyinfo Center 2021

following among film stars. His ideas also became popular with Queen Alexandra of Yugoslavia [reigned 1944-1945; lived 1921-1993] and the Duchess of Windsor. From 1930 to 1936, he wrote 8 books on diet an health. During the 1950s he remained nationally prominent via his radio and television programs and his periodical "Diet Digest." He and Greta Garbo (a close friend) invested in property on Rodeo Drive in Los Angeles before prices skyrocketed. He had buildings constructed and became landlord of about 6 prestigious shops there.

Mr. Hauser never married. He is survived by a nephew, O. Robert Hauser. A portrait photo shows Hauser in 1974.

Note: Concerning his later years and death, Wikipedia states:

"Hauser was friends with Greta Garbo until the end of his life and they may have been romantically involved. Garbo was also friends with Frey Brown, a promising young actor who had left his career in the early 1940s to be Hauser's male domestic partner. Garbo and her close friend Mercedes de Acosta would spend time at Hauser and Brown's houses in Los Angeles, Palm Springs, and Italy.

"After purchasing a villa in Taormina, Sicily in 1950, Hauser spent much of his time there with Frey Brown. After Brown's death in 1979, Hauser sold the villa and returned full-time to Hollywood, where he remained in vigorous good health until shortly before his death on 26 December 1984 from complications of pneumonia."

2309. *SoyaScan Notes.* 1984. Chronology of soybeans, soyfoods and natural foods in the United States 1984 (Continued–Part II) (Overview). Dec. 31. Compiled by William Shurtleff of Soyfoods Center.

• ***Summary:*** Continued: July 26. At the NNFA (National Nutritional Foods Association) show in Atlanta, Georgia, Great Eastern Sun rolls out Ah Soy, its new line of soymilk imported from Saniku Foods in Japan, in vanilla, chocolate, and plain flavors, in foil retort pouches. After the show, the Soyfoods Association board meets. Steve Snyder replaces Michael Austin as director of SAA. The next day, SAA directors Snyder, Burke, and Barat travel to St. Louis, Missouri, to meet with the staff of the American Soybean Association to discuss possible areas of mutual interest. ASA appears friendly and open minded, and offers to discuss specific future joint projects. A potential line of communication is opened.

July 30. *People* magazine (circulation 2.8 million) article on Tofutti titled (ineptly) "A Happy Zealot Turns Curd (Yuck!) into a Creamy Treat."

July. "The Soyfoods Industry: Growing Like a Beanstalk" by B. Bialick published in *Whole Life Times.*

Aug. 9. The last issue of Soyfoods magazine (No. 10) arrives, with its first color photo on the cover. 7,000 copies printed at a cost of $11,200. Doug Fiske of Encinitas, Calif., a professional editor and publisher, did a fine job. Magazine's focus has been changed from production to marketing of soyfoods.

Aug. 12-17. World Soybean Research Conference III held at Iowa State University. Heavy emphasis on soybean production and agronomy; relatively little new material on soyfoods. Soyfoods movement is not represented.

Aug. 20. Ralston Purina introduces Checkerboard Farms TenderLean, America's first branded ground beef product consisting of 75% ground lean beef and 25% textured soy protein isolate. Some meat journals are harshly critical and many meat departments refuse to carry it. Ralston withdraws the product.

Aug. 24. Westbrae Natural launches WestSoy Natural, a plain soymilk similar to Ah Soy but lower in price and made with organic ingredients. Imported in a foil pouch from Saniku Foods in Japan, it is the company's first soymilk.

Aug. 31. San-J International Inc. announces that it will construct a soy sauce plant (44,000 square foot, $5 million) in Virginia on a 27-acre site just north of Colonial Heights.

Sept. Chico-San, Inc. introduces unpasteurized miso in a revolutionary "Pressure Release Package," a plastic bag with a one-way valve that allows the escape of the carbon dioxide produced naturally during fermentation.

Sept. 9-14. Gloria Vanderbilt announces that she, in conjunction with Dolly Madison and Frusen Gladje, will launch a tofu ice cream.

Sept. 27-28. First European Soyfoods Workshop held in Amsterdam, The Netherlands, at the Grand Hotel Krasnapolski, organized by the American Soybean Association's Belgium office. ASA reports attendance as 105 people from 14 countries, but participants report a maximum of 50 participants. Talks on tofu, soymilk, tempeh, distribution, and microbiological standards, all later published in the Proceedings. There is a large Expo with soymilk equipment from Alfa-Laval and Soya Technology Systems prominently featured. A very successful event, and another ASA first!

Oct. *The Tofu Gourmet* by Linda Barber and Junko Lampert published by Kodansha in Menlo Park, CA. 129 p. Many color photos.

Oct. 15. "Here Tofutti, There Tofutti," a full-page, very positive article with 2 color photos published in *Newsweek* magazine (circulation 3 million).

Oct. 23. The joint managing directors of the International Food Information Service, owners of Food Science and Technology Abstracts (FSTA, the world's largest, oldest, and most widely used food-related computerized database) visit William Shurtleff at The Soyfoods Center to discuss putting the 6,500 bibliographic records in The Soyfoods Center Library into FSTA, thus making this information available worldwide. Both parties are very interested in the project but technical problems remain to be solved.

Oct. Westbrae Natural Foods launches Malted's, billed

© Copyright Soyinfo Center 2021

as "thick and rich non-dairy soy delights." Marketed like a milkshake and imported from Japan in a foil pouch, they come in three flavors: vanilla, carob, and cocoa-mint.

Oct. Three member team from Plenty Canada spends one month in Sri Lanka, funded by the Canadian International Development Agency, studying the country's soyfoods program. They learn, teach, and introduce tofu ice cream.

Nov. 13. A.E. Staley Manufacturing Company, America's oldest existing soybean crusher, announces that its soybean crushing operations are for sale.

Nov. 20. Tofu Time's first Tofutti Shop opens in uptown Manhattan, New York. A fast-food retail outlet with a slick, red-and-white plastic, almost gaudy, decor.

Nov. 16. Chico-San Inc. is purchased by H.J. Heinz Co., largely for its rice cake business.

Nov. 21. After years of searching, William Shurtleff, with help from Nancy Florida in Java, discovers an 1815 reference to tempeh in the *Serat Centini,* from the Court in Solo, Java. This pushes the earliest reference to tempeh back 60 years and has it originating in Indonesian rather than in Dutch culture.

Nov. 30. America's first Tofu Standards are issued by the Soyfoods Association's Tofu Standards Committee, in part to help stem the rising tide of products bearing the name "tofu" that contain little or no tofu.

Nov. Galactina, a Swiss manufacturer of soymilks since 1969 (they make Vita Drink / Enteroform, a soymilk sold to in vanilla, chocolate, and strawberry flavors to the dietetic and pharmaceutical markets for tube feeding), starts test marketing tofu in Swiss supermarkets. An attractive recipe booklet is attached to each packet, which is pasteurized for a 6-week shelf life.

Dec. Excellent, 19-page cover story on "Soymilk and Soyfoods," published in the prestigious *Journal of the American Oil Chemists' Society.* 1984 is the Society's 75th anniversary.

Dec. Ralston Purina, in its 1984 annual report, notes: "The Company has entered into preliminary agreement with Cargill, Inc., to sell six of the Company's seven soybean [crushing] plants." It also reported strong, steady growth in sales of soy protein products, from about $98 million in 1980 to $152 million in 1984, for an 11.5% compound annual growth rate (but only 4.5% after adjusting for inflation).

Dec. Gloria Vanderbilt's Glace, a soy-based nondairy ice cream, starts being test marketed in Los Angeles, in nine flavors.

Dec. A poll of readers by *Vegetarian Times* magazine finds that 53.1% of readers used tofu one or more times during the past 7 days; 29.4% used it 3 or more times.

Dec. 31. Brightsong Light Foods in Petaluma, California, receives the first funds of a $500,000 equity investment from a Hong Kong investor, who had seen an article praising Brightsong in *Venture* magazine. Brightsong greatly expands its product development and promotion.

* American Soybean Assoc. phases out its Human Nutrition Dept., headed for years by Judy Trujillo.

* Chicago Board of Trade [Illinois] starts trading options contracts on soybean futures. Continued.

2310. *SoyaScan Notes.* 1984. How the National Nutritional Foods Association (NNFA) missed a great opportunity to become the trade association of the budding natural foods industry in the 1960s and 1970s (Overview). Compiled by William Shurtleff of Soyinfo Center.

• ***Summary:*** Founded in 1938, the NNFA was the thriving trade association of the health foods industry during the 1960s and 1970s. By this time, the health foods industry had largely become an industry that focused on dietary supplements (pills). Young Americans at this time realized that both the health foods industry and the mainstream supermarket industry were no longer supplying traditional natural foods, such as unrefined grains, whole-wheat bread, organically grown foods, foods sweetened with natural sweeteners, foods for vegetarian diets, etc.

Therefore these young people decided to start their own stores, and manufacturing and distributing companies to supply such foods. They tried several times to form a trade association to represent them, but never succeeded. By the late 1970s there were thousands of natural food stores in the USA but they had almost no interest in the health food industry or the NNFA.

If NNFA's leadership had be awake to this major huge new trend, they would have started a dialogue and tried to interest members of the natural foods industry into becoming members of NNFA. But instead, NNFA largely ignored this new industry. To this day, most members of the older industry still use the term "health foods" instead of "natural foods." One reason for this (according to Frank Murray, NNFA historian) may have been that the NNFA constitution and by-laws require that the president of NNFA must be a health food retailer.

It was not until July 2006 that NNFA, its industry having been left in the dust by the natural foods industry decided to change its name to the "Natural Products Association" in the hope of attracting members from the natural foods industry.

The natural foods industry still has no trade association; the bi-annual Natural Products Expos, on the West Coast in Anaheim, and on the East Coast in Washington, DC, or Baltimore, Maryland, have filled some of the functions of a trade association.

And there is another less well known association, the American Natural Hygiene Society (ANHS), which changed its name in 1998 to the Natural Health Association. According to its website (in June 2021) it was founded in 1948–as follows: 1948: The American Natural Hygiene Society (ANHS) was founded in New York City on June 28, 1948 by Drs. Herbert Shelton, William Esser, Gerald Benesh,

© Copyright Soyinfo Center 2021

Christopher Gian-Cursio and Jesse Mercer-Gheman along with Attorney Irving Davidson, Jack Dunn Trop and Symon Gould.

"1949. ANHS holds its first National Convention at the Diplomat Hotel in New York City. Dr. Shelton was elected the first ANHS President.

"1964: ANHS forms the Natural Hygiene Press and published Fasting Can Save Your Life by Dr. Herbert Shelton.

"1968: Ithaca College becomes first college campus to hold an ANHS Convention.

"1983: ANHS purchases Dr. Shelton's library and James Michael Lennon becomes Library Director.

"1978: Health Science launched as the new ANHS Membership Health Journal.

"1981: ANHS Headquarters relocates to Bridgeport, Connecticut with Jo Willard as Executive Director

"1985: Dr. Herbert Shelton passes away at age 90

"2014: Lynn Grudnik retires as Executive Director on May 31, 2014 and NHA headquarters moves to Youngstown, Ohio under the direction of NHA President Mark Huberman."

2311. **Product Name:** Tempeh.
Manufacturer's Name: Light Wave Wholefood.
Manufacturer's Address: 21 Gilbert St., Newton, Adeliade, SA 5074, Australia.
Date of Introduction: 1984.
New Product–Documentation: Letter from Dominic Anfiteatro of Light Wave Whole Foods, Adelaide. 1983? (undated). He has been a vegan for 8 years. He learned about tempeh during a 7½-week grape and water fast from *The Book of Tempeh*, by Shurtleff and Aoyagi. Then he traveled to Indonesia to learn more about making tempeh. He was there just after Mt. Galungung in West Java erupted for the first time (about 1982?). He smuggled some indigenous mixed-culture tempeh starter (*biang ragi*) into Australia and "made hundreds of batches of tempeh for myself and for Adelaide." He ran a vegetarian restaurant and juice bar from which he introduced tempeh to many people. He orders a copy of the book *Tempeh Production.* He also made tapeh using organic brown rice, or cassava.

Label. 1984, undated. 4.5 by 5 inches. Red and black on white. "A Cultured Soyabean Food." 250 gm. Letter from Dominic Anfiteatro. 1985. May 2.

2312. **Product Name:** Sanitarium Health Foods B-B-Q Links (Vegetarian Hot Dogs).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, Sydney 2076, NSW, Australia.
Date of Introduction: 1984.
Ingredients: Textured vegetable protein, vegetable oil, coconut oil, whey protein concentrate, egg albumin, torula yeast, modified starch, sauce, salt, dried autolysed yeast, onion powder, garlic powder, water added.
Wt/Vol., Packaging, Price: 430 gm.
New Product–Documentation: Letter with Label from Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1984. Label is 10 by 4 inches. Red, yellow, black, and green on white. A color photo shows 3 links on a bed of scrambled eggs on a white plate with a half tomato and some small squash.

2313. Janes, Ellen Malino. 1984. Portrait of a community: Ojai–yesterday's and today's. Ojai, California: Ojai Valley News (Fred Volz). 96 p.
• ***Summary:*** Page 29, titled "Bill Baker's" states: "The bakery, which still stands on the same East Ojai Avenue spot where it opened in the 1920s, took its name from the first

owner William Cook Baker, who changed his name from Wilhelm Koch during the anti-German days of World War I. Pioneering the health foods of today, Baker created breads out of lima bean, soybean, and other wheat substitutes. He also gained nationwide publicity for Ojai by producing lavish cakes and sending them as birthday greetings to both the Hoover and Roosevelt White House.

"(For a close-up view of the bakery storefront, see page 42.) Pat Carsner, who owned several stores in Ojai, worked as a baker during the 1930s Depression." Photos from Bill Baker Scrapbooks, courtesy Ojai Valley Museum (OVM). Photos show: (1) Four people standing in front of Bill Baker's Bakery in 1928, waiting for a delivery. There is a striped awning over the windows on both sides, and a long black car parked at the far left. (2) A decorated cake on a round lace doily, with "Greetings from Ojai" written on the cake. (3) Bill Baker standing in a new-looking bakery. He is wearing a dark two-piece suit and tie, holding a cigar in his left hand, and laughing. In the center of the room, three young women are seated together on a wooden crate and acting playfully. (4) Pat Carsner and an assistant, dressed in a white baker's outfit, with cap and long pants, standing in front of a large machine.

2314. Wilkerson, Tichi; Borie, Marcia. 1984. The *Hollywood Reporter:* The golden years. New York: Coward-McCann. 356 p. Illust. Index. 24 cm. *
• ***Summary:*** Neither "Screamer" nor "Irvine, Clarke" are mentioned in the Index.

2315. Leviten, Peter. 1985. Soy products are on the move: Long a staple of the health foods industry, soybeans are finding their ways into many exciting new products. *Health Foods Retailing.* Jan. p. 18-22.
• ***Summary:*** Over the past 2-3 years, the popularity of soy-based products has been growing. "Smart health food store owners will profit by giving customers a wide variety of these tasty, low cholesterol, high protein items." Taste is the key to soy foods' success. One pioneer product was tofu. One flashy newcomer is Tofutti.

Danielle Lin, owner of Laughing Moon Foods in Los Angeles, is a self-proclaimed tofu "freak." She is also the maker of a tofu turnover that is a meatless alternative to the traditional chicken pot pie. Lin also handles public relations for the Soyfoods Association of America.

Lin believes that the success of Tofutti could be the catalyst for launching other soy-based foods, a view that is echoed by several manufacturers of such foods. Gary Barat of Legume, Inc. says sales of his frozen entrees made with tofu are up 400% over last year.

"The interest in soy foods has basically been sparked by tofu." Address: Associate Editor.

2316. *Dairy Industries International.* 1985. Soya Health Foods opens in Manchester. 50(5):43. May.
• ***Summary:*** "A factory to produce soya milk has been opened in Trafford Park, Manchester. UK supplies of this low fat, high protein drink have previously been imported from Belgium, France, and Germany.

"Sales [of soya milk] in the UK have increased five-fold in the last year to total £3.5 million; the company behind the new venture, Soya Health Foods, estimates that the market will reach £20 million within the next three years. They are already producing 46,000 litres a week, packed in cartons and sold under the brand name of Sunrise. Later in the year, they are hoping to launch a soya yogurt and soya milk ice cream. There are also plans for a soya milk by-product, presently sold as pig feed." Note: Taking the retail price at UK£0.64 per liter, these values correspond to 5,600 tonnes of soya milk for 1984 and 32,000 tonnes projected for 1988. Address: England.

2317. *Natural Foods Merchandiser.* 1985. NNFA lobbying blunts dietitian's bills: natural food retailers have blocked attempts by the American Dietetic Association to restrict the flow of nutrition information to the public, but the state by state challenge continues. June. p. 10.
• ***Summary:*** "'The effect of many of these bills, however, would be to put the health food retailer out of business:' Bass says. He notes that the dietitians bills are often worded in such a way that anyone giving out nutritional information, or even selling high-potency supplements, would be violating the law."

Note: Scott Bass is legal counsel for the NNFA.

2318. *Food Chemical News.* 1985. FDA conducts undercover probe of soy drinks in health food stores. July 8. p. 17-18. [1 ref]

2319. **Product Name:** Tofu.
Manufacturer's Name: Chenrezig Institute.
Manufacturer's Address: Eudlo P.O., QLD 4554, Australia.
Date of Introduction: 1985 July.
New Product–Documentation: Letter from Mark Gerhard of Chenrezig. 1985. July 23. "A group of us here in the hills of Queensland have just started making our own tofu (using your *Book of Tofu* as a guide) and it has proved very successful. We are swamped with orders from all the local health food shops."

Mark has also been interested in miso for the last three years. "Have just purchased your *Book of Miso* and am deeply impressed by it... You have given me the enthusiasm to seriously think about making our own miso and other related soy products, starting from growing our own beans." He enquires about ordering a copy of *Miso Production.*

"Please keep up the good work. Your far-sighted vision of overcoming (or at least helping) world hunger is highly

© Copyright Soyinfo Center 2021

commendable and very inspiring. May all your wishes be spontaneously fulfilled."

2320. Puzo, Daniel P. 1985. Food briefs: Alta-Dena to honor founders with new label on some dairy products. *Los Angeles Times.* Sept. 26. p. H26.
• ***Summary:*** Alta-Dena (located in City of Industry near Los Angeles) is celebrating its 40th anniversary with a name change. From now on the well-known brand name will appear on only the companies pasteurized dairy products, which comprise most of the company's production of 100,000 gallons/day. Equally important, "Alta-Dena Certified Raw Milk, which has been discussed in countless news stories for the past 20 years [i.e., since about 1965] because of various health disputes, has been retired."

Steuve's Natural will become the brand for the five products that will make up the new line: raw milk, raw butter, raw cream, raw kefir, and raw cottage cheese.–daily production of which will total about 15,000 gallons. Address: Times staff writer.

2321. *Natural Food Trader* (*England*). 1985. Soya yoghurt launched [by Soya Health Foods of Manchester, England]. Sept. p. 25.
• ***Summary:*** "And now we have a dairy product-free yoghurt! Sunrise soya yoghurt is the latest addition to the range offered by the new Soya Health Foods company... The yoghurt comes in four flavors–strawberry, peach melba, black cherry, and raspberry. Says Michael Cole: 'This product is unique. There have never previously been any soya milk yoghurts available in the United Kingdom or Ireland. Being lactose and cholesterol free, this product will be very popular."

"These products are available from various distributors throughout Britain. For details and prices contact Soya Health Foods, Unit 4 Guinness Road, Trafford Park, Manchester M17 1AU. Phone: 061-872-0549." A large photo shows Sunrise Soya Milk (2 types), Sunrise Yogurt (2 types), Sunrise Ice Dream, and Sunrise Vegetarian Burgers.

Note: This is the earliest document seen (Sept. 2012) that uses the term "soya yoghurt" to refer to soy yogurt. Address: Manchester, England.

2322. *Rockford Register Star* (*Michigan*). 1985. Nutty about soybeans: Alternative to peanut butter helps growers reach health food stores, specialty markets. Nov. 12. p. 5C.
• ***Summary:*** Leonard Stuttman of INARI Ltd. of Mason, Michigan, has developed "soynut butter," a product that is just now coming on the market. The company has been marketing soybean products since 1978. A photo shows Len Stuttman with a VCM (vertical cutter mixer) that makes the product and a plate of crackers spread with soynut butter.

According to the National Peanut Council, Americans paid $700 million last year for 600 million pounds of peanut butter.

2323. Zenkoku Natto Rengokai, Tenpei Fukyukai [Japan National Natto Association, Tempeh Popularization Group]. 1985. 21 seiki no kenko shokuhin wa kore da! [This is the health food of the 21st century (Leaflet)]. Japan: Zenkoku Natto Kyodo Kumiai Rengokai. 3 panels each side. Each panel: 22 x 9 cm. [Jap]

• ***Summary:*** A color leaflet. "Tempeh is a distant relative of natto." Contains recipes (with tempeh) for: Curry rice. Gyoza (Pot stickers). Tempeh kabayaki domburi. Tempeh banana donuts. Happosai. Potato croquettes. Seafood salad.

A nice chart compares the nutrients in tempeh and beef.

2324. Waring Products Division, Dynamics Corporation of America. 1985? Fifty years of Waring quality: A better idea, backed by one of America's most beloved musicians, made Waring a household word. It still is. New Hartford, Connecticut. 12 p. Unpublished typescript. Undated.

• ***Summary:*** Contents: The show biz era: Fred Waring markets the Waring Blendor. 1945–present: Blendor applications and a growing line of electric appliances. The Waring Blendor yesterday and today. Key events (chronology). Fred Waring's bio.

© Copyright Soyinfo Center 2021

One version of how Fred Waring hooked up with the Blendor is told in the book *The Housewares Story*, by Earl Lifshey [which see].

In 1954 sales of the Blendor topped the one million mark. It was now manufactured in Winsted, Connecticut, where in 1955 a catastrophic flood almost destroyed the factory. In 1956, following a series of complex business relationships, Waring became part of Dynamics Corporation of America. In the late 1960s the electrical blender industry was revolutionized, led by Waring's breakthroughs in design, engineering, and manufacturing efficiencies, which combined to create a versatile machine with 7 speeds retailing for $20.00.

In 1984 the acquisition of Acme Juicer Manufacturing Co. gave Waring a leading position in juicers for the health food industry. Today the size of the container (carafe) has been increased to 5 cups from 4 and the blender no longer requires lubrication. Address: New Hartford, Connecticut 06057. Phone: (203) 379-0731.

2325. *Australian Dairy Foods.* 1986. "Tofutti" takes off in Australia. Feb. p. 84.
• ***Summary:*** Distributor with sole Australian franchise for Tofutti is David Grossbaum of Shoyu Natural Foods in Melbourne. Photos show: (1) Dale Code and David Grossbaum making soft serve Tofutti. (2) "Some of the soy foods now being marketed in capital city health food shops:" Earth Angel Soyoghurt (tub), Pureharvest Soy Drink (two sizes, Vanilla, Tetra Brik), Soypreme natural soymilk in a Pure-Pak carton made near Melbourne, and Bonsoy soymilk (Barley Malt flavor in a Tetra Brik carton) imported from Japan.

Note: This is the earliest document seen (Sept. 2012) that uses the word "Soyoghurt" to refer to soy yogurt. Address: Australia.

2326. Ferrell, David. 1986. Gypsy: At 75, 'Nature Boy' is a free spirit with a healthy sense of humor. *Los Angeles Times.* April 20. p. 9-1.
• ***Summary:*** A good look at Gypsy Boots. The pride and joy of his life are his three children. Alexander, age 31, is a classical pianist. Daniel, age 27, is trumpet player, artist, and aspiring screenwriter. Freddie, age 23, is a flutist and saxophonist. Unlike Gypsy, "they are scholarly and refined, good students who adopted serious pursuits." He is still married to Lois, and his marriage is very important to him. About once a week he visits his friend, Maximilian Sinkinger, age 73, who lives in a cabin he built more than 40 years ago by an icy creek deep in the Santa Monica Mountains.

During the 1940s and 1950s Gypsy traveled with Sikinger and a cast of other Nature Boys–Gypsy Gene (killed by a jealous husband ca. 1955), Bob Wallace ("He looked like Jesus Christ), James the Greek (he fasted to death), and Fred Pfister (the Swiss Nature Boy, who used to yodel).

After his first children were born, he opened the Health Hut on Beverly Boulevard. Movie stars came to visit. But after 3 years, in the early 1960s. it went bankrupt.

2327. Kingaard, Jan. 1986. Looking back at the NNFA. *Whole Foods.* June. p. 1, 23-26.
• ***Summary:*** A 50-year anniversary history of the National Nutritional Foods Assoc. (NNFA) Today it represents a $3 billion industry. Pioneers who helped to organize health food advocates into an industry include Ed Neumann, Stanley Phillips, Herbert Bristol, Bernarr Macfadden, George Spitzer, Henry Rosenberger Sr., and H. Wayne Walker. A photo shows some of NNFA's past presidents: Dave Ajay, Rosemarie West, Stanley Phillips, Max Huberman.

"The original organization, the American Health Food Association (AHFA), was founded in 1936 by Tony Berhalter."

2328. Mitchel, Diana. 1986. Re: New developments with soymilk in Australia. Letter to William Shurtleff at Soyfoods Center, Sept. 1. 2 p. Handwritten.
• ***Summary:*** (1) Castle Trading (Ranwick, NSW) are now selling non-sweetened fresh soymilk in 2 litre containers at $3.00 Australian. (2) Biogenic (owned by Russels-Russels, which is owned by a New Zealand health chain) are selling 1 litre Tetra packs sweetened with honey at $3.40 each. (3) Sanitarium Health Food Company, a Seventh-day Adventist chain, are producing their own soya milk. It is apparently nice and cheap. (4) Soyfoods Australia P/L [Pty. Ltd.] at 14/2 Paton Place, Manly Vale (Phone: 02-949-7314) are producing soy milk "and have just spent $100,000 on equipment that is quite unsophisticated in comparison to the English equipment I was thinking of buying. Anyhow, they are contracting to sell fresh soya milk to all Coles supermarkets in NSW in plastic bottles." (5) Quite a few brands are selling in NSW, including: "Simply Better" (24-B Braeside Drive, Braeside, VIC 3195. Phone: 03-580-8505); Light Foods (37 Richards St., Hindmarsh, SA 5007); Earth Angel Soy Foods (Mt. Waverley, Victoria). Address: Squirrels on the Park, P.O. Box 4, Surry Hills 2010, NSW, Australia.

2329. McDougall, John A. 1986. Yogurt is no health food. *Vegetarian Times.* Oct. p. 52. [1 ref]
• ***Summary:*** "Yogurt to many Americans is 'health food,' and this myth has existed since the turn of the century. Replacing the gram-negative intestinal bacterial flora with a lactobacillus variety derived from yogurt is supposed to result in robust health. However the variety of lactobacillus used to make yogurt, *Lactobacillus bulgaricus*, will not grow in the human intestine (Robins-Browne *American Journal of Clinical Nutrition* 34:514, 1981). The variety used to culture acidophilus milk (*L. acidophilus*) also fails to grow in the

© Copyright Soyinfo Center 2021

small intestine where beneficial activity would be expected to take place.

"Yogurt is high in fat–50 percent of its calories are derived from fat, mostly the saturated variety implicated in heart disease. 'Low-fat' yogurt produced from partially skim milk" still derives 31% of its calories from fat.

"Yogurt is also high in animal protein, which causes the body to lose minerals–including calcium–through protein-induced changes in kidney physiology. Milk-derived proteins are the No. 1 cause of food allergy. Yogurt (like its parent product, cow's milk) is entirely deficient in fiber and is inadequate for human needs in linoleic acid, iron, niacin and vitamin C. Rather than being considered a food that supports health, yogurt should be classified as a delicacy (at best) or even as a health hazard for some people." Address: M.D. and internist, Medical Director of the Lifestyle and Nutrition Program at St. Helena Hospital, Deer Park, California.

2330. Frost & Sullivan, Inc. 1986. The health foods market in the EEC [European Economic Community]. 106 Fulton St., New York, NY 10038. Or Sullivan House, 4 Grosvenor Gardens, London SWIW 0DH. 303 p. Dec. Price: $2,300. *
• ***Summary:*** While food consumption is growing generally in Europe at about 2% to 3% a year, the health food sectors are growing at 6% to 7%. The total market value for health foods is forecast to rise from $36.1 billion in 1984 to $43.5 billion in 1991 (in constant 1985 U.S. dollars). The report covers in depth trends in France, West Germany, the United Kingdom, the Netherlands, Belgium-Luxembourg and Denmark, with summaries for Italy, Spain, Greece, Ireland and Portugal. West Germany has the largest and most structured market for health foods. The last five years have seen the following major changes throughout the EEC: Increased public awareness of nutrition and health; greater health food sales through normal retail outlets; a wide variety of health food products available to consumers.

Soyfoods are apparently not specifically discussed. European countries have the following number of specialist health food stores and general food stores, ranked in descending by descending number of health food stores: Netherlands (53/1,860), West Germany (43/1,400), Belgium/Luxembourg (39/2,000), Denmark (38/1,190), France (32/1,550), United Kingdom (25/760), Italy (3.5/3,020), Spain (3.5/3,090), Portugal (na/4,310). Address: New York, New York. Phone: 212-233-1080 (USA); 01-730-3438 (UK).

2331. Cole, Michael. 1986. Soya Health Foods Ltd. Company profile. Unit 4, Guinness Road, Trafford Park, Manchester M17 1AU, England. 4 p.
• ***Summary:*** Michael Cole is an entrepreneur, born in Manchester, England. The company was formed in 1984 in Manchester. The factory is sited in Trafford Park Industrial Estate and was the first to be built for the sole purpose of Soya Milk manufacture. The company is headed by Mr. M.S. Arora (Chairman), Mr. M.P. Cole (Managing Director), and Burns Anderson p.l.c. (Financial Controllers). Production of Soya Milk began in January 1985. The Sunrise brand is currently being sold throughout the 2,500 independent health food shops and in many supermarkets. The company has 5 products. Their soymilk is private labeled for 5 other companies. Soya Health Foods Ltd. has also been established in Australia and New Zealand, with its own private labels (milk in New Zealand and Burgers, Ice Cream, and Dessert in Australia). Address: Manchester, England.

2332. Baker (Bill) International. 1986. Bill Baker International (Business card). Ojai, California. 1 panels. 5.5 x 9.5 cm.
• ***Summary:*** On the left half of the card is a baker with a tall chef's hat (and the year 1897 on the front headband), a handlebar mustache, walking with his left arm and right foot extended forward. On his right arm, extended backward, he is carrying a globe of the world. Two addresses, Ventura and Ojai, are shown on the card: (1) 1437–3E Victoria, Ventura, CA 93003. Phone: (805) 642-7583. (2) 457 E. Ojai Avenue, Ojai, CA 93023. Phone: (805) 646-1588. There are individual cards for Ed Romano, Debby Curry, and Bill Phillips. One name appears in the upper right corner.

Talk with Colleen Kohnen of Tehachapi. 2006. March 14. Ed Romano (who is no longer living) was a baker here during the time when John Welty (who now lives in Carpinteria, California) was an investor. She would date this business logo and name from 1986.

Talk with John Welty. 2006. March 14. The name of the bakery was changed to Bill Baker International by Bill Baker when he was shipping bread up as far as San Francisco. John thinks "Bill Baker International" was on the wrappers of the breads he shipped. It was definitely not John's idea nor Ed Romano's nor the Vaughns. It was before the Vaughns owned the bakery.

Talk with Helen Vaughn. 2006. March 14. She has never seen this logo or heard of this name for the bakery. Address: Ojai, California.

2333. Green, Harvey. 1986. Fit for America: Health, fitness, sport, and American society. New York, NY: Pantheon Books. xvi + 367 p. Illust. Index. 28 cm. [250+* ref]
• ***Summary:*** This is a serious and sympathetic study of the American quest for perfect health in the period from 1830 (a watershed year in this as in so many other aspects of American culture) to 1940. The author suggests that the pursuit of physical perfection is a way to compensate for the experience of social failure. The Strong Museum, where he works, is the only major U.S. museum devoted entirely to documenting life in Victorian America [1837-1901]. The author has MA and PhD degrees from Rutgers University, New Jersey, and is presently also an adjunct professor of history at the University of Rochester, in New York.

Contents: Preface. Acknowledgments. Part I: Millennial dreams and physical realities, 1830-1860. 1. Health, medicine, and society. 2. Spices and the social order. 3. The springs (and shocks) of life. 4. "Bad air" and the "movement cure." Part II: The price of civilization, 1860-1890. 5. The sanitation movement and the wilderness cure. 6. The new "American nervousness." 7. Electricity, energy, and vitality. 8. "Muscular Christianity" and the athletic revival. Part III: Regeneration, 1890-1940. 9. Living the strenuous life. 10. Old-time quiet in a breathless age. 11. Dietetic righteousness. Epilogue. Notes. Picture credits.

Contains many interesting photos. Address: Deputy director for interpretation, Strong Museum, Rochester, New York. Home: Palmyra, New York.

2334. **Product Name:** Sanitarium Health Foods So Good: The Non-Dairy Soy Drink (Soymilk).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, N.S.W. 2076, Australia.
Date of Introduction: 1987 April.
Ingredients: Soya isolate, vegetable oil, maltodextrin, sugar, mineral salts [incl. calcium] (332, 229, 340, 504, 509), vitamins (101, 301), water added.
Wt/Vol., Packaging, Price: 250, 500, or 1,000 ml in Combibloc Aseptic carton.
How Stored: Shelf stable.
Nutrition: Water 86.4%, soya extracts 4.1%, vegetable oil 3.5%, maltodextrine 3.3%, sugar syrup 1.7%, mineral salts and vitamins. Percentage of RDA per 600 ml: Calcium 700 mg/100%, vitamin B-12 1.8 mcg/90%, riboflavin 1.0 mg/65%, iron 3 mg/30%.
New Product–Documentation: Shurtleff & Aoyagi. 1986. Soymilk Industry and Market, Update. This company makes its own brand, which is economically priced. Label (photocopy). 1987, undated. "The non-dairy soy drink. Cholesterol free. Lactose free. Long lasting." Manufacturer's catalog. 1989. "Juices and Drinks: The newest introduction into this drink category is So Good, a soy-based drink which is designed as an alternative to milk. This is particularly popular with those who have a lactose sensitivity and a need to reduce the cholesterol intake. It is made to a Sanitarium-inspired formula from soy isolate (the protein component in the soya bean) and has the distinct advantage of having a calcium level equivalent to that of cow's milk."

The Supermarket Circle. 1988. "So Good was awarded a 'Golden Sial' award or 'Food Oscar' at the AIDA-SIAL '88 International Oscars, judged in Paris on June 10. The Oscars is a bi-annual competition between 16 nations, including Canada, Great Britain, Italy and the USA. Each country presents products in 7 food and beverage categories: Grocery, alcoholic drinks, non-alcoholic drinks, dairy, deep-frozen, meat/poultry and delicatessen.

"The retail trade in each country nominates the representative products. With outstanding sales success since its launch by Sanitarium in 1987, Australia's retailers nominated So Good to represent the country in the 'non-alcoholic drinks' category."

Alfa-Laval. 1988, June. Soyfoods: Old traditions with new potentials. p. 9. A color illustration on the front of the package shows a glass of soymilk by a bowl or cereal on a table in front of a window facing a stylized rural landscape with the sun rising behind rolling hills. Green. blue, brown, and white. Subtitle: "The non-dairy soy drink. Cholesterol-free. Lactose-free. Long lasting."

Technique Laitiere & Marketing. 1988. No. 1034. Nov. p. 61. Gives nutritional composition. p. 65 So Good is an Australian soymilk product which won the 1988 SIAL gold medal (SIAL d'Or 88). SIAL is the International Food and Dairy Exhibition in Paris.

Sanco News. 1988. Dec. "Now the world thinks we're as good as gold: The Gold Food Oscar for So Good."

Talk with Eric C. Fehlberg, director International Health Food Assoc. 1990. March 7. So Good has had remarkable success in the past few years. Sanitarium Food Co. was the first to make soymilk in Australia. It caught on rapidly, and soon prompted 4-5 competing brands to be launched, but none of them have sales nearly as large as So Good. The main problem has been the company's inability to produce enough to keep up with demand. It was launched in April 1987. In Oct. 1989 they sold 1,738 long tons (2,240 lb/ton). The equipment used to produce the soymilk is Adventist technology, not that purchased from Alfa-Laval, STS, etc. Originally the product was packed under contract by a nearby dairy company in Combibloc cartons. After a year or so they purchased their own Combibloc packaging machine. Sanitarium Foods has a very strong research lab.

Sanitarium Nutrition Education Service. 1990. April. "So Good." This 4-page leaflet gives a clear explanation of

© Copyright Soyinfo Center 2021

each ingredient used, plus nutritional and other information.

According to competitors, in 1991 Sanitarium's So Good was Australia's leading soymilk product. But the fact that it is made from soy protein isolates rather than whole soybeans is considered a drawback by the natural foods market. Sun Gold is another major soymilk product.

2335. Hoskin, Bob. 1987. History: Ella Kellogg's kitchen. The origins of the Sanitarium, Kelloggs and General Foods companies can be traced back to Mrs Ella Kellogg's Kitchen. *Record* (*Official Paper of the South Pacific Division of the Seventh-day Adventist Church*) (*Australia*) 92(28):6. July 25. • ***Summary:*** "'You are the mother of Home Economics, aren't you?' someone asked the late Lenna Frances Cooper, dietitian, teacher and author of books on cooking and nutrition.

"'I'm sometimes called the Dean,' she answered, 'but the "Mother" of Home Economics is without doubt Ella Eaton Kellogg.'

"Mrs. Kellogg's ideas continue to influence the living and dietary habits of not only Seventh-day Adventists, but much of the Western world. However, in a recent Sydney survey of Seventh-day Adventist home economics teachers, not one had ever heard of Ella Kellogg and her famous kitchen.

"In the preface to her book *Science in the Kitchen,* Ella Kellogg is referred to as Mrs. Dr Kellogg, a title we would never use today, but which reflects the relatively low status of women in society some 100 years ago. Undoubtedly her name has contributed to her relative obscurity. "'Science in the Kitchen, by Mrs. E.E. Kellogg, AM, published in 1892 by the Health Publishing Co of Battle Creek, Michigan,' reads the title page of the old book that has been sitting on the Avondale College library shelves for about 80 years. The preface describes Mrs. Dr Kellogg's qualifications as superintendent of the Sanitarium School of Cookery and of the Bay View Assembly school of Cookery, and Chairman of the Worlds' Fair Committee on Food Supplies for Michigan. It also claims the art of cooking is at least a century behind the march of scientific progress.

"The book presumably sold well–a later copy dated 1910 is described as the fourth edition. To the casual observer the two editions look essentially the same. However, a detailed comparison shows that the differences between the two books contain the ingredients for transforming the dietary habits of the Western world. It is interesting to note the philosophical relationships between Catherine Saxelby's *Nutrition for Life,* a current popular nutrition book selling at most Australian newsagents, and Ella Kellogg's book published almost 100 years earlier.

"The entrepreneurial activities occurring in Ella Kellogg's kitchen near the turn of the century were reminiscent of a gold rush or oil strike. And they were to transform Battle Creek into what has been described as the health or cereal capital of the world. The ideas presented in Ella's *Science in the Kitchen* provided the stimulus for the formation of over 40 food companies in Battle Creek. And the origins of the Sanitarium, Kelloggs and General Foods companies can be traced back to her kitchen.

"Dr John Kellogg had met Ella (nee Eaton), a young Seventh Day Baptist, while studying medicine at Bellevue Hospital Medical School in New York City. Ella was also well-educated, with a master's degree in hygiene.

"As a young married couple in their early 20s, the Kelloggs returned to Battle Creek, where John was in 1876 appointed medical director of the first Seventh-day Adventist medical institution. Dr Kellogg was to remain director of the Battle Creek Sanitarium until his death at the age of 91 in 1943. On arrival in Battle Creek, Ella Kellogg began supporting the many facets of her husband's health mission. It is not surprising that Ella soon got to know Ellen White, and a lasting friendship resulted.

"In 1888 the magazine *Good Health* took on a new look and increased its popularity–mainly as a result of the well-illustrated articles on cooking, clothing, budgeting and health by Ella Kellogg that were a refreshing change from the dour medical articles of her husband. Ella Kellogg served on the editorial staff of *Good Health* for 43 years.

"In 1888 the Sanitarium School of Domestic Economy was established at Battle Creek under the leadership of Ella Kellogg. Details of the course were advertised in the March 1888 edition of *Good Health.* The fee was $100 and applicants were to be of good character, good health, over 18 years and faithful in work. Forty young women enrolled in the first course. Not only was Ella Kellogg heavily involved in the various outreach programs of the Sanitarium, she also raised over 40 foster children in her own home. The Kelloggs were childless and adopted several of the foster children who spent time at their home.

"The 1892 edition of Ella's book *Science in the Kitchen* consolidated many of the concepts that had been presented in the School of Domestic Economy and in *Good Health* articles. While the 1892 edition contains meat recipes, Ella clearly discourages the use of meat–especially its fat. And the book recognises the role of fibre in the diet–some 60 years ahead of Dr Denis Burkitt's work in this area. Likewise most of the other modern dietary guidelines can be found in this 1892 edition. The book also contains one of the earliest food composition tables.

"A significant recipe in Ella's 1898 edition, at least from the perspective of the development of food industry, was the caramel coffee substitute. Charles Post, a Sanitarium patient, tried the coffee substitutes from Ella's kitchen and recognised a money-spinner. Mr Post marketed the coffee substitute as 'Postum' and used the slogan, 'It makes your blood red.' By 1900 he was a millionaire and the General Foods Corporation had begun. 'Postum' is still available in Australia.

© Copyright Soyinfo Center 2021

"In the 1910 edition of Ella Kellogg's *Science in the Kitchen*, the chapter on meat cooking is omitted and replaced by a range of meat substitutes such as peanut butter, nuttolene and gluten products that were being invented in the large Sanitarium kitchen. The chapter on food for the sick is enlarged–reflecting the development of corn flakes, wheat flakes and similar products. Australians and New Zealanders would have no trouble recognising the photographs of the equivalent products to Weet-Bix and Nutolene shown in the book.

"The early Seventh-day Adventists that came from America to Australia brought with them not only the theory, but also many of the practical ideas on health that were developing at Battle Creek. The year after Avondale College was established at Cooranbong in 1897, the Sanitarium Health Food Company was begun as a college industry under the direction of the Physiology lecturer. The early food and nutrition classes used Ella Kellogg's book *Science in the Kitchen* as their text.

"The fact that Seventh-day Adventists settled in both towns linked Cooranbong and Battle Creek. It is, therefore, no accident that the breakfast cereal industry still forms an important part of the economy of both Battle Creek and Cooranbong. Again it is no accident that the Adventist residents of Cooranbong live longer and healthier lives than most other Australians. Thanks can be given to the very practical contributions of Ella Kellogg and other pioneers in the food and nutrition field." Address: Lecturer, Dep. of Home Economics, Newcastle College of Advanced Education, New South Wales, Australia.

2336. Cole, Michael. 1987. Soya International Limited (News release). Downs Court, 29 The Downs, Altrincham, Cheshire WA14 2QD, England. 2 p. Oct.
• ***Summary:*** Cole was the founder (in 1984) and previously managing director of Soya Health Foods Ltd. Soya International Ltd. is an international soya marketing company, with an international database containing information related to soya products. Stephen Burgess is the company's computer consultant. "This information centre fully computerized and the first of its kind serves to support the main activities of the company whose sub-heading is "Research, Development, Marketing, and Management Consultants." S.I. Ltd. has already joined with the large Italian company Sordi S.p.A. (a supplier of dairy and juice equipment) to complete a feasibility study for the Argentine government, as well as working with both the Brazilian and New Zealand governments on far reaching long term soya projects. Cole, age 42 and born in London, is a vegetarian. He managed to bring Soya Health Foods Ltd.'s Sunrise brand products to the position of market leaders in just 2 years.

Note: In Feb. 1989 a letter sent to this company was returned. His phone was no longer in service, and the directory assistance operator in England could find no new listing in Altrincham or in the Cheshire County or Manchester areas. Address: Cheshire, England. Phone: 061-926-8019.

2337. Arancibia, Juan. 1987. Mystery surrounded lifestyle, departure of desert hermit [William Pester]. *Press-Enterprise* (*Riverside, California*). Nov. 1. p. B-1, B-5.
• ***Summary:*** William Pester, a hermit, lived in a shack in the canyons outside Palm Springs. Pester was a frequent sight in Palm Springs in the 1920s and 1930s. His long hair, sandals, and head band made him noticeable. "He would come into town mostly at night, but was a sociable and sound-minded person... He was best known for his principal business ventures: selling postcards of himself and charging 10 cents for a look at the moon through his small telescope." He also made and sold Indian arrowheads and canes he made from palm trees.

"Then one day in the late 1930s, Pester disappeared, leaving no trace." He is remembered as "the first nature boy" and "a hippie long before their time." The hermit liked to be close to nature and often be nude in his secluded shack. If someone came to visit, he would quickly put on a monks robe.

The Palm Springs Historical Society has a collection of his post cards, some written in Spanish, with brief messages advising people to eat vegetables and fruits and to avoid red meat and sugar–admonitions nutritionists would echo decades later.

Frank Bogert, Mayor of Palm Springs who met Pester in 1921, says that Pester moved to Indio after living near Palm Canyon, inside the Agua Caliente reservation. Pester purchased land in Bermuda Dunes at the time. "A 1927 deed on record at the Riverside County Recorders Office shows he purchased about 10 acres of land partly bordered by Fred Waring Drive, Jefferson Street, and Burr Street. According to the deed, Pester paid $600 in gold coins to a Los Angeles couple named Joseph E. and Esther H. Newcomer."

A photo (courtesy Palm Springs Historical Society) shows William Pester standing at the door of his desert shack.

Note (Feb. 2015): Look for William Pester on the Web and you will find many images / photos and stories. One story from Palm Springs says: "According to Matthew Link, writing in Desert Outlook, the main reason he married a woman later in his life was for her influential contacts in order to keep him out of prison, where he found himself in 1940–at the infamous San Quentin on 10 counts of 'sexual perversion' for having sex with underage boys. He served six years, writes author Peter Wild in his book about Pester, 'The Hermit of Palm Springs.'"

"Pester evidently kept a low profile after his time in jail, and hardly anything is known of his later years, except that he probably died in Arizona in 1963 at the age of 78. The site of Pester's Palm Canyon hut is now a parking lot and trading

© Copyright Soyinfo Center 2021

post. Look closely, and you'll spot the nearby Hermit's Bench named in his honor."

2338. Cody, George. 1987. History of naturopathic medicine. In: Joseph E. Pizzorno and Michael T. Murray, eds. 1987. A Textbook of Natural Medicine. Vol I. Seattle, Washington: John Bastyr College Publications. 24 p. [50* ref]
• ***Summary:*** Contents: Introduction. A brief history of early American medicine with emphasis on natural healing: 1800-1875, professional medicine (College of Philadelphia [Pennsylvania], Benjamin Rush), Thomsonianism (Samuel Thomson), the eclectic school of medicine, Wooster Beach (a person) and the eclectic school (Worthington, then Cincinnati, Ohio), the hygienic school (Sylvester Graham and William Alcott), homeopathy, rise and fall of the non-allopathic sects, American influence, Russell Trall, Holbrook, Sylvester Graham. The beginnings of "scientific medicine:" Foundations with monies from Carnegie and Rockefeller foundations, medical education in transition, Flexner report, pharmaceutical industry, the new "sects" (osteopathy, chiropractic, Christian science). The founding of Naturopathy: Benedict Lust arrives in USA in 1892 from Germany, Lust purchases term "naturopathy" from Scheel in 1902, the Germanic influence (Vincent Priessnitz, Johann Schroth, Father Sebastian Kneipp, Arnold Rickli, Louis Kuhne, Henry Lahman, F.E. Blitz, Adolph Just, Theodor Hahn), the convergence with American influences (A.T. Still, B.J. Palmer, Henry Lindlahr, John H. Tilden, Elmer Lee, John Harvey Kellogg, Sidney Weltmer, Bernarr McFadden [Macfadden], Shelby Riley). Twentieth century medicine: The metamorphosis of orthodox medicine (comparing 1875 and 1920), the halcyon years of naturopathy (progressive health era, 1900 to 1920, Morris Fishbein, Gaylord [sic, Gayelord] Hauser healed by Lust in 1920s, death of Lust in Sept. 1945 at Yungborn in Butler, New Jersey, emerging dominance of AMA medicine, osteopathy, chiropractic, Jethro Kloss and *Back to Eden*). Modern rejuvenation (counter-culture of the late 1960s, alternative medicine gains respect but naturopathic educational institutions dwindle to one, the National College of Naturopathic Medicine, John Bastyr College formed in 1978). The book has two bibliographies: General (21 refs), and naturopathic (29 refs).

Concerning Hauser (p. 20): "During the 1920s, Gaylord [sic, Gayelord] Hauser, later to become the health food guru of the Hollywood set, came to Lust as a seriously ill young man. Lust, through the application of Nature Cure, removed Hauser's afflictions and was rewarded by Hauser's lifelong devotion. His regular columns in *Nature's Path* became widely read among the Hollywood set." Address: Faculty Member, John Bastyr College, Jurisprudence.

2339. Panati, Charles. 1987. Extraordinary origins of everyday things. New York, NY: Harper & Row. xi + 463 p. Illust. Index. 24 cm. [150+* ref]
• ***Summary:*** Includes discussions of: Blender (electric kitchen appliance) (1922, Racine, Wisconsin, initially known as a "vibrator"). Plastic (1900, USA, incl. Celluloid, Bakelite, Cellophane, Acetate, Vinyl, Plexiglas, Acrylics, Melmac, Styrene, Formica, Polyester, Nylon, Tupperware {made of polyethylene}). Peanuts (1800s, USA, incl. P.T. Barnum, peanut butter, Planters Peanuts). Cracker Jack (1893, Chicago, Illinois {"Candied Popcorn and Peanuts"}). Hot dog (1500 B.C., Babylonia [today's Iraq], incl. frankfurter, American hot dogs, Nathan's franks). Hamburger (Middle Ages, Asia). Sandwich (1760, England). Melba Toast (1892, London). Worcestershire Sauce (mid-1800s, Britain). Graham Crackers (1830s, New England).

Note: This book is very well written, but some or all of the information in some of the entries (such as the blender, peanut butter and Worcestershire sauce) comes from secondary sources and is incorrect. The book would be much better (but much longer) if the sources for each statement or entry were cited.

2340. Pomeroy, Leon R. 1988. In Memoriam: Carlton Fredericks 1910-1987. *J. of Applied Nutrition* 40(1):57-60. Spring.
• ***Summary:*** Filled with praise for this pioneer in the field of preventive medicine who died on 28 July 1987. Address: P.O. Box 6176, Yorkville Station, New York, NY 10128.

2341. Palermo, Anthony A. 1988. Modern Products purchases Fearn Natural Foods, moves to Milwaukee (Interview). *SoyaScan Notes.* May 11. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Modern Products bought out Fearn in Oct. 1986, closed the plant in Melrose Park, Illinois, and moved to Milwaukee. The CEO is presently Anthony A. Palermo and the president and chief operating officer is his son, Gayelord G. Palermo. Lou Richard is somewhere in Illinois. Modern Products was founded by Gayelord Hauser in 1925. His products include Vege-Sal, Spike, Vegit, Naturally Salt Free, Santay, Onion Magic, Lemon Pepper, Naturally Cajun, and Spice Garden Herbs and Spices. His most famous book was *Look Younger, Live Longer* (1950). Address: P.O. Box 9398 (3015 W. Vera Ave.), Milwaukee, Wisconsin 53209-0398. Phone: 414-352-3209.

2342. *Graphic* (*Brooklyn, New York*). 1988. The "scoop" on David Mintz, the father of Tofutti. May 25.
• ***Summary:*** David Mintz, a successful kosher caterer from Brooklyn, never believed tofu could change his life, but it has. In 1972, while searching for a milk substitute for kosher desserts, pastries, pies and sauces, he discovered tofu. In 1981, he introduced Tofutti ice cream to the world. More than 38,000 outlets in all 50 states–including supermarkets, health food stores, groceries, gourmet shops and department stores–carry the product. Tofutti is also available in Canada,

Japan, Australia, Korea, Hong Kong, and the U.S. Virgin Islands.

2343. Jones, Susan Smith. 1988. The health pioneers: Who they were and how they enriched our lives. *Let's Live.* Aug. p. 22-23, 75.
• ***Summary:*** Paul C. Bragg, an early health enthusiast was the son of a Virginia farmer. Betty Lee Morales, born Betty Lee Hunt, was lauded for her understanding of herbs and nutrients as medicine, which she studied for three years in China. Paavo Airola was raised and educated in Europe, where he studied biochemistry, nutrition, and natural healing in biological medical centers in Sweden, Germany, and Switzerland. Adelle Davis wrote four best-selling books, *Let's Cook It Right, Let's Have Healthy Children, Let's Eat Right To Keep Fit,* and *Let's Get Well.* She went school at the Univ. of California, Berkeley, where she earned a bachelor's degree in dietetics in 1927. Her books have sold more than 5 million copies. Linda Clark was another health pioneer who wrote 18 books. Gayelord Hauser, known as the Dean of the Natural Foods Movement became a world-renowned syndicated columnist, lecturer, and author of several books.

2344. Kahan, Ben. 1988. Early history of health food publications and protein powders (Interview). *SoyaScan Notes.* Sept. 24. Conducted by William Shurtleff of Soyfoods Center. [2 ref]
• ***Summary:*** Ben Kahan was a founder of Kahan & Lessin, a major health food distribution company. During the early years of the health foods industry, in the 1930s and 1940s, the main publications were: 1. *California Health News,* which was started by Clarke Irvine in 1933 in Hollywood, California. Its successor was *Let's Live.* Then there was a split in the family at Let's Live; a son-in-law split off and started a new competing magazine, *Healthways,* which still exists. 2. *Health Food Retailing,* a trade magazine published by Jack Schwartz of Syndicate Publications of New York (Jack can be reached at 27 Highland Ave., Larchmont, NY. Phone: 914-967-7556). 3. *Prevention,* founded by Rodale Press in 1950. Note: Organic Farming and Gardening was started by J.I. Rodale in May 1942. The title changed to Organic Gardening and Farming in Nov. 1942.

The first protein powder was Hoffman's Protein Powder, introduced in about 1948 by Bob Hoffman, a weight lifter and owner of York Barbell Co. Bob's right hand man was John Terpak, who is still alive. Subsequent Hoffman soy protein products included a high-protein powder, tablets, etc. That product was followed 2-3 years later by Weider's Protein Powder, which was basically the same kind of product. Hoffman and Weider were both competitors in the weight lifting field. Both had weight lifting magazines and made equipment/foundries as well, and both marketed their products mainly to weight lifters. They belonged to rival weight lifting organizations. The original marketing focus was on weight lifters. Hoffman came into the health food field first, followed by Weider. Protesoy was another product of the same type but more specialized and just health food. Hoffman was the real innovator. Instantizing with lecithin made blending of protein powders with liquids in blenders and mixers a lot easier.

Concerning the "protein craze" of the late 1970s, "the government tried to collapse the market, but it quickly recovered and was more effective. They could never prove that many people had died. Once in a while the government used to take after anything that smacked of health or dietary products because they didn't want any of them to get too successful for some reason. I think it was pressure from other food industries who didn't like the nutritional claims made by the health food industry. During the years of World War II they tried to reclassify the health food stores in the came category as grocery stores, which would have hurt them. This industry has always been an embarrassment to the government, a burr under their saddle; they said the RDAs were too low.

There has never been a good history of the U.S. health food industry because no one ever saw a market for it. The editor of Jack Schwartz's magazine put out a little paperback but it didn't do much. Address: 5530 Goodland Ave., N. Hollywood, California 91607. Phone: 818-701-6632.

2345. Schwartz, Jack. 1988. History of the health foods industry in America (Interview). *SoyaScan Notes.* Sept. 25. Conducted by William Shurtleff of Soyfoods Center. [1 ref]
• ***Summary:*** Jack founded the magazine *Health Foods Retailing* in about 1938 in New York. But the real expert on the history of this industry is Frank Murray, who lives in Manhattan (Business: 212-613-9700; Home 212-924-0063). He has done extensive research in the field and has written a book on the history of this industry [*More than One Slingshot*], published in 1984. He has copies of back issues of magazines and many records. Frank worked for Jack at Syndicate Magazines. They published *Better Nutrition* starting in about 1939, then *Today's Living* in about 1948; both are still published. In 1981 he sold the company to a large British firm, a subsidiary of British General Electric. They discontinued or ruined many of the best publications.

Another early and important health food publication was *Nature's Path,* published by Benedict Lust in New York City, starting in 1925.

Early and important soy products were Joyana, Bob Hoffman's Protein Powder and about 10 years later a similar product from Joe Weider, and a line from Battle Creek Foods.

Another pioneer to talk with is Sam Reiser, who founded Balanced Foods, the largest natural food distributor in America. A cousin, he was in the industry since about 1939 and was a major pioneer. Phone: 201-944-4639 in Fort Lee, New Jersey. Address: 27 Highland Ave., Larchmont, New

York. Phone: 914-967-7556.

2346. Boff, Vic. 1988. University of Texas Library's Todd & McLean collection on health and fitness. Health food pioneers (Interview). *VegeScan Notes.* Sept. 26. Conducted by William Shurtleff of Soyfoods Center. [5 ref]
• ***Summary:*** The University of Texas at Austin has one of the largest collections of periodicals, books, papers, and memorabilia on the health foods movement and industry in America. It is in the Todd & McLean Collection, occupying 8,000 square feet. Contact Dr. Terry Todd in Austin (Phone: 512-471-4890. Gregory Gym 33, Univ. of Texas, Austin, TX 78712). The library is on the third floor of the gym. Prof. McLean is no longer living. They have an especially good collection of Bernarr Macfadden's publications.

Vic is an old timer in the health food industry. He worked closely with Dr. Benedict Lust (he wrote for him starting in 1936) and knew Bernarr Macfadden. Lust was an M.D. (licensed in Florida), ND, and DC. Coming to America from Germany, he was the founder of Naturopathy in America, located on Lexington Ave. in New York. He died in 1942. Lust published *Nature's Path* (a popular periodical that started in the early 1900s and was continued by his nephew or son, John Lust, who passed away recently), and *Naturopath,* a professional publication for naturopathic physicians, starting in the 1930s until he died. Lust had two sanitariums in Florida and New Jersey, doing hydropathy and chiropractic. He was a major figure, a great man, but had constant opposition for the local medical associations and societies. Macfadden was tremendous in the advancement of natural foods and natural healing in this country. Boff has all Physical Culture magazines from 1898 to the 1940s. Macfadden and Lust were on good terms with each other. Macfadden was more involved with physical fitness; his slogan was "Weakness is a crime." He promoted sunshine and fresh air, physical therapy and hydrotherapy; he was put in jail for trying to do away with bathing suits that covered the whole body. He had a huge publishing operation. Otto Carque was a great natural foods pioneer in California, probably in Los Angeles. He was interested in soyfoods. Even in the early days, many of the health foods pioneers advocated the soybean because many of them were vegetarians and the soybean is a great substitute for meat. Loma Linda and Kellogg were also a major forces. Address: Brooklyn, New York. Phone: 718-648-5254.

2347. Murray, Frank. 1988. History of the health foods movement in America (Interview). *SoyaScan Notes.* Sept. 26. Conducted by William Shurtleff of Soyfoods Center. [5 ref]
• ***Summary:*** Frank entered the health foods industry in 1963, when he went to work for Jack Schwartz at Syndicate Publications, publisher of *Health Foods Retailing* magazine. His book, "More than One Slingshot" (1984) was a history of the NNFA, written for them and not released commercially. But it was also a history of the health foods movement in America. Important health foods publications included *Health Foods Retailing* (founded in April 1936 by Lelord Kordel and sold several years later to Jack T. Schwartz, who remained publisher until Feb. 1982), *Better Nutrition* (now in its 50th year), *Let's Live,* and *Prevention.*

The University of Texas has a large collection of periodicals, books, and memorabilia on health and physical fitness, including figures such as Bernarr Macfadden. For details contact Vic Boff in Brooklyn, an old timer in the industry. Back issues of Health Foods Retailing (in a small, digest format) can be found at Communication Channels Co. in Atlanta, Georgia (Phone: 800-241-9834).

Joe Weider has always been in California, and is still alive. He publishes many weight lifting magazines.

In the 1960s the main soyfoods products he remembers were from Loma Linda Foods, Worthington, and Fearn Soya Foods. Address: New York. Phone: 212-613-9700.

2348. *Natural Foods Merchandiser.* 1988. Frank Ford receives 1988 Rachel Carson Award from NNFA. Sept. p. 4.
• ***Summary:*** Frank Ford, chairman of the board of Arrowhead Mills, is a longtime organic farmer. A photo shows Ford on his John Deere tractor.

2349. Kloss, Jethro. 1988. Back to Eden: A human interest story of health and restoration to be found in herb, root, and bark. Revised and expanded second edition. Back to Eden Publishing Co., P.O. Box 1439, Loma Linda, CA 92354. xxviii + 1007 + 20 p. Illust. Index. 21 cm. Kloss Family Heirloom Edition. Index.
• ***Summary:*** One of the most creative and original sources of early soyfoods recipes, which include "Soybean Cream" and "Soybean Ice Cream." This revised edition contains all essential material from the original text of this classic work on healing herbs, home remedies, diet, and health, but it has been reorganized, re-typeset and re-indexed to make it easier to use and more contemporary. Three hundred pages of natural health information have been added. Old terms have been explained and updated. There are also 16 pages of photographs and 16 pages of new of family recollections by Jethro Kloss' daughter (especially interesting), son, and granddaughter. These add greatly to the story of his life and work. For example, his daughter, Promise, states (p. xv):

"Next the Klosses became interested in the self-supporting work being conducted in the south and they visited some of the schools in North Carolina and Tennessee. About 1911 they sold the sanitarium in Minnesota and moved to Fountain Head, Tennessee, where their youngest daughter, Naomi, was born in 1913. Here they bought a 250-acre farm, built a large house and barn, and raised many kinds of fruits and vegetables. They also raised Shetland ponies for a time.

"A later development in good health was his creation of

© Copyright Soyinfo Center 2021

a significant health food manufacturing operation in Amqui, Tennessee after receiving a request from the owners to take charge of their food factory. While he was operating this factory he would be up at two, three, or four o'clock in the morning; as early as necessary to build the fires for the steam cooker or the large oven and whatever else needed to be done to have everything in readiness for the workers to begin the day processing, canning, or baking. When that big oven was hot, he would often pop into it some special weekend treat for his family–some delicious health coffee cake or raisin buns like no one else could make, for he was an excellent baker.

"Before this factory was sold to the Nashville Agricultural Normal Institute, he was shipping health foods all over the United States and Canada. It was also during this time and at this place that he originated many new health food recipes. This establishment later became a part of what has since become the well-known Madison College near Nashville, Tennessee."

Photos show: (1) Portraits of Wilhelm and Sofia Kloss, parents of Jethro Kloss. They had 11 children, born between 1848 and 1868. Jethro was the 9th child, born April 27, 1863. (2) Jethro Kloss in 1900 as a young minister, healer, and teacher. (3) Jethro Kloss with Carrie Stilson, his first wife whom he married in 1901. Tragically she died in 1905. (4) Promise Kloss, born to Carrie and Jethro in 1903, shown as a young girl with her father. (5) Amy Pettis Kloss, Jethro's second wife. They were married in 1907. (6) Children of Jethro and Amy: Lucille Kloss (1908-1929). Eden Pettis Kloss (1910-). (7) Naomi Joan Kloss at 17 months of age. Jethro's youngest child, she was born in 1913. (8) In 1907 Jethro and Amy opened this comprehensive health and medical center in St. Peter, Minnesota, which they named The Home Sanitarium. (9) Jethro Kloss giving a hydropathy treatment at The Home Sanitarium; it was open from 1907 to 1912. (10) Amy operating the women's hydropathy treatment room. (11) Manufacturing malta, the great cereal syrup from pure wheat starch and barley. (12) In 1915, from their food factory in Nashville, Tennessee, the Klosses shipped foods throughout the United States and Canada. Here 4 people are seen working at a table. (13) Patients, family and friends enjoyed health foods canned by the Klosses in this outdoor "factory," which was a commercial enterprise as well. (14) This interesting illustration shows an aerial view of the Nashville Sanitarium-Food Factory with a train and 3 sets of train tracks in front. (15) A 1920 advertisement for utensils (such as 2 hand grinders for flour or nuts) sold by the Jethro Kloss Health Food Company in Brooke, Virginia. (16) Menu for a demonstration vegetarian dinner given by Jethro Kloss at the Dodge Hotel in Washington, DC, on March 27, 1933. "Sprouted soy beans" are on the menu. "The pumpkin pie and strawberry sundae were made with soy milk" (p. xvii). (17) A 1926 photo of Promise Kloss (Moffett) at age 23. (18) A 1935 snapshot of Jethro's only son, Eden Pettis Kloss. (19) Jethro's daughter, Promise, with typewriters won in typing contests during the 1930s. (20) Proud grandfather, Jethro, holding his only grandchild, Doris Joyce, in 1929. (21) Jethro's youngest child, Naomi Kloss Engelhard, mother of Doris Joyce. (22) "Promise Kloss Moffet, Jethro's first child, shares food preparation tips with Doris Joyce, his granddaughter, in 1934. (23) "A group of letterheads dating back to 1904 showing some of the variety of enterprises engaged in by Jethro Kloss during his lifetime." 1922 Feb. 27–Jethro Kloss Health Foods Company (Brooke, Virginia). Undated–Brookside Mercantile Company (Brooke, Virginia). Undated. Branch of the Battle Creek (Michigan) Sanitarium (Superior, Wisconsin). A full line of Battle Creek Sanitarium Health Foods. J. Kloss & Co. Grove Contractors, Farmers and Truck Farmers. Jethro Kloss Publications (Washington, DC). Back to Eden Magazine. Jethro Kloss, Medical Evangelist. (24) Promise Kloss Moffet, with a large, framed photograph of her father, Jethro Kloss, on her 80th birthday, Aug. 16, 1983. (26) Great-grandchildren of Jethro Kloss: Stephen Kloss Gardiner. (27) Nancy Kloss (Bramlett).

The book has been published continuously by the Kloss family since 1946.

Contents: Section I: Natural health. 1. Personal experiences. 2. Soil preparation and farming. Section II: Herbs for healthful living. 1. History of herbal medicine. 2. Herbs. 3. General directions for preparation and use of herbs. 4. Tonic herbs. 5. Herbs used to treat disease. 6. Medicinal trees. 7. Specific herbs for various medical problems. Section III: Treating diseases with herbs. Treating diseases with herbs. Special notice. Section IV: Your body and its needs. The digestive section. 1. The importance of good nutrition. 2. Carbohydrates. 3. Fats. 4. Protein. 5. Mineral elements in the body. 6. Vitamins. 7. Water. 8. Fresh air, exercise, and sleep. Section V: Your foods. 1. Fruits. 2. Vegetables. 3. Fiber (to "help keep you regular"). 4. Oatmeal. 5. Nuts. 6. Breads and refined flour. 7. Meat and vegetarianism. 8. Milk. 9. Salt. 10. Garlic. 11. Healthful diets. 12. Obesity. 13. Fasting and healthful eating. Section VI: Food preparation. 1. Useful hints to preserve vitamins. 2. Kloss's favorite health recipes. 3. Cooking under steam pressure. 4. Aluminum cooking utensils. 5. Baking and breads. 6. Preparing wholesome desserts and beverages. Section VII: Effects of polluted and adulterated foods on the body. 1. Adulteration of food. 2. Health-destroying foods. 3. Dangers from disease in animals. Section VIII: Water and good health. 1. History of water cure. 2. Using water to preserve health. 3. Water's effects and use in treatment. 4. Water's effects on sickness. 5. Baths and water treatments. 6. Compresses and fomentations. Section IX: Skills in caring for the sick. 1. Nursing. 2. Massage. 3. High enemas. 4. The value of charcoal. Appendix: Glossary of old-fashioned medical terms. Glossary of medical properties of herbs. General tables.

A press release accompanying the new revised, 2nd edition notes: Back to Eden was written by Jethro Kloss

© Copyright Soyinfo Center 2021

during the 1920s and 1930s, with help from Promise and Eden, his daughter and son. It was first published in 1939, when the author was 76 years old. It has since sold more than 3 million copies. Kloss died in 1946 after retiring to Tennessee. Message Press, a small business in a rural community not far from Chattanooga, continued to publish Back to Eden for more than 25 years after his death, under the direction of Promise, his daughter. Unfortunately in 1967 the copyright expired during the confusion attendant to the illness and death of the book's country publisher. Promise's attempt to renew the copyright in Jan. 1968 was too late. In 1971 other publishers pirated Back to Eden. Address: Loma Linda, California.

2350. *SanCo News* (*Sanitarium Health Foods Co., Australia*). 1988. Now the world thinks we're as good as gold: The Gold Food Oscar for So Good. Dec.
• ***Summary:*** "So Good was honoured at the 1988 AIDA-SIAL International Food Oscars held recently in Paris. As one of only 5 products representing Australia, So Good won a Gold Oscar by winning its category for the world.

"A total of 16 countries participated in the competition. An international panel of judges evaluated hundreds of products based on their uniqueness, appeal and sales performance. So Good won the 'non-alcoholic beverages' category thereby establishing itself as the best new product, in its category, in the world for 1988."

"The international award has created many enquiries about So Good from interested parties around the world." Address: Wahroonga, Australia.

2351. Health Foods Retailing. 1989. Geographical breakdown of circulation (Leaflet). Atlanta, Georgia. 1 p. 28 cm.
• ***Summary:*** This magazine reaches over 13,500 health food retailers. The top 10 states, each with more than 300 retailers, are as follows: California 2,297, Florida 864, New York 732, Illinois 620, Pennsylvania 508, Ohio 502, Michigan 439, New Jersey 432, Washington 422, Colorado 311. Note that this closely parallels interest in soyfoods. Address: Communication Channels Inc., 6255 Barfield Rd., Atlanta, Georgia 30328. Phone: 404-256-9800.

2352. Johnson, Gil. 1989. What a decade! NFM celebrates 10th anniversary. *Natural Foods Merchandiser.* Feb. p. 1, 60, 63-64, 66, 68-69, 71-72.
• ***Summary:*** A nice overview and history of the growth of the natural foods industry in America from 1979 to 1989. The explosive growth began in the mid-1970s. Includes photos of and talks with industry leaders in the following categories: Retail (incl. Sandy Gooch, Danny Wells), Distribution (Nature's Best, Tree of Life), Manufacturing (Jim Rosen of Fantastic Foods, Ken Murdock of Nature's Way), Associations (Patricia Heydlauff of NNFA), Brokers, Co-ops, Consumers (Gauger & Silva, Tom Chappell, Jeffrey Bland, Bill Shurtleff of Soyfoods Center, Rebecca Wood).

Bland notes: "The last ten years has witnessed the general population's acceptance that diet and lifestyle play a role in the disease patterns we now have... the aging baby boomer generation has invested more time and energy into the development of self than any generation our society has ever known."

Of Shurtleff, the article notes: "... but as effective a promoter as he is, his real contribution has been in providing the soyfoods industry with market research."

2353. Toriano, Peter. 1989. Japanese food firms cook up new strategies for U.S. consumers. *Economic World.* April. p. 22-26.
• ***Summary:*** "Riding the success of tasty, low-priced food products, the Japanese eye a bigger helping of the U.S. grocery mart." Two of the most popular Japanese food products have been soy sauce, ramen noodles, and tofu. "Nissin sold more Cup O'Noodles in the United States last year than McDonald's sold hamburgers nationally... Japanese food companies and food products are slipping under America's door unnoticed... The Japanese start selling their food products in the U.S. to a small, very concentrated ethnic market... While Kikkoman can trace exports of soy sauce to the U.S. as far back as 1869, most Japanese food companies did not export to or manufacture products in the United States in significant quantities until the 1970s...

"American food product companies focus on their competitors, whereas the Japanese tend to focus on what the customer wants...

"Kikkoman, one of Japan's largest food-related companies, is involved with wines and liquors, pharmaceuticals, health foods and a chain of restaurants. In addition to its other products, Kikkoman has introduced a shelf-stable tofu, instant miso soup and a rice wine for use in cooking.

"Kenzaburo Mogi, planning manager of Kikkoman's foreign operations department, says tofu could become as big a market as soy sauce for Kikkoman in the U.S. in the years to come. In the U.S., Kikkoman also owns 80% share of JFC (Japan Food Corp.), a major distributor of oriental food products... Consumption of Kikkoman's soy sauce has increased fivefold since 1972... On average, each Japanese consumes about 2.5 gallons of soy sauce every year; the average American consumes less than 10 oz...

"Almost a quarter of Kikkoman's total business now is outside Japan: two-thirds in the U.S. and most of the rest in Southeast Asia. The company also is targeting production in Europe, Australia and China...

"Ajinomoto Co, Japan's largest food processor, has been selling abroad since 1909, when its first overseas office opened in New York... Until the 1960s, Ajinomoto's main product was MSG (monosodium glutamate). Today, it has

© Copyright Soyinfo Center 2021

a more diversified line-up, with about 41% of sales coming from processed foods, and 26% from seasonings... The predominant products the firm manufactures in the U.S. are amino acids for pharmaceutical use...

"Kibun Products International Inc., a subsidiary of Kibun Company Ltd. Japan, is a major manufacturer of surimi in the U.S... Kibun is a multi-billion-dollar, 50-year-old food products company with worldwide operations totalling $2,000 million annually...

"Morinaga Nutritional Foods Inc., a subsidiary of Morinaga Milk Industry Co. Ltd., the Borden of Japan, is selling its tofu in air-tight containers that prolong freshness, eliminate water changes and is bacteria-free...

"'This could be the food of the future, replacing dairy and meat as major sources of nutrition," says Kent Cooper, spokesman for Hakuhodo Advertising America Inc. in Los Angeles, which handles Morinaga's account...

"Faith Popcorn, chairman of BrainReserve Inc., a marketing consulting company to Fortune 500 companies says America is eating healthier and is more and more concerned with where food products originate and what that does to the Earth, known as the graining/greening of America. 'Vegetarianism is growing like crazy. Americans are changing from flesh food to health food.'"

2354. Laboyrie, David. 1989. The Australian soymilk market and Australian Natural Foods Holdings Ltd. (Interview). *SoyaScan Notes.* Aug. 17. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Approximately 8 million liters/year of soymilk are presently sold in Australia. His company, Australian Natural Foods, has 3 basic soymilk products. The first, sold to the health food market, is Aussie Soy, which was launched in June 1987 and now has about 60% of the health food market, around 2 million liters a year. It is in a Tetra Pack container. The other two (Excel and VitaFresh) are designed as milk alternatives, and are fortified with vitamins and calcium. But after about 3 months, calcium fortification (with calcium phosphate and calcium chloride) has an definite undesirable thinning effect on most of the soymilk with the formation of a thick layer of sediment settling to the bottom. They sell through supermarkets, and have a much smaller market share. Sanitarium Foods dominates that market, producing about 100,000 liters/week, or 5.2 million liters/year. David's company makes their soymilk from whole soybeans rather than isolates, and promotes it as such.

Excel was originally launched in Aug. 1987 as a fresh product but it was discontinued in June 1988 due to distribution problems and short shelf life. It is now sold in supermarkets in a UHT pack in plain flavor only. They also make another product (similar to Excel) under another brand for another company. It is called VitaFresh. It has the same settling problem. The existing formula does not contain tri-polyphosphate. They think there is still a big market for fresh soymilk in Australia, but they need either a dairy distributor or a 28-day shelf life. Address: Australian Natural Foods Holdings Ltd., 80 Box Rd., Taren Point, NSW 2229 Australia. Phone: 02-526-2555.

2355. *SoyaScan Notes.* 1989. Pioneers in vacuum packaging tofu. Its pros and cons (Overview). Sept. 19. Compiled by William Shurtleff of Soyfoods Center.

• ***Summary:*** In late 1977 Redwood Natural Foods Inc. in Santa Rosa, California, became the world's first company to vacuum package tofu. The pioneer there was Greg Hartman (whose photo appears in the Sept. 1983 issue of *Health Foods Business,* p. 80). Redwood used tofu made by Quong Hop & Co. and distributed and sold the organic tofu under their own brand. An illustration of the machine and description of the process is given in *Tofu & Soymilk Production* by Shurtleff & Aoyagi (1984, pp. 23 & 72; In about 1978 Shurtleff & Aoyagi visited Hartman at Redwood Natural Foods and observed his packaging process).

Since that time, many companies have switched to vacuum packaging their tofu. Pioneers in the USA included: Quong Hop & Co. Jan. 1979, Summercorn Foods Sept. 1979, Nasoya Foods 1981, Zakhi Soyfoods 1981, Pacific Trading Co. 1981, Lecanto Tofu 1981, Swan Gardens 1982, White Wave 1983, Farm Soy Dairy 1985, Island Spring 1985.

Pioneers in Europe included: Aros Sojaprodukter in Sweden 1982, Manna Natuurvoeding in the Netherlands 1982, Auenland Tofu in West Germany 1983, Tofuhaus Tiefenthal in West Germany 1983, and Haldane Foods in England 1985.

A few companies (such as Nasoya) have even dropped vacuum packing and switched back to water pack. Companies using relatively small chamber-bag batch-type machines seem happiest with the technology and have had few problems. Companies using larger, continuous process roll-stock machines have often had ongoing, serious problems.

Advantages of vacuum packaging, in approximate order of importance, are: (1) The package is familiar to consumers and it makes tofu look quite similar to cheese, a related and popular food product; first-time tofu users are not turned off by a cake tofu floating in a pale yellow liquid (which reminds some consumers of a fetus floating in formaldehyde in a biology lab). No other food in the western world besides tofu is sold floating in water. Yet the water that surrounds the tofu inside the vacuum pack detracts from its appearance. Some have even said that the resulting package reminds them of a used condom! (2) Because the tofu is packaged without water, it is much lighter and less bulky, which cuts shipping costs and can expand market areas; (3) Nigari-type tofu retains most of its natural sweetness, which is leeched off in water-pack tofu; (4) Vacuum packaging is generally thought to give the product a longer shelf life than water pack. Typical companies date their tofu for an 18-21 day shelf life;

© Copyright Soyinfo Center 2021

(5) The cost of the package itself is less for vacuum packing, BUT the additional labor required for packaging and labeling with a batch-type machine may make the total packaging cost more than for water pack.

Disadvantages of vacuum packaging, in approximate order of importance, are: (1) Most Asian-Americans, especially first generation Asian-Americans, strongly prefer water pack, to which they are accustomed; (2) Vacuum packed tofu is much more susceptible to damage than water-packed tofu in a rigid plastic tub, unless the vacuum pack is surrounded by a fairly rigid box; (3) It is difficult to vacuum pack soft tofu, which is the texture preferred by many Japanese; (4) Unless the tofu is immersed in chilled water for 6-12 hours before vacuum packing, the yellow whey in the tofu may leech out and collect inside the package, giving the tofu a unappealing yellow hue.

One example of a company that has had problems is White Wave Inc. in Boulder, Colorado, which in May 1983 bought a used Tiromat vacuum packager. Thereafter everything went wrong, so much so that that one machine "almost broke the company's back." President Steve Demos later called it "the curse of the Devil," and his production manager would sometimes ask, only half in jest, "Do you think we are sitting in vacuum packaging hell?" Demos notes: "Tofu is a very difficult product to vacuum pack, though firm tofu is easier than soft. In our case, about 30% of the problems have been caused by the machine, 30% by the product, 30% by the operator, and the rest is absolute bad karma. The process was unforgiving, as was the Tiromat's maker, which gave White Wave almost no help." But by Oct. 1989 White Wave had worked the bugs out of their vacuum packing system and now prefers it to water pack.

2356. *Adventist Review* (*Hagerstown, Maryland*). 1989. Granose Foods opens new factory: Growth from bakery to Britain's major health food manufacturer. Sept. 28. p. 20-21 (p. 1036-37).

• ***Summary:*** The brand new factory is at Newport Pagnell, Buckinghamshire, England–30 miles away from its former location at Stanborough Park, on the outskirts of London, near Watford, Hertfordshire. The founder is said to be J. Heide, who, a hundred years ago, came to London from Germany to start a new life. With help from his uncle, he became a master baker. He soon joined the small group of members of the Seventh-day Adventist Church. "In 1899 John Hyde (as he soon became known) was living over his bakery at 332 Portbellow Road in east London with his wife" and four children. He worked hard to make bread that tasted better and was fresher than anyone else. He and his brother delivered their loaves late at night or early in the morning.

"John soon learned about health foods and the church's teaching that God is honored in a healthy body as well as in a healthy mind and spirit. Samples from the Sanitarium Health Food Company in Battle Creek, Michigan, found their way to Britain, and in 1899, with the blessing of the church, John went to the United States to learn how to make the foods. He spent six months with Dr. John Harvey Kellogg, who was president of the medical college in Battle Creek, superintendent of the Battle Creek Sanitarium (with its health food company) and member of more than a dozen medical societies and associations,..."

"Kellogg created the formula for a gluten biscuit. The Battle Creek Sanitarium Health Food Company also produced Granola, a cooked preparation of wheat and oats to be used as a breakfast food. Granose flakes, Granose biscuits, Protose, and Bromose were among their strangely named products.

"Imported know-how: John Hyde took the production know-how back to Britain, where he put it into operation. Adventists purchased a flour mill at Salford, near Redhill, Surrey, and formed the International Health Association Ltd. Hyde imported used plant equipment from Battle Creek and purchased other items locally.

"But the road to success was not to be easy. Before the advent of electricity, candles were used for lighting. This practice led to a fire that burned down the factory in 1900.

"In 1907 the association moved to Stanborough Park, an idyllic 75-acre estate on the outskirts of London, near Watford, Hertfordshire. In 1926 it became Granose Foods Ltd."

John Hyde, the baker, worked many years for Granose Foods. He eventually had 13 children–a baker's dozen. The name of each is given. "Almost all his children became employees of the Adventist Church."

Why did the factory move? Over the years, the SDA church leadership sold off portions of the valuable estate surrounding the Granose food factory; as new houses were built, the factory became a "noncoforming user" in a residential zone. Income from a recent sale of 10 more acres at Stanborough Park helped to pay for the new plant and the 3 acres of land on which it was built.

A photo shows the ribbon-cutting ceremony on July 9. Present were: (1) "Eric Fehlburg, who coordinates the activities of 52 Adventist health food companies worldwide, with $300 million in receipts, from church headquarters in Washington, D.C." He believes that Granose has a bright future but believes that, since the 3 acres is already too small, Granose should purchase 20 acres somewhere else. Note: Why did they not buy more land on which to build the new factory? Apparently for lack of money. (2) Peter J. Archer, age 50, who left school at age 16 and got a job sweeping the yard for Granose. He has been the manager of Granose since 1984, and he and his team have turned the company around (after years of indifferent sales) and appear to be on a path of continuing growth. "Granose is my life," says Archer. A small photo shows Archer and Fehlberg shaking hands.

Granose products include "Ravioli, Nuttolene, Vegecuts, Mock Duck, Burger Mix, Sausfry, Soya Wieners, a variety

© Copyright Soyinfo Center 2021

of soymilks, and more than 100 other products. The latest, Sweet Sensation, is a soy ice cream. With the assistance of De-Vau-Ge in Germany, Granose supplies a tremendous demand for nondairy products. The company sells 656,000 gallons (2.5 million liters) of soymilk a year. From the Nutana factory in Denmark, Granose imports and distributes five different packs of nondairy margarine containing oils, but no whey. Tue Westing and marketing manager Inge Kjeldal of Nutana were present at the opening."

2357. New Hope Communications. 1989. The natural products market: A wellspring of consumer trends. Boulder, Colorado: New Hope Communications. 164 p. Price: $975.00.

• ***Summary:*** Contents: Acknowledgements. 1. Introduction: The roots [history] of the natural products industry. 2. Coming to terms: Definitions of basic concepts. 3. The industry matures: From rebellion to leadership. 4. The impact of legislation and regulation by Peter J. Semper. 5. The role of science: Research, development, and credibility. 6. Product category sales trends (Soyfoods is not listed as a category). 7. Retailing: The interface with the consumer (Health food chains: General Nutrition Centers, Great Earth Vitamins, Nature Food Centres, Fred Meyer Nutrition, Nutrition World). 8. Manufacturing: A multitude of market shares. 9. Distribution: Consolidation, stability, and efficiency. 10. Regions. 11. Factors for the future. Appendix 1. Organic farming labeling legislation. Appendix 2. Examples of advertising.

Gross retail sales for this industry exceeded $3.5 billion in 1988. This study gives a good look at the structure of the market, and contains a brief historical overview of the industry. It contains many tables, graphs, and maps. None of these relate to soyfoods. A graph of "Natural Products Industry Sales" shows total retail sales to have grown from about $250 million in 1970 to $3,550 million in 1988, a 14-fold increase in 18 years. Of the 1988 total, $2,390 million (67%) is sold by independents (natural and health food stores), $679 million (19%) by the mass market (supermarkets), and $477 million (13%) by non-supermarket chains (such as General Nutrition Centers). The major natural products in the mass market (with sales in 1988) are yogurt $1,200 million, bottled water $800 million, granola bars $200 million, and herbal teas $70 million. "These 4 product categories add up to more than $2,200 million, which is more than double the sales we tracked for all grocery products sold through the natural products industry."

History: The notion of natural or health food products has been around for almost as long as the United States. Two of the early pioneers were Sylvester Graham and John Harvey Kellogg. Graham, who admonished Americans to stop eating meat, "gained both fame an notoriety in the early 1800s in claiming that 'a single pound of rice absolutely contains more nutritious matter than 2½ pounds of the best butcher's meat.' Graham died in 1851, at the ripe old age of 57. A year later, John Harvey Kellogg was born. He lived to be 91, and attributed much of his longevity to his [vegetarian] diet based on fruits, nuts and whole grains. From his Battle Creek Sanitarium, Kellogg concocted whole wheat meals, which found their way into the mass market. And subsequently, became more refined and less healthy."

The natural foods industry is based on two basic beliefs, both expressed by Graham and Kellogg. "The first is that certain foods or nutrients can be used medicinally. That is, the right foods can be used to help cure disease or to enhance vitality or performance... The second maxim dear to the natural foods industry is that food is better and intrinsically healthier when eaten most closely to its original state in nature. The ideal food is that which is unprocessed, unrefined, and even uncooked in some instances."

"The industry matures: From rebellion to leadership. Since World War II, food production in America can be explained by the concept of the Hegelian dialectic. One concept or practice (a thesis) inevitably evokes its opposite (an antithesis), and the two interact to form a new concept (synthesis), which in turn becomes a new thesis. "Throughout the 1950s and 1960s, food became ever more mass produced, processed, homogenized and inexpensive... as the power of the food conglomerates reached their peak some 20 years ago, the antithesis was being articulated by such visionaries as Adelle Davis, Gayelord Hauser, and Linus Pauling. "It's probably no accident that this antithesis caught on and became a movement in the late 1960s and early 1970s, when a significant segment of the Baby Boom generation was protesting everything else.

"Through the 1980s, a synthesis has been evolving. The food giants have become more aware of health issues and the natural foods industry has adopted and adapted technologies to allow greater production of food, while retaining its intrinsic values."

During the 1960s and 1970s this industry was divided into two camps, often at odds with each other. One sold "health foods" and the other "natural foods." The health food industry, which had started in the 1930s and focused on the first maximum that food can be used as medicine, focused most of its attention on vitamins, herbs, and some traditional health foods such as wheat germ and brewer's yeast. "In the late 1960s the natural foods faction emerged. Its followers were primarily concerned about food [rather than vitamins or supplements] and its purity... Products were defined essentially by what they did not contain: chemical pesticides, preservatives, food colorings, refined sugars and flours and, frequently, any animal products. Vegetarianism was an important part of the natural foods movement."

During the 1970s the industry was nurtured more by idealism than business acumen. When Natural Foods Merchandiser began surveying industry retailers in 1979, "nearly a quarter of them could not tell us their gross profit

© Copyright Soyinfo Center 2021

margin and a significant number did not even accurately know their gross sales. A high percentage didn't care...

"A decade later, the only thing that remains constant is the idealism, but today it is frequently blended with sound management and creative marketing...

"How did the industry accomplish this transformation? It happened in several evolutionary stages. First and foremost, the impetus for growth came from consumers. Economists use the term *demand pull* when describing conditions in which consumption dictates sales growth and pricing. In this case, the entire natural products industry was virtually dragged kicking and screaming into the mainstream by consumers. They demanded the natural products, and then they began demanding that these products be marketed properly.

"Then between 1975 and 1982 a new wave of retailers entered the scene. They ran better, cleaner businesses and broadened the market. "Health" and "natural" principles were integrated. Industry sales grew remarkably during the 1970s, from about $250 million in 1970 to $1,850 in 1980, averaging about 20% a year for the decade. The number of outlets quadrupled. "At the same time, the supermarkets started setting up health food sections. On the west coast, two regional chains–Raley's in northern California and Fred Meyer in Oregon–had successfully introduced health foods as early as 1971. Their continued success, along with heightened media attention, prompted Safeway to begin a program in 1980 (another motivation was that Raley's was generally leading Safeway in market share wherever the two chains competed). Since Safeway at that time was the nation's largest grocery chain, its leadership encouraged other supermarkets to follow suit. Drug stores and discount stores, such as K-Mart, also entered the field.

"Meanwhile, there was strong expansion from the existing health food retail organizations, primarily the major chains such as General Nutrition Centers (GNC), Great Earth International and Nature Food Centres."

By the end of 1982, this expansion had peaked. There was a 4-year shakeout which lasted from early 1983 until late 1986. The industry lost a net of 1,500 health and natural food stores, and the vast majority of these were small health food stores. "The number of segregated natural foods sections declined from a high of 2,700 in 1985 to approximately 1,400 today."

Surviving retailers emerged stronger. A resurgence began in 1987. In the fall of that year Surgeon General C. Everett Koop issued a report stating that cholesterol levels exceeding 200 were associated with a high risk of heart disease. This was considerably lower than the previous acceptable cholesterol limits and immediately plunged a quarter of the American people into a risk group. Consumers began visiting natural foods stores to buy low-fat, low-cholesterol foods, some based on tofu and other soyfoods. Also, foods such as oat bran, canola oil, and niacin were shown to actually lower serum cholesterol levels.

"Probably the biggest boost the industry has ever received... came in March of this year, when CBS '60 Minutes' ran a segment on the potential dangers of apples treated with Alar (daminozide) to young children. Retailers reported being overwhelmed by consumers clamoring for organically-grown foods of all types.

"In many ways, the industry is 20 years old. Many of the leading companies in the industry were formed within the past 20 years, including Tree of Life, Nature's Way, Twin Lab, Celestial Seasonings, R.W. Knudsen & Sons, Mrs. Gooch's, Bread & Circus and Whole Foods Markets." Address: Boulder, Colorado. Phone: 206-642-3586.

2358. **Product Name:** Sanitarium So Good: Flavoured Non-Dairy Soy Drink [Strawberry, Jaffa {Chocolate & Orange}, Honeycomb, or Caramel].
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, N.S.W. 2076, Australia.
Date of Introduction: 1989.
Ingredients: Jaffa: Water (80.0%), soya isolate (3.7%), sugar (3.7%), vegetable oil 3.2%, maltodextrin 2.8%, fructose (1.7%), mineral salts, vitamins, flavours, food acid, colour.
Wt/Vol., Packaging, Price: 250 ml Combibloc Aseptic carton. Retails for $0.75 (10/93, Walnut Creek, California).
How Stored: Shelf stable; refrigerate after opening.
Nutrition: Per 250 ml.: Calories 178 (or 750 kJ), protein 8.0 gm, fat 8.0 gm, carbohydrate (total 19.7 gm, sugars 13.7 gm, lactose 0 gm), cholesterol 0 gm, sodium 137 mg, potassium 350 mg. Provides 40% of the Daily Allowance of calcium and 35% of vitamin B-12.
New Product–Documentation: Letter and Labels sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1989.

Sanitarium Nutrition Education Service. 1990. April. "So Good." This 4-page leaflet gives a clear explanation of each ingredient used, plus nutritional and other information.

Product with Label (Jaffa and Strawberry flavors) purchased at Diablo Oriental Foods in Walnut Creek, California. 1993. Oct. 11. Each retails for $0.75. 3 inches by 3 inches by 1.87 inches thick. Jaffa: Brown, reddish brown, orange, pink, blue, and red on white. Illustration of a large glass of pink soymilk with a straw in it. Beside it is an orange and two squares of chocolate. Behind it is the morning sun rising over purple mountains and green fields. Front panel: "Long lasting. No cholesterol. No lactose." Back panel: "So Good is an excellent source of protein. A 250 ml serve of So Good supplies 8g of vegetable protein. Another quality product from the Sanitarium Health Food Company–the people who believe that food should not only taste good, it should be good for you." Side panel: "So Good has no cholesterol, no lactose, and as much calcium

© Copyright Soyinfo Center 2021

as milk. Quality Guarantee: If you are not satisfied with this product, please send the top of the pack with your complaint to SRL Consumer Services... or to the nearest Sanitarium State office." Soyfoods Center taste test. Excellent. No beany flavor at all.

2359. Baker's (Bill) Bakery. 1989. Bill Baker's hot fresh coffee (Sign / Leaflet). Ojai, California. 1 p. 35.5 x 22 cm.
• ***Summary:*** An illustration in the top half of this sign shows 3 dark-skinned men, bare from the waist up, loading large sacks of coffee onto a nearby sailing ship. A white man, in a pith helmet, stands by supervising. The text (on a scroll-like background) reads: "Fresh-ground, regular, or de caf. 8 oz. .25¢. 12 oz. .45¢. 16 oz. .65¢. (includes one refill). Tea–.45¢ per bag, any cup. Hot chocolate–.50¢ any cup. Just a cop 5¢. Your own coffee cup 5¢ off. Pay at counter please."

Note from Colleen Kohnen of Tehachapi. 2006. March 10. She had this sign made in 1989; she does not recall the source of the artwork. Address: Ojai, California.

2360. Bragg, Paul C. 1989. The shocking truth about water. Santa Barbara, California: Health Science. xviii + 121 p. Illust. Forms. 21 cm.
• ***Summary:*** Explains that fluoride is a poison. Contents: Introduction. The universal drink of death. Inorganic vs. organic minerals. Dangerous inorganic minerals in drinking water. Fluorine is a deadly poison. The grim story behind fluoridation. Don't drink water contaminated by sodium fluoride. We live in a sick, sick world. Few people know the meaning of health. The marvelous mechanism of the body. Hardening of the arteries. Brains turned to stone. My early experiences with hard water. T.B. in my teens. The secret of rain water and snow water. The answer to healthful living. My two first cases. Nature's way. The stones within us. Gall stones–Silent and noisy. Kidney stones. Don't drink inorganic mineralized water. Dolomite tablets are inorganic. What is gout? Arthritis and rheumatism. Health hints for relief and benefits. Don't let your brain turn to stone. Doomed to the human scrap pile. How the brain functions. The brain needs extra fine nutrition. Organic minerals essential to life. Minerals make the man. The alkaline or base-forming minerals. Iron, the oxygen carrier of the blood. Every mineral matters. Sodium, a powerful chemical solvent. Salt–A slow but sure killer. Overweight and dropsy. Misinformation about salt. Inorganic water turns people to stone. Bone spurs and movable joint calcification. Calcification test. Calcified toe and finger nails. Bad posture from inorganic deposits. The curse of an aching back. The parade of the living dead. The "fad" of drinking sea water. Sea kelp–Rich minerals from the sea. Disfiguring broken capillaries. Cold feet and cold hands. Head noises, ringing in ears. Effect on the eyes. The world's greatest health secret. Let natural food be your medicine. Drink only distilled water. About rain water. How to fight hardening of the arteries. The great watermelon flush. Life expectancy–Life span. Keep young biologically. Prevention better than cure. Update on drinking water and how it affects your health. TDS [Total Dissolved Solids] and chronic disease. High blood pressure and drinking water. Water softeners and sodium equals trouble. The sad truth about chlorination. Cancers and chlorination. Miscarriages, birth defects, ? in tap water. Dangerous chemicals in our drinking water. Fluoride and cancer. Drinking safe water. Home water distilling & filtration systems. Pure water: The great life saver.

Concerning his early years: Paul Bragg says he was born on a farm in Virginia, along the Potomac River. His family got all their drinking water from a well–pure and fresh. But it was very hard water, containing calcium carbonate and other inorganic minerals from limestone. When they boiled this water, incrustations of these inorganic minerals formed inside the kettles–which eventually had to be thrown away. His grandfather, who drank this water, died after 3 strokes, while Paul was just a little boy. His body was sent to Johns Hopkins Hospital; the autopsy found that his arteries were like stone. Paul's uncle, William, was their family doctor (p. 18-20).

At age 12, Paul was put into a large military school in Virginia. his parents wanted to prepare him for West Point and a career in the military. He went to the school against his wishes and at age 16 he developed tuberculosis. He spent time in several T.B. sanitariums, where the doctors admitted they could not cure him. So his little Swiss exchange nurse took him to her hospital in Switzerland, where the great physician, Dr. Auguste Rollier (1874-1954) cured Paul, in two years, using only natural methods. Note: A pioneer in the treatment of tuberculosis by heliotherapy, Dr. Rollier's main clinic was in Leysin, Switzerland. When Paul left the Sanitarium, Dr. Rollier cautioned him to drink only rain water, snow water, distilled water, and vegetable and fruit juices.

Paul decided to live in London, England, and study biochemistry. He found a small apartment near Regent Park. But the Wilson's, his landlords were sick. So he had them go on a fast and before long they were healthy. They were his first two cases (p. 24-29).

Note: Also reprinted, with some new editions, in 1977, etc. 1989 is the date of the 25th reprint. Address: 1. N.D., PhD, life extension specialist; 2. N.D., PhD, life extension nutritionist. Both: Box 7, Santa Barbara, California 93102.

• ***Summary:*** Contents: Background. Manufacture. Retail. Export. Products.

In the late 1800s a group of immigrants from the USA, all of whom were members of the Seventh-day Adventist Church, decided to make their living by distributing health foods. At first they imported a selection of products from Battle Creek, Michigan, then famous for its sanitarium. The first products arrived in Melbourne in 1897. They included Granola, Caramel Cereal, and gluten products. But when demand outstripped supply, in late 1897 a baker, E.C. Halsey, was persuaded to migrate to Australia to start up a manufacturing plant similar to the one he had operated in Battle Creek. On Nov. 8 he arrived in Sydney en route to Melbourne, totally unaware of what he was starting. The records show that the St. George's Bakery was rented in Melbourne in 1898. The production of Caramel Cereal and Granola commenced immediately.

In 1898 the group moved to larger premises in Cooranbong, a rural area south of Newcastle in New South Wales, and adopted the name Sanitarium Health Food Company. With Halsey in charge, production commenced in a large defunct sawmill in 1899. After a period of uncertainty, the Company grew and expanded until today, it has manufacturing plants in all states of Australia, in both islands of New Zealand, and in Papua New Guinea. In about 1906 the company's first retail shop opened in the Royal Arcade, Sydney. Many of the early shops included a

© Copyright Soyinfo Center 2021

vegetarian restaurant. Today the company operates some 70 retail shops. It also has an export division in Sydney. In 1935 the Australasian Food Research Laboratories were started. Located on the spacious grounds of the Cooranbong plant, they new employ a staff of nearly 40 people. Photos show the original Cooranbong factory, early products (incl. Nut Meat, Protose, Weet-Bix, Corn Flakes, and Marmite yeast extract), and today's food factories at Cooranbong, Victoria, and Palmerston, North New Zealand.

Product lines include Cereals (The company's leading product is Weet-Bix, the most popular breakfast cereal in Australia and New Zealand. It was first manufactured under the Sanitarium name in the mid-1920s, and comes in the shape of little biscuits. Other well known brands are Granose, Bran-Bix, and Sanitarium Skippy Cornflakes), Juices and Drinks (So Good, a non-dairy soy drink, is the newest introduction), Spreads (such as peanut butter and Marmite), Muesli Bars, Specialty Lines (such as dried fruits), Canned Protein Foods (all vegetarian, such as B-B-Q Links, Tender Bits, Vegetarian Rediburger, and Nut Meat), and Sundried (incl. TVP products, and Caffex coffee substitute); a color photo shows all of these.

The name and address of the company's head office, export division, and various food factories and retail outlets is given. Address: Wahroonga, NSW, Australia.

2369. Fehlberg, Eric C. 1990. Seventh-day Adventist health food companies in Europe (Interview). *SoyaScan Notes*. March 7. Conducted by William Shurtleff of Soyfoods Center. Followed by a letter dated 24 May 1990 clarifying details.

• ***Summary:*** There are three major Seventh-day Adventist (SDA) food factories in Europe, each owned by the church: DE-VAU-GE in West Germany, Nutana in Denmark, and Granose in England. There are smaller factories in Spain, and Switzerland. All these companies are owned by the SDA church. The leading Adventist food companies, ranked in descending order of annual sales, are: 1. DE-VAU-GE, established 1899 in West Germany. They are by far the biggest in Europe. They manufacture a total of 257 products. DE-VAU-GE began making its own tofu in Jan. 1986; before that it purchased tofu from a Belgian soymilk company [Note: actually from Heuschen-Schrouff in the Netherlands]. When Michael Makowski took over as managing director in about 1972-73, company sales were about US$3-4 million. By 1983 sales were about $18 million. Since then growth has been fantastic. 1989 turnover was DM 84 million (US$49 million). This is due to both excellent management and the German interest in natural, health, and vegetarian foods. 2. Nutana, est. 1898 in Denmark. They are about half the size of DE-VAU-GE. Under the management of Bent Nielsen, who was there until 3 years ago, the company grew rapidly. Since 1987 growth has flattened, but there is great potential for future growth. 3. Nutana in Norway (Nutana Norge), formerly Dagens Kost, est. 1970. They were established as a marketing company for Nutana, Denmark, and they sell all the soyfoods made by Nutana, Denmark. They also manufacture 55 products, but they import and wholesale 321 products. All of the imports come from European Adventist companies. 4. Granose Foods, est. 1899 in England. They manufacture 39 products and distribute 98 more (mostly from Nutana or DE-VAU-GE). They have been a manufacturer since 1899, and they built a new food plant in 1989. Their business is now growing rapidly. 5. Nutana in Sweden (AB Svenska Nutana) was renamed in 1987. It was formerly named Edakost Food Company, Sweden, est. 1970. 6. Nutana in Finland, formerly Finn-Nutana, est. 1979. 7. Pur-Aliment, est. 1928 in France. They are not a food manufacturer; purely marketing. 8. PHAG Food Factory (Fabrique de Produits Dietetiques), est. 1895 in Switzerland. The small factory produces 40-50 tons of food a month. 9. Granovita Spain, was founded and began manufacturing in about Aug. 1985 in Valencia, Spain. They do not produce any soyfoods at all, but they market soy products made by DE-VAU-GE in West Germany and by Nutana in Denmark. 10. Nutana in the Netherlands, founded in 1986. They are presently selling all the products produced by Nutana of Denmark as well as 5 other products: Vitanex (Sandwich cream), Rondolettes (Chickenlike or beeflike flavor), Snackers (Soy sausages), Boulettes (Dinner balls).

The Austrian Food Company, founded in 1976, was a restaurant rather than a food manufacturer; it was closed in 1987.

Granose and DE-VAU-GE were both importing foods from Loma Linda in the USA. But now that Loma Linda has been sold to Worthington Foods, it is not clear what will happen to these imports. Today, the various Nutana companies are independent, but there is much talk of bringing Nutana in Norway and Holland together with Denmark. Nutana has always been behind the expansion of SDA food work in the Scandinavian countries. Using the common name Nutana greatly facilitates marketing.

The European food companies have grown at different rates, largely dependent on the effectiveness of each company's management. The trend has been generally up. The highest growth rates in the past 5 years have been shown by Granose in England (though it started from a smaller base), followed by DE-VAU-GE in West Germany. Pur-Aliment and Nutana have had a bit of a struggle.

All of these companies pay a portion of their profits back to the church. They are encouraged to pay about 20% of profits back to the church, but some pay almost 50%. This is similar to the dividends paid by secular companies. Fehlberg believes that tofu will be the growth food of the future; it has great growth potential that has not yet begun to be realized. Address: Director, International Health Food Assoc., Seventh-day Adventist General Conference, 12501 Old Columbia Pike, Silver Spring, Maryland 20904. Phone:

2370. Fehlberg, Eric C. 1990. Recent Seventh-day Adventist work with soymilk (Interview). *SoyaScan Notes.* March 7. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** So Good soymilk from Australia has had remarkable success since it was launched in April 1987. Sanitarium Health Food Co. was the first to make soymilk in Australia. It caught on rapidly, and soon prompted 4-5 competing brands to be launched, but none of them have sales nearly as large as So Good. The main problem has been the company's inability to produce enough to keep up with demand. It was launched in about April 1987. In Oct. 1989 they sold 1,738 long tons (2,240 lb/ton, thus 3,893,120 lb). The equipment used to produce the soymilk is Adventist technology, not that purchased from Alfa-Laval, STS, etc. although in the last 6 months Sanitarium Foods purchased a pilot plant from Alfa-Laval which they plan to use in their laboratory. Originally So Good was packed under contract by a nearby dairy company in Combibloc cartons. After a year or so they purchased their own Combibloc packaging machine. Australia started to make soymilk after DE-VAU-GE in West Germany. The latter is very happy with their STS system, and Fehlberg is now seriously considering ordering one or two more turnkey soymilk plants for other countries in the near future. Sanitarium Foods has a very strong research lab.

The Seventh-day Adventist food company in South Korea, Sahm Yook Foods, now makes a Tetra Pak soymilk. The company was established in 1978, but did not begin food production until Sept. 1981. It began to make Sahm Yook Soy Milk in May 1985. Only a plain soymilk is produced–no flavors. After launching soymilk, the company began to grow dramatically, as that product grew. Last year they built a very large, now soymilk plant (based on Adventist technology) and they are now about the 2nd or 3rd largest soymilk maker in Korea. Address: Director, International Health Food Assoc., Seventh-day Adventist General Conference, 12501 Old Columbia Pike, Silver Spring, Maryland 20904. Phone: 301-680-6674.

2371. Fehlberg, Eric C. 1990. Thoughts on Loma Linda Foods, its acquisition by Worthington Foods, and the health foods industry in America (Interview). *SoyaScan Notes.* March 7. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Worthington Foods purchased Loma Linda Foods (LLF) from the Seventh-day Adventist Church in Jan. 1990. Loma Linda Foods, unlike most other Seventh-day Adventist companies worldwide, tended historically to target its products to Seventh-day Adventists. Within North America there are very, very few respectable SDA businessmen. That is the problem. "Loma Linda has been working since 1906 with their eyes blindfolded. Too often, instead of using a businessman to head the program, the men in their wisdom have elected to install a broken down minister, and expected him to make a roaring success of it."

A very good businessman, George T. Chapman from Australia, ran LLF from 1938 to 1963. The company did very well financially under his leadership. Since 1963 the company has had a series of managers who lacked business experience; the result was ongoing financial problems. In June 1984 Mr. Fehlberg went from his position at the General Conference to Loma Linda where he turned the company around. Fehlberg ran LLF for about 2 years, during which time it went from a substantial loss to a very profitable company. Mr. Pizzaro was brought in Nov. 1984 and has kept it profitable. He is a very conservative man with a background in banking. He was able to hold LLF together but was not inclined to take the risks to make it really take off.

The church first wanted to sell off the infant formula part of the company because of the high cost of liability insurance. The FDA are really down on infant formula foods. If anything goes wrong, there is no end to the strife. LLF had one small recall due to a small shortage of vitamin A–from dissipation. It was very expensive. Fehlberg understands that but does not understand at all and strongly disagreed with the sale of LLF. "I talked myself hoarse on the committee opposing the sale but I didn't win. I am not happy that it ended up in the hands of Worthington Foods. Their financial report over the past 5 years is not that strong. The last year has not been a healthy year. I hope they can survive. Loma Linda will definitely help them survive by giving them a lot of extra new sales with no extra administration or marketing costs. Now that they have a monopoly, they may relax their standards. I believe that once the 5-year non-compete term expires, you'll get an influx of products into the United States from Adventist companies overseas that will make it very difficult for Worthington to operate–unless they can improve things. Fehlberg prefers the flavor the Australian meat analogs, which are less highly flavored and easier to digest.

Fehlberg feels that the USA is 20 years behind many other countries (Australia, West Germany, Japan) in food processing and storage techniques, largely because of Food and Drug Administration (FDA) restrictions. One area where the USA lags behind is in retorting of food products in plastic film containers. We tend to retort foods too long, and do not have foods retorted in sausage-type pouches (e.g., tofu sausages), which require no refrigeration. The FDA is afraid of botulism in such protein foods, so they require that the foods be frozen. In Australia, West Germany, and Japan these foods are refrigerated, but Adventist tests show they can be stored at room temperature for 6-12 months, or more. If Worthington's frozen meatlike products could put in plastic containers made of this special film (which is available in America) there would be major cost savings in

factory storage, transportation, and retail storage. Address: Director, International Health Food Assoc., Seventh-day Adventist General Conference, 12501 Old Columbia Pike, Silver Spring, Maryland 20904. Phone: 301-680-6674.

2372. Fehlberg, Eric C. 1990. Recent organizational changes in Seventh-day Adventist international food and development work (Interview). *SoyaScan Notes.* March 7. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** 2-3 years ago his organization's name was changed from World Food Service to International Health Food Association. The former name implied that the company was a foodservice organization. The association is composed of all Seventh-day Adventist (health) food companies worldwide. The organization's logo is a circle of the world, with a sheaf of wheat in orange, and with IHFA under it in red. It is part of the General Conference of the Seventh-day Adventist Church.

Seventh-day Adventist World Service (SAWS), the Church's relief and development program, emphasized the relief work more that the development. This organization is now named ADRA (Adventist Development and Relief Agency); its focus for the last 6-8 years has been more on long-term development than relief. Development helps to prevent the problem from recurring. There is no Adventist health food company presently in South Africa; a company was there once but it has been discontinued. One is still operating in Nigeria but it has problems. IHFA works closely with Dr. D.W. Harrison in Uganda, though the business is not church owned. He needs a good businessman to help him run that show. Now he spends a few months in Uganda, then has to return to the USA to his medical practice to earn some money to help keep it going. A new organization is starting in Kenya; it will be run by a very competent black businessman. He is not directly connected with the church. Address: Director, International Health Food Assoc., Seventh-day Adventist General Conference, 12501 Old Columbia Pike, Silver Spring, Maryland 20904. Phone: 301-680-6674.

2373. Karas, Thomas. 1990. The Reform House market and the natural foods market in West Germany. The German Soyfoods Association (Interview). *SoyaScan Notes.* March 14. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** There is a clear distinction and a big difference between these two segments of the natural/health foods market in West Germany. The Reform House movement is much older and the stores are like U.S. health food stores. There are about 2,000 to 3,000 Reform Houses (Reformhaeuser) that have annual sales of DM 1,000 million. There are 1,500 to 2,000 natural foods stores (Naturkostlaeden) with annual sales of about DM 700 million, or about 41% of the total natural foods market. Before a product can be sold at the Reform Houses, it must have the "Neuform" Reform House logo. It is difficult to get this because Mr. Heirler and others keep out products that will compete with theirs. On the other hand, the natural foods stores have much higher quality standards. Most important, all raw materials must be organic if possible. The Reform Houses have not traditionally been interested in organic ingredients. But now they are moving toward organic.

Another problem is labeling. To sell in natural food stores, a company's products need to meet a higher standard, and they need to be inspected. When a company has the Neuform (Reform House) logo on their products, they must make another label for each product without the Neuform label before they can sell those products in the natural food stores. So to sell in both of these 2 markets requires two sets of labels, which is expensive. Thomas is working to bring these two segments closer together. Now, when a food company starts, they must basically decide whether they want to sell in the Reform House or the natural foods market. Very few companies try to sell in both.

In about 1984 in West Germany a natural foods association named Bundesverband Naturkost (BN) was started. Its members included natural food manufacturers, distributors, and retailers. This structure did not work well, since large companies tended to dominate it and the different segments had different interests. So from 1987 to 1989 a new natural foods association named BNN (Bundesverband der Naturkost und Naturwaren) was established. BNN has its own new logo, and only 3 members, each of which is an association. The first is a food manufacturer association (BNNH, Hersteller; about 35 members. Karas is on the board of directors), the second is a food wholesaler association (BNNG, Grosshaendler; about 35 members), and the third is a food retailer association (BNNE, Einzelhaendler; 700-800 members). Within the manufacturers' association (BNNH), an association only for manufacturers of organic soyfoods, named BAG Soya (Bundesarbeitsgemeinschaft biologische Sojaprodukte) was founded in early 1989. The soyfoods association also develops marketing materials for its own use. The headquarters of BAG Soya are at Huetlin Str., Konstanz, West Germany. Kurt Miller, a small tofu maker at Bodensee is Director.

BNN certifies many certification associations (MDI, OCAA, which must be members of IFOM) or farmers and food producers to a very high quality standard. Manufacturers are inspected once a year by an inspector from BNNH.

The Reform Houses are in some ways similar to America's health food stores but there are basic differences. Reform Houses are less oriented to food supplements/pills (vitamins, minerals, protein powders) and more oriented to natural food medicine and medicinal herbs. But nowadays in Germany the two sides are coming closer together, and modern Reform Houses have a good selection of natural foods. Address: Bochumerstr. 92-104, D-4270 Dorsten, West

Germany. Phone: 2362-26801.

2374. Bundesfachverband Deutscher Reformhaeuser. 1990. [Re: Overview of the Reform House (Reformhaus, including Neuform) movement in Europe]. Questions answered on Soyfoods Center letterhead (dated 22 March 1990) and returned to SC on 30 March 1990. 5 p. [Ger]

• ***Summary:*** The first Reformhaus was started in Berlin, Germany, in 1877 by Karl Braun as a health center (*Gesundheitszentrale*). Today there are 2,800 Reform Houses in West Germany, 400 in Switzerland, and 50 in East Germany. Each house is owned by an independent merchant who is a member of the cooperative.

Concerning the Neuform part of the Reform Houses (as of 31 Dec. 1988), there are 1,325 members, a total of 2,804 sales places of which 1,902 are Reform Houses. There are 902 storehouses / warehouses (Depots). Annual sales (Umsatz, EVP) are 1,050,000 million.

A breakdown by type of goods sold is: Foods 56.1%, natural medicines / pharmaceuticals 19.6%, body care products & cosmetics 13.3%, dietetic foods 9.6%, diverse minor products 1.4%.

There are about 4,500 Neuform products made by 73 contractors / producers. Employees: About 10,000.

Sales by Neuform-Reform Houses and Depots has grown from DM 700 million in 1988 to 1,050 million 1988. In 1988 of the 2,804 Neuform locations, 67.8% were Reform Houses and 32.2% were Depots. In 1980 of the 2,638 Neuform locations, 64.2% were Reform Houses and 35.8% were Depots. Address: Waldstrasse 6, Postfach 4110, D-6370 Oberursel 4, West Germany.

2375. Marshall, Philip. 1990. Publications in English that cover the natural/health foods trade in Europe (Interview). *SoyaScan Notes.* April 17. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** The two main English-language publications, both based in England, are Natural Food Trader (West Byfleet, Surrey) and Health Food Business. Both are quite good. Natural Food Trader is more broad based with its focus on foods. They have just started to look beyond the UK to the Continent. Every other month they plan to take a look at the market and new developments in one other European country. So they want to become more of a European magazine.

Health Food Business tends to be more centered around the food supplements. Address: Owner, Cauldron Foods Ltd., 149 South Liberty Lane, Ashton Vale Trading Estate, Bedminster, Bristol BS3 2TL, England. Phone: (0272) 632835.

2376. Sanitarium Nutrition Education Service. 1990. Information for health professionals. Sanitarium So Good Non-dairy Soy Drink. Sanitarium Health Food Co., P.O. Box 249, Wahroonga, NSW, 2076, Australia. 8 p. April. 30 cm. [3 ref]

• ***Summary:*** Contents: Introduction. Ingredient description. Nutritional analysis. Suitability for special diets. Directions for use. So Good for babies. Typical nutritional profiles. Nutritional aspects of So Good. Address: Wahroonga, Australia. Phone: (02) 487 1711.

2377. Fehlberg, Eric C. 1990. Re: List and activities of Seventh-day Adventist health food companies worldwide. Letter to William Shurtleff at Soyfoods Center, May 24. 6 p. Typed, with signature on letterhead.

• ***Summary:*** For each for the following companies is given the date of founding, date manufacturing started, and the soy products presently manufactured: Granovita, Spain (1985). Nutana, Holland (1986). Nutana, Norway (marketing agency for Nutana, Denmark). Nutana name changes. Austrian Food Company (a restaurant, 1976). DE-VAU-GE, West Germany. Sahm Yook Foods, Korea (1978->1981). Sanitarium Health Food Company, Australia (3 pages).

Lists (with addresses) the following companies: Sanitarium Health Food Company in Wahroonga, NSW, Australia; DE-VAU-GE Gesundkostwerk GmbH in Lueneburg, West Germany; San-iku Foods in Sodegaura-machi, Kimitsu-gun, Chiba-ken, Japan; Korean Food Factory (Sahm Yook Foods) in Choongchungnam-do, South Korea; Alimentos Integronaturales y Panificadora la Carlota in Montemorelos, N.L., Mexico; Produtos Alimenticios Superbom Industria e Comercio Ltda. in Sao Paulo, Brazil; Alimentos Granix in Florida, Buenos Aires, Argentina; Nutana Health Food Company in Bjaeverskov, Denmark; AB Svenska Nutana in Rimbo, Sweden; Granose Foods Ltd.

in Newport Pagnell, Bucks, England; Pur-Aliment Food Factory in Clichy–Cedex, France; PHAG Food Factory in Gland, Switzerland (Note: PHAG is an acronym for Produits Hygièniques Alimentaires Gland); Egypt Food Factory in Heliopolis, Cairo, Egypt; Glaxo India Limited in Bombay, India; Westico Foods Ltd. in Mandeville, Jamaica; Industrias Covac S.A. in Alajuela, Costa Rica; South China Island Union Mission in Hong Kong (3 pages). Address: Director, International Health Food Assoc., Seventh-day Adventist General Conference, 12501 Old Columbia Pike, Silver Spring, Maryland 20904. Phone: 301-680-6674.

2378. Menzies, John. 1990. Re: Harry Miller's work with soymilk in East Asia. Plans by the South China Island Union Mission of Seventh-day Adventists to set up a health food company in Hong Kong and Taiwan. Letter to William Shurtleff at Soyfoods Center, June 20. 2 p. Typed, with signature on letterhead.

• ***Summary:*** After his soyfoods plant in China was destroyed, Dr. "Harry Miller retreated to Taiwan along with the Nationalists and later set up a soya milk plant associated with the Taiwan Adventist Hospital which has long since gone. I am not even sure when the soya milk operation was discontinued. Unfortunately the only industries set up in Hong Kong were hospitals.

"Recently I was asked by the South China Island Union Mission of SDA's to set up a health food industry in Hong Kong and Taiwan... My background is food technology and I have worked for Sanitarium in Australia and New Zealand for a number of years.

"Initially we will import various products from our sister institutions around the world and where possible re-pack under our own label. This will allow us to get a feel for the market so in the near future we will know what sort of a manufacturing plant to set-up (i.e. soyamilk, vegetarian, or cereal). It looks like we might even have an opportunity to set up a manufacturing base in one of the specially administered regions in communist China." Address: General Manager, Food Div., South China Island Union Mission of Seventh-day Adventists, 40 Stubbs Rd., 2nd floor, Hong Kong. Phone: 838-3991.

2379. *Health Food Business* (*England*). 1990. Health Food Business retailer guide to Ice Creams. June. p. 21-23.

• ***Summary:*** Soy ice creams described, each with a color photo, include Berrydales Special Ices, and Dayvilles N'Ice Day.

2380. Lark, Susan M. 1990. The menopause self help book: A woman's guide to feeling wonderful for the second half of her life. Berkeley, California: Celestial Arts. 239 p. 22 x 22 cm. [228* ref]

• ***Summary:*** The title page states: "The first completely practical all-natural master plan to relieve and prevent every symptom of menopause."

Soy is mentioned as follows: Dairy products: There are many negative health aspects of using dairy products. Soybeans are a good source of calcium. Soy milks and nut milks can be used as alternatives to dairy milk (p. 46). Breakfast–beverages: Stop using coffee, which contain caffeine. Grain-based coffee substitutes such as Postum, Pero, or Caffix are both nutritious and satisfying. Other good breakfast beverages include nondairy milk, such as soy, nut, or grain milks. Soy milk is now easy to find in health food stores (p. 52-53). Spreads: Peanut butter (without added salt), sesame butter (which is rich in calcium), and soy spreads are good (p. 55). Soups: For women who can't eat soup unseasoned with salt, try adding one teaspoon of miso per cup of soup. Miso, a fermented soy product from Japan, is widely available at Oriental markets and health food stores. It contains less salt than regular table salt. How to substitute for dairy products: Tofu can be used in some recipes to replace cheese. Use soy milk, nut milks, or grain milks in place of dairy milks (p. 70). Substitutes for common high-stress ingredients: In place of 1 cup milk, use 1 cup soy milk, nut milks, or grain milks. In place of ½ teaspoon salt, use 1 tablespoon miso or ½ teaspoon Bragg's liquid amino acids, or ½ teaspoon sea vegetables–dulse, kelp (p. 72-73).

Chapter 8, titled "Menopause self help cookbook," contains many recipes: A "Fruit smoothie" (p. 75) contains only fruits, no dairy products or soy. For recipes for sesame milk and almond milk, see p. 76. Tofu and sesame-butter spread (p. 79). One dish meals: Almond tofu (Tofu with almonds), and Tofu with snow peas (p. 94). Tofu-wild rice salad (p. 95). Tofu & brown rice (p. 96). Apple-tofu custard (p. 97).

In chapter 10, titled "Herbs for menopause," is a section on "Herbs for your menopausal symptoms." The subsection titled "Heavy irregular menstrual bleeding" notes that bioflavonoids, flavonoids from plants, help to strengthen capillaries and prevent heavy bleeding. The section titled "Hot flashes" states: "Many plants are good sources of estrogen, the hormone that helps to control hot flashes. Besides controlling heavy menstrual bleeding, bioflavonoids also have weak estrogenic activity (1/50,000 the strength of estrogen). They are very effective in controlling such common menopause symptoms as hot flashes, anxiety, and irritability... Plants also form the basis for the production of medical hormones. Many common plants such as soy beans and yams contain a preformed steroidal nucleus. Estrogen and progesterone can be synthesized from plants in relatively few steps and have allowed sex hormones to become available commercially at a reasonable cost" (p. 127-28).

Note 1. This is the earliest document seen (Jan. 2021) that mentions "hot flashes" in connection with soy.

Note 2. Susan M. Lark, M.D., born in 1945, "is a noted authority on women's health care and preventive medicine. She is the Director of the PMS and Menopause Self Help

© Copyright Soyinfo Center 2021

Center in Los Altos, California. She also sees women patients in her private practice. Dr. Lark has been on the clinical faculty of Stanford University Medical School, Department of Family and Preventive Medicine. She is also an associate member of the Department of Family Medicine, El Camino Hospital in Mountain View, California. Dr. Lark lectures widely on women's health care issues and is a sought-after speaker."

On the inside back cover is a mail order form for Dr. Lark's Menopause Self Help Book, plus 3-month supplies of Menopause Vitaminerals, Herbal Formula, and Essential Oil, to be sent to Self Help Options for Women, Carson City, Nevada. On the back cover is a portrait photo of Dr. Lark. Address: Director, The PMS and Menopause Self Help Center, 101 First St., Suite 441, Los Altos, California 94022. Phone: (415) 964-7268.

2381. Fehlberg, Eric C. 1990. Re: Seventh-day Adventist health food companies worldwide. Letter to William Shurtleff at Soyfoods Center, Aug. 17. 4 p. Typed, with signature on letterhead.

• ***Summary:*** "Nutana of Holland do not manufacture the five products that are listed in my letter of May 24. Each of the products does contain soya as an ingredient, and it is my understanding that they are manufactured by Nutana of Denmark.

"Nutana of Norway, established in 1970, and you are right, it was formerly known Dagens Kost, but was renamed Nutana Norge, in 1982. In Norway they are strictly a marketing branch and do not manufacture any foods at all."

Sahm Yook Foods is the official name of the Korean Food Factory.

Alimentos Colpac is the official name of the food factory in Navojoa, Sonora, Mexico; it was established in 1969. The Montemorelos Branch is known as Alimentos Integronaturales y Panificadora la Carlota; it was established in 1981.

Granose Foods Ltd. of England moved from Stanborough Park, Watford, Herts, to Howard Way, Newport Pagnell, Bucks., in Jan. 1989. The official opening date was 9 July 1989.

PHAG (of Switzerland) is written in all upper-case letters; it is not an abbreviation of anything.

Glaxo Ltd. India has nothing to do with the Seventh-day Adventist church.

DE-VAU-GE was primarily responsible for setting up the Adventist food industry in Spain and the Kolett's brand is packed specifically for the Spanish market. DVG has two brand names which are manufactured for the reform or natural foods market in Europe: Granovita and Bosen. The products under the Bosen label were originally made in their bakery.

Pan American Health Service in Honduras still produces soymilk. Mountain View College in the Philippines is still making meat analogues and perhaps soya milk–but only for their own use. Bandung College (now called Bandung Academy) in Indonesia is still in operation and they may be making soya products. Two years ago they wanted very much to start a food factory, but it did not happen. The Hong Kong Hospital is still operating and they still manufacture small amounts of food, basically for their own use. South China College has a long history. It was established in 1903 as Bethel Girls' School, but underwent several name changes and changes of location due to political turmoil and the Sino-Japanese war of 1937, followed by the violence of the Second World War.

"Eventually it was re-established at Clear Water Bay in Kowloon, in 1958 and a college curriculum introduced in 1962. Its name was changed to South China Union College in 1964. In 1981 they officially adopted its name and has been called Hong Kong Adventist College since then. It still operates today, and possibly manufactures small quantities of food, basically for their own use." Address: Director, International Health Food Assoc., Seventh-day Adventist General Conference, 12501 Old Columbia Pike, Silver Spring, Maryland 20904.

2382. Baker's (Bill) Bakery. 1990. Bill Baker. Celebrating 93 years as Ojai's finest German bakery (Ad). In: Ojai Visitor's Guide, 1989-1990. See p. 17.

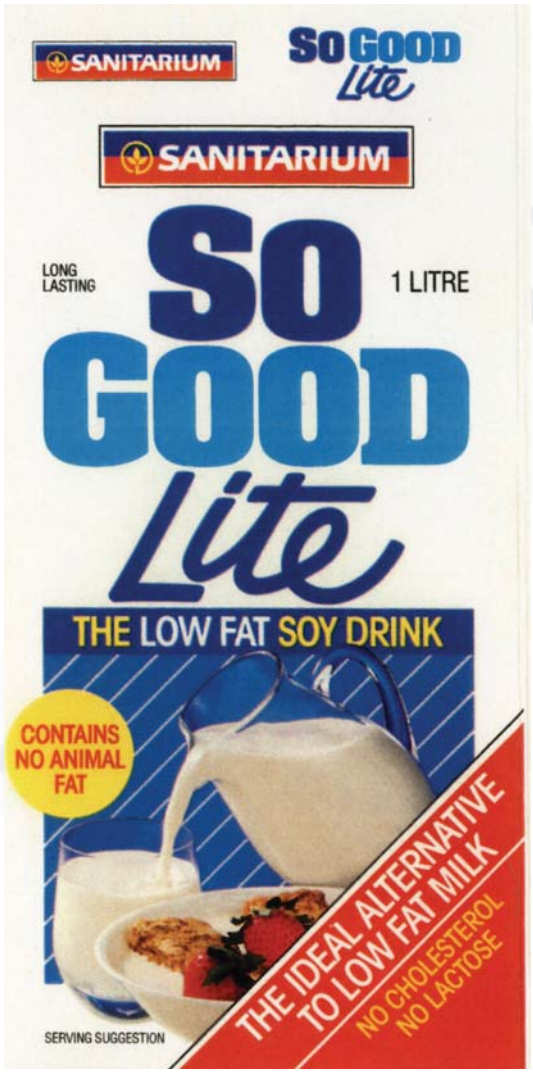
• ***Summary:*** This full page ad has two parts. On the left is a vertical 1/3 page column of text, titled "Bill Baker," which tells the bakery's story. On the right is vertical 2/3 page ad.

The story: "Established in 1896, this historical bakery has been the pride of Ojai for almost a century." It is an "Old World Bakery" filled with the aroma of cinnamon. Lists baked goods for the "breakfast crowd," from croissants to apple strudel. "For the bread connoisseur, 23 varieties are available from Low Sodium Whole Wheat to five different types of Sourdough.

"Thomas and Colleen Kohnen are the proud owners. Thomas was born and raised in West Germany. At age 15 he began trade school and training in the biggest bakery of his hometown of Bottrop. After three years of school and training he was given his credentials as a Confectionist..."

The ad: "5 different types of sourdough: Whole wheat, dark rye, black rye, onion rye, french. Specialty cakes for all occasions. Wedding cakes. Large variety of other wholesome breads available also. Fresh brewed coffee served all day."

A coupon at the bottom of this ad states: "Free loaf of sourdough with this ad–With $5 purchase or more. Expires March 1, 1990. Open Mon.-Sat., 6 a.m. to 6 p.m. Sun 6 a.m. to 4 p.m. 457 E. Ojai Ave. 2 blocks E. of Libbey Park." A cartoon shows a German baker with a round face, big mustache, and white chef's hat. Address: Ojai, California. Phone: 646-1558.



2383. **Product Name:** Sanitarium So Good Lite: The Low

© Copyright Soyinfo Center 2021

Fat Soy Drink.
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 148 Fox Valley Rd., Wahroonga, N.S.W. 2076, Australia.
Date of Introduction: 1990.
Ingredients: Water (88.0%), soya isolate (4.0%), maltodextrin (3.3%), corn syrup solids (3.1%).
Wt/Vol., Packaging, Price: 1 liter Combibloc Aseptic carton.
How Stored: Shelf stable; refrigerate after opening.
New Product–Documentation: Letter and Label sent by Sanitarium Health Food Co. 1990. June 25. Gives product introduction date as 1990.

Sanitarium Nutrition Education Service. 1990. April. "So Good." This 4-page leaflet gives a clear explanation of each ingredient used, plus nutritional and other information.

Note: This is the earliest commercial soymilk product seen (July 2013) with the word "Lite" on the front panel (one of two products).

2384. Helfex International Health Food Exhibition. 1990. International Helfex 90 Exhibition catalog. Angel Court, High Street, Godalming, Surrey GU7 1DT, England. 46 p. 28 cm.
Address: Godalming, Surrey, England.

2385. Sanitarium Health Food Co. 1990? Our story (Leaflet). 148 Fox Valley Rd., Wahroonga, N.S.W. 2076, Australia. 2 panels on each side. Each panel 30 x 21 cm. Undated.
• ***Summary:*** This glossy, color leaflet gives a brief history of the company, interspersed with many color photos. The company's export division is at Hudson Ave., Castle Hill, NSW 2154, Australia.

"The fascinating history of the Sanitarium Health Food Company started in the late 19th century when a group of highly motivated immigrants from the United States decided to make their living by distributing health foods that they had imported from Battle Creek, in Michigan, USA. Battle Creek was famous then for its Sanitarium, the health retreat based on a Swiss model, where the rich and famous from all parts of the United States and Europe came for a relaxing health holiday. One of the draw cards of this place was a breakfast cereal and health food manufacturing plant, the purpose of which was to supply food to the institution as well as to the neighbouring districts.

"A selection of these products was sent to Melbourne, Australia, in 1897, but before too long the demand for these unique foods outstripped the availability. Local production was inevitable...

"The name, Sanitarium Health Food Company, was adopted in 1898."

Photos show: (1-4 on front panel) Weet-Bix in a white bowl. A man on a bicycle pedaling a wheeled cart in front of him; on it is written Sanitarium Health Food Co. breakfast biscuits"], Corn Flakes, and Muesli). Loose cereal range. Sundry cereal range. Drinks and beverages (incl. So Good soymilk). Spreads (peanut butter and marmite). Legumes, grains, seeds (incl. soya beans in 500 gm bag). Dried fruits. Nuts. Mixes (such as nuts & raisins). Canned vegetarian meals (24 meatlike products, 3 of which are dry TVP in boxes). Misc. foods (incl. natural lecithin and lecithin granules).

The company also has an export division at Hudson Ave., Castle Hill, NSW 2154. Address: Wahroonga, Australia. Phone: (02) 487 1711.

2387. **Product Name:** Sanitarium Health Foods Soya Beans (Dry in Poly Bag).
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 146 Fox Valley Rd., Wahroonga, NSW 2076, Australia.
Date of Introduction: 1990?
Ingredients: Soybeans.
Wt/Vol., Packaging, Price: 500 gm poly bag.
How Stored: Shelf stable.
New Product–Documentation: Sanitarium catalog. 1990. Product range.

2388. **Product Name:** Sanitarium Health Foods Lecithin [Natural in Can, or Granules in Poly Bag].
Manufacturer's Name: Sanitarium Health Food Co.
Manufacturer's Address: 146 Fox Valley Rd., Wahroonga, NSW 2076, Australia.
Date of Introduction: 1990?
Wt/Vol., Packaging, Price: 125 gm can or 250 gm poly bag.
How Stored: Shelf stable.
New Product–Documentation: Sanitarium catalog. 1990. Product range.

2389. *Adventist Review* (*Hagerstown, Maryland*). 1991. Granose Foods sold. Feb. 14. p. 6.
• ***Summary:*** "A long chapter in the history of the Adventist Church in England closed last month with the sale of Granose Foods Limited in Newport Pagnell, England. The Adventist-owned health food company had served the British Isles with wide assortment of health food products for 92 years.

"The British Arkady Company Limited purchased Granose for £5.5 million (US$11 million), reports Ray Dabrowski, Trans-European Division communication director.

"The British Union Conference (BUC) Executive Committee took an action to sell Granose last October after three years of stagnant sales. In the three-year period, from 1988 to 1990, sales increased from £4.2 million (US$8.3 million) to £4.9 million (US$9.6 million), representing an 11 percent growth for the whole period and well under the national inflation rate.

"Eleven years ago Sanitarium Health Foods of Australia took Granose under its wing–giving it an infusion of cash and equipment. However, the Australian company later withdrew because of financial reasons.

"As part of redevelopment proposals for Stanborough Park, Granose moved into new facilities at Newport Pagnell in 1988. Even with new facilities, however, the sales did not increase significantly. Also, accrued interest on the £1.9 million (US$3.8 million) loan made to the company for the relocation contributed significantly to the company's operating loss of £122,000 (US$244,000) for 1989."

2390. Todd, Jan; Roark, Joe; Todd, Terry. 1991. A briefly annotated bibliography of English language serial publications in the field of physical culture. *Iron Game History* 1(4&5):25-40. March.
• ***Summary:*** "Physical culture" refers to body building, weight lifting, etc. This bibliography does include, for example, Brain and Brawn, edited by Harry Brook; it does not include *California Health News.* Address: Univ. of Texas at Austin.

2391. Fehlberg, Eric C. 1991. The sale of Granose Foods to the Haldane Foods Group and British Arkady Ltd. (Interview). *SoyaScan Notes.* April 30. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** The sale of Granose took effect from 1 Jan. 1991. At the time of the sale, Granose was doing very well financially. The only year that they didn't break even or make a profit was 1990. At the beginning of 1990 they moved from their old building into the new one; the expenses connected with the move took up most of their profits. In all other recent years they have been making good money, and a portion of that money has been contributed to the church. Mr. Fehlberg cannot understand why the church would sell such a thriving company.

But the board of the directors of the British Union of the Seventh-day Adventist church got an offer (which was a little bit of back-door work) that was too good to refuse, so they looked at it in their committee meeting and decided to accept it. They have a good understanding of all aspects of the company. This is the second long-established Seventh-day Adventist food company that has been sold by the church during the last 2 years. Loma Linda Foods was sold to Worthington Foods in Jan. 1990. Most of the employees of Granose have stayed with the company after the sale. Peter Archer, the former general manager, has stayed but is no longer the general manager. He is now marketing manager. The church no longer has any involvement with Granose at all.

We cannot say that these two sales are the start of a trend, but he is quite sure that the four Scandinavian Adventist food companies (Nutana in Denmark, Sweden,

© Copyright Soyinfo Center 2021

Norway, and Finland) will be the next to be sold. Nutana-Sweden is in considerably better financial shape than the other three, and Nutana-Finland is in pretty good shape. Nutana in Denmark and Norway are losing money and are very much in trouble. But he thinks that can easily be corrected if they get their costing straight and price their products based on their real costs. The man who has gone in to make these changes, Jan Paulsen, has as good a chance of succeeding as anyone, but he works out of London, England and does not have a much time for the health food work. He feels that the church should not be in the business of selling healthy foods. He influenced the board of the British Union in their decision to sell of Granose.

After the Scandinavian Nutana companies, the Egypt Food Factory, run by Mokhtar Nashed in Helipolois, Cairo, Egypt may well be the next to go, probably within the next few months. They used to make soymilk but he thinks they no longer are making it. Their products are "sub-standard" but still good. Superbom in Brazil is also having a hard time because of the adverse exchange rate and the desire to borrow money from the church. Superbom Chile is also having some problems.

But many of the Adventist food companies definitely will not be sold by the church in the foreseeable future. In fact, in the Far Eastern Division, a new food company in Hong Kong, run by Mr. Menzies, is scheduled to start selling products in early June of 1991. A new company is also starting in Thailand. Sahm Yook in Korea is also very successful, as is DE-VAU-GE in Germany and Sanitarium Foods in Australia. The food companies in Central America (Mexico, Costa Rica) and the Caribbean (Trinidad) are all doing well.

There are various administrative "Unions" within the Seventh-day Adventist Church. There are 4-5 unions in North America, 4 in Australia, many in South America, etc. The South American ones report to one central office in Brasilia, Brazil. The Central American food companies report to Miami, Florida. Sometimes a company manager and the head of the Union (a church official to whom he reports) have different ideas of what needs to be done at the company. These two men live in two different worlds, yet both have input in running the company. This can be a cause of business problems. The Mormon church owns some food companies and has the same type of problems. Address: Director, International Health Food Assoc., Seventh-day Adventist General Conference, 12501 Old Columbia Pike, Silver Spring, Maryland 20904. Phone: 301-680-6674.

2392. Carper, Jean. 1991. The food pharmacy guide to good eating: More than 200 totally healthy recipes. New York, NY: Bantam Books. xxiv + 422 p. Index. 24 cm.
• ***Summary:*** This is a book about the medicinal and therapeutic properties of food. Part I has a long section (p. 9-13) titled "The vegetarian advantage," extolling the many health benefits of a vegetarian diet–based on many different scientific studies. However the book also contains an even longer section (p. 265-326) titled "Seafood, poultry, and meat main dishes"–with sidebars about how eating fish is good for your health.

The index contains 9 entries for tofu, 6 for soy sauce and for whole soybeans, 5 for miso, 2 for soy oil and its omega-3 fatty acids, and 1 for soy milk.

• ***Summary:*** In Japanese, the word *tare* refers to seasoning sauce based on soy sauce.

2394. Rabheru, Neil. 1991. The early days of the soymilk market in England, Soya Health Foods and Michael Cole (Interview). *SoyaScan Notes.* Sept. 16. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Michael Cole deserves full credit for getting soyamilk into supermarkets (multiples) in the UK. Vandemoortele was smart in capitalizing on his work to put themselves in their present strong position. It is sad that Soya Health Foods did not support Michael by investing in better technology to give a better quality product. In the early days, Soya Health Foods had everything in their grasp. If they had played their cards right, Unisoy would not be here today, and Vandemoortele might not even be in the UK. The principal(s) of Soya Health Foods were either too hesitant or not smart enough to take the necessary risks. He was content making money milking the cow (so to speak), never mind when the cow drops dead. Michael left the company out of frustration. Michael is an outstanding salesman.

Neil is absolutely certain that Michael Cole has never been involved with John Holt. Neil thinks that Michael Cole's first involvement with soyfoods in the UK was with Soya Health Foods (Sunrise). Neil spoke with Michael Cole 3 weeks ago; he is back in the UK trying to market some spray-dried organic tofu and soymilk. Neil does not know the source. Address: Unit 1, Cromwell Trading Estate, Cromwell Rd., Bredbury, Stockport, Cheshire SK6 2RF, England. Phone: 061-430 6329.

2395. *Whole Foods.* 1991. El Molino Foods purchased by holding company. Sept. p. 19.
• ***Summary:*** "El Molino, founded in 1929, is described as the oldest food company in the natural foods industry." It was sold by American Health Plus Corp. of Pearl River, New York, to a new holding company, El Molino Ltd.

2396. Kennedy, J. Robert. 1991. History of Chico-San's distribution and import operations (Interview). *SoyaScan Notes.* Oct. 3. Conducted by William Shurtleff of Soyfoods

© Copyright Soyinfo Center 2021

Center.
• ***Summary:*** Chico-San never really developed its own distribution company. It used other established distributors, such as Balanced Foods in New Jersey, K&L (Kahan & Lessin) in Los Angeles, Landstrom in San Francisco, and Health Foods Incorporated in Chicago. "We had a tough time getting started in selling macrobiotic foods. Chico-San also sold a lot of macrobiotic foods through its mail-order service because most of the large distributors only wanted the best-selling items such as rice cakes, soy sauce, and sesame salt; they wouldn't take the complete macrobiotic line." In late 1962, shortly after the company was established, Chico-San got a few vans and began a few small routes down to the San Francisco Bay Area and as far north as Redding, distributing 2 types of whole-grain bread (a rice loaf and an unleavened whole-wheat bread) and gluten-nut crackers to the Berkeley Co-op and established (old-line) health food stores. The Berkeley Co-op was one of the first to carry the full line of macrobiotic products. These routes continued until about 1964-65.

Chico-San's first really successful product was rice cakes. They were introduced in 1963 but initially the big distributors showed no interest. That changed starting in about 1964 when a new generation of rice cake machines began to make a better product and a few of the big distributors started to carry them. By 1965 Chico-San's rice cakes and other popular products were being sold at more than 150 California outlets. It was the national popularity of the rice cakes that kept Chico-San from developing its own distribution company, and relying instead on large established distributors–and later brokers.

By about 1966-1967 rice cakes and rice chips (*senbei*) were beginning to cut a wedge into the mass market nationwide, so Chico-San created the Spiral Foods brand for these mainstream products, keeping the Chico-San brand for the health food market.

Concerning imports of miso and soy sauce from Japan, Chico-San first imported directly from George Ohsawa; he located the manufacturer, put the order together, and shipped it himself. Then came Nippon C.I., which was started by George and some of his disciples in Tokyo, but it didn't last very long. In 1966 Chico-San started importing from Muso Shokuhin in Osaka. But after Muso started selling a lot to Erewhon (which became a major competitor for Chico-San), Bob felt that product quality began to decline, so he began to do all his importing from Ohsawa Japan, a company that was developed by George's sister-in-law (Lima Ohsawa's sister), Flora Tanaka, at George's request. Bob felt the quality of products from Ohsawa Japan was better than from Muso, but the prices were higher and the company was not quite as professional in its business dealings.

Concerning the sale of Chico-San to Heinz, Bob is overall not very happy with the outcome. Granted, rice cakes are now much more widely known and sold in supermarkets, but the loss of Chico-San "put a big hole in the process of selling macrobiotic foods." Bob and Herman Aihara bought back the macrobiotic line from Heinz and created Ohsawa America in Chico to try to sell it. Early general managers were Marty Roth, then Lane Seiger (who had previously worked for Bob at Chico-San). But the volume was not there on relatively few products to sustain a company profitably and eventually the company ran up debts of $300,000. At that point Bob basically gave the company to Sierra Natural Foods in Brisbane, California. Sierra had several thousand products; they only paid for the inventory. Bob is now working to develop new products from rice–such as a rice-crust pizza and crackers. Address: Chico, California. Phone: 916-891-0970.

2397. Geslewitz, Gina. 1991. Turbulence brews north of the border. *Health Foods Business.* Oct. p. 8, 77.
• ***Summary:*** The Canadian Health Food Association (CHFA) recently celebrated its 25th anniversary [i.e., it was founded in about 1966]. The organization, which focuses on vitamins and other supplements, organizes two trade shows a year.

However two years of infighting among members of the CHFA has resulted in the formation of a new association; the Natural Products Association of Canada (NPAC) will focus on serving the Canadian natural foods industry.

2398. Francis, Russ. 1991. The unleashing of tofu hot dogs: health food factory outpaces recession. *Vancouver Sun* (*Vancouver, British Columbia, Canada*). Dec. 28. p. 26.
• ***Summary:*** "At San Francisco's Candlestick Park [in California] they sell tofu hotdogs made in a little factory on Georgia Street in Vancouver's downtown east side."

Yves Fine Foods has grown, on average, 45% in each of the past five years. In British Columbia, "sales increased by 165 per cent in 1991 over 1990."

Yves Potvin, the founder and owner, says the company is the largest of its kind in North America. A former Montreal chef and one-time sculptor, he founded the company in 1985 on $40,000 of his own money after a flash of inspiration.

A large photo shows Yves Potvin biting into a hot dog. The caption: "Sausage seller: Yves fine foods owner Yves Potvin is the largest maker of tofu hotdogs in North America and his business shows no sign of slowing down."

Note: This story makes it sound as if Mr. Potvin invented the tofu hotdog. The first one was sold commercially on 1940 and 15-20 had been created and sold by 1985, including major ones by Light Foods (launched in 1982), Northern Soy / Soyboy (1984) and Tempehworks (1985). Address: Sun Business Reporter.

2400. Lurie, Barbara Demming. 1992. Restaurants / Night life: Gourmet health food at new MT Plate. *Daily Breeze* (*Redondo / South Bay*). March 20. p. E25-E26.
• ***Summary:*** This is a review of the MT Plate Gourmet Bistro, 403 N. Pacific Coast Highway, Redondo Beach, California. Phone: (310) 318-8558. Lunch and dinner, daily. Beer, wine. Shopping center parking. No reservations. Cards.

Ambience: Very unbeansproutish, contemporary, sophisticated. Highly recommended. The reviewer actually liked the "dreaded tempeh. Unlike tofu, the beans in tempeh are mashed, skins and all, giving it a pulpy, more meatlike consistency. My verdict: Chicken liver is better, but my arteries are applauding the tempeh."

Tanya lived for a while in Indonesia.

2401. Macdonald, Bruce. 1992. Work after leaving Erewhon (Boston) in May 1971 (Interview). *SoyaScan Notes.* April 5. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Bruce took a warehouse in Los Angeles and ran his businesses, Pure & Simple Corporation–which had a line Pure & Simple brand of fruit butters (naturally sweetened, peach butter, raspberry, blackberry, etc.). They were very successful. Sorrell Ridge (in the USA) copied that idea from Bruce and built it into a very big business. Gregory Sams came out with the same line of products years later in the UK. Smuckers Simply Fruit is basically the same product.

After about 3 months in this warehouse, Bruce started talking with Phil Parenti about merging. So Pure & Simple (Bruce) and The Well (Phil) merged with no cash transaction; the new company was named The Well. About 6 months later (at Bruce's suggestion), Parenti changed the company's name to "Pure & Simple." There were about 20 shareholders–all arranged by Phil–and Bruce had an option to buy a large number of those shares, which he never exercised. Now age 20, he got a large salary and a car. Bruce stayed involved with the new company; in the fall of 1971 he moved to Santa Cruz near San Jose. Roger Hillyard was still with Arrowhead Mills in Texas; he became chief of product development for Arrowhead. He put together there whole oil line and many other important products for Arrowhead.

New Age Distributing was started by Fred Rohe. First he had two natural food retail stores, the first in San Francisco, then a supermarket in Palo Also. Then he started the distributing company in order to be like an Erewhon on the West Coast. Fred Rohe wasn't a businessman. By the time the Palo Alto store opened, they were already in deep financial trouble. Then the lady landowner of the San Francisco store refused to renew the lease, which resulted in Fred losing that store; the whole thing just came unglued. Phil Parenti was a stockbroker who had gotten into natural foods, and he owned part of Fred Rohe's company. Somehow, Phil ended up owning New Age Distributing–and its debt. He raised some money and brought in some additional shareholders; the company was already in San Jose. Phil had a friend named Mel Laroussa ("Sweet Melvin") who was a lady's man extraordinaire; he used to drive a little 280 Mercedes. Mel and his father were the proprietors of Standard Produce, which was the largest independent produce distributor in northern California. They had this huge warehouse in San Jose where Bruce and Phil occupied the back one-quarter. Bruce thinks that New Age Distributors was situated in this same warehouse. Eventually they ended up taking over the whole thing. The Well was just a new name for New Age Distributors–they wanted to get away from the "New Age" name. At the point that Bruce contacted Phil, New Age Distributors no longer existed. Bruce worked in San Jose for about 6 months, incorporating the Pure & Simple line into the merged catalog, handled distributor sales, and get everything set up.

Then Bruce took a vacation to Colorado to visit one of their largest customers, Green Mountain Granary. As he came over the hill into Boulder he said, "Oh my God. This is where I want to live. I just fell in love with that whole area." As it turned out, the two owners of Green Mountain (George Slavin and Joe Rosenberg) were having a conflict over ownership. So Bruce bought the company via a 3-way trade; he traded all his interest in the Natural Living Company. Right before Bruce left San Jose, he called Roger Hillyard (who was still in Texas) and asked him if he would like to take over Bruce's job of handling distributor sales and product development at The Well. Roger was tired of Texas and he wanted to return to his native California, so he said "yes." Moreover, Phil was a good man, a visionary, and an excellent entrepreneur. But he and Bruce made the mistake of expanding much too fast. When Bruce met Phil, The Well was a distributor of organic produce, with a few dry goods. Soon they were a full-fledged distributor of all natural foods (but no vitamins or other supplements) including Japanese imports from Mitoku–with most items sold under the Pure & Simple brand. The main competitor at the time was Westbrae.

How did Pure & Simple go out of business and why? Phil Parenti was in the produce business and he always had cast a covetous eye to the Los Angeles market–which was where all the produce was happening. In Los Angeles was a wildly successful organic produce company, run out of no

© Copyright Soyinfo Center 2021

more than 2,000 square feet, called Max Kozek. Max was an old produce guy located right in the produce market. He had a dock where the trucks came in and out. "It was just the sweetest little operation you ever saw." He was doing big business–30-40 LB3 (5 by 5 by 6 feet, rounded so it fits into the side of an airplane, holds 2,500 lb) containers a day, flying it all over the country. The airlines loved this constant business, so they gave the produce companies low prices (about 10 cents a pound at the time) which made flying produce financially viable. "Max was just raking in the dough. He owned Arabian horses, lived in Beverly Hills, but he was getting older. And he was "a little shady around the edges," in part because the demand for organic produce was always greater than the supply. They caught him putting non-organic carrots in bags labeled "organic" and everything went downhill from there. "Back in those days, carrots comprised about 50% of all organic produce–for the carrot juice. So the organic produce business was basically a carrot business. There was one year when he shipped more LB3 containers on United Airlines than anyone else. He was that big–like 1,200 a month. There was no other way for the East Coast stores to get fresh organic produce."

The produce business is a bit of a grind. Its starts around 11:00 at night and its over at 8:00 in the morning–so your daily schedule is all goofy. Max had done this for years and years.

In about 1972-73 the first big merger of the natural foods industry took place. Some big money guys came in and they assembled this conglomerate which involved El Molino Mills, Hain Pure Food, Inc., Max Kozek, Radiant Vitamins, plus some manufacturer of capsules. But there was a big falling out with Max, so he ended up buying back his company from the conglomerate, and made a lot of money in the deal.

Note: This deal (in the early 1970s) was apparently never finalized; a complex Internet search shows that no article about it ever appeared in the *Los Angeles Times.*

So Philip Parenti befriended Max Kozek and they worked out a deal. Bruce never knew the details, but Phil ended up buying Max Kozek. The Achilles heal of the deal was this–incredible story. Max had been selling to a company (The Village Market) in Pennsylvania–in Amish / Pennsylvania Dutch territory. Village Market had an idea that the next great market would be frozen organic vegetables. Somehow Village Market ended up owing Max $300,000. They had an Amish stone warehouse that Bruce has been told was "the most beautiful warehouse that has ever existed." So after he bought Max Kozek, Phil Parenti went to visit Village Market–because the guy owed $300,000. The guy at Village Market threw up his hands and said, "Just take over my business. I can't pay." So all of a sudden, Phil had to swallow two large businesses. Phil put "Sweet Melvin" in charge of the Pennsylvania warehouse. But Melvin was basically a trucker; his father ran the produce while he ran Standard Truck Lines, which was a contract trucker. Mel was an ace at that but he was not an ace at running a natural food distributing business–and much too much of a bon vivant. All this happened throughout the late 1970s while Bruce was a Green Mountain Granary. Phil had to declare bankruptcy. Jimmy Silver ended up with the brand name "Pure & Simple." Max and Phil were pioneers of organic produce in the United States. Continued. Address: P.O. Box 100, Cambridgeport, Vermont 05141. Phone: 802-869-2010.

2402. *Farmland News* (*Archbold, Ohio*). 1992. If soybeans are to become a health food, the beany flavor's gotta go! July 14.

• ***Summary:*** Ohio State Univ. food scientist Charles Morr and his colleagues are carefully "sniffing out" the compounds in soybeans (using a gas chromatograph) that give soyfoods a beany flavor. The off flavors are formed in the soybean as the enzymes react during processing. "Different varieties of soybeans can have different enzymes. Morr says bad-tasting compounds typically form when the bean is crushed, releasing the enzymes. The freed enzymes link with fatty acids within the bean and promote their reaction with oxygen to cause a bad flavor."

2403. Wainer, Howard. 1992. Leading trade publications in the natural and health food industry (Interview). *SoyaScan Notes.* Sept. 25. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** In 1984 the leading trade magazines in the natural/health foods industry (in terms of circulation and total ad space) were *Health Foods Business*, followed by *Health Foods Retailing* (which had been #1 for years prior to about 1982-83), and *Natural Foods Merchandiser,* with *Whole Foods* way down in fourth place.

Today, in 1992, *Natural Foods Merchandiser* is in first place (they first moved into first place in 1984), followed closely by *Whole Foods,* with *Health Foods Business* way down in third place. These are the only three publications in the market, since *Health Foods Retailing* went out of business in 1987. This ranking is based on total ad pages, but since NFM is tabloid size, Wainer counts each tabloid page as two-thirds of a page to reduce it to an 8.5 by 11-inch equivalent. Thus Wainer counts 10 pages of ad space in NFM as equal to 6.67 pages in *Whole Foods.* In 1989 and 1990 *Whole Foods* was number 1 based on this method of comparison.

Whole Foods currently has a larger circulation (11,000) than NFM (9,500). Whole Foods tries to appeal to stores of all sizes, whereas NFM focuses more on larger stores in terms of editorial. Whole Foods aggressively seeks to find and mail to small stores; NFM does not. Both magazines are equally oriented to the natural foods and the health foods trade.

A magazine cannot exist primarily for ad revenue, with

© Copyright Soyinfo Center 2021

a message and editorials that are self-serving. The readers catch on very quickly that the magazine has noting important to say, so they stop reading the magazine, and once they stop, the advertiser's message is not seen. A magazine must have integrity and independence. The key is a good balance between quality articles and steady ad revenues. The reader is the key to the magazine.

To find out how readers like a magazine, publishers send out feedback cards, do surveys, read letters, etc. Readership studies done by Whole Foods indicates to them that they are the leader. To the question: "If you could only receive one magazine, which would it be?" the most readers answer *Whole Foods.* Note: According to the Nov. 1992 issue of *Whole Foods* (p. 72), the average number of copies of the magazine printed per month over the past year was 10,195.

Nowadays, supplements seem to be more important than foods in the natural/health foods industry. Consumers want beta-carotene (found to be good for the heart for preventing cancer); niacin is also very popular. Organic produce has always been popular and is getting more and more popular, but now supermarkets carry it.

Concerning the NLEA: "For the next two years I think we have it beat. During that period the industry will be funding more solid studies on the benefits of supplements; the research has already begun." Address: President, Whole Foods Communications Inc. and publisher of Whole Foods magazine, South Plainfield, New Jersey 07080. Phone: 908-769-1160.

2404. *SoyaCow Newsletter* (*Ottawa, Canada*). 1992. Major health food store to open SoyaCow department. 1(3):1. July/Sept.

• ***Summary:*** "Rainbow Foods, the largest health food store in the Ottawa area, is committed to the SoyaCow retail concept. After fifteen years in business, they will move to larger premises in January, reopening with a department devoted to SoyaCow and its related fresh soyfoods.

"The ability to make fresh soymilk and other soyfoods on location will appeal to their existing clients and will also attract new ones. Besides the take-home foods, a small line of take-out products will be featured, including shakes, yogurts, soyburgers, and fresh juice. As the first store anywhere to do this, Rainbow will help promote this as a pilot location in a franchising concept. Other retailers will be invited for demonstrations.

"Rainbow owner Mike Kaplan became a SoyaCow believer after his first taste of its soya milk. He deemed it superior to all other products he sells in Tetra Paks [Tetra Pak cartons]. He also appreciated the freshness and the environmental benefits."

A photo shows a "New SoyaCow Model SC20A."

2405. Shurtleff, William; Aoyagi, Akiko. comps. 1992. Bibliography and sourcebook on Seventh-day Adventists' work with soyfoods, vegetarianism, and wheat gluten, 1866-1992: Detailed information on 835 published documents (bibliographic), 602 commercial food products, 207 unpublished archival documents, 158 original interviews (many full text) and overviews. Lafayette, California: Soyfoods Center. 407 p. Subject/geographical index. Author/company index. Language index. Printed Oct. 15. 28 cm. [1606 ref]

• ***Summary:*** This is the most comprehensive book ever published on the work of Seventh-day Adventists (SDAs) with soyfoods, vegetarianism, or wheat gluten. In each of these closely-related areas SDAs have been the pioneers and leaders over a period of 70 to 130 years, and they have had the good fortune to be able to watch their visionary ideas gain increasing worldwide acceptance. Moreover, they have founded and successfully run many pioneering food companies that have transformed their ideas into commercial products and made them available to consumers worldwide.

The scope of this book includes all known publications, commercial food products, and archival documents, plus many original interviews, from earliest times to the present, worldwide. Thus it is also the single most current and useful source of information on this subject available today, since 83% of all references (and most of the early and current ones) contain a summary/abstract averaging 131 words in length.

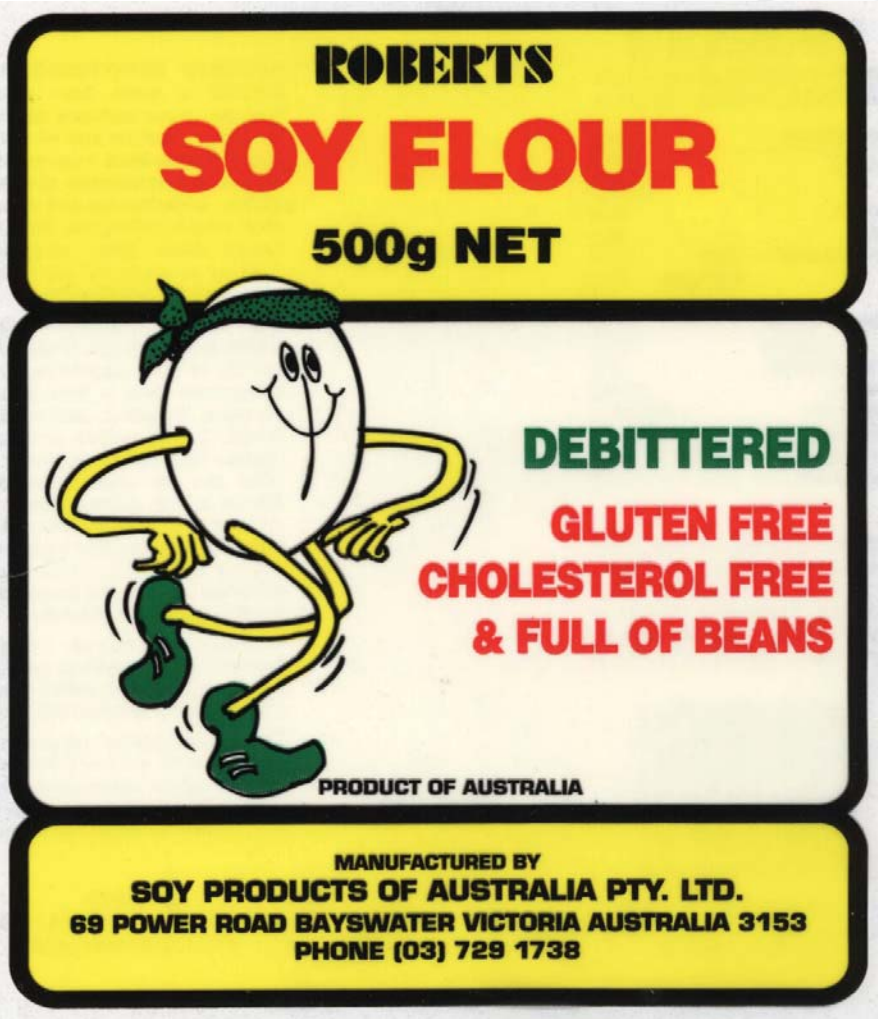
This is one of more than 40 bibliographies on soybeans and soyfoods being compiled by William Shurtleff and Akiko Aoyagi, and published by the Soyfoods Center. It is based on historical principles, listing all known documents and commercial products in chronological order. It features: 33 different document types, both published and unpublished; every known foreign language publication on the subject–including 55 in German, 25 in Spanish, 23 in French, etc.; extensive translations of many of the Japanese and European works; 158 original Soyfoods Center interviews and overviews never before published. Thus it is a powerful tool for understanding the development of these subjects and related products from their earliest beginnings to the present, worldwide.

Compiled one record at a time over a period of 17 years, the bibliographic records in this book feature (in addition to the typical author, date, title, volume and pages information) the author's address, number of references cited, original title of all non-English publications together with an English translation, month and issue of publication, and the first author's first name (if given).

It also includes details on 602 commercial food products, including the product name, date of introduction, manufacturer's name, address and phone number, and (in many cases) ingredients, weight, packaging and price, storage requirements, nutritional composition, and a description of the label. Sources of additional information on each product (such as references to and summaries of

© Copyright Soyinfo Center 2021

advertisements, articles, patents, etc.) are also given.



Details on how to use the bibliography, a complete subject and geographical index, an author/company index, a language index, and a bibliometric analysis of the composition of the book (by decade, document type, language, leading periodicals or patents, leading countries, states, and related subjects, plus a histogram by year) are also included. Address: Soyfoods Center, P.O. Box 234, Lafayette, California 94549. Phone: 510-283-2991.

2406. **Product Name:** Roberts Soy Flour–Debittered.
Manufacturer's Name: Soy Products of Australia Pty. Ltd.
Manufacturer's Address: 69 Power Road, Bayswater, VIC 3153, Australia. Phone: (03) 729-1738.
Date of Introduction: 1992 October.
Ingredients: Australian-grown soybeans.
Wt/Vol., Packaging, Price: 500 gm plastic bag.
How Stored: Keep sealed. Store in a cool, dry, dark place.
New Product–Documentation: Package with Label sent by Paul Smith of Soy Products of Australia Pty. Ltd. 1995. March 9. Roberts Soy Flour. 7 by 9 inches. Yellow, red, black, and green on white. On the rear right panel: This "soy flour is made from whole Australian grown soybeans retaining the natural lecithin and oil of the bean completely intact. It also provides an excellent combination of quality protein, carbohydrate and dietary fibre. Prior to milling into flour, the beans have been specially toasted to render the soy protein more palatable and digestible.

"Soy Flour may be used creatively in a host of ways to add protein and variety to both vegetarian and conventional diets: in cake, biscuit, pancake, doughnut, pastry, high protein bread recipes and as a protein replacer or extender in meat pies and vegetable burgers. Where a rich golden pastry is required or to enhance the colours and flavours of the other ingredients e.g. in dark fruit cakes, plum puddings and recipes using malt, treacle. molasses and the like.

"If a lighter coloured, blander flavoured biscuit, muffin or pancake etc. is required, it is better to use Roberts' Lightly Steamed Soy Flour.

"For further recipe suggestions please ask for our Information and Recipe Leaflets. These are available either through your local Health Food Store or by writing directly to us." "Gluten free. Cholesterol free & full of beans. Product of Australia."

Letter from Paul Smith. 1995. March 14. Lowans, Kadak, Select Foods, and other companies have also packaged this product under their names and brands for many years previously.

2407. Mergentime, Ken. 1992. Retrospective: A century of natural products. The evolution of an industry. *Natural Foods Merchandiser* 13(11):1, 26-28, 30. Dec. [3 ref]
• ***Summary:*** An interesting history of today's natural products industry. The estimated number of retail stores selling natural products has grown from 150 in 1938, to 1,000 in 1960, to 6,500 in 1981, to 10,100 in 1991. Sales of natural products in the USA have grown from $1,900 million in 1980 to $2,900 million in 1986, to $4,640 million in 1991.

Health reform teaching began with Sylvester Graham in the 1830s, but the natural food manufacturing industry really began in the late 1800s in Battle Creek, Michigan. Two of the pioneers were Dr. John Harvey Kellogg and his brother Will Keith Kellogg–who in 1906 broke away from Dr. Kellogg and took Kellogg's Toasted Cornflakes mainstream.

The first health food stores (Martindale's in Philadelphia, Pennsylvania, and The Original Health

© Copyright Soyinfo Center 2021

Food Store in New York owned by Benedict Lust, M.D.) started in the mid-1920s and early 1930s. An early periodical was *Nature's Path*, published [1925-1953] by Dr. Lust. A key to the industry's establishment and growth was the acceptance and popularization of vitamins. Early health food companies included Sherman Foods in 1924, Fearn Soya Foods in 1925, El Molino Mills and Naturade in 1926, Ener-G Foods and Orjene (the first natural personal care company) in 1928. *Health Foods Retailing*, the industry's first trade publication, began in 1936 and continued until 1987. In about 1929 Andrew Rosenberger started a health food store named Nature Food Centre; the store is still open today–along with 101 others along the Eastern seaboard between Maine and Virginia. The publicly-owned chain, based in Wilmington, Massachusetts, now grosses nearly $50 million a year.

A sidebar discusses Anthony Berhalter of Chicago, Illinois, who in 1936 organized a consumer group named the American Health Foods Association. In the spring of 1937 in Chicago he organized America's first health foods convention, with 150 attendees, 10-15 booths, and many lecturers. At this meeting the National Health Foods Association was born. It was later renamed the National Dietary Foods Association, then the National Nutritional Foods Association (NNFA).

World War II spurred interest in vitamins and nutrition. A government program was called Vitamins for Victory. "By 1945, vitamins and supplements had become the most profitable product in health food stores. By the end of the decade the industry was, literally, quite healthy.

During the 1950s stores such as Lindberg Nutrition (Lindberg's Nutrition Service) became a beacon for retail innovations; it eventually grew into an 11-store chain.

"In 1952 a man named Joe D. Nichols, M.D., opened new doors for the industry when he presented a paper called Concept of Totality, in which he outlined a healing philosophy centered on the ideas of preventative medicine and nutrition, while considering environmental and psychological factors. This was the foundation of holistic medicine as we know it today. Nichols founded Natural Foods Associates (NFA) in 1953 to educate and change the eating habits of Americans. In 1954, he unveiled *Natural Food & Farming* magazine as forum for nutritional education and the fledgling organic industry...

"The ensuing decades saw a fundamental shift in consumers' perceptions of health and nutritional needs resulting in a phenomenal growth period for the natural products industry. Beginning in the mid to late 1960s, as the Baby Boom generation began to come of age, a new generation of well-educated consumers became aware of a need for natural foods... By the mid 1970s and early 1980s, the industry saw the migration of products, such as yogurt, granola and rice cakes, into mainstream markets."

Photos show: A health food store inside the Battle Creek Sanitarium in the 1870s. The Sanitarium at the height of its prosperity in 1903. Organically grown fruit and vegetables featured in a produce case in the mid-1950s. The inside of the Battle Creek Food Co. in the early 1920s. Dr. John Harvey Kellogg. 2408. Mergentime, Ken. 1992. Our industry and the FDA. *Natural Foods Merchandiser* 13(11):28. Dec.
• ***Summary:*** Since 1938 the FDA and the natural products industry have been at odds. This articles outlines some of the more important legal cases where the natural and health food industries have gone head to head–in 1960-64, 1962-74, 1973-77, 1974-76, 1990. In each case, the natural products industry won the key cases.

2409. Sass, Lorna J. 1992. An ecological kitchen: Healthy meals for you and the planet. New York, NY: William Morrow and Company, Inc. xv + 492 p. Index. 26 cm. [35+* ref]
• ***Summary:*** This excellent vegetarian (actually vegan), ecological cookbook, proves that the most environmentally sound diet is also the healthiest and, for many, the most delicious and economical. It emphasizes whole grains, fruits and vegetables, focuses on unprocessed and minimally packaged foods, use of regional and seasonal foods, efficient menu planning, and creative recycling of leftovers. Delightful quotations relevant to the book's subject are scattered throughout.

The author's guiding principles for cooking ecologically are: "Eat a plant-based [vegan] diet; buy organic, regional, seasonal produce whenever possible; and use nontoxic products to keep your kitchen clean."

The chapter titled "Tofu and tempeh" (p. 217-31) contains basic information and many recipes. Other soy-related recipes include: Thai vegetable soup (with tofu, p. 39). Ten-ingredient lo mien (with tofu, p. 165-66). Triple bean maybe it's chili (p. 186-87). Black soybeans (p. 191-92; keep the skins on by adding salt). Curried mustard greens with tofu (p. 255). Chinese-style stir-fry of kale, onions, and marinated tofu (p. 258). Tahini-miso spread (p. 315). Sun-dried tomato dip (with tofu, p. 318). Brilliant beet dip (with tofu, p. 319). Onion upside-down cornbread (with tofu, p. 323-24). Tofu whip (like whipped cream or whip topping, p. 398).

The very fine chapter / glossary "Ingredients A to Z" (p. 399-468) includes: Aduki / azuki beans, agar, almond butter, almonds, amaranth, amasake (incl. koji), arame, barley malt syrup.

Black beans–fermented (salty black beans): "Black beans, fermented (Salty black beans): A little of this Chinese specialty–small black soybeans preserved in salt–goes a long way. About 1 tablespoon adds a deliciously complex flavor

© Copyright Soyinfo Center 2021

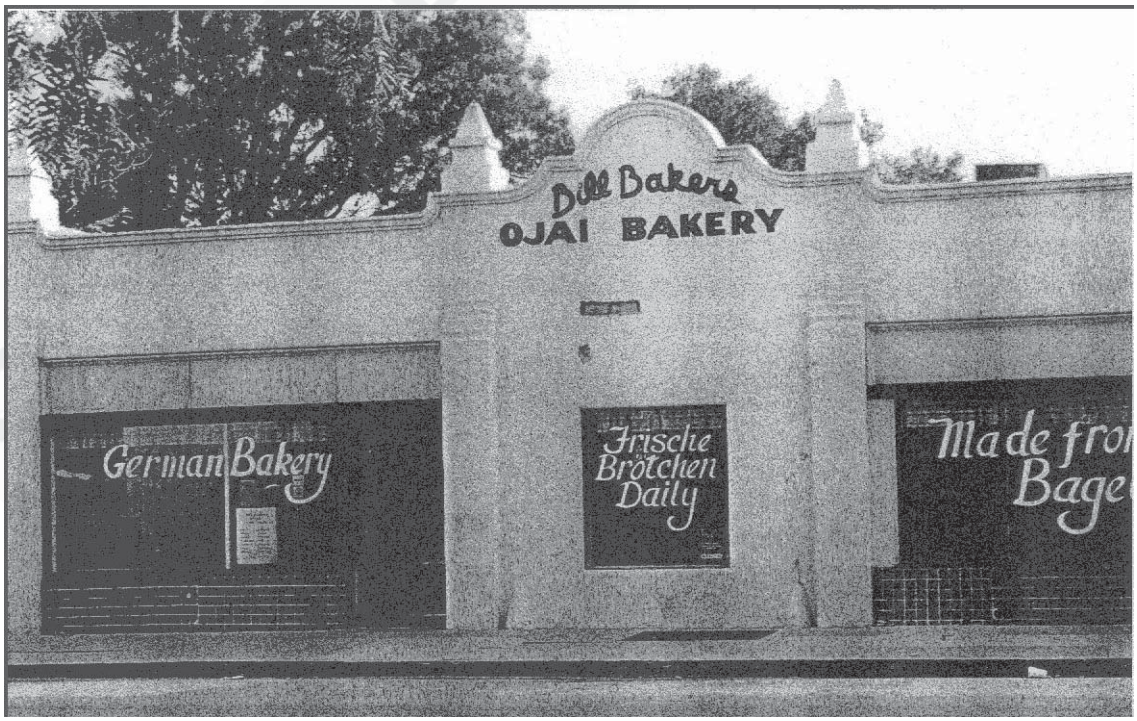
to stir-fries. Chop the beans finely to disperse their flavor. If you like the taste but want to reduce the salt, soak the beans briefly in water before using. Fermented black beans last for about a year in a well-sealed jar under refrigeration.

"Bragg Liquid Aminos: This is a *very tasty* soy-sauce-like condiment made by extracting amino acids from organic soybeans. Its flavor is more winelike and complex than most soy sauces. It is salty, so sprinkle sparingly. (There is no added salt, but 125 milligrams of sodium per ½ teaspoon come from the natural sodium in the soybeans.)

"Unlike soy sauce, Bragg Liquid Aminos is not fermented, making it an ideal seasoning for those who suffer from yeast sensitivities. Delicious added to stir-fries or plain-cooked grains. It is readily available in health food stores." Also in natural food stores.

Daikon, dulse, gomashio, hijicki / hizicki [sic, hijiki], job's tears, kombu, kuzu (kudzu), kuzu kiri, lupins, miso, mochi, natto, nigari, nori, peanut butter, peanuts, quinoa, rice–brown, rice cakes, rice syrup, sea vegetables, tamari-roasted seeds, seitan (wheat gluten), sesame butter (tahini), sesame oil, sesame seeds, shoyu, soybeans, soybeans–black, soy cheese, soy flakes, soy flour, soyfoods, soy grits, soy ice cream, soy milk, soynuts, soy oil, soy powder (powdered soy milk), soysage, soy sauce, soy yogurt (fermented), tahini, tamari soy sauce, tempeh, tofu, umeboshi plums, wakame, wasabi, winged beans. Note: Also contains recipes for many of these glossary items.

A color portrait photo on the inside rear dust jacket shows Lorna Sass–with a brief biography; she is a culinary historian, cookbook author, and food writer. Address: Box 704, New York City, NY 10024.



2410. The front of "Bill Baker's Ojai Bakery" as seen from across the street (Photograph). 1992.
• ***Summary:*** On the window of the shop on the left is written "German Bakery" in large white letters. On the square window of the middle shop is written "Frische Brötchen Daily." On the window of the shop on the right is written "Made from... Bage..."

A 4 by 6 inch black-and-white photocopy of this photo was sent to Soyfoods Center by Rose Boggs of Ojai, California.

A second photo, dated 16 April 1999, shows the top half of a piece of bakery equipment, perhaps a mixing machine. On a metal plate at the top center is stamped: "Dutchess, Beacon, N.Y., U.S.A."

Talk with Rose Boggs. 2004. July 19. Bill Baker could never call his bakery a "German bakery" or use any German names (such as Brötchen) for his baked goods because of the anti-German sentiment in the USA after World War I. That is why he was so patriotic and did so many patriotic things–such as baking cakes for U.S. presidents–to diffuse any criticism or suspicion, since he was born in Germany and spoke with a strong German accent. At the time this photo was taken, the owners of the bakery were Thomas Kohnen and his wife, Colleen; they had the words "German Bakery" and "Frische Brötchen" painted on the bakery's windows, since anti-German sentiment is a thing of the past and (Rose believes) Thomas (who was born in Germany) is the reincarnation of Bill Baker.

2411. Ojai Valley Museum. 1992? Bill Baker's Bakery–1896.

Ojai, California. 1 p. Undated. 21 x 28 cm.
• ***Summary:*** Ojai sponsored a walking tour of historical sights. This plaque was placed in the bakery window so those with a map could easily locate the bakery. The plaque reads: "William Cook Baker established the present Bill Baker's Bakery in 1991. A pioneer baker of breads using no preservatives, he perfected recipes for lima bean, soybean and gluten bread. Baker had a flair for the dramatic, often creating huge cakes for special occasions such as U.S. Presidents' birthdays and he baked a thousand pound cake for the 1939 World's Fair in San Francisco. He was reputed to have the skill of Picasso with an icing bag. The bakery houses a brick hearth oven which was used as early as 1897." Address: Ojai, California.

2412. *SoyaScan Notes.* 1993. Listings for natural foods manufacturers, distributors, brokers, associations, publishers, advertising agencies and public relations firms, and service companies (educational organizations, consultants, and companies providing research and analysis, product development, promotions and other services) (Overview). Jan. 8. Compiled by William Shurtleff of Soyfoods Center.

(2) The annual issue of *Whole Foods* titled "Source Book," which is usually published each May. (3) The annual issue of *Health Foods Business* titled "Purchasing Guide," which is usually published each November.

2413. *Health Foods Business.* 1993. NNFA's executive director Patricia Heydlauff talks about the industry's toughest job. May. p. 18, 21, 73.
• ***Summary:*** A good history of the NNFA's activities from 1984 to the present. Heydlauff served as executive director from 1984 until Jan. 1993. A small photo shows Patricia Heydlauff.

2414. Downard, Rick. 1993. Remembering an Ojai landmark. *Ojai Valley News* (*California*). Oct. 4.
• ***Summary:*** On 4 Oct. 1993 Ojai lost a valuable landmark–Harmon Vaughn. "Some people in the valley knew him as Bill Baker from the years he and his wife, Helen, owned and operated Bill Baker's Bakery." The Vaughn's arrived in Ojai from Arkansas on 31 March 1936. They were looking for a new life and the day after arriving Harmon found a job working for a German-born baker, Bill Baker. "Baker asked Vaughn where he was from. When told Arkansas, Baker replied, 'Vel I haf tried someone from effery other 'dom' state. Vy not dere?'"

Vaughn went right to work boxing bread for shipping. "At that time, the bakery specialized in soya bean and lima bean breads. These were shipped by railway express, and later by truck lines, to various health food stores. Vaughn was paid $12 per week and his wife made $1 per day. But when Vaughn went to Ventura twice a week to deliver bread, Helen would go with him and purchase a week's worth of vegetables for a dollar.

Discusses the 1,000 lb fruitcake Baker and his staff made for the 1939 World's Fair [sic, Golden Gate International Exposition] in San Francisco. It was 5 feet in diameter, 3 feet tall, and had hand-made replicas of the 19 missions and other landmarks on it.

Baker died in 1942. Vaughn, having 6 years of training, continued to run the bakery for Baker's widow. In 1946 the Vaughns bought the bakery. During World War II, Vaughn could not get enough gas stamps, so he rode his bike or got up early and walked to the bakery from his home in Meiners Oaks (located just west of Ojai). Though sugar was rationed, he could get all the honey he could use. Discusses his generosity.

In Feb. 1974 Vaughn retired from the bakery to travel with his Airstream trailer. One of his favorite sayings: "See you down the road."

A photo shows Helen and Harmon Vaughn standing together and smiling in front of racks full of bread. She is holding a framed certificate and he a loaf of gluten bread. Address: Ojai, California.

2415. *Blue Beret* (*Airstream Trailer magazine, Jackson Center, Ohio*). 1993. In Memory: Harmon Vaughn. Nov. p. 7.
• ***Summary:*** "Services will be held Friday morning at 10 a.m. at Santa Paula Cemetery [in Santa Paula, about 15 miles southeast of Ojai] for Harmon Vaughn, 78, of Ojai, who died Monday, Oct. 4, at Ojai Valley Hospital after a short illness.

"Mr. Vaughn was born Feb. 19, 1915, in Cave Springs, Arkansas, and was an Ojai resident for 57 years, coming from Arkansas. Mr. Vaughn had been a baker all of his working life. and was the owner of Bill Baker's Bakery for many years. He was past international president of the Wally Bayam Club and a 23-year member of the Airstream Trailer Club. He was also a member of the Ojai Business and Professional Men's Club and the Elks Lodge #1430 of Ventura.

"Mr. Vaughn is survived by his wife, Helen, of Ojai; families members Louise Downard and Lynn Gholson of Ojai; two brothers Elmo Vaughn of Owassa, Oklahoma, and Pete Vaughn of Ojai; one sister Dorothy Mueller of Ojai; four grandchildren and eight great-grandchildren.

Note 1. Talk with Helen Vaughn of Ojai. 2006. March 13. Harmon was buried in the Santa Paula Cemetery because the Ojai Cemetery had filled up many years before. Harmon and Helen came to Ojai initially because Helen's sister lived there. When they discovered what a superb place to live it was, they told members of Harmon's family; his brother (Pete) and sister (Dorothy) soon moved to Ojai.

Note 2. This monthly magazine is the official

publication of the Wally Bayam Caravan Club International, Inc., the recreational vehicle club of Airstream owners. They organize rallies (which might bring together 1,200 RVs) and caravans (in which 30 RVs might participate). Address: Ojai, California.

2416. Cole, Sidney J. 1993. Changes at DE-VAU-GE (Interview). *SoyaScan Notes.* Dec. 6. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** DE-VAU-GE (DVG) has stopped making soymilk [actually they plan to stop in early 1994] and therefore also tofu. It was an economic decision. When the Adventist church sold Granose Foods in England, that cost DVG about 40-50% of their soymilk market. DVG still sells and distributes both soymilk and tofu under their GranoVita brand, but they buy the products from other manufacturers. The soymilk may be made by Alpro in Belgium. DVG still manufactures many other soyfoods, such as the soy protein foods, the canned meatlike products, etc.

DVG is still a strong company that is growing rapidly and Michael Makowski is still the general manager. He calculated that he can do better financially by using his factory space to make Corn Flakes rather than soymilk. If DVG keeps up their current growth rate, they may soon pass Australia's Sanitarium Foods as the leading Seventh-day Adventist food company in terms of sales. The church has no plans to sell DVG, and in fact the church is looking to support its food industries quite strongly now.

The decision to sell Granose was made at the local division level, not at the General Conference level. Sidney personally would have preferred that the church not sell Granose, but at least they did sell it at the right time and to a good buyer–the Haldane Foods Group. The products, the company, and the philosophy are all in good hands.

Eric Fehlberg retired about 2 years ago as director of the Seventh-day Adventist International Health Food Assoc. Dr. Cole took his place, and he has also kept his job in Miami at the Inter-American Division. Address: Director, International Health Food Assoc., P.O. Box 140760, Miami, Florida 33114-0760. Phone: 305-443-7471.

2417. Levenstein, Harvey A. 1993. Paradox of plenty: A social history of eating in modern America. New York, NY: Oxford University Press. ix + 337 p., [8] p. of plates. Illust. (8 p. of plates). Index. 25 cm. [1473* endnotes]
• ***Summary:*** Contents: Prologue: Depression paradoxes. 1. Depression dieting and the vitamin gold rush (The New Nutrition, Victor Lindlahr, Gayelord Hauser, the willingness to eat for health more than for pleasure, Alfred W. McCann, Prof. Elmer McCollum and acidosis). 2. The great regression: The new woman goes home. 3. From Burgoo to Howard Johnson's: Eating out in Depression America. 4. © Copyright Soyinfo Center 2021

his committee's special report *Dietary Goals for the United States* {1977-1978}, which called for a complete about-face in government nutrition policy. "All previous government efforts had centered on getting people to eat more of what was thought to be good for them. *Dietary Goals* emphasized eating less of what was thought to be bad for them"–what Levenstein calls "Negative Nutrition." A great outcry came from the beef, dairy, and egg producers).

14. Darling, where did you put the cardamom? (The rise of gourmet, high ethnic, and upscale cuisines, French food, Julia Child, Craig Claiborne, snobbery, ethnic food boom, Oriental foods). 15. Fast food and quick bucks (Pizza, McDonald's, Kentucky Fried Chicken, franchises). 16. Paradoxes of plenty. Abbreviations used in frequently cited periodicals.

Born in 1938, Levenstein's first book was titled *Revolution at the Table: The Transformation of the American Diet.* This is a carefully researched, generally well written and very interesting cultural history of food and eating in the USA from 1930 to 1993–and of America's ongoing food wars. However by trying to take a fair and balanced centrist position, and by trying to prevent value judgments from creeping in (e.g., a healthy, balanced diet is better than an unhealthy one), Levenstein no doubt disappoints, and perhaps even infuriates, all sides. His sources on natural and organic foods and vegetarianism are scant and often very negative. Address: Prof. of History, McMaster Univ., Univ. of Hamilton, Ontario, Canada.

2418. LaBarr, Connie. 1994. What is edamame (fruit-of-the-stem)... and why is it rapidly becoming the health food of the 90's? (Leaflet). Lincoln, Nebraska: Nebraska Soybean Program. 3 panels each side. Feb. Each panel: 22 x 9 cm.
• ***Summary:*** Professionals who contributed to the development of this interesting leaflet are: Virginia Messina, MPH, RD; Kristi Metzger, BS, Minnesota Soybean Program; Terri Sander, BS, Food Processing Center, Univ. of Nebraska at Lincoln.

"Edamame (pronounced aid-a-MOM-ee) is a special type of large-seeded soybean which is rapidly making its way into western culture as the health food of the 90's. Originating in East Asia, this sweet tasting nutritional vegetable is eaten as both a snack and as a main dish... In Japan edamame is eaten in much the same fashion that Americans eat salted-in-the-shell peanuts. However, when served fresh and green, edamame is a popular hors d'oeuvre and is served with beer or sake."

"If you already know about edamame, you may know that these beans are often difficult to find. Usually you can find edamame in the produce sections of Asian/oriental food stores and in specialty 'farmer's markets.' However, edamame is beginning to be stocked in supermarkets in a shelled frozen form. They are called 'sweet beans.'... In the coming years we expect to see edamame as a commonplace vegetable in every grocery store in the U.S., but in the meantime you may have to search a bit." A nutritional analysis (per ½ cup) is given, based on composite average figures for 4 varieties. Calories 120. Protein 9 gm. Total fat 4.5 gm. Dietary fiber 4 gm.

Talk with Connie LaBarr. 1994. April 11. The Nebraska Soybean Program developed this brochure in early 1994 because food writers wanted information on edamame, and because her program is giving samples of edamame to many Nebraskans and there was a need for a publication to answer consumers' questions. Address: PhD, Nebraska Soybean Program, Lincoln, NE. Phone: 1-800-852-2326.

2419. Ralston Purina Co. 1994. The Ralston chronicle: 1894-1994. A century of managing change. St. Louis, Missouri. 32 p. Illust. 26 x 33 cm.
• ***Summary:*** This excellent company history, which contains more photographs than text, begins with company "Milestones" (1894-1994) in the inside front cover, followed by an Introduction by Bill Stiritz, Chairman and CEO. For each "era" in the company history is given the years encompassed by that era, a one-line description of the era, a description of the key events of that era–both within the company and for the United States, and photographs taken during and capturing key parts of that era.

"Dr. Ralston" inspires a line of whole-wheat breakfast foods — "Where Purity is Paramount."

© Copyright Soyinfo Center 2021

Milestones (inside front cover): "1894–Robinson-Danforth Commission Company is founded in St. Louis. 1896–Tornado destroys original feed mill. 1898–William H. Danforth assumes a leadership position and enters the cereal business with the endorsement of 'Dr. Ralston.' 1902–The name of the company is changed to Ralston Purina Company to reflect more accurately the business–where 'Purity is Paramount." 1902–Ralston adopts the famous Checkerboard logo. 1904–Ralston gains exposure at the 1904 World's Fair in St. Louis. 1926–Ralston opens its experimental farm at Gray Summit, Missouri. 1926–Ralston purchases the Rye-Krisp plant in Minnesota. 1932–Donald Danforth Sr. is named President of Ralston [near the start of the Great Depression]. 1937–Wheat Chex is introduced. 1950–Rice Chex is introduced. 1955–Founder and Chairman of the Board William H. Danforth passes away on Christmas Eve..."

1894-1910: Agricultural volatility and reform, and manufacturing might. Color photos show: (1) Company letterhead in about 1896. Across the top: "Familiar faces at your grocers–Ralston Health Club Breakfast Food, Purina Health Gluten–Whole Wheat Flour, Century Health PanKake Flour, Ralston Health Club Barley Flour, Ralston Infant Food. "Fine foods build fine minds." (2) Poster (red and black on beige) titled "Ralston Purina Foods" with caption "'Dr. Ralston' inspires a line of whole-wheat breakfast foods–'Where Purity is Paramount.' We see the front panel of: Ralston Breakfast Food. Ralston Cereal Coffee. Whole wheat flour for Brain bread (sack). Purina PanKake Flour. Ralston Hominy Grits. Ralston Kornkins–Old fashioned corn meal. Ralston Health Oats. Ralston Barley Food. Black and white photos show: (1) Women working in a factory making Ralston cereals, with rope drives and pulleys. (2) A child by the fire dreaming of the morning and Kellogg's toasted Corn Flakes.

1894-1910: At the World's Fair in St. Louis ("The Louisiana Purchase Exposition"). "Danforth's fascination with fitness and health inspires the endorsement of 'Dr. Ralston, a health guru with 800,000 followers. 'In a million homes,' a 1902 advertisement boasts, 'Ralston Purina

© Copyright Soyinfo Center 2021

Cereals find a welcome home at the breakfast table.'" "When the Louisiana Purchase Exposition comes to St. Louis in 1904, Ralston celebrates its unlikely first decade in a colorful way. Checkerboard boxes with handles are distributed to fairgoers, and the Purina booth serves Ralston Breakfast Food and pancakes made with Purina PanKake Flour." A color poster titled "Ralston Purina Foods" shows a miller tossing a happy little girl into the air. A package of Ralston Health Breakfast Food is shown. A dark brown on beige poster is titled "You will never forget the World's Fair and your Ralston Box. Begin to Live–now!

Note: A little additional history: 1894–The three founders were George Robinson, Will Andrews, and William Danforth. They started with $12,000 in borrowed capital in a storefront near the St. Louis riverfront. Their horse and mule feed–a combination of corn, oats, and molasses–was mixed by shovels then poured into 175-pound sacks, which were then sewn shut by hand."

Danforth was a man of strong personal convictions. Believing that the 'ingredients' of life were body, mind, personality, and character, he strove to balance all four in his own life and to help his employees do the same. A who felt passionate about healthy living, he boasted that he had never missed a day of work due to illness. It was, in part, Danforth's interest in health that helped him succeed in diversifying from animal feed into consumer goods.

In the late 1800s, most whole-wheat flour had the germ removed, to extend its shelf-life. "In 1898, while traveling in Kansas, Danforth met a miller who had developed a way to prevent rancidity in whole wheat. Packaging the miller's wheat, Danforth named it 'Purina Whole Wheat Cereal,' and began selling it to St. Louis grocers. The name Purina was derived from Robinson-Danforth's company slogan: 'Where purity is paramount.' To promote his new cereal, Danforth approached one of the most famous health spokespersons of the day, a Dr. Ralston. Ralston, whose precepts were followed by thousands, agreed to endorse the cereal only if it were named after him. Danforth quickly renamed the product 'Ralston Wheat Cereal,' and the campaign began. By 1902, there was a whole line of Ralston cereals boasting various health benefits."

Page 20: In 1961 Ralston Purina registers and uses its first food protein trademark: *Edi-Pro.* Protein's *SUPRO* line is introduced in 1967. In 1969 Ralston invests in the Keystone ski operation. Address: St. Louis, Missouri.

2420. *Natural Foods Merchandiser.* 1994. Monsanto sues dairy producers over BGH-free label. April. p. 10.
• ***Summary:*** Monsanto makes Posilac, generically known as BGH or bovine growth hormone. It is suing two dairy companies that do not use BGH on the grounds that, as their promotional materials falsely imply, milk from untreated cows is safer or of higher quality than milk from treated cows.

Monsanto also sent letters to several retailers warning them that their advertising is in violation of federal guidelines. Karen Buckey, a retailer who received one of the letters, says she "will achieve FDA's 'proper context' by saying she is carrying rBGH-free products because her customers want them, because of her concern for the health of the cows and because of possible negative economic effects on small family farmers.'"

"The board of directors for the NNFA voted unanimously to condemn FDA's disclaimer requirements.

"HFA, a San Francisco-based advocacy group, also opposes the FDA guide-lines. HFA is spearheading a campaign to remove BGH-treated milk from school food programs and has run full-page anti-BGH ads in *Time, Newsweek, U.S. News* and other national publications. For more information, contact HFA at 1550 California St., Suite #6, San Francisco, CA 94109, 415-485-1495."

2421. Kevin, Kitty. 1994. Tofu comes of age: Breaking out of the health food store and onto supermarket shelves. *Food Processing* (*Chicago*). June. p. 81-82.
• ***Summary:*** Peter Golbitz, president of Soyatech, estimates that tofu has become an "estimated 4.3 million pound ingredient business." Steve Demos of White Wave expects that in about 2 years tofu will be used by a number of major food processors in meatless entrees. Jerry Maynard, president of Nasoya Foods, suggests the breakthrough might be even sooner. The tofu industry has faced three major problems: (1) Making a more sanitary product, with less bacteria and a longer shelf life. (2) Finding creative ways to use a product with an unfamiliar texture. White Wave has transformed fresh tofu into meatless tofu steak. (3) Turning tofu's bland taste into an advantage. Demos believes that Americanizing tofu by adding it to mainstream American dishes will increase its appeal. It is also excellent when added to Italian, Mexican, and Asian dishes.

Photos show: White Wave's meatless tofu steak. Labels of four of Sharon's Finest's Tofu-Rella cheese alternatives. Address: Assoc. Editor.

2422. Grundland, Howard. 1994. Sprucetree Baking Co. and tofu creme pies (Interview). *SoyaScan Notes.* Sept. 11. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Sprucetree conceptually originated in about 1970 or 1971 in Boston, Massachusetts, where Howard was lived in Michael and Gretchen Swain's macrobiotic study house for 3 years (1970-1973). Howard and his roommate, Gary Gaiser, used to visit Crane's Call, a bakery then owned by David and Loretta Kailin. Crane's Call made a fantastic rice bread in loaves–which was naturally leavened (no added yeast), using brown rice and sweet [glutinous] brown rice as a sourdough starter. David and Loretta inspired Sprucetree, which later made a similar bread.

In 1972 Howard traveled down the East Coast from

© Copyright Soyinfo Center 2021

Boston to Key West, including Baltimore (Maryland) and Philadelphia (Pennsylvania). He remembers meeting Murray Snyder in Baltimore a day or two before Murray left for Brazil to study and teach macrobiotics. After Howard returned to Boston, Stanford Lessans, whom he had met in Baltimore, offered to back him in a bakery. Howard had no previous commercial baking or business experience. In mid- to late 1972 David and Loretta had sold Crane's Call to Howard Goldman and the name was changed to the Queensberry Street Bakery. Howard Grundland now began studying baking with Howard Goldman there. Howard bought a small grain mill and began milling flour at the Swain house. With David's and the Goldman brothers allowing him to use their bakery on the weekends, Howard began making a small amount rice bread in late 1972 or early 1973. There was no sense that Howard was a competitor; he sold some bread to Erewhon–as did Queensberry. Early in the summer of 1973 Howard packed up his Volkswagen bus and moved to Baltimore to start his bakery. He lived in a macrobiotic study house run by Miles and Susan Kierson on Park Heights Avenue in Pikesville (in northwest Baltimore) and again met Murray Snyder. Sprucetree Baking Co. started in 1973, and was initially located in the kitchen of the macrobiotic study house. Howard held another job during the day and would bake rice bread 2-3 evenings a week. He would deliver his bread from Baltimore to Washington, DC. In about Sept. 1973 Stanford Lessans bought him a regular commercial "sugar bakery" at 6657 Belair Road in Overlea, a suburb in northeast Baltimore. The company opened its doors in Oct. 1973. During the first year, Howard had no paid employees, but from the first day he was assisted by Michael Hare (volunteer) and about 10 other people who were members of the local macrobiotic and "new-age" communities, including Jeffrey Bergen and Murray Snyder (who was also organizing the East West Foundation). Their first product was rice bread. He has an old label which shows that the ingredients were: Organic whole wheat flour, filtered water, organic brown rice, organic sweet brown rice, and sea salt. Note that it contained no added sweetener. His second product was raisin strudel.

Howard is not certain how the recipe for tofu pie [which resembled a cheesecake] originated. He thinks that "Murray Snyder whipped out his old California recipes, and among his recipes was the recipe for tofu pie." Howard does not where in California Murray got this recipe. Murray can be reached in New York City at 212-308-3818. Howard would guess that the tofu pie was launched in about 1974 or early 1975 (about 18 months after the bakery started on Belair Road), and definitely when the bakery was located on Belair Road bakery. By the time the company moved across town to 4105 Aquarium Place at Reisterstown Road, Baltimore, in 1976 or 1977, they no longer made them using a blender. Howard is quite sure that Louis Fellman began to work for Sprucetree when the company was still on Belair Road. [Louis is certain he began to work for Sprucetree in August 1977]. Howard has an article dated 24 Jan. 1980 telling about the company, located at Aquarium Place, and founded in 1973. He also has an undated article titled "Sprucetree Baking Co.: They do things naturally," by Mike Lipske from about 1974 (the article says he was age 25) published in the *Baltimore Sun.* The tofu pies are not mentioned but Sprucetree had just purchased a cookie machine, and Laurelbrook Foods in Bel Air, Maryland was located nearby.

Sprucetree was the first company that Howard knows of that made this kind of product; many companies later copied the product. The product was originally named either Blueberry Tofu Pie or Tofu Blueberry Pie. At times the made either blueberry or strawberry, but the strawberry was usually too costly. "Michio Kushi would shake his head; he couldn't believe that we were blaspheming tofu to such a degree. Aveline Kushi used to eat our tofu pies frequently." Howard does not remember whether tahini and lemon juice were part of the original recipe–but he thinks they were. The tofu pie was not a major income earner for Sprucetree. Breads and cookies made most of the money. "My concept of Sprucetree was to have everything that you could want at a bakery presented in a natural foods form, and as close as possible to macrobiotic quality. We made eclairs (with tahini, apple juice, lemon juice and vanilla filling–no eggs) and doughnuts. We developed many creative, unique products." They also made an apple-tahini pie, seasonal strawberry and pumpkin pies, and a fruitcake for Christmas–all pretty much "macrobiotically correct." The tofu pies were always sweetened only with maple syrup (never with honey), which was expensive, though labor costs were not high. But they were priced to be sell at a profit. Sprucetree made both 8-inch diameter pies (which had the filling on a Graham-cracker type crust made of 2 types of whole-wheat flour, barley malt syrup, safflower oil, and a little salt) and a 3-inch tart (with no crust in a little pie tin), sold refrigerated. The filling was mixed in a 60-quart Hobart VCM, poured into a gallon measuring cup, then poured into the tins. After being baked and cooled, the blueberry topping was put on. The big pies were packaged in pie boxes with a clear window; the individual tarts were initially overwrapped with Saran wrap, later packed in a sealed package. They sold the whole pie, mostly to stores, which generally sliced them and sold them by the slice, either at a juice bar or re-wrapped and refrigerated. Some people would buy whole pies.

The tofu pies were the only product in which Sprucetree used tofu, but they did use soy flour in a 7-grain bread, and they made a sesame-soy bread (based on whole wheat with soy flour, and sesame seeds on top).

By the mid-1980s the natural baking industry had become very competitive. The trend was toward both better quality products and less concern about quality (such as more use of white flour and yeast). Matthew's was becoming very popular and affecting his sales. The company was

© Copyright Soyinfo Center 2021

forced out of its location at Aquarium Place in about 1985-86 and had to move to a shell at 4200 Mortimer Ave. Sprucetree finally went out of business in about Feb. or March of 1988. Address: P.O. Box 13, Hampstead, Maryland 21074. Phone: 410-239-9791.

2423. Weber, Marcea Newman. 1994. Re: History of early work with tofu and tofu cheesecakes in America. Letter to William Shurtleff at Soyfoods Center, Oct. 4–in reply to inquiry. 3 p. Typed, with signature.

• ***Summary:*** Marcea was first introduced to tofu in New York City in the late 1960s or early 1970s. She was living on West 72nd St, and was baking cakes, cookies, and slices for some of the health food shops and restaurants in New York City. "One day I happened to venture across a tofu factory that was located in a shop front on Amsterdam Avenue between 74th and 75th St. in Manhattan. [Note: This was K. Tanaka & Co., 326 Amsterdam Ave. Owner: Mr. Eisuke Murakami.] I went in to get a closer look at what they were doing and asked if I could stay and watch. They asked me to come back the next day as they were finishing their work for the day. So the next day I arrived there not knowing what on earth was in store for me, but the feeling to seek out this procedure was quite clear inside of me. They gave me some black rubber boots to wear as there was water everywhere and invited me in to watch the whole operation. It was very primitive according to today's standards. Everything was done by hand, from the grinding to the cooking and pressing, nevertheless I went through the whole tofu operation from start to finish. Being my first experience watching tofu being made, I didn't know anything else to compare it to.

"Then as I inspected it more closely, I began to think of cheese and as I was not eating dairy foods any longer perhaps the desire to eat some cheese affected the way I perceived it and so I took some home and thought I would like to experiment with it. I started to bake a 'cheesecake' with it although at the time I was just putting together ingredients. You see I had never baked a cheesecake in my life and for that matter most of what I did I did without having to experiment at all. The first time I put different ingredients together something delicious came out of the oven.

"The cheesecake worked and from then on I started to experiment with different flavours and toppings and then started to ask some of the natural food restaurants of they wanted to buy some 'Tofu Cheesecake' or 'Tofu Cream Pie' (I don't really remember which name I preferred). I don't really know where the inspiration came from and what it was all about. I was, after all, baking for some of the health food stores already, making things like O'george bars, which were peanut and raisin and honey bars, and selling them and cookies and other slices as well on a pushcart which I operated on the weekends."

What was the inspiration that led Marcea to develop so many remarkable tofu recipes in *The Sweet Life* (1974)? "I feel that my mother's influence had a great deal to do with it, although she did not bake cheesecakes, but I feel that the recipes kept coming through me, and I don't really understand how except I felt like a medium at times who was doing it without thought. My mother was a very good baker, although most of her baking took the form of honey cakes, cookies, and apple pies. I did spend many long hours watching her bake many kinds of delicious Jewish pastries and helped her lick the bowl clean.

"I began supplying fruit cakes to Souen [a restaurant at 2444 Broadway, between 90th and 91st Street, in New York City] when they first opened and as I knew the owners they asked me to help in the sweets department. In 1971, as soon as I perfected the 'Tofu Cheesecake' or 'Tofu Cream Pie' I began to sell it at the restaurant. As far as I know, this was the first product of its type sold in the U.S. I lived on West 72nd Street, near the restaurant, and I did spend lots of time there developing recipes and helping out." Note that Marcea developed this tofu cheesecake three years before her book *The Sweet Life* was published.

"The Cauldron [sic, Caldron] (a restaurant started by Marty and Glory Schloss and his mother) also had a [non-dairy] cheesecake, which I think had tofu as a major ingredient and which was slightly different than mine. I remember trying to figure out how they made theirs but of course it was a trade secret. I'm not sure when their cheesecake was introduced. I remember seeing it either after I developed mine, or at about the same time." Marcea also sold her tofu cheesecakes at Erewhon. She was not aware that Kathy Bellicchi ever made a tofu cheesecake. She does not remember the names of the first owners of Souen.

Marcea moved to Boston, Massachusetts, in about mid-1971. Other people in Boston at the time were Bill Tara, Paul Hawken, Dora Hawken, Murray Snyder, Daniel Weber, and Rebecca Wood.

Marcea and Daniel Weber met in Boston in about 1972, and both studied macrobiotics. They left Boston in 1974 to live in England because Daniel wanted to study acupuncture there. Address: 56 St. Georges Cres., Faulconbridge 2776 NSW, Australia.

2424. *Soyafoods* (*ASA, Europe*). 1994. Sunrise Health Foods. 5(3):5. Autumn.

• ***Summary:*** Soya Health Foods Ltd. is located at Unit 4, Guiness Road, Trafford Park, Manchester M17 1AU, England. Phone: +44 61 872 0549. Under the Sunrise brand the company has a range of soya products including natural and flavored soya drinks, vegetarian burgers, non-dairy products such as Ice Dream (a non-dairy frozen dessert in 6 flavors), Ice Yoghert (a non-dairy frozen dessert in 2 flavors), and Carob Ices. Their spray dried soymilk powder made from pure soymilk is a suitable ingredient for use in non-dairy cheeses, tofu, yogurts, frozen desserts, etc.

• ***Summary:*** "Cleary [1981] reports that Dr. Ralston developed a following of 800,000 people." His real name was Albert Webster Edgerly. Address: Gale Group.

2426. Weber, Marcea Newman. 1995. Re: Work with natural foods and tofu in England and Australia. Letter to William Shurtleff at Soyfoods Center, Feb. 12–in reply to inquiry. 3 p. Typed, without signature.
• ***Summary:*** Marcea and Daniel Weber met in Boston in about 1972, and both studied macrobiotics. They left Boston in 1974 to live in England because Daniel wanted to study acupuncture in one of the acupuncture schools in Buckinghamshire. They stayed there for 6 months and then moved to London, where they connected with Bill Tara, who was working at starting an East West Centre. Marcea began teaching cooking classes and started a Wholefoods Bakery with an English woman. This continued for 1½ years.

During this time Marcea met Bruce Gyngell, an Australian who met Michio Kushi while he was in London. Michio suggested that Bruce change his diet, so Bruce came to the East West Centre and studied cooking. He was looking for a cook for himself. He was at that time living in England and working for one of the television studies. He was the person responsible for bringing television to Australia, so he was quite influential. He wanted macrobiotics to find its way to Australia, so he invited Marcea and Daniel to visit Australia and bought them each a round-trip ticket. He said they could see if they wanted to stay and start a centre in Australia. So in 1976, after visiting Japan and Oki sensei and his Oki Yoga Dojo in Mishima, Japan, for several weeks, they arrived in Australia, and have lived there ever since. In December 1982 Marcea and Daniel Weber were married in Australia.

"The Soy Bean Factory was established in Dec. 1978, when Michael De Campo, Yoshiko Wright and Marcea Weber started a company devoted to producing traditional Japanese tofu using nigari (a sea water extract) as a coagulating agent. The fresh Japanese-style tofu began to arrive in the health food stores and Japanese supermarkets around April 1979." As far as Marcea knows, theirs was the first Caucasian-run tofu company in Australia. It was her idea to start the company. Shares were issued at the beginning. Marcea initially invested about $5,000 to $7,000, Yoshiko Wright was brought in to invest about $3,000, and Michael De Campo invested about $3,000 or a little less. His main role was making the tofu and working with Marcea on improving product quality.

"The Soy Bean Factory was located just outside Chinatown and in the central district of Sydney, New South Wales, Australia. We concentrated on making a tofu equal in quality to the fresh tofu sold in Japan today. We were able to service people who wanted fresh tofu by selling it straight from the Factory to the public, as well as packaged in a plastic container with a plastic film on top."

The Soy Bean Factory ceased operation in October 1981. Note: On 8 Nov. 1981 Marcea wrote Bill Shurtleff, on a letterhead of the East West Foundation, 363 George St. in Sydney: "Our factory has shut down, and now one of the Chinese producers [Sin Ma Trading Co., 9 Meeks Road, Marrickville (in southwestern Sydney), NSW] is allowing us to use their premises to make our tofu... We are hoping to start another factory with more capitol behind us. Unfortunately, we were grossly undercapitalized, and this was our downfall." While making tofu at Sin Ma Trading Co., The Soy Bean Factory continued to use its original name, since they had lots of packaging and labels, and no need to change names.

"After getting into the swing of making Japanese-style tofu and using the packaging equipment, we decided to find a source of organically grown soybeans that would produce the same quality tofu as the non-organic beans we had been using. In 1983, after several months and many trials, we finally found a bean that would give almost the same quality, though with a small drop in tofu volume [yield].

"As the demand increased up to as much as 600 pieces per week of tofu (each piece weighed 300 gm), we began to look for larger premises, which were found in Leichhardt (about 7 miles southwest of downtown Sydney), so by early 1982 we had re-located to 355 Parramatta Road, Leichhardt, NSW 2040–and had started making tofu. At that time, Yoshiko Wright and Michael De Campo sold their shares to John Fenwick and me, and the name of the company was changed to Soyfoods Australia. Still having a controlling interest in the business, I hired Tony Wondal, a Chinese man, to help operate the business. A year later (in about 1983), after an increase of sales, John decided to sell his shares to Ross Ebert, and we moved to even larger premises at 14/2 Paton Place, Manly Vale (northeast of downtown Sydney), New South Wales. After a year of production and trying to make soymilk without proper soymilk equipment, I decided to sell my share of the company to Ross Ebert. I was expecting my first child in August 1985 and didn't want to be tied down to any business. So I left the tofu business and never looked back! As far as I know, Ross never put any new products out on the market and so the business only sold tofu–and still does today with new owners.

Note: In Sept. 1986 Ross B. Ebert had just spent $100,000 on fairly sophisticated soymilk equipment. He was selling soymilk fresh to Coles supermarkets in plastic bottles. In Nov. 1988 Lindsay Kotzman purchased the business, which was named Great Australian Pty. Ltd. In July 1990 Jennifer Young purchased the business, still located at 14/2 Paton Place. "The Company is Great Australian Tofu Pty. Ltd., trading as Soyfoods Pty. Ltd."

© Copyright Soyinfo Center 2021

As far as Marcea knows, Sin Ma Trading Co. and Castle Trading Co. were both tofu manufacturers. Address: 56 St. Georges Cres., Faulconbridge 2776 NSW, Australia.

2427. *Desert Sun* (*Palm Springs, California*). 1995. Eden Ahbez, 86. March 8.
• ***Summary:*** Eden Ahbez, age 86, of Desert Hot Springs, died on 4 March 1995 in Palm Springs, California. He was born on 15 April 1908 in Brooklyn, New York, to Anna and George Aberle.

A musician and composer, he wrote the lyrics and music to the well-known song "Nature Boy," sung by the late Nat "King" Cole.

Services will be held at 11 a.m. today at Desert Hot Springs Mortuary. Survivors include his brother-in-law Al Jacobson of Los Angeles.

2428. Folkart, Burt A. 1995. Eden Ahbez; Wrote hit song 'Nature Boy.' *Los Angeles Times.* March 11. p. A-22.
• ***Summary:*** A good obituary. Born in Brooklyn, he died at age 86 on Saturday [March 4] as a result of injuries suffered in an auto accident in the Palm Springs area last month. Ahbez, Gypsy Boots, Gypsy Gene, and other long haired young Nature Boys with more common names like Bob Wallace and Fred Pfister "became the vanguard of the health food faddists who traveled California playing their guitars and dining under the stars on cucumbers, persimmons, and various sprouts while espousing the cleansing and aphrodisiac properties of herbal tea." Ahbez was one of the devotees of Gypsy Boots, probably the most flamboyant of the tightly knit group of troubadours. Ahbez "was of a more scholarly bent." He wrote poems and songs, married and had a child. In 1944 he took one of his poems and set it to music. In 1948 it was given to Nat King Cole, the rising pianist and singer. Cole recorded this tale about "about a very strange enchanted boy" and it jumped to the top of the music charts. "Ahbez estimated that in 1948 alone his royalties would amount to $30,000..." But he said he lived on $3 a week; that all his fruits, nuts, and vegetables cost him.

After his brief fame, he "retreated into relative obscurity, writing his mystical poems and songs, and working on a book while living mostly in Palm Springs." His wife and son are said to have preceded him in death.

Note: According to various Internet sites: He was born Alexander Aberle on 15 April 1908 in Brooklyn, New York, of Jewish ancestry, the son of Anna and George Aberle. No one yet knows how or why he arrived in Los Angeles in the mid-1940s. There he lived a simple life and gradually cultivated a Christ-like appearance and reputation. He married Ann Jacobsen, and they had a child named Zoma. They kept living out under the stars with not much more than a bicycle, their sleeping bags, and a juicer to their name. He claimed to be a vegetarian. Sometime he stood on street corners in Hollywood lecturing on various Oriental forms of mysticism. Address: Times staff writer.

2429. Little, Janice. 1995. Information on Mr. F.G. Roberts of Australia (Interview). *SoyaScan Notes.* March 16. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Janice has been unable to find any information on Mr. F.G. Roberts of Australia, either in the Del E. Webb Library at Loma Linda University, or in any of the North American or Australian obituaries of SDA church members. She checked every single issue. She also talked with the reference librarian of the Heritage Collection at Andrews University (Berrien Springs, Michigan) and searched the OCLC database–again with no results. If anyone had information on him, it should be the Australian branch office or library at the college in Australia. If she gets information on R.G. Roberts, she will catalog it and file it in a "Bio file" under his name.

If Mr. Roberts was a registered member of the Seventh-day Adventist Church, and if he died a Seventh-day Adventist, his death would probably have been reported (by the church of which he was a member) to one of the Union papers. Then her library would have a record of the man. If he was prominent in health food production or as a naturopathic doctor, it would be all the more likely that his death would be reported and recorded in the SDA obituaries.

He could have gone to and graduated from an SDA college and not been an Adventist. That happens all the time. Moreover many non-SDAs believe in and even teach SDA health principles. Address: Reference Librarian, Heritage Room, Del E. Webb Memorial Library, Loma Linda Univ., Loma Linda, California 92350. Phone: 909-824-4942.

2430. Smith, Paul. 1995. The life and work of F.G. Roberts, naturopath, and Australia's first soyfoods pioneer. Part I. The early years, 1892-1926. Bayswater, Victoria, Australia. 6 p. March. Unpublished manuscript. Handwritten. Updated by several interviews with and letters to William Shurtleff in March 1995.
• ***Summary:*** Paul Smith is Director and General Manager of Soy Products of Australia Pty. Ltd. (69 Power Road, Bayswater, VIC 3153, Australia). This company was taken over in Aug. 1936 by an Australian naturopath named F.G. Roberts (lived 1892-1977), at which time the name was changed to F.G. Roberts Health Food Products.

Prior to that it had been known as Willson Health Foods, Naturopath, Dentist & Manufacturer (1932 to Dec. 1935), then Drummond's Health Products (Jan. to July 1936). It appears that Roberts' son, Horace, may have joined Willson in 1932, and that Willson manufactured products for Roberts as well as for himself. In the July 1930 issue of *Nature's Path to Health* (NPH) (Melbourne), Mr. W.H.J. Willson was Melbourne Branch president of the Natural Health Societies and Mr. David Evans was secretary of the Ballarat Branch. F.G. Roberts was the founder and national president. In the

© Copyright Soyinfo Center 2021

Dec. 1930 issue there are advertisements for Drummond's Health Products.

In the Aug/Sept. issue of NPH we find the first "Directory of Health Aids," a consolidation of previously scattered advertisements. In it appears an advertisement for: "Mr. W.H.J. Willson (Melbourne, President of Natural Health Society), 40 Chapel St., East St. Kilda. A nature cure dentist." From Jan/Feb. 1936 to 15 July 1936 in NPH we find: "Drummond Health Food Products, 40a Chapel Street, East St. Kilda." Apparently Mr. Willson was "consulted" by the Dentistry Board about his activities as "Dentist, Naturopath, Food Manufacturer" and forced to choose. It appears he chose dentistry, and sold the factory at the rear of his house, which became 40a Chapel Street. Paul Smith states (28 March 1995): "It appears that Wilson and Drummond manufactured Roberts' products prior to 1936... It appears that Willson began manufacturing products in 1932.

Roberts made the 11 earliest soyfood products sold in Australia. Ron Smith, Paul's father, was a pioneer in commercial soybean production in Australia, starting in the early 1950s.

Frederick Roberts was born on 11 Nov. 1892 in Hobart, Tasmania, the son of William Thomas Roberts and Ellen Bloomfield, both Seventh-day Adventists. He was one of eight children, including Arthur, George, Whit, William Edgar ("Bill"), and Kate. Their order of birth and the names of the other two are unknown. His parents came from Wales. In later life he was best known as F.G. Roberts. The "G.," which initially came from the first name of his wife Gladys, was later changed to "George" to add a little distinction to plain Fred Roberts. He attended primary school at the Hobart Seventh-day Adventist College.

While still in his teens [sic, age 22], Fred Roberts married Gladys Maude Griffiths in 1914 in Hobart, Tasmania. Born on 13 July 1895 in Hobart, Tasmania, she was the daughter of Edley James Griffiths and Susan Jane Mason. No additional details are given in the register of marriages. On the birth record, her middle name is spelled "Maud," but on the marriage record "Maude." Born an Anglican, Gladys became a devout Seventh-day Adventist, in part at least on her husband's behalf. They soon had three children: Fred, Jr. (born 14 Sept. 1911 in Hobart), Horace Eric (born 30 Sept. 1914 in North Lyell; died 1943), and Gladys Ellen (born 25 Feb. 1916 in North Hobart). The children, all born in Tasmania, probably in Hobart, were raised in the Seventh-day Adventist faith. Gladys, the daughter and youngest child, was later married three times, to Messrs. Newitt, Grimes, and Hawken.

In 1912 Fred Roberts began his studies in health and natural therapies as a result of the death of his father, William Thomas Roberts, from a hernia operation. Qualifying as an electrician by trade, he worked in Hobart and Mt. Lyell prior to the outbreak of World War I in 1914. He volunteered for an Engineer Reinforcement Corps but was excused from active service on compassionate grounds since he had married young and already had a young family. Moreover, his wife, Gladys, was strongly opposed to him undertaking military service.

In 1918, he left for England, where he studied at the British College of Naturopathy, learning the natural healing methods used in chiropractic, osteopathy, herbalism, dietetics, homeopathy, and hydrotherapy. During this time, his wife stayed behind in Tasmania with their children.

Returning to Hobart late in 1920, he moved his family to Burnie, Gladys' home town, on the northern coast of Tasmania. There he continued his work as an electrician. In 1923 he established his first clinic in Tasmania, where he engaged in chiropractic and osteopathic work. He often took people into his home for hydrotherapy treatment. Meanwhile he and his wife continued to read and study everything they could get their hands on from England and elsewhere related to naturopathy; this enabled them to steadily expand the areas of their clinical work.

While in the U.K., F.G. Roberts had also worked with ultraviolet and infrared lamps, and he was responsible for introducing them into Australia and using them in the treatment of asthma and certain skin disorders. Next the Roberts family moved to Launceston (in the northeast corner of Tasmania on the Tamar River); there they opened their first rest home or "Health Academy" and added dietary advice and herbal treatments to their range of health services. F.G. Roberts, who was born into a SDA family, was first baptised into the Seventh-day Adventist church in Launceston by Pastor Letts. About 2 years later the Roberts family returned to Hobart, establishing another rest home in Kingston and treatment rooms in Central Hobart, where he began practicing iridiagnosis [iridology, the study of the iris of the eye for indications of bodily health and disease; the term was first used in about 1923], and prescribing diets and herbal remedies, etc. Iridiagnosis became a lifelong study, constantly honed.

He became very skilled at using herbs therapeutically, and at diagnosing people, especially by examining the iris of their eyes. He was very interested in the work of Dr. Harry W. Miller (even though there is no record that the two men met) in China during the 1920s and early 1930s. He was also very interested in children who suffered from eczema, colic (abdominal pain), and mucus problems caused by cows' milk. Continued. Address: Director/General Manager, Soy Products of Australia Pty. Ltd., 69 Power Road, Bayswater, VIC 3153, Australia. Phone: (03) 729-1738 or 729-3611.

Shurtleff in March 1995.

• ***Summary:*** Continued: In early 1927, after his clinic in Hobart was well established, F.G. Roberts traveled to Melbourne (in Victoria, southern Australia), where he became licensed in 1929 and established his first mainland clinic at Latrobe Street and commenced his well-known lectures. Initially his wife kept the clinic and rest home going in Hobart, then she and the children joined him in Melbourne in late 1927, when the family took up residence in Mordialloc, later moving their house and clinic to 232 St. Kilda Road.

In Nov. 1928 F.G. Roberts and his wife, Gladys, from their headquarters in Melbourne, began publishing a magazine titled *Nature's Path to Health* (NPH). The first issue was volume 5, number 5–raising many questions about previous volumes and issues. They continued publishing NPH until 1951-52. Gladys was a major contributor, serving as editor, publisher and even writer of articles when her husband was away. In later years, Gladys was assisted by her sister, Muriel Ackerman. The magazine became Roberts' main vehicle for announcing his lecture and travel plans, advertising his products, and disseminating his ideas about health, naturopathy, and diet.

In 1929 Roberts established the Australian College of Naturopathy and began offering lectures and study courses, including some in chiropractic; he used his home as the organization's first headquarters. Soon more space was required, so the Roberts family moved to 428-430 St. Kilda Road, where they also established yet another rest home.

During 1930, 1931, and 1932 frequent advertisements appear in *Nature's Path to Health* (Melbourne) for F.G. Roberts interstate lecture circuit, giving dates and venues. He established centers in Sydney and Newcastle (New South Wales), Brisbane, Ipswich, Toowoomba (Darling Downs), Maryborough, Bundaberg, and Rockhampton (Queensland). After traveling this northern circuit by train, he would return to Melbourne for several weeks to rest and attend to his duties there, prior to traveling by car to Ballarat and Geelong (both in southern Victoria), where he had also established centers. Then he was away by train to Adelaide (South Australia), and Fremantle (near Perth, Western Australia). He loved to travel, and in all these places he lectured and treated people. He also participated in radio (wireless) interviews and programs. As his students became qualified, he opened clinics and shops to give the public the goods and services he felt they needed. During this time he closed the St. Kilda Road Clinic and opened a new clinic at Post Office Place.

At about this time, F.G. Roberts may well have traveled to the United States. Esmae N. Jackson (born in 1937), the Roberts' granddaughter, recalls vividly that he told her about several visits (at least two) there during her years in primary and secondary school; she does not know when his trip took place but thinks vaguely late 1930s to mid-1940s. She recalls her grandfather mentioning Loma Linda (which was named College of Medical Evangelists from 1906 to 1 July 1961, when it was renamed Loma Linda University). Paul's father, Ron Smith, has no recollection of F.G. Roberts going to the USA between 1948 and 1954. If Roberts did go, there are three good reasons for thinking he may well have visited Benedict Lust (pronounced LOOST; rhymes with "boost"), who was based in New York. First, Lust published (from July 1925 to 1960) a naturopathic magazine titled *Nature's Path* (New York City). In 1930 F.G. Roberts, assisted by his wife (Gladys), began editing and publishing a bimonthly (later monthly) magazine titled *Nature's Path to Health.* He continued to publish it until about 1952. The magazine was published in Melbourne and Gladys kept it going during her husband's travels. Some articles by Benedict Lust appeared in the Roberts' Australian periodical. And articles by other writers, first published in *Nature's Path* (USA) later appeared in the Australian magazine. By Sept. 1939 Lust appears on the magazine's masthead as "American Contributing Editor"–all indicating a spirit of cooperation and friendship.

Second, the Sept/Oct. 1937 issue of *Nature's Path to Health* (Australia) states (p. 14): "The Naturopathic School of Dr. Benedict Lust conferred on F.G. Roberts, N.D., D.O., D.C. [doctor of naturopathy, osteopathy, and chiropractic], of 430 St. Kilda Road, Melbourne, Australia, the Degree of Dr. of Natural Therapeutics." Esmae believes the honorary doctorate arrived by mail, and that F.G.R. was enormously proud of the honour.

Third, Dr. Lust was widely considered the world's leading practitioner of natural healing (naturopathy) at the time, and it seems likely that an energetic, curious, and dedicated man such as F.G. Roberts would have wanted to meet him, to talk with him about their mutual interests, and perhaps to study Lust's organization, publications, and healing methods. Note: A careful examination of Dr. Lust's magazine might mention a visit from Roberts.

During the 1930s Roberts began to import a range of packet herbs, tablets, and other herbal remedies from Potter and Clark in London.

In 1934-35 F.G. and Gladys Roberts established a restaurant named the Curative Dining and Health Service, on the 2nd floor, 300 Little Collins St., Melbourne. It was renamed Cafe Naytura (see ad in 15 Aug. 1936 NPH). (Note: In 1943 Sanitarium Health Food Co. {SDA} had a cafe and natural food store at 293 Little Collins St., Melbourne). During the 1950s it was located in the basement at this same address and run by the Cutting family. It continued at this address until the late 1970s, when it was purchased by Don Newsome, a pharmacist, and moved to its current Bourke Street Mall location. Don used his experience to establish the Naytura Health Food Section nationwide through the Safeway (Victoria) / Woolworths supermarket chain. The Bourke St. store is used to evaluate products for potential supermarket sale and the basement restaurant still carries on the tradition of the Roberts' 1934-35 Cafe.

© Copyright Soyinfo Center 2021

In the early 1930s, F.G. Roberts became interested in Mr. Willson's food manufacturing business–probably because his son, Horace, worked there. It may have been that Roberts took over the business to keep Horace in a job. F.G.R. never had the time or any real interest in running it.

In the Aug. 15, 1936 issue of *Nature's Path to Health* we find the first advertisement for "F.G. Roberts' Health Food Products, 40a Chapel St., East St. Kilda." The same appears in the "Directory of health aids." He had acquired this health food factory which had been previously named Drummond Health Food Products. St. Kilda was a beach-side suburb of Melbourne, Victoria, Australia. A photo of this original red brick factory appeared in the May-June 1937 issue of *Nature's Path to Health* (p. 22); an original hangs on the office wall at Soy Products of Australia. The factory began to pack a variety of herbal products, and to manufacture some new foods, all to service the needs of Roberts' shops and clinics. Many herbs were grown locally in Australia to supplement the supplies imported from England. It was during the mid-1930s that many of the products still manufactured today by Soy Products of Australia Pty. Ltd. under the Roberts brand name were first formulated and developed. By the late 1930s F.G. Roberts, his teachings, and his products were known nationwide. From 1951 onward Potter & Clark's herbs were replaced by herbs mixed and packaged in Australia using some imported ingredients.

During this period the Australian College of Naturopathy (which Roberts had founded in 1929) became more closely affiliated with the British College and became known as the British and Australasian College of Naturopathy; the two colleges were run on the same standards and principles.

The Roberts' children had now grown up and were taking an active interest in the business, training for and working in key positions. The eldest son, Fred, Jr., and the daughter, Gladys, worked in the clinics. Fred, Jr. later moved to Brisbane and his son, Peter, carries on the family tradition, practicing as a chiropractor. Mr. Roberts was good at treating people and lecturing, but was less interested in managing the food factory, a role that his youngest son, Horace Roberts, fulfilled. Horace also managed the shop at the Post Office Place Clinic. Horace was instrumental in transforming his father's ideas into formulations and products. Starting in the mid-1930s, and continuing until the 1950s, F.G. Roberts developed a number of health food products, which were sold throughout Australia. They were hand-mixed and packaged at his factory, F.G. Roberts Health Food Products, in St. Kilda and from 1933 he was advertising them nationwide in his magazine *Nature's Path to Health.*

Several of these products contained soy flour. Prior to 1950 he launched and sold the following soy products, listed here is the order they were first advertised in his magazine: (1) Soy Wheat Macaroni (Aug. 1936); (2) Soy Bev (tea or coffee substitute; Nov. 1937) was made primarily from ground roasted soybeans and roasted milled chicory; Paul thinks it was first introduced in about 1935-36; (3) Soy Flakes (Dec. 1937); (4-5) Roberts' Soy Nut Roast; Soy Beans in Tomato (in glass, Oct. 1938; canned June 1940); (6) Malto-Soy Drink (tea or coffee substitute; Sept. 1939); (7) Soy Milk Compound (Sept. 1939; originally a mixture of soy flour, malt, lactose, and nonfat dry milk [skim milk]). This product is still made today in modified form under the name Soy Compound; Paul thinks it was introduced in about 1933 or 1934. It was made using defatted soy flour imported from America; (8) Soya Choc-Malt (Jan. 1940), renamed Soya-Choc in Aug. 1946; it was the Soy Milk Compound plus natural cocoa; Paul thinks it too was introduced in about 1933 or 1934; (9-10) Roberts Soy Nut Brawn, Soy Nut Cheese (May 1940); (11) Vita Elm (1948). This early and widely advertised herbal product was being advertised by May 1935 in *Nature's Path to Health* as a "vitalizer" that can give "Glorious Health." Vita-Elm, which always contained slippery elm, was based on an old English formula that went back to the 1750s; the company still makes the product today. Published ads from 1935, 1936, and 1949 said it contained "the Germ of Life of Wheat, Oats, Barley, Rye, Maize" (and slippery elm) but Paul is sure that somewhere prior to 1948 it also contained small amounts of soya flour. Esmae Jackson believes that the soy was added to Vita Elm in 1937, when Roberts first became interested in it. Continued. Address: Director/General Manager, Soy Products of Australia Pty. Ltd., 69 Power Road, Bayswater, VIC 3153, Australia. Phone: (03) 729-1738 or 729-3611.

2432. Smith, Paul. 1995. The life and work of F.G. Roberts, naturopath, and Australia's first soyfoods pioneer. F.G. Roberts Health Food Products, and Ron Smith. Part II. Mid-1930s to 1949. Bayswater, Victoria, Australia. 6 p. March. Unpublished manuscript. Handwritten. Updated by several interviews with and letters to William Shurtleff in March 1995.

• ***Summary:*** Continued: It is not clear when and how F.G. Roberts first learned about soybeans and soy flour. Paul suspects that he read about Dr. Harry W. Miller (a Seventh-day Adventist doctor) and his pioneering work with soyfoods in China, starting in the 1930s. "There is definitely some connection and I believe it is highly likely that F.G. Roberts met Harry W. Miller." Or the two men may have corresponded. If Roberts visited Loma Linda, California, he would surely have visited Loma Linda Foods, which made a large range of early soyfoods: In 1922 Loma Linda introduced–Smokene (a seasoning based on roasted soy flour). 1934–Soy Mince Sandwich Spread, Soymilk, VegeCheese, Soy Bean Spread, Breakfast Cup (coffee substitute), Soy Wafers, Soybeans with Proteena and Tomato Sauce. 1936–Soy Beans (plain, canned). 1938–Gluten Burger (with soy flour). 1940–Soy Beans with Tomato, Soy Beans with Proteena, etc.

During the 1930s, F.G. Roberts and others were

© Copyright Soyinfo Center 2021

experimenting with soybean cultivation in Australia on a small home-garden and experimental level. An article in *Nature's Path to Health* (15 July 1936, p. 35-36) gives details. Roberts concluded: "The Soya Bean has been very successfully grown in Australia." But there were no commercial crops until the 1950s.

In 1940 Horace Roberts, the youngest son, left the company when he volunteered for service with an ambulance corps being formed in Melbourne. Serving as a non-combatant male nurse during World War II, he was sent to Singapore. With Horace's departure, F.G. Roberts' food production business began to languish; the man who had managed the plant and attended to daily details was gone. Although the company's soy products were available during the war, it continued to languish until Ron Smith entered the business in 1948.

Meanwhile, during World War II, with the clinics and college all well established and running smoothly, F.G. Roberts turned some of his time and attention to a property at Panton Hills, an outer Melbourne suburb, between Eltham and Lilydale, where a home was built; he grew fresh fruit, herbs, and vegetables, and practiced composting. This provided family, friends, and pupils from the college with a place to visit and relax. It never made the expected profit.

Shortly after World War II ended, the Roberts family received devastating news. Their youngest son, Horace, had been captured in Singapore and interned by the Japanese in Changi, their prisoner of war camp there. He had died in October 1943 in Burma (working as a forced laborer on the Thailand-Burma Railway)–unbeknownst to his family until after the war had ended. So shattered was F.G. Roberts by the death of his son that he began to lose interest in the shop and the factory. The shop and clinic in the Post Office Place was closed and the family moved to Malvern Road, Prahran. The factory continued to run indifferently while F.G. Roberts put most of his time and energy into public lectures, the college, and seeing and treating patients.

Esmae recalls that for many years on a Thursday [sic Tuesday] night, often weekly, F.G. Roberts had addressed the public about "Health Matters" at the Athenaeum Art Gallery Hall at 188 Collins Street, Melbourne. Esmae personally attended many of these evenings, singing, playing the piano, and on one occasion addressing the audience with a speech of her own about diet and health.

In 1946 Ron Smith first came in contact with the F.G. Roberts at the Athenaeum. Vincent Ronald "Ron" and Mabel Smith, both originally from Western Australia, had married and settled in Melbourne after World War II. Ron was born on 10 December 1918 at Boulder (near Kalgoorlie), Western Australia. Mabel was born on 16 Dec. 1919 in Bunberry, also in Western Australia. Both in their late 20s and dogged by ill health, they first attended several of F.G. Roberts' lectures and later went to him for advice and treatment. Ron, in particular, was slightly built, had worn glasses for years, and had never enjoyed really robust good health. F.G. Roberts prescribed an exercise program and made radical alterations to the Smith family diet. Almost immediately the Smith family's health began to improve. Ron's physique developed and his eyes improved to where he was able to discard his glasses for nearly 30 years. Thus began a long and ongoing association with the Roberts family.

F.G. Roberts owned Green Island, a small island just off the coast of Queensland at Mackay, near the Great Barrier Reef; you could walk across at low tide. There he built a retreat to which he took his friends and pupils to enjoy the sea air, balmy climate, and the cleansing diet of fresh tropical fruits–pineapples, papayas, bananas, coconuts, and mangoes. Ron Smith enjoyed unforgettable visits with the Roberts at Green Island several times between 1948 and 1954.

F.G. Roberts had an enormous enthusiasm and an almost boundless capacity for work. When he got a bit tired or run down, he would switch off and head for Green Island for a few weeks of relaxation. He was good fun and good company to go away with. He would buy a case of good quality ripe oranges and, with his guests, would enjoy fresh squeezed orange juice and half a ripe pineapple (freshly sliced with a sharp machete and handed around to all present) for morning and afternoon tea. He practiced what he preached.

The Roberts presided over the prenatal and antenatal care of Mabel Smith during the birth of her two sons in 1949 and 1950 with beneficial results to both infants and mother. The Smiths became lifelong converts to Mr. Roberts' philosophy. Note: In 1995, at age 76, Ron Smith still comes to work at the company each day, and often puts in a 10-hour day as managing director of the company.

In early 1948, after several unsuccessful attempts to start his own business, Ron Smith went to work for F.G. Roberts. He worked as an employee at the factory at 40 Chapel St., St. Kilda, increasingly taking over the daily management and running of this operation–formerly the responsibility of Horace, the Roberts' son, who died in the war.

Although a great healer and publicist, F.G. Roberts was not strong in the technical aspects of food production or marketing. The factory at 40 Chapel St. was more like a cottage industry. It was small, cramped, and labor intensive; mechanical aids were either non-existent or very primitive. Output was small and most products were mixed and packed by hand.

Ron sparked the resumption of manufacturing, even though wartime rationing was still in place and obtaining permission to import anything was difficult. Paul recalls (28 March 1995): "Roberts, himself, was a dreamer, and far too preoccupied with travelling, treating patients, lecturing, and racing on to the next new idea. He lacked the patience, persistence, and stability to run a manufacturing business. His skills and interests lay elsewhere."

F.G. Roberts was an osteopath, naturopath, registered

© Copyright Soyinfo Center 2021

dietitian, iris diagnostician, and had several other natural healing qualifications. He studied by attending courses in the U.K. and by correspondence. He was first registered in Australia as a "Consultant Dietitian" in 1942-43. Continued. Address: Director/General Manager, Soy Products of Australia Pty. Ltd., 69 Power Road, Bayswater, VIC 3153, Australia. Phone: (03) 729-1738 or 729-3611.

2433. Smith, Paul. 1995. History of F.G. Roberts Health Food Products and Soy Products of Australia Pty. Ltd. The work of F.G. Roberts and Vincent R. "Ron" Smith. Part III. 1950-1959. Bayswater, Victoria, Australia. 6 p. March. Unpublished manuscript. Handwritten. Updated by several interviews with and letters to William Shurtleff in March 1995.

• ***Summary:*** Continued: In 1951-52 the company launched Australia's first full-fat heat-treated (dry-roasted) soya flour, which was named Soyvita. Prior to 1954 this flour was made from soybeans imported from China and the USA. From 1951 onwards, the company began mixing and packing its own range of herbs.

In May 1952 Ron Smith and F.G. Roberts became equal partners in the ownership of the food factory. In May 1954 Ron Smith bought the entire food processing business from Mr. Roberts, thus ending the partnership. Mr. Roberts kept some of the herbal products and tablets. In June 1954 Smith incorporated a proprietary company under the name "New Life Products Pty. Ltd." and in March 1958 changed the name to "F.G.R's Health Food Products Pty. Ltd."

Shortly after Ron Smith bought F.G. Roberts' Health Foods in 1954, he did two other important things: First, he bought a 3½-acre piece of land at 69 Power Road, Bayswater, Victoria–where the company is located. Bayswater is an outer Eastern suburb of Melbourne at the foothills of the Dandenongs between Croydon and Boronia (north-south), Montrose/Kilsyth and Wantirna (east-west). The property was a green-fields industrial site surrounded by orchards and daffodil farms, with no utilities connected. On this property he built a 100-square-meter storage shed, which was used to store the year's supply of soybeans in hundredweight (112 lb) Hessian sacks. The beans were then taken in small quantities to Hawthorn for dry roasting and milling as required. They were cleaned, bagged, and delivered by semi-trailers, and unloaded by hand.

Second, Smith moved the entire company from St. Kilda to larger premises at 146 Burwood Road, Hawthorn (an eastern, inner city suburb of Melbourne), Victoria–about 45 minutes drive from 69 Power Road. Initially the roaster and mill were at Burwood Road.

Not long after the Smiths purchased F.G. Roberts' food business, they also purchased a new home at Blackburn South on a bare, treeless piece of land. One Sunday, Roberts appeared with four Italian laborers and in a single day transformed the yard, planting zinnias, marigolds, etc. Paul still remembers vividly the riot of color the next summer. According to Ron Smith, F.G. Roberts was a great gardener, and wherever he went (as at homes in Kew and Panton Hills) he surrounded himself with a magnificent garden of herbs, annuals, vegetables and fruit trees.

After 1954, due to family and business pressures, contact between the Smith and Roberts family began to diminish. From all accounts, F.G. Roberts was a lively, congenial, and stimulating companion–a man of rare charm and brilliance. He was extremely widely read in all matters related to natural healing, and a learned man in every sense of the word. He also maintained an active correspondence with naturopathists and herbalists all over the world, even maintaining contact with German and Austrian colleagues during World War II. He avoided attracting attention to himself, and though he cured many people, he made no claims to such cures. He merely went about his chosen profession of helping and healing people. F.G. Roberts was active and healthy throughout his life, working right up until two months prior to his death in 1977 at age 84.

Ron Smith had fine mechanical and technical skills, and he began to expand and automate the factory, even though he was restricted by a shortage of money and the small market for health foods at that time–all the while faithfully preserving the spirit and intent of his mentor's work and often expanding on his legacy. He rebuilt old machines and adapted other machines to new uses. By studying other people's ideas, he was able to modify and adapt them to his own operation at a fraction of new commercial cost. He was an innovator, constantly improving the plant over the years to achieve greater efficiency and output. A stickler for regular maintenance and cleaning to keep the plant running smoothly, he required that meticulous records be kept of bearing performance, greasing routines, etc. Every Friday was devoted to a thorough cleaning of the plant and all its equipment. A keen browser of the technical literature, he built substantial files on all sorts of drying, milling, mixing, dust extraction, and metering equipment and systems.

During the 1950s Ron Smith, frequently accompanied by his two young sons, Paul and Ross, often visited Robert Hutchinson's Flour Mill at Glenroy and H.J. Heinz's new factory at Dandenong (both in Victoria), Australia. From these modern, state of the art plants, they gleaned valuable inspiration.

Ron Smith also carried on much valuable pioneering work, especially in the area of commercial soybean production in Australia. One of the company's major products, Soy Compound, was originally manufactured using defatted soy flour imported from the USA. This flour was often difficult to import during the 1950s, and Ron Smith began to have ongoing problems because of the flour's variable quality, flavour, texture, purity, and colour. So he asked a basic question: "Why can't we make soy flour in Australia?" Ron's research showed that there were soybeans

© Copyright Soyinfo Center 2021

locally available in Australia, so early in the 1950s he began to work with several farmers on experimental production of soybeans, first in the Kingaroy district of Queensland, then soon throughout New South Wales and Queensland. From 1951 to 1957, Ron purchased soybeans from Elmo W. Semgreen of Kingaroy, from Kel Maundsley from Murgon (near Kingaroy). Incidentally, Semgreen married one of F.G. Roberts nurses and became interested in soybeans through Roberts. From 1954-55 Ron also purchased soybeans from the Young family (of Chinese extraction–pioneers of commercial soybean production in Kingaroy), who grew them under contract specifically for him. Experimental plots in the Smith's backyard at Blackburn (a Melbourne suburb about half way between Hawthorn and Bayswater), in 1953, 1954, and 1955 produced healthy plants, flowers, and pods full of beans. Unfortunately temperatures and sunlight hours were not adequate at this location, so the beans did not mature and dry properly. Using Australian-grown soybeans, Ron Smith initially continued to use the small and primitive batch roasting and milling system located at the Burwood Road plant, which had been developed to process the imported beans. This improved the quality, reduced the cost, and put the raw material supply directly into the hands of the Smith family.

Early in 1954 the company first began to process Australian-grown soybeans; the first product made from them was Soyvita, a dry-roasted soy flour, similar to Japanese kinako. As soon as the company began to use locally grown soybeans, the soy processing business began to develop steadily as other local companies preferred local, timely production to the costs and difficulties associated with the imported product(s).

From the mid-1950s to the mid-1980s the company purchased most of its soybeans from the Darling Downs, an agricultural region in Queensland. The construction of huge man-made irrigation lakes and bores on the Darling Downs increased soybean yields and reliability–and the area was closer to the SPA plant. John Bligh, the Todd family, and the Behrendorf family were among the company's main suppliers for many years.

In about 1954 H.J. Langdon, a major importer, exporter, and seller of food ingredients, took an interest in buying soy flour from Soy Products of Australia. Starting in 1955 they had it private labeled under the brand name Soybake. It was extremely gratifying at the time to enjoy the support in marketing and distribution of soy flour by such a large and well established company, founded in the mid-1800s.

Brockhoff, a major Australian biscuit manufacturer established in Victoria since 1880 (acquired by and now part of Arnotts Biscuit Group of Companies, which is now owned by Campbells), started to buy soy flour and contract other products and services from F.G. Roberts. Shortly afterwards, Heinz began to use the soy flour as a thickener in many of their soups; they continue to do so to this day, exemplifying the gradual acceptance and increasing usage of soy for both technical (functional) and nutritional reasons in many varieties of popular foods. As Australian companies heard that soy flour and related products were being made in Australia, they decided to buy locally rather than import. Even Australian politicians helped; during the 1950s they were very concerned about the country's balance of trade and avoiding foreign debt, and they worked to make Australia more self sufficient.

In June 1957 Ron Smith founded Soy Products of Australia Pty. Ltd., and in Sept. 1957 had the new company formally registered and incorporated. So at that time he owned two active food companies, with headquarters at 146 Burwood Road, Hawthorn, and soybeans storage at 69 Power Road, Bayswater, both in Victoria.

During the 1950s the company continued to introduce new products. It canned soybeans, continuing F.G. and Horace Roberts' pioneering work in 1939-40, and lima beans, and bottled cider vinegar. In 1953 the company began exporting Soy Compound to New Zealand and continues to do so to this day (1995).

Demand for the dry-roasted soy flour and grits grew steadily over the years. In 1957-58, after electricity, gas and water services had been connected at Bayswater, the rather primitive roaster and then finally the mill were scaled up moved to the shed at Bayswater. The main mixing, packing, dispatch, and administration operations continued at Hawthorn. Continued. Address: Director/General Manager, Soy Products of Australia Pty. Ltd., 69 Power Road, Bayswater, VIC 3153, Australia. Phone: (03) 729-1738 or 729-3611.

2434. Smith, Paul. 1995. History of Soy Products of Australia Pty. Ltd., and the work of Vincent R. "Ron" Smith. Part IV. 1960-1979. Bayswater, Victoria, Australia. 6 p. March. Unpublished manuscript. Handwritten. Updated by several interviews with and letters to William Shurtleff in March 1995.

• ***Summary:*** Continued: By 1961 roasted whole soy flour was being produced at Bayswater 7 days a week, almost 24 hours a day. So that year an American consulting engineer, George Lloyd Levin, from Minneapolis, Minnesota, was hired to help design a much larger and more sophisticated, 4-story flour mill (including dehulling, steaming, drying and grinding) at 69 Power Road, Bayswater, to the rear and adjacent to the 1954 shed.

On 1 April 1963 this mill began to manufacture soy flour using a new process in which debittering has replaced dry roasting. Previously, the company was roasting and milling whole soybeans. Now they crack and dehull whole soybeans, before they steam, dry, and mill them. This new mill could produce more soy flour in one day than its predecessor could produce in a week using previous methods–and the quality and flavour were infinitely better. Eventually (in 1969-70)

© Copyright Soyinfo Center 2021

the bagged beans were replaced by the first bulk handling system. The plant and its processes have been continually improved in the areas of intake cleaning of the soybeans, throughput, and quality control of fineness, product purity, and microbiological standards, ever since the initial plant construction.

The 1964 *Soybean Blue Book*, in the section titled "Foreign processors" (p. 96), contained its first entry for Soy Products of Australia Pty. Ltd., at Woodmason Rd., Bayswater, Victoria. The top men were T.W. Harvey, V.R. Smith, and H.G. Eakins. Storage capacity: 20,000 bushels. Manufactures "Soyvita" full-fat soy flour. Approximate soybean operations 50% [i.e., 50% of its processing was done on seeds other than soybeans].

In 1965 Ron and Mabel Smith developed and manufactured two soyabean meat substitutes–Soya Bean Luncheon Loaf, and Savoury Roast–for Bellevue Health Supplies, as part of their product range within F.G. Roberts' Health Foods Proprietary Ltd.

By 1968 the contract milling and health food manufacturing operations at 146 Burwood Road, Hawthorn, had also outgrown the available space. So in April 1968 these operations were moved into newly expanded and constructed premises, including a new warehouse and manufacturing and packaging area in the Bayswater plant. Since 1968 the facilities and technologies at Bayswater have continued to expand and develop.

In the late 1960s and early 1970s the company pioneered Muesli manufacturing in Australia, working with Vitamin Supplies, another established and well-known Australian health food company.

By the early 1970s Soy Products of Australia employed more than 30 people and manufactured an extremely wide range of products. Unfortunately, many of these were labor intensive, and the company lacked the resources to finance the enormous capital investment required to automate them and to market them at a much larger scale. Other products, such as the herbs, were under increasing pressure from the medical profession and health departments, and were becoming increasingly difficult to market. With the enormous social and economic changes which have occurred in Australia since the mid-1970s, many of these products were no longer viable and, reluctantly and sadly, the Smiths had to scale down and lean up their operation. They had to concentrate on those products which they could manufacture and pack efficiently with their facilities.

On 28 Aug. 1973, F.G. Roberts was rebaptised into the Seventh-day Adventist (SDA) Church at the East Prahran Memorial Church (a suburb of Melbourne, Victoria) by J.B. Connolly and H.B. Christianson. F.G.R. and his wife were parishioners of the Windsor and East Prahran SDA churches and congregations.

At least four of the early soyfood products continued until the early 1974-74 under Ron Smith's direction: Beans in Tomato, Soy Bev, Soy Choc, and Soy Compound. In 1972, with the election of a labour government, labor and other costs soared. Most hand-made labour intensive products were discontinued at this time. The 2nd shift was discontinued and the number of permanent employees was reduced from 35 to 15, and have continued to decline ever since.

In 1974 the company F.G. Roberts' Health Foods Pty Ltd. ceased trading, following a rationalisation of the Smith family's affairs. The retail products and F.G. Roberts brand name were retained by "Soy Products of Australia Pty. Ltd." and continue to be manufactured by the company to this day (1995).

F.G. Roberts, a true pioneer in the fields of food, health, and naturopathy (natural healing) in Australia, died on 17 Nov. 1977, at "Corinella" Hospital, a Seventh-day Adventist (SDA) hospital adjacent to the SDA camp at Nunawading, an eastern suburb of Melbourne between Blackburn and Mitcham. Roberts was buried on 19 Oct. 1977 at Springvale, Cemetery.

His wife, Gladys, died less than a year later, on 12 July 1978, and was buried beside her husband at Springvale.

Roberts' daughter, Gladys, now (1995) resides at Corinella Retirement Village.

Was F.G. Roberts a vegetarian? Not strictly. Paul recalls: "He loved fish. A whole baked or grilled flounder was a favorite at home or dining out in Melbourne. He certainly enjoyed catching and eating the fresh Barrier Reef fish in Queensland. Roberts ate cheese, eggs and meat sparingly. In later life, as an antidote for a blood problem, he enjoyed a grilled steak on a weekly basis. Roberts favored vegetarianism. All his dietary advice advocated high consumption of fresh fruit, vegetables and wholegrain cereals, and sparing consumption of what he termed the 'concentrated' foods: meat, dairy products, eggs, nuts, fats, refined sugars." Address: Director / General Manager, Soy Products of Australia Pty. Ltd., 69 Power Road, Bayswater, VIC 3153, Australia. Phone: (03) 729-1738 or 729-3611.

2435. Smith, Paul. 1995. History of Soy Products of Australia Pty. Ltd., and the work of Vincent R. "Ron" Smith. Part V. 1980-1995. Bayswater, Victoria, Australia. 6 p. March. Unpublished manuscript. Handwritten. Updated by several interviews with and letters to William Shurtleff in March 1995.

• ***Summary:*** In April 1980 Ron and Mabel Smith's eldest son, Paul, abandoned his career as an architect and joined them full time at Soy Products of Australia. Born on 23 January 1949 at Queens Road, South Melbourne, Paul had Architecture, Landscape Design, and Master of Business Administration (MBA) degrees. He had been a director of the company since Aug. 1977. In 1990 Paul became General Manager of the company following Mabel's retirement. In 1981, at the request of William Shurtleff of Soyfoods

© Copyright Soyinfo Center 2021

Center, Paul wrote a brief history of his company (which see). Thereafter, his interest in the company's history steadily grew, and he did extensive research on the subject. Paul is thinking about writing a biography of F.G. Roberts, so he has collected some documents about his life, including articles from *Nature's Path to Health*, published exercise regimes, iridiagnosis charts, and some recipe books. Unfortunately the company has no product catalogs from before 1985. Paul has written parts of the story and he has written an outline article in a 1985 company brochure.

Paul's human sources of information on F.G. Roberts were: His father and mother, Ron and Mabel Smith. Mrs. Gladys Hawken (F.G. Roberts' daughter). Mrs. Esmae Noelene Jackson (1937 -; née Grimes, granddaughter of F.G. Roberts and his wife Gladys; she was reared by both of them). Grahame Newitt (1939 -; chiropractor, grandson of F.G. Roberts, and brother of Esmae). Mr. David Evans, a naturopath who operated F.G. Roberts' clinics at Newcastle and Sydney during the 1930s. Mr. William Pruss, who worked with F.G. Roberts' brother, W.E. "Bill" Roberts in Sydney during the 1930s and 1940s. Nurse Cogan who operated F.G. Roberts' shop and clinic at Ballarat, Victoria, continuously from 1937 until her death in 1993. Numerous patients of F.G. Roberts, including Mr. Shugg (from Surrey Hills, a suburb of Melbourne), Nan Yates (diagnosed with terminal cancer in 1969 and still alive today), and Mrs. Alice Harding (diagnosed with cancer of the liver in 1939, who remarried at age 80 and died in 1987 at age 88).

The "Roberts" brand has been used continuously since F.G. Roberts commenced manufacturing in 1932 at 40a Chapel St., St. Kilda. The "Roberts" brand name applies to numerous other products, developed by Roberts in the 1930s, which have nothing to do with soybeans, e.g. "Molasses," "Alfalfa Tea," "Skin & Healing Ointment," "Vita Balm" (a heat rub), "Malted Bran," cider vinegar, etc., some of which we still manufacture and sell in addition to our soy products.

Apparently many of F.G. Roberts' personal papers and records were either dumped or acquired by Stephen (?) Newitt when Gladys Roberts Hawken sold her home to move into Corinella Retirement Village about 2 years ago. At least one complete set of *Nature's Path to Health* from July 1930 to Jan. 1947 still exists, privately owned, bound in five volumes.

Concerning old advertisements for products made by F.G. Roberts, Paul has original issues of *Nature's Path to Health* from 1935 (2 issues), 1936 (2 issues), and 1937, plus the April-May 1949 issue. He has seen later and earlier issues, and from some of these he has been able to photocopy articles and advertisements.

In the company's archives Paul can find no product labels or brochures which predate the move to Bayswater in 1968. All existing old labels have the Power Road, Bayswater, address, but many of them were copies of earlier labels with only the address changed. Some of the artwork goes back to the 1930s and early 1950s in format and design.

Even though F.G. Roberts was baptised a Seventh-day Adventist, attended an SDA college and married a woman who became a devout member of that church, he left the SDA church for many years during the middle of his life due to a mismatch between his views and the more conservative views held by the church and its elders at that time. There was intense competition between Roberts and Sanitarium Foods, owned by the SDA church. Roberts was a proponent of Norman Vincent Peale's "Power of positive thinking, and was very critical of Sanitarium Foods' use of wheat gluten in their meatlike products, nutmeats, etc. He also felt the SDA diet was too high in starch, sugar, and gluten. Ron Smith recalls that Roberts never discussed the matter with him.

Gladys, F.G.R.'s wife, remained a staunch SDA parishioner and member of the church throughout her life, paying out of her own income to send a number of children to SDA colleges in Australia and Fiji. F.G.R. upheld his wife in her religious beliefs and works, often waiting outside in the car while she and the children attended church. Yet F.G.R. was a very spiritual / religious person judging from the memories of those who knew him, and the tone of his magazine, *Nature's Path to Health.* His granddaughter, Esmae Jackson, was brought up in the Seventh-day Adventist religion and is still a devout, active member of the church. F.G.R. and his wife, Gladys, reared Esmae, due to friction between herself, her mother, and her stepfather. They paid Esmae's fees to attend the SDA college in Oxley Rd., Hawthorn (very near the 1954-1968 factory) and later Avondale College (SDA), where she studied to be a teacher. Esmae speaks very highly of the kindness and generosity of her grandparents for paying her school fees, etc. She apparently had a very happy and secure childhood with them. Paul suspects that F.G. Roberts felt that a religious background was not important to his work and it may have alienated some potential customers. He was widely known throughout Australia, and treated many SDA patients, including several people that Paul knows who formerly worked for the company.

Since 1957, Soy Products of Australia Pty. Ltd. has operated in two parts: One part is a flour milling / commodity type operation, producing heat-treated / stabilised / debittered products including Debittered Full Fat Soy Flour and Grits (the grits come in coarse and fine mesh), Lightly Steamed Full Fat Soy Flour, Heat Treated Soy Fibre Flour (from soy hulls), Stabilised Wheat Germ, and Stabilised Wheat Bran. They also produce heat treated wholegrain rice flour, and maize flour. The other part of the business produces specialty retail products under the Roberts' brand name for the health food, diabetic, and coeliac [celiac] markets. This product range, remaining true to Roberts' philosophy of minimally processed whole foods, continues to include such soy-based foods as Soy Compound, Gluten Free Plain Flour, Gluten Free Self Raising Flour, Soy Crunch, and Vita Elm.

© Copyright Soyinfo Center 2021

They also make some vegetarian burgers. In addition, since 1963, Soy Products of Australia has supplied cleaned and bagged Australian-grown soybeans to various commercial manufacturers of tofu, soy sauce, and other soyfoods in Australia. Since the early 1970s, most of these soybeans have been grown in the Riverina area in southern New South Wales and northern Victoria.

75% of the company's annual turnover relates in some way to soybeans. About 40% of their turnover is sold under the Roberts brand name and the remaining 60% is sold as commercial commodity products. They also do a fair amount of specialist contracting for the food industry, mainly stabilising bran and wheat germ, and milling, sieving, and mixing a variety of food stuffs for human consumption. They also process rice, maize, rye, barley, oats, wheat, and other grains for internal use. They are currently testing buckwheat, lupins, and chickpeas for both internal (i.e., under the Roberts brand) and external use. They propose to use them in conjunction with soy in a variety of applications. They are moving increasingly towards making user-friendly, convenience "health" or healthy foods which meet F.G. Roberts' ideals.

The company has 6 full-time employees and also employs a pool of casuals as required. The mill is highly automated, needing only a single operator. Last year's sales figures are confidential.

As of 1995 Paul Smith is involved in all aspects of the business, including building, plant and equipment selection, design, and development, product development, packaging design, information technology, etc.

V.R. "Ron" Smith is presently the Managing Director and major shareholder of the company; his wife and son Paul own the remaining shares. His main duties now revolve around maintenance and plant installation, with some consultative input on milling, sieving, and general product development. He no longer plays an active role in the day to day running and management of the company.

An excellent 4 by 6 inch black-and-white photo sent by Paul Smith shows F.G. Roberts, dressed in a coat, tie, and hat. Address: Director/General Manager, Soy Products of Australia Pty. Ltd., 69 Power Road, Bayswater, VIC 3153, Australia. Phone: (03) 729-1738 or 729-3611.

2436. Smith, Paul. 1995. Re: F.G. Roberts and soy in Australia. Letter to William Shurtleff at Soyfoods Center, May 5. 4 p. Typed, with signature.
• ***Summary:*** Gives details on the history of *Nature's Path to Health.* Includes a 2-page handwritten genealogy (family tree) of the descendants of F.G. Roberts and Gladys Maude Griffiths; they had 3 children and many grandchildren and great-grandchildren.

"For me this exercise has been invaluable in enabling me to put my fathers' and my own lifetime's interest in soy into perspective. To satisfy my curiosity in discovering how, why, when, and where it all started and how it has progressed since: to provide a totally coherent picture of the whole process. While there is no denying F.G. Roberts' pioneering contribution and the importance of his influence upon my father, Roberts' contribution pales into insignificance in comparison to the current work in plant hormones, isoflavonoids, fermented flours and the numerous soy food products on the [SPA] drawing board and in development.

"From the time of my father's involvement in the business F.G. Roberts became increasingly preoccupied with the Australian School of Naturopathy with increasingly heavy administrative, daytime and evening teaching commitments. From the split in 1954 onwards, Roberts became increasingly distanced from the food development and manufacturing business he had started or taken over in mid-1936. By the mid-1950s Roberts was in his early sixties; his career had taken a new and unrelated path and he was probably busier than he had ever been in his life. The drift away from publishing *Nature's Path to Health* and the health food business was inevitable. One door had closed and another opened. Roberts and his wife both continued working right up until a few months before their respective deaths in 1977 and 1978. The establishment of the Australian School of Naturopathy and his teaching work there were probably F.G. Roberts' greatest and most enduring accomplishments."

2437. Lazzaro, Don. 1995. History and current status of soymilk in Australia (Interview). *SoyaScan Notes.* June 6. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Ceres Natural Foods is their holding company and Pureharvest is their trading name. They made this name change in 1982 since they found the word Ceres was difficult for many people to pronounce. The first soymilk they imported to Australia was made by Saniku in Japan and imported from Mitoku.

Don is interested in macrobiotics. In early 1979 he took over the running of a small macrobiotic and natural foods retail store in Melbourne named Ceres Wholefoods. The only way he could make it viable was to try to buy at better prices, so in April 1979 he started a wholesale and import company, which he named Ceres Natural Foods, also in Melbourne. There was a company named Real Foods (run by Michael Pels) in New South Wales, Australia, that was importing, through Mitoku in Japan, tamari, soy sauce, miso, tofu, etc. Real Foods was the first company in Australia to import foods from Mitoku in Japan.

Don knew Michael from when they both used to live in Sydney in about 1978. Michael purchased some rice cake machines (the same kind used by Chico-san) through Mitoku from Airin Co. These machines were very poorly engineered and constructed. Michael has already sold 168 of these machines to Quaker.

When Don took over the Ceres Wholefoods retail

© Copyright Soyinfo Center 2021

store in 1979, he approached Michael and asked to be the distributor in Victoria of the food products Michael was importing from Japan through Mitoku. Michael said okay, and Don began distributing. Don asked Michael to import some soymilk from Mitoku, which he did in mid-1980. The stick-on label over the Japanese label said Ceres Natural, in Choc-Malt and Natural flavors. But the first soymilk in Australia was imported from Japan in about 1977-78, through Muso by 3-4 health food stores named Russel's; it was made by Marusan in a stand-up plastic pouch. Not much of it was sold. In about 1980-81, Michael decided to get out of the whole import business in order to focus on making rice cakes. So Mitoku Mr. Kazama and Chris Dawson asked Don to become their importer in Australia. Don also ran a 3rd company, a center that provided information and advice on macrobiotics.

Jim Wilson, who was running Spiral Foods in Australia, had been importing from Mitoku. He convinced Mitoku not to sell to Don, his competitor; Mitoku agreed. Mitoku then approached Saniku, and in about 1981 Don began importing soy milk made by Saniku through Mitoku. Don sold it under the same label he had used before. The Muso started to import some soymilk packaged in Tetra Brik cartons through Spiral Foods. Don got the same product from Kibun, and on it began to use the name Pureharvest.

In short: Four companies pioneered in importing soymilk to Australia: Real Foods, Russel's, Spiral Foods, and Ceres Natural Foods. There was also a little relatively beany Chinese soymilk sold in the ethnic Chinese market. Ceres, as a result of its Tetra Brik package, managed to get fairly good distribution into the grocery / supermarket trade, starting in late 1983 or early 1984. By this time Ceres was by far the biggest seller of soymilk in Australia. They were importing five 20-foot containers per month of the Kibun soymilk product. Ceres was actively promoting this soymilk, doing trade shows, etc.

In 1986 Ceres was approached by a small soymilk maker named Australian Natural Foods (ANF) in Sydney; basically they had old machinery and were in trouble. They approached Don asking if they could make a soymilk for him. They worked out an exclusive deal and formula, and in Nov. 1986 Ceres launched this as Aussie Soy in its first 1 liter package, in Tetra Brik. Sales shot up. It was trucked in a dairy tanker to Bon Lait in Victoria (almost 1,000 miles away) where it was packaged in a dairy that had a Tetra Brick packaging machine. In about 1990-91 ANF first got its own Tetra Brik packaging machine. That same year ANF launched its own soymilk product, named So Natural, to compete with Sanitarium's So Good. It is made from whole soybeans, and is very similar to the Aussie Soy product they have long made for Don.

As early as 1980 Sanitarium Foods was importing Soyalac in tins / cans. They sold it mostly to Seventh-day Adventists through their own retail stores. Then in April 1987 Sanitarium Foods launched their own So Good soymilk (made from a blend of soy protein isolates, made and packaged by dairy companies) in Australia. They went into it in a big way, with a national campaign. It was the best thing that ever happened to Don and Ceres, because this campaign grew the market dramatically. By April 1987 Ceres was selling 10,000 cartons / month of their Aussie Soy, not including their Japan imports. One year later the figure had skyrocketed to 60,000 cartons / month, increasing to 152,000 on year after that.

Nevertheless, according to the *Australian Grocery Industry Marketing Guide* (1995), Sanitarium has 71% of the dairylike (unflavored) Australian soymilk market, followed by Vitasoy at 7% (they launched in about 1991, and have done a very aggressive marketing campaign), then So Natural (made by ANF) at 5%, Sun Gold at 5%, and Aussie Soy at 4-5%. Of the total Australian soymilk market, flavored soymilks account for only about 5% of the total; the remaining 95% is dairylike; its a milk alternatives market. Each of the three major supermarket chains in Australia (Woolworth's Safeway, Franklin's, and Cole's) has its own soymilk brand. Franklin's has an isolate soymilk made by ANF, starting about a year ago. Sun Gold, made by Associated Dairies of New South Wales, is almost identical to So Good, made by the dairy company that used to mix Sanitarium's product. In about 1990 Sanitarium set up their own soymilk mixing and packaging factory.

Today the soymilk retail market in Australia is $45 million, with a population of only 17 million people. This is huge on a per capita basis. This market has three main segments: (1) Middle class, educated, with some allergies–70%. (2) Age 50 and older, concerned with cholesterol–20%. (3) Natural foods and vegetarian–10%.

In late 1993 and early 1994 Don approached Berrivale Orchard Ltd. (a cooperative of fruit growers, headquarters in Berri, South Australia) to see if they would be interested in making a soymilk product for Ceres / Pureharvest–because Don's relationship with ANF had become intolerable.

In 1979, to get tofu to sell at his retail store, Don used to go to Chinatown in Melbourne twice a week. He bought it from a little Chinese company (whose name he does not remember) located opposite Victoria Market. He would take a couple of buckets and carry it home in bulk, under water. Address: Pureharvest, 15 Ardena Ct., East Bentleigh, Victoria 3166 Melbourne, Australia.

2438. Guy, Camille. 1995. Soy under suspicion: Natural toxins in soybeans could be putting our health at risk. *New Zealand Herald.* June 24. Section 8. p. 2.

• ***Summary:*** "At Whangarei Heads a retired couple keep hundreds of dead parrots in a freezer. The prized chicks were hand-reared on a commercial bird feed derived from the much touted 'health food' soybean.

"Bird-breeders Richard and Valerie James are preserving

© Copyright Soyinfo Center 2021

the birds because they believe they were poisoned. You could dismiss them as cranks, except that the American Food and Drug Administration is now showing serious interest in the contents of the makeshift morgue.

"The couple who once nurtured 600 breeding birds of 40 different species now discount their personal losses. They found the implications of the parrot deaths so serious they went into debt to have them investigated.

"After two years' work at an estimated cost of $354,000, the Jameses and four New Zealand scientists now believe the parrot deaths were probably due to natural toxins in soybeans."

"The Whangarei couple's parrot problems began in 1992 when chicks, fed exclusively on a soy-based product died in ways consistent with eating rat poison. The birds haemorrhaged violently from the beak and suffered total collapse of their internal organs. Survivors suffered deformities, were infertile, or laid deformed eggs.

"Dick James, a New Zealand-born lawyer with a masters degree in business administration from California, was determined to establish why his birds died. Autopsies carried out at Massey University suggested the deaths were due to severe depression of the birds' immune systems."

"At no stage would any Government body contribute to the cost of this work. In 1994 New Zealand imported nearly 350,000 kg of soybeans, 18 million kg of soy flour, and 18 million litres of soybean oil. One seller of soy products, Healtheries of New Zealand Ltd., did help with the cost of the Fitzpatrick analyses. The company's technical manager, Robert Shaw, gave assistance, including getting Healtheries to commission Auckland Medical School senior toxicologist Dr. Iain Robertson to do an independent review of the Fitzpatrick report.

"The review, dated October 1994, was succinct and forthright. Dr Robertson found the Fitzpatrick report 'detailed and reasoned' and made eight recommendations. The first was that the use of soybean products in infant formula be discontinued. 'I can see no good reason why anyone would wish to continue with general sales of such products. Infants are a high-risk population.' Interfering with the many hormone-driven processes going on in infants could affect their growth or immunity, or put them at risk of cancer, Dr Robertson said.

"Healtheries does not produce a soy infant formula but the pharmaceutical company Wyeth does. Its Sydney-based [in Australia] marketing director, Dr Gregory Rough, told the *New Zealand Herald* that he believes the New Zealand reports are speculative and scientifically flawed. Dr Rough was unable to name any scientist not connected to the soy industry who could dispute them," but pointed to millions of babies using soy formula for 15-20 years without reports of adverse effects. "Dr Rough agrees there have been no long term studies but says Asians are exposed to a high level of phytoestrogens without problems."

Photos show: (1) Richard and Valerie James with a large white bird in one of their aviaries. The caption: "Richard and Valerie James are on a personal crusade to expose the dangers of soybeans." (2) Three dead parrots stores in the Jameses' freezer. The caption notes that they "are thought to have died as a result of eating feed containing soybean."

This article also appeared in *Christchurch Press* 25 Jan. 1996.

2439. **Product Name:** Spice of Life Meatless Meats [Beef, Ground Beef, Mexican Beef, Teriyaki Beef, Chicken, Chicken Mince, Italian Sausage, Pepperoni, Smoked Ham, Unflavored, Unflavored Mince].
Manufacturer's Name: Spice of Life Meatless Meats.
Manufacturer's Address: Van Nuys, California. Phone: 818-342-6573.
Date of Introduction: 1995 August.
Ingredients: Heartline Meatless Meats, spices and seasonings.
Wt/Vol., Packaging, Price: 8 oz., 5 lb, and 25 lb packs; retail for $2.99, $15.95, and $79.95 (11/95, California).
How Stored: Shelf stable.
New Product–Documentation: Talk with Pam Montanaro of Soy Cubano! (Global Exchange) in San Francisco. 1995. Nov. 1. Spice Williams Crosby has just introduced a meatless jerky and a line of meatless meats.

Talk with Jackie Padgette. 1995. Nov. 1. She is Spice's twin sister. This is a small family-owned company. These are dry products that must be reconstituted by boiling in water for a few minutes. They have a shelf life of one year. Bragg's amino acids are used for the flavoring. She is feeding abused children and homeless people in the Los Angeles area. The products have been in restaurants and health food stores for the last few months. They are sold at only 4-5 health food stores. Spice is an actress and stuntwoman, and has been a vegan for many years. She has a monthly column in Ms. Fitness, where she writes on veganism etc. She feeds about 1,000 homeless people each year at very little cost using her products in meatless meals. She got involved in this years ago when she was a musician. She decided to turn her life around, so she started. She had been registered nurse (who cared for elderly people when she was younger) and medical transcriber. She found that one of the best ways to do good things for your mind is to treat your body right. So she went gung ho in her research, and became a vegan. She uses a lot of soy products, and has been a real pioneer in this area for 15-17 years. She has written a booklet titled "Sixty reasons why The Spice of Life will improve your life, your world, and your workout." She mentions the environment, personal health, ethics, spirituality, history and recent epidemiology. She also has lots references.

Spice of Life Total Fitness Catalog. 1995. Nov. 4 panels. Lists prices for the many flavors in retail packs and institutional packs. Send orders to Lumen Foods, 409 Scott

Street, Lake Charles, Louisiana 70601.

Talk with Greg Caton, president of Lumen Foods. He uses a slightly different formula when making these products for Spice of Life. In place of soy sauce he uses Bragg's Aminos, which is HVP supplied by A.E. Staley Mfg. Co. in Decatur, Illinois.

2440. Pemble, Louise. 1995. Jury is still out on side effects of soy formula. *New Zealand Doctor.* Sept.
• ***Summary:*** At a joint Australian and New Zealand science meeting, experts failed to agree on the risks of infant soy formulas. Visiting American nutrition expert Mark Messina, who was present, was not invited to speak despite his credentials as "a leading authority on soyfoods and cancer prevention." When he asked the panel why no studies have ever reported any adverse effects of soy consumption in humans, other speakers countered that no extensive studies of humans have ever been conducted.

Ian Robertson, senior lecturer in toxicology at the Auckland School of Medicine, advised parents to avoid soy formulas, even though no risk had been proven–because there is no evidence of their safety. He said that the risk is potential but avoidable, so why take it?

A sidebar titled "Soy advocates push hormone advantages" discusses the views of Dr. Mark Messina, who led a panel of nutrition experts in Auckland. Messina was former program director at the Diet and Cancer Branch of the U.S. National Cancer Institute. He conducted his doctoral research on the effects of cruciferous vegetables on colon cancer. He noted that in the USA soy is widely regarded as a health food, in contrast to New Zealand where it is now given negative coverage.

2441. Hain Food Group, Inc. 1995. Annual report 1995. Uniondale, New York. 17 p. Oct. 28 cm.
• ***Summary:*** The Hain Food Group was formed in May 1993 as Kineret Acquisition Corp. In December 1994 the name was changed to The Hain Food Group, Inc. The company's brands include Hain, Hollywood, Kineret, Farm Foods, and Estee. In August 1993, the Company acquired the Pizsoy trademark for use with a soy-based pizza product line. On 19 Nov. 1993 the Company completed an initial public offering from which it received net proceeds of approximately $2.9 million. In November 1993, the Company acquired Kineret, a marketer of kosher frozen products. In November, 1993 the Company acquired certain net assets of Barricini Foods, Inc., relating to frozen natural food products. The Company operates this product line under the Farm Foods name. The purchase price of $195,000 was paid by issuance of 60,000 shares of the Company's common stock. On 14 April 1994 the Company acquired Hain Pure Food Co., Inc. from Pet, Incorporated for $22.7 million. Hain, which sells natural foods, has been in operation since 1926.

Farm Foods is a line of good-for-you, soy-based frozen desserts, pizza, and single-serve items: Pizsoy Pizza (natural pizza with soy cheese), Ice Bean Frozen Desserts, and Pizsoy Pockets. In 1996 Pizsoy Pizza Bagels will be launched.

Consolidated statements for the year ended June 30. Net sales: $58,076,000, up almost 400% from $14,963 in 1994. Gross profit: $21,856,000, up more than 420% from $5,151,000 in 1994. Net income (profit): $2,365,000, up from a loss of $502,000 in 1994. Net income per share and common share equivalents: $0.28, up from a loss of $0.19 in 1994. Address: 50 Charles Lindbergh Blvd., Uniondale, New York 11553. Phone: 516-237-6200.

2442. Parr, Robert; Litser, Glyn. 1995. "What hath God wrought!" The Sanitarium Health Food Company story. Berkeley Vale, NSW, Australia: Sanitarium Health Food Co. 463 p. Nov. Illust. Index. 29 cm.
• ***Summary:*** This book is strong in describing the unfailing presence of the hand of God in Seventh-day Adventist health work, but short on a clear presentation of the history of that work. For example: Seventh-day Adventists were pioneers in the production of peanut butter worldwide. When did they start commercial production in Australia? Here is a brief chronology:

1897 Nov. 8–Edward C. Halsey first arrives in Sydney, Australia (p. 18 left column), from the USA [where he undoubtedly learned how to make peanut butter, probably at Battle Creek, Michigan].

1898 Jan. 28. Halsey roasted the first tray of peanuts–according to his diary (p. 19 left)–probably at the Melbourne plant.

1898 April 27–The first products of the infant company were Granose, Granola, and Caramel Cereal [grain coffee]. The names were registered on patents applied for on this date (p. 16 right).

Undated–There is no evidence of what they said as the first products were taken from the oven; "they were probably too busy with the next batch of Granola or the next tray of peanuts, to be roasted to make the first peanut butter ever made in Australia" (p. 19 right).

1899 May 29–The new factory at Cooranbong is now "ready to allow Edward Halsey to commence his manufacturing Wizardry. His first product was Peanut Butter" (p. 27 right).

1899 July–The company begins to sell its first products at the Union Conference session held at Avondale. "During this conference he [Halsey] produced (and sold to the delegates) the first Granose Biscuits ever made in Australia" (p. 27 right)–but no peanut butter.

1899 Dec.–Halsey "had the following products off the production line and ready for customers: Granose, Granose flakes, Bromose, Nuttose, Antiseptic (charcoal) Tablets, Granola, Caramel Cereal, Nut Butter, Wheatmeal Biscuits, Gluten Biscuits and Gluten meal" (p. 27 right). If this "Nut Butter" was peanut butter (which seems likely)

© Copyright Soyinfo Center 2021

then Sanitarium Foods first made and sold peanut butter commercially in Australia in Dec. 1899. They probably sold it commercially in late May or early June 1899. However, the company may have made 6-12 months earlier, but the records are unclear. Address: Berkeley Vale, NSW, Australia.

2443. Caton, Greg. 1995. New developments at Lumen Foods (Interview). *SoyaScan Notes.* Dec. 6. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** In Oct. 1995 Greg started his own TVP plant, which is making his new "Reverence" line of products. He used to buy the extrudite (textured soy flour) from either ADM or Central Soya. He would wash it to remove all of the oligosaccharides (which usually cause flatulence), then flavor it, oil it, cook it, dry it, mix it, etc. He does not use organic soybeans, because he finds that customers are not willing to pay for the end product, which is about twice as expensive. However by putting the product through a multiple washing cycle and using purified water than has been ionized and run through a carbon filter, he partially compensates for the non-organic soybeans.

Greg has at least two private label customers: Spice of Life in California, and Dr. Marvin Goldberg, an M.D. in Michigan who buys in container loads. Greg uses a slightly different formula when making these products for Spice of Life. In place of soy sauce he uses Bragg's Aminos, which is powdered HVP supplied by A.E. Staley Mfg. Co. in Decatur, Illinois, reconstituted in water by Paul Bragg's daughter in Santa Barbara, California, and sold at high prices as Bragg's Aminos. Greg admired Paul Bragg, who had an impeccable reputation. Bragg died tragically roughly 5 years ago at about age 95 while swimming off the coast of Florida; he was caught in an undercurrent and drowned. He was Jack LaLanne's mentor and he followed Vivekananda.

Last year meat analogs [alternatives] were the single fastest growing category in the health food trade. For the last three years Lumen has experienced a growth rate of 50% a year in their mail order business. Mail order is currently about 40% of the company's total business; it used to be about 5%. His company is almost becoming a mail-order company, like Harvest Direct.

Greg is a computer programmer and he designed his own site on the World Wide Web. He is a "webmaster" and knows HTML and Java script, which allows things to move on a Web page. He is now spending a great deal of time developing Veggie Net as part of his web site; it will contain pictures with accompanying quotations related to vegetarianism. Address: President, Lumen Food Corp., 409 Scott St., Lake Charles, Louisiana 70602-0350. Phone: 318-436-6748.

2444. Butler, Mary; Thornton, Frances; Ashley, Martin. 1995. Walking the road to Wellville: C.W. Post and the Postum Cereal Company. Battle Creek, Michigan: Heritage Publications. 104 p. Illust. (some color). Photographic index. 22 cm. Series: Gold in Flakes Set: Volume 2 of 4. [7 ref]
• ***Summary:*** John Harvey Kellogg and his brother, W.K. Kellogg, together discovered the wheat flake, but C.W. Post was the first successful breakfast cereal entrepreneur. This series of four books is about the origins of the breakfast cereal industry in Battle Creek, Michigan.

This very interesting book is composed primarily of full-page photos (some color) with captions, preceded by a brief biography.

For a more detailed biography of C.W. Post, see *C.W. Post–The Hour and the Man*, by Nettie Leitch Major (1963).

Charles William Post was born on 26 Oct. 1854 in Springfield, Illinois, the son of Charles Rollins Post and Caroline (Lathrop) Post. He had two brothers. They were all educated in the public schools of Springfield, with extra private tutoring being provided by their mother. At age 13, Charlie entered Illinois Industrial College, the forerunner of the University of Illinois. Although he had shown aptitude for mechanical engineering and other crafts, he dropped out after two years of indifferent grades. He soon joined the Springfield Zouaves, or Governor's Guards.

On 4 Nov. 1874, Charles William Post and Ella Letitia Merriweather were married at Pawnee, Illinois–at the home of her uncle, her parents having died a few years earlier.

In 1881 he established the Illinois Agricultural Works in Springfield, Illinois. The company, which manufactured Post Capital City Cultivators (mechanically) grew rapidly until a scheming banker tried to take control of the fast-growing business. Post's subsequent quarrels and lawsuits with the banker are thought to have been (eventually) the main cause of Post's first severe nervous breakdown and loss of his health in August 1885; he was left with nothing, not even his health, which–for the first time–he clearly realized was his most cherished possession. He slowly recuperated in Springfield.

On 15 March 1887, the Post family's first and only child, Marjorie Merriweather Post, was born in Springfield, Illinois.

In Nov. 1887 the family left Springfield and spent the winter in Santa Ana, California, where the climate seemed to put the finishing touches on Charlie's recuperation. By Feb. 1888, they had settled in Fort Worth, Texas, and before long he was in business again this time in real estate, building a subdivision and selling the homes. But in about Feb. 1890, his health completely collapsed again.

In Feb. 1891, when C.W. Post, with his wife and daughter, arrived in Battle Creek, with chronic health problems, he did not stay at the main building, Dr. J.H. Kellogg's Battle Creek Sanitarium, since the family assets were tied up in Texas real estate. So they rented a nearby cottage while Mr. Post was taking hydrotherapy, exercise treatments, and fresh air at the "San." But Post was not cured. After 10 months of treatment, Dr. Kellogg, director

© Copyright Soyinfo Center 2021

of the Sanitarium, told Ella he could do nothing more to help her husband. Within a day or two he was healed by a Christian Science practitioner; his appetite returned.

In 1892 he purchased the Beardsley farm on the edge of Battle Creek. His plan was to convert the farmhouse into his own health spa (LaVita Inn). While a patient at the San, he had tasted Caramel Cereal Coffee, a cereal-based coffee substitute. Like Dr. Kellogg, he believed that regular consumption of coffee was harmful to one's health. In late 1894 he developed Postum, his first food or beverage product, made from roasted wheat, bran, and molasses. On 1 Jan. 1895 C.W. Post and his only employee, Clark "Shorty" Bristol, began commercial production of Postum Cereal (a beverage dry mix) just outside Battle Creek. By late 1895 the product was selling well–thanks to his extensive advertising.

In 1895 the Postum Cereal Co. was established; it was incorporated on 22 Oct. 1896.

In 1898 Post introduced Grape Nuts, a very original product; during the slow baking, the starch was reduced to dextrose or grape sugar.

To help promote his new health cereal, Post wrote "The Road to Wellville," a little pamphlet summarizing his philosophy of healthy living and positive thinking, and attached a copy to each box of Grape Nuts.

By 1900 his first two products were being sold in Great Britain. By 1906 more than 600 employees were working around the clock in Battle Creek, making 6-7 million boxes of cereal a month.

By the early 1900s, Battle Creek turned into a boom-town as dozens of cereal and health food companies sprang up overnight, hoping to imitate the popularity of Post's products.

In 1904 he and his wife were divorced and he married Leila Young.

In 1906 he launched his 3rd product, originally named "Elijah's Manna," but soon renamed Post Toasties.

C.W. Post's business produced one of the largest fortunes of the early 20th century.

Also in 1906 Post, now a millionaire, began to buy large ranches in the Garza County section of Texas. Finally, with more than 225,000 acres he built Post City, Texas, which (when incorporated on 23 March 1907) was a humming tent city intended to be a model city or utopian community–on which Post deliberately made no profits. Although always short of water, the community survived until about 1920.

In the late fall of 1913 the first signs that C.W. Post was not in good health appeared, when he showed signs of strain and depression. In January 1914 he broke down from overwork and mental strain. He retreated to his winter home in Santa Barbara, California. But in mid-March he was rushed across the country on an express train to the Mayo Clinic in Rochester, Minnesota, where on 10 March 1914 he underwent a successful operation for appendicitis. He returned to Santa Barbara.

On 9 May 1914 C.W. Post died [suicide, by a self-inflicted gunshot wound]. He was buried in the C.W. Post Mausoleum at Battle Creek, Michigan.

The ownership of his company and properties passed to his daughter, Marjorie–age 27.

In the early 1920s, Marjorie and her second husband, E.F. Hutton, began acquiring food companies.

1925–The first company magazine, the "Wellville Post," was first published in May 1925. The coined word "Wellville" was used extensively in Postum advertising and publicity. It represented the goal of good health which could be obtained in part by eating good nourishing foods such as the company manufactured. The "Wellville Post" continued until September 1927, and was followed in 1928 by "Postum Magazine,"...

In 1927, an exquisite series of color posters titled "The Road to Wellville," produced by children's artist Carolyn Haywood, illustrate "the stages in the manufacturing of Post health products."

In 1929, when Birdseye "Frosted Foods" was added to the list, the company was renamed General Foods. Thus, amazingly, the roots of General Foods, a large and famous American food company, lie in the Postum Cereal Co., a health food company in Battle Creek, Michigan. Address: Historical Society of Battle Creek, 165 N. Washington Ave., Battle Creek, Michigan 49107. Phone: (616) 965-2613.

2445. Mix, Paul E. 1995. Tom Mix: A heavily illustrated biography of the western star, with a filmography. Jefferson, North Carolina: McFarland & Co. vii + 328 p. See p. 119-21. Illust. 24 cm. [1 ref]

• ***Summary:*** Silent movies made Tom Mix popular and a wholesome hero of America's children. He was known as the "King of the Cowboys" and his horse, Tony, was also a star. By 1921, at age 41, he was at the peak of his career. One of the top-ten box office stars during the roaring 1920s, he became the highest paid movie star in the country, earning $17,500 a week for 52 weeks. Yet it was the Ralston Purina Radio Program, *Tom Mix and His Straight Shooters,* that made Tom immortal. (p. 1-2).

The founder of what would become the Ralston Purina Co. had a humble start indeed. A miller named Will Danforth, from Missouri, believed that good food was the secret to good health. He advocated the idea that "you are what you eat" even before the term "health food" had been coined. Danforth was looking for a way to keep the wheat germ in cereal from turning rancid. A chance meeting with a miller from Kansas gave him the answer he was looking for. Soon Danforth developed a product named "cracked wheat." He was soon packaging and selling Purina Whole Wheat Cereal in and around St. Louis, Missouri.

Meanwhile, a nutritionist with the surname of Ralston, had written a book titled *Life Building,* which was making him popular. The book became so popular that good-

© Copyright Soyinfo Center 2021

health clubs began popping up everywhere. "By the turn of the century, Dr. Ralston had over 800,000 good-health believers." Danforth contacted Dr. Ralston to seek his endorsement for the Purina whole wheat cereal. Dr. Ralston agreed on the condition that his name be added to the product name. So in 1902 Danforth changed his company's name to Ralston Purina Co.

In 1933, when sales for Hot Ralston cereal began slumping, Will Danforth and his Gardner Advertising Agency turned to Tom Mix, "America's No. 1 cowboy hero," for an endorsement. Mix apparently signed a contract with Ralston Purina in 1933; it may have been hand scribbled on the back of a large envelope. On 11 April 1938 Tom Mix signed a second contract in which he "granted Ralston the right to broadcast a series of programs known as *Tom Mix–Ralston Straight Shooters* and to use continuity advertisements" titled "Tom Mix and the Ralston Straight Shooters."

2446. Sass, Lorna J. 1995. Lorna Sass' complete vegetarian kitchen: Where good flavors and good health meet. New York, NY: Hearst Books. xiv + 492 p. Index. 26 cm. [35+* ref]

• ***Summary:*** First published in 1992 as *An Ecological Kitchen: Healthy Meals for You and the Planet* (William Morrow–which see). This innovative vegan cookbook offers 250 cholesterol-free recipes. It features a complete glossary of wholesome ingredients for stocking the vegan pantry (no meat, dairy, or eggs). Address: New York City.

2447. Michaels, Daniel. 1996. Poles find tofu duck, other health foods hard to swallow: Food fight pits blood sausage against meatless tripe; 'One boiled dish a day.' *Wall Street Journal, European Edition.* March 27. p. 1, 7.

• ***Summary:*** Hilarious! The novel idea of healthy living is gradually catching on in Poland, especially among the younger generation of skate-boarding kids who equate healthy with hip. And they are starting to eat soy burgers, "Slavic Tofu," and other soyfoods, and to become vegetarians. But the diet of most Poles over age 30 is terrible, with lots of fatty sausages and other meats, which may be why they die at a younger age, have more heart attacks, and are in poorer health than most Europeans. And things are getting worse since market-oriented reforms put meat back in once-empty butcher shops. Address: Staff reporter.

2448. Guy, Camille. 1996. Soybean campaigner turns up the heat: A visiting professor tells about his concern over the sale of food containing soybean. *New Zealand Herald–Weekend Magazine.* June 15. Section 7. p. 10. Saturday.

• ***Summary:*** Reg Morgan is a physiology professor at the University of Western Australia. During a trip to New Zealand, he compared the promotion of soy products as health foods with "cigarette advertising at the turn of the century." He also joined with New Zealand scientists to "warn parents that using soy infant formula may put their babies' health at risk. The Ministry of Health has issued no such warning but a dramatic decline in supermarket sales of soy formula suggests that many parents are avoiding the product. Prof. Morgan said: "In my lectures I warn young people they may be drinking a cocktail of oestrogens and other nasties. But the babies are the ones I am scared about– the newborns who take soy formula from birth."

"At Auckland University's chemistry department Dr Mike Fitzpatrick has 25kg of soy flakes awaiting study. In 1994 Fitzpatrick was one of four New Zealand scientists who asked the Ministry of Health to warn the public of possible health risks from soy products.

"Then working as an analytical chemist for a private company, Fitzpatrick did a commissioned analysis of soy foods and a survey of the scientific literature on soy toxins.

"After reviewing Fitzpatrick's work in 1994, Auckland Medical School senior toxicologist Dr Iain Robertson recommended that the use of soy in infant formula be discontinued pending future research."

"Figures from the international marketing research group A.C. Nelson for supermarket sales of soy infant formula show that New Zealanders spent $1.6 million on these products over the past year–a 30 per cent decline on the previous year.

"Soy formula used to claim a 16 per cent share of the infant formula market. That share has shrunk to less than 9 per cent."

A photo shows Prof. Morgan with the caption "soy toxins are very active and scary stuff."

2449. Brant, Cherie. 1996. A Baker by name and trade. *Ventura Independent* (*Ventura Co., California*). Sept. 26–Oct. 3. p. 17.

• ***Summary:*** "Ojai has long been a lodestone for creative people." "William Cook Baker moved to Ventura in 1917 and opened a business on Main Street which he named the American Bakery."

"Baker died in May, 1942, at the age of 69, having carved out a unique slice of Ventura County history. The Vaughns came to inherit the bakery from Baker's wife, Helen.

"Today, Bill Baker's Bakery still operates in Ojai at its original location on Ojai Avenue. The original ovens are still on premises, although they are not used. Thomas Kohnen and his wife own the operation, where they continue to turn out sandwich, whole wheat, and gluten bread from Baker's original recipes. This year the business celebrates its 100-year anniversary."

A photo (published in the *Los Angeles Times* on 2 Dec. 1934) shows Joe Brown cutting a huge cake made by Bill Baker to celebrate the 75th anniversary of the Los Angeles school system. Bill Baker is second from left.

© Copyright Soyinfo Center 2021

Note: Thomas Kohnen and his wife, Colleen, have owned the bakery since Feb. 1989.

2450. Health Food Manufacturers' Association [of England]. 1996. Genetically modified soya beans (News release). 63 Hampton Court Way, Thames Ditton, Surrey KT7 0LT, England. 1 p. Oct. 3.
• ***Summary:*** "Background: Genetically Modified (GM) soya beans are currently a hot issue, with trade, political, and consumer organisations entering the debate. The reason? The news that the United States' Autumn 1996 soya bean crop will be made up of a random mixture of natural and GM soya beans... The official view is that one acre out of forty-one acres of soya bean will be modified."

Whether or not genetically modified organisms are desirable is a complex issue. "The HFMA Position: The HFMA considers that consumers must be able to exercise their freedom to choose. This means that they must be properly and accurately informed. Therefore products must be properly and accurately labeled." Address: Thames Ditton, Surrey, England. Phone: 0181-398-9888.

2451. Johnston, Cathy. 1996. Health-food maker seeks to buy former shrimp plant. *Sun* (*Lowell, Massachusetts*). Oct. 24. p. 7, 9.
• ***Summary:*** Nasoya Foods Inc. of Leominster, Massachusetts, "a producer of soy-based health food products, is working to buy the former New England Shrimp Co. building in Ayer, Massachusetts, located about 7 miles northeast of Leominster, and a slightly smaller town than Leominster. According to Nasoya president Fred Eaton, the 125,000 square foot building (located at One New England Way off Westford Road) would serve as a new, expanded headquarters and manufacturing plant, and will bring 77 jobs to Ayer. The company expects to add another 175 new positions during the next 3-5 years. The shrimp company was foreclosed upon by lenders after the federal government shut it down in 1992 for selling tainted shrimp. The FDIC, which now owns the building, auctioned it off in a sealed bid process on 25 Sept. 1996. Nasoya, the top bidder, has until Nov. 25 to complete the deal.

Nasoya was founded in 1978, as a tofu manufacturer located in a barn in Leominster. In 1984, 6 years later, as tofu production topped 25,000 lb/week, Nasoya outgrew the barn and moved into its current 30,000 square foot processing facility on Jytek Drive in Leominster. By 1987 Nasoya was producing more than 60,000 lb/week of tofu. In 1990 Nasoya was acquired by Vitasoy (USA) Inc. The former shrimp plant, with about 4.2 times the square footage of Nasoya's present plant, would give Nasoya the space to expand its current operations as well as to install a new line for making Vitasoy soymilk.

Nasoya's revenues grew 16% and 22% during the last two years respectively. The company is projecting a 24% sales growth this year.

Note 1. Nasoya's fiscal year runs from April 1 to March 31. So "this year" will end on 31 March 1997.

Note 2. Talk with Nasoya representative. 1997. Jan. 13. Nasoya purchased the plant in Ayer on 18 December 1996 and expects to be making tofu in the plant by about June of this year. They will operate two plants for a while, and hope to have finished phasing out the present plant in Leominster by the end of 1997. Nasoya uses only organic soybeans so they do not anticipate any problems in answering questions about using genetically modified soybeans. They have not yet prepared any documents to answer consumer questions on this subject.

Note 3. Talk with Nasoya representative. 1997. Oct. 1. The first Vitasoy soymilk started to be shipped from the plant in Ayer in mid-September 1997. The offices have now been moved to Ayer from Leominster. All tofu is still being made at the plant in Leominster.

Note 4. A label from the Azumaya tofu made in South San Francisco, California, shows that "glucono delta lactone" is now being used, with calcium sulfate, as a coagulant. Address: Sun Correspondent.

2452. Modern Products, Inc. 1996. Low-fat gourmet cooking: European beauty secrets. Milwaukee, Wisconsin. 32 p. Undated. 28 cm.
• ***Summary:*** This colorful booklet, distributed at the Natural Products Expo at Baltimore, Maryland, in Oct. 1996, features Fearn Natural Foods and Gayelord Hauser products (such as Spike, Spice Garden, and Sipp). A full-page color photo on all 45 current Fearn products appears on the inside front cover. The life story of Gayelord Hauser (with 4 photos) is on p. 12-13; he advocates a Seven Day Elimination Diet with raw fruits and vegetables, plus herbs (p. 16-19). Full (or half) page color ads for Fearn Whole Wheat Baking Mix (p. 20), Fearn Raw Wheat Germ (p. 25), four Fearn Cake Mixes (p. 29), "Welcome to the all-natural nutritious world of Fearn" (p. 30-31), and Fearn Liquid Lecithin and Lecithin Granules (p. 31). Address: Milwaukee, Wisconsin.

2453. Himelstein, Vicky. 1996. Amazing tofu diet to beat hot flashes: And here's how to make 'tasteless' health food really delicious. *Star.* Nov. 26. p. 1, 33.
• ***Summary:*** *Star* is a popular tabloid newspaper, sold at supermarket checkout stands, featuring sensational stories and celebrities. On the cover is a color photo of TV star Roseanne in a large rectangle. The text reads: "Roseanne's holiday diet: Eat what you want and lose weight, plus Tofu diet to beat hot flashes."

This article, based on an Associated Press story, begins: "If you're in the throes of menopause and suffer from uncomfortable hot flashes, take heart. You may be able to beat the heat by simply adding tofu to your diet. Startling new research reveals that tofu, a soybean-rich food, can cool

© Copyright Soyinfo Center 2021

the miseries of menopause fast, which may be the reason Asian women–whose diets are rich in soy–suffer fewer, less severe hot flashes and night sweating than American Women."

The article then summarizes a study by Dr. Gregory Burke, of Bowman Gray School of Medicine in Winston-Salem, North Carolina. Investigating the effects of soy on menopause, his 6-week study involved 43 women, ages 45-55. Tofu contains "phytoestrogen–the plant form of the female hormone estrogen." The Star adds: "Doctors are recommending that women eat tofu–a custard-like extract from soybeans–and drink soy milk. The challenge is now for cooks to make tofu taste good. 'Tofu is a white spongy cube that's very bland when you eat it raw,' says Star nutritionist Ann Newswanger. 'But it's cholesterol free, and absorbs flavor from other ingredients. The possibilities are endless–have it for meals and in desserts." Three recipes are given: Tofu raspberry mousse. Poppy seed dressing. Spicy tofu stir-fry with vegetables.

2454. Essex, Charles. 1996. Questions remain over soy milk infant formula. *New Zealand Doctor.* Nov. 27.
• ***Summary:*** "The adverse publicity surrounding soy-based formulas has had a significant effect on their sales in some countries. Soy formulas in New Zealand have fallen from about 13 per cent of the formula market in 1994-95 to around 5 per cent, although soy follow-on formula has risen from 0.8 per cent of the market to 1.3 per cent. This is because use of infant formula has risen in infants over six months of age as parents have delayed the introduction of whole cow's milk.

"Sales of other soy products, for the adult health food market, have also fallen recently in New Zealand because of the concerns which have arisen without satisfactory scientific evidence about the effects of soy in the human diet."

2455. Figueroa Polloreno y Wilson, Beatrice. comp. 1996. Family group record: Jose Maria Ortega (1760-1824) married Maria Francisca Lopez y Mora (1763-1833). California. 1 p.
• ***Summary:*** Sophie Cubbison was related to the 14th of the 20 children in this famous Ortega family. Sophie's ancestor was Maria Concepcion Ortega, born 12 Sept. 1808 in Santa Barbara, California.

2456. Fonda, Jane. 1996. Cooking for healthy living. Atlanta, Georgia: Turner Publishing, Inc. 240 p. Illust. (color photos by Joyce Oudkerk Pool. Color illust. by Jennie Oppenheimer). Index. 26 x 22 cm.
• ***Summary:*** This book contains 120 easy low-fat recipes. Jane Fonda (born in 1937) writes about growing up in Beverly Hills where her father (Henry Fonda, the famous actor) had a victory garden when she was little; he always had a vegetable garden and was a beekeeper. They always raised chickens. "Jane Fonda brought aerobic exercise to the forefront of American life with the opening of her Jane Fonda Workout studio in Beverly Hills in 1979." Recipes by Robin Vitetta. This is not a vegetarian cookbook; it has a large number of recipes using low fat meats, including bison. Color photo on the cover, and on pages 9, 12, and 28 show Jane Fonda. Meatless recipes include: Granola (p. 43). Vegetable lasagna (p. 164).

Talk with Akasha Richmond. 2004. July 18. Jane Fonda had her first famous workout center on Robertson in Los Angeles. Akasha's friend, Gurmukh, who is now the big celebrity yoga teacher to the stars, got her start with Jane Fonda at this studio. When she was pregnant, she had nowhere to go to exercise, so she started going to Jane Fonda's workouts. Now Gurmukh's whole specialty is prenatal yoga. She's written two books on the subject. Gurmukh was a Zen Buddhist (she practiced for two years at the zendo in Maui, Hawaiian Islands) before she became a Sikh. She was also in the Haight-Ashbury district of San Francisco–"She did the whole thing." She has been a vegetarian for 30 years. She ran the Golden Temple restaurant in Santa Fe, New Mexico. Address: Georgia.

2457. Keleny, Kathleen. 1996. The first century of health foods. Gloucester, England: Published by the author. Sole agent: Nuhelth Books. 44 p. Illust. No index. 21 cm.
• ***Summary:*** Contents: Dedication (to James H. Cook, Kathleen's father). Introduction. Early beginnings. Beginnings of food reform. Conversion. The first vegetarian restaurant and hotel. The first health food store. The new factory. Health foods. Kathleen's upbringing. Famous customers. Spanish figs. Wartime. Vitaland (health food factory). Demonstrations. Visitors and staff. Vitaland catalogue.

Kathleen talking. Vegetarian beliefs and ethics. The same ideals (In 1933 she met Frank Mayo, a keen vegetarian; they fell in love, were married a year later, and started a health food store in the City Arcade, Coventry). Effects of war (World War II, from Sept. 1939). After the bombing (returned to Warwickshire). The sale of Vitaland (after World War II). The Bircher Benner Clinic in Zurich [Switzerland]. The Hunzas. The new venture (1950 buy Coombe Lodge near Wotton-under-Edge, in southwest England)... The rest of the book is about her life and work, vegetarianism and veganism in England after World War II, Mad Cow Disease, etc.

The author, a "life vegetarian brought up on a vegan diet..." writes pages 6 through 11 of this book as if her father, James Henry Cook, were the author. It starts: "Early beginnings: My daughter is 88. When she was born I wanted her to have continuous good health,..."

Chronology of the early health food movement in the UK, according to this book:

1869–James Henry Cook, the pioneer, is born on the Isle

© Copyright Soyinfo Center 2021

of Wight. In 1885 he moved to Wolverhampton, where he was influenced by an elderly vegetarian, Mr. George Snape.

1895–Cook attends a meeting of the Vegetarian Federal Union where the President, Arnold Hills, a well known business man and Managing Director of the Thames Iron Works, speaks for an hour on vegetarianism and its benefits. During that speech Cook is converted to vegetarianism. His health soon improves dramatically. Before he changed his diet, he was physically very delicate, and was refused by three insurance companies. A few weeks later, enjoying the live-giving powers of dietary reform, he was accepted as a first class life risk.

1896 to early 1898–The next time Mr. Arnold Hills (an inspiring speaker) visited Birmingham, he called together a group of business men and said that he would like to see a first-class Vegetarian Restaurant in Birmingham, and if they would start one, he would subscribe 10 per cent of the cost. "In 1896 it so happened that a new building was being erected in Corporation Street, Birmingham. After much deliberation, the corporation of business men rented the whole of the basement and ground floor for use as a vegetarian restaurant." As Mr. Cook was very keen on the whole idea, he was appointed manager. Then the landlord asked the group of business men if they would like to take the whole of the seven storey building and convert the upper five storeys into an hotel.

1896–A vegetarian restaurant opens on Corporation Street in Birmingham, with financial help from Arnold Hills. James Cook is appointed manager. It is on the ground floor of a seven-story building. The vegetarian meals are an immediate success and hundreds of people soon lunch there daily.

1898 [Oct. 20]–The Pitman Vegetarian Hotel, England's first vegetarian hotel, opens on the top five stories of the building housing the restaurant. It is "named after Sir Isaac Pitman, inventor of Pitman Shorthand, who had been a vegetarian for 60 years, and at the time was the best known vegetarian in England." Customers of the restaurant "start asking for food which they could take home with them." James Cook starts to make simple, appetizing "foods from nuts, cereals, fruits and vegetables to take the place of meat, lard, butter, cheese and jelly made from animals."

1902?–"Six years before Kathleen was born the 'Health Food Store' was opened and the manufacturing side increased." James "realised it was not economic to run a factory in the centre of Birmingham, so he bought a site in Aston" where he built the first [sic] health food factory in England.

1905–The Pitman Health Food Company opens. Its most popular products are Nuto Cream Soup and Nut Cream, followed by Pitman Dandelion All products are dairy-free.

1929–A bigger and better health food factory, called Vitaland, is built in a beautiful building in green fields at Four Oaks, Sutton Coldfield Park, Warwickshire.

Photos show: (1) Portrait of James Henry Cook, handsome, bearded, and in his 60s or 70s. (2) Vitaland, the whole building taken with wire fence round it, seen from ground level. (3) Many photos of Kathleen and friends, yoga group, husband, Coombe Lodge, etc.

An old illustration shows the Pitman Hotel and (according to the caption) "Health Food Stores."

Note 1. In the section titled "Beginnings of health reform" (p. 6) Bernarr McFadden (of U.S. physical culture and publishing fame) is said to have written that James Cook had coined the term "'Health Food' advocating Food Reform for Vital Health." No date is given, so we must assume it was coined in about 1902. In fact, the earliest documented use of the term "Health Food" in the UK is in the name of the Pitman Health Food Co. in July 1905. However the term was used in the United States as early as Oct. 1875 by the Health Food Company of New York, and was widely used in the USA during the late 1800s.

Note 2. James Cook's date and place of marriage and Kathleen's date and place of birth are never mentioned in this book. In an article published in Oct. 1898 in *The Vegetarian* (London), James Cook said that he was unmarried and intended not to marry so that he could devote his full energies to his work as manager of the vegetarian restaurant, hotel, and retail store in Birmingham. Eventually he married Grace Marian Cook, a well-known singer. "She was one of the first cookery demonstrators of vegetarian dishes in the Midlands, and she experimented with making very many of the new lines for the Pitman Health Food Company" (p. 9).

Note 3. While this book is a nice tribute by the author to her father, James H. Cook, it is not an accurate history of the early health food industry in the UK, where the pioneer manufacturer was the International Health Association Limited (I.H.A.), a Seventh-day Adventist organization, starting in 1899. That company was renamed Granose Foods Ltd. in 1926. Moreover, two key dates related to the history of Pitman's work with health foods are vague.

Note 4. During World War II "Pitman Health Foods Ltd." ran many ads for its foods in the Vegetarian Messenger (UK). "Ask your Health Food Store for these grand foods." By 1942 the company's name had been shortened to "Messrs. Pitman, Ltd." (Vitaland, Four Oaks, Warwickshire). Address: Coombe Lodge, Stroud, Gloucestershire, SW England.

2458. Mendelson, Anne. 1996. Stand facing the stove: The story of the women who gave America *The Joy of Cooking.* New York, NY: Henry Holt and Co., Inc. xviii + 474 p. Illust. Index. 24 cm. [86 + 774 endnotes]

• ***Summary:*** An excellent biography of Irma Starkloff Rombauer and her daughter Marion Rombauer Becker and a richly detailed piece of American social history. Irma Louise Starkloff was born on 30 Oct. 1877 in St. Louis, Missouri, the daughter of Max von Starkloff (M.D.) and

© Copyright Soyinfo Center 2021

Emma Kuhlmann. She grew up in comfort at Carondelet (a part of St. Louis) in a family of strong German ancestry and liberal political convictions. Irma lived almost all her life in St. Louis. In 1930, during the Great Depression, Irma Rombauer's husband committed suicide. To help pay the bills, she decided to write a cookbook. *The Joy of Cooking: A Compilation of Reliable Recipes with a Casual Culinary Chat* was initially self-published in 1931 as a vanity book (the author pays the publisher, not vice versa); Irma was age 54, a complete amateur with no known qualifications for writing or publishing a cookbook.

But *Joy* went on to sell 14 million copies over 60 years, and to become the most influential American cook book of all time. While it has no claim to be the best-selling cookbook in American history, it is probably the best-selling trade cookbook–one published by an ordinary publisher and sold through retail bookstores. But in terms of total sales it falls well behind *The Better Homes and Gardens Cookbook*, which gets wide distribution through its parent magazine, and *The Betty Crocker Cookbook*, which benefits from the research and marketing prowess of General Mills. The latter two are, of course, the work of committees.

The crucial factor in *Joy's* unexpected success was Rombauer's lively voice as an unpretentious beginner. She treated her readers as close friends, as "an amateur addressing amateurs." America's home cooks were desperate to learn the basics in simple English they could understand. Yet they also enjoyed Rombauer's firm opinions and strong personality.

The information on *Joy's* copyright page is of little help in understanding the major stages in the book's history. Seven editions mark genuine stages in the book's development: The original privately published (1931). The first Bobbs-Merrill edition (1936). The popular wartime edition (1943). The first Rombauer-Becker edition (1951). The unauthorized edition (1962). The first authorized prepared by Marion Becker (1963–sometimes mistakenly called the 1964 ed.). And Marion's last revision (1975). Note: A supposed 1942 edition is a pure phantom.

The mother and daughter who wrote this superb book were very different people, and each put her own stamp on the book. Irma, the mother who began the work, "loved stardom as much as Marion Rombauer Becker, her eventual collaborator and successor, loved privacy" (p. 1). Marion developed a deep and abiding interest in natural foods and organic gardening, in compost and manure. She also grew up during the era when scientists discovered that micronutrients or trace elements (such as all vitamins and many new minerals) played an essential role in human health. This led many (including Marion, starting in 1939 or 1940) to criticize refined and overly processed foods–such as white flour, white rice, etc.–and to advocate a return to natural, whole foods, including raw foods such as fresh fruits and some fresh vegetables. This awareness began during the 1920s and 1930s, when canned fruits, vegetables, and juices were seen as a triumph of modern food science. It was most widespread in California, "a hotbed of health-food cults." On several trips to the West Coast during the 1930s, Irma visited California, where she saw juice bars and restaurants that were replacing sugar with honey and vinegar (p. 260-61).

By 1948, when Marion agreed to work seriously with her mother on *Joy*, it was understood that the "culinary priorities laid down in earlier editions would be drastically arranged. *Let's Cook it Right* [by Adelle Davis] was a concrete influence."

Marion, with her zeal and love of learning, became deeply interested in nutrition, health, and the relationship between diet and health.

The first Rombauer-Becker edition, which appeared in 1951, gave much more attention to grains, cereals, and flours, while lamenting the ills of "modern processing." Brown rice was preferred to white as "richer in taste and a far better buy nutritionally." Marion also "contributed one of the earliest recipes for bean curd ("soybean cheese") in any American cookbook" (on p. 192). The 1951 edition introduced mainstream readers to ideas generally "seen as the sole territory of health cranks" (p. 268).

Irma died in 1962. Marion suffered increasingly from allergies and sometimes had difficulty breathing. Knowing that the 1975 edition of *Joy* would be her last, she approached it with special care. It was a heady time, for parts of radical / counterculture ideas about natural foods and health had been adopted into mainstream American culture. Young visionaries, who rejected the offerings of supermarkets, were starting natural food stores nationwide. Ralph Nader (one of Marion's heroes) was denouncing harmful food additives and corporate junk foods. By 1975 Marion realized that "beliefs like hers on the relationship between food and health, land use, and good citizenship looked like very sensible ideas to a large spectrum of the American public. She was emboldened to direct *Joy* more emphatically to issues she had first noticed decades before" (p. 395). She commented on "chickens fed in batteries, pigs an cattle concentrated in feed lots," the fact that "many of our lakes and estuaries have become nearly incapable of supporting life," the "galaxy of pollutants such as viruses, nitrates, heavy metals, pesticides, and asbestos and other carcinogens" in our drinking water.

The new 1975 edition became an immediate best-seller, with 236,000 copies sold in 1975 and 334,000 in 1976. She was eager to make the text as accurate as possible. If someone pointed out an error, "she was not insulted but appreciative. When the soybean-product experts Akiko Aoyagi and William Shurtleff wrote to explain that the directions for homemade soy milk and bean curd were seriously muddled, Marion, grateful for this sign of the seriousness with which her work was taken, conscientiously sent in the necessary changes in time for the printing of

2463. Spaelstra, J.; Shapira, H.; Donnelly, H. 1997. Re: Introducing Dakini Health Foods Pvt. Ltd., in Pune/Puna, India. Letter to William Shurtleff at Soyfoods Center, May 7. 1 p. Handwritten.
• ***Summary:*** The letter begins: "To whom it may concern: We are a young company. Just started one year ago and *very* enthusiastic. I have come across your *Book of Tofu* and loved it. Started experiments and love it even more now. My friend and partner in business [Seemo] came across some American book [*Handbook of Indigenous Fermented Foods,* edited by Keith Steinkraus] that had 1 chapter about tempeh production. Out of this he developed the way to make tempeh here in India, which was quite difficult at times because the info was far from complete. Meanwhile our plans have changed because of all this and the *very* wholesome atmosphere that we sense around working with soybeans (and consuming the different products)–the same atmosphere we are picking up from your books too which is very inspiring to us."

They order three books–tofu-, tempeh-, and miso production, plus *The Book of Tempeh*–all by Shurtleff & Aoyagi. "We would really like to set up a complete soyfood line now. So please get in touch!" Signed: J. Spaelstra (Holland), H. Shapira (Israel), and H. Donnelly (Indian). Address: Dakini Health Foods Pvt. Ltd., Vidyut Nagar, Plot A2, Kawdewadi, Pune / Puna 411 001, India. Phone: 0091-212-63-1990 (phone and fax).

2464. Seemo (H. Shapira). 1997. Re: History of Dakini Health Foods Pvt. Ltd., in Pune/Puna, India. Letter (fax) to William Shurtleff at Soyfoods Center, May 13–in reply to inquiry. 7 p. Handwritten.
• ***Summary:*** Seemo is Mr. H. Shapira from Israel and Kairava is Mrs. J. Spaelstra from the Netherlands. Seemo is in charge of tempeh, Kairava in charge of tofu & soymilk. They are making the earliest known commercial soybean tempeh in India. For their first letter see Dakini (1997).

Both Seemo and Kairava are devout disciples of Osho (formerly called "Sri Rajneesh"), he since 1984 and she since 1986. They arrived in Pune to stay in about 1988/89. Initially to support themselves, they had a gem and crystal shop, a wholesale new-age jewelry operation, and a motor bike repair shop. Now they have finally found what they want to do for work. "It's love and Zen." Osho died in Pune on 19 Jan. 1990; they returned to India the next day; the fire was still burning at the burning ghat. In the year before his death, his discourses were mostly about Zen. He died in Pune due

© Copyright Soyinfo Center 2021

to heavy metal poisoning and radiation damages done to him by U.S. marshalls in an Oklahoma jail cell, where he was kept unlawfully in 1985.

Their company started with the idea of making white tahini and possibly Turkish halva [halvah] (in which white tahini is a main ingredient). It was extremely difficult to get started. As foreigners doing business in India, they had to register a "Pvt. Ltd." company. Then they could not find a space for the company, since Pune is a rapidly growing city. So Seemo pulled down the back garden in his rented house, constructed a shed with a floor area of 25 square meters, and moved his bedroom up to the second floor. This gave him an additional 24 square meters where the bedroom used to be. They also have a 25 square meter storeroom where they make the tempeh. He got electrical connections then waited for 8 months while a colloid mill (copy of a 1940 model), hot air oven, and filling machine were delivered. The mill proved to be a technical nightmare; he had to totally rebuild it. Finally their small factory started operation. Then they added peanut butter and brown tahini to their product line–with no additives or preservatives. They had to set aside their plan to make halva.

Spicer College, run by Seventh-day Adventists, is located in Pune. They have a health food store and they make peanut butter–nearly edible, with too much sugar and salt, plus other ingredients. Their sesame butter (brown tahini) is gritty, rancid, and inedible. They also produce grape juices (very, very sweet), pastries (Mmmm good). And they make and bottle soy milk in plain and chocolate flavors, but it is loaded with white sugar and Class II permitted preservatives! They also make pretty good tofu; Seemo used to eat it now and then for the last 8 years. "Besides being actually able to taste the Bible in it, I had no reason to complain." This tofu is now served at the Osho commune. "Pune old timers told me that once–20 years ago–the place was managed by an enthusiastic old American woman and the quality of their products was very good.

At Dakini, they now also make hummus in their kitchen, 15 kg/week in summer and 60 kg/week in winter. They pack it in 200 or 400 gm cups and sell it at various shops in town to foreigners and Indians. They like it.

Seemo started developing the tempeh about 8 months ago. Last year a friend of his found a book titled *Handbook of Indigenous Fermented Foods*, edited by Dr. Keith H. Steinkraus, in a pavement stall for 400 rupees (US$13.00). Since he had been to Bali, Indonesia, many times, he tried making some of the foods but rarely got any edible products. So before leaving Pune, he gave the book to Seemo as a gift. As he read it, Seemo got really excited. He had grown up in a meat-eating family. Even while traveling and living in Europe, he continued to eat meat and junk foods. "Then I understood it was not good for me on all levels, and went vegetarian." Living in Holland later on, he started to learn about tofu, and then tempe, tamari, etc. "So now I was a healthy, well-fed vegetarian." Then he moved to India, but after some years of eating fried foods, lentils and lots of dairy products, he started to eat meat again, 2-3 times a month. "It did not feel too good, but I had no idea how to manage my diet, and living on mostly dairy products did not suit my body. So when Dr. Steinkraus' book fell into my hands, I got excited and realized that it might be possible to make tempe here in India at a small, affordable investment.

"So I first got a small incubator built; its actually like a cool box ½ meter wide and 1½ meters high, made of galvanized sheet metal with insulation and 8 shelves (of which I now use only 3)." At the bottom are heaters, which give 250-540 watts of heat. Two old computer cooling fans distribute the heat, and a thermostat regulates it. "It's not a perfect machine but I can do 5-12 kg/day when I want and, most important, I can produce in it excellent spore powder–since it is difficult to import anything here. Actually, I nearly gave up the project, because I was making sporulated tempeh, then sun-drying it and running in through my spice grinder. The powder looked great. The tempe cakes used to get hot, then very hot, then smelly with funny colors (no white mold). I double-checked everything. In the end, only the grinding was left, so I bought a small hand-turned grain mill (500 rupees = US$15.00). Since then, perfect tempeh has been happening.

"For starter, I first got a packet of spores from Holland. Later I got 1 gram of white tempe starter from an American friend in Goa (she used to make her own supply down there), and playing with it I found it a bit more suitable for my use. So most of my spore stock now is from this starter, and some is mixed. I still have to study how to make tempe and starter during the different seasons here. Now it is very hot and dry. Next month is monsoon (wet), followed by a month that is hot and humid, and then the 3-month 'cold' season."

About half of all tempe produced is sold frozen; the other half is sold fresh. Seemo also plans to try making dry tempeh. He gives away lots of tempe as samples; most people love it. Starting this July, it will appear on the menu of one restaurant, possibly two–first as Tempeh Stroganoff and Tempeh Shashlik (steamed, then spiced, then barbecued). "When I get *The Book of Tempeh* I will introduce it to more places. Meanwhile, I have totally forgotten about eating meat. I feel strong and light. I find my vision benefits too; I haven't noticed that with tofu. Now that I am a bit more confident working with the mold, I hope to raise some capital, move to a suitable place (possibly well out of town), and then start to make tamari shoyu, and definitely some miso too. So that's a little of our story. Thank you." Address: Dakini Health Foods Pvt. Ltd., Vidyut Nagar, Plot A2, Kawdewadi, Pune / Puna 411 001, India. Phone: 0091-212-63-1990 (phone and fax).

2465. Seemo, -. 1997. Re: Dakini Health Foods in India is experimenting with tofu. Letter to William Shurtleff at

© Copyright Soyinfo Center 2021

Soyfoods Center, July 2. 1 p. Typed.
• ***Summary:*** "We are eating tons of tofu as Kairava is perfecting her art. We are using calcium chloride and everyone loves it. I serve it to our workers too and they love it. I let them take some home today to let them learn how they like to prepare it." If and when they start making tofu commercially they will have to buy or make all the equipment in India; imports are not affordable. "The biggest problem is to find a suitable working space."

Note: Seemo is Mr. H. Shapira from Israel and Kairava is Mrs. J. Spaelstra from the Netherlands. Address: Dakini Health Foods Pvt. Ltd., Vidyut Nagar, Plot A2, Kawdewadi, Pune / Puna 411 001, India. Phone: 0091-212-63-1990 (phone and fax).

2466. Seemo, -. 1997. Re: Update on tempeh made by Dakini Health Foods in Pune, India. Letter to William Shurtleff at Soyfoods Center, July 16. 1 p. Typed, with signature.
• ***Summary:*** "Our tempeh work is going great." Dakini tempeh is now sold in two shops. They are trying to introduce it to the Osho ashram, but the price is too high. Seemo is trying to find a new location for their shop, but real estate is terribly expensive and making a deal is tricky. He is also starting to make contact with soybean farmers in Madya Pradesh. "It is very difficult to find soybeans, and when we find them they are mostly of bad quality and high price, and the price gets even higher after the sorting and cleaning are done." He asks about Dr. Keith Steinkraus. Address: Dakini Health Foods Pvt. Ltd., Vidyut Nagar, Plot A2, Kawdewadi, Pune / Puna 411 001, India. Phone: 0091-212-63-1990 (phone and fax).

• ***Summary:*** The first 2 pages of this attractive full-color booklet contain information about these soymilk products: Soy & linseed–a recipe for good health. What's so good about So Good. Rich in phytoestrogens. The Omega 3 benefit. Calcium. Vitamin B-12. Low fat. There follow 7 pages of recipes. Address: Wahroonga, NSW, Australia.

2468. Agranoff, Jonathan. 1997. Introducing tempe to non tempe-eating societies. In: Sudarmadji, Suparmo and Raharjo, eds. 1997. Reinventing the Hidden Miracle of Tempe: Proceedings, International Tempe Symposium, July 13-15, 1997, Bali, Indonesia. Jakarta, Indonesia: Indonesian Tempe Foundation. xi + 280 p. See p. 235-38.
• ***Summary:*** Contents: Introduction. Key questions that must be addressed: Cultural acceptability, need, cost, practicality, sustainability, market.

"First, it is important to appreciate that tempe is a food only native to the Javanese people as well as to those who have lived on the island of Java. It is also not widely accepted throughout Indonesia except among the Javanese communities in other islands. Transferring a food from one society [or culture] to another is not an easy task."

Many other Asian cultures have tastes similar to those of the Javanese. In Southeast Asia, tempe has been introduced to Thailand, Burma, and Vietnam on an experimental scale with good acceptability. "In Malaysia, the racial distinction between bumiputera Malays [native-born Malays] and Chinese, segregates tempe along with poorer sectors of the society. It is known as a cheap inferior food of Indonesian immigrants and Malays, therefore it already has a negative connotation."

In the USA, Europe and Australia tempe is largely unknown. However tempe is known to the Dutch through the large Indonesian community in Holland. It is also known to and enjoyed by the vegetarian, vegan and health food groups in these three regions.

"Africa: Introducing tempe into parts of Africa would be of tremendous nutritional benefit, but would be the most difficult" due to the food culture and habits. "The appearance of fungus on a food is totally unacceptable to most African consumers and the appearance would have to be substantially changed by processing the food further, e.g., by cooking." However trials conducted in Zimbabwe have shown that fried tempe was extremely well liked–even though the food was unfamiliar. Address: Dep. of Microbiology, Kings College, London Univ., United Kingdom.

2469. Anderson, Jean. 1997. The American century cookbook. 1st ed. New York, NY: Clarkson Potter. xii + 547 p. Illust. Index. 24 x 19 cm. [586* ref]
• ***Summary:*** Contents: Acknowledgments. Introduction. How to use this book. Appetizers and snacks. Soups. Meat, fish & fowl. Casseroles. Eggs, cheese, pasta & grains. Vegetables. Salads and salad dressings. Breads and sandwiches. Puddings, pies & other desserts. Cakes & frostings. Cookies & candies. Permissions. Bibliography. Index.

The Introduction begins: "For the past ten years, I have been traveling backward in time. Back across the decades to 1900 and beyond. My quest: To trace this [20th] century's role in our culinary coming of age. To track the recipes, foods, food trends, food people, appliances, and gadgets that have had an impact on our lives from 1900 onward." This is a marvelous book about mainstream American food, but it is also somewhat strange. Marvelous because: (1) It is the culmination of a life's work as a food writer; she is the author of more than 20 cookbooks, the winner of numerous awards related to food writing, and a member of the James Beard Who's Who of Food and Wine in America, and a regular writer for leading national food magazines. (2) The historical research that has gone into this book is superb, and beautifully presented, with hundreds of old graphics (photographs, illustrations, ads, packages, labels, posters,

© Copyright Soyinfo Center 2021

etc.). (3) The book itself beautifully designed, and the format is original and very inviting, with numerous interesting sidebars and timelines, in addition to the graphics.

The book is strange because: (1) The author seems largely unaware (except for a brief mention in the Introduction, p. 4) that the 20th century was also the century of the rise of the natural foods, organic foods, vegetarian, and soyfoods movements in America–starting in the 1960s, with a smaller health food movement from 1900 to the late 1950s; the words "natural," "organic," "soy," and "health" do not even appear in the book's substantial index–although the word "granola" does–in connection with a recipe that contains an incorrect history. Among the various soyfoods, only tofu is mentioned–but not in a recipe. In a timeline, under 1980s: "Tofu comes to the supermarket." Note: Actually, tofu was first sold in a supermarket chain in 1958 in Los Angeles.

The books contains two vegetarian recipes: (1) Vegetarian (meatless) Moussaka (p. 166-67), a recipe the author developed in 1973 for an article she was writing in *Family Circle.* She had eaten and liked meatless moussakas in Greece. (2) Vegetarian Black Bean Chili (p. 250-51), a 1960s recipe that won "Best of the 1991 New York State Fair." There is (fortunately) a timeline entry (1971) and four recipes related to Alice Waters and Chez Panisse restaurant in Berkeley, California. (2) The book contains many unhealthy (though popular) recipes. It is overloaded with recipes for meats, fish, and fowl–the very foods that are causing a health crisis in America, with heart disease and stroke as major causes of death and disability. Other recipes (also popular) contain large amounts of refined foods, such as white sugar, white flour, etc.–Ingredients that people interested in healthy foods generally prefer not to eat. (3) There are some glaring omissions: Under appliances–nothing about the blender, or the juicer.

Compare the recipes in this book with those in the latest edition of the *Joy of Cooking* (also 1997) and you will see clearly that the latter has kept pace with America's changing cookery and attitudes toward food, nutrition, good health, and the important connection between diet and health.

Note: Jean Anderson, a member of the "old school," was born in 1929. Address: Chapel Hill, North Carolina, and New York City.

2470. Hain Food Group, Inc. 1997. Annual report 1997. Uniondale, New York. 5 + 30 p. Nov. 28 cm.
• ***Summary:*** This unusual annual report is composed of 6 unnumbered pages of annual report on glossy paper and 30 pages of Form 10-K, which is bound in. A color photo (p. 1) shows Mr. Irwin D. Simon, President and CEO. In October 1997 Hain completed the acquisition of Westbrae Natural, Inc. "Westbrae sells over 300 high quality natural and organic food and snack products. Westbrae is the market leader in non-dairy beverages, the largest single natural food category. Westbrae and Hain combine to lead six of the fifteen top selling natural food categories." A color photo shows four of Westbrae's soy and rice beverages.

Page 1 of Form 10-K states that On Sept. 11, 1997, Hain executed a definitive merger agreement with Westbrae Natural. The next day Hain offered $3.625 cash per share for all outstanding common shares of Westbrae. The aggregate purchase price will be approximately $23.5 million. "For the fiscal year ended DEcember 31, 1996, Westbrae reported net sales of $32,583,000 and net income of $1,203,000. For the six months ended June 30, 1997, Westbrae reported net sales of $17,502,000 (unaudited) and net income of $708,000 (unaudited)."

"The company was formed in 1993. Net sales for the year ended June 30: 1994–$14,963,000. 1995–$58,076,000. 1996–$68,606,000. 1997–$65,353,000 (down 4.9%). Net income for these years: 1994–($502,000 loss). 1995–$2,365,000. 1996–$2,134,000. 1997–$1,069,000 (down 50%).

Enclosed with the annual report is a "Notice of annual meeting of stockholders and proxy statement." The single largest shareholder is Irwin D. Simon, who own 1,573,000 shares, which is 16.7% of the common stock. Mr. Simon, age 38, is the company president, CEO, and a director. In 1997 has salary was $200,000, with a bonus of $60,000 and other annual compensation of $5,400 = $265,400. He is the company founder and has been the president and CEO since its inception. Former positions: 1986-1990 with Haagen-Dazs is sales and marketing. Dec. 1990 to Dec. 1992 with Slim-Fast Foods Company in various marketing capacities. Address: 50 Charles Lindbergh Blvd., Uniondale, New York 11553. Phone: 516-237-6200.

2471. Hogan, David Gerard. 1997. Selling 'em by the sack: White Castle and the creation of American food. New York, NY: New York University Press. x + 199 p. See p. 99, 100, 107. [261* ref]
• ***Summary:*** A fascinating book, very well researched and written. White Castle, a regional restaurant chain, was founded in 1921 in Wichita, Kansas–at a time when Americans were hesitant to eat ground beef after Upton Sinclair's 1906 novel *The Jungle* had publicized the poor sanitation practices of the meat packing industry. It became the first American hamburger fast food restaurant chain.

It made the hamburger a U.S. institution and launched the fast-food industry.

In the chapter "White Castle goes to war," the section titled "Victory coffee without the coffee" (p. 98-100) states that coffee was in short supply during World War II only because consumers, in the early summer of 1942, fearing it would be rationed, "fulfilled their own prophecy of scarcity by clearing grocery shelves and hoarding coffee in their cupboards." Rationing was imposed a few months later.

White Castle first considered extending the existing

© Copyright Soyinfo Center 2021

coffee supply by adding "chicory or soy meal." Eventually most wholesale roasters added 6-8% chicory to their mix, which did not alter the flavor much. White Castle soon accepted this "chicoried" coffee at most Castles in the chain.

They also tried a variety of other hot drinks to help make up the coffee shortage, such as Postum (an extract from roasted wheat bran flavored with molasses)–but it was quite expensive.

White Castle also considered and tested, but ultimately rejected, other coffee substitutes such as "Soykee, a soy derivative sold by Battle Creek Food Company; Soyfee from Cubbison Company; and Kofy Sub, another soy-based substitute" [made by Dr. Jackson Foods in Toronto, Ontario, Canada]. The only coffee substitute that White Castle considered seriously was Breakfast Cup, sold by Loma Linda Foods of California in 12-ounce packages; it was made from soy, bran, fig, wheat, and honey, but was eventually considered too expensive.

Since meat was also scarce during the war, White Castle also searched for alternatives to their hamburgers–and even considered meatless alternatives. Battle Creek Foods of Michigan offered the most varieties. Special Foods of Columbus [sic, Worthington] Ohio, made Numete, based on peanuts and corn flour. Many companies made a soy burger, while Loma Linda Foods made Vegelona (from soybeans, tomatoes, onions, and peanuts) and Proteena (from soy, tomato juice and yeast extract). Central Soya Co. made soya flour, which White Castle considered using as a meat extender. But there is no evidence that White Castle ever mixed its hamburger meat with any extender.

Brief story of Betty Crocker: The first company to pioneer a corporate hostess for image making was General Mills in 1921–though at the time the company was named Washburn, Crosby, and Company, it "was becoming frustrated with the growing negative publicity about the white bread made from its bleached Gold Medal Flour. White bread was being denounced as having no nutritional value and being full of additives. In response the company created the popular yet fictional gray-haired 'Betty Crocker,' who was portrayed to the public as both an expert on nutritional issues and the ideal role model of the feminine and organized homemaker." The program began with just one secretary signing this pseudonym to all public relations correspondence, but quickly expanded. Address: Assoc. Prof., American History, Heidelberg College [Tiffin, Ohio].

2472. Nutrition Education Service, Sanitarium Health Food Company. 1997. Sensational soy cookbook. Sydney, London, Vancouver, New York: Murdock Books. 64 p. Illust. Index. 20 cm. [32 ref]

• ***Summary:*** A saddle-stitched vegetarian cookbook on glossy paper loaded with color photos and lightweight text. The author and nutritionist is Cathy McDonald of Sanitarium. Recipes developed by Wendy van der Veer of Sanitarium. Contents: The story of soy. The soy family: Miso, soy beans, soy breads & cereals, soy cheese, soy drink, soy flour, soy grits & soy flakes, soy 'meats,' soy pasta, soy sauce, soy snacks, tempeh, TVP, tofu, tofu desserts (ice cream and yoghurt). Breakfasts. Soy for health (isoflavones, menopause, breast cancer, osteoporosis, prostate cancer, heart disease). Light meals. The secrets of soy. Main meals. Soy in perspective. Desserts. Sensational soy (sample menus). Snacks. Know your nutrients. Bibliography. Estimated isoflavones in soy foods (table). Address: 1 Sanitarium Drive, Berkeley Vale, NSW 2261, Australia.

2473. Waring, Virginia. 1997. Fred Waring and the Pennsylvanians. Urbana, Illinois and Chicago: University of Illinois Press. xiii + 404 p. Illust. Index. 24 cm. [350+* endnotes]

• ***Summary:*** The story of the development and commercialization of the Waring Blendor by Fred Waring–the man of many great talents who taught American how to sing coral music. His professional life encompassed every aspect of show business–dance, theater, vaudeville, recording, radio, movies, television, and concerts. He was also an excellent golfer and ran an empire of enterprises.

Chapter 13, titled "The Waring Blendor (p. 144-51), tells how story began in 1936 when a man named Frederick J. Osius brought Waring a "seemingly unworkable device"–although Osius had been able to secure a patent on it in 1933. [Note: Osius's first and only patent related to a blender ("Disintegrating mixer") was filed on 13 March 1937 and issued on 1 March 1938.] During the next few months Waring made many improvements, and it was in good working shape by the fall of 1936. He carried it with him in a special trunk wherever he went, demonstrating it at every opportunity. On 24 Jan. 1938 he described his "Waring Mixer" (its original name) in detail, then demonstrated it during an interview as a guest on the show "For Men Only" on WEAF radio in New York City; he made a chocolate milk shake with a banana, using milk, ice cream, a little chocolate, and a banana as the main ingredients. And he described his "gadget" as "... about 14 inches high, with a highly polished metal base and a sort of clover-shaped open glass jar on top of it."

His friend Rudy Vallee became a fan and informal salesman (he sold hundreds of them) after he discovered how well and quickly it could make a frozen daiquiri with fresh fruit.

The Waring Mixer was probably first sold commercially in 1937 or early 1938. In Sept. 1938 *American Business* reported that 35,000 had already been sold. They were very popular in bars for mixing drinks. The Blendors were assembled in Toledo, Ohio, by Air-Way Electric Appliance, a maker of vacuum cleaners.

During World War II, production of Waring Blendors stopped, due to rationing, although a few Blendors were

© Copyright Soyinfo Center 2021

built for scientific laboratories. After the war, "the Waring Corporation" was run out of the Hammerstein Building in New York City. It is not clear when the name changed to Waring Blendor from Waring Mixer, or from Waring Blendor to Waring Blender. During World War II they were widely used in scientific laboratories and the special Waring Aseptic Dispersal Blender was used by Dr. Jonas Salk to prepare culture media in developing the polio vaccine. By 1955 the Waring Blendors were made at a factory in Connecticut.

The Waring Blendor "revolutionized the eating and drinking habits of America." Fred received substantial royalty payments for some 30 years until the mid-1970s when the new parent company, Dynamic Corporation of America–filed for Chapter 11 bankruptcy; it had been using profits from its little Waring subsidiary to pay off creditors. All rights reverted to Fred Waring.

Many photos show Fred Waring–but none with his Blendor.

Note: The word "smoothie" was coined in the early 1940s (perhaps as early as 1940) by women developing new recipes for the Waring Blendor. Address: Wife of Fred Waring (1954-1984).

2474. Paolucci, Danny. 1998. Experiments with vacuum-packaging tofu Swan Foods Corp. in Miami, Florida. Suspicions of spying by Premmies from Swan Gardens (Interview). *SoyaScan Notes*. Jan. 16. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Danny said in an interview in Nov. 1992 that Mary Pung and Robert Brooks, founders and owners of Swan Foods, were both doing a lot of new product R&D, and playing with a clam-jaw-type vacuum packager.

Swan Foods water-packed its tofu. The work with a vacuum-packaging machine probably never got past the experimental stage. He is quite sure that they had a chamber-type vacuum packaging machine at one end of the tofu factory. He is very sure they were experimenting with this machine, but he is not sure that they used it to pack any of their tofu. Later, after he started Sunshine Soy Company Inc. in Miami, Danny vacuum packed his tofu and he is sure that he got the idea from Swan Foods. Even if we could locate Mary Pung (who had not changed her maiden name, Pung, by 1983), she would probably not remember the answer to this question. "Her brain is probably gone."

Dick McIntyre, owner of Swan Gardens in Miami, may have purchased Swan Foods' vacuum-pack machine. Dick was always very a unsociable, private and non-communicative person. Dick was a Premmie–a disciple of the young Indian Guru Maraji. Danny strongly suspects that he hired Premmies to work in Danny's factory. Then they would go to *satsang* and tell him what was happening in Danny's factory. "Basically, corporate spies."

Danny was not a disciple of Guru Maraji; he has done Hatha Yoga all his life and began to practice Zen meditation at age 18; he still practices Yoga and Zen regularly. He came from a very conscious family. His stepfather was from England and his mother from Austria. In the 1950s, they ate yogurt and whole-wheat toast, and they had an Acme juicer on the kitchen counter–for making carrot juice.

Others who might know about Swan Foods: (1) Bernie Shapiro, who ran the I Ching, an spiritual/alternative bookstore in Miami and "knew everyone." (2) Jimmy Wilks, who was a founder of Swan Foods, who later worked at Popeye's Health Foods in Miami, and might still work there. (3) Chik Shank, who published *Alternatives* magazine in Miami; he still lives in Miami and is still involved with publishing. Address: 2219 S.W. 59th Ave., Miami, Florida 33155. Phone: 305-266-0830.

2475. Indiana Soybean Board. 1998. Indiana soyfoods locator guide: A guide to finding soyfoods in the supermarket and health food store. Lebanon, Indiana: Indiana Soybean Development Council. 48 p. 28 cm.

• ***Summary:*** This is the first edition of this Guide. On the cover is a paper grocery bag resting on a bed of soybeans and chock full of foods: Veggie Slices (soy cheese), soynut butter, veggie burger, tofu, soymilk, soy flour, plus carrots, celery, and cooking oil. Contents: Food pyramid. Soyfoods descriptions–Meat the Bean: Introduction, green vegetable soybeans (edamame), hydrolyzed vegetable protein (HVP), infant formulas–soy based, lecithin, meat alternatives (meat analogs), miso, natto, nondairy soy frozen desserts, soy cheese, soy fiber (okara, soy bran, soy isolate fiber), soy flour, soy grits, soy protein concentrate, soy protein isolate (isolated soy protein), soy protein–textured (textured soy protein, textured soy flour), soy sauce (tamari, shoyu, teriyaki), soy yogurt, soybeans, soymilk–soy beverages, soynut butter, soynuts, soybean oil & products, sprouts–soy, tempeh, tofu & tofu products, whipped toppings–soy-based, yuba. A taste for health–Scientists are learning about soy's health benefits: Heart disease, osteoporosis, menopause, cancer, isoflavones. Soyfood icon chart. Soyfood facts & recipes: Meat alternatives, soybean oil, textured soy protein, whole soybeans, soy flour, soymilk, tofu. Composition and nutrient content of soyfoods. Soyfood conversion charts: description of one serving of soyfoods, guide to modifying recipes, soyfoods substitution chart. Mail order soyfood companies. Soyfoods Web site packed with information. Soy cookbooks. Soy resource books. 1-800-talksoy. Soyfoods market search map; where to find soyfoods in the supermarket (a two page color layout of a supermarket displaying where soyfoods are located). Soybeans... they're in almost everything. Finding soyfoods at the supermarket (store listings by county). Address: Indianapolis, Indiana 46205-1744. Phone: 1-800-275-7679.

2476. Seemo (H. Shapira); Kairava (J. Spaelstra). 1998. Re: Exciting new developments at Dakini Health Foods Pvt.

© Copyright Soyinfo Center 2021

Ltd. in Pune/Puna, India. Letter (fax) to William Shurtleff at Soyfoods Center, April 10. 1 p. Typed, without signature on letterhead.

• ***Summary:*** "Hello Bill. Greetings from hot, hot India, and some gossips too. 3 months ago we managed to close a deal on a 17,000 square foot plot about 7-8 km from our present place.

"We dug a bore well and found a good spring!!! And yesterday we got our electricity connection–a Big story in India.

"We are trying now for building permits and planning to have 5,000 square feet ready by next year some time. About half of the space will be for our soy project–tofu, soy milk, soyogurt drink, tempeh–and hopefully more. We can get nearly all the equipment built locally–steam boiler, cooking pots, refrigeration, etc. We also want to fabricate a pressure cooker, an okara press, etc.

"For grinders some hammermills are available but I think we prefer to get a sanitary stone grinder so please if you have the address of some manufacturer / stocklist of these. Models sold without motors are best. We will be happy to know as this type of equipment has never evolved in India and importing is the only solution. Taiwan, Japan, or the U.S. are all OK. We may possibly buy a small one for hummus production as well.

"All the best, with love. Seemo & Kairava.

P.S. Tempeh production is running smoothly, 60-80 kg per month, 7-10 per batch for now. Address: Dakini Health Foods Pvt. Ltd., S.N. 33, Bhoiwasti, Keshavnagar, Mundhwa, Pune / Puna 411 036, India. Phone: +91 20-613985.

2477. James, Richard F. 1998. Work to expose the dangers of toxic substances in soybeans (Interview). *SoyaScan Notes.* April 18. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Richard James, who was born and raised in New Zealand and still speaks with a "down under" accent, lives with his wife Valerie and many exotic birds in Whangarei, a fairly large city near the northern tip of New Zealand's North Island, about 80 miles north of Auckland. Before he moved to New Zealand, he was a lawyer and real estate agent in the San Francisco Bay area.

After many of Richard and Valerie's parrots began to die, Richard started to notice that a number of different animal species, including humans, were having some adverse reactions to the consumption of soy products. First he spent a considerable amount of his own money phoning around New Zealand, starting with agricultural people who were having trouble with their birds. It turned out, bit by bit, that rabbits, guinea pigs, pet hamsters, race horses–indeed everything being fed soy products was having some really nasty problems. And yet we couldn't quite put our finger on exactly what it was. We noticed that it was also affecting the reproductive capacity; we were getting deformed babies and infertile eggs. Valerie, apart from being distraught at watching all her lovely friends dying in miserable ways, spent a lot of time talking to Rob Shaw, the technical manager of a health food company–whose phone number Richard would be glad to share. Because the end results are so diverse, because these bloody soybeans have so many levels of toxicity, you almost couldn't put your finger on what was happening. Ultimately Valerie mentioned to Rob that the bird food was being advertised as producing 11-week-old baby birds that had the sexual characteristics of 2-year-old birds. At this point Richard and Valerie had no idea what an estrogen was, but Rob had enough biochemistry (and he really is quite a brilliant fellow) that he said immediately: Oh! That's premature maturation. Not many people in this part of the world would have known about that. Other good men are Dan Sheehan (of the USA) and Glen Plymate (616 Westland Dr., Alameda, CA; a personal friend of Richard's to whom Richard has sent many documents implicating the toxicity of soy).

Sheehan's revenge: Two important scientific papers have been published. The most recent was published in Nov. 1997 in *Biochemical Pharmacology.* The significance of these two is that they did basically what Richard suggested to Sheehan and his co-workers. They examined the huge number of thyroid cases that are reported in the medical literature. Note that one of the first places the effects of the estrogenic chemicals (like DDT, the dioxins, cadmium, mercury, etc.) shows up is in the thyroid gland. Having discovered that, see if you can prove the link between that and soy. The soy industry's defense has always been that their processing gets all the toxins out; that's why nobody else ever complained. In response to that, we have produced all these published research papers about prostate tumors in dogs, and liver cancer and infertility in cheetahs, mice, rats, hamsters, etc. Richard and his research team has the best library of this type of research in the world. Richard offers to send Shurtleff copies of page 1 and the bibliography of many of these key papers.

Back to Sheehan's revenge: They set out to prove that flavonoid compounds cause thyroid cancer. Again, there were two key papers.

There has been a major cover-up. When Rob Shaw looked at the early literature Richard and his team were collecting on their literature review, he was very upset: He said the U.S. government must have known (for at least 20 years) the estrogenic content of soy infant formulas, and that that in some cases little girls fed soy infant formula show premature breast development, premature menstruation, premature menopause (at about age 22), etc. It doesn't show up until the kids reach puberty. Then (according to the dosage) the thyroid deficiency and the problems mentioned above start up; the evidence is unequivocal.

Another thing that has never been revealed properly

© Copyright Soyinfo Center 2021

or has been propagandized, like the premature thelarche in Puerto Rico: The only food correlation they found was with soy infant formula. The Centers for Disease Control (CDC) went off and did another search and absolutely, completely ignored soy infant formula, the foods fed after infant formula, and they ignored boys–so they came up with the answer that there is no incidence of anything–no problems. Basically, they defined the scope of their study so narrowly, that they defined away the problem. But even in this limited definition of girls who had problems, they were 2¼ times as likely to have been fed soy formula as anything else.

The other two emidemiologies were on Long Island, New York, where the North Shore Community Hospital went looking for a reason for the high incidence of auto-immune thyroid disease in children age 10 plus or minus 4 years. This occurs when the immune system has gone berserk and is actually attacking the thyroid gland. This is a permanent debilitating disease; its manageable, but chances of early death are fairly high. Kids with that syndrome were 2½ times as likely to have been fed soy formula. The same North Shore Community Hospital also found that kids with insulin-dependant diabetes–which is another auto-immune disease–were twice as likely to have been raised on soy formula. Moreover, some kids with this type of diabetes also had the auto-immune thyroid disease–and no one looked at abnormal breast development in these two groups of kids.

ADM stated to the FDA that they had determined that the soy isoflavones they are now selling [Novasoy pill with 70 mg of soy isoflavones in a softgel form] were safe to be used as a general additive to all foodstuffs. This is "totally toxic."

In 1966 the National Academy of Sciences, National Research Council, Food and Nutrition Board, Food Protection Committee, compiled a very important book titled *Toxicants Occurring Naturally in Foods* (Washington, DC: NRC Press, 301 p.). A greatly expanded 2nd edition was published in 1973 (vii + 624 p.). Their basic approach was: Gee whiz, isn't it great that we have these analytical methods so that we can detect when these toxicants are getting into our foodstuffs. They concluded that the main source of estrogens in foodstuffs is the isoflavones in soy products. Hormone replacement therapy isn't necessarily the same as the chemicals that are in soy; they both mimic hormones but they may not have the same biochemical effects.

"I could go on weeks talking like this but I'll tell you the basics that we can document... We were absolutely 'monstered' by some of the biggest and nastiest companies in the world. But also by certain arms of the U.S. government, particularly the U.S. Department of Agriculture." A professional journalist is now writing a book about this. The small things were late night phone calls. But the pitch that was made all over New Zealand was: "We can buy TV channels. We can divert medical schools. We can influence governments. And we have millions of dollars and teams of lawyers–and we crush nutters like you. You won't last six months. We will destroy your credibility. We do this to 20 or 30 like you every year. "I am not a retired bird raiser. My professional training was as a lawyer. I practiced in New Zealand, in London, and in San Francisco–all quite successfully–until the California Bar Association lowered the boom on lawyers who hadn't passed the California Bar. I had an office at Bechtel Corporation in the legal department on the 20th floor, the corner office, facing out towards the Ferry Building." He also got an MBA at Golden Gate University in San Francisco (part time; it took about 5-7 years). "Right now I am the soy industry's biggest friggin' pain in the ass." After I quit Bechtel, we were in the real estate business in Walnut Creek, directly east of San Francisco. We hit the boom in 1976, invested quite carefully in California real estate, and made a few million dollars. Returned to New Zealand and decided to do what the liked–raising exotic birds. His wife has dual citizenship (U.S. and New Zealand).

Dr. Clifford Irvine was (Richard believes) the "chairman of the governing board of Lincoln University in Canterbury, New Zealand. He was also dean of the Dep. of Animal Sciences. His secretary intercepted so many terrifying phone calls–death threats and whatever–that she finally left and went home. She broke down. Cliff was told that if he went to the USA to Dan Sheehan's conference, he should wear body armor and travel on a separate plane from Mike Fitzpatrick–which he did. Mike also was told to wear body armor and to watch out. This was not very nice stuff. Mike's employer was driven out of his mind. I've got it documented from Bill Grayson, who owned Grayson Laboratories, that the pressure was coming from Bean Supreme and Nestlé. If you phone somebody three times a bloody day and tell him the whole New Zealand Food Industry is going to take their business away from his laboratory, you'll frighten the sh*t out of him.

"The soy boys pick a pinch hitter in some country. They started with Bean Supreme, then dumped him, and they've been using a fairly big Seventh-day Adventist owned health company–the most corrupt, dishonest company in the world–and I can document that for sure." They have been putting incredible pressure on Richard and the others in his group. Continued. Address: 1868 Whangarei Heads Road, Rural Delivery 4, Whangarei. Phone: +64 9 434 0564.

2478. James, Richard F. 1998. Work to expose the dangers of toxic substances in soybeans. Part II (Interview). *SoyaScan Notes*. April 18. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Continued: Originally the scientists looked at this soy matter; Richard was not a scientist, he was a check writer, because he and his wife saw something wrong that demanded a scientific explanation. Richard didn't even hire the scientists; they were commissioned originally by the health food company. Rob Shaw, the technical manager who had experience in the pharmaceutical industry,

© Copyright Soyinfo Center 2021

talked to everybody he knew to find out who was the best analytical chemist in New Zealand. They picked Allan Aspell, who owned his own consulting firm. First, Rob Shaw commissioned them to analyze the literature. When that was done, Rob told Richard that he was already convinced there was a problem with soy. Richard replied that he needed a toxicity report on the quantities toxins found in soy. So from the literature they had discovered, they analyzed for genistein, daidzein, etc. including from infant formulas. The soy industry has tried to make it appear–all over the Internet, etc.–that this was just one crazy bird breeder who fed raw soy flour to his birds. It wasn't! It was a crazy bird breeder who had fed soy infant formula to his children in 1969 and 1970. It was Isomil and the James' family was living in Walnut Creek at the time. Looking back, they saw some of the same effects in the early infancy of their children that they saw in the birds 20 years later. One of the really characteristic ones is a high level of hyperactivity. The estrogens wind the brain cells and central nervous system up. We had to move out of the 20th floor of the Golden Gateway Apartments in San Francisco, California, break the lease, which cost a pretty penny, because our son was so hyperactive we were afraid he was going to get out of the apartment and parachute 200 feet to the ground without a parachute. You notice it at about age 6-7 when they look like they are autistic or have attention deficit disorder. Those are subtle things; yet Richard could make a list of about nine things that he saw in the birds that he had seen in the kids. In early 1995 he made such a list and gave it to Dan Shehan and Kevin Medlock. After the short term problems you begin to see the serious deficiencies that reproductive systems and immune systems as they are supposed to be developing properly in later childhood. They have some "awful" anecdotal evidence of kids that were on soy formula for 20-21 months.

Richard will send Shurtleff the first page of about 20 of the most important documents.

In April 1994 the first major report, titled *The Toxicity of Soybeans and Their Related Products. Vol. 1. Scientific Reports, Laboratory Analyses, Field Observations,* was compiled and published by Valerie and Richard James. To get it reviewed around the world cost the two about $100,000 of their own money–just to get started. They thought that if they handed this peer-reviewed report to their own [New Zealand] government, they would act. Since, they have spent an additional $250,000 protecting and educating themselves. For example, soy infant formula contains about 150 times more carcinogens than is permitted under U.S. law–and most of the soy milks on the market contain about 50 times more. It has been general knowledge for about 50 years that these phytoestrogens are carcinogens–put nobody had ever gone and proved it. Even the toxicologist at the local medical school, who did an independent peer review of the 1994 report, wrote an essay for one of the local newspapers about the carcinogenic effects. Unfortunately it was never published die to pressure from the soy industry. Address: 1868 Whangarei Heads Road, Rural Delivery 4, Whangarei. Phone: +64 9 434 0564.

2479. James, Richard F. 1998. Re: Answers to questions by William Shurtleff related to photocopies sent by James. Letter (fax) to William Shurtleff at Soyfoods Center, May. Handwritten. Undated.

• ***Summary:*** (1) Columbit (NZ) Ltd. is the sole importer of soy protein isolate. It is owned equally (50/50) by Protein Technologies International (PTI) and Bruce Kirk. Kirk is the heavy-breathing late night phone call expert who was handing out threats of hell fire, etc. to Prof. Irvine, Dr. Fitzpatrick and his employees, Bill Grayson, and us.

(2) "Tofu shop" at the top of a fax (with fax #631 0616) is a suburban health food shop in Penrose, Auckland, on the north island of New Zealand. It is a retail outlet for Trevor Johnston's business, Bean Supreme (Brings Happiness). Address: 1868 Whangarei Heads Road, Rural Delivery 4, Whangarei. Phone: +64 9 434 0564.

2480. **Product Name:** Soyganic.
Manufacturer's Name: Sunrise Markets Inc.
Manufacturer's Address: 729 Powell St., Vancouver, BC, V6A 1H5, Canada.
Date of Introduction: 1998 June.
Wt/Vol., Packaging, Price: Paperboard tub.
How Stored: Frozen.
New Product–Documentation: Talk with George Conquergood, Vice-president of Operations, International ProSoya Corp., Surrey (Vancouver), BC, Canada. 1999. SoyaWorld presently markets three soymilk products: Sunrise soymilk (a beany-flavored product made and packaged by Sunrise in plastic bottles), Soyganic (a traditional beany-flavored product made by Sunrise with organic soybeans, packaged at Dairyworld in a gable-top carton and sold refrigerated), and So-Good (licensed from Sanitarium Health Food Co. in Australia, formulated and packaged in gable-top by Dairyworld, and based on soy protein isolates). Soyganic and So-Good appeared on the shelves at about the same time in 1997 under the SoyaWorld brand. They distribute those three products extensively across western Canada, and sell them in the dairy case.

ProSoya News release. 1999. May 17. *Soyganic* is an organic soy beverage fortified with calcium and other essential nutrients.

Talk with Peter Joe, owner of Sunrise Markets. 1999. May 26. In late 1997 the Canadian government first allowed soymilk to be fortified with calcium and vitamins. This showed a weakening of their many laws designed to protect dairy products. Use of the word "milk" is still not allowed. Soyganic was launched in mid-1998.

2481. Bramblett, Billy. 1998. Company history: Wildwood Natural Foods (Continued–Document part III). Fairfax, California. 10 p. Unpublished typescript.

• ***Summary:*** "Meanwhile, Mr. Ridenour had brought the Santa Cruz operation into the sunlight of profitability. He had developed systems and teams that worked together toward enlightened profitability. His workers worshipped him, called him 'Dad,' and became a family of which he was the head and patriarch. Wildwood Santa Cruz was profitable in 1991, and on a firm footing.

"After a Stanford MBA analysis indicated that both companies should be headed by the enlightened leadership of Mr. Ridenour, the BOD [board of directors] north elected Mr. Ridenour as president and Mr. Orbuch retired. Mr. Ridenour has set about cleaning up the north and installing those systems and procedures which have been proven effective and profitable in Santa Cruz."

"So as of February 1992, Mr. Ridenour was in charge of both companies... In August, 1992 Mr. Bramblett returned at Mr. Ridenour's request to help with product development and financial analysis (Mr. Bramblett had been the CFO of China Books and Periodicals in San Francisco for the past two years). The analysis determined that the company was losing money primarily due to distribution costs and the imbalance between the sales of Wildwood products and the sales of products made by other manufacturers, which at that time was 33% Wildwood and 67% other."

In 1993 Mr. Bramblett took over the accounting department; Wildwood returned to profitability and the owners decided to merge the two companies so they could sell off a small part of it to raise capital. In Nov. 1993 John Breen was hired as controller.

The corporate merger was accomplished in 1994 with each of the four shareholders owning 25% of the surviving corporation. "We then wrote a business plan in which we proposed to build a new tofu factory, bring all production under one roof (likely in Watsonville) and leave a cross dock in Marin County near the Hwy. 101/580 intersection."

"We finally lined up financing for the new factory, but the senior debt underwriters wanted to see more equity on the balance sheet... We have not yet been successful in this plan but have had much interest and several buy-out offers. We have joined the Social Venture Network and have made presentations to the Investor Circle (SVN spinoff) and have a few investment suitors at this time.

"Meanwhile the combined corporations became profitable in 1995, 1996 and 1997 and so far in 1998. We have strung together 13 consecutive profitable quarters and added to our equity thereby. While only growing total sales by about 10% over the past three plus years, we have flip flopped the products profile and are now at 69% Wildwood and only 31% other products, a much more profitable balance. We have also developed many new products and have several products private labeled for us.

"Most recently we have introduced a new private labeled [by Ted Nordquist and TAN Industries] organic soymilk in gable topped cartons which comes in two flavors, Plain and Chocolate. We expect to have this product in distribution in the western U.S. by September 1998.

"Wildwood is currently producing approximately 30,000 lbs, of tofu per week and bottling 2,000 quarts of Yo Soy traditional soymilk (in plastic quarts) in two flavors, Plain and Honey-Vanilla. We reprocess about 40% of the tofu and sell the rest as either 10 oz. vac pack, or 20 oz. vac pac, 16 oz. firm water pack, 16 oz. medium (low fat, calcium sulfate) water pack, or institutional vac pac in 8 lb. blocks or 7 lb. pre-cut. We also produce 20 oz. vac pac for Whole Foods with their label.

"In addition Wildwood produces Hummus in four styles, traditional Mid East, Low Fat, Spicy Low Fat, and Pesto. To complete our middle eastern line, we also produce Tabouli Salad and Baba Ganooj.

"Secondary tofu products include Baked Tofu in four flavors, Smoked Tofu in two flavors, Tofu Vegie Burgers in three flavors, and Tofu Cutlets (traditional Nama Age). We also make Braised Tofu Salad (cubes of tofu lightly grilled with fresh vegetable in exotic sauces) in five flavors and fresh tofu salads in two flavors as well as two tofu spreads. We have abandoned the sandwich market altogether.

"The retail side of the natural foods market has consolidated. Very rarely will you find the small neighborhood health food store or the little mom and pop place that would sell ready to eat products such as ours. Now its all big corporate up-scale super stores with coffee bars, juice bars, cookie bars, salad bars, sushi bars in 65,000 square feet of fancy, wide aisles, highly decorated and high prices.

"These stores also demand more margin, squeezing distributors and manufacturers and exhibit 'serve all our stores or serve none' ultimatums. We have countered by refining our DSD (direct store delivery) system. Wildwood is now Macintosh networked from orders through production, packing and delivery. The driver/sales reps now deliver to the stores with completed invoice in hand. We educate the store clerks and managers to understand that our full service distribution saves them over 5% in stocking and inventory management expense and have kept the stores margins below 30% in most cases. Also, since we have concentrated on developing products with longer shelf lives and have refined production methods to extend the shelf lives of existing products, the return rates have dropped dramatically to under 3% for the entire Wildwood product line."

"Quality is still our number one goal, but profitability is a close second."

"We have expanded our distribution to include several sub distributors. Rock Island Foods carries our longer shelf life products into stores in the SF Bay area which we opt not to serve, as well as into eighty Lucky Markets and any

© Copyright Soyinfo Center 2021

account which is outside of Wildwood's distribution area. In Los Angeles our products are distributed by California Day Fresh as well as Tree of Life and Nature's Best."

In Portland [Oregon], we are carried into natural foods accounts by Zanya Trading, and we are preparing to open the Seattle [Washington] market by the fall of 1998. Our new soymilk will be carried by Texas Health into Texas, Colorado and New Mexico and will pave the way for the rest of our product line into those markets.

"Wildwood will continue to seek financing in order to build a new production facility before the new millennium and we plan to be nationwide by 2005. Our products continue to gain critical acclaim and have won first place or best of show at three separate San Francisco Chronicle and American Tasting Institute events in 1998 alone.

"In case you missed the ownership / management lineup, here's a recap:

"Jeremiah Ridenour, President & CEO, Board of Directors, 25% shareholder.

"Billy Bramblett, Treasurer, BOD, 25%, GM in Fairfax, product development, demonstrations.

"Frank Rosenmayr, VP & Secretary, BOD, 25%.

"Paul Orbuch, 25%.

"Other key personnel include:

"John Breen, controller.

"Erik Todd, distribution manager.

"Dolly Gianni, human resources (and so much more).

"Doug Porter, purchasing manager, graphic design (and so much more).

"Maria Gonzales, production manager, Fairfax.

"Chris Spalaris, plant manager, tofu manager, Santa Cruz.

"Juan Macias, secondary production manager, Santa Cruz.

"Currently we run thirteen delivery routes which visit our accounts three times a week. We have 95 employees. 1998 sales are estimated to exceed $6.5 million of which about 70% will be Wildwood branded products." Address: Wildwood Natural Foods, 135 Bolinas Rd., Fairfax California 94930. Phone: 415-485-3940 X-47.

2482. **Product Name:** Soy Wonder Soymilk Machine.
Manufacturer's Name: Miracle Exclusives, Inc. (Importer-Marketer). Made in China.
Manufacturer's Address: P.O. Box 8 (64 Seaview Blvd.), Port Washington, New York 11050. Phone: 1-800-645-6360.
Date of Introduction: 1998 October.
Ingredients: -
New Product–Documentation: Six-page brochure sent by Dr. Christopher Harrison, LAc, of Brooklyn, New York. 1999. Feb. 26. "Soy Wonder Soymilk Machine." This brochure, photocopied on light-blue paper discusses: "Introduction. About soymilk. Important safeguards. To make fresh soymilk–2 quarts (1.8 liters)–13 step process with 5 photos. Beverage recipes. Nutritional data. Other uses: Hot chocolate, chocolate soymilk, fruit smoothies, pudding, coffee creamer. Cleaning the machine. Technical data. The machine looks something like a Vitamix blender, and is about the same size. A note from Dr. Harrison states that the machine is made in China and imported by Miracle Exclusives–Phone: 1-800-645-6360. It wholesales for $179. The idea came from a book by Peter Golbitz (phone 207-288-4969). No okara is left over after making the soymilk.

Talk with Gail of Miracle Exclusives. 1999. March 3. This machine (MJ717) was first sold in about Oct. 1998. It wholesales for $179 and retails for $269. It takes about 22 minutes to make 2 quarts. Catalog and price list sent by Miracle Exclusives. 1999. March 4. Effective Nov. 1998. "Catalog 1999-2000: Health appliances for the new millennium." A color photo shows the machine next to a bowl of yellow soybeans, a glass of light tan soymilk, and a copy of the book *The Simple Soybeans and Your Health*, by Mark and Virginia Messina. "Simply insert soaked soy beans, add water, switch on and its done. Its controlled cooking and grinding process produces a delicious soy milk without a "beany" taste at a fraction of the cost of packaged soy products. Recipe book included." Website: www.miracleexclusives.com.

Ad (color, 1/6 page) in *Vegetarian Times*. 1999. July. p. 96. "Make your own fresh soymilk!" Makes 2 quarts in 22 minutes. Call: 1-516-621-3333.

2483. ProSoya Inc. 1998. Creating great opportunities in the health food industry: Advanced soymilk technology (Portfolio). Ottawa, Ontario, Canada. 17 inserts. 31 cm.
• ***Summary:*** The 17 documents enclosed in this portfolio (containing many black-and-white photos) include: (1) Cover letter from Brian Harrigan, Executive vice-president. (2) Creating great opportunities in the health food industry: Advanced soymilk technology (4-page brochure). (3) Soymilk systems: VS 30/40, VS 200, VS 700, VS 2000, VS 3000 and VS 4000. (4) Equipment for upgrading. (5) Production chart. Nutritional comparison of soyfoods (four bar charts). (6) ST 2000–Continuous soaking and hydraulic conveying system. (7) ST 2000-OPT–Dry bean conveying system, washing/dewatering augers, an circulating pumps. (8) EC 200–Extractor. (9) EC 1000 & EC 2000–Twin-stage, self-desludging extractors. (10) EC-OPT–Okara conveying system and spare cone. (11) Continuous heaters. (12) Continuous cookers. (13) VF series–Model 200, 3000, and 60000–Vacuum flash deodorizing systems. Address: 2-5350 Canotek Road, Ottawa, ONT, K1J 9N5, Canada. Phone: 613-745-9115.

2484. ProSoya Inc. 1998. Creating great opportunities in the health food industry: Advanced soymilk technology (Brochure). Ottawa, Ontario, Canada. 4 p. 28 cm.

green and yellow overlays), discusses the company, the technology, the equipment, our customers, business opportunity. "ProSoya technology is currently being used in more than 20 countries. There are large-scale processing plants in Canada, Russia, and Scotland. Over 250 small, to medium-scale plants are located on five continents around the world. ProSoya has technology transfer agreements with companies in Russia and India for the manufacture of smaller soymilk systems under license."

Photos show: (1) ProSoya's VS 7000 system. (2) ProSoya's VS 200 system. (3) ProSoya's VS 40 system. (4) ProSoya's VS 4000 system. (5) A sliced cake of tofu, a glass of soymilk, and scoop of soy ice cream on a cone. Address: 2-5350 Canotek Road, Ottawa, ONT, K1J 9N5, Canada. Phone: 613-745-9115.

2485. Hain Food Group, Inc. 1998. Annual report 1998. Uniondale, New York. 22 p. Nov. 28 cm.
• ***Summary:*** Net sales for the year ended 30 June 1998 were $104.25 million, up 59.5% from $65.35 million in 1997. Net income in 1998 was $3.292 million, up more than three-fold from $1.069 million in 1997.

"1998 achievements: Fiscal 1998 was our most aggressive period for acquisitions... In December 1997, we completed a public offering of 2.5 million shares of common stock that raised approximately $21 million. We used these proceeds to reduce debt incurred in connection with the Westbrae acquisition... In April 1998, we contracted to acquire four other natural food businesses which closed on July 1, 1998. These acquisitions, of Arrowhead Mills, Terra Chips, Garden of Eatin', and DeBoles Nutritional Foods, make us a premier natural food company with products that lead eleven of the top 15 natural food categories. The cost of acquiring these businesses was approximately $80 million, which we financed through the issuance of $40 million in our common stock and $40 million in senior bank financing."

The Company was named "New Product Company of the Year" by *Prepared Foods*, a leading industry publication. The company now markets over 1,500 different products under nineteen different brand names. In 1997 the company stock price ranged from $3.125 to $5.75. In 1998 it ranged from $4.84 in the first quarter to $27.25 in the fourth quarter.

In 1998 Irwin D. Simon, president and CEO, earned $225,000 salary plus $60,000 bonus plus $5,400 other annual compensation. Andrew Jacobson, now president of the company's Natural Foods Division, was with Westbrae. He commenced employment on 14 Oct. 1997 and earned a salary of $129,329. Address: 50 Charles Lindbergh Blvd., Uniondale, New York 11553. Phone: 516-237-6200.

2487. Hill, Ray. 1998. The health food store: a nostalgic look at the first–its origins, philosophy and development. Gloucestershire, England: Nuhelth Books. 191 p. Illust. (1 portrait). No index. 21 cm.
• ***Summary:*** This valuable book is largely about the Pitman Health Food Company and James Henry Cook (1869-1943) its founder and guiding light. It was published in 1998 to mark the 100th anniversary of England's first health food store on Corporation Street in Birmingham. It is based on facsimile copies of selected pages from the many early catalogs and price lists saved for a century by the Cook family.

Contents: Introduction and dedication. A health food pioneer–James Henry Cook. The Pitman business (a chronology, 1896-1943). The first Pitman catalogs–facsimile reproductions (Dec. 1898; March/April 1900 {the first with advertisements}; Sept/Oct. 1900 with a full-page price list of Dr. Kellogg's Health Food Products; Feb. 1901, the first with the terms "Health Food Specialists" and "Health Foods" on the cover or in the catalog, One full page (p. 59) is titled "Depot for Dr. Kellogg's Health Food Products"; March 1902, with kitchen equipment and utensils added; May/June 1902, with a new style of front cover and a letter from Eustace Miles; Feb/March 1903, with a full-page ad for Toasted Wheat Flakes, made by the International Health Association, Birmingham, and "Pitman" Nut Butter; Spring 1908, with a full page explaining the 1908 "Butter and Margarine Act," which forces nut butters to be labeled "margarine"; 1908 Christmas, 106 pages long, with a small 8 page supplementary catalogue. The address is now 121-131 Aston Brook St., Birmingham; 1913-1914. The "Pitman" Health Food Co. is established as a manufacturing and

© Copyright Soyinfo Center 2021

distribution business. A full page describes its first "mission statement." Future catalogs now relate to the manufacturing business; 1915-1916 catalog; 1916-1917 catalog and supplements–during World War I; 1928 spring catalog).

Moving on through the 1930s: 1928 catalog featuring honey and bee wares; 1930-31 catalog featuring the new Vitland manufacturing facility at Four Oaks, Warwickshire, rather than to the shop. "In 1930 the Pitman Health Food Company moved from Aston Brook Street, Birmingham, to a green field site custom built factory and offices at Vitaland..." (p. 146); 1931 Pitman Catalogue 3rd supplement, with a ½-page ad for Soyolk [whole soy flour]. "1-lb. Soyolk = 30 eggs"; 1932 Pitman Catalogue–New Year Supplement, with full-page ads for "Pittman" Vitanut Flakes, a brand leader and "perhaps the first original British flake breakfast cereal, and "Nuto Cream" "The Milk that Never Disagrees–"as supplied to Gandhi during his last visit to England." And a full page of "Health queries answered," by J.C. Kenmoor Hayes; 1933 Pitman Catalogue, with Sun-Dried Black Spanish Figs; 1934 Pitman Catalogue, with Pitman Crumbled Bran and Prepared Washed Bran, and Innerclean from Prof. Arnold Ehret; 1935 Pitman Catalog 3rd Supplement; 1935... 4th Supplement with Pittman Soya Beans in Gravy, Curried Soya Beans, and Soya Beans in Tomato Gravy (each tinned). Soya Bean Seeds–a novelty for your garden. No. 1, Yellow, No. 2, Green, No. 3, Brown. "English acclimatized seed. Full planting instructions on every packet" (p. 174); 1935-1936 Pitman Catalogue, in a change of policy "acknowledges the role of the Nature Cure practitioner"; 1936-1937 Pitman Catalog.

The Pitman business grew nicely until World War II. In 1940 the government requisitioned the company factory (Vitaland) in order to make munitions for the war effort. This was a huge blow to James Cook, "who had dedicated his life to helping people to live healthily–who followed both the vegetarian and pacifist doctrine of no animal slaughter for food and a reverence for human life. His business, built up over some 40 years,... was to be taken over as a result of a War Department decision, for which there was no appeal. The company was given a small part of the factory in which to carry on its business, and was told to enter and leave by the back door only. In 1943 James Cook died heartbroken but quietly at age 74. He was buried in Four Oaks Parish Church, Sutton Coldfield. His wife, Grace Marion, their daughter, Kathleen, her husband and the directors carried on as best they could during the remaining war years.

A Trip Down Memory Lane: Discusses the contributions of others pioneers in this field: Before Henry Cook coined the term "health food." R.M. Scott of Ipswich were baking a range of stone milled wholemeal biscuits, and T.J. Bilson had developed the famous Bilsons Nerve Food. Dr. T.R. Allinson was putting his London patients on a healthy diet including wholemeal bread. And many others. By 1925 there were about 500 health food stores in Britain. "Initially Arthur Ling named his company Plantmilk Ltd. until the authorities forced him to change the name on a technicality–it can't be called milk unless it comes from an animal–So in the 1960s [or perhaps the 1970s] the original Plamil company was born. It was the first in the field."

Note: The color photo of Ray Hill, with his wife and three sons, was found on the Web; it is not part of this book. They have just purchased the Sunshine Health Shop. Address: Gloucestershire, England.

2488. Hubbard, Elbert (Fra). 1998. Olympians: Elbert Hubbard's selected writings Part 2. n.p. 476 p. See p. 321-26.
• ***Summary:*** One chapter, titled "J.H. Kellogg and C.W. Post–Pamphlet" (on pages 321-26 of the original 1998 book), is being sold by itself for an extremely high price. We suggest you avoid such books by Elbert Hubbard.

This chapter probably originated between 1909 and 1922, but its origin is deliberately obscured.

2489. Kennedy, Gordon. 1998. Children of the sun: A pictorial anthology from Germany to California 1883-1949. Ojai, California: Nivaria Press. 192 p. Illust. (some color). Index. 22 cm. [34 ref]
• ***Summary:*** A fascinating, very original and important book. Starting in the 1880s in Germany, four very interesting reform movements that prefigured the Western Hippie / counterculture movement of the 1960s began: (1) *Wandervogel* (free spirits / migrating birds). (2) *Naturmenschen* (natural men and women). (3) *Lebensreform* (life-reform, esp. vegetarianism, natural medicine, abstinence from alcohol, clothing reform, nudism). (4) *Monte Verita* (mountain of truth; the community at Ascona, Switzerland). This cultural Renaissance exerted its greatest influence in Europe in Germany and Switzerland up until the start of World War I in 1914. Remarkably, a number of the key figures came to America, and especially to southern California, where they were the pioneers in the movements begun in Europe and in the related fields of organic foods, natural foods, raw foods, vegetarianism, nature cure, naturopathy, drugless medicine, nudism / nakedness, and a return to nature. Packed with interesting photos and illustrations (especially by Fidus) in both black-and-white and color.

Contents: Acknowledgments. Prologue. Louis Kuhne (author of *New Science of Healing*, 1883; on 10 Oct. 1883 he opened his "International Establishment for the Science of Healing without Medicine or Operations" in Leipsic [Leipzig], Germany. Enlarged in 1892, 1901, and 1904, it grew to be very large and successful, and had a fruit orchard on the property). Karl Wilhelm Diefenbach. Fidus (born Hugo Hoppener). Adolph Just. Gusto Graser. Hermann Hesse (he lived in a cave with his teacher, Gusto Graser, in the summer of 1907 in the mountains near Ascona, Switzerland). Lebensreform. Naturmenschen. Ascona. Richard Ungewitter.

Wandervogel (Founded in 1895 by Hermann Hoffmann in Steglitz, a suburb of Berlin. A youth movement that was both anti-bourgeois and Teutonic in character it had 45,000 members by 1911 and 50,000 by 1914. They sought communion with nature, with the ancient folkspirit, and with one another. Their camps led to the youth-hostel movement when in 1907 Richard Schirmann opened the first hostel in Altena, Germany). Dr. Benedict Lust (1892–Came to America from Germany. 1896–Returned after being cured of tuberculosis in Germany by Father Sebastian Knapp. ca 1901–Opened his Yungborn retreat in Butler, New Jersey on 60 acres of hills, forests, and fruit orchards. 1901 March 1–Established the American School of Naturopathy in New York City; it was the starting point for hundreds of America's health teachers, incl. Paul Bragg and Herbert M. Shelton. 1902–Founded the Naturopathic Society of America, which in 1919 was renamed American Naturopathic Association. He soon became known as the Father of Naturopathy in America. He started the Nature Cure Publishing Co. in Butler, New Jersey, and translated most of the German health classics into English. He was hounded constantly by the New York Medical Association and was arrested 16 times–from 1899 to 1921–by New York authorities; over 800 naturopathic doctors were arrested during a 12-year period, as well as many chiropractors and Christian Scientists. 1925 he published *Nature's Path* magazine).

Dr. Carl Schultz (arrived in California in 1885 from Germany at age 36 to establish himself as the "Father of Naturopathy" in California. By 1905 he had created the largest "alternative health empire on the West Coast"–p. 134).

Bill Pester (arrived in California not long after 1906, at age 19, from Saxony, Germany–to avoid military service. Settled in Palm Canyon in the San Jacinto Mountains near Palm Springs and lived in a palm hut he built by a stream and palm grove. He lived on Cahuilla Indian land, with permission from the local tribe which greatly admired him. His name even appeared in the 1920 U.S. Census with the Indians. Was the first of the "nature boys" and a mentor to many others–a new breed of Californian).

Arnold Ehret (arrived in California in 1914 from Switzerland. Wrote many books on fasting).

John T. Richter and Vera Richter (Both vegetarians. 1917–Moved from Minneapolis, Minnesota, to Los Angeles and opened the first of three Eutropheons, live-food vegetarian cafeterias in Los Angeles. 1925–*Mrs. Richter's cook-less book*, by Vera Richter published in Los Angeles. 1936–*Nature–The healer*, by John Richter published in Los Angeles. Their most important contribution was their live-food cafeterias, which lasted for over 25 years.

"California's Nature Boys {p. 166}, the first Americans to adopt the lifestyle and philosophy of the German *naturmensch* and *lebensreform*, were all employed at the Eutropheon, and were greatly influenced by Richter's ideas"–p. 156).

Hermann Sexauer (1907–Arrived in American from Germany. 1915–Moved to Santa Barbara. 1934–Sexauer Natural Food Shop opened on Anapuma St. in Santa Barbara–and for 16 years was the only health shop in Santa Barbara. He was a vegetarian). Maximilian Sikinger (1935–Left Europe for the USA, gradually making his way to California. 1941–Began to winter in Tahquitz Canyon. Lived and traveled with the Nature Boys who valued his ideas. 1943–Purchased some property in Santa Monica Mountains. 1946–His book *Classical nutrition* published). eden ahbez. Gypsy Boots. Epilogue.

The Epilogue begins with a beautiful 1828 quotation from Goethe about loving and practicing the truth: "The chief thing is to have a soul that loves the truth and harbors it where it finds it. And another thing. Truth requires constant repetition because error is being preached about us all the time and not only by isolated individuals but by the masses. In newspapers and encyclopedias, in schools, universities; everywhere error rides high and basks in the consciousness of having the majority on its side."

It then continues: "As the decades passed many of the alternative values introduced by the Germans gradually became interwoven into the fabric of the American mainstream, while the causal factors of this cultural infusion have been reduced to media morsels of historical amnesia and cultural cliches.

"For many of these immigrants, California was the country of the future, and they saw themselves as pioneers helping to lead to a new society, by transplanting and nurturing the most valuable ideas from their homeland into their new dreams for America.

"The real reason these groups never fade away is because they have always been here–a perennial sub-culture." The Volkswagen Bus, whose first prototype appeared in 1949, was an expression of the *Wandervogel* philosophy of traveling and sleeping in your own vehicle.

Note: Much of the information, plus many of the color photos and illustrations, can be found (March 2005) at the website: www.hippy.com.

Unfortunately, by July 2021 www.hippy.com no longer exists. Address: California.

2490. Zipern, Elizabeth; Williams, Dar. comps. 1998. The tofu tollbooth. 2nd ed. Woodstock, New York: Ceres Press/ Ardwork Press. vi + 250 p. Illust. 21 cm.

• ***Summary:*** The title of this book is probably a take-off on "The Phantom Tollbooth," a classic by Norton Juster (1961). This is not a book about tofu–although most of the stores listed here probably offer tofu. Rather, it is a popular guide to more than 1,000 natural food stores and eating spots–with lots of other cool stops along the way. It was written especially for travelers. All stores have organic produce, unless otherwise indicated. The listings are alphabetically

© Copyright Soyinfo Center 2021

by state, and within each state alphabetically by city name. A good map appears at the start of each state, showing the major roads and numbered cities and towns where natural food stores and eating spots are to be found. For each store is given: Name, address, phone number, and business hours. How to get there by car. Up to 17 symbols indicating such things as: Deli, bakery, cafe, juice bar, salad bar, coffee to go, beer/wine, filtered water machine, nutritionist/herbalist, wheelchair access, bathroom, wheelchair accessible bathroom, independent retail, corporate, co-op, or collective. For many cities there are "hot tips" of places to go and things to see.

The authors strongly advocate organic farming and gardening. Scattered throughout the book are 27 interesting "Organic facts" such as: No. 1. "Support a true economy. Although organic foods might seem more expensive than conventional, conventional food prices do not reflect hidden costs borne by tax payers (as in federal farming subsidies). Other hidden costs include pesticide regulation and testing, hazardous waste disposal and clean up, and environmental damage. Consumers can pay now or pay later. Organic foods are priced for paying now for a more sustainable environment." A photo shows the two authors seated cross-legged by the roadside.

2492. Boggs, Rose. 1999. Bill Baker's bakery–Built in 1927: Historic landmark number XX. Draft. Ojai, California. 8 + [2] p. Unpublished typescript. March. [13 ref]
• ***Summary:*** Contents: Report and recommendation of the Historic Preservation Commission. Bill Baker's bakery. 1. Explanation of the significance of the nominated landmark as its relates to the criteria for designation: General description: The bakery is situated at 457 East Ojai Avenue, Ojai, California 93023.

History: Bill Baker commissioned the building you see today in 1927. There were two buildings with an alley and great iron gates between. Mr. and Mrs. baker resided in the rear of the bakery. The oven was built on the site as early as 1896, and possibly before then. The oven is wood burning with a brick hearth. The oven door and some parts were purchased from the Dutchess Oven Co., which has been making doors and parts since 1872. "Bill Baker's Bakery oven is said to be the largest heat reservoir oven in California, and quite possibly in the United States. The oven has two heat reservoirs with circulating heat." It is 12 feet wide, 20 feet deep, and 8 feet high. The brick floor rests on 3½ feet of sand base.

"When Bill Baker acquired the East Building, he installed a new gas oven. An attached plaque dates this oven at 1927. He also put in three electric ovens."

Bill Baker was born Wilhelm Koch on 4 May 1873 in Marburg, Germany. As a young teen [i.e., 1886-1888] he was dispatched to Philadelphia, Pennsylvania to avoid Germany's compulsory military service. He lived with friends, working as a clean-up helper and apprentice baker in their bakery. At age 18 he was a master baker, renowned for his elaborate cake decorations.

Wilhelm worked in Washington, DC; New Orleans, Louisiana; Pasadena, California; Yellowstone National Park (located in NW Wyoming, S. Montana, and E. Idaho).

"In 1917 he left Pasadena, Calif., and bought the Ventura Bakery on Main Street in Ventura, California. About 1921, he purchased the Ojai Bakery from the Gerstenmeyer family.

"Bill Baker was an innovative baker and may have been one of the first to utilize 'natural' products, and to forgo the use of preservatives in his bread. Dr. Sansum requested a salt-free bread; thus gluten bread was born. The surplus of lima beans in Ventura County led to the introduction of lima bean bread; he also produced soybean bread.

"In 1942 Bill Baker was clearing land around his Hidden Valley home. After contacting poison oak, he was afflicted with a secondary infection that proved fatal. Bill Baker died on 23 May 1942. His widow continued to run the bakery, which was managed by Harmon Vaughn. When she died she left it to Harmon Vaughn.

Determination of significance–criteria for designation: A classical example of Colonial Mission architecture and is complementary with the Arcade.

Plaque inscription: Original bakery at this location since 1891. In 1921, when Bill Baker purchased the building, there were two buildings. He rented the east building to Mr. Burdick. It was a music store, etc.

Additional: 1973. Mr. Grace owned bakery, then Mrs. Leopold, then Jerry Theade. 1982. Ed Romano, John Welty. Since Feb. 1989 Thomas and Colleen Kohnen have owned the bakery. The previous 2 years Thomas had worked for the owner, John Welty.

Photos show: (1) The front of the new bakery in the late 1920s, with the alley and gate in between. (2) Helen and Harmon Vaughn standing together in front of racks of bread. Thomas and Colleen Kohnen standing together (May 1999).

List of 12 people with whom oral interviews were conducted.

Talk with Rose Boggs. 2004. June 23. Dan Chavez, her father, was a chemist, originally at a sugar beet factory. When she and her parents moved to Ojai, Dan worked full time for Bill Baker from 1925 to 1931, part time from to 31 to 1942; Dan made formulas for soya bean and lima bean bread. Although he was full-time caretaker at the Civic Center Park (now Libby Park), he would still get up at 3:00 in the morning to bake for Bill Baker. Sometimes there would be tennis tournaments or concerts in the park. It is the oldest and largest amateur tennis tournament in the world, after Wimbledon, that has remained in the same location. From 1951 to 1975, Dan Chavez baked part time for

© Copyright Soyinfo Center 2021

Harmon and Helen Vaughn, who had purchased Bill Baker's bakery after his death in 1942. While at the University of California at Berkeley from 1949 to 1951, Rose was on the varsity women's tennis team and was once the varsity tennis champion. She played in tournaments up and down California, and was once beaten by Billie Jean King. Rose is now age 76 and is seriously considering writing a book about Bill Baker. Address: Ojai, California. Phone: 805-646-3659.

2493. Conquergood, George. 1999. History of work with soyfoods and vegetarianism. Part III. Building Pacific ProSoya Inc. and making the base for Silk–1994 to 1996 (Interview). *SoyaScan Notes.* April 21. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Continued: George (and Lorne) moved to Vancouver, BC to build a soymilk plant, launch a new soymilk product, and dedicate himself 100% to the soy business; his wife and family stayed in Saskatoon, where they all work in the family business. He is still married, he communicates with his wife and family daily, and they visit one another from time to time.

In Vancouver George and Lorne set up a new soymilk company named Pacific ProSoya Foods. The company had a license to make and sell soymilk, soymilk products, and soymilk equipment in British Columbia and Alberta in Canada, plus Washington, Oregon, and parts of California in the United States. In April 1995 the SC-2000 started to produce soymilk on a trial basis, but it took 8 months to debug the system. Pacific ProSoya's first commercial soymilk was sold in Jan. 1996 to Ted Nordquist of TAN Industries, who used it to make Silk brand soymilk for White Wave in Boulder, Colorado. George started the company, and he and Dusty basically built it up; Lorne, who had been George's accountant, put together the financing.

When IPC started, the company had no plans to make its own soy products. Rather it planned to make soymilk base and supply it to the dairy industry. So selling soy base to Ted Nordquist, their first customer, fell within this general concept. But Ted wasn't buying that much soymilk. George is quite sure IPC never shipped him more than one tanker of soy base (containing about 10% solids) a week; one tanker holds 6,000 gallons. They probably shipped him, on average, 12,000 to 18,000 gallons/month. Ted was formulating product for White Wave's Silk in the 4% solids area. So 1 volume of IPC base would end up as more than 2.5 volumes of Silk, or 37,500 gallons of Silk a month. And that was only several days a month production for IPC's plant. IPC had to do something, so they began spray-drying their organic soymilk in the hope of developing a wholesale market. They shipped large amounts (many container loads), because a broker in the USA led them to believe they could sell plenty. Eventually they did sell small amounts to the USA. One woman buyer ran a health food company that used it in a potato mix. She ordered several 50-lb bags at a time and didn't pay her bills well.

Initially the SC-2000 continuous process SoyaCow didn't work, so George worked with Raj to perfect the technology. This took a long time, and that delay is one thing that took the company so long to get into production.

Actually, International ProSoya Corp. (IPC) was established (incorporated) in 1996. Lorne wanted to negotiate a broader license for Pacific ProSoya Foods that encompassed the whole world. They got rights of first refusal in every country of the world (except the CIS countries of the former Soviet Union), plus an exclusive license for North America. Early in 1996, IPC was formed, licenses were granted, and then (as its first move) IPC bought ProSoya's plant in Ottawa, Ontario (from Raj), and formed a company named IPC Eastern. When IPC launched its first product, it was made in the Ottawa plant (which IPC owned) and packaged by Beatrice.

The company was running into problems in western Canada selling bulk soymilk. They could not convince the big dairy, Dairyworld, to buy milk and package it. But they did get Dairyworld to agree to package and distribute soymilk for them. They even offered Dairyworld a joint venture. Then, shortly after the SIAL trade show in France in early 1996, they developed the brand SoNice and were going to market the product Dairyworld packaged under that brand. Dusty came back from the show with the idea for a brand "Soy-Nice," which after discussions became "SoNice." At about this time an "offering memorandum" went out. When the negotiations with Dairyworld fell through (in early 1996, after IPC was formed) everything changed. Another company, named SoNice Corporation, was formed in 1996.

In Nov. 1996, IPC launched its first product, SoNice. Dusty came up with the product name. Nobody in the firm at that time was aware of the similarity between this name and that of So-Good, a very popular Australian soymilk. George had never heard of the So-Good product, and he thinks that others in IPC also had not. This launch was a momentous event for both the company and the Canadian soymilk market. A.C. Nielsen in Canada attributed the dramatic growth of the Canadian soymilk market to IPC's market entry in 1996 and 1997. Many people who tasted SoNice said it was the best-tasting soymilk on the market. Many chain stores switched brands immediately. To own the patent for the process that makes the world's best tasting soymilk was to own something very valuable–but many of the company's "financial wizards" failed to grasp this. During late 1996 and 1997 the new company grew at breakneck speed. This growth required money. The company's stock was never publicly traded, but it was almost publicly traded.

When IPC packaged SoNice in Canada, they distinguished the Canadian Package from the U.S. package by a little roundel (circular symbol), containing a maple leaf plus "Canadian Technology," on the lower right hand corner of the panel. Continued. Address: Vice-president Operations,

International ProSoya Corp., 312-19292 60th Ave., Surrey (Vancouver), BC, V3S 8E5 Canada. Phone: 604-541-8633.

2494. Conquergood, George. 1999. History of work with soyfoods and vegetarianism. Part VII (Interview). *SoyaScan Notes*. April 21. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** By now the two members of the board of directors are on their knees, begging Dairyworld Foods (the huge, billion dollar dairy products and food company in Vancouver, British Columbia–the largest in Canada) to come to their rescue. In about 1997 Dairy Foods World and Peter Joe signed a joint venture agreement, which had been under discussion and negotiation since about 1995 or 1996. As a result of that, Dairyworld Foods created a division named SoyaWorld Foods, which is a 50:50 joint venture between Dairyworld Foods and Sunrise Markets (Peter Joe, in Vancouver, the largest soymilk manufacturer in Canada). SoyaWorld, which is a marketing company for products made by the two other companies, now controls more than 60% of the non-dairy beverage market in the grocery and supermarket trade in Canada–according to A.C. Nielsen statistics. The second largest player is Beatrice (10-13%), followed by Nutrisoy (a UHT soymilk made by Nutrisoya in Quebec), then the imports (Pacific Foods, Rice Dream, Vitasoy, Westsoy, and Edensoy). SoyaWorld presently markets three soymilk products: Sunrise soymilk (a beany-flavored product made and packaged by Sunrise in plastic bottles), Soyganic (a traditional beany-flavored product made by Sunrise with organic soybeans, packaged at Dairyworld in a gable-top carton and sold refrigerated), and So-Good (licensed from Sanitarium Health Food Co. in Australia, formulated and packaged in gable-top by Dairyworld, and based on soy protein isolates). Soyganic and So-Good appeared on the shelves at about the same time in 1997 under the SoyaWorld brand. They distribute those three products extensively across western Canada, and sell them in the dairy case. They are busy expanding, buying up dairies, so that they are now a national dairy, from coast to coast, in Canada. They own the shelf space in the dairy case across Canada, and they have tremendous synergies with other dairy companies in the United States. They use the dairy for distribution; SoyaWorld is really just a little marketing group. They don't want to see SoNice on the market because it outsold them 7 to 1–because it was a better product.

Now IPC is in such a mess, with so much debt (about six million Canadian dollars). Of this, about $2.5 million is unsecured to creditors. What could happen that would allow IPC to move forward? (1) A public company could buy the assets of IPC (the equipment, the brand, the goodwill)–not IPC itself; George could get rid of most of the debt with shares in a public company, so the company would not need a great deal of cash. (2) SoyaWorld could buy IPC; since August 1998 they have been trying very hard to do so. They are making a very complicated, long-term offer, with long-term royalties, etc. Both ProSoya (Raj Gupta) and IPC are tied into the deal. The amount of cash that would be put on the table at closing is quite small–not even enough to pay off the secured creditors, let alone the unsecured creditors. George is not happy with this deal, but there is not a lot he can do about it–except to keep on trying to scuttle it–as by talking to Horizon, the organic dairy. George feels very frustrated; he is cooperating with the deal to a degree, but at the same he's looking for a better deal. Yet he thinks the odds are 90% that IPC's assets will be owned by Dairyworld within the next few weeks or months. If it goes through (the closing date is May 4) George will at least get his back pay–he has not been paid since last August–but he would loose a lot as a shareholder. George does not know whether or not he has a future with SoyaWorld if the deal goes through–but he plans to be in the soy business somewhere. Since George knows more about making IPC's soymilk than any other person in the company, he is one of IPC's most valuable assets–yet SoyaWorld has not offered him a firm employment contract. SoyaWorld hopes to buy out Raj Gupta and his patents, and get him out of the picture. Continued. Address: Vice-president Operations, International ProSoya Corp., 312-19292 60th Ave., Surrey (Vancouver), BC, V3S 8E5 Canada. Phone: 604-541-8633.

2495. Mason, David. 1999. Bill Baker's bakery known near and far for 'Made in Ojai.' *Ojai Valley News* (*California*). April 30. p. A-3.

• ***Summary:*** This article begins with the text of an ad run by "The Ojai Bakery" in the May 17, 1909 issue of *The Ojai*–an earlier title of the *Ojai Valley News*. At that time, Ojai was named Nordhoff, and the ad was encouraging readers to shop locally rather than traveling to Ventura.

Wilhelm Koch was born on 4 May 1873 in Marburg, Germany–the city in which Europe's first Protestant university opened in 1527. Because of Germany's military draft, Wilhelm's father felt it was in the boy's best interest to have him leave the country, and so sent him to the USA. Note: It is not clear when Wilhelm arrived in America.

Wilhelm had shown early talent as an artist, and this blossomed in the "catering departments of some of America's finest hotels," including the Waldorf-Astoria in New York City, the Bellevue-Stratford in Philadelphia, Pennsylvania, the Arlington in Washington, DC, the St. Charles in New Orleans, Louisiana, and the Huntington Hotel in Pasadena, California.

When the U.S. entered World War I, the government offered a prize of $500 to the baker who could bake the best wheatless bread. Not only did Wilhelm "win the competition, he won the first and second prizes and the sweepstakes, and promptly changed his name to William Cook Baker."

While working in Pasadena, Baker discovered the charming seaside town of Ventura. After being named

© Copyright Soyinfo Center 2021

assistant food administrator for Southern California under Herbert Hoover, he decided to open his own bakery in Ventura–in about 1917. He named it The American Bakery.

In 1923 he bought the Ojai Bakery from Emile Gerstenmeyer. In addition to fresh bread, cakes, and table delicacies, the bakery carried a large assortment of other merchandise: candies, soft drinks, phonographs and records, magazines, and picture postcards. Baker changed the name to Bill Baker's Ojai Bakery.

In 1927 Bill Baker hired Roy C. Wilson, a well-known architect from Santa Paula (located southeast of Ojai), to design a new building for the bakery. Construction would be of brick and stucco, and the architecture would be of the Spanish style to match the newly built school across the street. The new bakery was modern and beautiful.

In Dec. 1927 Bill Baker sent the first of his many elaborate presidential cakes to President and Mrs. Calvin Coolidge in Washington, DC; it was a large fruitcake decorated with a small village in the snow.

On 2 Feb. 1928 "Bill Baker was called to Santa Barbara for a meeting with Dr. W.D. Sansum of the Sansum Clinic." The doctor was looking for a baker who could make bread to his exacting specifications. Bill Baker had been experimenting with lima bean baked good successfully and the "American Institute of Baking in Chicago, Illinois, had tested his product and proclaimed it to be the best. Dr. Sansum encouraged the use of this lima bean bread in an article written for the *Chicago Tribune*.

At start of 1930, Baker was making 500 loaves/day of lima bean bread; by the end of the year that number had risen to 1,600. He had to add a new delivery truck to his line. During the 1930s the bakery grew as did its line of lima bean products, including lima bean bread, wafers, and the new lima bean toast. Baker began to advertise both the bakery and the Ojai valley with a new label designed for his waxed paper wrappers. The words "Made in Ojai, California" were printed in blue on a silver background. These labels trumpeted the fact that Ojai was the home of Bill Baker's lima bean baking success story.

He soon developed and began to bake a soybean bread–a popular and tasty product. In Dec. 1931 Bill Baker sent a 50 lb fruitcake, made entirely of California fruits and nuts, to President and Mrs. Herbert Hoover. In 1936 his did the same for President and Mrs. Franklin D. Roosevelt–but it weighed 200 lb.

"In 1942 Baker contacted poison oak in the back yard of his home in Lake Sherwood and was rushed to the hospital in Ventura." He died before the ordeal was over.

Photos show: (1) The original wooden Ojai bakery in 1920 (before it was given its stucco facade in about 1927), owned by Emile Gerstenmeyer and his wife, with a sign on the front (from the Lundline / Linebarger collection). 2496. Sanitarium Health Food Co. 1999. Soy healthy: From the goodness of soy beans (Leaflet). Wahroonga, NSW, Australia. 2 p. April. Front and back.

• ***Summary:*** This attractive full-color leaflet is folded into 4 panels. The front shows the packages of 8 "Soy Healthy" brand vegetarian meat alternatives, nestled in a bed of lettuce and surrounded by green. Below the products: "Soy has never been so easy." The inside left panel discusses: Soy protein and phytoestrogens. Sunflower oil/Canola oil. Iron. Vitamin B-12. Fibre. The inside right panel gives detailed information on five frozen and five chilled Soy Healthy products. Frozen: Original soy burgers. Country-spiced soy burgers. Tender soy medallions. Tender soy schnitzels. Tender flaked soy fillets. Chilled: Original soy slice. Garlic & herb soy slice. Smoked soy slice. Soy sausages. Soy fillets.

The back panel lists suitability for specific diets: Reduced saturated fat / Cholesterol free. Vegetarian (lacto-ovo). No added preservatives. No added MSG. No artificial colours. For more information: www.sanitarium.com.au/Soy. Plus three toll-free numbers. From the company's "Nutrition Education Service." Address: 146 Fox Valley Rd., Wahroonga, NSW 2076, Australia.

2497. ProSoya Inc. 1999. SoyaWorld Inc. acquires So Nice soy beverage brand: Leading soy beverage company also secures a strategic interest in ProSoya Inc. (News release). ProSoya Inc., 2-5350 Canotek Road, Ottawa, ONT, K1J 9N5, Canada. 2 p. May 17.

• ***Summary:*** "Vancouver-based SoyaWorld Inc., a leading manufacturer and marketer of fresh soy beverages, has acquired the So Nice soy beverage brand and a strategic interest in *ProSoya Inc*. Through this transaction the company has also acquired soymilk extraction plants and equipment in Ottawa and Vancouver. Terms of the acquisition were not disclosed.

"'So Nice is an organic soy beverage for health-conscious customers. SoyaWorld will re-launch the product in Canada and the United States as *So Nice Soyganic*, an organic soy beverage fortified with calcium and other essential nutrients. *So Nice Soyganic* will complement the company's successful flagship product So Good [based on soy protein isolates, licensed from Sanitarium Foods of Australia], the mainstream soy beverage and nutritional alternative to milk.

"'*So Nice Soyganic* is an organic beverage, that will be targeted to health conscious customers through distribution in the health food stores and natural food sections of major grocery stores nationwide," said Maheb Nathoo, general manager and chief executive officer of SoyaWorld Inc. 'The new *So Nice Soyganic* beverage is a natural extension of SoyaWorld's business and a quality addition to our portfolio of dairy-free beverages.'

"SoyaWorld will also assume the ownership of the

© Copyright Soyinfo Center 2021

licensor rights of So Nice brand for soy beverages that are currently marketed in the UK.

"SoyaWorld secures exclusive license to ProSoya soymilk technology: ProSoya Inc., an Ottawa-based soymilk technology company controlled by Dr. Raj Gupta, develops technology and equipment for production of 'non-beany' soymilk using a patented 'air-less cold grinding' process. The ProSoya technology, which provides the soy base used in the manufacture of *So Nice Soyganic*, will now be licensed exclusively to SoyaWorld Inc. in North America, with rights in certain other countries as well.

"In addition, SoyaWorld Inc. gains access to ProSoya's international patents and advanced technology used to extract soymilk from soybeans. A table top version of the ProSoya soy extraction technology was recently tested by the Johnson Space Centre and was determined to be suitable for use in soymilk production on NASA's first manned mission to Mars.

"Soy beverage industry grows: The soy beverage market is one of the fastest-growing beverage categories in Canada. Dollar volume growth for soy beverages increased 106 percent in 1998 over 1997 with Canadians consuming more than 10 million litres last year.

"SoyaWorld Inc. is jointly owned by Dairyworld Foods of Vancouver, one of Canada's leading dairies, and *Sunrise Soya Foods*, Canada's largest tofu company. Formed in 1996, SoyaWorld is Canada's largest manufacturer and marketer of dairy-free beverages, with production facilities in Vancouver, British Columbia; Brampton, and Ottawa, Ontario.

"Contact information: SoyaWorld Inc. Maheb Nathoo, general manager and chief executive officer. (604) 420-0162.

"ProSoya, Inc. Dr. Raj Gupta, President. (613) 745-9115." Address: 2-5350 Canotek Road, Ottawa, ONT, K1J 9N5, Canada. Phone: 613-745-9115.

2498. *Good Food News* (*Sanitarium Health Food Co., NSW, Australia*). 1999. So, what's new with soy? An interview with Prof. Ken Setchell. 11(2):2-3. June.
• ***Summary:*** Recommends 50 mg/day of soy isoflavones for many health benefits, but higher levels may be needed to protect against some conditions such as loss of bone.

2499. Seemo (H. Shapira). 1999. Re: Dakini Health Foods Pvt. Ltd. recently moved into a new factory in Pune/Puna, India. Letter to William Shurtleff at Soyfoods Center, July 29. 1 p. Typed, without signature on letterhead.
• ***Summary:*** Seemo (Mr. H. Shapira from Israel), Kairava (Mrs. J. Spaelstra from the Netherlands), and the "Dakini crew" have been "intensively busy setting up our factory." They raised money through loans, brought in a new partner, got all the required government approvals, bought a plot of land, "navigated between impossible contradicting rules and regulations and corrupt officials." Then, with the help of an architect, they put of a 6,000 square foot building. They dug the first foundation in May 1998 and moved in in Feb. 1999. The process has been frustrating at times. To get an electrical connection, for example, took months, involved hundreds of signed documents, and "thousands of dollars in baksheeshes" [bribes].

They set up a pressure cooker plant for making tofu, first tested it on 17 July 1999, and "got a huge fantastic delicious cake of tofu." They plan to do a "soft launch" on Aug. 2 to some hotels, restaurants, institutions, etc., while getting their packaging systems ready. They plan to start selling to the retail trade in about two months. Their tofu production capacity is now about 200-400 kg/day.

"All this time we kept our little incubator busy supplying a small but loyal and growing clientele about 10-30 kg of tempeh weekly." Their new incubation room (12 by 11 feet) started operation today, with the first 15 kg batch of tempeh. They estimate a capacity of 60-70 kg maximum and are planning to start with 20-25 kg batches. They also have new clients waiting. Le Meridian in Pune has already put tempeh on their buffet, and will soon include it on their menu; now they want tofu as well! "It's a great adventure." Address: Dakini Health Foods Pvt. Ltd., S.N. 33, Bhoiwasti, Keshavnagar, Mundhwa, Pune / Puna 411 036, India. Phone: +91 20-613985.

2500. United Specialty Foods. 1999. Award-winning vegetarian products (Leaflet). P.O. Box 41279, Nashville, TN 37204. 1 p. Front and back. Black and white. 28 cm.
• ***Summary:*** "Longa Life 'Not Meats' are so good they are the only vegetarian products to win the National Nutritional Foods Association People's Choice Award * Three Years in a Row!

"Plus, they are so healthy they are free of hydrogenated fats and artificial color."

Photos of the front panels of Longa Life vegetarian products bear these captions: Notchicken: Winner "Best of Show" 1996. Notcorndogs: Winner "Best of Show" 1997. Not Chicken Breast Fillet: Winner "Best of Show" 1998.

In the upper left is the People's Choice seal. In the lower left corner is a 75¢ coupon.

On the rear, ingredients are given for each of the following Longa Life products: Notchicken slices. Notham slices. Notbacon. Notpepperoni. Notchicken Breast Fillet. Notchicken Nuggets. Notcorndogs.

The first 4 ingredients are typically water, soy protein, wheat gluten (or wheat flour), and canola oil. Address: Nashville, Tennessee. Phone: 1-888-57-4-LIFE.

2501. Urquart, John. 1999. A health food hits big time: Taste makeover moves soy milk into mainstream. *Wall Street Journal*. Aug. 3. B1, B4.
• ***Summary:*** Sales of soymilk in the USA are predicted to top $300 million in 1999, up 38% over 1998, and a rise from only $2 million in 1980–according to Soyatech Inc. of

© Copyright Soyinfo Center 2021

Bar Harbor, Maine. Sales of Silk, the soymilk product that pioneered the new and booming refrigerated category, are expected to double this year, says Steve Demos, president of White Wave. Silk is now distributed through dairies across the U.S. Sales of Vitasoy in the USA rose 34% during the last year, according to Jennifer Corsiglia Keim, the company's marketing manager.

Indeed soymilk is one of the few products that has been able to cross over from natural- and health-food stores into supermarkets. One of the keys to this cross-over is expected to be the change of packaging and positioning. Traditionally soymilk was sold in "special airtight boxes that require no refrigeration." Now, starting with Silk, it is being sold next to milk in cartons that look like milk cartons. Imagine Foods of Palo Alto is currently introducing a refrigerated version of its Soy Dream brand of soymilk. White Wave plans to hand out several million half-pint samples of Silk during the next 12 months to further stimulate demand. He says he has been making soyfoods for the last 21 years just "waiting for this year."

One reason for the growing interest in soymilk is the growing body of scientific evidence showing that soy has health benefits. Former junk-bond king Michael Milken, who was diagnosed with prostate cancer six years ago, tries to consume 40 grams of soy protein per day–including a soy hot dog and soy shake. Another reason is improvement in the taste of soymilk. Soymilk sales are expected to get another boost if the U.S. Food and Drug Administration allows a health claim saying that soy products reduce cholesterol.

Soymilk is also being promoted in coffee houses. About one year ago Peet's Coffee & Tea (Berkeley, California) introduced Vitasoy as a coffee creamer at its 47 coffeehouse outlets. The consumer response has been "terrific."

In Canada, the soymilk market is also booming; it grew 75% Last year and is expected to grow at about the same pace for the next 4-5 years–according to Maheb Nathoo, CEO of the new SoyaWorld Inc. of Vancouver, British Columbia. SoyaWorld now advertises its soymilk on television. A cow, with its face disguised, confides in an interview on the beverage: "I tried it. I liked it. That's all I can say.

But compared with dairy milk, soymilk still has a minuscule share of the market; cows still supply 99% of the milk market.

The high price of soymilk remains a problem. In some places it can cost twice as much as cow's milk. But prices have dropped to about half their level a decade ago in the USA. In Canada, So Good, made by SoyaWorld Inc. using soy protein isolates, has recently been selling at Loblaw's Ottawa (Ontario) superstore for the same price as cow's milk. Address: Staff Reporter.

2503. Kairava (J. Spaelstra); Seemo (H. Shapira). 1999. Re: Update on Dakini Health Foods Pvt. Ltd. in Pune / Puna, India. Letter (fax) to William Shurtleff at Soyfoods Center, Aug. 22. 1 p. Typed, without signature on letterhead.
• ***Summary:*** Gives details on their work with tofu and tempeh. They do not yet have a recipe book nor do they vacuum pack their tempeh. They are, however, developing a nice label. They have contacted Raj Gupta of ProSoya by e-mail about soymilk equipment.

"The nutrition situation in this country and on all income levels is no good–from severe protein deficiency on the lower income rungs to fancy diseases for the rich. Developing soyfoods production here is most crucial, urgent, and possibly also a good investment!

"At a later stage, to avoid spreading ourselves too thin right now, we are interested in trying our hand at more fermentations such as Taucho, Miso, Soysauce. We are looking for more material to study." A copy of the recent article from *Citadel Pune* (full of errors) is attached. Address: Dakini Health Foods Pvt. Ltd., S.N. 33, Bhoiwasti, Keshavnagar, Mundhwa, Pune / Puna 411 036, India. Phone: +91 20-613985.

2504. Seemo (H. Shapira). 1999. Re: Another update on Dakini Health Foods Pvt. Ltd. in Pune / Puna, India. Letter (fax) to William Shurtleff at Soyfoods Center, Aug. 24. 1 p. Typed, without signature on letterhead.
• ***Summary:*** Their company started business in April 1996 making white tahini. Sometime later they introduced peanut butter.

The third partner in their business is Bodhi Yahaan; they call him Yahaan, and he has been with the company for nearly two years. Like Seemo, he is from Israel where his name was Mr. Natan-Ran Diamant; now he lives in Pune. He does not work in the factory, but he does get the computer to work. He brought in the much-needed finance and also organizes loans when the banks fail. "He owns 50% of the company's shares and a very good friendship is growing."

"Mr. Donnelly (our Indian partner) resigned near the end of 1996, and since last year we got all government permissions to run the company without any Indian partner."

In Goa, "a friends couple of ours, Lisa Camps and her French friend Richard, are making tofu and tempeh on a small but interesting scale. This year they are growing and opening their own retail outlet with a delicatessen counter and a salad bar. We managed to convince them to invest in a good grinder, a small screw press, and a simple dehulling device for their tempeh. Also, I am building them an incubation cabinet so they will no longer mysteriously lose so many cakes of tempeh. Also, since last year, we are supplying their tempeh starter, and, from this year, their soybeans. Their address: Lisa Camps, H.S.

No. 1684 Ouneachem Baht, Anjuna Bardez, Goa, India." Address: Dakini Health Foods Pvt. Ltd., S.N. 33, Bhoiwasti, Keshavnagar, Mundhwa, Pune / Puna 411 036, India. Phone: +91 20-613985.

2505. Photographs taken at Dakini Health Foods' new factory in Pune / Puna, India, showing steps in the tofu-making process, the inside of the factory, and the owners–Seemo and Kairava. 1999. Pune, India.

• ***Summary:*** Sixteen color photographs (each 4 by 6 inches) were sent to Soyfoods Center on 14 Aug. 1999 by Seemo and Kairava, owners of Dakini Health Foods. The photos were accompanied by a brief handwritten letter on Dakini's letterhead, and both were in a Dakini business envelope.

The photos themselves were all taken on 2 Aug. 1999–the company's first day of production. They show: (1) Seemo (a man, originally from Israel, wearing a white t-shirt, turban, and beard) watching as cold water runs into the soaked soybeans in the hopper of the stone mill. As they are ground by a stone mill, the white slurry falls into a stainless steel tank. The 2-story building has a white interior, with windows on both levels. (2) Kairava (a woman, originally from the Netherlands, dressed in a green dress with necklace) standing by the stone mill. An Indian man is standing behind the stone mill. (3) The boiler. (4) The hand-turned screw press and pressure cooker in the foreground, Seemo by the stone mill in the background. (6) A panoramic view of the interior of the shop showing two stainless steel vats for

© Copyright Soyinfo Center 2021

soymilk and Seemo by the cooling tanks to the far left. (6) A similar view but another man (Bodhi Yahaan, the company's third partner; in his native Israel his name was Natan-Ran Diamant) is turning the screw press as soymilk runs into a cloth-covered steel barrel. And Indian woman in a green sari is to the far left. Ordinarily Mr. Yahaan does not work in the plant, but he does help with the computer. (7) A close-up of soymilk running from the press into the cloth-covered barrel. (8) Another panoramic shot, with Seemo (looking very happy) standing by the cooker, Kairava (with arms folded looking very satisfied) standing to the left, and three Indian employees standing in the middle. (9) Seemo and Kairava standing by the press watching the soymilk come out of it. (10) Curds and whey in a metal curding barrel. (11) Kairava folding the white cloths over the curds in the shallow metal curding boxes. (12) Seemo ladling curds into a cloth-lined forming box. (13) Seemo (looking very happy), wearing rubber gloves, standing by a cooling tank, and holding up a large cake of tofu. (14) Seemo leaning against a cooling tank, in which is a large block of tofu under water with the cloths around it. In the background is a rack on which are many shining stainless steel pots. (15) Both halves of a cooling tank filled with cut cakes of tofu under water. (16) Kairava reaching one hand into a cooling tank. A blue pipe runs from a water chilling unit on one wall into one tank. Address: Dakini Health Foods Ltd., S.N. 33, Bhoiwastai, Keshavnagar, Mundwa, Pune / Puna 411 036 India. E-mail: dakini@vsnl.com. Phone: 020-613985.

2506. Riccardi, Victoria Abbott. 1999. Enjoying soy: You know it's good for you. Now learn to like it. *Boston Globe.* Oct. 20.
• ***Summary:*** When people hear the word "soy," different images come to mind. "For devotees of sushi, it might be emerald green soybeans. For the Woodstock generation, it could be custardy blocks of tofu. And for juice bar addicts, it might be soy milk for smoothies." But whoever you are, soy has "likely crossed your radar screen. And pretty soon its going to be on every channel."

Peter Golbitz, president of Soyatech Inc. (Bar Harbor, Maine) has just completed a market study. In 1998 total soyfoods sales were $1.78 billion, up 18% from 1997. They are projected to be $2.6 billion by the year 2000.

Gives a good profile of two local mom-and-pop companies: Health-Trip Foods Inc. of Concord, owned by Eileen Moriarty and Dan Sanford, makes soynut butter. 21st Century Foods Inc. of Jamaica Plain, owned by Rudy and Lovin Canale, makes 800 lb/day of tofu. Before coming to the USA, Rudy ran a health food restaurant in Italy. He came here in 1977 to study macrobiotics at the Kushi Institute in Becket, Massachusetts. In 1981 he and an Italian friend started making tempeh in Brookline. Soon they added tofu products, using tofu made by another company. When the cost of the tofu became prohibitive, they started making their own. Now he and his wife, Lovin, do all the work and delivery. Last year they had $175,000 sales, and even with no advertising they make a profit.

2507. Thompson, Stephanie. 1999. Natural foods experiencing organic growth: 'Health foods' no more, new options attract consumers and food marketers. *Advertising Age.* Nov. 1.
• ***Summary:*** Mentions Boca Burgers ("Happy Stomachs, Healthy Hearts" ads), increasing sales of organic foods, last week's FDA ruling for a soy heart health claim, Kellogg, owner of Worthington Foods and the belief that "Soy-based foods have enormous potential."

2508. Hain Food Group, Inc. 1999. Annual report 1999. Uniondale, New York. 24 p. Nov. 28 cm.
• ***Summary:*** Net sales for the year ended 30 June 1999 were $205.969 million, up 98% from $104.253 million in 1998. Net income in 1999 was $11.030 million, up 3.3-fold from $3.292 million in 1998.

Accomplishments this year: Completed acquisition (on 1 July 1998) of four businesses and brands from The Shansby Group: Garden of Eatin', Arrowhead Mills, Terra Chips, and DeBoles. Completed acquisition (on 18 May 1999) of the Natural Nutrition Group, including the Health Valley, Breadhsop's, and Casbah brand names, which are among the best-known in the business. Page 6 is devoted to Health Valley, showing color photos of many Health Valley products. In Sept. 1999 acquired Earth's Best Baby Food from H.J. Heinz. This organic baby food brand pioneered the category. Also, the Hain Food Group sold 2.5 million shares to Heinz for $82 million, resulting in Heinz holding a 19.5% interest in the company. The proceeds were used to reduce debt to an extremely low level.

In soy beverages, Hain (mostly Westbrae, plus a little from Health Valley's Soy Moo) has a 32% market share. A new consumer ad campaign is "Enjoy your soy." Two new products introduced over the past year are Westsoy JuiceBar, and tea-based Westsoy Chai. JuiceBar, sold in Tetra Brik cartons and described on the label as "A non dairy blend of natural juice and organic soy beverage" comes in flavors like Berry Blast. Chai, in the same type of carton, is described as "A delicious blend of tea and spices & non dairy organic soy beverage." On the front cover of the catalog is a photo of "Westsoy Low Fat Chocolate Pudding." Address: 50 Charles Lindbergh Blvd., Uniondale, New York 11553. Phone: 516-237-6200.

2509. *Let's Live.* 1999. A century of good health. Dec. p. 32-39.
• ***Summary:*** This is a look back at *Let's Live* and the broader field of American health during the 20th century features: (1) A sampling of 25 color covers of the magazine from Jan. 1933 (when it was founded as *California Health*

© Copyright Soyinfo Center 2021

News) to the present. (2) A timeline, with tiny photos, of major developments from 1933 to 1999. (3) Two pages of "Headline news and highlights," short summaries of major developments with an exact "flashback" date or year. One of these, dated April 1937, shows the front page of *California Health News* with the bold headline "Government endorses soy foods." The summary titled "Soy story: Finally getting some respect–again" notes that in Oct. 1999 the FDA approved labeling for a soy heart health claim. *"Let's Live*, however, has long been promoting soy's many benefits." (4) One page titled *Let's Live* goes Hollywood with 12 color covers (each featuring a portrait photo of a Hollywood star) and 11 questions each beginning with the words "Who said" followed by a quotation. Stars include Bob Hope, Dennis Weaver, Glenn Ford, Mitzi Gaynor, Robert Redford, Chris Everett, Lindsay Wagner, and Tippi Hedren. (5) One page titled "Stand up, speak out, take action" with three summaries of controversial developments (such as fluoridation from 1952), and a profile of Elaine Hein, a vegetarian who has been a reader for 60+ years. (6) One page titled "Still writing after all these years" with profiles and photos of four prolific *Let's Live* writers. (7) One page titled *"Let's Live* gets fit" is about the magazine, exercise, and fitness from 1942.

2510. Sanitarium Health Food Company. 1999. Sanitarium (Portfolio). Berkeley Vale, NSW, Australia. 27 inserts. 30 cm.

• ***Summary:*** This is simply a collection of colorful documents (each in full color) without a portfolio cover, sent with a cover letter by Melissa Harris, Nutritionist. The documents include: (1) Eight nutrition fact sheets. Subjects include wholegrains, fibre, heart health, etc. (2) Seven product sell-sheets, incl. SoyHealthy, So Good Now, Soyaccino, etc. (3) Three small recipe booklets. (4) 10 tips for healthy eating for the family. (5) Now there's an easy way to lower your cholesterol. (6) Six food cards with recipes. (7) Two booklets in "A taste for health" series. (8) List of available publications and videos.

(9) Sanitarium product range–Australia: Cereals (19 products, incl. Soy Tasty, Weet-Bix Hi Bran Soy & Linseed, Up & Go). Beverages (6 products, all based on So Good, incl. yoghurts and ice cream). Meals (19 products, incl. 5 types of Soy Healthy Frozen, 9 types of Soy Healthy Chilled, Soya Beans in Tomato Sauce, Sanitarium Soya Mince/TVP, BBQ Soya Sausages). Spreads (4 products incl. Marmite and many types of peanut butter). Specialty Foods (incl. many nuts & seeds, dried fruits, legumes, pulses & seeds, fruit snacks, and juices). (10) Leaflet (1999; color, front and back) titled "Soya beans, good health & you." Contents: Introduction. What are phytoestrogens. Protecting hearts. Combating cancer. Managing menopause. Promoting healthy bones. Soy foods for children. Putting the good news into practice. Address: 1 Sanitarium Drive, Berkeley Vale, NSW 2261, Australia. Phone: (02) 4348 7777.

2511. Fry, Patricia L. 1999. The Ojai Valley: An illustrated history. Completely revised. Ojai, California: Matilija Press. xviii + 358 p. See p. 275-77. Illust. Index. 22 cm.

• ***Summary:*** In Chapter 17, "Ojai today," the section titled "Bill Baker's bakery" (p. 275-76) states: In 1919, E.F. Carle sold his Ojai Bakery to Emile K. Gerstenmeyer. Gerstenmeyer ran the bakery, known as The Cookie Shop, as a retail store and baking bread for local grocery stores. In 1923 Bill Baker bought The Cookie Shop, at 457 East Ojai Avenue, from Emile Gerstenmeyer.

In 1926 Baker tore down the old wooden building with a square front and built a new one. This modern building had two parts, the bakery, and a retail store and equipment room, with a covered driveway between them. "Roy Wilson designed the building, George Noble was the contractor, and Frank Harrow did the concrete work.

"As a youngster, Bill Baker showed talent as a sculptor, and at one point he hoped to be an artist. On 29 June 1925 at 6:44 a.m. a large earthquake struck the nearby coastal city of Santa Barbara, California. "Bill Baker had a soft heart for those less fortunate and a flair for the dramatic." After the quake "he baked bread for the hungry. He often created huge cakes for monumental occasions," such as the birthdays of U.S. presidents.

In 1934 made what was reported to be the world's largest cake–a fruit pound cake weighing nearly 1 ton (2,000 lb). It was reportedly 21 feet in circumference and 7 feet in diameter, decorated with 2,000 frosting roses and 1,000 birds. Sent to celebrate the 75th anniversary of the Los Angeles school system, it took 10 men and a truck to move it. In 1939 Baker baked a 1,000 lb cake for the World's Fair [sic, Golden Gate International Exposition] in San Francisco.

"Bill Baker died in 1942 after contracting poison oak, according to historian David Mason... Bill Baker's Bakery continued to serve the community in the original building at 457 East Ojai Avenue."

A photo by Gusta Lundine Linebarger shows the long wooden "Ojai Bakery" (from a sign on the front), presumably the building Bill Baker first occupied in Ojai.

In this same chapter is a section titled "Ranch House Restaurant" (started by Alan and Helen Hooker; offering a primarily vegetarian menu at first). Chapter 18, "The essence of Ojai," has sections on "Meditation Mount" (started 40 years ago as the Western headquarters for the Meditation Group for the New Age), "Krotona" Institute of Theosophy (named after the colony in Italy where Pythagoras once had a school of life; a photo shows Annie Besant), "Jiddu Krishnamurti" (who first came to Ojai in 1922, hoping that the climate would save his ailing brother; a photo shows Krishnamurti, his brother, and Albert P. Warrington, p. 288). A chronology (p. 315-17) lists major events in Ojai from 1808 to 1997. Address: Ojai, California.

2512. Hauser, Gayelord. 1999. In: American National Biography. New York: Oxford University Press. See Vol. 10, p. 326-27. [10 ref]*
• ***Summary:*** Bengamin Gayelord Hauser was an American nutritionist.

2513. Dunne, Mike. 2000. Soy power: The latest official health food just may be what the doctor–and cook–ordered. *Sacramento Bee* (*California*). Jan. 5.
• ***Summary:*** "Here it is, a brand new year, and by some counts a brand new decade, century and millennium." As 1999 drew to a close, the FDA singled out "soy protein as the country's latest official health food"–because it lowers blood cholesterol significantly.

But to do so you must eat 25 grams a day, every day. And your diet should already be low in saturated fat and cholesterol. And the food must contain 6.25 grams of soy protein per serving.

At the Sacramento Natural Foods Co-op, [in California] soy protein foods have many fans. Deli manager Dan Lester says: "We sell 150 to 200 pounds a week of Mexican Braised Tofu and Thai-grilled Tofu, and 125 to 150 pounds of Kung Pao Tofu. And that was even before word of the FDA ruling about soy protein began to circulate." Address: Bee Food Editor.

2514. Wild Oats Community Market; Alfalfa's Markets. 2000. The joy of soy: Resolve to evolve. This millennium, pick up a good habit. Your guide to soyfoods–True health food. Colorado. 8 panels. [10 ref]
• ***Summary:*** This is a chain store newspaper (published from time to time; copyrighted 1998), with this issue devoted to soyfoods. It contains ads for many soy products sold at the store, many of them on sale. "Soy strategy: Three New Year's resolutions. 1. Get healthy. 2. Lose weight / cut down on bad fats. 3. Help protect the environment.

A sidebar titled "Cool beans! Top ten reasons to enjoy soy" states: "1. Soy protein helps reduce cholesterol levels, thereby reducing the risk of coronary heart disease, which accounts for more than 500,000 deaths in the U.S. per year.

"2. The soybean is the only vegetable to offer a complete protein profile, equal to both meat and eggs in its protein content.

"3. As a complete protein, soy contains all nine essential amino acids. (The human body needs twenty amino acids, only eleven of which are produced by our bodies).

"4. Soybeans are higher in essential, healthful fats than most vegetable foods.

"5. Soybeans are a good source of several vitamins and minerals, including calcium, zinc, copper, magnesium, iron and many of the B vitamins.

"6. One acre of soybeans provides about 30 times more protein than one acre devoted to raising beef.

"7. Soy is also the richest dietary source of isoflavones, which act as phytoestrogens that may help protect against cancer, osteoporosis and menopause.

"8. Soy may increase bone density and reduce the risk of osteoporosis.

"9. Soy may reduce menopausal hot flashes in women–good news for those women who do not wish to take hormone replacement therapy.

"10. Other heart-healthy benefits of soy include low saturated fat, high calcium content, high essential fatty acid (EFA) content, high vitamin E content and no cholesterol."

There are definitions of and information about: Miso, shoyu, tamari, tofu, tempeh, soy milk, soy yogurt, soy cheese, soy desserts, soy oil, soy flour, texturized soy protein, soy grits, soy nuts, edamame (soy in the pod), and meat alternatives.

2515. Houghton, Dean. 2000. Healthful harvest. *Furrow* (*The*) (*John Deere Co., Moline, Illinois*). Jan. p. 10-13. Cover story.
• ***Summary:*** Speaking to farmers of soybeans he rhapsodizes: "Just imagine you could grow the perfect food... In fact you would be growing a virtual fountain of youth on your back forty."

On the cover: "Soybeans: The new health food?"

2516. *Hawaii Hoichi* (*Honolulu*). 2000. Wakayama a health-food hotbed. Feb. 1.
• ***Summary:*** Hiroaki Iwamoto is president of Tendre Corp., Tanabe City, Wakayama prefecture. He obtained a patent on his frozen tofu in 1995. Tendre now makes about 2,500 tons/year of frozen tofu, worth 700 million yen.

2517. Jaret, Peter. 2000. The joy of soy: Hailed as the king of all health foods, the mighty soybean has been touted as a weapon against heart disease and cancer. *Harper's Bazaar.* Feb. p. 152, 156.
• ***Summary:*** "Wonder foods come and go... But the new superfood of the moment promises to be different. Eventually it's going to get everyone's attention, because the health claims being made for it are just too big to ignore." "A stream of scientific papers have shown evidence that it can fight heart disease and cancer." Even those who hate tofu are finding that soy can taste pretty good. Many like edamame–those slightly furry green pods served at Japanese restaurants. You run them through your lips and suck out the smooth, slightly salty soybeans inside. "Edamame have become so popular, they're being sold in bulk stores from New York to California." At Trader Joe's, a nationwide retail chain, sales of frozen edamame now rival those of frozen corn and broccoli. Even soymilk is poised to go mainstream. A key reason for the health benefits of soybeans is that they are rich in isoflavones–substances that resemble the natural hormone estrogen. Isoflavones are also powerful

© Copyright Soyinfo Center 2021

antioxidants.

Color photos show: (1) Two large red chopsticks holding one cooked yellow soybean. The caption: "The soybean, Asian staple, may be a big reason why cancers of the breast and prostate are uncommon in Japan and China." (2) Edamame in the pods, topped with a sprinkling of coarse white salt, on a square bamboo tray. The caption: "Edamame, the salty finger food served at sushi bars, is so popular, specialty food markets are beginning to sell it by the pound."

2518. Essoyan, Susan. 2000. Trouble for titan tofu: A study in Hawaii finds that the health food favorite may accelerate aging of the brain. But critics note that the research creates more questions than answers, and no causal connection has been made. *Los Angeles Times.* March 23. p. B2. Metro section.

• ***Summary:*** Results from the Honolulu-Asia Aging Study, some of which were presented by chief investigator Dr. Lon White (of the Pacific Health Research Inst.) at a symposium in Washington, DC, in Nov. 1999, are scheduled for publication in the April issue of the *Journal of the American College of Nutrition.*

The vice president of medical and scientific affairs for the National Alzheimer's Assn. in Chicago (Illinois), Bill Theis, "considers the findings too preliminary to support any conclusions."

A clinical trial is underway to examine the connection between estrogen and Alzheimer's; it follows a survey which showed that women who took hormone replacement therapy after menopause were at lower risk for getting Alzheimer's. Dr. Kenneth Setchell, prof. of pediatrics at the Univ. of Cincinnati's Children's Hospital Medical Center (Ohio), disputed White's conclusions. His research shows that isoflavones have a positive effect on the brain. He asked: If soy is so bad, why are there not high rates of Alzheimer's disease in Japan and China? And why is there no association with any other soyfood? And why don't vegetarians, who typically consume plenty of tofu, get Alzheimer's?

"In stark contrast to White's findings, a 1993 study of 272 Californians enrolled in the Adventist Health Study, matched for age, sex and ZIP Code, found that those who ate meat were more than twice as likely to become demented as their vegetarian counterparts."

This article concludes with some market statistics from a study titled "The U.S. Soyfoods Industry," by Soyatech Inc. and Senechal, Jorgensen & Hale Co. U.S. tofu sales have grown from $108 million in 1992 to $238 million (forecast) in 1999. U.S. sales of all types of soyfoods have grown from $852 million in 1992 to $2,140 million (forecast) in 1999. Address: Special to Times.

2520. Hain Food Group, Inc. 2000. Notice of special meeting of stockholders. Uniondale, New York. ii + 89 + v + 37 + 27 p. April 28. 28 cm.

• ***Summary:*** The special meeting will be held on 20 May 2000 in New York City to discuss six points, including the merger with Celestial Seasonings, the change of name to The Hain Celestial Group, Inc. after consummation of the merger, increasing the number of shares of Hain common stock, amend the 1994 Hain Long Term Incentive and Stock Award Plan, etc. Address: 50 Charles Lindbergh Blvd., Uniondale, New York 11553. Phone: 516-237-6200.

2521. Riede, Adam. 2000. Basic blenders beat upscale rivals: Fancy features and a high price tag do not guarantee great performance. *Cook's Illustrated.* May/June. p. 25-27.

2522. ConAgra, Inc. 2000. ConAgra buys Lightlife Foods health food firm (News release). Omaha, Nebraska. 2 p. July 17.

• ***Summary:*** Largely a reworded version of the original news release. Address: Omaha, Nebraska.

2523. Seemo (H. Shapira); Kairava (J. Spaelstra). 2000. Re: Photos of the new Dakini Health Foods Pvt. Ltd. food processing facility in Pune / Puna, India. Letter to William Shurtleff at Soyfoods Center, Sept. 2. 1 p.

• ***Summary:*** See next 2 pages. This packet contains no letter, only 13 color photos of the new food plant. Most of these photos show the Indian employees working with the modern- and very sanitary-looking equipment, making tofu and soy tempeh, in a clean plant with white walls, a high roof, and a tile floor.

Four of the photos show: (1) Two Indian men cooling the soybeans on a tray before inoculation to make tempeh. (2) Joined by a woman, they measure the inoculated soybeans into plastic bags. (3) A list of products sold by the company: White tahini paste. Sesame butter. Peanut butter. Soy-tempeh. Tofu. (3) Kairava (J. Spaelstra) standing by a sink with a glass in her hand. Address: Dakini Health Foods Pvt. Ltd., S.N. 33, Bhoiwasti, Keshavnagar, Mundhwa, Pune / Puna 411 036, Maharashtra, India.

2524. Williamson, Mel. 2000. History of Fillmore Foods, Inc. and Natural Protein Products (1936-1968). Part I (Interview). *SoyaScan Notes.* Sept. 20. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Willard Fillmore "Mel" Williamson was born

© Copyright Soyinfo Center 2021

in 1936 in Oakland, California. He grew up in Oakland, the youngest of three children. In about 1936, when he was age 13, his eldest sister began training at Jack LaLanne's gym in Oakland. She was one of America's first women bodybuilders; she took it very seriously and trained hard. After she got married, her husband became LaLanne's workout partner. LaLanne was a bodybuilder and strongman, and a good athlete (a great hand-balancer). Thin and weak as a boy, LaLanne had been inspired by Paul Bragg of Southern California to live a healthy and fit life and eat natural foods. LaLanne had one of America's first gyms, and it was in Oakland.

Mel got interested in bodybuilding because of his sister and soon he was training too. In 1948-49 he got a

© Copyright Soyinfo Center 2021

pair of dumbbells for Christmas, and at about age 13 and began training at home in his garage. He entered his first competition at age 14; he did body building, weight lifting, and powerlifting. His sister told him about Jack LaLanne's diet that he followed to improve his well being; from that day on, he would eat anything that was good for him. He drank more liquids, ate plenty of fruits and vegetables. He also ate the standard health foods of the day: Blackstrap molasses, yogurt, wheat germ, and brewer's yeast.

Soon Mel also began working out at Jack LaLanne's gym–and other gyms closer to his home. In 1954 he entered the Mr. America contest–while a senior in high school.

After entering the University of California at Berkeley, Mel continued his interest in bodybuilding. In June 1959 he graduated from Cal Berkeley with a degree in Food Science & Technology–even though the food technology department was in Davis. After graduation, he got his first job working for Hueblein, in San Jose, California. Then he went to work for Dole Pineapple. In Nov. 1964, while still working for Dole, Mel founded a company named Fillmore Foods, in San Jose. He helped develop over 50 products for these companies.

While Mel was working for Dole, some friends at the gym where he worked out asked him if he could develop a protein that tasted good and would help them put on weight. In his spare time Mel developed a product that came to be known as Mus-L-On Gain Weight Formula. He founded Fillmore Foods to develop, manufacture (powder blending), and package this product. A fellow bodybuilder named Bob Mendelsohn, who owned a very early gym in San Lorenzo, formed a separate company that (exclusively) bought Mel's product, then distributed and marketed it to gyms. Mel and Bob worked closely together, discussing pricing, marketing strategies, new products, etc., but they owned separate businesses. A key ingredient in the product was Promine soy

© Copyright Soyinfo Center 2021

protein isolate, which he purchased from the Central Soya Company.

Bob developed a route of gyms to which he would distribute Mus-L-On–on the days he wasn't operating his gym. Soon Mel developed a second product, which was a protein powder. Pretty soon Akin, a health food distributor, approached Mel and Bob and asked if they could distribute the products to health food stores. Sales increased. Bob sold his gym and devoted all his time to distributing and selling Mel's products. In about 1967 Mel and Bob together started the VIP Health Spa in San Lorenzo. Mel's Fillmore Foods took over much of the distribution and Bob focused on the VIP gym. Finally Bob got out of the food business and Mel got out of the gym business.

In 1968 Mel started making a private-label product for GNC (General Nutrition Centers), which at the time had about 500-600 health food stores. GNC had been carrying the Bob Hoffman line but they planned to replace it with products made by them for Mel who would ship the product to GNC in bulk and they would package it under their own "All Star" label; this was the first product he made for another company. Jack LaLanne had a product named Instant Breakfast; Jack asked Mel to start making it for him. Then Mel started making some of Shacklee's products, as well as a Tiger's Milk Bar developed by Adelle Davis and marketed by Plus Products. When start making Tiger's Milk Bar? Was it the first "energy bar."

In the early 1960s the big health food companies in America were Plus Products (they also sold vitamins and a Tiger's Milk powdered drink), York Bar Bell and Hoffman Co. (York, Pennsylvania), El Molino Mills, Schiff (vitamins), and Thompson (vitamins). Soon bodybuilders from gyms all over northern California came to Mel asking to buy products or make private-label products for them. Soon gyms were asking him to distribute it.

The next thing Mel knew, he was so busy making Mus-L-On that he had to make a choice: keep his job at Dole or quit and go into business for himself. He made the latter choice, and it proved to be the right one.

After several years, Mel moved to Fillmore Foods to Hayward, California, from San Jose. When and why did he start Natural Protein Products? What it a division of Fillmore Foods?

In 1968 Fillmore Foods introduced its first bar, named M-L-O Weight Gain bar. The bar was uncoated and the main ingredients were calcium or sodium caseinate, soy protein isolate, corn syrup, plus some kind of fat. Though it was called a "weight gain" bar or "dietary food for those who wish to gain weight," the concept was clearly a nutrition bar rather than a candy bar. Mel made these in a semi-hand operation. He would roll them out on slabs with a rolling pin, put a frame around them, cut them with gang cutters, then wrap them by hand. He first made them in Hayward or San Jose? The bars were sold by the box and there were 21 individually wrapped bars per box. If a bodybuilder ate 3 bars a day, as prescribed, he would finish the box in one week. Continued. Address: Owner and Founder, MLO Products Co., Fairfield, California 94533. Phone: 1-888-436-4769.

2525. Hain Celestial Group, Inc. 2000. Westsoy (Leaflet). Uniondale, New York. 2 panels each side. Each panel: 22 x 9.5 cm.

• ***Summary:*** On the cover of this glossy, color leaflet, the word "Westsoy" is written vertically in large white letters against a red background. Four color photos show: (1) Soymilk being poured into a glass. (2) A woman running along the beach with sea foam in the background. (3) Soymilk being poured onto breakfast cereal topped with blueberries. (4) A woman holding a glass of soymilk, meditating in the cross-legged position.

On the inside two panels is a large color photo of the many Westsoy non-dairy beverages–mostly soymilk–and answers to the bold question "Why drink Westsoy soymilk?" Also a 55 cent coupon for any quart or half gallon Westsoy beverage.

On the back panel is a description of nine Westsoy products: WestSoy Plus (new packaging), WestSoy Lite, Low Fat WestSoy Soymilk Drink, 100% Organic Westsoy Soymilk, Vigoraid, Juice Bar, Chai, Cafe Westbrae. Address: 50 Charles Lindbergh Blvd., Uniondale, New York 11553. Phone: 516-237-6200.

2526. Health Flavors! 2000. Distributor for health foods and natural products (Portfolio). Farm to Market Rd., Brewster, New York 10509. 5 inserts. 30 x 23.8 cm.

• ***Summary:*** See next page. This portfolio (sent by Patricia Smith from NFM Expo East 2000) contains 5 inserts describing various products sold by the company. These contain Kushi Macrobiotic, Stonewall's Jerquee, Eat You Heart Out entrees, Soynut Crunch Bars, Yamaki Amazake Pickled Daikon OG [organically grown], MMB Snow Dried Tofu, Mitoku Hama Natto Beans, Dakota Gourmet Soy Nuts, Bulk Seaweeds, Kuzu, etc. The main insert is a wholesale price list which contains many soyfoods.

One insert of interest to us is Dixie Diner's Soyfoods Fact Sheet, Vol. 1, Issue 5 (Nov. 1999). It is printed front and back. We will scan only the front. Address: Brewster, New York. Phone: (845) 278-8164.

2527. Reynolds, Jonathan. 2000. Do you tofu? Soybean curd isn't just for health-food nuts anymore. *New York Times.* Nov. 5. p. SM181.

• ***Summary:*** The author used to be an overweight steak and potatoes guy, who despised the taste of "health foods." "Until recently, I couldn't stand to even *look* at tofu. Cold and uncooked, it's squeaky, with the texture and disposition of a particularly upbeat sponge. In the mouth, it's so darned

Volume I, Issue 5

Those cultures that consume soy-based plant protein as their main protein base, live 19-23 years longer than those consuming animal protein as their main source of protein.

Recent and ongoing studies reflect that only soyfoods offer a proven record of prevention of heart disease, cancer, diabetes, osteoporosis, high blood cholesterol (unlike anything else, soy leaves the HDLs — the good ones — up while reducing only the bad ones — the LDLs), arthritis, kidney disease, and even menopausal complications.

FDA APPROVES NEW HEALTH CLAIM FOR SOY PROTEIN AND CORONARY HEART DISEASE

The FDA is allowing health claims on SOY PRODUCTS that state the relationship between a diet containing soy protein (that that meets FDA criteria) and the reduced risk of heart disease. The soy product must provide 6.25 grams of soy protein or more per serving and have low-fat and low-cholesterol status.

THE 10 REASONS YOU SHOULD EAT SOYFOODS (not pills) EACH AND EVERY DAY

As evidenced by peer review human medical studies, and longevity statistics.

1. **Soy is "the Most Nutritious Food Known to Man".** The oxygen/nitrogen base of soy most approximates that of a human being — we are carbon based life forms and exchange nitrogen/oxygen. That is why soy can be plowed under the ground and the same crops can be grown on the same land for years, it enriches the soil so completely.
2. **Cultures that consume soyfoods regularly,** as their main source of protein live an average of 19 to ***21 years longer*** than cultures and groups of people that do not. Here in the United States, the Seventh Day Adventists' longevity has been a source of study for decades. They eat soy regularly.
3. **It is estimated that 70% of us have a blood sugar disorder** (diabetes and hypoglycemia are normally not diagnosed for 7-10 years, after internal organs have become fatigued, as we have no test to pinpoint it sooner) — only SOY FIBER has been shown to lower diabetic blood sugar levels for hours following a meal — no other fibers have this positive effect.
4. **Only soy has been shown to prevent and treat chronic diseases** such as heart, cancer (soy consumption has been linked to lower rates of lung, breast, prostate, and colon cancers), osteoporosis, kidney, diabetes, liver, (soy detoxifies the liver), arthritis, and even eliminate or greatly reduce menopause and PMS symptoms. Soy is good for the brain, liver, and kidneys. Soyfoods prevent stroke as well as Premarin.
5. **Soy is a complete protein** (having all of the essential amino acids needed to sustain human life) and does not cause kidney stress and excess calcium usage, as animal proteins do. In order to assimilate ANY animal protein the kidneys have to work hard, and it takes 50% or more calcium to breakdown the animal proteins, hence the high rate of bone related diseases and fractures among high animal-consuming cultures. Soy delivers calcium to the bones, increasing bone density.
6. **Soy boosts the immunity.** STUDIES SHOW THAT SOYBEAN PEPTIDES CAN BOOST THE IMMUNE SYSTEM, which helps the body fight disease.
7. **Quality soy fiber products contain much needed trace vitamins and minerals** normally not present in much of our foods today. Eating soyfoods have been shown to be of benefit in detoxifying the liver, clearing up bronchitis and nasal congestion, relieving stomach cramps, healing stomach ulcers, and reducing allergic reactions.
8. **Soy contains important antioxidants called "isoflavones",** compounds with protect cells from damage caused by "free radicals" — dangerous unstable oxygen molecules. These free radicals are believed to be responsible for many forms of disease including cancer, and premature aging.
9. **Soy is rated as tops on the anti-aging foods list.** Soy helps soften, tighten and replenish skin, helping to prevent dry and wrinkled skin, and to restore a youthful "glowing" complexion. Plus soy is good for weight loss — soy builds muscle and burns fat. Soyfoods with fiber provides fullness without fat. And we all have to watch our weight as we age.
10. **Alzheimer's disease** — Soy is a natural estrogen — 472 post-menopausal women reduced their risk of contracting the disease by 54% with estrogen. Soy lecithin is an important source of phospholipids-phosphatidyl serine, which improve memory, concentration and mood, and has been shown to be the only nutrient proven to partially reverse age-related memory loss.

© Copyright Soyinfo Center 2021

watery and perky, it feels as though it will clean the enamel off your teeth, suck all the saliva from your mouth, and then bounce right onto the street to do some more good somewhere else."

"Processed foods made from tofu are, by and large, dreadful. The 'hot dogs' are weird, soy cheese is nasty, and Tofutti ice cream is downright punitive. Tofu yogurt is nearly as wretched as the food at Shea Stadium"–which is probably the worst in the world.

"But that's just my cranky Western palate. Worldwide, tofu is more popular than pasta, potatoes and poi, the staples of other cuisines." He found, to his surprise, that when tofu is cooked and used in a good recipe, it can be delicious–as is the "bean curd" served at most Chinese restaurants. Includes three tofu recipes.

2528. Heath, Ellen. 2001. Unripened soybeans make trendy health food. *Des Moines Register* (*Iowa*). Jan. 10. Des Moines Met Area.
• ***Summary:*** Edamame "are among the newest and trendiest health foods to hit the Midwest." Sunrich Inc. (Hope, Minnesota) sold more than 1 million pounds of its Hearty & Natural brand edamame last year, and this year the company projects sales of twice that amount. Most of Sunrich's blanched and frozen edamame are shipped to distribution centers in California, New Jersey, and Minnesota. The company says its biggest challenge is to get them into stores and restaurants in the Midwest. Address: Staff writer.

2529. Japenga, Ann. 2001. A bewitching realm opens: Tahquitz Canyon had been Shangri-La to hippies, hermits and evil spirits. For decades its dangers made it off limits. Now the 'no trespassing' signs are coming down. *Los Angeles Times*. Jan. 14. p. 18.
• ***Summary:*** In the 1940s, Tahquitz Canyon inspired Eden Ahbez to write his famous song "Nature Boy." Also discusses Gordon Kennedy, a young Anaheim surfer who made it up to the higher canyons in 1974 and discovered paradise on earth.

2530. Sievin, Colleen. 2001. Company built on a blender. *Journal* (*Rapid City, South Dakota*). Jan. 14.
• ***Summary:*** Steve Demos, age 51, founder and president of White Wave, "likens his success to the fairy tale, 'Jack and the Beanstalk,' where the main character trades in his cow for magical beans."

A photo shows Demos holding a carton of Silk soymilk. Demos started grinding his soybeans to make tofu using a blender. Address: Associated Press.

2531. Smith, Patricia. 2001. The Natural Products Expo at Anaheim and the natural foods industry (Interview). *SoyaScan Notes.* March 23. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** The Expo at Anaheim this year was the biggest ever, attracting more than 30,000 people. She walked past every booth and almost every one was offering some kind of soy product. The interest in soyfoods just keeps growing.

At the show there was talk about illegal genetically-engineered StarLink corn in Kellogg's Morningstar Farms products such as Corn Dogs, Mini Dogs, and maybe other products. Some company are pulling these products from their shelves.

Before the first Natural Foods Merchandiser (NFM) trade show was held in 1981, at Anaheim, California, the pioneering natural foods companies such as Erewhon, Eden, Westbrae, Sunburst, and Chico-San all (reluctantly) attended the annual NNFA show in Las Vegas, Nevada. There would always be a big party one evening in someone's hotel suite–with lots of fun. But from 1981 on, these and other natural foods companies found their real home at the NFM trade shows.

Patricia saw Yuko Okada at this year's show. His Macrobiotic Company of American now sells only Muso Shokuhin products. Norio Kushi is running the company. Yuko kicked out Bruce Macdonald over alleged financial improprieties. A lawsuit that Bruce filed has apparently been settled.

Michael Potter bought the Herb-T Company from Cecile Levin in southern California. Mr. Muramoto started the company many years ago.

Patricia has now worked for Trader Joe's for 16 years. Address: Radical Food, P.O. Box 952, Mill Valley, California 94942-0952.

2532. SPINS. 2001. SPINscan data on tofu in the natural / health food market, 12 months ending April 2001. San Francisco, California. 32 p.
• ***Summary:*** (1) Top ten brands–Natural products supermarkets. Tofu–Ranked by dollar sales. Total US. 1. White Wave ($6.7 million). 2, Nasoya, 3. Wildwood Natural Foods. 4. Mori-Nu (Morinaga). 5. 2533. Lewis, Morgan, Jr. 2001. Father of the infomercial: Vita-Mix President John Barnard talks about the creation of the infomercial and the new marketing techniques that helped double his company's size in nine years. *SBN Magazine* (*Cleveland, Ohio*). June.
• ***Summary:*** In 1950 W.G. Barnard of Cleveland produced and starred in a 30-minute infomercial about the Vita-Mix titled "Home Miracles 1950" on WEWS TV in Cleveland. Some say it was the first infomercial. 400 Vita-Mixes were sold. Eventually it was run in 61 different cities. Today Vita-Mix's headquarters are tucked away in a wooded residential street in Olmstead Falls, Ohio. Two photos show John Barnard, who is now President of the company. For more: www.vitamix.com. Address: Reporter.

2534. Associated Press (AP). 2001. Aveline Kushi, 78; a leader in health food movement. *Boston Globe.* July 6. p. B7. [1 ref]
• ***Summary:*** This obituary also appeared in the *Los Angeles Times* (July 6) and the *Washington Post* (July 7, p. BO6).

2535. *Boston Herald.* 2001. Aveline Kushi, 78, natural food pioneer. July 7. [1 ref]
• ***Summary:*** "Aveline Tomoko Kushi of Brookline, a world-renowned pioneer of the alternative medical movement and the organic food industry, died Tuesday at Brigham and Women's Hospital in Boston after a lengthy battle with cervical cancer. She was 78.

"Born in Yokota in the Izumo area of Japan, Mrs. Kushi studied teaching before emigrating to the United States." "She taught at an elementary school in Izumo before moving to Tokyo, Japan, where she became involved in world peace activities as a member of the World Government Association. Mrs. Kushi came to the United States in 1951 to attend a World Federalist Convention."

"Mrs. Kushi, in 1966, opened the first natural food store in the United States, Erewhon, which was located in Boston. The store became the leading natural and organic foods distributor with stores in the Boston area, Hartford, Connecticut, and Los Angeles."

She is survived by her husband, four sons, five sisters, two brothers, 13 grandchildren and 19 nieces and nephews.

A similar obituary also appeared in the *Boston Globe* (July 6), *Los Angeles Times* (July 6) and the *Washington Post* (July 7, p. BO6).

2536. Malinowski, Terri. 2001. Katharyn (Catherine?) Novak and Anthony Berhalter. http:listsearches.rootsweb.com/th/read/CZECH/2001-12/1008284111. 1 p.
• ***Summary:*** "My great-uncle, Albert Novak, died by his own hand April 12, 1914, in Chicago. His survivors would be his widow, Anna (Kresol), and his children Lillian, Emelie, Otto and Edward. If there is any obituary information, I would be most grateful. He was born April 23, 1864 and is supposedly buried in the Bohemian National Cemetery in Chicago.

His sister, Kathryn (Catherine?) Novak, married Anthony Berhalter. They operated a bakery on North Clark St. in Chicago for many years. But I suppose she wouldn't be listed in the obituaries since her married name was German, rather than Czech. The Berhalters had only one child, Howard. I have no clue when Kathryn died either. but I suspect it was later–like late 1920s.

Note: *Chicago Daily Tribune.* 1944. "Death notices." Dec. 18. p. 14. "Berhalter–Catherine Berhalter, Dec. 10, of 1423 N. Clark street, beloved wife of Anthony A. Berhalter, mother of Sgt. Howard R. Berhalter, U.S.A. overseas. Services at chapel, 1253-55 N. Clark street, Tuesday, Dec. 19, at 2 p.m. Interment private." Address: Seattle, Washington.

2537. Source Family (The). 2001? The Source: Source restaurant "recipes" & Source family. Los Angeles, California. 157 + [20] p. Undated. Illust. No index. 22 cm.
• ***Summary:*** This photocopied, comb-bound book was made for Jim Baker's Source Family / community, and was never sold in bookstores. It is undated and with no copyright page. Most of the pages are numbered, but about 20 (here and there, often containing photos) are not; they were apparently inserted at the last minute. Contents: 1. The Source recipes (p. 1-17) and other family favorites (p. 18-48). 2. Alternative lifestyle choices, for the well being of body, mind and soul

© Copyright Soyinfo Center 2021

(p. 49-93). 3. Father / Yahowha and The Source Family: Truth behind the legends, an epic and never-ending saga (p. 94-157). All photos are courtesy of "the Source Archives." This book emphasizes on the importance of food, community, and a teacher in spiritual practice.

On the back cover (and on p. v) is a color photo of The Source restaurant taken from across the street, above the following text: "Jim Baker opened The 'Source Restaurant' in 1969, on Sunset Blvd. One of the country's first health food restaurants. Jim's 'Spiritual Family' grew from those who worked at the Source and soon became 'The Brotherhood of the Source' and later 'The Source Family,' living communally in the Hollywood Hills. We called Jim Father, then Father Yod and later Yahowha. We sold The Source in 1974 and moved to Hawaii, where Father left his body in August of 1975. The new owners recently closed the Source doors after 31 years, bringing a Hollywood legend and tradition to an end. We are printing the 'Source Recipes' in honor of our 'Earthly Spiritual Father' and The Family that was created."

In Section 1, recipes used at The Source restaurant include: Hi protein cereal (ground fresh from whole grains and seeds not cooked–like muesli, the raw breakfast cereal). The Source dressing (a version was later sold as Cardini Lemon Herb). Ice cream. Cheese cakes. Source special. Guacamole. Vegetable salads. Entrees: Too much crunch. Magic mushroom.

Section 2 discusses: Fish (recipes for ahi / tuna and salmon). Refined foods to avoid. Good foods (brown rice, miso, tofu, nuts, sesame seeds; p. 57-58). Fasting, enemas and elimination diets (p. 65-66). Tofu (p. 74-75). Miso (p. 75-77). Raw foods.

Section 3, the life story of Jim Baker (1922-1975), mentions: His mother, Cora. The Tarzan audition in Los Angeles. Dora Baker (of France), his second wife. His birth on July 4 in Ohio, parents, childhood, great-grandfather, growth of interest in natural healing and foods, Paul Bragg, weight training and competitive sports, University of Chicago (Illinois), graduation from Swedish School of Massage in Chicago, first big job at the Wright plant, married the boss's daughter Margaret; they had a daughter named Peggy, opened Bakers Gym, joined the Marines in World War II, received Medal of Gallantry and Silver Star, ardent archer and champion swimmer, heavyweight wrestler, and judo expert, etc. Lived in Topanga Canyon and became a Vedantic Monk, met Elaine Baker and they were married, part of Nature Boys which lead into the Hippie movement (Jack LaLanne, Gypsy Boots). Elaine and Jim had three sons and opened two famous restaurants on Sunset Blvd. They were divorced and he married Dora, a French girl who was with him at The Old World. Dora started The Source with Jim. "He finally found His Spiritual Father in a very powerful and famous Yogi Bhajan from the East who was living and teaching in L.A. Jim became a Sikh... Jim then married Robin, who was 20 and he was 47. She supported him on all levels and was a devoted wife. Slowly the small group of people who were working at the Source started to become more of a communal and family energy. Jim went to India with the Yogi and while there realized "Neither Hindu or Sikh shall I be, for my soul is universal and free!"... Jim came back to L.A. and started to teach meditation and spiritual knowledge at the restaurant on Sundays. He became known as Father. "Most of us were living in vans or other rentals but wanted to live more communally. The Mother House was rented and this was the beginning of the Source Family. Father and Robin / Ahom lived above the Source, while the family lived at our mansion on Inverness St. (p. 98-99).

2538. *Alpine Sun* (*Alpine, California*). 2002. Editorial: 50 years of history... Jan. 3.

• ***Summary:*** "This month marks the 50th anniversary of *The Alpine Sun*... Started in January 1952 by Clarke and Alice Irvine when less than 600 people lived in Alpine, *The Alpine Sun* has become one of the most successful smaller weekly community newspapers in the state. Current publishers Jay and Teresa Harn purchased *The Alpine Sun* in December of 1992."

The Irvines owned the paper until 1973 when Fred and Bonnie Teckemeyer purchased it. In 1987 Scott Harkner and Ellen Holzman purchased it. "Starting under their leadership, the newspaper began garnering statewide awards for public service and writing. Again, the newspaper took strong stands to ensure that the leaders of Alpine understood what they felt the community needed. They also increased the newspaper's circulation area to include the entire Back Country.

"In 1992, Jay and Teresa Ham purchased the newspaper from Harker and Holzman. It had been a dream for Jay to own his own newspaper since he was a kid. He has his B.A. in journalism, and had worked for several newspapers in the Los Angeles area. Under the Hams' leadership, The Alpine Sun has continued to gamer statewide awards in public service and reporting. In addition, The Alpine Sun has tripled in size and doubled in the amount of employees. The Hams also believe in community leadership and have continued the tradition of working hard to promote and build the community. In 1999, the Hams formed East County Community Newspapers, Inc. and purchased six other weekly newspapers in El Cajon, Santee, Lakeside, Spring Valley, Lemon Grove and La Mesa. In 2000, the Hams also purchased the 110-year-old Daily Californian of El Cajon, which had fallen on hard times and converted to a weekly, and merged the six city weeklies into that publication renaming it The East County Californian.

"Today *The Alpine Sun* and *The East County Californian* together have more than 60,000 readers, employ more than 35 people and cover all of East County from the Imperial County line to the city limits of San Diego. Our readers

and advertisers are invited to join us for a special 50th Anniversary Open House..."

2539. Saenger, Diana. 2002. *Alpine Sun* celebrates 50 years of rich history, service. *Alpine Sun* (*Alpine, California*). Feb. 7. p. 1, 5.
• ***Summary:*** The very first issue of *The Alpine Sun*, printed on a folded-over 8½-by-11-inch piece of paper, looks simple enough even for the days when the first issue was printed on 14 Feb. 1952. It was started and published by Clarke and Alice Irvine. Clarke's wife Alice notes: "Clarke had lots of newspaper experience. He had worked on *The Oregonian*, *The Honolulu Star Bulletin* and *The Atlantic Press*, and his dad started *The Santa Monica Bulletin.*

Alice now lives in Oregon, where she is near her daughter, Cynthia, and her grandchildren Julie and Scott, and Cecile and her son Justin. Her other daughter, Celeste, lives in Del Mar, with her children Drew and Antoine.

2540. Denny, Darrell. 2002. Jack's still jumping: LaLanne looks back at a healthy life. Natural legacy: The people who founded an industry. *Natural Foods Merchandiser.* March. p. 52, 54, 56, 58, 60.
• ***Summary:*** An excellent biography of Jack LaLanne, now age 87. He continues his daily regimen of exercise and vegetarian diet. For breakfast every morning, he has a blended soymilk and protein powder shake, multi-grain organic cereal with soymilk, and a host of vitamins and supplements. He was the first to: Open a modern health spa. Have a nationally syndicated TV show on exercise and nutrition. Introduce yogurt to America. Have athletes work out with weights. Have women work out with weights. Encourage the elderly to work out with weights. Have a combination health foods bar and gym. Develop a weight-loss instant-breakfast meal-replacement drink. Open a coed health club. Combine weight training with nutrition. Make an edible, nutritious snack bar. Sell vitamins and exercise equipment on TV. Encourage the physically challenged to exercise and work around their disabilities. Perform feats of strength and endurance to emphasize the benefits of exercise and good nutrition. For example: In 1954 (at age 40): Swam the length of the San Francisco Golden Gate bridge underwater with 140 pounds of equipment (incl. two air tanks)–an undisputed world record. Age 41: Swam handcuffed from Alcatraz to Fisherman's Wharf in San Francisco.

He was born in 1914 to French immigrants. When he was 15 the family lived in Berkeley, California, and his mother, a devout Christian, had become a Seventh-day Adventist years before. Jack was unhealthy and unruly. A lecture in Berkeley by health food pioneer Paul C. Bragg changed his life. Bragg told him that if he obeyed nature's laws he could be born again. Contains many good photos of LaLanne, and one cartoon illustration. Address: Executive VP/president Penton Lifestyle Media.

2541. Bearman, Gary. 2002. The Ya Ho Wa 13 Interview (Website printout–part). www.furious.com/perfect/yahowah13.html Retrieved March 25.
• ***Summary:*** On page 1 is a photo of Yahowa (formerly Jim Baker of Los Angeles) with a long white beard and long hair seated on the front hood of a Rolls Royce. On both sides of him stand two musicians with long hair.

"Many young people were attracted to the Source Restaurant, which served fresh, delicious vegetarian food, and to the spiritual atmosphere of love, peace and wisdom that was growing there around Jim Baker and the group of young men and women who staffed the restaurant. Jim Baker really looked the part, with his grant stature and well-formed physique, his long beard and hair, penetrating blue eyes and deep resonant voice. Father lived for the family. He adored his sons and loved having the women and children protected and safe. We were totally into spirit and really enjoyed life. It was a magical time of special dispensation, where we experienced what a heaven could be like. Spirit and matter were one..."

Jim Baker was a very successful restaurateur in Hollywood, several times he was a millionaire... The vegetarian restaurant was the first of its kind on the West Coast." He started, owned and ran The Source restaurant himself at first until the family grew. Damian was the manager. It was vegetarian because: "Sunflower: We did not feel that man has the right to kill another sentient being. There are too many chemicals in the processed meats of today that are harmful. All of the truly enlightened beings were vegetarian. Djin: We believe this was the first diet given to mankind, that it is part of the humane and ethical path of harmlessness, and that we are physically made to eat this way. We have 24 feet of intestines, unlike the carnivores of 10 feet..."

"Where was the restaurant? Djin: Sunset [Boulevard] at Sweetzer in Hollywood, on the northeast corner, between Crescent Heights and La Cienega. We were the first major health food restaurant in Los Angeles that was successful and served all local produce and raw [unpasteurized] dairy.

2542. Starr, Shannon. 2002. William Pester's life remains a mystery. Hermit: The nature lover of the desert left in the 1930s and disappeared altogether in 1949. *Press-Enterprise* (*Riverside, California*). July 27. p. B-3. Desert Pass edition.
• ***Summary:*** In 1927 Pester began working 10 acres of organic dates, oranges, figs, and grapefruit on his ranch in Indio Hills.

In 1937, J.H. Dryer (or Dyer) of Hoopston, Illinois, visited William Pester in southern California in 1937 and wrote about him for the *Hoopston Chronicle.* Pester, age 57, was driving an old Ford car and selling Navajo rugs. Dyer reported that Pester lived in a small house elevated on posts

© Copyright Soyinfo Center 2021

10 or 12 feet high. "A water tank and a windmill were also found on the property. Pester told the reporter that his food cost him about $1.50 a week, his clothing cost nothing, and he made his own sandals. Pester collected minerals, rare stones, crystals, Indian arrowheads and pottery. When he voiced his longing for a power lathe to polish his stones, Dryer took up a collection and brought one out to him.

David Hawbecker met Pester in Los Angeles in 1949, and they became friends. Hawbecker was a struggling art student attending school on the GI bill. Pester was a white-haired man in his 60s. Hawbecker recalls: "He used to come up and model for the school. He said he earned money that way to stake himself to go search for gold as a prospector. He used to carry his belongings in a shoe box." They included a few vials of gold dust.

Gordon Kennedy has written about Pester in his book *Children of the Sun.* Kennedy had lived in Tahquitz Canyon in the 1970s. Kennedy notes that Pester was accepted by the Cahuilla Indians and lived among them. He is listed in the 1920 U.S. Census with 24 members of the tribe. Pester was also a mentor of eden ahbez. Researchers have never found a death certificate for Pester or know where he went after 1949.

Photos show: (1) Bill Pester seated on a stool playing a slide guitar on an undated postcard. (2) A portrait of William painted in 1949 by David Hawbecker in Los Angeles. Pester has long white hair and is wearing a hat.

2543. National Nutritional Foods Association. 2002. Enrich your business, enrich your world (Card). Newport Beach, California. 2 p. Front and back. Postard.

• ***Summary:*** On the cover of this color postcard we read: "NNFA Market Place 2003. 66th Annual Natural Products Convention and Show. Conference: Friday-Sunday June 27-29, 2003. Trade show: Saturday-Sunday June 28-29, 2003. Las Vegas Convention Center, Las Vegas, Nevada."

On the back we read: "Plan now to attend the longest-running convention and trade show in the natural products industry."

Note: The first show was apparently held in about 1937. Address: 3931 MacArthur Blvd., Suite 101, Newport Beach, California 92660. Phone: (800) 966-6632.

2544. Larsen, Stephen; Larsen, Robin. 2002. Joseph Campbell: Fire in the mind. The authorized biography. Rochester, Vermont: Inner Traditions. xxii + 636 p. Illust. Index. 23 cm. [300* ref]

• ***Summary:*** Joseph's Campbell's first romance was with Adelle Davis. He writes about her extensively in his journals, including some perceptive character sketches. They met in December 1929 on a cruise through the Caribbean on board the SS *Kungsholm.* She sat down next to him, and was soon "flirting in not terribly subtle ways." They danced and the mood turned romantic. She was rather assertive. He wrote that their "conversation ran mostly about sex." A first moonlight kiss. She wanted to be with him all the time, but he wanted time alone. As the ship neared Panama, before the masked ball on New Year's Eve, he found her half asleep, half undressed in her stateroom. She invited him in and "they became lovers, very likely Campbell's first, in the full meaning of the word." The trip started a sexual awakening for Campbell.

Back in New York, the relationship lasted for about 18 months, "in a somewhat desultory way" (p. 122-26). Note: During this time Adelle was living in New York City on West 114th Street, near Columbia University, from which she had received an M.A. degree.

In 1930 Adelle had been urging Campbell to join her for a romantic stay at a log cabin in the Rockies. He declined and was feeling beleaguered by women "who want things" (p. 134).

In 1932 Campbell drove to Berkeley to visit Adelle Davis, who was living in a big ground-floor apartment with a fireplace and bathtub. She is not embarrassed by nudity. He found her to be a "twinkling, happy creature, tickled to death with the run of things... We had a glorious week together; then Adelle went to her office;..." "Adelle with her unpretentious and natural *joie de vivre* had won his heart." (p. 163-65). He then went to visit Carol and John Steinbeck at their home in Pacific Grove, near Carmel. He fell deeply in love with Carol. Several weeks later he paid a surprise visit to Davis to talk about his hope to turn their relationship into a friendship. She introduced him to a lively group of friends in the San Francisco Bay Area. Address: Rochester, Vermont.

2545. Pearlstein, Leo. 2002. Celebrity stew: Food publicity pioneer shares 50 years of entertaining inside stories of Hollywood royalty. Los Angeles, California: Hollywood Circle Press. xxv + 205 p. Illust. Index. 26 cm. Foreword by Steve Allen.

• ***Summary:*** Chapter 16, titled "The real Mrs. Cubbison" (p. 123-35) is a biography of Mrs. Sophie Cubbison–a pioneer in soyfoods, whole-wheat bread, and packaged stuffing mixes as an alternative to home-made turkey dressing. Born Sophia Huchting in 1890 in San Marcos, California, she was one of 10 children. "Her father was of German descent and her mother was a native Californian of Mexican descent. In fact, her mother descended from the Ortega family, who were early California pioneers. Young Sophie became bent on a vocation at an early age." Her career began on her father's ranch where she was born. At the age of 16 she began to cook for her father, brothers, and their lima-bean ranch laborers during the summer and early fall–so she could earn enough money to put herself through college. She went on to earn a degree in home economics from California Polytechnic in 1912, "an era when most women never even pursued, or were permitted to pursue, higher education,

© Copyright Soyinfo Center 2021

much less acquire a degree."

A detailed description is given on what foods she prepared and when the mealtimes were on her father's ranch.

"In 1913, Sophie began dating Harry Cubbison, who was supporting an invalid father and mother. Sophie was now supporting her mother, as her father had passed on. As Sophie told Leo: "Necessity became the mother of invention. Mr. Cubbison was a fine salesman and I was capable of baking. It was absolutely necessary for us to earn more money."

So Sophie and Harry "went into debt to open a small bakery, and her entrepreneurial spirit rose to the occasion. A health enthusiast, she believed very strongly in whole wheat bread..."

Leo met Sophie in 1950, just after he started his own firm in the public relations and advertising business. He was handling the California Turkey Advisory Board's publicity. While reading trade journals and newspapers, he kept noticing tiny 2-inch square ads that read "Turkey tastes better when stuffed with Mrs. Cubbison's All Purpose Dressing." Leo was often asked about the difference between a "dressing" and a "stuffing." Actually, they are the same, but historically it was called a "stuffing" on the East Coast and a "dressing" on the West Coast. Gradually the East Coast term won out.

In 1953, Sophie's husband, Harry, died. In 1955 she sold her bakery to the American Cone and Pretzel Company, which later became Rold Gold Pretzels. She insisted that the buyer retain Lee & Associates (Leo's company) as its advertising and public relations agency–otherwise she would not complete the sale. So Leo has been promoting Mrs. Cubbison's products for over 50 years–a type of loyalty rarely found in business today. Sophie passed away in 1982 at the age of 92. Today her dressing and stuffing mixes dominate the grocery shelves.

Photos show: (1) Mrs. Sophie Cubbison in the early 1950s standing behind a table with a turkey, packages of her Stuffin' and Dressing, and a large glass bowl in which she is mixing her ingredients. (2) A blow-up of the tiny 2-inch ad for her dressing. (3) Nine long delivery trucks with the words "Cubbison's–Melba Toast, Cookies, Crackers." A well-dressed driver stands beside each truck; in the background are dry California hills. (3) A package of "Cubbison's Melba Wheat Soya Toast," a hot product in the 1920s. (4) Four delivery trucks lined up outside "Cubbison's Health Food Store." (5) Bob Barker, host of the longest-running TV game show, "The Price is Right," for over 28 years. In 1951 Sophie's products were featured and given away on his local radio show. After that he became host of the popular TV game show "Truth or Consequences," before going on to "The Price is Right." (6) TV star Dennis Weaver holding a box of Mrs. Cubbison's Dressing.

Mrs. Cubbison is also mentioned on pages xvii, 38-39, 149-50 (Warner Brothers studio), 173-74 (Phyllis Diller), 178 (celebrities), and 184-85 (Mickey Rooney).

Also contains chapters on (or photos of) Bob Hope, Mickey Rooney, Phyllis Diller, Jimmy Durante, Bud Abbott & Lou Costello, Jayne Mansfield, Steve Allen, Groucho Marx, Doris Day, Bing Crosby, Ozzie and Harriet Nelson, Shirley McClaine, Buddy Hackett, George Burns & Gracie Allen, Dinah Shore, Karen Lindsey, Art Linkletter, and Frank Sinatra, Jr.

The section titled "The King of Culinary Public Relations" (p. xv-xviii) is about Leo Pearlstein; in 2000 he celebrated his 50th anniversary in the public relations business. Leo started his working life at his parents' grocery store in Los Angeles. He was one of the earliest marketing graduates from the University of Southern California (USC). In the late 1940s he went to work for Jenkins & Large, a Los Angeles advertising and public relations agency owned by movie star Eddie Bracken; Leo also worked with Bracken Television Productions. Bracken disbanded the company in 1950, giving Leo the opportunity to take his food accounts with him and to open his own agency, Lee & Associates. Photos show: (1) Leo at a barbecue in the 1950s. (2) The Pearlstein family (wife, Helen, and 3 sons, David, Howard, and Frank) at a black-tie event. Address: Lee & Associates, 145 S. Fairfax Ave., Los Angeles, California 90036. Phone: 323-938-3300.

2551. Pearlstein, Leo. 2003. Sophie Cubbison and the Cubbison Cracker Co. (Interview). *SoyaScan Notes.* Sept. 22. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** The company that Sophie Cubbison started many years ago still exists as Mrs. Cubbison's Foods Inc. in Commerce, California. They specialize in making turkey stuffing. Leo met Sophie in 1950 just after he started his own firm in the public relations and advertising business. he handled the California Turkey Advisory Board account. She and her husband had a little bakery on Pasadena Ave. in Los Angeles. Next door was Cubbison's Health Food Store–of which Leo has a photo. Leo thinks that this was the second site of the bakery. She and her husband lived upstairs. Leo remembers Sophie fondly. "She was one in a million–an outstanding, friendly, very capable, warm woman. The nicest person I ever met. She was charitable and kind, even played with and loved my kids–just great."

Sophia Huchting was born in 1890 on a ranch in San Marcos, north of San Diego, in southern California–the 7th of 10 children–six boys and 4 girls. Her father, August Heinrich Huchting (1848-1909), was born in Bockhorn, Germany, and immigrated to California as a young man in the early 1870s. A master baker, he worked for the Spreckles Sugar Co. in San Diego. He met and fell in love with Maria Conception Gonzales (1856-1942), a 16 year old Californian of Mexican descent, who was related to the Ortega family–of Ortega Chilis fame. They were married in about 1872 in Ventura, California, Maria's birthplace. A few years later, the couple moved to La Costa, California, about 25 miles north of San Diego. Here Mr. Huchting engaged in farming. The marriage was blessed with eleven children, ten of whom survived. The first was born in 1876. Sophia, the fourth, was born in 1890. The Huchtings bought a ranch where he and 40 ranch-hands grew lima beans. At age 16 Sophie started to cook and bake for the ranch hands and her brothers during the summer and early fall–when she was not in high school. In this way she saved enough money to put herself through college. Her father was deeply interested in healthy living, and age he taught Sophie how to make 100% whole-wheat bread–German black bread (*Schwartzbrot*), which he had learned how to make from his mother in Germany. In 1912 Sophie earned a degree in home economics from California Polytechnic (Cal Poly) in San Luis Obispo; she now had an even deeper commitment to good health.

In the Cal Poly yearbook for 1912 (named the *Polytechnic Journal* at the time), in a section titled "Class Prophecy" we read: "That evening we strolled down town. Everything was almost the same as it had been five years before. We noticed but one change and that was in the name that was on one of the buildings. The magnificent building that had formerly been Holly's Cafe was now surmounted by the sign, Huchting & Grizzle Cafe–Cooking done in a Scientific Way–Balanced Rations Served to Everyone." This prophecy–set five years after graduation–is fiction, not a true story. However, it shows that Sophie Huchting (later Cubbison) was very interested in cooking and had entrepreneurial talents. Sophia also worked on the staff of the college's *Polytechnic Journal* as the Social editor.

In 1913 Sophie (who was now supporting her mother) met and began dating Harry Cubbison; in 1916 they were married. Mr. Cubbison was a fine salesman and Sophie a fine baker, and they both were very much in need of more money. Initially, Sophie baked bread in their home and Harry would travel about selling it. Later in 1916 they went into debt to buy a small bakery in downtown Los Angeles and a small mill. Their first product was Cubbison's Whole Wheat Bread; Sophie would bake it three times a week and on the other three days she would demonstrate the healthful bread in stores and delicatessens. Mr. Cubbison did the soliciting and delivering. Their small business was a success and they soon moved to a new location on Pasadena Avenue near Avenue 34 in Los Angeles. They pioneered the manufacture and baking of the first 100% whole wheat loaf in the Los Angeles market. Then in 1925 they sold their bread business to the Barbara Ann Baking Co. Note 1. The *Los Angeles Times* seems to give the date of this sale of the Cubbison's break-baking business as Jan. 1927, to Oakes-Young Baking Company.

Then they launched a new venture, Mrs. Cubbison's Melba Toast and Zwieback. Here again they pioneered–making and marketing America's first commercial Melba

© Copyright Soyinfo Center 2021

toast. Their bakery was at a new location: 3417-3419 Pasadena Ave., in Highland Park, Los Angeles. Next door to the bakery they opened "Cubbison's Health Food Store." Sophie and her husband, for most of the rest of their lives, lived upstairs above the health food store. In 1929 they struck a "bonanza."

Sophie introduced soy products in the late 1930s and 1940s primarily because she was health enthusiast. Their business was now named Cubbison Cracker Co.

One interesting story concerns Melba Toast. In the early 1920s Nellie Melba, a European diva, visited the United States. Her doctor told her to eat toast for good health. The chef at her hotel left her toast in the oven too long so that it became twice-baked like zwieback. She loved it and Harry Ritz (the famous hotelier) and his wife decided to call it Melba Toast. Sophie and her husband began baking a product they named "Cubbison's Melba Toast." Note 2. There are many other stories concerning the origin of Melba Toast; one traces its origin to 1894 in London.

Then came the 1929 stock market crash; the Cubbison's business struggled to survive. In 1929 the famous Mayo Clinic developed the 18-day diet for movie star Ethyl Barrymore; it called for "Melba Toast." Suddenly even people in Los Angeles wanted the diet and "Melba Toast." Sophie took the broken pieces of Melba Toast, added seasonings, and made it into a stuffing. In 1948 it was launched as a commercial turkey stuffing. Leo has photos (which he received from Sophie years ago) of packages of Cubbison's "Toast of the Nation" Melba Wheat-Soya Toast. He also has photos of Hollywood Cup (use in place of coffee) and Cubbison's Wheat-Soya Pie Crust Mix.

In the 1950s Sophie was interviewed as a Cal Poly alumnus; they wrote a story in her own words in which she talked about her interest in health foods.

Sophie had 14 drivers and trucks.

In 1948, from her bakery on Pasadena Ave., Sophie pioneered packaged stuffing as an alternative to homemade turkey stuffing. She was encouraged to package by friends and family who had eaten the dressing at her home. All the customer had to do was add water, butter, and oil. It was for this product that she eventually became best known. She appeared on TV talk shows, providing cooking tips from 1950 until the mid-1970s. Sophie's husband died in 1953. So Sophie had to run the plant with two brothers, Paul and Jimmy. To earn extra money and cover her costs, Sophie began distributing (but not baking) Rold Gold Pretzels. Leo, who is in marketing and promotion, got the Cubbison account in about 1949-50. Then in the early 1950s the maker of those pretzels, American Cone & Pretzel Co. (of St. Louis, Missouri), bought Sophie's company. Sophie refused to sell the company to them unless they took Leo along as the advertising and PR person.

In late 1957 they sold the company to Red Dot Potato Chip Co. (Madison, Wisconsin), which owned 14 potato chip plants. Red Dot was purchased by Herman Lay of Lay's Potato Chip Co. (Atlanta, Georgia), who then, in the late 1950s, merged his company with Fritos to create the famous Frito-Lay. The latter was purchased by Pepsico, which sold it to Interstate Baking Co.–who regarded Mrs. Cubbison's as a stepchild that didn't fit, and sold it.

Sophie died on 23 Nov. 1982 at the age of 92.

Leo is now preparing a speech on Sophie Cubbison to be presented to the California Culinary Historians at the Los Angeles Public Library. Address: Lee & Associates, 145 S. Fairfax Ave., Los Angeles, California 90036. Phone: 323-938-3300.

2552. *Let's Live.* 2003. 70 years, 70 tips for great health from *Let's Live.* Sept. p. 40-45.

• ***Summary:*** This is a special seventieth anniversary issue bears the subtitle: "Take a walk with us down Memory Lane as we celebrate 70 years of *Let's Live* by recalling some of yesteryear's best health advice." The advice is grouped by decade and each tip is numbered. "From the 1930s. 1. For sparkling teeth, finish every meal by eating a piece of food, such as an apple or carrot, that demands chewing. 2. Be more vital. Eat foods that are close to their natural forms because they have more vitality... 4. Strengthen your heart and lungs by walking. 5. Choose freshly squeezed orange juice."

"From the 1940s. 8. Get enough calcium. Growing children require no less than 1 gm of calcium each day. So do pregnant and lactating women, but many forget that all adults need a continuous supply. 9. Don't smoke. Tobacco destroys the lungs... 10. Consider this anti-aging diet. Eliminate white sugar and white flour products, coffee, vinegar, fried foods, ham, bacon and corned beef. Your diet should consist of 50% raw foods with broiled lean meat and whole grain bread... 15. Care for your teeth by avoiding sugar... 16. Keep moving" [muscles need exercise].

2553. Pearlstein, Leo. 2003. Looking for Sophie and Harry Cubbison in Los Angeles city directories (Interview). *SoyaScan Notes.* Oct. 22. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Leo's assistant, Violet Coto, who is an experienced library researcher, recently went to the Los Angeles Public Library to look for Sophie's address in area city directories. She was unable to find any entry before 1921, when Sophie and Harry first appeared at 3417 Pasadena Avenue in Los Angeles. For the first two years the business listing was given as "Baker," but later that changed to "wholesaler." The listing continued up to 1929, when she stopped looking.

So where did Sophie and Harry live from 1916 to 1921? And what was the name of their first business?

Leo thinks Sophie may have lived at 3417 Pasadena Ave. from 1916 on. We know from various ads and articles she was there from 1936 into the 1950s. Address: Lee &

2554. Richmond, Akasha. 2003. Clarke Irvine and *Let's Live* magazine (Interview). *SoyaScan Notes.* Nov. 7. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Gordon Kennedy asked Akasha if she had any copies of *Let's Live* magazine prior to the 1950s. She bought an original issue online from abebooks dated Sept. 1945. It is in excellent shape, and contains ads for Bill Baker's soya bread, for Cubbison's Hollywood Cup and Soyfee Coffee, for El Molino Soya Flour, for Gayelord Hauser's products, and an ad Clarke Irvine inserted in his own publication, announcing the sale of a health food store–which he was brokering it for someone.

Then she did a Google search on *Let's Live;* the magazine is still being published and their office is in Santa Monica. She called and talked to the editor, Beth, who is very interested in the early history of health foods in the Los Angeles (LA) area. More important, they have every issue of the magazine from Day One, bound, in their office. She is going down there on Monday morning. Akasha wants to profile Clarke Irvine in her book; he was the first publisher and he was very involved in the movie industry.

Shurtleff tells Akasha that in Jan. 1933 Irvine started a biweekly newspaper in Hollywood titled *California Health News. A National Journal of Better Living.* On 15 May 1942 he changed the name to *Let's Live.* Akasha says that in Aug. 2003 they celebrated their 70th anniversary; she will see if *Let's Live* has copies of earlier issues of the newspaper.

Then Akasha did a Google search for Clarke Irvine and found a website irvineclan.com, which contains 400 years of his family's genealogy. There was a page about him, which she printed. He was born in 1893 in Salem, Oregon. He later moved to Santa Monica. His first wife, Margaret Robertson who was Australian, left him in about 1946, when he was living in a trailer park. Later in 1946 he married again to Alice Marks who, within the space of 2-3 years presented him with a first daughter, then twin daughters. So his daughters must be in their 50s. Clarke went on to be the publisher of the *Alpine Sun,* "America's tiniest newspaper." They talk about all the movie stars who were his friends. Then he went into business leasing trailers to movie people in Santa Ynez Canyon. He was writing a book about early Hollywood–according to the June 1964 issue of the *Star News and Venice Vanguard,* by staff writer Bill Henderson–who also noted at Irvine's Alpine Sun was still going with the able assistance of reporters Cynthia, Celeste, and Cecilia. Akasha is on the case and hoping to find one of his daughters. They moved to Alpine (directly east of San Diego very near Cleveland National Forest). She has emailed the website requesting more information about the relatives of Clarke Irvine.

She found a man in Burbank, California, who collects old magazines and newspapers. She went to his shop last week, looked around, and gave him a list of what she wants. He has six issues of the *Los Angeles Times* containing Mike Lovell's "Care of the Body" column. She says "I just love this."

The California Culinary Historians in LA (many of whom are now in their '70s), have a newsletter. She will submit a request for information related to her book. Address: Chef, Los Angeles, California.

2555. Richmond, Akasha. 2003. Visit to Franklin Publications and *Let's Live* magazine in Santa Monica, California (Interview). *SoyaScan Notes.* Nov. 11. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Yesterday Akasha drove to Santa Monica and spent 4 wonderful hours at Franklin Publications, the owner of *Let's Live* magazine, doing research for her forthcoming book. She got to know the editor, Beth Salmon, who is very nice, healthy, and committed to healthful living. Franklin Publications has almost every back issue of *California Health News–except the entire year 1938. A National Journal of Better Living* (started in Jan. 1933 by Clark Irvine); it is a magazine a little larger than 8½ by 11 inches and in fragile condition. On 15 May 1942 he changed the name to *Let's Live.* No one has ever contacted Beth to request permission to do research at her office.

Akasha, overwhelmed with this superb, unknown collection of early food history, says: "I started to cry. They don't even understand what treasures they have." Beth has to focus on the next issue; they publish 3 magazines out of that one office. Akasha looked through the years from 1930 to 1936 and found a surprisingly large number of articles about soyfoods and pioneers in California's early soyfoods health food industry–such as La Sierra Industries, Bill Baker, California Food Kitchens, Loma Linda Foods, Paul Bragg, and Otto Carque. "Soy was just everywhere." There were ads for Yogananda's lectures and a lot of spiritual things. She took notes but did not ask to photocopy any articles. She plans to return go through the issues carefully. The *Let's Live* offices in Santa Monica are only a 15-minute drive by freeway from Akasha's home. Address: Chef, Los Angeles, California.

2556. Brown, Reg. 2003. Back to the beginnings: 3. *Record* (*SDA, Victoria, Australia*) 108(47):8-9. Nov. 29.
• ***Summary:*** "This article continues a series on the history of the Adventist Church in the South Pacific." In 1897, Edward Halsey, one of Dr. John Harvey Kellogg's bakers at the Battle Creek Sanitarium, Michigan, arrived in Melbourne, Australia, and began manufacturing Granola, caramel cereal (a coffee substitute), and peanut butter. "The Sanitarium Health Food Company was registered as a business on April 27, 1898." On the advice of Ellen G. White, the health food factory was moved to Cooranbong, NSW, to be near the

© Copyright Soyinfo Center 2021

newly established school at Avondale.

Sanitarium Foods is the soymilk market leader in Australia. Its flagship product, So Good, enjoys almost 50% of the market share, and is also the leading brand in New Zealand, the UK, and Canada. So Good was developed at Sanitarium's laboratory at Cooranbong. "In 2002 Sanitarium purchased a Canadian company, SoyaWorld, which gives it 60 per cent of the Canadian [soymilk] market." Address: Australia.

2557. Reich, Egon. 2003. An unusual life: How to cope with difficulties and come out on top! Costa Mesa, California: Published by the author. 303 p. Illust. No index. 24 cm.
• ***Summary:*** Egon ran a marketing company that represented a baking company named Better Way Foods, located in Los Angeles. The baking company made and sold Granola and bread with Adelle Davis' name on the package (see p. 190-95, 198-99). Adelle Davis has a recipe for a product she referred to as a health cereal. Egon Reich turned it into a commercial product named "Better Way Granola." He says (p. 198): "I even improved the recipe somewhat with a better baking process, and had a 'granola' product far superior to anything yet on the market. It consisted of only about 20% oats, with large amounts of wheat germ, sliced almonds, sesame seeds, non-fat milk, and other high-protein and flavorful ingredients."

Talk with Akasha Richmond of Los Angeles. 2004. Aug. 10. She talked with Egon Reich (age 75-80) yesterday. "He has been married for 50 years and is a super-nice guy." It is a fact that there was a commercial product named Granola with Adelle Davis's name on the package. In 1971, Adelle Davis put her stamp of approval on Better Way Granola; it is not clear when the product was first sold commercially, but it was on the market by 11 Oct. 1972, when it was advertised in the *San Bernardino County Sun* (San Bernardino County, California; page 78). The tagline on each package was "Created from an Adelle Davis recipe." Egon said it was sold in every health food store nationwide. It was never sold in grocery stores. So Adelle Davis really did help popularize granola. The Granola developed by Layton Gentry and sold (first) to Sovex in Tennessee, is different from and earlier than Adelle Davis's granola. All the royalties that Adelle received from these two foods went to start her Adelle Davis foundation. The royalties from her book served as her personal income and did not go into the foundation. See p. 23 of Akasha's book *Hollywood Dish.*

Note 1. Egon was born on 26 Dec. 1923 in Vienna, Austria. He enjoyed a happy childhood and youth until age 14, when the Nazis invaded Austria. His father, who was part owner of Egon's fine men's tailoring shop and of Jewish ancestry, was arrested. Egon was fortunate in being chosen for an art scholarship in England; thus he was not in Austria on 12-13 March 1938 the date of the Annexation (*Anschluss*) of Austria by Hitler nor at the time his father was arrested. During World War II Egon relocated to Canada.

Note 3. This book is crippled by the lack of an Index. Address: Los Angeles, California.

2558. Willis, Richard J.B. 2003. The Kellogg imperative: John Harvey Kellogg's unique contribution to healthful living. Alma Park, Grantham, England: The Stanborough Press Ltd. 110 p. Illust. No index. 21 cm. [90 ref]
• ***Summary:*** Contains a list of books by Dr. John Harvey Kellogg (alphabetically by title), a good bibliography, and 12 pages of black-and-white photos related to Dr. Kellogg. Unfortunately this book has no index.

However Willis makes this profound observation in the caption to a portrait photo: "Dr. John Harvey Kellogg, whose scientific approach to the wonders of life brought a new orthodoxy to health reform, formerly the domain of many outlandish ideas." Address: Health educator.

2559. Biography of Clarke Irvine (Website printout–part). 2004. www.irvineclan.com/ClarkeIrvine Retrieved Feb. 2.
• ***Summary:*** The Irvine clan traces its roots to Scotland and this website contains an excellent, lengthy and detailed descendancy chart which shows: James Clarke Irvine (1830-1907) married Ann Keturah Johnson (1837-1918). They had three children, all sons: Leigh Hadley Irvine (1860-1942), Louis Clarke Irvine (1862-1947), and Clare Bartlett Irvine (1865-1928). Their third child, Clare, was the father of our Clarke Irvine and Myra C. Irvine.

Clarke Irvine was the first child of Clare (also spelled Claire) Bartlett Irvine and Edesse Plamondon. Clare was born on 24 Sept. 1865 in Oregon, Missouri. Clare's father, James Clarke Irvine, was a writer. Clare arrived in Salem, Oregon in the late 1880s as a reporter. He later became owner and publisher of the daily paper in Salem, the capitol of Oregon. On 8 Sept. 1891 he married Edesse Plamondon, of French descent and a long-time resident of Salem. In about 1903-04 the family, including 2 children (Clarke and Myra C. Irvine), moved to Santa Monica, California. Clare continued his newspaper work; for years he was correspondent for the *Los Angeles Times* for the entire Bay district. While still with *Times* he founded the *Venice Vanguard* as a weekly newspaper. By 1916 he was editor of the *Evening Outlook* and later the *Ocean Park Journal.* He won national fame for promotional activities in bringing the national auto races to California, including the Vanderbilt Cup Races. In about 1918 Clare sold his Santa Monica property and moved to Culver City. He continued his work with the *Los Angeles Times* and also edited the *Palms Press*, a weekly. In about 1923 he went to Lakersheim (North Hollywood), representing Los Angeles newspapers, and made a study of the history of the San Fernando valley. For the 2 years before his death, he was writing a history (based on 40 articles he had completed) of the valley, which he hoped would dispel the many myths surrounding its

© Copyright Soyinfo Center 2021

spectacular transformation from wheat fields to a bright spot of the Los Angeles area. He had planned to self-publish the book as a gift to posterity. Clare died on 28 Dec. 1928 in Culver City, California–where he had resided for 25 years. Age 62, he died of pneumonia at his home, 7017 Watseka Ave., Culver City, California. At the time of his death, he was on the staff of the *Los Angeles Examiner.* His remains were interred in the Santa Monica Cemetery, Rev. W.C. Kernan officiating.

The daughter, Myra C. Irvine (born 1895) married 1st Henry Andrews Guardia [not LaGuardia]; They had one child, Albert Henry Guardia. She later lived with her parents in Culver City, then married a 2nd time to William Edgar Kirdendall (born 1904).

The eldest child of Clare and Edesse was Clarke Irvine–the main subject of our interest. Born in 1893 in Salem, Oregon, he was a lad of age 10-11 when the family moved to Santa Monica, California. He graduated from high school but apparently never attended college. Following in the footsteps of his grandfather, father, and uncle, he was attracted to the newspaper business while still in his teens.

In July 1927, while on a trip to the New Zealand and the South Seas, he met and married Anna Margaret Robinson in Auckland, New Zealand. She was born on 24 Aug. 1890 in Australia, the daughter of George Robinson (born in New South Wales, Australia) and Margaret Taylor (born in Queensland, Australia). In Jan. 1933 Clarke founded and started publishing the *California Health News. A National Journal of Better Living.* It was the first important periodical covering the young, but rapidly growing, health foods movement in and around Los Angeles, California. It was published biweekly from Hollywood. On 17 Sept. 1937, the title was shortened to *Health News.* In May 1942 Irvine changed the title again to *Let's Live*, which, as of Feb. 2004 is still a thriving magazine.

Clark and Anna had no children, and were divorced in 1946; at the time he was living in a trailer park, publishing a health food newspaper renting trailers to motion picture companies.

In June 1964, the *Star News and Venice Vanguard* (which Clarke's father had founded) published a story (which see) by staff writer Bill Henderson.

Later that year Clarke married Alice Marks, and soon they had three children: Cynthia Irvine (born 1948; she later married William James McTaggert and they had two children, Julie in 1967 and Scotty in 1969), and twins, Cecile Irvine and Celeste Irvine, both born in 1950. Alice Marks reports (Feb. 2002, personal communication with Akasha Richmond) that Clarke Irvine, her husband, died in 1975.

Clarke, Alice, and their 3 children moved to Alpine, California, in about 1952, and that year they started a new newspaper, the *Alpine Sun*, which Clarke billed as "The World's Smallest Newspaper." His wife and daughters formed the backbone of the staff. This newspaper is still being published, and in 2002 celebrated its 50th anniversary.

Clarke's first wife, Ann Robinson, married a second time to Harley Dale Prosser in about 1961 in Winterhaven, California. Harley died on 25 June 1977 at age 84. Anna died on 29 May 1983 in San Diego, California, at age 84, in the San Diego Convalescent Hospital. Anna and Harley were buried at Alpine Cemetery in Alpine, California.

2560. History: Modern Products was founded by Gayelord Hauser in 1925 (Website printout–part). 2004. www.modernfearn.com/Gayelord_Hauser_History/ Retrieved Feb. 4.

• ***Summary:*** Modern Products was founded by Dr. [sic] Gayelord Hauser in 1925. He wrote a syndicated column for Hearst Newspapers. Hauser products include: All-natural seasoning blends (Spike, Spike Salt-Free, Vegit, Vege-Sal, Santay), All-natural broths (instant). Sipp natural coffee substitute. Food supplements (100% Natural brewers yeast, Garlic plus tabs). Swiss Kriss herbal laxative. Spice Garden herbs and spices. Address: Mequon, Minnesota.

2561. Richmond, Akasha. 2004. Recollections of growing up and autobiography (Interview). *SoyaScan Notes.* Feb. 5. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Akasha was born in Miami, Florida. Her father, Merle Litman, was an attorney and an expert poker player. At age 10 she moved with her family to Hollywood, Florida (near the ocean, about 35 miles north of Miami), where she grew up. Starting at age 10, Akasha was deeply interested painting and drawing. Her mother, Judy, sent her to study with an excellent artist, where she started using charcoal to draw balls, then more complex shapes. Art was her passion when she was young. That's all she wanted to do from morning until night. And she loved to give her paintings and drawings away.

She was also deeply interested in cooking; she also began cooking at age 10, using the *Betty Crocker Boys and Girls Cook Book*, after her father gave her a little oven. She then moved on to her mom's copy of *The Joy of Cooking.* She came from a family of really good cooks. So when her mother discovered Adelle Davis, Tiger's Milk bars and brewer's yeast, they thought she had gone nuts. By the early 1970s her mom was making her own sprouts and serving them in "whisker and peanut butter sandwiches."

By 19 she became immersed in the surf culture of South Florida–greatly influenced by the Beach Boys of California. At age 19 she was into surfing, which introduced her to a new way of eating. She started patronizing local health food restaurants like Here Comes the Sun and the Health Hut. She read *The Miracle of Fasting*, by Paul Bragg and started juice fasting on tropical fruit juices. Her first job, at age 16, was at a health food store that sold more vitamins than food. Since she loved to cook, she started creating her own healthful dishes.

© Copyright Soyinfo Center 2021

But she sometimes felt unhappy and depressed in Florida / Miami. Suddenly an opportunity arose for her to go to the island of Kauai, in the Hawaiian islands, to live in a hippie commune, run by two young men whose parents were friends of her parents, and who were disciples of Sai Baba. It was her first contact with Asian spiritual traditions. She started chanting.

In 1976, after receiving a letter from a friend, she left for California for three reasons–including surfing, health foods. She started living in Encinitas–home of Yogananda's Self Realization Fellowship (SRF), great beaches, and many yoga teachers. It was a melting pot of Asian spirituality.

She went to college at San Diego State University. Her father died on Thanksgiving of 1977. She was in school because her parents wanted her to be there. Now she got disillusioned with school and asked herself "What am I doing here?" While still in college she started studying yoga. She met an ex-Sikh named Sahesh, who started dating her sister and needed a place to live. Akasha and friends had a large house (paid for by their parents), so in exchange for living with them, he said he would teach them yoga every day. "He was a real yogi and a real meditater. He got me up every morning and we did an hour of yoga, then an hour of meditation. It changed my whole life." Later Sahesh developed a heroin problem and a few years ago he killed himself. He was one of those people who lived on a fine line, going from drugs to meditation. He just couldn't stay on the path.

Sahesh used to be married to Akasha's friend, Gurmukh, who was also a Sikh and a student of Yogi Bhajan. Sahesh brought Akasha to Los Angeles (from San Diego) to meet Gurmukh and to take a yoga course from Yogi Bhajan–who was teaching in Los Angeles.

"Yogi Bhajan came to Los Angeles in 1969, bringing the teachings of Kundalini Yoga and his own unique style of Indian and Ayurvedic cooking. In 1974 his students opened Golden Temple Conscious Cookery in Los Angeles." From 1979 to 1984 Akasha was a cook there.

When Akasha left the Golden Temple, she started working as a private chef, and her first clients included Barbara Streisand, Alana Stewart, and Carrie Fisher (HD, p. 179). Eventually she had so many requests that she started a vegetarian meal delivery service, sending meals each week to Michael J. Fox, Dana Delany, Judith Light, and mega producer, writer, and director James Cameron. Akasha continues to feel the influence of Yogi Bhajan. She still takes cold showers, still eats a largely vegetarian diet, still uses ginger tea, onions, and garlic for good health. But she ate a healthier diet before she met Yogi Bhajan; he drank Coca-Cola and served Haagen-Dazs ice cream in the ashram.

Later Akasha left Yogi Bhajan because of things she couldn't deal with on an integrity level, but "of all the people I've ever known, and all the celebrities and all the charismatic people, I've never known anyone like Yogi Bhajan. No one could command a room like he could. He was pretty amazing and pretty intuitive. He was unbelievable." He is still alive but he is in a wheel chair, he rarely leaves his room, he has heart failure, he had a kidney transplant last year, he hasn't walked in a year. He talks in a whisper. Address: Chef, Los Angeles, California.

2562. Irvine, Alice Marks. 2004. Recollections of Clarke Irvine. Part I (Interview). *SoyaScan Notes.* Feb. 17-24. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Alice was born in 1918 in Memphis, Tennessee. Her mother's parents lived in Hermosa Beach, California. So in about 1919 Alice's mother got on a train with her three daughters (Alice was the youngest) and moved to Hermosa Beach. Her father followed as soon as he could sell the house and business. They lived on the seashore near Los Angeles, just north of Redondo Beach and Palos Verdes, between Santa Monica and Long Beach. First they bought a house on 4th Street in Hermosa Beach; they lived there until about 1926. Then they moved to Redondo Beach for a while. Her mother eventually had 8 kids, so they needed more land. They finally moved to Manhattan Beach [near Los Angeles] into a home on two acres; there the family stayed until the kids all grew up and left home. Alice graduated from Redondo Union High, then went to Los Angeles City College for 2 years–during which time she lived with her great aunt (her mother's aunt) Lucy Ellen Marks, who lived on Price Street, in Hollywood, just down the road from the college. Lucy never married, and was a well-known California artist.

In about 1941, while still attending college, Alice applied for a job by putting an ad in the paper: "Experienced Dictaphone operator. Wants job." A Dictaphone, a forerunner of the tape recorder, recorded things on a wax cylinder. Clarke Irvine, the founder and publisher of *Health News*, hired her as his secretary; he was age 49 and she was 23. He had an office on the corner of Vermont Ave. and Hollywood Blvd. Address: 4657 Hollywood Boulevard, Hollywood 27, Los Angeles. Clarke also employed an editor (Tom Gaines), a bookkeeper (Bernice Benoit), and a copy boy. Using a typewriter, Alice transcribed the letters that Clarke dictated into his Dictaphone. Pretty soon he asked her to answer letters, then let him sign them. She gradually took over more and more responsibility in all areas of the newspaper. Alice worked for Clarke during the day, but continued her college education by taking classes at night. Alice knew nothing about health foods; she had been raised on soda pop and potato chips. She recalls that Clarke would buy carrot juice and bring it to the office. "The garbage kids eat today is a damn crime."

Clarke wrote a little yellow booklet titled *Health! With Remedies and Recipes,* which sold well over the years and went through many editions. For years, he also sold books out of one room of his offices–but it was not a walk-in retail bookstore. Clarke bought books at wholesale and sold them

© Copyright Soyinfo Center 2021

via ads in his newspaper or magazine. "We sent out books every day." He also had a personal library at home. He never owned a health food store that sold foods.

In May 1942 Clarke changed the name of *Health News* to *Let's Live* and changed the format to that of a magazine. In 1946 they moved the office down on Hollywood Blvd. because the magazine was doing well and they needed more space.

Alice and Clarke were married on 14 Dec. 1946 in Las Vegas, Nevada. Back in Hollywood, they lived in Clarke's trailer on piece of property (just over 1 acre) very near the office, just up from Hollywood Blvd. Clarke had numerous trailers on his property; he rented them as dressing rooms for movie stars. They also owned 2 choice acres in Woodland Hills–west of Beverly Hills.

This was Alice's first (and only) marriage and Clarke's second; his first wife, Margaret, had been born in Australia. After she and Clarke separated, she continued to live in Alpine, California, then near El Cajon (and west of Alpine), in a little town near Harbison Canyon. She remarried to Harley Prosser.

Let's Live and Clarke's sales of books and his booklet did fairly well financially. The magazine had lots of advertisers and many subscribers "It provided us with a living." Alice continued to work for Clarke and *Let's Live* until she got pregnant with their first child in early 1948. Cynthia, a daughter, was born on 9 Oct. 1948 in Hollywood. From their office on Hollywood and Vermont overlooking the valley, they could see the horrible smog rising from the multitude of cars. One day Clarke said, "I don't want to raise children in this area." The pollution was bad even in the early 1950s. So in 1949 they went looking for a new place to live.

Clarke had spent time in Alpine (in the mountains, 30 miles east of San Diego) when he was younger and he said it was supposed to have the best climate and clean air in the United States. In fact, in the early 1930s he and his first wife, Margaret, had purchased land and a little house on South Grade Road; they went there occasionally for weekend retreats to escape the stresses of Hollywood life. Later they sold this property, probably at about the time of their divorce. Later Margaret came back from Australia with some money and bought an attractive acre of land with a little house and garage on it at 2229 Tavern Road, 1½ miles from the center of Alpine (a town of about 22,000 population); in Alpine, Margaret was still living on her property on Tavern Road; she was still an Australian citizen and wanted to return to Australia. So Clarke and Alice bought her out.

Returning to Hollywood, they published their last issue of *Let's Live* in Feb. 1949 (it was much smaller than usual), sold the magazine to Godfrey Thomas (whom Clarke had known for quite a while and who renamed it *Godfrey's Let's Live* with the March 1949 issue), sold their 2 acres in Woodland Hills (East of Beverly Hills–Alice notes it would be worth a fortune today), took the money from both sales and invested part of it in the property they had purchased in Alpine. They now made 2229 Tavern Road in Alpine their new permanent home, taking their trailer with them, and converting the office behind the house into a darkroom.

Soon they purchased a second piece of property at 2255 Tavern Road for their office–4 acres, several lots south of their home. They then bought a 3-room real-estate office in El Cajon, hired a mover, had it jacked up on blocks, and moved by trucks onto the new 4-acre lot. It was out of this office that they began publishing the *Alpine Sun* in Feb. 1952.

Alice disliked living in Alpine; she was young, loved Hollywood and being near her family and friends in Redondo Beach. Alpine was out in the boondocks, with nothing happening, 2 hours from Redondo Beach. The good air and climate were not important to her. But they did build a corral with a tack room on their home property at 2229. Alice and her kids owned horses, which they rode together every Saturday until the girls got married. Alice enjoyed this greatly. Later they put in a swimming pool by their home.

Later, Clarke's sister, Myra, and her husband bought 2-3 acres nearby, but they didn't like it, so Alice and Clarke bought it from them. By 1952 they created Alpine Trailer Estates, a 12-unit a trailer park on the 4-acre lot, and rented both lots and trailers as a side business. That trailer park is still active today–but the Irvines never lived there. They also moved 3 Quonset huts onto their land for storage space. "We fill 'em full of all kinds stuff, such as all of his books, my stuff, his plumbing equipment needed to constantly dig up septic tanks in our trailer park, etc."

On 1 Nov. 1950 Alice and Clarke had twin girls, Celeste and Cecile, born in Hollywood, in the same hospital with the same doctor. Before and after the birth, she stayed for a while with her great aunt Lucy.

On 14 Feb. 1952 Clarke and Alice started *The Alpine Sun*, a small newspaper that was profitable from day one; it soon grew and prospered. By now, Clarke and Alice were skilled at editing and publishing a newspaper–and there was no other newspaper in that entire area. By 1964 the Alpine Sun was still being published from 2255 Alpine Road (Box 189). Clarke and Alice owned 18 acres of land in Alpine. Continued. Address: 1844 Layla Dr., Medford, Oregon 97501. Phone: 541-774-3999.

2563. Irvine, Alice Marks. 2004. Recollections of Clarke Irvine. Part II (Interview). *SoyaScan Notes*. Feb. 17-24. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Continued: In Dec. 1969 Clarke had a severe stroke, which left him flat on his back for the rest of his life. Alice rushed him to the San Diego Naval Hospital, where he stayed for a month. She installed a self-raising hospital bed in their home, brought Clarke home, and cared for him there for most of the rest of his life. He never walked

© Copyright Soyinfo Center 2021

or talked again, but his brain was clear and he could see and understand well. Alice was overwhelmed trying to do everything by herself. She had to publish the newspaper, manage the trailer park, and care for Clarke and for their kids in college. So she sold one acre of their land with a house on it to get some income. About 2 years after Clarke's stroke, in 1971-72, Alice sold the *Alpine Sun* newspaper to Fred Teckemeyer and his wife, then went to Europe for 3 months for a rest while Celeste cared for Clarke, the trailer park, and the animals. In early 1975 Clarke contracted pneumonia. Alice took him to the veterans' hospital in San Diego. Alice's eldest daughter, Cynthia, who had been divorced, came from Oregon with her two little children to visit Clarke. He died at a nearby rest home in March 1975. After the funeral, Cynthia decided to stay in Alpine. She and her little children (and horses) moved in with Alice. It was too much for Alice, so later in 1975 she left Alpine and moved to El Cajon, where she lived in an apartment for the next 2 years. While there, she found a nice piece of property and had a house built on it–with four rental apartments on the back to bring in income. Over the years she sold her property (18 acre) in Alpine for $100,000. She lived in El Cajon for a total of 20 years. There she enjoyed making porcelain dolls for 4-5 years. She bought land in Medford, Oregon, where Cynthia now lived, and had a custom house built. In April 1999 she moved to Medford to be with her daughter and to get away from El Cajon's terrible traffic jams. She has lived there to this day.

What kind of a man was Clarke Irvine? Alice recalls him as gregarious. "I was happily married to him for 25 years and we never had an argument or a fight. We just dovetailed together–even though I was 30 years younger. Being younger didn't bother me." He was very pleasant and an easy person to get along with. He made friends easily and knew how to speak to people. He was also an excellent public speaker; it was his forté. He was also a good promoter; he promoted Charlie Chaplin and he got Fatty Arbuckle his first job in motion pictures. He was closest to Myrna Loy (she lived just down the street; Clarke put the first grease paint–make-up–on her face), Paul Bragg (one of his best friends for years–until Bragg invited them over for dinner and sent them a bill–that ruined their friendship), Mack Sennet, Justin Dickinson (one of the founders of the Wilshire Boulevard Strip), Sonya Cook (who was in the health business), and Howard Stripling (in the movie business–they were buddies). He played tennis with Charlie Chaplin at Hearst Castle.

"Clarke always had too many irons in the fire. He was always busy. If he didn't have something to do, he'd make it. He'd race all over town in his open-top Jeep getting pictures and stories, talking to people. He never relaxed. He somehow managed to stay just one step ahead of things that had to be done. He'd wait until the last minute to do his income taxes each year, then stay up all night to get 'em done."

After Alice met Clarke, he wrote a book titled "Early Days in Hollywood," but he could never find a publisher. One of his daughters still has the manuscript.

Clarke had a tremendous personality and was quite charismatic. He was a very decent man, very honest and upright. He had principles, and he stood for them. He spoke out on the issues that were important to him, and "he stood up for the little guy, the one he thought was right"–against money and power. He hated to see anybody brow-beaten. Physically, he was tall (5 feet 10 inches) and slender–not extra fat on him–ever. His mother was also slender. She was French, came from Quebec, Canada, and spoke French fluently. His dad came from Missouri, and the family settled in Salem, Oregon.

Clarke liked physical activity and the out-of-doors. He and Alice played tennis for a long time, and they hiked together for years. He was an excellent swimmer, and such a wonderful dancer that (before Alice met him) he won trophies. He was always very fit.

Also before Alice met him, he dearly loved and was engaged to marry Myrtle Gonzales–the actress–but her family was Catholic and they wouldn't allow it; that was before the marriage to his first wife, just after he got out of the navy. He also went out with Irene Rich–a movie star–and may have asked her to marry him. "Clarke could have been a movie director, and he should have been."

As long as Alice knew Clarke, he was not a vegetarian. Paul Bragg was a vegetarian for years. He blamed his son's small size on the lack of protein in his diet. Alice had never been much of a meat-eater, and her mother never ate meat. But Alice told Clarke that she didn't want to raise their children as vegetarians. So they didn't. They ate about the same amount of meat as others living in their area at the time. He loved to eat fruit–he could have been a fruitarian. They had a peach orchard around the corner from where they lived in Hollywood. He liked whole grains and vegetables, but he was a very light eater.

Clarke had smoked cigarettes before Alice met him–probably during his movie days. He probably gave it up in the early 1930s when he started publishing *California Health News.* He strongly disliked being around smokers during the years Alice was with him. Alice notes: "I have never smoked and I can't stand it."

Clarke rarely drank alcohol after he and Alice were married–"except in Hollywood when we went out dancing together with Paul Bragg and his little girlfriend; then we'd have champagne. After we moved to Alpine he never touched alcohol for 5 years." Then his ex-wife Margaret came back from Australia, moved into a trailer on the Irvine's property, and began to criticize. It was "hell" for Alice; Clarke put up with her but one day he went out and got drunk. After that he occasionally had "a glass of beer with the guys or an occasional glass of wine." Eventually Margaret met an old friend, Harley Prosser, she had known when they lived in Alpine before, and she married him. They left Alpine and moved to a little town near El Cajon. Alice

© Copyright Soyinfo Center 2021

and Clarke were delighted. She lived there until Harley died.

Clarke liked animals. He and Alice had a fox terrier, several goats, and the horses.

Clarke was not religious. Alice was raised (and still is) a Christian Scientist, and he didn't mind Alice taking their children to Christian Science Sunday school. Her religion does away with the belief that medicine is the only way to heal.

Clarke loved to travel. After they had a family they would get away for a weekend to San Francisco, or up the California coast, or (their favorite) Desert Hot Springs near Palm Springs. Eventually though bought 2 acres near those hot springs.

Concerning their children: Cynthia lives in Medford, Oregon and works for Sprint (the phone / communications company); her husband is a building inspector. Celeste (one twin) lives in Del Mar, California, and is a computer professional / teacher. Cecile lives near Thousand Oaks, California, and works for Royce Medical, where she is one of their top salespersons. She just did a commercial for someone. This coming weekend Alice and her 3 daughters will all get together at Palm Springs.

Clarke was in the movie industry during its early years; he was director of publicity at MGM for 13 years. He liked to say that "all he saw was corruption, greed, and dope." He could not take it any longer, so he quit, and became a roving reporter, traveling all over the world, for the United Press–the famous wire service, like the Associated Press. He submitted stories / dispatches to them. In 1928 he was on the field when Sir Charles Kingsford-Smith completed the first trans-Pacific flight from Oakland, California, to Brisbane, Australia. His report was the first to hit the wires. Throughout his life, he spelled his first name as "Clarke," never "Clark." He had no middle name. Address: 1844 Layla Dr., Medford, Oregon 97501. Phone: 541-774-3999.

2564. Irvine, Alice Marks. 2004. Recollections of Paul Bragg and Clarke Irvine (Interview). *SoyaScan Notes.* Feb. 23. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Clarke Irvine knew Paul Bragg for years. Paul was one of Clarke's best friends. Paul had 3 children (two girls and a boy) by his first wife; they were later divorced. For years, Alice and Clarke went out with Paul Bragg and his girlfriend Ruthie Cook for dancing, dinner, and a little champagne. Paul met Ruthie in Pittsburg and she was a tiny cute little girl who was age 17; "he couldn't touch her until she was 18. He never married Ruthie. In fact, he never married anyone after his first marriage–why should he? He only liked 'em young and fresh."

Paul's son was named Bobby. He married a lady named Patricia. Then Paul Bragg, Bobby's father, started a romance with Patricia and "took her away. It was outrageous." Bobby took his father to court over the matter. Clarke and Alice attended the trial–in about 1946-1947, before they moved to Alpine in 1949. Paul ended up giving his son a large amount of money to let go of his wife. Bobby relented and called the court case off. Paul ended up with a new girlfriend. "Paul and Patricia walked down the aisle of the courtroom with big smiles on their faces and out they went. Paul won. Paul never married Patricia and he always called her his daughter–which is not true." Patricia is still alive and sells products with Paul Bragg's name on them–such as Bragg's aminos.

Paul Bragg pretended to be a vegetarian. When he lectured, he would take a dead chicken and throw it up in the air as part of his anti-meat lecture–then he and the Irvines would go out and have a chicken dinner together.

Clarke and Paul were friends until Paul invited Clarke and Alice over for dinner and sent them a bill; that ruined their friendship–permanently. In short–Paul Bragg "was a naughty boy." Address: 1844 Layla Dr., Medford, Oregon 97501. Phone: 541-774-3999.

2565. Murray, Frank. 2004. Recollections of Gayelord Hauser, Adelle Davis, and Paul Bragg (Interview). *SoyaScan Notes.* March 3. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Frank knew Gayelord Hauser very well, had dinner with him often at trade shows, and spoke to him often. "He was a fantastic person and a real gentleman, with great charisma, dignity, and sophistication–just a wonderful person to be with, and someone I admired." He was "nutritionist to the stars, a man who enjoyed celebrity status and was always impeccably dressed, with a superb wardrobe." He spoke with a very slight German accent; he was born and spent his early years in Germany. "I always regretted that he never introduced me to Greta Garbo." Hauser was a bachelor his whole life. In the book *More Than One Slingshot*, of which Frank was a co-author, in the rear, on the 5th (unnumbered) page of photos, at the lower right, is a photo of Frey Brown, Mrs. Jack T. Schwartz and Gayelord Hauser. The man on the left, Frey Brown, with grey hair, was "Hauser's companion. They traveled together. Frey died in a boating accident many years ago, probably before 1984" [actually in Oct. 1972; see obituary].

It is not well known that Hauser adopted a son, Tony Palermo, who is now CEO of Modern Products in Milwaukee, Wisconsin. As a boy, Tony was in an orphanage in Sicily; Hauser contributed funds and supplied clothes to the orphanage, before adopting Tony. Frank would guess that Tony was about 9 when he became Hauser's son and went to live with him in Southern California; Hauser always treated him just like his own son, and left most of assets (including his ownership in Modern Products) to Tony in his will.

Tony was Hauser's advance man. Hauser gave lectures all over the USA and the world. Tony would arrive a week before and arrange for the event, do publicity, arrange for radio, TV, and press interviews, see that there were lots of flowers on the stage, etc.

© Copyright Soyinfo Center 2021

Hauser spoke a lot but he was not a very good lecturer. He spoke extemporaneously–rather than from notes–and he rarely relied on or quoted scientific studies. Hauser was a self-educated man. It was hard to report on one of his lectures, because he spoke on so many disconnected subjects in quick succession, including many dropping of names–such as "the Duchess of Windsor said this or that." He also promoted his "five wonder foods" quite heavily, but at the same time he seemed to have a sincere interest in educating people about good health and nutrition.

Frank knew Paul Bragg only peripherally. Her never met or talked with him. Like Hauser, Bragg traveled and lectured a lot. Frank recalls that Bragg drowned in Hawaii (or Florida) while swimming.

Adelle Davis was a very important and "earthy" person. She frequently used "four letter words" and was known to appear naked when answering her front doorbell. She had a swimming pool in the front room of her home near Los Angeles. She was a trained nutritionist, with solid scientific credentials and a master's degree; that made her very different from Hauser or Bragg. She read scientific journals and put their findings into a form that typical people could understand. Adelle was a very nice person, not at all arrogant–but she was a chain smoker, and she eventually died of leukemia–which she blamed on the x-rays rather than the cigarettes. In her later years, she was a bit overweight. She developed Tiger's Milk, and Plus Products eventually bought the name and formula from her.

Other people that Frank admires: Linus Pauling, who was an expert in 4-6 fields. Irwin Stone introduced Pauling to vitamin C and explained to him how humans, unlike most other animals, do not make vitamin C in their bodies. Roger Williams at the University of Texas at Austin; it has the best library and museum on the health food industry. The Shute Brothers, Wilfrid and Evan, both M.D.s, of London, Ontario, Canada, who were instrumental in doing research on and disseminating knowledge about the importance of vitamin E. They founded and operated the Shute Clinic in London, Ontario, in the 1960s and 1970s.

Frank entered the health food industry in the 1960s and did not know Clarke Irvine. Address: New York. Phone: 212-924-0063.

2566. Richmond, Akasha. 2004. Impressions of the Natural Products Expo at Anaheim (Interview). *SoyaScan Notes.* March 8. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Akasha just returned from the Expo where she catered a dinner for 900 guests, catered a smaller party for White Wave, and sat on two panels. Exhausted, she is taking the day off. The show had a record attendance of 34,000 people registered. At the Modern-Fearn (Minnesota) booth, she met Gayelord G. ("Gigi") Palermo, who lives in West Palm Beach, Florida, and thus must be quite wealthy. He is about the same age as Akasha. His father is Anthony "Tony" Palermo of Modern-Fearn and (Gigi said) the adopted son of Gayelord Hauser. Gigi told her a remarkable story she had never heard before about how Gayelord Hauser's career started. Hauser went to a dinner at the Hearst Castle in California. There he met a woman who had been blind for about 20 years. She took a walk with Hauser and told him that she had watched her infant son drown, and had been blind since that moment. After the walk (apparently because of something Hauser told her), her eyesight returned. Because of that, Hearst gave Hauser a column on health and put it in every newspaper he owned. That put Hauser on the map–and changed his whole life. Gigi has a rich archive of Hauser documents, photos, and memorabilia. He owns the rights to it all. Gigi gave Akasha his phone number; he doesn't do e-mail. However, in *Diet Digest* in 1951, in a letter to his readers, Hauser announces that he is getting a column in the Hearst newspapers. Akasha has never seen a Hauser column in a Hearst Newspaper–such as the *Herald Examiner.*

At the show she met Patricia Bragg at her booth; she is tiny but looks very healthy, with fine skin. She, too, is quite wealthy. In 1959 she and Paul Bragg had a black-and-white TV show titled "Health and Happiness Show" in Hollywood. Clips from it are on the huge Bragg website. Gypsy Boots (age 93) was at her booth and Gigi got a fine photo of all of them. Note: Gypsy died on 8 Aug. 2004. Also at her booth was the founder of the Good Earth chain of restaurants named William Galt (see www.goodearth.com). He founded them in the mid-1970s, and one was in Berkeley. Eventually [in Nov. 1980] the chain was purchased by General Mills. William, now in his mid-70s, lives in Cabo, Mexico and looks very healthy; his skin is clear and he has a full head of hair–a tall, good looking man. He told Akasha the story of how Colonel Sanders got him (William) into natural foods. He first worked for Lowrey's, the big beef restaurant chain, then he went to work for Kentucky Fried Chicken. There he learned how to run a restaurant. He told the story of how Colonel Sanders got him into eating healthy food. After Col. Sanders sold his chain of restaurants, William walked in to have a meeting with the Colonel and brought a bucket of the chicken. Col. Sanders looked at him and said, "Son–Don't eat that shit. It'll kill ya!" Col. Sanders traveled with Shaklee Vitamins and he was a complete health fanatic. William Gaet and his daughter are now developing a prototype of a chain of healthy, fast-food, drive-through restaurants in America–like Burger King.

At the show White Wave introduced and demoed a liquid drinkable yogurt named Alive Sweet. She also met a famous African-American named Isaac Hayes, who starred in the movie *Shaft.* He has been into natural foods since the 1970s and is now working to introduce them to other African Americans.

She sat next to Barry Sears, PhD, on one panel;

© Copyright Soyinfo Center 2021

afterwards he predicted to her: "I'll give this low-carb thing a year."

Akasha is an admirer of Dr. Andrew Weil.

Efrem Zimbalist II, the son of the famous violinist, has just purchased *Vegetarian Times* magazine–for which Akasha writes a column. She went to a focus group to which he invited her, but found that most readers want more vegetarian recipes. Address: Chef, Los Angeles, California.

2567. Todd, Terry. 2004. Update on the Todd & McLean Collection at the University of Texas at Austin (Interview). *VegeScan Notes.* March 9. Conducted by William Shurtleff of Soyfoods Center. [5 ref]

• ***Summary:*** The University of Texas at Austin (UT) is home of the Todd & McLean Collection, has one of the largest collections of periodicals, books, papers, and memorabilia on the physical culture, fitness and exercise, and health foods movements and industries in America. Terry and his wife have put together a very substantial part of the collection. They are in the process of gifting it to the University and acquiring a permanent home for it, so it can function as a research facility which has a rare books and periodicals component. Also an area where more modern things, which are replaceable can be looked at by people interested in the field of fitness and exercise. It has only a small collection on competitive sports; they are interested in exercise to improve competitive sports, but not the sports themselves. The best library in the USA, probably the world on Olympic sports is in Los Angeles. It is funded by the Los Angeles Athletic Foundation, whose endowment of about $125 million was left over after the 1984 Olympic Games run by Peter Uberhoff. They have a staff of 7-8 in Los Angeles–and "all the bells and whistles." Contact Wayne Wilson, director.

The Todd & McLean collection is primarily concerned with purposeful exercise, like weight training. Terry started collecting 50 years ago, when he was starting as a tennis player. Then he began to lift weights, which was considered taboo for tennis players at the time. Then he became a competitive weight lifter and eventually the national champion. So he had a deep interest in areas that were considered "marginal and harmful" and looked down on by "everyone who was influential and had power"–including traditional medicine and traditional thinking in exercise physiology and physical medicine. "Today, not only is weight lifting not taboo, it is required." Eventually he got interested in the broader fields of body building; he did Olympic weight lifting and "power lifting." That was his original focus. Then he and Jan married and she became the top woman lifter of her era and was the pioneer for women lifting weights in America. She got a huge amount of publicity. Both Terry and Jan (much later) earned PhDs in American Studies. Her dissertation was on the purpose of exercise for women. They have both been at UT for about 22 years; Terry grew up in the area and did he undergraduate work at UT. The university has often had a lot of money because of oil. During some of those fat times, they have invested in rare books. They have always had a kind view of special collections. Knowing that, Terry thought UT would be an ideal spot for his collection to reside. Historically, many of the great collections have been lost, split up, or thrown away when the person who owned them died. Sometimes the families of collectors are resentful of the time and money that the collector spent, so they throw it out! Terry was determined that this wouldn't happen to his; he felt an obligation to protect it and find a home for it. They continued as a mom and pop collection; UT was good up to a point, in that they provided space for the collection, which is not easy. The library continued to grow and grow. They were very close friends with Vic Boff, who died not long ago.

As Terry's interests began to expand, he collected older books about general exercise, diet, rest, mental tranquility, etc. He realized that the older books were much more general. Soon they were collecting in the fields of naturopathic medicine, alternative medicine, winter bathing, all kinds of views on food. Vic Boff was very well connected in this area, with Benedict Lust, Nature's Path, etc. Once they had an established home, with Vic's entree, they began to acquire the collections of other people such as Jesse Mercer Gehman, Christian Gian-Cursio (a naturopathic doctor, lecturer, and avid book collector), and Herbert Shelton.

The key to survival at a University is an endowment. The university manages the endowment and tries to make it grow. Their first, obtained some 20 years ago, started at $200,000 and has grown to over $600,000. Their more recent one, which is coming in slowly, will probably be is even larger. Their spendable income from the two is about $50,000/year, with which they hope to hire an archivist and a librarian. Terry (age 66) and Jan (age 52), who have no children and have invested a great deal of their own funds in the collection, now fulfill those functions (free of charge) on a person by person basis. Now 3-4 of Jan's graduate students are doing their PhD research at UT using the collection. One is about "Mail Order Muscle." The book *Crusaders for Fitness* by James Whorton (1982) was researched using their collection. Jack Berryman has done a lot of research in the general area of early exercise as well as physical culture, that laps over into diet. Berryman and Whorton are colleagues at the University of Washington [Seattle]; they are historians who work in the medical school. They have been having meetings with architects about home for their collections. The library is presently on the 1st floor of a gym at UT, and they have run out of available space.

How to access the collection: Some of the material is fairly well indexed, some on cards, and some has been transferred to computers. All of Shelton's books are listed on paper. He realizes the importance of computerizing and annotating the collection. Terry and Jan work personally

© Copyright Soyinfo Center 2021

with potential researchers. All is by appointment only, with no regular hours. They publish a small journal and a grad student (who is in the final stages of her dissertation) helps them on that.

Prof. McLean was Terry's mentor in the field of exercise and physical culture at UT–long dead; he was very happy they Terry and Jan returned to UT. He helped Terry in his early collecting days and he had a very good collection himself. Kenneth Cooper in Dallas has had a wide-reaching effect on exercise in America.

A person who wishes to use the collection should send a rather precise list of things they are interested in and they would like to do. Jan works in the area that would be of most interest to Soyfoods Center. They will respond promptly to an enquiry, explaining how their resources could be of some benefit. They will try their best to help. They have a general description of the collection. Address: PhD, Room 22 AHG, Univ. of Texas, Austin, Texas 78712. Phone: 512-488-0015.

2568. Richmond, Akasha. 2004. Gayelord Hauser edited a magazine titled *Diet Digest* during the 1940s and 1950s (Interview). *SoyaScan Notes*. April 5. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** A set of 17 issues of this magazine in mint condition are now for sale on Ebay on the Internet. Akasha is going to try to win the bidding and to buy them. They are undated, but look very interesting and stylish. Soy is mentioned in quite a few issues. Address: Los Angeles, California.

2569. Kennedy, Gordon. 2004. Update on health reform movements in the Los Angeles area (Interview). *SoyaScan Notes*. April 10. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** The booklet "Classical nutrition," by Maximilian Sikinger (1946) is not owned by any library in the USA. His main theme was the secret of creation. Maximilian sold them at the Golden Door, a health retreat run by Edmond Bordeaux Székely, in Escondido and Hollywood. Maximilian knew Anne Marie Benstrom, the managing director (during the 1950s and 1960s; she was from Sweden).

The Anne Marie started her own health spa called the Ashram. That land in the Santa Monica Mountains was sold to her by Maximilian, the same land shown in *Children of the Sun* (1998, p. 164), where Maximilian is kneeling on a rock by a stream. That photo is on the cover of his booklet "Classical nutrition." Then Maximilian's land was adjacent to hers. Since the Ashram was only 40 minutes from Los Angeles, it attracted many Hollywood Stars such as Raquel Welch. The Ashram is still there and Anne Marie is still alive and a good resource. She lives both at the Ashram in Calabasas (in the hills northwest of Los Angeles) and in Seattle.

Anne Marie spent time with Emile Zimmerman (one of the early California "Nature Boys"). They looked like Adam and Eve. They went to some tropical adventure in some place like Brazil and tried to live off fruits and air.

Maximilian has been bed-ridden for several years. In the 1950s he started "pumping iron" (weight lifting) at muscle beach in Santa Monica, and he started eating meat. He was a fixture at hippie pop festivals like Gypsy Boots was, but Max was really Boots' guru. Finally the meat eating caught up with him, he started having problems with his health, and then he was put on medications. Carla, his wife, is much younger and is still very clear (phone 818-222-7930).

Paul Bragg was cured of his tuberculosis by Dr. Auguste Rollier, an M.D. practicing in Switzerland. Gordon is quite sure that Bragg mentioned it. He practiced heliotherapy, and his predecessor in the same area was Arnold Rikli. Rollier wrote a book titled *Heliotherapy* (1923; Oxford Medical Publications) which is about treating people who have tuberculosis using only sunshine at 5,000 feet (even in the winter with snow on the ground) in the Alps. Gordon has a copy of the book, which contains many remarkable "before and after" photos.

Louise Hays developed a large following starting about 15 years ago; her books and audio tapes emphasize positive affirmations for bodily health and for each organ. It's all about feeling positive to enable the healing process. You can do it yourself. Edgar Cayce was saying the same thing.

Gordon has a good collection of books on the early health and vegetarian movements in California. Many of these book are reprinted photocopied and sold by Health Research–which used to be in Mokelumne Hill, California, but is now in Pomeroy, Washington State.

The first psychedelic art was done by Fidus (Hugo Hoppener); a number of his works from the 1890s and early 1900s are reproduced in color in Gordon's book. Address: Ojai, California.

2570. Klute, Mitchell; Edmonds, Bryce; Lewis, Kristen; Uhland, Vicky. 2004. 25 who fortified supplements: Our list of 25 supplements visionaries (including one homeopath) was born of hours of debate, struggle, and learning. Many were left off; many have passed on. All of these 25 have given of themselves, faced criticism and persevered to grow a healthy industry. *Natural Foods Merchandiser.* April. p. 32, 34, 36, 38-42, 44-45.

• ***Summary:*** To mark its 25th anniversary, *Natural Foods Merchandiser* pays homage to the following visionaries (with a color portrait photo of most), listed alphabetically by last name: Anthony Almada, Elliot Balbert, Scott Bass, Jeffrey Bland PhD (former professor of biochemistry at the University of Puget Sound), Ross Blechman (his parents, David and Jean Blechman, founded Twinlab; he was a past president of Twinlab), Mark Blumenthal (takes saw palmetto), Bill and Peggy Brevort, Randy Dennin, Annette

Dickinson PhD, Hal Drexler, James Duke PhD (former botanist with the USDA and author of numerous books on herbs), Christopher Hobbs, Jerry Kessler, Chris Kilham, Rob McCaleb (president and founder of Herb Research Foundation), Loren Israelsen, Jeff Katke, Jerry Kessler (founded Nature's Plus in 1971), Michael McGuffin, Michael Murray ND (has a database of more than 60,000 studies about natural health), Joe Pizzorno, Ed Smith, Dana Ullman (homeopathy), Roy Upton, Janet Zand, Loretta Zapp.

Each person responds to the following: Years in the biz. Accomplishment. Learning experience. Daily herbs/supplements. The next superstars. Hero. DSHEA's future. Desert island fave [favorite].

2571. *SoyaScan Notes.* 2004. How health foods came to America and Los Angeles–starting with the American Health Food Co. of New York City, and Dr. John Harvey Kellogg of Battle Creek, Michigan (Overview). May 24. Compiled by William Shurtleff of Soyfoods Center.

• ***Summary:*** First came American Health Food Co. of New York City. The idea of making and selling health foods in American originated in Battle Creek, Michigan, the brainchild of Dr. John Harvey Kellogg–who was a Seventh-day Adventist, an influential "health reformer" who wanted to change American eating habits, a vegetarian, and the head of the Battle Creek Sanitarium, one of America's most famous and respected hospitals from the late 1800s until the mid-1930s. He lived to age 91.

In Aug. 1866 he started *The Health Reformer,* a periodical published in Battle Creek, of which he was the editor and publisher. He used it to disseminate new ideas on health and diet reform.

In Jan. 1879 he changed the name of his magazine to *Good Health,* which soon developed a very large circulation. An excellent publication, it continued until 1953.

In the early 1880s, Dr. Kellogg felt the need to supply healthy vegetarian foods to Sanitarium patients. In Dec. 1882 he established the Sanitarium Food Department, his first food manufacturing company. Initially it made foods for patients, but after these patients returned to their homes, they began to order the unique foods that had been prescribed for them at the Sanitarium. Thus, a small mail order business developed. The early foods were mostly baked goods (such as crackers, wafers, and diabetic foods) with a low moisture content and long shelf life.

Dr. Kellogg then realized that there was a potential nationwide, even worldwide, market for the many new foods he was developing since Seventh-day Adventists were active starting other sanitariums and vegetarian restaurants across America and in Australia and the UK. Between 1896 and 1908 he started several early commercial food manufacturing companies: Sanitas Food Co. (by Feb. 1896), Battle Creek Sanitarium Bakery (July 1896), Battle Creek Sanitarium Health Food Co. (Nov. 1896; this was the world's first company to have the term, "Health Food" in its name), Sanitas Food Co. (July 1900), Battle Creek Sanitarium Food Co. (July 1901), and Battle Creek Food Co. (1908).

Among the early foods that Dr. Kellogg developed were the first meat alternatives (based on finely ground nuts) and the first nut butters (he invented and patented peanut butter). Brand names included Nuttose (by July 1896), Protose (1899), and Malted Nuts (1900; a dairy alternative resembling malted milk made primarily from peanuts and almonds). Being an extremely generous man, dedicated helping humanity, Dr. Kellogg gave other Seventh-day Adventists the right to use his formulas to make foods in other countries–free of charge!

By the late 1890s, Dr. Kellogg began to advertise and promote these foods widely–especially in his own magazine. By Sept. 1899 they were being sold in Sydney, Australia and Los Angeles, California–both places on the edge of the known world! A column in the *Los Angeles Times* (Sept. 24, p. 28) titled "Care of the body," states: "During the past few years a great number of new foods, composed of nuts and other products, have been placed on the market, so that those who prefer to abstain from flesh food have a large variety of other foods to choose from. In London there are probably twenty of these restaurants. There are many vegetarians in Los Angeles, and it seems that a first-class vegetarian restaurant, conducted by some one who understands the business, should be a paying investment."

Less than four months later the wish has been granted: The same column (7 Jan. 1901, p. IM27), in a section titled "A vegetarian restaurant," reports: "Los Angeles now has a first class vegetarian restaurant and it appears to be well patronized. The restaurant, which also keeps health foods for sale, is connected with a well-known hygienic institution [Battle Creek Sanitarium] in Michigan, which manufactures these foods on a large scale, and has branch sanitariums all over the world."

Kellogg's goal of helping to establish vegetarian restaurants and providing them with healthy foods was being realized. In Jan. 1904 his magazine *Good Health* published a directory of "Vegetarian cafes and restaurants." It gave the name and address of (amazingly) 29 of them in the United States alone–with more overseas. Most of them, no doubt, sold Battle Creek health foods to help them pay the rent.

The pioneer in making and selling health foods in Los Angeles was Otto Carqué. He and John Harvey Kellogg had much in common. They both had very original, creative minds, both were vegetarians (Carqué wrote his first book on vegetarianism in 1904) and deeply interested in what they believed was the strong connection between diet and health, both were good businessmen, and both (quite selflessly) dedicated their lives to making the world a better place and helping others.

By the summer of 1906, Carqué was creating a new industry for southern California: unfermented grape juice.

© Copyright Soyinfo Center 2021

He had invented a new and lower cost process for putting up the delicious juice in wooden barrels instead of the usual glass bottles. On Aug. 19 the *Los Angeles Times* wrote: "Mr. Carque put about 25,000 gallons of grape juice in barrels last fall and expects to turn out a larger quantity this season." About 2 years later (25 Oct. 1908) the *Times* reported that Carque had spent the summer in Fresno and Sonoma counties, "where he put up about 500,000 gallons of unfermented grape juice."

Carqué began to focus his considerable talents on southern California's most precious food resource: Fruit. He learned how to dry many kinds of fruit without the use of sulphur, and he became known as the father of the Black Mission Fig. By Jan. 1912 he decided to start what was (so far as we know) the first health food store in Los Angeles. But he also processed many of the foods that he sold. His original tiny classified ad in the *Times* (Jan. 18, p. I7) read (in full): "Wanted–Boy with wheel to assist in manufacturing of health foods; vegetarian preferred. Otto Carque, 943 West 12th st. Home Phone 52269. Call early." In addition to his own line of fruits, he carried foods made by Dr. Kellogg in Battle Creek, Michigan–foods which he had probably first seen in the Los Angeles' first vegetarian restaurant, the "Vegetarian Cafeteria," run by Seventh-day Adventists.

On 15 Aug. 1912 Carque incorporated his company, together with three other people.

By Oct. 1923 his shop, now named The Carqué Shop, had been remodeled and was located at 2618 West 7th St. in Los Angeles. Widely publicized with attractive ads in the *Times,* it now sold foods under the brilliant registered trademark "Natural Foods of California." Carque had coined the term "natural foods" in its modern meaning–i.e., unrefined and unadulterated.

Soon others began to follow his lead. On 18 Oct. 1926 "Hain Health Foods" opened its first store at 329 W. 3rd St.

By 4 Oct. 1925 the Carque Pure Food Company, Inc. had moved into The Natural Foods Building, 729 Seward St., in Los Angeles. This became his new factory and manufacturing company. On 23 July 1927 Hain opened a second store.

By the late 1920s the health food industry in Los Angeles was a small but growing enterprise–with Otto Carque as its admired, indeed beloved, godfather. But no one at that time could have dreamed of the heights it would reach or the influence it would have on America (and Hollywood) during the next three decades.

2572. Richmond, Akasha. 2004. New discoveries related to her book on "Healthy Hollywood" (Interview). *SoyaScan Notes.* May 25. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Akasha has several photos of Otto Carque photocopied from *California Health News* and *Let's Live* magazines–but no original photos. He came to the USA in 1887 from Germany. He settled in New York first, took a trip to California, and finally settled in Los Angeles. About 7 years before he died, he married Lillian Reicher. Unfortunately for future researchers, they had no children. Lillian wrote some things for Yogananda's Self Realization Fellowship magazine. In 1940 she issued an expanded 7th edition of Otto Carque's book *Vital Facts About Foods.*

Harold Chandler of the *Los Angeles Times* published 4 cookbooks around the year 1900. Titled *The Los Angeles Times Cookbook, No. 1,* etc. they consisted of recipes submitted by readers, and compiled by Harry Ellington Brook. Akasha owns three of these four books: No. 2 is Traditional Spanish and Mexican Recipes. No. 3. includes a section titled "Hygienic foods," an early term for health / natural foods. A 5th book was also published, consisting of prize-winning recipes.

In 1949, before Marilyn Monroe became a big Hollywood movie star, she "was crowned the first official California Artichoke Queen in Castroville, the self-proclaimed 'artichoke capital of the world.'" See www.artichokes.net. It was a publicity stunt. Unfortunately, no photos remain.

Yogananda's Self Realization Fellowship (SRF) published a magazine titled *East-West,* starting in 1926. A website shows photos of the covers of some issues, and gives the text. There were recipes, and articles about vegetarianism and about soyfoods. Yogananda met President Calvin Coolidge (president: 1923-1929) and put him on a vegetarian diet. Another SRF magazine was *Inner Culture.* Address: Los Angeles, California.

2573. Richmond, Akasha. 2004. The original Los Angeles Farmers Market–a famous landmark that opened in 1934 (Interview). *SoyaScan Notes.* May 28. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** "In July 1934, a contingent of farmers a contingent of farmers onto an expanse of empty land at the property known as Gilmore Island, at the corner of Third and Fairfax in Los Angeles, and displayed their produce on the tailgates of their vehicles." Customers "strolled among the trucks purchasing fruit, vegetables and flowers." And so it began. The land was owned by Arthur Fremont Gilmore.

This excellent, traditional farmers market is not far from Akasha's home; it has become a tourist attraction and is also known for its famous clock tower. Akasha called their main office to ask about the market's history, and they invited her to come to their archives, where they have thousands of photographs, including celebrity photos and stories. At one point, they had a juice bar and a health food store. The guy she talked with was the great grandson of the man who founded the market. There is now an outdoor open mall next to the old market. On the property is one of the oldest homes ever built in Los Angeles; constructed in 1852, it is a genuine adobe, which houses the archives. He is all excited about

© Copyright Soyinfo Center 2021

Akasha's book and would "love to be part of it." For a good history and more: www.farmersmarketla.com.

Concerning lima beans: 1906 was the last year that lima beans were grown commercially in Beverly Hills; that year the price of lots for homes started at $900. Address: Los Angeles, California.

2574. Budgar, Laurie; Melville, Nancy; Uhland, Vicky. 2004. 25 who championed a cleaner plate: As we celebrate the inroads natural and organic food has made into consumer consciousness during the last 25 years, we often forget the pioneers who made it possible–the men and women... who educated consumers when the concepts were strange and new, and who persisted in the face of adversity. This month NFM profiles 25 people who have been influential in the natural foods industry. *Natural Foods Merchandiser.* April. p. 22, 24, 26, 28-31.

• ***Summary:*** To mark its 25th anniversary, *Natural Foods Merchandiser* pays homage to the following pioneers and visionaries (with a color portrait photo of most) who brought natural and organic foods into consumer consciousness; listed alphabetically by last name. For each person is given: A summary introduction, plus the person's answers to 7 questions: No. of years in the industry. What motivated you in the beginning? What motivates you now? What is been your biggest obstacle? What has been your biggest obstacle? When did you finally realize you'd made it? When did you know the industry would survive? What predictions do you have for the future of the industry? If you had to write your own epitaph, what would it say?

Tony Bedard of Frontier Natural Products Co-op. Andy and Rachel Berliner of Magic Mountain Herb Teas. Neil Blomquist of Cup of Sun natural foods store and Spectrum Organic Products. Annie Christopher of Annie's Naturals. Ben Cohen of Ben & Jerry's Ice Cream (the company was sold to Unilever in 2000). Mel Coleman Jr. of Coleman Natural Meats. Joel Dee of Edward & Sons Trading Co.

Steve Demos: In 1974 He founded Touch the Earth natural foods store in New Hope, Pennsylvania. In 1977 he founded White Wave (now the maker of Silk soymilk) in Boulder, Colorado.

Frank Ford, who founded Arrowhead Mills in 1960. By 1990 it had 220 SKUs. In 1999 Ford sold the company to The Hain Celestial Group. His early inspirations: Paul Keene of Walnut Acres, and Warren Clough of Shiloh Farms.

Michael Funk, founder of Peoples Mountain Warehouse in 1976, who went on to become founder of United Naturals Inc. Lynn Gordon, founder of French Meadows Bakery in 1985. Haas Hassan who founded Alfalfa's Market in 1974, then sold it in 1996 to Wild Oats Markets. Bill Knudsen who worked in his family's juice-processing business, R.W. Knudsen, founded in 1961 and was named president in 1977. In 1984 he sold the business to J.M. Smucker. Bob and Charlee Moore, founder of Bob's Red Mill. Robert Nissenbaum, who launched Morning Dew Food Markets in 1971, an organic and natural food store in St. Louis, Missouri. In 1974 he opened Sunshine Inn natural foods restaurant. In 1982 he co-founded Imagine Foods, which he sold in 2002 to The Hain Celestial Group. Michael Potter, who says he founded Eden Foods in 1968 (but who actually joined the company in Jan. 1971–he was hired by Bill Bolduc, who had founded Eden Foods in Nov. 1969). Barry Sears, author of *The Zone Diet* and a researcher at MIT (Massachusetts), where he found that the cause of most chronic diseases is inflammation. "You can put together diets with natural foods to control inflammation much better than you can with drugs. The Zone Diet is not about losing weight but about controlling the hormones that affect inflammation. He wants to use foods to change health care.

Bill Shurtleff and Akiko Aoyagi founded the Soyfoods Center in 1976.

Mo Siegel, founder of Celestial Seasonings in about 1969. Charles Stahler and Debra Wasserman co-founded the Vegetarian Resource Group, an outgrowth of Baltimore Vegetarians (Maryland) which the pair established in 1982. Arran Stephens founded Nature's Path in 1985; he has been in the industry for 37 years [i.e., since 1967]. Bob Stiller founded Green Mountain Coffee Roasters in 1981. Albert Straus, of Straus Family Creamery. In 1993 he converted his family-owned dairy farm in Marin County, California, into the first certified organic dairy west of the Mississippi. Cyd Syzmanski founded Colorado Natural Eggs in 1991–a cage-free business. Annie Withey created Smartfood popcorn in 1984.

2575. Richmond, Akasha. 2004. History of Vitamix (Interview). *SoyaScan Notes*. June 5. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Akasha has been in touch with the Vitamix Co., which is still owned by the same family that founded it. Vitamix was an early brand of blender. According to a company spokesperson, in 1949 Vitamix ran the world's first infomercial, a direct response commercial for a product on TV. Address: Los Angeles, California.

2576. Richmond, Akasha. 2004. Jim Baker, The Source, restaurant in Hollywood, and Damian on Oahu, Hawaiian Islands (Interview). *SoyaScan Notes.* June 7. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Akasha has just talked with a man named Damian who (long ago) was the manager at The Source restaurant, owned by Jim Baker in Hollywood. Damian now owns his own health food store named the Source Health Store in Kailua, Oahu, Hawaii. He was the past president of The Association of Organic Farmers of Hawaii, has long been very active in organic issues, is now married, and has an excellent memory for dates. He said that before World War II, Jim Baker was a sickly teenager. Paul Bragg [or was

© Copyright Soyinfo Center 2021

it Jack LaLanne?] changed his life by making him aware of the importance of diet and lifestyle in good health.

Damian, who first met Jim Baker at a kundalini event, has a book titled *The Source Family Cookbook*, which has Jim Baker's whole life story and all the famous recipes; it was published for the family and was never sold in bookstores.

The name initially proposed for The Source was The Salad Bowl, since it was supposed to be a raw-food restaurant that would feature salads served in large wooden bowls. Baker closed The Source restaurant on Sundays to teach meditation. Also, Jim Baker has a son named Yod who lives in Southern California.

There were two recipes for which The Source was famous: (1) The breakfast cereal, a type of muesli (raw), that they ground fresh each morning, with oats and chia seeds and nuts, then they served it in a wooden bowl with Alta Dena raw cream to be poured on it. Everyone Akasha has ever talked with about The Source talks about that cereal. (2) The salad dressings and salads. Address: Los Angeles, California.

2577. Vaughn, Helen. 2004. Memories of Bill Baker of Ojai, California (Interview). *SoyaScan Notes.* June 8. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Helen is the wife of Harmon Vaughn. She has found a good large photo of Bill Baker which she will gift to Soyfoods Center. Bill and Harmon bought the bakery from Bill Baker's widow, Helen Baker. They made payments to her for about two years, until she died. In her will, Helen Baker left part of the bakery to Helen and Harmon (as forgiven payments), part to her sister, and part to Bill Baker's sister (who as in a Lutheran hospital).

Bill and Helen Baker had no children. Bill was of medium height, but he had no teeth and he never wore dentures or false teeth. Helen thinks Bill was a baker in the many famous hotels where he worked.

To decorate a cake with sugar, he would buy sheets of sugar that were as hard as wood. Then he would cut and carve them into very delicate structure, then glue these together, just as one would glue pieces of wood. Nobody would eat the sugar artistry, but they certainly did eat the delicious cakes below. In fact Bill Baker had many letters from famous (and ordinary) people, thanking him for his delicious cakes.

Talk #2. 2005. Nov. 1. Bill Baker made only specialty baked goods–no regular breads or hamburger buns, etc. from white flour. His two best-selling products were his soybean bread and his gluten bread–which accounted for about 50% of his total sales. Most of his breads were wheat-free but a few used wholewheat flour. He used as little white flour, but not much.

Bill Baker had a rupture which caused him to wear a big corset to support his abdomen. He had had that rupture for as long as Helen had known him, since about 1936. He died of a terrible case of poison oak that last for 2-3 months. The poison oak spread inside his body, Helen thinks through an opening in the skin caused by the rupture. Large amounts of clear fluid came pouring out of his body and finally it got so bad that his wife, Helen, could no longer care for him at their home at Lake Sherwood. So he was taken to the hospital in Venture; he died there after about 3-4 days.

The people who last owned the Bill Baker Bakery in Ojai were forced to leave when a wealthy woman bought the building to start a Mediterranean food restaurant. Thomas Kohnen and his wife, Colleen, owned the bakery since Feb. 1989, and left about 2 years ago. They re-established the bakery as a German bakery in Tehachapi, California, and are doing quite well. Colleen is very interested in the history of Bill Baker and his bakery. She visited them there during an Oktoberfest festival last fall. Their phone: 661-822-3350. Address: 404 E. Topa Topa St., Ojai, California 93023. Phone: 805-646-2716.

2578. Mason, David. 2004. Memories of Bill Baker of Ojai, California (Interview). *SoyaScan Notes.* June 9. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** David did not know Bill Baker but he has written various articles about him. He still has copies of all these articles and some photos of Baker and his bakery. Many scrapbooks containing hundreds photos concerning Bill Baker are in the Ojai Museum; contact Jane T. McClenahan, executive director (805-640-1390).

In 1928 the St. Francis Dam (205 feet high) burst / failed; it was located in San Francisquito Canyon about 10 miles north of the town of Saugus in Los Angeles County. It held 38,000 acre feet of water from the Owens Valley. Its failure (due largely to the inappropriateness of the geological substrate) resulted in the birth of engineering geology.

When the dam burst, Bill Baker rushed to the rescue. He wanted to do something big both to help the people there and to promote his bakery. He supplied all the shelters and trucked over free fresh bread to the survivors in Santa Paula and Fillmore.

The Santa Barbara Earthquake took place in June 1929. Again, Baker rushed to the rescue and provided bread.

The source of information about his death related to poison oak probably came from the long obituary published in the *Ojai Valley News* in 1942. Rose Boggs of Ojai (805-646-3659) is an authority on Bill Baker, tried to have his bakery established as an Ojai historic site, and is thinking about writing a book about him.

Talk with Janice Little of Del E. Webb Memorial Library, Loma Linda Univ., Loma Linda, California 92350. 2004. June 28. When this dam broke, many Seventh-day Adventist doctors, nurses, and others rushed to the site to try to save lives and be of help. Address: Ojai, California 93023.

© Copyright Soyinfo Center 2021

2579. Richmond, Akasha. 2004. Steve Demos and Gregg Engles are in Africa together on safari. Follow Your Heart restaurant in Los Angeles. Eddie Caraef (Interview). *SoyaScan Notes.* June 12. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Steve and Gregg went together in Gregg's private jet. Note: Actually this trip never happened–says Steve Demos (10 April 2005)

Akasha thinks that Follow Your Heart is the single best restaurant in Los Angeles today. It is not vegetarian but all the foods are healthy and organic. It was started by Bob Goldberg.

A friend of Akasha's named Eddie Caraef has two restaurants (each named The Newsroom) in Los Angeles. He has the best juice bar in LA, he serves great vegetarian foods and soups (though he is not presently a vegetarian), he cooks with soy, and makes a delicious veggie burger. He is an outstanding photographer and has a superb archive of the rock and roll era, including immortal images of Jimmy Hendrix, etc. Address: Chef, Los Angeles, California.

2580. Downard, Richard L. 2004. Memories of Bill Baker's Bakery of Ojai, California (Interview). *SoyaScan Notes.* June 15. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Helen Vaughn is Rick's maternal grandmother; his mother is Louise Downard. He worked at Bill Baker's Bakery for many years, starting in about 1963-65 as a cleanup boy. By the late 1960s they were still baking soybean break but had discontinued lima bean bread. In the 1950s or 1960s Harmon Vaughn developed an early Seven-Grain Bread and all stone-ground whole wheat bread. He and Harmon used the huge old oven, built in the late 1800s. They would often bake for 10-12 hours a day without stopping. Each of the two ovens, which were side by side, was about 10-12 feet wide. Inside of each was a set of 8 shelves, the width of the oven, that rotated like a Ferris wheel. The baker would put a pan of proofed bread on one shelf, and a helper would pull off the baked loaf next to it. If you missed the baked loaf as it went by, it would not come by again until it had baked for another cycle and would be burned. This work required great concentration.

During the bakery's heyday, in the 1960s and 1970s, they would deliver bread at wholesale to grocery stores and restaurants over a wide area, and also to the Thatcher School. They also sold it a retail in their shop next to the bakery.

Helen used to have perhaps a hundred photos of the bakery and Bill Baker. But the last man who owned the bakery, before it became a restaurant, was named Thomas Kohnen, moved to Tehachapi (east of Bakersfield), California, and has not been seen since. Harmon said he loaned Thomas the photos to display in the bakery. Address: 131 W. Wiley St., Ojai, California 93023. Phone: 805-649-2339.

2581. Richmond, Akasha. 2004. Otto Carque's health food factory building is still in Los Angeles (Interview). *SoyaScan Notes.* June 20. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Akasha visited the large two-story brick building at 729 Seward St. today. The interior looked almost Spanish, with heavy wooden beams beneath the ceilings. The door from the foyer to the interior looked like an original art-deco door made of glass and metal. Handsome and well preserved, it is in a nice neighborhood on a beautiful block about 10 minutes by car from Akasha's home. Presently occupied by Bob Clampett Studios (which does photo and film work), it is big enough to house about 18 apartment dwellings. Address: Los Angeles, California.

2582. Dilling, Eloise T. 2004. Re: Information on Adelle Davis. Letter to William Shurtleff at Soyfoods Center, June 30. 1 p. Typed, with signature on letterhead.
• ***Summary:*** Adelle's maiden name was Davis. She died on 31 May 1974. Address: President, Adelle Davis Foundation, 116 Middle Rd., Suite K, Montecito, California 93108. Phone: (805) 969-9076.

2583. Daniel, Kaayla T. 2004. The whole soy story: The dark side of America's favorite health food. *Mothering.* May/June. No. 124. p. 44-51. [132 ref]
• ***Summary:*** Contents: Introduction. How much soy do Asians really eat? The right stuff. Processing matters. Antinutrients and toxins in soy.

Sidebar 1: How much soy is too much? For healthy people not sensitive to soy, for people sensitized to soy, for people allergic to soy, areas of concern (2 references).

Soy allergens. Soy and thyroid: a pain in the neck. Soy and reproduction: breeding discontent.

Sidebar 2: Boon to the industry–The FDA's soy-protein health claim (16 references).

(3) Sidebar 3: Reader quiz. "Just how much soy do Asians really eat per day?" (3 references).

Note: This article is excerpted from The Whole Soy Story: The Dark Side of America's Favorite Health Food (New Trends, 2004). Most of the endnotes / footnotes do not appear in this article. To see them see www.mothering.com/10-0-0/htm/10-6-0/ soy-notes.shtml. Address: PhD, CCN (certified clinical nutritionist), 2162 Candelero, Santa Fe, New Mexico 87505. Phone: 505-984-2093.

2584. *SoyaScan Notes.* 2004. Chronology of Otto Carque (1867-1934) (Overview). July 13. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** This is a brief biography of Otto Carque, a sample of one of the health food pioneers, most of whom lived and worked in California.

1866 July 11–Otto Heinrich Carque is born in Wiesloch, Mannheim, Baden [Germany] the first child and eldest son of

© Copyright Soyinfo Center 2021

Louis Carque (born 6 July 1836) and Anna Zentner Carque (born about 1839), both born in France. Otto's first language was French.

1870 June 11–When Otto was about age 4, his mother, Anna dies at age 31 in Wiesloch, Baden, leaving her husband with 3 young children: Otto, Anna and Elise. Otto later claimed his mother died–'because of the doctors,' causing him to reflect upon health, disease and death,..."

1873–Otto's father, Louis/Ludwig, remarries to Elise Bopp; and they have two more children, Hermine (born 26 Dec. 1874; died 6 Dec. 1885) and Ludwig Eduard (born 20 April 1877). Thus Otto was the eldest of 5 brothers and sisters.

[Note: Alsace-Lorraine was part of Germany from 1871 to 1918; in 1919 it was returned to France by the Treaty of Versailles]. Of French descent, he lived in Mannheim, Germany, whence he migrated to America.

Clarke Irvine (his long-time close friend) recalled in Jan. 1935: "Handicapped with a weak physique, he early took up physical culture. It restored him, along with right living and natural foods, which he found remedied his acute constipation.

1887–Otto arrives in New York City from Mannheim. There, recalls Benedict Lust, he was associated with Dr. Henry Lane, father of iridiagnosis in this country. Carque worked hard, and overcame many struggles.

1889 April 13–Otto first arrives in the USA at Ellis Island, Port of New York. Later in 1889 he traveled to California for the first time. For the next seven years he stayed mostly in the United States, on a path to citizenship. But he returned to Germany once, we don't know for how long,

1892 Nov. 19–Otto returns to the USA for a 2nd time, traveling with his youngest brother Louis/Ludwig. On the passenger list, Otto gives his age as 26 and Louis gives his age as 24. Both say they are wine merchants. They had come to see the Chicago World's Fair (1 May 1893 to 30 Oct. 1893; officially named World's Columbian Exposition) in Chicago, Illinois. After that Otto lived in New York for some years.

1895–By age 28 he had become a vegetarian. "He lived 15 years on raw foods, then fresh fruits and vegetables, varied occasionally with eggs, cheese and nut butters, unroasted..."

1896 July 27–Otto is naturalized (becomes a citizen of the U.S.) in New York City. At the time he lived at 65 2nd Ave. He gave his occupation as "confectioner." The witness to his naturalization was William Ulrich, a barber by profession.

1889 April 21–Louis Eduard Carque, Otto's youngest brother, becomes a U.S. citizen, with Otto as his witness.

1904–Carque's first two books are published by Kosmos Publishing Co. in Chicago: (1) *The Foundation of All Reform: A Guide to Health, Wealth and Freedom* (66 + vi p). (2) *An Appeal to Common Sense* (15 + iv p.). Each is outstanding, on vegetarianism and natural foods. In the 2nd book Otto becomes fir first American to use the term "natural foods" (plural).

Otto Carque continued to use the terms "natural foods" and "natural food" throughout his life, even though his colleagues preferred the terms "health foods" and "health food." Starting in 1922, in advertisements in the *Los Angeles Times,* he referred to his line of products (mostly dried fruits and nuts) as "Natural Foods of California." In 1925 he wrote and published a 359-page book titled *Natural Foods: The Safe Way to Health.* By 1931 he had renamed his company "Carque Natural Foods" and by 1935 a huge sign across the top of his food factory spelled out the company name.

1905–Carque arrives in California from the East and settles in Los Angeles. In the fall, he begins his work with food or beverages by putting up 25,000 gallons of unfermented grape juice, using a new method he invented (*Los Angeles Times.* 1906. Aug. 19, p. VI15).

1912 Jan. 18.–Carque runs his first ad in a California newspaper (*Los Angeles Times*)*:* "Wanted–Boy with wheel to assist in manufacturing of health foods. Vegetarian preferred." Clearly, he wants to start a business.

1912 Aug. 15. Announcement that "Carque Pure Food Company" has been incorporated. "Incorporators: Otto Carque, Edward Zeller, Harold D. Smith, Madeline Ronstand, Albert Maas; capital stock, $25,000; subscribed, $50."

1912 Nov. 13–An ad announces that Carque is now selling his unsulphured Mission Figs at a Los Angeles grocery store (Walter E. Smith Co.). By March 1913 he is advertising his Black Mission Figs in a New York magazine.

1917–Carque's Pure Food Co. first appears at 1605-1607 South Magnolia Ave., Los Angeles, California. They specialize in sun-dried black mission figs, and have a complete line of selected California dried fruits, nuts, nut butters, etc. In advertising that he sells "pure natural food products," Carque becomes the first American to use the term "natural food" in this way or context.

1920 June–A Carque ad mentions that he now grinds flour using his own mill, and that he has a line of products, described in a circular with price list.

1921 May 1–He now has a store at 2618 West Seventh Street in Los Angeles.

1922 March–*Natural Foods of California,* by Otto Carqué is published by Carqué Pure Food Co. in Los Angeles (21 p. 22 cm tall).

1922 June 11–First mention of "The Carque Shop" and of "Natural Foods of California," a Carque registered trademark.

1925 Sept.–*Natural Foods: The Safe Way to Health,* by Otto Carqué, is published by Carqué Pure Food Co., Inc., Los Angeles, California (359 pages, 20 cm tall).

1925 Oct. 1–Carque is now located in The Natural

© Copyright Soyinfo Center 2021

Foods Building, 729 Seward St., Los Angeles.

1925 Nov. 22–Carque's California fruits and nuts, are now sold in metal holiday gift canisters at the Ville de Paris in Los Angeles. They are "packed in Los Angeles at the unique Carque factory..."

1926 July 4–Carque now has a food shops at 831 South Flower St. in downtown Los Angeles.

1926 Oct. 31–Carque now has a shop at 6411½ Hollywood Blvd. in downtown Los Angeles. He now has three shops. Hollywood Boulevard, which includes the famous Hollywood theater district, is a fashionable address.

1927 Nov. 6–While on a lecture tour in New York City, Otto Carque (age 59 and still a bachelor) meets his bride to be, Lillian Reicher. She moves to California, where she assists him in the reorganization of his business, Carque Pure Food Company. They are married on Nov. 8, 1927 in Los Angeles. She becomes ever more actively involved with his work and business.

1928 March–*Mrs. Carqué's Recipe Book,* by Lillian R. Carque, is published in Los Angeles by Otto Carque (32 pages, 15 cm tall). It advocates a "fruitarian as well as a vegetarian dietary." The recipes call for many Carque brand products by name.

1929 Oct 29–Stock market crash heralds the Great Depression.

1930–*The Key to Rational Dietetics: Fundamental Facts about the Prevention of Disease, the Preservation of Health, the Prolongation of Life.* New, revised and enlarged ed., by Otto Carqué is published by the author in Los Angeles (151 p., 24 cm. tall).

1933 May 30–Carque announces that he is closing his retail shop on Hill Street and moving to 1315 South Maple Ave., in Glendale, where he will do wholesale business only. This small announcement marks the first appearance of Carque in *California Health News*, published in Hollywood by his friend and admirer, Clarke Irvine.

1933–*Vital Facts about Foods: A Guide to Health and Longevity with 200 Wholesome Recipes and Menus and 250 Complete Analyses of Foods,* by Otto Carqué is published by the author in Los Angeles (208 pages; 24 cm tall). Several subsequent editions were published.

1935 Jan. 9–Carque dies at age 69 of traffic accident injuries. He was walking across a street in a so-called "safety zone" when he was struck by distracted woman motorist. Final rites are conducted on Jan. 12 at the Hollywood Cemetery chapel. There is a huge outpouring of love for Otto Carque both here and in the pages of *California Health News* and in an obituary by Philip M. Lovell in the *Los Angeles Times* (Feb. 10).

1935 Jan.–Mrs. Carque carries on the work of her late husband, which is extremely complex and demanding. Often working late into the night, and very early in the mornings, he "did research work, financial matters, was main buyer, and supervised the production, while she attended to the business end."

1937 July–After trying for more than two years to do the work of two people, Carque's food manufacturing company, for some time poised near bankruptcy, is sold by his wife to the Confection Co. of California. Mrs. Lillian Carque will act as publicity director.

2585. Richmond, Akasha. 2004. History of Vita-Mix blenders (Interview). *SoyaScan Notes.* July 17. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** After months of waiting, Akasha finally got a packet from Vita-Mix about the origin and history of their blender. It contains a timeline but no solid documentation and is generally disappointing–but there are a few possible leads. It is apparently on pages 4 and 5 of an undated issue of a magazine titled *Vitariety.* During the 1920s William Grover Barnard ("Papa Barnard") and his family lived in Quincy, Illinois. He speculated on land, then lost everything he had made. Needing some money to feed his family, he and his two sons, Bill and Louie, became traveling salesmen, and demonstrated at fairs and trade shows. Eventually they became quite successful, moved to Ohio, and "established the Natural Foods Institute, located in downtown Cleveland. In 1937, father and son met Al Bersted who was manufacturing a new product–the blender. Seeing its potential, they bought several units and sold them at shows and in a mail order catalog. The first Vita-Mix blender sold for $11.95 ($12.95 for one with a stainless steel container)."

A photo with the date 1937 next to it shows a retail store said to be located at 634 St. Claire, Cleveland. A large sign across the top states in big bold centered letters: "Natural Foods Institute." In smaller bold centered letters: "Home of the soy bean. Health foods." On the left and right sides: Soy bean chops, steaks, roasts, cutlets, bologna. Soy bean meats, butter, milk, cheese, cereals."

An excerpt is given from an untitled article about William G. Barnard from the *Cleveland Press* (1938 Feb. 15). He is a "pitch" man at food shows. He notes that a horse loves a carrot raw but won't touch it cooked. A photo shows him peeling a carrot. Vita Mix is not mentioned.

The next big date was is said to have been 1942. At about that time "The Natural Foods Institute moved to a remote location in Olmstead Falls Township [presumably near Olmstead Falls, in Cuyahoga Co., northern Ohio, 12 miles southwest of Cleveland]. "A few years later, Papa was credited for being the first to use television for direct sales." Other highlights from the years 1949, 1955 (Papa retired in 1955, selling his interest to his son, Bill, and his wife, Ruth"), 1962 (when the company name was changed to "Vita-Mix Corporation" from Natural Foods Institute), and 1992 (apparently the present) are given. At the end of the article is the name Jodi Barnard. Then: "This article is the result of compiling and condensing newspaper articles, and stories written over the years. The writings referenced were

© Copyright Soyinfo Center 2021

done by Ruth and Bill Barnard, and Bonnee Byrne."

Akasha continues: A Google search for "Al Bersted" brings up an interesting website: www.fostoria.org /history / Century /century5.html. At the year 1934 we read: "Another big story in 1934 was an announcement that the Bersted Electrical Manufacturing Co. of Chicago, makers of the well-known and popular 'Bersted' brand of household appliances, would be manufacturing their products in Fostoria early in April.

"Company president Al Bersted and his secretary arrived in Fostoria on Jan. 24 to sign agreements between the firm and the Fostoria Industrial Corporation. The new industry... was expected to lead to the employment of 150 to 200 Fostorians."

Note: The earliest document seen (March 2005) that mentions Vita-Mix in an ad run by the Natural Foods Institute in the Nov. 24, 1939 issue of *Health News* (Hollywood, California, p. 6). Address: Chef, Los Angeles, California.

2586. Richmond, Akasha. 2004. Self Realization Fellowship (SRF) served an early veggie burger (maybe on a bun) at their India House vegetarian restaurant in Los Angeles (Interview). *SoyaScan Notes.* July 17 and Aug. 19. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Self Realization Fellowship (SRF) was founded by Swami Paramahansa Yogananda. They had a center on Sunset Boulevard named India House; it consisted of a spiritual / meditation center ("house of worship") and a restaurant named SRF India Café. The café, a large dining room with a counter that sat 8 people, was always located at the same place. It opened in 1951, closed in 1969, and was most famous for its Indian curries. SRF has said they are very interested in Akasha's project, but has been unable to find any menus from that restaurant. Update: 2004. Sept. 11. The SRF publicist sent Akasha a 1951 photo showing the front of India House. But SRF still is unable to find a menu. They are very interested in Akasha's book, which has inspired them to consider doing their own cookbook. Note: SRF is now located in Pacific Palisades near the Pacific Ocean.

Paul Bragg also had an early recipe for a vegetarian hamburger. Address: Chef, Los Angeles, California.

2587. Boggs, Rose. 2004. Memories of Bill Baker of Ojai, California–sparked by an old photo (Interview). *SoyaScan Notes.* July 18. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Rose found a black-and-white photo of the shooting of a movie, sponsored by Bill Baker, showing the huge cake that he made and was about to sent to the International Exposition on Treasure Island in San Francisco Bay. So Bill Baker didn't just make the cake to promote his bakery and his work–he also had a movie made to go with it. In the center of this photo is the cake, outdoors in the bright sun, with the rear of Bill Baker's Bakery in the background. Then you can see the back of the filmmaker with his old-fashioned camera with large reels on top. At the left of the photo is a baker, who Rose believes is Pat Carsner. To the right in the back may be Bill Baker, but he is hardly visible. And then Rose's brother and another baker.

When the movie was finished, it was shown at the Ojai Theater, where Rose remembers seeing it. "It was like his own total newsreel, of how the cake was made, etc." Her brother, Dan, was the commentator. His final comment was: "Nice cake if you can eat it. And you can eat it if you try" (a play on words of a popular song of that time). No doubt Bill Baker had a copy of the movie sent to San Francisco with his cake, in the hope that it would bring him even more publicity. He may have also showed it in Ventura.

Rose read a story that told how, in about 1930, Bill Baker enter a horned toad in a race and publicized his prediction that the toad would win because it had been fed lima beans–which were the most alkaline food. "He was a great guy for promoting himself."

Bill Baker's funeral was in St. Paul's Church in Ventura. Address: Ojai, California. Phone: 805-649-2339.

2588. Richmond, Akasha. 2004. Talk with Herman Jacobs of the Hain Celestial Group about the early history of Hain (Interview). *SoyaScan Notes.* July 22. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Herman's father was a cousin of Harold Hain. All he has is in a Hain Food catalog prior to 1953. He knows that Harold Hain had a contract with the government during World War II to make pemmican from dried fruits. Note: Traditionally, pemmican was a concentrated food made by North American Indians and consisting of lean meat, dried, pounded fine, and mixed with melted fat.

In the late 1950s, Hain's products consisted of 90% canned carrot juice and 10% other health foods. Address: Los Angeles, California.

2589. Kennedy, Gordon. 2004. Collecting periodicals on naturopathy and health (Interview). *SoyaScan Notes.* July 23. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** He purchased most of his periodicals on ebay (online). He has a few issues of *California Health News,* about 100 issues of *Let's Live*, and 15-20 issues of *Naturopath and Herald of Health* (New York, published by Benedict Lust), including some hardbound 1-year volumes. He also has a few issues from about 1900-01 of *Amerikanische Kneippblatter* and the *The Kneipp Water Cure Monthly and Herald of Health.* He no longer collects much because he has run out of shelf space. Address: Ojai, California.

2590. Bill Baker: Photographs and documents (Archival

© Copyright Soyinfo Center 2021

collection on compact disc). 2004.
• ***Summary:*** This archival collection consists of 15 large black-and-white photos. Four photos show Bill Baker–two up close and two at a distance; none of these are dated.

Two show the two sides of his 1939 business card. Two show both pages of a letter written to Baker on 31 July 1934. Seven show his cakes, bakery building and trucks, and private home; 3 of these are dated (1924-1927).

These were scanned and sent on CD-ROM to Soyfoods Center by Rose Boggs of Ojai, California, in the form of both .jpg and .tif files / images.

2591. Woo, Elaine. 2004. Gypsy Boots, 89; Colorful promoter of healthy food and lifestyles. *Los Angeles Times.* Aug. 10. p. B-11. Obituaries.
• ***Summary:*** A long, positive obituary with two large photos. He died Sunday in Camarillo of natural causes. His basic message was that a healthy, organic diet, fun, a lust for life promoted longevity. In 1958 he married Lois Bloemker, a conservative, academic young woman from Ft. Wayne, Indiana; they started a family in Los Angeles. Also in 1958 he opened the Health Hut, a health food store on Beverly Blvd., which attracted a Hollywood clientele. But he didn't mind the bottom line, so he had to close the business several years later. In 1962 Boots became a regular guest on the Steve Allen Show. He would swing, Tarzan-like, onto the stage in a loincloth. Allen recalls that he could turn the stage into a madhouse in about 30 seconds. He moved to Ventura County in 1989. He is survived by two sons (Daniel Bootzin of Los Angeles and Alex Bootzin of Pacifica), three grandchildren, and a sister. Address: Times staff writer.

2592. Richmond, Akasha. 2004. Adelle Davis, Aldous Huxley, and LSD (Interview). *SoyaScan Notes.* Aug. 19. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Adelle Davis married and adopted two children. She was friends with Aldous Huxley (1894-1963, the famous author of *Brave New World*), who spent quite a bit of time in Hollywood and wrote more than 17 scripts for movies and TV that were produced including *Pride and Prejudice* (1940), *Jane Eyre* (1944), *The Giaconda Smile* (1948), etc. Huxley got interested in psychedelics and, based on his personal experiences, wrote the well-known book titled *The Doors of Perception: Heaven and Hell.* The popular rock band, The Doors, took their name from the title of Huxley's book.

Through her connection with Huxley, Adelle Davis enrolled in an LSD experiment in an academic environment. After finishing, she wrote a book titled *Exploring Inner Space: Personal Experiences under LSD-25,* under the pseudonym Jane Dunlap. The book was published in 1961 in New York by Harcourt, Brace & World (216 p.). This shows that Adelle Davis was a very open and curious person, interested in exploring new ideas and experiences in a responsible way.

Note: "On his deathbed, unable to speak, Huxley made a written request to his wife for "LSD, 100 µg, intramuscular". According to her account of his death, in *This Timeless Moment,* she obliged with an injection at 11:45 am and another a couple of hours later. He died at 5:21 pm on 22 November 1963, aged 69... Media coverage of his death was overshadowed by the assassination of President John F. Kennedy, on the same day" (Source: Wikipedia at Aldous Huxley). Address: Los Angeles, California.

2593. Zinko, Carolyne. 2004. At 60 he swam to Alcatraz handcuffed. As he turns 90, Lalanne has his eye on Catalina Channel. *San Francisco Chronicle.* Sept. 24. p. S1, S17. Datebook section.
• ***Summary:*** Jack LaLanne was born on 26 Sept. 1914 in San Francisco, California. His parents were French immigrants, a house maid and a telephone installer. He grew up in Berkeley and was a sickly kid with pimples and an addiction

© Copyright Soyinfo Center 2021

to sugar. Then his mother, a Seventh-day Adventist, took Jack to hear Paul Bragg lecture at the Oakland Women's City Club. He "took one look at Jack and told the audience, 'It matters not what your age is or your physical condition, if you obey nature's laws, you can be born again.'" Bragg "advised against eating white sugar, white flour, red meat, and processed foods. That night Jack got down on his knees and prayed, asking God to help him turn his life around and promising to help others in return." He changed his diet and started lifting weights. He became captain of the school football team. His friends, impressed by his physical transformation, began working out with him in his backyard. Today, a force of nature, still swims laps in his private swimming pool at Morro Bay.

In 1936 Jack "started America's fitness craze" with a gym (Jack LaLanne's Physical Culture Studio) in Oakland in 1936. In 1951 he began hosting a live exercise show on KGO-TV. After a few years, it expanded to Los Angeles. At age 42 (in about 1956) he first went on national TV doing 1,000 push-ups in 19½ minutes [then 1,033 push-ups in 23 minutes] on Art Baker's "You Asked for It." In 1959 the "Jack LaLanne Show" went national and ran for a total 34 years in the USA, Europe, and Russia. Jack is still urging Americans to give up their unhealthy ways, to eat right, and to exercise daily.

He has always liked publicity stunts: At age 40, he towed a 2,000-pound cabin cruiser as he swam the Golden Gate Channel. "At 60 he put handcuffs on his wrists and swam from Alcatraz to Fisherman's Wharf while towing a half-ton boat. At 70 he swam a portion of the Long Beach harbor with 70 people in 70 boats tied to his back." At age 90 he plans to "swim 22 hours underwater (with air tanks or a hose to the surface) the 26 miles from Catalina Island to Los Angeles.

The life goal of America's "original fitness guru" has always been to help others–because he still believes his life was changed by diet and exercise. Photos show: (1) Jack in his swimming pool (color). (2) Jack and his German shepherd, Happy; they were household names during the 1950s and 1960s. (3) Jack and his wife, Elaine, standing and laughing together as they enjoy an exercise break at their Morro Bay home. Address: Staff writer.

2594. McClenahan, Jane. 2004. Donation of many boxes of photos and documents about Bill Baker of Ojai, California (Interview). *SoyaScan Notes*. Oct. 6. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Jane has just been given many boxes of old, valuable photos and documents about Bill Baker from the lady (formerly uncooperative [Laurel Moore]) who owns Azu, the Mediterranean food restaurant in town, which used to be the site of Bill Baker's bakery. Jane will send Soyfoods Center scans of photos and photocopies of documents.

The Smithsonian has a traveling exhibit on the history of food in America. In conjunction with this, the Ojai museum will create an exhibit on Bill Baker in its own building. Address: Executive Director, Ojai Valley Museum, 130 W. Ojai Ave., P.O. Box 204, Ojai, California 93024. Phone: 805-640-1390.

2595. B.E. 2004. Original 'Nature Boy' Gypsy Boots remembered. *Natural Foods Merchandiser.* Oct. p. 24.
• ***Summary:*** Gypsy Boots died in August [Aug. 8] at his home in Camarillo, at the age of about 89 [or 93]. He was a lifelong vegetarian–except for a short stint eating fish. He believed, above all, in having a "positive attitude." He is survived by two sons, Dan Bootzin of Los Angeles and Alex Bootzin of Pacifica, California; three grandchildren, and a sister. Photos show: (1) Gypsy boots in 1948, with six other young men, the "nature boys," each holding a slice of watermelon. (2) Gypsy Boots in his later years.

2596. Pearlstein, Leo; Messinger, Lisa. eds. 2004. Mrs. Cubbison's best stuffing cookbook: Sensational stuffings for poultry, meats, fish, side dishes, and more. Garden City Park, New York: Square One Publishers. v + 148 p. Illust. Index. 19 x 19 cm.
• ***Summary:*** Includes a brief (and very incomplete) biography of Sophie Cubbison, with a photo of "Cubbison's Health Food Store." Several of the recipes (see p. 60, 88) call for soy sauce. Address: 1. President of Lee & Associates, Inc., Los Angeles; 2. Award-winning cookbook review columnist and food story writer.

2597. Ackerman, Michael. 2004. Science and the shadow of ideology in the American health foods movement, 1930s-1960s. In: Robert D. Johnston, ed. 2004. The Politics of Healing: Histories of Alternative Medicine in Twentieth-Century North America. New York, NY: Routledge. viii + 386 p. See p. 55-67. [39 ref]
• ***Summary:*** Contents: Introduction. Scientific background of the health foods movement. Principal claims of the health foods movement. Health foodist ideology. Scientific controversy and the shadow of ideology. Conclusion.

This is an unbalanced, one-sided and generally negative evaluation of the health foods movement. The writer is not clear about the differences between the health foods movement and the natural foods movement. For example, Joe D. Nichols was clearly a member and leader of the latter, whereas Ackerman classifies him in the former, and begins this chapter with a discussion of Nichols. However this introductory paragraph is very interesting and thought-provoking.

In 1936 a group of dentists in southern California sought to turn the tide of diet-induced physical degeneration by founding the American Academy of Applied Nutrition (AAAN); they worked to educate health practitioners in "the science and art of nutrition." Leaders of the health foods

© Copyright Soyinfo Center 2021

movement, besides Joe D. Nichols, included author Adelle Davis, magazine publisher J.I. Rodale, radio broadcaster Carlton Fredericks, "and perhaps most of all the purveyors of dietary supplements, who urged Americans to consume these products to compensate for the deficiencies in the nation's foods." Address: Graduate student, Dep. of History, Univ. of Virginia.

2598. Hottinger, Greg. 2004. The best natural foods on the market today: A yuppie's guide to hippie food. Vol. I. Asheville, North Carolina: Huckleberry Mountain Press. 223 p. Index. 23 cm. [94 ref]

• ***Summary:*** This book looks very commercial because it mentions many natural products by brand name. We wonder if companies paid to be mentioned. Contains scattered recipes for branded products, and scattered sidebars titled "Hippie wisdom."

Discusses: Almonds, almond butter, almond milk, American Miso Co., antibiotics (used in agriculture in 4 different ways; prevention, treatment, and control of disease, and growth promotion. In 1998 the European Union banned the use of antibiotics to promote growth in livestock. In Oct. 2000 the FDA proposed a ban on two antibiotics also used to treat humans), antioxidants, Bifidobacterium (bifidus), bovine growth hormone, bovine somatotropin (BST), Bragg Live Foods, Bragg Liquid Aminos, breast cancer, calcium, canola oil, celiac disease, cereal & Kellogg Brothers, cheese alternatives, dulse, edamame, Eden Foods (says "Eden Foods opened shop in 1968. By 1969 they were grinding their own flours and bottling their own oils and nut butters"), FDA, flaxseed oil, Galaxy Foods (says they "started in 1972 when founder Angelo Morini invented a new way to make a cheese product free of saturated fat, cholesterol, and the milk sugar, lactose"), genetically engineered foods, ghee, ginger, gluten sensitivity, glycemic index, GMO [genetically engineered] crops, Graham–Sylvester, heart disease, hippie foods, Horizon Organic, hormones, Lactobacillus, lactose intolerance, Lappe–Francis Moore, Lightlife Foods, magnesium, Maine Coast Sea Vegetables, Messina–Mark, milk–problems with, miso, Miso Master brand, nutritional yeast, oils, olive oil, omega-3 and omega-6 fatty acids, organic farming, palm oil, phytochemicals, phytoestrogens, prostate cancer, protein, Red Star nutritional yeast, quinoa, saturated fat, sodium, soymilk, soy products, soy sauce, soy supplements and concerns, soy yogurts, spelt, Stonyfield Farm, tahini, tamari, tempeh, trans fats (hydrogenated oils), WholeSoy Company. Near the back are many color coupons for the companies mentioned in the book by name. Address: MPH, RD, Asheville, North Carolina.

2599. Johnston, Robert D. ed. 2004. The politics of healing: Histories of alternative medicine in twentieth-century North America. New York, NY: Routledge. viii + 386 p. 26 cm. [1181* ref]

• ***Summary:*** A creative and sincere look at the complex subject of the histories of alternative medicine, with many chapters by various authors. "From grocery store to doctor's office, alternative medicine is everywhere. A recent survey found that more than two in five Americans uses some form of alternative medicine. *The Politics of Healing* brings together top scholars in the fields of American history, history of medicine, anthropology, sociology, and politics to counter the view that alternative medical therapies fell into disrepute in the decades after physicians established their institutional authority during the Progressive Era. From homeopathy to Navajo healing, this volume explores a variety of alternative therapies and political movements that have set the terms of debate over North American healing methods."

Contents: Introduction: The politics of healing. I. Precursors: The years in the wilderness: Negotiating dissent: Homeopathy and anti-vaccinationism at the turn of the 20th century, by Nadav Davidovitch. Making friends for 'pure' homeopathy: Hahnemannians and the Twentieth-Century Preservation and Transformation of Homeopathy, by Anne Taylor Kirschmann. Revisiting the 'Golden Age' of regular medicine: The politics of alternative cancer care in Ontario [Canada], 1900-1950, by Barbara Clow. Science and the shadow of ideology in the American health foods movement, 1930s-1960s, by Michael Ackerman.

II. Intersections: Allopathic medicine meets alternative medicine: 'Voodoo death': Fantasy, excitement, and the untenable boundaries of biomedical science, by Otniel E. Dror. Western Medicine and Navajo healing: Conflict and compromise, by Wade Davies.

III. Contesting the Cold War medical monopoly: Sister Kenny goes to Washington [DC]: An unorthodox nurse, polio, and medical populism in postwar America, by Naomi Rogers. 'It could happen here': California housewives, anti-Communism and the Alaska mental health bill of 1956, by Michelle M. Nickerson. 'Not a so-called democracy': Anti-fluoridationists and the fight over drinking water, by Gretchen Ann Reilly.

IV. Contemporary practices / contemporary legacies: Engendering alternatives: Women's health-care choices and feminist medical rebellions, by Amy Sue Bix. Inside-out: Holism and history in Toronto's women's health movements, by Georgina Feldberg. A quiet movement: Orisha and the healing of people, spirit, history, and community, by Velana Huntington. The politics and poetics of 'Magazine medicine': New Age ayurveda in the print media, by Sita Reddy. Complementary and alternative medicine cancer therapies in twentieth-century North America: The emergence and growth of a social movement, by David J. Hess. Beyond the culture wars: The politics of alternative health, by Matthew Schneirov and Jonathan David Geczik.

V. Conclusions: Contemporary anti-vaccination movements in historical perspective, by Robert D. Johnston.

From cultism to CAM: Alternative medicine in the twentieth century, by James C. Whorton.

Soy is mentioned on pages 163-64, 174, 177, 178, 179, 348.

Joe D. Nichols is mentioned on p. 55, 324, 325, 326.

"Health foods movement" is mentioned on p. 55-67, 179, 247, 323-24. Address: Assoc. Prof. and Director, Teaching of History Program, History Dep., Univ. of Illinois at Chicago.

2600. Lust, Louise. 2004. Yungborn revisited: The naturopathic-vegetarian cook book. [New York, NY: Published by Anita Lust Boyd]. x + 64 p. Illust. 28 cm.
• ***Summary:*** The Introduction, by Anita Lust Boyd, begins: "During my high school summers in the late 1930's I worked as a waitress at Yungborn, which in its day was a well-known health resort in Butler, New Jersey.

"My Uncle, Dr. Benedict Lust, N.D., M.D., recognized as 'The Founder and Father of Naturopathy, founded Yungborn. When he gave my family his personal story shortly before he died with the request that we publish it some day, he also included the cook book my Aunt Louise, his wife, a Naturopathic doctor in her own right and a Dietician, wrote while the Director of Yungborn in the early 1900's."

The first 34 pages are reprinted from Louisa Lust's 1907 cook book.

At the end of the book are many interesting ads, all of which also appeared in the original 1907 book. We will list them in the order they appear.

Page 37: "The Battle Creek Sanitarium Food Co., Battle Creek, Michigan" "The health foods that made Battle Creek known the world over were first made by us 30 years ago. They are as supreme today as they were then. Take Granola, for instance. It has been copied by others but never successfully imitated. It is known as the ready to serve Breakfast Food that has withstood 30 years of competition. We make more than sixty varieties of health foods. Full information on application."

2601. Smith, Andrew. editor in chief. 2004. Oxford encyclopedia of food and drink in America. 2 vols. Oxford, England, New York, etc.: Oxford University Press.
• ***Summary:*** A masterful work, on some subjects. Vol. 1, xxi + 751 p. (A-J) starts with an entry for (article about) Adulterations and ends with Juicers. Each entry is written by a different person (an expert on that subject whose name appears at the end of the entry) and a short bibliography. Interesting entries:

Blenders, by Meryl S. Rosofsky (6 references). Says that the modern blender, a familiar electronic appliance, "was invented by Stephen Poplowski in 1922 to make soda fountain drinks. In 1935 the popular bandleader Fred Waring teamed up with the inventor Frederick Osius to improve the appliance," marketing the Waring Blender (later renamed Waring Blendor) as a "revolutionary bar tending tool." Note: There are several errors in these references concerning blenders.

Chinese American Food, by Jacqueline M. Newman.

Juicers, by Linda Campbell Franklin (1 ref.). Surprisingly she devotes most of her entry to old-fashioned juicers for citrus fruits (such as the manual reamer used to separate citrus juice from its pulp) and only 1 sentence to electric juicers (such as the Champion) which pulverize the whole fruit or vegetable to make, for example, carrot juice.

Vol. 2 contains Peanuts (including peanut butter), Soybeans (very weak entry), Soy sauce, Vegetarianism (by Rynn Berry), etc.

Mentioned in passing but without a separate entry (see index) are soy milk, tofu, tofurkey [sic, Tofurky], and tempeh. Address: Illinois, USA.

2602. Bellis, Mary. 2005. The blender: History of the kitchen blender (Website printout–part). inventors.about.com/library/inventors/blblender.htm 2 p. Retrieved Feb. 3.

• ***Summary:*** "In 1922, Stephen Poplawski invented the blender... a small electric appliance (see picture [illustration] left) that has a tall container and blades that chop, grind and puree foods and beverages. Stephen Poplawski was the first to put a spinning blade at the bottom of a container. He used his appliance to make soda fountain drinks. In 1935, Fred Osius improved on Poplawski's idea and invented the famous Waring Blender.

"In 1910 L.H. Hamilton, Chester Beach and Fred Osius formed the Hamilton Beach Manufacturing Co. that became well known for their kitchen appliances. Fred Osius later began working on ways to improve the Poplawski blender.

"History of the Waring blender: Fred Waring, a one-time Penn State architectural and engineering student, was always fascinated by gadgets. He first achieved fame fronting the big band, Fred Waring and the Pennsylvanians, but the blender made Waring a household name.

"Fred Waring was the financial source and marketing force that thrust the Waring Blender into the marketplace, however, Fred Osius invented and patented the famous blending machine in 1933. Fred Osius knew that Fred Waring has a fondness for new inventions, and Osius needed money to make improvement to his blender. Talking his way into Fred Waring's dressing room following a live radio broadcast in New York's Vanderbilt Theatre, Osius pitched his idea and received a promise from Waring to back further research.

"Six months and $25,000 later, the blender still suffered technical difficulties. Undaunted, Waring dumped Fred Osius and had the blender redesigned once again. In 1937, the Waring-owned Miracle Mixer blender was introduced to the public at the National Restaurant Show in Chicago [Illinois] retailing for $29.75. In [May] 1938, Fred Waring renamed his Miracle Mixer Corporation as the Waring Corporation, and the mixer's name was changed to the Waring Blender.

"Fred Waring went on a one-man marketing campaign that began with hotels and restaurants while touring with his band, and later spread to upscale stores such as Bloomingdale's and B. Altman's. Waring once touted the blender to a St. Louis [Missouri] reporter saying, '... this mixer is going to revolutionize American drinks.' And it did.

"The Waring Blender became an important tool in hospitals for the implementation of specific diets, as well as a vital scientific research device. Dr. Jonas Salk used it while developing the vaccine for polio. In 1954, the millionth Waring Blender was sold, and it is still popular today."

Note 1. Much of the above history is based (without acknowledgment) on the section titled "The development of blenders" in the book *The Housewares Story,* by Earl Lifshey (1973, p. 270-75).

Note 2. After obtaining and studying all of Stephen Poplawski's early patents for mixers, Soyfoods Center believes that the first one which could reasonably be called a blender was issued on 8 Dec. 1942 (application filed 24 June 1940). We believe that Frederick Osius invented the blender, which Fred Waring commercialized with great success.

2603. Richmond, Akasha. 2005. Organic Milling Co. and Back to Nature Granola (Interview). *SoyaScan Notes.* Feb. 11. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Organic Milling Co., located in San Demos, California, has a website which says that they started in the 1960s making Back to Nature granola out of the back of a health food store in 1968. They had a link on their website to Back to Nature Granola, which is now owned by Kraft–both the company and the brand. Kraft has a full line of Kraft-type products under the "Back to Nature" brand. Akasha called Kraft and nobody would talk to her; they told her to submit her questions in writing.

So she called Organic Milling Co., which makes the granola for Kraft, and the guy she talked to said they make granola for Weight Watchers, Trader Joe's, Kraft, etc. The man who founded the company in the 1960s died 4 months ago, and this guy was not there in the beginning. He said he would send Akasha sales sheets showing the original packaging. Address: Los Angeles, California.

2604. Daniel, Kaayla T. 2005. The whole soy story: The dark side of America's favorite health food. Washington, DC: New Trends Publishing, Inc. xviii + 457 p. Index. 24 cm. Introduction by Sally Fallon. [1797 ref]

• ***Summary:*** Contents: Acknowledgments. Introduction, by Sally Fallon. Part I: A short history of soy. 1. Soy in the East. 2. Soy goes West. 3. The ploy of soy.

Part II: Types of soy. 4. Green pods, yellow beans and black eyes. 5. The good old soys–Soybeans with culture. 6. Not milk and uncheese–The udder alternatives. 7. All American soy–First generation soy products. 8. All American soy–Second generation soy products. 9. Soy oil and margarine–Fat of the land. 10. Soy lecithin–Sludge to profit. 11. Not trusting the process. 12. Formula for disaster.

© Copyright Soyinfo Center 2021

Part III: Macronutrients in soy. 13. Soy protein–The inside scoop. 14. Soy fat–Shortening life. 15. Soy carbohydrate–The flatulence factor.

Part IV: Antinutrients in soybeans. 16. Protease inhibitors–Tryping on soy. 17. Phytates–Ties that bind. 18. Lectins–Glutins for punishment. 19. Saponins–Soap in your mouth. 20. Oxalates–Casting stones.

Part V: Heavy metals. 21. Manganese toxicity–ADD-ing it up. 22. Fluoride toxicity–Dental and mental fluorosis. 23. Aluminum toxicity–Foil-ing health.

Part VI: Allergens: Shock of the new. 24. The rise in soy allergies. 25. The soy-free challenge.

Part VII: Soy Estrogens: Hormone Havoc. 26. Phytoestrogens–Food's fifth column. 27. Soy and the thyroid–A pain in the neck. 28. Soy infant formula–Birth control for baby? 29. Soy and the reproductive system–Breeding discontent. 30. Soy and cancer–High hopes and hype. End notes.

The first six pages of this book are filled with endorsements from Drs. Joseph Mercola, Larry Dossey, Russell Blaylock, Jonathan Wright, Kilmer McCully and many other physicians and scientists.

At the top front of the dust jacket: "Kaayla Daniel blows the lid off nutritional dogma. Soy is NOT a miracle food.–Dr. Joseph Mercola, Founder of the world's leading natural health and dietary website, Mercola.com." Address: PhD, CCN (certified clinical nutritionist), 2162 Candelero, Santa Fe, New Mexico 87505.

2605. Sanitarium. 2005. About us: Our history (Website printout–part). www.sanitarium.com.au/about-us/history.html Retrieved May 3.

• ***Summary:*** "A Century of Good Health: Over a century ago, in 1898, a small business opened its doors in Melbourne, Australia with the vision to help people `learn to stay well'–the meaning of the word Sanitarium–by linking good diet with good health.

"From a modest rented bakery, Edward Halsey, a baker, created Sanitarium peanut butter (Australia's first) and ready-to-eat breakfast cereals like Granose (an unsweetened forerunner to Weet-Bix) and Granola (a cereal made from wheat, oats, maize and rye) which were unlike anything previously available.

"In late 1898, the fledgling company relocated to larger premises in Cooranbong, south of Newcastle in New South Wales. Halsey installed bake house equipment in a large building that had previously been a sawmill.

In 1900, Halsey transferred to New Zealand where he began making the first batches of Granola, Caramel Cereals (a coffee substitute) and bread in a small wooden shed in the Christchurch suburb of Papanui.

"Since Edward Halsey began the business, the Sanitarium company has been at the forefront of healthy eating. Sanitarium advocated vegetarianism before it was trendy and were the first to introduce the concept of the health food shop. Throughout the years, Sanitarium has remained true to the vision of its founders by promoting a better life through better nutrition.

"Today, Sanitarium Australia is owned and operated by Australians while Sanitarium New Zealand is owned and operated by New Zealanders. We do work together, however, to produce over 150 products and employ approximately 1700 people in our manufacturing and distribution sites throughout Australia and New Zealand.

"The Origin of Sanitarium icons–Weet-Bix: Sanitarium's original wheat biscuit, Granose, was marketed in Australia and New Zealand during the early 1900s, not only as a breakfast cereal but also as an alternative to bread. During the 1920s, Sanitarium faced a challenge to Granose from a new sweetened flake biscuit called Weet-Bix, which was produced by a company called Grain Products.

"In 1930, Sanitarium acquired Grain Products, which also had connections to the Seventh-day Adventist Church, and made Weet-Bix its own.

"Marmite: Marmite was introduced to Australia and New Zealand by Sanitarium. Initially it was imported from the United Kingdom but shortly before World War II, we secured the secret recipe from the English and made the first Australian Marmite in our Cooranbong factory in 1944. Since the 1970s, Sanitarium's Christchurch factory has manufactured all the Marmite sold in the South Pacific.

"Health Food Stores: As early as the 1900s, Sanitarium introduced Australians and New Zealanders to the concept of health food shops and vegetarian cafes. The first Sanitarium cafes opened in March 1902 in Sydney's Pitt Street and in 1907 in Auckland's Victoria Street. These stores generally incorporated a cafe as well as a retail outlet where patrons could buy much of what they had eaten.

"The overriding aim of the cafes was to introduce people to a better way of living through vegetarian meals and cooking lessons. While the stores flourished through to the 1960s, changes in buying habits of consumers prompted Sanitarium to close its cafes and retail shops. However our commitment to sharing our knowledge has not ceased. We now provide education and information through our Nutrition Education Service, which was established in 1987." Address: Australia.

2606. Camps, Lisa. 2005. Re: History of work with soyfoods in Goa, India. Letter (e-mail) to William Shurtleff at Soyfoods Center, May 15. 2 p.

• ***Summary:*** 1984–Lisa came to Goa to nurse a friend back to health; he was a vegetarian. While in India she discovered so many alternative styles of life, so many people from all over the world with a similar consciousness related to healthy body, mind, and spirituality. All "seemed to care about the planet, nature, peace, yoga, natural healing, vegetarianism, etc. India is a whole country of vegetarians,

© Copyright Soyinfo Center 2021

but in Goa, a former Portuguese colony, the inhabitants are mostly Christians who eat meat." That year, Lisa became a vegetarian.

She returned to America, only to yearn to come back to India. So she spent 7-8 years coming and going, whenever finances permitted. When in the USA, she worked with food, in restaurants, hotels, night clubs, made good money, then left again. She took many courses in the health and nutrition at community colleges. She had seen many unhealthy vegetarians and wanted to learn how to be a healthy, vigorous vegetarian. Having helped to deliver 4 children by natural child birth in Goa, she was interested vegetarian diets for children and natural healing.

1982–While in Goa, Lisa met an Australian woman, Diane [Froggatt], who was making her own tofu, because it was not available, and all were tired of Dal (lentils). "I asked her to teach me, and she did... I happily made it for myself to fill the protein gap. Along with Tofu also comes Soy Milk and Okara! A bonus! Made soysausage, soya burgers, etc., but only at home at that time."

1986-87–Lisa attended a Michio Kushi Institute in Switzerland; she learned macrobiotics and shiatsu, which she practiced for about a year, then decided that macrobiotics was "excellent for healing purposes, but not for daily life, simply because any diet so extreme and tasteless is doomed to opposite extremes." She observed that most people who regularly ate a macrobiotic diet "craved massive amounts of Chocolate, or some other form of 'naughtiness.'"

1989-90. Lisa decided to settle in Goa. It had really become her home and it was too expensive to fly back and forth. But how to make money in India? Her many Indian women friends adored lingerie. So she did all the necessary paperwork and started a business named Ooh-La-La-Lingerie Pvt. Ltd., importing undergarments from Europe and traveling all over India to sell them to major department stores. The business went well for 2-3 years until the suppliers and buyers connected–leaving her out.

At the same time, Lisa was selling soya burgers, hummus brown bread, and 4 flavors of soy milk in the Flea market [in Anjuna], where she had a food stall; she made these in her home kitchen. "Then a few people started asking me if I could make them some Tofu! So, I thought why not, since I'm doing it for myself anyway." "All our production started in a small room (in my house), which I converted into a special tofu room, with ventilation above a false ceiling, a sink, stainless steel tables, and extreme hygiene. It was about 3 meters on a side with white tiles. We used (and still use) Aqua Guard water filter systems for all production and packing. So I started by making 2-3 kg at a time, squeezing the milk through a cloth by hand, actually burning my hands on a regular basis, until I decided to build a press. Made some wooden tofu boxes, and did the grinding on a grinding stone. Ouch, too much time and labor! We were selling only to shops and Five-Star hotels.

"As time passed and orders got bigger, my friend and now partner, Richard Chabin, helped me get some machinery, Then, I wanted to learn about Tempeh, and how to make it. There was an American fellow named Joseph Papa who had a book and an interest, so I traded him my shiatsu massages for the method on how to make Tempeh. My interest in Tempeh was the vitamin B's only found in Tempeh. Important if you don't eat beef liver.

"So now I knew many soy foods, and was happily cooking for many friends daily. I enjoy cooking, and they enjoyed eating.

"Then I tried to market the tofu to the local market and restaurants, but as they were not familiar with it, they were afraid, even after I gave them many recipes" and even showed them how to prepare it Indian style–like paneer. "That's when I decided to open a small sandwich shop."

1999–The sandwich shop, named Bean Me Up, Soya Station, Salad Bar, was a "raging success from the beginning." It became too big for the original premises, and there were long lines at peak season. Note: The restaurant name derives from a famous catchphrase from the movie *Star Trek*, "Beam Me Up, Scotty!"

2004 Oct. 31–Lisa took on large premises with 14 rooms to rent and a small health food shop and restaurant. The commercial foods (tofu, tempeh, soymilk, etc.) are made in a separate building (a small factory) on the compound. It opened on Halloween with a costume party. The "real point is the restaurant" (which kept the same name); it is a unit of Ooh-La-La Ling. When people discover that they can get fresh safe salads, Tofu, Tempeh, Seitan, soya ice cream, Tofunaise, etc. after traveling in India, they are so Appreciative. That is a reward in itself! I truly believe that to introduce people to a more healthy diet, and to given up meat, the alternative must taste good, or why would they consider changing? Hence, our theme is 'The Tasty Alternative.' Lisa, now an established businesswoman, has a new source of income from her 14-room hotel!

Two months later, on 24 Dec. 2004 (Christmas eve), a mob of 150 people, escorted by two policemen (for the mob's protection!) went to the Anjuna-Chopra beach belt and rudely demanded that certain restaurants and shops close down. Why? Because their owners were of foreign origin. No matter that Lisa, of American origin with an Indian passport, had lived in Goa for 23 years and had all the legal papers required to run her business. The agitation was probably initiated by indigenous restaurant / shop owners who resented the foreigners' success and had the blessings of local politicians–a familiar theme worldwide. Fortunately, Lisa had some friends with the National Press, *Times of India,* so she and her fellow foreigners showed no fear, followed the procedures, and made a big noise; the actions of the mob were clearly illegal. Her restaurant was never shut down and the problem appears to have gone away.

Lisa is a member of the Vegetarian Society of India,

© Copyright Soyinfo Center 2021

and occasionally they call on her to give seminars for the members.

Note: Diane Frogatt died a few years ago from cancer.

Photos sent by Ratan Sharma in 2010 and taken by him in Jan. 2005 show the entrance to and the inside of this remarkable soy restaurant and salad bar. They serve only soy-based recipes. They also have a branch in Hyderabad. Note: Lisa does not own a SoyaCow. Address: Owner, Bean Me Up, 1629 Deulvaddo, Anjuna / Vagator, Goa, India 403-509. Phone: 0091-(0)832-227349.

2607. *SoyaScan Notes.* 2005. Paul Chappius Bragg–Social Security Death Index (Overview). May 31. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** According to the Social Security Death Index: Paul Chappius Bragg was born in Feb. 1895–Place unknown. His Social Security number is 554-42-5580. He died in Dec. 1976. Place unknown. The Bragg offices say in Hawaii. His last recorded residence was Desert Hot Springs, California 92240. Two people say he drowned in Florida.

Note 1. An official search of California's Statewide Index, Dep. of Health Services, Office of Vital Records, from July 1905 to the present (July 2005) found no record of the death of Paul Bragg; a certificate of that result was issued by the Office.

Note 2. An official search (Sept. 2005) of Hawaii's Statewide Index, State Dep. of Health, Vital Records Program, from 1971 to 1981 found no record of the death of Paul Bragg; a certificate was issued by the Office.

2608. Plamil Foods Ltd. 2005. Plamil (Website printout–part). www.plamilfoods.co.uk Retrieved July 18.
• ***Summary:*** See next page. Home: About us. Products. News. Shopping. Specials. F.A.Q. The home page shows close-up of 12 product labels. Plamil sells 27 consumer and 11 catering / foodservice products. The Products and the Shopping pages show these products and their labels in more detail: Chocolate (100 gm)–Plain, Mint, Roasted Hazelnut, Orange, Martello. Organic chocolate (95-100 gm–Dark, Cayenne, Expressions, Ginger, Plain, Mint, Orange). Organic Chocolate Spread (275 gm)–Plain, Orange, Hazelnut. Carob (95 gm)–Plain, Orange, Hazelnuts, No Sugar Added. Milk Alternatives (1 litre)–Organic Soya Milk (plain), White Sun (contains no soya). Egg Free Mayonnaise (315 gm)–Plain, Garlic, Chili, Tarragon, Organic Plain, Organic Lemongrass. Catering packs (1.5 to 10.5 kg)–Mayonnaise, Chocolate Drops, Baking Chocolate, Carob Drops.

About us: "Plamil is a private company making top quality tasty food for all, supplying customers, retailers, wholesalers and food catering / manufacturing facilities worldwide. Our specialty is making food products free from any animal origin. This means we make great tasting products ideal for those who follow a vegan diet and for all those with allergies to ingredients like dairy milk, eggs, etc.

© Copyright Soyinfo Center 2021

Many products in our range are organic and we are against the use of genetically modified ingredients."

"Our history: Plamil (then Plantmilk Ltd.) was created to manufacture a 'milk' from vegetable source, and made UK history by pioneering British made soy milk in 1965. This was formulated by nutritionists and fortified to cater for the average vegan requirement. Gradually from those early years Plamil has diversified to manufacture a whole range of foods that you see today.

"Where we make our products: We manufacture products in our own factory, where no animal ingredient is ever used. We are also wheat / gluten free site and strictly control purchase of all our ingredients to ensure that none are genetically modified... Also there are no hidden ingredients or processing aids with our products. The ingredients on the label are what you get, nothing more."

"Latest news: Arthur Ling 1919-2005. It is with great sadness we have to report that our founding Director Arthur Ling passed away on the 18th of January. Since the early 1960s his dedication to this company was renowned. He will be sadly missed by all Directors, staff and all that knew him." A color photo shows Arthur Ling.

Click on the link for Arthur Ling to get a full biography. Veganism was his religion, which he spent a lifetime promoting. He had three children: Julie, Trevor, and Adrian Ling (who now runs Plamil). He had unwavering and uncompromising views on many subjects related to a vegan lifestyle. He was anti-war, egalitarian, and a supporter of "the common man." "A Lover of the outdoors, we was an active Naturist [nudist]. In 1898 England's first health food store was established by "Henry James Cook, who named his store Pitman Health Food Store, in honor of the vegetarian Sir Isaac Pitman, the inventor of shorthand. In 2001 Arthur was awarded the newly created Henry James Cook Award for 'his life's work in the development and production of vegan foods especially for the introduction of the first plant-derived vegan milk in the United Kingdom.' This was Arthur's most cherished award." In 1926, at age 7, he became a vegan when he witnessed a fish being killed at the seaside. "He kept notes of a lecture given in 1938 titled 'Health without dairy produce,' which influenced him greatly. Arthur worked at the London Vegetarian Society, and after the Second World War became an active member of the new Vegan Society, created by Donald Watson in late 1944. For a few years Arthur had his own health food store, and also served on the council of the National Association of Health Food Stores. An accountant by profession, Arthur was involved in his first commercial project in the post war years. A company called Solflower Ltd., based in Wales, was created to produce biodiesel from sunflowers. Unfortunately this project was 50 years ahead of its time and did not enjoy commercial success.

"Arthur is known by most for his work at Plamil and the Vegan Society. From his association with the Vegan Society in the 1950s he joined a group interested in producing a non-dairy milk. Later Arthur attended a meeting called for by Leslie Cross, who later gave it the name, the Plantmilk Society." He worked tirelessly on its behalf. Address: Folkestone, Kent, England CT19 6PQ. Phone: 01303 850588.

2609. Kohnen, Colleen. 2005. Memories of Bill Baker's Bakery of Ojai, California (Interview). *SoyaScan Notes.* Nov. 1. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Colleen (age 24 at the time) and her husband, Thomas, bought "Bill Baker's Bakery" in Feb. 1989. They left Ojai in 2003. She now wishes that, before they left, she had given all documents and artifacts in the bakery to the Ojai Valley Museum. But she felt they belonged to the person–Laurel Moore–who owned the building and its new restaurant, Azu. The original brick oven, now over 100 years old, is still in the building, in a dining room as decor. It can't be moved unless you take it apart brick by brick, then reassemble it somewhere else.

Helen Thede and her husband, who were both accountants, purchased the bakery from Harmon Vaughn; they owned it for a while but were not successful. So the Thedes sold it to John and Vera Welty, and Ed Romano (3 co-owners). They were the owners of the building and the Kohnens' landlords the whole time they were there. "It had lost all of its former glory by the time we took it over."

In 1991 the *Star Free Press* in Ventura did a nice article on her husband and the bakery titled "Baker does Baking Like First Baker," by Sylvia Scott (Aug. 1, 1991). It begins: "Before there was an arcade or a post office tower, a baker named Baker created recipes for breads and rolls and crafted glorious cakes too beautiful eat..."

One day Colleen was in a far back garage room when she found an old box full of photos. She framed the best and put them on the walls. There were already a few things in frames on the walls. The biggest framed photo is of the Golden Gate Wonder, a life-sized black-and-white photo of the 1,000-lb. cake for the 1939 Fan Francisco Exposition. It is about 8 feet wide and about 5 feet tall. They hung it in the front room of the bakery. Colleen also put an antique glass

© Copyright Soyinfo Center 2021

and wood display case in the bakery's front room, and filled it with old artifacts–such as molds (all made of clay)–some brought to her by the wife of Ed Romano, who lived on Santa Catalina island near Southern California. She still has a box of things related to Bill Baker.

Colleen and her husband made a living from their bakery in Ojai but were not able to save enough to make improvements on the old building. Her dream was that someone who lived in Ojai and was in the film industry would come in and restore the bakery and building to its original grandeur. The Kohnens had a standing offer to buy the building, but they could not afford it. Then one day they met Laurel Moore, who was planning to buy the building. She let them continue to run their business in the bakery while she started a cafe / restaurant in the other half. She spent at least a million dollars buying and restoring the building. They tried this arrangement for about a year but it went from bad to worse. The Kohnens' sales fell from $850/day to $200/day. She took down the bakery sign and wouldn't let the Kohnens put up another one. "There was a lot of confusion in Ojai as to what was going on at the bakery." Colleen found it very difficult to work with Laurel–who let the Kohnens cut their lease short, close the bakery (1 Feb. 2003) and leave for Tehachape–where today the bakery's sales are double what they were in Ojai. "It was the hardest thing in the world for me to walk away from that bakery in Ojai. I never imagined not being there. We still have many Ojai customers who drive the 150 miles north to Tehachapi and take big orders back with them.

A train used to come into Ojai from Ventura; its now a walking and riding trail. It came all the way up to Fox Street, which is the bakery's cross street. Harmon Vaughn, who was making 25,000 loaves a week, would load it up. Since the train had no way to turn around in Ojai, it would go backwards for 20 miles until it came to Ventura. Bill Baker's huge cakes would all be shipped from Ojai the same way.

Colleen and Thomas still have many of Bill Baker's original recipes for soy and lima bean breads and cookies. Address: Kohnen's Country Bakery, 125 West Tehachapi Blvd., Suite D, Tehachapi, California 93561. Phone: 661-882-4938.

2610. Dilling, Eloise T. 2005. More about Adelle Davis and the Adelle Davis Foundation (Interview). *SoyaScan Notes.* Nov. 5. Conducted by William Shurtleff of Soyfoods Center. • ***Summary:*** Eloise's father was an attorney for the National Health Federation (NHF) in the health food industry, and for Adelle Davis. Before Adelle died, she established the Adelle Davis foundation, The former president of her foundation, Stephen Thurman, a Mormon and a certified public accountant (CPA) did not pay taxes the foundation's taxes, embezzled quite a bit of its money (he took as much as he could as he went along, until Eloise caught him), stole its car, library & archives, then died in a car crash. He could not have gotten away with all this mischief if the board of directors had been exercising its responsibilities more effectively. Eloise is suing his estate.

Fortunately, she has the rights to all of Adelle Davis' books and she plans to bring them back into print. She now runs the foundation out of her home, and earns a salary. She has added to the Foundation's principal by selling real estate. She would like to try to reconstruct the archives; she doesn't even have a photo of Adelle Davis! The foundation now has a nice website, created and maintained by college students.

Adelle's first husband was named Leisey. She adopted two children: George Leisey (who now lives in Vermont) and Barbara Davis (who may live in Hawaii). They have little interest in Adelle's foundation.

The Adelle Foundation now has about $1 million left, carefully invested. The dividends and interest are used to fund the daily activities. The foundation is charged with giving grants for nutrition education and research. These include: (1) Adelle Davis Scholarship to U.C. Berkeley, College of Natural Resources. $10,000, 2nd year. (2) Brigham Young Univ., Utah. They have an endowment established by the Adelle Davis Foundation's former president; the foundation adds to that a yearly scholarship or research grant. (3) Cal State Los Angeles. They also have an endowment, and receive an annual grant for a scholarship or research. (4) Santa Barbara City College: Scholarships and a program with the school of culinary arts, with matching funds from local restaurants. (5) Univ. of California at Santa Barbara: The Foundation donated $5,000 so they can get teacher's aids for their nutrition classes.

The board of directors establishes the foundation's long term goals within the boundaries of Adelle's written wishes. Eloise does most of the work.

A fellow in Carbondale, Colorado, is writing a book which will include a chapter on Adelle Davis. Soyfoods Center suggests that a good, balanced biography of Adelle Davis, set in an historical perspective, is much needed. It should give a good explanation of her contribution to the fields of health and nutrition. Address: President, Adelle Davis Foundation, 116 Middle Rd., Suite K, Montecito, California 93108. Phone: (805) 969-9076.

2611. Richmond, Akasha. 2005. Natural foods leadership conference in Austin, Texas (Interview). *SoyaScan Notes.* Nov. 5. Conducted by William Shurtleff of Soyfoods Center. • ***Summary:*** Akasha just returned from a natural foods leadership conference in Austin, Texas, at The Crossing, hosted by Doug Greene (founder of *Natural Foods Merchandiser* and New Hope Communications, Inc.–1975) and Steve Demos (founder of White Wave). About 120 people attended. The tone was very low key, with a spiritual background and lots of mentoring and share-and-tell sessions. One session was on values, and another on the spiritual side of business. Yoga classes were offered every

© Copyright Soyinfo Center 2021

morning. Peter Roy, Drake Sadler, Michael Funk were there. There was a drumming session one evening; each of the participants was given a drum. The theme: We are a tribe and this is our gathering.

Akasha took the galleys to her new book *Hollywood Dish* (formerly *Healthy Hollywood*), showed them to those who were interested (Steve Demos leafed through them), and talked mostly about Otto Carque. Most of the people seemed very surprised to learn that the natural foods industry in California had its origins in Los Angeles in the early 1900s; many felt that they had created this new industry themselves.

Randy Lindberg, who lives in the Los Angeles area, told a remarkable story. His grandmother had 5 health food stores in Los Angeles during the 1950s, named Lindberg Nutrition or Lindberg's Nutrition Service. She used to make what is now called Tiger's Milk in a blender at home. Her husband called it Panther Piss. They turned Adelle Davis onto it and to the drink's two names. Adelle sold both the product and one of the names (guess which) to Plus Products, and it became one of the most famous of all health foods during the 1960s and 1970s.

Randy's family eventually sold his grandmother's health food stores and used the money to start Nature's Best–a very large distributor of Natural Foods in Southern California; they compete with United Naturals.

Jethren Phillips told the story of Spectrum Naturals, the vegetable oil company. Jethren had previously run United Naturals, a natural foods distributor in Eureka; in the early 1970s he used to work in the Help restaurant in Los Angeles, owned by Warren Stagg.

Steve Demos and Doug Green have become really good friends. They and Steve's wife (who Akasha has found to be a very spiritual, grounded, fabulous lady) left yesterday on a trip to India. Steve hopes to return to his cave at the foothills of the Himalayas. No firm return date is planned. Address: Los Angeles, California.

2612. Shepherd, Katie. 2005. Re: Azu restaurant and Bill Baker's Bakery. Letter (e-mail) to William Shurtleff at Soyfoods Center, Nov. 5. 1 p.

• ***Summary:*** "When Laurel Moore bought the bakery and put in Azu she tried to accommodate the locals by retaining the bakery in half of the front room. It didn't work. Laurel had a concept in mind of what her restaurant should be and the bakery standards weren't up to her standards. The locals defected because even though they could still get their morning pastry, they had to pay what they felt was too high a price for the coffee in the Azu section of the front room. So of course the bakery section is now a bar." Address: Ojai, California.

2613. Richmond, Akasha. 2005. Hollywood dish: More than 150 delicious, healthy recipes from Hollywood's Chef to the Stars. New York, NY: Avery–A member of the Penguin Group (USA) Inc. xi + 310 p. Illust. Index. 25 x 20 cm. [125 ref]

• ***Summary:*** One of the most original and interesting cookbooks seen in decades. This book, originally titled *Healthy Hollywood*, is much more than just a collection of superb recipes and stories about Hollywood celebrities and glitterati. In carefully researched and well-written sidebars, it documents the history of health foods in Hollywood and southern California. The introduction to each chapter tells the history of that type of food, and every recipe has a long and interesting historical headnote. The acknowledgments show vividly Chef Akasha's high and wide circle of Hollywood friends. The introduction–"The Road to Hollywood" tells the story of how Akasha got interested in and researched this subject. History is woven into every page of this book–in the most palatable way. In short, this is a cookbook with a remarkable tale to tell–one to read and study–as well as one to cook from.

Sidebars and illustrations: (1): "The stars and the Hollywood Diet"–Sue Carol (lovely future wife of Alan Ladd) on the cover of *Motion Picture* magazine, Oct. 1929. (2) Mildred Lager (1908-1960). (3) Harry Chandler (1864-1944). (4) Granola (Layton Gentry, Adelle Davis, Dorothea Van Gundy Jones). (5) Photo of silent film star Anita King eating Sun Maid Raisin Pie, 1916. (6) Adelle Davis (1904-1974). (7) Clarke Irvine (1892-1975). (8) Photo of Radiant Radish health food store, owned by Beach Boy Brian Wilson, Los Angeles, 1969. (9) Otto Carque (1867-1935), with a photo of his health wagon, around 1912. (10) Gayelord Hauser (1895-1984). (11) "Nature Boy"–Bill Pester and the 1948 hit song by Eden Ahbez. (12) The Ashram–Hollywood restaurant founded by Anne-Marie Bennstrom. (13) The Hollywood diet, with a photo of page 1 of the "18-Day Diet" from *Motion Picture* magazine, Oct. 1929. The sidebar begins: "The first best-selling diet book in America, *Diet and Health, with a Key to the Calories*, was written by Los Angeles-based Dr. Lulu Hunt Peters in 1918, and sold over 2 million copies. The book introduced the concept of counting calories." (14) Alan Hooker (1902-1993). The grandfather of California cuisine, he opened the Ranch House restaurant in 1956 in Ojai, California. (15) Gloria Swanson–Hollywood's Green Goddess. She "was the highest paid and most popular, influential star of the 1920s." (16) Jim Baker (1922-1975). A pioneering organic restaurateur, he opened the Aware Inn in 1957, then the Source restaurant in 1969. (17) Raw, raw, raw (Arnold Ehret, Vera and John Richter, and raw foods). (18) Photo of silent film star Mary Pickford drinking orange juice made with Sunkist fruit and juicer. (19) The godfather of fitness–Jack LaLanne. Master chef Danny Kaye (1913-1987). (20) The Farmer's Market in Los Angeles, started in 1934. (21) Paul Bragg (1881-1976), with photo of Rita Hayworth on the cover of his *Health Builder* magazine. (22) Books and cooks–"150 Recipes of the Stars (1928), Helen Evans Brown. (23) Health foods–Dr. John Harvey

Kellogg, the rise of health food sections in the late 1800s in L.A. department stores, the rise of health food stores, Sandy Gooch. (24) Mae West (1893-1980). Gypsy Boots (1914-2004). Photo of Boots and Paul Bragg. (25) Food and film. (25) Photo of Donna Reed and Paul Bragg, sometime in the 1950s. (26) Bernarr Macfadden (1868-1955). (27) Celebrity stew and Leo Pearlstein. (28) Vegetables, fruits, and nuts (incl. Frieda Caplan, Albert's Organics). (28) Rancho La Puerta and the Golden Door. Photo of young Burt Lancaster baking bread at La Puerta. (29) Fred Waring (1900-1984), the blender, and smoothies. (30) Hain Pure Foods. "Harold Hain opened his first health food store in downtown Los Angeles on October 17, 1926." (31) Swamis and yogis. Paramahansa Yogananda arrived in L.A. in 1925; he advocated a healthy vegetarian diet, including in his magazine *East West,* first issued in 1926. On 8 April 1951 he opened SRF India Café at his India House compound on Sunset Boulevard. "Yogi Bhajan (1930-2004) came to Los Angeles in 1969, bringing the teachings of Kundalini Yoga and his own unique style of Indian and Ayurvedic cooking. In 1974 his students opened Golden Temple Conscious Cookery in Los Angeles. I [Akasha] was a cook there from 1979 to 1984..."

Soyfoods are used in recipes (and recipe titles) throughout this book: Edamame or fresh green soybeans (used in 2 recipes), miso (1 recipe), soymilk (many, especially in place of milk in desserts, incl. "Chocolate Jack Daniel's soy gelato" and "Soya chocolate" milk), soy flour (1, Bill Baker's bread), soybeans (whole, 1, "Soybean casserole"), tofu (10), and tempeh (4).

Also discusses: Sophie and Harry Cubbison (p. 47), El Molino Mills (p. 106). Early veggie burgers (p. 106). Silk soymilk and Steve Demos (of White Wave, p. 266).

The recipes in this book are largely vegetarian (including 17 vegetarian main dishes), all call for organically grown ingredients, and many are dairy-free (using soymilk instead of cow's milk). However: Beef (used in 2 recipes, incl. "Fillet mignon Japanese"). Pork (used in 1 recipe, "Citrus roasted pork chops with rosemary potatoes"). Chicken (used in 6 recipes, incl. "Endive petals with curried chicken salad"). Turkey and duck (3 recipes). Fish (many recipes as for cod, halibut, salmon, whitefish). Shellfish (crab, scallops, shrimp).

Talk with Akasha Richmond, who calls. 2005. Dec. 7. Her favorite parts of the book are: The smoothie story (p. 275-80, both dairy and nondairy). Otto Carque. Gloria Swanson. Yogis and Swamis, Granola. She is very happy with everything about the way the book and its promotion turned out ("It looks great")–except she wishes she could have included more photos. Address: Los Angeles, California.

2614. Richmond, Akasha. 2005. Gayelord Hauser (1895-1984). In: Akasha Richmond. 2005. Hollywood Dish. NY: Avery–A member of the Penguin Group (USA) Inc. xi + 310 p. See p. 85.

• ***Summary:*** This is a good example of one of the many carefully-researched 1-page sidebars scattered throughout this book:

"The most influential health guru to come to Hollywood from Germany was Gayelord Hauser, the original 'nutritionist to the stars.' When Hedda Hopper reported on the famous lunch Gayelord Hauser made in Paris for the Duchess of Windsor and other socialites, she said that Hauser made 'spinach fashionable on three continents.'

"Hauser was the man who glamorized health food and inspired people all over the world to change their eating habits. He coined the term 'food for beauty,' and inspired Helena Rubenstein to open a 'food for beauty' restaurant. It was Hauser's teachings that Ann Delafield used when she directed Elizabeth Arden's Maine Chance Farms, the first luxury health resort on the East Coast and a known getaway for film stars and socialites. Even the legendary Maxim's in Paris once held a private party for Hauser, complete with a' Hauser Bar' stocked with vegetable and fruit juices. When President Peron (husband to Eva) was inspired to bring him to Argentina because he felt his people were eating too much meat, the street markets were sold out of fruits and vegetables the next day.

"As with many of the early pioneers, Hauser had a health crisis at an early age. Given up to die by conventional doctors, he went to Europe for a 'nature cure.' In Switzerland a family friend told him, 'If you keep on eating dead foods, you will certainly die. Only living foods can make a living body' He took the advice and discovered what diet could do. He traveled through Europe, studying with top experts such as Dr. Bircher-Benner in Zurich. Once cured, Hauser set out to share his miracle with the rest of the world.

"Hauser came to Hollywood in 1927, and he met Greta Garbo through conductor Leopold Stokowski. He changed her diet while she made her classic movie *Ninotchka* (1939). Garbo and Hauser nearly married at one point, and their sightings and goings-on were written about in all of the gossip columns."

A photo shows "Gayelord Hauser and actress Jean Harlow drinking vegetable cocktails, 1933." Address: Los Angeles, California.

2615. Richmond, Akasha. 2005. Otto Carque, 1867-1935. In: Akasha Richmond. 2005. Hollywood Dish. NY: Avery–A member of the Penguin Group (USA) Inc. xi + 310 p. See p. 78.

• ***Summary:*** This is a good example of one of the many carefully-researched 1-page sidebars scattered throughout this book:

"There might never have been a 'Healthy Hollywood' without Otto Carque, who preceded all of the early health entrepreneurs. Carque was born in Germany and came to California for the first time in 1889. He lived in New York

© Copyright Soyinfo Center 2021

for a few years, finally settling in Los Angeles in 1905. His mission was to market and sell the dried fruits and natural products of California, especially the Black Mission fig. By 1912 he was selling natural foods out of his 'health wagon,' a mobile truck that carried the banner 'Carque's Pure Food.' He eventually trademarked the name 'Natural Foods of California' and was the first company to use the term 'natural foods,' as well as the first to speak out against the use of preservatives.

"His trademark was a black leather doctor's bag filled with dried fruits and nuts, along with literature about health. One of his friends referred to Carque's little 'black bag' as the symbol of the future doctor, since he treated patients with food, not drugs. After years of selling wholesale, Carque opened his first health food shop in 1922. He sold olives, olive oil, fruit juices, nut butters, freshly milled flours, grains, unsulphured dried fruits, and a variety of other products. By 1926, there were three Carque shops, including one in the heart of Hollywood, a block away from the famed Pantages and Warner Pacific Theater, originally built as the flagship palace for Warner Bros. Studios.

"Carque was the first to package and sell an all-natural 'health bar' called Carque's California Fruit Bar, which he made with carob, nuts, and dried fruit. The bar sold for five cents in 1927, and eventually was distributed all over the country. Recipes for his 'fruit and nut confections' appeared in his books, *Natural Foods, the Safe Way to Health* (1925) and *Vital Facts About Food* (1933). Carque was an avid hiker, and he claimed that his dried fruit confections would produce 'muscular energy and endurance for the traveler, long distance walker, and mountain climber.' This was over seventy years ago, many fig seasons away from the 'energy bar' craze of today."

A photo shows: "Otto Carque, second from right, and his health wagon, around 1912." Address: Los Angeles, California.

2616. Richmond, Akasha. 2005. Clark Irvine, 1892-1975. In: Akasha Richmond. 2005. Hollywood Dish. NY: Avery–A member of the Penguin Group (USA) Inc. xi + 310 p. See p. 49.

• ***Summary:*** This is a good example of one of the many carefully-researched 1-page sidebars scattered throughout this book:

"Cark Irvine was born in Salem, Oregon, and moved with his family to Santa Monica when he was about eight years old. Clark was in the film industry in its early years, writing screenplays and playing small parts on film and stage; he also worked as MGM's and Charlie Chaplin's first publicity director. He wrote a syndicated column called 'Studioland' and published a weekly newspaper called The Screamer. His friends included Will Rogers, John Barrymore, Douglas Fairbanks, Mary Pickford, and Charlie Chaplin, whom he played tennis with at Hearst Castle. He helped his friend Fatty Arbuckle get into the movie business by introducing him to Mack Sennett, director of the legendary Keystone Kops, and put the first 'grease paint' on his good friend actress Myrna Loy. He eventually quit the movie business and traveled the world as a roving reporter for the United Press wire service. In 1933 he launched California Health News, one of the first California natural food industry periodicals. Irvine often reported on his travels in the magazine. The magazine sold in health food shops nationwide, and Irvine often traveled to other cities to report on the health happenings in other towns. *California Health News* became *Let's Live* in 1942, and Irvine often reported on the eating habits of Hollywood, or as he would call it, 'Cinema City' or 'Movieland.' A typical cover might feature a young Gayelord Hauser serving vegetable cocktails to actress Jean Harlow.

"Irvine also wrote a little book called *Health! With Remedies and Recipes,* which sold very well. In 1946 Irvine married Alice Marks, who helped him write and publish the magazine and was a frequent recipe contributor. They lived in Hollywood near a peach orchard, where they started the first business of renting trailers to film stars. Irvine loved fruit, especially watermelon, and never drank, except for the occasional champagne when they went out dancing in Hollywood with Paul Bragg and his girlfriends. In 1949 he sold *Let's Live* and left Hollywood for the small town of Alpine, near San Diego, where he published the *Alpine Sun,* known as 'America's Tiniest Newspaper' At sixty-five he learned to fly a plane and made two radio broadcasts a week called 'Early Days in Hollywood,' which is also the title of his still-unpublished manuscript. Almost seventy-five years later his magazine *Let's Live* still features celebrities on the cover and is still going strong.

A photo shows: Clark Irvine, standing with his arms crossed, founder of *California Health News* and *Let's Live* magazine. Address: Los Angeles, California.

2617. *SoyaScan Questions.* 2006. Questions about the life and work of Paul Bragg and Patricia Bragg. March 6. Compiled by William Shurtleff of Soyinfo Center.

• ***Summary:*** 1. Descendants: Does Paul Bragg have any living children or grandchildren? If yes, where is each living and are they willing to talk about Paul Bragg? Try to create a basic genealogy.

Education: Did Paul Bragg attend high school? Where and when? Did he graduate? Did he ever attend college? Where? Did he graduate? What were his majors? Did he Paul attend the Virginia Military Institute (located in Lexington, Virginia)? When? Did he graduate? What were his majors? Did he attend New York University?–from which he claims to have received his N.D. (Doctor of Naturopathy) and D.PhT. (Doctor of Physiotherapy). What enables him to call himself a "biochemist"?

When and why did Paul Bragg start to reinvent himself?

© Copyright Soyinfo Center 2021

After his divorce? Before meeting Patricia, his daughter-in-law? Did he do it pretty much all at once or gradually, over the years?

Tuberculosis: In later life, Paul often said that he was diagnosed with tuberculosis at age 16? Is this true? Where was he? Did this prevent him from serving in the military?

Europe: When did he first travel to Europe, what did he do there, and whom did he meet? Was he healed of any disease?

Where was Paul Bragg at the time of the 1930 U.S. Census? He is not listed in Burbank, California.

Patricia: Does Patricia Bragg have a legitimate PhD degree or ND degree from an accredited college or university? When and where did she earn it? 2006/01–Not listed on Quackwatch.

Paul and Patricia's television / TV show in Los Angeles: What was the name of the show? On what exact date did it first air / was it first broadcast? Sept. 1959 On what TV channel was it and on what network? Was it Channel 9, WHJ-TV? Where were the episodes filmed? Los Angeles? Hollywood? How long was each episode? 15 minutes? 30 minutes? Throughout its history: Who paid for it and who was the major sponsor (or sponsors)? Was it self-sponsored by Paul or by his company, Live Foods, Inc. During the first year, what approximately was the maximum number of people who watched the show on one day? During show's entire history, what approximately was the maximum number of people who watched the show on one day? When was the last episode broadcast on TV? Note: On 26 Jan. 2011, Mike, who was in charge of marketing for the Bragg businesses, invited Shurtleff to send these questions to Patricia Bragg, who was on site. He added (Feb. 4): "Please send us a phone number where Patricia Bragg can reach you. She will want to answer all your questions..." He sent them twice, several weeks apart. Patricia never replied.

7. Divorce: What happened to the three health businesses Paul Bragg owned in Los Angeles?

2618. Kohnen, Colleen. 2006. Re: Memories of Bill Baker's Bakery of Ojai, California. Letter (e-mail) to William Shurtleff at Soyfoods Center, March 13–in reply to inquiry. 1 p.

• ***Summary:*** Thomas (her husband and a master baker) was an employee of the bakery from the fall of 1987. They were married in Oct. 1988, and then began negotiations to purchase the existing business. During the time Thomas was an employee (Head Baker), the current owners (John and Vera Welty) operated under the name Ojai Valley Bakery. After learning of all the history attached to the building and business, Thomas and Colleen decided it would be best to return the business to its original name, Bill Baker's Bakery. "At least I believe it was the original name, nonetheless, everyone in Ojai, especially the oldtimers, referred to the bakery as Bill Baker's. Thomas and I wanted to give it back its original name and respect.

"I began working at the bakery January 1989, about one month before we took over ownership from the Weltys. I started as an observer mostly, then the existing staff began training me. We officially took over February 1, 1989."

Other people who know the bakery's history: (1) Louise Downard, who was the niece of Harmon Vaughn, and was an employee of the bakery 30-40 years ago, during her uncle's reign. (2) Ralph Downard, Louise's husband, was a standard fixture of the bakery for many years although he was probably not an employee. "He loved being at the bakery all hours of the day to just visit with the regulars and staff and drink 'on the house' coffee... Ralph knew everyone and everything." He died in the 1990s. Louise and Ralph lived in a brick house behind the bakery on I believe Topa Topa Street. Louise probably still lives there. Helen Vaughn lived next door to Louise. (3) A Filipino family owned the bakery for a while; Colleen does not know their names but Louise might. They introduced egg rolls, which were delicious and very popular. Ralph knew the recipe by heart and taught it to Colleen. He made it a couple of times a week. Address: Kohnen's Country Bakery, 125 West Tehachapi Blvd., Suite D, Tehachapi, California 93561. Phone: 661-882-4938.

2619. Welty, John F. 2006. Memories of Bill Baker's Bakery in Ojai, California (Interview). *SoyaScan Notes.* March 14. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Ojai Valley Bakery Inc., a private corporation of which John was president and majority shareholder, owned Bill Baker's Bakery until 22 Feb. 2002, when the corporation sold the building to Laurel Moore, who wanted to start a new restaurant there named Azu, and (simultaneously) the bakery to Thomas and Colleen Kohnen provided that it would remain Bill Baker's Bakery and stay in Ojai. If John had known that Laurel was not planning to continue in the baking business, he probably would not have sold the building or the business; this failure to understand still bothers him.

In 1979, a fire burned down most of the right rear wood quarter of the building, which was owned by Harmon Vaughn. The one thing they saved was the sourdough starter. Fortunately, Vaughn was covered by insurance, so he rebuilt the building and repaired the old oven. The back portion of the bakery (which was frame and stucco) was entirely rebuilt. Contractor Aaron Murray did the renovation, valued at $50,000. The inspection permit lists 7 March 1980 as the date complete power was turned on.

The corporation was established for the purpose of purchasing Bill Baker's Bakery. On 6 Aug. 1984 Arnfrid Kahnt and John F. Welty purchased the business (Bill Baker's Bakery) for the sum of $75,000 from Ed Romano. Arnfrid, from Germany, was a Master Baker; he was to be the manager-baker and John was called in to help as an investor. The joint ownership had all the possibility of continued growth of the Bakery and good return on the

© Copyright Soyinfo Center 2021

investment. Arnfrid Kahnt was the head baker from 6 Aug. 1984 to 31 Dec. 1985.

About 2 months later, on 12 Oct. 1984, Ojai Valley Bakery, Inc. was formed and the above interest in Bill Baker's Bakery was assigned. John was majority stockholder and was elected president of the corporation; Arnfrid Kahnt was vice president.

After about 6 months John noticed that that the bakery was not doing well financially; it was going down hill, and was in need of additional capital and new management. He realized he could not invest another $25-$30,000 unless he owned the building. So on 20 March 1985 John F. Welty and Vera F. Welty (HW/JT [Husband and wife / Joint tenants]) purchased the building from Harmon Vaughn–who was delighted to find a reliable buyer. Vera was John's wife.

After a few years John noticed the people who came from Germany [Kahnts] and who induced John to be the majority investor, almost ran the business into bankruptcy; the corporation had to take it over in order to save it. His family invested the money–roughly $100,000–to save Bill Baker's Bakery and to keep it in Ojai. He wanted to do that out of pride and as a public service; he has never had a personal business go bankrupt. His family owned bakeries in the eastern USA so he knows the business quite well. The money wasn't important; he and his family wanted to make sure that the bakery got back on its feet and stayed a viable business in Ojai. It was the oldest business in Ojai, and the oldest building in Ojai is the Ojai Valley Woman's Club, located next door.

John had the unpleasant task of cutting up most of the old machines that Bill Baker used to make bread, because it was no longer profitable to mass-sell bread.

Ed Romano used to own Bill Baker's Bakery; John's corporation bought the bakery from Ed Romano, who stopped baking at that time and was replaced by Arnfrid Kahnt. From that time the business went down hill rapidly, so John had to fire Mr. Kahnt and replace him by Anthony C. Salchak, who was head baker from 1 Jan. 1986 to 31. Dec. 1986. He was replaced by Jean Dupre and James S. Mitchell, who were head bakers from Jan. to Sept. 1987. Finally, the Weltys found the man they had been looking for, Thomas O. Kohnen (who was single at the time). In Oct. 1987 he became Head Baker, a position he holds to this day–but not in Ojai. "Thomas Kohnen was by far the best baker I have ever had the pleasure to work with" says John. Thomas and Colleen were married in Oct. 1988. It was at this point that Colleen "entered the picture," from John's viewpoint.

On 1 Feb. 1990 Thomas O. Kohnen and Colleen Kohnen entered into a written agreement with Ojai Valley Bakery, Inc. to purchase the goodwill and the bakery business (Bill Baker's Bakery) then owned by Ojai Valley Bakery, Inc. (with no money down) and to lease the building owned by John F. and Vera R. Welty, and thus to pay monthly rent. John also made them a standing offer to buy the building without raising their monthly payments, but they declined that offer. The business was making money; John included the vehicles and all the inventory in the deal.

In June 1990 the above agreement terminated and changed to a lease agreement of the business and the premises. This lease agreement continued until the building was sold in 2002. With each "Lease Agreement" the Kohnens were given written permission to use the name "Bill Baker's Bakery" as long as the business stayed in Ojai at its original location–457 E. Ojai Ave. This included the last lease agreement dated 18 Dec. 2001 and covering the period Jan. 1 to Feb. 1, 2002.

On 1 March 1990 the Kohnens started to make monthly payments, but did not complete the payment schedule–even though the business was making good enough money to enable them to make their payments on the Mercedes they bought, and on the other car they bought, and to move into a nice condo. The lease of the business and premises was renewed at different times, the last one being 1 Nov. 1997.

In late 1997 (from Aug. 1 to Oct. 1), John and Vera had the front portion of their building remodeled (1,000 square feet, with brick walls) so that it looked exactly like the original 100 years ago; they also installed earthquake retrofits. When the workers took everything apart, they found the original old windows, some of which had been destroyed. So John and Vera had carpenters make the windows exactly like they were made 100 years ago.

The Kohnens sold their condo and left Ojai in about June 2002, while John was undergoing a medical operation. They never told him that they had left, or where they had gone, and they owed him roughly $30,000 in back rent. They also took the ancient sourdough starter (said to be from Europe and over 100 years old) and old documents belonging to the bakery. John could have gone over and, with a court order, closed them down, but he did not and will not do it. The whole thing was a very painful experience for John "So you can understand that my wife and I were disappointed when saw that Colleen and Thomas had left, and that the new owner (Azu) had decided to phase out the bakery. It was my understanding that the bakery was going to stay there"–in its original building in Ojai. At that point, John and his wife decided to just let go of the whole thing; there was nothing more they could do to keep Bill Baker's bakery in Ojai.

Its a moot point now and it really doesn't matter, says John. Yet if you talk to the Kohnens, they believe that John never did anything for them. They seemed to think the problem was caused by John–for putting too much pressure on them. But John believes he went way out of his way to offer to reschedule their payments and not to put pressure on them. Bill Baker's Bakery was *never* moved out of Ojai. Address: Carpinteria, California.

2620. Silver, Jimmy. 2006. Old-line health-food distributors that made the transition to being natural-food distributors

© Copyright Soyinfo Center 2021

in the 1970s (Interview). *SoyaScan Notes.* March 27. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** The five main companies were: Kahan & Lessin Co. (Compton, California, near Los Angeles). Landstrom Co. (San Francisco, California). Balanced Foods (North Bergen, New Jersey; Mid-Atlantic states). Health Foods, Inc. (Des Plaines, Illinois, near Chicago). Sherman Foods, Bronx, New York.

Only Balanced Foods (founded in Nov. 1939 by Dr. Maurice "Doc" Shefferman, and Sam and William Reiser) made the transition smoothly and still exists–although not as an independent company.

Kahan & Lessin (K&L) was purchased in the fall of 1983 by Jameson Pharmaceutical Corp. (San Mateo, California, owned by Jim Jones). Jones was already aware of Walmart and saw K&L as a vehicle for distributing supplements to Walmart. However Jones did not know the business; he survived for only 3-4 years, declaring bankruptcy in about 1980-81.

Landstrom was a family-owned business, but by the time the natural foods industry was becoming significant, Bob and June Merriam, and their younger brother Rick, were running the company. They were hard to deal with and went out of business in the early to mid-1980s.

Balanced Foods, long run by brothers Sam and William Reiser, continued to be a powerful distributor on the East Coast during the 1970s and 1980s and a major competitor of Erewhon. In late 1986 Tree of Life, Inc. (St. Augustine, Florida) purchased Balanced Foods to become the largest natural foods wholesaler in the USA. Tree had been purchased in Dec. 1985 by Netherlands-based Royal Wessanen NV Co. for $15 million.

Note: One other old-line health food distributor doing business in Aug. 1980 was The Pavo Co., Inc. (Minneapolis, Minnesota), a family business since 1931. Address: President, Pure Sales, California.

2621. Reiser, John. 2006. History of Balanced Foods and of Sam and William Reiser. Part II (Interview). *SoyaScan Notes*. March 30. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Continued: In the early 1960s there were only half a dozen health food distributors in the entire country. Balanced Foods had maybe 50-75 customers (mom and pop health food shops) along the East Coast from Maine to Florida.

Both Sam and William had the vision not to be content with a regional distributorship. They bought Akin Distributors (with warehouses in Tulsa, Oklahoma, and Jacksonville, Florida), Midwest Natural Foods (warehouse in Ann Arbor, Michigan), Northwest Dietetic Supply (warehouse in Kent, near Seattle, Washington), and Keene Distributors (Dallas, Texas)–to give Balanced Foods national reach.

When Balanced Foods moved to New Jersey, Sam and Helen Reiser moved to Fort Lee, New Jersey, which is near the George Washington Bridge, north of North Bergen. It made no sense to commute from New York City. Sam and Helen lived the rest of their lives in Fort Lee, New Jersey. Their main competitor was Sherman Foods, until Sherman left the business about 15-20 years ago. Sherman was located in the armpit of the South Bronx on East 138th St.; it was a horrible, dangerous, sort of burned-out neighborhood. Nobody wanted to got into that area. Yet John thinks that Sherman Foods was as big or bigger than Balanced Foods during the 1950s.

The people who ran these health food companies believed deeply in what they were doing, and they also realized the importance of making money to survive.

Sam and William Reiser were very different people, and very complementary. Sam was the inside, operations, money guy who ran the company; he was calm and reflective. William was the head salesman, the outside guy; he was more volatile, the glad hand, who was forever on sales and business trips. William had health problems and died in 1977, whereas Sam lived more than 10 years longer, dying in 1989–after the company had been sold to Tree of Life. Sam was a man who saw his life dream realized, whereas William had passed away. In the mid-1970s, before he passed, William was making lots of money and had the satisfaction of seeing his son working for the company and the company becoming large and successful, breaking sales records every month, year after year. Sam saw a tiny, struggling company built into the biggest, strongest natural food distributor on the East Coast, and then sold it in late 1986 for a princely sum. At the time of the sale, Norman Roberts was the head of Tree of Life in the USA. He was told by Wesannen, the Dutch company that owned Tree, to become the largest distributor of natural and health foods in the United States. Roberts saw that the easiest and best way to do that was to buy Balanced Foods–which he did. At the time, Sam was willing to sell to any good company that met his asking price. Tree of Life came to him. He told them his price and they said okay. Few men have that satisfaction.

After Sam sold Balanced Foods, Sam told Tree: "Whatever advice and counsel you need from me, it would be my pleasure to give it to you, free of charge for as long as you'd like. He saw no need for an employment contract. But Tree of Life made it clear there was no need for him to stay around–a huge and costly mistake by Tree, since Sam probably knew more about the industry and had more experience in it than anyone in America. Tree also basically told all other members of the Reiser family (except John) to go home. John, now age 40, was mostly in charge of sales, although he did everything and anything. They praised his past work and invited him to stay on. He accepted. About 2 months after Tree took over, John spent 15-20 hours, writing a 25-30 page sales report, which he sent to the national sales

© Copyright Soyinfo Center 2021

manager of Tree (part of the Wessanen management) in St. Augustine, Florida. In it, he told them everything he felt about the present status of Balanced Foods, where it was going, the problems that he foresaw, and how he thought each of these issues could be addressed. After a month, not having heard anything, John called they sales manager to check that he had received the report. He said that he had received it, then added: "I appreciate it, but next time don't waste your time." John was also led to believe that he was stuck in the position he was in, that he wouldn't get any raises, that they would never fire him but he wouldn't get anywhere. John thinks they wanted to basically cut ties with the Reiser name and forge ahead on their own. There were some big egos involved. In about 1988, John left Balanced Foods, invested in Sherman Foods (still in the Bronx and on the brink of going out of business), and became a 3rd partner. His investment helped to move the company to New Jersey and find a bigger warehouse. From 1988 to 1990, Sherman's sales doubled from $12.5 million to $25 million. But the new partnership did not work very well, so in 1990 the partners decided to sell Sherman Foods to Tree of Life–which closed it up. For John, it was a good experience but not a great investment. John then co-founded Northeast Brokers in Ridgewood, New Jersey; he is now co-owner of this company. His original equal partner was Steve Giordano, who ran Midwest Natural Foods after it was acquired by Balanced Foods. In about 1993 John brought Doug Braun (who had worked for John as a salesman) as a minority partner. After Steve died in 1997, John and Doug made arrangements to become equal partners.

John will send a detailed 40th anniversary tribute to Balanced Foods from 1980; it took up half of *Health Food Retailing* magazine.

Only Balanced Foods (founded in 1939 by Sam Reiser) made the transition smoothly and still is business–as part of Tree of Life. Kahan and Lessin sold their business for a good price, several million dollars, and considered that they had been a real success. Landstrom had difficulty making the transition from the founders to the next generation, and in trying to expand into a national distributor. They may have tried to bid against Balanced Foods for several smaller distributors. Address: Owner, Northeast Brokers. Phone: 201-612-1154.

2622. Diaconescu, Sorina. 2006. Love at first bite: In the town that invented both power lunching and the draconian Hollywood diet, Akasha Richmond is the queen bee of healthy gourmet cooking. *Hollywood Life*. March/April. p. 80-81, 83. [1 ref]

• ***Summary:*** An excellent revue of the book *Hollywood Dish*, by Akasha Richmond–including a basic timeline developed by Sorina. A photo shows Akasha and Billy Bob Thornton.

2623. Friesen, Kathryn. 2006. My genealogy search on Dr. Norman Wardhaugh Walker: Norman Walker really died at age 99 (Web article). http://chetday.com/normanwalker.htm. 2 p. Printed 1 April 2010.

• ***Summary:*** This web article begins: "Dr. Walker has been described as 'the longest lived, most widely known, raw food faddist of the modern era.' He was also the author of many books on health (some still in print), and the developer of The Norwalk Juicer, which is still on the market.

My personal interest in him piqued when I found so many different longevity ages attributed to him (variously, 109, 113, 118 and 4 months, 120, and even 130 years!), and decided to discover "the truth" about this aspect of Dr. Walker and perhaps something of his background and early life."

A brief chronology of Norman Walker: 1886 Jan. 4–Norman Wardhaugh Walker is born in Genoa, Italy, to Reverend Robert Walker and Lydia (Maiden name: Maw) Walker. Norman's father was a clergyman from Scotland, apparently posted to Italy, and his mother was apparently from England. Norman was one of six children, five of them born in Italy. In order of birth they were: Norman, David, Arthur, Emmelina, Lydia, and Robert H. Walker.

1901–Norman appears in the England Census; he is age 15, a boarder in a boadinghouse with several other young men. His occupation is given as "clerk," and his birthplace as "Italy."

1910 Oct.–Norman Walker arrives in the United States, sailing on "The Lusitania" from Liverpool, England. He is age 25. His parents had first arrived in the USA in 1907 with two of his brothers and sisters; the rest of his brothers and sisters had arrived several years thereafter. In an interview before leaving the ship, Norman gave his final destination as 608 Lexington Ave., New York City, where the Walker family apparently lived.

1915–Norman is now residing at Lake Mahopac, Carmel County, New York. Here he filed a Declaration of Intention to become a U.S. citizen and, in the declaration, gave his occupation as "Real state."

1918 Sept. 12–Norman registers in New York City for the World War I draft. On the Draft Registration Card (No. 132) he states that he is age 33 and is employed by Douglas Products Corp., 147 Waverly Place, New York City, a manufacturer of airplane instruments. He gives his date of birth as 4 Jan. 1886 and says he is a citizen of Great Britain. He also stated on the form that his nearest relative was "Margaret Scott Walker (wife)".

1918–Norman is now living in New York City, married to Margaret Olcott. He "completed the citizenship process by filing a Petition for Naturalization."

1918 Nov. 22–Norman becomes a U.S. citizen.

1985 June 6–Norman dies at his home in the town of Cottowood, in Verde Valley, Yavapai County, Arizona. "His brief obituary said that only his wife, Helen Ruth, survived him. Both Dr. Walker and Helen Ruth (who died in 1993)

© Copyright Soyinfo Center 2021

are buried in the 'Cottonwood Cemetery,' A photo of their gravestone (with 'their years' now chiseled in granite) is accessible on-line at Arizonagravestones.org."

Note 1. Kathy adds in an e-mail to Soyinfo Center (30 March 2010): After 1918 Dr. Walker developed a well-known and widely-used commercial juicer. Apparently he was awarded a U.S. patent or patents on it in the late 1920s or early 1930s. The current model it is said to be mostly steel and very heavy. Selling for about $2,000, it is more attractive to the commercial market (fresh juicing shops, juice bars, etc.) than for home use.

Note 2. Kathryn does not know what kind of "doctor" Norman Walker was, when or from where he received his "doctor" degree, or whether or not he was a bona-fide doctor of any type. She gave him the benefit of the doubt.

Note 3. Kathryn Friesen wrote this on-line article before her interest in Paul and Patricia Bragg began.

2624. Gomory, Adelle Shefferman. 2006. History of Balanced Foods and of Maurice "Doc" Shefferman (Interview). *SoyaScan Notes*. April 7. Conducted by William Shurtleff of Soyfoods Center.

• ***Summary:*** Adelle is the daughter of Maurice "Doc" Shefferman, one of the three founders of Balanced Foods (BF) in Nov. 1939. She recalls that in 1939 if you told someone you were in the health food business, they thought you were nuts; they'd roll their eyes. But its no longer that way; many health foods are now mainstream American foods.

"Doc" Shefferman was a naturopathic doctor, but he never used the titles "doctor" or "Dr"–only "doc." Before that, he was an optometrist (though he did not have an M.D. degree), but he never practiced. He was born on 10 Jan. 1894 in Zanesville, Ohio. His family soon moved to Washington, DC, where he grew up and went to high school. He did not attend college. He married Dean Spiegel in 1916 in Washington, DC and they had two children, both born in Washington, DC: David (born 20 July 1918) and Adelle (born 20 June 1921).

He became very interested in Benedict Lust (pronounced LOOST, a German-born teacher of naturopathy with headquarters in New York City), so he went to New York City to write for Lust's pioneering and popular magazine *Nature's Path*, where he eventually became associate editor. His share of the startup capital for BF probably came from savings from his writings. Maurice was also a talented singer, with a beautiful baritone voice. But he sang and performed for pleasure, not for money.

As Adelle recalls: Her father met Sam and Will Reiser, who were interested in natural foods and they wanted to start a company, but they didn't have the health-food background. So they wanted to work someone who had a good basic knowledge of the health-food field. "Doc" Shefferman was the one with that knowledge. Jack Schwartz, of Syndicate Magazines, Inc. in New York City may well have brought them together.

The three men started this tiny company in Manhattan (New York City) at 100 Fifth Avenue [between 15th and 16th streets] on the 17th floor of an office building. They were equal owners from the start; they paid the expenses and shared any profits equally. The whole space, no bigger than a big living room, had to hold both the offices and the warehouse. "Everything was right there."

Adelle, who had graduated from Newtown High School in Queens (New York City) in 1939, was the first employee and the first secretary of Balanced Foods. Helen Hollinger was the 2nd employee. The two young women shared the work that needed to be done–taking orders, typing invoices, etc. But there were only a handful of health food stores on the East Coast in those days. As their number began to increase, so did the size of Balanced Foods.

The USA entered World War II in Dec. 1941. In about 1942 BF moved across the street to 79 Fifth Ave. to get more space. It was a ground floor space with a balcony office, a good open area that had formerly been a bank building. Adelle left the company in 1943. Her husband was in the army in training in the southern USA and she left the company to be with him; he was killed during the war. Adelle did not return to work with BF, but she kept in touch with the company by keeping in touch with her father ("Doc") and with her friends Helen and Sam.

The company grew rapidly during its early years, moving into a 10,000 square foot after less than 4 years in business. The young company was growing very nicely. "Doc" was grateful that he was in the right place at the right time, doing what he loved best and believed in most deeply, surrounded by talented, trustworthy partners and employees. Each of the partners had unique and complementary high-level skills. They worked as a team, in almost perfect harmony. "Doc" went to work there every day–just like everyone else. He lived what he taught. And he always derived a great deal of satisfaction from his work and from the company he had started.

"Doc's" specialty was customer relations and education. He knew a lot about nutrition. He continued to write articles about health foods and in 1956 his book, *Food for Longer Living* (Whittier Books, NY; 181 p.) was published. Adelle recalls: He was always a gentleman, always dressed sharp and aware of himself and of others. And, of course, he had that hallmark mustache. He had a lifelong good relationship with his wife and children. He loved to help other people in a very selfless way, and he was almost a missionary for health foods and the good they could do. He was widely respected by others in the health foods industry; he was quite a guy. He was a sweetheart; my father was such a good person. He was very giving, always very thoughtful, good natured with a good sense of humor, good to be around. He stayed active in his business and the industry almost until the day he died–on

© Copyright Soyinfo Center 2021

19 Sept. 1974 in New York City.

In 1959 Adelle and her 2nd husband, Eugene Gomory, founded Orjene Natural Cosmetics in New York City. This was a pioneering company, America's first maker of natural cosmetics–in New York City. Her husband wanted his own business, Adelle knew that the health foods industry was growing nicely, and they found an open niche in the market. In about 1964 their daughter (and only child), Lynne Gomory Machicao, came in to work at Orjene. They ran the company as a family business. After Eugene passed away in 1988, Lynne and Adelle continued to run the company; it is still going in New York and it is still Lynne's main work. Address: Queens, New York City. Phone: 718-446-5292.

2625. Reiser, Helen. 2006. History of Balanced Foods and of Sam Reiser. Part I (Interview). *SoyaScan Notes.* April 7. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Helen is Sam Reiser's wife. She was also Balanced Foods' 2nd employee. Sam and William Reiser grew up in a family of five children. Their parents were Abraham Reiser (born in Poland) and Rebecca Rosovsky (born in Russia). They probably met in America. Abraham owned a shirt manufacturing company, with a small factory first in upper Manhattan in New York City, then later–in the 1920s–a larger one in Virginia or North Carolina (after he landed a contract from Sears Roebuck and needed to expand). He was a good businessman and quite successful. He continued to live in Brooklyn, traveled to his factory in The South when necessary, and had a reliable manager at the factory who took care of day to day operations.

Abraham and Rebecca's children, in order of birth, were Katherine, Esther, William, Sam, and Myra (who is still alive). William was 14 months older than Sam. The first two children were born in the Bronx; Sam, the 3rd, was born on 8 Dec. 1914 and came home to the family's new home Brooklyn, New York, where all the kids grew up. All five children graduated from college–remarkable! Rebecca died in about 1940 in Brooklyn. Abraham died in about 1948, also in Brooklyn.

Sam graduated from New Utrecht High School in Brooklyn, then from 1932 to 1936 he attended Cornell University. But, for some reason he did not receive his bachelor's degree, a BS in chemistry, until 20 June 1938.

Apparently he wasn't in a hurry to pick up his diploma. It was the midst of the Great Depression and, fresh out of college in 1936, he got a job with a chemical company in New Jersey for several years. But he soon decided that he would like to be his own boss. His elder brother, William, came to the same conclusion at about the same time.

Sam and Will probably met "Doc" Shefferman through Jack Schwartz, who was their cousin. Schwartz was head of Syndicate Publications, Inc. which published *Health Foods Retailing* and several other important health food magazines. "Doc" Shefferman wrote articles for these magazines and knew Schwartz well. Sam and Will Reiser and "Doc" Shefferman decided to establish and become partners in a new company named Balanced Foods (BF), that would distribute health foods. Actually there was a 4th partner at the beginning–Bernard Freund; he was with the company for about 5-6 years, but he wasn't willing to work hard so he ended up leaving. William Reiser may have joined a few months after Sam did. Each man put up one-fourth of the startup capital to buy the inventory and office equipment, pay the rent and employees, etc. They borrowed this money from family, relatives and friends. From the outset they had competition: Sherman Foods, located in the Bronx, New York City, had been distributing health foods since 1924!

Balanced Foods opened for business in Nov. 1939 in Manhattan (New York City) at 100 Fifth Avenue [a commercial area between 15th and 16th streets, 1 block west of Union Square, a big park] on the 17th floor of an office building. It was a very small space–about the size of a typical living room–containing both offices and warehouse. The first employee, in Nov. 1939, was "Doc" Shefferman's daughter, Adelle. In Sept. 1940 Helen Hollinger joined BF as a bookkeeper and the second employee; she had just graduated from the City College of New York and was looking for her first job. She did everything–whatever needed to be done–telephone answering, order taking. Here she first met Sam Reiser, who full time worked in the same office and was her immediate boss. Sam was the "inside man," officially Secretary-Treasurer, in charge of purchasing, finances, etc. Will was more the "outside man," in charge of sales. "Doc" Shefferman, who was a naturopath and a very elegant gentleman, had a great reputation in the field. "Doc" knew the most about nutrition, and he had contacts in some of the health food stores–although there were very few such stores at this time. He spent some of his time visiting customers; he was very good at working with and helping them. He cooperated with the stores to sponsor lecturers (such as Paul Bragg or Gayelord Hauser), advertise, and find a hall where they could speak. He also wrote for *Nature's Path* (owned by Benedict Lust); its offices were located a few miles away but he rarely went there.

BF didn't sell too much in bulk–except wheat germ; the other products were packaged. They did carry a few lines, such as that of Paul Bragg, a lecturer.

Not long after Helen arrived, probably in early 1941, Balanced Foods moved across the street to a larger space at 79 Fifth Ave., on the 11th floor. Again, the offices and warehouse were together, and as before the building (used largely for making men's clothing) and space were not suited for a food warehouse. Within a year, war uniforms for American soldiers in World War II took the place of most of the men's clothing.

In those early years, the company was very small. Everyone worked for very little money, some of which the owners used to pay back the startup capital.

© Copyright Soyinfo Center 2021

In 1943 they moved about 50 blocks north and 4 blocks east into a very large space [10,000 square feet] at 304 East 64th St., 1 floor above sidewalk level. Rolls Royces (the luxurious British automobile) were being sold a floor or two below. The Knickerbocker Ice Company was on an adjacent floor. BF's new home felt very spacious was much better suited for commercial operation. There was a commercial elevator in the building, and it could be made to stop at the tail end of a truck for quick and easy loading and unloading. Since BF did not yet own a delivery truck, all the goods where shipped by a trucker they knew or by public carriers.

Sam and Helen both lived near one another (by coincidence) in Brooklyn. They would drive to and from the office in the same car with Will and several other people. In this way, Helen and Sam got to know each other outside of work. Continued. Address: New Jersey.

2626. Reiser, Helen. 2006. History of Balanced Foods and of Sam Reiser. Part II (Interview). *SoyaScan Notes*. April 7. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Continued: When the U.S. entered World War II, in Dec. 1941, Sam had a dependent father and a baby business, so he was deferred for a while. But on 5 Oct. 1942 he was drafted into the army, had to report to Aberdeen, Maryland, and was away for about 4 years. He fought in France and Germany. During one of his home leaves, he proposed to Helen and they were married on 26 May 1943.

Stuyvesant Town started to be constructed during the war. A huge middle-income development on the east side of Manhattan, it stretched from 14th to 23rd St. and 1st Ave. to Ave. C. Helen and Sam put their names on a waiting list for an apartment–along with some 20,000 other people.

During the war, Sam kept in close touch with both Helen and with Balanced Foods. Helen still has every one of his letters–as well as all the letters she wrote to him. She intends to pass them on to her son, Paul, who has become quite famous as an actor.

The war ended in Sept. 1945 and that November Sam returned home and to work–as if he had never been away. Sam and Helen's first child was born in May 1947, at which time Helen stopped working for Balanced Foods–but that did not diminish her interested in what was going on at the company. This interest continued until Sam retired. They had 3 more children.

In 1947, Sam and Helen (now living with Helen's parents) received good news. They had secured a large apartment Stuyvesant Town. Priority was given to veterans–such as Sam. So they moved in with their infant daughter.

It is not clear when Balanced Foods was incorporated, but Helen is quite sure that it happened before 1947.

One day in 1947 a friend of Sam's from the Hospital Bureau of Standards, a purchasing agent for private hospitals, contacted Sam and asked him if he sold any water-packed canned fruits or vegetables that contained none of the usual salt or sugar. The Bureau wanted sell these foods to dietitians in the hospitals it served. Sam said "no" but offered to develop these products for the Bureau. He was authorized to go ahead.

Sam contacted a packer in California, and together they developed a line of unique and innovative, healthy canned foods (with no preservatives) that were packaged under the Balanced Foods label. The first product was peaches; BF had to order a carload. Soon two Reiser families found themselves enjoying a lot of California peaches. Of course most of the carload went into their warehouse. At one point there was a big fire in that warehouse, but insurance covered their losses. Next Sam developed other fruits, plus vegetables such sweet corn, green peas, and many types of vegetables. Both sets of Reiser children grew up eating these healthy foods.

Next, BF began selling these healthy canned foods to health food stores. This was the beginning of Balanced Foods' line of private label products. They did not try to sell these dietetic specialty foods to supermarkets, because they disapproved of the idea; it would undercut their main customers in the health foods industry. An addition, they did not have the quantities needed to serve supermarkets.

Balanced Foods continued to grow. In 1951, after outgrowing their 10,000 square foot warehouse, they moved south to an even larger space at 700 Broadway (and 4th Street), near New York University (NYU) and east of Greenwich Village. The spacious two-level structure had offices on a mezzanine overlooking the warehouse. Helen recalls: "It was hard to get the trucks in and out with all the traffic." Balanced remained here for 16 years.

Sam was a very hard worker and brilliant person. He was especially good at science and math, as well as business. He was also a very good educator, and he loved to help anyone who was interested in starting a health food store. Sam believed deeply in what he was doing and he loved his work.

When BF moved to New Jersey, through William's connection with Michael Goldfarb, the price per square foot of warehouse space was lower than in Manhattan. Sam was very interested and involved in the computerization of the company at the public warehouse. "That computer system made all the difference in the world." It was a big leap forward, and gave BF a major advantage over its competitors. The computer was also instrumental in helping Balanced Foods to make the transition from the health foods industry into the natural foods industry.

In 1974 "Doc" Shefferman passed away at while in his 80s. His shares of the company were equally divided between Sam and Will; the value of the shares was paid to Doc's family. There were no relatives or others who owned shares. When Will died in 1977, Sam became the sole owner of the company. Sam and Will got along very well. "They finished each other's sentences."

© Copyright Soyinfo Center 2021

Sam retired in Dec. 1986, right after Tree of Life bought the company.

Helen was very happy to see now nicely Sam made the transition from owning Balanced Foods into retirement. He changed with the changing times. "We traveled a little bit and just enjoyed being together." But he died about 3 years after he retired. The best character description she has of Sam is the obituary his son, Paul, read at his funeral.

In addition to being an excellent businessman and very bright and hard-working, Sam was also a family man. He was very much a hand's-on person to customers. He trusted them, he helped them a great deal. When someone wanted to open a health-food store, he helped them in every way possible–even going there and helping them to put goods on the shelves. He was a friend, and that was also good for business. He was very kind and generous. "My first impression of Sam is putting his hand in his pocket to give somebody money." He was also very supportive of the schools his children attended. In 1996 their son, Paul, established the Samuel Reiser Scholarship Endowment in the Department of Music at Harpur College (where he is an alumnus), Binghamton University (State Universities of New York–SUNY).

Helen has a trunk with some old documents relating to Balanced Foods, including the company's first catalog, and an article from *Whole Foods* (Jan. 1990), which contains a nice obituary and photos of 3 partners and the old office (p. 82) plus a photo of Sam on the cover, and another issue from July 1995 with an article titled "Industry veterans look back at the early days" (p. 72-74).

Helen thinks the health foods movement was started in Germany by the hikers, vegetarians, and outdoor people who liked natural things. Benedict Lust, a German, was the pioneer on the East Coast. In fact, the first owner of Sherman Foods, the first natural food distributor in New York City was Ernest Fried, a German. He started with an interest in a health food store on 34th St. in Manhattan. Then he went into the wholesale business, and became a partner in Sherman Foods.

In the United States, Helen thinks, the health foods industry really started in California. During the 1940s, Gayelord Hauser wrote a book that greatly helped the industry, and he did a lot in Hollywood with the movie people. "Paul Bragg used to love to strut his physique; he was very much a physical culture man. He would pose with his muscles exposed. He also lied about his age; he said he was 80 when he was actually much younger–because he was a great specimen for 80." Helen has a bottle of Bragg's aminos in her refrigerator. Address: New Jersey.

2627. Filmography of Clarke Irvine: Writer, director, actor (Website printout–part). 2006. www.us.imdb.com/name/nm0410174/ Retrieved April 24.
• ***Summary:*** This, the largest movies database on the Web, lists the following information under Clarke Irvine: Writer–Filmography: 1. The Love Hermit (1916) (story). 2. Barriers of Society (1916) (story). 3. The Winner Wins (1914) (story).

Director–Filmography: 1. Barriers of Society (1916) (story). Actor–Filmography: 1. Luke and the Bang-Tails (1916). There is a space for a photo, but none has yet been submitted.

Note 1. Talk with Alice Irvine, Clarke Irvine's 2nd wife. 2006. April 24. Alice has never heard that Clarke was ever involved in any way with any of these three silent films. Yet this is exactly the time period when he worked with MGM for 13 years in publicity. He was also a film librarian–but she does not recall with which organization. And he acted in the *Last of the Mohicans* [probably the 1920 version] as an "extra."

2628. National Nutritional Foods Association (NNFA). 2006. NNFA Board of Directors recommends name change to Natural Products Association: Urges members to vote "yes" on change in upcoming election (News release). Washington, DC. 2 p. May 16.
• ***Summary:*** "Voting on the name change to Natural Products Association, which would be the fifth name for the organization since its founding in 1936, begins this month.

"We believe it is time for NNFA to... take advantage of the leadership opportunity to be the 'big tent' bringing together and strengthening the entire natural products industry..."

"In April, the NNFA Board of Directors recommended that the association change its name to the Natural Products Association in order to reflect the breadth of members NNFA now represents." Gives four reasons for the name change. Address: Washington, DC.

2629. *SoyaScan Notes.* 2006. Early chronology of Paul Chappius Bragg of health foods fame. June 4. Compiled by William Shurtleff of Soyinfo Center.
• ***Summary:*** 1895 Feb. 6–Paul Chappius Bragg is born in Batesville, Indiana. His father, Robert E. Bragg (about age 30), had been born in Feb. 1865 in Indiana. Paul's mother, Caroline "Carrie" Bragg, age 36, was also born in Indiana. Paul was the second child and second son in the family. His elder brother, Ellon Bragg, had been born in 1894 in Indiana.

1900 June–Paul, now age 5, is living with his family in Washington, DC, on N. Capitol Street. His father's occupation is now composer (like a typesetter), at the U.S. Government Printing Office. All four of Paul's grandparents were also reported as having been born in Indiana. Paul now has a younger brother, John Bragg, born April 1899 in Washington, DC. It appears that Paul's parents started to raise their family in Indiana, then moved to Washington, DC, between Feb. 1895 and April 1899 (Source: 1900 U.S. Census).

1910–Paul, now age 15, is still living with his family

© Copyright Soyinfo Center 2021

in Washington, DC, at Quincy Place. His father, Robert (age 44) is still a composer at the Government Printing Office. His mother, Caroline, is age 45. Robert's mother is now reported to have been born in Illinois. Caroline is now reported to have been born in Ohio. Her mother is reported to have been born in Ohio and her father in Switzerland. Now also part of the family is James E. Bragg (is he different from Ellon Bragg), the son of Robert and Carrie, age 17; he was born in Indiana. Mother born in Ohio. Father born in Indiana. John H. Bragg is now age 11 (Source: 1910 U.S. Census).

1917 June 5–Paul C. Bragg submits a World War I draft registration card for the U.S. War Department. This government record shows that Paul was born on 6 Feb. 1895 in Batesville, Indiana. At the time the card was submitted, Mr. Bragg was married, residing in Indiana, and working as an insurance agent. He had served for 3 years in the National Guard in Washington, DC.

1920 June–Paul C. Bragg, age 28, is now the head of a household. Occupation: Director of the YMCA. His wife, Neva Bragg, age 26, was born in Indiana; her mother and father were both born in Indiana. Paul and Neva now have two children, both daughters: (1) Loraine Bragg, age 2 years and 3 months, born in Washington, DC. (2) Neva P. Bragg, age 4 months, born in Washington, DC. It appears that Paul and Neva were married in about mid-1916, probably in Indiana, but possibly in Washington, DC.

1921 Sept.–Paul is working at the YMCA in Los Angeles.

1926 Aug.–He is giving free health lectures two evenings a week at his Health Center of Los Angeles (1000 W. Seventh St.). He has assumed the title of "Professor."

1928 Jan.–"Bragg's Health Center" is now located at 840 South Hill St., Los Angeles. These are early advertorials–he has now become a shameless self-promoter.

1928 March 25–Paul Bragg and Betty Brownlee meet, perhaps for the first time, at a "Health Chautauqua" in Los Angeles. Both of them are speakers at the event, and billed as health specialists.

1928 April 1–Betty Brownlee is now working at Bragg's Health Center, 840 South Hill St., Los Angeles. She is billed as follows: "Betty Brownlee, the health girl who won second place in the Miss Los Angeles contest, will appear in bathing suit and show you exercises that will keep your body youthful."

1928 Sept. 26–The divorce of Paul C. Bragg from Neva Parnin (his first wife and mother of their three children) is announced in the *Los Angeles Times* (p. 24).

1929 Jan. 20–Last ad seen for Bragg's Health Center in the *Los Angeles Times.* At about this time he probably turned to writing booklets and books, selling items by mail order, and lecturing about health.

1929–His first book, *Truth about Sex*, is published. His second book, *Cure Yourself,* is published the same year.

1930 Feb. 17–Paul Bragg and Betty Brownlee are married in Clearwater, Florida.

1932 Jan. 12–Paul and Betty are officially divorced. An ad in late 1931 shows her to be living at a new address (6122 Santa Monica Blvd.) in Los Angeles and making and selling "honey candies," direct and through health food stores; Paul Bragg is not mentioned in the ad.

1934 April 6–Paul Bragg is fined $4,000 for his romantic relationship with Betty Thompson (age 18 in 1934) during 1933 and 1934. He admitted that he loved her and had kissed her and that they traveled to New York together by steamer via the Panama Canal; he denied further improprieties. Her mother sued him for $100,000 but after one hung jury he was ordered by a judge to pay her $4,000 for "betrayal."

2630. Reiser, Helen. 2006. Recollections of an early electric juicer in the health food industry in New York City (Interview). *SoyaScan Notes.* June 20. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** When Helen worked for Balanced Foods, in about 1941, she recalls that Mr. Drachenberg, who lived in Detroit, Michigan, had invented, patented, and developed an electric juicer. Doc Shefferman, Helen's employer, was in touch with Mr. Drachenberg and tried very hard get a license to sell the machines or to get the actual machines to sell. But Mr. Drachenberg was a very temperamental, undependable inventor, and it was very difficult to get hold of him or his machine. After getting some representation, Balanced Foods eventually was able to order a few, which it sold (for well over $100) mostly to large health food stores, such as Brownies (owned and run by Sam Brown) at 21 East 16th St. in Manhattan–just off Union Square. The machine, which worked well, was used almost entirely to make vegetable juices rather than fruit juices at the "juice bar." The man who operated the juicer wore a starched white jacket, like that of a doctor; he looked very professional.

Then, Sam Reiser located two men in Switzerland who had something called "Rotel." They said they could duplicate Mr. Drachenberg's electric juicer–because he was not a dependable supplier. Helen does not know what came of that, except that Balanced Foods did import a few of the machines. Address: New Jersey.

2631. Reiser, Helen. 2006. Large, early health food stores in New York City (Interview). *SoyaScan Notes.* June 20. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Helen remembers: (1) Original Health Foods, on Lexington Avenue. (2) Brownies (owned and run by Sam and Edith Brown) at 21 East 16th St. in Manhattan–just off Union Square. and (3) All Health Food Distributors, at 123 34th St. (they also did a little distributing). Address: New Jersey.

2632. Welty, John F. 2006. More memories of Bill Baker's Bakery in Ojai, California (Interview). *SoyaScan Notes.* June

© Copyright Soyinfo Center 2021

20. Conducted by William Shurtleff of Soyfoods Center.
• ***Summary:*** Thomas and Colleen Kohnen never owned Bill Baker's Bakery. Thomas was always focused on baking, and Colleen ran the business side of the bakery and provided information to anyone interested, including journalists.

Although John and his wife helped them in every possible way to get started, and went time and time again with no payment for rent, Colleen considered John and his wife, Vera R., to be "the bad guys." The Weltys repeatedly made clear their desire to have the bakery remain in Ojai, and they offered to sell the Kohnens the business–the only stipulation being that if they decided to sell Bill Baker's Bakery, that the Weltys had first right of refusal to buy back the building and the bakery so they could continue in Ojai.

The Kohnens were paying about $1,500 to $1,600 a month for rent. On the contract to purchase the business, they were likewise paying about $1,500 to $1,600. For years, the Weltys offered to sell them the business and the building for about $200 to $300 more a month and the Weltys would carry the loan. But the Kohnens couldn't see that; they didn't accept the offer. When the Kohnens defaulted on their contract to purchase the business, the Weltys changed the agreement to a complete lease agreement with payment of $3,200 a month. So their monthly payments roughly doubled, but they were not developing any ownership equity in the business.

When the Weltys sold the building to in Feb. 2002 to Laurel Moore of Azu, they did not sell the bakery to the Kohnens. In fact, to this day, Ojai Valley Bakery, Inc. still owns the bakery and the name "Bill Baker's Bakery." In Feb. 2002 it was clear that the Kohnens were going to sell their business (whatever they had built up in their own name, but not "Bill Baker's Bakery").

When the Kohnens left Ojai, they took the sourdough starter (as well as old documents and artifacts related to Bill Baker) from the bakery. But the Weltys don't want to pursue it; John is age 70 and the last thing in the world he wants to do is to spend some time in court arguing over things like sourdough starter.

The Kohnens owed the Weltys a large amount of money in the form of late charges and interest, but the Weltys wiped that off the books and forgave the debts. However the Weltys had to hire an attorney to collect the $20,000 to $30,000 the Kohnens owed them. The Kohnens finally paid that on the threat that if they didn't pay it, the Weltys were going to charge the additional money (roughly $20,000) they owed in interest and late charges. The Kohnens also paid the attorney's fees. Address: Carpinteria, California.

2633. Royal Wessanen nv. 2006. Health food–Brands–Gayelord Hauser personalized dietetics (Website printout–part). www.wessanen.com 2 p. Retrieved July 4.
• ***Summary:*** "The Gayelord Hauser brand was established some 50 years ago by a German dietician who believed in 'eat better, live longer.' Today, Gayelord Hauser is a well established brand in France in three product categories: slimming, food supplements and daily dietetics. As well as a wide range of food products, Gayelord Hauser offers customized services directed to adapting dietetics more closely to the daily needs of the individual consumer. These services include a nutritional call center, slimming coaching programme, website, and leaflet in-pack."

A table shows: "Products: More than 100 products... including juices, biscuits, fruit spreads, non-dairy drinks and desserts, meal replacers, hyperprotein bars and drinks, natural food supplements–brewers' yeast, herbal teas, slimming drinks, digestive paste. Country of origin: France. Distributors: Distriborg in France and Wessanen in Belgium. Retail outlets: Exclusively Supermarkets and Hypermarkets. Farget group: Daily dietetics & food slimming supplements for women over 50 and slimming products for women between 35 and 55. Market share: No. 2 with a 17% share in the functional food market. Ambitions: To become a market leader in functional foods by establishing a strong link with consumers through the position "dietetics at your own pace,"...

Another page on the Wessanen website titled "Gayelord Hauser Biorythmes," advocates a new theory of weight loss based on biorythms and concludes: "Hollywood's best known dietician: Many of the Gayelord Hauser brand products were inspired by the ideas of Australian [sic, German] dietician Gayelord Hauser. During the 'golden age' of Hollywood, stars like Elizabeth Taylor, Grace Kelly and Sophia Loren followed his nutrition advice. He is regarded as the founder of modern dietetics."

Note: Hauser's obituary states: Helmut Eugene Bengamin Gellert Hauser was born in about 1895 in Tübingen, Germany, the son of a Lutheran schoolmaster and the 11th of 13 children. He went to the USA to be with his elder brother, Otto Robert, who was a Lutheran minister in Milwaukee, Wisconsin. By May 1927 he was in Los Angeles, California, lecturing on health. In his ad in the *Los Angeles Times*, promoting his lecture, he billed himself as the "internationally famous young Viennese food scientist, whose lectures have inspired thousands to live, eat, and think correctly. 'Health and Happiness for 100 Years.'" He lived in or near Hollywood for most of his adult life, and was a "nutritionist to the stars." He was also famous as a world traveler and lecturer on popular nutrition. We doubt that any professional nutritionist would regard him as the "founder of modern dietetics." He was a promoter and popularizer. Address: Netherlands.

2634. National Nutritional Foods Association (NNFA). 2006. NNFA 2006 Natural Products Trade Show and Convention showcases history, change: Association celebrates 70th anniversary, announces name change (News release). Washington, DC. 3 p. Aug. 9.

© Copyright Soyinfo Center 2021

• ***Summary:*** Washington, DC.–"The annual convention and trade show of the Natural Products Association (formerly National Nutritional Foods Association) held July 14-16 at the Sanda Expo and Convention Center and the Venetian Resort Hotel in Las Vegas, Nevada, paid tribute to the association's longevity and announced a new direction for the future while continuing to attract a sizable attendance." More than 7,200 people attended the event.

"In conjunction with the celebration of its 70th anniversary, the association, which up until the show was called the National Nutritional Foods Association (NNFA), announced at a press conference on Saturday, July 15, that it had changed its name to the Natural Products Association. The new name, which was overwhelmingly approved by a recent vote, more accurately describes the organization's diverse membership base and positions the association to keep pace with the dynamic natural products marketplace." Address: Washington, DC.

2635. Uhland, Vicky. 2006. Patricia Bragg: Born to do her father's work. *Natural Foods Merchandiser.* Oct.
• ***Summary:*** A long article about Patricia's ongoing, lifelong, health crusade. Note: This article was done before Patricia Bragg was honored with the "Natural Legacy Award" at the Natural Products Expo, March 9-11, 2007 in Anaheim, California (by *Natural Food Merchandiser*).

Patricia continues to maintain that Paul Bragg was her father. This interview took place in the conference room at Bragg Health Products and Books in Santa Barbara, California. She is about 5 feet tall, likes to wear a straw hat and pink clothes, and is full of energy.

"Today, Bragg crusades mainly through radio talk shows, recording as many as five a day. For a woman who has been around the world 13 times, leaving home isn't as much fun as it once was. Still, she frequently visits her 550-acre organic macadamia nut farm in Maui and her 80-acre organic farm in Australia that grows 30 types of organic fruits. She has properties around California, many inherited from her mother's family, which produce the ingredients for Bragg products. Last year, she moved the Bragg headquarters to a 110-acre organic farm in Goleta, near Santa Barbara, Calif., and set up residence in the 120-year-old farmhouse."

"Like her father, Patricia has a Ph.D.–in nutrition from the University of California, Berkeley–and a doctor of naturopathy degree, which she earned in her 20s from Bernadine University."

"Patricia also devotes time to charitable causes funded by the Bragg Health Foundation. 'Not many people know how much she does for charity,' Gault says. 'She put up the seed money for Friends of the Animals International and set up a Mexican spaying and neutering program where U.S. vets train Mexican vets. She also funds research with botanicals for alternative cancer solutions.'" Address: Freelance writer, Lafayette, Colorado.

2636. *SoyaScan Notes.* 2006. Chronology of major soy-related events and trends during 2006 (Overview). Dec. 31. Compiled by William Shurtleff of Soyfoods Center.
• ***Summary:*** Jan. 17–Soyatech (founded and owned by Peter Golbitz) is sold to HighQuest Partners, a management consulting firm headquartered in Boston, Massachusetts.

March 15-17–CERHR (Center for the Evaluation of Risks to Human Reproduction) expert panel meets in Virginia to discuss soy-based infant formula safety. They issue an important report.

May–The Soy Nutrition Institute is founded. Mark Messina is executive director. The founding members (each of whom paid $10,000 to join) are: ADM, Solae, Cargill, White Wave, Revival, Monsanto, SANA, and the Soyfoods Council (Linda Funk, Iowa).

June 23. Vandemoortele Group, a large oilseed crusher of Ghent and the parent company of Alpro, Belgium, acquires SoFine Foods, a subsidiary of Heuschen & Schrouff and the largest tofu manufacturer in Europe.

July 15–The National Nutritional Foods Association (NNFA) changes its name to the Natural Products Association (NPA); it hopes to attract more members from the natural foods industry which is not represented by a trade association.

Sept.–*The Soya and Oilseed Bluebook*, published by Soyatech, migrates to the Web. Some bound paper copies will still be published. For the first time in decades, copies are sent free of charge to qualified industry members.

Oct.–House Foods (which owns and operates America's largest tofu plant in Garden Grove, California), opens a huge, brand new tofu manufacturing facility in Somerset, New Jersey. This enables them to deliver fresh, high quality, low cost tofu to the East Coast, Midwest, and Southeast markets.

Dec. 11–Hain Celestial Group (Melville, New York) acquires the assets of Haldane Foods Ltd. (Newport Pagnell, Bucks., UK) and its meat-free and non-dairy beverage business from Archer Daniels Midland Co. (ADM).

This year biofuels, including soy biodiesel, get new recognition for the important part that they can play in the U.S. energy economy.

2639. Chalmers, Elizabeth. 2007. Business history of the Chalmers family: Making soyfoods in New Zealand (Interview). *SoyaScan Notes.* Jan. 16. Conducted by William Shurtleff of Soyinfo Center.

• ***Summary:*** On Easter 1980 Rick & Elizabeth Chalmers, together with Rick's brother Greg (his formal name is "Stephen"), opened Harvest Wholefoods, 403 Richmond Road, Grey Lynn, Auckland. They borrowed the money from Elizabeth's mother, and were all equal owners. It was New Zealand's first wholefoods / natural foods store as well as the country's first macrobiotic foods retail store. They were idealists and purists, refusing to sell any vitamins, or minerals, or dairy products.

They started the store partly as a result of becoming interested in macrobiotics, and partly because Elizabeth and Rick had a 3 year old son (Daniel) who could not tolerate dairy products. As the Chalmers could not get the food they wanted anywhere, they thought that they would open a shop to also provide it to others. Moreover, Greg, who had been overseas in London (where he had worked in a restaurant) and the USA, was a pioneer in bringing macrobiotics to New Zealand. "He brought home miso and some seaweeds–foods we had never seen before."

After about six months, in Oct. 1980, in order to attract customers to the shop, they started to make nigari tofu (for their own store only) in a small room at the back of the store, designated just for that purpose. They made the simple equipment themselves, and they learned the process from *The Book of Tofu,* by Shurtleff and Aoyagi.

After another six months they were inundated with other store owners, and cafe & restaurant owners from all over New Zealand wanting to buy their tofu. "It was just amazing." The tofu was completely unpackaged and they sold it under water in bulk buckets only. So in about April 1981 they started to sell their tofu outside of Harvest Wholefoods. "Sometimes they would pick it up, and sometimes we would deliver it."

Sanitarium Health Food Co. was making many kinds of breakfast cereals and canned nut meats, but no soyfoods. Several Chinese restaurants were making tofu (they called it "bean curd"), but only for use in their own restaurants; they did not sell it elsewhere. One of these was named Sun Sun, located in Khyber Pass, Auckland.

Their daughter, Jesse, was born on 1st October 1981, and by this time it was becoming difficult to manage both the shop and making tofu. So they sold the shop and with the capital gained they brought in special tofu making equipment from Japan, moved to new premises at 1 Wallingford St., Auckland, and started Harvest Soyfoods. Harvest Wholefoods is still at its same original location today; it is going strong and doing well financially.

Harvest Soyfoods' first product was nigari tofu; to this they soon added Tofu Spreads (Feb. 1981) then Tempeh (April 1981). The business grew very rapidly, and during this period Greg also had a child, so they all had very young children and were trying to manage their lives as well as an extremely rapidly increasing business.

Greg's partner decided that she wanted to leave Auckland, and as they could not picture another partner in his place and were feeling very overloaded anyway they decided in 1983 to sell the business to Paul and Trevor Johnston, who renamed it Bean Supreme. The Johnstons paid half the money at the time of sale and the remainder a year later; Elizabeth and Rick Chalmers worked for the Johnstons during that year. This business is also still in existence, although it was bought out by Sanitarium Health Food Co. in about Aug. 1986. Note: Trevor is no longer with the company; Paul sold the company to Sanitarium Health Foods.

From 1983 to 1986 Rick and Elizabeth had a commercial cleaning business, which suited the family structure very well, but was very unsatisfying workwise and environmentally.

In about 1980 or 1981 Austin Holden had started a largely macrobiotic import and wholesale business, Kiaora Naturals, at 374 West Coast Road, Glen Eden, in west Auckland. Holden soon started a very small shop in the corner of his warehouse and called it East West Wholefoods. For the first few years, his only customer was Harvest Wholefoods. "We kept him going."

Then in 1986 Rick and Elizabeth started East West Organics, taking over the building (and business) formerly occupied by Austin Holden and Kiaora Naturals. They knocked out all the walls, resulting in a much larger shop that specialised in organic food, with a big emphasis on fruit and vegetables.

They had no intention of making soyfoods. However there was suddenly an influx of Asian immigrants to New Zealand and Asian Tofu (usually made with calcium sulfate in aluminum pots) became widely available. By this time organics was really growing in New Zealand. Elizabeth and Rick wanted to stock organic tofu in their store, but they couldn't find a source. They talked with Trevor and Paul Johnston about making it for them, but the brothers felt there was no future in it, so they declined to do it.

So in 1996 Elizabeth and Rick started The Organic Soy Company, again in a small food factory out the back of East West Organics. They started making nigari tofu again–for their own store only. For the first time, they started to use organic soybeans, and as many other organic ingredients as they needed and could get. "We were right back where we started. And then exactly the same thing happened again. Once the word got out that organic nigari tofu was available again, people started coming from everywhere to buy it. It

© Copyright Soyinfo Center 2021

was not our intention to get back into the soyfoods business; we'd already sold our company. But we wanted the quality, so we had to make it ourselves." East West Organics is still operating today, although out of new premises (outgrew old one), and has just moved up the road slightly.

Their son Daniel joined them in January 1998, and in October of 1998, they sold East West Organics and moved the Organic Soy Company to their current premises at Unit A, 2 Corban Avenue, Henderson, Auckland.

Elizabeth and Rick separated the same year, but continued on in the family business together. In 2001 their daughter Jesse returned from Europe and also joined us in the business. Later that same year Rick left the business to go to University and currently, Elizabeth, Daniel and Jesse are in joint ownership, with Rick still having a 10% share. They started using the brand names (the first being Tonzu) in 2002.

The business is growing slowly, currently producing tofu, tempeh, soy yoghurt, tofu burgers and teriyaki sauce, all 100% organic. Elizabeth has moved to part time as the younger generation are taking on the responsibility for the business. They currently have 3 full time employees as well as themselves, so are still reasonably small.

"We see a great future for the business and will probably outgrow our current premises within the next few years. We love making traditional soy products, and eventually hope to make miso and tamari, which will be export products as well as for the domestic market."

First sold commercially by the organic soy company: Tofu (1996), Teriyaki Tofu (1999), Tempeh (1999), Tofu Burgers (2001), Teriyaki sauce (2003).

All current labels and packaging are new, and have changed very much from the original. They once made two tofu spreads, one teriyaki and the other curry flavour. However it was hard to get a good enough shelf life out of them to make them viable, so reluctantly they discontinued them. They have also changed their burgers significantly. When they first produced a burger in 2001, they had 3 varieties: Garlic and Cheese, Sundried Tomato, and Feta, and Vegan. They have discontinued them all and now just make one that is actually Vegan, although they do not call it that. The burgers did not sell well; they are not certain why that was, maybe they were too expensive with all the organic ingredients and very labour intensive. So they have simplified and streamlined their current burger making the whole process more viable.

As the population of the whole of New Zealand is around 4 million and only 15% of them are vegetarian, they are playing to quite a small market; this can sometimes be quite a challenge. In the long term it will be sensible to develop products that they can export. Address: Founder and owner, The Organic Soy Company, Ltd., Unit A, 2 Corban Ave., Henderson, Waitakere, Auckland 0612, New Zealand. Phone: +64 9 835 3617.

2640. Murray, Frank. 2007. When was the National Nutritional Foods Association (NNFA) founded? (Interview). *SoyaScan Notes.* April 16. Conducted by William Shurtleff of Soyinfo Center.

• ***Summary:*** Note 1. Frank Murray is a longtime member of the NNFA and the author of the book *More Than One Slingshot* (1984) which is the definitive history of NNFA and related organizations. For many years he was editor, then executive editor of *Health Foods Retailing,* the leading trade magazine in the health foods industry in terms of both circulation and advertising space.

In his book we read: "The National Nutritional Foods Association (NNFA), which has had several names since its inception, has been the spokesman for the health food industry since 1938" (p. 6).

Frank adds: Look at the list of "NNFA Presidents" (p. 56). It shows that the first president of NNFA was John C. Maxwell, from 1938 to 1939.

"I would assume that the current people are fudging a bit to say that NNFA was founded in 1936." NNFA did not consult Frank in moving the date back to 1936. All of his information was taken from the magazine *Health Foods Retailing.*

Note 2. One could argue (although Frank does not accept this viewpoint) that NNFA existed in 1937. He wrote (p. 20-21): "In 1937, Anthony Berhalter organized a consumer group known as the American Health Food Association." A man of foresight, he operated a bakery in Chicago, Illinois. Berhalter also had a health food store (one of the first in Chicago), and a mail order business. "In the spring of 1937, Berhalter set up a convention of some 10 to 15 booths" in the old Auditorium Hotel in Chicago. The names of the exhibitors are listed.

Note: an article in *Naturopath and Herald of Health* (New York City) (Nov. 1936, p. 333) proves that the NNFA was established by Nov. 1936 by Anthony Berhalter. Address: New York. Phone: 212-924-0063.

2641. Natural Products Association. 2007. History of dietary supplement legislation timeline (Website printout–part). www.naturalproductsassoc.org Retrieved April 16.

• ***Summary:*** Covers the period 1938 to 1999. For example: "1938–The Federal Food, Drug and Cosmetic Act acknowledges vitamin, mineral, and other dietary properties of foods. The FDA uses the drug provisions of the law to stake its claim to reclassify dietary supplements as drugs based on their label claims.

"1941–The first recommended daily allowances (RDAs) are published establishing the basis for the FDA's regulation of vitamins and minerals, despite opposing opinions claiming the RDA was not reflective of current scientific advances on the benefits of nutrients."

Products Trade Show and Convention: Formerly NNFA. Connecting people, products, and knowledge (Brochure). Santa Ana, California. 4 p. Front and back. 28 cm.
• ***Summary:*** On the cover of this color brochure we read: "Conference July 20-22. Trade Show July 21-22. Sands Expo and Convention Center and Venetian Resort Hotel, Las Vegas, Nevada. Featuring keynote speaker Governor Mike Huckabee, former governor of Arkansas. "Quit digging your grave with a knife and fork." Free admission for natural products retailers! 3 easy ways to register today.

On page 2: "It's all about people. The 'who's who' in the natural products industry." "It's all about products. Find out 'what's what' in these important product categories." Page 3: It's all about knowledge: Profiles three speakers, incl. Anna Lappé, daughter of Frances Moore Lappé; together they lead the Small Planet Institute. And Tieraona Low Dog, M.D., Director of Education, Program in Integrative Medicine, Univ. of Arizona. Plus seminars, roundtables, and personal and professional development courses.

Back page: "More show features and activities," plus the names and logos of show sponsors. A single-sided, black and white insert is a registration form. Non-members pay $325 to attend.

Note: The first show was apparently held in about 1937. Address: 2112 E. Fourth St., Suite 200, Santa Ana, California. Phone: (800) 966-6632.

2643. Frazier, Wade. 2007. Paul Bragg's tarnished legacy (Web article). http://www.ahealedplanet.net/bragg.htm. Printed May.
• ***Summary:*** A good biography of Paul Bragg which makes the best attempt seen to date to separate the facts from the fiction. For example, Paul Bragg lied about his age, claiming that he was 14 years older than he actually was. Contents: Introduction. Bragg's claims–His health advice. Bragg's claims–His life story. The documentary evidence. Conclusion. Footnotes.

Note 1. The easiest way to find this biography is to Google: Wade Frazier Paul Bragg.

Note 2. This biography of Bragg is well documented, and some documents (such as U.S. Census records, samples of his signature, Draft Registration Card {1917} and Application for Social Security Account Number {2 Dec. 1949}) actually appear as images on the screen.

2644. Luther, Claudia. 2007. Obituaries: Jack LaLanne dies at 96; spiritual father of U.S. fitness movement. *Los Angeles Times.* Sept. 24. p. AA1.
• ***Summary:*** Jack LaLanne, for decades America's master of health and fitness, first popularized the idea that Americans should work out and eat right to retain youthfulness and vigor. He died Sunday at age 96. According to his agent, Rick Hersh, he underwent heart valve surgery in December 2009.

LaLanne was far more than merely a "muscle man." He "was the spiritual father of the health movement that blossomed into a national craze of weight rooms, exercise classes and fancy sports clubs."

In 1951 he launched an early-morning exercise program on television keyed to housewives. His religion was physical culture and nutrition, and he spent his life on a crusade to help Americans is these two areas.

"Well into his late 80s, LaLanne continued his personal fitness routine of two hours a day–one hour of weight training and another hour exercising in the pool–beginning at 5 or 5:30 in the morning (a concession to his age; in earlier days, he started at 4 a.m.).

"No one–not even Arnold Schwarzenegger–could argue that LaLanne wasn't the best. Schwarzenegger, who met LaLanne in the 1960s on Muscle Beach on the Venice Boardwalk, said LaLanne would try to see who could match him in numbers of chin-ups and push-ups.

"'Nobody could,' Schwarzenegger told The Times. 'No one even wanted to try.'

"Francois Henri LaLanne (nicknamed Jack by his brother) was born Sept. 26, 1914, in San Francisco to French immigrant parents; his father worked at the telephone company and was a dance instructor and his mother, who was a maid, was a Seventh-Day Adventist, a religion that advocates "eight keys" to good health, including nutrition and exercise.

"LaLanne grew up in Bakersfield, where his parents had moved to become sheep farmers, but the sheep contracted hoof-and-mouth disease, and the family moved to Oakland. LaLanne's father died of a heart attack at age 50.

"LaLanne often told the story of how his mother spoiled him, giving him sweets as a reward. By the time he reached adolescence he had become a 'sugarholic' with a violent temper and suicidal thoughts.

"He was failing in school, his stomach was upset, he wore glasses, he had terrible headaches, he was weak and skinny, he had pimples and boils." Then he met Paul Bragg at a lecture in Oakland and turned his life around. "In 1936, he opened his first real gym–LaLanne's Physical Culture Studio in downtown Oakland." The rest is history.

In 2002 LaLanne was given a star on Hollywood's Walk of Fame.

LaLanne is survived by this wife, Elaine; Elaine's son, Dan Doyle, of Los Angeles; LaLanne's daughter by his first marriage, Yvonne, a chiropractor, of Walnut Creek; and the couple's son, Jon, of Kauai, Hawaii.

Note: Pioneers in physical fitness and physical culture in the USA (chronological): Bernarr Macfadden (1868-1955, an influential proponent of physical culture, a combination of bodybuilding, good nutrition, and a healthful lifestyle), Bob Hoffman and Joe Weider (born 1919; muscles, bodybuilders), Paul Bragg (1895-1976), Jack LaLanne (he had by far the greatest impact because of his TV show and

© Copyright Soyinfo Center 2021

the wide media coverage from his swimming events).

2645. Weise, Elizabeth. 2007. LaLanne, still the muscle man. *USA Today.* Sept. 26. *
• ***Summary:*** Jack LaLanne turned 90 on Sunday, yet he is still as fit and energetic as many people who are in their 50s. He is regarded by many as the "godfather of fitness." He still wears his trademark tight-fitting jumpsuit, designed to show of his muscles. His television show, which aired from 1951 to 1984, taught several generations of Americans the importance of eating right and staying fit. This show brought his basic message into people's homes and he had them doing exercises long before Jane Fonda or Richard Simmons.

LaLanne grew up in Berkeley and was a weak, sickly child who loved to eat sugar and sweets. But at age 15 he had an experience that changed his life. He heard Paul Bragg lecture in Oakland. Bragg said that if he obeyed nature's laws and ate only natural, unpprocessd foods, his physical body and mind could be born again. That "message fell on LaLanne's young ears like manna from heaven." He says that he actually got down on his knees and said "Dear God, give me the willpower to refrain from eating these foods that are killing me!"

Cutting out all white sugar and white flour, he switched to a diet of natural foods based on fruits, vegetables and grains. After two weeks, he says, he felt "like an entirely different human being."

One the butt of jokes, he became captain of his high school football team. He also "became a bodybuilder and entered competitions up and down the West Coast."

In 1936, after high school, LaLanne started his own gym in downtown Oakland. It was the forerunner of the modern health club, complete with a health-food store and juice bar. He was way ahead of his time and people ridiculed his basic message. In those days very few people lifted weights–and certainly not women as he advocated. Not even football players!–until the Dallas Cowboys [Texas] hired the first strength coach in the late 1970s. Jack had a sound knowledge of good exercises and his gym clients used some of the first exercise equipment–designed by LaLanne.

By 1951, LaLanne had a string of gyms and a desire to reach more people. The opportunity came when he got a phone call from the head of the ABC-TV affiliate in San Francisco; he said "the fledgling network was looking for someone to do a health and fitness show." He started by filming in the KGO studios in San Francisco; it was there he met his second wife, Elaine, who was an executive producer. During World War II, when he served in the Navy, he had married a nurse, Irma. The couple had one daughter, Yvonne, who is now a chiropractor, age 60.

LaLanne adopted Elaine's two children, Dan and Janet, then the new couple had a child of their own, Jon. Before long they moved to Hollywood, where LaLanne's show became widely known; he told his audiences to "get up, get moving and eat right." He taught the audience how to do aerobic exercises. His constant patter hooked his viewers, and helped them enjoy the hard work. Address: USA Today.

2646. Murray, Sydney L. 2007. Patricia Bragg, N.D., Ph.D. An icon of health. Feature story (Web article). *Vision Magazine.* Nov. www.visionmagazine.com/archives/0711.

2647. Esselstyn, Caldwell B., Jr. 2007. Prevent and reverse heart disease: the revolutionary, scientifically proven, nutrition-based cure. New York, NY: Avery. A member of the Penguin Group (USA) Inc. xii + 308 p. Plus 8 unnumbered pages of plates. Foreword by T. Colin Campbell, Ph.D. Illust. (some color). Index. 24 cm. [27 ref]
• ***Summary:*** A remarkable, milestone book! Every person with a heart should read this book. Advocates a plant-based diet with no oil or nuts. On the cover: "Based on the findings of a now 20-year study first published in the *American Journal of Cardiology* [in Dec. 1995]. With more than 150 great-tasting recipes."

Contents: Foreword, by T. Colin Campbell. Introduction. Part I: The heart of the matter. 1. Eating to live. 2. "Someday, well have to get smarter." 3. Seeking the cure. 4. A primer on heart disease. 5. Moderation kills. 6. Living, breathing proof. 7. Why didn't anyone tell me? 8. Simple steps. 9. Frequently asked questions. 10. Why can't I have "heart healthy" oils? 11. Kindred spirits. 12. Brave new world. 13. You are in control.

Part II: The joy of eating. 14. Simple strategies. 15. Advice from Ann Crile Esselstyn. 16. Breaking the fast. 17. Feasting on salads. 18. Sauces, dips, dressings and gravies. 19. Vegetables, plain and fancy. 20. Soups, thick and delicious. 21. Sandwiches for all occasions. 22. The main course. 23. Wonderful, easy desserts.

This book is based on a 20 plus year study of coronary artery disease using diet and lifestyle modifications; it reports the results of that study. President Bill Clinton has spoken (in public and on TV) very highly of this book and of Dr. Esselstyn (pronounced ES-sul-stun, not ES-sul-stine); the name is Dutch.

The dietary rules (p. 120-21): 1. Don't eat any meat, chicken or fish. 2. Do not eat *any* dairy products. 3. Do not eat eggs; that includes egg whites and even egg substitutes that include egg whites. 4. Do not consume any oil at all–Not even virgin olive oil or canola oil. 5. Use only whole grain products, including brown rice. That means no white flour products. 6. Do not drink fruit juice–but its fine to eat fruit. 7. Do not eat any nuts. 8. Do not eat avocadoes (or guacamole). 9. Do not eat coconut. 10. "Eat soy products cautiously. Many are highly processed and high in fat. Use 'light' tofu. Avoid soy cheese, which almost always contains oil and casein." 11. Read *The China Study,* by T. Colin Campbell.

After having cautioned the reader to "Eat soy products cautiously," the plant-based recipe section of the book (p.

© Copyright Soyinfo Center 2021

119-286), by Ann Crile Esselstyn, calls for soyfoods in many recipes. Some of the breakfast cereals call for plantmilk using a standard format: "2 cups oat, multigrain, almond, or nonfat soymilk" (p. 129-32, 162, 231, 276, 283). A comparison of the caloric, fat, sodium, and sugar content of nine plantmilks (six of them containing soy) is given on pages 136-37. "Low-sodium tamari" and Bragg Liquid Aminos (which contain sodium by no salt) are widely used in small amounts for seasoning (p. 128, 158-59, 165-66, 168, 170-72, 177, 179, 184, 251, etc.). White miso is used occasionally as a combination seasoning and sweetener (p. 163, 191). Seitan (made from wheat gluten) is occasionally used as a meat substitute (p. 213, 250-51). Light silken tofu or light extra-firm tofu (often one 12.3-ounce package) is used as a dairy alternative in dessert recipes such as: Chocolate mousse (p. 272-73). Blueberry purple passion (p. 273). Pineapple paradise (p. 274). Lemon whipped topping (p. 275). Pineapple frosting (p. 278). Creamy fudge frosting (p. 279).

Sweeteners are used in moderation and the chapter on "Desserts" begins: "Its best not to eat dessert every night. Make it a rare treat, when there are lots of people around–and no temptation to eat too much." Many fruits are naturally sweet and make good desserts. One format is: "3 tablespoons maple syrup, honey, agar nectar, or sugar."

Acknowledgments (p. 287): "Kindred spirits in the transition to healthier living have my gratitude for their own inspiring work. Among them: Neal Barnard, Colin Campbell, Antonia Demas, Hans Diehl, Joel Fuhrman, Mladen Galubic, Alan Holdhamer, William Harris, Michael Jacobson, Michael Klaper, Robert Kradjian, Doug Lisle, Howard Lyman, John McDougall, Jeff Nelson, Dean Ornish, John Robbins."

"My late father, Caldwell B. Esseltyn, M.D... And long before it became fashionable, he argued that the only way out of the impossible health-care burden that confronts the United States is to teach people how to live healthier lives" (p. 288).

Publisher's summary: "Heart disease remains the leading cause of death in this country for men and women. And while we spend millions of dollars each year developing treatments, traditional procedures fail patients by focusing only on the symptoms of the disease, not the underlying causes. In *Prevent and Reverse Heart Disease,* Dr. Caldwell B. Esselstyn, Jr., a former surgeon, researcher, and clinician at the Cleveland Clinic, challenges conventional cardiology by posing a compelling, revolutionary idea–that we can, in fact, abolish the heart disease epidemic by changing our diets.

"The proof is in the incredible results of the patients who have followed Dr. Esselstyn's ground-breaking program. The men and women in his twenty-year nutritional study–the most comprehensive study of its kind–came to him with advanced coronary disease. Despite the aggressive traditional treatment they received-including bypasses and angioplasties–a number had been told by their cardiologists that they had less than a year to live. Within months of following a plant based, oil free diet, their angina symptoms eased, their cholesterol levels dropped significantly and they experienced a marked improvement in blood flow to the heart. Twenty years later they remain free of symptoms. Drawing on the results of this revolutionary study and his ongoing work with patients all over the country, Dr. Esselstyn convincingly argues that plant based, oil free nutrition can not only prevent and stop the progression of heart disease, but also reverse its effects.

"Furthermore, it can eliminate the need for expensive and invasive surgical intervention except in acute emergencies, no matter how far the disease has progressed. *Prevent and Reverse Heart Disease* explains the science behind these dramatic results, and offers readers the same, simple plan that has changed the lives of Dr. Esselstyn's patients forever. In addition, the book offers more than 150 delicious recipes developed by Ann Crile Esselstyn, that the Esselstyns and their patients have enjoyed for years. Clearly written and backed by irrefutable scientific evidence, startling photos of angiograms and inspiring personal stories, this book will empower readers to take charge of their heart health. It is an important call for a paradigm shift in heart disease therapy."

About the author: Caldwell Blakeman Esselstyn Jr., M.D., (born December 12, 1933) is an American physician, author, and former Olympic rowing champion. His color portrait photo appears on the front dust jacket. Esselstyn graduated from Deerfield Academy and in 1956 graduated from Yale University [New Haven, Connecticut], where he was a member of Skull and Bones. Caldwell Esselstyn competed at the 1956 Summer Olympics in Melbourne, Australia, where he won a gold medal in eights with the American team. On 1 May 1961 his engagement to Ann Crile was announced by the *New York Times;* they were married on 18 June 1961. 1961–He received his M.D. from Western Reserve University. 1985–He began his famous study at the Cleveland Clinic of 22 patients who had previously had heart attacks. 1988–He and his family began to move toward a plant-based diet. Dr. Esselstyn and his wife, Ann Crile Esselstyn, have mostly followed a vegan diet since the mid-1980s. He attributes the success of his 12 year trial with heart patients to low mean levels of both total cholesterol (145 mg/dl) and LDL cholesterol (82 mg/dl). In 2010 after cardiac surgery, former U.S. president Bill Clinton mostly adopted the plant-based diet recommended by Caldwell Esselstyn, Dean Ornish and T. Colin Campbell. Source: Wikipedia, at Caldwell Esselstyn. May 2011.

Dr. Esselstyne and Ann Krile were married on 18 June 1961 in Cleveland, Ohio. They have four grown children: Rip (born in 1963), Ted (1964), Jane (1965), and Zeb (1967). Three are married, and Dr. Esselstyn and Ann have six grandchildren (p. 288). In 1988 the Esselstyn family joined

© Copyright Soyinfo Center 2021

together in moving toward eliminating dairy products, meats, and oils from their diet. Their eldest son, Rip, became an all-American swimmer at the University of Texas at Austin; after graduating he was a professional triathlete for 11 years. Today (2011) he is a teacher and writer about diet and health–advocating a "plant-strong diet." Their second son, Ted, set a 200-yard backstroke record at Yale University, and their daughter, Jane, won the Big Ten 200-yard backstroke championship while attending the university of Michigan. Their youngest son, Zeb, as an Ohio high school junior, was the state butterfly swimming champion. And Ann, now in her early seventies, runs for 40 to 70 minutes almost every day. Clearly their plant-based diet provides them with plenty of strength and energy (p. 78-79).

The endothelial cells that line the arteries and veins produce nitric acid–a truly magical substance / molecule. Address: M.D., former surgeon, researcher and clinician, Cleveland Clinic, Ohio–for 35+ years.

2648. Pignataro, Anthony. 2008. In the name of the 'father': Celebrity nutritionist and health food seller Patricia Bragg isn't an easy person to pin down. Here's what we found when we tried to find out exactly who she is and what she intends to do with all that Waiehu land she owns. *Maui Time Weekly.* Feb. 28. Cover story.

• ***Summary:*** A very interesting 3-part article with much new information about Patricia Pendleton Bragg. In 2002 Patricia Bragg paid $1.1 million for 553 acres of farmland and 40,000 macadamia nut trees in Waiehu, a place on the northern coast of Maui. She is a self-proclaimed "Health Crusader."

"Yet one of her oldest friends has described her as a 'mystery,' and there's considerable truth in that. Bragg is a complex personality, capable of both selfless generosity and relentless self-promotion. She constantly invokes the name of her 'father,' the late nutritionist Paul Bragg, yet clams up when talk turns to her actual biological parents. She'll drop the names of her friends at the drop of her bright pink hat–Tom Selleck, Clint Eastwood, Jack LaLane–but insists she's not a 'Hollywood celebrity.' Bragg Health Foundation donates money to a surprising spectrum of charities: groups opposed to genetically modified foods on one hand, fundamentalist Christian ministries on the other."

Patricia repeatedly refers to Paul Bragg as "my dad." She did so at least a dozen times during the course of this interview. However: "According to her California birth certificate, she was born Patricia Pendleton at Oakland's Peralta Hospital. Her birth took place at 1:57 a.m. on April 29, 1929, and her biological parents were Harry C. and Nettie Pendleton."

"Patricia's use of the Bragg name comes from her marriage to Robert E. Bragg, a chiropractor and son of Paul Bragg. That makes Paul Bragg Patricia's father-in-law."

When the writer asked Patricia about this contradiction, she replied that Paul Bragg had legally adopted her. She repeated for emphasis: "Yes. He legally adopted me."

"While certainly possible–adult adoptions are legal in California–*Maui Time* could find no public record of it having taken place. When I asked Patricia when the adoption occurred, she said simply, 'Years and years ago. My private life is my private life.'

"This became a nearly constant refrain. 'You don't need to go into that,' she'd lecture me whenever I asked about her biological parents. 'I'm not a Hollywood celebrity.'"

Patricia is also president of the Bragg Health Foundation, a non-profit foundation based in Santa Barbara, California. Its website is www.bragghealthfoundation.org. The foundation contributes money to worthy causes.

Note: On the homepage of the Bragg foundation website is a color photo of "Patricia Bragg, N.D., Ph.D., World Health Crusader." The text begins: "Dear Health Friends: The Bragg Health Foundation is a living legacy dedicated to my father's life of promoting optimal health and wellness worldwide. My father, Paul C. Bragg, N.D., Ph.D. dedicated his life to spreading the gospel of good health, happiness and love everywhere he went on his world travels."

"Bill Galt, who founded the Good Earth Restaurant chain in 1976, credits a Paul Bragg lecture with transforming his life from 'the junk food junkie of the world' to being a healthy eater." Address: News editor, Maui Times.

2649. Ditch, Jodie. 2008. New information on the life and genealogy of Mildred Lager (Interview). *SoyaScan Notes.* Aug. 22. Conducted by William Shurtleff of Soyinfo Center.

• ***Summary:*** Mildred Mathilda Lager was born on 19 Dec. 1900, not 1908 as the Soyinfo Center website states. Jodie's source is a register that she got from the library in Superior, Wisconsin.

Her parents were Gustav Lager (one of 20 children in the family in which he was a child in Sweden; all but one emigrated to the USA) and Hilda Marie Erickson, both born in Sweden. He arrived in the United States in 1891 and worked as an engineer (drove a locomotive) for the Great Northern railroad in an elevator yard. She arrived in 1893. They were married on 28 Oct. 1899 in Superior, Douglas Co., Wisconsin. Most of this information came from online genealogical records; Jodie subscribes to Ancestry.com. The 1891 date comes from both the census and from Gustav's obituary–or maybe their 50th wedding anniversary. Jodie has not yet been able to find the name of the ship on which Gustav came to the USA. Jodie does not know the cause of either of Mildred's parents' death.

Mildred grew up at 979 Bay Street in Superior. At age 12 she went to Sweden with her parents, perhaps to attend her grandparents' funeral. Mildred went to college in Superior; she graduated with a teaching certificate, then taught at two different schools, one in Michigan and one in Chippewa, Wisconsin. At one point she worked at a shoe

© Copyright Soyinfo Center 2021

store in Superior named The Family Shoe Store.

Jodie's husband is Mel Ditch. His mother was a Lager, and Mildred Lager was her cousin. Jodie's mother-in-law's father, Joel Lager and Gustav "Gus" Lager were brothers. Gustav was Mildred's father.

Jodie has ship's passenger records showing when Mildred returned from Hawaii to California.

Jodie also has a 1938 article from the *Evening Telegram* (Superior, Wisconsin, May 27, p. 4) titled "Superior girl success as manager of 'health store," that tells a lot about Mildred and mentions Dr. Frank McCoy, a noted health specialist in Los Angels and the author of *Fast Way to Health.* McCoy had a column in the *Los Angeles Times* titled "Health and Diet Advice" from about 1928 to 1931. Jodie got a lot of valuable information about Mildred from the library in Superior, Wisconsin.

California voter rolls show that from 1940 to 1946 Mildred lived at 1901 West 2nd St., Burbank, California. In 1948 and 1950, after her marriage, she lived at 122 North Kenmore Ave., in Burbank. She was a Republican. Her parents lived near her in from 1942 to 1946 at 1230 North Ontario St. in Burbank. Mildred's father died in 1954 and her mother died in 1955; Jodie has obituaries for both.

Concerning Mildred's father: Jodie has his birth date, the names of his parents and his brothers and sisters, his marriage date, occupation, death date, and cemetery where was buried. Concerning Mildred's mother: Jodie has (so far) her birth date, death date, and cemetery.

Jodie also has an obituary of Mildred from Superior, Wisconsin, titled "Mrs. Edwin Jones, ex-Superiorite, dies in California;" it is much different from Mildred's California obituary.

Jodie has recently tried unsuccessfully to contact both of Mildred stepdaughters.

Concerning arthritis: It seems to run in the Lager family. Mildred, Jodie's husband's mother, and Jodie's husband's brother all had arthritis. Mildred had no children. Jodie is not aware that either of Mildred's parents had arthritis. There was also a lot of ALS (amyotrophic lateral sclerosis, also called Lou Gehrig's Disease in the USA) in families close to Mildred.

2650. Ditch, Jodie. 2008. Re: Brief genealogy of Mildred Lager and her parents. Letter (e-mail) to William Shurtleff at Soyinfo Center, Aug. 24. 2 p.

• ***Summary:*** Mildred's dad: Gustav Walfred Lager: Born 21 may 1870 in Sweden, (don't know where in Sweden yet have some of his brothers but not his) to Karl August Anderrson Lager, born 17 April 1839 in Sweden [Karl's father was Lager Anderson; his mother is unknown at this time], and Josephine Albertina Engholm born 14 Feb. 1843 in Sweden. (Josephine parents Lars Peter Engholm & Klara Gustava Landedal married 1842 in Sweden). Karl and Josephine married 1863. My understanding is that they had 20 children–2 sets of twins died at childhood age. Gustav out of 16 is the 5th child born. He came to the USA in 1890.

Her mother: Hilda Marie Erickson born 8 Nov. 1875 in Sweden (have not found parents yet). According to the 1900 census she came to the USA in 1881.

Gustav and Hilda married on 28 Oct. 1899 in Superior, Wisconsin. Mildred M. Lager, their only child, was born 19 Dec. 1900 in Superior, Wisconsin. They lived at 979 Bay Street, Superior, WI.

Gustav and Hilda celebrated their 50th anniversary in California (attachment The Evening Telegram 21 Nov. 1949, page 13 column 5). Gustav became a U.S. citizen on 22 Aug. 1906. He was an engineer at the Great Northern Elevator Co. Hilda was a housewife.

Residences of Gustav and Hilda: 1942–1946 lived at 1901 W 2nd St., Burbank, Calif. 1952-1954 1230 North Ontario St., Burbank, Calif. 1948-1952 need to find on Gustav & Hilda

Mildred's residences: 1940-1946 1901 W 2nd Street. 1950-1960 122 North Kenmore Ave.

Gustav died 24 Dec. 1954 Burbank, Calif. Cemetery: Forest Lawn, Hollywood Hills, Calif.

Hilda died 29 Nov. 1955 Burbank, Calif. Cemetery: Forest Lawn, Hollywood Hills.

Mildred died 25 Jan. 1960 Burbank, Calif. Cemetery: Forest Lawn, Hollywood Hills. I also have the day they where laid to rest and location in the cemetery if you need that. Address: Chehalis, Washington state.

2651. Hardy, Les. 2008. Socialising accountability for the sacred: A study of the Sanitarium Health Food Company. PhD thesis, School of Commerce, University of Adelaide, South Australia. xiii + 404 p. [490* ref]

• ***Summary:*** This well researched and well written PhD thesis has a long and very useful bibliography (p. 369-404).

Note: "B.Ed. St" apparently stands for "Bachelor of Educational Studies." Address: M.Ec (UNE [Univ. of New England, New South Wales]), Grad Dip Acc (Monash), B.Ed St (QU [Queensland Univ., Queensland]).

• ***Summary:*** A feast for the eyes, the mind, and the palate. Filled with more than 1,300 beautiful color photos; many of them accompany over 1,000 healthful, natural recipes, but others show the great variety of natural foods, from colorful fruits to basic whole grains. Brimming with sound advice on diet, lifestyle, and health.

This is the new edition of a very important, pioneering, indeed classic American vegan cookbook. On the front and back covers is an idyllic painting of the Garden of Eden.

© Copyright Soyinfo Center 2021

Author Rosalie Hurd is seated under The Tree, reading the Bible–Genesis 1:29, which describes God's original diet for men and women. The book uses no animal products (except in one chapter at the end titled "Recipes Using Milk and Eggs," "for those who are in the transitional period. However, we encourage all those who still cling to milk and eggs to become acquainted with the facts concerning their use, and become weaned through this process"). Some recipes also use honey.

Contains even more innovative soy recipes than the original 1968 edition. A minor point: some of the soy terminology is inconsistent and/or outdated. Address: 1. D.C. [Doctor of Chiropractic], M.D.; 2. B.S. Both: P.O. Box 5209, Grants Pass, Oregon 97527. Phone: 541-472-1113.

2653. *VegeScan Notes.* 2009. Chronology of the early health foods movement in England (Overview). July 21. Compiled by William Shurtleff of Soyinfo Center.
• ***Summary:*** 1898 [Oct. 20]–The Pitman Vegetarian Hotel, England's first vegetarian hotel, opens on the top five stories of the building housing the restaurant. It is "named after Sir Isaac Pitman, inventor of Pitman Shorthand, who had been a vegetarian for 60 years, and at the time was the best known vegetarian in England." Customers of the restaurant "start asking for food which they could take home with them." James Cook starts to make simple, appetizing "foods from nuts, cereals, fruits and vegetables to take the place of meat, lard, butter, cheese and jelly made from animals."

1902?–"Six years before Kathleen was born the 'Health Food Store' was opened and the manufacturing side increased." James "realised it was not economic to run a factory in the centre of Birmingham, so he bought a site in Aston" where he built the first [sic] health food factory in England.

1905–The Pitman Health Food Company opens. Its most popular products are Nuto Cream Soup and Nut Cream, followed by Pitman Dandelion Coffee. All products are dairy-free.

1907 Oct. 28–The health food factory of the International Health Association Ltd. is dedicated at Stanborough Park, Watford, Hertfordshire, England. Two hundred people attend. The estate and all its buildings are dedicated to the service of God.

1926–The International Health Association Ltd. (still located at Stanborough Park) is renamed Granose Foods.

1929–A bigger and better health food factory, called Vitaland, is built in a beautiful building in green fields at Four Oaks, Sutton Coldfield Park, Warwickshire.

2655. Wikipedia, the free encyclopedia. 2009. Patricia Bragg (Web article). http://en.wikipedia.org/wiki/Patricia_Bragg. 1 p. Printed Oct. 31.
• ***Summary:*** "Patricia Bragg (born April 29, 1929) [1] is an American businesswoman, author and health consultant who is the nominal head of Bragg Health Products and Books.

"She was born Patricia Pendleton at Peralta Hospital in Oakland, California to Harry (Henry) Clay Pendleton, Sr. (1874-1961) and Nettie Louise (née Coward) Deacon Pendleton (1898-1964), who were prominent in the San Francisco Bay community where her father was a builder / real estate investor-developer.

"Bragg attended public schools in Piedmont, California, before graduating high school from the private Mary Wallace School, also in Piedmont, in 1947.

"In 1952 she became the second wife of Robert Elton Bragg (1922-1993), a chiropractor. They divorced in 1956. She married James Cameron Gilroy (1954-1977) in 1976, and they were divorced later that same year.

"Bragg has a half brother, Herbert Coward Deacon, born 1919, and a deceased brother, Harry Clay Pendleton, Jr., (1930-1993)."

Footnote [1]: (State of California Cert. of Birth 29-026962, filed 5/27/1929, C. R. Faucher, State Registrar).

2656. Legacy 106 Inc. 2009. Historic designations: Anthony A. & Katherine Berhalter House (Website printout, part). www.legacy106.com/AnthonyAKatherineBer1.htm Retrieved Dec. 4.
• ***Summary:*** Several large, beautiful color photos show the front of this gorgeous Tudor-style home at 221 Encinitas. "Frank Beck–Builder. Seaside Estates Annex. 1926.

"Encinitas Community. Historical Landmark No. 1–Designated December 14, 2005."

"The Anthony A. and Katherine Berhalter House, so named in recognition of its first owners, is important foremost because of its architecture. It is an excellent example of English Tudor style that today lends a sense of old world grandeur that is part of the community's historical character."

"The house and its architecture are part of the legacy of the rural built environment within the context of the real estate 'boom' of the community of Encinitas during the 1920s up until the Great Depression. This growth reflected the shift of dependence from well water with the formation of the San Dieguito Irrigation District in 1923-24.

"Water was the key to changing Encinitas from a dry farming agricultural community to a suburban residential

© Copyright Soyinfo Center 2021

resort community. Among the earliest real estate subdivisions in Encinitas to take advantage of potable water served by the District was Seaside Gardens, which absorbed former agricultural lands along the coast.

"The first owner-occupants of 221 Encinitas were Anthony A. and Katherine Berhalter, and their son, Howard. Anthony emigrated from Germany and Katherine (some records spell it Catherine) came from Czechoslovakia [sic, she was probably born in Illinois]. Howard was born in 1913 in Chicago, Illinois, where Anthony worked as a grocer. Katherine was co-owner of the bakery-grocery business.

"The Berhalters first bought ten acres in Seaside Gardens with the intent of building a home. Deed records show they bought two lots in Seaside Gardens Annex along with 35 acres in the South Coast Park resubdivision of Eatonville which they planned to resubdivide and sell the individual lots as a business venture.

"On November 20, 1935, the Berhalter's sold the lots to Alice Suter Bachmann. The Berhalter's notarized the transaction in Chicago, so evidently they were not living in Encinitas at this time." 2657. Natural Products Association. 2009. Natural Products Association's 70th anniversary–A look back (Website printout–part). www.naturalproductsassoc.org/site/PageServer?pagename=an_70th 1 p. Retrieved Dec. 4.
• ***Summary:*** "Founded in 1936, the Natural Products Association has established itself as the longest-running non-profit organization dedicated to serving and preserving the rights of natural products industry retailers and suppliers.

"In 1984, the book 'More Than One Slingshot: How the Health Food Industry is Changing America,' written by Frank Murray, was published by the Natural Products Association. Although the book chronicles the impact the natural products industry has had on the health of America, it also tells the story of the Association's evolution. The following is based on and excerpted from Murray's book, as well as other sources, and describes the birth of an association and the industry it represents.

"It wasn't long after the first vitamin was isolated in 1911 that the health food industry began to emerge. By the 1920s and 1930s many of the pioneer companies in the industry, some of whom are still in business, were in full operation. In fact, the 1930s have sometimes been referred to as the 'Golden Age' of the health food industry.

"In 1936, Anthony Berhalter, a baker located in Chicago, Illinois, began organizing a group that would 70 years later be called the Natural Products Association. This group, which initially had a consumer membership, was named the American Health Food Association.

"In the spring of 1937, Berhalter set up a convention of some 10 to 15 booths at the old Auditorium Hotel in Chicago. Some among the 150 people attending the meeting felt that a new organization should be formed that included retailers and manufacturers, but excluded consumers. Although not everyone agreed, an organizing committee was elected to form the new organization. After working all night, the committee presented a constitution and bylaws the next day to those who wanted the new trade association. It was approved and the new organization, the National Health Foods Association, which is now the Natural Products Association, was born."

On the right half of the same web page is a separate section titled "A look back."

"1936–A small group of suppliers of natural food ingredients form an organization to better inform consumers about the benefits of the natural nutrition industry. The group is called the American Health Foods Association (AHFA, which after several name changes over the years will become the Natural Products Association).

"1936–The inaugural issue of *Health Food Retailing* is published. Some consider it the first publication of the nascent nutrition industry. In February, 1939, it declares itself the official publication of the association.

"1937–AHFA holds its first convention at the Auditorium Hotel in Chicago, where 150 health food industry people gather. The association makes the transition from a consumer group to become the Natural Health Foods Association (NHFA) representing retailers, manufacturers and distributors.

"1938–The association holds its second trade show. Held at the Hotel Sherman in Chicago, the convention attracts more than 1,000 consumers and industry members.

"1938–Congress passes the Food, Drug and Cosmetic Act, which is the first regulation to establish labeling requirements and daily minimum requirements for several vitamins and minerals.

"1943–NHFA becomes the National Dietary Foods Association (NDFA).

"1946–The Natural Products Association (then the NDFA, or National Dietary Foods Association) holds its convention at the Hotel Continental in Chicago. An educational highlight is a detailed explanation of the food and drug regulations by Ralph R. Kneeland, a representative from the Food and Drug Administration (FDA).

"1951–The annual convention, held in the Hotel Book-Cadillac in Detroit, showcases nearly 100 exhibitors and more than 300 attendees. At the convention, results of a survey of health food retailers are released and reveal that vitamins and minerals make up 34 percent of the profits, while 'dietetic' foods comprise 26.5 percent.

"1953–At a pharmacists' convention in Philadelphia, attendees vote to press for legislation making all vitamins, minerals, and food supplements available only in drug stores.

"1955–The PELLL, or Public Relations, Education,

© Copyright Soyinfo Center 2021

Legal, Legislation and Lobbying, program is unanimously adopted to counter attacks against industry in the media and public spheres and harmful legislation that had appeared in the last few years in Minnesota, New Jersey, and New York.

"1955–Adelle Davis, a nutritional pioneer and eventual author of several books on nutrition, addresses the industry for the first time.

"1957–It is reported that a Minnesota law requiring vitamins to be sold in pharmacies has been overturned. Vitamins can now be sold in any food store in that state.

"1958–Regional health food associations have notably grown by now. Three of the most active, the Northern California Nutritional Foods Retailers Association; the Southern California Nutritional Association, and the Northwest Dietary Foods Association, hold the West Coast Dietary Foods Fair in Portland, Oregon.

"1958–The Food Additives Amendment to the Food, Drug, and Cosmetic Act is passed. It includes restrictive measures such as prohibiting the use of several minerals in supplement preparations.

"1962–At the annual convention, the Natural Products Association (then the NDFA, or National Dietary Foods Association) members are warned of the threat of proposed FDA regulations, which would severely restrict the industry. The law firm of Bass & Friend, headed by industry advocate Milton Bass, Esq., is retained to represent NDFA in the fight against these regulations.

"1965–In a speech before the U.S. Senate, Sen. Edward V. Long (D. Mo. [Missouri]) says, 'If the FDA would spend a little less time on small manufacturers of vitamins and a little more on the manufacturers of dangerous drugs, the public would be better served.'

"1969–The Food and Drug Administration (FDA) publishes proposed regulations for labeling and content of dietary supplements; however, public opposition forces further hearings that last into the early 1970s.

"1969–The Natural Products Association (then called the National Dietary Foods Association) merges with the American Dietary Retailers Association.

"1970–At the annual convention in New Orleans, the National Dietary Foods Association officially becomes the National Nutritional Foods Association (NNFA).

"1972–Sen. William Proxmire, a long-time health advocate, delivers the keynote address at the Association's annual convention in Washington, D.C.

"1973–FDA publishes final regulations classifying any supplements stronger than 150 percent of the Recommended Daily Allowance as drugs.

"1976–After years of debate over nutritional supplements, Congress passes the Proxmire Bill prohibiting the FDA from regulating vitamins and minerals as prescription drugs. The bill represents a major defeat for the FDA, which worked to repeal the bill.

"1984-1989–The Natural Products Association (then called the National Nutritional Foods Association–NNFA) fights legislative battle with the American Dietetic Association in several states over the latter's push for licensure bills. Due to strong, persistent response from industry, the proposed 'Dietitian Bills' are blocked."

This chronology on the website continues in more detail from 1990 to the present. Address: 2112 E. Fourth St., Suite 200, Santa Ana, California 92705. Phone: (714) 460-7732 or (800) 966-6632.

2658. Esselstyn, Rip. 2009. The Engine 2 diet: the Texas firefighter's 28-day save-your-life plan that lowers cholesterol and burns away the pounds. New York, NY: Wellness Central. xiii + 273 p. Foreword by T. Colin Campbell, PhD. Illust. Index. 24 cm.

• ***Summary:*** A very interesting, readable, and innovative book that advocates a sound, healthy diet that can last a lifetime. "Rip managed to convert a firehouse full of committed firefighters to a plant-based diet. Rip (born in 1963) is the eldest son of Caldwell B. Esselstyn, Jr., M.D., who has become famous for his ground-breaking book *How to Prevent and Reverse Heart Disease*. This book is both similar and different. It is similar in that the basic whole foods, plant-based diets advocated by father and son are 98% the same (and please focus on practicing that 98% and not squabbling about the 2%). It is different in that Rip is from a younger generation, is not a physician but an athlete and firefighter, and is trying to help people who want help in lowering their high cholesterol levels and their weight. He is not primarily trying to help people who have had at least one heart attack, are a death's door, and are (generally) willing to do almost anything to save their lives.

In Chapter 2, "My story," we read that while in school, Rip was an outstanding athlete. He set many high school swimming records (he still holds a national record in the 200 meter medley relay); he was a top player in his high school tennis team and co-captain of the water polo team.

At the University of Texas at Austin, he was a three-time All American swimmer and an Olympic trials qualifier in the 100- and 200-meter backstroke and freestyle events. In 1986 he graduated from the University of Texas and within six months he was competing as a professional triathlete–which required a 1-mile swim, a 24.9 mile bike ride, and a 6.2 mile run. In the Hawaii Ironman Triathlon he competed against six-time Ironman Champion Dave Scott, who was powered by a plant-based diet–Rip lost. So in 1987, because of the influence of his father and of Dave Scott, Rip changed to a healthy, whole foods, plant-based diet. In 1997 he decided to become a fire fighter in Austin, Texas. He continued to compete and won many events and set many records. For example, in May 2008 he set the National Record at the U.S. Masters Swimming Championship in the 200 yard backstroke (1:56:55). Rip is married to Jill Kolasinski, and they have a son, Kole.

© Copyright Soyinfo Center 2021

Rip's commitment to a healthy plant-based diet has resulted in many people asking him to help them with their diets. So in 2007, he devised the six-week Engine 2 Pilot Study in which 62 people agreed to eat a plant-strong diet; he put them through a gauntlet of tests before and after study to quantify the results–which were spectacular. Then in May 2008 he initiated a similar 4-week (28 day) study in which 15 people participated, 13 Engine 2 firefighters and two civilians. Again careful before and after records were kept. The average participant saw his total cholesterol drop 62 points (from 197 to 135), his average LDL (bad) cholesterol fall 50 points (from 125 to 74), and his weight drop 14 pounds (from 203 to 189). And all this in only 4 weeks! This book is based on the latter plan.

Rip makes much more use of soyfoods in his plant-based diet than does his father. The index contains 16 entries for tofu, 4 for tempeh, 4 for seitan, 2 for milk substitutes ("soy, rice, almond, and oat milk, for example"), 1 each tofu sour cream (p. 239), soy milk, soy yogurt (Silk or WholeSoy).

Soy related recipes include: Migas especiales (with 1 lb firm tofu, p. 154). Breakfast tacos (with "½ tube vegetarian breakfast sausage {we like Gimme Lean})," or use scrambled tofu (p. 155). E2 omelet (with "12 ounces Silken Lite Firm Tofu," p. 156). Lemon cornmeal pancakes (with "2 cups soy milk" and "½ cup soy yogurt, p. 157). Tofu steaks and mushrooms with mashed potatoes and green peas (with "1 pound extra-firm tofu," p. 180).

Linguine and creamy alfredo sauce (with "1 package Silken Lite firm tofu" and "2 cups unsweetened soy milk," p. 195). Lynn's meatloaf (with "10 ounces firm tofu," p. 204). Vegetable stir-fry with brown rice (with "1 pound seitan" and "two tablespoons low-sodium tamari," p. 208). Tempeh-mushroom stir-fry and soba noodles (with "1 package tempeh," and "3 tablespoons low-sodium tamari," p. 209). Red vegetable curry and brown rice (with "1 pound extra-firm tofu," p. 210).

Pad Thai (with "1 pound broiled tofu cubes {see p. 210}," p. 211). The great wooden bowl salad (with "1 pound extra-firm tofu," p. 214-15). Tofu vegetable spread (with "½ pound extra-firm tofu," p. 238). E2 sour cream (with "1 package Silken Lite firm tofu," p. 239). Asian marinade (with "3 tablespoons soy sauce, p. 241). Island marinade (with "4 tablespoons soy sauce," p. 241). Add tofu and allow to marinate refrigerated for 30 minutes to 4 hours (p. 241). Rip's favorite snacks include "4. Soy yogurt: I'm particularly fond of the Westsoy... cherry" (p. 243). E2 Basics chocolate pudding (with "1 package Silken Lite tofu," p. 245). Fruit bowl with soy drizzle (with "4-6 ounce container of soy yogurt," p. 249). Fruit mousse (with "1 package extra-firm Silken Lite tofu," p. 255). Maple sour cream dream (with "1 vanilla soy yogurt," p. 256).

Many recipes call for "Bragg Liquid Aminos" which are simply HVP (hydrolyzed vegetable protein) made by a quick and unnatural / artificial process; soybeans, wheat, and/or corn are immersed in hydrochloric acid until, after 1-3 days, the acid has broken down the protein into its constituent amino acids. Fermentation (as of soy sauce) can do the same thing naturally in 4-6 months. HVP is a source of flavor without salt, but that flavor is generally considered to not nearly as good as the flavor of soy sauce.

Rip has an exercise component to his "Engine 2" 28 day plan.

And Rip gives people a choice as they start the 28 day plan; one can be a Fire Cadet or a Firefighter (p. 22). The "Fire Cadet option is for those who prefer a more gradual approach." In week 1 Cadets must stop eating dairy products and processed / refined foods (such as refined sugar, white flour, etc.). In week 2 Cadets must stop eating meat, poultry, fish and eggs. In week 3 Cadets must do without added or extracted oils–even vegetable oils such as olive oil. In week 4 Cadets and Firefighters eat the total E2 diet, a healthy, whole-foods, plant-based diet. A Firefighter (the plan Rip recommends) requires that a give up all of these unhealthy foods from the start of the program. "Americans consume a staggering 50 percent of their calories from refined and processed foods."

Cholesterol-lowering drugs (such as statins: Rip, who is not a physician, does not use them).

Salt and sodium: Rip advocates a low-sodium diet.

Support groups after the 4-week program: Optional. People who wish to can create or find one themselves (p. 92).

Meditation and relaxation to reduce stress: Not part of the program.

Sugar and sweets. Avoid refined sugars, high fructose corn syrups, and things such as sodas, candy to which they are added. Instead choose natural sugars such as those in whole naturally-sweet fruits (p. 114-15, 134). In desserts, Rip often calls for up to 3-4 tablespoons maple syrup or agave nectar, yet a recipe for Brownies (p. 247) calls for "½ cup light brown sugar, packed" and "½ cup raw sugar." And a recipe for "Oatmeal raisin cookies" (p. 253) calls for even more refined sugar. Rip admits he has a sweet tooth. Some of his desserts violate the basic principles of the Engine 2 diet; they contain large amounts of refined sugars–unlike the recipes (developed by his mother) in his father's book. Moreover, his mother strongly suggests that desserts be saved for special occasions.

This is a sound, healthy diet and anyone who stays on it for 28 days will see dramatic improvements in their overall health and weight.

The Engine 2 diet is a good, practical diet for the rest of your life. But go easy on the desserts and try to avoid the ones with refined sugar. Address: Austin, Texas.

2659. Nordquist, Ted. 2010. Re: Early work with health foods, sour dough bread, and tofu in Sweden. Letter (e-mail) to William Shurtleff at Soyinfo Center, Jan. 6. 1 p.

© Copyright Soyinfo Center 2021

• ***Summary:*** "You may not know this, but while studying for my PhD I worked part time at the Mental Hospital and also at Sweden's largest and first Health Food Store in Uppsala, founded and run by Birgitta Åkerheden and her husband. I introduced to this store a sandwich / soup café section and introduced sour dough whole grain bread by bringing sour dough starter from San Francisco and working with the local Skuttunge Bagari to manufacture the sour dough bread for the sandwiches. I then introduced to the store 'alfalfa sprouts' showing them how to grow these and sell them in the store.

"When I then tried to introduce tofu at the store the owner asked me why I did not start my own tofu factory. It was a good question. You know the rest.

"I actually made about 12 different foods from tofu and invited the investment banks to this store to get start up money. Birgitta and I worked all day and had a huge demo ready for the bankers at closing time 6:00 PM. Of the 5 banks invited, none of them showed up!

"I was able to borrow $10,000 from my mother and $10,000 from my Korean neighbor, Professor Ki Yong Kim, head of Seoul University Computer Department. Eleven years later I paid Kim back at 18% interest (We continue to share Christmas cards). (Like most children, I never paid my Mother back, but I have 'loaned' a lot more than that amount to my children, so I think my Mom is OK with the final result)." Address: TAN Industries, Inc., 351 California St., Suite 1330, San Francisco, California 94104; 660 Vischer Ct., Sonoma, CA 95476.

2660. Davis, Brenda; Melina, Vesanto; Berry, Rynn. 2010. Becoming raw: The essential guide to raw vegan diets. Summertown, Tennessee: The Book Publishing Co. vii + 374 p. Index. 25 cm. [977* ref]

• ***Summary:*** Contains an excellent chapter titled "A history of the raw-food movement in the United States," by Rynn Berry (p. 9-24). The contents of that chapter: Introduction. The early raw-food movement: Sylvester Graham (1794-1851), Bernarr Macfadden (1868-1955), Herbert Shelton (1895-1985), Shelton's protégés (T.C. Fry, William Esser {who gained preeminence as a fasting expert at his Esser's Health Ranch, in Lake Worth, Florida; by 1983 has supervised some 35,000 fasts}, Vivian Virginia Vetrano). The German naturalist influence (Adolph Just, Benedict and Louisa Lust, Johanna Brandt, Otto Carque, Arnold Ehret, Vera & John Richter, Bill Pester). Twentieth-century raw-food leaders in the United States: Introduction (Eugene and Millis Christian, George J. Drews, St. Louis Estes), Norman Walker, Paul Bragg. Modern practitioners: Sproutarianism and living foods vs. fruitarianism: Introduction (Ann Wigmore, Victor Kulvinskas), wild-grown food and David Jubb, Essene and Christian raw foodists, Hallelujah Acres (founded by George H. Malkmus).

2661. Culture Codec. 2010. Pune health-food company Dakini Foods forced to leave (Web article). http://www.culturecodec.com/post/440492747/dakini-foods-pune-closed. March 11. Posted.

• ***Summary:*** "It is a sad day here in Pune, as I have received word from our favorite health-food producers in town that they have been forced to leave for bogus visa reasons.

"Dakini Foods produced the best natural food products we could find in town–including all natural and fresh peanut butter, tofu, tempeh, and rice cakes. Ah, what a sad, sad day.

"What is more, it seems that corruption and abuse of power were the rule in the government's under-handed dealings with Hillel Shapira, the proprietor of Dakini Foods, even to the extent of imprisoning him and making him pay bribes to use the bathroom.

"We clearly live in uncertain times when the emerging leaders of the 'free' world act indiscriminately with impunity.

"We wish Hillel and the others the best, and hope they find prosperity in their next ventures. Good bye, Dakini!"

2662. *SoyaScan Notes.* 2010. The connection between Clinton "Clint" Eastwood and Paul and Patricia Bragg (Overview). Compiled by William Shurtleff of Soyinfo Center.

• ***Summary:*** Clinton "Clint" Eastwood, Jr. (born May 31, 1930) is an American film actor, director, producer, and composer. He has received five Academy Awards, five Golden Globe Awards, a Screen Actors Guild Award, and five People's Choice Awards–including one for Favorite All-Time Motion Picture Star (Source: Wikipedia March 2010).

The connection between Clint Eastwood and Paul and Patricia Bragg started with the relationship between the late Harry Pendleton, Jr. (he died at age 64 of lung cancer), who was a buddy of Clint Eastwood, and who was Patricia Pendleton Bragg's younger brother (one year younger than Patricia). We don't know at what point Harry and Clint first became acquainted.

Clint was born (in San Francisco) the same year as Harry, Jr., (1930). They well may have attended Piedmont grammar schools together (Havens Elementary School) and definitely attended Piedmont Junior High School together (there they became lifelong friends and appeared) as Clint's family lived in Piedmont in the 1940s, as did Mrs. Pendleton and her children, Patricia & Harry, Jr. They both went on to attend Piedmont High School, Clint and Harry, Jr. both appeared in a class play together. The story from some of the many biographies of Clint Eastwood was that he was asked to leave Piedmont High late in his high school career–something about poor academic grades–and that he transferred to Oakland Tech and graduated from there in about 1949. During Clint's last year in high school, he lived in a small apartment house in Oakland owned by the

© Copyright Soyinfo Center 2021

Pendleton family.

Patricia Bragg also attended Havens Elementary School in Piedmont; a newspaper photo from 1939 shows her at age 10 at a school function there; Clint Eastwood and her younger brother, Harry, Jr., may have been school class year behind her.

Harry Jr. was Clint Eastwood's "best man" when Clint married his first wife in 1952, and "Clinton Eastwood Jr. of Hollywood" was Harry, Jr.'s "best man" when Harry married his first wife, Nancy Lee Flack, a Piedmont girl, at the chapel of The Highlands Inn at Carmel on 9 March 1958 (*Oakland Tribune*, 14 March 1958, p. 36D. "Nuptial vows at chapel in Carmel"). It's quite possible Patricia Bragg was in attendance at this wedding–though they definitely had an on & off sibling relationship.

A 1970 article in the *Miami Herald* (April 19, p. 18-G) states that Bragg's "disciples include such trim, fit and beautiful people as Eddie Albert, Pat Boone, Joan Crawford, Bob Cummings, Clint Eastwood, Alice Faye, and Cary Grant."

A 1975 article in *People Weekly* (Aug. 11, p. 45-47) adds: "Over the years, Bragg has accumulated an impressive band of kindred souls including Clint Eastwood, Muhammad Ali, Bernarr Macfadden, Mahatma Gandhi and the late, J.C. Penny,..." Gloria Swanson, and Jack LaLanne.

There may well have been Eastwood-Bragg connection in Southern California / Hollywood. Yet it is somewhat odd that neither Paul nor Patricia Bragg are mentioned in the index of at least six Eastwood biographies (which we have examined) if they played such a large part in Eastwood's "good health" as Bragg seems to claim–particularly since Patricia's brother, Harry Pendleton, Jr., is mentioned in three Eastwood biographies that we know of. And we've never seen a photo of Eastwood and Paul or Patricia Bragg together. We believe that one of the latest "Bragg" books has a modest promotional blurb on the back cover allegedly coming from the famous Mr. Eastwood though.

So here is what we have been able to find. If you are interested, please see what you can find.

2663. *SoyaScan Notes.* 2010. Where did Patricia Bragg go to college or university and what degrees did she receive? (Overview). Compiled by William Shurtleff of Soyinfo Center.

• ***Summary:*** In an article in *Natural Foods Merchandiser* titled "Patricia Bragg: Born to do her father's work" (Oct. 2006), Vicky Uhland states: "Like her father [who she said was Paul Bragg], Patricia has a Ph.D.–in nutrition from the University of California, Berkeley–and a doctor of naturopathy degree, which she earned in her 20s from Bernadine University."

We decided to check the accuracy of Patricia's claims about her own education and degrees. After running into some University of California privacy rules, we got lucky when we checked the University of California, Berkeley, Alumni Office–which apparently doesn't have such privacy rules. According to their alumni database, "Patricia Pendleton" was once enrolled at UC-Berkeley and her "projected reunion date" was 1951 but she never graduated from there. Since her high school graduation from the private Mary Wallace School in Piedmont was in June 1947, graduation four years later as an undergraduate would have been 1951. There is also no record in their database of attendance by any Patricia with the surname "Bragg". We didn't even ask about Paul Bragg as this whole Bragg getting a PhD in nutrition from Cal; if he had, he surely would have mentioned it in his many books about diet and nutrition.

Note: Patricia Bragg, shown as the co-author with Paul Bragg of many books about diet and nutrition, never mentions a PhD in nutrition from one of the leading universities in the United States.

On September 8, 1954, there was an article in the *Oakland Tribune* Society Page titled "Braggs Leave for L.A. Home;" it covered a recent visit to the Eastbay by Dr. Robert & Mrs. Patricia Bragg. One paragraph reads "The young matron attended Miss Wallace's School and the University of California for two years before going to UCLA. She will accompany her husband on a lecture tour of the United States." A check with the UCLA Alumni Office indicated that no Patricia Pendleton graduated from that school, and the only Patricia Bragg that did graduate, graduated fairly recently and was not "our" Patricia. They don't keep records of enrollments as the Cal Berkeley Alumni Society does–only graduates.

Next we decided to find out about "Bernadine University" where Patricia Bragg claims to have earned a PhD degree in naturopathy while in her 20s. When (on 30 March 2010) we did a Google search of "Bernadine University" we could find no such university. Perhaps it had merged into another university, or was no longer in operation, or perhaps it had changed its name, or Vicky Uhland had spelled its name incorrectly in her article.

So we contacted the librarian at Bastyr University in Seattle, one of the only four accredited naturopathic universities in the U.S., to ask if they might have a history of Bernadine University. The librarian turned us over to the president of the school's assistant, who is the school's historian and also a historian on the whole naturopathic movement. He researched the matter, got back to us but could find nothing, though said "it sounds familiar."

At that point, still puzzled we decided to Google "Diploma Mill." Low and behold, up came many sites that mentioned "Bernadean University" in Van Nuys, California, which bills itself as a "naturopathic school." They also claim to have a "law school." Wikipedia had good basic definition of a "Diploma mill" with a more detailed discussion at "Diploma mills in the United States." Various websites state that there are now thousands of such organizations in the

© Copyright Soyinfo Center 2021

United states and worldwide, and that some of them make millions of dollars a year selling "fake degrees."

To focus on this "university" we Googled "Bernadean University" and got 15,800 "hits." One of the top-ranked sites was www.quackwatch.com which had the heading: "Bernadean University: A Mail-Order Diploma Mill." Their description began (30 March 2010): "Bernadean University, Van Nuys, California, has never been authorized to operate or to grant degrees. Yet it has managed to remain in business for more than 40 years. Bernadean's web site states that it is accredited by the World Council of Global Education and that its College of Health Sciences is accredited by the American Association of Drugless Practitioners. However, these agencies are not recognized by the U.S. Secretary of Education and should be considered academically meaningless."

The homepage for "Bernadean University" stated in large bold letters (same date): "Bernadean University is now operating under the names of Burney Universitatis and Burney University. They are still located in California." There are quite a few articles about Bernadean on-line, including one from the *Las Vegas Mercury* titled "Dr. Fake: The phony degree industry is exploding in Nevada and beyond." It mentions Bernadean University, which operated in Van Nuys and Las Vegas for years.

We have been unable to find out whether Patricia actually "attended" this "school," or just got its name from the yellow pages.

Note: This is the earliest document seen (July 2021) concerning Patricia Bragg in connection with either "Bernadine" or "Bernadean" University. If she got the degree while in her 20s (she was born in April 1929), we can we find no mention of it in the many articles and books written by and about her.

Surprisingly Uhland's "Born to Do Her Father's Work" was "reprinted" on the Bragg.com and the Bragg Health Foundation website. However many things were either changed or just omitted–including the part about the "doctorate in nutrition" from UC-Berkeley. Yet this is retained (30 March 2010): "Like her father, Patricia has a Ph.D.–and a doctor of naturopathy degree, which she earned in her 20s from Bernadine University."

2664. *SoyaScan Notes.* 2010. Elizabeth "Betty" Brownlee, Paul C. Bragg's second wife (Overview). Compiled by William Shurtleff of Soyinfo Center.

• ***Summary:*** According to the 1910 and 1920 U.S. Censuses, Hugh Logan Brownlee, Sr. and Etta (Henrietta) Brownlee had 3 children, one of which was a daughter, Elizabeth Brownlee, born circa 1906. The family lived in Bradford County, Florida. This Elizabeth, of course, might be Paul Bragg's second wife. She does not show up with her parents in the 1930 Census and her age in 1930 would certainly be "marriageable".

With the help of Ginny Bird, Director, New River Public Library Cooperative (in Lake Butler, Florida), we have been able to locate the obituaries for both Hugh Logan Brownlee, Sr. and his wife, Etta, in the *Bradford County Telegraph.*

Hugh died on 4 April 1954 in Bradford County, Florida, and his obituary appears in the *Telegraph* on April 9 (page 1). "One of the best known residents of the county," he died in a Washington, D.C. hospital. "A prominent seedsman, merchant and produce buyer, Mr. Brownlee was acquainted with almost every phase of farming activities in the county." He was born on 12 Oct. 1882 in Sparta, Mississippi, and "came to Starke at the age of two with his father, the late James I. Brownlee, and his mother, Mrs. Sarah Logan Brownlee, who survives him." He is survived by his widow, Mrs. Etta Blitch Brownlee and his mother (?) of Starke, three daughters [not including Elizabeth / Betty], Mrs. M.C. Stda?, Washington, D.C., Miss Mary Brownlee, Baltimore, Maryland, and Mrs. J.R. Chasteen of Starke, and one son, Hugh L. Brownlee, Jr., of New Orleans, a sister Mrs. A.V. Long, Gainesville, eight grandchildren and two great grandchildren. "He was buried in Crosby Lake Cemetery with DeWitt C. Jones Funeral Home in charge of arrangements.

Mrs. Etta Brownlee's obituary died on 13 June 1971 (Sunday) and her obituary appears in the *Bradford County Telegraph* of 17 June 1971, p. 12. Her full name was Ella Blitch Brownlee. She was born in Montbrook, Florida, on 30 Dec. 1886, the daughter of the late Newton A. and Henrietta Edwards Blitch. She was a member of the First Baptist Church of Stark. Surviving are two daughters, Mrs. J.R. Chasteen Jr., Radford, and Mrs. M.C. Such / Stich, Washington, D.C., one son, Hugh L. Brownlee Jr., New Orleans, ten grandchildren and nine great-grandchildren. Funeral services were held in Jones Memorial Chapel. Interment was in the family plot in Crosby Lake Cemetery, with DeWitt C. Jones Funeral Home in charge.

The online records of the Crosby Lake Cemetery show the following related people buried there (list in order of death date): Hugh Logan Brownlee. Born 12 Oct. 1883. Died. 4 April 1954. Elizabeth [Sarah?] Logan Brownlee. Born 1 Sept. 1860. Died 6 Aug. 1956. [Sister of Hugh Logan Brownlee]. Ella Blitch Brownlee. Born 30 Oct. 1886. Died 13 June 1971. Wife of Hugh Logan Brownlee. Mary R. Brownlee (1915-1968).

2665. Tang, Anne Lise; Walker, K.Z.; Wilcox, G.; Strauss, B.J.; Ashton, J.F.; Stojanovska, L. 2010. Calcium absorption in Australian osteopenic post-menopausal women: an acute comparative study of fortified soymilk to cows' milk. *Asia Pacific J. of Clinical Nutrition* 19(2):243-49. [38 ref. Eng; chi]

• ***Summary:*** "Abstract: Calcium loss after menopause increases the risk of osteoporosis in aging women. Soymilk is often consumed to reduce menopausal symptoms, although

© Copyright Soyinfo Center 2021

in its native form, it contains significantly less calcium than cow's milk. Moreover, when calcium is added as a fortificant, it may not be absorbed efficiently."

The calcium-fortified soymilk used in this study is widely sold throughout Australia. It is So Good, sold by Sanitarium Health Foods, NEW, Australia. When it is properly fortified, its calcium bioavailability and hourly rate of absorption are about the same as that of dairy milk.

Note: Soy is mentioned 70 times in this article. Address: 1. School of Biomedical and Health Sciences, Victoria Univ., St Albans Campus, Melbourne, VIC 8001, Australia.

2666. Goldstein, Richard. 2011. Jack LaLanne, founder of modern fitness movement, dies at 96. *New York Times.* Jan. 23. *

• ***Summary:*** "He ate two meals a day and shunned snacks. Breakfast, following his morning workout, usually included several hard-boiled egg whites, a cup of broth, oatmeal with soy milk and seasonal fruit." He never drank coffee.

Note: Jack LaLanne probably can be correctly called the "founder of the modern fitness movement." His teacher and inspiration, Paul Bragg, might well also claim that title. Bragg started teaching fitness and exercise in the 1920s. He had a gym in Los Angeles where he taught exercise classes long before Jack LaLanne opened his gym, and Bragg taught exercise throughout his life in a very visible way–for years, free of charge, on the beach at Waikiki, Honolulu, Hawaii–and this garnered him lots of free publicity which reached a wide audience. Paul Bragg and Patricia Bragg also had a health TV show in Hollywood where they taught exercise. However by 1951 Jack LaLanne had a television program in the San Francisco Bay Area, and by 1959 nationwide. LaLanne's TV program had a much larger audience than Bragg's and it ran for much longer (more than 3,000 episodes).

2667. *Contra Costa Times.* 2011. Editorial: Bay Area's Jack LaLanne is a life worth emulating. Jan. 24. p. 1.

• ***Summary:*** La LaLanne, who urged a lifetime of fitness, died on Jan. 23 at his home in Morro Bay, California, at age 96 of complications from pneumonia. A native of the Bay Area, he was born on 26 Sept. 1914 in San Francisco, California. His parents, Jennie and Jean LaLanne, were immigrants from southwest France. After graduating from Berkeley High School, LaLanne attended night classes at Oakland Chiropractic College in San Francisco and graduated with a Doctor of Chiropractic degree. In 1936, he opened his own health spa (gym) in Oakland, California and encouraged clients to better themselves through weight-training. He concentrated on weightlifting and bodybuilding.

In 1951 his television show debuted in San Francisco on KGO-TV (Channel 7); in 1959 it went nationwide and ran for more than 3,000 episodes.

In 1956 (age 42) he set a world record of 1,033 push-ups in 23 minutes on "You Asked For It," a television program hosted by Art Baker.

2668. Forgione, Mary. 2011. Jack LaLanne's enthusiasm for fitness created an enduring legacy. *Los Angeles Times.* Jan. 24. *

• ***Summary:*** "Jack LaLanne was a junk-food junkie when he was a teenager–hardly an auspicious beginning for the man who would be father of the fitness movement in America. But it was meeting another early healthy believer that turned him around.

LaLanne gives credit to nutritionist Paul Bragg with helping him to turn his life around. See Los Angeles Times obituary. Address: USA Today.

2669. Hain Celestial Group, Inc. (The). 2011. The Hain Pure Food Company history (Website printout–part). www.hainpurefoods.com/about_us/history.php Retrieved March 6.

• ***Summary:*** A superb, detailed history–one of the best seen on the web. Combine this history with the chronology in the Hain Celestial Group's 10th anniversary annual report, and you have a very good history of Hain. However, one question remains: This history says that in 1992 Irwin Simon came to the rescue by buying the Hain and Hollywood brands from PET, Inc. However the 10th anniversary report (2003) says that in 1994 Irwin Simon acquired the Hain Pure Food Co. and Hollywood cooking oils from PET Inc. There is a two-year discrepancy here that we have been unable to resolve.

Chronology: 1926 Oct. 18–Hain Health Foods founded by Harold Hain as a single health food store at 329 W. 3rd St. (near Hill St.), Los Angeles, California.

1931–Harold renames the company Hain Pure Food Company.

1953–Harold Hain retires, selling his company for $100,000 to George Jacobs, an enthusiastic, creative pharmacist and entrepreneur.

1958–George Jacobs agrees to sell product to Jimmy Fiddler, a Hollywood columnist interested in the health food market. Mr. Fiddler packages Hain products as "Hollywood Brand" and sells them to local stores. However, he defaults on his loans, returning the product and brand labels to Mr. Jacobs.

1960–Jacobs bets the future of Hain on safflower oil–a new oil in America. He packages the expeller pressed safflower oil under the Hain label (sold in health food stores) and non-expeller pressed under the Hollywood label (sold in mainstream grocery stores), beginning one of the largest growth periods in Hain's history.

1961–To assist him in running the ever-growing company, George Jacobs hires his sons, Herman and Jerald. Employing their father's pharmacy expertise, Hain begins marketing the health benefits of these safflower products to doctors nationwide.

1970–Gross sales of safflower products have grown to

© Copyright Soyinfo Center 2021

an enormous $5 million, enabling the Jacobs to sell Hain Pure Foods Co. to Archon, a new multi-business holding company looking to increase their ties to the rapidly growing health and natural food industry. George retires but his sons stay on with the new company.

1973–The Jacobs brothers buy back Hain after Archon ran into financial difficulties.

1978–Hain hires Dr. Myron Cooper to head the technical development function.

1980–Sales top $25 million. The "health food market" is now called the "natural food market." But also in 1980 Jerald Jacobs dies of a brain tumor, leaving the entire burden of the company on his brother Herman.

1982–Herman Jacobs sells Hain to Ogden Foods, a division of the Ogden Corporation, for $45 million.

1986–Ogden sells its food business division to Pet Inc., including the Hain and Hollywood brands. Pet knew little about natural foods and therefore, did not really want Hain, but tolerated it for several years. They split the two brands, allowing both Hain and Hollywood to encounter steep decline in sales from lack of attention.

1992–Irwin Simon buys the Hain and Hollywood brands from Pet, saving the highly respectable lines from extinction. Under Mr. Simon's direction, the brands fall under his new company The Hain Food Group.

A brief profile of Irwin David Simon:

1990 Dec. to 1992 Dec.–Mr. Simon served various marketing capacities with Slim-Fast Foods Company ('Slim Fast'), where he was involved with sales and marketing for the frozen and dairy divisions.

1993 May to 2000 May–Mr. Simon served as President and Chief Executive Officer of The Hain Food Group Inc.

2000 May–Mr. Simon is founder of The Hain Celestial Group, Inc. of Hain Celestial UK Limited and has been its President and Chief Executive Officer since May 1993.

2670. McMahon, Marilyn. 2011. Bragging rights: Local natural foods guru crusades for healthy lifestyle. *Santa Barbara News-Press* (*California*). March 8.

• ***Summary:*** The article begins: "Interviewing Dr. Patricia Bragg, Ph.D., is like interviewing the Energizer Bunny that keeps 'going and going and going' in the television commercial for batteries. Both are in constant motion, and if there were a contest between the two, the rabbit would surely be begging for mercy."

She is chairwoman of the Bragg Health Institute, which has its headquarters in Goleta on 120 acres of land–which includes an organic farm and her home, a 115-year-old farmhouse surrounded by 600 rose bushes. There are 40 employees on the complex.

She is overflowing with energy, has a trim figure, and a radiant complexion. She describes herself as an international health crusader.

Dr. Bragg says she has never married [False: She married Robert Bragg, son of Paul Bragg].

What does she preach: Oxygen is the staff of live; breathe in deeply and breathe it all out. Women should never wear bras, especially wire bras; they should all wear loose chemises. Never use deodorant; if your diet is good, you will have no body odor.

She was awarded a Ph.D. in health science in 1973 and doctor of naturopathy degree in 1974 from Bernadean University in Nevada.

On a typical day, she awakes at 5 a.m. She sleeps with all the windows open and as soon as her feet hit the floor, she exercises. She spends much of the day spreading the word about good health on radio talk shows, such as "The Power Hour," "Coast to Coast," and "Totally Fit Radio." She also teaches at UCSB's Global Medicine Class.

Today for lunch (when her body notifies her that it is hungry, usually between 11:30 a.m. and 1:00 p.m.) she had a beautiful brown rice casserole that she makes herself.

Patricia says her mother, Nettie, died in an automobile accident at age 45. Her mother was a real nature girl and the father always had organic food.

Patricia says her father, "who was crippled by tuberculosis as a teen-ager, developed his own eating, breathing, and exercise program to rebuild his body into an 'ageless, tireless, pain-free citadel of glowing, super health.'" Paul Bragg contracted tuberculosis when he was age 15 and was sent to a sanitarium. The nurse who cared for him said that sunshine and fresh food would make him better. He was cured and this made him a believer.

Because the Bragg company is privately owned, annual sales figures are not available to the public.

Note: Patricia says that her mother, Nettie, died at age 45 from an automobile accident. Nettie's death certificate, however, says that she died at age 65 at Highland Hospital in Oakland, California. Her physician's statement on the death certificate says, in basic layman's terms, that the cause of her death was cancer of her left lung that metastasized to her brain. Address: News-Press staff writer.

2672. Shurtleff, William. 2011. Comparison of the macrobiotic diet and Dr. Caldwell Esselstyn's whole foods, plant-based diet (Editorial). *SoyaScan Notes.* July 2.

• ***Summary:*** Meat: Macrobiotic diets allow consumption of fish, shellfish, and other seafoods, whereas the Esselstyn diet (which is designed to prevent and reverse coronary artery disease / heart disease) allows no animal products.

Dairy: The Esselstyn diet prohibits consumption of dairy products; the macrobiotic diet discourages their consumption. Note: Actually nothing is prohibited by macrobiotic diets; as taught by George Ohsawa, they are broad, flexible, and nondogmatic.

Refined carbohydrates, such as white sugar, white rice, and white flour: Both diets discourage their use except that the Esselstyn diet uses white sugar (in large amounts) in a small percentage of desserts. For example, in the book *Prevent and Reverse Heart Disease* (2007), the recipe for Birthday Cake (p. 276) calls for "1 cup (or less) sugar." Chocolate Red Devil Cake (p. 278) calls for "1 cup sugar." Luscious Lemon Cake (p. 280) calls for "3/4 cup (or less) brown sugar plus granulated sugar sprinkled over the cake."

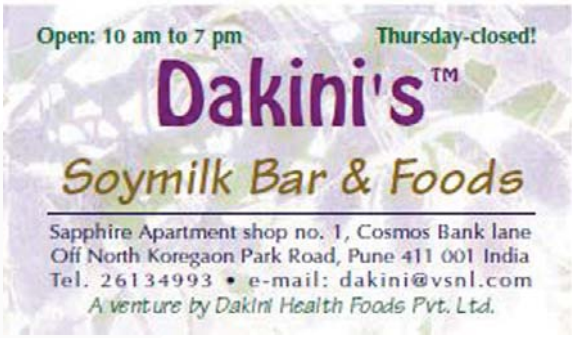
Salt: The salt content of the macrobiotic diet (like the traditional Japanese diet) is high, provided by such condiments as miso, soy sauce (tamari), and gomashio, whereas the Esselstyn diet aims to use as little salt as possible–since many of the patients have both cardiovascular disease and hypertension. "If you *still* miss salt, try adding a little Bragg Liquid Aminos" (a salt alternative) or small amounts of "South River Sweet White Miso or low-sodium tamari. Try to limit sodium consumption to 2,000 mg a day." A table shows the amount of sodium in salt and four condiments (p. 122).

Soyfoods: Macrobiotic diets uses soyfoods abundantly; in addition to miso and tamari, they enjoy tempeh, natto, and small amounts of tofu. The Esselstyn diet advises: "Eat soy products cautiously. Many are highly processed and high in fat" (p. 121).

Fruits: Macrobiotic diets use fruits sparingly, since most are classified as very "yin." However apples (the most yang fruit) are used quite freely. The Esselstyn diet encourages the use of all fresh, whole fruits except avocadoes (which are high in fat).

Grain vs. vegetables: The macrobiotic diet is based on the central idea of a primary food (such as brown rice or other whole grains) and secondary foods (such as cooked vegetables). The Esselstyn diet encourages the use of all fresh, whole vegetables. One might say that the center of the Esselstyn diet is fresh fruits and vegetables.

Macrobiotic diets strongly discourages consumption of foods which are members of the nightshade family–potatoes, tomatoes, and eggplants. The Esselstyn diet encourages the consumption of whole (unpeeled) potatoes and tomatoes.



Macrobiotic diets resembles a Japanese diet, whereas the Esselstyn diet resembles an American diet.

Use of local, seasonal foods: Macrobiotic diets emphasizes this somewhat more than the Esselstyn diet.

Use of added oil: The Esselstyn diet strongly discourages this, whereas the macrobiotic diet focuses more on the quality of the oil, but while still advising moderation in quantity, includes recipes for deep-fried foods (such as tempura).

The term "macrobiotic diets" is short, whereas the term "whole-foods, plant based diet" is descriptive but too long, and in need of a shorter name. Address: Founder and owner, Soyinfo Center, Lafayette, California. Phone: 925-283-2991.

2673. Shapira, Hillel. 2012. Re: Dakini Health Foods' retail outlet in Pune, in operation from March 2004 to April 2005. Letter to William Shurtleff at Soyinfo Center, Feb. 21. 1 p. Typed, with signature.

• ***Summary:*** See next 2 pages. A business card from the time shows: The retail outlet was named Dakini's Soymilk Bar & Foods (Sapphire Apartment shop no. 1, Cosmos Bank Lane, Off North Koregaon Park Road, Pune 411 001 India). A venture by Dakini Health Foods Pvt. Ltd. Open from 10 am to 7 pm. Thursday–closed!

"We rented the space near Koregaon Park (Pune) in 2003 and after 8 month preparations we opened around March 2004. We closed for a month holiday in April 2005 (we literally physically collapsed). Not finding the right management for it and electrical and water supply problems getting worse, we decided not to continue, sold the furniture and focused our full attention on the factory. Sales were growing rapidly by then and it was a good decision. But we did miss feeding so many people directly. We felt we gained so much insight from our year in operation that, afterward, business was never the same again–in the best sense!

"The place had a table and 4 chairs inside and 24 seats in the front open space. The place was totally vegan except for one type of very good organic cheese made by a friend in the Himalayas. All milk drinks were soy milk and all yogurt preparations (lassi) were made from soy yogurt. We were producing soya-milk on our pressure cooker system in the factory, but not having a plate heat exchanger, we were cooling it to room temperature in a special jacketed stainless steel tank, then packed it in polyethylene bags which then

were put on ice for fast chilling. This worked well and we managed to get a long shelf life. For yogurt production we were inoculating soymilk at room temperature and then incubating it at 45C. The year we were running the shop we were producing 60-80 kg soy yogurt a week, 200-300 liters of soymilk a week, and about 50 kg tempeh. Tofu production at the time was about 600-800 kg a week and these figures include the supply to all the regular clients except soya milk and soyogurt which were for produced for our retail shop use only.

I attach the regular menu. Beside this menu we had a good changing daily menu on the board. The retail shop had about 300-350 square feet inside and 400 square feet of outside area.

"Opening the place (with bank loans) and running it was very challenging yet we got to meet so many people that we got many very good insights. Indians love soyfoods and the place become kind of a cult meeting place with families driving from Bombay and other cities for lunch at Dakini. The place was run as self-service and takeout.

"The most popular drink was the banana date milkshake and second was the papaya lassi; most popular sandwich was the Tofu Sandwich followed by Tempeh Sandwich. Most popular plate was the Falafel Plate followed by the Humus Plate and Tofu Plate. Soya milk Chai was selling real well at all times and the soy-milk ice coffee was a big favorite on hot afternoons. There was no refined sugar on the premises and sweetening was done with tasty organic liquid cane molasses.

2676. Shurtleff, William; Aoyagi, Akiko. comps. 2013. History of soy ice cream and other non-dairy frozen desserts (1899-2013): Extensively annotated bibliography and sourcebook (Continued–Document part II). Lafayette, California: Soyinfo Center. 782 p. Printed 1 Oct. 2013. 28 cm. [1838 ref]

• ***Summary:*** (Continued): 1983 Aug.–Robert Tepper of Farm Foods serves Ice Bean soymilk ice cream at the annual American Soybean Association (ASA) convention in Nashville, Tennessee. A special presentation is made to 40 regional overseas ASA directors and officials

1983–Sales of Tofutti expand ten-fold. David Mintz establishes a new corporation named Tofu Time Inc. On 8 Dec. 1983 Tofu Time Inc. raises $2.76 million net in its first public stock offering.

1983–The United States leads the world in annual per capita consumption of (dairy) ice cream with 44.13 pints per person. Australia is second with 37.21 pints (down by 15.7%), followed by New Zealand (35.87), Canada (31.88), and Sweden (28.57) (International Association of Ice Cream Manufacturers. 1984. The Latest Scoop. Aug.).

1984–Tofutti mania spreads across America. Tofutti hits the big time, with huge amounts of free media publicity. Rising to national stardom, it became (to everyone's astonishment) America's number one dessert craze. Sales of Tofutti skyrocketed to $9 million in fiscal 1984 (which ended July 31).

1984 June–Robert Nissenbaum of Imagine Foods Inc., of Moniteau Farm, Jamestown, Missouri, introduces Rice Dream, a non-dairy frozen dessert based on amazake (cultured rice) made in the traditional way. A truly amazing product, it contains no refined sweeteners and no added oil or fat; most of its sweetness comes from the natural sweetness of amazake, but small amounts of Grade A maple syrup are also added. Imagine Foods soon begins advertising and promoting the product widely. By Oct. 1984 it was sold in 7 hard pack and 4 soft serve flavors.

1984–In the United Kingdom, the first soy ice cream is Sojal Frozen Non-Dairy Dessert. It was developed and marketed by John Holt of the Regular Tofu Co. Ltd. and made in Leicester, England, by Rossa Ltd., a dairy ice cream company. In May 1984 this same company introduced SoyBoy Soymilk Ices, then in June 1985 Sojal Light. Michael Cole was one of the salesmen for this company. Cole then left and went to work for Soya Foods Ltd.

1985 Feb.–Barricini Foods Inc. (Oyster Bay, New York) launches Tofulite (a soy ice cream); it is made in Tennessee by Farm Foods.

1985 May 31–Farm Foods (Summertown, Tennessee), maker of Ice Bean, is acquired by Barricini Foods Inc.

1985–In fiscal 1985 sales of Tofutti soar to a record $17.1 million. Tofu Time is one of the hottest stocks on Wall Street.

By the summer of 1985 at least 26 brands of soy ice cream (many of them with "Tofu" in the product name) are on the market in the USA.

The boom years for soy ice cream in America were 1984-1988. When the craze died down, four national brands were left: Tofutti, Ice Bean, Tofulite, and Mocha Mix.

1985 July–Michael Cole, in England, introduces Sunrise Ice Dream, which quickly became a huge success nationwide. Initially the product was made in Clywd, Wales, by Classic Ices–which was then owned by the Hillsdown Holdings Group. Later in 1985 the founder of Classic Ices, Ray Pierce, and the technical manager, Irene Barclay, leave Classic Ices and start a company named Genice Foods Ltd. (pronounced JEN-ais, also in Clwyd, Wales) to specialize in making non-dairy products.

1986 Feb.–Barricini Foods has its first public stock offering which raises $1.5 million gross, to use for marketing Tofulite and Ice Bean soy ice creams.

1986 April–Genice's first product is Genice Ice Delight. In 1986 the manufacture of Sunrise Ice Dream was transferred to Genice from Classic Ices. Today Genice is the

© Copyright Soyinfo Center 2021

largest maker of soy ice creams in the UK and Europe. In April 1989 Genice became a member of the Haldane Foods Group.

1992–Living Lightly (Light Non-Dairy Frozen Dessert) is introduced by Mark Brawerman and distributed by Turtle Mountain, Inc. of Junction City, Oregon. Sold in pints, it is available in 10 flavors. Sweetened with fruit juices, they contain no added fat. In 1994 the brand was changed to Living Rightly.

1996–The best-selling non-dairy ice creams in natural- and health food stores are now Rice Dream, Tofutti, and Living Rightly.

2001 July–Purely Decadent Soy Delicious–the world's first super-premium non-dairy frozen dessert (high in calories and oil)–is introduced by Turtle Mountain, Inc. in seven flavors.

2004 March–Soy Delicious is now the best-selling brand of ice cream (both dairy and non-dairy) in the natural foods channel in the USA.

2005 April 15–Mark Brawerman, founder of Turtle Mountain, Inc. signs a national distribution agreement with Dryer's Ice Cream. The same year he changes the company's brand on all its products to So Delicious Dairy Free from Soy Delicious. And he brings in an investor to obtain the capital he needs to expand his manufacturing capacity.

2006 late–Turtle Mountain opens the world's first dairy-free ice cream plant in Springfield, Oregon; it makes only ice cream sandwiches–no mix.

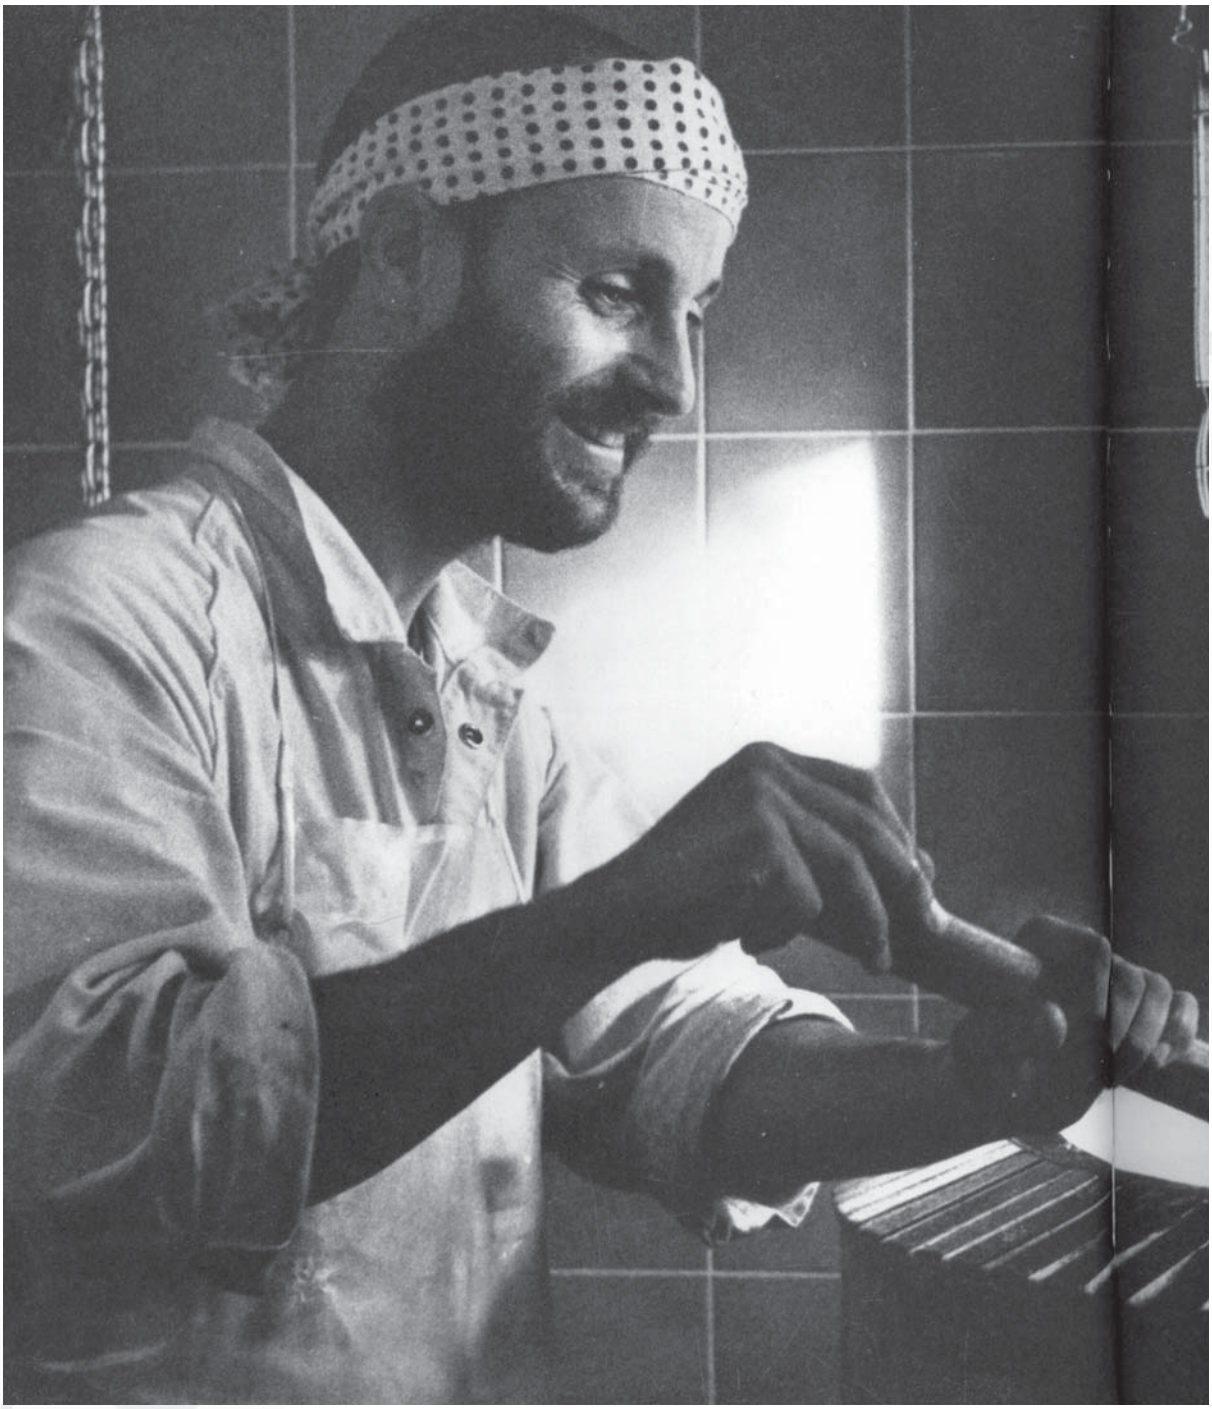
2008 April–Turtle Mountain, Inc. starts to ship coconut milk non-dairy frozen dessert to Whole Foods and distributors nationwide.

2008 May/June–Turtle Mountain, Inc. opens the world's first dairy-free ice cream plant that makes the basic mix, in Springfield, Oregon.

2012 May–Update on Tofutti Brands Inc., which is struggling. Net sales for 2011 were $15.926 million, down 11.1% from the previous year. Net income was $43,000, down 90.7% from $462,000 the previous year. Despite this 90% drop in profits, the salary paid to CEO Mintz is unchanged at $450,000.

2013–Turtle Mountain's net sales of non-dairy products this year will exceed $100 million, about 38% of which is non-dairy frozen desserts, followed by beverages, cultured products (mostly like yogurt), and non-dairy creamers (the smallest segment). Since 2006, net sales have increased, on average, by more than 30% a year–and much of this during the "Great Recession." The company now employs 175 people. Address: Soyinfo Center, P.O. Box 234, Lafayette, California 94549. Phone: 925-283-2991.

2677. Re: Update on Paul and Patricia Bragg. 2013. Letter to William Shurtleff at Soyinfo Center, Dec. 31. 2 p.
• ***Summary:*** From an expert researcher on Paul Bragg: "I found out that 'Live Food Products Co., a California corporation,' was first incorporated with the California Secretary of State on April 6, 1951, and that a Certificate of Winding Up & Dissolution of that company was filed with that State Office on September 29, 1971, over six years before Paul's 1976 death. Then, over a year later, a company with a very similar but slightly different name, 'Live Food Products, Inc.' was formed and its Articles of Incorporation filed with the California Secretary of State on December, a little unreadable as to date, but looks like '22', 1972, with Patricia as President and Joan Withers, her first cousin, as Secretary. No sign of Paul Bragg anyplace. By Certificate of Amendment to Articles of Incorporation of Live Food Products, Inc. filed June 29, 2010, its name was officially changed to 'Bragg Live Food Products', with Patricia as President & Cynthia A. Duerner as Secretary. (Patricia's cousin, Joan Withers, died circa 1982).



"My impression is that Paul Bragg got out of the health food / supplement business about the time he & Patricia moved to Hawaii in the late 1960s, and that he did only lecturing and publishing / republishing books for income. He was interviewed at least three times by the two major Honolulu newspapers & *People* magazine from 1967 to 1975, and none mentions him at any place as a health food manufacturer, and his death certificate only states his occupation as a book publisher. Although Patricia in a recent interview stated that their Burbank plant was turning out 365 Bragg products at the time of Paul's death ('one for every day of the year'), the Burbank Public Library, checking its copy of Burbank's 1976 Telephone Directory, can find no phone listing for such a company.

"And, of course, the inventory of assets of his estate at his December 1976 death shows only a 51% interest in UNIMPROVED Burbank property, which I'm quite sure was where the manufacturing plant or an adjacent lot once stood. (According to a Declaration for Patricia's signature in Paul's estate, Paul & Patricia 'received a condemnation award in the amount of $127,000.00 in 1972, by reason of the partial condemnation of the property located in Burbank, California')." Address: Oakland, California.

2678. Green, Louis; Green, Georgia. 2013. TofuShop cookbook. Melbourne, Australia: Published by the authors. 107 p. Illust. (color photos by Nicky Schuh). Index. 26 cm. [1 ref]
• ***Summary:*** A very handsome and interesting book by the founders of one of the early tofu shops in Australia. On the front cover is a color photo of the restaurant at the front of the Tofu Shop on Bridge Road, Richmond; a neon sign above the door says "Health food."

Contents: Forward, by Les Stacpool (He met Malcolm and Guna Green just as they were starting the Tofu Shop. He was a tofu maker there for some 20 odd years. Malcolm and Guna had three children). A poem by William Shurtleff (from *The Book of Tofu*, Tokyo, March 1975). Our tofu

© Copyright Soyinfo Center 2021

(made from soybeans from Paul and Ron Smith, shown in a color photo with Malcolm Green). Our tofu making process (in words, illustrations, and photos). Introduction (The Tofu Shop was opened in [Sept.] 1982 by Malcolm and Guna Green at 78 Bridge Road, Richmond {east of Melbourne}, Victoria, Australia; with a full-page photo of Malcolm, smiling, wearing a headband {*hachimaki*}, stirring a white liquid in a large cauldron. As of July 2014 the company has been in business almost 32 years. Their soybeans are sourced from the Riverina region {NSW}, and their Nigari is sourced from South Australia), Guna (her story with color photo of Guna and Malcolm), Malcolm (his story with black-and-white photo of him pouring soaked soybeans into a grinder to be ground. Their first employee, a Japanese lady named Junko, put a new spin on their menu, helping them to develop their famous tofu dip and tofu pouches stuffed with flavoured rice), Georgia (a 1983 photo shows her as a baby with her parents shortly after they started The Tofu Shop in Australia. Her parents were "Hand-crafting their own brand of Nigari tofu, combined with a simple wholefood eatery

and grocery"). Louis (another child of Guna and Malcolm; a photo shows him with them as a child, and in 2012 cutting vegetables. He is one of the authors of this book. Since he was young, food has always been a big part of his life, and he has worked to develop his own cooking style), Joel (another child of Guna and Malcolm. He has become the company's tofu maker. A color photo shows him next to a cauldron).

Glossary, with entries for: Fresh (Five Seasons Brand Tofu) Japanese style tofu. Silken tofu. Soy milk. Atsuage (fried). Yuba skin. Fermented tofu. Mirin. Japanese light soy sauce. Tamari. Sushi vinegar. Shiromiso. Moromi. Natto miso. Kombu. Wakame. Tempeh. Dashi. Okara.

Entrées & tofu dishes. Soups. Sauces and marinades. Salads. Bakes. Beans & stews. Rice & noodles. Desserts. Acknowledgements. Address: Tofu Shop International, 78 Bridge Rd., Richmond, VIC 3121 (near Melbourne), Australia. Phone: (03) 9429 6204.

2679. Metello, Nuno. 2016. Re: History of the original Vegetarian Society of Portugal (Continued–Document part II). Letter (e-mail) to William Shurtleff at Soyinfo Center, Dec. 30.

• ***Summary:*** (Continued): "The unpublished and unfinished version of Kamensky's autobiography, translated into English by Fernando Pessoa is owned by the National Library of Portugal, as part of Fernando Pessoa's spollium: http://purl.pt/13858/1/geneses/2/2-165.html

"(Note: Only an Italian translation of this work was published, in 1991, by Amina Di Munno, but credited to Fernando Pessoa, a misattribution that caused some controversy).

"I was able to photocopy half of the original English version of this work, including some very interesting passages about vegetarianism and animal rights, and how he became a vegetarian, which I can send to you. There is a particular passage I like, were he buys a fish to set him free.

"I hope to go back to the National Library in the future to get the rest of this very interesting work.

"In 1932 Kamenesky published a book of poems, *Alma Errante* (Wondering Soul), with a preface by Pessoa. In the beginning of the book there is a portrait of Kamenesky by famous Portuguese artist José Malhoa. The book is available online here: http://casafernandopessoa.cm-lisboa.pt/bdigital/8-628MN

"As an actor he stared in many classic Portuguese movies, such as *A Revoluçao de Maio* (1937), *O Pátio das Cantigas* (The Courtyard of Songs, 1942), and *O Pai Tirano* (The Tyrant Father, 1941). In *O Pai Tirano* he plays a vegetarian, and in *O Patio das Cantigas* he plays an animal lover.

"Kamensky in IMDB: http://www.imdb.com/name/nm0436553/

"Wikipedia page on Kamenesky (in Portuguese): https://pt.wikipedia.org/wiki/Eliezer_Kamenesky (Note: Kamenesky's name can be written in slightly different ways. He finally adopted "Eliezer Kamenesky" [or Kamenzky] when he settled in Portugal.)

"I have lots of information about him, but except for the pamphlet I annexed here and his autobiography translated into English by Pessoa, it's all in Portuguese.

"Jaime de Magalhaes Lima: He was a famous writer at his time. As essayist, journalist, poet, travel writer, etc., he wrote about vegetarianism in Portuguese periodicals before the Vegetarian Society of Portugal was formed. He was a Tolstoyan and helped to spread his doctrines in Portugal. He actually visited Tolstoy (who was, with St. Francis of Assisi, one of his biggest influences) in Russia (he wrote about this encounter twice) and continued to corresponded with him. However, he became a vegetarian not influenced by Tolstoy but by a French book on vegetarianism.

"He became the Honorary President of the Vegetarian Society of Portugal and contributed frequently with articles for *O Vegetariano* and the Vegetarian Almanac.

"He gave a talk about vegetarianism in Oporto, titled *O vegetarianismo e a moralidade das raças* (Vegetarianism and the morality of races), which became a volume of the *Biblioteca Vegetariana.* For this talk (and later booklet) he drew largely from *The Ethics of Diet* by Howard Williams. I will include a link for the complete talk below. (If you need

© Copyright Soyinfo Center 2021

to quote it, with page numbers, etc., I also have the printed edition digitalized).

"He also liked very much the essays on vegetarianism by Reclus and E. H. Crosby, which he quoted at least in two occasions in his articles.

"I have many articles about him (many of them about him and Tolstoy), that were published in books, and I also have his biography on the Portuguese Encyclopedia.

"On Wikipedia (in Portuguese): https://pt.wikipedia.org/wiki/Jaime_de_Magalh%C3%A3es_Lima

"António Gonçalves Correia (1886-1967): He was a travelling salesman, Tolstoyan, anarchist, poet, and author of two booklets as well as articles in many Portuguese periodicals. He wrote letters published in *O Vegetariano.* He used to buy birds to set them free, just like Leonardo, and founded the first anarchist community in Portugal (were the food was all vegetarian).

"On Wikipedia (in Portuguese): https://pt.wikipedia.org/wiki/Ant%C3%B3nio_Gon%C3%A7alves_Correia

"In English: Joao Freire, Freedom Fighters: Anarchist Intellectuals, Workers, and Soldiers in Portugal's History, Black Rose Books, 2001, pp. 167-169. https://books.google.pt/books?id=s67aAAAAMAAJ&q=anarchism+vegetarianism+P ortugal&dq=anarchism+vegetarianism+Portugal&hl=pt-PT&sa=X&redir_esc=y

"[I haven't read this book yet; found this via Google Books.] Famous Portuguese writer Raul Brandao wrote about Correia and his vegetarian commune in his book *Os Operários.* There is also an entire book about him in Portuguese. Father Himalaya Priest and inventor. Wikipedia (in English): https://en.wikipedia.org/wiki/Manuel_Ant%C3%B3nio_Gomes

"I have not read the books about him yet. I have a pro-vegetarian quote by him in the Vegetarian Almanac.

"Some important vegetarian books published in Portugal:

"*A alimentaçao Segundo a natureza: tratado theorico e pratico de cosinha vegetariana,* by Edward Baltzer, translated by Luiz Cardoso. Lisboa (Lisbon), 1896. This book by Baltzer is probably the very first vegetarian recipe book published in Portugal.

"*Fructa e Pao,* by Gustav Schlickeysen. Translated by Marcos Pinheiro da Fonseca, co-founder of *O Vegetariano* [uncredited. I know he was the translator because they mentioned it in *O Vegetariano*]. Porto (Oporto), 1906.

"*Irmânia,* by Angelo Jorge, a writer and poet (https://pt.wikipedia.org/wiki/%C3%82ngelo_Jorge). Published in 1912 as part of the Vegetarian Library collection published by the Vegetarian Society of Portugal; republished in 2004. Angelo Jorge was the secretary of the Vegetarian Society of Portugal for a period. Fortunately, there is some information about Jorge and Irmânia in English. About Irmânia: https://repositorio.utad.pt/bitstream/10348/1819/5/Aporias%20of%20George% 20(1).pdf

"Also about Angelo Jorge (from the book Trans/Forming Utopia: The `small thin story', by Elizabeth Russell, via Google Books):

https://books.google.pt/books?id=AxrqFBMke4sC&pg=PA193&lpg=PA193&dq=angel o+jorge+vegetarian&source=bl&ots=7j5mAHjBx4&sig=LyQU_p5PiZGL2vz5tBuv80i4lJA&hl=pt-PT&sa=X&ved=0ahUKEwiUwe-W5ZjRAhWHMhoKHQWbCN8Q6AEIRTAH#v=onepage& q=angelo%20jorge%20vegetarian&f=false

"*A Base de todas as reformas na alimentaçao.* Translation of an original work by Otto Carqué (The Foundation of All Reform). Also a part of the Vegetarian Library Collection. *Leituras Amenas,* by Manuel Teixeira Leal (co-founder of *O Vegetariano* and of the Vegetarian Society of Portugal), Porto [Oporto], 1913. This is a children's book about vegetarianism and naturism.

"*O Vegetarianismo e a Moralidade das Raças,* by Jaime de Magalhaes Lima. 1912. Available here:

http://www.gutenberg.org/files/24338/24338-h/24338-h.htm Vegetarian Library, volume IX.

"*A Cultura da Vida.* By Joao Bentes Castel-Branco (another vegetarian pioneer:

https://pt.wikipedia.org/wiki/Jo%C3%A3o_Bentes_Castel-Branco. He is also mentioned in the IVU website above). 1912. Vegetarian Library.

"*Culinária Vegetariana, vegetalina e menus frugivoros,* by Julieta Ribeiro (wife of *O Vegetariano* co-founder Jerónimo Caetano Ribeiro). Porto, 1916. This is the very first original Portuguese vegetarian recipe book, the previous ones being translations. A fourth edition was published in 1923:

http://porbase.bnportugal.pt/ipac20/ipac.jsp?session=148Q9IG640131.50362& profile=porbase&source=~!bnp&view=subscriptionsummary&uri=full=3100024~!1 186847~!0&ri=9&aspect=subtab11&menu=search&ipp=20&spp=20&staffonly=&term= julieta+ribeiro+menus&index=.GW&uindex=&aspect=subtab11&menu=search&ri=9

"Annexed here is also a work buy an author named Ardisson Ferreira (I also have biographical information on him). It is also one of the books published by the Vegetarian Society of Portugal as part of their Vegetarian Library collection. It is titled *O Home é frugívoro* (Man is a frugivore)!

"In recent years many books on vegetarianism (many of them, recipe books) and animal rights have been published in Portugal (some of them translated, but many of them being original Portuguese works).

"Well, I hope this information is of any use to you. If you need some further details about any of this, please, don't hesitate to contact me.

"Best regards," Address: Portugal.

"Nutritionist

"Registered Dietitian

"Health Scientist/Health Educator

"Board Certified Anti-Aging Health Practitioner

"Fellow, Academy of Nutrition and Dietetics

"Master Herbalist

"Author

"Lecturer

"Radio Talk Show Host–"Health & Longevity"

"Chair, Vegetarian Nutrition Dietetic Practice Group of the Academy of Nutrition and Dietetics

"As a nutritionist and health educator, I have devoted my life to teaching people how to achieve optimal health and longevity through a healthy plant-based and vegetarian diet. A whole food, plant-based diet (ideally a vegetarian diet), rich in fruits and vegetables is powerful medicine in preventing, effectively treating and even reversing many of the diseases we face today. This diet, plus regular exercise, healthy lifestyle habits, and a positive mental attitude will lead to optimal health. I believe it is possible for each of us to enjoy total wellness for the body, mind and spirit. "'I pray that you may prosper in all things and be in health, just as your soul prospers.'–3 John 2–A verse from the Holy Bible (New King James Version)

"About Dr. John Westerdahl.

"Dr. John Westerdahl is an internationally recognized authority in the fields of nutrition and wellness. He is a Nutritionist, Registered Dietitian, Certified Nutrition Specialist, Master Herbalist, Board Certified Anti-Aging Health Practitioner, Health Scientist and Health Educator.

"A graduate of Pacific Union College and Loma Linda University School of Public Health, Dr. Westerdahl's Bachelor of Science, Master of Public Health and Doctorate degrees are in the fields of food, nutrition and health education. With an interest in spiritual wellness, Dr. Westerdahl also received a Master of Arts Degree in Religion from California Graduate School of Theology.

"Dr. Westerdahl is currently the Director of the Bragg Health Institute and Director of Health Science for Bragg Live Food Products in Santa Barbara, California. He previously served as Director of Wellness & Lifestyle Medicine and Nutritional Services for Castle Medical Center in Hawaii, the Director of the Murad Inclusive Health Center and Murad Medical Group in Los Angeles, Senior Nutritionist for the Shaklee Corporation and the Director of Nutrition for Dr. McDougall's Right Foods, Inc. in San Francisco, and Nutrition Editor for *Veggie Life Magazine*. He also was the staff nutritionist for Millennium Restaurant, San Francisco's premiere vegetarian cuisine restaurant. Dr. Westerdahl is the Chair of the Vegetarian Nutrition Dietetic Practice Group of the Academy of Nutrition and Dietetics.

"Dr. Westerdahl's popular radio talk show, Nutrition and You, and television show, Tasty and Meatless, reached thousands every week throughout the Hawaiian Islands. Dr. Westerdahl's new radio talk show, Health & Longevity, is listened to nationally on the LifeTalk Radio network. These radio and television programs have successfully helped thousands of people learn more about nutritional awareness, good dietary habits and health benefits accruing form a plant-based lifestyle. He has written on the topics of health, longevity, food, nutrition and herbs for a variety of national publications and is a frequent guest and lecturer on radio and television.

"Over the past thirty years, Dr. Westerdahl's research has led to the development of several state-of-the-art food, nutritional and herbal products and formulations that have been marketed worldwide. His research has led him to consult, study and work with some of the world's leading authorities in the fields of food science and nutrition, pharmacognosy and phytomedicine, esthetics and dermatology, and in integrative and lifestyle medicine.

"Dr. Westerdahl is a member of numerous scientific and professional societies including the American Association for the Advancement of Science, the Academy of Nutrition and Dietetics, the American College of Nutrition, the American College of Lifestyle Medicine, and the American Academy of Anti-Aging Medicine. He is listed in Who's Who in America, Who's Who in Medicine and Healthcare and Who's Who in Science and Engineering. He has received several honors and awards, including national awards from the Academy of Nutrition and Dietetics for his contributions in the fields of vegetarian nutrition and in integrative and functional medicine.

A portrait photo shows Dr. John Westerdahl looking very healthy. Address: California.

2682. Kauffman, Jonathan. 2018. Hippie food: How back-to-the-landers, longhairs, and revolutionaries changed the way we eat. New York, NY: William Morrow, an imprint of HarperCollins Publishers. 344 p. Index. 24 cm. [135 + 390 endnotes]

• ***Summary:*** Brown bread, brown rice, granola, tofu, vegetarianism, organic foods. These are just some of the iconic foods that Hippies introduced to America.

Contents: Introduction: Why the counterculture of the late 1960s embraced a completely new type of food and a new way of relating to that food. They wanted real food, pure and from the source. Many Hippies felt America had betrayed their trust. So they worked to build a new America in the shell of the old. Why did Hippie food spread so fast–as if by magic? Taking a journalist's approach, Kauffmann divides the story of Hippy Food into three eras: (1) The years before 1968 are prehistory. (2) 1968-1974 is the revolutionary era. (3) From 1975 on is the era of creating institutions and businesses, writing cookbooks to bring the revolution to a much broader audience.

1. Fruits, seeds, and (health) nuts in southern California: The Aware Inn, run by Jim and Elaine Baker on Sunset Strip; "it was one of the very first restaurants in the country to print *organic* on the menu." The Health Hut, owned by Gypsy Boots and his wife Lois, on Beverly Boulevard near La Cienaga. Only Los Angeles, which started as a destination for tuberculosis sufferers in the late 1800s seeking to regain their health, could have produced these two. Before them came raw fooders John and Vera Richter, Naturmenschen from Germany, Arnold Ehret, Paul Chappius Bragg, Gayelord Hauser, Healthy Hollywood, *California Health News*, Nature Boys, Jack LaLanne, Steve Allen, Rancho La Puerta, and more.

2. Brown rice and the macrobiotic pioneers: The caravan to Chico, California. Chico-San, George Ohsawa and his teachings, *Zen Macrobiotics*, miso, miso soup, seitan, adzuki beans and kudzu-root, tamari, George Ohsawa Macrobiotic Foundation, rice cakes, organic brown rice, Cambridge, Massachusetts, Evan Root, Beth Ann Simon's death, George Ohsawa's death on 24 April 1966 in Tokyo at age 72, Michio and Aveline Kushi, Erewhon, study houses, Paul Hawken, Sanae, macrobiotic restaurants nationwide, the primary practice of macrobiotics seemed to be eating, and selling macrobiotic food, Hawken and organically grown food, Frank Ford of Arrowhead Mills, Erewhon's quest for brown rice, Lundberg Family Farms starts growing brown rice for Chico-San, fire destroys Chico-San. Sidebar at end on carob.

3. Brown bread and the pursuit of wholesomeness: Haight-Ashbury and The Diggers, Sylvester Graham and the history of whole-grain bread in America, white flour and bread, discovery of vitamins, Adelle Davis, the poisons in our food (1950-1970s), Black Muslims and dark bread, Beatrice Trum Hunter, Clive McCay and Cornell bread, Ed

© Copyright Soyinfo Center 2021

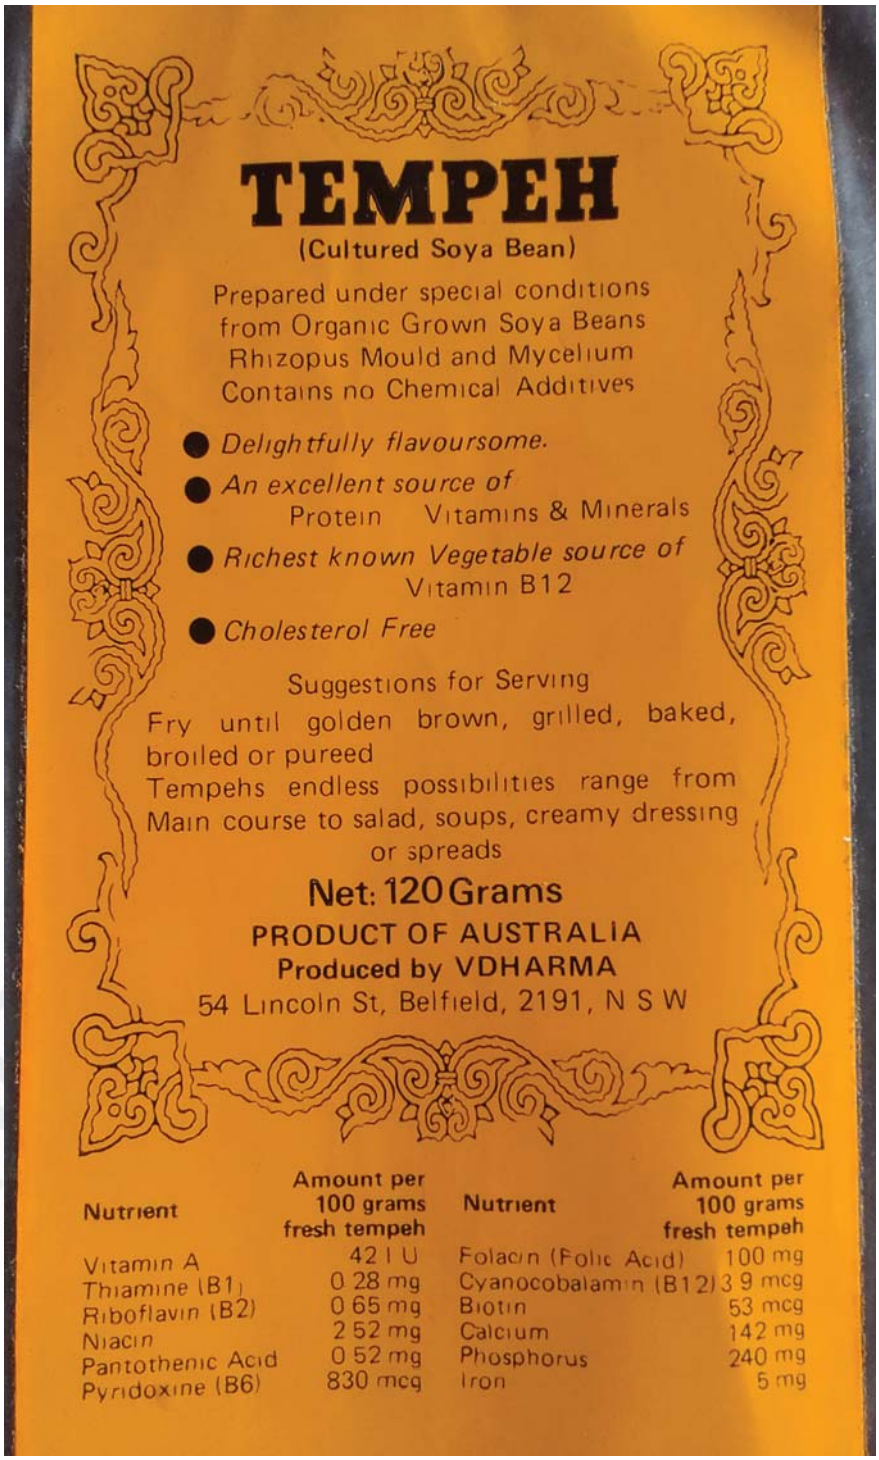
Brown and Tassajara, *The Tassajara Bread Book.*

4. Tofu, the political dish. Frances Moore Lappé, *Diet for a Small Planet,* eating becomes a political act. Shurtleff and Aoyagi in Japan, The Farm in Summertown, Tennessee, Laurie Sythe Praskin, Stephen Gaskin, The Farm Soy Dairy, soybean missionaries, *The Book of Tofu,* Soycrafters Association founded in Ann Arbor, Michigan, tempeh, Seth Tibbott, tempeh and Tofurky.

Note: This is the best (most accurate and most complete) account of how Shurtleff & Aoyagi, with *The Book of Tofu,* introduced tofu and soyfoods to America in the mid-1970s.

5. Back-to-the landers and organic farming: Samuel Kaymen, Natural Organic Farming Association established in Vermont (June 1971), Sir Albert Howard, J.I. Rodale, Rodale Press, *Organic Gardening and Farming,* Rudolf Steiner, Biodynamics, communes, the back to the land movement, NOFA.

6. Vegetarians on the curry trail: The Seventh-day Adventists, meat substitutes, The Hurds and *Ten Talents.* At the end is a sidebar on Granola and Granula.



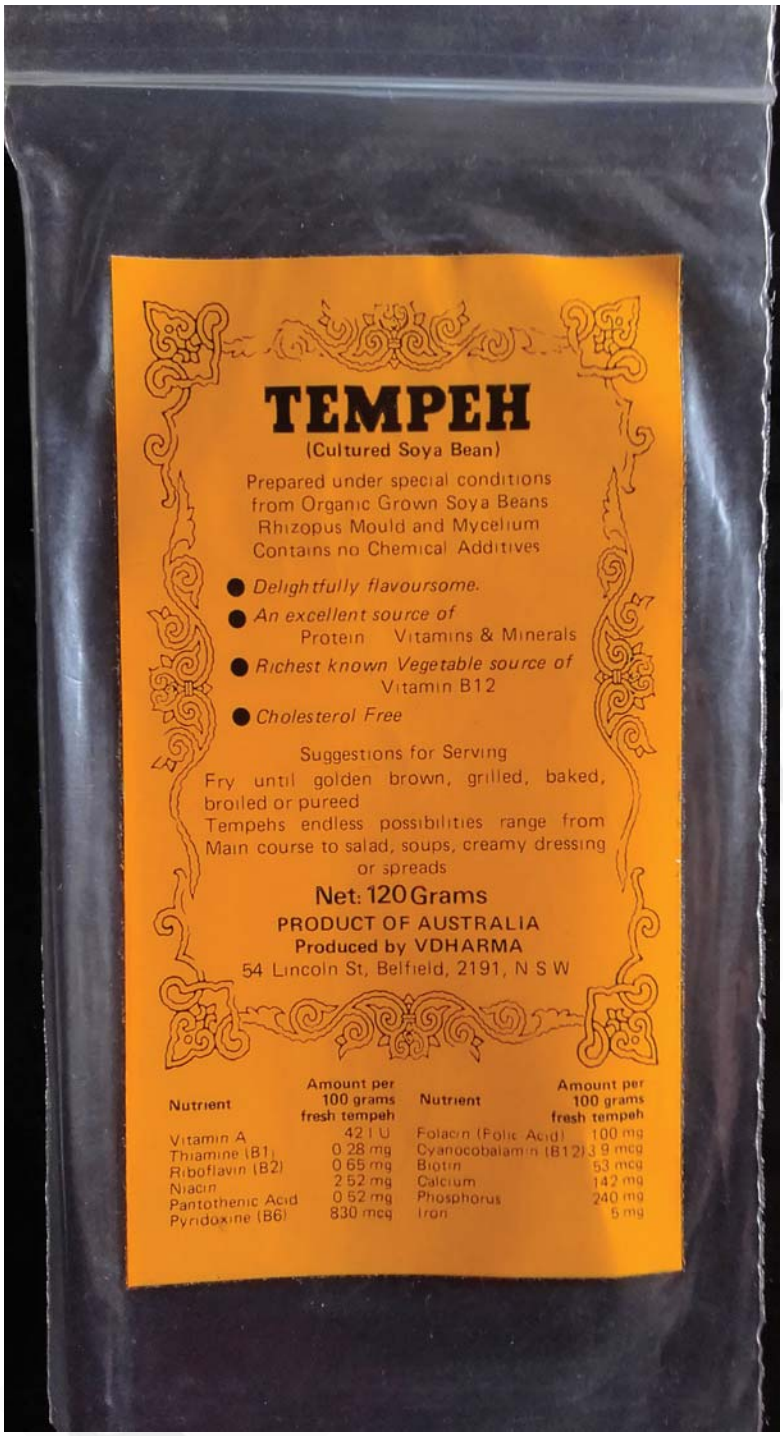
7. Food co-ops, social revolutionaries, and the birth of an industry: Whole Foods in Austin, Texas, and the Wheatsville Food Co-op in Austin.

Conclusion: The revolution failed, the revolution succeeded.

The Aware Inn, a restaurant in Los Angeles, is discussed on pages 19-21, 29, 37-39, 42-44, 55, 178, 218, 232.

Jim Baker, who with his wife founded the Aware Inn, is discussed on pages 19-20, 29-30, 33, 37-39, 42-48, 178, 218, 232.

The Source, a Los Angeles restaurant founded by Jim Baker and his wife, is discussed on pages 45, 47-48, 50-55, 232. The Brotherhood of the Source on pages 51-52, 55. The Source Family on ages 51-54, 275. Address: Reporter for the food section of *The San Francisco Chronicle.*



2683. Johnson, Denis Peter. 2018. Re: I was the first person to make tempeh in Australia, not Cyril & Elly Cain of Beancoast Soyfoods. Letter (e-mail) to William Shurtleff at Soyinfo Center, May 29. 2 p. [1 ref]

• ***Summary:*** "Regarding the first production of Temphe in Australia. In this [your book] you state that Michael Joyce letter to you in march 1983 & again in a letter 25 October 1984 where he says that Cyril & Elly Cain of Beancoast Soyfoods were the first commercial Temphe producers in Australia in July 1982.

"Well that is not correct, I was the first person to produce Tempeh in Australia on a commercial basis & possible the first person to produce Temphe in Australia at all

© Copyright Soyinfo Center 2021

& I did that in 1979 & until that time there was no Temphe for sale in Australia & there was no Rhizopus oligosporus mold spur available also in Australia at that time

"My name is Denis Peter Johnson of Sydney Australia, I had lived in Asia since December 1970 & spoke Indonesian & Malay & Thai & in 1979 I returned to Sydney Australia to live & started to make Temphe at that time there was no Temphe sold in Australia & there was no Mold Spur available.

"I contacted the Australian CSIRO (The Commonwealth Scientific and Industrial Research Organisation) in Sydney & spoke with a Dr John Pitt & asked if they had Rhizopus oligosporus mold spur they informed me that they had had it since about 1969 & I requested to obtain some from them to make Temphe.

"At first Dr Pitt was reluctant to give me any. But I persuaded him & he invited me to the Lab gave me some & showed me how he reproduced it.

"I then proceeded to make my own & started & Temphe production in Sydney.

"At first I was selling to Indonesian restaurants & to some Chinese shops China town there was no other Temphe been sold anywhere at all here in 1979.

"My Temphe brand name was VDHARMA. produced at 54 Lincoln St., Belfield 2191 Sydney NSW Australia

"I then also stated working making Tofu with Marcia Webber (who you reference in your book) a few days a week at her Tafu factory in Surry Hills Sydney & also with her Tafu distributor Earth Foods Bakery at Coogee Sydney NSW

"And at was at this time Earth Foods became my distributer for my Temphe selling it to Health Food store all over Sydney & suburbs. this was in 1979 & I continued & was still making Temphe in till about mid-1983.

"I then stoped [sic, stopped] production & making Temphe & I moved back to Indonesia

"Please note photo in the attached file of my Temphe label bags designed by me that my product was marketed in. I would also take the credit for been the first person to make Temphe in Australia in Zip Lock Plastic bags that I perforated for incubation. & then it was placed in another Zip Lock plastic bag with my label on it for distribution.

"So can you please edit your information regarding the first Temphe Production in Australia & give me the credit as I was the first to produce Temphe in Australia.

"Thanks. Denis Peter Johnson Aka Denis Pierre Johnson."

2684. Ruggles, Ron. 2018. Good Earth restaurant chain founder dies: William Galt, 89, pioneered health food in the 1970s. *Nation's Restaurant News.* Aug. 21.

• ***Summary:*** A color photo (by Marialice Galt) shows William A. Galt who in 1975 launched Good Earth as a 22-seat restaurant in Reno, Nevada. He eventually grew it to 53 restaurants.

© Copyright Soyinfo Center 2021

The restaurants served mostly vegetarian dishes "based on Galt's research into whole grains, hormone-free meats and natural sugars and spices without additives."

In 1980, General Mills acquired the brand, closing some and converting about 20 of the Good Earth Restaurants into Olive Garden or Red Lobster brand. General Mills owned these until 1995, when it sold them all to Darden Restaurants Inc.

"In 1986, Richard Martin, West Coast Editor of Nation's Restaurant News, told the *Los Angeles Times* [California] that 'Good Earth is probably the most prominent chain example of a health-food concept."

2685. Healthy recipe: mushroom tempeh tacos (Web article). 2021. https://www.phillyvoice.com/mushroom-tempeh-tacos-healthy-recipe-059991/ 1 p. Retrieved April 2.
• ***Summary:*** "Go meatless on your next taco night with this delicious Mushroom Tempeh Tacos–makes 6 servings. Ingredients:

"1 tablespoon of olive oil
"1 medium onion, diced
"4 cloves of garlic, minced
"16-ounce package of mushrooms, sliced
"8-ounce package of tempeh
"2 teaspoons each: chili powder and cumin
"2 tablespoons of lime juice
"One 15-ounce can of no-salt-added diced tomatoes
"Dash of low sodium soy sauce or Bragg's liquid aminos
"Whole grain tortillas or crackers
"Directions:

"1. Coat the bottom of a large frying pan with olive oil. Add onions and garlic and cook for about 3-5 minutes, or until softened.

"2. Add the mushrooms, tempeh, chili powder, and cumin. Cook for about 5-minutes, stirring occasionally.

"3. Add lime juice, tomatoes, and Bragg's or soy sauce. Cook for about 5 minutes.

"4. Serve in whole grain tortillas or on whole grain crackers."

2686. Dawson, Wayne. 2021. Re: Otto Carque had a sister named Anna Barbara Sophia Carque. Letter (e-mail) to William Shurtleff at Soyinfo Center, July 24. 1 p.
• ***Summary:*** "I have looked to see if I could find Otto's birth record using the parents' names. I could not–but I did find that he had a sister, Anna Barbara Sophia Carque, recorded born in Germany, Baden, Archdiocese of Freiburg im Breisgau, Catholic Church records, 1678-1930, born 7 March 1869. Neither Otto nor Louis show up being born to Louis and Anna. Even though the dates of the records this was taken from include the 1860's, there could easily be a gap in the church records. That's pretty frequent." Address: Genealogist, Tucson, Arizona.

2687. Dawson, Wayne. 2021. Re: Where in Germany was Otto Carque born? In Mannheim or Wiesloch? Letter (e-mail) to William Shurtleff at Soyinfo Center, July 25. 1 p.
• ***Summary:*** "I have looked at GoogleEarth and Mannheim and Wiesloch are about 18 miles apart. I don't know if they could be considered a single town as some of those in the area are. For now, I would use Mannheim because that's what he said in the Passenger List and Naturalization. I would advise Mannheim. I haven't proven that ANY of the Family Registers are 'our' Otto. I may never figure that out. I've compared notes and I am concerned that it boils down to translating the FULL documents in each case–which I can't do.

"So, at this point I would say:

"Otto Carque was born on 11 July 1866 at Wiesloch, Mannheim, Baden-Wuerttemberg.

"We should not say that he was born in Germany because Germany did not become a unified country until 1871.

According to Wikipedia, Baden-Wuerttemberg: "Recognised as a kingdom in 1806-1918 its territory now forms part of the modern German state of Baden-Württemberg." Address: Genealogist, Tucson, Arizona.

2688. Dawson, Wayne. 2021. Re: The family in which Otto Carque was a child. Letter (e-mail) to William Shurtleff at Soyinfo Center, July 26. 1 p.
• ***Summary:*** "It is helpful to understand what the Mannheim, Germany Family Registers are, since they form the basis for the conclusions on the family of Otto Heinrich Carque. These registers are supposed to contain all the inhabitants of a household from the time they move in until they move out.

"From Wikipedia: Baden, Germany, Church Record Family Register 1500-1874 Guide

"Beginning in the 1500s, churches began keeping family registers. The records may include birth, marriage, and death dates. Information found in a family register depends on how detailed the minister made his record.

"Family registers may go back to the 1500s, when they began during the time of the Reformation. Because of wars, natural disasters, and accidents, many churches were destroyed, along with all or part of their records. Very few church records go back before 1650 because of the Thirty Years' War (1618-1648). Family registers were copied from the parish register and should be used as a guide to search the actual church records for the ancestors' christening, marriage, and burial information.

"In the case of Otto Carque, many records are available on Ancestry.com and Familysearch.org.

"In October 1873, the Mannheim Family Registers [1] were updated. In that document, the family of Ludwig Carque was recorded as follows:

"Ludwig Carque, born 6 July 1836
"Elise Carque

© Copyright Soyinfo Center 2021

"Otto Heinrich Carque, born 1866
"Anna Carque
"Elise Carque
"Hermine Louise Carque [born 26 Dec. 1874]
"Ludwig Eduard Carque [born 20 April 1877]

"Documents connected with the above Family Register show that Otto Heinrich Carque was born in Wiesloch (mistranscribed in the notes as Wiesbach) in 1866.

"In April 1892, the Mannheim Register [2] was updated. The update included the family of Otto Ludwig Carque, born 11 July 1866. No other family members were included in this Register.

"A third register recorded that Otto was born on 11 July 1866 in Wiesloch.

"It can be concluded from the available evidence that Otto Heinrich Ludwig Carque, born 11 July 1866 in Wiesloch is the same Otto Carque who immigrated to the United States and became a famous scientist. It is known that the United States scientist was born 11 July 1866 as were the Otto shown in the 3 Family Registers. Otto, although born in Wiesloch, lived most of his life in Germany in Mannheim, only about 18 miles from Wiesloch. That could explain why Otto in the United States listed Mannheim as his birth place when he successfully petitioned for United States citizenship.

"There is one other Carque son born in 1866 in Mannheim whose name was Heinrich Carque. He was born on 6 January according to the Family Register; this date eliminates him from the Carque man who immigrated to the United States and became a famous food scientist.

"Sources:

"[1] Mannheim, Germany, Family Registers, 1760-1900. The family of Ludwig Carque, recorded in Mannheim, Baden-Wuerttemberg on 31 October 1873 on Ancestry.com.

"[2] Mannheim, Germany, Family Registers, 1760-1900. The family of Ludwig Carque, recorded in Mannheim, Baden-Wuerttemberg on April, 1892 on Ancestry.com.

Note 1. On his marriage certificate, Otto's father's name is given as Louis Carque. As a given name in German, Louis is the English version of Ludwig. Source: Wikipedia: Ludwig (given name). Louis and Ludwig are names used by Otto's father. In a document, which appears to be the record of his marriage to Elise Bopp, filed in 1873, the name in the space at the top which asked for the father's name, was Louis Carque. Only 3 of his children were listed: Otto, Anna and Elise. In 1873 Otto would have been about age 7. The absence of a 4th child, Otto's younger brother Louis, is perplexing.

Note 2. On his marriage certificate, Otto's mother's name is given as Anna Zentner. The Elise above is not Otto's mother. She is Ludwig's second wife; they were married in 1873. Otto's mother, Anna, died on 11 June 1870 in Wiesloch, Baden.

Note 3. John, who appeared to be Otto's younger brother (2 years younger) on the passenger list aboard the Belgenland in 1892. Born in 1868, he appears to have been born the same year as Anna. And he is missing from the family. Where is John? Did he stay in the USA? Are John and Anna twins?

Note 4. Otto had a younger sister named Anna Barbara Sophia Carque, born 7 March 1869–according to the Germany, Baden, Archdiocese of Freiburg im Breisgau, Catholic Church records. In the family tree above, Anna was born in 1868. What was her actual date of birth?

Deepest thanks to Wayne Dawson, genealogist, Tucson, Arizona, for finding this information on Ancestry.com, carefully compiling it, and sending it to Soyinfo Center. Address: Genealogist, Tucson, Arizona.

2690. *SoyaScan Notes.* 2021. Chronology of soymilk worldwide–1950 to present. Part II. Compiled by William Shurtleff of Soyinfo Center.
• ***Summary:*** 1950's–Soymilk enters the modern era as it begins to be marketed in bottles like soft drinks, largely due to work by K.S. Lo of Vitasoy in Hong Kong and Yeo Hiap Seng in Singapore.

1957–Japan's first commercial soymilk, sold in bottles, named *Tônyû*, is introduced by the Ueda Tofu Shop in Hachioji, Tokyo. Dr. Harry Miller was the inspiration for and helped to establish the shop.

1960s–In Japan, soymilk slowly increases in popularity. New manufacturers are: Nihon Tanpaku Kogyo (1962). College Health Foods (later renamed San-iku Foods) in Chiba prefecture with its Soyalac (1969, also inspired and aided by Dr. Harry Miller). Luppy Tanpaku (House Shokuhin) in Saitama prefecture with its Luppy soymilk (1969).

1965–ProSobee, the world's earliest known non-dairy infant formula based on soy protein isolates, is launched by Mead Johnson & Co. of Evansville, Indiana.

1966–The enzyme lipoxygenase is discovered by scientists at Cornell University [Ithaca, New York] to be responsible for the "beany" flavor in soymilk. A process is developed which could be used to help eliminate this flavor.

1967–Soymilk begins to be packaged aseptically in Tetra Pak cartons. This allows it to be sold without refrigeration for six months or more. The first such product was Beanvit, made by Yeo Hiap Seng Ltd. in Singapore and packaged in a disposable tetrahedron-shaped container.

1970's and 1980's–Soymilk becomes a popular beverage throughout Asia, spreading to Europe, Australia and the United States.

1979–Hong Kong Soya Bean Products Co. Ltd. starts to export Vitasoy, packed in Tetra Brik cartons, to selected countries throughout the world. By the early 1980s exports

© Copyright Soyinfo Center 2021

were going to over 20 countries, both developed and developing. Exports to the USA began in 1980. 1980 Jan.–DE-VAU-GE Gesundkostwerk, a Seventh-day Adventist food company near Hamburg, Germany, launches GranoVita Soja Drink in 500 ml Tetra Brik cartons; this soymilk product is made by N.V. Vandemoortele (one of Europe's largest oilseed crushers, founded in 1934) in Izegem, Belgium.

1980 June–N.V. Alpro is founded by Vandemoortele to take over production of this soymilk. Inspired and headed by Philippe Vandemoortele, Alpro purchased the land on which it was located from Vandemoortele, and became an independent manufacturer. Alpro quickly became Europe's leading producer of soymilk, making private-label brands for scores of companies.

1983 July–Edensoy brand soymilk is launched by Eden Foods of Clinton, Michigan. Imported from Japan (where it is made by Marusan-Ai Co.), it is sold in plain and carob flavors in stand-up foil retort pouches.

1984 Feb.–The first comprehensive study of the soymilk market in the U.S. is published by Soyfoods Center of Lafayette, California. It estimates that total soymilk consumption in the U.S. in 1983 (not including soy-based infant formulas) was 2.68 million gallons (26% of this was imported), and total production of soy-based infant formulas was 32 million gallons.

1984 Aug.–Westsoy Natural brand soymilk is launched by Westbrae Natural Foods of Emeryville, California. Imported from Japan (where it is made by San-Iku Foods), it is sold in one flavor in standup foil retort pouches.

1984 Oct.–Westbrae Natural Malted's, a thick soymilk resembling a milk shake, are launched in many flavors by Westbrae Natural Foods, imported from Japan.

1986 Nov.–Edensoy starts to be made in America by American Soy Products (ASP) at a large, modern plant in Saline, Michigan, and sold in Tetra Brik aseptic cartons. ASP is a joint venture of 4 Japanese companies and Eden Foods.

1988 Nov.–Pacific Foods of Oregon, launches its first soymilk product, Naturally Northwest Soy Beverage [Plain], in a 1-quart Tetra Brik Aseptic carton. The company's new factory is in Tualatin, Oregon.

1990 April–WestSoy Lite, America's first "lite" soymilk, with a low fat content, is introduced in plain, vanilla, and cocoa flavors by Westbrae Natural Foods. Made by adding water to regular soymilk, the product is less expensive to make, but also contains less nutrients.

1990 June–Alpro opens a new soymilk plant at Wevelgem, Belgium. Costing about US$15 million and having a capacity of 45 million liters a year, it is reputed to be the largest in the world. Alpro now makes about 70% of the soymilk in Europe.

1990 Sept. 24–The company name is changed to Vitasoy International Holdings Ltd. from Hong Kong Soya Bean Products Co. Ltd.

1991–There are at least 35 processors or marketers of soymilk in the U.S., increasing production to approximately 9.8 million gallons. Consumption is estimated to be growing at between 15 and 20% per year since 1984.

1993–More than 200 scientific journal articles about soymilk have been published in English, and at least 80 English-language patents on soymilk have been issued between 1912 and 1993.

1994 Jan.–Soy-Um, a low-priced and attractively packaged soymilk, is launched by J&G Inc., a product developer and distributor in Chicago, Illinois. The product is made in Oregon by Pacific Foods.

1995–A market study is published, estimating that $108 million of soymilk was sold in the U.S. in 1994. This equates to approximately 13.5 gallons of soymilk. By 1995 sales are projected to have risen to over $130 million, or approximately 16.3 million gallons.

2691. *SoyaScan Questions*. 2021. Questions about the life and work of William C. ("Bill") Baker. Compiled by William Shurtleff of Soyinfo Center.

• ***Summary:*** Learn more about the parents, ancestors, and early life of Bill Baker in Germany. Learn more about his early life in the United States: On which ship did he arrive? Did he immigrate alone or with his two brothers (Otto and Christian) and sister (Marie)?

If he came alone, when did each of his three siblings arrive? With whom and where did he first live? Why did he live there? Where, how, and from whom did he learn to bake? When, where, and to whom (Helen's maiden name) was he married? Try to get a marriage certificate.

What did his middle initial "C" stand for?

Try to get the documents showing when and where he changed his surname from Koch to Baker.

Did he ever become an American citizen? If so, when and where? Try to get his naturalization papers.

From when to when was he employed (and at what position) at the following fashionable hotels: the Bellevue-Stratford in Philadelphia, Pennsylvania, the Waldorf-Astoria in New York City, the Arlington in Washington, DC, the St. Charles in New Orleans, Louisiana, and the Hotel Huntington in Pasadena. Try to get documents to prove this.

Try to get documents showing that he won a government prize during World War I for a wheatless bread. When was it awarded?

When did he send his first Christmas cake to a president of the United States? To which president? Coolidge or Harding?

Three documents from unknown, undated sources show that Bill Baker sponsored "The Family Doctor," a radio program heard on KECA (Los Angeles) each Tuesday and Thursday at 11:30 a.m. One December, before Christmas, he gave the staff a 65-pound fruitcake. From when to when did he sponsor this program?

2692. *SoyaScan Questions.* 2021. Questions about the life and work of Mildred Lager. Compiled by William Shurtleff of Soyinfo Center.
• ***Summary:*** We need a better relative chronology and absolute chronology of Mildred's life, both before and after she arrived in California; after she started the House of Better Living in Oct. 1933, our knowledge of her life and work is quite good.

Was her middle name Mathilda?

When did Mildred enter college and when did she graduate? From when to when, and at what schools did she teach in Wisconsin and Michigan? Why did she change schools?

When did she start work at The Family Shoe Store in Superior? Why? When did she become a co-owner of the store?

When did Mildred arrive in California? Why did she come to California? Was she influenced primarily by her doctor or by Frank McCoy? If by McCoy, how? By reading his column in her local newspaper or otherwise? Did she first meet McCoy in Michigan or in California.

Where did Mildred first live in California and what did she do to earn a living?

How and when did she meet Frank McCoy? What was the name of his institute? When did Mildred enter that institute, what did she learn, and how long did she stay? How and when did McCoy get his column in the Superior newspaper? When did Mildred start to travel around the United States teaching about and demonstrating foods? How often and for how long did she so this?

When and how did Mildred first meet Gilbert Thayer? Was he in Indiana or southern California at the time? What did he do to help her and her work?

Add to history chapter the 3 key dates related to her two radio programs.

Try to get a marriage certificate for her marriage to Ed Jones. Exactly when in 1946 were they married? Who was present?

The California Marriage Index states that Martha D. Van Gundy married Edwin S. Jones on 7 Aug. 1960 in Riverside, California. He was age 69 (born about 1891) and she was age 57 (born about 1903); Dorothea's formal first name was Martha.

Try to get a death certificate for Mildred Lager.

2693. *SoyaScan Questions.* 2021. Questions about Otto Carque. Compiled by William Shurtleff of Soyinfo Center.
• ***Summary:*** Where is he buried? Where in France were his parents born? When and why did they move to Germany? Why did Otto decide to emigrate to the United States?

An asterisk (*) at the end of the record means that SOYINFO CENTER does not own that document. A plus after eng (eng+) means that SOYINFO CENTER has done a partial or complete translation into English of that document. An asterisk in a listing of number of references [23* ref] means that most of these references are not about soybeans or soyfoods.
